TORNADO SWEEPS A TOWN

MERIDIAN, MISS., IS DEVASTATED
3000 BUILDINGS GONE

Meagre Particulars Indicate
Gruesome Holocaust—Prin-
cipal Thorough Swept Away
—Fire Adds to the Horror—
Loss of Life Uncertain.

A tornado is reported to have destroyed a large portion of Meridian, Miss., late Friday afternoon, having swept a path thru the whole centre of the city. The loss of life is placed at 100. Fire had added to the horror. Telegraph wires are leveled and particulars are meagre. Meridian has a population of about 15,000. It is 96 miles east of Jackson and its industries include railway repair shops, cotton, furniture, fertilizer and such factories, packing plant, foundries and machine shops.

MEATY LOSS OF LIFE.

Birmingham, Ala., March 2.—A report received at the local office of the Postal Telegraph Co. said the loss of life in the disaster at Meridian is very heavy.

WHOLE STREET DEMOLISHED.

Mobile, Ala., March 2.—A long distance telephone message to The Item, from Meridian, Miss., says a cyclone, accompanied by heavy rain, struck that city this evening at 8:30 o'clock. The storm centre was in the southern portion of the city, and particularly heavy along Front-street, one of the principal streets of the town.

Nearly every house on Front-street is reported to have been demolished. The Armour packing plant, from which this message was received by long distance telephone, is the only building left standing, and the roof of this is gone. Fire broke out in the ruins, and despite the heavy rain, the flames were burning fiercely when the report was filed. A number of bodies are reported to be in this building, and the work is working by candle light. The city is in total darkness, the lightning plants being put out of business.

CUT OFF.

The cyclone did severe damage at other points adjacent to Meridian, and all trains entering Meridian are delayed indefinitely. The Western Union Telegraph Company reported having lost fifteen miles of wire, and the Postal Telegraph Company also suffered great damage.

The wires are down between Atlanta, Birmingham, Memphis and other points, and it is impossible to secure communication with the stricken city.

150 DEAD.

A private long distance message received at 2:30 p.m. says the toll of the work of rescuers is going bravely on, but owing to all lights being out, lanterns and candles are being used, and the work is necessarily slow.

77 MILES AN HOUR.

A long distance message from J. D. Seibert, president of the Chamberlain Telephone Co. at Meridian, Miss., gives these details of the cyclone: "The storm struck at 6:30 o'clock, a storm cloud developed to the south and moved quickly over the city, striking Front-street, the business centre, with full force. The wind was probably blowing 77 miles an hour. The cyclone passed over in about two minutes, and during that period three of four whole squares were devastated. A conservative estimate places the number of buildings destroyed at between 2000 and 4000.

The Southern Hotel escaped, but the Grand Avenue Hotel was considerably damaged. The guests in the latter building escaped, and no one was injured.

LOSS OF LIFE SMALL.

From the business centre the cyclone jumped to the east end, where several residences were blown down, and others badly damaged. Mr. Breaux stated that the number of lives lost is small, probably not more than three or four persons. One of the victims, a man named Johnson, is hemmed in by the wreckage, and at 10 o'clock, a rescue party was reached by the rescuing party, to whom he spoke and begged them to extricate him.

Several fires were started as a result of the cyclone, but the only one of serious consequence was that in the compress. All fires were extinguished by 10 p.m.

Mr. Breaux reports all trains entering the city on time.

Wires of the telegraph companies are still down.

Smoke Club's Panatellas.

Really the nicest cigar on the market, made by hand from old matured Havana tobacco, an exceptionally sweet smoke, 5c; six for 25c. Box of twenty-five sent prepaid for \$1.00. Order to-day from A. Clubb & Sons, 49 King West.

SUICIDE IN NEW YORK CITY

MAY PROVE TORONTO WOMAN
That She May Have
Ended Her Life.

Relatives of Lilian Hewetson Fear That She May Have Ended Her Life.

A despatch from New York yesterday relates the suicide by gas of Lilian Ainslie Williams of Toronto and that the handsome young woman had been married in 1897 to a man named Williams in this city.

The market point of the story in the evening papers caused Mrs. James Hewetson, who lives with her son and young daughter, at 162 Euclid-avenue, much alarm as they coincided with incidents in the life of her daughter, Lilian Hewetson, who was married to a man named Williams, in New York State on the date given.

A later despatch from New York reads: "The mystery surrounding the life of Mrs. M. L. Williams who committed suicide by turning on the gas in her room in West Fifty-first-street, was partly cleared away today, when the coroner received first an anonymous note, which read: 'Mrs. Williams' family lives in Toronto, Ontario, and she was married to a man named Williams, in New York State on the date given.'

Then he received a telegram from C. H. Hewetson of Toronto, who said he would arrive here tomorrow and make arrangements for the burial of the woman's body here. The husband has not been heard from since.

Not a Clear Case. Mr. Hewetson told The World that he had received no answer to his telegram sent to New York for information concerning the dead woman. He did not intend to visit New York.

His sister Lilian had been away since he was a little boy, but his mother had become very anxious at the report, and also several points fulfilled their conjectures. His sister had not been missing, his sister had not been married in Toronto.

"Mother has not heard from Lilian from one to two months," he said, "and also she wrote very cheerful letters, she could easily have written the lines for some time her mother, which she was so much perturbed as she had just lost ten thousand dollars in the stock market, and she was in need of money. Mother wrote several times as usual, but no answer came, which made her very anxious. She always written her mother regularly. Of course, we may be entirely wrong."

Separated From Husband. The New York story says the dead woman had been separated from her husband soon after marriage. Lately she had been visited by a young man. A few days ago he had neglected her.

Two Women Badly Burned

Boy Dead From Injuries

Ignition of Benzine Torch in
House Causes Death of Louis
Pirnick and Serious Burning
of Mother—Upsetting Lamp
Causes Second Accident.

As the result of the ignition of a benzine torch, which had been placed in close proximity to a stove in the home of Noah Pirnick, 71 Huron-street, his four-year-old son, Louis, died at Grace Hospital last night at 4 o'clock, and his wife, Annie, is in the same institution in a critical condition.

The torch was being used by decorators engaged in the house. One of the men, seeing that the torch had ignited from the heat of the stove, picked it up, but when some burning liquid fell on his hand, dropped it. The boy also tried to extinguish the fire, but was enveloped in flames.

His mother rushed to his assistance and carried him to the street, screaming for help. This time her own clothes had caught fire.

A workman on the street, Dave O'Brien, saw the boy, picked him up, and immediately discarded his overcoat and threw it about the boy's head.

Both the victims were hurried across the street to the home of a neighbor who sent for Dr. Moorhouse and O'Brien, and also the police ambulance.

By the time Dr. Moorhouse arrived the boy was suffering with agonies, and his shrieks from pain could be heard a block away. The child had inhaled the flame, his mouth and throat being terribly scorched.

Mrs. Pirnick was burned on the arms, face and legs.

An inquest will be held by Dr. McCann, and has been on a spree ever since.

Rabbit Motel. The best made, Canada Metal Co.

WOMAN SERIOUSLY BURNED.

Mrs. Araminta Wiley, 333 West King-st., was seriously injured by the ignition of a benzine torch, which fell on her face, neck and hands. Her clothes ignited and she was badly burned before the flames could be extinguished. Thomas Connelley and Walter Evans, who were sleeping on the flat above, came at once to her assistance.

Dr. F. Colling, assisted by Dr. G. E. Smith and Dr. George Balwin, dressed the wounds, and she was taken to St. Michael's Hospital.

Mrs. Wiley is about 44 years of age.

Battery Zincs, all kinds. The Canada Metal Co.

Oscar Hudson & Co., Chartered Accountants, 5 King West.

He Had Heard of It. A gentleman went into the dining room of his hotel yesterday morning and found a man sitting at a table without any alcohol in it. The waiter said: "Well, sir, I have heard gentlemen speak very highly of a beverage they call 'Tonic-Cola.' Oh, yes," said the guest, "you mean 'Tonic-Cola.' I've heard of that. Too, bring me a split glass." Have you tried Tonic-Cola? It's all right.

LOOKING FOR WORK, KILLED

LABORER VICTIM OF TROLLEY

James Bloor Meets Instant Death
on Front Street During Yesterday Afternoon.

While looking for work yesterday morning, James E. Bloor, a laborer, was struck by a Market and Arthur-street car at the corner of Bay and Front-streets. He was dragged for about 200 feet and was dead when picked up. Dr. Butler of the Emergency Hospital was called, but could give no assistance.

The man passed behind a west-bound Young-street car and stepped in front of the Arthur car. The body was taken to the morgue awaiting identification. "There it lay until about eight o'clock when the wife and his sister identified the body. He only recently returned from a medical man, proved to be a medical man, proved that rigor mortis had set in.

Coroner E. J. Wilson opened an inquest and after allowing the jury to view the body, adjourned it until Tuesday evening at the police court.

MARRIAGES.

JENNINGS-JOHNSON—On Wednesday, Feb. 22, 1906, at the residence of the bride's uncle, Dewitt Walker, 50 Pearson-avenue, Toronto, by Rev. S. C. Green, Jennie Johnson of Weston to C. A. B. Jennings of Deer Park.

GRUFFIN-ON DEATHS.

GRUFFIN—On March 2nd, 1906, at 1:30 a.m., Helen Griffin, aged 4 years and 8 months, private, at 3 o'clock on Saturday, at St. Michael's Cemetery, and was buried on Thursday, March 1, 1906, at 10:30 a.m., in the same cemetery.

McDONALD—Near Union House, Sacramento, Cal., Feb. 24, 1906, Alex. McDonald, a native of Canada, aged 40 years.

SHEPPARD—At Toronto Junction, March 1st, 1906, George S. Stephens, aged 76 years.

FUNERAL—The funeral of Mrs. Sarah Seabright, widow of the late John Seabright, will be held on Saturday, March 3rd, at 3 o'clock, at St. James' Cemetery.

IN MEMORIAM.

CLARK—In ever loving memory of Edward Frederick Clarke, departed this life March 3, 1906.

Dinner's Weather Forecast.

More than any other, English has been able to stand the stress of weather. For this reason Dinner's has made it a rule to import the best of English hatters. The hat that literally melts in rain or snow is not so hot for a man's wear in Toronto or anywhere else in Canada for that matter. All the new styles are in Dinner's corner Yonge and Temperance-streets.

SLEET OR RAIN.

Light Side of Insurance

Mr. Macaulay of the Sun Life Flakes a Speech to His Field Staff, Which is Vastly Entertaining.

Motto for Policyholders is "Seek Your Joy in What You Give, Not in What You Get."

Look for joy. Do not look for joy in your environment. Do not look without, but look within. Look for your joy not in the future, but in the present. Seek your joy in what you give, not in what you get.

—EVAN ROBERTS.

The searcher after insurance truth will to-day, after five strenuous weeks of feeling his way thru the mazes of a mysterious science, be glad of a little entertainment to help him on his toilsome way.

The chapter which follows is from the "Sunshine" advertisement journal of the Sun Life. It is a twentieth century Macaulay—an address to the managers and field staff of the company by their president. Nothing more delightful has ever been written on insurance. The address follows a reproduction of the back-page advertisement, which contains the most apt motto ever gotten insinuated into the mind of a grateful policyholder.

TO THE MANAGERS AND FIELD STAFF OF THE SUN LIFE OF CANADA.

Gentlemen: The year now closing, as you know, has been a most eventful one. Its record will be as black Friday in the memory of some eminent men and in the history of some important corporations, and certainly no less memorable in the experiences or some nations. To that I shall revert later, but, meanwhile, being most interested in knowing the results of the year's operations of the Sun Life of Canada, which closed on 28th December, I shall first deal with them briefly.

Well, I am happy in being enabled to say that it has been a year of marvellous growth in new assurances, and prosperity in the finances of our loved company. The new business in applications amounted to \$25,561,834.24, of which Canada contributed \$10,421,586.55 and the foreign field \$15,170,247.29, a very handsome business indeed from both fields. But, in these days of inquiry and agitation, the new business is but half the story of a life company's proceedings. What of the finances? That is the first and chiefest inquiry. Gentlemen, the company never enjoyed such a year of prosperity before, the finances have prospered to our entire satisfaction, and there have been no extravagances nor have any funds been idle until the latter end of the month of December, when large remittances were received. Am I not justified in saying that the company has sustained, in an eminent degree, its motto, "Prosperous and Progressive"?

As a corporation, we have much reason for gratitude to the Great Power, "Who maketh poor and maketh rich; who bringeth low and lifteth up; by whom the actions of men are weighed in an even balance." To you, gentlemen, is a debt of thankfulness for the spirited and persevering loyalty which has raised the Sun Life of Canada to the proud position of being the leading life company of Canada. It is, therefore, with sincere pleasure that I unite with my brother directors in wishing you all many happy and like prosperous years in the future.

But to revert briefly to some public events that have made the year famous. The nineteenth century has been regarded by many writers as a very eventful one, and so unquestionably was. Monarchs and republics alike underwent great national and social changes, mostly for the better, and human progress made great strides. But these were spread over a century in time, and were between Christianized, cultured nations, and, also, these movements were, and are, of world-wide importance and historic fame, of pale interest and significance to us before the stupendous occurrences of this one year, 1905. The annals of this year record events that will be fruitful of momentous changes in the future history of nations and to the races of mankind at large.

WONDERS OF JAPAN.

The sudden emergence of Japan from the obscurity of ages, and her heroic military achievements in Manchuria, and her almost appalling naval achievements on the sea of Japan, dims by comparison the strategy and valor of the heroes of history, whether ancient or modern. Gama now becomes the peer of Wellington; and little, uncontentious, retiring Togo of the same Buddhist creed, now peers with our immortal Nelson. And these marvellous feats of skill and prowess open to view another thought of great significance.

These wonderful heroes belong to a hitherto obscure oriental people, regarded as non-Christian, devoid of western culture and without that sustaining power believed to be a special attribute of the best of the world. It was not thought to come within the scope of Divine Providence even, that a member of that heathen Buddhist cult or of the less known Shintohism should be able to lecture religious, cultured, all powerful England, with "deity in religion and patriotism, as known in Japan," and with there being a mere scourge Japan's achievements might be consistent with historic records, but it is claimed for Japan that her wonderful success is directly attributable to the highest of Christian virtues, "self-sacrifice."

Then again, Japan's unparalleled achievement at Portsmouth, in securing peace at such vast sacrifice to herself, is an evidence of an elevation of national character that may well put the members of The Hague peace conference to the blush.

What a painful contrast is presented by boastful Christian Russia—not only defeated ignominiously, on land and sea, by a despised oriental nation, but

Commission Dealers in Horses

Why are our Auction Sales Unusual?

There are many reasons—we indicate a few: Because we opened this market to save you money. We have demonstrated there is no need for any buyer to go to the country for horses, as we can save them their country expenses.

We can supply any class of horses bred, and have from 150 to 300 horses every week that have to be sold.

Our horses are right from the farms they are raised on. They are right out of work and ready to go back to work. Our shippers are men of many years' experience, who know a good horse when they see it, and we defy any dealer or individual to prove our horses are not as represented.

EX-BANKER IS ARRESTED

John R. Walsh Charged With Having Made False Returns and Appropriating \$3,000,000.

MISSISSIPPI ANTI-RACE-SUICIDE BILL

Proposes Strict Regulation of Courtships.

CHICAGO, ILL., MARCH 2.—John R. Walsh, president of the defunct Chicago National Bank, which closed its doors Dec. 18, 1905, to-day was taken into custody on a federal warrant charging violation of the national banking laws making false returns to the controller of the currency, and asserting that he converted to his own use, without proper authority, bank funds amounting to \$3,000,000.

CHICAGO, ILL., MARCH 2.—Representative Talbot, of Amite County, has made himself the most popular man in the state by introducing an act "to regulate and encourage matrimonial alliances, and to discourage race suicide in the State of Mississippi," should the bill be passed Mr. Talbot's name will be remembered in the Hall of Fame in the new Capitol.

CHICAGO, ILL., MARCH 2.—John R. Walsh, president of the defunct Chicago National Bank, which closed its doors Dec. 18, 1905, to-day was taken into custody on a federal warrant charging violation of the national banking laws making false returns to the controller of the currency, and asserting that he converted to his own use, without proper authority, bank funds amounting to \$3,000,000.

PRESS COMMENT ON INSURANCE.

The following extracts from Canadian press comment on the proposed insurance bill are given in this column.

MONTREAL STAR.

Given an independent and courageous commission, and we will get a thorough and reliable investigation or else an equally valuable protest against restricting conditions.

There is no reason to suppose that there is anything wrong with Canadian insurance as it stands at present for the investigating commission to start out on this theory.

The best men in the country are not too good or too expensive to serve in a commission to investigate the insurance business.

Special emphasis is laid on the commission's independence and its freedom from any influence of the insurance companies.

The report says: "There is no reason why the dividend should not be allowed to accumulate, and the dividend is to be supported, if at all, upon the ground that there should be no accumulation of surplus."

Considerable stress is laid on the fact that the companies should be compelled to submit the results of their management by annual accounting.

Intense public feeling in the matter of the proposed insurance bill is being forced upon the government by the investigation.

There should be a thorough and independent investigation of the insurance business.

The Toronto World, which has for months been clamoring for an insurance investigation, is now trying to throw discredit on the commission.

Spring Arrivals

Parquet Rugs

... of ...

THE USE OF RUGS nowadays is not limited to one or two apartments. They are popular for almost every room in the house—for the Drawing-room, Boudoir and Bedrooms, as well as for Dining-room, Sitting-room and Den. The fashion is to be commended, not only on the score of cleanliness and convenience, but because of the richer effects and greater unity in design made possible when the artist is freed from the limitations of carpet widths and has an unbroken square to work on.

Increased popularity means a greater demand, and to meet it we have imported in larger quantities than ever. Important consignments have already arrived and are displayed on our Ground Floor. They form a rug exhibit interesting enough to warrant an early visit.

We have space to make particular mention of only two or three rugs. There are hundreds to select from.

- | | | |
|---|--|---|
| No. 548—A beautiful Parquet Rug, woven in one piece expressly to our order. The color scheme is produced in shades of light green, with garlands of roses in pure pink, the whole effect being distinctly French and in perfect taste. Made in the following sizes: | No. 12721—A handsome one-piece Rug, with self-tone centre, in "hunters" green, a rich shade, which illuminates beautifully by artificial light. The border is woven in a ribbon and rose effect with scarcely perceptible touches of color in the flowers: | No. 5410—A French Axminster One-piece Rug, woven in two tones of pale green, in a delicate trellis pattern, with roses introduced in centre and border. The light and delicate touch that only French artists can give is evident here, as in all our Rugs from France: |
| 9 ft. x 10 ft. 6 in. \$30.00 | 9 ft. x 10 ft. 6 in. \$35.00 | 8 ft. x 11 ft. \$30.00 |
| 9 ft. x 12 ft. 35.00 | 9 ft. x 12 ft. 40.00 | 12 ft. 6 in. x 9 ft. 6 in. 40.00 |
| 10 ft. 6 in. x 13 ft. 6 in. 45.00 | 10 ft. 6 in. x 13 ft. 6 in. 55.00 | |

MITRE MATS, \$1.50 TO \$3.00. Customers who were disappointed through not being early enough to secure one of the last lot of small Carpet Squares will be glad to learn that a few dozen more are now ready. They are made of short lengths of some of the handsomest carpets we handle, and are priced with the sole idea of a quick clearance: **\$1.50, \$2.00, \$2.50, \$3.00.**

JOHN KAY, SON & CO., LIMITED

36 AND 38 KING STREET WEST.

ALIENS HAVE PROTECTION. Judge Teetzel Delivers Decision in a Copyright Case.

The Hunter, Rose and Co. infringed on the copyright of the Life Company of New York, and they had no right to publish the drawings of Chas. Dana Gibson. This was the decision given yesterday by Justice Teetzel in a case argued a few weeks ago. In doing so he granted an injunction restraining the Rose Co. from publishing or selling any more of the drawings.

"After a careful perusal of the two acts," states Justice Teetzel, "I am convinced that the present Copyright Act does extend protection to the production of foreign authors whose work is published in this country, and I therefore adopt the view that Jeffrey v. Norway, which does not uphold the rights of alien authors, is not binding on this point under the present act."

A REPRIEVE FOR PATRICK. New York, March 2.—The hearing upon the motion for a new trial in the case of Albert T. Patrick, convicted of the murder of Wm. Marshall Rice, an aged millionaire, was adjourned to-day until April 3. The adjournment was a further reprieve by Governor Higgins, as Patrick is under sentence to be executed on March 10.

A BANKER'S SUICIDE. Wellsville, N.Y., March 2.—Augustus M. Burrows, aged 57 years, a prominent banker and merchant of Andover, shot himself through the head at his residence in that village to-day, dying instantly. His private and banking business is said to be in the best condition.

CATTLE SALE A SUCCESS. FINE PRICES ARE REALIZED.

Port Perry, March 2.—The provincial auction sale of pure bred cattle, thirty-eight head males and females of best breeds, held in this place to-day, under the auspices of the Provincial Live Stock Association, proved a grand success. The catalogs being exhausted before the prices realized were good, one male aged 11 months bringing \$245, and one female 12 months bringing \$125. The large ink in which the cattle took place. George Jackson conducted the sale and W. Ormiston was ring manager.

CHOOSE A SUCCESSOR. The S. S. committee of Ontario and Quebec Baptist Convention met yesterday to consider the appointment of a successor to Rev. S. Sheldon, general S. S. superintendent. Several names were discussed and a sub-committee consisting of H. L. Stark, Dr. S. S. Bates, and Rev. S. Sheldon, was appointed to look into the matter further and report.

PHILLIPS BEFORE JUSTICE

INVESTIGATION, NOT TRIAL.

Crown Attorney Evidently Not Greatly Impressed With Examinations Already Held.

The case of conspiracy against Jos. Phillips, late manager of the York County Loan, will be proceeded with before Magistrate Denton next Thursday, although his worship declared yesterday he would not try, but only investigate the case.

J. E. Jones, counsel for Phillips, objects to the crown's "blanket charge of conspiracy." He asked for particulars.

"We should have the dates, the names of the persons alleged to have been defrauded, the amounts, and, in fact, the particulars of the information on which the charges were laid," he said.

Crown Attorney Curry furnished one case.

"On the 15th of October, 1905, of having sold a widow, Mrs. Jackson, of the name of the person alleged to have been defrauded, the amounts, and, in fact, the particulars of the information on which the charges were laid," he said.

"It was not very earnest fishing," interjected Mr. Curry.

LAWYER IS ACCUSED. Champarty is Alleged Against F. C. Griffiths by Robert Forsyth.

"Champarty" is charged against F. C. Griffiths of Niagara Falls, solicitor for William Casselman, in the latter's suit against Barry and McMorris, contractors. The charge was made in an affidavit filed yesterday by Robert Forsyth, solicitor for the defence.

It is an offence against the oath taken by every barrister before being admitted to the bar. Griffiths is alleged to have agreed to take the case on a basis of one-half the amount of the judgment as payment for his services.

Casselman received a verdict of \$6500 by the trial judge, which was sustained by the divisional court. He lost both eyes while blasting.

A LEGAL TRICK. Mrs. Isabella Gibson Says so of Charge of Religion of John J. Paulis.

"His change of faith is merely a legal trick to obtain possession of the child." This is the statement made by Mrs. Isabella Gibson of Windsor, the grandmother of Eva Paulis in an affidavit filed yesterday at Osgoode Hall in connection with the attempt of John J. Paulis, a London barrister, to obtain possession of his child.

"I am afraid of my father," states Eva Paulis, who is now 12 years old, in her affidavit, "I do not want to live with him or to have anything to do with him, and I am very frightened of him just as he came to my grandmother's house."

CONSULATES ABOLISHED. Washington, March 2.—The house committee on foreign affairs to-day abolished the following twelve Canadian consulates:

Ontario—Amherstburg, Brockville, Chatham, Goderich, Guelph, London, Windsor, Stratford, Wallaceburg, St. Thomas.

Quebec—Stanbridge and Greenville.

STRATFORD'S FIRE PROTECTION. City Must Add to Its Equipment—In Second Classing.

Stratford, March 2.—(Special.)—Inspector Howe of the Canadian Fire Underwriters' Association has reported that the city fire system is inadequate and the council will spend \$125 on new equipment.

The inspector's reason for such a report was because Stratford's population had increased from 18,000 to 24,000 since the last inspection was made. The inspector placed the city's apparatus in a secondary place as compared with previous standing in class "A."

Choosing a Successor. The S. S. committee of Ontario and Quebec Baptist Convention met yesterday to consider the appointment of a successor to Rev. S. Sheldon, general S. S. superintendent. Several names were discussed and a sub-committee consisting of H. L. Stark, Dr. S. S. Bates, and Rev. S. Sheldon, was appointed to look into the matter further and report.

ESTATES OF THE DEAD. The will of Geo. E. Hamilton, manager of the W. E. Sanford Company, made two days before death, leaves an estate of \$7500 to the widow, except \$1000 to his sister, Mrs. Hunter. Donald J. McDonald, grocer, left \$4318.46 to his widow and children.

FIRE YESTERDAY. Children and matches caused \$50 damage at 265 Ossington-avenue yesterday. A defective furnace pipe caused \$25 damage at 1005 Bathurst-street at 4.30 a.m. yesterday. A fire among old paper caused a scare at 31 West Richmond-street yesterday morning.

THE BOOM TIME

State of Affairs in Ontario's Eldorado.

Indication of the "Boom Time" State of Affairs in Ontario's Eldorado.

"There is going to be the greatest rush into Cobalt, this spring, that has ever been known in Canada, exceeding the balmy days of the Klondike. This rush has already begun, and the government road trains from North Bay every day are packed with people. One hundred buildings are in course of erection in the town, and there are at present no vacant houses. Beyond Cobalt, tents have been erected everywhere to accommodate the thousands of men who are even now building a house on the Cobalt Lake, and is now building a row to take care of himself when the boom comes out."

This is the statement made by T. G. Wallace of Woodbridge, who has just returned from the silver country. He enjoyed his three days' experience at Cobalt; it was such a refreshing primer about the whole layout. The town, he says, is very rocky, and there is not 10 feet of level land in the place. An instance of the bounding real estate values, he mentioned the fact that 50 feet of property which was bought from the government last year for \$200, 60 feet frontage, has just been sold for \$800.

There are twenty restaurants of a kind in the place, and several ginger beer hotels, there being no liquor license issued. A bottle of ginger beer sells for 25c, and a drink, as much as a man in Toronto would get of whisky, for 50c. There is a hotel, however, there is a lot of liquor drunk in the place, the miners going to Halleyville, for instance, where the two hotelkeepers are getting rich quicker than the owners of the Timmins mines.

The camp complex miners from all quarters of the globe, Australia and South Africa being represented. Notwithstanding the cosmopolitan character of the population, one policeman, Calbeck, originally from Toronto, keeps the town in order.

There are many poolrooms and such resorts there which until two weeks ago were allowed to keep open on Sunday. The Earl Mine has half a dozen shafts, and this property embraces an area of about 200 acres. Mr. Wallace exhibited a small chunk of ore almost solid silver, which he picked up on a dump. Everything in the shape of real estate, or a business, is held at almost prohibitive rates. Some of the stores are no better than building shacks on the lot, and in one case Mr. Wallace on the principal stock seemed to be an over-cost hanging outside and a couple of boxes of supplies on the shelf inside. A small general business, worth, in the ordinary way, about \$1500, was held by the proprietor at \$10,000.

The government road is extremely well conducted, and is doing a tremendous business.

DETROIT GETS BRITISH TRADE. Exports for February Show Rather Surprising Figures.

DETROIT, March 2.—Exports from Detroit to foreign countries during February show a wonderful increase over the same month a year ago. The total for the month was \$2,847,564, against \$1,858,591 for February, 1905. Of this total, Ontario took \$1,628,000 worth; Michigan, \$1,150,000, and the maritime provinces and British Columbia \$99,000 worth.

The Detroit machinery is being shipped to South Africa for mining purposes, the total amount of machinery shipped there being \$87,734, of this \$77,274 being in mining machinery.

POSTPONES BUDGET SPEECH. Mr. Fielding's Accident Will Delay Tariff Proposition.

Ottawa, March 2.—(Globe Special.)—It is not expected that Mr. Fielding will be able to come out of doors for another week or ten days. There he will have to use a carriage for a long time, driving to and from his office. This postpones the time when the cabinet will sit and consider the tariff changes. It is not improbable therefore, that the budget speech, embodying the tariff changes, will not be delivered until May or June.

The Conservative members of parliament are discussing a proposition to adjourn for a long period of months when the hot weather comes on.

Hon. H. R. Emmerson has accepted an invitation to be the guest of the Canadian Club of New York on March 17.

THREE POLICEMEN INJURED. IN TAKING OF INVENTORY.

Paris, March 2.—Prefect Leprieux and a large force of police assisted to-day in taking the inventory of the church of St. John and St. Francis under the church and state separation law. A number of manifestos made a lively resistance.

Three policemen were injured, and many arrests were made.

GOVERNMENT OULIEST. TO EXAMINE PILOTS.

Quebec, March 2.—Dr. Page has been appointed chief medical inspector in connection with immigration of this port, and his salary raised to \$3500 per annum.

The same physician has been named the government ouliest to examine the eyesight of the Quebec corporation of pilot.

REFUSED TO BE FIRED. Pittsburg, March 2.—Nominations for officers of district No. 5, United Mine Workers, closed last night. Patrick Dolan's name appears among those suggested for the presidency, but he refuses to take any part in the election and declares he will continue at the head of the organization, be the result what it may of the present.

VICE-PRESIDENT URIAH BELLINGHAM and several members of the district board have taken the same stand.

MILLION DOLLARS IN BUILDINGS. Welland, March 2.—It is estimated that over \$1,000,000 will be spent in building operations at Welland this year.

This includes the Plymouth Corrugated Works, a large brick and concrete building plant, Robertson Machinery Company's plant and other manufacturing concerns. The city is rapidly becoming a house of a house fame here.

CANADIAN MINING INSTITUTE. Quebec, March 2.—The eighth annual meeting of the Canadian Mining Institute will be held at the Chateau Frontenac, this city, on the 7th, 8th and 9th of March.

J. M. Clark, K.C., a leading mining lawyer, will address the institute on the revision of the Mines Act of Ontario. Prof. Miller, the Ontario geologist, will be present to deliver an address on the Cobalt mines.

There will be 24 papers in all, and the convention will last three days.

PENNSYLVANIA HOLDS HIS SEAT. Kingston, March 2.—The time agreed upon by the recent by-election for filing charges with the purity tribunal has expired. The limit was thirty days. No charges have been filed, and Mr. Pense will retain his seat in the legislature.

THE MEASURE OF PIANO QUALITY

It is very common to hear piano manufacturers, dealers and salesmen make the statement that the instrument they are interested in is equal to a "Gerhard Heintzman" and costs less; or a Gerhard Heintzman is no more artistic than such a make, which is sold for less, etc.

Is this not positive proof that the GERHARD HEINTZMAN is the standard by which other pianos are measured?

A GERHARD HEINTZMAN may cost you a little more than other Canadian pianos, BUT QUALITY REMAINS LONG AFTER PRICE IS FORGOTTEN.

GERHARD HEINTZMAN pianos have given perfect satisfaction for nearly half a century and with our own exclusive improvements and patents are better to-day than ever.

DEPOSIT OF 10 MILLIONS TO HELP THE BANKS ALONG

U. S. Government to Make Temporary Loans, Which Must Be Returned About July.

Washington, March 2.—Secretary of United States Treasury Shaw to-day announced that he would make temporary deposits in public banks amounting to \$10,000,000. The secretary in his statement says:

"In the month of February just closed the treasury department looked up about \$10,000,000, four and a half millions in excess of government receipts over expenditures and five millions in excess of deposits by lawful money (or reserve) of national bank circulation over and above the actual redemption."

For this reason the secretary of the treasury announced this evening that he would at once deposit \$10,000,000 of public funds in existing depository banks. These deposits will be made entirely in the important centres—namely, New York, Boston, Philadelphia, Baltimore, Chicago, St. Louis and New Orleans. The deposits will be temporary only and depository banks receiving them will be called upon to return the same on or about July 10. The deposits being of a temporary character, the department will accept as security satisfactory bonds on a basis of 50 per cent of their value.

WOMAN WHO TOOK CHILDREN IS RELEASED BY MAGISTRATES.

Woodstock, March 2.—Mrs. John Cook, formerly the wife of Peter Bradt, now of Otterville, who was arrested on a Michigan Centre train at Windsor last Thursday, charged with the abduction of her eight-year-old boy, was acquitted by Judge Finkle this morning.

His honor held that the woman acted in good faith, believing that she had a right to the child under the decree of divorce, which, however, had not been sufficiently proved, and under the circumstances he could not commit her.

CURED OF DRUNKENNESS

How a Montreal lady cured her husband of drunkenness with a secret home remedy.

"I want to tell you that I have cured my husband of his drunkenness with a secret home remedy. I am a married woman, and my husband was a drunkard for many years. I was very much distressed, and I had no money to pay for a doctor. I was told that I should give up, but I was determined to try. I found a secret home remedy, and I cured my husband. He is now a good man, and I am very happy. I want to tell you that I have cured my husband of his drunkenness with a secret home remedy. Strength and Happiness for Weak Men!

If you are losing the strength of youth and can see evidence, from day to day, that your physical system is going to decay, you should, in common justice to your future happiness, take steps to check this.

Don't make the mistake of thinking that this can't be done; it can and has been done in thousands of cases.

Don't deceive yourself into believing that it is natural for any person to thus exhaust his power.

Nature is appealing to you every moment to save yourself. The slight pains that you feel; the momentary spells of weakness; the periodical loss of memory, dullness of brain, drowsiness—all point to the necessity of curing yourself now. I have a positive cure for you in my

Dr. McLaughlin's Electric Belt

It will make you strong. It will lend the life blood dancing through your veins, you will feel the exhilarating spark warm your frame, the bright flash will come to your eye, and a firm grip to your hand, and you will be able to grasp your fellow-man and feel that what others are capable of doing is not impossible to you. This grand appliance has brought strength, ambition and happiness to thousands of men in the past year.

It is a quick and lasting cure for all Nervous Debility, Weakness, Varicocele, Rheumatism, Pains in the Back and Hips (Sciatica), Lumbago, Constipation, Indigestion, Weak Kidneys, Failing Memory and all evidences of breaking down. It cures when all else has failed.

My arguments are good, my system is good, but I know you haven't time to study these. You want proof, and I give you that and lots of it. When your own neighbors tell you I cured them you will know I did it.

If you are skeptical, all I ask is reasonable security for the price of the Belt, and you can use it on the condition

NO CURE, NO PAY.

It is as good for women as for men. Worn while you sleep, it causes no trouble. You feel the gentle, glowing heat from it constantly, but no stinging, no burning, as in the old-style belts.

CUBA - THE LAND OF SUNSHINE!

CANADA-CUBA LAND & FRUIT CO., Limited.

A Ten Acre Fruit Farm in Cuba is equal in production to any One Hundred Acre Farm in Canada, with one-quarter the work and outlay.

ORANGES
We have the best land in the world for oranges, lemons, grapes, figs, dates, apricots, strawberries, and every variety of small fruits.

PEACHES
The best opening in the world for poultry raising, assuring profits which cannot be compared with elsewhere.

TOBACCO
We have numerous old established tobacco plantations, and grow the finest tobacco ever produced in Cuba.

PROFITS
We quote a few examples of profits made on products.

POULTRY
Of all kinds do well in Cuba, and command very high prices, especially eggs; pigeons and doves do nicely.

STRAWBERRIES
Of large and superior quality, and produce two crops annually, and with care when planting, and variety, produce all the year.

GINGER ROOT
Can be raised in Cuba; can be cultivated in oranges during the first three years, or chocolate groves. It is planted and cultivated like potatoes, and yields half to two tons per acre and commands 10 cents per pound in New York market. One ton of ginger is worth \$1000 to \$2000.

RICE
Cuba will produce upland rice, average of 2500 pounds per acre.

YUCCA
Produces starch and tapioca, and other sweets used in confectionery. Will average a profit of \$200 to \$500 per acre.

FRUITS
Do well in Cuba and pay \$150 to \$200 per acre.

APRICOTS
Will net \$200 to \$400 an acre.

FIGS
Grow nicely in Cuba and are profitable; average \$500 an acre.

OLIVES
Do well in the high lands of Cuba, but were prohibited under Spanish law. Will produce rich results in fruit and olive oil. Profit of \$200 to \$500 an acre.

CACAO
In Massy Hill in Cuba, they attain a height of 10 to 20 feet in four years, and will produce 2 to 10 pounds per acre. At 25 cents per pound and 400 trees per acre, \$240 and after ten years ten pounds per tree, \$200.

VEGETABLES AND SMALL FRUITS
Of all kinds do exceptionally well in Cuba, and can be placed upon the American markets weeks ahead of those from any other source, thus always securing the top prices.

PINEAPPLES
The Cuban pineapple to-day dominates the American market. About 4,000,000 worth of this fruit was shipped out of Cuba last year, and yet the great western and central markets of the United States are un supplied.

ORANGES
It must be remembered that an orange grove will mature here in one-third less time than in California or Florida.

The west end of the island is the oldest and most desirable for settlers, easily reached by rail and boat. The right soil for FRUITS, VEGETABLES and TOBACCO.

Conservative Estimates: Returns From a Five-Acre Orange Grove.

First year from planting, trees not bearing.

Second year from planting, trees not bearing.

Third year from planting, trees bearing, estimated crop value \$500.

Fourth year from planting, trees bearing, estimated crop value \$1500.

Fifth year from planting, trees bearing, estimated crop value \$2500.

Each succeeding year proportionate increase.

No better evidence is needed of the large returns from the successful orange grover than the fact that a 20-acre orchard in full bearing was recently sold, to close an estate, at a price of \$30,000, or \$1500 per acre. American growers in Cuba are getting a net profit of from \$150 to \$200 per acre the third year, after planting, with an increase of yield as the trees grow older of about 15 per cent. year. Rapid and cheap transportation will add materially to the profits of the orange grover.

NOW ESTABLISHED ON OUR PROPERTY

Postoffice, general store, library, reasonable hotel accommodation, direct shipment by water, our own medical attendant—Our dock is now built out to a distance of 600 feet.

We have published in the past numerous letters from those who have visited our estate, which speaks volumes more than all we can say. Those people have bought extensively. Many purchase making their homes there, and numbers are now farming their lands. Can you invest so small a capital in any other business and get the same returns?

A perfectly healthy climate. No frost or snow, and no extreme heat.

IF YOU PURCHASE NOW THE PRICE IS

\$20.00 PER ACRE!

When you buy our land you get Fruit Land—High, Dry and Free From Swamp.

APPLY 106 KING STREET WEST TORONTO, GEO. F. DAVIS, Managing Director.

The distance from Toronto to Ocean Beach is about the same as to Winnipeg.

FRANCE FULLY FORTIFIED

WAR MINISTER DECLARES

National Council of Defence Being Organized - Paris Journal on German Mobilization.

Paris, March 2.—The Journal to-day publishes the result of an investigation made by its correspondents along the German frontier.

The paper says the Germans do not desire war, but the German army is ready and its superior mobilization plans permit a rapid invasion of French territory.

The Journal counsels the abandonment of fortifications and the adoption of the German plan of a rapid invasion of the enemy's territory.

In the chamber of deputies to-day War Minister Etienne, replying to an interpellation of the opposition, said that the French army is in good condition. The rumors of defective supplies are unfounded. All the necessary measures have been taken. The decree establishing the council of national defence is now in the hands of the premier and the supreme commander has already been chosen. He is an officer of incontestable ability and possesses the full confidence of the army.

Etienne's statement was not considered significant in connection with pending international events, as it was designed to answer technical objections to the budget.

THE PEARL OF THE ANTILLES

The Many Advantages of Cuba Are Now Being Recognized.

Cuba with its manifold attractions, its splendid resources, attractive climate and wonderfully fertile soil has already drawn many Canadians and Americans to view it as a profitable field for investment or an ideal home.

The soil and climate are so formed as to permit of agricultural operations throughout the year. While the Canadian farmer and gardener are bound to an enforced partial idleness for several months in the year, agricultural activity in Cuba is only governed by individual desires. There is no day in the year when stock will not thrive and fatten on pasture or when fresh produce and fruits may not be gathered from the garden. Under the fresh direction of Canadian and American capitalists, railroads are being built, and Cuba has been styled, has awakened to a new life, and resources which have long lain dormant are being put to use for those who reach for them.

Cuban Realty Co., Limited, with headquarters at the Temple Building, Toronto, with keen foresight, secured a large holding in this garden of the West Indies and has made excellent headway in developing the land they set out to establish. The colony of the company is high and favorably situated. Due consideration has been paid to the advantageous marketing of the products of the island, and the shipping points of the island passes through the property. A trip to Cuba between now and the opening of spring would be a holiday treat. The officers of the company will gladly accord any information desired in this direction, and willingly submit their property to sightseers who are going to the ostensible purpose of making a home.

MAGISTRATE AND HIS POWER

WHEN CAN HE DELEGATE IT?

Justices Mulock and Anglin Would Not Trust the Clerks and Policemen.

Lieut.-Col. Denison, chief magistrate, was criticized by Chief Justice Mulock and Justice Anglin in the divisional court yesterday afternoon.

"It is the duty of the magistrate to search warrants, authorizing the seizure of the books and papers of Herman C. Kehr, one of the loan brokers, was being issued, W. J. Tremear, for Kehr, stated that the magistrate signed the warrant without reading it, also that the person who executed the warrant, took documents which did not affect the charge under investigation.

"The magistrate cannot see that the warrant is carried out," said Crown Attorney Curry. "He issued the warrant upon information received. He does not see the evidence before him. The warrant is done by the country magistrates. If he did we would need more magistrates in this city. In respect to what Mr. Tremear said about the warrant not being read, the magistrate relies on his clerks and the crown attorney to make them out properly."

"If you will pardon me," said Mr. Curry, "he relies on his clerks to perform that part of the work."

"Those people to whom you appointed to the office of magistrate," said the chief justice, "are an absolute delegation of the power intended for the magistrate only," stated Justice Anglin.

"The warrant is made out correctly," said Mr. Curry, "and to my idea was served correctly when it was served. How can it be served correctly when it is not? Does not specify the articles to be seized?" asked Justice Anglin.

"The officer serving it usually is well acquainted with the case," answered Mr. Curry.

"They will have to employ a better type of constable than is the present rule," stated Justice Anglin.

DECREASE IN HIDE SUPPLY VEGETARIANS ARE RESPONSIBLE.

Chicago, March 2.—Vegetarians are largely responsible for the increasing scarcity of hides in the United States, according to August H. Vogel of Milwaukee, Wis., the principal speaker at the annual dinner of the shoe and leather association of Chicago.

"The world's visible supply of hides," said Mr. Vogel, "is decreasing rapidly, less in proportion to the increase in population. The hide industry is dependent on the consumption of meat. People are eating less meat than formerly."

LOUISVILLE'S "UNSAVED" A COMPREHENSIVE LIST.

Chicago, March 2.—A despatch to the Tribune from Louisville, Ky., says: "Send me a list of the unsaved men and women of Louisville." This message was received yesterday by Postmaster T. H. Baker from a man at Rutland, Vt., who said he heard of the wickedness in Louisville and desired to do missionary work here. Postmaster Baker forwarded a city directory.

THE SCHUBERT CHOIR

A Coming Factor in Canadian Musical Affairs—The Massey Hall Concert Thursday Before an Audience of 3500.

It is generally conceded that the Schubert Choir, which had hitherto been known as the "Toronto Choral Union," under the direction of Mr. H. M. Fletcher, will be an important and growing factor in the musical affairs, not alone of Toronto, but of the Dominion as a whole. Mr. Fletcher has shown marked skill and untiring industry in the cultivation of choral music in Toronto, and the Schubert Choir, his most ambitious effort, gives every promise of attaining substantial and large success.

The first concert under the name of the Schubert Choir was given on Thursday, before an audience of 3500 of Toronto's best people, may be taken as a good indication of the prediction made here. The program contained some of the best selections of Schubert as well as others of the world's musical classics. The choir was handled with that peculiar skill that has now become characteristic of Mr. Fletcher's leading.

On the eve of a forward step by Mr. Fletcher in the organization of the Schubert Choir—a distinctly Canadian production—it was fitting in this first concert that the honors that have come to the choir should be shared by that best-known of all Canadian pianos—the Concert Grand piano, manufactured by the old firm of Heintzman & Co., Limited. Mr. Fletcher had insisted on the use of this piano in his home, and he has not been in making it his choice for the initial concert, and what to him was one of the greatest moments—the first concert of the Schubert Choir.

It is very gratifying to Canadians as a whole in this growing Canadian century to find this instrument of Heintzman & Co., not alone the choice of the leading Canadian musical organizations, but also of the many great artists who each season visit Canada.

Settlers' Low Rates West.

It is very gratifying to Canadians who are settling in the West, that the Canadian Pacific Railway will sell low rate second class tickets, daily from Feb. 28 to April 7, 1906, to points in Colorado, Utah, Montana, Nevada, Idaho, Oregon, Washington, California and British Columbia. Rates from Toronto to Vancouver, Victoria, New Westminster, B.C., Seattle, Wash., or Portland, Ore., \$42.25 to San Francisco, Cal., \$48.00. Correspondingly low rates from all points in Canada. Choice of routes. Best of service. For full particulars and folders call on or write B. H. Bennett, general agent, 2 King-street East, Toronto, Ont.

FIGHT FIFTY FEET IN AIR

ENDS IN ONE MAN'S DEATH

For Half-an-Hour Two Bridge Workers Battled on a 4-Foot Trestle.

New York, March 2.—On a trestle not more than four feet wide, fifty feet above the level of the river, at the foot of East Thirtieth-street, two men battled for half an hour with their fists. A hundred workmen, drilmen and laborers employed in the repair of the bridge, gathered below to watch the fight.

The two men drove each other back and forth along the trestle, and the tracks of the trestle fighting and wrestling on the very brink of the high. A dozen times the men stepped off the trestle, but were held back by the men who stood on the trestle below. The two men were about to topple over the edge of the trestle into the river in each other's embrace, but every time each would fight to his feet again, and resume the battle in another charge. A policeman started up the slender ladder, crying to them to stop struggling. They refused to stop. A blow on the point of the jaw and the other man was held back by the men who stood on the trestle below. A dozen men scrambled up and found the prostrate man dead. The man who had met his death was Frank Moon, a laborer. His opponent was Patrick McManey, an engineer in charge of the dummy engine used on the trestle for unloading coal from barges. McManey was arrested. He told the police that Moon had been annoying him in his shanty and when ordered to stop he had taken a knife. He started the fighting. It is believed that Moon's skull was fractured against an iron rail as he fell.

SMOTHERED IN BARN.

Lantern Explodes and Dr. Jekaway of Stayer Lanes His Life.

Stayer, March 2.—At 10.30 last evening, while Dr. Jekaway was feeding his horse, his lantern exploded, setting the hay and straw and smothering him in the loft. The body was covered with soot and his face and hands being only slightly burned.

The barn, which was brick, was damaged to the extent of \$200.

WILL OF JOHN McCALL.

New York, March 2.—The will of the late John A. McCall, for many years president of the New York Life, was filed for probate today. The estate is valued at over \$2,000,000. The entire estate is left to his wife, Mary I. McCall, as sole legatee. The document was dated Feb. 17 last.

Stock Cars in Demand.

Large demands are sent from the different points along the Teeswater branch of the C.P.R. to the car distributor for stock cars.

HEALTH REPORT OF PROVINCE

Alarming Increase in Cases of Smallpox and Typhoid.

The report of the provincial board of health for January, made up from returns from 700 division registrars, indicates a decrease in the number of cases of scarlet fever and diphtheria, but a considerable increase in smallpox and typhoid fever. Typhoid has been epidemic in some towns. Fort William had 100 cases and 13 deaths; Port Arthur, 24 cases and 6 deaths; and Pembroke, 29 cases and 6 deaths. There was an increase of 131 cases of smallpox, but no deaths resulted, the disease being of a mild type.

Deaths from all causes totaled 547, making the death rate 15 per 1000, as compared with a death rate of 13.1 last January. The mortality in cities was much higher than in towns and rural districts. Fifteen cities report 750 deaths from a population of 255,672, a rate of 16.5 per cent, while the towns and rural districts reported 1422 from a population of 1,148,444, a rate of 11.8. Following is a comparative table:

	1905.	1906.
Smallpox	141	0
Scarlet fever	157	4
Diphtheria	175	21
Measles	21	4
Whooping cough	27	27
Typhoid fever	168	51
Consumption	185	174
	894	255
	1182	277

To Cuba at 4.40 p.m.

Every Thursday the International Limited from Toronto connects at Chicago with three expresses for Mobile, where direct connection is made with new steamer "Prince George," arriving Havana early Monday a.m.

Call at Grand Trunk city office for full particulars.

Special Colonist Trains.

Will leave Toronto every Tuesday at 9.40 p.m., during March and April, in order that settlers may travel with their live stock and effects to Call on G.T. agents for tickets and full particulars.

Phone Main 1855.

THROUGH THE HEART!

WHEN THE NERVES BECOME A WRECK AND VITALITY RUNS LOW BECAUSE THE HEART FAILS TO DO ITS WORK—THROUGH THE SELFSAME HEART—IF CURE COMES—MUST IT COME

Dr. Agnew's Cure for the Heart

Cures the nerves through the heart. Experience of the highest medical authorities has conclusively proven that the quickest way to cure diseases of the nerves is to fortify the heart with "blood" that is natural to it, and that enriches the blood; and it has been proven also, beyond the shadow of a doubt, by this same high medical authority, that Dr. Agnew's Cure for the Heart is the most potent nerve nourisher and heart strengthener that has been "gathered in" from nature's lap to enable suffering, suffering, why postpone applying the remedy? Why delay taking hold of the healing hand of every form of heart disease in 30 minutes.

Margaret Smith, of Brussels, Ontario, says: "Many a time my suffering was so great that I would have hailed death with a welcome, but four bottles of Dr. Agnew's Cure for the heart wrought a wonderful cure in me."

SOLD BY ALL DRUGGISTS AND MEDICINE DEALERS.

DR. AGNEW'S LITTLE LIVER PILLS cure Sick Headache, Biliousness, Indigestion and Constipation—They never grip—40 for 10c.

DR. AGNEW'S CATARRHAL POWDER relieves in 10 minutes.

PHYSICAL DEBILITY

I Cure Nervous Debility, Varicose, Stricture, Early Decay and Waste of Power, All Nervous, Chronic, Blood and Skin Diseases.

X RAY EXAMINATION, ADVICE AND CONSULTATION FREE

HOME TREATMENT

If you are in or near the city you should apply for treatment in person, but if you live too far away, write me a full and unreserved history of your case. You will receive a careful, conscientious and painstaking attention as if you were in my office daily. As men in different parts of Canada and Mexico, as well as all over the United States, are being cured by my system of home treatment, I feel fully justified in claiming that it is the most perfect and successful system ever devised. All physicians coming to me for consultation over obstinate cases which they are occasionally called upon to treat will receive the most courteous of my attention. Medicines for Canadian patients shipped by Windsor, Ont., all duty and transportation charges prepaid.

DR. GOLDBERG, 208 Woodward Ave., Suite 416 Detroit, Mich.

IS YOUR HOME WARM?

If not, see us about it. Over eight thousand of Toronto's best homes warmed by the Novelty Hot Water and Hot Air Heaters. Twenty years of success behind them. Advise an estimate free.

Who's Your Hatter

Do you know the man who wears a hat that always looks stylishly different?

Whenever new hats are introduced he appears in a style of hat that has yours "beat."

Ten chances to one he goes to Dineen's for his hats. Dineen's is the target for his hat style.

English hats—American hats—French hats—Italian hats—

But most especially English hats.

2.00—2.50—3.00

The store is open till ten o'clock Saturday evenings—not to sell but just to show what a real hat looks like.

DINEEN'S,
Cor. Yonge and Temperance Sts.

MURDER BY BOMBS.

Confession Clears Up San Francisco
Outrage of Two Years Ago

San Francisco, March 2.—It developed here last night that a San Francisco mystery of two years ago has been touched upon in the confession made by Harry Orchard, now imprisoned at Bolson, Idaho, on the charge of having murdered former Governor Steuneger.

According to Orchard's confession, as received here, the "inner circle" of the Western Federation of Miners plotted the assassination of every prominent man connected with the employers' side of the famous Coeur d'Alene strike and one of the attempts to kill Steuneger took place in this city.

In 1904 Frederick W. Bradley, superintendent of the Bunker Hill and Sullivan mines was living here. On the morning of Nov. 17 Bradley opened his front door to step into the street, when a man connected with the employers' side of the strike, named John J. O'Connell, fired a shot which struck Bradley in the chest. Instantly a terrific explosion followed. Bradley was hurled into the street, badly bruised and burned. He was so severely hurt that for a time it was feared he would die. The grate had been leaning in his front door, and the explosion was caused at the time that the grate exploded, which became ignited by the lit match.

Orchard, however, in his confession, says that Bradley was the victim of a bomb outrage.

**Dr. Agnew's
Catarrhal Powder**

Is a Catarrh Cure that Cures
Colds and Catarrh

Actually, positively, indisputably, irrefutably, Cures Colds and Catarrh. Not always with first application, although even that invariably brings relief in 10 minutes.

But it Cures—Cures Colds and Catarrh—Dr. Agnew's Liver and Kidney Pills. 40c. 40c. Doses 10 Cents. 15

**1906
Showing of
Spring
Woolens**

We're blossoming out in a magnificent display of spring fabrics, and have taken great pains in the selection of our stock.

You need hardly be told that the best time to order your spring suit is now before the general rush—at all events this is the time to select your patterns, or just to drop in and get posted on what's up in the spring.

We are prepared with Suitings from \$22.50 to \$25.00—to your measure.
