## AT GRAND RAPIDS

### HAD EMBARKED FOR CANADA.

Hon. Frank Oliver Made Run From Athabasca Landing to Head of Rapids in Two Days—Will Proceed to McMurray by Snow.

Grand Rapids, Alta., Tuesday, June 21.—Hon. Frank Oliver arrived here last evening in a Peterson canoe. He is accompanied by his private secretary and two canoe men. They left the landing on Saturday evening, thus making the intervening 150 miles in two days.

The gas well at Pelican Rapids is still spouting gas. The attempt to use it last year was not successful. A mass of concrete was built around the iron pipe, but even this did not shut off the flow, the gas is pouring out between the pipe and the concrete as well as through the pipe. Apparently the only way to stop it is to destroy the well, which may be done as a means of preventing the waste of gas.

Crops around the Landing look well and there is a large amount of settlement. The land is very good, much better than reports have represented it to be. Some parties were seen at the Landing en route for the Peace river with ox teams.

Dr. Barrow, of the provincial health department, is here looking after the reported outbreak of smallpox. He is accompanied by his son. Barber's steamer is expected down from the Landing tomorrow and the doctor will return on that.

Inspector Tremayne, of the H. B. Co., arrived here yesterday by canoe from the Landing, with two men. The minister of the interior will travel with him to Fort McMurray on a scow which the company have here. If they do not catch the steamer Graham at that point they will proceed by canoe to Fort Smith, 300 miles beyond McMurray, where they will meet the company's steamer, Mackenzie River.

The water in the Athabasca river very low, having fallen considerably during the last few days. Frank Crean, of the geographer's branch of the interior department, was at the Landing when the party left, with a small steamer and scow which he is taking down to aid in exploratory work on the Athabasca between McMurray and Smith Landing. The Peace river to the "Chutes" below Vermilion, and on Lake Athabasca. He will probably have to make a study of the mountainous regions from the south. Last year he went north to the Jasper park from a point on the Canadian Pacific railway and the trip took 20 days. This will be his first trip west from Edmonton. The party will proceed to the west as the Yellowhead route and work from there towards the Brazeau river. It will be out in the field until some time in October.

Material for cement industries. Practically all the coal areas located in Central Alberta have been surveyed by Mr. Dowling, who, last year prepared a comprehensive report on the coal areas of Alberta, Saskatchewan and Alberta, which was published in book form by the department of the interior. The report is in great demand.

Mr. Dowling stated in a representative of the Bulletin this afternoon that while coal was almost the sole mineral product of economic importance on the Alberta side of the mountains at Jasper park there were limestone deposits of great extent which provide material for great cement industries.

## WHEAT MARKETS ARE EXCITED.

### Reports of Dry Weather From Wheat Belt Send Prices Skyward.

Minneapolis, June 20.—September wheat went sailing skyward on the news of the chamber of commerce exchange this morning. It opened at \$1.05 and in a few minutes went up to \$1.07 3/4, 2 3/4 cents higher than Saturday's close. Private wires from the northwest, running into brokers' offices, bring reports of continued dry and hot weather in the wheat belt. The interior trading points are sending in buying orders and there is an apprehensive feeling among traders for the crops.

## CHICAGO MARKET AFFECTED.

Chicago, June 20.—A complete upset for the wheat trade occurred this morning as a result of reports from points in the northwest. The trade jumped to the conclusion that this meant a dry period for the spring wheat country. The market opened with an upward rush, following the sensational strong turn of prices in Minneapolis. July wheat for the morning covered a range of 5 1/4 to 5 3/4 cents. September opened with excited buying and prices went all the way from 91 3/4 to 92 3/4 cents.

## QUEEN'S OWN RIFLES.

### Five Hundred ex-Members, Including Winnipeg Divs., Sign Roll.

Toronto, June 20.—Nearly five hundred ex-members of the Queen's Own Rifles signed their names to the roll at the registration headquarters. Among the names appended by ex-members is Dr. George Bryce of Winnipeg, whose name was carried from 1863 to 1887. Dr. Bryce is one of Winnipeg's most prominent divvies. He served in the service in the Penton raid in 1866.

## HE ASKED FOR CLEMENCY.

### Montreal Forger Unlucky to Write Family Sentenced Heavily.

Montreal, June 20.—After a brief career as a forger, Arthur Edward Richmond, alias Dr. Shaw, was sentenced to serve five years in the penitentiary. There had been five different charges of forgery for small amounts against Richmond, but he was sentenced on only one.

When he was brought before Judge Lett on Tuesday last he was asked if he could give any good reason why he should not be sent to the penitentiary for three years. He did offer what seemed a the time as a reason, namely, that he wished to support his wife and children and that this was his first fall from grace. Investigation was made and it was found that Richmond's family would be much better off if he were sent to the penitentiary. His wife and one child are now working, and according to the report made to Judge Lett, are much better off than when their natural protector was a home. Richmond was taken to the penitentiary this afternoon to begin his term.

## MATERIAL FOR GREAT CEMENT INDUSTRIES

### Exists in Abundance in Jasper Park

Reservoir Says Geologist of Interior—Leaving Survey Work Between Athabasca and Brazeau Rivers.

A topographical survey of the portion of the Jasper park reserve lying between the Athabasca river and the Brazeau is to be commenced this summer by the department of the interior. D. B. Dowling, geologist of the geological department, who is to have charge of the work in the field, is now in Edmonton making arrangements for the season's work. Mr. Dowling will leave with a party of seven men for the west in the course of a few days. His chief concern this year will be the staking out of the coal areas which abound in the park reserve. He will also make a study of all mineral formations in the district surveyed.

## EIGHT YEARS' SURVEY.

Mr. Dowling has been engaged in geological work in Alberta since summer for the last eight years. His chief concern this year will be the staking out of the coal areas which abound in the park reserve. He will also make a study of all mineral formations in the district surveyed.

## THE G.T.P. PRESIDENT IS DEPENDING A SUIT

### Chas. M. Hays in Vancouver to Contest Action Against G. T. P. Townsite

Vancouver, B.C., June 20.—Charles M. Hays, president of the Grand Trunk Pacific railway, arrived in Vancouver today on a special trip from coast to appear as defendant and chief witness in the case of Frewen vs. The Grand Trunk Pacific Townsite Co., which will be called in the Supreme court tomorrow. This action, which involves approximately half a million dollars worth of property in the Grand Trunk Pacific townsite, is being brought by Morison Frewen, the well known bi-Metallist of this province, to land, to enforce an alleged agreement of sale from the townsite company which he bases his claim on.

## NEW BIG HOTEL BEING ERECTED IN THE CITY

### Will be Known as the King George—Will Have Accommodation of 110 Rooms Above the Ground Floor—Will be Fitted Out in Up-to-Date Style.

What the proprietors claim will be the biggest as well as the finest hotel in the city is now under construction on First street. It is what is known as the new Crystal block, intended at first for a five-story store and office building, but the plans of which have recently been changed to make it a premier hotel worthy of Edmonton as it will be in the next few years.

## KILLED BY LIGHTNING.

### Saskatchewan Farmer Instantly Killed While Braking Prairie Ground.

Windhurst, Sask., June 20.—John P. who lives in the Grayson district, was instantly killed by lightning while breaking prairie ground on Saturday morning. He was struck from somewhere in Ontario, where he leaves a wife and two children. A number of fine looking grain fields were destroyed by the same storm.

## NEGRO CAPTURED

### MADE TRIP IN TWO DAYS.

Man Who Made Sensational Escape on Route to Stillwater, Okla., Boarded Train to Return to Canada and Was Recaptured by Sheriff Fox.

Overly, North Dakota, June 19.—James Chapman, the negro who made a sensational escape from the Stillwater Oklahoma, sheriff, near here last week, by leaping headlong through the window in the vestibule of an express train, was recaptured here by Conductor Galloway, of the same line, Sunday. The negro had embarked on the train to take passage back to Canada, which was his place he had been extradited by Sheriff Fox.

In some way the negro had released himself from the handcuffs which he had on his wrists when he escaped, and although pursued across the country there was no clue as to his whereabouts until he embarked on the train yesterday. The conductor recognizing him, covered him with his revolver until he could be taken into custody. A reward of \$75 was offered by Sheriff Fox for his recapture.

## ANOTHER SCHEME OF WIRELESS PROMOTERS

### The Sun Electrical Company, Which Claims to Get Electricity From Any Part of the Globe, Has a New Market, but Much Skeptical.

Calgary, June 20.—Charles Emerson, aged 25, who was working on the railway of B. McEwen, was struck and killed by a bolt of lightning last evening. On the roof of the office at their refusal to be paid for the work done, Emerson was not afraid of the storm. The bolt struck his hair, passed down his body tearing the clothes from his feet. Emerson was from eastern Canada, but came a week ago from Lethbridge.

This district has experienced good rains, which started last Sunday afternoon and continued during the night. The precipitation was high, with the greater portion of the province extending north to Lacombe and south to Macleod. There was a little hail but not enough to do any damage. Thunder and lightning accompanied the rain generally, but the above is the only reported fatality.

## EVERETT THAW GOES BROKE.

### Testifies in Dressmaker's Suit for \$100 That All She Has Left Is Furniture.

New York, June 19.—Times are hard with Mrs. Evelyn Thaw. Mrs. Thaw testified in supplementary proceedings, that she was so poor that she had to pawn her engagement ring.

All she had in this world, she said, was the furniture of her three-room flat at 31 West Thirty-third street, some day with which she made models and a wardrobe.

Even the diamond engagement ring Harry Thaw gave her is pawned for \$300, and she does not know where the ticket is.

A dress was responsible for her latest declaration of financial embarrassment. It was a blue tailor-made walking suit, which she purchased two years ago from Kehoe, of 322 Fifth avenue. But she did not pay the bill, \$100, so Kehoe sued and obtained judgment by default.

Mrs. Thaw said she has been getting \$10 a week to live on, and the rent of her flat, which is \$95 a month, has been paid. The check, she declared, have been signed by various lawyers for Thaw.

## OPENS CAMPAIGN

### SEDEGWICK MEMBER PRESENT.

First Guns of Fight in Vermilion Fired in Home Town of Conservative Candidate—Hon. Mr. Sifton Receiver With Cheers—Delivers Effective Speech—Ewing Represents Clark.

Vermilion, Alta., June 21.—The Odd-fellows' Hall was comfortably filled at the opening meeting tonight of Premier Sifton's campaign. H. S. Armstrong presided. Chas. Stewart, M.P.P. for Sedgewick, was the first speaker. J. G. Clark, the Conservative candidate, was represented by A. E. Ewing. Both parties were represented in the audience, but the Premier had splendidly the best of it, and the close of his speech was marked by hearty outbursts of applause. The meeting closed with the National Anthem and cheers for Premier Sifton.

Chas. Stewart, M.P.P. for Sedgewick, was the first speaker. He did not think the fight a very bitter or serious one. The late government had been returned by a large majority, but a difference of opinion arose among the government supporters, and the Conservatives thought this a good time to go in and put the Grits out of business. In this he had no fault to find with the late government, but he thought the effort should not be allowed to succeed.

On the evening of the 20th, the government found that a bargain had been made with which they could not agree, and when the late government refused to rectify matters, they had said so and voted accordingly as they did this afternoon. The Conservatives should put them on the back if their idea was to promote good government.

When the resignation of the government found that a bargain had been made with which they could not agree, and when the late government refused to rectify matters, they had said so and voted accordingly as they did this afternoon. The Conservatives should put them on the back if their idea was to promote good government.

## TO HOLD CAUCUS

### GENERAL ELECTION EXPECTED.

The Provincial Tories Are to Assemble in Calgary on Tuesday Next—Provincial Leader Will Be Chosen and Plan of Campaign Discussed.

Calgary, June 21.—It has been learned that the Conservative party has decided to call a caucus very shortly in order to take up a number of the important questions and conditions now before them. This is a step that they have been considering during the whole of the year, but the time has not been ripe until the present. It does not mean that efforts are being made to run a straight Conservative candidate in each of the present by-elections, but it means that the Conservatives expect a general election in the province.

Dr. Brett, president of the Conservative Association, is ill and has been forced to take a long trip for his health. He will be gone at least three months. He has left instructions with his secretary to call a caucus for 10.30 o'clock in Calgary on Tuesday, July 15th, and in all probability this caucus will decide on the provincial leader for the party and they will proceed to get in shape for the fight that is looked for in the near future.

The laying of the corner stone of the new Y.W.C.A. building took place this evening at eight o'clock and was attended by very interesting ceremonies. Mrs. Underwood, the president of the Y.W.C.A., conducted the ceremony. R. B. Bennett, M.P.P., delivered an address, as did several clergy and others.

## EUROPE TO LET U.S. TO STEW IN ITS OWN JUICE

### This is What Gerard-Finnes, Naval Expert, Figures Out—In the Last Analysis Japan Will Fight United States He Says.

London, June 21.—The discussion of Great Britain's naval policy is a thing that to the American who hears the endless rounds of contesting argument of articles which "run on for ever." Another English naval expert has discovered shadows in the Pacific coast by war clouds formed because of the relations between the United States and Japan and especially because of the "American open door policy."

This latest contribution has appeared in the Daily Graphic, forming part of an article which, under the general title of "The Sovereignty of the Seas" has been embittering still further the "naval policy" wrangle. The author of this series is Mr. Gerard Finnes, a member of the House of Commons, and a naval expert who is not particularly well liked in the admiralty because he insists on "speaking in public."

Mr. Finnes states that the Anglo-Japanese alliance cannot be renewed on its expiration in 1915 and that there are grave indications that this agreement may not conserve the far eastern ideas on peace lines even before two or three years. He argues, too, that Great Britain must give up its policy of regarding the empire in the light of a "hen and her chickens."

"Japan," he asserts, in the last analysis, will fight the United States for the reason that prompted Bismarck to fight France. He admits that if Japan today ordered Germany out of Kiaochow, the Kaiser would have no alternative but to move out, adding, however, that in such an event the old European league would revive and Germany, France and Russia would overthrow the Mikado's power.

"But," continues the assertion, "Europe is not going to lift a finger. I imagine when war breaks out between Japan and the United States it will be to save to the latter the islands of which they deprived Spain. Europe has a Monroe doctrine of its own and it includes the determination to leave the United States to 'stew in its own juice.'"

## STEAMERS COLLIDE IN ENGLISH CHANNEL

### In Impenetrable Fog Steamer Yews Rammed the La Rochelle, Cutting Latter Almost in Two—Captain and Eight Men Drowned When Steamer Sank.

Holyhead, England, June 20.—Rammed by the steamer Yews and cut almost in two, the steamer La Rochelle sank within five minutes of midnight in the English Channel.

Admiral Kingsmill in Halifax. Halifax, N.S., June 20.—Admiral Kingsmill is in Halifax in connection with the dockyard arrangements here for naval and marine and fisheries requirements. Admiral Kingsmill finds that there is ample room in the dock yard for both purposes, the marine and fisheries taking up the southern portion, and the naval department the northern. The old naval hospital will be used for the cadets' college. The Admiral says the Niobe will be turned over to the Canadian government on July 24th, and in ten days thereafter will be ready to sail for Halifax.

Admiral Kingsmill will sail for England at the end of next week.

## MANY PROSTRATED BY HEAT.

### Excessive Heat Causes Much Distress in Winnipeg and May Damage Crops.

Winnipeg, Man., June 20.—With the thermometer touching 90 in the shade many people were prostrated in Winnipeg today. The excessive heat was accompanied by a hot southern wind which added much to the distress. It is feared that a continuance of this weather will seriously damage the crops in this district.

DELLAR SAVED THE GAME WITH REGINA

With Three Men on Bases and Two Out Dell was Replaced by Dellar. Box Struck Out the Next Man up. Edmondson Knocked Hooker out of Box. Hickey Awarded to Edmonton.

(Wednesday's Daily).

Regina, Sask., June 21.—Only the fact that today was the longest day of the year and the Edmonton and Regina teams to conclude a long winter argument. Some two hours and twelve minutes of a stable summer evening were occupied in the pastime. Otherwise there were no unusual features. Regina losing again. All the valuable local talent was thrown into the combat, while after trying Dell as a pitcher only one more out was secured. Dellar, sent out Dell. The score was Edmonton 8, Regina 5. At the outset, the long and short of it in the way of writers were presented for the public inspection. Dell can look over anything in the league, while Johnny Hickey is the best pitcher in the west. Johnny was hit harder than Dell, but this was simply because the Slider burning had three strikes in the first inning while Dell was only out. He walked six and pitched three. After Hooker had been pummeled for a quarter of an hour in the seventh he was derelict and Houston, our latest thing in curve dispensers, sent in. He looks good. Dell lasted longer.

The bases full and two out in the ninth was the historic position when Stub Spencer wig-wagged the Deacon and he sent in Dellar. Not to be outdone, Manager Roxy also made a shift and sent in his last available player, none other than George Sage, who is considered a peat off a long hit. In keeping with baseball tradition, Sage, old chap, should have swatted out a four-bagger and won the game, but three wild swings were his contribution, and the hopeful fans were left to gloom again. The Eskimos made up for the batting vacation of the previous day by rapping out fourteen hits. Lusi was the loud noise with a pair of three-baggers and a single, while Matt was rapping out fourteen hits when a bang-up battle until the seventh when ten of the fish-eaters went to bat and four were out.

From a local point of view it was largely a case of neglected opportunities, the lack of timely hits being shown by the fact that neither of the white suits were hit. Manager White received word today from Secretary Patrick that Pitcher Hickey, claimed by Calgary, had been awarded to Edmonton.

MEDICINE HAT IS ON THE TOBOGGAN SUIDE

Maroons Take Second Game of Series From Had Head X-ray. Was Hit Hard and Opportunistically—Winnipeg's First Baseman Hit in Eye With Ball.

Winnipeg, June 21.—Winnipeg kept up the good work by again trimming the last falling Medicine Hatters tonight to the tune of 5 to 2. The Maroons hit Gordon hard and opportunely, while Miller was hit with the exception of sixth round, when he was touched up for two runs. Jack Beatty, the star first baseman after knocking out home runs was hit in the eye with a fast in-shoot and was forced to retire. The hitting of Zimmerman was a feature, he collected three safe drives for as many times at the bat. His last attempt was a near home run, he brought in two runs and was only slipped at the plate. Called end of sixth on account of darkness.

CALGARIANS TOY WITH ROBIN HOODS

Carney's Bunch Outplayed Moose Jaw in Every Department of the Game. Samuels Was Hit Hard—Moose Jaw Failed to Hit When They Were Needed.

Moose Jaw, June 21.—Calgary simply toyed with the Robins today and teased them with a lousy run, scoring nine themselves. Opportune hitting would have helped the locals but when timely hits were needed, the best batters struck out. It was simply a case of Calgary playing the best ball in all sections. Some pretty running catches and extra base hits on both sides were features.

Forest Fires Explode Powder.

Port Arthur, June 21.—Contractor McEwen, working at the T.C.R. North of Lake Nipigon, suffered the loss of two powder magazines which were caused to explode by forest fires. They contained 700 cases of explosives and were valued at \$15,000. The magazines were on an island and the fire jumped across from the mainland. No one was injured.

Chamberlain's Stomach and Liver Tablets

will brace up the nerve, banish that headache, prevent drowsiness and invigorate the whole system. Sold by all dealers.

GRANDE PRAIRIE ROAD MEN REACH EDMONTON

Envoy of Settlers Who Will Build Road into Northwest Country to Not Favor Jasper House Trail, but Think It Should Be Closed to Edmonton.

(Wednesday's Daily).

Two envoys of the settlers of Grand Prairie, sent to locate a route for a direct road from a point on the Grand Trunk Pacific railway, and to solicit the interest of the provincial government in the matter, arrived in Edmonton Sunday. The two representatives of the people of the last Northwest are H. Roberts, of Bear Lake, and L. H. Adair, of Fish Creek. They left Grand Prairie on Friday, June 18, striking south from Beaver Lodge, ten miles west of Saskatoon Lake, and followed the old hunting trail, proposed as a route for a wagon road, south to a point on the G. T. P. grade about twelve miles from the mouth of the Yellowhead Pass.

Louis Gustinie, the Indian guide of Plying Shot Lake, led the way along the old trail which has been seldom followed in later years. The trip through the wilds, for a distance of about 100 miles, was made in ten days. Pettition from Grand Prairie. Messrs. Roberts and Adair are the bearers of the following letter:—Saskatoon Lake, May 21, 1910. To Whom It May Concern.

The necessities of the case connected with the difficulties of travel involving much anxiety and expense in coming into the country during several years back, but especially this year, have compelled the people of Grand Prairie to solicit in favor of a direct road to and from some point on the G. T. P. railway.

WESTERN TRAVEL VERY HEAVY

C. E. McPherson Says Passenger Business is the Best Ever.

Winnipeg, June 20.—There has been no parallel for the present passenger business in the history of the city in the west," said C. E. McPherson, general passenger agent of the Canadian Pacific railway's western lines, yesterday.

F. C. MEYERS DISAPPEARS

Great Northern Agent at New Westminster Disappears Under Peculiar Circumstances.

New Westminster, B.C., June 20.—F. C. Meyers, Great Northern agent here, disappeared on Saturday night under peculiar circumstances, and there is as yet no clue to his whereabouts.

PORTUGAL CABINET RESIGNS

Lisbon, June 18.—The Portuguese cabinet, chosen December 22, 1909, under the presidency of Francisco A. Davis, has resigned.

BUY A DISC HARROW THAT FOLLOWS THE UNWEARINESS OF THE GROUND, AND YOU WILL BUY A MASSEY-HARRIS.

FORMER SLAVE ASKS FOR JOB IN CALGARY

Veritable "Uncle Tom," 80 Years Old, Tells Pathetic Story To City Fathers—Is Brother of John Ward, A Famous Broncho Buster in the Calgary District.

(Wednesday's Daily).

Calgary, June 19.—Stories of the slave trade in the Southern States with all its attendant horrors, were vividly brought to the minds of the city commissioners yesterday morning when George Ward, a veritable "Uncle Tom," who declared that he was 80 years of age, called upon the frunivertate and pleaded for a "little something to do, so that he might live."

ARCHBISHOP'S FUND FOR WEST INCREASES

Will Have Half a Million for Western Episcopal Mission Work—People of Old Lands' Finances Strong Interest in Cause—Five Hundred Guineaes Subscribed by King.

Winnipeg, June 20.—Rev. Douglas Ellison, late head of the South African church railway mission, is in Winnipeg en route to the west. Mr. Ellison was here last year for the purpose of preliminary survey, and at that time saw a large part of the west, travelling widely through all the provinces. What he saw and learned at that time impressed him deeply with the need of immediate action, and he returned to Great Britain with the thought that a large sum of money ought to be raised at once, and a body of selected clergy sent to the Dominion to do work in the new portions of the country where there were large settlements of British people and others needing ministrations.

WANTED

TEACHER WANTED for Killam School, No. 1578. First class certificate. Apply to Dr. Dugan.

Towa for corn, Alberta for horses and MASSEY-HARRIS for binders are the world's leaders.

WITH THE FARMERS

THE FARMER'S MARKET. Edmonton, Saturday, June 19.—Hay is still very plentiful. The market, but the demand is good. Two loads of sheat oats were sold at \$7 per ton the latter part of week. Butter and eggs are steady. There is no change in the price of live stock. No potatoes were offered on the market this morning.

(Wednesday's Daily).

Edmonton, Saturday, June 19.—Hay is still very plentiful. The market, but the demand is good. Two loads of sheat oats were sold at \$7 per ton the latter part of week. Butter and eggs are steady. There is no change in the price of live stock. No potatoes were offered on the market this morning.

MONDAY'S GRAIN MARKETS.

Winnipeg, Man., June 20.—Still the city of dry weather is having a marked effect on all grain markets. Reports from Western States on weather conditions were strictly bullish, many places claiming that damage to the growing crops is becoming more apparent every day and a regular "burning up" of the grain is being reported from Canadian West showing slight showers to have been prevailing in Saskatchewan and Alberta, but not enough by any means. Cash demand was light on local market, and oats were 1 1/2 for July, and 1 1/2 for August.

THE SAFETY OF "FRUIT-A-TIVES"

May Be Taken For Years The Ideal Remedy For Young and Old

(Wednesday's Daily).

Nature's gifts do us good, if used judiciously. We eat bread from baby-hood to old age without ever tiring of it. We drink water, year in and year out, with the greatest benefit to our health. So too, we eat fruit in season and are better for the change of diet. This is true, because such things are the natural foods and drink of mankind. It is for this reason that "Fruit-a-tives" may be taken every night for 20 years or more with the greatest benefit.

Sinking Spells Every Few Days "At the time I began taking Dr. Miles' Heart Remedy I was having sinking spells every few days. My hands and feet would get cold; I could scarcely breathe, and could feel myself gradually sinking away until I would be unconscious. Those about me could not tell there was life in me. After these spells I would be very weak and nervous, sleepless and without appetite; had neuralgia in my head and heart. After taking the remedy a short time all this disappeared and in a few weeks all the heart trouble was gone."

NOTICE

Anyone wishing a new well or old one fixed up or at shaft put down, call on me. I make a specialty quicksand. Can dig from 10 inch to 40 inch hole. All work done quickly and up-to-date. Money or good notes accepted.

BRIGHT LITTLE ONES MAKE THEM BRIGHT

Babies that are well, sleep well, eat well and play well. They sleep naturally and wake up good natured. The child that is not restful and playful needs prompt attention, for it is not well. A sickly child can be restored to health with a few doses of Baby's Own Tablets, which cure colic, indigestion, constipation, teething troubles and the other disorders from which young children suffer. Mrs. Thos. Whiting, Waterford, Ont., says: "I have used Baby's Own Tablets in my home for some time and would not be without them. I find them just the right medicine for little ones. Sold by medicine men and druggists at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

WIRELESS TOWER BY JULY. J. Horsfall, superintendent for a company of Edmonton who have offered it for sale to the government to be used for dredging the Saskatchewan river between Edmonton and Winnipeg, connection with the project to make the river navigable between these points.

IN CAMP AT CALGARY. A correspondent of the Bulletin sends the following interesting account of the militia camp now in progress at Calgary:—

"I take this, my first opportunity to inform you of the progress of the 19th A. M. R. So far they have received nothing but praise from all the officers of the brigade, and are undoubtedly the most efficient regiment in the brigade."

"Our company has undertaken to erect wireless telephone towers in Edmonton and in Calgary, and the return trip was started upon about eight o'clock Friday night and returned last night at seven o'clock. Those who made the trip are enthusiastic about the beautiful scenery. There was one passenger, Miss Betty, of Strathcona. It is expected that another trip will be made down the river next month."

"One of the worst things that both of us in the horrible dust, it lies six and eight inches deep on all the trails and when we are on the march we are nearly choked and blinded."

"The first two or three days were taken up with brigade, regimental, squadron and troop drill, and our annual shooting course of seven shots at 100 and 200 yards range, in which a high average was made."

"The big manoeuvres on Saturday were operated by the A. squadron, 19th A.M.R., which were the blue forces, and a squadron of the 15th Calgary Light Horse, a red force. The squadron of the 19th were advancing from the west, somewhere between the Bow and the Elbow rivers. The main object was for both parties to throw out outposts and reconnoitre the enemy's position and numbers."

"We left camp at 7:45 a.m. and did not reach camp again till 3:30 p.m. All stood the hard day well and came up smiling next morning. Last night we had the long-looked-for rainstorm, accompanied by thunder, lightning and hail. The station is in full view from the camp, and the view is very fine. The morning to stand by our horses during a very severe hailstorm, for fear of a stampede. It rained hard all night and this morning, and being so many of us, it was very amusing. In closing I must remark that every one is happy and has nothing to kick about. The weather is the largest in the history of the order in the province."

In closing I must remark that every one is happy and has nothing to kick about. The weather is the largest in the history of the order in the province."

"The return trip was started upon about eight o'clock Friday night and returned last night at seven o'clock. Those who made the trip are enthusiastic about the beautiful scenery. There was one passenger, Miss Betty, of Strathcona. It is expected that another trip will be made down the river next month."

"One of the worst things that both of us in the horrible dust, it lies six and eight inches deep on all the trails and when we are on the march we are nearly choked and blinded."

"The first two or three days were taken up with brigade, regimental, squadron and troop drill, and our annual shooting course of seven shots at 100 and 200 yards range, in which a high average was made."

"The big manoeuvres on Saturday were operated by the A. squadron, 19th A.M.R., which were the blue forces, and a squadron of the 15th Calgary Light Horse, a red force. The squadron of the 19th were advancing from the west, somewhere between the Bow and the Elbow rivers. The main object was for both parties to throw out outposts and reconnoitre the enemy's position and numbers."

"We left camp at 7:45 a.m. and did not reach camp again till 3:30 p.m. All stood the hard day well and came up smiling next morning. Last night we had the long-looked-for rainstorm, accompanied by thunder, lightning and hail. The station is in full view from the camp, and the view is very fine. The morning to stand by our horses during a very severe hailstorm, for fear of a stampede. It rained hard all night and this morning, and being so many of us, it was very amusing. In closing I must remark that every one is happy and has nothing to kick about. The weather is the largest in the history of the order in the province."
