Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

VOL. 29.

There is nothing like ASTHMA-LENE. It brings instant relief, even in the worst cases. It cures when all else fails.

BRIDGETOWN, N. S.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being oured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial sated like a charm. Send me a full-size bottle."

Rev. DR. MORRIS WECHSLER. Rabbi of the Cong. Bnai Israel. NEW YORK, Jan. 3rd, 1901. DR. TAFT BROS'. MEDICINE Co., GENTLEMEN, —Your Asthmalene is an excel-lent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which com-bine with Asthma. Its success is astonishing After having it carefully analyzed, we can

tate that ASTHMALENE contains no opium, morphine, chloroform or ether. Very truly yours, REV. DR. MORRIS WECHSLER.

Avon Springs, N. Y., Feb. 1, 1901. DR. TAPT BROS. MEDICINE CO.

GENTLEMEN,—I write this testimonial from a sense of duty, having tested the wonderful effect of your ASTHMALENE for the cure of Asthma. My wife has been afflicted with spaemodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upontyour windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma, has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are efflicted with this distressing disease.

Yours respectfully,

O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE Co. DR. TAFT BROS. MEDICINE CO.

GENTLEMEN,—I was troubled with Asthama for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full sized bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. aske such use of as you see fit. Home address: 235 Rivington St. 67 East 129th St., New York City.

Trial bottle sent absolutely free on receipt of postal DO NOT DELAY. Write at once, addressing DR. TAFT BROS.' MEDICINE CO., 79 East 130th St., New York City.

At Dorothy's Camp Fire.

"Afraid? Not a bit of it !" laughed Derothy, standing in the glow of the camp fire. 'We left all marauders behind us in the haunts of civilization. "Every prospect pleases, and only man is vile"-and the man

"And our heroine who apprehends thieves herself, and orders them off the premises in her own commanding voice, wouldn't be afraid in any case," declared the doctor, merrily- "Come, good people, get into the boats. Dolly's safe enough, she isn't afraid of being lonely, and she will hear nothing

more dangerous than an owl." "She's going to tell us stories !" piped a quartette of voices inside the tent. With a general laugh at Dorothy's prospect for en-joyment, the 'party on the beach seased selves in the two row boats and pushed

out into the river. The girl watched them until they passed from sight around the bend. The scene was novel and picturesque enough to charm her throwing its silvery gleam on the water, the jutting point where the ruddy fire flamed and sparkled, lighting the white house tent and little open space near the shore, and farther away the dark back ground of

They were a family party camping here, the Kents and Trescotts, who preferred simple outdoor in this veritable solitude to any nore famed resort. Dorothy reveled in its wildness and freedom. The children, tired out with the delights of the day, and been tucked away for the night while the older ones went for an evening row. Dorothy was to guard the camp. She smiled as she reered how a girl cousin and one nervous aunt had each protested in turn that they

'wouldn't do it for anything." "Not because there's anything to be frightened at, but because there isn't," Amy had explained. "It's so far from everywhere and so still that it's creepy."

dancing blaze, where she could be seen through the netting at the tent door. "Well, once upon a time"-she began, and

then a boyish voice interrupted :-"Dolly, what did father mean bout your resting thieves all yourself, and such

he was a thief. He had been with us only to like him very much, until I came in from shopping one day while he was busy in the garden. I wanted to tell him about training some roses and I laid my purse down on a vindow sill without going into the house, and began showing him about the vines. Then we wandered away from the perch to look at some beds he had been digging, and so I forgot all about the purse, and as I went into the house by the side door 1 did not see it. It was an hour or more before I thought of it, and then I went to get it, but it was gone. Joe was just going down the he walked, and I caught a glimpse of silver fringe that I knew. I went after him and made him give it up, and then I sent him off 'Tie broke, anyway. Viny's dead, and he'll right away. Of course mother would have go, too, and he's all I've got. If 'twas your

at her own needless alarm, and trying to against Dorothy's accompanying him but the ous and covered the case fully. Mrs. Post, make her voice sound composed despite the swift beating of her heart. "He's out boat riding with some of the others, but they will be in before very long. Where do you live ?" "In that little shack across the woods, down near the dam." The woman replied to the question as if she scarcely heard it, and with eyes keenly studying Dorothy's

face. Ain't you that Trescott girl !" Neither words nor tone held any of the respect or admiration usually accorded to Dorothy, but she was too much astonished "Yes, I am Dorothy Trescott," she began,

but the stragger scarcely waited for her to "I thought I knew ye!" she said, advancing nearer and standing in the full glare of the firelight, while her face grew fierce and hard. "I seen ye once in the street, and I wasn't likely to forget with all the cause to sing about God's mercy when yer hain't got none of yer own! Oh, I heard yeounds nice enough, if sound was all !"

The words came hot and fast as if the pent up bitterness of months was pouring teelf out at sight of the girl. "What mercy did ye show my poor Joe but to drive him he couldn't get work ? Did ye think about God's wide mercy when ye wouldn't give him a chance? If failin's do get kindly judged up in heaven, it ain't your kind that

"But he-he did steal the purse," faltered Dorothy, comprehension slowly growing

"And what if he did? Is he the only one who ever done a wrong thing, that ye must treat him as if he was never to have another chance? Oh, I ain't sayin' he didn't do wrong. I'm his mother, but I'm an honest woman. I tried to bring Joe up that way, too, and he is honest, spite of everything that's happened. But he was a boy-just a miser'ble tempted boy, that day, and he wanted money. Oh, how he did want money !"

For a moment the accusing voice seemed about to break in a sob, but the woman's bony hand clutched fiercely at her shawl as if to choke back all weakness.

"T'was his sister. She was in a decline, and nothin' couldn't have saved her, but Joe didn't know. He thought if he could only get her away somewheres. That's what he was workin'so for, workin' at every job he could get, and acrimpin' every cent he could save. And then you comes along in Dollie, you promised to tell us stories till and throws down your stuffed purse as if it 'twasn't of no 'count-leaves it right in sight Dorothy drew a camp stool near to the of his hungry eyes! Did ye ever think what 'twould be to see somebody ye loved better'n'n your own life dyin' for want of a little money ye couldn't give ? Wouldn't it tempt ye none to see other folks with full and plenty flingin' round careless like what you wanted more'n anything else? Oh, I sin't sayin' wrong's right. I do believe in a God "That? Oh, he was just teasing me. It helpin' us to believe in him, I'll tell you wasn't much. There was a boy who worked for us at home last spring, and we found that. Ye never looked in my boy's face to see what trouble was there. He wasn't no

brother nor feller bein' to you-just a mach ine to do the work, that was all. "And when he took that thing-took the purse ye tempted him with-ye never took the trouble to find out 'twas the first wrong he'd done, nor asked why he'd done it, no give him any show, nor chance to try ag'in. No, ye drove him out, galled him a thief, took away the good name that was all he had, and told other folk so nobody'd have him round more'n 'sif he was some despri

too: that's what made him hide round and not come home till he took sick. He thought 'twould break my heart if he was 'rested.

"Now, Dollie, tell me all about this business-to night and the rest of it." known, has been a prominent figure in this needful question or two, did not even try to combat her self reproaches. "Yes, I understand, little girl, the Master gave you a chance to do a choice bit of

work for him and you did not see it. You blundered, and hurt instead of helped a soul that needed you. It is what we all do often and never know it; but when we do learn it, and too late, it leaves a sore spot in the heart that nothing but heaven will ever make right again."

His quiet tone, the old pet name, and even his acceptance of the case from her standpoint with no attempt to argue it down, quieted her as nothing else would have done was ready for his next words which came after a moment's silence.

soon became the Mecca of the faithful, and their "contributions" for "treatment" came "And now Dolly, if you are going to help in abundantly, not only from all sections of me tonight you must be calm and strong. the United States, but from Canada, Mexico Put away every thought of yourself, ever and other points. At first the money reach your troubled conscience; be blind and deal ed a figure of perhaps \$1,000 a month, then to everything that may look or sound like increased as her mail appeals reached out, reproaches, and keep your mind steadily until this year, when it was reckoned her fixed upon being of use. I can trust you for "income" was from \$5,000 to \$15,000 a

Dorothy's tearful smile passed unchallenged in the dim light, and the quick pressure of her hand gave the required promise. The doctor ignored the scant welcom given him at the cabin and the still les gracious one accorded to his niece, and set work at once. He kept Dorothy busy, and it was not in human nature-not in mother nature, at least-to long remain untouched by the tireless, skilful care the two were bestowing upon the sufferer. Slowly the pain abated, and the fevered head grew cooler as the long hours passed. The boy did not appear to notice the presence of the strangers at first. He lapsed into uncon sciousness now and then, and was wander ing and troubled. Once from such a brief

recognition as his gaze fell upon Dorothy. "Miss Trescott ? I must be dreaming," "Just a bad dream, if it's anything that troubles you, Joe," answered Dorothy, with a flush of inspiration, "Yes, I'm Miss Trescott, and everything is all right. The roses He lay as if trying for a moment to recor

interval, he aroused with a quick start of

cile her presence and her words with some vision of dread that had haunted him, but they seemed to have dispelled it, and with a sigh of relief he turned and dozed again into a more restful sleep. "He is better," said Dr. Kent, looking

across at the mother. She nodded. Her face was losing its hardness, and a new look was coming into

But as you go on, rising higher glorious landscapes, there will fill your soul a joy like this heroic blind girl, and it will be said of you as of her, that you are among the happiest of mortals, because of obstacl overcome. - Caleb Cobweb, in the Christian

Endeavor World. Decreased Mortality in South Africa. In the first year of the South African war proved and the emerges to the the Boer bullets, with the result that the death rate fell to 21.94 killed and 15.03 died death rate fell to 25.94 killed and 15.03 died death rate fell to 21.94 killed and 15.03 died from disease, a total of 36 97. The death rate 15.03 is practically the normal rate prevailing in the British army engaged in foreign services in time of peace. In the Franco-Prussian war the percentage of officers killed was 65.5 and disease caused the death of 8.9. The mortality among the rank and file in South Africa shows a like improvement, In 1899-1900 the death rate from wounds and disease among the rank and file was 50.79 and in 1900 1901 this has been reduced to 31.43.

From these figures it will be observed that in battle the risk of the officer is about double that of the private soldier. The in battle the risk of the officer is about double that of the private soldier. The present death rate among the rank and file in South Africa is not as great as that which

mucouse membrane.

Hood's Sarsaparilla acts on the mucose membrane through the blood, reduces inflamation, establishes healthy action, and radically cures all cases of catarrh.

The French Budget for 1902 shows a deficit of 50,000,000 francs, of which 20,000

"RED ROSE" TEA is composed entirely of . . . Pure Ceylon and Indian Teas.

WEDNESDAY, Oct. 30th, 1901.

SPECIAL OFFER!

If you are not a regular subscriber to the MONITOR now is the time to subscribe. For \$1.00, cash in advance, we will send you the MONITOR from now till January 1st, 1903.

-For months the Bridgetown Agricul ural Society has been sleeping, and no doubt many of our readers, and perhaps some of the members, thought the organization had ceased to exist. Over the president's signature to-day, however, appears a notice calling the annual business meeting, and the time seems a favorable one to inquire, in the name of the great agricultural interests of the county, why a society whose organization and early work promised such great and farreaching advantage to the industry it sought to develop should have been idle so long. Surely there is some explanation needed, and if that explanation constitutes an admission of indifference on the part of members who lent their names and influence to the institution of the society, it discredits their early interests and illustrates forcibly the great cause of the slow development of agriculture in the western valley. The agricultural seciety is an agency through which the farmers may work together for mutual advantage in many ways; it is an easily effected combine with practically unlimited powers, and a farmer's school where the profitable lessons of farming experience may be learned. It has its local advantages, too, for handshakes and the frequent meeting of distant members of the community strengthens acquaintance and builds a confidence so neces munity. The agricultural society may be constituted the buyer of farming mahinery and general supplies, and the seller of farm produce of every description, effecting an economy in purchase and increased profit in marketing. The same principle that causes capital to pool the many divisions of a great industry for the maximum profit underlies the agricultural society. The great underlies the agricultural society. The great phasized, to even the casual observer, by the dividuals, they are at the mercy of masters who conduct their business and exact the

would be to waste it. The children must be furnished with comfortable school rooms and every parent should be interested in the proposal to build a new school house here. The present one is a disgrace to the town, and the sooner it is replaced with a more modern and convenient building the better. The town has many improvements to make, and it is steadily accomplishing the work of improvement without adding to the taxpayers' burden. A fire alarm, sewer extension and a new echool building will follow as rapidly as ways and means may be devised without loading the town with too heavy a debt, but it is an open question whether we are not moving too slowly in these matters.

The translat quotient and we done casualty.

—Miss Lyman will be at J. W. Beckwith's on Monday, Tuesday and Wedness day of next week (4th, 5th and 6th Nov.) where she will be pleased to see the ladies of Bridgetown and vicinity and demonstrate to them the advantages of the P. D. Corsets.

The annual meeting of the Bridgetown and the way of meeting of the Bridgetown and the with train and white silk trimmings, and she wore the bride's hall on Tuesday evening, November 5th, at the pide. After the wedding breakfast, the requested to be present, as very important business will be transacted for the next year.

B. HAVEY. Pres.

PERSONAL PARAGRAPHS. The present one is a disgrace to the town, are not moving too slowly in these matters that concern the safety of public property and health. Delays are dangerous, and we can ill afford to run great risks when the risk involves lives instead of dollars. These improvements ought to be effected without any unnecessary delay.

—Mr. D. E. Taunob, formerly of Grandle, died suddenly at his home in Salem, Mass., on Sunday the 13th inst. Mr. Taunob arily in life went to the city in which he died, and where he was universally known as a man of strict integrity. He leaves a widow and one daughter.

The machinist for the Canadian Composing Co., Limited, of Montreal, is installing in the Montron building this week a Monoline composing machine, one of the best upto-date type-setting and line casting machines on the market. The Halifay More. chines on the market. The Halifax Morning Ohronicle is one of the many papers that use these machines, and, with an apology for aping city methods, we expect in a few days to present to our readers a machine-set MONITOR. One Monoline operator with busy for aping city methods, we will be seed y mare Ecomp, 2.23, once owned by him, and previous to that the property of Monitors are readily do the work of four five MONITOR. One Monoline operator with busy fingers can readily do the work of four, five or six hand compositors, and as the type writer is superior to the old fashioned pen, so in the saving of time and labor the Monoline revolutionizes the old hand composition. The metal arms, tireless in their response to the finger taps on a lettered keyboard, are automatons superior for the purpose to the fired human fingers that, with limited speed, pick, pick at the letters that make up the newspaper. The machine is really a wonderful creation, and its complicated mechanism tells a story of years of inventive labor before the practically perfect product of to-day was reached. The Monitor is, we believe, the first weekly newspaper in Nova Scotia to secure one of these expensive we believe, the first weekly newspaper in Nova Scotia to secure one of these expensive machines, and as the experimental stage of mechanical type-setting is long since past, we hope to get our paper ready for press in much less time than under old conditions. We want to be progressive, and the Monoline is an agent that will help much to that end.

alk of the country.

-The Oxford Manufacturing Co., of Oxford, secured a gold medal at the Pan-American Exposition. -Mrs. (Capt.) Salter and family have re-urned from England and taken possession of heir house on Park St.

—On Friday afternoon the annual meeting of the St. James Sewing Circle will be held in the school room at four o'clock. -Julius Rill, the Jew who was charged with the murder of Nathan Kaplan at Clark's Harbor, has been committed for trial. -J. W. Beckwith's dress goods for thi season are the best in value, quality and assortment ever shown before in this county.

—All outstanding accounts of Shafner & Piggot, not settled for in some way on or before Nov. 6th will be left with F. L. Milner for collection.

Chas. Shafner. —President Bigelow, of the N. S. F. A., who is now at the Pan-American Exposition at Buffalo says: "I have the Nova Scotia Fruit exhibit staged in a good court, and it is the admiration of the crowds from all over the world who visit the Pan, and I am con fident we can carry off the medal for flavor and quality."

—Mr. William Rogers, machinist for the Canadian Composing Co., Montreal, has during the past few days been transforming the MONITOR press room by adding new shafts, belts, pulleys, and getting the Monoline in position for work. Next week's MONITOR will likely be, partially at least, the product of machine set type.

An interesting event took place on Oct. 23rd at 10 a, m., at the residence of Mr. and Mrs. Major Slocum, when their daughter Lyda, was united in marriage to J. Herbert Lyda, was united in marriage to J. Herber Hicks. The house was very attractivel decorated with flowers, potted plants, etc. decorated with flowers, potted plants, etc. As the wedding march was being played, the bride appeared tastefully gowned in white cashmere with satin walst and trimmings and carrying a beautiful bouquet of white roses and crysanthemums. The bridesmaid, Miss Millett, was also dressed in a pretty and becoming gown. The groom was attended by his brother. The ceremony was performed by Rev. E. Daley, assisted by Rev. Mr. Moore. After congratulations, a very dainty luncheon was served, after which the bridal party were driven to the depot, where they party were driven to the depot, where they took the train to Boston, New York and other places of interest.

The presents which were costly and nuother places or interest, which were costly and numerous, bespeak the high esteem in which the bride is held. Upon their return, they will reside at Bridgetown.

BANCROFT-MILLER.

A number of mild cases of small pox have developed in St. John, and are under quarantine. One of them is Miss Mary Muuroe of Wilmot, who is a nurse in the public hospital there.

—The Frost Stock Co. are playing to fairly good houses in the Court House this week. Helf a dozen trained dogs, a quartet of well kept goats and a pony adds to the attraction of the nightly plays.

—J. U. Logie, specialist in optics, from Bangor, Maine, will be at Sancton's jewelry store on Saturday, November 2ad, and Monday, 4th; also at the Clifton House, Annapolis, on the 5th and 6th.

—The death of Mrs. Abigail Johnson, of Lower Granville, occurred at the residence of her son in-law, Mr. E. H. Porter, in that place on Sunday, the 20th October, at the advanced age of over 98 years.

—Mr. Hugh A. Calder has returned from Labrador, where he is interested in large timber areas. Mr. Calder expects to put a large gang of men to work there next spring, and later to establish a pulp mill.

—Messers. Beeler and Peters are still making from 1200 to 1500 apple barrels each

ons, serviceable for defence and offense as well. Mr. Farner, if not for your own sake, for the sake of the community interest yourself in these matters and put the Bridgetown Agricultural Society on a strong running basis. Make it the best in the province. The name haan't any virtue of itself; the members must prove the value of the organization by their own unselfish work. Let an awakened interest be manifested in the work of the society, and let it date from the next meeting.

—The chairman of the Board of School Commissioners has intimated that the town will have a new school house soon, and while of course this can only be brought about by a vote of the ratepayers, we believe they have long ago condemmed the existing structure and are ready to support a move towards replacing it. The building as it stands today is really unfit for the purpose for which it is used, and its draughty, cold rooms are a menace to the health of the children who congregate there. Furnace beat is totally inadequate to provide a comfortable school rooms and to spend money on extensive repairs would be to waste it. The children must be furnished with a money of waster in very cold weather, and to spend money on extensive repairs would be to waste it. The children must be furnished that the children must be furnished with confortable school rooms and to spend money on extensive repairs would be to waste it. What and How to Plant in the Fall.

One of the puzzling questions with many who are contemplating setting out fruit trees, is what they shall plant in the fall.

We have anne a large country and varied We have such a large country and varied at either end, and intermediate ones if nec climate that the same plan will not work well in all sections. In the extreme South and on the Pacific slope it is quite safe to plant almost everything in the fall, if desirable to do so. In the regions east of the able to do so. In the regions east of the the same crosswise. If the work is Alleghany Mountains there is little danger well done there will be little trouble in set from fall planting; and this is true in a measure to the westward of them for a few almost no time spent in sighing. If deep, My fr hundred miles; but on the western prairies dead furrows are made one way, by plowing will be almost no need of digging holes with a spade. On very steep or hilly ground it will be quite difficult or impossible to make with hold of the soil. It is undue evaporation of the sap which usually kills trees and plants in winter time, whether newly set or not. After they have grown a-year, become firmly established and their rootlets can absorb sufficient moisture to replenish that loss by evaporation above ground, they will endure much more cold and drouth than when newly set.

It is quite a safe rule to follow, over a large firmly and the street or plant plainly or permanently marked. This can best be done by winding

*Average, not total.

when newly set.

It is quite a safe rule to follow, over a large part of the country, both east and west of the Alleghanies, home fruits, which are the apple, pear and quince in the fall, and the stone fruits, the peach, plum and cherry in the spring. Grapes and the bush fruits may usually be planted at either time with equal safety, except where there is danger of their haing mashed out by frequent freezers. It is can best be done by winding a very small wire around the line wire very tightly, twisting it with pliers, at the proper distances. These little coils will be more secure if they are fastened by a drop of solder. A bright colored rag may be tied on to mark each place plainly.

In using the line for planting, the ground marked. This can best be done by winding a very small wire around the line wire very tightly, twisting it with pliers, at the proper distances. These little coils will be more secure if they are fastened by a drop of solder. A bright colored rag may be tied on to mark each place plainly.

These little coils will be more secure if they are fastened by a drop of solder. A bright colored rag may be tied on to mark each place plainly.

In using the planted at either time with the planting of the proper distances. of their being pushed out by frequent freezing and thawing. This is quite sure to reface or deep furrows one way as has just sult with strawberry plants set in the fall wherever there are frequent and extreme changes of the weather; unless they are well with the spade as the planting progresses.

mulched as soon as cold weather begins they are much safer set in early springtime.

DISTANCE TO SET TREES AND PLANTS.

It will be necessary to measure and set stakes on two opposite sides only, between which the wire is to be stretched. All There are many orchards set too closely. being ready to plant, the wire should be far apart at forty feet when they get old. end and at the other have one about four In the West, where they come into bearing feet long to be used as a lever in stretchat a very early age and do not live so long ing the wire. Fasten the wire firmly to the or grow as big as in some other places, thirty stake near the ground, being careful to have feet is far enough. But a wise plan, even the mark on it for the first tree or plant there, is to set permanent trees forty feet just where it is to be. At the other end and fill between them with early bearing fasten it about a foot above the point and varieties of the apple, which will have paid stretch it back as taut as can be done by the abundantly before their room is needed. hands and drive the point a few inches into But there must be no delay about cutting solid ground and in exact line with the row out the temporary trees when they crowd stake. Now pull back the top of the tall

Standard fruit trees are about right at straight from end to end. It can be fastentwenty feet apart and dwarfs at twelve to ed by a rope reaching from the top to a fifteen feet. Cherry trees should vary ac- stake. Then plant the trees or vines at each cording to whether the sweet or sour kinds mark on the wire. Move the wire to the are planted. The sweet varieties grow to next row, and so on to the end of the planta. such large size that thirty or even forty feet tion. This may be both quickly and accuris none too much room, but the sour kinds ately done. It can be made to suit uneven are far enough apart at twenty or twenty- ground remarkably well by a little good management.

Peach trees require less room in the more Northern States and Canada than in the In setting out trees or plants puddle them a few moments each day inhaling Catarrho-Northern States and Canada than in the South. From fifteen to twenty is the proper distance, according to the soil and climate where planted and the method of pruning. However, I believe in quite close heading back annually, and if set about one rod apart there will be abundant room for good and a foot deep. Nearly fill it with water and in this stir earth until there is a mass

However, I believe in quite close heading back annually, and if set about one rod apart there will be abundant room for good apart there will be abundant room for good growth and easy cultivation.

Grape rows should not be nearer than about eight feet and the strong kinds, such an Concord, should be ten to twelve feet apart in the row; while Delaware and others apart in t of rather weakly growth may be a little If the roots are very long I would shorten closer. In California and other Western them a little with a sharp knife. Make the regions, where the European grapes are grown almost exclusively, and the training receive the roots. Place the tree in position is almost entirely on the stump system, the distance apart varies from seven to ten feet according to the varying vigor of the var

The bush plants are nearly always plant ed in rows. These should be seven or eight feet apart for blackberries and raspberries, and the plants about three feet in the rows. Gooseberries and currants are about right at six feet between rows and four feet apart way is very good for all of them.

There are several good ways to lay out a fruit plantation, but the cheapest and easiest is the one in which horse power is used the

ing each out in its natural position and tramp and pack the soil firm and hard until all are covered. Then fill in the soil, making a mound about the tree six inches high. A few weeks ago I published an article on

The most prosperous year in the history of the American farmer is drawing to a close.

The same is relatively true of cattle, was that no pleasure is enjoyant th happiness consists in contentment with always some wish left unsatisfied, and that the are the pleasures of poverty.

I should like to be well off, but I should dread to be rich enough to satisfy all my dewoman I loved.

The only happiness possible for a millionaire must lie in giving his money away to intends the business. The veterinary su help less favored fellow creatures. The surest way, indeed the only way, persacrifices for her.

towards the prevailing summer winds,

which come from the so uthwest over most

of the country. Have the richest and mel-lowest soil handy thrown over the roots.

Shake and finger it between the roots spread-

Philosophy.

BY MAX O'RELL.

To illustrate all this I gave many instances taken from my personal reminiscences, in-cluding that of a loving couple enjoying to the effect that he or she is free from in-fectious or nauseous diseases, and tuberculgreat wealth, who never found real happi- osis is especially mentioned in the rule. The ness, who never thoroughly enjoyed themselves except when they succeeded in forgetting that they were rich and played at poverty and bohemianism. A dear, good fellow writes me the following letter:

"Dear Sir.—Your article on bohemianism There is one thing probably more important has done me a great deal of good, and has than any other in this connection, and that taught me how to be happy. I am a hard- is in the matter of food. Cows which give working man, with a wife and two little | milk used in nourishing babies are given only children whom I dearly love. "For five years I have not had a holiday, never allowed to use the pastures. Not Medicine

"I was talking to a man from Leipsic reently about the system of milk inspection in that city," said a well known New-Orleans specialist yesterday, "and I am con-vinced that they have the best system in the world, and in my judgment American cities would do well to copy after the methods in vogue in that city. They unquestionably succeed in getting pure milk, and there does not seem to be much chance for spreading Prune off all branches at least half way of disease in this way. We know now that derstand that milk in this condition would carry into the human system its unhealthy properties. In Leipsic they are very careful. Stables must be kept clean. The person who keeps cows must be experienced in the business. They are particularly careful bohemianism, in which I attempted to show about the cows that give milk that are use that no pleasure is enjoyable which costs in feeding children. In order that no mistake may be made, the rules governing th and touching which costs no sacrifice, that dairy business require the cows to be brand ed. The rules provide for an injection of tuberculosis lymph, and the cow must be sweetest and most enjoyed pleasures in life healthy and must show no reaction after the injection. This injection takes place before the cow is placed in the stable. If a cow should happen to get sick the fact must b immediately reported, and the veterinary immediately reported, and the veterinary surgeon who has charge of this matter re immediately reported, and the veterinary especially if I wanted to keep the heart of a ports the case to the Council. The sick cov is generally isolated. This matter, however DOMINION ATLANTIC is discretionary with the surgeon who super geon has such complete supervision of these matters that he can even pass on the foo haps to prove to a woman that we love her given to the cows, and can reject any part is to let her constantly feel that we an make or all of it if he pleases. But there is another point. The person who does the milking must furnish a physician's certificate

Farm Butter Making. DETAILS TO BE OBSERVED TO SECURE THE The ability to make good butter is worth Now use the same good money to a farmer and his family in these days, when so much inferior quality is on common sense, and what would you give them when he market, says an Ohio farmer's wife in they are too thin? The best National Stockman.

fat-forming food, of course. the stable should be cleaned or how the milking should be done. As I have never been able to detect any barnyard odor in either milk or butter I will leave that for the scientific dairyman to write about. In select For a quarter of a century ing milk pails get the very best heavy tir it has been making thin (not those with double bottoms), see that every seam is well soldered over and perfectchildren, plump; weak childly smooth and even, and there will be no ren, strong; sick children, nce for filth to gather. I have seen milk pails that had a yellow sediment along every seam. In washing pails look well to the eams and see that they are kept perfectly clean. The strainer pail needs special attenion. After it is washed take a nail brush, one that is kept for this purpose, and some coarse salt and thoroughly brush the strain er several times a week if necessary. After washing and scalding the pails and cans, or rocks and pans, wipe dry and set in the sun shine and fresh air right side up. This is one point I wish to call particular attention

> rises and has no way of escape, but condenses in the vessel and causes bad odors. Much of the milk is tainted by handling the milk utensils in an improper and careless manream in after it comes from the separator

and three large creamery cans to ripen the they are first rinsed with cold water and then washed with hot water and wiped dry and then scalded with boiling water and set out doors, summer and winter, to be horoughly aired. They are left outdoor until wanted, then they are again scalded with boiling hot water and rinsed mith cold

Since I have adopted this precaution or butter is perfectly sweet and sells as "gilt edge butter" in any market. I have neve had one pound brought back, but have never een able to supply the demand. In keep ing a quantity of cream cans you can give hem the proper airing which they must have if one expects to make butter which

ommands a high price. We keep the cream out of the cellar. Only in extreme warm weather do we keep it in peared in the door, with a very irate counthe cellar. Where one has ice the better way to keep the cream is to set it in ice water until you have enough for a churning, then pour the cream in a well aired can as put in a starter. About one teaspoonful of sour milk or buttermilk to a gallon of cream is sufficient at this season of the year. Let stand until loppered, then churn at 68 degrees if Jersey cream; if Shorthorn cream, at 62 degrees. Should the cream be too cold, add warm water until the right temperature and if to warm add cold water. cream while adding water. The churn should be same temperature as the oream.

Cooky Making and Baking.

The most ingenious housekeeper and ideal ome-maker on my list of acquaintances recently said to me: "Cooky-making used to be the bane of my existence; for I never, or rarely ever, found the time to make them in the morning, and in the afternoon when I was fairly under way, into the flour up to my elbows, someone was sure to ring the bell and I was compelled to answer it, as I keep no maid.

But it is not a task any more, for I deliberately set my wits to work to find a remedy for this troublesome state of affairs, and I

am thankful to say I have done so most ef-"First I invented a cooky-pan for baking the cookies, which really is the nicest thing in this line I ever owned, and as there is no tent on it-though sometimes I think it well worthy of one—other housekeepers may enjoy the privilege of owning one just like

ever try to get along without this very be sure to keep me awake." imple culinary device. "The exact measurement of the oven to my range was taken, and these measurement ere sent to a linemith, who made a sheet iron pan one half inch in height, which would nicely fit in the oven, covering every inch of

space, allowing no wasted room as when several pans are used. "By having it made so shallow, a knife ould be slipped beneath the cookies much asier to remove them than in a deeper pan. on't you know how frequently a whole par ul of cookies is broken into fragments when

rying to remove them from an ordinary pan? With mine you never have this difficulty to contend with. "Next I have a broad knife, such as are sold for potato choppers; even if the most

refractory cooky tries to adhere to the pan, his broad-bladed knife reduces it to subm "Lastly, I never roll my cookies any more

requires too much time, and they are r better for the extra work. All of my cookies both molasses and sugar, are dropped into the baking dish from a spoon. It les sens the task one-half, and the cakes are ighter and more wholesome besides.

"Making cookies," she continued, with a nappy little laugh, "is simply a joke, which an be completed in ten minutes at the very least. My recipe book is in one of the drawers of my kitchen cabinet, and with my mater ials so conveniently at hand it takes less than no time to stir up a large batch, which are dropped on my nice pan; and when you only have one panful to watch in lieu of sev eral, you never get tired or called away and accidently burn half of what you are making. And if every housekeeper who is trying t do her work alone for her family as I am really understood this thing, she would im nediately have a cooky pan made to fit her oven. For the combination of cooky-baking nd callers have lost their terrors to me.

"Then my pan is equally useful for baking slon't know much about the ways of girls, crullers, or any other fancy design made from cooky dough, whether dropped or rolled. Also for baking tarts, bread-sticks or cheese-straws—anything in this form of past w which you desire in goodly quantities. And for a small family, to mix just enough to fill the pan once would be sufficient for a

nedium size baking. "But as I said before, my children have pokies for dessert when I am to tired to that don't know any." provide any other, I usually fill the pan wice at one baking.

Happy, Though Miserable,

W. K. Vanderbilt, Jr., the other day got out of his \$15,000] Mercedes racer with a queer expression on his face. "Run into anybody?" queried a friend

Mr. Vanderbilt's expression expanded into a slow, full smile.
"Well, ye-es—in a way," he said. "The other day at a dinner I ran across an old bore of a fellow, who expressed the most ardent

ambition to have a ride in my racer. As I didn't take any notice of his hints, my gentleman deliberately asked to be allowed to was a friend of the family, you know, though I made an inward vow to shake him up a bit, You see, he had never before been on ar to-right side up. Then they will be sunned inside, where it is required. It is a great "Well, I took him along to-day. I started mistake to turn them upside down on a table at a quiet little gait, taking care not to inor nicket fence as so many do, for hot air

crease the speed gradually, as of course he would not then have felt it. But just when he was in the midst of an ecstatic eulogy on the 'calm, even floating motion of automobiling,' I turned on full speed and let the thing fly. He clung to his seat with his two hands, his eyes fairly shining and bulging with fear and excitement,

"'How do you like it?' I asked, as the wind whirled his hat off. "Wh-hy,' he stammered between his gasps for breath, 'my lad, I've just solved the problem of how to be happy though

The Woes of a Grocer.

It was an uptown grocery which a little day, saying: "I want a spool of cotton!"
"You won't get that here," replied the grocer, jokingly. "You'll have to go to the

blacksmith's shop for that."
"I want a spool of cotton," the child repeated, clutching something very tightly in her right hand. And she continued to reiterate the request for a long time before quitting the store. Presently her mother ap-

"D'ye mean to tell me that you haven't got a nutmeg?" she inquired, indignantly. "Was that what the child wanted?" exclaimed the grocer. "She asked for a spool "Couldn't you see the nutmeg in he

and?" retorted the mother. "I saw something in her hand, but I didn't know what it was. "Well, all you had to do was to smell it," was the final shot with which the motron departed.

Witnesses to this scene have amused them doesn't exercise greater detective skill in finding out what his customers require when they don't know themselves.—Philadelphia

Her Stipulation. That there are still people unfamiliar with ience of a certain man.

He wished to have telephonic con between his house and a new one built for his son's summer residence. The best route ook the wire over the cottage of an old lady, to whom he had applied for permission to make the slight use of her roof that was

The old lady gave her consent, but made a firm stipulation at the same time. "I'm willing you should run wires over my roof and hitch 'em wherever you see fit," she said, pleasantly, "provided you don's use 'em after nine o'clock at night. That's oy the privilege of owning one just like and anyone who does her own baking will and the noise of folks talking overhead would

A farmer entered an office in central New York and sent this message to a woman in Canada: "Will you be my wife? Please answer quick by telegraph." Although he waited the rest of the day, he got no answer, but the next morning he got a night dispatch, sent collect, but favorable. The operator, in expressing his sympathy, said : "Little rough to keep you in suspense so long."
"Look a-here, sonny," the farmer remark

ed, "I'll stand all the suspense. Any woman that'll hold back her answer all day to proposal of marriage, jest so that she kit send it half rate at night, is economical enough to make up after I git her for all the loss of time and injury to feelin's I've suffered waitin'!"

-A priest who had delivered what seemed o him an excellent and striking sermon was anxious to ascertain its effect on his flock. "Was the sermon to day to your liking, Pat?" he inquired of one of them.

"Throth, y'r riverence, it was a grand

mon entirely," said Pat, with such genuine admiration that his reverence felt moved t "Was there any one part of it more than another that seemed to take hold of you! "Well, now, as ve are for axin' me, begorra, I'll tell ye. What tuk hoult av me

most was y'r riverence's parseverence-the

way ye wint over the same thing ag'in and

ag'in and ag'in."

"You want to marry my daughter, do you? What reason have you to think, young man, she cares for you?" "None at all, sir, except that she always And the children, especially my boys, have after calling on her, and says she'll be awall the cookies they care for.
