

A FEARFUL VENGEANCE

For a Finnish Crime—Another Negro Burned at the Stake.

White Woman Horribly Assaulted and Murdered—The Murderer's Awful Punishment.

BARTLOW, Fla., May 29.—Fred Rochelle, a negro, 35 years of age, who at noon yesterday criminally assaulted and then murdered Mrs. Rena Targart, a well known and respected white woman of this city, was burned at the stake here early this evening in the presence of a throng of people.

The assault and murder was one of the most bold and coldblooded crimes ever committed in Florida. At ten o'clock yesterday morning Mrs. Targart went fishing alone in a small rowboat. A few minutes before noon, desiring to return home, she rowed her boat to the bridge, in full sight of the public thoroughfare, and made it fast. Leaving the boat, she proceeded only a few steps in the swamp toward the woods when she was approached by Rochelle, who had been hiding in the swamp. He seized her, but she broke loose and screaming, ran into the prairie, where he overtook her.

After the assault he held her with his hands and knees, and taking his knife from his pocket, cut her throat from ear to ear, causing instant death. He then walked to a negro who had been fishing on the bridge, and who was thoroughly frightened, and asked him what he should do with the body. He was told to let it where it was, but he took the bleeding form in his arms and carried it back to the swamp, threw it down and escaped into the interior of the swamp.

In less than an hour practically the entire city was in arms and a well armed posse was moving in every direction in search of the criminal. Bloodhounds were secured and all night a fruitless search was continued. This morning no trace of the negro had been secured and the people were becoming more determined to apprehend him.

About noon a courier arrived, announcing that the negro had been captured by two other negroes, three miles south of the city. Poses were immediately on the trail, but the captors evade detection and succeeded in getting their prisoner into the city, where they turned him over to the sheriff of Folk county. In less than ten minutes after the transfer had been made the streets were crowded with the crowd, augmented as it marched, moved on the hall.

In spite of the sheriff and a strong guard of extra deputies, the mob secured the prisoner and took up the march. Rochelle was half dragged, half carried to the bridge. Scream after scream broke from the negro's quivering lips, followed by groans for mercy. At the bridge the mob turned toward the scene of the negro's crime. By common consent burning was the penalty. There were no plans for any other death.

A barrel was placed by the stake, on the very spot where Mrs. Targart was assaulted and murdered. Rochelle pleaded for mercy but silence was the only response. There were no jeers, no curses, no disorder. Before the chains around his body had been made fast, cans of kerosene oil from many sources were passed to the front. One of the leaders slowly but deliberately poured the oil over the prisoner until his clothes and barrel were well saturated. Then the match was applied.

The blaze quickly leaped skyward. The burning body could be seen only as a dark object in the circle of roaring flame. Then the fire slackened and the writhing body came back in full view, but already the groans had ceased and the only evidence of life seen was in the contortions of the muscles of the limbs.

In a half hour from the minute of the application of the match, only the charred bones were left as a reminder of the terror crime and its fate. The crowd dispersed and at 8:30 tonight the city is quiet.

SNOW ON THE MOON.

Prof. Pickering of Harvard Gets Photographs Which Seem to Indicate It.

BOSTON, May 29.—Prof. W. H. Pickering of the Harvard Observatory, who has been making astronomical observations in Jamaica, West Indies, for several months, has taken a series of photographs of the moon, which appear to establish the fact that there is snow on the moon. This fact was suggested about a year ago by Prof. Pickering, and while in Jamaica he made a special study of this matter, adopting a method that would afford fuller data.

The method adopted was to take photographs of the moon at lunar sunrise, noon and sunset and half-way in the two intervals. To secure the necessary details the surface of the moon was arbitrarily divided into sixteen parts, and there are five pictures of each of the sixteen parts, or eighty in all. Arranged in series, all the prominences and depressions on the moon's surface appear lighter under five different angles of sunlight, and the astronomer may follow any given object of observation under as many conditions of light and shade.

What the snow really is can be ascertained, according to Prof. Pickering, by only a matter of inference. It is most probably the snow of water. It appears that the presence of an atmosphere on the moon is accepted now among astronomers, though it is of extreme tenuity. A general view of any given series of photographs gives a fair assurance also that there is something besides a bare hard surface reflecting the light. The moon stage in a series presents a diffused look in certain details, but not in all of them, that would inevitably suggest differences in the nature of the reflecting surface, and the most tenable suggestion is that the more diffused parts of the moon pictures are in that condition by reason of the presence there of snow.

MANUFACTURERS AROUSED.

CLEVELAND, O., May 29.—The Iron Trade Review tomorrow will say: As this is written a meeting of the leading manufacturers is being held in Chicago, from which it is expected some plan will issue for properly safeguarding the vast interests involved in machinery manufacture in the United States. The well known opposition of the International Association of Machinists to piece work, coupled with the double movement for a shorter day and an increased wage and the practical refusal of local unions to carry out the "handy man" provisions of the New York agreement, have brought our machinery manufacturers face to face with some of the problems involved in the great struggle in the engineering trades of England.

While the Chicago conference of Tuesday of this week was called to deliberate the wage question, the machine shops of that city, the manufacturers' gathering was augmented on Wednesday by representative men from different sections, and the outcome will be of great importance. Meantime the situation in Buffalo, Cincinnati, Hamilton, Dayton, Detroit, Cleveland, Milwaukee, Minneapolis and at several New England centres indicates that the manufacturers through their local organizations are standing united against the demands of the machinists' unions in their present form.

FARMERS BADLY BITTEN.

The Carleton county farmers, who were induced to assist in the floating of the Maritime Pure Food Company, have had a rather discouraging experience. Through mismanagement, the company became involved to the extent of \$30,000 or more. Some of this amount is represented in notes signed or endorsed by farmers. In a few cases, notes have been endorsed by private individuals to the extent of \$5,000. The banks are pressing for payment of these sums, and the endorsers are beginning to realize how dearly they have paid for their business experience. With proper management the venture might have been made a great success. As it is, the experiment proved a disastrous failure, and it will tend to discourage future attempts along the same line.

THERE ARE OTHERS but only one Kendrick's Liniment, the greatest modern household remedy. For all Pains, Lameness and Swellings get Kendrick's.

UNIVERSITY OF N. B.

The Encoenial Exercises Thursday Successfully Carried Out.

Mr. and Mrs. Harrison's Reception—The Conferring of Degrees—The Honor List—Annual Meeting of the Alumni Society.

FREDRICHSTON, May 30.—The encoenial exercises at the University of New Brunswick took place today. It has been a busy time for the professors, students and friends of the old college who are here.

A meeting of the senate was held at the education office this morning, those present being Dr. J. R. Inch, Chancellor Harrison, Hon. Archibald Harrison, J. D. Hazen, M. P. P., and Inspector Mercereau. The principal business transacted was with respect to the old college building, in which many improvements are to be at once made. A modern heating plant will be installed, sanitary plumbing put in and a water supply led into the building.

A long felt want of the college has been a commodious assembly hall, the high position in the building, which was being altogether inadequate. It was decided to enlarge and improve the library, which is located on the second floor of the college building, by removing partitions and to make it just capable of seating capacity. This will also give needed room for more book cases, called for by the growing and expanding library.

A committee consisting of Judge Barker, Chancellor Harrison, J. D. Hazen and H. V. B. Bridges, was appointed to supervise the above mentioned work.

The college halls and the residence of Chancellor Harrison were plentifully and charmingly decorated this afternoon with greenery, potted plants and cut flowers, in honor of the reception of Mr. and Mrs. Harrison from three to five o'clock. A large number of graduates, under graduates and other ladies and gentlemen called upon the chancellor and his esteemed wife, and all were delightfully entertained. Light refreshments being lavishly dispensed. Excellent music was furnished throughout the afternoon by the 71st Regiment band.

The new engineering and physics building was thrown open to visitors from four to six o'clock, and the building and equipment was inspected by many of the visitors, most of whom expressed themselves as much impressed at the beauty and adaptability of the building and the excellence of the equipment.

The conferring of degrees and other exercises took place in the University Hall this evening at 8 o'clock. The programme was as follows:

Address in praise of the founders, Prof. Dixon.

Winner of the Douglas gold medal, W. O. Raymond read a portion of his essay, "The History of the Province of New Brunswick."

Presentation of the medal, by his honor the lieutenant governor.

Alumni Society gold medal presented to C. B. Martin by President Phinney.

Mr. Martin read a portion of his address, "The Province of New Brunswick."

Presentation of the Montgomery-Campbell prize to Milton Price.

Brydon-Jack Scholarship awarded to H. S. Devlin for proficiency in physics of the third year.

Governor General's gold medal awarded to D. W. Hamilton for proficiency in natural science. Presentation was made by Dr. Inch.

Announcement of honors and distinctions.

Conferring of degrees.

With honors in 1st class. In classics—John Page, Milton Price.

In mathematics and math. physics, J. W. Clawson.

In natural science and chemistry—B. W. Hamilton, M. C. Coll, Clement Kelly, W. S. McKnight.

Degree of B. S. C., J. R. C. Macreald.

Degree of Ph. D. in absentia, in course, William K. Hart, Purdue University, Lafayette, Ind.

Valedictory, Clement Kelly.

Alumni oration, Rev. G. C. Helme, God Save the King.

HONOR LIST.

The honor list is as follows: Seniors. Classics, Class I—John Edmund Page, Milton Price.

Mathematics, Class I—John W. Clawson.

Mathematical Physics, Class I—J. W. Clawson.

Natural Science, Class I—D. W. Hamilton, M. C. Coll, Clement Kelly, W. S. McKnight.

Chemistry, Class I—D. W. Hamilton.

Physics, Class I—Clement Kelly, D. W. Hamilton.

Junior.

Classics, Class I—Chester Martin.

Mathematics, Class I—H. S. Devlin, Percy Perkins, J. E. Porter.

Mathematical Physics, Class I—H. S. Devlin, Percy Perkins, J. E. Porter, A. H. Legere.

Experimental Physics, Class I—Allen, Chester, Martin.

Natural Science, Class I—Penwick, Raymond, Tracy.

Chemistry, Class I—Penwick, Martin, Patterson, Raymond, Tracy.

English, Class II—Raymond.

Sophomores.

Classics, Class I—Lawson, McLean.

Mathematics, Class I—Miss Carruthers, Freeze, Patterson.

Mathematical Physics, Class I—Miss Carruthers, Freeze, Patterson.

Natural Science, Class I—Peters, Outton, Somerville, Miss Kinsey.

Class II—Alward.

Experimental Physics, Class II—Linden.

Freshmen.

Classics, Class I—Cowell, Miss Davis.

Mathematics, Class I—Cowell, Silbert, Jordan, Class II—Massie, English, Class I—Miss Mercereau.

Natural Science, Class I—Miss Buchanan, Jordan, Montgomery.

At the annual meeting of the Alumni Society, held in the college library last evening, the following were elected officers:

President, J. D. Phinney, K. C. Vice-presidents, Dr. Murray MacLaren, Rev. Archdeacon Neales, Dr. A. B. Albertson.

Secretary, H. V. B. Bridges.

Chancellor Harrison, J. D. Hazen, K. C., Dr. Philip Cox, J. W. McCready, B. C. Foster, Dr. W. C. Crockett, Dr. Thos. Walker.

Representatives to the Senate, Judge Barker, H. V. B. Bridges.

Chancellor Harrison from the University, which he claimed that the university had been highly honored by the leading institutions of learning, both in England and America, showing that our university occupied a high position as an educator, and this, he claimed, was largely due to the efforts of Chancellor Harrison.

J. W. McCready supplemented the remarks of Mr. Hazen by speaking in very complimentary terms of the excellent work done for the university by the present chancellor, who accepted the position in a trying time in the history of the U. N. B., and who has brought the institution up to a high plane.

CELEBRATED LIBEL SUIT.

Mrs. Josephine Curtis Woodbury Against Mrs. Mary Baker Eddy.

Founder of the Christian Science Faith—Mrs. Curtis Claims One Hundred and Fifty Thousand Dollars Damages.

BOSTON, May 29.—The first day of the celebrated libel suit for \$150,000 damages, brought by Mrs. Josephine Curtis Woodbury against Mrs. Mary Baker Eddy, founder of the Christian Science faith, which opened in the superior court today before Judge Bell, was devoid of sensations.

In opening the case, Judge Bell asked whether the six other cases relating to the same matter might not be tried simultaneously with this one. After a brief examination, Counselor Eddy said that he would not object if these cases largely depended upon the decision in the present one. Judge Bell then gave permission to proceed.

The plaintiff's counsel was placed at a disadvantage, and his plans were materially upset by the unexpected absence from court of Judge Septimus J. Hanna, editor of the Christian Science publications.

In the absence of Judge Hanna, Wm. B. Johnson was expected to be the chief witness, but Attorney Elder and Bartlett, by skilful manipulation of the finer points of the law, blocked the plaintiff at nearly every turn. The action of the court in ruling out testimony presented by Attorney Peabody to show that Mrs. Eddy in 1886 had caused the excommunication of Mrs. Woodbury, or had refused her admission to the church because it was too remote to have any connection with her alleged defamatory publications three years later, is expected to shorten the trial.

VERDICT OF MANSLAUGHTER.

HALIFAX, N. S., May 30.—The trial of Henry Keay and Thomas Carey, in the O'Connor tragedy, was finished this afternoon. O'Connor was found dead at the roadside, with his head battered in.

After the judge made a thirty minute address to the jury, the latter retired to their rooms; their deliberations lasted for something more than an hour, when they returned with a verdict of manslaughter and a recommendation to mercy.

THE PICTOU-CANADIAN.

PICTOU, May 30.—The plant of the defunct Pictou-Canadian was sold this morning by Sheriff Harris. Only representatives of county newspapers were present, and as they did not make any offers, the firm of Craig & Co., first judgment creditors, bid in the whole plant for the sum of \$700.

Among the creditors were Miller & Richards, Toronto, \$400; J. D. Paulin, \$100; Pictou Publishing Co., \$25; C. E. Tanner, John D. McDonald and James Carson.

INSTANTLY KILLED.

LOUISBURG, May 30.—Captain William E. Kennedy was instantly killed at the Dominion Coal Company's pier, here, this afternoon, by a fall of coal.

Capt. Kennedy was working in the coal pocket of the pier, when several tons of coal slid and fell, smothering him to death. It was nearly half an hour before his body was taken out.

Captain Kennedy was to be mate of the schooner J. E. Saint, was 46 years of age and leaves a widow and family of seven children.

SUCCESSFULLY FLOATED.

HALIFAX, N. S., May 30.—The schooner B. Mosher, before reported ashore on Sugar Island, near Whitehead, was successfully floated yesterday morning in a badly damaged condition. She was towed to Cole Harbor by the wrecking steam tug Aid.

Mr. Hirtle, underwriters' agent, arrived today.

OTTAWA.

Regular Census Enumerators to be Shorn of a Portion of Their Work.

That Flag Incident—Census Figures to Date Are Unofficial—Butter Shipments to Cuba—Other News.

OTTAWA, May 29.—The ministers are holding daily council meetings preparatory to scattering for the summer holidays.

Captain Bernier is still in the city, but goes east in a few days. He is sanguine he will succeed in raising \$30,000 by general subscription for his proposed polar expedition, and that then the government will give him the vessel.

Simon Fraser of Quebec has been appointed a customs officer at English Bay, Anticosti.

W. T. R. Preston, inspector of emigration agencies in Europe, was in the city today. He leaves for Portland tomorrow and will sail on the Dominion on Saturday.

George Johnson suggests, in connection with the action of the British consul at Bahia, Brazil, in ordering the captain of one of Col. Kaubach's vessels to lower the flag which he was flying, was possibly due to the captain of the Dominion is a red ensign with the dominion coat of arms on the fly. The dominion coat of arms consists only of the four original provinces, whereas many flag makers incorrectly blazon on the flag the arms of the seven provinces. Mr. Johnson thinks the captain may have been using one of these incorrect flags.

Mr. Blue, the chief census commissioner, stated today that any census figures published in the newspapers up to the present are not official, the department not having completed any returns as yet. About five-eighths of the total returns have been received.

Some of the census enumerators in their displeasure at the government for the poor pay which is being given them, are adopting a practice of withholding their census returns. As a result, it is likely the total of the population of the dominion will be delayed. This policy will not help enumerators to get their money, as under the law no man can receive his pay until all his returns are in. The government has conceded to the demand of the enumerators to this extent, that where in cases it is shown that a man has not been able to earn three dollars per day of eight hours on a basis of five cents per hour, the commissioner of the census district is authorized to report the facts to the department, when the difference in the rate will be made up to the enumerator so that his compensation will not be less than \$3 a day.

The board of geographical nomenclature met this afternoon and determined on the correct spelling of a number of places in the dominion. Recently objections were raised in Cuba to the quality of butter shipped from Canada, which caused an important investigation to be made, resulting in a determination of great benefit to the butter making industry. The collector of customs at Havana refused to accept samples of butter from the grounds that the material contained oleomargarine. He obtained from the chemist of the customs house laboratory a certificate that the Canadian butter contained 35 per cent. of this matter. According to a large market was closed against the Canadian product, and the president of the particular sample, Pierre de Bucourt of Scott Junction, Quebec, sought redress, as he was confident his goods were genuine.

His Majesty's consul in Cuba, produced a section in containing butter, which had been condemned, and forwarded it to the secretary of state at Ottawa. It was sent to the chemical laboratory at the Central Experimental Farm, where Professor Shurt applied the process of analysis. His table of constituents was as follows: Fat, 82.3 per cent.; water, 10.70; salt, 4.02; curd by difference, 2.33. This is a complete analysis, which shows that the butter was pure and entirely free from any foreign ingredients, whereas the Cuban butter supplied by the Havana chemist gave no detail further than: Butter, 65 per cent.; oleomargarine, 35 per cent. Such a statement does not permit of any criticism, and there is no proof offered in such a general treatment of so delicate an investigation.

OTTAWA, May 30.—According to a circular issued today by the census bureau, the regular enumerators are to be shorn of a portion of their work, and a new body of men appointed to take the census of manufacturers. The circular, in part, is as follows:

"The census of industries in the larger manufacturing centres of Ontario and Quebec will be taken by special agents appointed for this work by the minister of agriculture, instead of the regular enumerators, who would probably not possess the necessary aptitude and qualifications for procuring accurate returns. The names and addresses of owners or managers of manufacturing establishments, as well as locations of such establishments have been procured by the regular enumerators in the course of their canvass in all cities and towns where schedule No. 3 was withdrawn, and cards upon which this information was recorded are now in the hands of special agents for each city or town, who will use them in the distribution of schedules through the post office.

The time within which the schedule should be filled in, entered on the card by the special agent, and if the schedule is to be returned to him through the post office, an addressed envelope will be supplied for that purpose, otherwise the agent will call for it at the office of the establishment."

Reference to the lack of the necessary aptitude on the part of the ordinary enumerators is a rich joke at the expense of the government members who recommended them in the manufacturing returns. There does not seem to have been any relaxation of the rule laid down some time ago that no statistical record is to be made of any establishment which employs less than five hands. The absurdity of this regulation was demonstrated by Mr. Wallace, M. P., and others in parliament. In his own mill Mr. Wallace said there was an annual output of \$30,000, but under the new regulation of the census department no account will be taken of this output, which will be affected by Mr. Fisher's new rule, was in 1891, \$176,148,336, or an increase of \$166,527,019, over 1881.

W. F. King, deputy minister of labor, returned today from St. Louis, where he attended a convention of the officials of labor bureaus of America. Mr. King was elected second vice-president. The next meeting will be held in New Orleans.

A. B. Pipes has been appointed deputy warden of the penitentiary at Dorchester.

The funeral of the late John Hardie, chief clerk of the marine department, took place today. It was very largely attended.

Rev. Ira Smith of St. John has been invited to preach at the Memorial Church on next Sunday. The church is without a pastor at present, and the impression is that Mr. Smith will be chosen.

James Cummings, trade commissioner for Canada, in South Africa, writing from Durban on April 28th, says that as soon as peace is restored there will be a good prospect for Canadian products in South Africa. Especially will this apply to dressed lumber. Large quantities of the medium quality will be required. He says that most of the importations are made through London houses, but some American firms are represented. There will also be a demand for general furniture, cooking stoves, etc.

The most unique gathering ever held in Government House took place tonight, when over one hundred of the city cabbies were dined by Lord Minto. The guests were dressed in their best, and conducted themselves in conformity with the strictest Government House etiquette. The health of the King was enthusiastically received. Speeches and songs were given by some of the men. When the toast of the Governor General was proposed by the president of the Hackmen's Union, the wildest enthusiasm prevailed.

SOUTH AFRICA.

Dash of Kritzinger's Invaders Checked at Vandoesburg.

The Boer General, Schoeman, and His Daughter Killed by the Explosion of a Curio Shell They Were Examining.

CAPE TOWN, May 28.—The dash of Kritzinger's invaders of Cape Colony to the south was checked at Vandoesburg by the swift movement of Kritzinger's and other columns. The invaders, finding their way barred, swerved to the northeast toward Cloete. The continued capture of horses by the British is appreciably impairing the Boers' mobility.

PRETORIA, May 28.—The Boer general, Schoeman, and his daughter, have been killed, and his wife and two others have been badly injured by the explosion of a shell.

General Schoeman, his family and some friends were examining a 47 inch lyddite shell, which they kept in the house as a curiosity, when the shell exploded, killing the general on the spot and mortally wounding his daughter.

BREITENBURG, May 28.—Special despatches from St. Petersburg assert that Dr. Hendrik Muller and Dr. Leyde, representing the Boer republics, have appeared formally to the Hague arbitration court promising to abide by the decision of the tribunal regarding the issues involved in the South African war and pointing out that several of the paragraphs of the constitution of the arbitration court, signed by the powers represented at the peace conference, bear directly upon the South African case.

To cure Headache in ten minutes use Kumfert Headache Powders.

The actual weight of a ton of coal as sold by some dealers is a dark secret.

Remember! The NAME of the Post Office must be sent in all cases to ensure prompt compliance with your request.

BENTLEY'S is the best Lintment. The population of Sydney, says the Post, is estimated at about 10,000.

The death occurred at Hampton Wednesday of Elizabeth E., wife of Thomas H. Carvell, aged thirty-nine years.

Considerable quantities of oysters are being brought into Summerside, where they sell for 32 cents per bushel. Potatoes sell at Summerside at from 19 to 20 cents per bushel.

MOTHERS DO NOT FAIL TO SEE that you obtain the original and genuine McLean's Vegetable Worm Syrup—safe, pleasant and effectual at all times. At all reliable dealers. Do not be deceived, obtain the reliable McLean's Vegetable Worm Syrup.

Last week, William Callisshaw, this place, in boat fishing for cod, experimented with frogs for bait. It answered the purpose well. The fish eagerly grabbed the hook that had the frog—Coast Guard.

Capt. Anderson of the Cavalier, at Newcastle, reports that on the 23rd April he passed the schooner Eperanthe, of Dunkirk, in 60 deg. 30 min. N. lat. and 16 deg. 18 min. W. lon. abandoned. The schooner was not making any water and had sails torn away.

Somebody placed poison in W. W. Fawcett & Son's pasture at Upper Sackville, and as a result on Monday they found one of their best showhorn cattle dead. Last year they lost two animals in one week in the same manner. They offer a reward of \$100 for the discovery of the guilty party.

Nat McNair's saw mill at Nash's Creek, Restigouche Co., was destroyed by fire on Sunday. The loss is \$3,000, no insurance, and 40 hands are thrown out of employment. This is Mr. McNair's second loss by fire within six months, his shingle mill having been burned last winter.

The death occurred in Boston on May 19 of A. B. Carls, a native of Albert Co. Mr. Carls formerly lived at Edgerton's Landing, where he was born. He was well known in Hillsboro, and at the time of his death held a good position in the government service at Boston.

Widowed Father (to his ten-year-old daughter)—Do you know, Minnie, that your governess is going to get married? Minnie—Yes, I'm glad to get rid of that hateful thing—I was afraid she was never going to leave us. Who is she going to marry? Widowed Father—Mc—Tit-Bits.

Contractor Tilley, who is removing the old chimney at Jewett's mill, Millidgeville, has decided the structure is sufficiently strong to allow of its being taken down brick by brick. A staking is being erected, and in a day or so the monument will ascend to the top, a distance of about eighty feet, and commence their work.

The Moncton friends of Prof. Watts, now at Charlottetown, will hear with regret that his little daughter met with a serious accident on Saturday afternoon. The little one was on Prince street when a passing team ran over her. Her face was cut, and she sustained other injuries, requiring medical attention.—Times.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. See Dr. W. Grove's signature on each box.

The steamer Quiddy has been purchased from Emery Sewell by a syndicate composed of Capt. Chas. Taylor, of the Victoria, R. S. Orchard, J. D. McLean, W. J. Barton and C. W. McLean. The price paid for her was \$1,900.—Herald.

For the masses not the classes BENTLEY'S Lintment is the family medicine chest. Price 10 and 25c.

For 75 cents cash in advance the Semi-Weekly Sun will be sent to your address for one year.

TO EGYP. (Lancet Gazette.) The strange Kings were and the mid-day sun. A voice were they for the we live, and life's not done. At the strange Kings grower out, and the Spring's new, and ere their hearts we love, and have endures. The end drew a sorrow, night and stars overhead, we, and so daylight grew we die, but Death's not

NOTICE.

The canvassers and collectors for the SEMI-WEEKLY SUN are now making their rounds as mentioned below. The Manager hopes that all subscribers in arrears will pay when called on.

B. W. Robertson, in Charlotte County.

Edgar Canning, in Albert County.

Millions of dead smelts are lying on the banks of the Miramichi and on the islands, and the river is full of others just able to move.—Advocate.

CHARLOTTETOWN WEDDING. A pretty wedding took place at St. Peter's Cathedral, Charlottetown, on Monday afternoon, when James D. Collier, principal of the Charlottetown Manual Training School, and Miss Vitula Lathan Volkes, who had lately come out from England, were united in holy matrimony by Rev. J. W. Godfrey of Georgetown.

LOGS HUNG UP. The rain of Tuesday did not extend above Grand Falls, and therefore will not help the lumbermen on the head waters of the St. John. Robert Alken has got 10,000,000 out of the Aroostook into the corporation limits above the falls, but there is not enough water to float them down over the falls, so they are practically hung up.

THE FINE STANDS. At Hampton recently six young men were fined by Magistrate Piers for disturbing a Salvation Army meeting. R. L. E. Tweedie appealed to the supreme court for a writ of certiorari. This was opposed by P. and S. W. Palmer. Judge McLeod heard the arguments some days ago and has now dismissed the application. The fine of \$5 and \$4.50 goes against each defendant therefore stands. Two had already paid it and two had left the place.

BEACH'S STOMACH & LIVER PILLS, the only reliable TONIC pill for Constipation and Indigestion, no sickness, no pain from using Beach's Pills. Send 10 cts. to The Baird Company, Woodstock, N. B., for a trial sample. Regular size bottle price 25 cents, at all dealers.

Rev. F. Flewelling of Providence is in the city. Next Wednesday his marriage to Miss Isabel Smith, daughter of W. H. Smith, will be celebrated in St. Luke's church, of which he was curate at one time.

KUMFORT Headache Powders are safe, pleasant and effectual. They contain no opiates or any harmful drug. They create no habit on continued use.

Inspector W. S. Carter will visit Charlotte county schools early in June. The first week in the month will be spent on Deer Island, and then Grand Manan will be visited.

A strange species of fly, resembling an abbreviated "Yankee settler," visited St. Andrews last week. There were millions of them in the air. They stayed at the seaside for a day or two and then disappeared. The lakes were covered with them for several days, the fish gorging themselves with the new food.

A gentleman from Souris tells the Charlottetown Guardian that John McKay of Cable Head, while out fishing a few days ago, secured a codfish weighing eighty-four pounds. The head of the monster resembled a large kettle. In the stomach were found twenty-one herrings.

Str. Florida, at Sydney from Wabasco, reports that str. Creve, which was wrecked at Pointe Fine, Newfoundland, recently, will probably be a total loss. The crew, which was a sister ship of the Florida, was under charter to the Dominion Iron and Steel Co.

Lieut. Governor McClean of New Brunswick has offered \$5,000 towards the cost of a technical school at Sackville, if a similar amount will be raised by other friends of the Mount Allison Institutions.

A. I. Trueman, acting for Joseph Stachhouse and Ross W. Neil, who reside at Loch Lomond, has begun suits in the supreme court against the Mispic pulp mill and Robert Moore, the lumberman, claiming damages for the overflow of their land as a result of the erection of a dam on the Mispic stream by the pulp mill company and Mr. Moore. Mr. Stachhouse lives at the head of the second lake and Mr. Neil between the second and third lakes. Mr. Silas Atward will defend the cases.

BEATING ENGLISH LEATHER. LONDON, May 13.—It is calculated that no less than 200,000 pairs of the leather used by the boot and shoe makers of Leicester comes from America.

Bermudese leather experts explained to a Daily Mail representative that the reason for this was that American leather manufacturers were more advanced than our own. They split their leather so that it is ready to be made up at once by the bootmakers, and make use of all the labor-saving machines they can.

It was also stated that German leather manufacturers buy in Mincing lane market, and the skins to Germany to be prepared, and ultimately send them back to the English market to compete with Bermudese leather dressers.

FATALITY ON I. C. R.

Frenchman Killed on the Irons Near Moncton.

Had Been Drinking and Refused to Leave the Track When Requested by His Companion.

MONCTON, N. B., May 29.—A man named Fable or Peter Dupont, was struck and killed by the express from Halifax, about two miles east of Moncton, at one o'clock this afternoon. Dupont had been in Moncton in the forenoon, and had been drinking. He started to walk to Shediac, accompanied by a man named Dan Meyer, in short distance east of the Buctouche railway crossing, according to Meyer's story, the express from Halifax was seen coming. Meyer got off the track and called to Dupont to do likewise. Dupont persisted in remaining on the track, saying that Meyer had said and could take care of himself. He appeared to take no notice of the engine whistle and the next instant was struck by the engine and thrown into the ditch. He was picked up still living, and brought to Moncton, dying in a few seconds after being carried to the waiting room. His back was broken, and his ribs on the right side smashed in. No doubt the man stayed on the track as an act of bravado while, as with liquor, he had taken his last drink from a flask he carried just before being struck. Dupont was about 56 years of age and claimed to have come from France a few years ago. He had no relatives in this country and no occupation. He was well known to the police in Moncton, and was last arrested on the 10th for begging on the streets.

DEATH OF DR. BRIDGES' MOTHER. The death of Mrs. Bridges, widow of the late H. E. Bridges of Shelburne and mother of Dr. Bridges, superintendent of the St. John schools, occurred at Fredericton at 10 a. m., Wednesday. She had been ill for a considerable time of general debility, and died of pneumonia, the result of causing death. Mrs. Bridges was 76 years old. Her husband died some twenty years ago. Besides Dr. Bridges of St. John, she leaves another son, Inspector H. V. B. Bridges of Fredericton, and a daughter, Mrs. Walker, who teaches in the primary department of the Model School, and Bessie, music teacher and organist in St. Paul's church.

ST. JOHN MAN MARRIED. At St. Paul's church, Peabody, Mass., Wednesday, Dece Walker, son of Dr. Thomas Walker of this city, was united in marriage to Miss Mary Thomas of Peabody. The wedding ceremony at the church was a quiet one, and a reception at the home of the bride's mother was held after the wedding. The marriage was solemnized by Rev. Geo. Walker, uncle of the groom. The bride was attended by her sister, Miss Clara Thomas, as maid of honor, and as bridesmaids by Miss Jessie Walker, sister of the groom, and Miss Grace, widow of Peabody. Dr. T. Dyon Walker was the groomsmen. Mr. and Mrs. Walker will live at West Somerville.

SUIT FOR DAMAGES. The case of Officer Avarad Anderson v. John Hicks, collector of customs of Bridgetown, N. S., comes up before the supreme court in what place in June 18. Officer Anderson who is land owner and taxpayer in Annapolis county, went over there on last election day to vote, but was refused the privilege of casting his ballot by Mr. Hicks, the returning officer, on the ground that he had not paid his taxes, and was not entitled to vote in both places. In consequence, Mr. Anderson has entered a suit for substantial damages, and has retained James Ritchie, of Annapolis, to take charge of his case.

MYSTERIOUS DEATH AT SEBASTONE, ALBERT CO. A most mysterious death is reported from Sebastone, Albert county, a place about six miles from Hillsboro. A two-year old child of Mrs. Charles Collins was found lying dead in the wood shed attached to Mr. Collins' residence, with his head lying in a rope swing. Opinion is divided as to whether the child had been strangled, or whether it fell in some way and broke its neck. The child was alone when this accident occurred and had been dead for some little time before the discovery was made.

Bicyclists and all athletes depend on BENTLEY'S Lintment to keep their joints limber and muscles in trim.

A. I. Trueman, acting for Joseph Stachhouse and Ross W. Neil, who reside at Loch Lomond, has begun suits in the supreme court against the Mispic pulp mill and Robert Moore, the lumberman, claiming damages for the overflow of their land as a result of the erection of a dam on the Mispic stream by the pulp mill company and Mr. Moore. Mr. Stachhouse lives at the head of the second lake and Mr. Neil between the second and third lakes. Mr. Silas Atward will defend the cases.

William G. Hareham, aged 65, employed in the I. C. R. shops, died this afternoon after an illness of over four months. Deceased was a native of Dorchester and a member of the Orange Order. He leaves a widow, one George, employed in the I. C. R. stores department, and five daughters, among the latter being Mrs. E. W. Lewis of Campbellton, and Mrs. G. A. Beaumont of Hillsboro.

This was one of St. John's Kay's best days. Four Scott Act cases came up. The case against Sir James Fowkes was dismissed for lack of evidence. The cases against the Windsor and Leblanc's hotels, and Isaac Trenholm, were adjourned for further evidence.

Does Not Agree With Halifax as to South Shore Steamship Subsidy. Hon. Thomas Johnston, a member of the provincial government was in Yarmouth last week. Mr. Johnston informed The Times that the usual steamboat subsidy was ready for any company or individual that would place a suitable steamer on the route between Halifax and Yarmouth, the only condition being that no port which has hitherto been included in the service shall be given the go-by. The Montserrat made Lockport a stopping place, but the Prince Edward did not. The local government, Mr. Johnston said, had nothing to do with the Yarmouth-St. John service; that was a matter which rested entirely with the federal government, which had in the past, as they probably will in the future, grant a subsidy for that work. Reminded that the Halifax board of trade was opposed to the Nova Scotia government granting a subsidy for the Yarmouth-St. John service, Mr. Johnston said that the Nova Scotia grant was absolutely for the Halifax-Yarmouth service, but at the same time it must be remembered that there were ports on the shore that wished to trade with St. John, and the Halifax people could not very well prevent it. Mr. Johnston intimated that the provincial government was not in the steamboat business and, therefore, it was not its duty to find a boat for the shore. It had voted a subsidy, which was all it could or would do.

Children Cry for CASTORIA.

SHARPE & MACKIN, 385 Main Street, St. John, North.

MEN'S STYLISH SUITS!

We accept all the responsibility that leadership entails. You naturally expect us to offer the best values in Men's Clothing, and we do. Ours is the only stock in the city worthy of the name Complete. The only stock, where from cheapest to best—our guarantee makes satisfaction sure.

KING STREET CORNER GERMAIN GREATER OAK HALL, SCOVIL BROS. & CO.

AGRICULTURAL SOCIETY. Thoroughbred Stallion, Skeptic, Sold to Fred Sullivan of Golden Grove—Fall Fair Probable.

The regular monthly meeting of the Agricultural Society was held yesterday in their rooms in Market building. President Frink occupied the chair, and there were present: R. H. Patchell, B. N. Millidge, S. S. Hall, S. T. Gouling, P. Donovan, S. Creighton, Mr. Mullin and T. Fred Johnston.

After the reading and approval of last meeting's minutes, the secretary announced that the lease had been closed with T. Fred Johnston for the Moosepath Driving Park. The conditions of the lease as read were confirmed.

The executive committee reported that it being thought advisable that a change of ownership should take place with regard to the thoroughbred stallion lately purchased by the society, announced that it had been purchased from its late owner by Fred Stevenson of Golden Grove. The committee recommended that a bonus of \$50 be given to the present owner toward the completion of the purchase money and as an incentive to the proper maintenance of the animal.

Mr. Donovan, that the report be adopted. Considerable discussion ensued, during which the executive came in for some sharp criticism, and R. H. Patchell, seconded by Mr. Creighton, moved in amendment that the report be laid over until next meeting for further consideration.

The amendment was lost, and the original motion carried with but two dissenting voices. A bill from Barnes & Co. for stationery and printing, \$3.46, was ordered paid.

The question of holding a fair this fall then came up for discussion, and several suggestions were offered for the raising of the necessary money. Messrs. Johnston and Donovan reported concerning an interview with Hon. A. T. Dunn, at which it was determined that a grant of \$50 could be obtained from the government for this purpose. The additional members which the holding of the show would bring into the society would make up the balance required.

NOVA SCOTIA GOVERNMENT. Does Not Agree With Halifax as to South Shore Steamship Subsidy. Hon. Thomas Johnston, a member of the provincial government was in Yarmouth last week. Mr. Johnston informed The Times that the usual steamboat subsidy was ready for any company or individual that would place a suitable steamer on the route between Halifax and Yarmouth, the only condition being that no port which has hitherto been included in the service shall be given the go-by.

MONCTON. MONCTON, N. B., May 29.—Word was received here this afternoon of the death in Waterville, Maine, of Peter Doucett, as the result of a collision with an ice wagon, while riding a bicycle, the wagon passing over him. Doucett was a boiler maker, employed in the I. C. R. shops, and left here two years ago. He was about 33 years of age, unmarried and leaves a mother and two brothers in Moncton.

William G. Hareham, aged 65, employed in the I. C. R. shops, died this afternoon after an illness of over four months. Deceased was a native of Dorchester and a member of the Orange Order. He leaves a widow, one George, employed in the I. C. R. stores department, and five daughters, among the latter being Mrs. E. W. Lewis of Campbellton, and Mrs. G. A. Beaumont of Hillsboro.

This was one of St. John's Kay's best days. Four Scott Act cases came up. The case against Sir James Fowkes was dismissed for lack of evidence. The cases against the Windsor and Leblanc's hotels, and Isaac Trenholm, were adjourned for further evidence.

MRS. PEROT AGAIN. (Halifax Herald.)

BLOOD-PEROT—On the 23rd inst., at St. John's, was shown a photograph of a man, Rev. H. S. Stork, M. A., N. B., blood of Brickhill, County Clare, to Letitia A. R. Perot, lately of Baltimore, U. S. A.

Mrs. Perot is a native of Nova Scotia, being a daughter of one Captain Perot of Liverpool. She was born in Lunenburg county, and was first married to William Yates Perot of Baltimore, in Demerara, British Guiana, and they went to live at Baltimore fourteen years ago. For some time Mrs. Perot was a prominent social figure there. Then came the announcement that Mr. Perot had allowed her to obtain a divorce from him on the ground of abandonment, and the two children of the marriage were placed under their grandfather's care.

When Mrs. Perot went to England in 1899 via Halifax, with her daughter Gladys, Captain Neptune Blood travelled on the same steamer, and during the extradition process in London, which resulted in the child Gladys being handed back to her grandfather, who had gone over in pursuit, was much seen in court. The child returned with the grandfather, coming to Halifax before proceeding to Baltimore. She was a close confidant of Mrs. Perot during the time she was under arrest in England. Captain Blood is a divorced man. His sister is Lady Colin Campbell.

BASE BALL AT ANDOVER. Two very interesting base ball games were played at Andover, N. B., on Victoria day between the Caribou High School team and the Andover team. Both games resulted in a victory for the Andover team. Owing to the wet weather a large score was made on both sides. Pitchers Baird, Murphy and Tibbitts did wonderfully clever work in both games, while Porter and Craig never failed to stop the ball behind the bat.

Captain Emack showed himself fully competent of holding down first base, and Principal Shea displayed great tactics on third, while Miles and Turner played themselves valuable men in the field, making many fine catches. Each player seemed to have no trouble in making a score on the balls pitched by the Caribou team. Currier of the Caribou team did some very fine pitching, but could not keep it up. Looney did clever work behind the bat, and Miller made some fine catches in the field.

The Caribou team is considered the second best in the Maine League, while the Andover team showed themselves so much superior that with a little practice they will be second to none in that league.

RUSSIAN BUTTER. (London Letter, May 4.) This article, which was placed on our breakfast tables last year, to the value of \$4,600,000, has come to stay. With the Baltic declared "ice-free," we shall have heavy imports shortly. Much of it is from Siberia, and the government has provided excellent American refrigerator cars on its new railway to carry it in proper condition. And it is really a good, genuine article, not so rich as Danish (though the farmers are being trained by Danish experts) and it is placed on the market at a tempting price. Despite the crushing famine in Bessarabia, where 70 per cent of the farmers have lost all their hopes, where 60 per cent of the sheep have been starved, and where typhus is decimating the population, Russia is waking up. She will waken up our British farmers also before long, else they must go under in the struggle for very existence.

EMBARGO ON CANADIAN FISH.

No More Trout for the United States Markets.

Sportmen Can Bring Home 25 Pounds, No More - Restrictive Measures in the Interest of True American Fishermen - No Hardship on Megantic Club.

(Boston Herald, 26th.) The news was received here yesterday that the dominion government has decided to prohibit the export of speckled or brook trout, and also sea trout, from Canada. The reason given for this action was stated to be that sportmen from the United States have been in the habit of visiting Canada every season and taking across the line, upon their return home, trout by the hundred weight. The new order-in-council, which is designed to stop this and the export of trout for commercial purposes, takes effect at once. The matter proved to be one of great interest here, and was discussed by members of the fish and game clubs, the passenger agents of the railroads running into Canada, and also by fish dealers who handle trout in the local market. Opinions differed upon some details of the prospective effect of the government order, but it was generally agreed that, as the measure was restrictive, it would probably deter a good many sportmen from going to Canada, especially if absolute prohibition were insisted upon.

Mr. Chapman of Dame, Stoddard & Co., who is the secretary of the Megantic Fish and Game Club, which owns very extensive preserves in Maine and Quebec, expressed surprise at the news, because the government appeared to have exceeded the recommendations made by the Fish and Game Protective Association of North America, when it met at Montreal early in the year to discuss ways and means of saving game of all kinds from indiscriminate slaughter. The association referred to is composed of members of clubs existing in the New England states and Canada, and includes a number of game commissioners. F. S. Hodges is the Boston representative in the government list. One of its most active members is C. E. E. Usher, general passenger agent for Canadian Pacific lines east of Lake Superior. Mr. Usher has been an important factor, along with Mr. Parent, the premier of Quebec, in drawing the attention of American sportmen to the unbounded opportunities there are for fish and game in Quebec and Ontario, and in opening up these places for them, but Mr. Usher has also been most diligent in his efforts to prevent the wanton destruction of both fish and game in Canada, by either natives or Americans.

The International Protective Association recommended to the Ottawa government the passage of a law permitting each sportman going into Canada after speckled trout to bring out with him not over 30 pounds of the fish. The news about an order making a total prohibition therefore caused surprise and something like dismay, but Mr. Chapman and Mr. Colvin, local passenger agent of the Canadian Pacific, were confident there was some mistake about it, and there was. Mr. Usher wired, in response to an inquiry sent him at Montreal yesterday afternoon, the following explanation: "Dominion government regulation referred to permits, under certain conditions, the export of 25 pounds of trout caught for sport. The regulation is intended to prevent the commercial exportation of speckled trout, and is in the interest of American sportmen."

Just what the certain conditions are is not known here, as a copy of the law has not yet reached Boston. There have been other regulations, such as taxes upon fishing tackle, which have been more or less annoying to American sportmen going into Canada, but of late the Canadian authorities, especially those of Quebec, since the assumption by power of Mr. Parent, have made the way easier and have welcomed American sportmen and tourists more cordially than heretofore.

Local sportmen are therefore hopeful of having Canada make the restrictions as reasonable as possible. The number of American sportmen who now whip the streams of Canada is constantly increasing, especially from Boston and New York. Mr. Chapman said he was aware that some fishermen who live near the border had been bringing out of Canada immense quantities of trout, but those from Boston and New York did not do so, because, for one reason, they could not very well carry the fish, which are extremely delicate in flesh, so far and have them in good condition. The true sportman does not go in with the intention of supplying all his relatives and friends with fish. He eats his catch on the ground, just out of the water. Knowing the flavor of a trout under those conditions the fish pulls upon him after it has been lugged about and is stale.

Mr. Chapman thought 25 or 30 pounds of trout a satisfactory limit for a fisherman coming home. Such a limitation would not prevent any one from going to Canada, but if there was total prohibition it would have that effect, because, whether a man wanted to bring out some fish or not, the fact of such a law would be annoying. So far as the Megantic preserves are concerned, the law will work no hardship. The members who go over to the Canadian side of them have never made a practice of bringing fish out. They eat their catch, and if they want to bring any fish home they bring those taken on the United States side of the preserve. There is a greater migration of fishermen into Canada now than ever before. A number of Boston men who now make good luck on the waters of northern New Brunswick and in Cape Breton will continue to go there, but a larger number will try the region of the upper Ottawa, which is not surpassed anywhere as a game country, either in its vastness or in the quality of the sport it furnishes. New York men have been most numerous there heretofore, but now Boston and other New England men are turning their attention to it. The region includes the famous Temiskaming, and at Pembroke and other settlements suitable hotels are being built and the natives are making a business of fitting out American fishermen.

Trout, black bass, dore and maskinonge fishing is now easily accessible. The railway skirts the Ottawa for 356 miles, and there are several points from which expeditions may be made into either Ontario or Quebec. Several Boston parties have already been made up for some of these trips this season, and they are therefore much interested in the new government regulations. Inquiry at the market showed that this is the point where the new restrictive measure will strike. The first effect will be to make trout scarce and higher in price, as the Boston market is largely supplied from Canadian streams. New England can no longer supply this market with trout than it can supply it with hen eggs or lobsters. The fish is now retelling at 40 cents a pound. With the Canadian supply out of the price may rise to \$1 a pound.

THE SHEEPBUILDING INDUSTRY. (London Engineering.) Among the many reports we receive telling of the steady decline of trade, it is encouraging to learn that the shipbuilding industry continues to be well employed. In January we had reported a small falling-off of the last quarter of the year as compared with the corresponding quarter of 1899. But at the end of the first quarter of this year, March 31, the gross tonnage under construction was about 33,000 tons in excess of that on the corresponding date of 1900, the increase being entirely in steamer steel tonnage, there being a falling-off of more than 9,000 tons in iron tonnage, and 2,000 tons in sailing tonnage. It would not be stretching the truth very greatly to say that the only craft built are steel steamships, as these represent more than 99 per cent of the total under construction. At present 1,233,071 gross tons are in hand, representing 410 vessels, all these figures taking no account of warships. During the first quarter there have been commenced 144 vessels, of 374,852 gross tons, of steam vessels, and there have been launched 119 vessels of 267,717 tons. Most of the vessels in hand are for owners in the United Kingdom, only 22 per cent being for abroad, or foreign sale. Our best customer, Germany, has ordered 55,417 gross tons, while Austria-Hungary takes 47,580 tons, and Holland 45,000 tons. No other coun-

try takes as much as 20,000, except the British Colonies, which have 25,783 tons under construction. The sizes of steamers continue to increase. There are 90 vessels in hand between 3,000 and 3,999 tons, 61 between 4,000 and 4,999 tons, 24 between 5,000 and 5,999 tons, 14 between 6,000 and 6,999 tons, 18 between 7,000 and 9,999 tons, and 13 above 10,000 tons. The warships in hand, which are not referred to in any of the above figures, represent a large tonnage, and, of course, a much greater value per ton than mercantile vessels. In the Royal dockyards there are 19 vessels aggregating 137,340 tons displacement, under construction, and in private yards, representing 1,582 tons displacement. Of these latter, 32 vessels, of 201,330 tons, are for the British government, and 13 vessels of 35,043 tons for foreign governments. The complete total of warships is 44 vessels of 233,709 tons.

HOW TO FIGHT POTATO ENEMIES. Bulletin issued by the Maine Agricultural Experimental Station.

The Maine Experimental Station is now making Bulletin 73 of the station, which contains a full account of the experiments made in Aroostook county in 1900, in which ready prepared commercial Bordeaux mixtures were compared with the freshly prepared.

In these experiments Bordeaux mixture which had been made for weeks proved as effective in preventing blight and subsequent rot as the freshly prepared. While the "ready made" Bordeaux mixtures were not as effective as the regular Bordeaux mixtures, they protected the plants and the tubers from destruction by blight and rot. The question in the mind of the practical grower is, "Does spraying with copper salts pay?" In the experiments here reported upon, four sprays with Bordeaux mixture at a cost, including labor of man and team, of \$2.50 per acre, against a yield of 147 bushels of green and too small potatoes to command a ready sale. At the prices which prevailed at time of digging, the crop from the sprayed would have sold for \$106.40; \$102 for the merchantable and \$4.40 for the starch potatoes. The crop on the unsprayed would have sold only with difficulty except for starch, but assuming that the so-called merchantable could have been sold for the same price as the sprayed, the money value of the crop would be \$22.50; \$2.50 for the good potatoes and \$2.00 for the starch potatoes. The investment of \$2.50 gave a money return of more than \$40 per acre.

To be effective, spraying must be rightly done and at the proper time. The best time for spraying the potato, including potato scab, early and late blight, flea beetle and Colorado potato beetle, are given in the bulletin. Bulletin 73 will be sent free to all residents of Maine who apply to the Agricultural Experimental Station, Orono, Me.

Children Cry for CASTORIA.

RIGHT ARM TAKEN OFF. Thomas Conway, a brakeman on the C. P. R., was, Monday evening, run over by a train near Fredericton Junction and his right arm cut off. He was passing from one car to another, when he fell down between and the wheels went over his right arm. He was made as comfortable as possible, and was brought down to the city about midnight and immediately taken to the hospital, where he is resting easily. Mr. Conway belongs to Mosquito Cove, in Lancaster, and is married. Some time ago an accident deprived him of two fingers of his right hand. A branch of the Ancient Order of Hibernians, to be known as No. 1, A. O. H., was organized by J. Flanagan, H. F. Hamilton and J. O'Rourke, of Moncton, in the County Hall, Sydney, C. B., on Monday night.

JAMES BUCHANAN & CO. SCOTCH WHISKY DISTILLERS & BLENDERS. THE BUCHANAN BLEND. GLASGOW, LEITH, LONDON, GLENTAUCHERS DISTILLERY, MULBEN, SPEYSIDE, N.B. The Black Swan Distillery, 26, Holborn, LONDON, ENGLAND.

SUNDAY SCHOOL The International Lesson. Lesson X.—June 9. GOLDEN TEXT. I was not disobedient unto the heavenly vision.—Acts 26:19. THE SECTION. Includes the story of Paul's conversion, recorded in Acts 9: 1-20; 22: 6-18; 26: 9-30. PLACE IN THE LIFE OF CHRIST. The work of Christ in the world, after his ascension to the right hand of God. HISTORICAL SETTING. Time.—A. D. 37. About midsummer. Location.—Lewin. Most authorities place the conversion of Paul in this year. But Professor Ramsay makes it about 35; and Professor Thatcher, in '24 or '25. There is a space of time unaccounted for, and some place more before his conversion, and others more afterwards. Place.—Near Damascus, one hundred and forty miles northeast of Jerusalem. JESUS APPEARS TO PAUL.—Acts 22: 6-16. 6. And it came to pass, that, as I made my journey, and was come nigh unto Damascus about noon, suddenly there shone from heaven a great light round about me. 7. And I fell unto the ground, and heard a voice saying unto me, Saul, why persecutest thou me? 8. And I answered, Who art thou, Lord? And he said unto me, I am Jesus of Nazareth, whom thou persecutest. 9. And they that were with me saw indeed the light, (a) and were afraid; but they heard not the voice of him that spake to me. 10. And I said, What shall I do, Lord? And the Lord said unto me, Arise, and go into Damascus, and there it shall be told thee of all things which are appointed for thee to do. 11. And when I could not see for the glory of that light, being led by the hand of them that were with me, I came into Damascus. 12. And one Ananias, a devout man according to the law, (b) having a good report of all the Jews which dwell there, 13. Came unto me, and (c) stood, and said unto me, Brother Saul, receive thy sight. And the same hour I looked up upon him. 14. And he said, The God of our fathers hath (d) chosen thee, that thou shouldst know his will, and see that Just One, and shouldst hear the voice of his mouth. 15. For thou shalt be his witness unto all men of what thou hast seen and heard. 16. And now why tarriest thou? arise, and be baptized, and wash away thy sins, calling (e) on the name of the Lord.

The Semi-Weekly Sun AND The Co-operative Farmer ONE YEAR FOR ONLY \$1.20. This great combination offer is only open to new subscribers or to old subscribers who pay all arrearages at the regular rate, and one year in advance. THE CO-OPERATIVE FARMER is a Semi-Monthly Journal, exclusively devoted to the interests of the farmers of the Maritime Provinces. It is the official organ of the Farmers' and Dairyman's Association of New Brunswick; the Nova Scotia Farmers' Association, and the Maritime Stock Breeders' Association. THE ST. JOHN SEMI-WEEKLY SUN is the best newspaper a Maritime farmer can take. It is published on Wednesdays and Saturdays, eight large pages every issue, containing all the provincial as well as foreign news. THE MOST COMPLETE WAR SERVICE of any paper in Eastern Canada, and its frequency of issue makes it of special interest during the strife in South Africa. REMEMBER THIS OFFER IS GOOD ONLY ON ABOVE CONDITIONS. Address, with Cash, Sun Printing Company, St. John, N. B.

THE ST. JOHN Semi-Weekly Sun. Mailed to Your Post Office Every Wednesday and Saturday. The Sun has also a paid correspondent in almost every town, village and hamlet in New Brunswick, with several in P. E. I. and Nova Scotia also a weekly letter on Provincial matters from Boston, Mass. Thus the paper is made interesting to every section of the Maritime Provinces. The regular subscription price is \$1.00 a year, but SEVENTY-FIVE CENTS sent to the SUN PRINTING COMPANY, ST. JOHN by a new subscriber will ensure the SEMI-WEEKLY SUN to any address in Canada or the United States twelve months, for together with a splendid portrait—18 x 24 inches, in fifteen colors, of FIELD MARCHAL LORD ROBERTS, or GENERAL BULLER, GENERAL FRENCH, COLONEL OTTER or of LIEUT.-GENERAL RADEN-POWELL, in khaki, and a map of the seat of war in South Africa. This is unquestionably the best business offer ever made by any Maritime Province publisher of a first-class FAMILY NEWSPAPER. Any present subscriber of the SUN who sends SEVENTY-FIVE CENTS for his own subscription in advance, and the name of a new subscriber with SEVENTY-FIVE CENTS will get a picture for himself, as well as one for the new subscriber. Sample copies cheerfully sent to any address on application to SUN PRINTING COMPANY, ST. JOHN, N. B.

CURES WEAK MEN. No Drugs ALSO USED BY WOMEN AS WELL FOR RHEUMATISM, LAME BACK, ETC. FREE TRIAL F. T. Sanden, 132 St. James Street, Montreal, Que. Office hours, 9 A. M. to 6 P. M. Sundays 12 to 1.

REVISION CHANGES. (So far as they affect the sense.) Ver. 2. (a) Omit and were afraid. Ver. 3. (b) Who appeared to Paul? Ver. 13. (c) Standing by me. Ver. 14. (d) Appointed thee to know his will, and to see the Righteous One, and to hear a voice from his mouth. Ver. 15. (e) On his name. LIGHT ON THE TEXT. This is one of the two accounts Paul gives of his conversion. A third is given by Luke. Paul, a very strict Pharisee and a learned man, was so zealous for his religion that he persecuted the Christians and put many in prison. He went for the death of Stephen, and held the clothes of those who stoned him. 6. As I made my journey—To persecute the Christians in Damascus, under the authority of the Jewish rulers. There shone... a great light—Brighter than the sun at noon (Acts 26: 13). He was blinded by the light, and the origin of that light; it came straight from the face of the glorified Saviour. Never. It is stated over and over again that Paul actually saw Jesus (1 Cor. 9: 1; 15: 8; Acts 9: 17, 27). Christ confronted Paul "in his glorified body, clothed with heavenly radiance the risen, exalted Christ." 7. Why persecutest thou me?—In the person of his disciples. 8. Who art thou, Lord?—Observe that Paul does not yield allegiance to the unknown speaker until he has questioned him—About. Paul seeks to know more about his duty. He is not credulous, but searches, inquires, asks for more light. I am Jesus of Nazareth—The one you have despised as a
