DEATH OF LITTLE MARY MORGAN.

[The following scene is from "Ten Nights in a Bar-Room, and What I Saw There," by T. S. Arthur.]
"Father! father!" the clear earned voice of Mary was calling.
"I'm coming dear," answered Morgan.
"Come quick, father, won't you?"
"Yes, love."
"Oh! what a light broke over her countenance—I've been waiting for you, so long, I thought you were never going to wake up. Kiss me father."

"What can I do for you, Mary?" asked Morgan, tenderly as he laid his face down upon the pillow beside her.
"Nothing, father. I don't wish for anything. I only wanted to see you."
"I'm here now, love."
"Dear father! I've always been good to me, father—"
"Oh! no! I've never been good to anybody," sobbed the weak broken spirited man, as he raised himself from the pillow.
"You have been good to yourself, father, but you have always been good to us."
"Don't! Mary! don't say anything about that," interposed Morgan. "Say that I've been very bad—very wicked. Oh! Mary, dear! I wish there was no liquor to drink—no taverns—no bar rooms. Oh! dear! I wish I was dead."

And the weak, trembling, half-palsied man laid his face against the pillow beside his child, and sobbed aloud.

"Father! who stillness was broken by Mary. Her voice was clear and even—
"Father, I want to tell you something."
"What is it, Mary?"

"There'll be nobody to go for you, father. The child's lips now quivered, and tears filled her eyes.

"Don't talk about that, Mary. I'm not going out in the morning any more until you get well. Don't you remember, I promised."

"But father—"
"What dear?"
"I'm going away to leave you and mother."

"Oh! no—no—no; Mary! don't say that!—the poor man's voice was broken—
"Don't say that! We can't let you go, dear."

"God has called me."
The child's voice had a solemn tone, and her eyes turned reverently upward.

"I wish he would call me!" Oh, how I wish he would call me! groaned Morgan, hiding his face in his hands. "What shall I do when you are gone? Oh, dear!"

"Father! Mary snatched away again. "You are not going to go yet. God will let you live longer, that you may get ready."

"How can I get ready without you to help me, Mary? My angel child!"

"Haven't I tried to help you, father, oh! so many times?" said Mary.

"Yes—yes—you always tried."
"But it wasn't any use. You would go out—you would go to the tavern. It seemed almost as if you couldn't help it."

Morgan groaned in spirit.
"Father, I dreamed something about you while I slept to day."

Mary again turned to her father.
"What was it, dear?"

"I thought it was night, and that I was still sick. You promised not to go out again—until I was well. But you did go out, and I thought you went over to Mr. Slade's tavern."

When I knew this I felt as strong as when I was well, and I got up and dressed myself, and started out after you. But I hadn't gone far before I met Mr. Slade's great bull dog, Vero; and he growled at me so dreadfully that I was frightened, and ran back home—then I started again, and went away round y Mr. Mason's. But there was Nero in the yard, and this time he caught my dress in his mouth, and tore a great piece out of the skirt. I ran back and he chased me all the way home. Just as I got to the door, I looked around, and there was Mr. Slade setting Nero on me. As soon as I saw Mr. Slade, though he looked at me very wicked, out all my fear, and turning round, I walked past Nero, who showed his teeth, and snarled as fiercely as ever, but didn't touch me."

Then Mr. Slade tried to stop me. But I didn't mind him, and kept right on till I was in the tavern, and there your shoed in door. And you were dressed as nice—
I had on a new hat and a new coat; and your boots were new and polished—just like you!"

"I said 'Oh father, is your arm?' And then you took me up in your arms and kissed me, and said, 'Yes, y, I am your real father—not old Joe, gan, but Mr. Morgan now.' It seemed so strange, I looked into the bar-room, o who was there. But it wasn't a bar-room any longer, but a store full of goods, sign of the Sickle and Sheaf was taken r; and over the door I saw your name, r. Oh! I was so glad, and I awoke; then I cried all to myself, for it was only a dream."

And the last words were said very mournfully, with a dropping of Mary's lids, until the

tear gemmed lash lay close upon her cheeks. Another period of deep silence followed; for the oppressed listeners gave no utterance to what was in their hearts. Feeling was too strong for speech: Nearly five minutes had glided away, and then Mary whispered the name of her father, but without opening her eyes.

Morgan answered, and bent down his ear. "You will only have mother left," she said; "only mother. And she cries so much when you are away."

"I won't leave her Mary, only when I go to work," said Morgan, whispering back to the child; "and I'll never go out at night any more."

"Yes, you promised me that."
"And I'll promise more."
"What father?"

"Never to go into a tavern again."
"Never?"
"No, never. And I'll promise still more."

"Father?"
"Never to drink a drop of liquor as long as I live."

"Oh father! dear, dear father!"
And with a cry of joy Mary started up, and lunged herself upon his breast. Morgan drew his arms tightly around her, and sat for a long time with his lips pressed to her cheek, whilst she lay against his bosom as still as death. As death? Yes; for when the father unclasped his arms, the spirit of his child was with the angels of the resurrection.

A Gossip. — This is a very difficult thing to ascertain before hand. Smiles are cheap; they are easily put on for the occasion; and besides, the frowns are, according to the lover's whim, interpreted into the contrary. By "good temper," I do not mean an easy temper, a serenity which nothing disturbs; for that is a mark of laziness—Sullenness, if you be not too blind to perceive it, is a temper to be avoided, by all means.

A sullen man is bad enough; what, then, must be a sullen woman, and that woman a wife; a constant inmate, a companion day and night! Only think of the delight at sitting at the same table, and occupying the same chamber, for a week, without exchanging a word the whole while! Very bad, is he scolding for such a length of time; but this far better "the snub."

Four things belong to a judge: to hear courteously, to answer wisely, to consider soberly, and to give judgment without partiality.

Speaking without thinking is shooting without aiming.

Pride is a vice, which pride itself inclines every man to find in others, and to overlook in himself.

He that accustoms himself to buy superfluities, may ere long be obliged to sell his necessities.

THE WAR IN THE EAST.—THE BATTLE OF ALMA.

Official accounts have been published in France and England of the battle of the Alma and the defeat of the Russians. It was the first of a series of splendid victories in favor of the Allies. The following are the official despatches:—

WAR DEPARTMENT, Oct 1, 1854.
The Duke of Newcastle has this day received a telegraphic despatch from General Lord Raglan, of which the following is a translation:—

"Copy of a telegraphic despatch from General Lord Raglan to the Duke of Newcastle, transmitted through Belgrade, not dated, but evidently from the 21st September:—

"The allied armies yesterday attacked the position of the enemy on the heights above the Alma, and carried it after a desperate battle about one hour and a half before sunset. Nothing could surpass the bravery and excellent conduct of the troops. The position was very formidable, and defended by a numerous artillery of heavy caliber. Our loss, I regret to add, is very considerable, but no general officer has been wounded. The main body of the enemy was estimated at from 45,000 to 50,000 infantry. A few prisoners, among whom are two general officers and two guns, have been taken by the English."

(Signed) LORD RAGLAN.
From other sources we learn that the Russian artillery was arranged in three batteries, and that the Russian force was quite 50,000 men, including a fair proportion of cavalry. The battle commenced at one o'clock and at three o'clock the Russian position was carried by the bayonet, Marshal St. Arnaud and Lord Raglan commanding personally. Three English officers were promoted: the passage of the Alma, from the sea, Gen. Thomasson (French) was shot in the abdomen, supposed fatally; and Gen. Canrobert was wounded in the shoulder.

DREADFUL BOILER EXPLOSION.

While the Steam Tug *Magnet*, lying at Small & Hatheway's wharf, Indian Town, was getting under way, on Monday afternoon at 4 o'clock, to east off, her boiler exploded, causing a report like that of a cannon. Every one on board was more or less injured: Capt. John Stevens had his left arm broken and back scalded; the mate Wm. Denton, had his head cut and body very much bruised; Larry O'Leary, Engineer, was badly scalded; F. Rigby, the Fireman, was so much injured that he died in the course of the night. The boiler was driven through the boat, causing her immediately to sink. As soon as she can be got at, an investigation is to be held, under Capt Wm. M. Smith (the Government Engineer, who has been applied to by the owners. It does not come under the province of this gentleman, according to the Act, to examine Tug Boats. The Act specifies boats "carrying passengers." All that this gentleman has to do with Tug Boats is to see that they carry proper lights at night. The *Magnet* was owned by Messrs. Tapley, Short & Esley, of Indian Town. The supposed cause of the accident was want of sufficient water in the boiler, as it is said the boiler was nearly new. —Morning News.

Melancholy Occurrence.—We learn from the Eastern Chronicle that Capt. Caleb Moody, of the brig *Zenophon*, of Portland, bound from Pictou to Philadelphia fell from the yard arm of the vessel on the evening of the 21st inst., 10 miles from Canoe Light, while assisting to reef the topsails, the wind blowing very heavy at the time, and notwithstanding every effort was made to save him he was unfortunately lost. What renders the affair more melancholy is that the evening before he sailed, he was married to a young lady belonging to Pictou.

The Legislature of Prince Edward Island has ratified the Fishery Treaty, and adjourned until the 13th of February.

SEVEN DAYS LATER.—ARRIVAL OF THE NIAGARA.

By Telegraph.

The Steamship *Niagara* arrived at Halifax on the morning of the 25th.

Sebastopol not yet taken. Place is completely invested on south side. On the 2nd Allies had destroyed aqueduct, and cut off supplies of water from the city.

Assault is expected to be made on the 8th. The Allied trenches were within 1600 yards of the walls.

Immediately after the battle of Alma, Menchikov sank five of his line of battle ships and two frigates, thus completely blocking up the entrance to the harbour of Sebastopol.

The ships were sunk with their guns and stores on board and rigging standing.

The Allied Generals have changed their place of operations, and intend to attack the south instead of the north side of the city.

A letter in the Times, suggests that the powerful iron steamer *Sinimolimon*, should be employed as a steam battering ram, to force a passage over the sunken ships.

All the Allied reserves had left Varna for the Crimea.

The Russians are reported to have blown up the fortresses at Anapa and Lauchin, and sent garrison of 15,000 to reinforce Menchikov.

Paris Debates estimates Russian force in Crimea at 47,000, and Allies at 50,000 including seamen.

The Turks bayoneted all the wounded Russians, calling out to them "Sinope."

On the death of St. Arnaud, Lord Raglan took complete command of Allied army.

St. Arnaud died of disease of the heart. The French fleet are in Kiel harbour.

On the 1st the greater part of the Fleet under Admirals Napier and Martin were at anchor off Revel.

Schamyl has been defeated by Prince Andronikoff, who again threatens Kars.

FRANCE.—The recent mammoth fire the fall of Sebastopol is traced to the P. Bourne.

The Emperor ordered an investigation, says he will punish with severity, who is found guilty.

From the New Brunswick. HOUSE OF ASSEMBLY. Monday, Oct. 24.

Mr. Tall.—The House met on Thursday, as you are aware, and proceeded to elect a Speaker. There was but one candidate named, viz Mr. Harrington, (Mr. Fisher for obvious reasons declined coming forward.) Mr. H. was proposed by Mr. Ryan, and seconded by Wilmot. He was opposed by Messrs. Ritchie, End, Smith and others, on the ground that he held the office of Deputy Treasurer for the Port of Shediac. The division was in his favor 23 to 13.

His Excellency the Lieutenant Governor again came down to the morning, received the H. elected Speaker; and the H. sized, some committees be Mr. Brown moved the A. which the order of the day for Monday.

On Saturday, evening the House passed a resolution to let them all stand over a session of the Legislature.

Mr. McNaughton presented a petition from 26 of the voters of Shippegan—26 out of 31 he said—who had sworn to the facts of the petition. In the petition they complain bitterly of Mr. Duran for not holding a poll there, as they were voting for Messrs. End and McNaughton.

Mr. End characterized the whole as a vile conspiracy by Messrs. Read and Dixon, and others, and said the petitioners have now the impudence to petition the House against his re-election, upon the very ground that their vote scheme failed.

Mr. Fisher moved that the following document should move it amendment to a part of the petition to Her Majesty that we meet that we the Treaty which recog. which recog. We regret that the conduct of the local Administration during the last four years has not been in accordance with these principles, and we feel constrained thus early to state to your Excellency, that your Constitutional Advisers have not conducted the Government of the Province in the true spirit of our Colonial Constitution."

Power or Impudence.—No modest ever did, or ever will make his fortune. Ministry is like a play at court; there is a little door to get in, and a great crowd without, shoving and thrusting to see who shall be foremost. People who knock others with their elbows, disregard a little kick of the shins, and still thrusting heartily, are sure of a good place. Gardiner fraud, covering as it did the living and the dead with an indecible stigma, aroused for a while a fitting response. But it seems that the tongue of public purity is sinking; that the people themselves are beginning to look with indulgent eyes upon the depravity of their servants, and to participate in their eagerness for plunder.

[FOR THE STANDARD]

Mr. Editor,

With your permission I will pull off the gloves, as far as you are concerned, and cry "quits" with one remark.—If it takes as a matter of course, that "censor" is the penalty that all good men (editors included) have to pay to society, this Standard Board of Directors must rank amongst the best men in this or any other community, for none are more open to censure than they are, from their chief Editor down to his "day-labourer." I trust Mr. Censor you must not think I took too long a stride.

"As a point of order," seems to be the fashion with all your correspondents, I trust you will permit me to say your paper so mentions some of the discrepancies which like forged notes have been uttered, but not about. I have been most authentically informed that at or about the time the chief engineer gave the contractors that celebrated notice to put 1533 men, and 100 horses only! on the works, for winter service, he, the said Chief—(when did he get title?) held out inducements to some of the contractors best masons to leave their employers and go with him to work on a bridge that he had taken a contract to build, for the Government of the Province. It is the case, Mr. Editor, I shall not by pen to express my feelings upon it; but for I fear the said pen might scribble, but may Heaven help the contractor to work under such an en-

Arrival of the "Pacific" AT NEW YORK.

The Pacific arrived on the 30th. Liver-
pool dates are to the 19th. There is abso-
lutely no news from the seat of war. The
despatches sent are altogether conflicting.
It is however authentic, that up to the 9th,
nothing had been accomplished.
The Allies now number 90,000 men in the
Crimes.

They occupy strong fortresses south of
Sebastopol, and have all their siege appara-
tus landed.
Monsieff continues to hold the field
north of Sebastopol, with 30,000 men—ex-
pected a reinforcement of 30,000 more.

NEWS OF SIR JOHN FRANKLIN.

MONTREAL, Oct. 20.—A despatch from
Dr. Rae, dated York-Factory, Aug. 4, 1854,
has been received by Sir Geo. Simpson,
Governor of the Hudson Bay Territory, nar-
rating the discovery of the remains of Sir
John Franklin, and his unfortunate company.
They were starved to death in the spring of
1850, to the North-West of Box 100.

The following details relative to the fate
of Sir John Franklin's party are taken from
Dr. Rae's letter, which was forwarded to
York-Factory by the Hudson Bay Company.

His Excellency the Governor General has
appointed a Provincial Committee to take the
necessary steps to ensure a fitting repre-

HOUSE OF ASSEMBLY.—GOVERNMENT DEFEATED.

On our first page we have given a sum-
mary of the proceedings of the House. The
Session will be somewhat longer than was
generally supposed, several new bills have
been introduced among which we are happy
to announce are two by Mr. Fisher, viz:—
one to regulate Elections—the other that a
majority should decide to accept Municipal
Corporations. The Address in answer to
His Excellency's Speech was made the or-
der of the day for Monday, the 23d ult. On
the Address being read from the chair, Mr.
Brown declined to move it, stating that the
vote which was to be taken had changed the
whole character of the proceedings, and he
intended to support the vote. On the 5th
paragraph being read, Mr. Fisher rose, and
in a most elegant and statesmanlike Speech
which occupied four hours in delivery, ex-
plained his views of the past acts of the Gov-
ernment and the motion which justified him
in asserting that they had lost the confidence
of the Assembly and the country.

The debate was continued each day until
Saturday afternoon when it was concluded,
and resulted in the defeat of the Govern-
ment, leaving them in a minority of 151.
The names are as follows:

For Mr. Fisher's Amendment.—Messrs.
Fisher, Bezen, Ritchie, Johnson, Smith,
Harding, Tilley, Macpherson, Hathaway
Siedman, Landry, McAdam, Gilmour, Con-
nell, English, Tibbitts, Lum, Ferris, Ryan,
McClellan, Stevens, Cudor, McPhelim, Sut-
ton, McNaughton, End, Boisford, 27.

Against the Amendment.—Messrs. Street,
Partelow, Wilnot, Gray, Hayward, Mont-
gomery, Taylor, Gilbert, McLeod, Purdy,
Rice, 12.

Mr. Kerr was absent. The Speaker (Mr.
Hannington) in the chair.

It is reported the Government retired in a
hurry, and that the names of the new Gov-
ernment were to be announced yesterday.

The Provincial Secretary and the Survey-
or General have given most unbounded satis-
faction in their offices and we hope they will
be requested to join the new Government
and retain their offices.

CANADIAN FISHING SOCIETY'S SHOW
came off on the 17th Oct. We are informed
that the show of barrelled and dried fish
was not so large as last year, but that some
of them were excellent especially the River
Herrings and dried Pollock; as for the
smoked herrings nothing could be finer; and
we are happy to learn they bear a higher
price in the market than the "Digby's."

Major Brown took the prize for "Annis had-
dies," which delicious fish ought to be more
appreciated in our community, than it is.—
The 18th was the day for Boat races, and a
beautiful display of boats could not be
anywhere, they were all newly painted
and new sails for the occasion. Seven-

lished in our next number, together with the

MINERAL SPRING.—We understand that a
valuable Mineral Spring has been discovered
on the farm of Mr. Robert Purvis, at Boca-
bee, about a quarter of a mile above the
Bridge at the St. John road. It is supposed
to proceed from a mountain and comes out
at the side of Bocaabee river. The Water
has been analyzed by Mr. Foulis of St. John,
who states that the water holds in solution—
"carbonic acid, iron, sulphuric acid, magnesia,
muratic acid, lime a trace. It is probable
that the water contains iodine; the mineral
spring may be considered saline, and its wa-
ters diuretic and cathartic from the magne-
sian salts contained. It may also be ranked
as a chalybeate from the iron the water holds
in solution." The spring is likely to prove a
valuable medicinal spa water for the curing
of many diseases.

THANKSGIVING.—Sabbath next, 5th Nov.
is to be observed by the Presbyterians of this
Town, as a Day of Humiliation and Prayer
to Almighty God, for having spared this
part of the Province from that awful scourge
Cholera; and also as a Day of Thanksgiving
for the abundant harvest with which the la-
bours of the husbandman, has been blessed.

GRAND DIVISION S. or T.—At the annual
Session of the Grand Division Sons of Tom-
pence, held at John on the 25th ult., we
observed our friend H. E. Scobie Esq., was
elected G. W. P. for the ensuing year.

The Courts of Oyer and Terminer and
Nisi Prius was opened here today. His
Honour Mr. Justice Parker, presiding. There
are but a few causes entered for trial.

The Morning News gives the following de-
scription of the progress of the works on the
Shediac Railway:—

OUR RAILWAY "PROGRESS!"—Progress
is the word! The forty men who have been
working at "this end of the line" have actu-
ally dwindled down to four!!! And these
four are employed, we understand, in build-
ing a fence to keep the cattle off the track.
Last year, after turning up the soil, and feel-
ing anxious to get all they could out of the
road, they planted oats along the line—
which in due season were harvested by the
battalion—that is to say, the cattle got among
the roots and devoured them. To keep the
cattle off the track, we suppose, it is thought
desirable to have a fence up. A person from
Halifax tells us that the new fence (now in
Halifax) will be running upon ten miles or
their road before Christmas Day. We have
had the start of Halifax by two years, and
yet we have not a single mile built this
way!!! Halifax began her Railroad in
June, and will have ten miles completed and
equipped in six months afterwards. "An-
gels and Ministers of grace defend us!"

PHILADELPHIA, Oct. 21.—The steamer
Osprey brings 155 of the passengers of the
City of Philadelphia, and will immediately
return to St. Johns, N. F., for those remain-
ing. She also brought 14 of the Arctic's
crew, together with the metallic life boat of
the Arctic. She also brought a few of the
passengers, whose names have all been pre-
viously reported.

The Canada Railway Debenture Case.—
The Court of Chancery has given its decision
in the case of the City of Toronto against
Bowes and His Honor the Chancellor has
declared that the contract entered into be-
tween Mr. Bowes and the Contractors of the
Northern Railway for the benefit of the for-
mer is void. The defendant John G. Bowes,
is ordered to pay to the City of Toronto the
sum of Five Thousand Pounds, being the
one half of the profits on the purchase and
sale of the Northern Debentures, together
with interest, and the whole costs of the suit.
It is understood that the defendant means
to appeal. The success of this suit, it is
said, will determine the plaintiffs upon taking
similar action against Mr. Hincks.

Scrofula.—Wonderful case of Scrofulous Ul-
cers, cured by Holloway's Ointment and
Pills.—Sarah Henderson, of Toronto, Up-
per Canada, was afflicted for eight years with
a scrofulous ulcer on her calf, which affected
the bone; she resorted to all kinds of reme-
dies, but obtained no relief, until she had re-
course to Holloway's Ointment and Pills.—
The Pills thoroughly cleansed and purified
the blood, and although the wounds were in
a most dreadful state, yet by continued ap-
plications of the Ointment, they have perfect-
ly healed, and her health is completely re-
stored.

Correspondence.

To the Editor of the Standard.

SIR, The fear, I have week by week entertained when posting my letters to you, that you would consider me a too constant encroacher on your space, is, (from your kindness in having so readily allowed a column to my communications)—rapidly changing to a sort of feeling, as if I had a vested right to a corner in your valuable paper. At any rate my dear Sir, you must blame me for continuing to write as long as you give me such flattering encouragement; and as I am not vain enough to believe that you would continue to insert my lucubrations, unless you thought them worth publishing, I will not waste words or time by needless apologies for carrying on my correspondence. I am afraid I must almost have tired your patience with my sentiments on Railway matters, and there are three or four other subjects of great public importance—such as Municipal Corporations;—the necessity of a steamboat landing, and the folly of not availing ourselves of the grant made by Government for that purpose;—the Postal service &c., upon all of which I should like to say a few words; and with your permission I will do so at an early day;—but upon this occasion I must ask you to let me make a few more remarks about the Railway, although I dare say some people may think I have worn the poor thing threadbare. With all due respect for that opinion, however, I venture to think that it will do no harm for us to take a look at the Contractors, and see whether the manner, in which

Road;) by putting on a strong force and finishing it out of hand, they allowed more than a year to expire before the Engine could pass over it; and actually during the whole of that time went to the expense of trucking all their materials &c., round the shore road to the Waveig—notwithstanding their own assertion—and I myself heard Mr. Brookfield say so—that they could finish it in six weeks. I should occupy too much of your space were I to examine and comment on all the instances in which I could prove the folly and want of business capacity on the part of the Contractors; I will therefore simply enumerate a few of the most prominent without further remark, feeling perfectly sure that the public will have no difficulty in forming a judgment on their behaviour.

What can be said, Sir, of their want of arrangement for the reception of the large body of laborers they imported, and of their folly in allowing so many almost immediately after landing to become dissatisfied and again to leave our shores? What can be said for such a system of conducting the works that not until the end of two years and a half during which operations had been carried on over a distance of twenty miles, was there a single solitary mile in the whole of that length made available, or fairly turned out of hand?—What can be said of men who after receiving large advances from the London Board, and agreeing not to draw any more money until fresh work to the amount of such advances, was finished, conduct themselves towards the Company as Messrs. King and Brookfield have done during the last six months?—What can be said of the behaviour and feeling towards the Company, which I observed as being displayed during the session of the House of Assembly for an Act of the Legislature to be of no service whatever to the contractors and threatened to give much trouble to the Company.

Sir, I will for the present drop my pen—not from lack of more to say, but from the fear that you cannot afford me more room;—permit me however in conclusion to add, that if I should be in error in the opinion I have formed of the difficulties and troubles against which the Company undeniably have had to contend, having been augmented by the behaviour of the Contractors, I should be delighted to see my error proved;—but even if such be the case, Messrs. King and Brookfield will still remain, not only in my opinion but in that of the majority of the people, as entirely incompetent to carry on so large a contract.

I am, Sir,
Your obt. servt.

[FOR THE STANDARD.]

Nov. 3, 1854.
Mr. Editor,
By the present constitutional reform Government of New Brunswick, Jas. Brown of St. David, is offered a seat in the Executive Council, and the office of Surveyor-General. In this, as Mr. Steves, the present holder of the office, is only provisionally appointed, and the Executive, that

THE STANDARD.

WEDNESDAY, NOV. 3, 1854.

AGENT AT ST. STEPHENS.—Mr. James Grant, has been appointed our agent at St. Stephens. Subscribers will obtain the Standard at his Store. Mr. Grant is also authorized to receive Subscribers names—and collect amounts due this office.

THE NEW GOVERNMENT.

In another column we have given a list of the new Government, which we believe gives a very general satisfaction. There can be no question as to the Hon. Charles Fisher's ability as a lawyer and statesman—he will without doubt be re-elected by the constituency of York.

The new Solicitor General, Mr. Johnson, is said to be a man of talent. The Provincial Secretary, the hon. S. L. Tilley, is a young man of strict integrity, good business capabilities, and an excellent debater. He will be elected. The Surveyor-General, Mr. Steves, we learn, is a gentleman of sound views; but as we expect our old friend Hon. James Brown will shortly hold this office, further comment is unnecessary. Of the hon. Mr. Ritchie's abilities—we need only say, the Province generally admits him to be competent to a seat on the Bench, which embraces sound judgment, integrity and ability. The Hon. A. J. Smith is also reputed to be a man of talent.

Our humble opinion is, that the present members of the Executive will work together harmoniously and that they are strong enough to sustain themselves.

WILL CHARLOTTE COUNTY HAVE A SURVEYOR GENERAL?

This interrogatory can alone be answered by the Constituency. We are led to ask the question, from the report which is current, that the hon. Mr. Steves, who has been appointed provisionally as Surveyor General, will resign, as private business will not permit of his devoting time to the duties of the Office. It is rumored that one of our representatives, the Hon. James Brown, was pressed upon to accept the situation, but declined for reasons of his own; we trust however, that he will be prevailed upon by the constituency to accept it; and the best method of doing this, would be by sending him a Resolution to take the office, in which

been canvassed by "Civis," our desire is to be of advantage to our fellow citizens—which we believe to be the end and aim of the letters which have appeared over his signature.

We well know, from experience, that the duties of conducting an independent journal, are onerous and at times painful, as it sometimes happens that an editor is bound from a sense of duty to insert letters animadverting on the conduct of public men, and in some instances add his own comments, corroborating the statements of correspondents—while perhaps these very men may be his friends; but in no case, where the public good demands it, should he shrink from his duty—but fearlessly and independently expose error and abuse of power.

THE FAMILY HERALD.—In another column we publish the Prospectus of a paper with the above title to be published in this Town, by our old friend and fellow townsman Mr. John Parkinson, to whom we heartily extend the right hand of fellowship, and wish him success in the undertaking.

FRUIT TREES.—Mr. Joseph Donald from the Lodge, will be here on Thursday with a choice lot of grafted Fruit Trees, from his nursery. Parties requiring fruit trees can now obtain them. This is the proper season for transplanting.

THE Legislature was prorogued on Friday last—the Governor having previously given his assent to the Reciprocity Bill, Municipal Amendment Bill, Bill abolishing duty on Flour, Meal, Pork, &c., with some other bills. The new Government made quick work.

NEW GOODS.—Mr. D. Bradley has received an extensive assortment of New Goods suitable for the season. Advertisement in our next.

[John Idiasyteracy, Esq. is received.]

A NEW GOVERNMENT.

Well, at last we positively have a new Government, and what is quite as extraordinary a liberal Government. It is composed as follows:—
HON. CHAS. FISHER, Attorney General;
HON. J. JOHNSON, Solicitor General;
HON. S. L. TILLEY, Provincial Secretary;
HON. MR. STEVES, Surveyor General;
HON. MR. RITCHIE, Hon. MR. BROWN, and Hon. MR. SMITH, Executive Councilors, without places.
This leaves two vacancies in the Council yet to be filled. Mr. Steves, who is a

PROSPECTUS

Of a Newspaper to be published, weekly, at Saint Andrews, New-Brunswick, to be named

The Family Herald

AND
Charlotte County Advertiser.

This Paper will be principally devoted to the leading interests of Charlotte County, the diffusion of the latest, and most important political news of the day, with other useful information, and selections from works of the most approved writers will be carefully made.

It will pursue an honest independent course, neither truckling at the footstool of power, nor joining in the factions of the demagogue.

Agriculture and the staple manufactures of the Province are most important interests and will be upheld with a steady resolution. A synopsis of the debates in our Provincial Legislature, and all subjects of general importance, whether transpiring in the British Parliament or American Congress will be noticed as they occur.

Public men will be deemed public property, and their sayings and doings fairly discussed; but private character shall be held sacred.

Religious controversies will not occupy the columns of this Paper, neither shall they be devoted to sectarian views, nor open to attacks on any denomination of Christians. Gross immorality and crime will be held up to public indignation, and the lash freely applied to the offender.

The rights of every man shall be respected, whether he be rich or poor. This Journal will be embellished with pictorial illustrations of passing events, scenery, portraits, &c., and no pains spared to render it welcome to the family circle, and generally acceptable to every reader.

Shipping intelligence and notes of the foreign and domestic markets will have a place. All communications (if the authors wish it) shall be kept profoundly secret; this is a duty which will be religiously observed.

TERMS:—10s. per annum if paid in advance; 12s. 6d. per annum if paid at the expiration of six months, and 15s. per annum if payment is delayed beyond that period.
JOHN PARKINSON.

AYER'S PILLS,

A new and singularly successful remedy for the
cure of all Bilious diseases—Costiveness, Indig-
estion, Jaundice, Dropsy, Rheumatism, Fevers,
Gout, Hæmorrhoids, Nervousness, Irritability, Inflamma-
tion, Headache, Pains in the Breast, Side, Back,
and Limbs, Female complaints, &c. &c. Indeed,
very few are the diseases in which a Purgative Medi-
cine is not more or less required, and much sick-
ness and suffering might be prevented, if a harm-
less but effectual Cathartic were more freely used.
No person can feel well while a morbid habit of
body prevails; besides it soon generates serious and
often fatal diseases, which might have been avoided
by the timely and judicious use of a good purgative.
This is alike true of Colds, Febrile symptoms, and
Bilious derangements. They all tend to become
productive of deep seated and formidable distempers
which lead the bearer all over the land. Hence a
reliable family physician is of the first importance to
the public health, and this Pill has been perfected
with consummate skill to meet that demand. An
extensive trial of its virtues by Physicians, Profes-
sors, and Patients, has shown results surpassing
anything hitherto known of any medicine. Cures
have been effected beyond belief, were they not sub-
stantiated by persons of such exalted position and
character as to forbid the suspicion of untruth.
Among the eminent gentlemen to whom we are
allowed to refer for these facts, are
PAUL VALENTINE MORRIS, the distinguished Sur-
geon of New York City.
DOCT. A. A. HAYES, Practical Chemist of the
Port of Boston, and Geologist for the State of Mas-
sachusetts.
ISA L. MOORE, M. D., an eminent Surgeon and
Physician, of the City of Lowell, who has long used
them in his extensive practice.
H. C. SOUTHWICK, Esq., one of the first mer-
chants in New York City.
C. A. DAVIS, M. D., Sup't and Surgeon of the
United States Marine Hospital, at Chelsea, Mass.

These Pills, the result of
study, are offered to the pub-
most complete which the pres-
science can afford. They are con-
the drugs themselves, but of the in-

process, in a state of purity and combi-
is such a manner as to insure the best res-
system of composition for medicines has been
in the Cherry Pectoral and Pills both, to produce
more efficient remedy than had hitherto been ob-
tained by any process. The reason is perfectly ob-
vious. While by the old mode of composition, ev-
ery medicine is burdened with more or less of ser-
monious and injurious qualities; by this, each in-
dical virtue only that is desired for the curative
effect is present. All the inert and obnoxious qual-
ities of each substance employed are left behind, the
curative virtue only being retained. Hence it is
self-evident the effect should prove as they have
proved more purely remedial, and the Pills a surer,
more powerful antidote to disease than any other
medicine known to the world.

As it is frequently expedient that my medi-
cine should be taken under the counsel of an attend-
ing Physician, and as he could not properly judge of
remedy without knowing its composition, I have
supplied the accurate Formula by which both my
Pectoral and Pills are made to the whole body of
Practitioners in the United States and British Amer-
ican Provinces. If however there should be any
one who has not received them, they will be
promptly forwarded by mail to his address.
Of all the Patent Medicines that are offered, how
few would be taken if their composition was known!
Their life consists in their mystery. I have no
mysteries.

The composition of my preparations is laid open
to all men, and all who are competent to judge on
the subject, freely acknowledge their convictions
of their intrinsic merits. The Cherry Pectoral was
pronounced by scientific men to be a wonderful
medicine before its effects were known. Many emi-
nent Physicians have declared the same thing of
my Pills, and even more confidently, and are will-
ing to certify that their anticipations were more
justified by their effects upon trial.

The Hydromagen is a valuable discovery for
protecting the feet from damp or cold, and there-
fore a preventative of many Lung diseases with-
out any depleting operation. The Hydromagen is
in the form of a sole, and worn inside the foot or
shoe. Its medicinal character is a powerful anti-
dote to disease.

For convenience it will be found agreeable, warm,
and healthy, to wear in the coldest or rainiest
weather, as the foot cannot become wet if the Hy-
dromagen is inserted. Ladies may wear the light-
est and most comfortable shoes in the most inclement
weather, with impunity; while Consumption, so
prevalent among the young of our country, may
be thwarted by their general adoption. They en-
tirely supersede over-shoes, as the latter cause the
feet to perspire in a very unhealthy manner; and,
insoles, are not dangerous wear to pedestrians in
any weather, like India rubbers. While the latter
cause the feet to appear extremely large, the Hy-
dromagen makes a mere thin slice of cork pro-

tection, does not increase

Incidents, and Anecdotes, etc.

ADDRESS.
The earthly career of Arthur Duke
Wellington has closed; one of the greatest
men of the nineteenth century, the fore-
most military commander of any age has
paid the debt of nature. The time has not
arrived for giving to the world a History
of the Great Captain—of the Events of his
Life and Time—a life marked by patriotism,
probity and honour, and events the greatest
which have ever agitated the civilized
world, and whose influence will be felt
upon society till the end of time. Such a
work must appeal to the best and proudest
feelings in the heart of every Briton—the
glory of his country, the honour of its name
and position among the nations—may his
own existence as a freeman, are recorded
and engraven in the annals of the "well
fought fields," and the deadly imminent
breaches, the immortal battles and the

SELF-PRESERVATION: an Analytic
cal investigation of the Physiology
and Functions of Marriage, in all the bear-
ings in which that important subject affects
the health and happiness of man, with its
disqualifications, and impediments, tracing
their origin to the effects of juvenile soli-
tary habits, youthful excess, tropical climates,
or close study; followed by practical re-
marks, founded on twenty years experi-
ence in the treatment of impotence, ner-
vous debility, local weakness, spermator-
rhoea, syphilis, and all diseases of the urinary
and generative system. Illustrated by
fifty Coloured Engravings on the anatomy
of the reproductive organs and their re-
lative conditions in health and disease. By
SAMUEL LA'MBERT, M.D., No. 37,
Bedford-square, London, Doctor of Medi-
cine, Member of the University of Edinburgh,
Honorary Member of the University of
London Hospital Medical Society, Licenti-
ate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to
point out, the fearful consequences result-
ing from certain habits, irregularities and
excesses, which have produced more mis-
ery in youth, degradation in manhood, and
premature decay at all stages of life, than
perhaps, any other class of disease known
to modern pathologists. Its perusal is par-
ticularly recommended to persons entertain-
ing a physical con-
sciousness of having haz-
ardous being is entitled,
to embrace the origin, effects,
and treatment of the deplorable
maladies connected with ner-
vous exhaustion of the vital ener-
gies, prostration of mental and physical ca-
pacity, local and general weakness, acute
and chronic spermatorrhoea, and their en-
less modifications. The treatment adopted
is founded on experience gained in the most
celebrated schools of medicine, and by the
most eminent practitioners, both in Great
Britain and in Continental Europe. Every
peculiarity relating to the physiology, pa-
thology and general treatment of the dis-
eases incidental to the generative system is
fully explained, and the means of imme-
diate relief and ultimate cure described in
detail. The professional reputation of Dr.
La'Mbert, who has taken the most distin-
guished medical and academic honours, at
home and abroad, is in itself a sufficient
guarantee that those who may place them-
selves under his care will, in every instance
meet with that delicate consideration and
invaluable secrecy which are so requisite in
the treatment of these cases.

**THE ALL-HEALING
REMEDY!!!
Holloway's Ointment.**

A most astonishing cure of Scrofulous Ul-
cers—a case certified by the Mayor of
Boston.
Copy of a letter from J. Noble, Esq., Mayor
of Boston, Lincolnshire.
To Professor Holloway.
Dear Sir,—Mrs. Sarah Dixon, of Liquor-
pond street, Boston, has this day deposed
before me, that for a considerable time she
was severely afflicted with Scrofulous Sores
and Ulcers in her arms, feet, legs, and other
parts of her body: and although the first
of medical advice was obtained, at the cost
of a large sum of money, she obtained no
abatement of suffering, but gradually grew
worse.

Being recommended by a friend to try
your Ointment, she procured a small pot,
and a box of the Pills, and before that was
all used, symptoms of amendment appeared.
By persevering with the medicines for a
short time longer, according to the direc-
tions, and strictly adhering to your rules, as
to diet, &c., she was perfectly cured, and
now enjoys the best of health.

I remain, dear Sir, your truly,
(Signed) J. NOBLE.
Dated August 13th, 1852.

An extraordinary and rapid cure of Erysip-
elas in the leg, after medical aid had
failed.

Copy of a letter from Mrs. Elizabeth Yeates,
of the Post Office, Aldwick Road, near
Bognor, Sussex, dated Jan. 12th, 1853.

To Professor Holloway.
Sir,—I suffered for a considerable period
from a severe attack of Erysipelas, which
at length settled in my leg, and resisted all
medical treatment. My sufferings were

to your invaluable Ointment and Pills,
which she immediately did, and in the
course of a very short time the effect pro-
duced was most astonishing; her appetite
was speedily improved, the sores and ulcers
in the breast gradually healed, and the
nervous excitement of her system was
wholly removed.

I remain, dear Sir, your faithfully,
(Signed) T. FORSTER KER.

The Pills should be used conjointly with the
Ointment in most of the following cases:
Bad Legs Chicago-foot
Bad Breasts Chilblains
Burns Chapped hands
Bunions Corns (soft)
Bite of Mosquitoes Cancers
and Sand Flies Contracted and Stiff
Joints
Elephantiasis Fistulas
