THE Canadian public to General Middle ton: "A long adieu, DEAR General." IT is stated that a new university degree is about to be established at Edinburgh-

that of Bachelor of Sanitary Science. If the examination is strict, the new bonor should be coveted. Sanitary science is too little understood in these days of progress. FARMERS are now complaining of too

little rain. They say that through the con-tinuous rains of May and early June, followed by the extreme heat of the last few days, the soil in many parts has caked, and vegetation is suffering. It seems difficult to strike the happy medium in climatic

THERE are speculators in everything these days. We hear of a man who wishes to introduce into this city a folding camp chair that can be put in one's pocket and carried home after being in use. It would be an admirable thing for a band concert on the park. Then in New York a company has been formed to rent out steamer chairs for \$1 for a trip across the ocean. The chairs are supplied with little tables designed to hold a plate, tumbler, and a bottle. Several thousand of these rented chairs are now in use, and the demand for them is constantly increasing. The idea is that most travelers would rather pay \$1 for the rent of a steamer chair than buy one and be bothered with storing it when they get to Europe.

THE new Ontario Legislature will not lack for doctors. There will be eleven physicians in the new House: Dr. Baxter, of Haldimand; Dr. McKay, of South Ox ford; Dr. Dowling, of South Renfrew; Dr. McKay, of West Victoria; Dr. McMahon of No.th Wentworth; Dr. Gilmour, of of Nown Wentworth; Dr. Gilmout, of West York; Dr. Barr, of Dufferin; Dr. Preston, of Leeds; Dr. Willoughby, of East Northumberland; Dr. Wylie, of West Simcoe; Dr. Me cham, of Lennox. Of these the first fix are Reformers, while the remaining five are Conservatives. Among the defeated candidates there were four doctors, as follows: Dr. Tennant, of South Bruce; Dr. Hunt, of Center Grey; Dr. Fleming, of West Kent, and Dr. R. F. Preston, of North Lanark.

OPPORTUNITIES WASTED.

The Scottish American is very sanguin about the future of the trade relations of Canada and the United States. It discusses the recent proposition of Secretary Blaine, to establish complete reciprocity between the United States and all nations

But for hostility to the project by the Dominion Government and their mo supporters what a chance there would now be for improving the trade relations between the two countries. Meanwhile the and we don't care whether we sell or not.

It is because they wish to make a certain class of electors. they wish to make a certain class of electors believe that they disapproved Mr. More-dith's platform in the late elections. They see the necessity of laying the wires for the Dominion elections, and so they have taken to paying compliments to Mr. Mowat and traffic, if only the pavement be good, giving back-handed slaps to Mr. Meredith. Sir John and Sir Charles are cunning team, but is it not just a little

hen he is down !"

We know of no class in the West who can be deceived by the twistings, turnings and sharp curves of the Tory leaders. t is true that we have heard it argued that the Dominion Government and its allies had nothing to do with Mr. Meredith and his attempt to oust the Liberals from the Government benches at Toronto. But the attempt to prove that extraordinary conention has been so clumsy that the newspaper editors and the leading politicians undertook the job have only made laughing-stocks of themselves. Just glance at the facts for a moment:

The Empire, the subsidized organ of Sir ohn Macdonald, which the Ottawa Tory leader recently boasted was established by him for the purpose of correctly stating the position of the party on public affairs, supported Mr. Meredith in every phase of his policy. Its manager and chief editor was Mr. David Creighton, Meredith's lieutenant. Was he not a thorough indorser of the position of the Opposition leader? Then the whole machinery of the Dominion Conservative organization was placed at the disposal of Mr. Meredith and Sir John Macdonald's Mr. Birmingham, visited organizer,

every doubtful constituency. A good deal of the Tory campaign literature and the funds for conducting the election were sent from Ottawa. The members of the Dominion Government did not go on the stump, but it was not because they were opposed to the success of Mr. Meredith, but rather because they had reached the conclusion-a well-founded surmise, we must admit—that their appearance on the scene would hurt rather than help the cause of the Tory candidates. We in the West know very well, however, that the most active canvasser in the constituencies were Tory M.P.s, and such men as Mr. Monerieff, M.P. for East Lambton, and Mr. Coughlin, M.P. for gerrymandered North Middlesex, were at work early and late, talking and canvassing in favor of the Meredith ominees. To crown all, Mr. Meredith nominees.

entered into close caucus for hours at a
time with his political god-father, Hon.
John Carling, both before and immediate, after election day. Let same men take in to account these facts, and be cognizant of

the truth that the newspapers, the M. P. orators, the paid agents, the chronic office seekers, in some instances the office-holders and even the Dominion Ministers in a secret way, all worked as hard to secure Mr. Meredith's success as they toiled to obtain a victory in the Dominion election of 1887. What conclusion is open to them? Simply that the Tory party leaders were routed in the recent contest all their protests to the contrary notwith standing. Therefore, the attempt now to kick Mr. Meredith because of his non-sucan get voters who suppo

cess is a shameful piece of business. It was the entire Tory party in Ontario that was defeated in the election-not a section of it, as Sir John Macdonald tries to make believe, and neither he nor his associates ed the Liberal then to indorse Tory candidates in the next Dominion election by any such false pretenses as they now set up. If the Tory leaders had a record that would bear investigation they would not resort to these transparent and falsely-founded expedients.

THE COMING STREET RAILWAY.

Though horse power is still used in the majority of Canadian cities and in not a few over the border, there is every reason edict stands: Pile on the taxes. We few over the border, there is every reason don't want to buy from the United States, for the assumption that the sole motor power for street car propulsion will in the near future be electricity. MONSTER CLEARING SALE

POWELL, ALLEN & BRICKENDEN'S, THE GREAT KID GLOVE HOUSE

This has been a busy week with us. Growds of customers are visiting our store and buying largely from the wonderful bargains offered. Our customers and citizens of London, and those coming surrounding towns, should keep in mind that we have gone through our stock and marked down the prices to such a low point that we defy any drygoods house in London to equal our prices. Don't forget that everything down to the value of 10c. has been reduced. No hieroglyphics used in marking forget that everything down to the value of 10c. has been reduced. No hieroglyphics used in marking our goods, but every article is marked in plain figures, so all can see what they are doing.

We wish everybody to remember that we have imported the bulk of our magnificent stock and personally selected it in the British markets, and now are determined to force the sale of the greater bulk of the stock, which is very much larger than we can afford to carry, amounting in value to some thing over

thing over

\$50,000 00.

N.B. ---We respectfully urge all who have \$1 to expend in purchasing drygoods to come and see for themselves, as we will be more than delighted to show everybody through our stock, as we know an inspection will convince all and amaze everybody how such elegant goods can be sold at such low prices.

The Feminine Shirt a Fact.

The shirt has come to stay.

A month ago it was regarded as a whim of the season; now it is established in favor and counted an indispensable feature of a well-dressed woman's wardrobe.

Heretofore Dr. Mary Walker had sole claims on the stiff shirt bosom.

Later came Mrs. Jeanette Thurber in her tweed cu'away coat jauntily buttoned over a waistooat and soft-finished shirt, and from the date of American opera to the last gasp of the Italian school she remained the one devotee of the feminine shirt in New York society.

Now all the tailor-made girls in town are done up in stiff bosoms, standing collars and long cuffs, and the old established shirt-makers have been called upon to make to measure the nether garment so long the un-disputed property of men.

An Apt Comparison.
"She has the disposition of a flanne shirt."
"What on earth do you mean?"
"She is a shrinking little thing."

une 30.—A large amount of June cheese was oneved at the cheese market Saturday. Prices were dull, chiefly owing to the drop reported by the Liverpool cable. The cheese men have done very well on the whole owing to flush pasturage. The sellors held out at \$3e or better, aithough they refused less than so at last market. About 3500 boxes were sold at \$4e for colored to \$3e for white. Yan Liverpool cable registered his 6d for now cheese, a drop of 2 shillings from last market. The following factories were referred:

RAILWAY DISASTERS.

The Tory Shakeup.

London, June 30.—The Chronicle says the recasting of the Ministry is not a distant event. It thinks the raising to the peerage of W. H. Smith, Government leader in the House of Commons, is not unlikely. It says that Sir John Gorst will probably replace Mr. Balfour as chief secretary for Ireland; that Lord Hartington is likely to become prime minister; that Lord Salisbury will be secretary for foreign affairs; that Sir Henry James will be home secretary, and that perhaps Lord Raudolph Churchill will receive a portfolio.

opinion as to compensation to publicans, which is the basis of Mr. Caine's campaign at Barrow.in-Furness, is attracting more attention than has been given to any single election in England in many years, and the contest for the seat promises to be waged with a degree of bitterness that will sever many. iffe-long friendships. Cardinal Manning takes part in the campaign to the extent of writing a letter to Mr. Caine, in which he bids that gentleman godspeed in the cause of which he has made himself the champion. The Venerable Prelate writes that he has always refused to take part in political matters, but he regards the present issue as a question of morals, and therefore feels called upon to express his views and declare his preferences. The action of the Barrow Liberals in putting up a candidate renders Mr. Caine's return extremely unlikely, while Lord Hartington's telegram advising the Unionists to support the Tory candidate is believed to be of sufficient weight to give the seat to the Conservatives. WORK AND WAGES.

Trouble Among Boss Builders - Tel

TORONTO, June 30.—There is trouble in the camp of the Master Builders' Association. A boycott has been laid upon certain builders who refuse to become members of the association, and who paid the increased wages asked by the men when the last strike was going on. The difficulty is chiefly in the supplying of cut stone, the trade in which is in the hands of a few large firms connected with the association. In some cases they refuse altogether to supply cut stone to outside contractors. In other cases they offer the stone at figures which make it impossible for outside men to compete with the more favored men.

NEW ORLEANS, June 30.—Eighteen men on the night force of the Western Union Telegraph Company here have resigned and gone elsewhere. The management refuses to allow the men pay for overtime.

The Balmoral Choir.

The Balmoral choir has been re-organized in Scotland and the managers Messrs. Bruce and Patrick, will bring a large body of artists to this country next season. The singers seem to have come from "a' the airts" in Scotland. Madame Stewart is a native of Kilmalcolm, or Kil-ma-come, as the natives call it; Miss Mainds is: a native of Helensburgh; Miss Anderson, of Hawick; Miss Malcolm, Messrs. Taggart, D'Almaine and McGhie, of Glasgow; Mr. George Fulton, of Paisley; Mr. H. J. McDavid, of Newton-Stewart; Mr. Walter Bruce, of Brechin; and R. J. Patrick, of Hamilton. The management is open for dates and it would be a good idea to bring this celebrated combination of Scottish talent to London.

TORONTO, June 29—11 p.m.—The pressure is below normal in the Lake and Eastern districts. It is fair everywhere, with high temperatures in Ontario and Western Quebec, and comparatively low in Western Quebec and the Maritime districts. Winds are generally light or moderate and variable. Reports from the Western Territories have not been received. Maximum temperatures: Toronto, 82°; Kingston, 84°; Montreal, 78°; Quebec, 68°; Halifax, 60°.

London.

A Perilous Fractice.
Complaints from more than one section of the city have lately been made of the somewhat indiscriminate manner in which possessors of rifles and revolvers are in the habit of firing off their weapons to the great danger of residents of the localities mentioned. Sunday afternoon a boy named Boss, about 14 years old, living on Albert street, was out having a little sport with his air-rifle. He fired a shot at some sparrows, but, of course, did not hit them. The bullet went crashing through a window where Miss Panton, daughter of Mr. Edward Panton, hotel-keeper, of Adelaide street, was sitting. The ball struck Miss Panton on the arm, making a bad wound. No serious results are anticipated, but the event should prove a warning to boys and others who recklessly handle air-guns and other weapons in the city.

Sunday School Anniversary.

The Sunday school anniversary services of the King Street Methodist Church were held yesterday. A temporary platform for the children had been erected around the pulpit and was tastefully decorated with flowers. Rev. A. O. Courtice preached a thoughtful discourse in the morning to a large congregation. The open Sunday school meeting in the afternoon was also largely attended and Rev. T. E. Harrison and, Mr. Potts delivered interesting addresses to the scholars. In the evening the Rev. E. B. Lanceley occupied the pulpit and drew many admirable lessons from the life of Moses. He applied his femarks principally to the Sunday school children, explaining to them the character of the great leader, and showing how much of his greatness and goodness in mature years was due to his training as a child. A pleasant feature of the services was the special songs rendered by the school children under the leadership of Mr. J. H. Goodge.

Death of Mrs. Sarah Hill.

Mrs. Sarah Hill, aged 87, one, of the oldest settlers in London, has just passed away at her residence on Wellington street. She was apparently in the enjoyment of excellent health up to the last hours of her life, and was dressing herself Friday when her daughter heard her fall, and on running to daughter heard her fall, and on running to the last hours of her life, and was dressing herself Friday when her daughter heard her fall, and on running to the rassistance found her dead. Mrs. Hill, who was born in Tipperary in 1803, came here with her husband, the late Samuel Hill, in 1832, living in London township until sixteen years ago, when she moved into the city. The loss of three grown-up sons, John, Freeman and Fred, whose deaths occurred at brief intervals, bore heavily on the affectionate mother, who was a model of generosity and kindness. Three daughters and one son are left, the Misses Mary and Chony, Mrs. A. R. Thompson and Mr. Joseph Hill, all of this city. Deceased was a most estimable woman and a worthy member of the Anglican Church. Two drunks occupied the attention of the Police Court this morning. They were B. L. Put not your faith in paint and white-wash. No town in Europe is fairer to the eye than Cadiz, whose inhabitants are never weary of decorating their houses with the freshest of fresh paint in many colors, yet this ancient town is one of the unhealthiest in the world. The vital statistics are justly described as "frightful," for the annual rate of mortality is over 441 per thousand, or just double the rate of Paris, and very much more than double that of London. More than one-third of the people who die it this fair pestilential spot are victims of diphtheria, typus, and diseases of that sort. In the opinion of our consul, Mr. Henderson, there is no doubt that this excessive mortality is due to the want of an adequate supply of water and a proper system of drainage.

That Nerviline, the new pain remedy, is a good article. Some indeed claim that the old-fashioned preparations are just as good, but any sufferer can satisfy himself by expending 10 cents on a sample bottle of Polsen's Nerviline, that nothing sold can equal it for internal, local or external pains.
