even race, four in all and purses to
the amount of \$150 are offered as

If your Stomach, Heart or Kidneys
are weak try at least a few doses
only of Dr. Shoop's Restorative. In
five or ten days only the result will
surprise you. A few cents will cover
the cost. And here is why help
comes so quickly. Dr. Shoop doesn't
drug the stomach, nor stimulate the
heart or kidneys. Dr. Shoop's Res-
torative goes directly to the weak and
ailing nerves. Each organ has its
own controlling nerve. When these
nerves fail, the depending organs
must necessarily fail. This plain
yet vital truth, clearly tells why Dr.
Shoop's Restorative is so universally
successful. Its success is helping
druggists everywhere to give it un-
derlined preference. A test will surely
tell. Sold by all dealers.

merited the hearty applause all
through. Mr. Nelson's rendition of
the Toreador was very enthusiastically
received and he was forced to re-
peat no less than three encores.
Ladie Nola Chas. Fulton and Miss
Strom also had excellent opportuni-
ties and they accepted them in that fin-
ished manner which has characterized
all their work here. Miss Strom's
song in the second act was one of
the treats of the evening.—St. John

yet the necessary amount of subscrib-
ers has not nearly been obtained and
all who desire to see this fine com-

the time is limited. Lists are at the

**BRAKEMEN ON TOP
OF MOVING RAINS**

Railway Commission Decides Not to
Interfere With Them
OTTAWA.—The Railway Commis-
sion yesterday morning decided not to
forbid the presence of brakemen on
the top of moving trains. The propos-
al was made for the purpose of allow-
ing the reduction of the height of
bridges and overhead crossings of
railways. At present there has to be
22 feet 6 inches between the rails and
the bridges, so there will be room
for brakemen to stand on top of the
cars without danger. If the
height of the bridges could be reduced
by keeping brakemen off the tops of
freight trains the cost of overhead
crossings would be greatly reduced.
The proposal to remove the brakemen
was opposed as impracticable by re-
presentation of the Canadian Pacific
and the Canadian Northern and other lines.
They declared that even with the air
brakes on all freight trains there was
need for men on the tops of cars to
give signals and to supplement the
air on grades. The board decided not
to interfere with the present condition

INDIGESTION

Dyspepsia Means Slow Starvation.

By the testimony of actual cures—by the words of those who have proved the merit of Dr. Hamilton's Pills, you can satisfy yourself that indigestion and dyspepsia are curable.

Four years ago I got into a condition of low health—suffered all possible torture with acute indigestion, wind on the stomach, and dizziness. The very smell of food often was sufficient to make me violently ill. Energy—almost—had been driven away. I no longer had any desire for work or for the company of other people, and was in the depths of despair. Worse matters—brain and body could not suffer, and I died last night when with scarcely any warning a furious biliousness swept down on them from out of high land. Five of the boats succeeded in making camp during the night, and seven more were heard from this morning.

The tragedy of last night's storm completely enveloped the storm beat on the coast, accustomed enough it is to tragedies such as these.

HALIFAX, Jan. 6—Some uncertainty still exists regarding some of the missing boats and a report that all were saved but the *Soraya* and the *Milo* and *Hazel* had not yet been reported.

Alfred has been received from Port Beakerton that Capt. Leonard Munro in the *Junonia* arrived there today at well.

Yesterday's gloom along the shore turned to joy when hope arose of all missing fishermen being rescued. Early this morning it appeared that at least forty had been rescued, and the morning on reports of rescues began to come in and it now appears that all the schooners but two with nine men are safe and there is every hope for the rest.

—THAT'S A TERRIBLE COUGH—

You have remarked one man on the street the other day to another, "you bet it is," was the reply, and I have taken so much cough syrup that my stomach is all knocked out, and the cough still hangs on. That's the way valuable time is wasted. Cough syrups are only palliatives. If you want to stop that cough, cure the cause, by taking Vinal.

Could Not Sleep In The Dark.

Doctor Said Heart and Nerves Were Responsible.

There is many a man and woman tossing night after night upon a sleepless bed. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system, that it cannot be trusted.

Mr. Calvin Stark, Roseton, Ont., writes: "About two years ago I began to be troubled with a nervous condition at night, when I would lie down, I go to sleep I could not sleep in the dark, and could have to sit up and rub my head. They would become so numb, I could not sleep, and nerves were so sore. I saw Milburn's Heart and Nerve Pills advertised and got a box to try them. I took three boxes and can now sleep in a dark room and without the light of a lamp and can rest well. I can recommend them highly to all nervous and run-down people."

LEGISLATURE MEETS FEBRUARY 17TH.

Date Chosen at Meeting of Government at Fredericton Wednesday last

ANNOUNCEMENT SOON.

FREDERICTON, Jan. 6—The provincial legislature will in all probability be called to meet here on Thursday, Feb. 17th.

The announcement as to the opening of the session has not as yet been made, however, but the 17th of next month will probably be the date finally selected.

The Provincial Government concluded its monthly meeting yesterday afternoon with a short session following the meeting of the Board of Education.

The Government will meet here again about the 24th inst. to make arrangements for the session of the Legislature.

MANY FISHERMEN REPORTED MISSING.

Disaster Meets Nova Scotia Fishing Fleet in Recent Storm.

SOME HAVE RETURNED.

HALIFAX, Jan. 6—Prostrated by a calamity without a parallel in the history of Nova Scotia the little fishing village of Whitehead was the scene of woe today. Twelve fishing boats, manned by over thirty men, were overtaken by a furious blizzard last night and driven off shore in zero weather with a tempestuous sea running and driving snow storm prevailing.

From every point along the eastern coast of the province today steamers were being rushed in search of the missing men but it is feared that this aid will be too late. At least two boats containing fourteen men are known to have been lost with their crews and have scarcely a hope of being recovered.

Altogether twenty-five boats all manned by men from Whitehead or the immediate vicinity were travelling off Whitehead harbor mouth for had dies last night when with scarcely any warning a furious blizzard swept down on them from out of high land. Five of the boats succeeded in making camp during the night, and seven more were heard from this morning.

The tragedy of last night's storm completely enveloped the storm beat on the coast, accustomed enough it is to tragedies such as these.

HALIFAX, Jan. 6—Some uncertainty still exists regarding some of the missing boats and a report that all were saved but the *Soraya* and the *Milo* and *Hazel* had not yet been reported.

Alfred has been received from Port Beakerton that Capt. Leonard Munro in the *Junonia* arrived there today at well.

GRAND GREVE

There is quite a small-scale of the Grand Greve, some two years ago on the 23rd December, piloted out of Gaspe Harbor, the brigantine "Jules" under the command of Captain Jules, with a cargo of codfish for Brazil, shipped by Messrs. William Prung & Co., Ltd., and the season on the same date piloted out, the S. S. "Ryhope," laden with a cargo of lumber shipped by Gaspe Lumber & Trading Co. This is the latest date on record for sailings out of Gaspe Harbor, and Captain Jules of the "Jules" stated to pilot that steamers could come to Gaspe even in January.

A very quiet wedding took place on the 22nd of December at the home of Mr. Moses Shinn, Indian Cove, where Miss Emily Withers of England and Mr. George Syrett of the Island of Jersey were joined in the holy bonds of matrimony.

Several of our men from this locality who were home for the Christmas holidays have left again for the lumber camps.

One of our interesting young men, Franklin Gavey wishing to find out if he was still to be caught in the bay, went out on the fishing grounds on the 29th and in less than an hour returned with 15 fish, which he treated some of his friends. This is the latest catch on record at Grand Greve.

RATHER STALE BREAD.

"What a loaf of bread over 1,500 years old? Nonsense!" Well, my friend, there is no nonsense about it. You can see several of them in the Royal National Museum, at Naples, burned black like carbon, or charcoal. They were found in the ruins of Pompeii, a city that was buried by an eruption of hot, fiery ashes from Mount Vesuvius in the year 79. No one could eat this bread, although carbon is the element in our food that promotes heat in the body.

When indigestion prevails, your food does not nourish you and you have headaches, poor blood, constipation, dizziness, and other ills. Mother Seigel's Syrup, the surest remedy cures all these ills. Mr. Burton Shortliffe, Central Grove, Digby Co., N.S., writes:—"I was troubled with indigestion for a long time and found no medicine to give such immediate relief as Mother Seigel's Syrup. For indigestion and all Stomach Troubles it is a grand remedy."

Cough Caution

Never, positively never poison your lungs. If you cough, even from a simple cold, you should always treat, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how many things really come about. For twenty years Dr. Shoop has constantly warned people not to take cough medicines or prescriptions containing Opium, Chloroform, or similar poisons. And now a little bit of thought—your own says "Put it on the shelf, if poisons are in your Cough Mixture." Good! Very good! Hereafter for the very reason, coughs, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's label—and none in the medicine, else it must be kept on the shelf. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take for instance, the particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the difference. No poison marks! And you can always be on the safe side by demanding

GREAT STRIDES MADE SAY SIR WILFRID,

Delivers Eloquent Speech on 'Canada' at Toronto.

CANADA A NATION.

TORONTO, Ont., Jan. 24.—On his arrival at Toronto today Sir Wilfrid Laurier was waited on by important delegates representing the Ontario Association of Architects, who emphasized the necessity of raising the standard of public architecture in the province.

The Premier attended the official opening of the Ontario Club this evening. Mr. J. Haney presided, and about 160 were present. Sir Wilfrid paid a high tribute to the spirit of Toronto and described how he himself thrived on attacks from the Tory press. "One thing, however, our translators," he said, "cannot do for us or dispute that under our guidance the country has made strides, and history will attest that during these years the page has been turned in history of Canadian progress with success and advancement. I know our translators say this is simply a matter of luck, a favor from the powers above. I don't dispute that. If it is as I am quite content. A great French surgeon who had a patient who had been in a serious condition performed a dangerous operation and as a result the patient recovered. The surgeon upon being congratulated, replied in modesty, 'I treated him, but God cured him.'"

It is evident that there never was a period in our history when the feeling of brotherhood among the different peoples of Canada was as prevalent as at the present time. More than that, it is a matter of history that our population had pride of citizenship that it did not have in 1885. We are a nation. We feel that we are a nation. We have a population of over seven millions. We have practical control of our own foreign relations. We have command of our own forces. We are free. Our country is the finest under the sun.

Have you a weak throat? If so, you cannot be too careful. You can not begin treatment too early. Each cold makes you more liable to another and the last is always the hardest to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all druggists.
