## FISCAL REFORM IS THE DOMINANT ISSUE

Now overshadows even the Constitutional Aspect of the British Campaign — Budget and Land Tax momentarily forgotten.

## BOTH PARTIES PAY ATTENTION TO "COLONIAL" CONNECTIONS

The following special cable to *The World* is the beginning of a critical and impartial review of the election situation from a prominent London journalist, who is exceptionally well informed. His statements can be accepted as furnishing an authoritative estimate of the strength of the conflicting forces in the Budget campaign.

LONDON, Eng., Jan. 7.—Polling in the general election begins on Saturday week, and present indications point to a majority for the Liberals, but the Irish may hold the balance of power. Considering the long warning given of the contest, such unpreparedness exists.

As far as fiscal reform overshadows the constitutional question of the peers' interference with finance. The budget and land taxes are momentarily forgotten. Free traders are working the bogey of "dear bread and horse sausages," but the working classes look more at the employment problem. Meantime the masses appear favorable to the party that gave them old-age pensions and labor exchanges.

Candidates with colonial connections are receiving attention from headquarters of both sides. Winston Churchill has written Hamar Greenwood, Liberal candidate at York, urging imperial solidarity, and says: "You, as a Canadian, well known and well liked throughout Canada, have a special responsibility at this juncture."

Joseph Chamberlain recommends John Henninger Heaton to Canterbury because of the desirability of colonial preference.

### SOCIAL REFORM IN SECOND PLACE.

Social reform is very generally subordinated to the paramount importance of imperial defence and commercial interdependence.

It is a kaleidoscopic contest, of which none can yet confidently predict the result, and popular excitement is growing. The City of London and certain universities have not yet been challenged by Liberal candidates. Liberals, Labor men, and Unionists will have triangular duals for about fifty seats.

Non-conformist objectors to the budget threaten extensive abstentions from voting. Lord Rosebery, whose intervention during the budget debates was so fatal, has again made a pronouncement condemning the budget as socialistic, opposing home rule and recommending reform of the second chamber.

Large numbers, especially of the propertied classes, who have hitherto supported Liberalism, are openly promising adhesion to Unionism. Churchmen also are receiving categorical advice from bishops to prevent the nearer approach of disestablishment.

### HOME RULE AFFECTS LIBERAL VOTE.

Dread of home rule is losing many votes for Liberalism, and reports from the constituencies generally indicate that the Unionists are improving their position and making headway.

Colonial questions have received consideration from Lord Lansdowne, who has urged the importance of the earliest possible arrangement with Canada as to imperial preference. Lord Milner, dealing with similar points, has recommended the imposition on colonial grain of half the duty to be levied on foreign imports, the recognizing that to advocate entire exemption would be more popular.

## Fatal Crush and Fire Scare

Events in Last Night's Rallies—Lord Lansdowne Says People Demand Tariff Reform.

LONDON, Jan. 7.—The first serious disaster of the campaign, which entailed a death and injuries to many persons, occurred in the section of London called Spitalfields. The Irish League had called a meeting in the town hall in Cable-street. A great crowd was besieging the hall, and with the arrival of the procession of the members of the Irish League, escorting the Liberal candidate, Mr. Benn, who was to address the meeting, the congestion became so great that the railings gave way, the hall collapsed and a score of persons fell into the area, which was several feet deep. One man was killed in the fall and ten were more or less severely injured. The meeting was abandoned.

### Balfour Not Opposed.

Among the first to be re-elected to the new parliament will be Arthur J. Balfour, for the city of London, and Joe Chamberlain for Birmingham. None of whom will be opposed. Sixty constituencies will be polled January 15, and the results in these will be sufficient to give a good idea of how the struggle is going.

As an indication of the small field as yet cultivated by the Labor party, only 90 Labor and Socialist candidates are now before the electors, while there are 670 others.

According to present arrangements, 67 constituencies will be polled January 15, and the results in these will be sufficient to give a good idea of how the struggle is going.

Lord Lansdowne at Spitalfields and Lord Curzon of Kedleston, at Brixton, both called meetings to-night the validity of the rule which provides that members of the house of lords may not take part in the campaign after the election writs are issued, which will be Monday.

John Burns, speaking at Battersea, said tariff reform must ally all wars that religion is not, and that a tax on timber might lead to war with the United States. He said he considered that the speech delivered by A. J. Balfour, leader of the opposition in the house of commons, in which alarmist speeches were made concerning Germany, was about the most discreditable thing that ever had happened in public life.

In an election address just issued, Mr. Burns declares himself in favor of Irish self-government, provided the imperial supremacy is maintained inviolate. He proposes a program of considerable legislation, including adult suffrage for both men and women, the payment of members of parliament and their election expenses, shorter terms of parliament, the extension of the old age pensions, etc.

## RUSH IN EARNEST TO ONTARIO'S EL DORADO

Matheson the Entrance Way  
— Mail, Stage and Telephone Service Are Modern Conveniences,

MATHESON, Ont., Jan. 7.—(From *Our Man on the Trail*).—Reilly and a party of 30 prospectors came up on last night's train from Halleyburn, outfitting here and drove out to Foremost this morning.

Ninety-threepersons took breakfast at the Hotel Matheson this morning, and the rush to the gold country continues unabated.

The roads have been much improved by a recent snowfall, and a regular stage line will begin on Monday. Matheson is destined to be the distributing point for supplies, and the stores are fully equipped with all the necessities for camp life. All freight will, for the future, be billed to Matheson only. Station agents have received instructions not to bill freight to stations where there is no agent.

Large numbers of prospectors are going into Porcupine by mileage 222. The distance is a little shorter than from Matheson, but the time taken to travel it is about the same. The fare from mileage 222 to Porcupine is \$6 going, \$5 returning. A mail stage will run from Matheson at a uniform rate of \$3 each way. A telephone line will be put in but a few days with a central station at Revelon Bros.

Revelon Bros., established in 1723, with over 200 stores in Canada, and stores in Russia, Japan, China, France, Italy, England, Germany and the United States, sent our men to Porcupine yesterday to erect a large outpost similar to the outposts at Abitibi and Cochrane. They carry a \$20,000 stock in Matheson, and supply everything which the prospector needs.

They built the large store, now the postoffice store, before there was a street in the town, and this is now altogether too small for the immense business they are doing. Yesterday the store was crowded all day.

This, and other stores in Matheson, carry the things best adapted to the country and as a general rule most of the outfitting is done from this place. J. B. S.

### GREATEST IN AMERICA

Chairman Englehart Thinks Porcupine Camp Will Prove to be.

"I thought I knew all the gold-fields, the Lake of the Woods, and the rest of them," said Chairman Englehart, of the T. & N. O. commission, yesterday, "but I saw some specimens from Porcupine last night that were simply amazing. If it is proved at depth, it will turn out to be the greatest gold camp in America."

Mr. Englehart still favored the Matheson route to the new gold fields for winter travel, on account of its superior comfort in the matter of accommodation at the starting point. "There are hotels, stores and everything a man could want at Matheson," he remarked. For summer travel, however, he thought that mile-post 222, or, better still, mile-post 226, presented distinctive advantages on account of being closer to the water routes. From the latter it is only a short distance to a couple of streams which flow into the Frederick House River, offering a splendid continuous camp site by that river, Frederick House and Night Hawk Lakes, and Porcupine River to the head of the district.

Regarding the possibility of a flight of the railroad into Porcupine Lake, Mr. Englehart observed that the T. & N. O. commission had their engineers and surveyors examining all the possibilities.

This brother, a naturalist in the Department of Agriculture, had not heard from him as usual, and wired to Mr. Middleton to seek him out.

French Aviator Becomes Mere Speck in Sky—Beats Other Records By 2,000 Feet

Despite Opposition of Premier and Government Organ Ottawa Liberals Decide he's the Man.

Ottawa, Jan. 7.—(Special).—The Liberal convention to-night nominated Auguste Lemieux, K.C., a younger brother of the postmaster-general, to contest the by-election caused by the retirement of Sir Wilfrid Laurier from the Ottawa seat.

He secured the nomination in spite of the direct opposition of the premier and the local Liberal organ, which this afternoon came out uncompromisingly against him. Mr. Lemieux cannot therefore expect any support from the government or the official Liberal organ, yet he is nominated by the local party officially.

The voting was: First ballot—Dr. Forrest Laurier, 138; A. Lemieux, 137; Dr. Chevrier, 64; ex-Mayor Parent, 6. Second ballot—Lemieux 189; Forest, 163.

The Ottawa Free Press article published as an editorial on the first page was headed: "Not Mr. Lemieux, and said: "An attempt is being made in the Conservative newspapers of Ottawa to make it appear that the candidature of Mr. August Lemieux for a Liberal nomination at the coming by-election in Ottawa has the endorsement of Sir Wilfrid Laurier."

The Free Press suspects that these Conservative newspapers are relying on information supplied by Mr. Lemieux himself.

"The facts, as we understand them, are that when members of the Ottawa Liberal executive waited upon Sir Wilfrid Laurier as the retiring member and an elector of the city, to ask his advice in connection with the selection of his successor, the prime minister made it very clear that he would prefer that Mr. Lemieux should not be chosen."

"In the last four years The Free Press has been very careful not to attempt to influence any convention called to nominate a candidate. On this occasion, however, there seem to be reasons why we should speak out. For causes that are pretty well known, and which it is not necessary at the moment to specify. The Free Press would be very sorry to see Auguste Lemieux nominated by the Liberals. We agree with Sir Wilfrid that the French-Canadian Liberals of Ottawa could select a man much better suited for the honorable position of member."

Copies of The Free Press were distributed at the convention.

## LAUER IS PROUD OF CANADA'S GLORIES

Premier Is Honored by the National Club — W. K. McNaught Unveils Sir Wilfrid's Portrait.

Nationality was the glorious and inspiring note that prevailed throughout the proceedings at the splendid banquet in the National Club last night, when Sir Hon. Sir Wilfrid Laurier, K.C.M.G., P.C., was the honored guest. It was as a party leader that he was feasted on Tuesday, but last night it was the prime minister of Canada who received the enthusiastic and at times tumultuous and overwhelming plaudits of an audience representing every phase of Toronto public life.

The National Club was founded for the express purpose of maintaining the spirit and the feeling showed how magnificently the fete had come to harvest. In addition to his reception as guest, the special honor was done Sir Wilfrid of unveiling his portrait which hangs not far from that of his old-time political opponent, Sir John A. Macdonald. The unveiling was done by W. K. McNaught, M.A., as a past president of the club and a prominent Conservative, after a happy speech of discriminating laudation.

Sir Wilfrid was charmingly eloquent about matters on which there was no disagreement, and his special tribute to the oratorical abilities of the late B. B. Osler and Hon. Edward Blake, whose forensic eloquence he declared, had it belonged to sons of Quebec would be treasured in every library in Lower Canada.

A Great Gathering.

George T. Irving presided and on his right sat Sir Wilfrid, W. K. McNaught, M.L.A., son of the late Senator Stoner, who said grace, was on the chairman's left hand, and Sir William Mulock sat next. Others at the guest table were Justice Mabee, Col. Denison, Hon. Robt. Jaffray, M. J. Haney, W. P. Gundy, Noel Marshall, D. B. Hanna, A. W. Austin, J. L. Ward, P. C. Laidlow, J. S. MacLean, W. J. Gage, E. W. Cox, J. L. Lemire, Ottawa, W. E. Rundell, J. W. L. Foster, M. Morris, C. G. Marlett, A. E. Ames, W. T. White, Hon. E. J. Davis, Lt.-Col. Farewell. There were about 200 covers.

Many previous beautiful schemes of decoration were entirely superseded by the floral dressing of the banquet hall last night. Garlands of evergreens were lavishly hung about the walls and festooned under groups of terns. American beauty roses in clusters, and bouquets of pink roses with table decorations of carnations sweetened the room.

The menu was unusually handsome, and contained a fine portrait of Sir Wilfrid. Poetic quotations interspersed the list of viands and at the close the ambiguous suggestion stood:

So comes a reckoning when the honest and the dastardly reckoning, and men smile no more.

Arthur Blight contributed several songs, including "O Canada," which was encored. Paul Hahn also gave two cello solos.

## POLICEMAN DISMISSED AND ANOTHER FINED

Commissioners Meet in Secret Hon. Charles Murphy Address es Liberal Club.

HAMILTON, Jan. 7.—(Special)—The police commissioners this afternoon held a meeting behind closed doors. Constable Burchell was dismissed from the force. He was charged with being off his beat and was assigned to the sergeant who laid the charge. Constable Chapman was fined \$10 for a breach of the rules, but nothing definite was done about "black top."

Speaking before the Young Liberal Club this evening, Hon. Charles Murphy, secretary of state, said, "I am opposing not for the government, but as a Canadian to Canada. I think what songs we sing should be built in Canada and controlled by the Canadian government." The only objections to this that have been urged were the inability to graft, and that Canada was not capable of building the ships. The first was a misnomer. Tony said that would recoil on them. The second was to the fact that the first steamship to cross the Atlantic was built in Canada. Captain Davis presided, and short addresses were given by P. D. Crerar, K.C., Mayor McLaren, W. O. Sealy, M.E., and Hon. Wm. Gibson.

Beverley McMillan, 128 Grant Avenue, sustained a broken leg while tobogganing on Queen-street this evening.

## The Annoyance of Flatulence

Many People Are Annoyed With Gas In the Stomach and Intestines; A Trial Package of Stuart's Charcoal Lozenges Sent Free.

Flatulence is due to the presence of gas in the stomach and intestines which often rolls about, producing burping, or rumbling in the system, and causes the system to feel uncomfortable. This trouble considerable embarrassment, when such noises occur while in company.

An analysis of gas from the stomach shows that it consists to a great extent of nitrogen and oxygen. There is therefore probably that some of the gas in the stomach consists simply of air which has been swallowed, although for the most part, the source of flatulence is the gas given off from the food in the abnormal processes of decomposition.

In cases of chronic gastric catarrh, the secretion of gastric juice in the stomach is defective, the food digested slowly, and fermentation occurs with the evolution of gas.

Swallowing air, however, plays a more important part in causing flatulence than gas in the stomach, and in this respect it is generally supposed, and while food may be swallowed without carrying air into the stomach with it, fluids, especially those of a tenacious character, such as pea-soup, appear to carry down great deal.

The cause of the flatulence occurs when a large amount of gas or air is either swallowed or evolved from the decomposition of food, escapes from the stomach into the intestines through the pylorus. The enormous dilation of the intestines and dilatation rapidly with which flatulence occurs, especially as in their absence a constipation becomes a puzzle to medical men, and has led some to think that the only possible explanation thereof is a rapid evolution of gas from the blood.

In the treatment of gas in the stomach and intestines, charcoal is considered by most physicians as the leading and most effective remedy. Carminatives, or medicines such as peppermint, cardamom, sodium bicarb, etc., which expel the gas from the stomach and intestines, are also used to some extent by some people, but these are disagreeable, and the frequent expulsion of gas through the mouth, most annoying, and after taking a remedy of this kind, one is compelled to remain out of company the rest of the day, account of the continued belching of air.

STUART'S CHARCOAL LOZENGES do away with the necessity of undergoing the disagreeable experience of belching, or expelling stomach gases through the mouth, by completely absorbing every particle of gas evolved in the intestinal system, which proclaims and over-distension with accumulated air.

These wonderful lozenges should be used for all cases of flatulence and decomposition of food in the stomach, and are good for bad breath resulting from catarrhal decayed teeth, or stomach trouble.

## CANARY ISLAND MISSIONS

A. H. Clarke, M.P., Tells Them He Would Rather Resign Than Not Endorse It.

WINDSOR, Ont., Jan. 7.—(Special)—A special meeting of the South Essex Liberal Association, was held in Essex this afternoon. A. H. Clarke, M.P. for South Essex, was principal speaker. He favored the establishment of a Canadian naval base along the line of armored cruisers and submarines and smaller crafts. He asked his constituents' opinion on this question, and was given a most hearty support. He declared that rather than vote against the naval scheme, he would resign his seat in the house. He also advised the establishment of naval reserves.

"Canada would be the laughing stock of the world," said Mr. Clarke, "if she did not do something toward establishment of a navy for helping the mother country along this line."

Mr. McColl, M.P., for West Kent, also spoke, and not much longer than Mr. Clarke outside missionaries and Rev. Mr. Brown was welcomed home again by his wife, and proceed to his field of labor, especially as in their absence a volcano has become active in the centre of the island where they had their station. ## LANGLOIS TOO RADICAL FOR LE CANADA'S TASTE

Is Forced to Resign His Position as Managing Director—Now Secretary Waterways Commission.

MONTREAL, Jan. 7.—(Special)—Godfrat Langlois, M.L.A., the "infant terrible" of the Liberal party, the advocate of electric trustees and a higher standard of education for Quebec schools, has paid the price of his radical notions by being forced to resign his position as managing director of the government organ here, "La Canadienne."

It has been an open secret for some time that Mr. Langlois was having a hot time with his directors, and that he was not persona grata with the religious authorities of this diocese. The Archbishop of Montreal did not hide his distaste for the clever young Liberal who has been the bane of the gurus in the Canadian office since that paper was established. Mr. Langlois always took a very advanced position in the legislature when educational matters were up for discussion, and altho the general impression is that Sir Lomer Gouin secretly encouraged him, his popularity to go ahead and take up the banner of the province, the statement is made also that the deputy at the time went too far for the prime minister, and that even Sir Filidr Laurier was often apprehensive as to the result of the ministerial organ here.

Being seen by Mr. Langlois, it is believed, he closed his office, and he wanted to be thoroly understood that he was not retiring from public life. "On the contrary," he added, "I will be more active and militant than ever."

The story goes that Mr. Langlois will not remain member of St. Louis very long, but that he will soon occupy another legislative position where he will be free to champion his favorite hobby.

It is also hinted that the now famous Cote funeral was the last straw which broke the cane's back, and which caused the clerical directors of The Canadian Bank of Commerce to demand that Mr. Langlois, M.L.A., was one of those who attended the funeral of the late Dr. Cote, who would not see a priest, and who was buried, or rather cremated, without any religious ceremony.

Amongst the theatrical attractions that have lost a deal of money this season are: Lillian Russell, in "The Widow's Mite"; Fanny Ward, in "The City"; John Fitch's last drama, "The City," at the Lyric Theatre, New York, which is a plan for offering a cycle of classic dramas of all ages. This in spite of the fact that he has attained notable success not only in "The City" but in "Man of Gilead" (tune Old Folks at Home) sung by the congregation.

Walter Hampden, who is now playing the leading role of George Rand, Jr., in Clyde Fitch's last drama, "The City," at the Lyric Theatre, New York, has a plan for offering a cycle of classic dramas of all ages. This in spite of the fact that he has attained notable success not only in "The City" but in "Man of Gilead" alone, and an equal number of times in Vienna. In Russia the performances of the play were forbidden by the censor, after the piece had been translated into Russian by Mrs. Witte, a relative of the famous premier of the same name, and after the Royal Opera Houses, both in Copenhagen, Stockholm, Berlin, Vienna, Budapest, Milan and Paris. It has been given up to the German stage, and has been produced with success in Berlin alone, and an equal number of times in Vienna. **BOWLING SCORES**

The Cubes, a new team entered in the Toronto Bowling Club League for the second series, and under the management of Billy Bowman, performed well in their initial series against the same Dominions, last night, winning one of the three games. The Dominions, now under the management of T. P. Phelan, were ably handled by Dick Howard in the absence of the leader, and took one of the last games, speaks well for the new handlers of the team. No phenomenal scores were put up by either team. Alf Boyd leading with 520, while J. Carter got 490. Bill Bowman expects his Cubes, after they have shaken off their stage fright, to give any team in the league a fight for the championship of the second series.

# Hockey Ottawa 3 Galt 1

## Note and Comment

The Stanley Cup still stays in Ottawa. The reformer and Reformer-Galt papers have a new owner for it. Among them Manager Buck Irvin had been interviewed at the capital. "The only difference between honourable men and scoundrels is that we play it." Galt's answer was, "as it is plain that Ottawa lies in the fact that you have good newspapers here, and we have not."

Now Friday weather permitting, the curling competition begins. Entries close at the Toronto Curling Club on Tuesday. How these stars are utilizing the leisure time.

Given the bewhiskered Governor of New York a second again, and the lovers of the sport of kings who stay home from England must next year hike to Canada in the summer, and Mexico in the winter. In the meantime, the Governor of Galt has discontinued his former bit, and the present method of evading his intention winding up as follows:

"I never, however, of the efforts that have been made to evade the statute, despite the prohibitions in the constitution, to conceal either without recording in the usual way or with records so concealed as to make detection difficult. I recommend that the amendment be passed as to penalize the practice of bookmaking, even tho' there be no recording."

For Dave Nicol: At Jacksonville he was given unmerited credit for one of these easy rides, or, rather, they thought he was left on the post on the same day. On Thursday the forward lifted the ban from Dave. He was down for thirty days for being left on Tom McGrade, manager Curly Stewart's star, in investigation. Now Nicol is not to blame, and he recommended that both the fine of \$100 and the suspension be lifted.

There will be a \$50,000 race run at Buenos Aires in November next. It will be for horses of all ages, at weight for age, one mile and seven furlongs. Starting gates will be set up and third \$2000. Horses are to be entered by Aug. 6 next, and can be declared out as late as Oct. 28 for \$125. The name of the race is to be the Canadian International. The entries are not eligible in this or in two \$25,000 races to be run in May. All these valuable races will be run in connection with the Central Exposition at Buenos Aires.

Perhaps unpromising baseball games sound his team. And Galt started off with a record of 10 Intermediate League wins after the post of official hangman for the State of Pennsylvania, and if he gets it would probably take pleasure in operating on some of the pop-bottles from Sarnia. Sarnia also had other depressing occupations, including an engagement with the old Hamilton Baseball Club. He also was in the news for his services to the country, and has since served as deputy sheriff, with a record of assisting at 21 hangings.

The boxing champions of the British Columbia Amateur Athletic Union, decided recently at Vancouver, are as follows:

Featherweight, 115 pounds—L. Stevens  
V. C. C.  
Special, 122 pounds—J. Vincent, V.A.C.  
Lightweight, 123 pounds—P. Rafferty,  
Special, 145 pounds—W. Biner, V.A.C.  
Heavyweight—W. Weeks, V.A.C.

London's Record Score.

TORONTO, Jan. 7.—The record score in the Intermediate O.H.A. game with Tilsonburg to-night, defeating that team, 23 to 5. The half-time score was 12 to 3. London's victory was witnessed around the vipers, and the local crowd, numbering over 1000, danced with glee at the prospect of a championship. Miss Westover referred a good game.

## Skates Give Notice to A.A.U.

CLEVELAND, Jan. 7.—Western Skating Association officials here have advised President Louis Rubenstein of the International Skating Association of America to advise the Amateur Athletic Union to recognize the administrative affairs of the alliance of Jan. 2, 1908, between these two governing bodies of sports, or expect the announcement of reorganization of the alliance on a 30-day notice.

As a boy M. Andreff, whose picture appears in the Graphic, learned to play on ice, and though his instrument was sold for about twenty-five cents, and played only by the peasant class. He became very proficient with the instrument, and, after years of hard work and years of labor and experiment he produced a perfected type, the popularity of which increased so rapidly in society that the Tsars were interested, and the Emperor, the inspector-general of all the regiments bands throughout the empire. His achievements in the cause of Russian music were rewarded with various prizes, among which is the beautiful emblem of the Imperial Orchestra—the tiny balalaikas crossed under a lyre and bound together by a crown—the gift of the Tsar himself.

**BALFOUR FIGHTING FOR TIME, NOT TARIFF REFORM.**

The World does not see at this distance, and perhaps our vision is as good as those who may be nearer, how Mr. Balfour and his party can win in the pending British elections. We take it that he has either been lacking in political sagacity, or is deliberately riding for a fall. If he were as wise as man ought to be in his position he should never have let the Liberals make the issue turn on the veto of the house of lords; as an astute politician he would have advised the lords to let the budget thru and wait a while for better fighting ground. But if he is deliberately playing for a fall of rather than time he has, in our estimation, done the right thing, namely: allowed the issue of the lords' veto to rise, have that question settled, have the house itself reformed, and then for his party to enter upon a campaign of tariff reform. We scarcely see, much as we believe in the idea of tariff reform for Britain, how that question can succeed in the present fight.

As a matter of fact the Conservatives are not in a position were they to win an election to-morrow to initiate a policy of tariff reform. To frame a tariff even on the moderate lines they suggest is the work of an inexperienced person, and apparently there are not enough men in England to-day who have sufficiently studied the question to handle it without considerable blundering. The World's guess, therefore, is that the Asquith government will be sustained that the veto power of the lords in budget affairs will be denied, and that the opposition will wait immediately after a great educational campaign in favor of tariff reform, and that tariff reform will carry at the next general election. Balfour is after time and this is one of his weaknesses, the it may profit him on occasions. There is this, however, to be always counted upon, and The World has some ground for the view, that Lloyd-George, if he succeeds in this election and remains chancellor of the exchequer, will himself inaugurate some kind of customs tariff and some kind of imperial trade preference before he will let the other fellows do it. He is fighting the lords more than tariff reform. So is Churchill.

Balfour has delayed so long, some say trifled so long with the tariff issue, that he must have still more time, and the country will likely give it to him.

**THE BIVOUAC OF THE STARS.**

The most interesting story in the way of human endurance is to be found at this very moment in the new Timagami gold fields adjoining the Timagami forest reserve. As far as The World can gather every night now over two thousand prospectors are sleeping in the bush unprotected, or in little tents, or in shacks, or in sleeping bags under the stars. The thermometer is often thirty degrees below zero. If the excitement keeps up there will be a thousand more next week, and the month of February will probably see this hustling army numbering five to ten thousand, attracted either by the lure of gold, consumed by the gold fever raging in this territory, as it never raged before. No better testimony as to the endurance of Canadian manhood, of the love of adventure, and the spirit of perseverance can be found anywhere than in these adventures of the Timagami forest, sleeping nightly under the northern stars.

**THE CIVIC QUESTION OF THE HOUR.**

Expropriation of the street railway, we are now informed by those who appear to be revealing the expectations of the franchise-holding corporation, is the last thing to be thought of.

We suspected as much. What some of the campaigners were willing to admit as the only possible cure for street railway encroachments, and by comparison with tubes the only practicable measure, is now regarded as a last resort. There will be as many objections raised to expropriation as to tubes or the Bloor-street viaduct when a real effort is made to carry it into effect.

The citizens will await with impatience the action of the city council with respect to securing an adequate service from the street railway. Whether the first moves will be in the direction of making expropriation more difficult or less so; whether the possibility of utilizing a tube system will be taken into account; whether the opportunity to organize a competing railway service will be eliminated; whether the city council will be led into playing the game of the street railway or the game of the people; is the question of the hour.

**DIAGNOSING TUBERCULOSIS.**

Mr. W. J. Gage's offer to provide five scholarships of \$100 each and premiums gold and silver medals and cash payments of \$50 for competition among

fourth and fifth year medical graduates deserves wide publicity. His resolve was not the result of impulse, but of conviction, based on present day knowledge, that tuberculosis in its earlier stages is susceptible to curative treatment. Hence the importance he attaches to accurate diagnosis and the special efforts he has made to encourage study of the disease among the younger university graduates.

Intending competitors will attend for at least one week at the Muskoka Sanitarium for Consumptives, and will be afforded an opportunity of profiting by clinical instruction and the use of a properly equipped laboratory.

In this way they will be taught how to detect the disease and how to arrest its progress. Mr. Gage is satisfied that training of this kind is among the most hopeful methods of conquering the white plague and that the scholarships and rewards he is prepared to establish and make will induce the special attention of the rising members of the profession to the premonitory signs of its approach. For his generosity and public spirit Mr. Gage deserves every acknowledgment.

**BRITISH IMPORTS FROM CANADA**

Impressive Totals in Wheat, Cheese and Live Stock.

Canadian Associated Press Cable.

LONDON, Jan. 7.—Following are figures of British imports during December:

The expenditure on capital account during 1909, 1909, was \$13,879,270 as against \$14,159,949 on Oct. 1908. Most of the decrease was in buildings, roads, railways and canals which went from \$13,462,059 to \$12,421,411. The total expenditure on capital account so far has been \$24,026,127 as against \$28,316,242 in the same period last year.

The net debt stands at \$322,284,079, a drop of \$69,056 in the month of December from \$321,573,675 the figure at which it stood on Dec. 31, 1908.

For her heroism Miss Brown was recommended by the commissioners of the District of Columbia for a Carnegie medal.

**METHODIST MISSIONS.**

In an interview on the subject of missionary colleges, Rev. T. E. Shore was erroneously reported as saying that the West China University will be the first missionary institution to be established in China in full college grade education. That statement was really made with reference to the Japan Institute and the West China Institute.

It was also reported that there were thirty-five missionaries in Japan, whereas he had stated that "there are but thirty-five native Japanese ministers in the Methodist mission field in Japan." The church has ten missionaries in Japan, but hopes to have fifteen or twenty additional missionaries within five years.

**QUEEN ALEXANDRA NEVER  
HAS LOST ANY GEMS**

LONDON, Jan. 8.—Queen Alexandra has lately had her collection of jewelry completely overhauled, and some portion of it is to be reset in accordance with the newest fashions.

The Queen has always been very fond of collecting, and her collection is to-day one of the finest in Europe. It is kept in large burglar-proof safes at Buckingham Palace, and the Hon. Charlotte Knollys is the only one who carries the key to this. A few years ago a careful inventory was taken of every jewel the Queen possessed, and the result was surprising.

Since that time, however, the Queen has had large presents of jewelry from several members of her family. The Queen is constantly having her jewels re-set as new ideas occur to her, while the Duchess of Argyll has drawn several charming designs for her latest. Her Majesty's jewelry is all carefully put away in sets.

ACCIDENTALLY SHOT

Death of Young Employee on N. T. R. Construction.

NORTH BAY, Jan. 7.—(Special)—Harvey Dawson, aged 23, employed as chairman on the transcontinental railway construction, west of Cochrane, died yesterday from gunshot wounds from a weapon in his own hands, presumably from accident. His parents live in Washington, D.C., and his sister, Mrs. J. K. King, resides in New York.

Mrs. E. Hetherington and Lochran McDonald were married in Steeple Falls in 1906, and a charge of bigamy had been laid against them, it being alleged that the woman has a husband living in Jackson, Mich. They were arrested at Sudbury and brought before Magistrate Weegar to-day, before his Majesty's jewelry is all carefully removed for a week.

HORRIGAN ASKS RECOUNT

Say There Were Irregularities in Port Arthur Voting.

PORT ARTHUR, Jan. 7.—(Special)—G. F. Horrigan, candidate for alderman at the recent election, who was tied for eighth place with J. B. Dohle, declared elected by the city clerk, has asked for a recount, and declares he expects to upset the result.

He claims he was proof that there were a number of "repeat" votes. Ratepayers holding property in different wards were allowed to vote in each ward under by-laws, and Horrigan says he can produce evidence that several were allowed to vote for aldermanic candidates, as well as outside the ward in which they resided. A recount will probably take place next week.

Horrigan was the principal supporter of James Connors in the power fight.

pride in its past, their hope in its future.

**Canada's Century.**

The chairman had referred to his remarks about Canada and the 20th century, and Sir Wilfrid, that had taken place since had confirmed the opinion that this sentiment was not too sanguine, and evidence had been given that the 20th century was to be expected in the same light by all. But if I can hope—if I can entertain the hope to retain the esteem of those who think with me and the respect of those who differ with me, I shall have realized the only ambition of my life.

"Let me tell you, gentlemen; you do not know of your own riches." This referred to the literary field.

In painting their artists' names were as numerous as they were unappreciated, and I am glad to see one of them present (applause). The reference was to J. W. L. Forster.

"Let me tell you, gentlemen; you do not know of your own riches."

He proceeded to pay a compliment to two members of the Toronto bar. Toronto had produced some of the most brilliant lawyers of the century, and some of whose work should count as literature.

**Tribute to Ossler and Blake.**

Of B. B. Ossler, he said, as an orator of reason, in his humble judgment, and he thought himself competent to judge, he was the equal of any man since Daniel Webster. He told him how he had been struck by Mr. Ossler's speech in the Birchall trial, in

it was that they were apt to exaggerate.

If there was one fault he would find with Canadians it was that they

did not sufficiently appreciate their country. When by the treaty of Paris in 1763 Canada passed for ever from the domination of France it was regarded by the French nation as but a few acres of snow. There was a legend, a tradition, an impression, and he was sorry to say Canadians shared it, that the winter was a drawback to Canada. He did not share that feeling about the winter glory of the country.

"Let me tell you that you are not sufficiently solicitous to your own glory. If Mr. Osler had been born in Quebec, such a speech as this would have been in all the libraries of Lower Canada." They preserved in book form in Quebec the letter, and speeches of Sir George Cartier, of Mercier, of Adolphe Chapleau, and Ontario should follow.

To Sir Edward Blake, he described a speech he had heard him give in parliament as being as great in English as any in the English language. He was still greater as a forensic orator, as his speech in the St. Catharine Milling Company case, where Sir John MacDonald and Sir Oliver Mowat disputed.

In lucidity of language, in cogency of style, and in felicity of expression of the speech in question was not surpassed by anything he had ever read.

"If Mr. Morang, who has proved to be a most enterprising editor, should bring out an edition of the speeches of Mr. Osler and Mr. Blake, I will beg to put down my name at the head of the subscription list," pledged Sir Wilfrid.

**Should Beamed Cities.**

Passing to another point he thought Canadians might borrow a leaf from Americans in their zeal and care to beautify their cities. (Applause.) He

annual grant to Ottawa, and it was

Toronto might expect something similar from Sir James Whitney, to judge from the application.

"Much as I admire Toronto, there is room for much improvement," he said. (Applause.)

He concluded his address in words of moving eloquence.

"In the position I occupy in which I have been placed by the government of the Canadian people it cannot be expected that the policy I follow will be regarded in the same light by all. But if I can hope—if I can entertain the hope to retain the esteem of those who differ with me, I shall have realized the only ambition of my life."

"Let me tell you, gentlemen; you do not know of your own riches."

He proceeded to pay a compliment to two members of the Toronto bar. Toronto had produced some of the most brilliant lawyers of the century, and some of whose work should count as literature.

## SCOTLAND YARD NABS MAN WITH WIDE RECORD

Issued Worthless Cheques While Working as Reporter in Toronto — Carried Forged Letters.

Frank Hall, who is under arrest at Scotland Yard on the charge of forgery, larceny and uttering bankers' cheques, and awaiting his trial at the April assizes at Guildford, is wanted by the Toronto police on two charges of forgery.

Hall came to Canada from England in April 1906, and spent most of his time in Toronto. He returned to England last September.

While here he worked for one of the newspapers, and had in his possession a letter which he claimed was signed by Queen Alexandra, stating that he was at one time a tutor to her children. The letter was written on paper on which the royal arms were embossed, and he once showed it to C. Wilkinson, secretary of the school board, with the statement that he had also been a high school teacher in England.

The charges, for which he is wanted in Toronto are of forging two cheques for \$80 and \$40 respectively. One bore the signature of J. W. L. Foster, 32 Carlton-street, while the other had the signature of Jas. Ivory, 32 Queen-street West.

When arrested in England, Hall had in his possession a fraudulent letter bearing the signature of W. C. Wilkinson, secretary of the school board, stating that the board of education authorized him to investigate technical education, and that they would be responsible for his debts. The letter introduced John Harry Goodman, and was written on the stationery of the board of education, which Mr. Wilkinson declares that he had free access to in his capacity as a reporter on The Telegram.

Hall is also wanted in Windsor and Toledo for forgery. His police record is a long one.

### Whistling Strap Holders.

Editor World: Would it be possible for you to put a few lines in your valuable paper, where it might catch the eyes of some whistling men and boys, to the effect that it is very odious to people sitting in cars to have standing people whistle down neighborhood fences. This is not always the sweet-breathless ones that offend in this way. It would make a good ticket-of-education for the railway company to tack up in their cars, in place of some of the old ones we have learned so well.

Thanking you in anticipation of seeing something to this effect in your paper soon. J. R. Martin.

SECOND VICTIM DEAD

Brother and Sister Succumb as Result of Injuries.

WOODSTOCK, Jan. 7.—The second death as the result of the crashing of a C.P.R. snowplow into a cutter at the Beachville crossing on Tuesday evening occurred at the Woodstock Hospital at 9 o'clock this morning. The second victim is Marion Zufelt, aged 20.

A double funeral will be held on Saturday afternoon from Fields' undertaking parlors here.

The mother is dangerously ill from

the terrible shock and it is thought that it would be unsafe to have the bodies taken home.

The man on the plow didn't know of the accident until they arrived at Woodstock, when parts of the cutter were seen on the front of the plow.

New Parlor Cars.

The Grand Trunk 7:15 a.m. train for Montreal and intermediate stations, and the Park Lane-Broadway car, serving meals a la carte, enable passengers to enjoy a well-cooked breakfast at their leisure while on their journey.

Full information and tickets at City Ticket Office, northwest corner King and Yonge-streets. Phone Main 4209.

The terrible shock and it is thought that it would be unsafe to have the bodies taken home.

The man on the plow didn't know of the accident until they arrived at Woodstock, when parts of the cutter were seen on the front of the plow.

At the annual meeting of the West End Christian Temperance Society, after receiving reports of the officers, which showed the society to be in a very progressive condition, the following officers were elected for 1910: President, W. Munns; first vice-president, Jonathan Palmer; third vice-president, R. Bell; secretary, J. P. Snook; assistant secretary, R. Fisher; financial secretary, Jos. Howey; treasurer, S. Saunders; chaplain, Jos. Dunn; auditor, H. Vanoushant; third trustee, W. Munns; fourth trustee, Miles Vissell; fifth trustee, James Baker; chairman platform committee, J. Howey; chairman missionary committee, Mrs. Saunders; chairman educational committee, Mrs. Parks; chairman finance committee, R. Fisher; auditors, J. P. Snook and R. Fisher.

Election Literature.

For the benefit of those citizens of Toronto who are interested in the problems of Great Britain—notably the budget—the chief librarian has imported some of the election literature which may be consulted at the reference library.

Following are some of the volumes:

The Essential Reform, Land Values Taxation, Cluny and Outhwaite; The Nation's Income, Raftay and Sharp; All About Income Tax, House Duty and Land Tax, Forward; The Budget, the Budget, Gavan; Principles of Protection, Smith; Tariff Reform League, Speaker's handbook; The Budget, The Land and The People, Right Hon. D. Lloyd-George, M.P.; Trade and the Empire, examined by the Right Hon. H. H. Asquith, K.C.M.P.; The Policy of Tariff Reform; Income Tax, Cluny and Outhwaite; Cluny and the Social Problem, Cluny; Letters of a Working Man, Dr. MacNamara; The Saturday Hand-book for Unionist Speakers; The People's Budget, what the new taxation means and the great reforms it will effect; The People's Budget, explained by the Right Hon. D. Lloyd-George, M.P.

May Grow Turkish Tobacco in Quebec.

MONTREAL, Jan. 7.—An experiment which, if successful, will revolutionize the tobacco trade of Canada, is being conducted by the Quebec Tobacco Company at St. Augustin Des Monts. Mortimer Da's has sent up a score of expert tobacco growers, and will make an effort to grow Turkish tobacco there. It is claimed that on account of the high latitude tobacco grown in Turkey can be cultivated.

FRENCH WEALTH INCREASES.

PANS, Jan. 7.—Edmond Thery, the French Minister of Finance, said that the wealth of France increased during 1909 by \$1,200,000,000. French foreign investments at the end of the year totalled 75,000,000,000.

COSTLY MATCHES.

KINGSTON, Jan. 7.—Careless use of matches to-day caused a \$300 loss by fire in the home of James Hamilton, and \$100 loss at the home of James Shane.

Campbell & McDermid, clothing merchants, suffered damage by removal of stock.

## LOCAL OPTION BYWARDS

Social Reform Council Seek Further Local Option Legislation.

An effort will be made by the Ontario Moral and Social Reform Council to secure legislation at the next sitting of the legislature, providing for local option by wards and districts in the larger cities, and local option by counties including cities up to 25,000 inhabitants.

The election of officers for the current year resulted as follows:

Hon. President, D. J. A. Turnbull; Vice-President, Right Rev. Bishop Sweney; vice-president, Rev. J. B. Kenney; secretaries, Revs. Dr. S. D. Chown, H. S. Magee; treasurer, C. F. Verity, Brantford.

## TECHNICAL SCHOOL BUILDING

Chairman James Simpson Suggests That Plans Be Hurried.

Chairman Simpson of the board of education has decided to call a special meeting of the property committee in order to hurry the progress of the plans for the new technical school. Mr. Simpson has gone forward with the suggestion that the Whitney government be asked to help financially in the erection of the new institution, and this suggestion meets with the approval of several of the school trustees.

PERSONATORS IN OTTAWA  
ELECTION.

OTTAWA, Jan. 7.—Charles Kirk, one of the scriveners in the municipal election office Monday, has given Mayor Hopewell the names of at least three men who were personated in Rideau ward, and the mayor has promised to take action to punish the guilty parties.

The men personated were absent from the city.

Home Mission Board.

Rev. W. E. Norton, D.D., presided at the Home Mission Board of the Baptist convention of Ontario and Quebec, which met yesterday afternoon in the board room.

Appropriations for the quarter ending Dec. 31st, 1909, amounting to nearly \$7000, were passed. It was decided to open a mission station at West Fort Williams, and the board recommended that the members of Baptist churches living in that town organize at once and co-operate under one pastor with the State River Valley church. Rev. John Shostak, a Russian minister speaking five Slavish languages, was appointed to work amongst the 3000 foreigners in and around Fort William.

Amongst other matters the board decided on a new financial policy which will include the movement in many churches toward self-support, and the increase of pastors' salaries.

Hotel Bill Unpaid.

Nicholas Schwab is supposed to have employed the luxuries of the King Edward Hotel while unable to pay for them, and will face a jury on that charge. He is also alleged to have

paid a worthless cheque on R. E. Richards for \$10.

Rich Ore Shipments Are Made  
From the Elk Lake District

Traffic to Elk Lake and Gowganda. Now in Full Swing—Good Ore Found on Lucky Godfrey.

After the lull in traffic consequent on the closing of navigation on the Montreal River, traffic into Elk Lake and Gowganda is again commencing by way of Charlton. Already in the neighborhood of from 150 to 200 teams are engaged in hauling supplies, principally food stuffs for man and beast, some of the teams bringing on the return journey a portion of the first shipment of silver ore from the Blackburn mine at Miller Lake.

While the road between Elk Lake and Gowganda which was built by the government under the able superintendence of Mr. Alex. Graham is both a credit to the government and a pleasure to all who drive over it, the section between Elk Lake and Charlton here is great need for improvement since it is open-passable. Anyone driving over this portion of the road is compelled to turn out innumerable times into places, under ordinary circumstances unfit for a horse or rider to drive over, and delays are both many and tedious, if even for a slight accident happens on one of the freight teams half an hour and even longer being consumed while waiting an opportunity to pass. Some little work has been done on this road by the teamsters, but it is hoped that the government will see its way clear to spend at least a few hundred dollars in making traveling a little easier for the many teams which may have to use it during the year.

More has been spoken and written about the shipments of silver from Elk Lake and Gowganda and the first shipment of 38 tons from the Blackburn, which took place a few days ago, is only the beginning of what will reach a total of some 750 tons of ore, much of which is high grade, and the Blackburn will surround the two camps already shipped by a further consignment to Copper Cliff of five car loads, which before spring may reach a total of eight. In addition to this in the same neighborhood of Miller Lake, the Morrison, Mackay, LeRoy, Syndicate, O'Brien and Bonsai each will add to its quota of one or more car loads to be shipped by way of Elk Lake.

From the Gowganda ridge also come car loads from the Boyd Gordon three; Mann-Ryan, two; Reeve-Dobie, two; Bartlett, two; Bloom Mines, one; most of which will also go over the new government road to Elk Lake and thence to Charlton.

In the neighborhood of Elk Lake the Porcupine Goldfield is located on the Montreal River just below Elk Lake on the line between the townships of James and Willet, will ship its first car load of high grade ore about the first of February. The extent of the latest and best find on the Lucky Godfrey is known only to those primarily interested. It is, however, of interest to the general public that the Godfrey is probably the longest unbroken stretch of native silver in the country to be found on this new vein. It is three inches wide and has been opened up for over one hundred feet without a break. In this same corner of James the Devilin mine will participate in making the shipment of silver from this district, and the last one, their portion being one, probably two car loads. To this may be added shipments from the Marcelle and from

the Mackay property and one or perhaps two others all from this corner of James and Willet.

On the east side of the river, the Silver Alliance, on which property one of the phenomenal finds of silver was made some time ago, have again encountered shipping ore. This mine, with the Hamiton, Langham, United States, Cummings and other properties on the east side of the river will all make shipments of ore during the winter.

The Big Six, Mother-Lode, North American, T. R. 189 and others will each contribute a car load at least until next year. The T. R. 189, which up to the present has been a close corporation, will soon offer its shares for sale to the public, and altho' the management have consistently refused to divulge any information as to the actual conditions of the property, the finds of silver have been so phenomenal and so rich that information has leaked out and a sack of ore which was sent to Montreal a few weeks ago consisted of practically solid silver.

The Ottava, during the recent development which has taken place on the property, have taken out some splendid ore. From a stop which opened up about two weeks ago are running at least from 8,000 to 10,000 ounces to the ton.

The Boland-Thompson mine at Hubert Lake have at least three car loads of ore to ship. This amount will be supplemented during the winter by further shipments, and adjoining the Boland-Thompson the Silver Tunnel has also one car load ready to send to the smelter.

As the richness of a mining camp is judged by results of the miners, the general public have little or no idea of the amount of conscientious work that has been performed in this north country during this last summer.

New districts have been opened up, namely, the township of Shillington, Willison and the district along the east branch of the Montreal River, and in no case where work has been honestly prosecuted has the prospector failed to be rewarded by the finding of silver.

While the Porcupine district is engrossing a large amount of public attention at the present time, there are investors who put their faith on silver have inquiries looking over properties. Elk Lake and Gowganda, two notable instances purchases have been made, one of two claims for \$69,000 and another of two claims for \$60,000. The purchasers of this last property had not long to wait for their reward, altho' they paid cash for the claims. The second lot to put after they obtained possession netted them 50 sacks of 1000 ounce ore.

Elk Lake and Gowganda is as good as can be obtained anywhere north of Toronto. In Elk Lake with its seven hotels, some of which have hot water heating, the visitor of intending purchaser can live as comfortably as in any town in the country.

Other great improvements for travelers will be found in the Elk Lake Club. This is run on the most up-to-date lines and the residents of the town are able to take their friends there.

## How Many Opportunities

Have You Let Slip in the Past?

Here's Another  
Chance

More people have remained poor because of their ignorance of the earning power of money than from almost any other cause. And yet no feature of investment is quite so important as the knowledge of just how much work your money can do for you. One reason why so many persons do foolish things with their funds is that they do not stop to realize that money has a working capacity like a man or a horse. If your money is watched carefully the chances are that it will do more work than when it is not watched. In this the case is just like that of a human being. The whole subject of the productive power of money is one of supreme interest and significance to everybody who has savings or who expects to have any sort of investments.

The Oil Industry is King of Investments.

Oil shares will multiply capital and give forth more and larger dividends than any other form of investment.

If you have read anything about oil, and its production and uses, you must be interested, and I have tried to give you some idea in my advertisements of what this king of industries means to the commerce of the wide world.

But now—

I want to talk to you about how it affects you personally and financially. Let me try and point out to you how this wonderful industry may be your opportunity—the chance you may regret all your life if you allow it to slip by unheeded. In other advertisements I have already shown you the fortunes that have been made by those who invested in the California oil fields in the early days, and there is no question and no doubt but that the oil fields North of Edmonton will be the greatest and richest fields in the world, and the revenue and dividends which will be paid from them will make many, many people rich, wealthy and happy.

Are you going to get your share?

The Home Oil Company was started by a few men of limited means. The stock was sold at \$10.00 per share, and the same stock afterwards sold as high as \$5,000 per share. The Canfield and Chanslor Oil Co. sold its stock at 25c per share, and afterwards paid a dividend of \$20 per share. The Whittier Oil Company sold some of its stock at 3c per share, and within a year paid out a dividend of \$4 per share. The Lucile Oil Company sold its stock at 15c per share, and the same cannot be bought now for \$5 per share.

But it would be worse than folly for me to tell you that shares in the

## California-Alberta

Oil Co.

would make this wonderful increase, or, in fact, to make any positive statement as to what they would be worth a year from now, what I may think myself and honestly believe is another matter. What
