ONTARIO FARMERS WANT

TEN THOUSAND HELPERS Scarcity of Labor Discussed by Representative Councillors and

Farmers of York County.

MMIGRATION

Enquiry Circular Sent to Farmers of Ontario_Help Expected From

of York and adjoining counties has given rise to a feeling of apprehension the crops will suffer considerably if some steps are not taken to provide sufficient help in the harvesting season. Not only are harvesting hands likely to be scarce, but there seems to be a general want of good intelligent labor

the year round. With a view of getting some reliable and definite information on the matter. The World called on the members of the York County Council, who are in session, and whose headquarters are at the Clyde Hotel.

The jurors and councillors, who are mostly farmers, and well informed as to the present needs of the county, gave every facility for the collection of the necessary facts, and called an informal meeting at the hotel to discuss the situation.

Causes of the Dearth. The causes of the dearth of farm help are twofold: first, the Northwest offers such inducements that intelli-gent farm hands who have no ties to bind them to the county or the prov-ince are going there every fall, and the number is ever on the increase. Then, again, many find their way to other points where better wages are paid, not it may be, for farm labor, but for work which a farm laborer can

As an illustration of the scarcity of labor in general, and in substantiation of the statement of one of the jurors that it was neither local nor momentary, John Saunders of Stouffville, juror, said that last spring he bought over 650 tons of coal, and at the end of April 18 cars came into Stouffville in fulfilment of the contract. This coal was taken from one place to another to be unloaded, and before it was fin-ally set down it had cost Mr. Saunders more than double the price named in the contract. This was because labor

Demanded Prompt Action W. H. Johnston, who had 25 men constantly employed, said that the situation was one that demanded prompt action. The past three years had been come of this labor shortage. Mr. Johnston thought, the, that care should be exercised in giving any figures to the press, as it is undesirable that any efort should be made to relieve the sit! uation by a promiscuous importation of foreign or other laborers in large numbers. Such a course would only bring down the wages because

OBJECTS TO THE GIFT.

Editor World: The usual demagog or People's Jimmie, not being forthcoming to represent Toronto, and Mr. Carnegie's patience being exhausted, he has set upon the sum of \$350,000 as being a priet to buy the self-respect of the citizens of Toronto. It is not surprising that certain men that tumble over each other in the scramble for a \$300 position as adderman will be the first to loudly procialm that the city should accept this offer of Carnegie's. This is also true of certain paid officials at the City Hall. Mr. Carnegie, in every city and town, is sure to have this class of men at his back. "Slouch hat Bobs," "hand-shakers," "time-servers" and the like are allways on hand to accept free gifts, and it is to be hoped that in advance of the Council's likelihood to accept Carnegie's offer a movement should be started at once by holding public meetings to protest against it. These men have no right to speak for whoat I believe the great majority of people in Toronto positively object to. The only fair way to decide this question is to allw the public at large to vote individually upon the acceptance or rejection of this offer.

John H. Boulter.

the contains man, that inshible over contended many was allowed to be al

Mrs. Langtry was discussing the other day the recent marriage of the octogenarian Marquis of Donegal with a young Canadian girl. She said it reminded her of an incident in the life of her father. Her father was a clergyman, and

there came to him to be married one day a man of 70 and a girl of 18.ff The minister whispered when this ill-assorted couple came and stood before

him:
"The font is at the other end of the What do you want, with the font? We are here to be married," said the

"Oh, I beg your pardon." the clergy-man rejoined; "Ithought you had brought this young girl here to be christened."

Slippery Track at Tillsonburg Made It Unmanageable and the Driver Jumped Off.

CARS DERAILED AND SMASHED

Three Men More or Less Injured-Locomotive Finally Taken in

Tillsonburg, Jan. 28 .- This morning, as a T.L.E. and P. Railway engine, with two was backing down the illson siding to the mills, the engine became unmanageable and started down the grade. Engineer Richards reversed, but the rails were support, and, when he saw the engine could not be controlled, he jumped.

The train backed down to the mills at a good rate of speed, and ran into some cars being loaded with flour. Mr. Metalle, who was packing the barrels in the car, was seriously injured, and two other men, Markle and Raison, were also hurt.

The runaway train then went on to the oatmeal mill, brashing into a couple more cars standing there, knocking them off the track and smashing in the ends.

The jar caused by the fast collision gave the engine a start forward. The reverse acted this time. One of the crew met the train slowly ascending the grade. He jumped on and got the engine under control before further damage was done.

A FULL PAGE STORY OF THIS GREAT CAPTAIN'S Capture of the saw the engine start CAPTAIN'S Capture of the pumped.

BY A SPLENDID HALF TONE LIKENESS, IN NEXT START OF THIS GREAT CAPTAIN'S Capture of the sumped on the parter of the control of the car, was seriously injured, and two other men, Markle and Raison, were also hurt.

The runaway train then went on to the oatmeal mill, brashing into a couple more cars standing there, knocking them off the track and smashing in the ends.

The jar caused by the fast collision gave the engine a start forward. The reverse acted this time. One of the crew met the train slowly ascending the grade. He jumped on and got the engine under control before further damage was done.

London, Jan. 21.—On the platform at a small railway station on the borders of the Russian empire there might have been seen standing, some time the control of the control of the runaway train them went on to the car, was seriously in the ear, was s Richards reversed, but the rolls were slip

Small Men'h Marital Woes.

Perhaps one of the most curious collections of mural inscriptions in Ireland, where they abound, is to be found in the anicent city of Galway.

It has four gates (we are informed in a newly published work, "House Matters and Incriptions"), failers and Matters and Incriptions". in a newly published work, "House Mottoes and Incrriptions"), facing respectively north, south, east and west, and on each was a precatory motto. That facing north bore the words: From the ferocious O'Flahertys,

Good Lord deliver us! On the south gate: From the devilish O'Dalys, Good Lord, defend us!

Good Lord, save and kep us!

From the cut-throat O'Kellys, On the west gate:

From the murderous O'Maddens, Good Lord, preserve us!

have been seen standing, some time ago, a square deal box awaiting de-

Drysdale's management, one known as the Home Farm, and the other as He knows most all there is to know,

neny is renowned.

Of these cattle some are fattened and sent up to the Smithfield show, others are sold locally, and a great many are destined to go to centres.

They make such awrul noise.

But when I asked at dinner for Another piece of pie, I thought I saw a twinkle in The corner of his eye. and sent up to the Smithfield show, others are sold locally, and a great many are destined great cattle-rearing centres world, such as the Argentine Republic, from where agents often come to buy some of the famed Dalmeny animals. One of the best known meny animals. One of the best known animals, and a great favorite of Dal-You should have seen us romp and

much calm dignity.

Another animal with quite a family name is White Primrose, a beautiful cow, with large, soft eyes, and a disposition as gentle as hen appearance suggests. At the Home Farm 300 head of cattle can be fed under roof. The of cattle can be fed under root. The cattle-house is a huge building, well designed, well ventilated and well lighted, and is always kept scrupulously clean; indeed, it would be impossible to be deciphered. It took the professor a week to find out that the papyrus was in a double layer, with the mysterious marks in of cattle can be fed under roof. The taken out for a premium of 5s, but they were in no cases "total loss" policies.

The possible to imagine a more luxurious home for the animals that dwell in it, who are known, technically the layer, who are known, technically the layer than the lay who are known, technically, by the way, as "beeves." These are the animals who are being fattened up for the mals who are being fattened up for the mals who are being fattened up for the mals who are being fattened up for the miling which the professor practically no seed the writing which mals who are being fattened up for the Smithville show or other purposes. Beyond the Home Farm building the well-known Dalmeny breed of Border Leicester sheep may be seen grazing Perhaps the simplest way to convey an idea of the value of the stock is to quote the price which a consignment of some of the rams fetched at Kelso a few years ago, when there was a general fall everywhere in the price of that particular class of farm stock.

The Dalmeny rams were sold for £9

that particular class of farm stock.
The Dalmeny rams were sold for f9 apiece, whilst the average price for the same breed of sheep at that time was about f5. Buyers are, however, was about 15. Buyers are, however, always wanting Dalmeny stock.

The Craigle Mains Farm is devoted to the rearing of those enormous white pigs, some of which could be seem at Smithfield last year, and also to the rearing of poultry. Like the cattle, the pigs are in great request by foreign

pay large sums to secure a Dalmeny One of the most interesting features of the farming at Dalmeny is the ex-perimental farm, which has been the means of introducing so many useful changes into modern agricutural methods. When Mr. Drysdale was apwrong eating if one will give it a little thought. Scientific food is just as pleasant to the palate, and, in the case of the possessed the great advantage of heing wholly unfettered by belief. Grape-Nuts, is more delicious than improper food, and it makes a world of difference in health and spirits.

"Some three months ago," writes Mr.

"And exploited the most world in the traditional methods of farming. He bad been a pupil of that famous agricultural scientist Mr. Hunter, who had a right to speak like an oracle.

Mr. Drysdale may or may not have theories to a practical test. The result the courtroom to try a case, was obliged to resort to stimulants. I urged him to try Grape-Nuts, which he did. with almost marvellous results; he not only gained flesh, but the nervousness farming. old-fashioned notions about

Barrie, Jan. 28.—Owing to the ice being covered with water at the finish of the afternoon games in Ontario Tankard Group 4, the umpire declared play off until this morning at 9.30. Alliston defaulted to Gravenbarst, and, the play being declared off till morning, Gravenburst and Bobcay-geon Clubs left for home without having played a game. This left Barrie to play the winners. Skip Grassett's rink was badly handicapped by the absence of Vice-Skip Stevenson, who, having played one game, left for Toronto on business. The umpire ruled that the only way in which the game could be proceeded with was to play three players on sthat rink, the Barrie rinks accepting the rulling. The results were:

have good men and keep the wages high enough to prevent discontent and internecine strife.

Still, he thought that in Markham and Whitchurch Townships alone, be to 100 men could be placed inside of 48 hours.

High Figures Promised. Ted Mason, farmer, of Wexford, said he had offered \$225 a year and board, and could not get help at that nor any other price.

System of off-times social equality between man and master in Canadian farming, and there is a very deep rooted idea among Englishmen, that is not altogether devoid of reason, that man altogether devoid of reason, the man altogether devoid of reason, that 1000 men could be placed within the social status of the one may be least 50 could be placed in his town ship alone.

L. L. Hartman of Whitchurch said the scarcity of good help was painfully evident in his township, both as to good farm assistance and domestic female labor. The township could readily assimilate 100 men. Georgina Township needed at least 25; and A. McCallum of King Township said 100 men would be none too many there.

There is plenty of the right kind of the scarcity of the scar L. L. Hartman of Whitchurch said

There is plenty of the right kind of material in Great Britain, and it only Acute in Markham. Alex. Pingle thought that the situated requires reaching in an intelligent, tion in Markham was the most acute, business-like way; but, if the County and if 100 laborers of the right sort of York and adjoining counties are to could be found they would not need to be saved from a further dearth of la-

be that a man engaged by the year ought to get \$180 in money with board and washing, and if he were a married man he should get the same money, with a cow for his own use, a house, say half an acre of ground and fuel.

John A. McKay of Halton said 500 discussion of the same. men could find employment during the summer there, and at least 100 all the Arthur J. Hodgson Elected Pres

York Needs 1000 Men. Approximately, there would seem to e a demand for 1000 farm hands in York County alone, and many of the farmers are not hopeful of securing help unless something be done speed-

elected were: First vice-president, George E. Drummond (acclamation); second vice president, W. I. Guar (acclamation); treamigrant help to the Bureau of Colo-nization presided over by Thomas president, W. I. Gar (acclamation), frea-surer, James Davidson (acclamation). Coun-cil, Messrs. Herbert B. Ames, R. M. Bal-lantyne, James Carruthers, Geo. B. Fraser, E. F. Hebren, Robert Ironside, D. I. Lock-erby, Charles Meredith, James Thom, Hugh Watson, H. W. Watson, John T. Wilson, Board of Arbitration: Messrs. Robert Arch-er; R. Lickerdike, M.P., James Crathern, Southworth director of colonization. Mr. Southworth was interviewed on the matter, and stated there was undoubtedly a great shortage in labor thruout the province, and said that 10,000 men could be placed immediateer; R. Lickerdike, Mr. Greenshields, J. F. W. Evans, E. B. Greenshields, J. Holden, John MacFarlane, Robert MacKay ly in the older portions of Ontario, many of them in the county of York. He was receiving 25 to 75 letters a day from farmers in all parts of Old Ontario, ask-Knights of Labor Recommends Re-

ing the bureau to supply them with help, if possible, from Great Britain. Such communications, in fact, have led to the organization of the Bureau, and, in order to systematize and simplify the matter ,a circular has been prepared and sent to the farmers from the Single Tax Association, the asut the Province, accompanied by a blank for return.

Wants of the Farmers. The text of the circular is given in

for your convenience in advising this Bureau of your wants in the way of farm labor: are arranging with the minion Immigration officials in Great Britain, to send to Ontario as many farm laborers as can be secured, and it is necessary that we should furnish, as early in the year as possible, information as to the number for whom we can find situations immediately on their

thru a system of faisined orders. The aircest was made on a warrant from Guelph, from which place he was traced thru several Ontario towns. Walker had been at the Humber for only a few days. He is a horse trader, and Campbell & Reid, stock raisers, of St. Louis, are the complainants. He will be taken to Guelph this morning, where extradition proceedings will be commenced. this reason, in case you desire help of any kind the coming season, kindly fill in the blank form according to your requirements, and forward to this office, at as early a date as possible, using the envelope supplied for the purpose. It may be well to mention the

borers, who have families, would be glad to come to Ontario if the farmers who need help had accommodation for their wives and children, or their wives only. We are specially desirous of in-formation as to the extent of ac-

commodation for this class, and of the openings for young men, having work as farm students, giving their services for their board, washing and moderate wages. These young men, while working faithfully and well, would expect to be thoroly trained in the various branches of Ontario farm work. Respectfully yours, Thomas Southworth,

Director of Colonization. Useful Bureau

This part of the Bureau's work is

ell conceived and carried out, and, if

this were all the Bureau did, or proposed to do, it would have well demonstrated its right to exist. the other end of the problem demands some attention. Farmers Family remedies which have themselves would willingly com some sort of scheme to see to the immigrants after they reach Toronto; in fact, not a few of York County farmers have got help in this way by waiting upon the immigrants themselves, Mr. Southworth is confident that the efforts now being put forth by the Dominion government in England, under the personal direction of Mr. Preston,

Certainly the strenuous efforts now being put forth by the Dominion Immigration Department should count for something; those fifty Western farmers who are to sow the good seed a manning the people of the Old Land should be instrumental in correcting, to some extent, the erroneous ideas of Canada as has that of Dr. A. W. Chase; superior skill in treation of canada that have too long gone uncontradicted. The permanent office in Liverpool of both the Ontario Immigration Department and the Dominion Agency should likewise succeed in letting people know there is such a Pro-

But it should not be forgotten that Dominion agents are interested mainly in the colonization of the North-west, and that very little reference is made to Ontario in their general propaganda. And it is certain that, when the flow of immigration sets in in the spring, the great volume of that im-Territories, leaving but a natural resiluum in the older Province of On-ario. Even those who come to the

AUDITORS' REPORT Collingwood, Jan. 24, 1903.

The President and Shareholders of The Northern Navigation Company of Ontario, Limited. Gentlemen.-We, your Auditors, beg leave to report as follows: We have examined the books and vouchers of your Company for the year ending Dec. 31, 1902, and find the attached statement a true and correct report

We have checked the cash account and find the balance, as per bank book, correct, together with the cash on hand. We found the books well kept, and the vouchers for both receipts Montreal, Jan. 28.-Arthur J.Hodgson

disbursements in good shape All of which is respectfully submitted. D. G. COOPER, A. D. KNIGHT, Auditors.

The paid up capital stock of the Company has been increased during the year from \$560,000 to \$840,000. This increase of capital was for the purpose of paying the minority stock, which had been purchased in the Northwest Transportation Company, Limited, the whole of whose assets now belong to the Northern Navigation Company, Limited, and for the payment of the new steel steamship Huronic, which was completed early last spring and placed in the Sarnia-Lake Superior Division of the Company's service.

The balance at credit of Profit and Loss Account brought forward from 1901 was \$12,356.11 To which have been added Net Profits on Company's business for year ending Dec. 31, 1902...... 88,519.92 And premium on 2800 shares, new stock...... 28,533.50

Making total of Out of which two half yearly dividends of 5 per cent. were paid, equal to 10 per cent. per annum on the paid up Capital Stock as on the 30th June and night and in response to a communication 31st December, 1902, respectively, amounting to \$69,773.84, \$40,000.00 transferred to Rest Account (which now amounts to \$90,000.00), and the balance

sembly decided to request the government \$15,725.69, brought forward to credit of Profit and Loss Account. The sum of \$24,849.64 was expended in permanent improvements, repairs and outfit during the past year, all of which was charged to the Current expenses of the year. The cold, wet weather, which prevailed up to the latter part of July last

sembly decided to request the government not to bonus any transcontinental railway, but to construct the youd themselves and retain sufficient land to cover expenses. A sum was voted to the same association to aid in carrying on Sunday meetings. The assembly passed a resolution recommending that Carnegie's offer be rejected, as the gift is regarded as blood money wrung from industry. It also endorsed Mr. Spence in advocating the procuring of power from Niagara, and suggested that it be controlled by the municipality. season, greatly lessened the earnings we would have had from passenger business had weather conditions been as in previous seasons. The want of elevator facilities also seriously affected the freight earnings, but not withstanding these unfavorable conditions the earnings have been satisfactory. You will be pleased to know that most favorable arrangements have been made for ample facilities for the company's business for the future,

encing with the opening of navigation, 1903. The introduction of the new steel steamship "Huronic" into the Sarnia-Lake Superior Division has very materially added to the efficiency of that division of the company's service and your Directors are pleased to report that the Huronic as to strength, seaworthiness, capacity, sneed and economy of fuel etc. exceeds the builders' guarantee and is therefore satisfactory. The furnishings of the steamer throughout are most complete and elegant, and the comfort and satisfaction of the passengers thoroughly provided for. Already this steamer is the favorite of the traveling public on the lakes.

The Company's ten steamers are well and carefully laid un for the winter as follows, viz. Seven at the port of Collingwood and three at the port of The relationship between the various connecting companies and this com- government would be secured. If it

pany is most cordial. third vice-president of the Canadian Northern Railway, is in the city and The prospect of a large freight business for the coming season is excellent, and if weather conditions are favorable there should also be a large nasto-day made an inspection of the dock and other terminal facilities of the senger business, as the whole country is prosperous and our various routes

and steamers most popular. The following are the names of the Directors elected for the current year:

John J. Long, President. Thomas Long, Secretary. C. E. Stephens, Treasurer.

As Partner With Grand Trunk 1 Would Rank Last on Company's Assets.

DEMAND NOT FROM THE PEOPLE.

Farmers' Sun on Railway Situation _Witness Would Grant Charter. Nothing More

of granting any form of government assistance to the Grand Trunk Pacific Railway is submitted in an article in The Weekly Sun. It has been announced from several

quarters, says the writer, that the aid required by the promoters of the Grand Trunk Pacific would not be in the form of a subsidy or a land grant, but would take the form of a government Bargains. 35,252 92 guarantee of bonds. The bonds issued by a railroad are invariably secured by \$980,987.61 a mortgage upon all its property; hence, if the government guaranteed the bonds, it would, in the event of having to make its guarantee good, be entitled to take over the line and equipment under the mortgage. A leading journal now proposes that the government become, not a guarantor of the company's bonds, but a holder of its stock. The difference between a bondholder and a stockholder is a striking one. The bondholder of the Grand Trunk Pacific would hold a first mortgage on the road; next in order would come the creditors, with all would come the stockholders, whose interest in the road would be subject to the claims of all its creditors. The ply to this-that the government, tead of ranking first on the assets of the company, should rank last. In fact, it would not be a creditor at all. Its prospect of getting anything back would depend upon the road becoming

a dividend-paying concern. A Dangerous Partnership. We do not doubt that the proposal that the government become a stockholder is made in good faith. It may be freely admitted that it is better to hold stock than to hold nothing. It is usually far better to have a claim against a farm, subject the it may be to a big mortgage and to the debts of ever. On the other hand, if the stock issue should be inflated and manipu lated by the promoters, as the stock issue of nearly every railroad is, the government might find itself in a comsition is nearly always the result when a government goes into partnership with a private concern. Should more money be required, the government would, doubtless, be asked to give its consent, and probably its guarantee to an additional bond issue. An issue of pre-ference stock would be next in order, and ultimately the government might find that its original investment had the virtual guarantor of an over-cap-italized and unprofitable concern.

Experience to Guide Us. This is not mere imagination. There is a marked difference between paying aving dividends on its stock issues The purchasers of the original stock of more than one transcontinental road lost their entire investment. When the old Province of Canada aided the Grand ast week, not stock, but a first lien the amount of its advance. where does the claim of the governas a stockholder, would take all the risks of the enterprise. If the concern should pay, on the basis of the capitalization effected by its promoters, the uld not pay, we should very likely be in a worse position than if we had made a cash donation at the start, and then stopped. No one can tell whether stock would be a good or a worthless security, until the cost of the road and the basis upon which it is to be financed is known.

No Clamor From the People Why should we use the public credit or risk the public money on behalf of any line? If the promoters wish to if they do not wish to build it, can we the undertaking, from a business stand-

Regulation of Rates. But, we are told, government aid will be made conditional upon government regulation of rates! Can it be that th government has so long refrained from exercising its right to control rates that ntirely disappeared, and that it was people think that the right no longer exists? Yet the fact is that the righ of parliament to fix and control railway rates is absolute. A railway is a subsidies at an end, in view of the powers and privileges, and it is the duty are properly exercised. are properly exercised. "As to railroads," says a high authority, "the state control is now practically unrestricted, and is ample for the protection of all rights of the citizen." We have at our doors a striking example of the exercise of this right. The Grand Trunk Railway received in Michigan no public aid of any kind. Yet, under the operation of a State law, it carries passonally as a strike of the concerning of a State law, it carries passonally as a says the young lady, with half-adozen beaux. It is obvious that these enterprises cannot all get the subsidies they want, and they can each be countred on the control of the public and of a state law, it carries passonally as a says the young lady, with half-adozen beaux. It is obvious that these enterprises cannot all get the subsidies they want, and they can each be countred on to oppose a preference to any other. Until they want, and they can each be countred on to oppose a preference to any other. Until they want, and they can each be countred on to oppose a preference to any other. Until they want, and they can each be countred on to oppose a preference to any other. Until they want, and they can each be countred on to oppose a preference to any other. Until they can each be countred on the properties are the subsidies they want, and they can each be countred on the properties of the country of the public and they can each be countred on the properties of the country of the public and they can each be countred on the properties of the country of the public and they can each be countred on the properties of the country of the public and they can each be countred on the public and they can each be countred on the public and they can each be a substitute of the public and they can each be countred on the properties of the country of the public and they can each be countred on the public and they can each be countred on the public and they can each be countred on the public and they can each be countred on the public and they can each be countred on the publi sengers at two cents per mile. Thru the world are competing for is not one regulation, we pay 50 per cent. more. sion of parliament, when these No More Grants to Railways.

The scheme may have been submitted, but the government knows that there time as the development of the country is to-day a strong feeling in the counjustifies the investment of capital in try against further public grants to railways, and it is waiting for public point. Whence comes the demand for opinion to declare itself. Let the peo-government assistance? LIABILITIES

The Directors considered it advisable to summon a meeting of shareholders in order that the business of the bank for the broken period from commencement on November 17th, 1902, until the end of the year should be reported. This course has admitted of the closing out of all organization and initial items, enabling the bank to start a clear year's business with full capital and reserve at the beginning of the calendar year.

As appears from the Statement which the General Manager has read, the Capital Stock was fully paid-up before the end of December last, the final call having been due on December 15th, and the Bank started the new year with \$1,000,000 of capital, and the full \$1,000,000 of Reserve, after having charged off all expenses, both legal and otherwise, in connection with organization, flotation of Capital Stock, management, etc., carrying forward a credit balance in Profit and Loss account of \$1,696.66.

The funds of the bank came in with considerable rapidity, as you know. The issue of \$1,000,000 capital at \$200 per share of \$100, payable in four monthly instalments of \$500,000 each, involved a total payment within a very short time of the large sum of \$2,000,000. Fortunately, the bank was able to employ a considerable proportion of this at remunerative rates in call loans against collateral of approved marketable Bonds and Stocks. Commercial accounts are being opened in good number, and these will soon employ an important percentage of the bank's resources. There is not a dollar of the present Assets of the bank about which the Directors have the slightest anxiety.

Offices of the bank have been established as follows:-7 and 9 King Street East, Toronto, Town of East Toronto, Dundas and Arthur Streets, Toronto,

Branches of the bank have also been arranged for and will be opened

shortly in the following locations :-Corner College and Bathurst Streets, Toronto, Corner McCaul and Queen Streets, Toronto, Petrolia.

Very shortly after the last meeting of shareholders, Mr. F. W. Baillie was appointed General Manager, and Mr. W. D. Ross took up his duties as Assistant General Manager at the first of the year. These gentlemen have been assiduous in their attention to the bank's affairs and are keenly interested in its development. Both have entered your service on a comparatively low basis of remuneration, having been quite prepared to risk their future in that respect upon the progress of the institution. The shareholders are, I think, to be congratulated upon the progress which has already been made. Mr. Baillie and Mr. Ross have succeeded in gathering around them the nucleus of what it is hoped will become a well organized, loyal staff. The Directors have much pleasure in testifying to the satisfactory discharge of their duties by the respective members of the staff, which now number twenty-four. None of them has been fearful as to whether the special requirements of organization have made too great demands upon his time. The Directors feel how important it is that there shall be a feeling of friendliness and respect throughout the whole staff, and are anxious that every member of it will feel that a proportion of the responsibility for the bank's future depends upon him and that he will receive his share of the

Practically each day has emphasized the importance of the field which is opening out for the bank, and the Directors feel that, under the able conduct of business by the General Manager and Assistant General Manager, both trained business men, the stockholders may feel satisfied that the bank will get its share of such prosperity as the country may

At the previous meeting, it was suggested that a by-law might be proposed at this meeting providing for the election of two additional Directors from outside cities. The Board are not yet prepared, however, to offer such a by-law. It is felt that this should be taken up very deliberately, and so much attention has been given to the opening of branches and securing of a competent staff that it will probably be necessary to call a special meeting of the shareholders to deal with this particular matter.

Plans are being perfected for a new building on the south east corner of King and Jordan Streets, Toronto, for the Head Office and main Toronto Branch of the Bank. These have not been finally approved, but, generally speaking, the policy of the Directors is to put up a building about five stories high, having a frontage on King Street of forty-seven feet three inches, and running back on Jordan Street about one hundred and eleven feet to the red brick building formerly owned by The Bristol & West of England Mortgage Company. It is proposed to make the new building fire-proof and provide such foundations and walls as will admit of the addition of, say, five more stories when the Directors feel that the volume of the Bank's business and the prospects of tevenue from the addition will warrant the expenditure. The plan of the ground floor will be prepared so that the main office of the Bank will fit in with an extension of the proposed new building to Melinda Street, whenever that shall become necessary. It may be added that the designs now being prepared include elevations both for a building complete in itself of about five stories, and for the same building if and when ex-

tended to a height of, say, ten stories. Anticipating any question which may be asked in that respect, I may add that the Directors will, early in the month of June next, take up consideration of the date of payment of the first dividend upon the shares of the Bank.

The following gentlemen were elected Directors for the ensuing A. E. AMES, - President. R. H. WARDEN, D.D., - Vice-President.

A special meeting of the committee will be held at the call of the chairman to further consider the matter.

Recommends Higher Wages.
The Chief recommended that the present grading of the fire department be changed. There are now six different grades, and he thinks four would be sufficient.

At 11 o'clock; also Saturday and Monday next, at same hour, a great special clearing cut auction sale of draught and general purpose horses and drivers will be held. The catalogue will include two carloads consigned by Mr. Chas. S. Graham, St. Mrry's, and Mr. Jas. McMillan, Seiton, all without reserve.

We have yet to discover wherein they are effective. No matter how stringent the conditions may be, the government must be looked to for their enforcement. Conditions of railway fran-

chises and bonuses are on the statute books to-day, which are absolutely worthless to the people. The interests of the public should be protected at every possible point, but glittering generalities are a poor safeguard, and Canada has yet to learn of any other kind that stand between the people and railway oppression. Moreover, it is not advisable to buy paper concessions with a gift of land or money. The people want no more than fair play from the railways. Fair play they are as likely to get thru conditions attached to a charter as conditions attached to a subsidy. Hon. Clifford Sifton has stated, with

a loud flourish, that there will be no speak for the West, but the impression which he inferentially conveyed-that pany-was sheer presumption for the head of the Department of the In-

tice, is in the city looking after some cases at Osgoode Hall. Mr. Williams was the gold medalist of Victoria College in 1885. ment for a friend's husband, whose gold medalist of Victoria College in 1885. He practised law in Toronto for some time, and in 1899 he left for Little Current. After wards he removed to Gore Bay. He is enthusiastic over the prospects of the country, and says that business is booming remarkably. There are two sawm ils at Little Current, which had become idle until the embargo was placed on logs. The mills had been shut down for years, but when the law came into force making it necessary that the logs should be sawn in Canada they resumed operations, and are now turning out 300,000 feet a day, and are paying from \$12,000 to \$15,000 a month in wages. "There are signs of prosperity all around," said Mr. Williams. "In the summer 14 boats a day stop at Little Current, and down here you have no conception of the amount of tourist traffic, particularly Americans, there is thru the islands. The Current itself is a most interesting thing. It never freezes, and sometimes it runs one way, while, at other times it causes the water to flow from the opposite direction."

Mr. Williams is being greeted by many old friends in Toronto.

OIL IN ALBERTA. One Well Spouts Three Hundred Barrels a Day.

"I believe that Western Canada is about few weeks. Our terms include loca to become a factor in the oil-producing physician, Swedish massage, salt water part of the world," said John Lineham of baths. Send for circular. Okotoks, Alberta, who is at the Walker Okotoks, Alberta, who is at the Walker House. Mr. Lineham is the president of the Rocky Mountain Development Company. They have a well spouting 300 barrels a day and others in view. The point where the oil has been struck is known as Oil City. It is a hundred miles southwest of Calgary, in the foothills of the mountains, in the Pincher Valley. The drill sank down over 1000 feet before oil was struck, but the quality is good. Mr. Lineham has a big jar of the fluid with him, and it has the correct podor and color. The company will build a pipe line to Macleod when other wells have been bored.

situated out of the market. By an means let us have municipal power, but let us handle the surplus power in the same manner as would be done by a private corporation—get the last dollar out of it that it will stand, and apply any revenue to a further reduction of the cost of such public utilities as may be controlled by the municipality.

The tour of the University of Toronto Glee Club last week included Lindsay, Ottawa, Smith's Falls, Napanee, Believille and Whitby. In all these places the boys met with enthusiastic receptions, and their concert with popular favor. Their first appearance in the city will be on Friday evening, Jan. 30, at the Jameson-avenue Collegiate Institute, under the auspices of the P. C. I. Atbletic Association.

Some Opposition Develops Toward the Purchase of Kilts With the Patriotic Fund-

ANNUAL DINNER OF BARBERS' UNION.

the Evening at the Banquet.

Hamilton, Jan. 28 .- A meeting of the local South African veterans was called Were 1.00 to 1.50 some of the leaders, to put in an appear ance, the gathering was of a rather infor mal nature. The proposal to use the re-French Printed mainder of the patriotic fund for fitting out the Kilties has developed great resentment among the boys and all present to night were much opposed to the scheme. It was decided to send a delegation to the committee in charge of the funt and ask that it be not used for this purpose. Several of those present claim to have grievious cause for complaint at the way the money has been distributed, but the ma-

jority were well satisfied.

Barbers' Banquet.

The first annual dinner of the International Barbers' Union was held at the Waldorf to-night and proved a most enjoyable event. The guest of the evening was W. D. Klopetzky, general secretary of the union, and among others were Mayor Morden and William Barrie of the Trades and Labor Council. During the evening songs and recitations were given by Messrs. Haughton, O. Mitchell, Tuffard, H. Halford and Harvey Golett. Charles Condon occupied the chair and the committeemen were H. Halford, E. Firth, J. Lecker and F. Hickey.

Militia Company Meets. Militia Company Meets.

F Company of the Thirteenth Regiment held their annual meeting to night. The reports show the financial condition of the company to be good and all things are prosperous. The officers elected were: President, Capt. George Fearman; vice-presidents, Lieuts. L. Lee and eGorge Black; Secretary, Sergeant G. Gibson; treasurer, Sgt. T. Bowstead; auditors, sgt. F. Fletcher, Pte. G. Sutherland; Management Committee, Corps. W. Matthews, George Tuckett, Pte. J. W. Upsdale, R. J. Scott, James Nixon, George Insole, W. E. Galloway and F. F. Dalley; Rifle Committee, Col.-Sgt. Millen, Sgts. C. W. Upsdale and F. A. Fletcher, Corp. N. Boyd, Ptes. J. W. Upsdale and F. F. Dalley.

C. Company and its friends took a jolly sleigh ride to the rifle-ranges to-night and passed the evening pleasantly at the club house.

Bank Run Ended. Were 2.00 to 10.00.

The run on the Bank of Hamilton seems to have worn itself out. It subsided to a large extent last night, but started again this mornisg, the the numbers who assailed the wicket of the savings department were nothing to those of the two preceding days. This afternoon the rush gradually decreased and later many who had been the first to withdraw their deposits appeared with apoligies for their lack of confidence and redeposited. Daring the afternoon many from outside the city and slow to hear the news, who had money in the bank, came in haste to withdraw their accounts but seeing how the panic had deminished a large percentage of these returned home without handing in their cheques. Tho a few still continue to ask for money, one is safe in saying that the Bank Run Ended. JOHN CATTO & SON cheques. The a few still continue to ask for money, one is safe in saying that the fright is practically over, and it is confidently expected that the morning will see things in their normal condition.

MUNICIPAL POWER DEVELOPMENT Will Succeed Senator Wood. James Dixon, president of the Reform Association, is said to be the choice of the lical Liberal party, for the senatorship left open by the death of the late Senator Wood. A deputation, consisting of Adam Zimmerman, W. F. Montague, Joseph Kirkpatrick and others is to be sent to Ottawa in a few days to wait on the Premier with the object of impressing him that Mr. Dixon is the right man for the place. Editor World: Let me thank you as a citizen of Ontario for your efforts to save at least part of Niagara's power for the

street lighting, water service, and such other facilities as are, or at least should be under the control of the municipalities. These are things that should be enjoyed by rich and poor alike, and the cheaper we can make them the better for our people. In regard to the other side of the proposition, however, the use of the surplus power for manufacturing purposes—I cannot altogether agree with you as to the advisability of selling this at cost, or approximately cost. If the proposition was that Toronto should go into it alone, she might be excused for wanting to put the cost of power at such a low price as to offer a very strong inducement to manufacturing concerns to locate within her boundaries. With a proposal, however, of the breadth of this, we should look at it from a broader point and consider its effect upon the balance of our province. If the proposition means a benefit in the way of cheap power to manufactories within the radius covered, would it not have the effect of putting these manufactories within the radius covered, would it not have the effect of putting these manufactories within the radius covered, would it not have the effect of putting these manufactories within the radius covered, would it not have the effect of the them only advantage that would seem hardly fair to them? On the other hand, what direct benefit would our people as a whole, even so far as Toronto alone is concerned, reap from cheap-power; the would draw people to Toronto, undoubtedly, but would it inclease the wages of our workmen or decrease the cost of living to any appreciable extent? So far as I can see, the only advantage reaped would be by a few manufacturers, who would be enabled thus cheaped power, either to reap additional profits, or by shading their price to drive their competitors less fortunately situated out of the market. By all means let us have municipal power, but let us have municipal power, but let us have municipal power, of the first price of an all are of the choicest stock.

Fined for Fighting.

There was a row in the gallery of the Star Theatre last night and as a result Harry Ainsborough and Lorne Stirling were forced to put in an appearance at the Police Court this morning. The magistrate was convinced that Ainsborough was the prime mover in the scrap and fined him \$5. ferred to put in an appearance in the rolice Court this morning. The magistrate was convinced that Ainsborough was the prime mover in the scrap and tined him \$5, while Stirling was allowed to go free.

Yesterday Judge Monck sentenced John Laird and Albert Hamilton to four months in the Central Prison for breaking into the West Plains Methodist Church and stealing therefrom two keys. Byron Palmer, who also had a hand in the robbery, was let off with a three months' sentence.

Mr. Sid Howard has begun action thru his solicitors, Lee, Farmer & Staunton, against the City of Hamilton to recover unstated ramages for injuries. Mr. Howard claims that his injuries, which will lay him up for some weeks, are due to a fall on an icy sidewalk.

Railway Disaster at Grace-

land, N.J.

When They Did Not It Was Too

New York, Jan. 28.-Up to noon today the total loss of life by last night's train wreck on the Central Railroad of New Jersey at Graceland, N. J., was elieved to be 23. Thirteen bodies had een identified, and 10 were held at Plainfield for identification. From the wreckage 21 bodies were taken, and two men-W. E. Davis, engineer of the Philadelphia and Reading Express, and Thomas McCarthy, fireman of the same

train-died in a hospital to-day. More than 50 persons were injured some of them very severely. The hospital reports to-day, however, were that, with one or two exceptions, all will recover. The blame for the dreadful occurrence is placed by the officials of the Jersey Central on W. E. Davis, engineer of the Philadelphia and Reading Express, and, according to a policeman who took Davis from the wrecked engine, Davis admitted that he had taken chances, disregarding the danger signals displayed, expecting to see the red and green lights change to white, as he neared them. They did not change. It was too late to stop, and, in an instant, the crash came, carrying death to more than a ninth annual meeting yesterday after- score of human beings. 101AL LOSS OF LIFE IS 23 National Trust Company, Limited.

ANNUAL MEETING OF SHAREHOLDERS.

The Fifth Annual General Meeting of the Shareholders of the NATIONAL TRUST COMPANY, LIMITED, was held in the Company's Board Room, 22 King-Street East, Toronto, on Wednesday, the 28th day of January, 1903. Among those present were: Sir Thomas Taylor, Hon. Mr. Justice Brit ton, Rev. John Potts, D.D., and Messrs. J. W. Flavelle, Z. A. Lash, K.C., E. R. Wood, Alex. Bruce, K.C., H. H. Fudger, F. W. Gates, Wm. Davies, Geo. W. Gouinlock, Fred G. Cox, W. H. Goadby, S. R. Parsons, Richard Brown, A. E. Ames, Robert Kilgour, E. W. Cox, C. D. Massey, David Smith, J. S.

Porter, R. S. Schell, C. Cook.

The President, Mr. J. W. Flavelle, having taken the chair, the General Manager, Mr. W. T. White, was appointed Secretary of the meeting. After reading the notice convening the meeting, the Secretary read the Fifth Annual Report and the accompanying Financial Statement as follows: The Directors have pleasure in submitting herewith their Fifth Annual Report, showing Statement of the Assets and Liabilities of the Company as at 31st December, 1902, together with the Profit and Loss Account for the

The Net Profits after providing for all cost of Management, Salaries, vertising. Auditors' Fees, and other expenses, amount to \$83,206.05. The sum of \$9,237.13 brought forward from 1901, makes the total at credit of Profit and Loss Account \$92,443.18, which has been appropriated as follows: (a) To pay four quarterly Dividends at the rate of six per cent. per an-

num, amounting to \$60,000.00. (b) To increase Reserve Fund \$20,000 00. c) To carry forward to open Profit and Loss Account, \$12,443.18.

The Reserve Fund now stands at \$300,000.00. Respectfully submitted. J. W. FLAVELLE.

W. T. WHITE, General Manager.

The President, in moving the adoption of the Report, said: The result of the past year's business will, I feel assured, be regarded with satisfaction by the shareholders of the Company. The Report of the Directors, now placed before you for consideration and approval, shows the net profits to have been \$83,206.05, out of which \$60,000 has been disbursed in dividends and \$20,000 added to Reserve, which now stands at \$300,000. It will be remembered that the Capital Stock of the Company was suoscribed at a premium of 25, making a total cash payment of \$1,250,000, so that during its four years of business existence the Company has, in addition to paythis ing its dividends, increased its Reserve by \$50,000 and earned the further shut sum of \$12,443.18 now appearing at the credit of Profit and Loss Account. At their actual market value the securities mentioned in the Statement of Assets show a substantial surplus over the figures at which they stand on the books of the Company.

The general business of the Company at Toronto, Montreal and Winnipeg has been highly satisfactory. During the year the growing importance of Edmonton and the surrounding district led your Directors to establish an office at that point, in order to take advantage of the high rates of interest. and desirable mortgage securities there obtainable for the loaning of the Capital Funds of the Company, and as Trustee or Agent for important financial clients wishing to invest in the Territories. Since its establishment some months ago the Edmonton office has made good progress and may be relied upon to contribute its fair share towards the future earnings of the Company. All organization charges of this Branch, including office furni-

ture, have been dealt with as ordinary expenses and written off, The rapidly-expanding commercial, industrial, transportation and financial interests of the country have created entirely new and complex conditions and have rendered necessary the employment of a Trustee possessed of both technical skill and good business judgment, especially in transactions where many, and perhaps conflicting, interests are concerned. We believe the Company has rendered no unimportant service in providing facilities for the proper carrying out of such transactions and you will be pleased to know that the service rendered by our staff has been greatly appreciated by the many influential clients who have committed difficult ne-

gotiations and important Trusteeships to our care. From the inception of the Company it has been the purpose and effort your Board to perfect the organization for prompt and intelligent service connection with Administrations, Executorships and Trusteeships intrusted to the Company, and thus merit the confidence of the public in this, the most important branch of our many-sided business. We have been gratified with the recognition which has followed our efforts. We have secured the good-will and support of a very large number of the legal profession in Ontario and Manitoba and are well satisfied with the results in our Estates Departments. The volume of this class of business already on our books is exceedingly large and will without doubt constantly increase. In Quebec custom still favors private executors and trustees. Evidence is not wanting: however, to show that the same good reasons which induce residents and the Courts of the Provinces of Ontario and Manitoba to name Trust Companies in preference to private individuals will appeal to Quebec also, and it is only a matter of time when the private trustee will be replaced by his natural successor, the public trustee—the Trust Company.

I beg to move, seconded by Mr. Lash, the adoption of the Report. Mr. Z. A. Lash, K.C., in seconding the motion for the adoption of the report spoke as follows: Probably the most interesting item to the shareholders which appears in the statement of the company's affairs is the Re serve Fund, which is now \$300,000.

The reserve of the National Trust Company consists of liquid assets and is available for meeting obligations of the Company as a going concern and has a reality about it. The assets consist of loans secured by first mortgage on real estate, of bonds, stock and debentures, of real estate, of loans on the collateral security of stocks and bonds and of cash. These assets have been gone over most carefully, and I venture to say that the General Manager would be able to state that all the figures at which they stand upon the books of the company are well within their market A Reserve Fund would soon disappear if it were not for the organization which protects it. The organization of the National Trust Company adds strength to its Reserve, and resulting from that organization is that indefinite thing full of meaning "good-will." for I believe we have the goodwill of the public, largely created by our staff and the zeal of all those con-

Many a man is trusting the National Trust Company to manage his affairs in his life time because he knows the nature of its management, and GIVING STRENGTH AND VIGOR. many a man, and I hope their number is constantly increasing, has written his will trusting his estate after his death to the management of the National Trust Company, knowing that those who come after him will have their affairs A vote of thanks to the General Manager and Staff of the Commany was

nassed, after which the following were elected Directors of the Company for

can afford to pay a higher dividend on the common stocks.

Information has been received of an undenbted character, which indicates that the antagonism between Pennsylvania and Could interests has increased rather than decreased. Representative of Gould faction asserted that the Wabash will get in to Pittsburg by June, and that it will deprive Pennsylvania and B. and O. of 25 per cent. of tonnage they receive from that district.

Buil operators on Canadian Pacific are drawing attention to the fact that the interest on deferred land payments owed to the company is equal to the interest on its outstanding bonds. They claim also that the lands still remaining unsold are of sufficient value to retire the company's whole outstanding indeletedness except its common stock. For this reason they confidently expect that in a reasonable period the company will only have the latter outstanding indeletedness except its common stock. For this reason they confidently expect that in a reasonable period the company will only have the latter outstanded ing, and that additional capital, as it is required, will be preceded by new issues of common stock, which existing shareholders will have the privilege of subscribing for at par. This possibility alone they argue, makes the stock a good purchase at current prices.

Pittsburg, Jan. 28.—Oil closed at \$1.50.

In the Surrogate Court.

Joseph Popers, hotelkeeper, Toronto, made application in the Surrogate Court vester day for letters of administration in the estate of the late Patrick Muhoney of Tolerand Court vester and the stipulated Market.

Period WITHOUT MARGIN, thus being market.

Ment of the strength of the option, WITHOUT RISK OF FUR THER LOSS THAN THE ORIGINAL COST OF THE OPTION. NO INTEREST is payable on options.

Other quotations and handbook free on application.

PEGINALID CAMERON.

Broomhall's Estimate of 1902 Crop-General Markets and Comment.

port, prices are likely to go a little higher.
Oats-A sharp break early, followed by an equally sharp advance. Closing prices a full 1/2c higher than vesterday. This was pretty good, with wheat a cent lower. No signs of any seiling by Patten. His holdings are the largest at present, as they were last year. Stocks here are small. They must increase before spring to cause any particular decline.

Provisions-Prices generally lower, Meat shipments were smaller than last year. The packers supported the market, or it would have declined more than it did. We are inclined to look for further decline the coming week, and would sell long stuff on any bulge.

New York Grain and Produce

AT THE THEATRES.

Princess-Mrs. Langtry in "The Cross-Grand—Eugenie Blair in "Zaza;" Toronto—"Across the Pacific," lively melo

The appearance at the Princess Theatre to-night of Mrs. Langtry, in "The Crossways." will attract a fashionable audience. The character, Virginia, Duchess of Keens-The character, Virginia, Duchess of Keensbury, is well suited to her histrionic talerts. The emotions which the experience of Virginia, under her husband's persecutions, calls into expressive action are those of disgust, irritation, resentment and half-fermed impulses to some desperate act of retaliation. The keynote of Mrs. Langtry's acting in the part is naturalness and repose, and the attributes of the part are particularly well adjusted to her artistic needs.

week, Francis Wilsom will be seen in one of the best comic roles he ever had. that of Gigg, the footman, whose response to the advertisement of an animal dealer gets him into a series of India-Animal D. Other horses at the Grand Hotel, Biaritz, France, and in the Plaza of the town of Willaya, Spain. The scenes are laid in a flower shop at the Grand Hotel, Biaritz, France, and in the Plaza of the town of Willaya, Spain. The scenery and costumes are gorgeously magnificent.

Prince of Orange Brought \$8200. There is a good bill at Shea's Theatre this week. One of the biggest hits of the show is made by Eva Williams of Williams & Tucker. Miss Williams is one of the most clever women on the stage. Elfic Fay is a very pretty young woman and clever one at that. The other hits of the bill are Sidney Grant, Gorman & Lawson. Sa Vans, Sparrow, Crane Bros. and the Osnatos. Mr. Shea has booked for next week a lot of good acts and he promises one of the best bills of the year. There will be the Athos family, Smith & Fuller, Melville & Stetson. Ward & Curran, Burke's dogs. Three Keatons, Bellman & More and several others.

Is work, and other of the sorp seecond nature and no other artist, old of young, whose voice comprehends the song less perfectly, even if it is fresher and younger, can approach it. To the genuine artist there is much more pleasure in the perfect rendition of a song by a vocalist of Albani's character than in its being sung by a younger voice, which in its pride of youth is not fully appreciable of the difficulties. It is the indication of a wonderful vocal organ that if anything Albani is singing as well to-day as she lid ten years ago. Madame Albani arrives this evoning from Ottawa where she and her husband. Mr. Ernest Gye, have been staving with Their Excellencies the Governor General and Countess of Minto. Her company includes a number of England's greatest arrises, who will be heard in a magnificent program at Massey Hall to-morrow evening.

DOCUMENT OF 1791 TO BE USED.

Heated Discussion Results in a Personal Encounter-One Deputy's Nose Scratched.

Parls, Jan. 28.-A proposition, backed by Jules Roche and other deputies, was inroduced in the Chamber of Deputies tolegislative and executive branches of the government.

A second bill was introduced by Charles Benoist, providing for the establishment of a Supreme Court entrusted with the protection of the rights and liberties of the citizens, and organized on the same lines as the Supreme Court of the United States. At the conclusion of the day's sitting Deputies Cadenat and Chapis got into a heated discussion, which culminated in a personal encounter. M. Cadenat badly scratched his adversary's face. The-colleagues of the two deputies intervened and separated them.

Lord Baltour of Burleigh, Secretary for Scotland, Speaks of Anglo-German Alliance.

Empire Review Says That It Was British Cabinet Which Asked the

Burleigh, Secretary for Scotland, in a vesterday evening at Edinburgh, was the first cabinet minister a mere casual co-operation for a specific purpose and for a limited time.. He had not the slightest doubt that compensation which will be satisfactory to Great Britain will be satisfactory to Germany, and the speaker was confident that this compensation will prevent any breach of the existing good feeling between European countries and the United States. It was best for the peace of the world that Great Britain and Germany should have acted together.

To-morrow's issue of The Empire Review, of which C. Kinloch Cooke, a well-known writer on foreign and colonial affairs, is editor, will publish striking articles on Anglo-German relations. In a recapitulation of their relations during a long period, the

writer says:
"The public should be made aware
of the fact that it was our cabinet which asked the German government to cooperate with this country in the coercion of Venezuela. That decision was not, however, taken at Sandring-ham. Indeed I think I am correct in saying the subject of Venezuela was not mentioned by Emperor William during his visit to the King. Anyhow, it is in every sense a perversion of things to assert that the alliance was due to the cajolery of either the Emperor or his chancellor. Germany did not force her alliance on us, not did she dupe us into a conclusion of the alliance. Moreover, the contention
