

THE TORONTO MORNING MIRROR ARE WE TO PUT UP WITH SLOW BOATS?

London Spectator Argues Strongly for such a Course—Will England and America Agree on a Canal Across the Isthmus of Panama?—Situation Acute in the East.

London, Aug. 27.—The Spectator this morning says: "The United States is learning with indignation the details of what its troops had to endure before Santiago, and is inclined to make a scapegoat of Mr. Alger. Obviously Mr. Alger is not a Carnot, but it is hardly fair to put all the blame on him. The real cause of the misery and trouble in America, that you can make without preparations. Amateur soldiers, especially amateur transport, and commissariat, is cruel work."

The Spectator argues strongly for the abolition of the Clayton-Bulwer treaty, and says: "A movement must soon take place in America which will inevitably cause the United States to trip up against the treaty and make a vehement demand for its abrogation. That demand, unless it were properly understood and explained beforehand, might seem unfair and unjustified."

The Spectator suggests that England will not wait for America to ask for the abrogation of the treaty, but will arrange a treaty by which America and England will mutually bind themselves to allow no power across the Isthmus of Panama, the United States to keep it open on equal terms to all nations at peace with the United States.

The paper says: "If the diplomats make a quid pro quo there is a dozen Canadian points which might be set against the tearing up of the treaty."

Situation in the Far East Has Suddenly Become Acute—Any Failure by China to Observe Great Britain's Wishes Will Be Accepted as a Cause for War.

London, Aug. 26.—The Peking correspondent of The Daily Mail says: "The situation has suddenly become acute. The relations between the Tung-tsi-Zamen and Sir Claude MacDonald, the British Minister, are strained to the point of rupture. Sir Claude MacDonald has intimated that any failure by China to observe Great Britain's wishes will be accepted as a cause belli."

"In support of Sir Claude MacDonald, the fleet has been concentrated at Wei-Hai-Wei and Hankow, and all the warships under 5000 tons have been mobilized in the Yangtze River. The naval demonstration is solely directed against China, as it is so officially stated that the existing relations with Russia are cordial. Lord Salisbury has abandoned the policy of the open door, substituting for it a policy of spheres of influence."

"Diplomatic conferences have been of constant occurrence within the last few days. Lord Salisbury insists upon the recognition by the other powers interested in China of the boundaries of Great Britain's sphere of influence. In the same instrument whereby Great Britain recognizes Russia's position in Manchuria, Russia is required to acknowledge the paramountcy of England in the Yangtze Valley and guarantee that our territorial requirements shall be permanently respected."

"Great Britain is willing to drop her protest in respect to the Niu-chwang railway, but Russia is required to cancel her agreement with China that the country having the largest financial interest should arbitrate in disputes connected with the Peking-Hankow Railway."

"The negotiations are confined to Peking."

It Looks Like It, as Negotiations for a Seventeen-Knot Service Are Going Ahead on the Basis of \$250,000 Per Annum—Montreal News.

Montreal, Aug. 26.—(Special.)—The news of the Dominion Government's dickerings with the Allan or Dominion Lines, or both, for a 17-knot service between Canada and Britain, as exclusively published in the Yangtze Valley and guarantee that our territorial requirements shall be permanently respected.

"Great Britain is willing to drop her protest in respect to the Niu-chwang railway, but Russia is required to cancel her agreement with China that the country having the largest financial interest should arbitrate in disputes connected with the Peking-Hankow Railway."

Mr. Parsons, Inventor of the Turbina, Expects to Cross the Atlantic in Three Days—An Invention Which is Expected to Revolutionize Ocean Boat Building.

The Turbina, whose inventor, Mr. Parsons, expects to be able to cross the Atlantic in three days, is now the fastest vessel of any description afloat. With ordinary draught, she can run away from the fastest torpedo boats, making 24 knots an hour. Under forced draught the Turbina can make 35 knots an hour. Her coal will last for three hours only, but in that time she can steam more than 100 miles.

The Turbina is 100 feet long, with a beam of 9 feet, and carries a crew of 10. She has 2100 horse-power, can produce 30,000 pounds of steam an hour, and has a pressure of 225 pounds a square inch in her water tube boilers. Her three propeller shafts have each three screws, several feet apart. These screws revolve 2500 times a minute without causing perceptible vibration. The engines can be raised to full speed from a standstill in 20 seconds.

The Turbina's engines are of the simplest type, entirely at variance with any known marine machinery. The motor attached to the shaft consists of a multitude of fan blades, exactly similar in principle to the blade of an electric fan. Against these blades, enclosed in a steam chest, the steam is driven. The pressure makes the blades revolve, turning the shaft.

Mr. Parsons calculates that a 15,000-ton vessel, furnished with steam turbine motors, can cross the Atlantic in three days. The coal consumption would be 1500 tons daily, but the extra coal bunker room required will be offset by the smaller space devoted to the machinery. Such a vessel could carry as many passengers and as much cargo as a vessel of the same tonnage propelled by the ordinary machinery. Mr. Parsons speaks of 12-minute trips from the Battery to Staten Island in small turbine motor-boats as practicable.—New York Journal, Aug. 25.

ADAM JONES IS MISSING. Orangeville Man Mysteriously Disappeared a Week Ago—Was a Member of the C. O. F.

The members of Court Gardner, No. 159, O.O.F., Orangeville, are anxious regarding the disappearance of Mr. Adam Jones, one of their fellow members, who left his home at Orangeville on Saturday evening last. He had been acting strangely for some time and nothing has been heard of him since. Mr. Jones is described as a man 5 feet 8 inches in height, between 40 and 43 years of age, and with a week's growth of whiskers when he left home. He was a blacksmith by trade and wore a suit of dark clothes.

They'll Have Swags Too. Since the announcement that the prohibitionists were sorely in need of money, contributions have poured into Secretary Spence's office. Before polling day, the officials believe that Ontario will have raised \$50,000 in aid of the temperance cause. Rev. W. H. Harvey, in organizing Northern Ontario in the temperance cause, has covered 416 miles. So well have Toronto people contributed towards the campaign fund, that the Alliance Executive has decided to present the local union with the half million pamphlets, being distributed here.

On Wednesday evening last Cornwall Temperance workers held a rousing meeting at that town. Winnipeg has raised a piecemeal campaign fund, to which \$2000 has already been subscribed.

NINE-HOUR WORK DAY. The United Typothetae of America Decides Against It for the Present.

Milwaukee, Wis., Aug. 26.—After struggling through three long executive sessions, during which the nine-hour day was the subject of warm debate, the United Typothetae of America disposed of the question for the present at least, by the passage of the following resolution:

Whereas the question of establishing a nine-hour workday in the printing business was brought to the attention of the convention by commissioners appointed by the International Printing Pressmen's and Assistants' Union, and the International Typographical Union, and whereas this convention has given the question careful and deliberate deliberation in all its hearings, therefore, be it

Resolved, That a committee of five be appointed by the convention, to whom shall be referred the question what measure, if any, can be adopted by the employing printers which will make a shorter workday practicable without endangering undue loss upon the employer, and that this committee be authorized to confer with the representatives of the International Printing Pressmen's and Assistants' Union and International Typographical Union and such other similar organizations as it may deem proper.

The Temple Building, the most beautiful of its kind in Toronto, was once more the scene of a vast gathering yesterday, when the Supreme Court of the Independent Order of Foresters again convened.

Dr. J. D. Clark of Ohio said it was a simple business proposition. Women needed insurance as much as men, and the risk in their case was no greater. The proposition should be accepted.

Michigan For It. Mr. Stevenson of Michigan said that Michigan was unanimous in favor of the proposition.

London, England, said that the feeling in the Old Country was in favor of admitting women. He scouted the idea that woman was not as good a risk as the man.

A San Francisco delegate also opposed the proposition to admit women, and said that the women had not been in the courts for fourteen years, but for his own part his heart was with the movement, and he would vote against his own country.

Nebraska Favors the Ladies. The Nebraska delegate said that the state he represented was a hot-bed of fraternal societies, and was emphatically in favor of the admission of women.

Lower Utah England. James Marshall, London, England, made a comparison of rates of the I. O. F. and the old line companies in England, which were similar to those of America.

After remarks by one or two others the first session of the report was adopted by a vote of 225 to 10. The whole report was adopted by the same vote.

In the afternoon. At 2:30 o'clock the delegates convened and the proposition was discussed.

After a little further discussion, the motion of Mr. Stevenson was put and carried by a vote of 125 to 16. This makes the amendment a part of the constitution of the order.

Invitation From Afar. G. A. McNeill read a telegram from A. Silver, acting Mayor of Los Angeles, Cal., inviting the next Supreme Court to meet in that city, and to hold the City Council to make it a memorable occasion.

Presenting Greetings From England. Mr. Chiswell of Central England, who was greeted with applause, made a happy and interesting report on the part of the Executive Committee of Central England.

Under the scheme proposed the cost to old members would not be increased and there would be no increase in the rates.

Why Raise Rates? B. J. Solomon, seconded by Mr. Ward, moved that the table of rates given in the Supreme Court report be adopted.

The chief observed that this proposed legislation would decrease the cost of insurance to old members.

Mr. H. Backus supported the resolution. Hon. Mr. Allen believed this to be the most important question that would come before the order.

Mr. Patterson of New York said that for 50 years the Mutual Life Assurance Company had charged \$5 per thousand additional for female risks, but had lately reduced the charges for females to the same figure as those for males.

World Strengthen the Order. H. C. G. Reed of Frederick, N. E., said the proposed action would add strength to the order. The risk on the life of the average woman is a safer one than that on the life of the average man.

Better Risks Than Men. John A. MacGillivray said the proposition of today is not that of 20 years ago, or of three years ago.

Safe Security. The proposition was proposed to admit women as members of the existing courts, but the present proposition provides that men and women are to have separate courts.

They began too low and afterwards had to increase their rates, were referred to, and the speaker said, the same would be the experience of the Foresters, unless they were to adopt the rates proposed.

Difficulties in the Way. J. Duclos of Quebec said there were two difficulties to meet. He believed there would be great decrease of membership and there would be a prejudice aroused if rates were increased.

Jim Clancy, M.P., a Bro. J. Clancy, M.P., said that in the phenomenal growth of forestry they were discounting the future.

Where It First Started.

About two years ago the pioneer organization was founded in Ohio, Michigan and Illinois, and was at that time designated the Sisterhood of the I. O. F.

Just as the chairman took his seat, Dr. Oronhyateka, Supreme Companion, entered the council room and was received with much applause.

Its Rapid Growth. In one year and a half of its existence it had enrolled a membership of 6170, with 132 existing courts, extending from Maine to California.

ROSSLAND'S MAYOR IS HERE

Chief Magistrate of the Golden City in Town.

His Worship Talks of the Trail Creek Capital and Prophesies 50,000 People for It—About the Monte Cristo—Mining Stock Quotations.

Mr. H. S. Wallace, Mayor of Rossland, is visiting the city on his way home from a trip to Nova Scotia, his native land. But though born and bred a Bluebonnet, Mr. Wallace never "ears the East a cent." He is too much enamored of the country of his adoption.

Mr. Wallace is one of the pioneers of Rossland. He was the first to settle in the town, and he was the first to be elected mayor. He has spent most of his life in the town, and he has seen it grow from a small settlement to a city of 50,000 people.

Naturally he speaks very enthusiastically of the town, and he prophesies that it will have a population of 50,000 people in the near future. He also talks of the Monte Cristo, which he believes will be a great success.

Mr. Wallace also talks of the mining industry in the town, and he says that it is one of the most important industries in the town. He says that the town is one of the most important mining centers in the world.

Mr. Wallace also talks of the future of the town, and he says that he believes it will be one of the most important cities in the world in the future. He says that the town has a great future, and he is confident that it will continue to grow and prosper.

Mr. Wallace also talks of the importance of the town to the province, and he says that it is one of the most important cities in the province. He says that the town has a great future, and he is confident that it will continue to grow and prosper.

DOWN AT THE DEPOT.

Shipping Notes—Appointments Made—Newfoundland Rates Same as Toronto Rates.

Mr. Arthur White, divisional freight agent of the G.T.R., received a copy of a circular of freight rates, issued by the Newfoundland Railway, showing the rates between that island and Canada and the United States. The rates are the same as in vogue in this country.

Twenty-two thousand dollars worth of bacon was shipped over the Grand Trunk yesterday to Montreal for exportation, and also \$2000 of agricultural implements for Australia.

Vice-President Price of the Grand Trunk and General Superintendent McGuinn arrived in the city yesterday from Detroit. A special G.T.R. train will convey the local hockey players to Buffalo on Saturday, Sept. 5.

The Iron City Fishing Club, to the number of 100, passed through the city yesterday on a Toronto excursion. They are on their way home to Pittsburgh from Georgian Bay, where they have been camping all summer.

Mr. A. J. Shulman has been appointed passenger and freight agent of the G.T.R. in Buffalo. The vacancy was caused by the resignation of Mr. D. B. Wortman. The G.T.R. has appointed Mr. J. S. Cameron to the position of station agent at Buffalo.

It is expected that work on the new G.T.R. station at Galt will commence in the early fall. The plans and specifications are now being prepared.

The G.T.R. earnings for week ending Aug. 21 were \$427,794, against \$457,093 last week. The decrease is due to a decrease in freight earnings of \$24,000, against \$203,000 for the same period last year, a decrease of \$14,000.

The new C.P.R. short line from Ottawa to Montreal will be opened Sept. 5, and two trains will run daily. They will be inspected by a party of railway officials yesterday.

Superintendent Leonard of the C.P.R. is on a visit to the scene of the recent wash-out down east.

Mr. Sidney C. P. Cory of London, Ont., European traveling passenger agent for the C.P.R., arrived in the city yesterday on his way to the Pacific Coast.

The Grand Trunk has issued pamphlets explaining their service for the exhibition traffic.

The I. O. F. at the Exhibition. Both the unincorporated group drill company, promoted by the Industrial Exhibition Association, and the open band company, to be given under the control of the Independent Order of Foresters, promise to attract big crowds, according to Mr. C. A. Temple.

Notes From Kingston. Kingston, Ont., Aug. 26.—Ex-Convict Macey died at the General Hospital last night from a complication of diseases. He had served fourteen years, and was pardoned a month ago on account of declining health. He comes from the Emma.

Assistant Blacksmith Nell McNeill and Sister Healy have been dismissed from the Penitentiary staff. Another week ten days will end the summer season at the Islands. Already traffic is falling off. The season is generally reported as having been a prosperous one.

Pioneer of Essex Dead. Windsor, Ont., Aug. 26.—George Jessop, a pioneer of Sandwich and one of the best known men in the northern part of the county, is dead. He had been in poor health for some time. A cross-cut tunnel has been driven 185 feet, and is being continued to intersect a vein that will probably be about 80 feet further. In this claim is quartz carrying galena and iron sulphides, the principal values being in gold.

Before You Bathe. Before you take your bath in the morning, take a teaspoonful of Abbey's Effervescent Salt in a tumbler of water, and you will enjoy constant good health. Abbey's Effervescent Salt is also unequalled as a cooling beverage if taken during the heat of the day.

PUBLIC AMUSEMENTS.

The selection of "Jane" to open the Cummings Stock Company's season of comedy at the Princess Theatre is perhaps as good a production to introduce the company to Toronto theatre-goers as could be made. There is no doubt that "Jane" has been since it was first produced in London, Eng., one of the most successful farce-comedies, and its great success has naturally led to many imitations.

At the Grand. The engagement of Ward and Vokes and their big troupe, presenting "The Government House for two weeks, commencing next Monday evening, with the usual Wednesday and Sunday matinees, promises a general treat to persons of that kind of entertainment called farce comedy. Ward and Vokes are unique in the way of the off-the-peg variety, possessing originality and unique distinctiveness, which clearly outlines their work over all artists in the world of musical farce; they have met with unusual success. Adopting a policy at the start of their career as stars that no artists in their employ should be less than the best, they have had the very first been surrounded with capable people, who have been given the opportunity to show their own talents.

Shares are a great buy today in comparison with Monte Cristo at 20 cents and Virginia at \$1.00, which latter are both good investments at the price. Only about 3,500,000 shares of C. G. F. Syndicate shares have been sold at 10 cents, which gives the value of the mine at \$350,000. Monte Cristo at \$675,000. Virginia at \$600,000. Take equal cash investment, the Canadian G. F. Syndicate shares have only 10 cents value and will sell very soon at from 15 to 20 cents easily, as Sunset No. 2, which produces from 50 to 75 tons per day of valuable ore, and value of Sunset No. 2, 100,000, and Gold Hunter, with their Slocan silver properties, will reach the round million dollars in a very short time. The following will confirm:

John A. Moody, Esq., Rossland, Aug. 16th, 1928. Dear Sir:—We have been drifting west from the shaft on the 350-foot level, and this morning reached the ore-chute which we had previously encountered on the 300-foot level. Finding this ore-chute on both the 300 and 350-foot level proves the shaft set No. 2 to be a mine, beyond any question. I am almost ready to commence daily shipments.

Yours very truly, J. C. DREWRY, Managing Director. N.B.—Published for the benefit of my clients. JOHN A. MOODY, Mining and Investment Broker, London, Ont.

An Ohio Clergyman. Rev. Mr. Clark of Ohio said he was greatly moved by the recollection of the wonderful but silent evolution which was going on so swiftly of late, and consumed that day, he was but three years since that he had heard for the first time of Lady Foresters.

Pardon Those Who Kicked. Mr. Duckworth of California said a few pleasant words. He moved that the ladies be asked to pardon those members who voted against their admission.

On Monday night Burns Camp No. 1, S.O.S., will meet in Temperance Hall and will entertain the Scotch delegates of the I.O.P.F.

Matthews Landed It Out. New York, Aug. 26.—Mysterious Billy Matthews landed his 25th round victory over the Englishman, and out-fought and out-generated his opponent.

The Canadians Ahead. They scored 125 in their first inning against 97—Loring and McGovern did good bowling.

Bicycle Briefs. The members of the Ramblers Bicycle Club and their friends who intend going to the Dunlop race on Saturday afternoon will meet at the clubhouse at 2 p.m. to-day.

Lacrosse Points. There is a great deal of excitement over the lacrosse match to be played on Rosedale on Saturday afternoon next.

Sporting Miscellany. Oakville's crack cutter, Aggie, owned by Messrs. Marriott and Armstrong, paid a drying visit to Toronto harbor yesterday.

Cricket Slips. Toronto-Rosedale places the following average against Toronto this afternoon: Rosedale, B. W. Bennett, R. Montgomery, P. Henderson, G. A. Larkin, B. Saunders, C. Goldingham, S. The objections which some people raise to the prepared teas sold in packages under various names never apply to Monsoon Tea, because Monsoon is a natural tea—not only that, but a high bred, fully ripened, perfect tea—brought direct from the gardens to the home, and retaining all the pristine virtues which mature in a fine tea. Hence its flavor, body and refreshing zest.

GREAT TREATIES OF MODERN TIMES.

IMPORTANT INTERNATIONAL AGREEMENTS OF THE LAST THREE HUNDRED YEARS.

Treaties have had much to do in making important epochs in the history of religions and nations, and in developing international law. Some of the principal treaties made during the past 300 years were the following:

Peace of Vienna, 1864, transferred the right of the King of Denmark to Lauenburg, Schleswig and Holstein to Prussia and Austria.

Peace of Frankfurt, 1871, ended the Franco-Prussian war. Prussia received five million francs and Alsace and part of Lorraine.

Washington, 1871, referred "Alabama claims" to a tribunal of arbitration, and other claims to three commissioners.

Peace of Berlin, 1878, ended the Russo-Turkish war. It transferred Bosnia and Herzegovina to Austria-Hungary.

Peace of London, 1864, ended the war between France and Spain, and provided for the marriage of Maria Theresa to Louis XIV.

Peace of Utrecht, 1713, ended the war between France and England, and transferred the Spanish Netherlands to Austria.

Peace of Westphalia, 1648, ended the Thirty Years' War, and established the principle of national sovereignty.

Peace of Paris, 1763, ended the Seven Years' War, and transferred Canada to Great Britain.

Peace of Amiens, 1802, ended the Napoleonic Wars, and restored France to its former boundaries.

Peace of Vienna, 1815, ended the Napoleonic Wars, and established the Congress of Vienna.

Peace of Paris, 1856, ended the Crimean War, and established the Congress of Paris.

Peace of London, 1864, ended the war between France and Spain, and provided for the marriage of Maria Theresa to Louis XIV.

Peace of Frankfurt, 1871, ended the Franco-Prussian war. Prussia received five million francs and Alsace and part of Lorraine.

PACIFIC STOCKS MOVING UP

On Report of a Settlement of Rate War.

C. F. R. and Northern Pacifics Generally Bull—New York Stocks Irregular, But Most of the List Closed Strong With Advances—Notes.

Friday Evening, Aug. 26. Canadian securities were dull again to-day. C.F.R. being about the only feature. That stock was strong on further reports of a settlement of the rate war, advancing nearly a point in Toronto and closing at 86 1/2 bid and 86 3/4 asked.

The trend of Wall-street stocks was upward to-day and at the close Sugar showed a net profit of 12 1/2 cents. N.Y. Gas 4 1/2, P.O. 2, Manhattan 2 N.P. 1 1/4, U.P. common 8 1/2, U.P. preferred 1 1/4, U.P. preferred 1 1/4, U.P. preferred 1 1/4.

The net gold balance in the United States Treasury at Washington this morning was \$308,000,000; increasing \$1,831,000. B.B.T. insiders insist the company will earn 2 1/2 this year and stock will sell higher.

The Rate War. The strength of Canadian Pacific in Toronto, Montreal and London, and of Northern Pacifics on Wall-street to-day was largely due to a report that the railway rate war has been practically settled.

Money Market. On the local market loan rates are at 4 to 4 1/2 per cent. In New York call loans are at 1 1/2 to 2 1/2 per cent. The Bank of England discount rate is 2 1/2 per cent. and the open market rate 1 1/2 per cent.

TORONTO STOCKS

Table with columns: Stock Name, Bid, Ask, Bid, Ask. Includes Toronto Electric, Bell Telephone, Dominion Telegraph, etc.

The following new books have been received at the Public Library: Groves, The Play of Animals; Matthews, Familiar Life in Field and Forest; Rowley, The Art of Exaggeration; Burton, The Jew, the Gypsy and the Arab; Lucas, Historical Geography of the British Colonies, Vol. III; Radcliffe, Wealth and Wild Cats; Sykes, Through Persia on a Side-Saddle; Van Sommer, Canada and the Empire; Thomas, North American Archaeology; Hart, American History Told by Contemporaries, Vol. II, Building of the Republic, 1688-1783; Harris, Canada; Moncrie, by Joseph Nelson; Johnson, The King's Henchman; Bangs, Ghosts I Have Met; Deterick, Entombed in Flesh; Buchanan, The Rev. Annabel Lee; Alden, Van Wagoner's Wives; Chetwood, John of Strathbourne; Young, Founded on Paper; Gilman, Horses; Feltham, Russell, Collections and Recollections.

Better Than Ever. Without doubt the finest and most completely fitted Turkish baths in Canada can now be found at 204 King-street west. Mr. Cook's ambition to surpass any one on the continent will no doubt be appreciated by the Toronto and out-of-town patrons, who frequent this popular establishment.

A Good Man Gone. In another column is noticed the demise of Mr. Robert Robertson, who some years back was well known among the lake sailing community, but who has for many years been associated with his brother in the carpentry business.

A Piece of a Bridge. The latest article of interest presented to the Canadian Institute Museum is a piece of scantling about four feet long, in which are two bolts. The whole relic is in good condition and the metal shows to be a section of the handrail protecting the old Queenston bridge, which was constructed in 1852, westward to the present site of the bridge, and entirely removed on July 7 last.

That Hackman Paid for Mennings. Victoria, B.C., Aug. 25.—(C.P.R. Press Dispatch).—An interesting case for bicyclists was ventilated in the Police Court yesterday morning. W. G. Bowman, a city hackman, crowded A. J. Deltan, wheelman, into a ditch. The C.W.A. prosecuted Bowman, who pleaded guilty, and was fined the extreme limit, \$50 and \$2 costs.

An Arthur-Street Wedding. The wedding of Miss Olie Neela String, youngest daughter of Mrs. H. S. Lyall, and Mr. H. H. Davidson, a well known contractor, was solemnized Wednesday evening at 8 on Arthur-street. Rev. W. Routledge officiated. The future home of the happy young people will be at 422 Manning-avenue.

Birds first! And always first. Profit a close second. That's the motto upon which our immense business has been built. From the Atlantic to the Pacific Cottams Seed has the confidence of bird keepers. None other just as good.

RUPTURE. Two more extraordinarily bad cases, one after valvular trusses on the side, went home to London, but the truss makers were failed also. After returning home he was advised by a friend to get a gentleman to come to us, a distance of over 1200 miles, and we succeeded with both parties. If those who are troubled with rupture will send us a suitable trust in the commencement they would save themselves much suffering, and our motto is "get cured."

When you ask for Adams' Tutti Frutti Gum see that you get it. Some dealers palm off imitations to obtain an exorbitant profit. Tutti Frutti is made from pure Chicle Gum, and there is no other chewing gum "just as good" or half so good. ALL OTHERS ARE IMITATIONS. FREE. A variety of very handsome souvenirs and prizes are sent free for the return of sets of coupons from the 5c packages of Adams' Tutti Frutti Gum. Sold by druggists, confectioners and grocers, or send 5c for sample package and list of prizes to Adams & Sons Co., 11 & 13 Jarvis Street, Toronto, Ont.
