advance from Macedonia into Bulgaria, and to the Danube. This river is about 180 miles distant from Monastir. \* ' \* \*

As German occupation of Roumania would be extremely dangerous to Russia by giving the enemy a point of support for a drive toward Odessa, the allies are certain to make strenuous efforts to hurl back the invader. The delay in giving Roumania full support was caused by the need for the formation of special armies for the campaign, and this was a work subjected to great delays, as also was the case with General Sarrail.

Continuing their advance into Macedonia, the Serbians have occupied the Village of Rapesh, as well as several other villages. They have also defeated the Germans sent to oppose them north of Sudhole and have put them in hasty retreat. Many Germans and Bulgarians have been taken prisoners. The scenes of the Serbian successes are east and southeast of Monastir. The French, Russians and Italians have also been proceeding forward at a rapid rate. The Italians beat off a violent counter-attack southwest of Monastir. The destruction of the Bulgarian army would compensate the allies for any temporary losses in Roumania.

On the western front the British and the French fought no infantry actions yesterday and the feature continued to be cannonading. The Belgians have secured a fleet of aeroplanes, and these have been doing useful work in the past week.

### BELGIAN AIR SERVICE BECOMES DEVELOPED

Aeroplanes Bombard German Cantonments and Aviation Field.

Paris, Nov. 21.—The Belgians have formed an efficient aerial corps and formed an efficient aerial corps and they are conducting many raids against the Germans. Tonight's Belgian official communication says: "In the course of the past week our air squadrons were very active. The aviation field at Ghistelles and enemy cantenments were efficaciously bombarded at night. Our pursuit airplanes fought twenty-five engagements in the course of which several enemy machines were seen to fall vertically. One of our pilots, attacked by four Fokkers, took to flight, and altho his machine was seriously damaged, succeeded in returning safely to our lines."

### "The Wonderful Year" By William J. Locke From Miss Marjorv MacMurchy's Reviews of New Books

OME, let us be thankful for a good story, for this is what Mr. Locke has written in "The Wonderful Year." He takes for his subjects a .young Englishman who has been a teacher in a school where successful examination can-didates are ground out; and an English girl who has failed to be an artist. These two he brings to Fortinbras, "merchant de bonheur." What must we do to be happy? they ask. Fortinbras sends them to the inn at Brantome in Perigord, and in the wonderful year they learn that people of good heart make your happiness when they love you, and that the essential things of life can never be neglected safely.

Read this story of the beautiful French country and you will be convinced that the happiness of the world is not being destroyed permanently, but that we are being given a chance to understand what real happiness is. Fortinbras is one of Mr. Locke's most lovable characters, and the story is a fine piece of atmosphere-creation and the teaching of wisdom and good-will. Mr. Locke is to be congratulated on hav-ing written a delightful novel. (Price,

To begin with, the sky of Toyland is sunny blue as the sky of Italy, and off in the distance glitter the spires and turrets of a golden city. Imagine the beautiful fairy-tale feel of it! And before the big glass doors have so much as swung back behind you, such a hum-drum place as Toronto is entirely forgotten, and all such Joyland bothersome things as Betty's horrid sums in long division, the composition Bobby has to write on "Tidiness," or the tickets you have to sell for a bazaar, have faded blissfully from memory.

For how could you remember anything unpleasant when every jolly soul in the Nursery Rhymes is beaming down on you from the sides of the piliars—Humpty-Dumpty, Tom, Tom the Piper's Son, Jack Spratt, Old Mother Hubbard, Old King Cole, and all the rest of them. And the thrilling animals that are here, there and everywhere to give that enchanting circus-y fee'ing—monkeys and foxes swinging in big hoops of red and blue lights, a great kingly looking elephant amiably dancing a Teddy Bear on the tip of his trunk, and a tall gray stag carrying a whole party of

Then Betty will probably spy the dolls and you may prepare to spend a quarter of an hour at least engrossed in the wonders of what you will see—little "Miss Canada" and "Young Canuck," the cunningest, chubby little dolls, being outfitted these before you in jaunty sports suits: the and wearing cross-wise from shoulder to waist a ribbon inscribed with the enthral-ling command, "Take hold of my hand and I'll Walk."

Znaves, Grenadier Guards, and numberless others.

Then there are all the fascinating things, such as "Willowcraft." out of which you make dolls' furniture, and the "Dolls' Dressmaker," with designs and patterns for frocks, coats and everything almost in a doll's wardrobe, and "Sandy Andy." the wonderful contrivance that dies up sand and sends it pouring down a slide, and, most wonderful of all, the airships—bliplanes and monoplanes—all ready to fly, and also the various parts for little boys who would rather make them for themselves.

It would be hard to tell who will like it best—Betty or Bobby or you.

# LAST RITES PAID

Alliston Church Crowded During Funeral Service of Late Minister.

### VIRTUES ARE EXTOLLED

Friendliness, Chief Characteristic, Pastor Declares in-Eulogizing Public Citizen.

Practically the entire constituency of the late Hon. James S. Duff went to Alliston yesterday to pay their last respects to the former minister of agriculture for Ontario whose funeral was held. The streets were lined with automobiles and buggies. The cortege. when it arrived from the residence near Cookstown, and when it left again for the small country cemetery near the late minister's farm house, seemed to fill the thorofare from end

Members of the legislature were there from all parts of the province. The train that left Toronto was filled with representatives of important public organizations. The feeling that animated all, whether they came from the city or country, was that in the minister of agriculture they had lost a friend.

Rev. W. G. Hanna struck a note in his funeral sermon in Knox Presby-terian Church at Alliston in the aftermoon when he said that the quality in Mr. Duff which he would like to emphasize was that of friendliness. His sudden death was a challenge to the manhood of the province to fill the

vacancy, he said. Friendiness had been the minister's chief characteristic in private life as devotion to duty had been his out-standing characteristic in public life. the speaker declared. "Perhaps I may say that, under divine Providence, had he been less devoted to public duty he would have been with us today," he said. "He never flinched from his place"

An unusually large crowd waited outside the church, where the public service was held following the private service in the home. Soon after the doors were opened at 2.30. o'clock standing room was occupied. The service was conducted by Rev. Mr. Cree of Alliston, assisted by Rev. W. N. Carr, former pastor at Cookstown; Rev. W.M. Morris, Orangeville, Rev. J. A. Radden of Everett and Canon Morley of Toronto. The choir of Mr. Duff's home church at Braden, Cookstown, assisted by the Alliston choir, sang.

### TREE IS NOW ADVOCATE OF BALLOT FOR WOMEN

Activities During War Compels Change of Mind of Noted English Actor, He Tells Club.

A large membership of the Women's Canadian Club had the privilege of hearing Sir Herbert Tree yesterday, in an address which was both in illustration of the magnificent dramatic art of the great English actor, and an insight into the ideas as to the place held by women in the mind of Shakspere, and in that of the visitor him-self.

Sir Herbert Tree acknowledged a change of mind in the matter of wo-man suffrage, to which he had once been an opponent. The influence of the world is very much in the hands of women, and they have risen to wonderful heights of heroism since the war, said the speaker. At the close of the strife it will rest with the women to teach their children the love of all nations and one common fatherand, and this with a universal lan-

guage, will do much to preserve a per-manent peace, he declared.

The audience was favored with a transposition soene, in which the not-ed soliloguy of Hamlet was said in the character of Faistaff, and the address of the latter before the battle, given in the voice of Hamlet. Despite the humor of the situation, the dramatic presentation of each was most impressive, the art of the interpreter reaching the climax during the soliloquy. Sir Herbert Tree is a great apostle in the land.

Miss Lang proposed a vote of thanks, which was seconded by Mrs. Starr, and responding to the wish voiced in drie; Hon. Frank Cochrane, Premier casion said he hoped to be in Toronto

of Ontario,

At the opening meeting, Mrs. B.
Johnston of Islington presided. Dr.
Fraser conducted the devotional exercises which he prefaced by a brief
address on the late Minister of Agriculture Hon. J. S. Duff, whose friendship he had had for a number of years
and whom he characterized as kindly,
hearty, friendly and generous.

An address of welcone was given
by Lady Hendrie, who gave some
practical advice, reminding the women present that the much had been
done, there was yet much upon which
to turn their attention. She dwelt
particularly on the care of children.

to turn their attention. She dwell particularly on the care of children, who were a wonderful asset to the country, and pointed out that the in the past children of rural parts had been regarded as being healthier than been regarded as being healthier than those of the city, conditions were changed now owing to medical inspection in the schools and the children now receive such attention that much disease had been both prevented and eradicated.

Lady Hendrie also expressed the wish to see all the delegates at Government House during their visit.

Response is Given.

The response to Lady Hendrie was given by Mrs. Wh. Todd of Orillia, who voiced the appreciation of the members for her presence and address. dress. The speaker referred to the great war-work that had to be done, but emphasized the point that the institutes were not temporary, but permanent institutions. The work was to continue, she said. She expressed her belief in the position of the agricultural body, in those that the women represented, for to them belonged the work of making the land produce, and this was the mark of aristocracy. There is no aristrocracy without the possession of land. the 30,000 women of the institutes who were today studying parliamentary

### AD CLUB HEARS ADDRESS ON RAILWAY PUBLICITY

Advertising Manager of C. N. R. Gives an Address Upon Work of His Department.

At the weekly luncheon of the Toronto Ad Club yesterday at the St. Charles Hotel, A. G. Penny, advertising manager of the C.N.R., gave an address on "Securing the Competitive Passenger Haul" in which Passenger Haul," in which he outlined in brief but interesting fashion the method by which a great railway secures its passenger business. Its activities in this respect, said the speaker, were governed by the company's resources. It had to depend for its amercial passenger traffic upon its Mrs. Lydia Board, 14 Howland avetourist traffic its resources were huntreal estate. Has Again Saved the Public Tens of Thousands of Dollars

Monday, George Lawrence, the Baker, put out a test of the Toronto Public; every Housekeeper in this city had made great ado about the price of bread being so high. The City Council even thought they ought to don caps and aprons and go into the baking business and save the people from the terrible oppression of the bakeshops. Men and women, experts, University Doctors and even the Federal Government at Ottawa were agitated to find some way of bringing down the price of bread. After all-they could do nothing. What was impossible for the city and even for the nation, was accomplished quietly and quickly Monday by ONE MAN-GEORGE LAWRENCE. George Lawrence's idea is best expressed this way: "With the whole country ready to fight against high prices, it is reasonable to suppose the whole public will fight for low prices. I will try the public out and see whether the Toronto public has any backbone and means what it says, or is a hollow bluff, and its wild gestures against the high price of bread merely play-acting. If the people of this city deserve to have anybody make a sacrifice to lower the price of bread, they will certainly follow the banner of the man who is fighting for low prices and give him their approbation, encouragement, influence and trade. I will try out the public and see whether they have any spirit of loyalty to the cause they have made such noise about, or whether they are just as willing to slide along as they have been, paying high prices for bread, and too indolent and disinterested to rouse themselves to action to help the cause they are interested in.

# If the People of This City Want Bread at 8 Cents a Loaf They Must Support the Lawrence Bakery

The price—8 cents a loaf—will not pay any bakery, even with a large quantity of well-bought flour, unless a tremendous turnover can be built up. This is just as much the public's business as mine, for I can make more money, naturally, at 9 cents than at 8 cents, but if I can sell for 8 cents and come out right I am willing to do it, if the public are with me. If I am wasting my time and do not get the 10,000 new customers I need to carry this plan through, I might as well fall back and let the public pay the big prices they certainly would have to pay if it were not for the action of this bakery.

If the Toronto Public Fail to Come to the Help of the Lawrence Bakery by Sending in Their Orders, the Plan May Have to Be Abandoned, and Bread May Go to 10 Cents a Loaf

If the public fail in the test I am trying out, if the people who want to lower prices for bread in this city will patronize me by sending me their bread trade, they will get lower prices. There are many who don't care what they pay for bread, and whose tables groan under the load of delicacies and expensive dishes, who don't eat much bread anyway, but I am speaking

Professional Men, Merchants, Clerks, Workingmen and People Living on Moderate Incomes

who do care what they pay for bread. These are the people I want to help, but I can only help those who help themselves

Will You Stand by Me? Will You Help Keep Down the Price of Bread? Your Order is Needed to Make a Success of This Worthy Effort

Remember, Lawrence's Bread will be kept up to the highest standard. No bread baked in Toronto can equal it. I do not claim my bread is merely as good as some other; my bread is better than any other, and a fair trial will prove it. Thousands of new customers came to me Monday. The plan looks good, but-I need YOUR order.

Arguments in the million dollar lawsuit of Isabeia Taylor against E. R.
C. Claryson and the estate of Robert
Davies were concluded late yesterday afternoon Mr. Justice Lennox reserved judgment. Yesterday the defendant had their innings, and strong
arguments were presented by I. F.
Hellmuth. K.C.. H. Ludwig, K.C., and
W. N. Tilley, K.C. They claimed that
the plaintiff had delayed too long in
bringing her suit, and that whatever
right of action she may have had in
the past was long ago barred by the
statute of limitations. Even if the statute of limitations. Even if the statute of limitations did not apply, they
claimed that she had acquiesced in the
action of E. R. C. Clarkson, assignee,
in conveying to the late Robert Davies
for \$45,000 prophrty which is now
worth at least a million, and which
the plaintiff claims was worth in the
neighborhood of \$500,000 at the time
of the conveyance. Counsel for the
defendants argued that, however valuable the property might be now, it
was not worth over \$45,000 at the time
Davies acquired it. Hon, Wallace Nesbitt, K.C., and M. K. Cowan, K.C.,
briefly replied on behalf of the plaintiff. Mr. Cowan also represents a number of creditors of Taylor Brothers,
who will be entitled to share in the
proceeds of any judgment that may be
rendered against the defendants.

At the opening of the argument yesterday his lordship stated that he was
under the impression that the action
was not barred by the statute of limitations, but he would hear argument

tations, but he would hear argument upon this point.

Unreasonable Delay.

I. F. Hellmuth, K.C., on behalf of the Davies' estate, argued that the plaintiff had unreasonably delayed the commencement of her action. She was chargeable with knowledge that came to her husband, W. T. Taylor, and the evidence showed that he knew of everything that was being done in the matter of the assignment. Plaintiff and her husband now claim that they have that the property in dispute was and her husband now claim that they knew that the property in dispute was worth half a million dollars in 1901, and yet they took no steps to reclaim it from Davies until 1914. They seem to have been roused from their lethargy by the sensational award in the Canadian Northern arbitration, where a portion of the land in dispute was found to be worth \$20,000 an acre. Mr. Justice Lennox: "That was enough to arouse them."

Mr. Hellmuth replied that by this time the plaintiff's right of action, if she had any, was outlawed. The yaluation put upon the land by the Taylors

Wabash Fireman, Hurt The brick business under the management of the Taylors, Mr. Hellmuth argued, had been a losing business.
H. Ludwig, K.C., who followed Mr Hellmuth just before the noon adjournment, spoke briefly, and dwelt, mainly upon the sensational rise in prices of real estate northeast of the city during the past few years. He ridiculed as extravagant the values

At the afternoon sitting. W. N. Tilley.

K.C., representing E. R. C. Clarkson, said that Davies, instead of scheming to get the property from the Taylors, had been their friend. He had loaned them money from time to time and had never even asked for security until the debt amounted to \$70,000. Mr. Clarkson, Mr. Tilley observed, had testified that Davies was much diswant the property in dispute, as he

# SOME NICKEL CONTENTIONS AND THE REAL ISSUE

More credence might be given to nickel shipments by speakers like Hon. A. E. Kemp, Hon. Howard Ferguson and others, if they were scrupulously exact in what they say. Mr. Kemp, for example, stated that the Deutschland came into harbor a few days ago and could take on 70 tons. Mr. Ferguson pooh-poohed the 25 or 30 tons, which he said was all the Deutschland could carry. The United States manifest of the last voyage showed that the Deutschland carried 374 tons of nickel to Germany, and it is to be presumed she will take a similar quantity this time. Such a quantity as 374 tons is by no means the infinitesimal amount Mr. Kemp speaks about.

Nor could it have come from New Caledonia. It has been shown that no nickel has been imported from New Caledonia by the United States since the war began. Mr. Kemp felt safe in asserting that 70 tons had been derived from other ores as a by-product, but will he make the same assertion about 374 tons and the present cargo in addition?

The News also thinks that "it is hard to say just how and where German secret agents are at work," with the suggestion that those who could prevent nickel being shipped by the Deutsch-land must necessarily be German secret agents. When the defenders of the present nickel policy of the government have to resort to such devices in order to satisfy their followers it is small wonder that the policy appears to be in extreme need of defence.

Another defender remarked a few days ago that at any rate the British navy would take care that no nickel got into Germany. We

have perfect confidence in the British navy, but think it too bad that it should be given the task of holding up nickel shipments to Germany in addition to all its other onerous duties. Why not make this the assessor some uncertainty on the fore, adds nothing to the value of the assessor some uncertainty on the land as land, and it might well be

The main argument The News relies upon is that it would interfere with the manufacture of munitions in the United States, intended for the entente allies, if any interference with the present nickel system were permitted. This, however, does not exculpate those who, from 1906 till 1914, declined to take any steps to have nickel treated or refined in Canada. A very small start made in 1906 would undoubtedly have grown to such proportions in 1914 as the property owner is not unnatural.

Another request, which was subsequently withdrawn, was that the building to be erected should be assessed at ten cents per cubic foot. No reference appears to have been made the property owner is not unnatural.

There miralty is satisfied with the way in which Canadian nickel is being handled, both in this country and when it gets into the Lynnog States. handled, both in this country and when it gets into the United States. We have answered this before and we answer it once more, that the Canadian people, in whose country the nickel monopoly exists, are absolutely dissatisfied with the way in which the government preceding the Borden Government and the Whitney Government have handled Canadian nickel, and even more dissatisfied with the way is which the Borden Government, whose chief participant in this policy is Hon. Frank Cochrane, and the Hearst Government, where the nickel Ferguson, have handled it! And the people of Canada will hold for what has not been done, and they do not propose to allow anyone to shift the responsibility from Canada to irresponsible parties. As minor quantity, and instead of collect

May Settle This Much-Vexed Question.

When the Globe Hotel and Land When the Globe Hotel and Lunch Co., formerly the Tremont Hotel, 169 Yonge street, appears in the police court today on a charge of "unlawfully having liquor on their premises at 169 Yonge street, the same not being a private dwelling house." this being a contravention of the Ontario Temperance Act, Magistrate Denison will be asked to answer the question. "What protection has a standard licensed hotelkeeper from the Ontario License Act, when a brewer sells him porter which they guarantee to be less than 2 1-2 per cent, but which, when analyzed, was 3.71 per cent?"

The hotel men are keenly interested in the outcome of the case, as they are anxious to know just where they stand when they buy guaranteed beers, ales and porters. This will be the first case of its kind tested in Toponto.

is a preparation that aids nature in keep-ing the complexion fresh and clear. Those who use it

Those who use it realize its superiority because of its softening, cleansing, soothing, skin-beautifying effects. The effective manner in which it removes lines, subdues tell-tale wrinkles, nourishes and rejuvenates a fading and aging face, and makes soft, flabby muscles into good firm flesh, is wonderful. Aided by Princess Face Powder, it protects the skin from wind, frest and chapping. A liberal sample of Skin Food will be sent upon receipt of fluc.

each officer and man in the famous regiment that bears the name of her ro, al highness.

They will be presented by the Canadian Red Cross Society, thru the generosity of several well-known Canadians who have subscribed to a fund for this purpose. Lady White, convener of the committee, made the arrangements for the sending of these gifts, and has received the following donations: His Honor the Lt.-Gov. of Manitoba, \$100: Sir Henry Pellatt, \$50; Sir Herbert Holt, Montreal, \$1000; G. F. Galt, Winnipeg, \$50; Col. J. W. Wcods, Ottawa, \$300; Sir Edmund Osler \$100.

No one in Canada would have a keener appreciation of the pictures of the Princess Patricia than the families of the officers and men who so proudly bore her royal highness' name and the colors she worked with her own hands.

The name "Princess Patricia" is one

# **WEEGHMAN BELIEVES** IN PLAYERS' COMFORT

Will Install Swimming Tank for Cub Players-Ask Fred Clarke.

Charley Weeghman, having been reelected president of the Chicago Cubs. is not only going to enlarge seating capacity of his tall park by some 600 grandstand seats, but is going to cele-brate further by establishing a "swimmin' hole" under the grandstand for the use of his players, Whether a splash poel is an urmixed blessing for the manager and is for the good of the sport seems a bit doubtful in view of the experience which Fred Clarke had with a tank in the old days at Pitzsburg. This cooler for humans was walled with concrete and lined with copper. Clarke's experience with this innovation is described as follows:

As soon as the hot weather arrived the place became a magnet for ball play-

scribed as follows:

As soon as the hot weather arrived the place became a magnet for ball players. Some of the Pirates would go to the park early in the morning and splash around in the water until noon. By that hour, almost every member of the team would be sporting in the pool. A few would slip into their clothes long enough to make flying trips to the lunch counter, while the rest would either send the bathoy after sandwiches, or else go without a bite.

Hans Wagner enjoyed the fun as much as anybody, for the Flying Dutchman can swim like an eel. Tommy Leach. Doacon Phillippe. Sam Leever and all the rest of the oldtimers, put in many a spare hour in that "swimmin' hole." They played water basket ball, water polo and other popular aquatic games. From 1 p.m. until time for play to start on the diamond, Manager Clarke was kept busy trying to drive his men out upon dry land. He usually had to order the groundkeeper to drain the tank before the players could be induced to don their uniforms. Then the long soaking would show certain weakening effects and Fred would storm, but the minute the game was finished every Pirate would make a mad dash for the pool. Incidentally, they won the pennant in 1901 and 1902. A big flood came along and played hob with the tank and the ball grounds in general. Clarke was not sorry. Neither was President Dreytuss. The rest of the Pirates were heartbroken. That was the last of the old "swimmin' hole."

Junior and juvenile hockey will be promoted with all the zeal possible this winter by the officials of the Alberta Amateur Hockey Arsociation. The association's stand of disapproval has been placed or all grades above junior, which, of course, includes senior and intermediate. However, the boys of 20 years and younger will be encouraged to play the game, will be helped to play it so that these young fellows can take the places of those Alberta athletes who have made such a pame for themselves in the battle fields of France and Belgium.

Harry Watson, the star centre player of last year's St. Andrew's College team. will likely be found playing rover for the Aura Lee seniors.

AMERICAN TEAM HOME.

New York, Nov. 21.—Members of the American athletic team who competed recently in the international track and field contests held in Stockholm returned here tonight on board the steamship Stockholm. They were Ted Meredith, Joe Loomis, Bob Simpson, Fred Murray and Andy Ward.

stars will be carried out by the hockey clubs.

According to Patrick, the National Hockey Association, in signing Eddie batman and Lieut. Art Duncan, has secured two of the best players in hockey today. "I consider Duncan the best prospect in hockey," declared Patrick, "and the N.H.A. is fortunate in having secured him. I don't know of any man who looks better or who gives more promise of developing into a star than Duncan. He is a big fellow, good stickhandler, and clean player. Of Oatman, I have nothing but admiration. He is a wonderful player, and the fact that during his four years' service on the coast he was selected for the all-star team each season shows clearly that he is one of the stars of hockey.

"I am certainly sorry to lose them, but to both players I have extended my congratulations for the patriotism shown in joining the colors, and wish them every success."

land and Spokane hockey circles are correct, big "Moose" Johnson, defence star of the Portland Rosobuds, may wear a Spokane uniform in the coming Coast Hockey League race. A Portland despatch states that Johnson's services are being sought by the new Spokane Club and that as Ed. Savage will have to find berths on his club for Loughlin, Marples and Irvin, the Winnipeg amateurs, there is a strong possibility of the deal for Johnson going thru.

Right now Savage, the Portland boss, is better off for hockey players than any other manager in the league. Besides Johnson he has Harris, Murray, Dunderdale, Barbour, Uksila, Marples, Loughlin, Irvin and Tobin. Barbour and Uksila were substitutes on last season's squad.

By Immigration Officials

Vancouver, Nov. 21.—John Sebastian Nicholis, the nedium-sized but doughry centre of last year's Victoria bockey team, who is now a member of Lester Fatrick's Spokane squad, is just getting over a severe attack of cholera directed at the American immigration officers at Maicus, Washington. "Sibby" forwarded his signed contract to Lester the other day and immediately boarded a train to follow it. All went well until the train came to the border at Marcus, when a gentleman wearing a cap with some brass on it began to ask questions. He was not satisfied with Sibby's statement that he was on his way to show the Spokane folks how centre should be played.

played.

In fact the questioning, according to Sibby, resolved itself into the third degree, with the official getting more suspicious every minute. So suspicious did he get that Sibby had to leave the train and send a couple of hurry-up telegrams to Spokane. Some answer was received confirming Sibby's assertions as to his occupation and integrity and he boarded the next rain for Spokane.

# LAKEVIEWS ELECT SKIPS FOR SEASON

West Toronto Will Curl at Lakeview Club-List of Skips.

The adjourned meeting of the Lakeview Curling Club was held last night when skips were elected for the coming season and other matters relating to the coming season and other matters relating to the coming season discussed.

The club decided to send some fitting remembrance to the former members of the club who are now at the front, as well as a membership card for the coming year. The curlers, who have effilisted from Lakeview, are: H. Bayliss, E. L. Brennan, B. Mansell, fr., Cecil McCurdy, F. W. Tetley and Harry Young. It was decided that all inter-club matches should begin at 8 o'clock, and that the rink not ready at that time should lose one point for every five minutes after that time.

There was much enthusiasm shown when Harry Whetter, one of the oldest members of the club, was elected an honorary skip.

The West Torento curlers, who have lost their home, thru the rink being taken over by the military authorities, have decided to curl at Lakeview this winter, but under their own name. They will still be represented in the O.C.A. competitions.

will still be represented in the O.C.A. competitions.

Many new members have been enrolled at Lakeview for the coming season, the majority of them being green players. However, the list at present shows that the Harrison street club will be more prosperous than it has been for several seasons, and curiers will be assured of plenty afternoon curling, as well as the evening games.

The following skips were elected: L. J. Clark, M. S. Coates, W. Cebor, H. Chisholm, W. Graham, P. Hayes, A. Holmes, A. Keith, G. Loveys, A. McCurdy, H. Ranks, T. F. Robertson, W. Singer, C. Snow, G. Valentine, J. Witchall, R. Young and E. Ellan.

Hubert Chisholm and Charlie Snow were elected Tankard skips, while 2arthur Holmes and Ed. Allan were elected district cup skips.

A Quebec despatch says: No new developments in the signing up of local players have materialized. Paddy Moran and Joe Malone are still non-committal and have not yet turned in their contracts. It is not likely that they will remain out very long, as Manager Quinn has heard no objections from them concepting the amount of their salaries, which he states are very fair ones, and there seems to be no reason why they should not sign up with the team for another season. The City League players are still timid about accepting offers to turn professional and from the present indications it looks as if Lieut. Hughes will be the only local to accept a berth with the team. It is likely, however, that within a few days a local goal-tend will be signed on. Even should Moran decide to play again this winter, the club is determined to break in a player to succeed the veteran who, wonderful as he is, cannot be expected to go on forever.

"August Beimont's severe arraignment of the Pimlico race track managers because they suddenly have become antagonistic to the early closing stake system, which prevails wherever racing and breeding are promoted may lead to a turf war. HALIFAX STEAMER IS VICTIM OF SUBMARINE

Crew of Rappahannock Believed to Be All Lost.

Halifax, Nov. 21.—According to a cable received by the local agents last night the Furness-Withy steamer Rappahannock, which has been missing for several weeks, has been sunk by a German submarine. The London office of the company cabled that a wireless report had been received from Berlin that Germans had sunk the steamer. There is no word of the captain and crew of forty, and it is believed all were lost. The steamer salled from Halifax for Liverpool on Oct. 17 with a full cargo, among which was 20,000 barrels of apples. The steamer registered 3500 tons.

In an Underwood Typewriter the type bar (and, consequently, the position of the printed character) is under positive control -lateral, vertical, and frontal.

In other words, with the machine in proper adjustment, the imprint cannot be too high nor too low; cannot be to the left nor to the right of the correct printing point; and the type bar cannot go forward beyond a predetermined distance.

These are factors which, with others, make the work of an Underwood distinctive and instantly distinguishable from that of all other typewriters.

From Serious Wound When Long Termer Makes Attack.

Kingston, Ont., Nov. 21.—During work on the stone pile at the Ports-mouth Penitentiary this afternoon a mouth Penitentiary this afternoon a convict named Roy, attacked Benjamin Watson, a guard, hitting him over the head with the hammer he was using to break the stone. Watson was taken by surprise. The blow was a glancing one and doctors who attended the injured guard stated that his cap had tended to save his life. He is suffering from a severe scalp wound, but it is expected he will be on duty again in a few days. Roy is doing a twenty year term for a serious

Language is sometimes called the instrument of thought. But a very wise man says that really it is the nutriment of thought; the atmosphere in which thought lives; a medium as necessary to the activity of our men-tal powers as air is to the lungs. Shortly after six on the morning of Nov. 18, our guns opened a heavy barrage along the trenches opposite the Canadian positions, and our troops went over the parapet. The German guns promptly put up a counter-barrage, but it proved comparatively weak and our men went thru it with fewer casualties than were to be expected. Our advance was on a front of about 3500 yards, the movement was practically a swing forward of our left pivoting on the right and was everywhere successful. In depth the gain varied from about 200 yards on the right to something under 1000 yards on the left. The main or left portion of our objective was a strong line which our guns had been slashing heavily for several days before the attack.

heavily for several days before the attack.

Knoll Strongly Held.

The whole objective was quickly consolidated under the protection of our barrage, and was held securely except for a short stretch of the right of the point where the trench crosses the Pye road. At this point the line for several hundred yards passed over a knoll exposed to a destructive shell fire from the enemy's batteries. The knoll proved to be a nest of machine guns. Our troops fell back behind the crest and established themselves. The knoll was re-occupied by a party of Germans coming up by a new trench from below. Thereupon our artillery concentrated a heavy fire upon this new trench, isolating the occupants of the knoll and leaving them to be dealt with later.

# CITY HALL NOTES

In reply to Ald. McBride's statement council, that alien labor is being employed on civic works, Commission-er Harris has reported back to the board of control that on Nov. 11 he had 1123 men employed, none of whom be-longed to nations at war with the al-lies. Returned soldiers, he says, are given employment whenever they ap-ply, but they soon find a better posi-tion.

The city council turned back Dr. Hastings' recommendation on Monday to employ Nurses Dyke and Forsythe at \$1600 and \$1200 a year respectively. "I will have something to say about that before the board of control," Dr. Hastings declared yesterday.

Within a month it is expected work will be started on tearing down the old buildings on the new departmental store site at College and Yonge streets.

Ex-Ald. Alex. T. Stewart, 1 High Park gardens, died in the General Hospital Monday night, following an operation. He was born in Cooks-town 65 years ago, but had lived in Toronto for 21 years. He represented ward five in the city council in 1905.

The board of court vesterday ordered the works commissioner to pay the outstanding account of the Toron-to Electric Commission, on account of removing poles.

### HAD TOO MUCH LIQUOR.

Albert Smalley came up in the police court yesterday on a charge of having liquor in his possession, and was fined \$200 and costs.

The liquor was seized by a North Simcoe license inspector at Colling-wood, where it had, by Smalley's orders, been consigned by a Montreal firm. Smalley had recently removed to that town. The order was made thru a former liquor dealer of Toronto.

today a rift in the high-cost-of-living clouds that have been overhanging, and are taking advantage of the reduced price of bread as advertised in The World by George Lawrence.

The staff of life is the main staple of the nation, and the fact that George Lawrence has broken the high prices is not only heralded in the press of Teronto, but in homes thruout the province the people are being made aware of the saving.

In a further announcement today George Lawrence points out that only by increased patronage and a greater volume of business can the prices be maintained.

maintained.

"Eat bread, good bread, in larger quantities," should be the slogan of every economical housewife. Mr. Lawrence points out that the quality of bread will not be impaired in the slightest degree. Yesterday was a busy day at the Lawrence Bakery. Telephone messages fairly flowed a deluge of orders for thirteen tickets for a dollar. Seventeen per cent, is saved over the former prices.

Kerr Jake made a gain, selling at \$5.05, while McKinley-Darragh advanced to 61 1-2. Thousands of Dollars' Damage Done by Fire to Galt Store

Galt, Nov. 21.—One of the worst fires Gait has witnessed in some years, broke out this afternoon in the rasement of the Woolworth Co.'s store and before being extinguished, had destroyed the entire stock of the firm running into themands of dallars. The fire is thought to have started from an overhoated furnace, Firemen with nine streams of water fought the blaze for five hours. Stocks of adjoining stores were damaged by smoke,

# STRONG VEIN STRUCK

Word was received from Cobalt yesterday to the effect that a seven-inch vein containing cobaff, nickelite and an unknown quantity of silver had been struck in the crosscut from the Ophir-People's shaft in southeast Coleman.

Coleman.

The engineer in charge of the work was enthusiastic about the find, claiming that it gave great promise, it being similar in composition to the veins found on the Timiskaming and Beu-

the list at the Standard Stock Ex-change yesterday with the result that the volume of business exceeded a quarter of a million shares for the day. Not for a long time has ther-boen such a general demand for the mine stocks.

Outside markets have been so active the list at the Standard Stock Fixtime the crosscut was continued, and at 140 feet from the shaft the new vein was cut.

It is expected that some drifting will

have to be done on the vein before high-grade ore is struck.

Samples of the new vein are being assayed.

GIFFORD SHAREHOLDERS INCREASE CAPITAL

72 1-2, a new high for the present movement, had considerable to do with the big trading which developed in the Cobalt list. Nor did the gold stocks suffer by reason of the interest in the silvers. At a meeting of the Gifford share-holders yesterday it was unanimously agreed to increase the capital from \$250,000 to \$1,000,000. The stock will be offered to the shareholders for a limited period at 5 cents per share, and at the expiration of that time the remaining stock will be underwritten. Proceeds of the sale of stock will be used in further development. The general tone in the Porcupine stocks was strong despite a break in McIntyre to 176. This is a new low for some time. Buying orders appeared in sufficient quantity on the recession to cause a sharp recovery to 181, the market closing with this figure hid.

It is rumored that no difficulty will be experienced at the meeting of Mc-Intyre group directors this week when the matter of amalgamation comes up again. Should the merger go thru. McIntyre will unquestionably resume its old position as market leader. Mc-Intyre Extension was firm at 51 to 52, while Jupiter sold down to 27 1-2.

Schumacher was the feature of the gold list, making a quick spurt to 73, ster opening at 65. This issue has gained from around 50 in the last two or three weeks. Finds of great importance have been reported from the property to amount for the rapid rise in the stock. New York, Nov. 21.—The U. S. Steel Corporation tonight announced an increase of ten per cent. in the wages of the employes of its steel and iron companies, effective Dec. 15 next. Wage and salary advances in other departments of the corporation also will be equitably adjusted, it was stated. The increase affects in all about ed. The increase affects in all about 200,000 employes, and probably adds nearly \$20,000,000 to the corporation's

special to The Toronto World. Montreal. Nov. 21.—With net earnings approaching 35 per cent on the common stock, absolutely out of debt, the complete output for 1917 contracted for at fine prices, and that of 1918 also as good as sold, is the position of the Dominion Steel Corporation, semi-officially given out at the close of the meeting of the directors today. Altho there was no official announcement, one of the directors stated that the chief business to come before the meeting was the announcement of the sale of the entire steel output of the corporation for the year 1917. This means more than the selling of the 1916 output, for the capacity of practically all the mills has been increased and the increased output, with the enormous increase in steel prices, means that dividends on the common stock are coming rapidly within reach.

Enermous Assets.

That the Steel Corporation is in a position to take full advantage of the general prosperity of the steel industry has been pointed out on several occasions by President Mark Workman, who points to their enormous ore and coal bodies as the real asset of the corporation.

It is understood that the president also reported that considerable progress had been made in the payment of the \$3.400.000 notes, which are heing paid off at the present time, altho they do not fail due until 1918. This will reduce the fixed charges of the company something like \$200,000 annually, and, directors state, will mean no hardship at the present time, as there will be a considerable cash surplus left after the notes are all retired.

When asked regarding rail business, a directors state, who had a considerable cash surplus left after the notes are all retired. approaching 35 per cent. on the comme

When asked regarding rail business, a director stated that no rails were being manufactured at the present time, but that enquiries were coming in almost daily for rails for 1918 delivery. MANY TORONTO MEN

The meeting decided that bylaws should be submitted at the coming municipal elections to 110 municipalities that they might develop, acquire and generate power as well as transmit it. In addition, 28 municipalities between Port Credit and St. Catharines should vote on hydro radial bylaws.

There will be about 25 municipalities between Port Credit and St. Catharines should vote on hydro radial bylaws.

There will be about 25 municipalities voting on both bylaws.

After the meeting was called to order, Mayor Church said that means of getting more power had to be considered. Secretary Hannigan stated that the bylaw for the issuing of debentures for the development of power was only granted from year to power was merely following the assurances.

At that time that only the surplus electricity not required in Ontario would be exported. If the United States did not know how to use the power it had on its side of the river, it was not Canada's fault.

Sir Adam said that the whole agitation was in Buffalo for the purpose of compelling the United States war office to hand over the 4;400 feet per pany and the Niagara Power Company and to discourage the government developing power at Niagara Falls.

As the license for the export of power was only granted from year to year, the Canadian Niagara Power was merely following the assurances.

There were now 174 municipalities getting 200,000 horse power from the commission. If the power could be obtained, 250,000 horse power could be distributed, said Sir Adam Beck.

After allowing \$240,644 for depreciation in the various municipal plants the net surplus during the past year was \$461,896. The surplus directed to increasing plants was \$2,647,074.52, an amount on which no interest or sinking fund will have to be paid. There was, said Sir Adam, a saving of \$2,731,000 in the cost of power to consumers, and this year the amount would exceed three millions.

Within the next few months Sir Church, seconded by Mayor Stevenson of London, and unanimously.

A cursory study reveals a condition of strength and a growth of assets A cursory study reveals a condition of strength and a growth of assets so exceptional that comparisons with previous years become difficult. What these have been may perhaps be best appreciated by a glance at the total assets, which have increased by well over \$62,000,000 during the year, and now amount to \$365,215,541, such an increase being at the rate of over \$5,000,000 a month.

Position of Exceptional Strength.

Of its total assets of \$365,215,b41 it is able to report liquid assets amounting to \$246,932,630, equivalent to 35 much as 75.20 per cent. of the total liabilities to the public. Of the liquid assets, actual cash, as represented by gold and silver coin and Dominion notes, amount to approximately \$11,-200,000, equivalent to 12,57 per cent. of liabilities to the public.

Toronto Market Still Largely Consists of Speculation in a Few Specialized Issues.

Speculation on a broad scale continued at the Toronto Stock Exchange yesterday, a movement in Steamships common featuring the listed section. Early buying brought the price up to 40 1-2, but profit-taking became too general for the support and quotations fell back below 40. Russell common and preferred also showed vigorous action, but here again the best prices of the day were not held. Steel of Canada was fed out as fast as the market would take the stock, and the price was lowered a full point during the operation. Brazilian was again Heron & Co. had the following at the common featuring the listed section. Early buying brought the price up to 40 1-2, but profit-taking became too a general for the support and quotations fell back below 40. Russell common and preferred also showed vigorous action, but here again the best prices of the day were not held. Steel of Canada was fed out as fast as the price was lowered a full point during the operation. Brazilian was again weak, and it is now generally accepted that the dividend on the stock will be a strengthening of South American exchange. Except for the stocks mentioned, trading was not important, and quotations saw little variation. Monttreal in its effort to make a market for Brompton paper lifted the price to 80 and then put the quotation back three points. The pulp stock without par value, despite lively operations. could not reach the \$15 mark yesterday. The market has developed into one of keen professionalism, and the outside trader is willing to gamble as long as an active rising market is assigned. He is not willing, however, to carry stocks of intangible value for any lengthy period, and the distribution therefore is not as satisfactory as it might be.

Heron & Co. had the following at the close:

Montreal, Nov. 21.—The local market was rather irregular today. Steam-ships and Spanish were strong stocks, and Brompton sold higher among the unlisted. The rest of the market was on the heavy side; a break of 11 points in Dominion Bridge unsettled the rest of the list. Prices only sold off fractionally, however, and stocks were in demand on the recessions. The result of the Steel Co. of Canada meeting was not known until after the close of the market, and the declaration of a 4 per cent. dividend should get a favorable reception tomorrow morning.

### VALUABLE SHIPMENT FROM TIMISKAMING

A forty-ton car of 6000-ounce ore, or 240,000 ounces of silver, having a value of \$179,000, was shipped Saturday from the Timiskaming Mine. After deducting the overhead expenses, the net profits will be \$138,000 on the consignment. This shipment, added to the stock in store at Timiskaming of something like 950,000 ounces, or at the present price of silver, \$688,750, is one-third of the outstanding capital.
