UNITED STATES IS READY TO INTERVENE IN MEXICO

Seven Americans Killed on U. S. Side of the Line

President Taft Says Congress Must Now Say What Steps Should be Taken - Had Conference with Ambassador Bryce - Intervention Would Mean Prolonged Conflict Against a Re-united Mexico.

WASHINGTON, April 17.—President Taft felt to-night that he has done personally all that can be done by a chief executive to control the situation along the Mexican border. He and his advisers believe that now congress must say whether the situation is grave enough to warrant intervention and its consequences.

Through the state department the administration to-day reiterated the representations made to Mexico that affairs like that at Douglas last week must not be repeated.

The president is plainly worried. He talked but little, but the bulletins that came thru the war department and thru the press were taken to him what ever he happened to be and read with interest.

Talked With Bryce. The president had two important conferences. He talked with Secretary Knox in the afternoon, and to-night he had a conference with Ambassador Bryce of Great Britain.

The reason of Mr. Bryce's visit was that he came to talk about the proposed arbitration treaty between the U. S. and Great Britain. It is practically certain, however, that Mexico entered into the conversation. It is believed that the ambassador explained to Mr. Taft the landing of British marines at San Quintin, Mexico, last week.

In connection with Mr. Bryce's visit, a suggestion that there might be joint intervention in Mexico by the U. S. and England was discarded. It was pointed out that any such joint intervention would be construed as an acknowledgment by the U. S. that the nation is unable to handle the situation, and that it would be almost an abandonment of the Monroe doctrine.

Intervention Means War. President Taft has shown to leaders of both the senate and house the confidential correspondence between the U. S. and Mexico. He feels that since the leaders in congress have practically all the information he has, it is their duty to take any further action. The president has let it be known that no U. S. troops would cross the line unless authorized by congress, and Secretary of War Dismick confirmed that statement to-night.

No Excuse For Intervention. DENVER, Colo., April 17.—"There will be no intervention, no trouble between the United States and Mexico. I feel sure of this, tho' I am no prophet," said Baron D'Estournelles de Constant, French diplomat, in an address before the Denver Chamber of Commerce to-day.

POSTMAN ROBBED MAILS. Marked Money Found on Daniel McGurk When Taken. Postman Daniel J. McGurk, 28 years, single, 204 Argyle-street, was arrested last night by Detective Guthrie on a charge of robbing the mails. McGurk is on the West Queen-street route. Inspector Alexander Sutherland of the postoffice became suspicious and he called in the police to assist. A dollar and a fifty-cent piece were sent thru the mails in a letter to an address on McGurk's route. Yesterday evening at 8:20 Detective Guthrie walked into the postoffice and arrested the man. A search revealed a portion of the money in the letter-carrier's pocket. The prisoner refused to make any comment.

DAMMING LONG SAULT. OTTAWA, April 17.—(Special).—The project of the damming of the Long Sault Rapids is not dead by a long sight. Canadians who think the U. S. grab scheme is killed were never more mistaken in their lives. Something is due to happen any day now.

Disclaimers Have Been Made Before

LONDON, April 17.—The Morning Post, commenting on a statement of its Washington correspondent that no one in the United States desires the annexation of Mexican territory, says: "No doubt such disclaimers were made before the last Mexican war, which added more than five hundred thousand square miles to the territory of the United States, just as they were made before the Spanish war, which ended in the American flag being hoisted over the Philippines and Puerto Rico, and which made Cuba a dependency. Peace-loving republicans may disclaim any desire for territorial expansion, but whether in Liberia, the far east or Central America, they seem prepared cheerfully to embark on courses of policy leading directly to consequences for which they profess such distaste."

THE SACREDNESS OF MARRIAGE.

What the average man wants to be sure of when he gets married, or when his daughter gets married, is that the marriage is good anywhere in the British Empire. When he gets his license in Canada, now and goes thru a ceremony, he is never sure whether some churchman may not come along and upset it, or whether some other province he may move into may not decline to recognize what the King's law has already approved.

England was for some time out of line with the colonies and the Isle of Man on the matter of marriage with a deceased wife's sister, but the law is now uniform. Regulations governing Moslem and Hindu marriage ceremonies do not affect Canada, and need not be considered here. But the whole country is concerned about the question of uniformity under Christian usage. This is not a matter of one church more than another. The churches are all anxious to exert power and influence when they have a chance, but they must bow to the will of the state where the safety, and even the existence of the social organism is at stake.

The decree, "Ne Temere," of the Roman Catholic Church is merely another logical step of that body in the effort to assert authority and control over every thought and action of its members. The Anglican Church in England has equally pronounced views about the marriage of deceased wives' sisters and of divorced persons. Non-conformist opinion in England is by no means hostile to the principle of the "Ne Temere" decree, and such a representative organ of free church thought as the British Weekly is very clear on this point. It is by no means prepared to leave the control of marriages in the hands of the civil power. It takes this ground in view of future eventualities which may arise out of changes in the divorce law.

We believe that the churches must realize that, like the Sabbath, they were made for man, and not man for the churches. The marriage relation is the most sacred that our law recognizes. It is the basis of our social economy. Any attempt to base the operation of our marriage laws on questions of belief rather than on matters of fact is a step backwards towards barbarism and superstition.

But the people will not tolerate any such attempt. A great deal of nonsense is being talked about the increase of divorce, and a great deal more about the immunity of Canada from divorce. Canadians who want divorce usually go to the United States for them. People who regard seduction and prostitution as less heinous than divorce are suffering from moral asceticism. The people do not want their marriage laws regulated by considerations of immorality which are exceptional and abnormal. The people want their marriage laws to govern the relations of normally decent, sane, respectable people, whatever be their religious idiosyncrasies.

During the Most Important Battle of Revolution Bullets Fell Thick in Streets of Douglas, Arizona - Fighting Favored Insurrectos, Federals Leaving Machine Guns Behind - May Resume To-day.

AGUA PRIETA, Mex., April 17.—(From 'The Associated Press' in the Field).—The most important battle of the Mexican revolution thus far was fought here to-day, between 1600 federalists under command of Lieut.-Col. Diaz, and 1000 rebels under Balasario Garcia and resulted in the repulse of the former.

The battle, however, was not finally decisive. It lasted from 6:30 a.m. until sundown. The federal loss, estimated by the rebels, was at least 200 killed and wounded. The rebels gave their own loss at 20.

From the beginning of the battle, the United States Government to the local officers of both forces a rain of bullets poured into the American town of Douglas, and when the day was over the rebels were still in the town, which designates them on the field of battle, dashed out of the south exit, wide detour towards the east, and north, completing their area of observation at the international boundary without drawing the fire of the government troops.

Rebels Gained Advantage. This indicated that the rebels had been successful in keeping the federals from gaining access to the localities immediately south of the border, which would have possible a flank movement against Agua Prieta.

At 2 o'clock the rebels appeared to have repulsed the federal forces at every point. About this time three rebel squadrons, mounted and carrying the scarlet sashes of the regular army, which designates them on the field of battle, dashed out of the south exit, wide detour towards the east, and north, completing their area of observation at the international boundary without drawing the fire of the government troops.

Rebels Gained Advantage. This indicated that the rebels had been successful in keeping the federals from gaining access to the localities immediately south of the border, which would have possible a flank movement against Agua Prieta.

At 4 o'clock the firing, except that of a desultory nature, had ceased to the west of Agua Prieta.

A force of 1000 rebels, under the command of Balasario Garcia, crawled forward on their hands and knees, from bush to bush, during the night, and at 3:45 p.m. had approached within 200 yards of the rebel trenches. At this distance they shot from their horse a rebel captain commanding a squad in the trenches.

American Wounded, Will Die. Frank Williams, an American, while standing in the very centre of the business quarter of Douglas, late to-day, was wounded in the leg by a bullet from the international line.

Another was added late to-day to the list of Americans shot in Douglas, making seven in all. The latest was John Keith, employed by the Douglas Lumber Company. He was the town clerk when he was shot.

AN OPENING

UNCLE SAM: As the late W. Shakspeare says, "Tis not as deep as a well nor as wide as a barn-door—but 't will suffice."

THE U. S. SENATE WILL PASS NOTHING

New York American's Correspondent Reports That This is the General Impression at Washington - Neither Democrats Nor Republicans Will Vote Solid on Reciprocity and Tariff Reform Measures.

WASHINGTON, April 17.—After a thorough canvass of the Republican membership of the house I can state positively that a substantial majority of the party will vote against the Canadian reciprocity bill, said Representative Dwight of New York, the Republican whip, to-night. The bill is to be put on its passage this week.

Five speakers participated in the debate today. Representatives Fordney of Michigan, a Republican member of the ways and means committee, and Representative Lenroot of Wisconsin, an insurgent Republican, spoke at length against the bill. Representative Harrison of New York also spoke against the bill.

Flow Down and Forward. Dr. Johnson declared that if the man was standing when the wound was inflicted the course of the blow was forward and down. The doctors agreed that a man who had sustained such a wound would be fatally injured, and that he could live only a few minutes and that any high excitement of exertion, such as walking, would hasten death.

YEAR OF GROWTH IN ANGLICAN CHURCHES

Prosperity Is Attested by Increased Revenue and Plans for Improvements and Extensions - Holy Trinity Church to Broaden into Wider Usefulness.

The Anglican vestry meetings show that the church in Toronto is in prosperous and flourishing condition and is doing as much for church work and the betterment of the people as any other organization in the land.

Toronto is the centre of Anglican influence in Canada, and there is something the Anglicans can have to do as well as carry on good work in the parishes, and that it is to complete St. Alban's Cathedral and make it worthy of the diocese. His Lordship Bishop Sweeney is certainly a devoted servant of the parishes and is well known as of the church, and he ought to be loyally backed up in realising this work.

The Anglican churches in Toronto and the vicinity are prospering mightily. The vestry reports last night told a story of increased revenue, larger givings to missions, plans for new buildings or extensions. Particularly pleasing was the report of the vestry of Holy Trinity Church, which is going ahead in the city's outer zone, by the late Canon Scadding, and Rev. Dorwin T. Swan, presiding curate, was appointed rector, to succeed the late Rev. Mr. Pearson.

St. Anne's will build a new Sunday school to cost \$45,000. All Saints will hold a celebration in June to commemorate its 40th anniversary. At St. George's Rev. Allan McElroy was appointed assistant to Vicar Rev. R. Moore.

St. James' Cathedral. The report submitted to the vestry of St. James' Cathedral yesterday, substantial progress both in spiritual and temporal affairs of the church. Perhaps the most important item in the report was the fact that the vestry had decided to build a new Sunday school to cost \$45,000.

Municipal Topics. It is bad policy, Mr. City Engineer, to block parallel or neighboring streets with municipal buildings. Duke and Duchess streets are relieving streets of the city, east of Jarvis street. Both were blocked with repairs on the asphalt. They are not let one of these jobs wait a while?

C. P. R. Man Goes West. Geo. A. Walker of the C.P.R. legal department in this city is leaving on the 24th instant for Calgary to take charge of the law branch of the company's business for the Alberta division. Mr. Walker has for many years been associated with Angus MacMurphy, K.C., solicitor for the Ontario division, and is well-known to railway men throughout the province. He entered the employ of the company many years ago, and is exceedingly popular with his conferees at the bar.

## LAKE WATER SOON HERE IF WEATHER HOLDS GOOD

Much Sand Has Been Cleared Out and Temporary Intake Near Completion. The city will soon have a supply of lake water from the temporary intake if the engineering department receives no further setback. With the fine weather prevailing yesterday, they were able to get in a splendid day's work in clearing the pipe of sand, and now have all removed from the shore crib to the first break that it is safe to remove until the water has been let in. By this morning it is expected that the entire length from the settling basin to the new temporary intake will be sufficiently clear to permit the joint to make room for the "T" which is to prevent an influx of sand when the lake water is started cityward.

The calmness of the lake yesterday gave an opportunity to do some further work on the lake. A scow with an eight-inch centrifugal pump and a diver on board was sent out to the first break, and the diver was sent down to direct the operations of the pump in clearing the sand away from the point to make room for the "T." Good progress was made, and by this morning it is expected that everything will be in readiness for the placing of the "T."

## Nature's Cure for a Cough

Dr. Chase's Syrup of Linseed and Turpentine is the Most Large and Limited Medicine in the Country. What to give the children for croup and colds is the problem mothers now decide on. Most of them finally decide on Dr. Chase's Syrup of Linseed and Turpentine, and make it a rule to always have some in the house. In this medicine are linseed, turpentine and other well-known ingredients of unmistakable value in the cure of croup. It is pleasant to take, so much so that children delight to use it. So generally is this great medicine put on the market, all alike in name only. They are not made from the same formula, nor do they bear the name of Dr. Chase. You know what you can expect from the use of Dr. Chase's Syrup of Linseed and Turpentine, but you cannot put much faith in an imitation which sells on the reputation of the article it imitates. On every bottle of the genuine will be found the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author. This is for your protection and the protection of your child. It costs a few cents more, even if bottled, family size 60 cents; all dealers, or Edmanon, Bates & Co., Toronto.

### All Kinds of Horses Offered at Maher's And Changed Hands

The crowd on the floor of Maher's Exchange yesterday was large, with many carloads buyers from the west, and the local trade was very good. The bush horses were heavy draughts, weighing nearly 1500 pounds, and sold fairly well. All kinds of horses were offered and changed hands. The heavy draught horses were of the high quality, and the west bought many a good one long after six o'clock, when Jackson and Fitch sold the last horse. A few of the many sales reported:

J. Walsh, k.k., bush horse, \$187.50; sorrel g. bush horse, \$175.00; E. Jones, b.k.g., bush horse, \$122.00; Albert Kaye, Brampton, h.m., bush horse, \$25.00; W. H. Rutledge, b.g., bush horse, \$55; Bennett & Wright bought a fine grey mare for \$25; J. V. Hunter bought a handsome wagon horse; Fred Gordon bought a nice brown mare.

The Northern Forwarding Company secured a number of good expressers at a fair figure. Joe Armstrong, Moose Jaw, was present and purchased a fine pair of mares for shipment to the west. C. A. Phillips, Fort Elgin, secured a number of fine work horses. The City Dairy Co. (Ltd.) purchased a couple of fine delivery horses. Edward McCau purchased a nice bay gelding at a right figure. Andrew Turbitt, Galt, purchased a fine farm horse. F. Brown Co. purchased a fine delivery horse at \$10. Samuel Hill, Hamilton, purchased a few good horses. W. K. Harkness was very fortunate in securing a fine bunch of mares. Mr. T. O'Neil, Montreal, secured a number of fine mares and geldings for shipment to Montreal. J. S. McDonald, Colborne, purchased a

couple of nice teams at right figures. The Britnell Contracting Co. purchased three fine geldings. Edward Corner bought a fine bay gelding team. Hughes & Co. purchased a fine bay mare at \$30. H. Struthers purchased a fine draught, M. Hawkinson purchased a few good wagon horses. Union Dairy Co. purchased a fine bay gelding at \$10. Don Sullivan, Hamilton, purchased a bay gelding of good type. Rishborough & Jackson purchased a fine wagon horse at a right price. Wm. Dalley secured a few good draughts at good prices. The Lake Simcoe Ice Supply Co. purchased a few fine teams for wagon use at reasonable prices. J. M. Gardhouse purchased a number of fine heavy draughts. Joe Burbridge, F. S. Combes, Fred Duncan, each secured a few cheap city workers. Joe Judge bought a number of fine geldings for wagon purposes. This was one of the finest sales of the season, over 100 horses changing hands. The prices are a little high, and the dealers complain of small profits. The proprietor was well pleased with the results of the day's auction.

#### Davenport Cricket Club

The second general meeting of the Davenport Cricket Club will be held next Saturday evening at eight o'clock at the residence of the captain, Ernie Watson, 32 Bartlett avenue, when matters pertaining to the commencement of cricket will be arranged.

Any cricketer desirous of becoming a member will be welcome at this meeting, or falling within, the secretary would be pleased to receive the address of any intending player.

The season opens up in earnest next month, and registration of players has to be recorded seven days before a member can take part in a league game.

#### Parkdale and Eaton Gun Club.

The summer series of the Parkdale Gun Club and the Eaton Athletic Gun Club will commence on Thursday evening, April 20, at six o'clock, on the grounds of the Parkdale Gun Club. A valuable lot of prizes are to be competed for in this series of twelve shoots, best ten scores to count. The Trethewey Cup and the Berth Cup (donated by Mr. Merrick of Berlin, Germany, to the E. A. Gun Club), will be competed for. All members are requested to turn out for the first shoot, and get there on time. There will be a special prize given in every shoot to the person who made the highest score, with handicap, open to E. A. A. members only.

#### A Mystery.

Who can explain why so many suitcases, valises, trunks, bicycles and many other articles should be left unclaimed? Almost a thousand lots will be sold by auction to the highest bidder without reserve on Thursday, April 20, at Henderson's auction rooms.

### Brantford-Park Walking Race.

The Brantford Expositor will hold its annual walking race between Brantford and Paris over a fifteen-mile course, on May 24 again this year, and the event promises to be a bigger success than last year, when there were forty starters. This year the race will be open to amateur walkers of Canada, having been confined last year to the adjacent four counties. An array of valuable trophies and prize medals will be put up for the winners of the race, which will be conducted under C. A. U. sanction. The race will offer a good opportunity to the increasing number of good walkers throughout the country who are anxious to show their mettle. Entry blanks can be secured from H. L. Walsh, sporting editor, Brantford Expositor.

**A CITY OF CERTAINTIES**

**A** LOOK at the map discloses the railway possibilities of Calgary at a glance. Three great transcontinental lines serving it—with a score of radiating branches—making a very network of the region. Winnipeg never had, never will have, such a commanding position as a railway and distributing centre as opens up before Calgary. Calgary is a Railway City of Certainties.

Calgary Country stamps the city a "City of Certainties." The soil of Alberta is the richest in the world agriculturally. There are 50,000,000 acres of available arable land fast yielding to settlement. The cattle roam the ranges all the year round and thrive. 30,000,000 bushels of wheat were raised in Alberta last year, and live stock to the value of \$12,000,000. Calgary is the natural centre of this gigantic farming region.

Calgary Country Climate makes the city a "City of Certainties." It is the most moderate, equable and salubrious in Canada. There are 288 sunny days in the year. The air is beneficial in pulmonary and bronchial troubles.

Calgary Country Natural Gas contributes to Calgary's fame as a "City of Certainties." There are inexhaustible wells in the district. The gas will be supplied to the city at 35 cents per 1,000 feet. Its use will be a factor in promoting manufacturing industries.

Calgary Country Coal helps to confirm the city as a "City of Certainties." The coal fields are as broad as the Province itself. Development is progressing rapidly but the richest districts are as yet untouched.

Calgary Country Iron "features" the city as a "City of Certainties." There are whole mountains of it. The experiment of making steel from Calgary country iron with Calgary country coal has been successfully conducted. Picture the "certainty" of a city already christened "the Pittsburg of Canada."

Calgary Country Irrigation Enterprises have to do also with the "certainties" of the city. The C. P. R. is spending \$7,000,000 this year on irrigation work in Calgary Country. Millions of acres of fine land will thus be enhanced and assured in natural fertility.

It is said there are still some adherents, perhaps only one, prepared to oppose the appointment of Mr. P. W. Ellis to the City Electric Commission to-day. The Globe declares that Hon. Adam Beck should appoint his man before the city appoints Mr. Ellis.

AVOID PAST MISTAKES.

Round corners come high because previous mayors and councils refused to do their duty by the rapidly growing City of Toronto when rounded corners and widened streets would have been cheap.

CALL FOR TENDERS

For Mail Service Between Canada and Jamaica.

OTTAWA, April 17.—The department of trade and commerce has called for tenders for a mail service between Canada and Jamaica, the service to be from Halifax, N. S. with a call at St. John, N.B., each trip, to Kingston, Jamaica, the steamers to put in on each trip at Bermuda and Turk's Island.

ITALIAN CITIZENS.

Condemnation of the Italian population should not be indiscriminate. Almost invariably the knifing, shooting, quarrels and sometimes the Italian come from the southern end of the peninsula, the ankle, head and toe of the Latin boot.

SAFETY IN STREET TRAFFIC.

Toronto to-day is too crowded a city and has too much traffic on its streets to have vehicles driven by inexperienced drivers. More especially is this the case with automobiles, where the lack of knowledge and of the readiness which only training can give is more readily liable to lead to outward events.

THE LORE OF THE WEST

"Voice of Calgary" Bidding Cheers Welcome to All Persons the World Over Who Wish to Better Their Conditions.

CALGARY, April 17.—(Special.)—The dedicatory piece of a handsome book, entitled "The Lore of the West," and which is profusely illustrated with exquisite half-tones, views of the fine city and surrounding mountains, portraits, etc., contains this peroration:

"Men are clamoring for land. The land of the west is clamoring for men. These clamors have been heard, each by the other, and thus the civilizations of the world are pouring strong, rushing streams into this vast land of the Setting Sun. These here, so far, are only blazers of the way. Fast on their track follow the great army of homesteaders. Only a short time ago they came by ox-cart, then by a single line of railway. To-day mighty trans-continental railways are united in a gigantic effort to cross western momentum. Day by day this impetus is gathering force, and during the next few years the movement to the North-west will accomplish one of the most startling of economic revolutions. Vastly and more vastly, the people are deserting the coming events. Daily grows keener and more compelling the hunger for the west.

"Those who honestly, humanly, have this hunger, the west beckons to them. Bounteous table and offers the warmest hospitality. "We who already are the children of her gracious, helpful adoption, would have numberless others join this great family of the Omnipotent God and add to His power and His prestige.

"The publishers venture to commend this book as challenging deep interest in the great Canadian West and in the rise and progress of the rapid and substantial growth of one of the most remarkable cities of modern times. Read it. It is the Voice of Calgary, the City of Greater Opportunity, bidding cordial welcome, as well on the part of the premier Province of Alberta as of her own hearty citizens, to all who wish to better their condition the wide world over."

"Commenting on this 'fervid, impressive hyperbole,' a Calgary journal proceeds to take at random a single specific instance of good results accruing from heading the 'Voice of Calgary.' It says it could cite a hundred parallel cases of kindred nature. The case is that of an English immigrant who had been earning \$4 a week. His labor, as a charwoman, earned \$1 or so a week. The man made up his mind to come to Canada. He worked his passage and finally reached Calgary. With the savings of his good Canadian wages he provided for his wife and baby at home and presently brought them out. He then purchased a lot and built up a comfortable dwelling. That was four years ago. To-day it is all paid for and he has a few hundred in the bank. The man is working at \$2.50 a day, and his wife also earns, their combined income being \$115 a month. But, more than this, the energetic immigrant has also a title to 160 acres of land, a proved-up homestead worth \$3000.

Judge Dismisses Suit.

Action was dismissed yesterday in Judge Winchester's court in the suit brought by Edward Parlow to recover \$75 from A. J. Russell Snow, commission on the sale of Mr. Snow's house at 286 Sherbourne-street.

This Auto Ran Amuck.

Thomas Pickard came hurrying up Euclid-avenue in his brand new auto yesterday, and being also brand new at the business, he went wild when he ran into a crowd of small boys who were playing at College-street. After knocking over little Walter Fletcher, the car climbed the boulevard and banged into the fence of Dr. W. J. Fletcher. The boy was not seriously hurt, and Pickard, who kept his seat in the car, only suffered from a nervous shock. "When I ran into the boy I lost my head," he said.

THE LORE OF THE WEST

"Voice of Calgary" Bidding Cheers Welcome to All Persons the World Over Who Wish to Better Their Conditions.

CALGARY, April 17.—(Special.)—The dedicatory piece of a handsome book, entitled "The Lore of the West," and which is profusely illustrated with exquisite half-tones, views of the fine city and surrounding mountains, portraits, etc., contains this peroration:

"Men are clamoring for land. The land of the west is clamoring for men. These clamors have been heard, each by the other, and thus the civilizations of the world are pouring strong, rushing streams into this vast land of the Setting Sun. These here, so far, are only blazers of the way. Fast on their track follow the great army of homesteaders. Only a short time ago they came by ox-cart, then by a single line of railway. To-day mighty trans-continental railways are united in a gigantic effort to cross western momentum. Day by day this impetus is gathering force, and during the next few years the movement to the North-west will accomplish one of the most startling of economic revolutions. Vastly and more vastly, the people are deserting the coming events. Daily grows keener and more compelling the hunger for the west.

"Those who honestly, humanly, have this hunger, the west beckons to them. Bounteous table and offers the warmest hospitality. "We who already are the children of her gracious, helpful adoption, would have numberless others join this great family of the Omnipotent God and add to His power and His prestige.

"The publishers venture to commend this book as challenging deep interest in the great Canadian West and in the rise and progress of the rapid and substantial growth of one of the most remarkable cities of modern times. Read it. It is the Voice of Calgary, the City of Greater Opportunity, bidding cordial welcome, as well on the part of the premier Province of Alberta as of her own hearty citizens, to all who wish to better their condition the wide world over."

"Commenting on this 'fervid, impressive hyperbole,' a Calgary journal proceeds to take at random a single specific instance of good results accruing from heading the 'Voice of Calgary.' It says it could cite a hundred parallel cases of kindred nature. The case is that of an English immigrant who had been earning \$4 a week. His labor, as a charwoman, earned \$1 or so a week. The man made up his mind to come to Canada. He worked his passage and finally reached Calgary. With the savings of his good Canadian wages he provided for his wife and baby at home and presently brought them out. He then purchased a lot and built up a comfortable dwelling. That was four years ago. To-day it is all paid for and he has a few hundred in the bank. The man is working at \$2.50 a day, and his wife also earns, their combined income being \$115 a month. But, more than this, the energetic immigrant has also a title to 160 acres of land, a proved-up homestead worth \$3000.

Judge Dismisses Suit.

Action was dismissed yesterday in Judge Winchester's court in the suit brought by Edward Parlow to recover \$75 from A. J. Russell Snow, commission on the sale of Mr. Snow's house at 286 Sherbourne-street.

This Auto Ran Amuck.

Thomas Pickard came hurrying up Euclid-avenue in his brand new auto yesterday, and being also brand new at the business, he went wild when he ran into a crowd of small boys who were playing at College-street. After knocking over little Walter Fletcher, the car climbed the boulevard and banged into the fence of Dr. W. J. Fletcher. The boy was not seriously hurt, and Pickard, who kept his seat in the car, only suffered from a nervous shock. "When I ran into the boy I lost my head," he said.

Used Bed Clothes to Escape.

Early Sunday morning a fire occurred in the top flat of 23 Adams-avenue, and as a result Mr. Hurst, the occupant, made a hurried exit in company with his wife. He was awakened by the smell of the smoke, and he tied the bedclothes together for a rope without loss of time. He lowered his wife in a blanket, following her by sliding down a sheet. The owners of the house were away at the time, and the couple were alone. It is not known how the fire started, but little damage was done.

# Porcupine Stocks Sell Higher on New York Curb

## Porcupine Stocks in Good Demand On the New York Exchange Curb

### Strenuous Demand for Gold Stocks in American Metropolis, and Prices Show Good Advance—Toronto Market Closed.

World Office.  
Monday Evening, April 17.

The local mining markets were closed today, but on the only exchange open for business, the New York curb, the buoyant undertone which characterized the market at the close of last week was continued. The Porcupine issues in the exchange across the border were strong and advances were realized in various instances.

It was reported last week that New York had been an excellent buyer of the Ontario gold mining stocks at the prices ruling at that time, and it is evident that the demand has by no means abated. This was given conclusive proof to-day, values being marked up in a manner which clearly indicated that the market was in a position to take up the stock on offer at advancing prices.

Hollinger sold as high as \$9.50, and the rest of the Porcupine list followed this lead, advances running all the way from a fraction to several points. Dome Extension was up to 58, but closed lower, and Pearl Lake touched 85, ranging between that figure and 82, and closing with the latter price bid.

The movement in New York received favorable comment from Toronto brokers, who were in their offices to-day, and it was felt that the market had been paved for a further advance.

### FROM MINE TO ORCHARD

Bill Davidson Makes Heavy Investments in Norfolk Fruit Lands.

Bill Davidson, the pioneer prospector of Porcupine and now owner of New Ontario's rich mine, is in the market for King Edward. He is a typical open-air sportsman, and carries his mining influence with ease.

Bill was the first man to stake a claim in Southwest Tisdale. He found the Vignod and the North Thompson and several other properties that on development have shown good results. And this was not wonderful, for Bill has been in the prospecting and mining business for many years.

While he was enthusiastic about Porcupine, even stating that there were at least half a dozen mines there already, still he is at the moment more interested in fruit lands in Norfolk County, where with J. M. Godfrey and others he has an apple orchard of 400 acres. Bill's trees will start to bear within six years, and then continue to bear for 100 years more. An apple mine is a real good mine in his opinion.

It is interesting to note that several Toronto people have bought big blocks of land in Norfolk. One Toronto syndicate owns 600 acres, and another 400 near Bill's. The apple business will be good before many years have gone.

### PORCUPINE MAIL

There Will be No Break in Carrying First-Class Mail This Spring.

PORCUPINE CITY, April 14.—(From Our Man Up North.)—Second-class mail matter will be handled during the break-up period with an occasional dropping of a trap when the load is too heavy for men to carry over the muskox spots. But the first-class mail matter will arrive promptly every day, is the information handed out here.

Mine men and others rejoice that no cessation of mail facilities such as they experienced last fall will take place. Extra carriers will be put on by the mail contractor whenever it is necessary to handle the extra mail bags that come thru on Saturdays and Mondays.

Chas. Fox.

### TOWNSHIP INCORPORATION

Whitney and Tisdale Will Have Government in About Two Weeks.

PORCUPINE CITY, April 14.—(From Our Man Up North.)—Organization of the Townships of Tisdale and Whitney will be completed within a fortnight, and then the election of officers and the levying of an assessment are to follow.

Without organization now there is little to be accomplished in the way of building walks and cleaning the streets, something very much needed in the three towns.

In Porcupine City, the townsite owners are being asked to make a thorough sweeping of the entire townsite to clear of the rubbish and give presentable appearances to the site in general. There are men who do not see the necessity of stacking up the old sleighs and cleaning till asked to do so.

### LAKE OF THE WOODS

Operations at Mikado and Ophir Arouse Feelings of Optimism.

The Kenora Miner says: The Ophir mine, which has its credit in the records of some of the highest first assay values obtained in this district, is proving up in such a manner that it seems possible that this mine will live up to its earlier promise as must soon be received among the "producers." At a depth of 95 feet the vein shows a depth of 12 feet, well shot with free gold; in fact, every bucket sent up shows more or less gold, and the assay values are not yet available, there can be no doubt about the value of this property. With the Ophir making such a good showing, and the Mikado running into \$80 on the seventh level, it looks as if the Lake of the Woods was again making good as a mining country.

### TRANSFERS ARE FREQUENT ON LAKEVIEW TOWNSITE

And Contracts Have Already Been Made For the Erection of Many Buildings.

PORCUPINE CITY, April 14.—(From Our Man Up North.)—Seventy-eight lots have been sold on the Lakeview townsite since the opening of the company's office on Smith-street, and a few of those who see virtue in this coming living spot, where the gradual strip of the lake, with a plateau skirting the entire 40 acres, makes the very best of drainage, are Col. Stevenson, a machinery dealer and assay office, where F. W. McLaughlin is to build an assay office, and lots 122 and 123, where the department stores of Reamebottom and Edwards are to be located.

In calling the townsite "Lakeview" the management do so feeling that in the localities for living spots in the district this was the one which gave a general view from the heights in the centre of the property could be had. Beginning with a rise of five feet at the lake front, a gradual rise extends back to the railway tracks, where a rise of one foot is noted from the surface level, and this gradual rise increases to a rise of five feet at the top of the slope, which reaches an elevation of 32 feet, which continues across the plateau to the south limits of the townsite, which includes the entire 40 acres, with 40 acres of land and streets marked off.

Ideal Drainage Situation. Drainage is the keynote to the success of every townsite, and with Porcupine River cutting thru the townsite to the north, where a drainage channel flows into Porcupine Lake, further to the east, Messrs. McDougall and Galbraith see ideal conditions for a sewer system to be laid, with the flow of water into the lake, which would be taken by the river nothing could be more desired in the way matters are arranged for townsite drainage.

Necessary to drainage is elevation, and with a gradual rise of more than 20 feet over the plotted portion, with a level surface on which to build, the townsite management again declare that Lakeview takes on the ideal conditions that place the location in the position of a coming city, with the Porcupine mining centre spreading out each year.

Already buildings are going up on the boundary line between Whitney and Tisdale. Reamebottom and Edwards have put in a store where the public may be accommodated now as they would in any first-class town. Streets are being cut out and cleared and the timber burned. Several acres of the site next to the lake front have been cleared and the timber burned off. Within a few weeks one-half of the site will have been cleared and ready for occupancy. A wagon road from the station, which will stand on this site, to the Dome mine, a distance of one and a half miles, is to be cut thru from Smith-street, as marked in the surveyed plan.

Trains and Electric Light. By June 1 it is expected trains over the Porcupine branch of the T. and N. O. will be running to this spot, and then the townsite management expect to be in a position to cater to the public right on the ground with hotels, eating houses and stores, etc. Electric current will come over the transmission lines from Sandy Falls.

One surprising feature is that so far seekers after lots are willing to pay the higher prices for what they term the good lots. In no case have lots been sold for less than \$25, and in two instances corner locations cost the purchasers \$100 each. And the buyers consider that they have made an extraordinarily good investment in real estate.

With mines to the south, west, north and possibly in the future to the east of the Lakeview townsite, where laboring men gather to make their future homes, Lakeview, indeed, is just what the owners call it, a "townsite of promise." There is every indication that mining is to be the big feature of this district for many years to come, and with the making of the mine, there must be industries. Lakeview has an opportunity with all her most excellent investments as a home centre, to become a manufacturing centre also. Value then must go up.

## I OFFER 150,000 Shares Underwritten Treasury Stock FULLY PAID AND NOT SUBJECT TO CALL, OF PORCUPINE NORTHERN MINING CO.

Organized Under the Laws of Delaware, January 9th, 1911. Authorized Capital, \$1,000,000. Part of stock, 150,000 shares, for public subscription at the underwriting price of fifty cents (\$50c) per share, to be paid with application.

The first 75,000 shares may be subscribed for in amounts of not less than 1,000 shares and will be allotted to full in the order of subscriptions received.

The remaining 75,000 shares may be subscribed for in any amount and will be allotted to full in the order of subscriptions received.

Porcupine Northern Mining Company owns practically all of the capital stock of Porcupine Northern Mines, Limited, a corporation formed in the Province of Ontario, which owns the claims (529.50 acres) and has under option two claims (50 acres), the claims being situated in the Township of Tisdale and Whitney, Porcupine Mining Division, Ontario, Canada.

The holder of three of the Company's shares may hold the office of Director. The Directors are John Charles Hicks, Hotel Breton Hall, New York City, Financial Adviser; Warren K. Akers, Wilmington, Delaware, Secretary; Vincent K. Smith, 20 Broad St., New York City, Counsel-at-Law; and F. L. Hundley, 30 Broad St., New York City, Law Clerk.

Each of the above is the holder of three shares. The minimum subscription on which the Directors may proceed to allotment of the shares of the company is \$150,000, which is the amount of the total capital stock of the company, which is one Million shares of One Dollar each, 999,975 shares have been issued as fully paid up shares to the Development Company of Porcupine, Ltd., of 828 Traders' Bank Building, Toronto, in consideration for the sale and transfer by the said Development Company of Porcupine, Ltd., to this company of all the capital stock of the Porcupine Northern Mines, Ltd., less five shares thereof, namely, for 994,970 shares of the said Porcupine Northern Mines, Ltd., which this company has subsequently acquired 500,000, of which 600,000 shares of the company are now held by the Development Company. This company is authorized to pay a brokerage or commission of 5 per cent. on the proceeds of all sales of shares. The estimated amount of preliminary expenses of the company is \$20,000.

The dates of and parties to every material contract affecting the company are as follows: 1. Between the Development Company of Porcupine, Ltd., and this company, dated March 14th, 1911. 2. Between the Development Company of Porcupine, Ltd., and the Porcupine Northern Mines, Ltd., dated March 15th, 1911. 3. Between John C. Hicks, President, and J. Thomas Reinhardt, Secretary, of this company, dated March 15th, 1911. Copies of all these may be seen at the office of John C. Hicks, 20 Broad St., New York City, during business hours of any judicial day.

The only Director of the Company interested in any of the property being offered is John Charles Hicks, who is interested to the extent of a one-quarter interest in a syndicate, who will receive from the Development Company of Porcupine, Ltd., 249,275 of the shares of the said Porcupine Northern Mines, Ltd., which this company, part of the 999,975 shares hereinbefore mentioned.

Dated at New York, in the State of New York, one of the United States of America, this 17th day of April, 1911. J. THOMAS REINHARDT, Secretary of the Province of Ontario, this 17th day of April, A.D. 1911.

Application to be made for listing on New York Curb, Toronto Standard Exchange and Boston Curb. Further particulars on request. Payment in full should accompany subscription. J. THOMAS REINHARDT, 35 Broad St., New York, 16 King St. W., Toronto, Canada.

### GOOD ASSAYS OBTAINED FROM CRIPPLE CREEK

New Gold Area Extends Into Three Townships and Gold Showings Are Profuse.

Cripple Creek, in the estimation of R. J. Jawsey, one of the pioneers of the New Ontario mineral area, will be one of the important Ontario gold camps.

Mr. Jawsey was first interested in South Lorraine, then in Porcupine, now in Cripple Creek. He has been twenty-seven miles by the trail from South Porcupine, and the gold showings have been found in townships of Casselman, Denton and Kaffer.

Mr. Jawsey and his syndicate have 32 claims in the area, many of which are being worked. He has been confined to the properties in Denton. Assays taken in a general way run 35 to a ton, but in some cases these have reached \$500 to the ton.

### DEVELOPMENT AT DEPTH

Bishop Silver Mines Ltd. Proves Gowganda by Deep Workings.

The Bishop Silver Mines, Ltd., have just received a report from their extensive operations on the Gowganda property, Gowganda. This property is being operated by a cross-cutting tunnel from the level of Calotte Lake, which has cut a vein from four to six inches wide, 150 feet below the crop-line of the vein on the surface. At this depth ore is encountered containing native silver, stannite and nicotite. The vein on the surface is 700 feet wide and is continuous. The depth of 150 feet attained on this vein by the cross-cutting tunnel is of great significance to the Gowganda field, as it is now the deepest working in ore in the camp.

The Bishop Company has carried on extensive operations for two years, and in every case where it has gone down on a promising vein, ore values have been recovered. This company has been justified in its belief that development at depth would prove up the Gowganda district.

### Four Dead in One Family.

KINGSTON, April 17.—(Special.)—Reports from the rear of Frontenac County state that four members of one family died one day with black diphtheria.

## UNUSUAL OPPORTUNITIES

The market for the Porcupine stocks will offer unusual opportunities for making profits. Porcupine is yet in its infancy, and during the constructive stage many stocks will be thrown over by those who do not know their intrinsic value. I have my own map on the ground. I have a knowledge of all the good properties, and my clients can rely on the facts I issue. PORCUPINE GOLD REEF, under development, will make one of the camp's big mines. I recommend these shares while they are to be had cheap. Get my Porcupine Map free, and write for any information on any of the stocks now on the market.

**WILL BE TORN CLEAN-UP**  
M. H. O. Sending Out 25 Inspectors to Create Spotless Town.

A number of the inspectors who will supervise the house-cleaning which Dr. Hastings, medical health officer's proposes giving the city, will start work to-day, and the balance will begin later in the week. There will be 25 in all, and they will start up the first inspection and see that their instructions are carried out.

The entire city south of Carlton street will be included in the clean-up.

Dr. Hastings yesterday made a personal visit to several places adjacent to the city hall, where conditions are such as to call for immediate action. He estimates that there are 2000 families living in the city in conditions which should not be tolerated. The scavengers started out thru the ward yesterday and will take away the refuse that the inspectors of the medical health department order the occupants of the various premises to gather up. Some 350 men and carts from the street commissioner's department started work in the ward yesterday morning.

We advise the immediate purchase of Porcupine Tisdale

This company has 149 acres in Tisdale, adjoining the Timmins and near the Holliston. 50 acres in Tisdale, near the Armstrongs, and 90 acres in Deloro, cornering on the Timmins group. These properties are owned outright and are decided to the company. Sufficient funds in the treasury to carry on development work for a year. 500,000 shares are still in the treasury. Camp buildings erected on the Deloro property and the big vein stripped for about 350 feet—sinking on the vein will be started this week.

Buy this stock at the market. We advanced the purchase of Great New Tisdale around ten cents. It has since advanced above twenty. We expect Porcupine-Tisdale to double its price.

### Spring Coats Dresses and Skirts

**WOMEN'S SPRING COATS**  
Sale of broken lines and oddments from our Easter stock, in a great variety of styles and materials, in short and long lengths, materials are fawn covert cloths, fine black broadcloths, navy broadcloths and imported tweeds, in brown and fawn mixtures, navy, red, green and black serges, also of worsted in shepherd check effects, some are in plain tailored styles, some have fancy shawl collars and cuffs, others trimmed with self-strapping. Sold regularly at \$10.00 to \$20.00. Wednesday . . . . . 6.49

**WOMEN'S DRESSES.**  
Clearance sale of a manufacturer's stock of sample dresses, amongst them are dresses that would sell ordinarily at prices ranging from \$15.00 to \$25.00. Wednesday's price is . . . 9.98

There are only 85 dresses in the lot, and the material are serges, Panamas, messalines, resedas, Henriettas, fancy silks, silks and satin foulards, some of the principal fashionable colors in this lot; waists have the new kimono effects, with three-quarter sleeves; some styles have the semi-low collar, others have high collars outlined with satin silk cord or colored or cream lace insertion; skirts are in the correct and fashionable styles, trimmed to match waists. These dresses would sell if purchased in the ordinary course of business at prices ranging from \$15.00 to \$25.00. Wednesday's price . . . 9.98

#### WOMEN'S VOILE SKIRTS FOR \$5.78.

Clearance sale of a collection of Women's Separate Skirts, of good quality even mesh French voile, in black only. These are the left-overs and broken sizes of some of our best selling styles, and are made in a great variety of smart styles, some trimmed with taffeta strappings, some with self-folds, others with braiding, and some quite plain amongst the lot. Prices range from \$7.50 to \$10.00. Special Wednesday . . . . . 5.78

### Bargains for Housefurnishers

The Matting designs in our new stock of Printed Linoleums are remarkably good, in fact they do not look like linoleum, but rather the finest qualities of Japanese goods. They will wear better than matting. There are two qualities. Wednesday prices are special, regular 45c, for .36 per square yard. Regular 50c, for .39 per square yard.

Seamless Tapestry Rugs, look and lay well. These we offer on Wednesday are the very best quality, and in design and colorings are superior to anything before shown. There are 160 of them at the following special prices—  
3 yds. x 3 yds. . . . . 9.99    3 yds. x 4 yds. . . . . 13.99  
3 yds. x 3 1/2 yds. . . . . 11.99    3 1/2 yds. x 4 yds. . . . . 15.99

**SPECIAL SALE OF CURTAIN STRETCHERS.**  
Wednesday brings an opportunity to purchase at a very low price a finely made curtain stretcher, fitted with unbreakable fixtures and non-rusting pins, adjustable from 2 to 4 yards long, 1 to 2 yards wide; easily stored when not in use. Worth \$1.50. Wednesday . . . . . . . . . . 79

**SPECIAL BEDROOM BOXES AT \$2.69.**  
The particular boxes referred to at this price are specially made, matting covered, bamboo trimmed, burnt work scroll design on handles and feet, brass handles and lid support, 27 inches long, 15 inches wide, 15 inches high. A neat box and low priced. For Wednesday's selling—fourth floor . . . . . 2.69

### Women's Boots and Oxfords \$1.99

1,000 pairs Women's Boots, Pumps and Oxfords, blucher, lace and button styles, tan, Russia calf, patent colt, gun metal and vici kid leathers, Goodyear welt and fine McKay sewn soles, all sizes in the lot, 2 1/2 to 7 1/2 regular prices to \$3.50, Wednesday

### Spring and Summer Millinery

It would be naturally supposed that the week after Easter would be taken up in the Millinery Department with a clearing out of "left overs" from the Easter rush. This is not the case at Simpson's. There were not many hats left to clear out, and on Tuesday over a hundred fashionable new arrivals will be placed on view for the first time in Toronto. These are all up-to-date in design, and first-class as regards quality of trimmings and make. Prices are reasonable:

60 New Hats at . . . 5.00    30 New Hats at . . . 6.50    20 New Hats at . . . 7.50

The low price is partly accounted for by the fact that the whole of our Millinery in the stock rooms will have to be moved in the near future, owing to alterations in that part of the Store.

### The H. and W. Exposition of Corset Waists and Brassieres

There is an ever increasing disposition among women to more closely investigate the corsage problem. Thousands of women have adopted the more pliable corset waist instead of the heavier garment—the corset. From an hygienic standpoint, corset waists appeal to women for their own or daughters' wear. We are making a special demonstration of their utility, and have brought here from New York an expert, who is directly interested in explaining the famous
