VOL. XXXVIII.—No. 13,847 TWO CENTS

ENEMY PUT TO FULL FLIGHT ON A FRONT OF 20 MILES

ELASTIC GERMAN RETIREMENT MAY BECOME GENERAL RETREAT QUARTER OF A MILLION GERMANS HAVE BEEN SEVERELY MAULED

French Troops Virtually Close Grand Pre Gap, and Unless Supreme Effort is Made With Reserves Germans Must Clear Out of the District or Surrender in Thousands.

Driven From Cambrai and Strong Positions Near It, Enemy Is Being Hustled by British Cavalry in What Virtually Amounts to a Rout—Canadians First to Enter Cambrai, Which Is Completely Destroyed by Germans.

With the French Army in Champagne, Oct. 9.—The battle in Champagne today from the Aisne, in the region of Vaux-les-Mouron, which was taken this morning by the French, to the Sappe River at Bazancourt, which is violently attacked by the Germans. North of St. Etienne, on the Arnes River, the enemy made vigorous assaults upon the positions won by General Gouraud's men Tuesday, but without other result than to increase largely the German casualties.

Notwithstanding the stubborn opposition the enemy is offering on the Sappe and north of the Aisne, the impression still is that he is merely seeking to gain time to reduce the difficulties of retreat, the extent of which, in view of the developments on the extreme left wing of the fighting front, it is impossible to forecast. The vigor and perseverance of the allied pressure appears to have demoralized all the German plans. Nowhere have the Germans, with all their genius in organization, been able to prepare a stable position upon which their defeated troops could retire in security, which suggests that they have again erred in their judgment of the strength and endurance of the entente allied fighting forces.

Great Significance Attaches to Turkey Germany Knew of Peace Move and Tried to Stave it Off.

London, Oct. 9.—The press association has issued an authoritative statement that the foreign office has received the text of President Wilson's note to Germany and that all the allies are in complete accord in the matter. It adds: "The fall of the Turkish cabinet has great significance. It is not doubted that Turkey apprised Berlin of her intention to seek peace and Germany sought to stave off such a development by an attempt to seek a general, instead of a partial, settlement."

WITH the British Army on the Cambrai-St. Quentin Front, Oct. 9.—The German troops on a twenty-mile front have been put to full flight and the British cavalry is reported to be pursuing them, the infantry marching in columns of four thru villages hastily abandoned by the enemy.

Cambrai has fallen and the British are now well to the east. Reuter's correspondent cables: "Successive explosions have occurred in Cambrai which have reduced the town to ruins." "The deepest gain was at least nine miles on this sector, and there are no signs of the advance slowing up. On the contrary, it is going faster every hour, with clear ground ahead. Everything that could be burned has been set on fire by the enemy before he began what virtually amounts to the rout of no less than thirty divisions, the smashing of which was continued furiously today.

North of Cambrai the Canadians attacked and penetrated deeply also. The British marched thru Berth without opposition. They reached the outskirts of Troisvillers and held Maurois and Honnechy. Large forces of the enemy have been seen from the air fleeing well to the east of Le Cateau. Marets fell early and the British reached Busigny and passed quickly thru Bohain. These are only a few of the more than a score of towns captured. Many thousands of prisoners and quantities of field and machine guns were taken, as well as vast stores of other booty, which the enemy did not have time to blow up or set on fire.

SHEER DOGGEDNESS ACHIEVED VICTORY

British Wrung Many Gains Only After Desperate Struggle. British Headquarters in France, Oct. 9.—Many of the gains in the battle were wrung from the enemy only after a desperate struggle. At Villers-Outreaux, the British were met by a perfect storm of machine gun fire, behind which German infantry was massed in great strength. But sheer doggedness finally subdued this intense resistance, the village was taken, and cleared up while the front line pushed well to the east of it. A heavy counter-attack launched from the direction of Avion resulted in fierce hand-to-hand fighting before which our lads had at first to give some ground against the weight of superior numbers.

GERMANS WILL RETIRE TO VALENCIENNES LINE

With the Anglo-American Armies, Near St. Quentin, Oct. 9.—German prisoners indicate that the enemy intends to retire first to the Valenciennes line and then to the line of the Meuse. The bulk of the Germans in France already are retiring. However, they undoubtedly will be hard fighting all the way back to the prepared positions, for the country is lined with machine guns and obstructions of all kinds. But it will be fighting over open and new country, where the whippet tanks, armor motor cars and cavalry should have, if they not already are having, the opportunity to do the work cut out for them.

TURKEY SENDS PEACE NOTE THRU SPANISH GOVERNMENT

Surrender Within 48 Hours Will Not Surprise Well-Informed Quarters in London—Process of Disintegration in Constantinople.

LONDON, Oct. 9.—The British foreign office has received indirect news of the fall of the Turkish cabinet. Tewfik Pasha, who, it is reported, will be the new grand vizier, is understood to have pro-ally, rather than pro-German, sympathies. According to advices, which are not official, however, the cabinet had decided to take military measures against Bulgaria, but found that the opinion of the country was against them. It is rumored that a Turkish peace note has been despatched thru the Spanish Government. The surrender of Turkey within the next 48 hours will not surprise well-informed quarters in London, The Evening Standard says today. The British authorities, it adds, are in possession of information showing that a process of disintegration exists in Constantinople.

AMERICANS CONTINUE ATTACK IN ARGONNE

Paris, Oct. 9.—The American troops fighting west of the Argonne Forest today were west of Cernay on the Aire River, having effected a junction with the French troops from the south. The operation was progressing normally this afternoon. In the Argonne the attack is continuing, notwithstanding the heavy rains resulting from the heavy rains of Tuesday.

FOUR FOKKERS DOWNED BY AMERICAN PLANES

With the American Army on the Champagne Front, Oct. 9.—During the American activities south of Romagne this afternoon 79 allied bombing planes passed southward, having bombed Buzancy and other railroad and supply stations behind the German lines. American pursuit planes took an active part in clearing the air for the bombers, downing four Fokkers in the region of Remonville and Alnevillie. The bombers started out late in the afternoon in groups. After accomplishing their missions, the groups met on the way back and passed over the American line in one flock.

BRITISH ADVANCE IS EASILY MADE

Little Resistance Met With on Account of German Retreat.

London, Oct. 9 (4.40 p.m.)—The German retreat from the Scarpe River southward to below St. Quentin, enabled the British easily to advance from two to three miles this morning. The Germans started backward last night. The British have met with little resistance today, as they have not been in contact with the German main line. The weather is bad, otherwise it is believed that the British would have advanced farther. The Germans are burning villages. This retreat lengthens the line which the Teutons so long have been trying to shorten, and the situation opens many possibilities of retreats elsewhere.

GENERAL GIVING-WAY OF GERMAN FRONT

Paris, Oct. 9.—Paris regards the news from the front as indicating a general giving-away of the German line—a collapse piece by piece of the enemy's positions and a crumbling away of his army, regiment by regiment and division by division. The formidable war machine is so seriously affected, it is pointed out, that even those who fashioned it and used it against humanity are now themselves doubtful of its soundness—hence their peace proposition, the first that they have really formulated. But it is regarded as a respite should not the ones in which a respite should be granted the Germans, and the suggestion is heard that no request of the kind be listened to until the enemy has withdrawn half a dozen miles or more beyond the French and Belgian borders.

GERMANS WASTING ALL COUNTRYSIDE

Paris, Oct. 9.—Reports received from the north show a sweep of wreck and ruin spreading over the cities, villages and countryside of both France and Belgium from which the Germans are being slowly forced. The extent of this devastation is reaching the dimensions of a calamity as the enemy is slowly receding. Their reverse seems to sting them into new excesses of wanton pillage and arson. Laon is now reported to be burning, following the same fate as Douai and Cambrai. St. Quentin is a mass of ruins, and the great mining centre of Lens is in a desert, with its buildings leveled, its population gone and its rich mines flooded.

FRANCE WILL CONSTRUCT BIGGEST SHIPS AFLOAT

Paris, Oct. 9.—Fernand Boulson, under-secretary of state of the merchant marine, declared today that the French program for shipping construction has been drawn up. The vessels to be built representing a tonnage of 1,500,000 as the first part of the government will place orders for these vessels, which, in part, will replace vessels torpedoed. "We must be able to double the strength of our merchant fleet as it was before the war," said M. Boulson. "Moreover, the government will order the construction of giant steamships to compete, both in comfort and in speed, with the biggest vessels of the kind afloat." The under-secretary will ask, if necessary, for an appropriation of 2,000,000,000 francs from parliament.

DUTCH GOVERNMENT TO OFFER MEDIATION

Amsterdam, Oct. 9.—Referring to an extraordinary session of the Dutch cabinet, which has been held, The Handelsblad says it is very persistently rumored that the government is considering offering its services to both the belligerent groups with a view to reaching an agreement. No confirmation of this was obtainable at the Dutch foreign office.

HAIG'S REPORT

London, Oct. 9.—Field Marshal Haig reports tonight from headquarters as follows: "We inflicted a heavy defeat on the enemy yesterday between St. Quentin and Cambrai, taking over 10,000 prisoners and between 200 and 300 guns. "No less than twenty-three German divisions were engaged on this front. They were severely handled. "The result of this action is that the troops have been enabled to advance today on the whole front between the Somme and the Seneze and are making rapid progress eastward, capturing rearguard detachments of the enemy, isolated batteries and machine gun posts. Numbers of the inhabitants who were left in captured villages have met the advancing troops with enthusiasm. "The whole of Cambrai is in our possession. The Canadians entered the town from the north at an early hour this morning, while, at a later hour, English troops of the Third Army passed thru the southern portions of the town. "Since Aug. 21 the British First, Third and Fourth Armies have broken thru the whole elaborate series of deep defensive zones, built up with successive belts of heavily-fortified trench lines, including the entire Hindenburg system, on a front of over 35 miles, from St. Quentin to Arras. Having penetrated this battle area to a depth of between 30 and 40 miles, our troops are now operating far beyond and east of the Hindenburg defenses. "In the process of these operations, and since the date mentioned, we have inflicted very heavy losses on the enemy in killed and wounded and have taken over 100,000 prisoners and 1200 guns. "This feat of arms has been performed by British troops who had already withstood the first heavy onslaughts of the enemy forces in the spring. Only the endurance and determined spirits of the troops permitted them to pass to the offensive with such conspicuous success. By their heroic action in defence and attack, the men from all parts of the British Empire have proved themselves of the highest order. "The advance continued this afternoon. We have reached the general line of Bohain, Busigny, Caubry and Caucourt."

EL BASAN TAKEN BY ITALIAN FORCE

Advance in Albania Resisted by Stubborn Austrian Rearguards. Rome, Oct. 9.—Italian troops pushing northward in Albania entered the City of El Basan on Monday. The text of the Italian statement reads: "Albania: On Sunday, after enemy covering parties had been repulsed and numerous prisoners taken, one of our columns occupied the heights east of Murakani. "On Monday, after crushing the stubborn resistance of enemy rearguards, we entered the City of El Basan. Our advance is continuing. "After dispersing the enemy on the heights northwest of the Lushnja River, we continued our march on the road to Kavaya, coming again in contact with the enemy at Gramshi. "El Basan is one of the chief towns of southern Albania, and before the war had a population estimated at 15,000. It has numerous mosques, and is the seat of a Greek bishop. Kavaya is twelve miles northwest of Gramshi and eleven miles south of Durazzo. "The Franco-American Forces Northwest of Verdun, Oct. 9.—The Americans had their day filled with major and minor successes, and advanced at every point in the sector, where they attacked. Farthest to the east, in co-operation with the French troops, American divisions advanced for a considerable distance east of the Meuse, and cleared the Germans out of the sector where they had been dangerously troublesome, because they were able to pour an enflaming fire upon the advancing troops."

TORONTO SUFFERS THRU NEW DISEASE

Epidemic of Spanish Influenza Appears to Be Spreading.

ONE HOSPITAL CLOSED Staffs of Nursing as Well as Business Institutions Badly Depleted.

The epidemic of Spanish influenza that has hit Toronto is spreading, and more people are taking it daily. The staffs of the city schools, the hospitals and most of the business institutions—even the police force—are depleted owing to the inroads made by the flu.

SPREADING AMONG POOR The sickness is spreading among the poor, and the city nurses are giving up their regular duties for a time to take care of these. Calls come in regularly at all the settlement institutions asking for assistance for someone to come and help in families where there is sickness.

PRINCIPAL SAYS ALL SCHOOLS SHOULD CLOSE "I don't care what Dr. McCullough says, the schools ought to be closed," said J. A. Hill, principal of Frankland school, Logan avenue.

MANY CASES AT LEASIDE The Spanish "flu" has made its appearance in Leaside. Many cases of workers from the munition works are reported, and one from the C.P.R. at Leaside station.

INFLUENZA PANIC IN GUELPH COLLEGE In Guelph, Ont., the Spanish influenza scare has hit the O.A.C., although there are not enough cases of it among the students to justify any panic.

EPIDEMIC LESSENING IN THE POLISH CAMP Niagara Camp, Oct. 9.—While the number of Polish soldiers affected with Spanish influenza has been reduced to 98 the total affected in the Canadian camp is over 200 and still increasing. Only three deaths have occurred in the Canadian camp so far since the epidemic broke out.

ANOTHER DEATH IN WINNIPEG Winnipeg, Oct. 9.—One more death and one new case was the toll of the Spanish influenza today. Private Frank Pollock, whose home is in Quebec city, died last night.

CASES IN VANCOUVER Vancouver, B.C., Oct. 9.—Nineteen cases of Spanish influenza are reported in the city by the health authorities. These cases were distributed among eleven families. No deaths have occurred.

It is a League of Brotherly Men

THE concentration of thousands of men in Camp and on field was a challenge to the organization.

The British Army was not mobilized more speedily than were the Christian forces of the nation for the soldiers' service.

University men, clergymen, laymen, noble women with and without titles, followed the call of the Great Servant to serve in Australia, New Zealand, South Africa, India and Canada.

The huts have been homes in the heat of Mesopotamia, Egypt and Africa, and in the mud of Belgium and France.

When the United States entered the war President Wilson enlisted its full cooperation, and since then its spirit of brotherliness has given it leadership in all forms of service to the soldiers of all the allied armies and navies.

Does not its war record justify the Young Men's Christian Association in using the term,

What Can You Afford? The call is coming—the call for Canada's 1918 Victory Loan. What are you proposing to do? Are you going to figure that you can "afford" to take only just enough bonds to "get by"? Meanwhile, will you go on spending money on luxuries, taking in this amusement and that, postponing your selfish pleasures to your country's urgent needs?

If you do these things, you won't be acting selfishly with your country, with our soldiers or even with yourself. Our lads in France are giving and have given, to the right, to the left. All. What you are asked to do is to save some money for yourself and Canada, while they are saving for you the right to earn money in Canada—Canada, thank you, untrod by the heel of the brutal, bestial Hun.

Search your conscience. Let it be your guide as to what you can "afford." Find out what is the very least you can possibly live on. The most you can possibly scrape together to invest in Victory Bonds is the least you can "afford" to invest. Save to serve. Buy Sacrifices today. Reap Victory tomorrow.

AGAIN CHANGE PLANS FOR GLEN ROAD BRIDGE

This, However, Will Not Delay Opening of Viaduct to Parliament Street.

The action of the board of control yesterday. Controllers O'Neill and Robbins dissenting, in again changing the plans for the trestle over Glen road, besides being costly, will delay the completion of the viaduct, or rather, that stretch lying between Parliament and Sherbourne streets.

However, Commissioner Harris, given good weather, says he will have the two bridges and the roadway between them open for vehicular traffic next week. The Toronto Railway Company announces that it is prepared to meet the city's wishes in the matter of a car service, but it has not been decided yet whether a service will be put up between the head of Broadview and Parliament pending the completion of the roadway to Sherbourne street.

Yesterday the controllers instructed the works commissioner to remove the upright supports for the trestle over Glen road from the curb line back to the street line. They originally encroached on the roadway, then they were ordered to the curb and now another order places them back on the street line.

Mr. Harris also proposed to the board that the permanent work for the high level bridge over the ravine should be commenced as soon as possible, but the controllers thought it better to wait awhile.

Advertisement for COVERED POTATO LOSS FROM CONTRACT PROFITS. Railway Contractor Testifies Enquiry Into Government Purchase of Tubers. St. John, N.B., Oct. 9.—Enquiring into a purchase of potatoes by a former government of New Brunswick as a gift to the motherless and Belgian refugees, and into allegations that vastly more potatoes than needed were bought, the surplus being disposed at a loss of \$2,261, Commissioner McQueen today took the evidence of W. B. Tennant, St. John. It has been stated in evidence that rather than admit the loss, the government decided to make good the amount, and Mr. Tennant testified that he had contributed the money to cover the deficit. He said he had been approached by the late Premier, Clark, who had asked if he, with others, would contribute to make good the loss. He had refused, but when he interviewed the premier regarding a pending contract for the Valley Railway, he told Hon. Mr. Clark that if he got the contract he would contribute from his profits enough to cover the potato loss. The premier finally agreed to this, and informed Mr. Tennant that George H. Jones, M.L.A., had been asked to get him to know the amount needed. Mr. Tennant swore that Mr. Jones had instructed him that the amount to be paid was \$15,500, and he handed over this sum to Mr. Jones. He did not know what happened to the balance. He had thought that he was paying for nothing but the potato loss. It came out at a previous inquiry, Mr. Jones had received \$100,000 advance on the contract, and he had handed over this sum to Mr. Jones. He did not know what happened to the balance. He had thought that he was paying for nothing but the potato loss.

Advertisement for SUBSCRIBERS STILL LAG FOR U. S. LIBERTY LOAN. Washington, Oct. 9.—The treasury department today openly admitted that the slow progress of the fourth Liberty Loan toward its six billion dollar goal is a matter of serious concern. With the three weeks' subscription period half gone, the loan is only 30 per cent. subscribed. The machine gun bullets, he continued, directed the attack on the hostilities. Although wounded by machine gun bullets, he continued to direct the attack until the enemy machine guns had been wiped out, thus enabling the British to gain the ground ahead of them with trifling loss.

McIntyre, chairman of the board, presided at the sitting, and A. M. Hartley represented the Beaver Oil and Gas Company, and Mr. Kerr represented the Town of Wheatley. The primary questions to be settled are the sufficiency of the distribution system over the whole area, and the adjustment of rates. A third investigation will be made in regard to the conservation of the supply of natural gas. The natural supervising board was called to give evidence. The hearing was adjourned sine die.

The Star of the Gold Stocks In the Ascendant

The trend of the gold securities in the mining market has definitely turned. The big advance is on. We want every one of our clients to share in the gains that are being made and the bigger ones that are to be made yet.

A Big Market is Coming
Dome, Hollinger and McIntyre—A Trio of Opportunities. Here are the figures that show what these stocks are doing. Examine them carefully.

Table with columns: Stock Name, July 1918, Sept. 1918, Present, High 1918, Market, High 1918. Rows include Dome, Hollinger, McIntyre.

Accumulation is going on in these issues which is likely to be followed by widespread buying as peace approaches and the adverse conditions are superseded by the period of prosperity that is coming.

Though the Dome is not producing, or paying dividends at the present time, it is potentially a greater mine than ever before. Dome stock, at present market prices, possesses tremendous mining and market possibilities.

HOLLINGER.
Hollinger, despite lack of efficient help and the fact that only one-half the milling capacity is being utilized, is turning out more bullion than at any time previously in its history.

McINTYRE.
Production at the McIntyre is running in the neighborhood of \$1,700,000 annually with profits of about \$800,000, while a 15% dividend is being paid, which leaves a substantial surplus to provide working capital.

GAINS AND LOSSES IN LOCAL MARKET

Dominion Iron and Mackay Strong—Maple Leaf and Brazilian Sell Lower.

Gains and losses were fairly evenly divided in yesterday's irregular local market, the conflicting movements resulting to some degree the cross-currents on the New York exchange, also it was observed that Canadian stocks were steady to firm in the face of a pronounced break in U. S. Steel.

Stocks which showed well marked reactions included Maple Leaf Milling, Canadian Car, Steel, and Sparrow. Maple Leaf lost a full point at 191 and the lead fell dropped to 129, a natural recession after the share advance of the past few days. Sparrow advanced from 50 3/4, but sold off to 50, closing at the low, a decline of half a point, and Canadian Car, common, on light sales, broke 1-1/4.

ACUTE WEAKNESS IN CORN MARKET

Prices Close Unsettled After Extreme Fall of Seven Cents Bushel.

Chicago, Oct. 9.—Acute weakness which developed in the corn market today came entirely from news of fresh military success against the Germans, and from bullish views of the diplomatic outlook.

After an extreme fall of 7c to bushel, prices closed unsettled, 3 1/2c to 3 1/2c, and provisions for 31c to 31c.

Sharp breaks in values, together with general selling, began as soon as the corn market opened, and increased in violence until near the end of the session.

Some of the shorts who had been somewhat better rallied than those who had been better interrupted the main downward sweep of prices. Through the day all factors except those relating to the war failed to get attention.

This was notably the case with the government report, and with word that several of the shipments of corn were being issued less freely, and that the stand, preference was given to low.

Low prices reached were nearly simultaneous with bullish reports as to the attitude of Austria.

Liquidation absence of demand was much more evident in the oats market than in any other section.

Provisions dropped with corn, despite buying ascribed to packers.

STEEL STOCKS ACTIVE

Dominion Iron Makes Smart Rally—Brazilian Tractor Moderately Reactionary.

Montreal, Oct. 9.—Stock exchange business here today was flat and devoid of interest, except the very fair support for the steel stocks. Dominion Iron, after opening about steady at 59 1/2 and falling a point to 58 1/2, 8 1/2 toward the end of the session, after selling moved more listlessly to 57 1/2, and then to 57, and closed at 56 1/2.

Other parts of 3100 listed shares, including the steel stocks, were inclined to drop under neglect, and more losses than gains were recorded at the close. Mildly reactionary stock included Dominion Iron, at 56 1/2; Spanish River, at 56 1/2; Canadian Car, at 50 3/4; and the steel stocks, at 50 3/4.

London, Oct. 9.—Shipping and Argentine rails were the features of the trading on the London Stock Exchange, and were fairly active and strong.

The general tone of the market was good, the trading was limited to pending developments, Honduras mining bonds were the leaders in foreign section. British war bonds supply and account rates quiet.

Lackawanna Profits Less

New York, Oct. 9.—Lackawanna Steel Company, in the nine months period September 30, showed profits of \$11,211,311, against \$10,242,424 a share in the corresponding period of 1917.

Company reports unloading of 551,405 gross tons, against 471,962 at the end of the same period in 1917.

Munition Making Proceeds

Peace talk has not made much impression on the munition makers, speeding up of the production of munitions, says Canadian Machinery and Manufacturing News. In fact, the actual operations were in excess of expectation with all.

GRAIN BOARD'S SESSION

The board of grain commissioners will open a public session in the assembly room of the board of trade at 11 o'clock today to discuss the proposed license system for the province, and it is expected that there will be a large attendance of members of the flour and grain section of the board of trade.
