SATURDAY'S FIGHTING.

Saturday's fighting began at daybreak. The allied forces opened with several of the Terrible's 4.7 navai guns, six field guns and numerous machine guns, the firing being at long range. They continued to advance steadily, the Chinese artillery replying. The guns of the allies were more skillfully handled, and put the guns of the Chinese out of action one by one, the Chinese retreating about noon. There was keen rivalry among the representatives of the various nations as to which should enter Tien Tsin first, and the Americans and British went in neck The Russians stormed the arsenal, thereby sustaining the largest

CONSULS REQUESTED TO LEAVE PEKIN.

London, June 27.-The foreign office has issued the following telegram re-ceived from W. R. Charles, the Brit-ish consul at Tien Tsin, undated, but probably sent June 24, and forwarded from Che Foo, June 27:
"A note has been received by the

commissioner of customs here from Inspector-General Hart (Sir Robert Hart) at Pekin, dated June 19, stating that the foreign legations had been de-The dispatch received by the for-elgn office stating that the foreign legations were requested to leave Pekin within a specified time is interpreted as tantamount to giving the ministers their possports, and as tantamount to a declaration of war, but as China does nothing like other nations, the official opinion is that there is nothing to do but await the course of events, and to see what the ministers themselves say when they are rescued.

All the students at the foreign hospitals in Canton are leaving. Women missionaries are returning from the West River ports. There was a slight disturbance at Wo-Chou Tuesday, while the women were embarking.

A CHINESE ULTIMATUM. According to advices from Shanghai, the Chinese officials, by direction of the southern viceroys are asking the consule to agree to conditions "insuring," as the Chinese say, "the neutrality of Shanghai and other coast cities. They are also asking that foreign warships shall not sail or anchor near the forts, nor go to ports where there are no warships now; that their crews shall not go ashore, and that the protection of foreigners be left to the Chinese authorities. These conditions are considered at Shanghai to be virtually an ultimatum from Viceroys Li Kung Yih and Chang Chih Tung. The consuls desire a sufficient naval and military force to back up their refusal to comply with the demands. The total naval force there now consists of 969 men with 32 guns. The Chinese have 6,000 men and six guns, in the forts, and 10,000 men outside Shanghai with modern rifles and machine guns. The magnitude of the arrangements Japan is making suggest provision against contingencies other than the suppression of the present trouble in China. She has chartered 19 additional transports, and now has 35 in all.

WITH RELIEF EXPEDITION. Washington, D. C., June 27.—The following cablegram was received at

the navy department late this after-'Che Foo, June 27 .- Secretary Navy, Washington,-Pekin force and ministers reported with Pekin relief expedition entrenched eight miles from Tion Tsin.—Kempff."

CHINESE FORCES.

The Tong Shan refugees and the foreign engineer at Che Foo estimate the Chinese troops now in the field at 25,000 drilled troops at Lutal, 25,000 at Shan Hai Wan, 15,000 driven off from Tien Tsin ,and 150,000 at Pekin.

Li Hung Chang officially announces that the presence of foreign troops at the capital is due to the Boxers, and he urges all sections of the community in Canton to be ready when the occasion arises to exterminate the enemies of the country. Numerous ruffians are entering British territory.

A Chinaman connected with war purchases for the Chinese Government in Europe, who has been interviewed by the London Daily Express, says that China has immense quantities of arms and ammunition, and will "stagger humanity" if driven to defend herself.

Several thousand Japanese have left Taku for Ten Tsin, and altogether 13,-000 Japanese have landed. The international troops now aggregate nearly 20,000, and Japan is preparing to send 20,000 more, with British, American and other troops ordered to go. Probably 60,000 men will be available in a month.

the landing force. MANY MASSACRES.

Dispatches from Shanghai reiterata the announcements of the massacres of native Christians in the inland districts which rival the Armenian horrors. The officials at the places watched by gunboats make a show of protecting the missionaries, but there is not even a pretense of protection for the converts in the interior, who have been butcher-

ed by wholesale. Washington, June 28.—The following cablegrame was received this morning by the navy department from Admiral Kempff: "Che Foo, June 28 .- About 12,000 for-

eign troops now ashore. Soldiers or-dered should report at Taku instead of Che Foo. Substituted Nashville for Yorktown at Che Foo. Yorktown used as dispatch boat, being more suitable. Kempff." GERMANS IN LUCK.

Hamburg, June 28.—Commercial firms here have received telegrams from Shanghal saying that all the Germans at Tien Tsin are uninjured.
According to the reports of Christians, fighting continued at Tien Tsin June 25, the fortified arsenal outside the town being still in possession of

BRUTAL BOXERS

Awful Treatment Given Murdered

Victoria, B. C., June 28.-The Shanghai Mercury says a member of the Boxers' society who saw the murder of Rev. Mr. Ellis, of the London mission, and of a Chinese missionary at King Tsun gave the following account

of the tragedy:
"On the twelfth day of the fourth moon, the Boxers, numbering 57, crossed the River Tsz Tsun, and met the two missionaries in a boat. They knew the Chinese was a Christian, and at once attacked him, wounding him with their swords. Then they dragged him out of the boat and tied him to a tree at the siver side. Then Ellis was tied with him, and Chao, another Chinese missionary, was found. His toes and thumbs were bound together, and he was carried to a tree near where the others were hung up. The arms of the missionaries were out off, their heads hewn off, and after the bodies had been disemboweled they were cast into the river. The chapel of the mission was demolished, and the crowd went on its way." This was but one of many

such outrages. SECRET ORDERS

CANADIANS WON PRAISE FROM LORD ROBERTS.

Pretoria, June 27.-The first battallon of the Canadian Mounted Rifles has come in for high praise from Commander-in-Chief Lord Roberts, for the gallant manner in which they captured two of the Boers' 12-pounder guns at Rustfontein between Pretoria and Rustenburg. The guns were defended stiffly by the enemy, and when defeat stared the Boers in the face they hid the guns in a native kraal prior to their departure during the night. There the guns were found by the Canadians and brought to camp— an exploit which Lord Roberts recognizes by a special mention in general

orders today.
While at Rustfontein the Mounted Rifles joined hands, much to their de-light, with C Battery, which was pres-ent at the relief of Mafeking, and has since marched across country under Major Col. Baden-Powell, Major-General Ian Hamilton's column reached Heidelberg without a fight, and were loyally welcomed by the inhabi-tants, but the general was himself injured by a fall from his horse.

EFFECTIVE RUSE. London, June 27.-Mr. Winston Churchill, in a dispatch from Pretoria, dated June 19, describes an interview with Gen. Baden-Powell, in which the hero of Mafeking says, among other things, that the Boers could certainly have stormed Mafeking early in the siege. Little flags dotting the outskirts and numerous warnings to the townspeople not to let their cattle stray within the areas sown with mines proved an effective ruse, and saved the garrison the trouble of lay-

DEWET'S MOVEMENTS. Commandant Dewet, with 3,000 men and three guns, is moving northwest in the Orange River Colony. It is understood that he and Commandant-Gen. Botha entered into a compact office. that neither would surrender so long as the other was in the field.

A Pretoria dispatch says: A few of Commandant-Gen. Botha's men have returned, and are among the kopjes along the Poenaar River, and indulge in occasional sniping at our camps at night. Remounts are being issued to the cavalry and mounted infantry. The burghers continue to surrender.

The Lorenzo Marquez correspondent of the London Times says: According to Transvaal advices the Boers are entrenching in considerable force in the Middleburg hills. The Irish, Hollander and Italian corps are getting uncontrollable. The are looting stores and farmhouses. Bar gold is a drug on the local market, owing to a suspicion that it is of inferior quality. A large quantity of stolen gold is waiting to be smuggled out of the Transvaal.

A dispatch from Maseru says: The Boers attacked a body of Basuto laborers, killing 20 and capturing 200. The natives believe the Boers are gaining Mrs. Hanbury-Williams, wife of Ma-in their war with the British, and are jor John Hanbury-Williams, Sir Alfred becoming restless. Trouble with them

London, June 28 .- The exposures re

garding the hospitals in South Africa has made a great sensation in Eng-They began with three columns of restrained language in the Times yesterday from Mr. W. A. Burdett-Coutts, Conservative member of parlament for Westminster. His disclosures have been widely reproduced, and are supplemented this morning with denunciatory telegrams from survivors and army medical men.

The archbishop of Cape Town, in an address before the Society of Good Hope, in the Cape Government, Monday, expressed great dissatisfaction at way in which the sick and wounded were treated. He declared that the warm clothing that was absolutely necessary, was freely offered, but was rarely, if ever, distributed by the army doctors; that the sick slept on the bare ground, and that even in Cape Town the way in which the hospitals were mismanaged makes one's blood

Mrs. Hanbury-Williams, wife of Ma-Milner's military secretary, told the meeting that if the visiting ladies had reported the mismanagement the doors would have been shut in their faces. A news agency dispatch from Cape Town says: "Certain revelations point to malfeasance in connection with the supplies of comforts for the sick and wounded."

The Daily Express refers to the springless, out-of-date ambulances of vass for donations to the India famine the British, and contends that the relief fund. NOTHING FOR SIR ROBERT

Peel Will Nct Share in Proceeds of Heirlooms.

The Khedive In London-Opening of an Underground Electric Railway by the Prince of Wales.

HIS CLAIM DISMISSED.

London, June 28.-Sir Robert Peel is not to have any share in the proceeds of the sale of the Peel heirlooms, which created so much interest recently. He tried to get some of the money, when an application in his behalf was made in the court of appeals.

As about £1,000 a year was left after paying incomes to Lady Peel and other charges on the estate, application was made that Sir Robert should have this, but the court refused to alter the original arrangement.

Lord Justice Romer said he thought Sir Robert, before receiving any of the money from the trustees, should re-coup them for the unauthorized sale of some of the pictures he had former-ly made. Mr. Lincoln Reed asked the court not to deal too harshly with Sir Robert on account of his youthful indiscretions, and begged the court to allow him so much out of the estate as to enable him to maintain the position of a gentleman, but Lord Justice Smith said that if he had thought Sir Robert would ever get sixpence of the money he would never have made the

original order. THE KHEDIVE IN LONDON.

The Khedive of Egypt arrived in London yesterday from Port Victoria, where he had been since he reached England from Flushing, June 21, He showed few signs of his recent illness. The traveler was received on the plat-form of the Charing Cross railroad sta-tion by the Duke of York, the Turkish Miss Clare Dunn was in Wattord on Monday.

LONDON'S LATEST IMPROVEMENT The newest and most important underground electrical railroad, running from the Bank of England to the western suburbs, beneath the central por-tion of London, was opened by the Prince of Wales yesterday afternoon in the presence of a distinguished gathering. The prince rode the whole length of the line underground, and greatly admired the handsome cars, similar to those in use on the New York elevated railroads, and the elaborate elevator service from the streets to the station platforms, 80 feet underground.

THREE WARS AT ONCE. London, June 28.—Sir Michael Hicks-Beach, chancellor of the exchequer,

speaking of the difficulties facing a chancellor who had three wars — in South Africa, China and Ashanti—on his hands at the same time, said: "It is difficult to know what are the scope and nature of work before us in China. We cannot yet tell what were the preise immediate reasons for this furious outbreak. We do not know how far it extende, or will extend, nor can we tell what are the relations of the Chinese Government with those who, at any rate in the first instance, appeared to be rebels against the authorities. It is easy to see, however, that the first duty before the powers, among whom I am glad to recognize the United States and Japan, is to rescue and defend their legations and subjects, and to exact reparation for injury to life and property as well as to see that such things do not occur again. Since the war between China and Japan began, it has been fashionable to regard China as a plum cake, to be divided among the powers, provided the powers do not curred. provided the powers do not quarrel among themselves. I doubt whether anyone among us would advance that view; and it has never been the view of her majesty's present government, which has always desired that there should be stable government in China. At the present time I believe this view to be held by all the powers."

DIED WHILE PRAYING. Watertown, Wis., June 27.-Frank Kasten, while in the midst of a prayer at the German Methodist camp meeting, dropped dead. He had been in attendance at all the services and had become very excited. At last he arose and announced that he would deliver a prayer. He had spoken but a few words when he reeled and fell. One of the elders rushed to the spot and found that Kasten's heart had stopped beating.

SUICIDAL DYSPEPSIA

Positively Averted by Using Dodd's Dyspepsia Tablets.

Yes! In thousands of instances Dyspepsia has given the invitation death. This may be a startling statement. But it is a true one. Dyspepsia unchecked causes a mel-

ancholy, hopeless feeling. Soon this merges into dark and dreary despondency. Then follows insanity—which is the second stage of despondency.

The invariable tendency of all who suffer from melancholy insanity, is to commit suicide. In nine cases out of ten they succeed. Thus Dyspepsia leads to death.

Now, there's not the least necessity for this. It need not be so, and can be prevented as easily as you can fall asleep. There's no secret about how it is done. Simply use Dodd's Dyspepsia Tablets-one or two after each mealfor a couple of weeks, and the thing

JOE CHAMBERLAIN WON. London, June 27 .- At Newcastle today the race for the Northumberland plate was won by J. C. Dyer's 3-yearold bay colt Joe Chamberlain, ridden by J. H. Martin. Innocence was second and Ameer was third. Eight horses ran.

THE WINDSOR RACES. The Windsor Jockey Club has secured the services of two well-known and during the rest of his life up to horsemen, M. N. Macfarlan, of Mem-three years ago he carefully watched phis, and Hugh E. Keogh, of Chicago, to act as judges during the 30-day meeting that opens July 21 on the Canadian track. Mr. Macfarlan will act in the capacity of presiding judge, while Mr. Keogh will be his associate. Both men are widely known, and their presence in the Windsor stand is sure to add largely to the success of the meeting.

LACROSSE. AWFUL SLAUGHTER.

If the spirit of old Chief Tecumseh happened yesterday afternoon to be hovering around the park which bears his name, he is doubtless by this time laid up an attack of appendicitis that will prevent him hovering again for some moons. How his spirit must have saddened to witness the degenerate days upon which has fallen the game that his dusky braves once played with such skill and abandon. London has seldom witnessed such a masterly exposition of the manner in which la-crosse should not be played as that provided by the lacrossists of the London club yesterday, in their match against the St. Mary's Alerts. The The Londons apparently need plenty of good hard practice, their stick handling and running being decidedly yellow. If by any mishap one of them secured the rubber it either slid gently off his stick or was thrown with a wild, convulsive throw, and some waiting St. Marys player smiled gleefully, held out his stick and the ball dropped in. Or, if by an accident, a Londoner saw the ball coming his way, he straightway fell down before it, and

allowed his opponent to step over his prostrate form and scoop the rubber. There is already enough of sorrow and gloom in the world without adding to it by a recital of the harrowing details of yesterday's game. It is enough to say that at half-time the score was 5 to 0 in St. Marys' favor, that the same team had tallied 7 before London scored and that at the call of time the score stood 9-2. Fleming, of London twisted his knee and had to tire in the last half and Turnbull, of St. Marys, was ruled off in the same half for repeated fouling. The

lineup was as follows:
St. Marys—Goal, McLean; point,
Sweet; cover, Smith; defense field, Hutchings, Armstrong, Hawkshaw; center, Hocking; home field, Jefferson, Graham, Constable; outside, Turnbull;

inside, Farr; captain, Peart. London-Goal, Hefferman; point, Kelleher; cover, Carter; defense field, Vanderburg, Modeland, Smith; center, Galbraith; home field, Foley, Pollock, Referee-W. Davidson, Mitchell.

FISTIC New York, June 27 .- A rumor was

circulated throughout the country that Sharkey, the pugilist, who was defeat-er by Ruhlin at Coney Island last night, had died of his injuries. The report was investigated and found to be untrue.

CORBETT GOT EVEN.

Jim Corbett is playing ball in small eastern towns, and on Monday he played first base for Scranton, after which he gave a three-round sparring exhibition with Con. McVey. It was a little tame, and some of the people in the grand stand hissed. Corbett at once walked up to the grand stand excitedly and shook his fist in the direction of the hissers. "Those people hissing are not gentlemen," he de-clared in a loud voice. "What do you expect me to do, knock him out? only agreed to give a good exhibition, and we don't give a prize fight for a 25-cent admission fee." The former champion's fierce demeanor cowed the hissers into silence, and he was applauded as he walked under the grand stand.

AQUATIO.

Poughkeepsie, June 27. - College coaches have as a rule refrained from detailing their respective crew events and have contented themselves hoping to win out without asserting so. Edward Hanlan, coach of the Columbia crew, broke the precedent today by boldly asserting that he stood ready to wager that the Columbia 'Varsity crew would win.

LAWN BOWLING.

Diarrhoea and Dysentery Are Too Dangerous for You to Trifle With Untried Remedies.

Refuse Any of the Dangerous or Worthless Diarrhoea Compounds That May Be Offered You Instead of Dr. Fowler's Extract of Wild Strawberry.

Dr. Fowler's Extract of Wild Strawberry for the past half century has had phenomenal success in curing Diarrhoea, Dysentery, Cramps, Colic, Cholera Morbus, Summer Complaint, and all bowel complaints of young and old. Both the medical profession and the people have given it their indorsation as the only reliable and safe remedy for these dangerous and distressing diseases.

There are some unscrupulous persons, though, who hope to profit the merit and popularity of Dr. Fowler's Extract of Wild Strawberry. They put up a so-called "Strawberry Com-pound," and sometimes succeed in selling it to druggists and general merchants representing it as the genuine. Even the wrapper is yellow in color, like Dr. Fowler's, so as to deceive the very elect if they can.

If you want to be on the safe side, if you don't want to experiment or take chances as to results, refuse any and every diarrhoea mixture or compound that may be offered you, and insist on the old reliable and genuine Dr. Fowler's Extract of Wild Strawberry, and every honest druggist and medicine dealer will give you what you ask for.

The Emergency Rations.

The Montreal Witness, one of the fairest newspapers in Canada, discusses the recent talk about the "emergency food" in a manner that might with advantage, be imitated by some other journals. Says the Witness:

"The investigation of Mr. Monk's charges in regard to the emergency food supplied to the Canadian contingent will, we trust, be of service to the country, but it will evidently fail to supply any campaign ammunition for the party use against the Minister of Militia or the Government. The food was good food, was likely to be useful, but was not concentrated food, such as the government supposed it was buying, but the Minister of Militia was not to blame, nor even the Government, nor is there any evidence of anything but the lack of such carefulness on the part of the officials of the department as might well occur with small fault of theirs in the bustle of such an active time as the department must have had when the contingents were hurried away.

"The story as elicited at the investigation is a very simple one. Last year some tests with a concentrated food were made at Kingston upon a few soldiers who volunteered to undergo them. The tests were of Hatch's protose and were prepared by and conducted under the supervision of Dr. Devlin. The official reports embodied in the blue books in detail were highly favorable. When the contingents were being dispatched, Dr. Devlin, recommendations from wellknown and respected physicians, one a prominent Conservative, appeared at Ottawa to offer supplies of this food for emergency rations for the Canadi-As at that time the dispatches from South Africa showed that among the difficulties of transport ordinary rations were being cut down, the Min-1ster of Militia thought it well to provide emergency rations, and referred Dr. Devlin to the medical superintendent of supplies, Dr. Neilson, with instructions to secure a certain amount of the food to be identical with that tested at Kingston. Dr. Neilson made all the arrangements thereafter, the Minister of Militia having nothing further to do with the affair beyond closing the contract when Dr. Neilson's recommendation was laid before him. Dr. Neilson had made a verbal contract with Dr. Devlin, requiring that this food should be exactly the same as that tested at Kingston, which Dr. Devlin undertook. There seemed no reason to suspect Dr. Devlin, who conducted the original test of the food, of substituting anything else, and though an analysis of the food showed that the amount of nourishment in it was not at all high, yet relying apparently upon Dr. Devlin's assertion that it was the same which had been tested at Kingston, and had supported men for a month in good condition, Dr. Neilson passed it and recommended it, and it was accepted and shipped. One is certainly struck here with the lack of expert acumen on the part of the official on whom the Government had to rely in this matter. It was also charged that the Department of Militia had authorized the material out of which the food was made to be passed free through the customs house. Here again an irregularity was proved, but here again the Government was exonerated. Mr. White, the Montreal collector of customs had, on Dr. Devlin's assurances that the material was for the use of the Militia Department, allowed him to remove it without the payment of the duty. Mr. White took the case solely on his own responsibility, and it was not until the matter came up in Parliament that he recalled the case and hastened to secure the payment of the duties. Mr. White was probably quite justified in taking the course he did; he acted, we have no doubt, solely with the view to what he believed to be in the public interest. And he manfully and frankly accepted the responsibility. It is plain from all this that the Government was not responsible and that the Government officers are hardly to blame for the irregularities which they permitted at a time when such irregularities seemed justifiable in view of the need for hurried action. It seems that the food proved serviceable in South Africa, though the reports received regarding it are scanty and of a private nature. That the Minister of Militia, whose son was a member of the contingent, should connive at the substitution of poor food for good food for the use of the contingent was not credible. If the food supplied was not such as was ordered and required, and

One Source Dried Up.

It is possible to proceed at law for

any dereliction, such a course should

be taken against the contractors by

the Government."

It seems ridiculous to talk of bribery and corruption by the Conservative party, when that party, according to Mr. Robert Birmingham, hasn't enough to pay its organizer.-Guelph

Mayhap they paid all their money out in the last campaign, and then again, it may be true that the Red Parlor source of supplies is now dried up, and all appeals from the Opposition bosses for money to aid in defeating the preferential tariff in favor of England bevo so far failed. But surely our

Guelph contemporary has been napping. Has it not heard that Robert Birmingham, who threatened to tell all he knows about past doings among the Conservative leaders, is to have his claim paid before the end of the week, and in time to prevent his talking out? Robert knew he would fetch them.

Anticosti.

Some London papers are saying the Parliament of Canada should pass an act annulling the sale to Mr. Menier, of the Island of Anticosti. What the average English journalist does not know about Canada is the most important of the first things necessary to understand what Canada is. Parliament could no more annul the sale of Anti-costi than it could the transfer of a lot on Pall Mall, London. - Montreal

The island was sold while the late Government held sway in 1895, and it was represented that it would be better not to let an alien take possession of so unlimited a portion of the Dominion, but no action was taken. The Chocolate King put up his \$100,000, and got the territory. If any Canadian had bidden a higher price he would, of course, have become the landlord. But the experiences of previous owners were not such as to make bidding

The Gustave Zede.

At present the French nation is very much taken up with the great exhibition, and it is to be hoped that the result of the exhibition will be to stimulate industrial and peaceful influences. But the French naval authorities think that they have found a new engine of destruction which will enable them to bid defiance to their foes. A recent writer has tried to show that with the improved methods of defense, the German army could never cross the French frontier, and now Gustave Zede and its like is to make a speedy end of hostile navies. So far as we are concerned, that is all very good, as we have no desire to see France attacked or destroyed. But it is to be hoped that there will not be too much trust in these things, as, after all, it is only negative protection that they offer. The real growth and progress of a nation depends upon forces of a different kind. But in the meantime, what is Gustave Zede? It is a new engine of destruction, a submersible torpedo boat. It was such a success on its trial that the enthusiastic people immediately raise1 a subscription to present the nation with another of the same kind. Now It is proposed to build many more of a similar class. Speaking of these, the Temps says: "They will realize Admiral Aube's theory of the empire of the sea - invisibility, divisibility, and number. The estimate for each is 600,-000 francs, which is not one-fortieth the cost of a battleship. Are not the Mediterranean experiments calculated to ead to changes in our naval construction, and would not the present situation justify the devotion of all efforts of the dockyards to submarine torpedo boats, without stopping the programme now in progress?" Experiments in the same direction

have been carried on in the United States, and the Holland was reported upon by the Government official as "an engine of warfare of terrible potency." The British naval authorities, however, seem to be unmoved by all this; hence, writers in the magazines, expert or otherwise, are beginning to cry out, as they are afraid that Britain will again be caught napping. It is a sad affair that this kind of rivalry between civilized Christian nations cannot be dispensed with, and it sometimes looks as if the only thing that, in the present temper of men, will effectually check war will be the making of it so terrible that very few will be willing to face its mysteries and its horror. In the meantime, we trust that the Erench neighbors of England will not put too much steam into the submersible torpedo boat or make an idol of Gustave

MORE CHARGES

Made by Inspector Regan Against the Street Watering Contractors.

At a minority meeting of No. 3 committee, held last night, the city engineer recommended that the city adopt some scavanger system. He suggested that the city be divided into sections and that every householder be forced to have two barrels in which to deposit their refuse. These would then be gathered by a public scavanger. Mr. Graydon will define an area and report upon a system of gathering the refuse. The scheme will probably be laid over this year, as no appropriation has been made for it. Fresh tenders will be called for the repairs that are necessary at the market house. In this connection the engineer reported that the receipts from the market exceeded the expenditure by nearly \$1,000 each year. For the next two years Mr. Graydon estimated the cost of repairs at \$500.

The time for the completion of the contract for the firemen's clothing was extended until Aug. 28, as Mr. Slater would not be able to secure the cloth within six weeks.

Street Watering Inspector Regan again complained of alleged negligence on the part of Baldwin & Baldwin and Mr. George McNeil, contractors. The latter protested against the charges. He said that the trouble arose because he had a new man. His other driver, he said, had been taken to a hotel by the inspector, where he found him later on. No action was taken

The great demand for work through Nova Scotia this year has kept many who have hitherto gone to the United States for the summer season at home. School teachers in Iowa have to be content with small salaries. Their incomes are lower than those of instructors in any part of the Middle West, except Ohio.

The storing of automobiles is quite a problem in New York city now. Some of the livery stables have declined to accept them on the ground that they are ruining the livery business.

A Nine-Year-Old Delaware Boy Struck by Lightning and Killed.

Mrs. Kelso, City, Also Badly Injured Damage to Property.

Yesterday's storm was the natural result of the excessive heat that has prevailed during the past two or three days. Although the cooling showers that came was most welcome, they were accompanied by a display of electrical force that was not agreeable, to say the least. It was trying, even to those whose nerves are ordinarily well under control. This, however, was of greatly minor importance, in comparison with its results in other ways. The saddest of these in this district was the death by lightning of Clarence Mahler, the 9-year-old son of Mr. Lewis Mahler, proprietor of the apple evaporator at Delaware. During the storm he took shelter under a tree near a wire fence. He was struck and killed instantly. Another boy, Manson Cudney, who was with him, was severely shocked; he will recover. Mrs. Kelso, wife of Mr. T. Kelso, of

the C. P. R. roundhouse, was prostrated by the lightning while at her home, No. 564 William street. Her left arm and side were partially paralyzed.

The same bolt struck ex-Ald. Wm. Scarrow's vacant house, No. 568 William street. It destroyed the chimney and part of the roof, tore up the plaster and shattered two front windows. Mr. Armstrong's house on Princess avenue, near William street, was also struck, but little damage was done, other than the breaking of a large plate

glass window Quite a bit of damage was done to the telephone and the electric light Several poles were destroyed. All the lights at Springbank were put out. The force of the storm was felt particularly to the east of the city, where the heavy wind did much damage. Trees, fences and chimneys were blown down. Mr. Cairneross, who lives near London Junction, suf-

fered severe loss in this way.

QUESTIONS ANSWERED.

CONCESSION FENCE.-A rents 8 farm from B, who agrees to repair the line fences or build new ones if required. Who is to repair or build the concession fence, dividing the public road from the land—A or B? Ans.—A cannot compel B to build the road fences. A must repair them, unless B will voluntarily do so. Answer was given last week as to distinction between line fence and road fence. Answer was

SUSPENDED SENTENCE. - Have magistrates power to decide cases for breach of bylaws by suspending sentence on an offender, and by imposing a fine on another offender? Ans.—No; in all summary convictions the magistrate must by law either dismiss the charge or convict and impose a penalty. Sentence can only be legally sus-pended by a court on the trial of an offense against the criminal code, if no previous conviction is proved against the offender, and if it appears to the court that, regard being had to the youth, character or other extenuating circumstances, it is expedient that the offender be released from imprisonment on probation of good conduct.

The Scion of 160 Kings Weds a Charming Bride.

[London Mail.]

The marriage of the crown prince of Japan, Prince Yoshihito, to Princess Sada-ko, a niece of the late empress

dowager, took place recently.

To the young Japanese nation, reveling in hopes and ambitions that suffer no blight from a consciousness of age or national ennul, the marriage of their crown prince is an event of the most auspicious character. The event gains in importance from the fact that Prince Yoshihito is the 162nd in the imperial line, the hope of a dynasty which has ruled Japan for nearly 2,000 years. He is 20 years old, is short in stature, like all his future subjects, and, though he has never visited Europe, he has received a good western education.

His bride, Princess Sada-ko, has the bluest blood of Japan in her veins, and can boast of lineage extending back many centuries, for she is the daughter of Prince Kujo. In herself she is a charming little lady of 17, with a bright and clear mind, rendered still brighter and clearer by a good education on European lines.

The prince left his palace at Aoyama, Tokio, at 7:30, and proceeded to the imperial palace in the center of the city, where he met his bride. Many Japanese now marry under western rules, but in this case the marriage, which was of a private character, took place at the imperial shine according to the Shinto rites, the rite of old Japan.

At the conclusion of the ceremony the imperial couple received the congratulations of the great officers of state, and a little later, acompanied by a brilliant escort, they proceeded to the palace at Aoyama, amid the acclamations of an immense multitude that filled the streets.

The windows were everywhere deserted, for no Japanaese may look down on the person of any member of the royal family under severe penal-

In their first appearance on the way to the shrine bride and bridegroom were both dressed in antique Japenese costume, the bride's dress being heavily embroidered with gold, but now in this procession, when they rode in an open carriage through the city, both wore European costumes.
The bride's wedding trousseau is

said to have cost £50,000. In honor of the occasion many politicians have been raised to the peer-

WHAT IS NERVE FOOD ?

is the question on the lips of many who are hearing of the wonderful cures

brought about by this great restorative. For a comprehensive answer to this

question you must ask the scores of thousands of cured ones in Canada and the United States, who have tested and proven the merits of Dr. Chase's Nerve Food—the famous blood builder and nerve restorer.

Ask the pale, weak, nervous, irritable and despondent women who have found new health, new hope and new vitality by its use.

Ask the overworked and worn-out

men, sufferers from brain-fag, nervous dyspepsia and nervous headache, who have felt new energy and vigor return to their bodies while using this famous treatment

Ask the puny, sickly children who have been made healthy and robust by using this prince of restoratives. Ask people of all ages how they were rescued from nervous prostration, paralysis, locomotor ataxia, epilepsy. They may tell you of doctors failing, of medicines taken in vain, but one and all point to Dr. Chase's Nerve Food as the only hope of persons with thin, watery blood and exhausted nerves.

In appearance Dr. Chase's Nerve Food is an oval, chocolated-coated pill. It is easy to carry and easy to take. In this condensed form it contains all of nature's most strengthening and invigorating tonics and restoratives, and for this reason it is unapproached as a blood-builder for spring.

Dr. Chase's Nerve Food cures na-

Local Market.

London, Thursday, June 28. All staples, except strawberries, were supplied in very meager quantities this morning, and little interest was manitested in anything else. Little diffi-culty was experienced in disposing of the berries, though the offerings were abundant. They were all large and firm. The price most generally obtained was 61/2 cents. Cherries were supplied more profusely than hereto-fore, and found ready sale at from 5 to 6 cents per quart. The trade in eggs and latter was inactive. Supplies were small, and there was little demand; prices remained unchanged. A similar apathy was noticeable in the meat stands, where offerings, although not large, were sufficient for all requirements. A small amount of poultry was offered. The birds that are teing offered are not of the most tempting kind, and trade was slow. The ail-prevailing tone throughout the square was one of lamentation for the destruction wrought by last night's

plendid Showing Made by Dodd's Kidney Pills in Queen City.

Toronto, June 25 .- It is interesting to note that this city, the headquarters of Dodd's Kidney Pills in Canada, and the place where they were first discovered, keeps well in the front as regards the number of those cured in towns and cities of Ontario. As Dodd's Kidney Pills have since made friends all over the civilized world, this fact is of wide and significant interest, showing that Dodd's Kidney Pills retain their hold on public esteem purely

on their tried merits.

Mr. Mulock's Labor Bill Given a First Reading-Measure in the Interests of the Worker-A

Ottawa, June 27.-The postmastergeneral, who is rapidly winning laurels for the government by his excellent labor legislation, this morning introduced his conciliation bill, as it is briefly termed, and lucidly explained its purport. One of the objects of the measure is to promote the settlement of trade disputes and differences that arise from time to time between employers and employes, and between different classes of employers, by the aid of conciliators or boards of conciliation. The hope is entertained that the

application of this method may in many instances brevent strikes and lockouts, and in cases where strikes occur bring about a permanent and satisfactory settlement. The bill also proposes to establish a department of labor, whose duty it shall be to gather statistical and other information affecting labor, and provides for its publication, in a form accessible to the people generally, In order to carry out that object, a monthly labor gazette will be published, which will occupy the same position towards labor as does the report on agriculture with respect to the farming community, and the trade and commerce report in regard to the commercial world. This gazette will not be a medium for the expression of opinion, but for the registration of statisties and of facts relating to labor matters. The introduction of this legislation by Mr. Mulock gave great sat-isfaction to the majority of the members of the house, and more particularly to those representatives who have taken a special interest in labor problems. It speedily became evident, however, that the opposition were deeply chagrined at finding the bill was so complete, so beneficial in character, so acceptable to the commercial and laboring classes.

Mr. Foster did not dare to openly op-

pose the bill, but he attacked the government under the plea that the postmaster-general had delayed the bringing down of the measure until almost the last hours of the session. Mr. Mu-lock in his explanation had made a much more detailed statement than is usual when a bill is first submitted to the house, but the ex-finance minister found fault because, he said, the postmaster-general had not given information. It was quite clear that Mr. Foster was sorely perplexed to find grounds for criticism when he addressed him-self to such trivialties. He would have taken a very popular stand had he commended the bill and avowed himself willing to co-operate in its passage; but he allowed himself to follow the promptings of partisanship for fear of making political capital for the government. Mr. Maxwell, ever a zealous advocate of the labor cause, welcomed the bill with enthusiasm, and assured the government that it would prove most acceptable to the great mass of the people. Mr. Mc-Mullen said it was quite evident that the government had taken the wind out of the opposition sails, and hence Mr. Foster's anger. He touched the Conservatives on a sore spot by re-calling the practice which the late government followed, and often carried to scandalous lengths, of not bringing down their most important measures until almost the eve of prorogation.

An extraordinary speech from Sir Charles Tupper followed. Just as the opposition leader rose to his feet a fierce thunderstorm swept down from the Laurentian Mountains and burst over the Parliament Building, so that while Sir Charles stormed within the elements rioted without. Sir Charles launched several days' accumulation of invective at the head of the ministry, and ever and anon the thunder crashed over the thick plate-glass roof of the chamber, as though in protest against the violence of his language. Sir Charles completely ignored the subfect under discussion, and, roaming far afield, pictured the government as panic-stricken and introducing measures in the hope of stemming the deluge about to engulf them. He said that corruption so monstrous had been practiced that the whole country stared aghast at it. No one was heartless enough to stop Sir Charles' flow of language by inquiring why he did not discuss the bill, and he accordingly proceeded in his most graniose style Adjectives and superlatives poured forth from his lips like the torrents of rain which beat harmlessly upon the roof or the chamber. Sir Charles appeared to think that the thunder was seeking to silence him, and so he endeavored to drown its roar. The un-equal contest continued until he seemed to realize that he was but human, and he sat down without dealing with the merits of the bill before the house. The premier, with cutting irony, referred to the speech of Sir Chas. Tupper as a fair example of the manner in which the opposition discussed import-

ant questions. His latest effort was a rehash of old speeches. Sir Charles had forgotten his past record, but the people of Canada knew that record, and remembered it. If there had been delay in bringing down this bill, it must be borne in mind that Mr. Mulock had been consulting many those whom the measure would affect. The result was embodied in the present bill, and Sir Wilfrid thought would prove entirely satisfactory. Mr. Craig was for postponing the bill, or at least his argument was open to that inference, while Mr. Beattle considered the alien labor law of much more importance than the present measure. The opposition, while mainifestly hostile to the measure, did not dare to openly denounce it, and the bill receiv-

An indication that the business of the session is being rapidly closed up was given this morning, when Mr. Mc-Millan presented the report of the select standing committee on agriculture,

which completed its labors. The house adjourned at 12:30. EMERGENCY RATIONS REPORTS. The emergency rations committee met this afternoon to prepare a report containing their findings on the dence given. It is understood that the majority report will be presented to the house when it meets tomorrow morning. The report of the majority completely exonerates the minister of militia, and finds that the ration supplied the troops was equal to that subjected to test at Kingston. Mr. R. S. White, collector of customs, at Montreal, is severely censured for permitting the free entry by Dr. Devlin of materials for the food on the latter's promise to complete extinguisher. militia department, and then allowing the matter to rest until his attention was called to it by the customs department. The minority report is said to be a voluminous one, in which Mr. Monk's charges are in the main held to

have been proven.

LABOR BUREAU

Robert Glockling, of Toronto, Gets the Secretaryship.

Labor Gazette To Be Published Ottawa Electric Linemen's Strike Continues-Situation in Chicago.

> Toronto, June 28.—Mr. Latchford stated last night that the Ontario government has appointed Mr. Robert Glockling secretary of the newly-established bureau of labor. Mr. Glockling is one of the best Canadian labor men in the Province of Ontario. He was born in London, England, in 1854, and after serving his apprenticeship as a bookbinder, came to Toronto in 1869, where he has with slight intermissions followed that occupation ever since. Mr. Glockling has held all the important offices in the Bookbinders' Union, and was president of the Trades Council for several terms.

The duties which will fall to the lot of the secretary of the Bureau of Labor were defined in the bill introduced by Hon. F. R. Latchford, and passed at the last session of the legislature. The act provides for the maintenance of an office with a clerk assistant. The secretary will devote his time to the collection of information and statistics of various kinds of interest to workingmen and wage-earners generally, and must transmit a report to the legislature annually, together with what observations he may deem proper. The Bureau of Labor is understood to be the beginning of a system of pro-vincial machinery which Hon. Mr. Latchford, who has made a deep study of the subject, has in contemplation. Another branch, foreshadowed last session, is the introduction of a measure providing for compulsory arbitration in certain industrial disputes.

THE LINEMEN'S STRIKE. Ottawa, June 28.-The electrical men still hold out. It is now said that the Ottawa Electric Company is willing to give a slight increase in wages, if the men return to work immediately, but that it will not be dictated to by the union.

JOINT ARBITRATION. Chicago, June 28.—The bricklayers and the contractors have signed a peace compact that seems to make certain the collapse of the Building Trades Council, and the resumption of the building industry in Chicago. A feature of the agreement is a plan for a joint arbitration. United States Judge Grosscup has been agreed upon as umpire, to be called upon for a decision in case the joint arbitration board is evenly divided.

Sheriff Pohlman has discharged the St. Louis posse comitatus.

Successful Commencement Exercises The Annual Convocation.

The commencement exercises of Alma Ladies' College, St. Thomas, began on Wednesday, June 20, and closed Tuesday, June 26. The first programme was the recital of the candidate graduates in elocution. This excellent programme was most creditable to the candidates and to their instructor, Miss May Walker, A.T.C.M.

The second recital of the series, that by the graduates in music, gave proof of the thoroughness and wide range of study in the departments under the di-rection of Mr. St. John Hyttenrauch and Miss Eva N. Roblyn, Miss Evelyn Parker, the graduate in vocal music, carried through, with splendid effect, the heavy classical and varied work assigned to her. The graduates in pian-oforte, Misses M. Wilson and M. Hill, proved themselves skilled interpreters of the works of Beethoven, Chopin, Liszt, Schumann and other great composers.

In the evening an interesting musical and literary programme was provided by the alumnae of the college. This annual entertainment is one means of keeping up a strong college spirit among the old students. The college chapel was filled Sunday morning, it being the occasion of the

Baccalaureate sermon, an able and inspiring sermon was preached by Rev. J. V. Smith, D.D., London, and very excellent music furnished by the college choir. On Monday evening the annual concert was held in McLachlin Hall. The leading artists were Mrs. Caldwell and Ema Scott-Raff. several years since Mrs. Caldwell has sung before a St. Thomas audience, but she ably maintained her reputation as one of Canada's sweetest Emma Scot-Raff had never been heard in St. Thomas before, but she made an excellent reputation, and completely won the hearts of her audience. Her rendering of Tennyson's "Lady of Shalot" and "Crossing the Bar" was remarkably effective. On Tuesday afternoon the annual convocation exercises were held in McLachlin Hall. The usual presentation of certificates made, and exceptional interest was evinced by the large audience present. The following is a list of the graduates. together with the names of the gentlemen who presented the classes for their diplomas:

evening. -The dinner given by Capt. Frank Reid and Lieut. Jack Brown at the Kennels last night, proved a great success. Notwithstanding the disagreeable weather more than 30 men were on parade. They were fortunate enough to reach shelter before the heavy rainstorm, but were discon-certed when they reached the river and found that the greater portion of the floating bridge had disappeared. Seven or eight men were successful in getting over when two men disappeared from sight. These were extricated without very much trouble, and the balance of the company proved good swimmers. Privates Aldridge, Parsons, Bowman, Erasmus and several other members of the company rendered songs, and the enthusiasm of the men's speeches showed that they were anxious to make the company a successful one, and are determined to turn out to all the parades, which will be held every Wednesday night throughout the summer. The company returned by the back road and thus avoided

In the Relief of Tien Tsin Were 11 Killed and 20 Wounded.

The Fight Lasted Eight Hours-Situation in China Clearing.

Berlin, June 28. - The German commander at Taku reports that in the relief of Tien Tsin the Germans lost Lieut. Friedrich and ten men killed, and had twenty men wounded. The fight lasted eight hours.

SITUATION CLEARING. New York, June 28.-The situation in China is clearing slowly but surely, says the London correspondent of the Tribune. The losses and dangers of the foreigners in Tien Tsin are now known to have been grossly exaggerated by the rumor-mongers. The casualties have been few, and the damages to property have been slight. Dispatches received from Shanghai and Che Foo agree in minimizing the perils to which the foreign quarter had been exposed, and a European who has reached the coast from Tien Tsin reports that there has been anxiety

approach to a panic.

The relief column which entered Tien Tsin Saturday night met with little resistance. The Russian losses are reported as four killed and twenty wounded and the casualities of the other detachments were light. Admiral Seymour's mixed force, which was retreating towards Tien Tsin, does not appear to have been in so desperate a plight as the earliest and most sensational dispatches made out, and on Sunday it was only three hours' march from the city. The details of march from the city. The details of the rescue of this force by a relief column two thousand strong are still lacking, but the return of the entire body Tien Tsin is a foregone conclusion.

FOREIGN LEGATIONS. The safety of the foreign legations is assured. The foreigners, with their own guards, were conducted out of the capital and placed under the protection of Seymour's force, which retired slowly toward Tien Tsin, with its sick and wounded. The column was harasssed by Chinese mobs and compelled to move slowly, but apart from the difficulty of securing supplies it does not appear to have been in serious danger, much less in great extremity.

EARLY COLLAPSE OF THE BOXER MOVEMENT PREDICTED

It now seems probable that with the ten thousand troops, including the Japanese between Taku and Tien Tsin, Pekin can be approached with little difficulty within a few days, and the members of the legations reinstated in their quarters. This may be an optimistic view, but the situation has improved so rapidly during the last 48 hours, that the collapse of the entire Boxer movement within a week is now forecasted by well-informed men. The optimists are probably over-sanguine, just as the croakers have beer unduly alarmed, but the impromement in the situation is unmistakable

Long List of Good Firms Failing-The

Khedive Visits the Queen. London, June 28.-A dispatch from Moscow to the Westminster Gazette says: The Boxer troubles and the death of Count Muravieff have greatly accentuated the difficulties of the financial situation in Russia, which is in such a critical state as to arouse the gravest anxiety. The black list of good firms failing lengthens, and the sense of insecurity and fear that something worse is to come has caused vast sums to be temporarily withdrawn from the market. In Moscow alone, within two months, it is stated on good authority, 820,000,000 roubles (over \$615,000,000), most of which was previously in currency, have been lodged it the Imperial Bank without interest fo.

security. THE KHEDIVE AT WINDSOR. London, June 28-4:52 p.m.-The Khedive of Egypt paid a state visit to Queen Victoria at Windsor Castle this afternoon. Accompanied by the Duke of York and the Turkish ambassador, Anthopulo Pasha, and staff, he drove in state carriages, escorted Household Cavalry, to the Paddington railroad station, whence he took a train for Windsor. The Duke of Connaught there joined and accompanied his highness to the castle. The procession at Windsor was escorted by Life Guards, and a detachment of Grenadiers formed a guard of honor in the quadrangle of the castle. The Queen received the khedive at the principal entrance.

"Certainly, my dear girl. I will myself write him a note of invitation, exclaimed Mrs. Douglas, cordially. "If you please," said Dawn, thinking how happy it would make her father to receive a note in the dear, familiar handwriting of his beloved wife. Mrs. Douglas was quite pleased with the idea. She went eagerly to her desk to write the cordial little note of which Dawn was to be the bearer. Her heart best with strange excitewords; but she dreamed not of the subtle tie that bound her to the man sug addressed, nor that his happy tears and kisses would fall together on the perfumed page fresh from the touch of his adored wife.

Dawn received it with delight, and impulsively bent her head and kissed her mother's lips. Thank you ever so much. He will

be very proud of this, I know," she said, and then she hurrled away, for it was hard to keep her happy secret with those wistful blue eyes looking at her so earnestly.
"Patience a little longer, my heart!"

she said to herself, feeling her pulses bound in anticipation of swift coming future happiness

I have won!—I have triumphed, as I told you I would!" she cried.
"My darling!" he exclaimed, kissing the fair face fondly. "Who could resist your fair face and winsomeness?" "Lettie Jarvis could always," she answered, laughing. "But listen, dear father, while I tell you all. I have met Lettie on a fair field, and I have conquered by my own skill-not through the secret I hold. I have won my mother's heart, although she believes that Lettie is her daughter, I have met Mr. and Mrs. Tempest, and they are my friends; they have learned to like me before they learn that I am daughter to the man and woman they wronged so deeply.'

"That is well, my daughter," he said, smiling, and softly pinching the rosy, cheek with his fond, caressing fingers. But, after all, it was an easy victory. As I said before, no one could resist you. But what of Tracy Tempest?"
The sweet face, flushing warmly, drooped from his gaze.

Mr. Douglas laughed lightly at her swift confusion. "Is Tracy conquered and won, too?" he inquired; and Dawn whispered a shy affirmative against his cheek.

"Then the grand finale will come soon," he said, hopefully; and for answer she gave him her mother's let-

CHAPTER XLI.

His dark cheek flushed and paled at the familiar writing. Tears of joy dimmed his eyes as he kissed the words her hand had penned.

"Now I will tell you my plan," said Dawn, eagerly. "I will go with Mrs. Elmore to Cedarhurst next week. You will follow the day after I leave. I do not want to be hard on Lettie. I shall have a private interview with her, tell her all, and let her withdraw quietly to her father's house, so as to escape the reproaches of the people she has deceived; and I shall give her some money and tell her I forgive her, and she must ask God to forgive her too, for her sin-will not that be right, dear

"I will be kinder than she deserves: but, after all, we owe her some kindness, for if she had not locked you up in the old wing of Cedarhurst, your poor mother might have remained in

prison to the day of her death," he replied thoughtfully.

It was the last day of August when Dawn and Mrs. Elmore arrived at Cedarhurst, which was looking its loveliest in the full flush of its summer glory. The splendid lawn was all aglow with brilliant flowers set like gems in the emerald green grass. The magnificent cedars that gave the place its distinctive name were looking their grandest, and Dawn felt that it was no wonder that Mr. Tempest had coveted such a noble inheritance for his handsome son.

They received a cordial welcome from Mrs. Douglas, whose sweet, sad face relaxed into smiles at sight of her favorite Dawn.

"I hope you will like Cedarhurst," Mother Graves' Worm Exterminator she said, when Mrs. Elmore expressed has the largest sale of any similar preher delight with the beauties of the paration sold in Canada. place. grand house was hers by right of birth 'And yet this is only the second time I ever came beneath its roof," she thought, and memory recalled the bright May day, now more than two years ago, when she had come with Lettie to sit to Herbert Arden for their portraits.. She had rescued her unknown mother from her long imprisonment and found her father; yet Lettie, the beautiful imposter, was here queening ended by striking out the words "or

Her young heart beat with pardon-

able triumph as she wondered what the Sunnyside people, who had treated her so badly, would say when they found out that she was heiress C'edarhurst, and that she was going to be the wife of handsome Tracy Tempest, who had crowned her Queen of May upon the green lawn when she was but a simple village maiden. "Oh. Aunt Phèbe, I forgot I had to
dress!" the girl exclaimed, turning from the window with a smile. The maid had already opened her trunk and laid out several handsome dresses; but Dawn took out the plainest white dress she had-a white mull, soft and dainty, but simply maid, with white ruchings of lace at the throat and wrists, and a knot of blue ribbon falling from her shoulder. She arranged her abundant shining hair in much the same simple fashion that she used to wear it two years ago.

PROHIBITION IN MANITOBA

No Fees To Be Charged Druggists and No Limit on Doctors' Prescriptions.

Winnipeg, June 28.-The prohibition bill was considered by the law amendments committee of the legislature, and several important alterations made It in her stead as heiress of Cedar-hurst, betrothed to Tracy Tempest, soon to be his wife.

"It is time the farce should end," tion of a "dwelling house," which pro-pays said to herself decidedly. "I vided that it should not be construed to include or mean "any house or build-She could not help feeling sorry for Lettie, who loved Tracy Tempest so be too drastic. Clause 36, which provides that a sum of \$20 shall be deposited by complain-

the complaint is established the said sum of \$20 shall thereupon be refund-

ed to the complainant. A long discussion ensued over clause 42, which regulates the conditions of the sale of liquor under a druggist's retail license. The restriction of quantity to six ounces upon a doctor's prescription was vigorously opposed Messrs. Mickle and McInnis argued that a medical practitioner should not be limited as to the amount of liquor he should prescribe, and it was pointed out that the provision would prove troublesome and annoying in country districts. The question of the sale of ale and porter was also raised, and it was asked whether a sick person could drink either beverage in a boarding house. It was thought that under the act it would be impossible. Dr. Mc-Innis remarked that the veterinary surgeons and dentists also required to use large quantities of liquor in their practice, and he moved that they be given the power to keep and admin-ister it. Mr. Greenwood thought that if persons were allowed to give animals large quantities of liquor would often have sick horses. clause was ordered to be redrafted so that there shall be no limit in the prescription of medical men, and, also, that "vets" and dentists shall pre-scribe and administer liquor.

Clause 43 was also amended, so that ministers of the gospel requiring wine for sacramental purposes shall obtain It from druggists on written request instead of affidavit, and the amount to be unlimited. In this connection it was pointed out that an amendment would have to be made to the act, to permit the drinking of wine in churches, otherwise a whole congregation might be arrested for infractions.

-The semi-monthly meeting of the W. C. T. U. was held on Tuesday afternoon. Rev. Dr. Saunders conducted the devotional exercises, taking as the subject for thought the "Presence of God." Dr. White gave a very interesting and practical address on "Non-Alcoholic Medication," showing the harm that resulted in many cases from the use of alcohol as a medicine. Mrs. Wilson was appointed a delegate to attend the Dominion Alliance convention to be held in Toronto in July. The meeting closed with prayer. -Mr. J. R. Bowles has been compell-

Require the Nerve Toning, Blood Enriching, Heart Sustaining Action of Milburn's Heart and Nerve Pills.

It is well known that after any serious illness the heart and nerves are extremely weak and the blood greatly impoverished. For these conditions there is no remedy equals Milburn's Heart and Nerve Pills. It restores all the visal forces of the body which disease has impaired and weakened. Mr. T. Barnicott, Aylmer, Ont., says :-

"About a year ago I had a severe attack of La Grippe which left my system in an exhausted condition. I could not regain strength and was very nervous and sleepless at night, and got up in the morning as tired as when I went to bed. "I had no energy and was in a miser-

able state of health. "Milburn's Heart and Nerve Pills, which I got at Richard's Drug Storehere, changed me from a condition of misery to good health. They built up my system, strengthened my nerves, restored brisk circulation of my blood, and made a new man of me.
"I heartily recommend them to any one suffering from the after effects of Grippe, or any other severe illness."

-Very few excursions have been held this season from London, but one of the most enjoyable trips is that to be held on Dominion Day to Conneaut, Ohio. The Sons of England, who have the excursion in charge, have arranged to give excursionists all the pleasure that it is possible to obtain from such a The large steamer Shenango will leave Port Stanley upon arrival of the morning train, which leaves London at 5:50 a.m. The fare from London is \$1 50. As this is the only excursion leaving London on Dominion Day outside of the usual Port Stanley excursions, it will doubtless be largely patronized.

Reid, John Campbell, T. H. Smallman, C. S. Hyman, M. Masuret and J. W. Little. Mr. Reid was chosen president, Mr. Smallman vice-president, and Mr. Little secretary-treasurer. The secretary reported that the lesses of their property the Michithe lessees of their property, the Michigan Central Railway Company, had paid the year's rental of \$3,000 regularly. The lease had fourteen years yet to run. The cost of the station and freight sheds erected by the L. and S. E. Company, together with tracks and other terminal facilities, was about \$71,000. The lessees pay the taxes and insurance, in addition to the rental of \$3,000. The L. and S. E. Company's expenses were \$4 92, and the receipts, representing interest on savings bank account, were \$10 12. NORMAN-WHYTE

A PRESENTATION. Yesterday being the last of the June term of the Forest City Business College, the students in the shorthand and typewriting department took advantage of the opportunity thus afforded of evidencing in a tangible way their esteem for their teacher, Miss McConnell, who is severing her connection with the institution. On behalf of the students, Miss Blanche Friend presented Miss McConnell with a handsome traveling case and a beautiful bouquet of roses. Mr. Ernest H.

Stewart read the following address: Dear Miss McConnell,—As the time has come for this class to disperse, we cannot allow the opportunity to pass without expressing to you our heartfelt appreciation of your untiring ef-forts in our behalf. We would therefore ask your acceptance of this traveling case as a very slight token of our regard for you. With cordial good regard for you. With cordial goo wishes, signed by the class of 1900. B. FRIEND,

E. H. STEWART, B. BROCK. Although wholly unprepared, Miss McConnell replied suitably, thanking the students and wishing them every success in life.

SAID FAREWELL At a farewell social held on Monday evening, Rev. Mr. Sinclair, of Hill League and young people's class. Among the many numbers on the programme was a trio by Miss Northey, Rev. Mr. Sinclair and W. Copeland.Mr. Sinclair was presented with a hand-some mantel clock and Epworth League pin, with the following address: "Dear Pastor,—It is with feelings of

deep regret that we have assembled here to say good-bye. We are thankful to night for the year's association with you in Christian work, feeling that the influence of your example has been the means of making us stronger in the service of our King. We have always felt that in you we have had a ready sympathizer in every time of our need; even in the little things which go toward making up so much of our lives, proven effectually by your willingness to assist us in any possible way. We feel that even yet it is hard for us to say that in some way it must be best that your connection with us should be severed just when your influence among us is being felt; but may we be enabled to feel that for the future, to hope and trust is better than to know. Our earnest wish and prayer for you is that in your new field of labor you may have our Father's presence in the brightness and in the shadow. We ask you to accept this clock as a slight expression of our esteem and confidence in you, and as each day it marks for

A Record in Blood.

The record of Hood's Sarsaparilla is literally written in the blood of miflions of people to whom it has given good health. It is all the time curing diseases of the stomach, nerves, kidneys and blood, and it is doing good every day to thousands who are taken every day to thousands who are taking it for poor appetite, tired feeling and general debility. It is the best medicine money can buy. Hood's Pills are non-irritating. Price

25 cents. It is claimed that science has done less for musical instruments in the

last century than for any other branch of inventive industry. FOR INFLAMMATION OF THE EYES .- Among the many good qualities which Parmelee's Vegetable Pills possess, besides regulating the digestive organs, is their efficacy in reducing inflammation of the eyes. It has called forth many letters of recommendation from those who were afflicted with this complaint and found a cure in the pills. They affect the nerve centers and the blood in a surprisingly active way, and the result is almost immediately seep

Conservatory Recital. The heavy rain last evening prevented many from enjoying the third of the closing recitals of the Conservatory of Music. The programme was furnished by Miss Mabel McLay, pupil of W. Caven Barron, and Miss Norah Little, pupil of Miss Katherine Moore. Miss McLay, who is a daughter of Dr. Mc-Lay, of Woodstock, is possessed of the artistic temperament in a high degree, and her performance is marked by the exhibition of superior style and finish, great power of expression and clea-and clever technique. Her most enjoyable numbers were probably the "Rondo Capriccioso," and the "Valse Lente." Miss Little, daughter of Rev. James Little, Birr, has a high soprano voice, which is characterized by great flexibility and a sweet and sympathetic tone quality. Miss Little possesses good power of interpretation, and her performance indicates careful and excellent training. Her best selections were the "Fairy Lullaby" and "Il Sogno," the success of the latter number being enhanced by Mr. Little's exquisite obligate on the violin. The programme was: "Bacarolle," op. 110, No. 2 (Godard), Miss McLay; "Cavatina" (Lucia di Lammermoor, Donizetti), Miss Lit; tle; "Rondo Capriccioso" (Mendelssohn), Miss McLay; (a) "If I But Knew" (Smith), (b) "Fairy Lullaby" (Needham), Miss Little; "Air de Ballet," No. 1 (Chaminade), Miss McLay; "Il Sogno" (Mercadante), Miss Little, enhanced by Mr. Little's exquisite obli-"Il Sogno" (Mercadante), Miss Little, with violin obligato by Mr. J. What a world of meaning this statement embodies. Just what you are looking for, is it not? Putnam's Painless Corn Extractor—the great sure-pop corn cure—acts in this way. It akes no sore spots; safe; acts speedily and with certainty; sure and mild-ly, without inflaming the parts; painessly. Do not be imposed upon by imi-

THEY DROVE PIMPLES AWAY .-A face covered with pimples is unsightly. It tells of internal irregularities which should long since have been corrected. The liver and the kidneys are not performing their functions in the healthy way they should, and these pimples are to let you know that the blood protests. Parmelee's Vegetable Pills will drive them all away, and will leave the skin clear and clean. Try them, and there will be another witness to their excellence.
