GERMANS DRIVEN FROM DELVILLE WOOD

A Hundred Mile Advance Made The British and Germans Battle By the Czar's Troops in a Week Fiercely For Possession of Trench TURKEY'S FIGHTING POWER NEAR COLLAPSE

RUSSIANS BREAK TURK POWER IN GREAT ARMENIAN VICTORY

The Grand Duke Nicholas Smashes Moslem Centre, Advances Hundred Miles in Seven Days and Has No Further Serious Opposition to Progress to Encounter.

PETROGRAD, July 27, via London, 10.10 p.m.—Russian troops covered a hundred miles in their advance on Erzingan within a week. The capture of that city means the virtual completion of the Russian occupation of Turkish Armenia and gives Russia the benefit of the extremely fertile valley and opens an easy means of communication thru Trebizond for the western and southern Caucasian armies.

The Russians now have captured Trebizond, Balburt and Gumlikhanah and recaptured Mamakhatun. The Galician advance of the Russians has caused the Germans to withdraw troops from the Balkans and Turks were sent there to replace them.

"This defeat of the best troops of the Ottoman Empire has quite broken the Turkish defense. No further serious offensive can be expected, since only parts of divisions from the Constantinople, Thracian and Egyptian armies can be spared to patch up these broken units."

"This explains the recent orders calling men ordinarily exempt to the colors. Russia already has a large reserve, but it is our intention that this reserve shall not diminish. It is fitting also that the foreign races in Russia, who ordinarily would not be obliged to serve, should be recruited, if not in the active army, at least in work connected with the conduct of the war, for all elements in Russia will receive the benefits of victory."

TURKEY as a great military factor will have scarcely more to be reckoned with, for particulars of the Russian victory in Armenia, as sent out from Petrograd, show that her best armies have just been smashed by the Russian army of the Caucasus. The Turkish downfall was engineered in this manner. Three months ago when Von Mackensen was sent from Germany to take command under the great general staff, he decided on undertaking a comprehensive campaign for the recapture of Erzerum and the withdrawing of troops from the European theatre of the war. The Russians replied to this by holding the Turkish centre in the Erzerum district and by delivering an offensive blow in the district of Mush. This manoeuvre attracted a force of Turks from the centre to the Russian left wing, and when the blow in Galicia was struck, the Germans further depleted the Turkish centre by withdrawing men from it to garrison the Balkans in place of the Teutonic troops, called to Galicia. Gen. Judenich, in active command of the Russians, under the Grand Duke Nicholas, struck the Turkish centre and smashed it. The Russians then advanced 100 miles in seven days to Erzingan and as a result of their victory the greater part of the Turkish army of 350,000 men has been destroyed. Only weak resistance is expected henceforth to the progress of the Russian armies toward Constantinople.

MANY CANADIAN SOLDIERS ARE DECORATED FOR VALOR

In Long List of Awards, Many Shining Deeds of Individual Heroism Are Chronicled—Officers and Men of Ranks Share in Honors.

LONDON, July 27.—The following Canadian honors are gazetted tonight: Distinguished Service Order—Major John Alexander Ross, 24th Battalion, volunteered for and carried out with another officer a very dangerous reconnaissance in the face of a heavy fire and secured information of the utmost value.

LONDON, July 27, 8.15 p.m.—The following official statement on the progress of the British campaign in German East Africa, was given out tonight: "Yesterday on several sections of the front the enemy's artillery was particularly active against towns and villages in the Asiago basin, the upper Boite and Desano valleys. Some places on the lower Isonzo also were bombarded. The damage was slight and only a few victims are reported."

SOLDIERS' FAMILIES STRANDED IN ENGLAND

LONDON, July 26.—At a meeting of the Canadian Red Cross Society, Lady Drummond said that too many Canadian soldiers' families were coming to England. A man wounded or invalided out was sent directly to Canada, while the family remained in England thru lack of funds to return and was practically stranded.

DINEEN'S BARGAINS IN SUMMER HATS

Summer hats were never selling so cheaply as this season. Prices are one-third and one-half of the regular value. Now is the opportunity to secure a genuine Panama hat that will be a treasure for hot days for several seasons to come. The right kind of a Panama grows only very slowly and always retains its class and style. Dineen's Panamas are reliable.

LONDON, July 27.—Since the completion of the capture of Pozieres, the news from the British front in France is mainly of British actions and testing encounters at various points on the German line. The comparative lull and hot, hazy weather, it is assumed, has given the Germans an opportunity to bring up further troops and guns with a view to renewed attempts to recapture Pozieres, which, however, according to official reports, the British troops have further consolidated their positions.

A LAME DEFENCE OF THE NICKEL GOOSE THAT LAYS THE NICKEL EGG

Everywhere you turn people are talking about nickel and the nickel question. Yesterday a big deputation from the north country came down to Queen's Park to discuss one phase of it with Hon. G. Howard Ferguson. The deputation was headed by Mayor McEwen of North Bay. Mayor McEwen has been under the impression that the provincial government was about to construct and operate a nickel refinery, and he wanted it located in his own city. But it appears that the government is not going to do such a thing. It has a process for refining nickel which it will place at the disposal of any private corporation that wishes to go into the business. It may also bring pressure to bear upon the International Nickel Co. to refine in Ontario.

In his speech to the deputation Mr. Ferguson discussed at considerable length the whole nickel question which has become a very live question of late. Mr. Ferguson did not refer to the nickel in so many words, but he undertook to reply to the World and to restate in content form the joint and several defence of the Dominion and provincial governments to the World's indictment. He said, he said, had great stores of nickel when the war commenced, had imported a thousand tons per year from Norway and had bought up all the scrap nickel and nickel found as alloy with other metals. Now a great deal of Canadian nickel, according to Mr. Ferguson, has found its way from Canada to Germany since the war commenced.

Why is Mr. Ferguson so positive? He says, in the first place, that the nickel which goes from Canada to the United States is safeguarded by some agreement between the Canadian Government and the International Nickel Co., which is quite satisfactory to the British Admiralty. The terms of this agreement, he says, cannot be made public without causing grave international complications. Were its terms to be published the German-American would do something terrible. Hence it has to be referred to in whispers for fear the German-Americans might get on to it. Up to date the German-Americans, who are rather stupid, are unaware of any difficulty in getting all the Canadian nickel that has found its way to their comrades who control the International Nickel Trust. Recently a high official of the trust issued a statement saying that the company sold to anybody who wanted to buy, and asked no questions. The United States state department seems to have smiled at the agreement between Sir Robert Borden's government and the International Nickel Company.

Too bad the agreement cannot be published. But perhaps it is best to leave its terms to the imagination. We wonder where it is kept, and just what it looks like. No doubt it is written in red ink, sealed with seven black seals and signed at midnight. It is such a terrible agreement that Mr. Ferguson's teeth fairly chatter when he thinks of it. Not that Mr. Ferguson has ever actually seen the agreement, as we understand it, but all about how it was first discovered and how it was used for naval armaments and munitions. And then it has a short wind up saying with the situation raised by The World. Here is what it says:

Readers are aware of the exciting rumors to which the Deutschland got away from Baltimore with a large cargo of Canadian nickel aboard for the use of Germany; and, having said this, The Gazette reaches for Hon. Arthur Meighen, who, next to Mr. Macdonald of Pictou, N.S., and Mr. Nesbitt of Oxford, appears to be the parliamentary champion of the nickel trust. Mr. Meighen should remember that when he gets close to the nickel trust he gets close to the Standard Oil Company, and the farmers of the west have some idea of the pervasiveness of that organization as far as their welfare is concerned.

And we have been reading some of the canned articles in the Canadian papers about nickel and we are surprised to see how the same thing has been appearing in The Belleville Intelligencer, The Hamilton Herald, The Toronto Star and others.

### CATFISH POND IS STILL A NUISANCE

Delay on Part of City Council Aggravates West Toronto Citizens.

NOT BEING FILLED IN

Ald. MacGregor Will Insist That Money Voted Be Spent Immediately.

West Toronto residents are still wondering when Catfish Pond is going to be filled in. This same pond has caused discussion among the city fathers year after year, but beyond that little appears to have been accomplished. This year an amount of \$6,000 was placed in the estimates for the reclamation, but nothing has so far been done.

In the meantime residents in the district surrounding the place are to all reports suffering badly on account of the odors which are wafted across the locality these hot days and the mosquitoes are becoming perfect pests, being vectored on account of the various nuisances emanating from the pond.

Interviewed yesterday Ald. MacGregor, who has been extremely active in this regard, stated that as far as he was concerned every step had been taken and would put an end to the nuisance. In taking the matter up with Parks Commissioner Chambers he was given to understand that the contract for the reclaiming of the place had been let and work would be started immediately. Later he took the matter up with

### CHIEF ENGINEER COUSINS OF THE HARBOR BOARD

In reply Mr. Cousins wrote that no contract had been let, neither had an estimate been received for the work from the Canadian Stewart Company. Furthermore, it was pointed out that the contract would have to be between the city and the company and not between the harbor board and the company, as the alderman had been given to understand. Mr. Cousins also stated that he had attended a conference between Commissioners Chambers and Harris and the gift of George Lawrence. The gift was presented at the city hall steps by Mayor Church. In making the presentation the mayor paid a high tribute to the work done in the city by Capt. Morrow during his ministry at the Dale Presbyterian Church. Mr. Lawrence has frequently assisted in same church. Capt. Morrow gratefully received the valuable gift, and in returning thanks spoke with feeling of the boys who stand by the colors.

### WOODBRIDGE HAD "CLEAN-UP"

The women of Woodbridge and vicinity cleaned up their town of scraps, which aggregated them five tons, and in exchange for which they received \$75.00 to add to their patriotic endeavors.

### BOARD OF CONTROL IS ON ITS METTLE

Very Indignant at Montreal Unit Recruiting in Toronto.

GET NO INSURANCE

Those Who Join Battalion Will Not Be Insured—Protest to Bureau.

Loud protests were heard from the mayor and controllers at yesterday's meeting of the board of control regarding the action of Gen. Sir Sam Hughes, in allowing Montreal battalions the privilege of recruiting in Toronto. A letter of protest has been sent to Sir Robert Borden in connection with the matter.

None of those who enlist here with Montreal units will be insured by the city, said the mayor. "They will have to get the permission of the police commissioners to use our streets, and this will be refused." His worship maintained that while in Montreal he attended recruiting meetings at which thousands of eligible men were present, but enlistment was very low.

Controller Cameron was very indignant. "It is the worst black eye we have ever had," he exclaimed. "It is an outrage on Toronto and we should not stand for it. We are a prey for all the other cities who are not doing their duty. Our munition factories are of some importance, and surely are of some importance, and we have borne all cheerfully, believing that it was for the good of the cause. We won't stand for any longer." Previously the mayor had stated that, accompanied by Controller Cam-

### CITY HALL NOTES

At an approximate cost of \$50,000, Fire Chief Smith has recommended to the board of control that six pieces of apparatus be purchased from the La France Company. The matter will be considered by the controllers on Wednesday morning.

Three city aldermen are congratulating themselves on additions to their families. They are Ald. Archibald, Plewman and McBrien. Ald. Archibald and McBrien are fathers for the first time some weeks ago, but Ald. Plewman has now three children, the third being born yesterday.

### ATTACK SUBMARINE CASE

Berlin Reports Mariehamm Was Bombed.

BERLIN, July 27 (by wireless to Bayville).—A German naval ship on July 23 attacked to main base for Russian and British submarines at Mariehamm. It was officially announced by the German admiralty today. The ship was bombed by the anti-aircraft force, with 700 kilograms of explosive bombs. Although the air vessel was shelled it returned to port undamaged.

### RUSSIANS PURSUE DEFEATED TURKS

Capture Depot of War Materials in Town of Erzincan.

AUSTRIANS RETREAT

Draw Back Columns in Direction of Brody, in Galicia.

(Continued from Page One).

Russian forces operating in the Caucasus are continuing their pursuit of the retreating Turks. The Russian official statement says, in the Turkish frontiers of Erzincan the capture of which was announced yesterday, the Russians took a depot of war materials.

The text of the Russian official statement follows: During the night of Wednesday nearly a company of the enemy launched an attack on our position south of Lake Volchikino, to the north of Lake Mladost. The attackers were driven back to their trenches.

In the district of Lobuz, south-east of Baranovichi, there were artillery duels and engagements with our front line detachments.

Detachment Attacks. "An attack by an enemy detachment of about 50 or 60 men launched Wednesday in the region of Troshchitsch-Bereznoie, about 12 versts (2 miles) northeast of Lake Ygorna, was repulsed by our men.

### FULL HONORS ARE PAID TO SOLDIERS

Double Military Funeral Held in City Yesterday Afternoon.

COMRADES ATTEND

F. A. Branch and B. S. Brown Were Members of Highland Unit.

A double military funeral was held yesterday afternoon from the McMill undertaking parlour, West Hloor street, when Ptas. F. A. Branch and B. S. Brown, both of the 134th Battalion, who died at the base hospital early this week, were buried with full military honors.

More than one hundred men of the 124th, under the command of Major W. H. Murray, were in attendance and marched behind their dead comrades to the grave in the Neoropolis, where Rev. Canon Dixon conducted the burial services. No firing party was available for the ceremony nor were gun carriages for carrying the remains.

The 134th Battalion is on last leave at the present time prior to going overseas, and so for this reason neither the firing party nor band was obtainable. However, two buglers were procured, who sounded the "Last Post" over the graves of their departed comrades.

URGED TO STOP EXPORT OF ALL ONTARIO NICKEL

Big Deputation Also Advocated Nationalization of Industry.

Hon. G. Howard Ferguson Says It May Be Located in North Bay.

"Nationalizing the nickel industry might be a good war measure, but after the war there will be no more point in nationalizing nickel, than there would be in nationalizing gold, silver, or any other mineral."

This was the view expressed yesterday morning by Hon. G. Howard Ferguson, minister of lands, forests and mines, to a big deputation from the north country, several members of which advocated nationalizing the nickel industry.

The primary object of the deputation, however, was to have Ontario nickel refined in Ontario, near the point of production, Harry Morel, M.L.A., Mayor Melville of North Bay, ex-Mayor John Ferguson and other members of the deputation urged the siting of North Bay as the centre for the new industry.

North Bay, they told the minister, was the only town in Ontario on the main line of three transcontinental railways. It would soon be on the great lakes when the French river was canalized from Lake Nipissing to the Georgian Bay.

Unlimited electric energy could be generated from the water power in the neighbourhood of Sir Adam Beck, on behalf of the Hydro-Electric Commission stood ready to co-operate.

Mayor Melville of North Bay admitted that he had supposed that the government was going to construct a plant and refine the nickel, but he knew now that the government had no such intention.

He did not know whether he was in the wrong pew and the right church, or in the wrong church and the right pew, but he was sure he had held of the right minister, Refined in Province.

Hon. Mr. Ferguson, replying to the deputation, estimated that the government had secured a process for refining nickel, but it did not propose itself to the refining business. A private corporation was about to establish a refinery in Ontario and he hoped it would be located in North Bay.

The minister intimated that after the report of the nickel commission next December, legislation might be brought down requiring all nickel ores to be refined in this province. In a rather lengthy address to the deputation the minister replied to the charge that Canadian nickel was going to the enemy.

No nickel he was sure could be sent from Canada to Germany, because the only firm allowed to export nickel ore to the United States was the International Nickel Company, and that company had an agreement with the Canadian Government, which had been approved by the admiralty.

Members of the deputation, he thought, would publish them would be to invite international complications and arouse the German population in the United States.

All Canadian nickel in the United States was under the espionage of an army of British secret service men, the minister declared. It would be idle to bring back the refined nickel from the United States to Canada for the Canadian Government to store and distribute the same, as had been suggested.

THEORY OF FOUL PLAY EXPLODED

At Inquest on Body of Harry Samuels at the Morgue.

DEATH ACCIDENTAL

No Foundation for Father's Belief - Returned Hero Complimented.

The theory of foul play in connection with the death of Harry Samuels, aged 23, of 256 1/2 East King street, who exploded at the morgue last night, after reviewing the evidence of witnesses, Coroner W. J. McCollum instructed the jury to return a verdict of accidental death.

While canoeing in the lagoon on Saturday, July 18, Samuels upset and was drowned. The evidence given at the second hearing two weeks ago by a special constable was of such a nature that the coroner ordered an adjournment and Detective Walter McConnell was ordered to make an investigation.

The special constable testified that he was standing on the shore, 20 yards away, and saw Samuels paddle some distance out on the water, followed by S. Pullan and the four men left him. Fisher Samuel, father of the young man who was drowned, was very much worked up over the evidence given, and told the police he believed there had been foul play.

Detective McConnell, however, stated last night that there was no foundation for such belief.

Coroner McCollum told the jury that he never would have conducted an inquest on the case had he not been ordered by the chief coroner, on account of the many wild rumors that were circulated over petty quarrels.

In returning their verdict, after a deliberation of ten minutes, the jury added a rider complimenting Police man Bell, a returned soldier, for his heroic attempt to rescue Samuels, Bell hurried to the scene and dived many times after the body. The coroner will forward a copy of the verdict to the police commissioners.

THREE UNITS WENT EAST LAST NIGHT

Battalions From Niagara Passed Thru Toronto for New Training Grounds.

FRIENDS AT STATION

Hundred and Twenty-Third Was One of the Units to Go.

Three battalions from Niagara passed thru Toronto last night on their way to an eastern training camp. They were the 119th, 120th and 123rd. These battalions had all received orders last week to prepare to move and were given their last leave, the 123rd spending the week-end in Toronto.

Disappointment awaited the men on their return to camp on Monday, when they learned that the date of their movement was postponed indefinitely. But the military authorities once more changed their minds, and the battalions went eastward last night. The train pulled in at six o'clock, and the men were crowded with cheering soldiers, but no one was allowed to leave the train. All appeared in the highest spirits, glad that their long weeks of drill at Niagara were at an end. No sooner did the train come to a standstill than the crowd on the platform began looking for friends.

Disappointment was depicted on the faces of some whose friends failed to find friend, but as the train remained for some time, all finally met, and the train pulled out followed by the cheers and best wishes of those left behind.

WILSON LINE STEAMER TAKEN BY SUBMARINE

Seizure in Norwegian Waters - Danish Steamer Also Taken.

LONDON, July 27, 9:05 p.m.—The Wilson line steamer Eskimo, 3222 tons, has been captured by a German submarine, according to Reuters' Christiania dispatch.

"The seizure," says the correspondent, "occurred in Norwegian territorial waters, according to the crew of a Norwegian guardship, while the Germans claim that the vessel was five miles from land."

The Danish steamer Normandiet has been seized by a German torpedo boat, says a Copenhagen despatch to Lloyds. The vessel was bound from Skelleftea, Sweden, for La Palice, France, with a cargo of wood pulp.

YONGE STREET FLAGMAN WAS VICTIM OF L.A.T.

Hugh Gallagher Had Charge of That Crossing for Sixteen Years.

Following collapse from heat Wednesday afternoon, Hugh Gallagher, 23 Strange street, 55 years of age, died in St. Michael's Hospital nearly yesterday morning.

The late Mr. Gallagher was a well-known character in Toronto, having held the position of flagman at the Yonge street crossing for 16 years. Prior to coming to Toronto, he was flagman in the Port Hope yards for 15 years since he took charge of the Yonge street crossing there has not been a single accident there. He was born at Grahameville, near Woodbridge, and while working on the trains in his youth had the misfortune to lose an arm.

Mr. Gallagher is survived by five sons, John J., Edward, Leo, Wilfred and Samuel, and one daughter, Loretta.

TO OBTAIN KNOWLEDGE ON DREAD DISEASE

Officials of Provincial Laboratories Visit New York and Windsor.

In order to obtain first-hand information about the outbreak of infantile paralysis in western Ontario, Major J. W. McCullough and Capt. Fitzgerald, directors of the provincial laboratory, have gone to Windsor and will visit Walkerville, Ford City and Sandwich east and west.

An official of the department is also going to Boston and New York to get some first-hand knowledge about how to check the disease.

DUNLOPS SWAMPED IN THE CUP REPLAY

Eatons Score Seven Goals - Will Meet Wychwood in Semi-Finals.

The replayed Ontario Cup tie between Dunlops and Eatons was played at Dunlops last night before a good crowd of spectators. The first game was called off four minutes from time with Dunlops leading by one goal to none, but the same was ordered to be replayed.

Dunlops started with seven men, and as the game progressed, Martin beat a good chance to open the scoring, but he was not wide enough. Martin beat other end Art Barron. At the shot, which went wide. A foul against Sharpe was called. A whistle was blown, but Baldwin shot wide. A few minutes later Dunlops accepted a pass from Balfour of Combs. Dunlops pressed and Gow was passed by White, but not scoring. The outside of the upright.

Eatons nearly scored. A whistle was blown, but the referee accepted a perfect pass from Anderson from Harry Anderson. A nice shot of the crossbar and went outside. Eatons took a corner, which went outside. At this stage of the game Eatons were having but little chance of the goal, but they were not to be deterred. They evidently missed the net on Wednesday. COLORADO THE mountain state whose popularity with American travelers has resulted in adequate provision for their comfort at moderate cost; where the rugged Rockies have been conquered with splendid highways, so that sight-seeing requires no effort. Volumes have been written about the grandeur of Colorado scenery; the exhilaration of Colorado ozone; the general inspiration, mental and physical, of a Colorado vacation—and every word is true. You can't exaggerate the pleasure and profit of a trip to Colorado. Starting from Denver, you can take numerous automobile and trolley trips into the mountains, 14 of which can be made in one day each. This beautiful city, capital and metropolis of the state, is an ideal headquarters for tourists. When you buy your ticket, remember that the Union Pacific is the only double-tracked line Chicago to Colorado; the only line protected by automatic safety signals all the way; the line that maintains more train service, exclusively Chicago to Colorado, than any other. DUNLOP AUTOMOBILE TUBES The Sure Way in Tube-Making There are many operations—almost important—in the making of each and every Dunlop Automobile Tube. The result is a True-Right-Through Tube which qualifies for records like the "Traction Tread" Transcontinental Triumph of 1912. On that memorable trip one tube, without being pumped up a second time, went from Halifax to Vancouver; two went from Halifax to Cranbrook, B.C., and the fourth went from Halifax to Portage la Prairie—all these accomplishments on the first supply of air to each particular tube. How is that for a test of durability and general efficiency? Tubes made by the exclusive Dunlop Doughty Process are absolutely air-tight, together, and vulcanized, they become a solid, inseparable, unbreakable unit. Besides being free from every semblance of a flaw, Dunlop Tubes are always uniform in size and thickness. Learn what these Doughty World-Famous Machines have done for motorists—use Dunlop Auto Tubes. SCHOOL ARE Very Little Years of Fair Steno most Dou NOT MU Fair Steno most Dou NOT MU Very Little Years of Fair Steno most Dou NOT MU

SCHOOL TEACHERS ARE POORLY PAID

Very Little Return for the Years of Study and Financial Outlay.

NOT MUCH TO LIVE ON

Fair Stenographers Make Almost Double That of Some Educators.

One way, and a very good one, to judge of the progress of a people is to note the value it places upon its educators. Vacation time in the opportunity given the public to judge this in a very tangible way, because it is then that advertisements for teachers take up daily no small space in the "ad" columns of the paper.

Judging by the specimens that find their way into Toronto journals the progress of the country is not as advanced as we should like to imagine it. If the matter of teachers' salaries is taken as the test, in keeping with other trades and professions one might almost say all other trades and professions—it might be supposed that salary or wages for the teacher would have advanced somewhat during the past five years, but the attitude of various sections, towns and cities throughout the province testifies that very little change has been made in this regard.

It is now an old-time song that the best teachers should be placed with the primary classes, the more primary the class the more the need for the best teacher. It is now an old-time song that the foundation needed upon which to build the desirable superstructure. Yet what inducement is offered to persuade either man or woman to undertake the arduous task of the primary schools? Five hundred dollars is evidently considered decent remuneration, and as has been previously stated, the average salary for a teacher is less than forty-two dollars a month on which to support a family.

He Prefers Factory. If the teacher happen to be a man—which does not happen very often, because men have come to see that it is better to work in a factory at three or four dollars a day than to toil in a school for something over a dollar—but if it occasionally happens that a man is so fond of the work that he will accept it in preference to a more remunerative employment, there is but bare existence if he has a family and no margin to begin a home or to open an account in the savings department of the local bank.

It takes years of special study and financial outlay to make a teacher, and what is there in it for the ordinary man or woman? Even Toronto, which leads in respect of salaries, is by no means munificent in its giving. A fair stenographer with a year's experience will easily make between seven and eight hundred annually, but a Toronto teacher is three or four years at the grind before this amount comes her way.

DOPE PEDDLERS ARE INCREASING

Pernicious Traffic Growing Despite Systematic Crusade by Police.

MANY CONVICTIONS

Authorities Will Tighten Band and Inflict Maximum Penalty.

To judge by the more frequent appearance of "dope peddlers" in the police court, it is apparent that this pernicious traffic is on the increase. In fact, during the past two weeks no fewer than twelve arrests have been made.

Since the beginning of the year the police have conducted a systematic crusade against the peddlers, which has led to many convictions. Despite this vigilance, however, drugs in increasing quantities are "escaping the eye" of the government officials and being smuggled into Canada, to be later retailed at exorbitant prices to the users.

Under the statute, "every person who, without lawful or reasonable excuse, imports, manufactures, sells, offers for sale, has in his possession, or has in his custody or control, any drug or substance which is prohibited by law, shall be liable, upon summary conviction, to a fine not exceeding \$500 and costs, or to imprisonment for a term not exceeding one year, or to both fine and imprisonment."

Questions and Answers

Dear Editor—Many thanks for answering my questions a few weeks ago regarding my favorite, Clara Kimball Young. I would like to ask a few more.

Does Clara Kimball Young live in an apartment in Park Avenue, New York City? Has she any sisters or brothers? Can you tell me when and where she was born? Has she ever been on the legitimate stage? What is her real name? If Miss Kimball before she was married, why did she not leave off the Kimball? Would you also please give me the color of eyes of my other favorite, Pauline Frederick? These two are the only ones that interest me in the movies. The other stars might be good, but I am sure they don't compare with either Clara or Pauline. I know that you have had the great pleasure of meeting Clara Kimball Young in real life. Have you also met Pauline Frederick? But enough! I could go on forever, but I must close.

Question—E. A. Mc.: This is the first time I take the pleasure of writing your Motion Picture Directory and I would like you to answer my few questions if they are not too much trouble to you.

The Ship Purchase Bill

There is not much left of the Ship Purchase Bill, but if anything is left for the president to sign it will be the most notable victory of Mr. Wilson's public life.

When the bill was first introduced in congress nearly two years ago the British and French governments protested.

Since then the opposition to the bill has been maintained behind the Anglo-French protest, and pro-voy sentiment was appealed to in the United States and Canada.

To meet this objection the bill was amended as to forbid the purchase of any ship belonging to a belligerent nation during the war.

ROBINSON RIDES TWO WINNERS, RICE THREE

Damrosch and Astrologer Win the Handicap Second Day at Hamilton.

By World Staff Reporter. HAMILTON, July 27.—Seven well-filled races, with the Sandringham Handicap as the feature, made up the program for the second day. Owing to the heavy rain, the track was somewhat slow when they paraded for the first race. However, a splendid day's racing resulted.

The feature handicap proved an easy win for Damrosch, owned by Lieut. J. K. L. Ross of Montreal. Damrosch took the lead at the start and was never headed, winning by two lengths from Fels. The latter was never nearer than two lengths to Damrosch, making up some ground in the stretch, where Mates had Damrosch under restraint. Runes was a distant third.

Blaise, at odds on, won the opening event for two-year-olds by a length from Private, which took the place from Beauty Spot. St. Charlotte was best in the second race, at a mile and a sixteenth. St. Charlotte was off in front and won by 1 1/2 lengths. Prime Mover and Fairy, together with the stretch, took the place and show, respectively.

Marygrove won the third race, moving up down the stretch to set first from Ethan Allen by a head. The latter's head in front of old Zodia, which got the show by a head. Mr. Seagram's Philadelpia was touted as a good thing. Astrologer won the selling handicap from a good field, paying a nice price. Fair Helen was second and Beauty Spot third. The closing event on the turf, went to Moss Fox, a long shot, Maudsels, an outsider, second, and Corn Broome third. Robinson added two more brackets to his record of the meeting, but he was not the winning jockey of the second day, as Rice landed three, the second, fifth, and the mile on the grass.

There were four claims in the fifth race. Sam Lewis claimed the winner, Pomp, and took him in for Conowingo, and the other three were for Conowingo, and in the resultant draw G. Alexander won out. The stewards made a ruling today on Thornhill, a bad performer, whose entry will hereafter be refused.

Y ATHLETICS AT VARSITY STADIUM. The Walker's Club was well represented last night, when the one mile was won by Freeman and Martens, scratch, and Jarrett, 50 seconds, out, who finished a few feet ahead of Freeman. Scouting has been very unfortunate in being unable to turn out on several evenings, while the other members, who are at present leading in points, have been on hand for all events. With only five points between first and third, some lively races are promised for the balance of the season. Standing by points July 27: Fred Jarrett 29, Geo. Goulding 25, Carl Mertens 25, Chalmers 6, J. Freeman 4, Williams 3. The boys' baseball game was very exciting, when Pearson's team tied Wells' team in the seventh inning, with a score of 8-8. An extra innings gave the game to Wells, who scored three runs, making the final 12-9 in favor of Wells. Four events were run off by the senior athletes last night, which ended in the following points: 1. 220 yards—J. Wardrop, 2; Leverty, 2; Chamberlain, 1. Time 24 1/2 seconds. Shot-put—J. Newell; Wardrop, 3; Barnes, Distance 37' 10". One-half mile run—J. Newell, 2; Winfield, 3; Barnes, 2. Time 2:07 1/2. WESTERN WAR CENSUS. As a basis for urging the men of Winnipeg to rally to the colors, a voluntary committee made a canvass of the city, and as a result they state that there are only 4500 single men and widowers without children between the ages of 18 and 45 years in Winnipeg who are eligible as recruits, according to the military registration census, which has just been completed. Of the total, 1583 are of Canadian and 1846 of British birth, 204 of American, 255 of allies, and 555 of enemy nations.

The homely onion has been the subject of an enquiry by a committee whose duty it was to go into the matter of its high cost. The report of the committee reveals the fact that the present high price of the onion is due to the stoppage of imports from Holland and Belgium and to the diminished import from Egypt and Spain. It is pointed out that onions can be grown in England, and to women gardeners of even quite amateur experience the contemplative cult of the onion is to be recommended as a real and useful war work. At a pound it will be profitable, and now is the time to sow. Fortune telling and all branches of the 'clairvoyant art' have been prohibited in France. The reason for this is that the war seems to have greatly increased the number of credulous persons anxious to obtain news of their dear ones at the front. Scandalous cases have been revealed of poor persons who have paid largely out of their scanty resources for information which was worthless; and, worse still, for comforting assurances.

HUGE RUSSIAN ARMY IS MENACING ENEMY

Austro-Germans Greatly Out-numbered on Eastern Front.

NEW YORK, July 27.—A despatch from Lausanne, Switzerland, to The Journal says: "Carefully sifted information today shows that the Germans have on the eastern front about 900,000 men and the Austrians 800,000 of whom they are said already to have lost some 200,000.

"The total of the Russian forces under the orders of General Kuropatkin and General Brusiloff equals 127 divisions of infantry and thirty-six divisions of cavalry, or 2,740,000 bayonets and 122,900 sabres, or a total of 2,900,000 men. General Brusiloff's army alone totals 1,175,000 men."

RETREAT OF TURKS BECOMES STAMPEDE

Enemy's Plight in the Caucasus is Most Desperate.

LONDON, July 27.—A despatch to The Daily Chronicle from Petrograd says: "On the Caucasus front the Turkish retreat is in the way of becoming a stampede."

"Erzingan is burning. With this city in Russian hands the occupation of all Armenia, which was delayed after the capture of Trabzon by the sudden renewal of Turkish resistance, will be accomplished in fact.

"The Turks are retreating west and also southwest apparently with the object of protecting the Barduz Railway and guarding the connections with Syria."

Major Hunter Will Not Be Candidate—Ald. Sam McBride Non-Committal.

Major A. T. Hunter definitely announced yesterday that he would not be a candidate at the coming election in Southwest Toronto on Aug. 21. "My work is at Camp Borden," he said. "I cannot possibly enter the field."

Ald. Sam McBride was non-committal as to whether he would be in the Liberal contest at the coming election. If he does run, he declared, it will be as a Whittier Conservative, which, he said, means one who believes in equal rights and against the prohibition legislation.

The Ontario Cabinet met yesterday and set Aug. 21 as the date of the election and appointed Ald. Russell Nesbitt as returning officer.

James A. McWilliam is still a matter for speculation. An announcement in The World yesterday, Fred Armstrong writing that he means one who believes in equal rights and against the prohibition legislation.

Thousands of men will be required this year to harvest the western crop, which is now being harvested. Now is the chance for every man, more especially those with farming experience, that are not at present, and who do not purpose carrying arms in defence of their country, to avail themselves of this opportunity to increase their earnings by working a few months at good wages.

Take advantage of the cheap rates and special excursion trains which will be run via Canadian Pacific from Toronto early in August. Date to be announced. Fare to Winnipeg \$12. 67

NOT PUBLIC EXECUTION. Casement to Pay Penalty in Pentonville Prison.

LONDON, July 27.—The London News Agency says that a public execution of Roger Casement is highly improbable, and that falling special instructions from the government arrangements to hold it in privacy at the Pentonville prison, Aug. 3, will be proposed.

In any case, the News Agency says a public execution would probably mean that reporters only would be admitted to the scene, and that the public. According to some authorities, executions for crimes except those of murder must be public.

WESTERN CANADA TO SHIFT SOME LOANS

Transference From London to New York on Limited Scale.

NEW YORK, July 27.—There are indications of early shifting to western Canada loans from London to this market, the hardy on the broad scale suggested in recent despatches from Winnipeg. It is known that prominent bankers are willing to make a loan of \$5,000,000 to Manitoba and \$2,000,000 to Saskatchewan, with probably \$2,000,000 to Winnipeg, the proceeds of which, to the extent as may be necessary, will be used to take up the obligations of Manitoba and the City of Winnipeg, now handled in London.
