attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. "In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

"While in the country last winter my little
boy, three years old, was taken ill with croup;
it seemed as if he would die from strangulation. One of the family suggested the use
of AYER'S CHERRY PECTORAL, a bottle of
which was always kept in the house. This
was tried in small and frequent doses, and
to our delight in less than half an hour the
little patient was breathing easily. The doctor said, that the CHERRY PECTORAL had
saved my darling's life. Can you wonder at
our gratitude? Sincerely yours,

find the tempest more furious than ever, and the train stuck fast in a huge snow-bank, his first thought was of dismay at the possible detention in the narrow limits of the Pullman, which seemed much colder than it had before; his next was to wonder how the change of fortune would effect how the change of fortune would effect Gertrude Raymond. Of course he had long ago become acquainted with the brown travelling suit and fur collar.—Of course there had been numberless little services for him to perform for her and the old gentleman, who had indeed proved to be her father. Bob had already begun to dread the end of the journey. He had gone to his beeth the night before, wishing gone to his berth the night before, wishing gone to his berth the hight before, wishing that San Francisco were ten days from Boston, instead of six. Providence having taken him at his word, and indicated that the journey would be of at least that duration, if not more, he was disposed, like no few of his fellow-mortals, to grunble. Once more he became misanthropic.—
'There's Miss Raymond, now," he growled to himself, knocking his head savagely against the upper berth in his attempt to look out the frosty pane, "sitting over across the aisle day after day with her kid loves, and all that. Nice enough, of course," recalling one or two spirited conversations where hours had slipped by like minutes, "but confoundedly useless, like the rest of 'em. If she were like mother, now, there'd be no trouble.—

She'd take care of herself. But as it is, the whole car will be turned upside down for her to-day, for fear she'll freeze, or starve, or spoil her complexion, or something."
Here Bob turned an extremely cold shoulder on the window, and having per-formed a sort of horizontal toilet, emerged from his berth, his hair on end, and his face expressive of utter defiance to the world in general, and contempt of fashionable young ladies in particular.

At that moment Miss Raymond appeared in the aisle, sweet and rosy as a June morning, her cheeks glowing, and her eyes sparkling with fun. "Good morning, Mr. Estabrook," she said demurely, settling the fur collar about her neck. Bob endeavored to look dignified, and was conscious of failure.

"Good mo-orning," he replied with some stiffness, and a shiver which took him by surprise. It was cold, jumping out of that warm berth. "I understand we must stay—but dcn't let me detain you," she added with a sly

glance at his hair.

Bob turned and marched off solemnly to the masculine end of the car, washed in ice-water, completed his toilet, aud came back refreshed. Breakfast was formally served as usual, and then a council of war. was held. SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected,
the disease perpetuates its taint through
generation after generation. Among its
earlier symptomatic developments are
Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas,
Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases,
Tubercular Consumption, and various other dangerous or fatal maladies, are
produced by it.

Ayer's Sarsaparilla Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury.
