Even After Conference with President Wilson, Terms Unaltered.

By Special Wire to the Courier.  
Washington, Aug. 25.—President Wilson summoned representatives of the employees and employees involved in the threatened railroad strike to the White House to-day for conferences to discuss proposals which have developed out of his original plan of settlements. Arrangements were made for the representatives of employees to see the President at 12 o'clock and for the representatives of the employers later. The four brotherhoods said on entering the White House they did not know why they had been called by the President. It is understood President Wilson wanted to get their views on legislation under consideration to prevent such a controversy in the future. The four Brotherhood heads remained with the President an hour and a half. "The situation, insofar as we are concerned," A. B. Garrison, spokesman for the employees, later said, "is absolutely unchanged. No complete concrete proposition to which the railroads will agree has been tendered us. Our position is exactly the same as it was when we accepted the President's plan. We have deviated from it in no way whatsoever."

To The Editor

**SOMETHING FOR THE SOLDIERS.** League of the Empire.  
Dear Sir,—Will you allow me the privilege of a little space in your columns to ask that your readers will continue to read "News from Home" and newspapers to our brave Canadian soldiers at the front and in the hospitals. Thousands of our wounded within the last six weeks have been brought back to British hospitals and wherever British men are visited they make the same request, "A Canadian paper, please."

There is a special department dealing with the distribution of papers at the Canadian Red Cross, 14 Cockspur St., London. All budgets of "News from Home" and newspapers sent there are at once sent on to hospitals and it is a great help if the name of the paper and budget is written on the wrapper. Letters of appreciation of the "News from Home" budgets are received from the trenches almost everywhere, as one writes, "they are read and passed from hand to hand by hundreds of men till they literally fall to pieces." What the men at the front and in hospitals crave is the news of home news, not war news or politics, but Canadian sports, Canadian news and local happenings. The demand for such news is practically insatiable, and who ever helps to satisfy it may be quite sure that a very real pleasure and real strength has been given by this means to some of the men who, at this time, are giving so much for us.

Newspapers and budgets for the front should be sent care Canadian War Contingent Association, Westminster Palace Hotel, London, England.

Thanking you for the space in your paper, believe me,  
Sincerely yours,  
E. K. STRATHY,  
Hon. Secretary, League of the Empire.

ENGLISH AS "SHE" IS SPOKEN

Phraseology of Jonas Baptist in Police Court Was Very Ambiguous.

Indian cases were once more the order of the day in the police court this morning. Percy Martin appeared upon the charge of manslaughter, but waived examination, and will be sent up for trial at the fall assizes, being released upon \$1,000 bail in the meantime. Gus, George and John Hill were also sent up for trial upon a charge of committing assault, causing bodily injury, and also released on bail. A charge preferred against Lincoln Powless of having liquor in his possession was dropped. Mrs. Elizabeth Atkins charged Elsie Flynn and Jonas Baptist with assault and using insulting language, the first defendant being fined \$1 and \$3.50 costs for insulting language, and the second \$1 and \$7.50 costs for assault. The evidence of Baptist in this case ran thus: "She saw her coming along the road, and she began to call her names. Then she started to get out of the buggy, and when she saw her doing that she ran, and she chased her, but she got away."

Clarence Wheeler, billed and under the influence, contributed \$10 and \$3.50 costs. A drunk was assessed the usual.

QUIET RETURN OF PTE McDONALD

Veteran of 19th Battalion Arrived in City Yesterday Invalided Home.

Quiet and uneventful was the homecoming of Pte. John McDonald of the 19th battalion, who yesterday afternoon returned to the city after an absence of 21 months, a great portion of which time was spent at the front in the trenches. Word was received yesterday afternoon by the wife of Pte. McDonald that her husband would arrive in the city in the afternoon, but a later telegram informed Ald. J. S. Dopple, chairman of the Soldiers' Aid Commission, that he would not leave Toronto until 6, arriving here at the usual hour of 7.32 p.m. As some doubt appeared to exist upon the subject, Ald. Welsh, a neighbor of Pte. McDonald's, undertook to meet the 3.57 train at the station, taking with him the wife and family of the returning man, who arrived by that train. Other members of the Soldiers' Aid Commission were then summoned, and a welcome back to Brantford was extended to Pte. McDonald, who was assured of the hearty assistance of the commission in whatever way possible. Pte. McDonald is a married man, residing on Catharine street, in West Brantford. At the time of his enlistment, in November of 1914, he was 31 years of age, and had nine years service to his credit, seven in the Imperial Yeomanry and two in the South African campaign. Though holding the rank of sergeant, he became a private, and left the city with a quota from the 25th Brant Dragoons on November 31, of 1914, becoming attached to the 19th battalion.

#### Letter of a German Officer Opposing the British Advance Tells of the Awful Ordeal Hun Troops are Going Through in Measuring Themselves Against the Attackers

(By Philip Gibbs)  
 With the British Armies in the field, Aug. 25.—We are getting a stronger grip upon the ridge from Pozieres to High Wood. Last night the Australians gained a little more ground, so that they pushed out a line to the northeast of Montauban. The British troops to their right gained another hundred yards of that famous switchline into which I took a walk the day before yesterday to see how we held the enemy's last line of defence on the way to Martinpunch. The switchline exists only as a name, and is in reality nothing but a series of shell craters in which our men have to get what cover they can after charging out the Germans before digging and strengthening an effective trench; but it is the position that counts, and if we can hold it, as I am now certain we shall, it puts the enemy at a great disadvantage, while our guns are already making full and terrible use.

The enemy's endeavors to counter-attack—he made two last night—have broken down under our fire with great bloodshed, and now it is not in the least likely that he will succeed in wresting back from us any of the high ground.  
 Positions Very Important  
 The importance of the position, of course, is entirely one of observation, apart from the tactical importance of having driven the enemy onto ground beyond his first and second systems of trenches and dug-outs, so that he has retired to a considerable distance. It gives us vantage points from which we can observe his movements down the slope and rake him with rifle and machine gun fire if he sends out working parties, and turn guns on him with direct observation of the results.

One of the immediate effects of being on the Pozieres ridge was seen yesterday when our artillery registered something like twenty-five direct hits upon some of the enemy's batteries. We had a great concentration of guns, from which undoubtedly he will have to withdraw before long.

Germans Torn by Artillery.  
 A very realistic and tragic picture of what is happening down there beyond the high ridge is given in a letter written on August 10 by a German officer of the 133rd Infantry.

### Onondaga Council Gives Aid to 215th

Grant of \$25 Voted to Help in Purchasing a Motor Ambulance.

Onondaga, Aug. 21.—The members of the council met in the town hall at 8 p.m., the main business being for opening the tenders in regard to the three concrete bridges, one at Patterson's, also the north and middle bridges on Mulligan's side road. The plans and specifications were drawn up by Jackson and Lee, architects, Brantford. Tenders were received from A. J. Crompton and James Thompson. The tender of J. Thompson was accepted. The contractor furnishes all material and labor, and must have the work finished to the satisfaction of the council by Oct. 15th, 1916.

The by-law and agreement in regard to the care of the road on the Ancaster town line was passed. An- other agreement in regard to the care of the east half and Onondaga township the west half of the road. The cost of maintaining and resurfacing water- ways is to be paid jointly.

Mrs. M. N. Simpson and Mrs. A. W. VanSickle, delegates from the Onondaga Women's Institute, waited on the council, soliciting aid in purchasing a motor ambulance for the 215th Battalion. They stated that the Onondaga Institute had raised con- siderably over \$100 to purchase a field kitchen for the 215th, but owing to circumstances it was not neces- sary to purchase one. The council has decided to use the funds for pur- chasing a motor ambulance for the 215th, and an ambulance cost over \$700 more than field kitchens, they would appreciate a donation from the council. In response the council granted \$25, \$10 to be paid to the presidents of the Onondaga and Mid- dleport societies, and \$5 to the presi- dent of the Canisville Union Insti- tute.

The account of R. Dougherty of \$49.50 for material and work in re- pairing bridge at mouth of Fair- child Creek, also paid.

The council adjourned to meet at call of Revee.

### SCHOOLS RE-OPEN SEPTEMBER 5TH

Pupils Requested to be on Hand, So as Not to Delay Work.

#### A LIST OF NEW TEACHERS

#### Collegiate Re-opens Same Date; Four New Teachers There.

The Collegiate Institute will re- open for the fall term on Monday, September 5th. The school was much overcrowded last fall, and its work since winter was somewhat disorgani- zed by the enlistment of a number of the pupils, and still more so by the unusual demand for workers in all branches of industry. Notwith- standing these drawbacks, the re- sults of the work of the last school year have proved highly satisfactory, excepting in the Lower School, where Brantford has had to share in the failure that was general throughout the Province.

It has been the aim of the Board of Education to improve the teach- ing staff, and it is their intention to bring about a further re-organization of the work that the school may be second to none in the province. To acquire this high standing and secure the very best talent, it has been nec- essary to increase the maximum salar- ies of the staff, so that those teach- ers with the greatest ability may be secured and retained. With the pro- posed re-organization, and the en- gaging of several new teachers, the members of the management com- mittee are confident that the stu- dents should give a good account of themselves at the next examinations.

New Teachers.  
 There will be four new teachers, viz: Mr. John A. Gos, who has had three years successful work in the technical department of the Hamil- ton Collegiate Institute, who takes Capt. Muttet's position; Mr. Green, who has very high recom- mendations from Williamston, to take the place of Mr. Martin; Mr. Eadie, a man of much the same ex- perience as Mr. Mitchell, when he will depend more after the war. On the wreckage of our em- pire, England hopes to unfurl the banner of Anglo-Saxon world domi- nion.

The document asserts that Russian territory from the Baltic to Volynia must in the future be included in the German sphere to serve as a bulwark against the Russian tendency to an- nihilate Germany. France's revenge ideas must constantly be kept in mind, so that in the west also changes must be made. Belgium in the future, adds the pro- clamations, either will be a Ger- man or an English bulwark, so "real guarantees" here also are necessary. The document then cites the ex- pression of Dr. Peter Sphan, leader of the Catholic centre party in the Reichstag, that "Belgium must lie in German hands militarily, eco- nomic and politically."

The proclamation concludes with the assertion:  
 England's plan threatens us with political and economic helth. It aims at our life as a people, and as a state. It aims at our culture and institutions. Energy must be applied regardless of consequences to force peace upon this enemy. Let it not come true that, as England says, we will win all the battles but England will win the war. With Von Hinden- burg, let us say it is not only a question of sticking out, but of win- ning.

### ZEPPELIN RAID ONCE AGAIN

(Continued from Page 1)  
 tion at certain points, both on land and from ships at sea. Some of our air craft went up in pursuit. One aeroplane succeeded in bringing on a large number of bombs in the west. Shortly afterwards a series of violent explosions, followed by can- nonading, shook buildings and lighted up the sky.  
 The people thronged the streets, calmly watching these operations, which lasted for half an hour.

Three Killed Here  
 Three persons were killed and several injured by a Zeppelin, which dropped a large number of bombs in the neighborhood of a town on the southeast coast of England to-day, says a despatch to The Exchange Telegraph Company. Several houses were damaged. At another place on the southeast coast, many bombs were dropped. One fell into a railway station yard and demolished some railings, while another bomb com- pletely wrecked a dairy nearby.  
 Population Was Calm  
 Central News despatch says there was great excitement in a town on the Thames estuary at 1 o'clock this morning, when the news was received of the approach of a Zeppelin. Mist obscured the raider, but it could be heard rapidly approaching from the coast. After hovering over the town for some time, it passed toward the west. Shortly afterwards a series of violent explosions, followed by can- nonading, shook buildings and lighted up the sky.

### ENGLAND THE ENEMY, SAYS HUN PEACE LEAGUE

Still Persuading People in Germany That the Teu- tonic Will Win.  
 TERRITORIES TO BE ANNEXED.  
 A Considerable Portion of Europe Coolly Added to Germany.

By Special Wire to the Courier.  
 Berlin, Aug. 24.—via London, Aug. 25.—A proclamation contain- ing views on the peace conditions which might be imposed by Germany is published to-day by The Independ- ent Committee for a German peace, an organization formed some time ago by those considered to be the ex- tremest war advocates in Germany.

The proclamation asserts, that, despite the fact that the Germans and their allies are holding three kingdoms in their hands, the entente still talks of the destruction of the German empire.  
 "Our enemies will not succeed," continues the proclamation. "One thing they have accomplished is to force upon the realization that England is our special and most dan- gerous enemy. England causes our enemies to stick together. England leads them. Upon England they de- pend and will depend more after the war. On the wreckage of our em- pire, England hopes to unfurl the banner of Anglo-Saxon world domi- nion."

Belgium in the future, adds the pro- clamations, either will be a Ger- man or an English bulwark, so "real guarantees" here also are necessary. The document then cites the ex- pression of Dr. Peter Sphan, leader of the Catholic centre party in the Reichstag, that "Belgium must lie in German hands militarily, eco- nomic and politically."

Heavy fog held up the steamer during the night, but the weather clearing at daybreak, the Willehad proceeded here and came directly up the harbor to the new state pier, on which are new storage sheds of the Eastern Forwarding Company, the American agency for the German line of submersible mer- chantman. ### DIARY TAKEN FROM PRISONER TELLS OWN STORY

Somme Drive Quite Upraised Plans of Huns for Drive of Their Own.

#### ARTILLERY FIRE OF BRITISH

Knocked Into Ruins Hamlet Behind First Line for Distance of Ten Miles.

Lieut.-Col. Bedall, commanding the Sixteenth Bavarian Infantry, 100 Bavarian division, was taken prisoner by the British on July 13. On his person was found a diary, which gives the writer's impressions of the first twelve days of the Franco-British offensive. A revelation quite amazing is that the Germans had made an enormous concentration of a narrow front at Roye, south of the zone of the offensive, of twenty-two to twenty-five divisions for an assault on the French lines. Their purpose was anticipated and foiled by the drive on the Somme front, which was weakly held by only five German divisions, with two or three in reserve. The rest of the story is one long account in detail of the dreadful slaughter wrought by the "overwhelming superiority."  
 Diary Vouched For  
 The authenticity of the diary is vouched for by the Reuters Agency. On June 30 Colonel Bedall notes that "the British began to bombard Ba- paume with guns of very heavy calibre," and he assembled the battalion commanders and explained to them the situation as follows:  
 "After a very intense bombard- ment of the entire second army from front and under cover of the bombardment the long-expected English offensive has set in. With an overwhelming superiority in artillery, the English have maintained for eight days, an infernally violent bombardment, and this, in part, with guns of the heavy calibre (28 centimetre) and with naval guns.  
 Hamlets in Ruins  
 "This was directed on our trenches, our second and third lines, our billets and on the villages. It has set fire to and blasted into ruins almost all the hamlets behind our first line as far back as fifteen to twenty kilo- metres (nine and a half to twelve and a half miles).  
 "This has enabled them, at the outset to obtain partial success."

Diary Vouched For The authenticity of the diary is vouched for by the British Agency. On June 30 Colonel Bedall notes that "the British began to bombard Baupume with guns of very heavy calibre."

Hamlets in Ruins "This was directed on our trenches, our second and third lines, our billets and on the villages. It has set fire to and blasted into ruins almost all the hamlets behind our first line as far back as fifteen to twenty kilometres (nine and a half to twelve and a half miles)."

Wholesale Losses "3,500 men, only 500 survivors remained, and these are for the most part men who had not taken part in the battle, plus two regimental officers and a few stragglers who turned up on the following day."

Unprecedented Artillery Violence "July 7.—The English at once again let off gas. Bazentin-le-Grand and the positions of the Sixteenth Regiment were subjected to a lively bombardment on the evening of the 13th inst., which has completely wrecked them."

Staff Had Hot Time "A heavy battle raged all day; villages, roads, trenches, and troops came under an intense artillery fire. Only with difficulty could even the regimental staff reach its new battle headquarters after it had left Longueval, for that, too, was now exposed to heavy shelling."

Toward evening a furious struggle began in Mametz Wood. This lasted the entire night until two o'clock.

Offensive Started in the Balkans Map shows the Struma River district of Saloniki, between Butkova and Tabinos lakes. The territory is in Greece, just south of the Bulgarian border.

morning. The Third Battalion of the Sixteenth Regiment and the Second Battalion of the Lehr Regiment were heavily engaged. "To-day a draft of 300 men arrived from the recruit battalion. Each battalion received 100 men to make up for losses."

Sector Suffers Terribly. "During the day very intense and methodical shelling of the regimental sector from 9 a.m. till late evening by guns of very heavy calibre, including 28cm. Bazentin-le-Grand suffered terribly, but the sector held by the Third Battalion of the Lehr Regiment suffered no loss (on our side) and was only slightly damaged."

After a thorough canvass of various points throughout Western Canada, Dr. McGill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the Dominion would have a billion dollar grain crop and that the grain crop of the three Prairie provinces would be little, if any, behind that of last year.

Also Chimney Sweeps Subject to Cancer, Is Conclusion of Doctors.

SAWING WOOD NOT HEALTHY.

Many Discoveries of Medical Science Pleasing to a Lover of Leisure.

At the meeting of the American Chemical Society in New York on September 25th to 30th, there will be conducted a symposium on Occupational Diseases, presided over by Professor Charles Baskerville, head of the department of chemistry of the College of the City of New York. The subject is interesting and important as well as full of surprises.

The medical authorities aboard declare that soot is a serious irritant and that chimney-sweeps are especially subject to cancer, because of it. Saving certain kinds of wood has been found to produce irritation of the mucous membranes of the nose, throat and eyes.

The current is turned on using Mr. Patient as a conductor, and it carries the lead that it finds on the way, out of him, through the salt solution and deposits it upon one of the electrodes. It has proved successful.

Fatigue is another subject that has been studied and reported on. Strain is declared to be more exhausting than work, and motions of employment aggravates exhaustion. Fatigue seems to be a condition of the body in which the waste products of work are not carried off fast enough.

In rubber factories and elsewhere when bi-sulphide of carbon is used, great care must be taken to avoid contamination of the air by its offensive fumes. Otherwise nervous troubles are likely to follow.

There is bakers'-itch, grocers'-itch and sugar-refiners'-itch, all manifestations of eczema, according to the materials handled.

The question is likely to be asked why boards of health do not use chlorinated water for flushing the streets, especially in hot, dry weather. This was first proposed by Dr. Baskerville six or seven years ago, and there is no question but that its effect upon disease germs in the street dust would be beneficial to the public health.

The symposium will consider the chemical trades, pharyngitis in chemical industry, diseases incidental to work in aniline and other coal tar products, cedar lumber, mines, explosives, and a general discussion by the leading authorities of the country. These will include Dr. W. Gilman Thompson, F. L. Hofman, J. Schereschewsky, G. P. Adamson, H. K. Benson, W. A. Lyott, Alice Hamilton and Mr. J. B. Andrews.

PURPOSE RATHER THAN SADNESS

London To-day Is Vastly Changed from London of Pre-War Times.

SOLDIERS ARE EVERYWHERE.

Women, Too, Ply Multifarious Trades Hitherto Carried on by Men.

Very slowly, but steadily, a change has come over that vast conglomerate, that incalculable, apparently indifferent mass which is called London.

At the beginning of the war a few signs of the times were obvious. The streets were dark at night, or so we thought; they are much darker now, though Cambridge or Birmingham would call them light.

In these days we were mightily interested in the recruiting posters on the fronts of the taxicabs; since they have spread in a prolonged and violent scurvy attack all over the epidemic surface of London, have been drastically removed by a simple and inevitable remedy, and replaced by economy posters, which are more imposing in size if less exciting in variety.

Of traffic in Piccadilly; but not much of it was composed of private motor cars. Whereas of late years here and there a "butterfly" hansom used to flutter out in May and June to enjoy a brief noon between two long nights petrol and patriotism between them had brought out not only antique hansoms with no "butterfly" to them at all, but even four-wheelers, whose rubbers and hays in victoria or landau recalled the early Edwardian era.

The CONSERVATION of the FOREST

The Temiskaming and Northern Ontario Railway has been adding steadily to its equipment for fighting forest fires. It now possesses four of the most modern type of tank cars for use in this work and is equipping two more for service.

of traffic in Piccadilly; but not much of it was composed of private motor cars. lane, Hyde Park. It is true, had not been (as many in August, 1914, desired) ploughed up for corn and potatoes; but the balconies, and in the squares that used to be go forlorn and dingy, the place of the pinks and whites and greens or of the sad evergreen was taken by a very popular arrangement in blue and red—the wounded soldiers. Most noticeable difference of all is the activity of women. Women drive the tradesmen's carts, mechanical or horse-drawn, big or small. Women deliver the letters. Women with quiet voices and firm demeanor, take the fares on the omnibuses; women serve in shops where men alone were seen before.

lift-girl; and an Amazon in riding-kitt hails your cab. Looking round, it is rather purpose that meets the eye than sadness. To recall the London of the South African war is to see nothing but mourning. The death of Queen Victoria, no doubt, caused it for a spell, but now, when everyone is bereaved, only a few seem to wear black. The pleasure seekers are little in evidence except to each other; for the decent people are not visiting their haunts of gaiety and in these days of darkened windows and doorways it is only through the advertisements that we learn of dancing here, of dining and winning there. The closing of the public houses makes quiet streets and early hours; and if only the selfish and stupid people who use cab-whistles could be made virtuous by Act of Parliament or police order, London would have reached a condition in which many of us have long desired to see it.

SWEDES SAID TO BE REAL ANGRY. Russian Boat is Supposed to Have Sailed Under Swedish Flag.

Berlin, Aug. 25.—Via wireless to Saville.—The capture of the German steamship Desterro, with a cargo of iron ore, was made by a Russian submarine flying the Swedish flag, says the Overseas News Agency. Despatches from Stockholm say the Desterro was seized in Swedish territorial waters, having on board a Swedish pilot who has now returned to Haparanda. The vessel was taken in Roumo, Finland.

37 AUSTRIANS SENT TO PRISON FARM. Parry Sound, Aug. 25.—Six months meted out to 27 alien enemies, all Austrians, in the Police Court here, and they were sent to the Burwash Prison farm. There being a scarcity of laborers, these Austrians were brought to Depot Harbor to work in the G. T. R. freight sheds at that place, and they all refused to work. The matter was referred to Sir Percy Sherwood, Chief Officer of Detention Camps, and he advised their committal. They are a hungry bunch and ought to be able to do a lot of work at the farm.

AN INSIDE BATH Makes You Look and Feel Fresh. Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill-health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, scum and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Those who wake up with bad breath, coated tongue, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

Safety First. Seven German princes have fallen in the field to date, but none of the six sons of the Kaiser are among the list of those who have made the supreme sacrifice. Undoubtedly, the Kaiser, the Crown Prince and their war lords were responsible for the outbreak of hostilities, while the Crown Prince kept up his reputation as a bloodthirsty individual by slaughtering his men at Verdun. He himself, however, has kept at a safe distance, and it is said that there is quite a sentiment growing up in Germany against the Hohenzollerns for the care they are taking of their own hides, while other princes and heads of dynasties throughout the Empire are being killed off.

BERLIN GETTING RECONCILED TO EASTERN MATTER. Quite Confident, says En-emy, Can Trim Roumania Any Time.

By Special Wire to the Courier. Berlin, Aug. 25, via London.—Government circles here, though none too optimistic, view the Rumanian situation calmly, taking the attitude that it is Roumania's next move. The feeling is that the Central powers have done everything possible to meet Roumania's views, and that Roumania in persisting in the course desired by the Entente and her own expansionist party, will find the central powers ready, in which event it is to be expected every effort will be made to insure that the new war theatre is on Roumanian soil. Information from Vienna indicates that the Austro-Hungarian government bearing in mind the results of the negotiations concerning Italy's claims, has been at no time disposed to offer Roumania similar concessions for fear that this again would be mistaken for a sign of weakness. At this moment there is no discernible slightest effort to persuade Roumanians taking any other course than one due to her own initiative. The latest despatches from Bucharest indicate a further cooling off of the war fever.

Once Caught but Bluffed the Police. Alphonse Foucault is Now Brought to Montreal for Murder.

By Special Wire to the Courier. Montreal, Aug. 25.—Alphonse Foucault, wanted here for the murder of the Cote de Neiges policeman in March, 1914, and who was arrested in Detroit, was captured previously in Sault Ste. Companions of his in the shooting are serving long penitentiary terms. A large number of the members of the 161st Huron Battalion who have been in Goderich district on harvest furlough during the past month are now preparing to return to Camp Borden.

## Music and Drama

A week-end program of stellar numbers is presented at the Brant theatre this week, containing features of interest to all and sundry. Chief among the attractions presented are the motion pictures taken in and about Brantford not long ago by the Ford Motor Company, which include views of the local battalions, as well as of the Bell homestead, the Mohawk church, the Brant monument, the post office and other spots of interest to all. These pictures should be missed by no one in the city. Other attractions in the movie line are Marguerite Clark, more fascinating than ever before in her latest production, "Silks and Satins," and the fifth installment of "The Iron Claw," which continues to climb ever higher in the ranks of popular favor. The vaudeville bill is well entered to by the Pettit Family, who present a tumbling act of the highest quality and novelty, and Gordon, Delmar and Prague, whose singing, dancing and piano-forte offering is far above the usual standard of such attractions.

### At the Colonial

The feature week-end attraction at the Colonial theatre this week is the appearance of Mme. Olga Petrova, in a five reel photo drama of the highest order, in "The Vampire," Mme. Petrova receives ample scope for her wonderful emotional abilities and her acting in this picture has been adjudged one of the masterpieces of histrionic art. The plot of the story is replete with interest throughout, and the attention of all is held firmly until the last moment of the picture.

## THOUGHT THEY WERE DANGEROUS SO SHOT THEM

Evidence Given as to Reason of Irish Revolvers' Penalty.

Dublin, Aug. 25.—At the continuation yesterday of the inquiry into the shooting without trial during the rebellion last spring, of F. Sheehy Skeffington, Fred McIntyre and Thomas Dickson, Sir John Simon, chairman of the commission which is conducting the investigation, read a report made by Captain Bowen-Colthurst, who ordered the execution of the three men. The report was made after the arrest of the captain who subsequently was found guilty, but insane by a court-martial. The captain reported he did not believe the guard room to be a safe place for such "desperate men" as Skeffington, Dickson and McIntyre. He said he heard 600 Germans were marching on Dublin. Believing he had the power under law, he ordered the shooting of the three men, though he regarded it as a terrible duty.

## FIFTH GERMAN WAR LOAN

By Special Wire to the Courier.

London, Aug. 25.—Arrangements have been completed for flotation of the fifth German war loan. An Exchange Telegraph despatch from The Hague says the loan will be issued on September 4 and that the interest rate will be 5 per cent. as in the case of the previous loans. Subscriptions will be received up to October 5. The issue price, the despatch says, will be 95.

Count Von Roedern, secretary of the Imperial treasury, has instituted measures to popularize the loan, which, the despatch says, is being described by canvassers as "the last war loan." Former issues of war bonds may be turned in as subscriptions.

The fourth German war loan was issued in March. It was sold at 98 1-2 as against 99 for the third loan. An issue price of 98 for the new bonds would indicate that Germany, in common with other belligerents, is being compelled to pay a higher price for its funds as the war goes on.

## Buried Treasure

Montenegro Monastery Riches Unearthed by Fraternity. By Special Wire to the Courier.

Geneva, Switzerland, Aug. 25.—via Paris.—The Austrians, according to a special despatch from Innsbruck have found the famous treasury of the Detschan monastery, near Cetinje, Montenegro, which the monks had buried upon the approach of the invaders. The accumulations were those of seven centuries, consisting of jewels and old coin of every generation since the thirteenth century, golden vessels, and richly embroidered vestments. The value of the whole accumulation is estimated at several millions of pounds.

It is said, adds the despatch, that a peasant betrayed to the Austrians the catacombs where the treasure was secreted.

Joseph Clark, a young man of Pelham township was arraigned before Magistrate Fraser in Niagara Falls on a charge of having written a letter to Andrew J. Heidenreich of Welland, threatening him with bodily harm.

Removal by Germans of Civilians to Work Will Be Discussed.

By Special Wire to the Courier.

Paris, Aug. 25.—What measures can be taken at the proper time against the Emperor of Germany and other persons held to be answerable for compelling inhabitants of the invaded cities of Northern France to work in the fields, and the immediate steps which France might take in behalf of these people, are questions to be raised in the approaching session of the chamber of deputies.

Deputy Bouysou, in a letter to Premier Briand, in which he severely criticized the acts of the Germans toward the population of the invaded region, gave notice that he would interpellate the premier on the subjects.

CHILDREN CRY FOR FLETCHER'S CASTORIA. ITALIAN OFFICIAL. Rome, Aug. 25, via London.—The Italians are pressing their offensive movements at various points in the Dolomites, along the far northern portion of the Austro-Italian front, and today reported occupation of new positions in the Fassa Alps. "Small offensive operations by our troops," says the official statement, "gave us possession of some new positions in the rough, mountainous area of the Fassa Alps. At the head of the Fossanica Valley we occupied Height 2354, south of Cima di Cece."

A GERMAN VIEW OF POST-BELLUM MARINE TRADE. Chances May Be Good as Their Ships, While Rusty, Are Safe. NOTHING MUCH DOING NOW. Hints Given Out that Government Aid Will Be Necessary.

THE latest issue of the Norddeutscher Lloyd annual review, which has just appeared, contains an interesting review of the present position and future prospects of the shipping trade. "The shipping of the Central Powers," it says, "was brought almost completely to a standstill by the outbreak of the war, and has remained in the same condition during 1915. At the same time the passive role to which German and Austro-Hungarian shipping was condemned has had its advantages, as the commercial tonnage of the Central Powers has been automatically increased very considerably in value owing to the war losses of enemy and neutral shipping. Moreover, the possession of a relatively unimpaired mercantile fleet will place the Germans in a position immediately to start a successful competition in the world's markets after the conclusion of peace. This maintenance in German hands was assisted also by the Federal Council's decree of October 21, 1915, by which the sale of German commercial ships to non-Germans was prohibited. The prohibition extends also to ships which are under construction for German account. "A proof of the fact that the German companies intend to make every effort to make good the gaps in their tonnage, and perhaps to increase it beyond the amount that existed before the war, is to be found in the extraordinarily active business of the German shipbuilding yards. Everywhere numerous contracts are in hand, and the position of the German shipbuilding industry, having regard to existing conditions is completely satisfactory. "That the situation of the German as well as of the Austro-Hungarian shipping cannot be called a rosy one is only natural, in view of the fact that since the outbreak of the war the mercantile shipping of the Central Powers, with a few small exceptions, has been completely eliminated from the seas and has not even had a chance of going over to other fields of activity to find a source of revenue to make up for the high current expenses incurred in spite of the laying up for the maintenance of ships, wages of employees and crews, interest on debentures and so forth. "The question whether after the conclusion of peace the German mercantile marine will be able to make a sufficiently powerful appearance on the scene and compete successfully with the foreign lines which have been considerably strengthened by the war, will chiefly depend upon whether peace will bring German shipowners that financial support which is essential in order to help the big German companies over the damage and losses they have suffered and to assist them in the severe economic conflict which will inevitably follow the war. This is necessary for their own welfare, as well as for the benefit of all the national interests which are inseparably bound up with this important branch of the German national economy."
