Itinerary of Their Royal Highnesses Western Trip is Announced: Start will be made from Toronto Wednesday; will Spend Two Days at Calgary Stampede

Leaving Calgary Will Go to Gleichen and Declare Big Irrigation Works Open; After the Outing in the Foothills Will Go to the Coast Cities

MONTREAL, Aug. 22.—On Wednesday next, August 28, His Royal Highness the Duke and Her Royal Highness the Duchess of Connaught, will leave Toronto on their extensive tour through Western Canada.

On Friday, August 30, at 8 a.m. for Port Arthur reaching that city on Saturday morning, August 31. Only a few hours' stop is arranged for here as Fort William has also to be included in the day's itinerary and the royal train will start on its journey to Winnipeg at 6:30 p.m., making the Manitoba capital at 10 o'clock Sunday morning.

Here the royal party will be transferred to the G.T.P. railway proceeding to Saskatoon at five p.m. and arriving at that city at 10:30 a.m. After spending the whole of the morning in the city, the royal party will proceed via the C.N.R. line to Prince Albert, where a couple of hours will be spent, and a night journey made to Regina, arriving at that city at ten o'clock the following morning.

At 1:30 p.m. on September 4th the party will start on its journey to the coast. The royal party is scheduled to arrive at Calgary at 1:45 p.m. Two days are set apart for the festivities in Calgary, and during the stay here it is expected that their royal highnesses and suite will visit the great stampede, which is fixed for that week.

The royal train is due to leave Calgary on September 7th and is timed to reach Banff in the Canadian Rockies on Friday, September 13, at 4:30 p.m. In the meantime the C.P.R. has made arrangements for their royal highnesses to inspect the irrigation works which are not far from Calgary, and the huge dam, costing millions of dollars, which is about completed on the Bow river. His royal highnesses are expected to formally declare the opening of the gigantic work under the auspices of the department of natural resources.

The royal party will arrive at Vancouver on September 17th and will remain there until Sunday, Sept. 22, and in the interval a huge program has been arranged for their royal highnesses by the city of Vancouver, a trip to New Westminster being included for Saturday, and the immense works of the C.P.R. at Coquitlam.

North to Prince Rupert. At 4 o'clock on Sunday, September 23, the royal party will embark on the C.P.R. steamer "Princess Alice" and proceed to the north, and at Vancouver the destination being Prince Rupert, arriving at that port the following day. On Monday, September 24, the party will be occupied by the royal party there, and on Thursday, September 26, the party will be at Nanaimo on September 27, and after a three hours' stop at Port Moody, will arrive at Vancouver on September 28.

The investigation adjourned this afternoon to meet again tomorrow at 10 o'clock.

DENIAL IS ENTERED BY INSPECTOR GRIERSON

Statement Alleging Wholesale Thefts From C. P. R. is Branded as False

Local Freight Agent R. F. Richardson Also Enters Denial of Rumors

Chief Inspector Grierson of the C.P.R. special service last night entered an emphatic denial to the statement given out that there was a shake-up contemplated in C.P.R. freight circles, occasioned by the discovery that large quantities of merchandise had been stolen from railroad sheds and freight cars.

"There is absolutely no truth in the statement," said the inspector, "and the information was evidently given out by some disgruntled person. With what object such a story could have been started I am at a loss to know. There have been no shakings, nor are there any men in custody for such thefts. Neither have the detectives found quantities of loot."

Inspector Grierson's statement was backed by that of Local Freight Agent R. F. Richardson, who also entered a flat denial of the report. "Conditions are excellent," said Inspector Grierson, "and there are no thefts such as have been described occurring."

Grierson has just been appointed chief of the C.P.R. special service for the Alberta division. His territory embraces an area extending from Field, B.C. west to Edmonton on the north, the Crow's Nest Pass and Broadview, Saskatchewan.

CEMENT IMPORTATIONS SHOW LARGE INCREASE

July's Importations Nine Hundred Per Cent Over July of Last Year

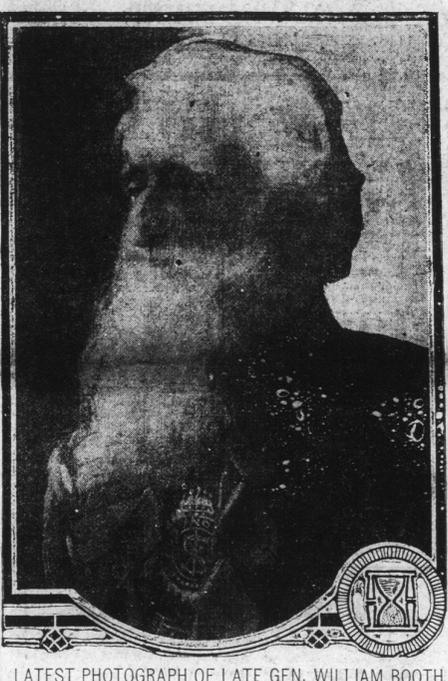

Ottawa, Aug. 22.—There has been an enormous increase in cement importations since the government granted rebates of one half the duty on cement. Statistics at hand show that during the month of July the importations increased by nearly nine hundred per cent. July, 1911, the imports were 85,602 hundred-weight, valued at \$36,486. For July of this year the figure jumped to 835,900 hundred-weight, valued at \$345,000, an increase of 870 per cent, so that the imports from the United States are increasing.

The order in council regarding the duty rebates was issued on July 31. There is a feeling at Ottawa that the duty will not be restored, although members of the government carefully refrain from giving any expression of opinion.

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: September promises to be the most prosperous month in the city's history. A seventy million bushel grain crop is anticipated. Building operations this year total \$20,000,000. Bank clearings so far for August 681,921. The total assessment in the city is \$112,544,400, with a tax rate of 12 1/2 mills.

In Vancouver, B. C.: The exhibitions ends. The attendance was 100,000. Most successful. Blodgett, Stewart and Wren has applied for a license to develop a valuable water power on Chemainus river near Green lake. A 221-million dollar power plant is planned.

LATEST PHOTOGRAPH OF LATE GEN. WILLIAM BOOTH

ROUND THE WORLD FUNERAL OF GEN. BOOTH

TORONTO, Aug. 22.—The Salvation Army in Toronto, has completed its arrangements for the funeral services in memory of the late General Booth. A request is being made to the ministers of all churches in the Dominion to refer to the work and life of the departed general at services on Sunday, August 25. On Wednesday evening, August 28, funeral services will be held throughout the Dominion by each corps.

In Toronto there will be a united mass funeral service at the Massey Hall, on that evening at 8 p.m., leading representatives being present. This service will be conducted by Commissioner Reese and Col. Mapp.

Following upon the general service the massed bands of the army will march to the city hall where they will play: "Nearer My God to Thee," and other well-known hymns on the steps of the civic building.

On Thursday, August 29, at noon, a solemn hour of prayer will take place at all Salvation Army places throughout the Dominion. This hour will be according to English time, as near as possible the hour when the burial services of the departed general will be taking place at Abney Park cemetery.

On Sunday, September 1, the official memorial service of the departed general will take place at all Salvation Army places throughout the Dominion.

MANY FILINGS ON COPPER AND COAL CLAIMS IN SHEEP CREEK AND HIGHWOOD DISTRICTS

Rumored Construction of the Alberta Pacific Said to Have Been Taken Over by the Chicago, Milwaukee & St. Paul, Said to be Responsible

A GREAT rush to file on copper, coal and other mineral claims in the Sheep Creek and Highwood range districts has taken place since it has become generally known that the Alberta Pacific is going ahead, once more with the plans for running a line from Whiskey, Mont., to Calgary.

It is reported on reliable authority that the Chicago, Milwaukee and Puget Sound railway is behind the renewed activity of the Alberta Pacific, which has a government subsidy of \$15,000 a mile. The line will traverse a rich mineral district lying south and westerly of Calgary, and ultimately, it will run on to the north and west into the Peace River district.

Many Calgary People File. Filing at the Dominion Land Office since August 15, last, show that many Calgary residents have taken advantage of the information that the road would tap the Sheep Creek, Highwood Creek and Highwood range districts by filing on mineral claims.

The filing has been done to the west of the Okotoks district in which there was so much filing recently on supposed oil lands. The government records show that the filing on coal claims was done by: George Edward Buck, Harry B. Flenner and David A. D. Brown and Regina Moore, of Calgary, and all the filings, while thought to be on unsurveyed land, according to the descriptions, appear to be in townships 18 and 19, range 4 and west 5.

OFFICERS OF MERCHANTS MARINE PLAN STRIKE

Masters of Some of the Largest Passenger Steamers Paid No More Than \$2,000

Officers Are Well Organized and Will Make Their Demands Before End of Year

London, Aug. 22.—The culmination of a series which has crippled the British carrying business during the past two years, is threatened by the officers of the merchant marine. The movement began today when the newly-formed union of shipmasters and mates tried to prevent the Canadian Pacific liner Mount Royal from sailing. The chief officer had been dismissed and the union demanded his reinstatement. A substitute was obtained by the company, however, and the vessel left port.

The officers are well organized and they propose to put forward before the end of the year what they consider their legitimate demands. Failure to meet these on the part of the shipowners will, they say, be met by a strike which may starve the nation. Inadequate salaries is the foremost count in the indictment against the companies. Masters of some of the largest passenger steamers are paid no more than \$2,000 per year, and most of them have families afloat to maintain. Enthusiastic denials of such charges were made by the officers, who claim to work weekly with long hours while in port as well as at sea, and the liability to loss of certificate through one error of judgment, are some of the hardships described.

Other recent strikes have failed largely because the strikers were unskilled laborers whose places could be filled. The officers of ships on the other hand are a special class, and a general strike by them would leave the owners almost helpless.

CHIEF LANCEY, EDMONTON, TENDERS RESIGNATION

Chief Says His Action is the Result of "Political Interference"

Head of Police Department is at Cross-Purposes With Attorney General

Edmonton, Aug. 22.—The latest and most sensational development in the history of the Edmonton police force, is the resignation of Chief Lancelotti, which was placed in the hands of the mayor and commissioner late this afternoon. The chief admits frankly that his action is the result of "political interference."

APPLICATION FOR MERGER OF TRADERS AND ROYAL

Will be Considered by the Treasury Board Today; Protest Improbable

Ottawa, Aug. 22.—In all probability the application for the merger of the Traders and Royal Banks will come up for consideration before the treasury board tomorrow morning, if a quorum of the board can be obtained. The original personnel of the board consists of Hon. W. T. White, minister of finance, chairman; Hon. Geo. E. Foster, Hon. C. J. Doherty, Hon. Robert Rogers, Hon. F. D. Monk and Hon. Frank Cochrane.

In the absence of a number of these from the capital, the board which will sit tomorrow will probably consist of Hon. Meers, White, Foster, Rogers, Nantel and Burrell. The representation of the two banks will be made by correspondence and the application will be considered privately by the board. In the case of the present application of the board of a special committee of the privy council will report ultimately to the latter body and from that body will issue the decision on the application. The procedure is not always necessary since in the case for instance of an application for increase in capitalization, the board can make its decision independent of the privy council. It is not considered probable that any objection will be taken to the proposed merger, either by the board or by outside interests.

HELP THE POOR

Pembroke, Ont., Aug. 22.—By a vote of 608 for to 23 against Pembroke ratepayers today carried a bylaw to grant to the Canadian Northern Ontario railway a bonus of \$20,000 exemption from taxation and free water for a period of twenty years. The company has agreed to make this town a divisional point of its transcontinental line and about will be erected here.

Money Bylaw, Creating Debenture Issue of \$405,000, for the Construction of Filtration Plant and Extension of Water System to be Voted on Today

Filtration Plant Will Cost \$200,000; Bylaws Providing for \$200,000 for Electric Light Extension and \$150,000 Hospital Loan Come Up Today Also

RATEPAYERS of Calgary will be called upon today to vote on the question of providing a filtration plant for the city. Under the bylaw No. 1349, it is proposed to appropriate \$405,000 for the building of the filtration plant and also the construction of a new intake as fully described in The Morning Albertan of July 24. It is estimated that the filtration plant will cost in round numbers \$300,000.

If the bylaw is approved today, City Engineer Childs intends to call for tenders immediately and hopes to get the concrete work started this fall so that the filtration plant, and the new intake will be in operation by next spring. Voting will be at the usual places and the hours will be from 9 a.m. to 5 p.m. Along with the bylaw to raise \$405,000 for the new intake and filtration plant, there also will be presented for the consideration of the ratepayers two other bylaws—one appropriating \$200,000 for extension to the Municipal Electric Light and Power system, and the other appropriating \$150,000 as a loan secured by a first mortgage, for the construction of an addition to the Calgary General Hospital.

Investigate Many Types. Engineer Childs has been engaged for some time past in investigating various types of filters and the tentative plans for the filtration plant, which the vote will be had today are based on the result of these investigations. They call for a filtration plant capable of filtering 12,000,000 gallons of water every twenty-four hours. This would supply a population of 120,000 people, basing the per capita consumption at 100 gallons, a liberal estimate. The \$200,000 for the filter would include the buildings, connecting pipes, clear well tank, and all accessories. The type of plant contemplated is a gravity sand and anthracite filter, clarifying the water about three months in the year by means of chemical coagulants. Sulphate of alumina or commercial alum is the coagulant proposed for the type of filter planned. Filter Plant Near City. It is proposed to locate the filtration plant about two and one half miles from the city, about ten miles nearer to the city than the new intake which is planned to be about two and one-half miles above the present intake. The \$205,000 estimated for the construction of this new intake includes a sedimentation tank, capacity of 12,000,000 gallons, near the new intake, two miles of forty-two inch pipe, planned to extend eventually all the way to the city. For the present, however, the pipe will be constructed two miles, and a 20-inch steel pipe will be run over the range of hills connecting it with the present 30-inch main to the city.

The filtration plant designed by Engineer Childs is along the line of the plant at Edmonton and Saskatoon, with the exception that the Calgary plant will be operated by gravity. The following plants were put in by the Roberts Filter Manufacturing Company of Darby, Pa., and New York City. The principal advantage of these types of plants is claimed to be the ease with which the sand and gravel beds of the filtration tanks can be cleaned without removing them, through a process of blowing air through valves beneath the sand and gravel beds.

STANDARD OIL MONEY HELPED TO ELECT ROOSEVELT

That is the Charge Made on the Floor of the United States Senate Yesterday

One Hundred Thousand Coal Oil Dollars Went to Help the Rough Rider

John Archibald, Representative of Big Oil Company, Will Tell What He Knows

WASHINGTON, Aug. 22.—John A. Archibald of the Standard Oil Company, will appear tomorrow morning before the sub-committee of the senate committee investigating campaign funds. The announcement that he would appear followed a day of bitter political recrimination on the floor of the senate, devoted to an effort to show that former President Roosevelt had received a large sum of money from the Standard Oil Company. The attack on former President Roosevelt today originated in a resolution introduced by Senator Reed of Missouri, Democrat, and Senator Penrose of Pa., who presented a resolution demanding an investigation of the circumstances set forth in his statement to the senate yesterday in which he charged that \$100,000 of Standard Oil money went into the 1904 Roosevelt campaign fund with President Roosevelt's knowledge. Senators Penrose, Reed and Williams each attacked Col. Roosevelt and Senator Poindexter, of Washington, a supporter of the new Progressive party, came to his defense. Senator Poindexter (Continued From Page 8)

WARM

Our blue sky bank account grows with each succeeding day. The weather for Alberta today will be warm and that means another million dollars worth of golden grain will ripen. It is just what the doctor ordered, and everybody is happy. Do you believe in multiplication and subdivision? Well, the dollars will multiply this fall and the subdivisions will get ready for the big fall rush of business. The weather has been fair today in the western provinces—cooler in Manitoba, but decidedly warm in Saskatchewan and Alberta.

Table with columns: Location, Min., Max. Locations include Vancouver, Kamloops, Calgary, Edmonton, Battleford, Prince Albert, Moose Jaw, Winnipeg, Port Arthur, Toronto, Ottawa, Montreal, Quebec, Halifax, Saskatchewan-Fair and warm, Manitoba-Fair and warm, Alberta-few ice showers, mostly fair and warm.

REV. ROLAND DWIGHT DEAD

Vancouver, Aug. 22.—Private despatches received by his daughter, Mrs. W. Dixon Hopcraft, reports the death of Rev. Roland Dwight Grant last night at his home in Waterloo, New Hampshire, after an illness of nearly two months. Rev. Dr. Grant, who was known throughout Canada for many years as a leading clergyman of the Baptist denomination, but of late years as a noted traveler and lecturer.

FRIDAY, AUGUST 23, 1912

A WORTHLESS SUGGESTION

It should not be necessary to give serious consideration to the suggestion made yesterday by one of the aldermen that the comptroller be elected by the ratepayers instead of being appointed by the commissioners and council.

A CHECK TO VIOLENCE

While it is perhaps somewhat early to state such a conclusion, it would appear that the severity of the sentences that were justly passed upon the militant suffragettes who attempted to burn the local theatre, and made an attempt upon the life of Premier Asquith have had a salutary effect in checking the violence of the viragoes of the suffragette movement.

While a measure of sympathy is due to ministers who are compelled against their will to enter into an argument with these ladies and are not free from molestation even when they are engaged in the performance of their religious duties, they are to be congratulated if it may be assumed that they are now free from the danger of having their heads caved in with a hatchet or their clothes torn from their backs.

The more reasonable advocates of the movement for the extension of the franchise to women may also be congratulated if the day of violence has passed. Small thanks will be due to their shrieking window-smashing sisters, whose violence has been modified, if at all, only by fear of the law.

POCKET KNIFE HIS SOLE ASSET, STRANGER DIES

Moose Jaw, Aug. 21.—While eating a meal in a restaurant today a man named Tuckout suddenly died. A stranger had stood him a lemon, as he seemed in hard straits. Nothing is known of the deceased locally. Home-ward papers in his pocket showed that he had taken out a homestead at Medicine Hat. There was nothing else in his possession but a pocket knife. An inquest will be held.

INSANE WOMAN SHOTS OFFICIAL IN NEW YORK

New York, August 22.—District Attorney Albert C. Fack of Richmond Borough, was shot and seriously wounded by a woman today in front of the Stapleton National Bank at Stapleton, Staten Island, as he was going to his office. Mr. Fack was taken to a hospital where it was said he was seriously hurt.

R. A. Button Dead

Port Arthur, Aug. 22.—Ex-Alderman R. A. Button, prominent real estate broker, died this morning. He is a brother of H. H. Button, city engineer of Winnipeg, and leaves a widow and four daughters, and no sons. He was aged 60.

Little Twine in Saskatoon

Saskatoon, Sask., Aug. 21.—With the best setting under way, the shortage of binding twine throughout the whole northern section of the province

and there will remain little doubt that within a short period, if a majority of the women of England want the vote, they will get it. Whether they will be happy when they get it is another question. Doubtless in this, as in all other extensions of the franchise, the results will be neither so good as they are painted by its friends, nor as bad as they are painted by its foes.

WHY PAYS THE PIPER?

A plea for time to consider any proposals that may be made for the settlement of the Canadian naval problem is made by The Grain Growers' Guide in a recent issue, and attention is called by this journal to certain aspects of this question which have seldom been mentioned in the course of the discussion of this subject. Emphasis is placed by The Guide upon the fact that the heavy additional tax which will be necessary to carry out any of the schemes which have been suggested can be collected under the existing fiscal system only by an increase of the customs tariff. This tax will fall most heavily upon the Western farmer, whose consent to the expenditure should therefore be secured.

It is well to observe that the most enthusiastic advocates of a lavish expenditure are financiers, railway magnates and manufacturers and their representatives in the press, or, in other words, the men who will contribute nothing to the cost, but have instead the prospect of gain by further tariff increases. For them this form of patriotism involves no sacrifice and may indeed be a profitable enterprise. Little wonder then that the sentiment of patriotism creates so unmistakable a stir in their manly bosoms at the present time.

The following suggestion from The Guide is worthy of note:

"The Canadian people are not going to stand idly by when Britain is in danger. But the leading statesmen of Britain have assured us that 'Britain is not in immediate danger. Let us therefore do some thinking before we agree to a proposition which will mean increases in the tariff all around, and will sidetrack the chance of a sugar deal for many years. Let us talk sense and reason together. The Big Interests of all countries are 'strong advocates of naval and military armaments. It means money to them. When we know just what the situation is and how the money is to be raised 'then the people will decide. Let the people have 'the facts and time to consider them. In the meantime let the railway magnates of the C. P. R. and 'C. N. R. prove their vaunted loyalty by contributing, say \$10,000,000 each, to the naval fund. Let 'the protected manufacturers come forward with 'another \$20,000,000 and the bankers with \$10,000,000. 'These have this money and could give it without 'hurting themselves in the least. When they make 'this contribution they have earned the right to talk 'navy. In the meantime they might leave the talking 'to those who pay.'"

EDITORIAL NOTES

Now that the joint resolution asked for by President Taft and providing for an appeal to the supreme court of the United States on the question of the much-discussed Panama canal tolls has been rejected by the senate committee, the only recourse open to the president will be to veto the bill. Otherwise he will have associated his name and office with an act which, in the view of the best element of the American press of both parties, will bring the United States to dishonor among the nations of the world.

Now that the militant suffragettes are endeavoring to drive British cabinet ministers away from the churches, preachers who solemnly attribute the decline in religion to the increased consumption of cigarettes or the prevalence of the hobble skirt should be able to vary their sermons by announcing the discovery of a new cause in the person of the advocate of votes for women.

R. B. Bennett predicts the speedy defeat of the Asquith government and Bonar Law's assumption of office as premier. While the political prophet, like the weather prophet, is bound to be right at last if he prophesies many times, it must be remembered that Mr. Bennett did not distinguish himself in the sphere of prophecy in dealing with events so recent as the Saskatchewan elections.

In proof of the statement that the young Prince of Wales is "not a bit proud," it is related that in Paris when a little girl collided with him on the street he prevented her from falling, and before passing on enquired if she was hurt. Most of us have refrained from beating little girls or knocking them down under precisely similar circumstances without getting our names into the newspapers.

In reading the reports of disturbances in the Chinese republic, we have at least such consolation as may be found in the reflection that all the trouble of the world is not confined to the Calgary city hall.

"AS WE GO MARCHING ON."—Cartoon from the New York Herald on the subject of Mr. Roosevelt and the Shades of Harriman and his money bags.

is becoming more acute from day to day. Despite the fact that the government report indicated only a 10 per cent increase in acreage, R. H. Potter, manager of the International Harvester Company, states that there is a demand of 20 per cent, more than a year ago. His firm has already received several cars from Chicago by express, and twenty in all have been ordered by this rapid means of transportation.

COMMUNITIES ORGANIZE MUNICIPALITIES

Many Rural Communities Take Advantage of the Municipalities Act

Organization Has Been Affected in More Than One Hundred Instances

Edmonton, Aug. 21.—More than a hundred agricultural communities in the province of Alberta will be organized under the Rural Municipality Act, passed by the legislature and effective in 1913.

The minister of municipal affairs has announced that the affairs of all local improvement districts in the province, whether or not they are organized, must be wound up on the coming fall, when an official audit will be made of the books of the authorities. Any balance shown on the debit or credit side will be taken over by the new organization.

The question settled The new system provided that taxes levied on the rateable land in the municipality according to the assessed value of such land. The assessment plan is based upon the following provision of the Rural Municipality Act:

"Land shall be assessed at its actual cash value as it would be appraised in payment of a mortgage of a solvent debtor, exclusive of the value of any building erected thereon or of any other increase of value caused by any other expenditure of labor or capital thereon."

The question of taxation is dealt with entirely by the council of the rural municipality. The new act fixes the limit to taxation for municipal purposes at ten mills on the dollar. It is not expected that a rate will be levied exceeding \$3 per 100 acres, and in many cases the rate levied will not exceed \$3 or \$4 per quarter section.

With a view to encouraging the cultivation of farming lands in the province and at the same time discouraging the speculative holding of large acreages, several important amendments have been brought to the attention of the next legislature. One of these is a recommendation that the present refund of 25 per cent, of all taxes on cultivated lands be increased to 50 per cent. This, it is believed, would have the effect of driving the absentee speculator out of the field. Other amendments will be based upon the actual experience of municipalities when the act comes into operation next January.

Uniformity of Size The act provides that every rural municipality shall in so far as is practicable, comprise an area of 18 miles square or 224 square miles, and all municipalities shall be laid out on uniform plan as the conditions of the system of the Dominion land survey and the physical features of the province will allow.

The minister of municipal affairs may sever any portion of a municipality and annex the same to any adjoining municipality, or may divide any municipality into two or more municipalities, or withdraw from any municipality any area hereafter established as a village under the provisions of the Village Act, passed by the legislature in 1907.

HOW CANADA'S HERD OF BUFFALO INCREASES

Five Hundred Head Purchased From Pablo Has Grown to Fourteen Hundred

A Live Buffalo is Worth \$5,000, Which Would Make the Herd Value \$7,000,000

Edmonton, Aug. 21.—The five hundred buffalo purchased by the Canadian government from Michael Pablo of Montana have increased prodigiously and now numbers over fourteen hundred animals, which is by far the largest collection anywhere in the world. Great care is being taken to weed out the cross-breeds and to keep the strain pure.

Whether it dies of old age or is killed or lives on to multiply its kind, a buffalo is a first-class investment. Dead, it is worth \$500 for its head and hide. Killed, it is worth the same amount of money plus 40 cents a pound for its meat, which is esteemed a great delicacy by gourmands. Buffalo roast makes delicious Christmas feasts for people who can afford it, and between whiles may figure as a piece de resistance at banquets of the New York Canadian Club and similar gatherings. Alive, the buffalo is worth \$5,000, at which price every zoo in Europe and the two Americas has given orders.

Fifty years ago the buffalo ranged freely over the whole Northwestern plateau. The Canadian prairies still show frequent signs of him in the shape of old buffalo wallows and at one place near Medicine Hat, at the foot of a cut bank, some two hundred feet high, is a great heap of buffalo bones which marks the spot where the Indians made one of their cruel drives. But nowadays the buffalo is a limited monarch. Buffalo Park, near Wainwright, Alberta, where his herd is located, is an enclosure, twenty miles square, with a high wire fence around it. Inside the fence the buffalo finds the old familiar scenery of his glorious past—the rolling prairie, the poplar bluffs, the knolls and chaparrals, the sloughs and wallows, but not the old excitement of the white men and Indians on slaughter bent. A visitor who tries to drive across the reservation in a buggy a buffalo bull will charge savagely, but a man on horseback the buffalo rather welcomes, probably because it reminds him of old times. On the whole, civilization has made the buffalo a little sicker. Instead of dying on the prairie when the thermometer is 60 below zero and the snow too deep for him to rustle grass for himself, he will come meekly into the station and eat baled hay out of the feed racks.

HUDSON'S BAY COMPANY

First Presentation of the New Styles in Women's Cloth Dresses

THE NEWEST STYLES in cloth dresses for fall are faithfully portrayed in this splendid selection, which has just arrived. All come from the leading American fashion centres and besides being attractive in style are equally attractive in point of value and moderate pricing.

AT \$9.75—A very stylish dress of fine quality Panama, distinctly new, made with high waist, side front fastening, slight fullness at waist and long sleeves with turn back cuffs. Collar is in the turn-down style, and the coat is piped throughout with light shade of self material which gives it a very charming effect. Navy only. Price \$9.75

AT \$11.00—Another dress of a similar style to that at \$9.75. It is shown in excellent quality serge and the only difference between the two is that front is scalloped where dress fastens. Shades, brown, navy and deep blue. Price \$11.00

AT \$15.00 we show a very natty dress in the Norfolk style. Made of good quality Men's wear serge with patent leather belt, silk square drop collar, and is smartly tailored throughout. Colors, navy and cardinal only. Price \$15.00

AT \$16.50—Another charming model for young girls' wear, is made of good quality men's serge in sailor style, with large square turtan silk collar edged with soutache. It also has short loose panel at waist and back and silk turn-back cuffs to match collar. Other trimmings comprise large cloth buttons, plaid center to match collar and cuffs, and patent leather belt. Navy only. Price \$16.50

Many other attractive styles at from \$17.50 to \$29.00.

WOMEN'S HOSE Regular 25c Special, 6 Pairs for \$1.00. Just think of your being able to buy this Hose at about 17c pair, when it should never be sold at less than 25c. MYSTERY OF MAN WHO DOES NOT KNOW WHO HE IS

Remarkable Case of a Passenger on an Atlantic Steamer Who Has Lost Memory

Plymouth, Aug. 21.—An extraordinary case of loss of memory was reported at Plymouth on the arrival of the White Star liner Majestic from New York. The case has puzzled the ship's officers and many of the passengers all the way across the Atlantic, but they are still as far as ever from solving the mystery. One of the passengers has lost all recollection of who he is or where his home is, and so far all efforts that have been made to stimulate his memory have failed. No one on board the steamer could be found who knew him or could throw any light on his identity.

Several, remember seeing him come on board, and they declare that he then exhibited his passage ticket, and was accompanied by a well-dressed gentlemanly looking man, who subsequently returned to shore. When the victim of loss of memory was found in an apparently dazed condition, he could not say who or what he was, and it was discovered that his pockets had been cut clean out of his coat.

Eventually it was decided to accommodate him in the second saloon for meals, whilst at night he slept in the third class.

Grainger, Alta., Aug. 13, 1912

The Grand Trunk Pacific arrived here today. The Grainger Lumber Company arrived with their first car of lumber. It was highly interesting to see the number of ladies and gentlemen that were there from the immediate surroundings to welcome the first advent of one of the best towns in Alberta.

Grainger is situated on the Grand Trunk Pacific near the Knee Hill Creek and ten miles from Carbon on the east and has an acreage of over 20,000 acres of grain for this year and it all looks the best. Barley and oats are nicely turning and the prospects for the town are highly gratifying.

E. H. VANWART, Secretary Board of Trade, Grainger.

### INSURGENTS MAY PUT ABDUL BACK ON THE TURKISH THRONE

Albanians Complete Masters of Uskup Now; Have Decided to March on Salonika

Reports Indicate That Rebels, With Exception of Small Body, Show Discipline

LONDON, Aug. 22.—The Albanian insurgents, according to the Constantinople correspondent of The Daily Telegraph, are not only complete masters of Uskup, but they have decided to march on Salonika, and a detachment of 300 rebels has already occupied the city of Keupulu. "On receipt of this serious news," the correspondent says, "a hasty meeting of the Turkish cabinet was called, and it was resolved to resist the insurgent advance."

"The situation in Albania is most grave. The assassination of officers continues. According to my information, it is the intention of the insurgents either to force the government to accept their full demands or to restore Abdul Hamid, the former sultan, to the throne. Another cabinet crisis is considered impending. The government is seeking a loan of \$7,500,000 from the Ottoman Bank, but is meeting with difficulties."

The correspondent of The Daily Telegraph at Belgrade, Serbia, says: "Turkish Authority Non-existent. Twelve thousand Albanians have occupied Uskup, and 700 more, with military, are waiting at the nearest village, 'Turk' in the province of the province is non-existent."

The correspondent at Constantinople of The Times says: "The most responsible Albanian leaders have assured the government that they disapprove of the advance on Uskup and Keupulu."

The Bulgarian and Serbian governments have informed the press that they have no intention of seeking advantage through Turkey's troubles. Drazd Shet, who on August 15 became minister of the interior, has resigned. Dispatches to The Times from Constantinople and Salonika minimize the importance of the insurgent raid on Uskup and Keupulu. They say that the responsible leaders, both in Albania and at Constantinople repudiate the extremists.

Small Body Rebels Amuck The leaders admit there are 4,000 insurgents at Uskup, but say the conduct of the men is exemplary, with exception of a small body which ran amuck and liberated all the prisoners. They intend, the dispatch adds, to bring pressure on the government to make it yield to all their demands, and especially to secure the restitution of arms.

The government promises to grant this and amnesty as well, and as a sign of good will the sultan will bestow high decorations on insurgent leaders, provided they abandon their advance.

### THE COUNTRY BOY VERSUS THE CITY BOY

Dr. Rexford Declares Youth on Farm Will Develop Character and Talent Quicker

Casts Ridicule Upon Idea That Any Inexperienced Person is Capable of Teaching

COOKSHIRE, Que., August 17.—The dependence of the Dominion upon the rural population became a topic of discussion at the meeting of the cities and the consequent need for giving sound elementary instruction in rural districts was the line of argument followed by speakers at the final meeting held here yesterday in connection with the rural schools' campaign waged by the Protestant committee of the Council of Public Instruction this week. The attendance was unusually large and the spirit of the meeting was highly sympathetic in the direction of the improvements suggested in rural schools. To the last the firing was kept up on the small school, the unqualified teacher, and the indifferent or hostile taxpayer.

As in other centres, a resolution was passed in favor of consolidated schools and another resolution requested the Council of Public Instruction to further facilitate instruction in agriculture in rural schools. Dr. D. Rexford, the first speaker, expressed the opinion that the standard of civilization of a community might be fairly reassured by the way in which the children were cared for. He regarded the child as the most precious asset of the community. In the children of the farm, he said, not only have we the best material for developing citizens, but you have in rural life the best conditions under which to develop character and child life. "I have no hesitation," he continued, "in saying that the boys on the farm are in far more favorable conditions for the development of talent and character than the city boys, provided you give them a suitable school in which to be trained."

The speaker further pointed out that the elementary school was important because the total number of pupils in the Protestant schools of the province, with the number of pupils in the model schools and academies subtracted, left an overwhelming majority to be accounted for which majority was in the elementary schools. The rural school was therefore practically charged with the total schooling of the overwhelming majority of children of our rural districts, and if the rural school was ineffective it touched the whole community.

It was not only the three R's that formed the teaching; children had to be trained in character and habits. In dealing with some misapprehensions commonly entertained regarding education, Dr. Rexford stated that the motto of the campaign was not to put an inexperienced person on instruction but to put an experienced person on instruction of tender age.

Mr. J. C. Sutherland, assistant in the department of education, took exception to an article which had appeared in a Montreal newspaper wherein it was stated that the promoters of this campaign were mistaken in supposing that farmers were not interested in the subject of education. He admitted, there was a certain

### ECONOMY, THE KEYWORD OF THIS ANNOUNCEMENT OF FRIDAY AND SATURDAY BARGAINS FROM THE STORE THAT VALUE BUILT

We're nearing the close of our Summer Season so in Every Department where there is the slightest surplus of Summer Goods, the order has been given to clear at the lowest possible price which accounts for this list of unprecedented values.

Motor Veils of Paris tissue, in beautiful colorings, 2 1/2 yards long and 20 inches wide. Worth 75c. Today and tomorrow 50c

### BURNS' GRANARY IN EAST CALGARY BURNS

Fire which wrought damage to the extent of \$1,000 broke out Wednesday night at 7:10 o'clock in the granary of P. Burns' stock yards, in East Calgary. A large quantity of hay was destroyed, and grain damaged by water. When the fire department arrived there was danger of the stables and sheep sheds catching, but good work prevented this and confined the damage to the granary only.

### BARLEY AS A GRAIN IS MUCH ABUSED

Ottawa, Aug. 22.—Speaking of the cultivation of barley in the Dominion, the head of the federal grain branch said, "There is not another grain that receives more abuse at the hands of Canadian farmers. The farmers do not know how to handle a barley crop. They either cut it too early or leave it too late, and when it is cut they have no idea how to handle it."

to make, inasmuch as the farmers of the Dominion are supposed to be agriculturists of the first water. "Nevertheless it is true," declares Mr. Robinson, who for eleven years was in the barley business in Manitoba, and he was considered to be an expert on all matters pertaining to the growth of this cereal.

"During my eleven years' experience handling barley, I never saw a really first-class crop. I have seen fairly good crops, but ones which would be classed as excellent was conspicuous by its absence. And why? Farmers know more about looking after a crop of barley than a 15-year-old clerk knows about handling a railroad."

Proper Time to Cut  
"Barley fit for the brewer should not be cut over the milk is white. It must get under the germ stage and be-

come a rich straw color, then the brewer will take every speck of grain he can get. He does not care about the white firm at all. There is not the matting powers in it as there is in straw colored barley. Farmers ought to know when the grain is fit to cut, but it seems that not one in five hundred does know."

"Then, again, there is not one farmer in Canada who stacks his barley when it is cut. He just neglects it and allows the white firm to rot. There is not the matting powers in it as there is in straw colored barley. Farmers ought to know when the grain is fit to cut, but it seems that not one in five hundred does know."

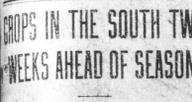

"This has a tendency to increase the vitality of the germ itself. Brewers would then be willing to pay 80 cents a bushel for it."

### WILSON'S FLY PADS

are the best thing to rid your house of these dangerous pests.

### CROPS IN THE SOUTH TWO WEEKS AHEAD OF SEASON

The crops are fourteen days ahead of last year, and if present conditions continue, fall wheat in the south will be at least thirty bushels and spring wheat at least thirty-five bushels per acre.

### DARROW TO FACE ANOTHER JURY ON BRIBERY CHARGE

Neither District Attorney Fredericks or Detective Burns Are Satisfied

Bribing of Juror Bain May be Case Next Set Against Accused Lawyer

Los Angeles, Cal., Aug. 22.—Unless he radically alters his indictment, District Attorney Fredericks will bring Clarence S. Darrow to trial on a charge of bribing Robert F. Bain, a juror in the McNamara trial.

The above was the statement of R. Hutchins, president of the Great Southern Railway Co., who returned yesterday from a trip through the south.

Among the signatures to messages of sympathy were those of Lincoln Steffens, magazine writer, who testified for Darrow; Charles Edward Russell, former U.S. minister to the Dominican Republic; and Mayor Demsey of Cincinnati; former Mayor McCarthy of San Francisco; Professor John Foster of Harvard University; Chicago; Leo M. Rappaport, Indianapolis, and dozens of Chicago friends and associates.

### DR. NOBLE IS DISCHARGED FROM INSANE ASYLUM

Mr. Justice Demars Grants His Release on Writ of Habeas Corpus

Error in Commitment Papers Results in Liberty for Philadelphia Physician

MONTREAL, Aug. 22.—Dr. Chas. Noble, the eminent Philadelphia physician, who has been confined since June 24 in the Verdun insane asylum, was granted his release this afternoon by Mr. Justice Demars on a writ of habeas corpus.

The judge did not dwell at all on the supposed mental condition of the plaintiff, but gave his judgment in favor of the release of the petitioner on account of a technical error in the commitment papers on which Dr. Noble had been confined.

The error in question was the omission of a few words in the written form to be filled out by the doctor making the charge of insanity.

### The Boxing Championship

Calgary August 1912 To The Sports of Alberta Gentlemen.

The Lightweight Boxing Championship of Canada between Joe Bayley and Billy Allen, will be held on September 4th in Calgary's new Arena at 10.45 a.m. sharp.

Blue & White, Street Cars run out to the Arena, also Automobiles and Barriages will leave the C. P. R. Depot at frequent intervals at reasonable charges.

The Arena is situated at the end of The Manchester Street Car Line, 2nd Street East. The tickets for this event will be on sale at Harveys & Co's Cigar Store, 124 1/2 1st Avenue W.

The Public and Spectators will remember that these boys met at Baesano on June 27th, in one of the fastest contests in the history of boxing. Get your tickets for seats early. All the seats will be elevated. Remember the contest is at 10.45 in the morning, so get out early and avoid the rush.

Yours Truly Tommy Burns

where: (a) the working day exceeds ten hours in 24; (b) each set of men works more than six shifts a week. As regards glassworks, they consider that the investigations are sufficiently advanced for the conclusion of an international convention to be recommended, on the basis of a maximum working week of 56 hours, with an uninterupted weekly rest of 24 hours.

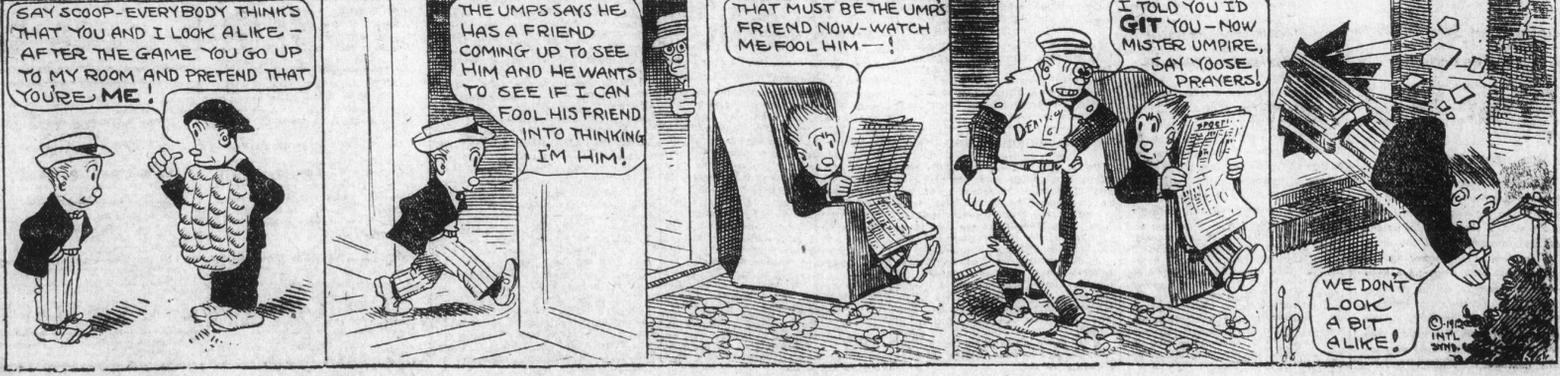

### ABANDONING AN INDUSTRY.

Halifax, N.S., Aug. 22.—The sea sealing fleet, which has been working from Halifax for twenty-seven years, will abandon the enterprise this season, and no ships will proceed to the Southern Pacific and Indian oceans, not merely this year, but probably for several years.

### Pickpocket Arrested At Lethbridge.

Lethbridge, Aug. 22.—A E. Lehman, one of a trio of pickpockets arrested yesterday by the local police, has a complete wardrobe, which the police unearthed yesterday at the C. P. R. depot. An indestructible steamer trunk, containing all kinds of jewelry, including diamond earrings, gold chains, studs, gold puggies and abundance of silk underwear and other expensive apparel in what greeted the eyes of sealing chief of police Brown.

**FIRST SHIPMENT OF NEW WHEAT IS RECEIVED**

Five Carloads of No. 2 Alberta Red Comes From Vicinity of Warner

Reports from Gleichen, Queensland and Blackfoot Reservations Are Good

Splendid Yield Promised Around Macleod, Says Prize Winner at N. Y. Show

The first new wheat to be received from the Grain Growers' Grain Company were reported yesterday when a shipment of five carloads was delivered to the city. Inspector George Hill, and the first shipment was received from Warner, and reports from that point indicate that the yield will be about the same as last year.

**DEFEAT OF RECIPROCITY HITS FARMERS HARD**

Saskatchewan Grain Growers Cites Instance Where Millions Have Been Lost

Price of Oats at Fort William and Minneapolis Show Difference of Forty Cents

Fargo, N. D., August 22.—Never have the farmers and grain growers of Western Canada appreciated the significance of the defeat of reciprocity than at this present time, according to A. A. Bennett, prominent grain grower of Melville, Sask., who is here. Saskatchewan farmers are lamenting the fact that they received the short end of the deal when the proposition was turned down, he says, and he referred to the difference in the quotations between oats posted at Fort William and Minneapolis, which he declares is about 40 cents a bushel. The farmers of Saskatchewan, Mr. Bennett says, have lost millions by the defeat of the pact, and they will lose millions more, he declares.

**THE MARKETS**

**Winnipeg Wheat**

Winnipeg, Aug. 22.—Option prices in wheat market were firmer, due to the unfavorable cool and cloudy weather retarding the ripening of the crop and the higher Liverpool cables. The opening figures were unchanged but advanced later 7-8c on both months, which was not maintained. American markets opened unchanged to higher and advanced fractionally on all months except the September.

Winnipeg closed unchanged to 1-8c higher.

Minneapolis closed unchanged, 1-8c to 1-4c lower.

Chicago closed 1-8c to 1-4c higher on all options.

The firmness held grades was good and practically nothing on offer while prices were considered on export basis.

Oats were quiet at stronger prices. Flax was not in demand, but closed 1-2c higher.

Receipts were 60 cars.

The first car of new crop wheat was inspected on Wednesday in Winnipeg and graded No. 2 Alberta Red. The grain inspection board has three days earlier than last year, 3 cars arriving on August 23, from Winnipeg, and 4 from Colesburg, Manitoba.

Spring wheat—No. 1 No. 2, No. 2 No. 3, No. 3 No. 4, No. 4, No. 5, No. 6, No. 7, No. 8, No. 9, No. 10, No. 11, No. 12, No. 13, No. 14, No. 15, No. 16, No. 17, No. 18, No. 19, No. 20, No. 21, No. 22, No. 23, No. 24, No. 25, No. 26, No. 27, No. 28, No. 29, No. 30, No. 31, No. 32, No. 33, No. 34, No. 35, No. 36, No. 37, No. 38, No. 39, No. 40, No. 41, No. 42, No. 43, No. 44, No. 45, No. 46, No. 47, No. 48, No. 49, No. 50, No. 51, No. 52, No. 53, No. 54, No. 55, No. 56, No. 57, No. 58, No. 59, No. 60, No. 61, No. 62, No. 63, No. 64, No. 65, No. 66, No. 67, No. 68, No. 69, No. 70, No. 71, No. 72, No. 73, No. 74, No. 75, No. 76, No. 77, No. 78, No. 79, No. 80, No. 81, No. 82, No. 83, No. 84, No. 85, No. 86, No. 87, No. 88, No. 89, No. 90, No. 91, No. 92, No. 93, No. 94, No. 95, No. 96, No. 97, No. 98, No. 99, No. 100.

**Montreal Produce**

Montreal, Aug. 22.—Butter continues quiet, there being practically no demand from outside sources. Cheese is firming up with a good business doing over the cable for both prompt and future shipment.

Prices fairly active. Demand for provisions fair.

Cheese—Finest westerns, 15 3-8 to 16 1-2; finest easterns, 12 5-8 to 13 1-2.

Butter—Choice cream, 26 1-4 to 26 1-2; second, 25 1-2 to 26.

Flour—Northern Crown, 102 1-2 to 103 1-2; selected, 101 1-2 to 102 1-2.

Flax—Heavy Canada short mess, 25 to 25 1-2; medium, 24 1-2 to 25; Canada short cut, 24 1-2 to 25; Canada cut, 23 1-2 to 24 1-2.

**MACLEOD**

Macleod, August 22nd.—As a direct result of the work done by the Board of Trade, Macleod, is to have a big brick manufacturing establishment. The plant will have a capacity of 30,000 bricks per day, and it is the intention of the promoters to increase this as their market demands increase.

Fifty men will be employed as soon as actual manufacturing is started. This number will, of course, be augmented when the plant is extended.

The promoters of the enterprise are Montagu J. Bond, a civil engineer and clay expert, and J. H. Gray, both of Victoria, B.C. No local capital is being solicited. The arrangements for financing the concern have already been made. The capital will be furnished by a Vancouver syndicate who have instructed Mr. Bond to make the necessary local arrangements.

Mr. Bond first became interested in the enterprise about six months ago, when he was shown samples by the industrial commission. At that time he requested that further samples be sent him. This was done, and the tests proved so satisfactory that a few weeks ago Mr. Bond returned to Vancouver, and from Mr. Bond stating that he was coming to town to personally investigate conditions. He satisfied himself of the extent of the deposits, and opened negotiations with the council for the land required. A special meeting of the council was held to go into the matter. A letter from Mr. Bond set forth the requirements of the industry. He asked that the council should be authorized to acquire the land along the river front as a site for the proposed plant, and also for conveying privileges on the land. He stated that he would be ready to begin work in six days, from the time these assurances were given, and to have the plant in operation within six weeks of the date of the meeting.

Mayor Sedman, in bringing the matter before the council, said that he had been approached by such a number of industries that he proposed, and saw no reason why the requirements of Mr. Bond should not be met.

Mr. Bond, who was present at the meeting, said that the land in question was now the property of the federal government, but he expected that before long it would be acquired by the city.

The members of the council were enthusiastic in the opinion that the project was one worthy of every encouragement.

His worship stated that it would be a pleasure for the town to reserve the title to the land along their sewer pipe line and their water main, to which Mr. Bond agreed.

The proposed site of the plant is north of the power house.

Finally a motion was passed that the town solicitor be instructed to prepare an agreement embodying the concessions required by Mr. Bond, this agreement to be submitted to the council at their next meeting on Monday night.

Mr. Bond, who is one of the leading experts in Canada, says that the site chosen in the river front here will make the very finest of faced clay, and quite equal to the Redcliff brick.

**Yield Good, Says Mr. Glass**

Mr. Glass, of Macleod, who captured second prize at the International Exhibition at Macleod, says that the yield of the crops in his vicinity, and reports to the Grain Growers' Grain Company, that the yield will be about the same as last year.

**Chicago heat**

Chicago, Aug. 22.—Wheat was sensitive today and responded quickly to buying orders which made their appearance after a quiet start. The close was steady on the upper levels, 1-8c to 1-4c higher. Corn ruled higher with Sept. at the front and closed 1-2c higher. The firmness held grades was good and practically nothing on offer while prices were considered on export basis.

Oats ruled steady throughout the day with a moderate decline. Cash demand was good and strength of other grades inclined upward. Sept. 1-4c to 1-2c higher at 32-3c to 1-2c; the top figure, Dec. closed some even, and 1-2c higher, 1-8c under the high point.

**ROTTEN FINANCIERS ARE DUE IN CANADA FRIDAY**

Englishmen Will Visit Calgary and Other Western Points Before Returning

Will Also Inspect Holdings at Various Points in Alberta and Manitoba

Montreal, August 22.—A distinguished party of members of the House of Commons, prominent in the Canadian financial scene, will arrive in Calgary on Friday next. The party, which includes Sir John Spence, chairman of the Canadian Agency, Limited, is bringing out to Canada what has been called the "rotten" financiers, and are due in Montreal on Friday next.

This party will visit Calgary, after spending three days in Montreal, will visit Edmonton, and then proceed to Sault Ste. Marie, in order to inspect the works of the Lake Superior Paper Company, in which several members of the party are interested. They will also inspect the Algoma Cement and Algoma Eastern Railway.

The Canadian Agency, Limited, is the largest shareholding in the companies, and has done much of their financing.

After visiting the Helen and Margaret mines of the Queen's Share and Copper Corporation, the party will proceed to Winnipeg in order to have an opportunity of seeing the metropolis of the West, and to inspect the works of the party here. They will also inspect the works of the party here. They will also inspect the works of the party here.

**HALE AND HEARTY AT THE AGE OF 101**

Boston, Aug. 21.—Mrs. Frank Rowell, 101 years old, celebrated her 101st birthday today. In chatting with callers Mrs. Rowell said:

"There is only one way to grow old gracefully and to enjoy it, as I have, and that is by living regularly. Go to bed regularly, eat regularly and sleep regularly, and take some exercise every day. I take care of my own room. I can read the newspapers, and I can always use my eyes, because I have taken good care of them."

Mrs. Rowell was born in St. Johnsbury, Vt., and is a direct descendant of John Alden. Her maiden name was Almira Alden Black. Her health is excellent, and during the last year she has not been ill a single day.

**LARGE APPLE CROP IN MARITIME PROVINCES**

Minister of Agriculture's Estimate Is From 800,000 to 1,000,000 Barrels

Local Authorities Are Encouraging Intensive Agriculture and Fruit Growing

Ottawa, Aug. 21.—Hon. Martin Burke, minister of agriculture, returned today from a trip through the maritime provinces. He visited Fredericton, where he had a conference with Premier Levesque, and the minister of agriculture in regard to ways and means of encouraging agriculture in New Brunswick. Mr. Burke visited the famous Annapolis valley, extending the length of it. The apple crop, he reports, is splendid, and will run from 800,000 to 1,000,000 barrels. After attending the dedication of the memorial tower at Halifax, Mr. Burke went to Prince Edward Island, where he had a long conference with the governor. Mr. Burke was highly impressed with the necessity of the Dominion government aiding every possible assistance in the encouragement of agriculture, as it is practically the whole industry of the province. The local authorities are at present encouraging intensive agriculture, and are beginning to specialize in fruit growing, particularly in the southern part of the island.

Mr. Burke is arranging to have his fruit and seed specialists give special lectures and demonstrations on the island.

**Toronto Cattle**

Toronto, Aug. 22.—Receipts at the city cattle market for Wednesday and today totaled 39 loads, 395 cattle, 103 sheep and lambs, 204 pigs and 164 calves. 6 cents. Medium sheep and lambs, 50c to 55c; butchers' cattle, 1.50 to 1.60; heavy, 1.40 to 1.50; and 1400 sheep and lambs.

By today's business had picked up considerably from the dull opening of the week. Cattle moved much more freely and at somewhat better prices for medium to choice stock. Choice cattle were rather scarce, and the market was much firmer. Lambs fetched as high as 77.5c to 80.25c; medium, 65.00 to 67.50; butchers' cattle, 1.50 to 1.60; heavy, 1.40 to 1.50; and 1400 sheep and lambs.

Today's quotations—Export cattle, choice, 65.00 to 75.00; medium, 65.00 to 67.50; butchers' cattle, 1.50 to 1.60; heavy, 1.40 to 1.50; and 1400 sheep and lambs.

By today's business had picked up considerably from the dull opening of the week. Cattle moved much more freely and at somewhat better prices for medium to choice stock. Choice cattle were rather scarce, and the market was much firmer. Lambs fetched as high as 77.5c to 80.25c; medium, 65.00 to 67.50; butchers' cattle, 1.50 to 1.60; heavy, 1.40 to 1.50; and 1400 sheep and lambs.

**Toronto Stocks**

Toronto, Aug. 22.—The volume of business on the Toronto exchange today was 1,821 shares, compared with 2,775 shares yesterday. Dominion Iron and Steel was dull and weaker at 14 1/2, but higher at 67 1/2. There was a good deal of profit taking and it finally sold at 66 1/4. The market for the whole was irregular. The local business in C. P. R. on the local board but owing to the depression in New York, where it sold as low as 2-4, quotations here were lower. The best bid being 27 1/4. Du-luth Super was more active with dealings in 200 shares at 75 1-2, while a two share lot went at 75 in Toronto. Railway was dull and weaker at 14 1/2. No important movements yet in the other boards as reported. Rio 1-2 unchanged at 14 1/2 and Sea. Paulo 1-2 unchanged at 25 1/4.

Steel of Canada was weaker in sympathy with the reaction in Dominion Steel. It sold at 29 1/2 to 29 3/4, and was regarded as a price of 29 1/2. This net loss of 3-8 for the day is the first reaction since the upward movement began. There appeared to be a moderate investment demand in securities on all accounts. The general outlook is bright for stock values, but it is only natural that reactions should come even when the market is firm and money is not notably changed.

**ROTTEN FINANCIERS ARE DUE IN CANADA FRIDAY**

Englishmen Will Visit Calgary and Other Western Points Before Returning

Will Also Inspect Holdings at Various Points in Alberta and Manitoba

Montreal, August 22.—A distinguished party of members of the House of Commons, prominent in the Canadian financial scene, will arrive in Calgary on Friday next. The party, which includes Sir John Spence, chairman of the Canadian Agency, Limited, is bringing out to Canada what has been called the "rotten" financiers, and are due in Montreal on Friday next.

This party will visit Calgary, after spending three days in Montreal, will visit Edmonton, and then proceed to Sault Ste. Marie, in order to inspect the works of the Lake Superior Paper Company, in which several members of the party are interested. They will also inspect the Algoma Cement and Algoma Eastern Railway.

The Canadian Agency, Limited, is the largest shareholding in the companies, and has done much of their financing.

After visiting the Helen and Margaret mines of the Queen's Share and Copper Corporation, the party will proceed to Winnipeg in order to have an opportunity of seeing the metropolis of the West, and to inspect the works of the party here. They will also inspect the works of the party here.

**HALE AND HEARTY AT THE AGE OF 101**

Boston, Aug. 21.—Mrs. Frank Rowell, 101 years old, celebrated her 101st birthday today. In chatting with callers Mrs. Rowell said:

"There is only one way to grow old gracefully and to enjoy it, as I have, and that is by living regularly. Go to bed regularly, eat regularly and sleep regularly, and take some exercise every day. I take care of my own room. I can read the newspapers, and I can always use my eyes, because I have taken good care of them."

Mrs. Rowell was born in St. Johnsbury, Vt., and is a direct descendant of John Alden. Her maiden name was Almira Alden Black. Her health is excellent, and during the last year she has not been ill a single day.

**CITY BEAUTIFERS LOOK FOR PLAYGROUNDS**

Planning Commission Representatives Make Tour of Inspection

Look Over Ward One; Complete Report of Committees Will be Made to Council

The third of the joint committees, Ald. Samis, representing the city council, J. H. Garden and G. W. Lemon, representing the Planning commission, and Dr. A. M. Scott, the school board, toured Ward I in search of playgrounds, parks and boulevards in the latter's car yesterday afternoon.

The committee was very pleased to find that a great deal of foresight had been used by the Calgary School board in setting aside almost three acres of land immediately adjoining the Riverside school on the north. Dr. Scott told the committee that it was the intention of the school board to preserve this tract of land free from buildings so that, as the district fills in, a breathing space will be assured.

The committee visited Mount Pleasant and adjacent districts and found several properties that lent themselves very nicely to park and boulevard purposes. East and north east Calgary was also visited where other desirable properties were inspected. The committee intends a further investigation, when a more detailed report will be published.

As the holiday season is now over and most of the various sub-committees have returned to the city, a complete report will soon be prepared for the consideration of the council.

**Chicago Cattle**

Chicago, Aug. 22.—Cattle receipts 5,000, market steady to 10c lower, choice, 65.00 to 75.00; medium, 65.00 to 67.50; butchers' cattle, 1.50 to 1.60; heavy, 1.40 to 1.50; and 1400 sheep and lambs.

By today's business had picked up considerably from the dull opening of the week. Cattle moved much more freely and at somewhat better prices for medium to choice stock. Choice cattle were rather scarce, and the market was much firmer. **DO YOU WANT CHEAP LUMBER**  
Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea or in paint, or in most other articles. Cheap cut lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality considered, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.
