A somewhat startling development in the case of the mysterious disappearance of J. Ambrose Small took place in the middle of last week and sent Detective Sergt. Mitchell off to New York at express speed. The World learned yesterday that information came to the knowledge of the Toronto detective department last Wednesday that a telegram had been respectived from a certain point in the United States to an address in New York, saying, "Hold Small for three or four days longer." ## STRIKE OF STREET RAILWAYMEN HANGS IN BALANCE---TORONTO "AWAITS ISSUE WITH ANXIET

## GEN. WRANGEL'S FORCES **ROUTING BOLSHEVIKS**

Troops Capture Four Thousand Prisoners and Forty Big Guns, and Lose Only Eight Hundred

That a strike of street railwaymen will be called is practically a foregone conclusion as the paper goes to press. The meeting was not properly called until half-past one, but the executive had prepared resolutions and amendments, the resolution calling for an ultimatum of 48 hours, that is, giving the T.S.R. 48 hours in which to decide either to grant wages in effect on the civic car lines or to accept a strike; the amendment was to delay the strike a week in order to further consider the problem from its many complex angles. Constantinople, June 15.—The forces of General Wrangel, anti-Bolshevik leader on the Crimean front, are moving northward from the Crimea and Sea of Azov in three columns. They have been phenomenally successful against the Bolsheviki and have established a front along Kaskovka on the Dnieper, General Wrangel's troops have captured 4,000 prisoners and 40 big guns of the 100 estimated to be in possession of the Bolsheviki. They have lost only 800 men.

The anti-Bolshevik forces advanced simultaneously from Perekop, Guenitz and Marlopol, clearing the Bolsheviki from both Crimean peninsulas and the shore of the Sea of Azov. General Wrangel's army is adequately provided with airplanes and armored cars.

He is a distinguished soldier, who went overseas in the first contingent, and saw continuous service until the cessation of hostilities. The church was beautifully decorated with flowers tied with tulle, hung at the guest pews and forming a complete alsle of white flowers up to the chancel steps, where there were large bowers of the same flowers. The communion table was banked with white peonies against a background of palms and ferns. Mr. F. Arthur Oliver played the processional music. And after the ceremony, while the register was being signed, Mr. George Allan sang. "O, Fair, O, Sweet and Holy."

Minimum on Socks.

Mr. McMaster said that the minimum on socks should be raised above \$1. Even the most modest sock, minus ornaments, cost \$1 per pair. The minister should remember that dry feet were the foundation of good health.

Sir Henry said that he doubted silk socks had much to do with dry feet, and the item passed.

Morgan Lang (Humboldt) protested that the proposed tax on underwear was too low. J. M. Douglas (Strathcona) and A. R. McMaster (Brome) supported him, the latter asserting that the health of the people was seriously menaced. Sir Henry Drayton then amended the resolution so that it taxes underwear, in excess of \$4 per garment, or \$3 for combinations. The figures previously stood at \$3 and \$6 respectively.

The following taxes were adopted without amendment: Fans, at any price; pocket books and purses in excess of \$2 each, and shopping bags over \$6 each.

Mr. McMaster thought \$4 was too low a price for an umbrella, but the item passed. John Harold (Brant) wanted the rates on fur raised, contending that the proposed exemptions were much too low. This item also passed. Glassware came next. Mr. McMaster wanted other kinds of glass besides cut glass taxed. The minister said he had decided to tax "etched" glassware.

The minister said he had decided to tax "etched" glassware.

Tax on Sperting Goods.

Sporting goods caused some comment. Mr. McMaster thought it a most intolerable piece of petty legislation to tax boys' skates or hockey sticks and did not believe the proposal came from the finance minister. Hon. W. S. Fielding wanted billiard tables and fishing rods distinguished from the smaller items. Sir Henry Drayton agreed with I. E. Pedlow that the word "cushions" might as well be taken out of the resolution, as it would be impossible to distinguish between cushions sold for verandal chairs and those used in cances. It was decided to insert skis and toboggons in excess of \$3 as taxable.

R. J. Manion (Fort William) objected to taxing snowshoes, baseballs and bats and lacrosse goods.

W. S. Loggie called attention to the fact that snowshoes were used by lumbermen in their business. The minister was agreeable to exempting snowshoes entirely. The exemption on baseballs, masks, psds, mitts and bats and lacrosse sticks was increased to \$2; formerly they had been taxed where in excess of fifty cents each. The ten per cent, tax on candy was adopted, with some amendments,

Sir Henry Drayten said it had been pointed out that iced cakes were classified as candy by the customs authorities, and he inserted a clause that exempts cakes or any edibles "not used as substitutes for candy." The one-cent candy goods, known as "gross goods," also is exempted from tax. Sir Henry formally introduced his amendment reducing the tax on chewing gum from 10 to 3 per cent. It was amended.

D. D. McKenzie protested strongly against the taxation of general lines of cheap candy.

Tax on Boats Debated.

The item which provides for "a tax of ten per cent. on boats, yachts, canoes and motor boats, provided that on satisfactory proof being furnished, that these articles would be used only for commercial or trading purposes, a refund of the amount paid shall be granted," caused a great deal of discussion.

Wm. Duff (Lunenburg) said this tax was going to entall a great hardship on men living in out-of-the-way places who built boats. Fishermen might also suffer, owing to the wording of the resolution. He suggested the resolution be amended so as to make the tax applicable to "boats for purposes of pleasure."

The item which provides for "a tax of ten which is believed to be injured internally and was removed by the police ambulance to the Western Hospital.

## EATON'S DAILY STORE NEWS

## To-Morrow Is NOT Soon Enough

THE TIME TO BUY CANOES, SKIFFS AND MOTORBOATS IS TODAY,

For while opportunities such as these are available, it is the part of wisdom to take advantage of them. Especially in view of the fact that many who failed to act promptly in preceding years were unable to secure canoes and skiffs until the season was almost over. If you contemplate participating in the joys of boating or canoeing this season, TODAY is the time for investigating these splendid values.

there is water enough for the ordinary rovaboat, and also may be used like a row-boat, in that the propeller is in a tunnel, which allows the boat to be pulled up on the shore without danger of injuring the propeller. The keel of these boats is of Georgia pine, the ribs of rock elm spaced in three-inch centres, and the planking of cedar. They are painted outside and the decks, coamings and inside of the boat are oiled and varnished in the natural wood, except beneath the floor, which is painted. They have four cross seats, as illustrated below, which will comfortably accommodate eight persons. There is a good high back to the stern seat and removable slat backs to the centre seats. The gasoline tank, which is of galvanized fron, holds six gallons, so that the boat will travel over sixty miles without refilling. There is a brass cleat on the front and back deck, a side steering wheel, a wire centre tiller line and rudder. They are powered with a 3 h.p. St. Lawrence motor, with battery ignition installed and tested. Speed \$350.00

CHAPTER L BUD LEE WANTS TO KNOW.

Bud Lee, horse foreman of the Blue Lake Ranch, sat upon the gate of the home corral, builded a cigaret with slow brown fingers, and stared across the broken fields of the upper valley to the rosy glow above the pine-timbered ridge where the sun was coming up. His customary gravity was unusually pronounced.

Tommy Burkitt, the youngest wage-earner of the outfit, and a profound admirer of all that taciturnity, good went into the make-up of Bud Lee, approached from the ranch house on the knoll. "Hi, Bud!" he called. "Trevors wants you. On the jump."

Lee watched Tommy coming on with

that wide, rocking gait of a man used to much riding and little walking. The deep gravity in the foreman's eyes was touched with a little twinkle by way of greeting. Burkitt stopped at the gate, looking up at Lee. "On the jump, Trevors said," he repeated.

"The hell he did," said Lee, pleasantly. "How old are you this morning,

ROWELL TO SPEAK.

New York, June 15.—(By Canadian Press).—Announcement was made today that Hon. N. W. Rowell, president of the privy council of Canada, will deliver an address at a special luncheon of the Canadian Club of New York to be held on Dominion Day. It was also announced that Sir Auckland Geddes, British ambassador to the United States, has accepted an invitation to speak at a dinner to be held by the club next fall.

ROWELL TO SPEAK.

As all as most, with sufficient shoulders, a slender body, narrow-hipped, he carried himself as perhaps his forebears walked in a day when open forests or sheltered caverns housed them, with a lithe gracefulness born of the perfect play of superb physical development. His muscles, even in the slightest movement, flowed liquidly; he had slipped from his place on the corral gate less like a man than like some great, splendid cat. The skin of hands, face throat, was very dark, whether by inheritance or because of long exposure to sun and wind, it would have been difficult to say. The

#### FROZEN FISH GOOD FOOD

The following item has been submit ted by William L. Found, deputy minister of naval service, in an effort to promote Canadian fisheries: Do you know the principle of the refrigerator in your home, in which you place foods from day to day to be preserved? You have absolutely no prejudice, have you, against foods that are preserved for several days in it? Well, then, fish when taken from the water are frozen immediately, and a glazed coating is put over them. Immediately they are put in celd storage and are preserved in the same state until required. During hot weather they are shipped to long distances in this condition, as it would be impossible to ship them the same distance n a fresh state. Analysis shows that the fish taken to the kitchen in a ozen state contains 100 per cent. of food value it had when taken from e water, and an experiment on your per cent. of the delicious flavor."

**BIG LIQUOR SEIZURE** IN NEW BRUNSWICK

largest seizure of liquor ever made in New Brunswick was reported this morning, and consists of barrels and cases of whiskey and other varieties with a gross weight of more than 12 tons. The seizure was made by Baker Brook, Madawaska county, by Sub-Inspector McLaughlin of Grand Falls and Rev. W. D. Wilson. It was shipped out of Montreal as fertilizer. The seized liquor is said to consist of 37 barrels and 200 cases, a total of 385 dozen bottles, which at present prices probably cost about \$14,000 f.o.b. Montreal. There is every reason to believe that the shipment's ultimate destination was the New England States.

## Mr. Byatt's Wages

In yesterday morning's press mention is made of of a statement issued by Mr. W. D. Robbins, Secretary of the Street Railway Men's Union, from which the following is quoted:

> "Mr. Robbins showed as an exhibit a letter from the private secretary of Sir George Foster to James Byatt, 112 Kintyre Avenue, acknowledging the fact that this man, who is on the re-establishment department, has received since May, 1919, wages totalling \$1,228.08, or an average of \$23 per week, from the Toronto Railway Company. This, said Mr. Robbins, was a fair sample of the average wages of the street railwaymen on the T. S. R.

In the first place, J. H. Byatt, badge 1893, is an extra man, having entered the service on May 10, 1919.

In the second place, when this man entered the service the initial rate of wages was 32½ cents per hour, whereas now it is 50 cents per hour; and it was not until July 4, when the men returned from the strike, that he received the latter rate. On August 10, 1919, his rate advanced to 521/2 cents, and on May 10, 1920, he received the maximum rate of 55 cents per hour.

The period quoted in which Mr. Byatt received \$1,228.08 was between May 10, 1919, and May 15, 1920, so that he received the maximum rate for only five days in that period.

The records show that Mr. Byatt was away from work for three days in the first half of June, 1919, on his own account, two days in the last half of June on his own account, nine days in the last half of June and three days in the first half of July on account of the STRIKE, the first half of January, 1920, ten days on his own account, the last half of March thirteen days, first half of April one day on his own account; a total of forty-one days, not including his weekly off days.

Taking the period since July 1, 1919; during which he received the current rates of pay, he earned \$1,207.61 for eleven months; but it must be pointed out that he was off duty twenty-seven days in that period on his own account.

Had he worked full time, as he could have done, he would easily have made \$1,300 for the eleven months, or about \$120 per month, equivalent to \$1,440 per year, and he is an EXTRA man.

In the last half of May, 1920, he earned \$86.67.

This is hardly a fair sample of the wages paid to street railwaymen under prevailing rates.

### **UMPIRE CORCORAN SECURES REVENGE**

Cans Skeeter Captain and Misses Strike on Spencer, Giving Game to Leafs.

Jersey City, N.J., June 15 .- (Special.)-Umpire Corcoran had his revenge for his removal from the ball yard on Sunday by throwing the hooks in the Jersey eeters to the extent of a defeat at the hands of Hugh Duffy's Maple Leafs

Skeeters to the extent of a defeat at the hands of Hugh Duffy's Maple Leafs today. Corcoran's lack of judgment in the fifth herbed Toronto to a pair of tallies with the score balanced and these counters proved just the ones needed to sew the game up for the visitors in a 3 to 2 victory.

Corcoran judged the curves of Pitchers Harry Blemiller for Jersey City and Ryan for Toronto, and while his decisions called for frequent protests from both sides, Jersey City appeared to suffer most. Particularly was this manifest in the fifth when one of the prettiest strikes was delivered across the plate with Spencer at bat with two strikes against him. In place of being declared out, Corcoran counted a ball against Blemiller, which caused a hoff of protest from the crowd and Jersey City players. Captain Tom Denoville of Jersey City walked toward the plate to register a kick and was immediately ordered off the field. This worked the crowd in a frenzy of excitement, and for a time there was every indication of a repetition of the trouble which occurred two days ago.

Once more Police Captain Nugent appeared with his men on the field ready to act in case the occasion warranted it, but the excitement subsided finally and the gkame was finished in a Toronto victory. The fact that Corcoran had accepted all kinds of abuse from Manager Duffy and his men over a play earlier in the game without any move to penalize a single player and then at the first word of protest from the captain of the home team ordered him to the club house was considered a case of rubbing it in and the fans were all set for action and another attack when the police marched on the field.

When Corcoran made his ruling on Spenger in the fifth there was one man out and O'Rourke on third as the result of a three-bagger. On the next ball served to Spencer he connected for a hard rap to centre, putting O'Rourke home, breaking the tie and giving Toronto the lead. Whiteman here got busy, by forcing Spencer at second on a drive to Zitman. Whitey lost no time in steali

finish with honors about even at the wind-up.
Toronto had all the best of it in hitting by lacing Biemiller's offerings for it safeties, while Ryan subdued the Skeeters for an allowance of five O'Rourke set the pace for the Leafs with two singles and a triple, while Bill Zitman led the losers with a single and a double and carried home both Jersey Cliv counts.

Just as the game began a delegation of Elks from Long Island City Lodge appeared on the field and presented Gus Sanberg with a diamond studded elk's

Sanberg with a diamond studded each stooth.

While the game was in progress Captain Eddie Onslow received a telegram informing him of the critical illness of his wife, and requesting him to come home at once. Onslow played the game out and left immediately for his home, which is at Mount Pleasant, Ohio. He received the best wishes of every Toronto player as he departed. The series ends tomorrow.

No man has contributed more to the success and the enjoyment of bowling in Ontario than Dr. Creelman. No one, perhaps, has enjoyed in such remarkable degree the good-will and affection of his associates. All over the province, wherever there are bowlers, and there are few towns and villages in which a bowling club does not now exist, there is regret over Dr. Creelman's departure from Canada, and a sincere and common desire that he and his family may find the fullest measure of content and prosperity in the old country.

WESTERN ONTARIO CRICKET

Brantford, June 14.—In a Western Ontario Cricket League match on the O.S.B. grounds here on Saturday, Brantford defeated Gait by 16 runs, the score being 74-58. Brantford's bowling was particularly effective, while the feature of the game was a catch by G. Elliott, sr.. of Brantford Fans agreeing that it was the best seen on the local grounds for many years.

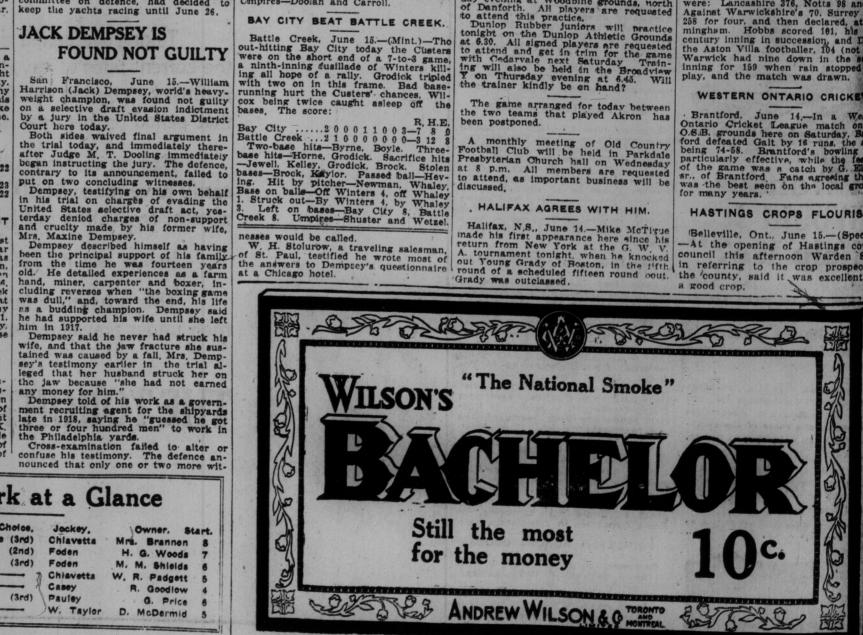

HASTINGS CROPS FLOURISH. Halifax, N.S., June 14.—Mike McTique made his first appearance here since his return from New York at the G. W. V. A. tournament tonight, when he knocked out Young Grady of Boston, in the 19th round of a scheduled fifteen round cout.

Grady was outclassed.

Grady was outclassed.

Gelleville, Ont., June 15.—(Special).

—At the opening of Hastings county council this afternoon Warden Sills, in referring to the crop prospect in the 'county, said it was excellent for a good crop.

FODEN WINS TWO, ALSO CHIAVETTA

Shot to Win on Tuesday at Dufferin.

The track was muddy for the first race and there was a continual drizzle and downpour yesterday afternoon at Dufferin Park. The place was filled and during the rain the betting shed and grand stand were jammed. They had, a task picking the mucklers and met with indifferent success, even Prunes falling to do better than second. Nettle Walcutt, Dladi and Pas de Chance were the winning favorites. Presumption, second choice, and Verdi Boon. Aigrette and Janice Logan, long shots, the lastnamed paying 10 to 1. The four beaten choices, Montagu, Omemee, Retreat and Zinnia, finished in the money. The meeting closes today with most of the horses going to the half-mile tracks at Montreal.

A fight is quite promising at the annual meeting of the Dominion Steel	
annual meeting of the Dominion Steel Corporation to be held on Friday next. The six objecting directors to entering the Grant Morden steel and steamship merger are in opposition mainly from the circular issued to the distribution that is to be made for the Canada Steamship Company and the other smaller shipbuilding concerns that it is proposed to take into the combination. The Canada Steamships was originally a merger itself and its valuation is thought to be based largely on the value of war tonnage. Estimates of the padding to be done in the promotion figure up \$51.000.000 ff new stock, for which no actual money is received. The sale of \$38,000.000 of new British Empire Steel will net \$11,400.000 at \$30 a share, and of this \$6,945.000 will be used in cash payments to the small companies taken in to the merger. Chicago, June 15.—Corn—Correct temperatures and rains in localities were responsible for an easy tone in the dorn market. This was soon changed to material strength because of a considerable broadening of the demand for the cash article. Movement from the west has been awaited.

J. C. Colling, of the firm of Hamilton B. Wills, and F. P. O'Hearn, with A. L. Hudson & Co., were elected members of the Standard Stock Exchange yesterday.

as farmers are indisposed to sell until something more definite is known of the new crop. There is a shipping demand in the southwestern markets. This is worthy of note for the reason that the demand has been extremely poor for some time past. The approach of July delivery day emphasizes the small accumulations at terminal markets the premiums for the contract grades and the improbability of any really burdensome receipts. If this thought is correct then the market will continue to respond to the cash situation and in time overcome the existing premiums.

Oats—The growing crop of oats secured relief over a fairly liberal portion of the belt, but elsewhere rains are wanted. The general trend of crop news is favorable, the market securing its strength from the action of corn and a growing belief that the producers will not part with the new crop at the extreme discounts represented by the price of the September delivery. There has been no particular increase in the shipping demand but the receipts continue to be inadequate for local uses. We expect this market to maintain its strength.

Tells London Committee He Doubts Wisdom of Taking Minor Companies Into Steel Co.

#### WOULD INVESTIGATE

London, June 15.—(By Canadian Associated Press.)—Mark Workman, Canadian member of the London advisory committee of the Dominion Steel Corporation, made the following statement to the Canadian Associated Press today regarding the merging of minor concerns with the British Empire Steel Corporation:

garding the merging of minor concerns with the British Empire Steel Corporation:

"On May & I attended a meeting of the London advisory committee, amongst whom attending were Sir William Beardmore, Benjamin Tatbot (who also represents the Furnesses), and Henry Steel. Opportunity was afforded me to state my views and those of my directors as to the question of entering the British Empire Steel Corporation.

Value of English Backing.

"I pointed out the great value of our having English co-operation to help develop our natural resources thru their financial assistance. I found the members of the committee fully alive to the advantages, both from the commercial and sentimuntal standpoint. I then brought to their notice the proposal to merge several minor companies in the concern and expressed the view that I considered many of those companies nomessential and even detrimental to cur mutual interests, but that in any event those companies should not be merged without the fullest investigation into physical valuation and financial condition and due regard as to the price at which it was proposed to bring them into the amalgamation.

Favor investigation.

"The committee were then unanimous in instructing their secretary to send a cable to Canada, asking that full information be furnished the advisory committee in regard to the physical and financial condition of all companies it was proposed to place in the merger. It was intimated that in the meantime the directors of the Dominion Steel Corporation would safeguard all interests here before any action was taken."

"The advisory committee," continued Mr. Workman, "are still without the information asked for regarding the companies it is proposed to merge. Under these conditions, I feel it my duty and in the interest of all concerned, that I make these facts public. I protest most vigorously against this proposed merger of non-essential companies, without the fullest investigation and in this I have to the best of my knowledge, the fullest co-peration of members of the
