TOWN COUNCIL HOLDS MONTHLY SESSION

Mayor Chambers Appointed to Represent Town at Annual Meeting of Union of N. S. Municipalities

At the regular monthly meeting of the Council, held last evening, Mayor Chambers and Council members, Macpherson, Leslie and Porter were present. The reports of the regular Standing Committees showed that there had been expended during the month, on Streets, \$1,307.53; for Water and Fire, \$68.07; Sewer, \$55.00; Police, \$6.50; Poor, \$233.82. The receipts in the police department amounted to \$27.00 for fines, etc.

The financial statement showed that the receipts during July had been \$2,513.03 and the expenditures during the same period had been \$6,820.58. On July 31st the bank overdraft amounted to \$2,322.65.

An application from Lady Townsend for permission to have accumulated apple-trees burned on her property was read, and it was decided to instruct her that these should be hauled to the gravel pit.

A letter was read from the Attorney General's department respecting the amount on hand from the oversale of bonds for the western extension of sewer, advising that it be placed in the sinking fund.

Notification was received from the clerk of the municipality of Annapolis which stated that owing to additional cost of maintenance it had been found necessary to increase the rate of board at their County Home, where Wolfville has one inmate, from \$4.50 per week to \$5.00.

A communication from the clerk of the Union of N. S. Municipalities, asking that the Council appoint representatives to attend the annual meeting at Annapolis Royal on Aug. 19, 20 and 21, was read, and on motion Mayor Chambers was appointed to attend.

The Town Clerk reported concerning property on Grand Pre Dyke owned by Wolfville residents which is liable for school taxes, and he was instructed to proceed with the collection of the same.

The following accounts were read and ordered paid: Maritime Tel. and Tel. Co., \$25.85; A. M. Young, 2.10; Insurance on Road Roller, 58.50; Frances Harkin & Co., 23.75; G. W. Baines, 7.50; A. F. Newcombe, 20.00; N. S. Hospital, 148.70; W. H. MacMillan, 14.70; T. McAvity & Son, 59.15; Wolfville Fruit Co., 107.45; J. E. Hales & Co., 95; N. S. Highway Board, 757.11; Municipality of Annapolis, 117.00; Dept. of Vital Statistics, 12.80; United Typewriter Co., 12.00; A. & W. MacKinley, 2.25; J. C. Mitchell, 2.48; Wolfville Electric Commission, 6.00; J. H. Baltzar, 42.35; A. W. Bleakney, 1.16; A. D. Harris, 1.50; F. W. Murphy, 25.00; Municipality East Hants, 70.10; D. Ross Cochran, 2.65; N. S. Sanatorium, 36.60; Petty Cash, 36.58.

A bill from the Halifax Industrial School was read and laid over for further investigation. A discussion ensued respecting a policy of insurance against accident on the new fire engine, the idea being general that it was wise to insure against risk of injury done by engine in case of accident rather than against damage that might be sustained.

The Mayor read a letter which he had addressed to the head of each of the civic departments at the end of the half-year, setting forth certain services that must be attended to during the next year. A statement should be made at this meeting as to the proportion of estimate expended. Coun. Macpherson, the chairman of the Finance Committee, presented the latter, which showed that the amount expended on streets to July 31 had been \$62,240.69, as against an allotment of \$5500.00 for this purpose. There had been expended about five hundred dollars for crushed stone that would not be used until next year, and a considerable amount expended upon the stone-crusher. In the other departments the expenditure had been well within the estimate.

Coun. Porter reported for the Water Committee on the work that had been done in cutting timber on water-shed lands. Mayor Chambers reported that arrangements had been made to have the town plans and other records placed for safe keeping in the vault of the Bank of Montreal.

It was decided that in view of improved facilities for fire protection recently provided in Wolfville application be made to the Board of Fire Underwriters for a reduction in commercial rates of insurance.

A motion: Miss Annie Pearson was appointed to act as deputy town clerk during the vacation of Mr. Ford, which begins today.

MRS. ALVA STANWOOD

YARMOUTH, August 3.—A very sudden death took place here this evening, when Mrs. Alva, widow of Jacob Stanwood, passed away. The deceased was about a year ago, fell and badly fractured her hip, from which she never fully recovered. In addition, she also suffered a slight ailment of the heart. Today she was quite herself, but just after supper this evening she fell prostrate and passed away.

Mrs. Stanwood was a daughter of the late John S. Baker, of Yarmouth, and had always lived here. She is survived by two daughters—Misses Sadie and Augusta—both at home; two sisters, Mrs. Charles R. Vickery, Yarmouth, and Mrs. Wickwire, of Wolfville; and one brother, J. Wallace Baker, Yarmouth.

Manager Evans of the Orpheum Theatre has booked some exceptionally good pictures for the autumn months.

CANADIAN DOLLAR STILL AT PREMIUM

Confidence of U. S. Capital in Dominion Given as One Cause

NEW YORK, Aug. 3.—Confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financing, prospects for an excellent crop, large United States purchasing in Canada, and heavy expenditure of United States tourists in the Dominion, were some of the reasons offered by financial experts here tonight for the consistent above par stand of the Canadian dollar on the New York exchange.

Today the Canadian dollar stood at a premium of 3-32 and since April, save for a single dip in May, has been on a parity with the United States dollar or at a premium.

Experts pointed out that trade reports showed heavy purchases by United States customers in the Dominion, that a large development of power was shortly to be made in Quebec and that this year was a bumper one of tourists in Canada.

SERIOUS FIRE TUESDAY NIGHT

Residence of Frank Regan Badly Burned—Furniture Saved

At about 9:30 o'clock on Tuesday evening the dwelling of Mr. and Mrs. Frank Regan, "Vinegar Hill", was discovered to be on fire. An alarm was promptly sent in and the firemen promptly responded to the call, with the engine and other equipment. By the time the endangered home, which occupies a rather inaccessible position, was reached the hose was ready for the turning on of the water the fire had made very material progress. Two streams of water were soon playing on the flames, however, and in a short time the fire was extinguished. The upper part of the house was badly gutted, but can be repaired. The furniture was removed in a somewhat damaged condition. It is understood that there was some insurance on the house, but none on the furniture. The cause of the fire is supposed to be a defective fuse.

MRS. McLEAN APPOINTED DEAN OF WOMEN AT ACADIA

The appointment of Mrs. Blanche Leigh MacLean, A.T.C.M., to the position of Dean of College Women was announced this week. Mrs. MacLean, who is well known throughout the Province as an educator, will also continue her work of last year as Instructor in Public Speaking at Acadia University.

A native of Ontario, Mrs. MacLean is a graduate of De Mill Ladies College, Oshawa, and a student for four years in Toronto at the Conservatory of Music, and Brown School of Oratory. After teaching in the Summer School of Expression at Grimsby Park, she was invited to the Halifax Ladies' College, where for six years she taught in the Department of Expression. She founded this Course at the Ladies' College, the first graduate of which was Miss Mabel Dixon, of this town. She also conducted classes in Public Speaking at Pine Hill College, and the Convent of the Sacred Heart.

Her married life, as the wife of Dr. Murdoch MacLean, was spent in North Sydney. Since Dr. MacLean's death, she has lived in Wolfville.

On Monday evening the Philathea class, in conjunction with the Baptist Sunday School, held a farewell social in the vestry of the church in honor of Gertrude and Harold Phinney, who leave for Halifax later in the month. The evening was passed pleasantly with music, games and refreshments, the program being as follows: Selections by S. S. Orchestra. Vocal solo—Nita Tretthewey. Play—"The Coquette"—Zelma Tretthewey, Elizabeth Eaton, Helen Ingraham, Nita Tretthewey, Virginia MacLean, Gertrude Phinney. Piano solo—Helen Ingraham.

CLOSING EXERCISES OF SUMMER SCHOOL

Diplomas Presented to Students Completing Course—Interesting Program

The closing exercises of the Wolfville Co-operative Summer School of Methodist Sunday School Workers were held last Thursday evening in Almaine Hall, Acadia Seminary. Rev. Mr. Strothard presided and there was a good attendance. After the opening worship period, Nita Tretthewey sang a solo "Teach Me to Pray". This was followed by an address by Helen Simms, of the graduating class on behalf of the school. After a duet by Ena and Melba Rood, Miss Kisbro Dolliver, also of the graduating class, gave the farewell talk on behalf of the members of her class.

Misses Enid Lynds and Helen Simms sang a duet "Whispering Hope", after which Miss Harrison, who has only recently resigned from a very active part in the Maritime Religious Education Council, spoke to the ten graduates. Her theme was "Co-operation", and in her inspiring talk she stressed the value of sympathy and service in the future spheres of those Sunday School workers.

Diplomas were then presented to the ten students who had completed the three years' course at the Summer School. Certificates were given to six who were completing their second year, and about thirty received certificates for the first year's work. All these diplomas and certificates are awarded by the Maritime Religious Education Council.

A pageant entitled "My Task", closed the program for the evening. It was presented under the direction of Miss Annie Harris, Elementary Secretary for the Religious Education Council. Those taking part were Kisbro Dolliver, Zena Anderson, Orlo MacInnis, Elizabeth Ford, Margaret Hamilton and Grace Whitman.

The meeting closed by singing "Taps"—the regular closing song of the Canadian Girls in Training.

The Protestant churches of the Maritime Provinces are gradually beginning to realize what a splendid opportunity they have for training future church workers in the annual Summer Schools at Wolfville and Sackville.

WILL SOME ONE PLEASE ANSWER

"What becomes of the fees earned by the Stipendiary Magistrate and Police Constable of Wolfville? This a question that has been submitted to THE ACADIAN by a prominent citizen, who claims that as these officials both receive salaries the amounts received by them for their services should go into the town funds. Since we have no such matters are handled, we pass the enquiry on to those in charge of civic affairs, and will be glad to provide space for a reply in our next issue. The rate-payers have a right to such information, which we imagine the town authorities will be very willing to furnish.

COAL MINERS AGREE TO GOVERNMENT'S PROPOSALS

The details of the Government's proposal to settle the coal-strike which has been in progress since April, have been made public. Rebate of one-fifth of the royalties from the coal-mines for one year; and the reduction of from six to eight per cent. in the wage scale are included. The proposal also provides for an interim contract between the corporation and the mine-workers for a period of six months, pending a full enquiry into the conditions surrounding the coal industry of this province.

The proposals have been placed before the representatives of the British Empire Steel Corporation and the United Mine Workers of District No. 6, and the latter by a referendum vote taken yesterday declared in favor of the acceptance by a majority of 1133. Up to the time of going to press the decision of the directors of Besco had not been received, but it is hoped that an agreement may be reached and that work in the mines may soon be going on.

MARKETING THE BRITISH COLUMBIA FRUIT CROP

The Associated Growers, Limited, a co-operative organization in British Columbia, which stands in a relation to the apple industry of that Province, similar to that held in Nova Scotia by the United Fruit Companies, announces that "during the present season all the British Columbia fruit under its control sold on the markets of Great Britain will be disposed of in a special deal which will keep it away from the auction markets that have a habit of giving very erratic returns to exporters."

An agreement has been made with a Southampton firm of acknowledged standing and a high record of efficient handling nothing but British Columbia apples during their legitimate selling season, and to dispose of them directly to the wholesale, and in some instances to the retail trades. The agreement is for one year only, and its renewal will be dependent entirely upon the ability of the Southampton firm to get prices for British Columbia fruits that will give the growers better returns than they have received through selling by auction. It is confidently believed that the new plan will work to the satisfaction of all concerned.

VISITORS AT LOCAL TOURIST CAMP GROUNDS

Three Parties Have Made Use of the Equipment This Week

Wolfville tourist camp has been recently equipped with a register in which all visiting motorists are requested to record their names and addresses and make any suggestions that will in their opinion better provide for the accommodation and comfort of those who take advantage of the camp. The register was placed in the new pavilion last Saturday, since which time the following visitors have registered:

August 2nd.—Loran D. Young, Belle Isle; Roger Fiendell, Beaconfield; H. Farnsworth, Annapolis Royal; M. Young, Bridgetown.

August 3rd.—Mr. and Mrs. Van Duesen and Miss Frances M. Van Duesen, St. Louis, Mo.

August 4th.—Mr. and Mrs. Bert Wise and Charles E. Wise, Houlton, Me. The St. Louis party arrived here after a motor trip of three thousand miles, having left Missouri in June for Nova Scotia. They have spent some time already in the province and express themselves as much pleased with what they have seen of our province, having expected to find a bleak and forbidding land.

They travel in a Kamp Kar, which is built over a Buick engine. It is a marvel of ingenuity and comfort. Its equipment includes comfortable leather seats, two beds, a refrigerator, a gasoline stove, a wardrobe, a closet with shelves, a water tank holding fifteen gallons, with faucet attached, screens and curtains.

Questioned as to why they selected Nova Scotia when they knew no one in this part of the world, they said that it was wholly due to their interest in the historic Land of Evangeline. They were attracted here by the historic legends with which they were familiar through Longfellow's poem, and are by no means disappointed.

VALLEY TENNIS STARS LOSE AT HALIFAX

With the Valley team were several high ranking players, who reached the finals in the Nova Scotia tournaments a number of times.

Harry Roper, the left-handed star of Waegwoltic, playing a steady game, with occasional hard drives, accomplished a feat few players in Nova Scotia can boast of when he defeated Dr. L. Eaton, the Wolfville star. Three well played sets provided the gallery with opportunities for enthusiastic outbursts. Eaton took the first set, 6 to 4, his placing featuring. In the second set, Roper drove hard and true, while Dr. Eaton's returns were bad, Roper winning 7 to 5. The third set was thrillingly played, the Halifax star winning 6 to 3.

Bobby MacCoy and Charlie Roper took a three set match, from Billy Wickwire and Bill Eaton, 6-1, 6-8, 6-1. L. G. Fraser and Miss Dora Davison won from the strong team of Robie Tufts, high ranker in Nova Scotia circles, and Mrs. Roscoe, the match going into three sets. Dr. DeWitt and Robie Tufts won from W. H. Ferris and L. G. Fraser, local veterans in two straight.

Waegwoltic won both matches in the ladies' doubles. In the first, Mrs. Tyler (Effie Nauss) and Miss E. Helsby, playing a creditable game, won over Mrs. V. Roscoe and Mrs. Hill, Kentville players, in three sets. Halifax won 6-3 in their two and the visitors won 6-3. Editorial

Our pulpits are our work clothes. Each of us live some kind of a sermon every day.

GRAVEL VERSUS CRUSHED ROCK

THAT A great deal of money has been practically wasted in the construction of gravel roads in this province is beyond question. When we say this we do not for a moment question the fact that the highways in many directions have been vastly improved and are in much better condition than they were a few years ago. It has been proved, however, that gravel roads are expensive and far from permanent.

That section of the provincial highway between Wolfville and Kentville has received pretty nearly continuous attention during the past three years and is still in a far from satisfactory condition. When the work was under contemplation a delegation from the municipalities especially interested urged that macadam should be used instead of gravel, but without avail. Experience has pretty well established that the people were right and the Highway Board wrong on that occasion.

The writer was interested to note recently that on the northern side of the Valley where work is now being done gravel is not being used. There rock of various sizes is being used and apparently the macadam system is being followed. The reason given by employees was that no gravel was to be had in that locality, which is a fortunate thing for those who use the roads. We were told that the price of the material was very little if any greater, and the life of the road cannot fail to very much be more lasting.

SAFETY FIRST

THESE DAYS when motor vehicle traffic has grown to such proportions the driver who wishes to protect his car and the lives of his passengers from injury has little time to admire the scenery. It is necessary for him to attend closely to business and keep his eyes on the road in front of him. Because of these conditions in most places those who are responsible for public safety are looking about for opportunity to make the task of the motorist as easy as possible.

In the state of Maine a law has recently been passed which provides that "the state highway police shall remove all signs, billboards, panels, placards, posters, notices or other advertising devices existing within the limit of the highway". This is to prevent the possibility of the drivers attention being averted and in order that he may realize that any sign which appears is intended for his guidance.

It seems to us that the provision is a wise one and worthy of imitation. Aside from the disfigurement of the landscape which much of the advertising matter along our highways undoubtedly does, the fact that its presence endangers the safety of the traveling public ought to be a sufficient reason for its removal and prohibition.

MORE CO-OPERATION NEEDED

THE REPORT that the employees of one of the industrial concerns of the Maritime Provinces have made an offer to work overtime free of charge in order that their employers may be able to compete on favorable terms with foreign manufacturers, indicates the existence of a spirit which alone can straighten out the tangle resulting from and following the Great War. This is the spirit which more than once during those dark days when defeat threatened made victory possible.

Of late years there has been a falling down, which in Canada as well as in other lands, has made for conditions which have been far from satisfactory. There has been friction between labor and capital which not only has resulted to the detriment of both the contesting forces but has delayed the coming of the time when world conditions shall have again become normal. When we consider the wonderful possibilities which are in store for Canada when that time really comes the evidence of a better understanding in the industrial life of our Dominion is most encouraging. Today Canada needs more efficiency along every line of activity, which can only result from the same patriotic endeavor on the part of all to do "our bit" in the time of peace, as was manifest in the time of war.

SPRAYING BRINGS BETTER APPLES

IT IS STATED that the present season will demonstrate as perhaps never was done before the efficiency of spraying and other orchard work as a factor in insuring a crop of good apples. This is the testimony of leading orchardists and apple-men, who believe that another season will witness a great increase in work along this line.

That the valley as a whole will produce an abundant supply of fruit this season is now pretty well assured, as is also the fact that the quality in some instances will be inferior, in the case of orchards which have not received proper attention. On the other hand many of the larger orchards which have been properly looked after will, it is said, show an excellent yield of superior fruit.

That the growing of apples profitably is not a matter of chance has been pretty well established and the man who persistently and scientifically feeds and protects his orchard is pretty sure of an adequate return. A neglected orchard is a menace to the industry. It costs money to grow apples properly during these times when so many pests have to be dealt with, but in the end the result as a general thing leaves no doubt as to the wisdom and profit of the outlay.

SELF-RELIANCE

WE OFTEN FIND that boys who have educated themselves in the country make the most vigorous thinkers. They might not be quite as polished or cultivated, in some ways, but they have something better than polish, and that is mental vigour, originality of method and independence. They do not lean upon their schooling or depend upon their diplomas. Necessity has been their teacher and they have been forced to act for themselves and be practical. They know little of theories, but they know what will work. They have gained power by solving their own problems.

After all, self-help is the only help that will make strong, vigorous lives. Grit is more than a match for any handicap. The worst handicap a man can have is a machine-fed education that makes him think he is too good for his job. If he had had to educate himself he would never have got it. He will have to educate himself all over again if he wants success. He will have to become imbued with the idea that no act of our lives is really insignificant. The most trivial tasks should be done in such a way that they will prepare us and enable us in due course, to do big things.

SHOULD BE BETTER INFORMED

THOSE responsible for the statements which appear in the Halifax daily press would do well to become better informed regarding conditions in the province of which that city is the capital. Recently it was pointed out that in Ontario and British Columbia parking and camping facilities are provided for motorists and it was urged that in Nova Scotia similar action should be taken. Halifax offers no such conveniences for visitors, it is true, but not a few such camping grounds have been provided in other centres. These are yet of a rather crude nature, but as time goes on they will become better equipped.

The other day one of these Halifax papers described Hall's Harbor on the Bay of Fundy, as a seaside resort near Kentville. Nova Scotia is a small province and no place within its borders is very far distant from any other place. For that reason it should not be difficult for these metropolitan journals to be better posted as to its geography. Sane journalism demands a reasonable amount of knowledge concerning the subject under discussion, whether it be on the part of a writer for a city daily or a country weekly.

"EVILS THAT MENACE SOCIETY"

(Rev. J. Phillips Jones, M.A., B.D., Social Service Council of Canada.)

In one of our largest Canadian cities, when six young men were placed on trial for statutory offences, startling revelations were made of the path whereby youthful "butterflies" brought disgrace to themselves and their families. It was a night of revelry which included childish play on ferris wheels and merry-go-rounds, followed by a drink called "gin", as the girls told the court. They were also given beer in a room in a downtown hotel. One of the girls is 13 years of age, the other 15.

This raises the question—are we living in a fool's paradise? What of the evils of society that are rampant among us today? For instance, the modern dance-hall! Are your young women properly chaperoned at such places? Are these places frequented by the type that we wish our young men and women to associate with? Serious charges are made against many such places and not without cause. It behoves our fathers and mothers, for the safety of their sons and daughters, to know beyond peradventure that the dance halls are children's delight in, is under proper auspices, with no shadow of doubt as to its moral influence.

Another evil is that of pernicious literature. In spite of all vigilance, trashy magazines and periodicals find their way to our bookshelves. One minister says, "it is coming in by the ton". If so, then a campaign of suppression is the call of the hour. Nothing so inflames the passions and dulls the moral sense as gloating over pictures and sketches that have a salacious suggestion. What is your boy reading? What magazines delight your girl? And not all literature that is ever allowed by law is the type your boy and girl should read. What they read, reacts on their lives. I think of a conversation I heard recently by a group of young women at a summer picnic. What were they talking about? Just the things they had been reading of—photo-plays and vaudeville artists and the life at "Hollywood". These girls were light, giddy, irresponsible, empty. What they were reading was reacting on their interpretation of life. There is a world of difference between insipid and so-called Puritanism. There is a wealth of happy, pure ideals for virile men and wholesome young women between these two extremes.

"It's high time someone started to clean things up", said one who knows of conditions. What he referred to was the joyride after the dance. About the evils in question it was said, "the police knew, and the doctors knew and hospitals knew". What are we to do about them? And then there is the orgy of gambling that goes on at the horse races throughout the land. "I won \$200.00 last week" said a young woman who had been beguiled into the ensnaring evil of betting. "Won \$200.00"! She little thought she had lost more than she had won. She had lost her sense of moral values. She had lost the finer idealism of life. She had lost that true perspective which always regards "others". No one wins without someone losing. And the tragedies of lives ruined by gambling would fill volumes.

Whenever our young women, to say nothing of our young men, are thus led on, what shall we say of our future citizens? Are we to raise a race of gamblers? The immoral and deteriorating effects of gambling are beyond question. These, and other evils are flagrant disease spots in our national life. It behoves all true lovers of our country to arise and wipe them out.

PROTECTION AGAINST MOSQUITOES

Certain protective mixtures applied to the skin are of great value in warding off mosquitoes, black-flies and similar pests, especially when the insects are very numerous. A number of formulas for such mixtures are given in a pamphlet on the methods of protection against mosquitoes and black-flies, just issued by the Entomological Branch of the Dominion Department of Agriculture. A mixture recommended by the author is composed of 3 ounces of oil of citronella, 1 of spirits of camphor, 1 of oil of tar, 1/2 ounce of oil of pennyroyal and from 4 to 6 ounces of castor oil. Another mixture consists of 2 ounces of oil of citronella, 1-3 of an ounce of pennyroyal and 2 ounces of castor oil. The castor oil is included to prevent injury to the skin. Tallow may be used instead if it is desired to have the mixture in the form of a paste.

When the insects are abundant it is necessary to apply the mixture at least once every half hour, using liberal quantities and rubbing it thoroughly over the hands and face. Care should be taken to have a sufficient quantity of a mixture when on an extended trip in the woods. At least an ounce per person per day is necessary if the flies are anyway abundant. The mixture should be carried in a small aluminum flask or screw top tin, but not in a glass bottle as it is apt to break.

ERECTING MONUMENT TO TOM SAWYER AND HUCK FINN

Hannibal, Mo., June 23.—At the base of Cardiff Hill, where foregathered Tom Sawyer, Huck Finn and Tom's gang, will rise a monument to the immortal Tom and Huck, figures in the books of Mark Twain that bear their names. Frederick C. Hibbard, Chicago sculptor, is at work upon the memorial, which will be erected by George A. Mahan, a local attorney, and his wife and son, Dulany Mahan. In the monument the sculptor hopes to set forth those qualities that have appealed to multitudes who have read and understood the humor and pathos of American youth exemplified in the boy characters.

The sculptor will represent Tom Sawyer as about to leave the haunts of his childhood to take up the more serious business of a man's life. He is bidding Huck Finn farewell.

The monument will be of bronze on a pedestal of red Missouri granite. It is expected to be completed by October of this year. It will be on Hill street, approximately one block from Mark Twain's boyhood home which also was purchased and presented to Hannibal by Mr. and Mrs. Mahan. It will stand only a few feet from the former site of the old stone jail where Muff Potter and Tom Sawyer were confined. The Mahans recently purchased the site to eliminate a dangerous traffic corner.

Looking from the monument about two blocks down Main street one may see the building in which Mark Twain started his career as a printer's devil.

UNKNOWN HEROES

The world has many unknown heroes—those whose history will never be written on earth, and yet whose names are recorded in Heaven, and for whom the victor's palm and crown of recompense is waiting.

You would never think the poor and sad-faced woman you met on the street yesterday could be one of these, would you? Nor the little boy who passes your window every day—he surely doesn't look like a hero, does he? Yet

perhaps that woman is bearing sorrow that you would faint under, and that boy is battling bravely with such poverty and want as would drive you to despair.

It is the heroic soul that stands out clear and bright in such dark surroundings as these. Christ was a hero; the greatest Conqueror that ever lived. Yet His Kingly presence was not honored, save by the Star from Heaven which shone across the lowly town of Bethlehem.

A NEW REASON

She: "Now, what are you stopping for?" He: "As car comes to a halt: 'I've just lost my bearings.'" She: "Well, at least you are original. Most fellows run out of gas."

An acid burn should be flushed liberally with cold water and then washed with a strong solution of soda. Gluten or brown bread is a great deal more healthy and has more nourishment than white.

JUST WHAT THEY WANT A C. C. M. JOYCYCLE

Nearly every Boy and Girl too young to ride a Juvenile Bicycle would rather have a good Tricycle than most anything else you could give them. It is good for them too. Gets them out into the fresh air and provides just the easy, gentle exercise which is needed, without over-tiring them. Can be ridden on sidewalk or even in the house.

The general strike of British coal miners scheduled to take place July 24, has been called off. Premier Baldwin has promised "subvention" to the miners, thereby enabling the owners to resume their existing wage agreements with another nine months.

Prof. and Mrs. Bancroft and family returned to Wolfville on Saturday last during the coming year will occupy Park street. Their return this year earlier than usual because of certain large work which demands the presence of Prof. Bancroft.

Great Britain won the Women's International Track and Field Meet at Stamford Bridge, London, last Saturday, 55 points. Czechoslovakia made 26 points and Canada 23 points. Although the Canadian girls failed to finish first in any of the events, they nevertheless made an excellent showing.

The grounds around the new University Building are assuming a much more pleasing appearance. The high terraces in front have been levelled, sodded and grass seed sown. The motor road will encircle the building and a place has been provided for parking the cars. The rear of the hill has been levelled and gravelled paths will lead to other buildings. The construction offices have been torn down, trees removed and this cleared up. All will be in readiness for the meeting of the Maritime Baptist Convention, which will take place here the last week in August.

Their host of friends in Wolfville and vicinity will be greatly pleased to learn that there is a prospect of Rev. M. Keirstead, D.D., and Mrs. Keirstead again taking up their residence in this town. THE ACADIAN made a slight error a few weeks ago when it reported the purchase of the home of the late Judge Ritchie by Mr. Ronald Keirstead. The real purchase, it seems, is Mrs. Keirstead, and it is their intention to make their home here when Mr. Keirstead retires from his present position as Professor of Systematic Zoology at McMaster University, which for a number of years has so efficiently led.

CANADA'S PRODUCTION OF BASE METALS HAS GROWN VERY RAPIDLY

Canadian production of copper, which was about 38,000 tons in 1913, increased to 43,000 tons in 1923 and to 53,000 tons in 1924.

Export of gold ore, dust, etc., from Canada have risen from \$3,953,000 in 1912 to \$28,358,000 in 1924.

The production of zinc in Canada has steadily increased since pre-war days. The 1913 output was 2,800 tons. This was increased to 17,500 tons in 1918 and the 1924 production is estimated at 49,000 tons.

APPLE IN HIGH PLACE AS FAMILY PHYSICIAN

This is what an apple does to one! It starts all the secretions into vigorous action and floods the system with a new tide of life.

It is a friend to health and a foe to disease. It is a food tonic, condiment and cosmetic all in one.

It kindles the brilliancy of the eye, and it plants roses in the cheeks. You cannot eat too many—after the heartiest meal there is always room for an apple.

An apple is a social fruit; it draws human beings together in fellowship. Plenty of good apples will keep the children at home and in at night—husbands as well—and keep the doctor away.

It promotes temperance. It appears on our tables in many appetizing forms.

Raw fruit as it comes fresh and crisp from the tree and the refrigerator, needs no culinary art to improve it. A knife spoils it; let it be crushed and crunched in the mouth, and then it gives out its richest flavor and yields the greatest satisfaction.

The apple family contains in its varieties exquisite flavors adapted to all tastes. It is the oldest of our known food necessities.

Lady Borden entertained the Women's Institute on Friday afternoon, when the meeting was addressed by Rev. Mr. Penning, missionary of Arabia. The president, Mrs. Halle Bigelow, presided. The subject of his address was "Some Phases of Social Work carried on by Missionaries in the Foreign Field". Seldom has a lecture of full of interest and pleasure been afforded a Canning audience. An expression of appreciation moved by Lady Borden was presented to the speaker. Piano duets by Mrs. A. D. Ellis, Mrs. Walter Dickie, Mrs. Clifford Bowly and Miss Josephine Harris, and violin solos by Mrs. (Dr.) F. F. Chute were much enjoyed. At the close of the meetings a social hour was spent over the tea cups. Mrs. Basil Howard, Montreal, Miss Mona Harris, Kentville, Miss Mildred Lavers, New Ross, Miss Gladys Howard, of the staff of the Royal Bank, Bathurst, New Brunswick, who have occupied the bungalow of Mrs. John Cross, Kingsport, returned to their homes Monday morning. Miss Lavers is visiting her cousin, Miss Gertrude Chase, Lakeville. Miss Thelma Blair, also of the party, has returned to her home in Kentville. Mr. and Mrs. Roland Spicer (nee Nellie Baine, Canning), of Boston, are being congratulated on the birth of a daughter. Mr. Alfred Newcombe, Upper Dyke Village, underwent a successful operation for appendicitis in Westwood Hospital, Wolfville, on August 1st.

SPLENDID CONCERT BY CANNING AND KENTVILLE BANDS

The concert by Canning and Kentville Citizens' bands was held in the Canning arena on Friday evening, July 31, under the direction of F. F. Northup with the talented assistance of Mrs. Eugene Eaton, soprano, of Wolfville; Miss Kathryn McLean, baritone, Windsor; Mrs. A. B. Burgess and Mrs. Clifford Bowly accompanists. The concert was the best of its kind ever held in Canning and the audience of 450 was most enthusiastic in its reception. Each of the solo artists, being well known favorites, received generous applause and responded to repeated encores. The massed bands assembled at the armories and paraded to the arena, their music delighting the town. The expression and harmony showed fine work on the part of the leaders, F. F. Northup, Canning, and Roy Walsh, Kentville, and the bandsmen. It is hoped that these bands will work together in future, as it is the aim of both to produce as high a class of music as possible. The bandsmen were much encouraged by the interest shown and the co-operation of the rink management was appreciated. Following the concert a dance under the auspices of the bands was held in the armory. The Rainbow orchestra, of Kentville, furnished delightful music and the evening was one of much pleasure. The proceeds of the concert amounted to \$106.00.

SAYS CO-OPERATION HAS STABILIZED VALLEY INDUSTRY

AMHERST, Mass., July 29.—Co-operation among fruit growers of the Annapolis Valley, Nova Scotia, has stabilized agriculture in that region and brought about better marketing facilities, improved quality of fruit and a reduction in the cost of general farm supplies. John N. Chute, manager of the co-operative organization of growers in the Valley said, in an address today before the convention of Massachusetts Fruit Growers. Beginning with a unit of eleven men 18 years ago, the Annapolis Valley system now has 58 local co-operatives with a central overhead organization and an enrollment of fifteen hundred members. By control of warehouses, chartering of steamships and opposing railroad rate

increasing, the co-operatives had improved marketing facilities, he said, while the purchasing organization had saved the farmers eight per cent. on flour and

feed and two dollars per ton on fertilizer. Minard's Liniment for Aches and Pains.

A Good Way to Get the New Novels WITH COMPARATIVELY LITTLE OUTLAY You would like to be able to read the new novels—early—before they come out in book form—just as the publishers do? Why, of course! Well, you can do just about that. Nowadays eight of ten of the new novels run serially in the popular magazines before being published in book form. "Cosmopolitan" carries six or seven a year by best-selling authors, "Good Housekeeping" and others, three or four each. Do you see? That means that for a subscription to "Good Housekeeping" you get at least three novels, besides all the other stories, articles and helpful information. We place subscriptions to "Good Housekeeping", "Cosmopolitan", any magazine. We save you time, postage, worry. Isn't that worth asking us about? THE ACADIAN WOLFVILLE, N.S.

Advertising as Big Factor in Market Building

Publicity for Maritime Products will Keep Maritime Money at Home, Writer Declares

(By A NOVA SCOTIAN in the Halifax Herald.)

There are 896 different articles made in the Maritimes. Of these there are not more than 50 that are well known. In examining the Canadian Manufacturers Trade Index, it will be found to contain all the articles required in THE AVERAGE HOUSEHOLD, with the exception of rubbers, flour and packing cases-products. This latter will soon be manufactured at Moncton.

The solution is for the manufacturer to spend say 1 per cent. of his sales in the Maritimes of these 896 articles in advertising them to the public. The advertiser is a manufacturer and knows from experience that such is the case. Please note that a percentage of the sales is the proper way to look at the appropriation for advertising. Not the number of dollars.

It is necessary to stir up the manufacturers in our own Province. They must do something for themselves and not leave it all to the Government of Nova Scotia. The Government cannot supply them with orders to keep their plants running or compel the people to buy articles made in Nova Scotia.

Mr. Frank Stanfield put it very plainly on his return home when, speaking at Saint John, he said, that unless we wake up, we would find ourselves very far in the rear in the race for business.

There are many manufacturers who are strongly in favor of the new government of Nova Scotia. The government would say to them: "We are working as hard as we can to put your affairs in proper business shape, and expect that you will put forth stronger efforts to develop your home market, that will be of great service to us."

The German Manufacturers are sending special editions of a paper to Canadian Manufacturers. The text contains good solid business ideas, and the ads. are a regular exhibition. One does not require to read the wording in the ads. to know the lines they are advertising. Nova Scotian manufacturers will have to adopt the same methods of illustrating their ads. An ad with a picture is worth one twice as large without an illustration.

This is perhaps a line that might be taken up by the Minister of Natural Resources. While that Minister, no doubt, will have his work like a mountain before him, it will be well for him to impress upon the men who are handling Natural Resources, that it is their business to sell them to the people of Nova Scotia.

Take fish as a sample. Some good work has been done, but the work has been confined to a few firms. There are the lines that Nova Scotians do not know are used as food right in their own province. The only way for the public to find out is to be told.

Summer Visitors—Our cool evenings are one big attraction in Nova Scotia. Most people believe that it is a drawback. Sell Nova Scotia climate to the Nova Scotians first.

There is a great lack of knowledge as to what a summer cottage should be like. A booklet with plans that the average farmer could erect, and what the visitor requires for diet, could be printed and distributed at the county exhibitions. Models might be made at the Technical College, showing different sizes and construction which will impress upon those examining them, the fact that they can make them, and derive some extra revenue, for rent and food; to say nothing of the improved morale of meeting persons who have made good in their own lines, and are having a vacation. It would also have the effect of showing the public the work of the Technical College, and should increase the number of students.

Jam Making is an extra that could be added to the Creameries. They already have their collecting system, accounting and selling organization. It would not require an expensive plant to get this line started. A few jacket kettles for steam boiling being the largest items outside of the packages, labels and containers. The quantities of jam sold in Nova Scotia are enormous. The story of Messrs. Jack and Cardozo of Digby is well worth looking up. Two men, working in a jam factory in Ontario, saw so much being shipped to Nova Scotia that they saved their money and came to Digby and started in business for themselves, and are making good. There is lots of room for more jam making. The extra revenue to the farmer for his small fruits would make quite a difference in the profit on a farm. The English farmer in Nova Scotia would jump at the opportunity of selling small fruits for jam making. Yesterday I was speaking to an Englishman who is raising celery for the C. N. R. dining service, and he would be only too pleased to start in raising small fruits if he were sure of a market, claiming that it is more profitable than potatoes, turnips and other similar lines.

The training of butter makers is similar to jam making and perhaps a bit more exacting, as to cleanliness, etc. Some of these could be trained in making jam, or a jam maker be engaged to instruct those who wish to start in a small way.

Fashion Fancies

The simple sports model, made as straight as a die, with a simple skirt and slip-on sweater, is one of the most popular of the season.

making, the Creameries would gradually develop the idea of the co-operative marketing, which will produce much more real profit for the farmer than co-operative buying of articles in less than carload lots.

"TRIPPING THE LIGHT FANTASY"

By an Oldtimer

No, I never could dance. I don't know why—but I simply never could. And it has been my fate to desire to be a good dancer more than it has been to excel in any other thing.

When I try to dance my eyes grow dim; my heart starts to beat violently from pure emotion; my eyes bulge from my head; my tongue hangs out; my mouth dries up; my ears ring; my teeth loosen; my knees wobble; and my feet swell and I tread around in strange staggers. Music fades from my hearing, and all in all I want nothing so much as to go to some distant desert island and sit under the shade of a lonesome palm.

I have sat about in dance halls and envied weak-chinned, loose-lipped, slobbering chaps who had the most marvellous gift of dancing, and would gladly have exchanged with them any poor accomplishment of which I thought myself possessed. I used to think that the ability to dance was given them to make up for their lack of intellect. In other words that their brains went to their feet.

I recall a boy who was the weakest mind I ever ran across. He would come to the office and sit about and moan and cry and was for ever wanting to borrow half a dollar. But put him on the dance floor and he was a king. He toddled through a dance program of twenty-four numbers, and had every girl in the town on his neck. I envied him so that I would have gladly taken on his weaknesses and sunk into an imbecility such as was his if I could but fling my feet about with his abandon.

I am not saying that it does not take brains to be a great dancer. Dancing is poetry and everything else expressed through the feet and legs. The creation of dances is a form of art not of the lowest by any means. Indeed in some respects positive genius enters into it.

I never was able to fully overcome the terror of the night when I braced up to ask a girl to waltz. I had been taking lessons and could do very well. I thought, when alone with my teacher. We started off together, took a turn or two, and I showed up "distanced" in three swings. She looked at me in wonder, said something that sounded like counting the beats of the bass fiddle and I stopped. "Dancing is a pulling, foolish, weak-minded accomplishment," I said, and I quit here, now and forever. I never after that asked a stranger. I would no more go to a woman and ask her to dance with me, than I would go up and assassinate her with a pair of brass-knuckles.

She said that, had I persisted, I might have made a dancer. But the price was not worth the game. I suspect that

it is the same as it is with writing an article, or anything else. Five times I failed. Then I got away one day, and God forgive me, I have been writing ever since. Maybe, dancing is like that, but I don't believe it. I believe that the ability to dance is given people to make up for the lack of other things.

Seems to me half my life has been spent watching other people have a good time at a form of pleasure that was never mine. I have stood around outside the moanings of the violin, the call of the horn, the plaints of the cello—and later the wailings and the defiance of the saxophones.

Many's the time I have gone away into the moonlight on some lonesome rock by the sea—it is worse at the seaside resort—and wondered if life were worth while and if patient merit were ever to be rewarded through the feet.

Terpsichore snickered, Melpomene wailed, Bacchus invited, Ceanothus pleaded and Endymion went to rest. But alas! The violins moaned on; the cello complained; the saxophone called across the waves, and the wild sea-birds said ha! ha! to the summer night from the rookeries on the rocks.

Yet all is not lost! Today I see some of the old-time fancy dancers who once commanded the floor, roaming around town as policemen, truck-drivers, garagemen, with not a limber bone in their bodies. I see the old girls waddling about and not knowing any more how to dance a modern dance than a hen knows how to swim. I see these relics of a by gone day just where I have always been. And I laugh like the wild birds, when the violins moan, and the cello complains and the saxophone calls aloud in defiance of the has-beens.

SUMMER DIARRHOEA

August and September are the months during which Summer Diarrhoea takes its heaviest toll of life. Especially among children of one or two years of age are the losses occasioned by it severe. In one Nova Scotian town last year no less than 44 infants died in those months, the births during the two months in the same town totalling 107. In other words the mortality represented the loss of 4 infants out of 10, and this was mostly due to Diarrhoea. Much can be done to prevent this.

I. Breast feeding, especially in hot weather, is the most important single factor in keeping infants well.

II. Cleanliness of the baby is important and not only his cleanliness but the cleanliness of all who come into contact with him. Infection is usually brought to him by someone from some outside source.

III. Keep the baby comfortable, in cool and well ventilated places, and protect him from the flies. If he must be fed from the bottle, see that the bottle and nipple are boiled before being used.

IV. Milk is probably the basis of the food of all babies. See that it is good and as pure as can be obtained. Pasteurize or boil it if necessary, after which cool it rapidly. If you do this remember that the baby may require with the milk the vitamins which may be obtained from living food.

Be sure your milk mixture is correct. No two babies agree in respect to their food requirements or their tastes.

VI. Do not forget that baby gets thirsty, as you do. Give him water, but be sure the water is pure. Boil the water and cool it, if you are not sure of its purity.

VII. When in doubt, or at the first appearance of illness, see your doctor.

A CASE OF FREE PUBLICITY

Harry Woods, editor of the Wellington, Kansas, News, went to a church supper some time ago to which he had been given a "free" ticket. As he neared the portals he heard one good sister whisper to another, "Here comes one of those deadheads." Reflectively he ate his chicken wing and returned to his office and got out his trusty pencil. He found that he had given that particular supper just \$3.45 worth of free advertising and in return therefore had received one chicken wing, and the name of "deadhead." Since that day he has collected cash for all church suppers, and other pay functions, has never accepted a free ticket to anything, and he also gets the choice part of the chicken, which he purchases for himself with the cash paid for advertising which he used to give gratuitously.

Little Girl—"If I were a teacher I'd make everybody behave."

Auntie—"How would you accomplish that?"

Little Girl—"Very easily. When girls were bad I'd tell them they didn't look pretty; and when little boys were bad I'd make them sit with the girls, and when big boys were bad I wouldn't let them sit with the girls."

The missionary concert which was presented in the Baptist church last Sunday evening by the Mission Band and Young People's Guild, was listened to by a large and appreciative audience.

The exercise, "The Conquering Cross" was well taken by all who had part in it, both music and reading. Mrs. Fred Wood took the leading part as the "Spirit of Missions", and, as she always does, did it excellently. Mrs. Wood is a gifted reader and we are always sure of it being well done when she assists.

Mrs. A. L. Hardy, Kentville, is visiting Mrs. Elizabeth Chase, Church Street.

Frances Angevine, of Normal College, Truro, has been the guest of Mr. and Mrs. Winter, Church Street.

Mr. John MacDougall left for his home in Pictou, to join the harvest excursion on Aug. 11th.

Several of the farmers in Church Street are through haying, while those who are not are still bearing the "burden and the heat of the day" in real earnest.

Mr. James Joy, who was formerly in the employ of the late Mr. Oscar Chase, has returned with his family to Church Street and is occupying the house on the farm now owned by Miss Susie Chase, and known as White Hill farm.

Since leaving here Mr. Joy has had varied experiences, as many others did who answered the call of the motherland during the great war. He spent some two or more years in the war zone and nine months in a German prison. Since coming home he bought a farm in New Brunswick, but it being some twenty miles from a railway station, could not seem to prosper there, and leaving that for his father, wended his way back to the Annapolis valley, where every few miles there is a railway station. It is difficult to outstrip the Valley, especially in accommodations to the farmer.

On Friday, Aug. 31st, near the dyke road leading to Evangeline Beach, what might have been a fatal accident was averted by the presence of mind and courage in a case of emergency of one of our Port Williams young ladies, viz., Miss Hilda Thomson, of whom we have reason to be proud.

A large Rickenbacker sedan, owned by Mr. Bradford Chase Patch, of Brighton, Mass., driven by Mrs. Patch, struck a sandy piece of road, and Mrs. Patch, losing control of the car, it plunged head on into the ditch, throwing Mr. Patch violently against the windshield, cutting him severely behind and over the left ear, severing an artery. Miss Thomson with her friend, Miss Erna Taylor, Wolfville, and Mr. H. Tracey, engineer at Kentville Sanatorium, were not far behind (the others just having passed them and went to their rescue at once. As soon as possible Mr. Tracey got Mr. Patch in his (Mr. Tracey's car) and rushed him back to Wolfville. Miss Thomson standing behind Mr. Patch and holding the wound together until they reached Rand's drug store, where they telephoned to and found Dr. Elliott in. Hastening to his office at once, Dr. Elliott, assisted by Miss Thomson, attended to Mr. Patch's wound in which it was necessary to put several stitches. Miss Taylor arrived later with Mrs. Patch, who was badly stunned for a time, and she also sustained a cut on the forehead in which was a piece of glass about one half inch long.

They secured rooms at the Acadia Villa hotel where they stopped until Sunday, when they were able to resume their journey to Halifax. Before leaving Wolfville, they asked Miss Thomson and Miss Taylor to call and presented them each with a beautiful string of pearls in appreciation of their timely assistance. Before parting Mr. Patch told Miss Thomson that he realized that she had "saved his life". "It pays to be kind and help the other fellow."

CROP REPORT

The crop report issued by the Bank of Montreal under date of July 30th, has the following to say concerning conditions in the Maritime Provinces: In New Brunswick an above average hay crop of good quality is now being harvested. Potato prospects continue favourable. In Nova Scotia hay is general and the yield will probably be heavy, but warm dry weather is now required by all crops. Apple conditions are fair but the fruit is badly spotted. In Prince Edward Island the prospects generally are good.
