CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co.'s
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

CURRENT TRADE CONDITIONS.

ONTARIO.

The strength which is shown by the lumber market is very encouraging to holders of stock. Information from manufacturers and dealers in pine is decidedly optimistic, and the outlook for building operations is improving as the season advances. There is a heavy local demand, and a liberal distribution to the Eastern States. The new cut apparently is having no influence upon prices; consequently investors who have delayed carrying out proposed undertakings are now proceeding with the work. The statement of the manager of the Bank of Montreal that the lumber markets were congested and prices ruling low has elicited much unfavorable comment. So far as the markets of Canada and the United States are concerned, his statements are widely at variance with the facts, as it is many years since the market has been in a more healthy condition. With mill culls, for instance, selling at \$11 at

the mill, surely the market is not depressed. On the other hand, the outlook is that there will be no material decline in the price of pine lumber this year. This might be said of hardwoods also, although this class of lumber is not as active or firm as pine. The British market is doubtless rather heavy, but Canadian manufacturers are not likely to be seriously affected thereby, on account of the increased demand at home and in the United States.

QUEBEC AND NEW BRUNSWICK.

Shipping of lumber during the past week from the eastern provinces has been quite active. Heavy shipments have been made to Great Britain, and vessels have loaded for South America and Antwerp. The shipment to Antwerp is the first that has taken place for several years. The number of vessels under charter seems to indicate that the export of spruce lumber this season will be heavier than was anticipated earlier in the year. The market for square and waney timber is showing strength, pine timber having advanced from one to three cents per cubic foot. Most of the log drives in Quebec are likely to reach the mills, but in New Brunswick several drives have already been hung.

UNITED STATES.

The past week has been one of unusual activity in lumber circles. The buying has been on a comparatively large scale, and sales made in the Lake Superior district have been at the top prices of the year. Although some of the new cut is almost in shipping condition, the sawing season having been in progress for six weeks, white pine lumber is exhibiting increased strength. There seems to be a large present and prospective demand, and a strong belief that there will be no material decline in prices during the summer. From Duluth the sale is reported of several million feet of No. 3 and better at \$18, which is a remarkable price. The east is buying quite liberally, and although receipts of lumber at Buffalo and Tonawanda have been quite heavy, the grades are still somewhat broken. In view of the attitude of the western producers the dealers at eastern distributing points may be forced to advance prices. Such a possibility at this season of the year is unusual. The manufacturers of spruce are showing great confidence in the future of

prices, the present asking price at Boston being fifty cents above the list. The improvement in hardwoods is slow. Sales of basswood are on the increase, but elm and maple are quiet. Brown and black ash are meeting with better enquiry.

GREAT BRITAIN.

About the only encouraging news from Great Britain is the announcement that at recent sales the buying has shown more animation. Other conditions remain unchanged. The import of timber so far this season has been little less than for the corresponding period of last year, and it is feared that even lower prices may be witnessed before the season closes. A large quantity of the North of Europe production is still unsold. White sea shippers have lately closed some contracts, but the quotations are believed to be fifty shillings lower than the price quoted at the opening of the season. The building trade is inactive, even in the face of the comparatively low price of lumber. While pine deals are reasonably firm, the market for spruce is quite heavy. It is reported that Canadian shippers are accepting lower prices. For instance, 3x9 third spruce has sold at £8 2s 6d c.i.f. London, and 3x7-8ths at £7 5s, the latter being a reduction of 10s per standard on battens. There is a fair demand for 11-inch spruce, but the quantity of this width available is not large.

MANITOBA AND BRITISH COLUMBIA.

There has been a decided improvement in the lumber demand in Winnipeg, and a slightly better trade throughout the province. Building operations are quite active, and higher prices for lumber are looked for in the near future. Conditions in British Columbia are reasonably satisfactory, although foreign shipments have not been heavy. The Provincial Government has prohibited the export of cedar logs, which has affected a number of loggers. A considerable quantity of such logs has been exported to the coast sections of Washington State, where the cedar limits are of little account.

The Whaley Lumber Company, whose mill at Huntsville, Ont., was burned recently, are reported to have sold their stock of logs to a Hamilton firm.

STOCKS AND PRICES.

The steamer *Ridal Holme* is loading lumber at Chicoutimi, Que., for the United Kingdom, on account of Price Bros. & Co.

The cooperage market is not active, flour barrels being especially slow. Michigan staves are quoted in Minneapolis at \$8.50.

The steamer *Monhegan* has sailed from Ship Island for Montreal, with 775,000 feet of pitch pine, consigned to Shearer & Brown.

The steamer *Lovstaken* is loading a cargo of deals at Riviere du Loup, Que., for the U.K., and the steamer *Varax* is about to load at Montreal.

The steamer *Magda* is loading 2,000,000 feet of lumber at Montreal for Antwerp, the shippers being Watson & Todd. This is the first shipment of lumber made from Montreal to Antwerp for many years past.

Eastern spruce is held in New York at \$18 to \$20. In Portland, Maine, prices are \$21 for 12-inch, \$15.50 for 1x3 to 1x11, and \$16 for scantling. Spruce clapboards are quoted at \$32 for extras, \$30 for clears, and \$26 for second clears. Dry spruce covering boards bring \$15.50 to \$16.

The steamer *Georgia* sailed last week from Digby, N.S., for Cienfuegos, with lumber. The barque *Lillian* is loading lumber at Tusket Bridge, N.S., for Buenos Ayres. The brig *James Daly*, is loading at Liverpool, N.S., for the Barbadoes, and the sch. *Frances A. Rice* will load again at Weymouth, N.S., for the West Indies.

The steamers *Daventry* and *Gladstrey* are loading lumber cargoes at Sillery Cove, Que., for the United Kingdom. The steamer *Dunmoore Head* is loading a cargo of deals at Batiscan, Que., for Cork, Ireland. The *Loughrigg Holme* is about to load a cargo of lumber at Montreal for Barrow, Eng., the shippers being Watson & Todd.

C. H. McMichael, of Beaverstone, Ont., states that they expect to have their drive of logs out in about two weeks. On one of the creeks the water is low, and about 25,000 pieces are in danger of being hung up.

A shipment of square timber, comprising four cribs of 135 pieces, was made from Lindsay last week for England. It was cut in Cartwright township, and consist chiefly of elm and birch.

The shingle market at Saginaw, Mich., is active, stocks being taken about as fast as they come from the saw. There is as yet very little stock accumulating, and as the product is not so large in eastern Michigan.

gan as years ago, it is not expected that there will be any shingles piled up for any length of time. The market is firm, with quotations there at \$2.50 and \$3.50 for 18-inch white pine; \$1.75 to \$3 for 16-inch white pine; cedar shingles, \$2 and \$3, for 18-inch and \$1.50 for 16-inch cedar.

A correspondent thus refers to the Michigan lumber market: The market never manifested healthier conditions. There is a demand for all kinds of stock. Good lumber is particularly firm. Michigan white pine is worth from \$17 to \$25, and Canada stock from \$16 to \$21 for log run. Box lumber has not been so strong as some other grades, but is quoted at \$12.50 to \$15. Norway is in demand, but only two or three firms are cutting it, and the old stock is practically exhausted. It is worth \$11 and up, according to dimension. Mill culls are worth \$12 to \$13.

At an auction sale at Dublin, Ireland, on May 25th, held by Richard Martin & Co., Canadian timber brought the following prices per Irish standard: 3rd Quebec spruce, 11ft. 9x3, \$12; 12ft. 9x3, \$13 5s.; 11ft. to 13ft. 7x3, \$12 2s 6d. to \$12 7s. 6d. to \$12 7s. 6d.; 13ft., \$12 10s.; 7s. 6d.; 13ft., \$12 10s.; 16ft John spruce, 14ft. to 18ft. 11x3, 17s. 6d.; 19ft. 11x3, \$13 10s.; 14ft 9x3, \$13 10s.; 15ft. to 18ft. 9x3, \$13 10s.; 19ft., \$13 17s. 6d.; 20ft. and 21ft. 9x3, \$14 7s. 6d. 2nd Quebec spruce, 11ft 9x3, \$12 15s.; 12ft. 9x3, \$13 12s 6d. to \$13 15s.; 12ft. 11x3 \$12 12s. 6d. to \$13 17s. 6d. Bay Verte spruce, (10 5s. to \$10 17s. 6d.

THE BOSTON MARKET.

There continues to be a very firm market for spruce lumber, with the demand active and the supply not fully up to requirements. It is claimed the scarcity of logs on the St. John will be even more serious than at first reported. Not much cargo spruce is coming forward, and the car mills are delaying orders.

The quotations on spruce in this market are firmly held: Ten and 12-inch dimensions, \$18@19.50; 9-inch and under, \$17@ \$18; 10 and 12 inch random lengths, 10 feet and up, \$17.50@18.50; 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, \$15@16; all other randoms, 9-inch and under, 10 feet and up, \$15.50@17; 5-inch and up, merchantable boards, \$15@16; matched boards, \$17 to \$18; out spruce boards \$12.50; bundle furring, \$14.

There is a firm market for hemlock lumber, with the supply small: Pennsylvania, No. 1, \$16 to \$17; No. 2, \$14 to \$15; eastern Pennsylvania boards, \$15 to \$16; random, \$13 to \$14.

Western white pine is steady and un-

changed: Uppers, 1 inch, \$58 to \$62; 1 1/4 to 2 inch; \$63 to \$64; 3 and 4 inch \$68 to \$72; selects, 1 to 4 inch, \$52 to \$64; fine common, 1 to 3 inch, \$45 to \$60; sheathings, \$38 to \$54; barn boards, \$25 to \$30; coffin boards, \$23 to \$25.

There is a quiet demand for finishing hardwoods, but whitewood is firm, owing to the scarcity in the South: One inch, whitewood, \$37 to \$39; thicker, \$39 to \$42; 3/4 inch, \$30 to \$33; saps, inch, \$25 to \$30; common, \$23 to \$25; quartered oak, \$65 to \$75; fancy, \$85 to \$90; plain oak, \$35 to \$45; ash, \$38 to \$45; cherry, \$90 to \$130; maple, \$30 to \$40; sycamore, quartered inch, \$40 to \$50; walnut, \$100 to \$130.

There is a steady market for shingles, with prices firm: Extra cedar, \$2.85 to \$2.95; clear, \$2.60 to \$2.65; second clear, \$2.15 to \$2.25; clear white, \$2; extra No. 1, \$1.90; Washington and British Columbia, 16-inch, five butts to 2 inches, \$3.15 to \$3.25.

Clapboards are firm and unchanged: Extra spruce, \$30 to \$31; clear, \$28 to \$29; second clear, \$25 to \$26; pine extra, \$36 to \$38; clear, \$36 to \$37; second clear, \$28 to \$30.

Laths are easier with a fair demand. The quotations here are: 1 1/4 inch, \$2.85 to \$2.90; 1 1/2 inch, \$2.70, to \$2.85.

Boston, Mass., June 3rd, 1901.

INQUIRIES FOR WOOD PRODUCTS

Enquiry has been made from the Canada Lumberman for names of Canadian shippers of pine, spruce and hardwoods who wish to secure a responsible firm of London brokers to handle their shipments and advise them regarding the market. The name and address will be furnished upon request.

QUEBEC TIMBER LIMIT SALE.

The sale of timber limits advertised by the Quebec Government took place in the Parliament Buildings, Quebec, on June 5th. There was an unusually large attendance of lumbermen and others interested. Mr. Blouin, of The Crown Lands

Department, acted as auctioneer. Although the bidding was not particularly spirited, the result was satisfactory. In all about 2,700 square miles were disposed of, at an aggregate price of \$402,300. At 4 o'clock the sale was adjourned until the 26th inst., when the unsold limits in Saguenay district will be put up. The largest purchases, with quantity and price, were as follows:
