A Poet From The Railway

Mr. C. J. Dennis and route between Australia and England have induced a large number of Australians to pass through Canada, who otherwise might never have known this country, and have brought Australia into closer sympathy with the Dominion than ever before. Canadians also have learned to appreciate the Anzacs, and the increasing trade between these two junior partners of the British Empire, as shown in the record traffic of the Canadian Australia, has not yet been published in this country, stray copies pass from hand to hand and are greatly rotation and both are on the whole still mainly agricultural. The comparative absence of cabled news from Australia in Canadian papers is, however, a handicap against the knowledge of each other's social problems and progress, and Australia and the progress, and duration and provided a progress, and the contract of the Canadian Pacific Railway attracted men of all classes, some of the Canadian Pacific Railway attracted men of all classes, some of the Australian in the terenous to rival a price of the Australian railway products of Adelaide, "Doreen and the Sentimental Bloke," which in its own country, are unint the bush at Toolangi, Victoria, N.S.W.

AN INTELLIGENT HORSE

How an Animal Saved His Mate's Life Wednesday Morning

An incident showing the linear degree of a horse occurred early Wednesday morning, at the west end of the town. Two horses, owned by J. S. Moses were left during the night in a paddock close to the barn, near the track of the H. and S. W. Sometime during the night the horses left the yard and walked down the track Coming to the Fash pond bridge of about one hundred feet long, they carefully walked over it. After a time pastor of the Brunswick street Bapabut on the horses left they are another than the bridge on the carefully walked over it. After a time pastor of the brunswick street Bapabut on the bridge on the last freedricton, (a former pastor of the brunswick street Bapabut on the bridge on the last freedricton, (a former pastor of the brunswick street Bapabut on the bridge on the last freedricton, (a former pastor of this town); Hon O. T. Daniels, attorney general of Nova Scotia; by the bridge on the last Thursday and registered at the St. James Hotel last Thursday and the last Thursday and t An incident showing the intelli track of the H. and c. during the night the horses lett the during the night the horses lett the during the night the horses lett the yard and walked down the track Coming to the Fash pond bridge of about one hundred feet long, they carefully walked over it. After a time they returned to the bridge on the way home, but in coming over both of the horses went through the sleepers. After struggling desperately for stooting, one of the horses, which is particularly intelligent, was able to particularly intelligent, was able to particularly intelligent. This horse the particularly intelligent, was able to particularly intelligent. This horse the passent of the Brunswa.

Maxwell and Warren were unable to be present.

The speakers of the evening were:

The speakers of t Nearby neighbors were called and they soon had the crippled horse off the bridge. Before this was done, the first horse seeing that his mate was being looked after, quietly walked back to the barn and was found in its stable chewing its progress. stable chewing its breakfast. Its expression of delight by whinning and nosing its mate that had returned, was most pathetic. No legs were were broken, only badly bruised.

Accident at New Glasgow

The New Glasgow Enterprise says: Chas. C. Nichols, son of G. E. Nichols, Esq., had the misfortune to have his hand badly injured at the Steel Furnishing Works, on Monday. It is said the injury resulted in a machine, that has been fatal to the finger tips, of ten boys during the past year or so. Young Nichols is sixteen years of age, and is full of patribtic fervor, and some months ago tried to enlist, but could not on account of his age. He is a school boy, and one of the best members of the "Celet Clerre". bers of the "Cadet Corps." For the past six weeks he has been working on his uncle's farm at Annapolis, and just came back and went to work to do his bit during vacation. He was particularly fond of music, and had spent much time in practising planoforte which he will now have to abandon. His fether Mr. C. W. Nichelen is of the opinion that the machine was

(Mr. G. E. Nichols, above referred to, is a son of Mr. H. A. Nichols, of Bridgetown.—Ed.)

Cruelty in Digby County.

A story of cruelty comes from Culloden, a small village on the Bay shore, west of Point Prim. It is re-ported that a farmer missed a fine yoke of steers, worth two hundred and fifty dollars. For several days every effort was made to find them. A man passing an unoccupied house heard the low moan of cattle, apparently from inside. The door was broken open and the famishing cattle were found locked up in a back room. They were released and taken to a nearby brook for water, and apparently allowd to drink all they wanted. In less than half an hour both of the steers died from & ruptured stomach.

song,"Even Bravest Hearts May Fail." from Faust. He also favored the con-gregations at the Baptist and Methodist churches Sunday morning and evening respectively, with solos from the oratorio "Elijah." Mr. Beresford possesses a baritone of unusual quality and his singing was greatly enjoyed by all who heard him. Prof. Lindsay played the accompaniments, which gave added pleasure.

Mr. Wallace Rice, while mowing have at Hammton Monday, caught his representative is Mr. Bernard Cossisting arm in the knives of the machine, receiving very painful injuries. He was rushed to Bridgetown for medical sid, and vectorday left for Hall falt. It is hoped that amputation will see in Toronto and to the found necessary.

Gift to Riverside Cemetery.

BUY-AT-HOME CAMPAIGN

SAVE AND PRODUCE

We have got to save and produce.

STRONG & WHITMAN

On every side, from every land, we hear the same cry of warning, "We have got to save and produce if we are to win the War."

David Lloyd George in a recent state ment to the press said that Great Britain and her colonies had over seven million men in the army and navy, more than the total population of the entire Dominion. In addition there are the millions of Rus-sia, and the millions contributed by sia, and the millions contributed by the smaller countries, all fighting for us under the banner of the Allies and civilization. The total would not be far short of twice the population of the Dominion of Canada.

The .human .mind is too small .te The human mind is too small to grasp the enormity of the demands of this huge army in food, clothing, munitions and all the other necessities to maintain a fighting force in the field at the very highest pitch of efficiency. It means an expenditure of scores of millions of dollars every day. And the War has been lasting a great many days.

These men were producers three years ago and now they are only consumers. With twelve million less prosumers. With twelve million less producers and just as many consumers as there were before the War, the poeple at home have got to produce more than ever before. Production has got to be speeded up to an enormous extentand anything that puts the brakes on that speeding up prolongs the war, works to the advantage of the War, works to the advantage of the Huns and is traitorous to a de gree. We have got to save and produce more than ever before if the Hun is to be thwarthed in his despicable

Save and produce then is the slogan. First, as to saving. He saves most

who buys at home. It may look like saving to buy on the attractive offers of a catalogue; but it is a penny wise and pound foolish policy. It means the going out of dollars from your town which you will never see again, You get a second chance at the dollar you spend at home. Buy at home for it is the greatest saving in the end.

Second, as to preduction. Production second, as to production. Production as you know has got to be increased, and increased, and increased, and syou know production depends on three things, land, labor and capital. We have got the land in abundance in Nove Section and capital. We have got the don't have to worry about that. But we have lost thousands of our best-youngmen who have doned kakhi in free-

We all have got to work harder and bend all our energies to increase production. And that brings us to the third factor in production—capital. Wu must have money, all the money we can lay our hands on. And how are we going to get it?

We have got to learn the lesson that we have got to learn the lesson that if we send our money away to buy goods, we have just that much less at home. We have just that much less for productive purposes in our oya Province. You may say that the money will be used in the other Pro-Asuou and puss on upique of pour age. True, it may be ando then if be. In any case, we are not doing our duty. Our duty is to keep our money at home so that we may speed up our factories and take our place in the fight for freedom.

Buy-at-home so as to keep our money at home that we may use it for speed-ing up production. Buy from your home town merchants. Your Province needs the money.

(Copyright, T. H. Curry)

Buy-at-home then!

"Wear-Ever"

Aluminum Utensils

are different. Of course, aluminum is aluminum; but utensils may differ in purity, in thickness, in handles, in finish. Purity. "Wear-Ever" utensils are 99 per cent. pure.

Thickness. They are made thick enough to prevent denting readily; thick enough to guarantee a lifetime of satisfactory service. time of satisfactory service.

Handles. The handles of "Wear-Ever" utensils are made of the best tinned steel. Aluminum handles would become too hot-wooden handles would burn off or break. The handles of "Wear-Ever" utensils are gripped to the utensils by aluminum rivets with large heads. The heads are not sunk into the side of the utensil—the side remains of uniform thickness, strong enough to hold the handle on firmly for years.

Replace utensils that wear out with utensils that "Wear-Ever"

You can keep the fine natural color in Raspberry Preserves

Long cooking fades raspberries. You can avoid this by using LANTIC SUGAR which dissolves instantly on account of its "FINE" granulation. LANTIC is the best sugar to use for all preserving on account of its purity and high sweetening power. LANTIC is a pure cane sugar equally good for the table, for general cooking and for preserving.

10, 20 and 100-lb. sacks; 2 and 5-lb. cartons.

TRUE ECONOMY

DEMANDS THE USE OF MORE

PURITY

There is more actual food value in ONE POUND OF PURITY FLOUR than there is in One Pound of Beef, One Pound of

Potatoes and One Pound of Milk COMBINED. The truly economical housewife must take advantage of this great strength in PURITY FLOUR over other food substances by serving more frequently the delicious bread and rolls, toothsome, dainty cakes and crisp, mouth-melting pastry which are among the possibilities of this perfectly milled product of the world-famous Western Canada wheat.

The Purity Flour Cook Book

180 pages of the latest information on the culinary art. Reviewed and approved by the DOMESTIC SCIENCE DEPARTMENT of the MACDONALD COLLEGE, and furnishing tried and economical instructions on all dishes for all meals. A GENERAL PURPOSE HOUSEWIFE'S REFERENCE BOOK.

Mailed postpaid to any address for 20 cents.
