27 inch White Japan Taffeta Silk at 33c.

We had to purchase a large quantity of this line, in order to get it to sell at such a low figure. It's a lovely quality-just the thing for the popular White Silk Waists and ladies' and children's dresses. It washes as well as white cotton and the wearing quality everyone knows is the best. While the quantity is large, the low price at which it is marked will move it quickly, so the earlier you come for it the better. See it in the west window.

White Embroidered Waist Patterns at \$1.19

There are 36 of these, and every one a beauty. The pattern includes, beside the embroidery front and cuffs, 21/4 yards of plain material for the waist, 42 inches wide. You know how scarce these Embroidered White Goods are this season, and what a great demand there is for them, and when you see these Pattern Waists in our east window, you'll wonder how we can offer such beautiful goods for so low a price.

leather, I made this test as follows:

I mixed the contents of a box of "2 in 1" Shoe Polish, bought at a retailstore from regular stock, with four ounces of water and into this mixture put a kid glove, and left the said glove in the mixture in a bottle from June 15th to December 15th, 1905—a full six months. I then took the glove out, washed it and examined it. The fine leather of the glove was not affected in the least. It was as pliable and soft as when new, and was not affected in any way, and was not affered in condition, nor were the stitches affected in any way. That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or billousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. Collegé, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. Extent, Variety and Value of Work of Closed Legislature.

His Honor the Lieutenant-Governor, In a Long Speech From the Throne Re views the Legislation of the Second Session of the Eleventh Legislature of Ontario-Measures Passed During a Busy Session of the House.

Toronto, May 15.—Ceremonies, brief and meagrely attended, but not a whit the less dignified on that account, brought to a conclusion the second ses-sion of the Eleventh Legislature of the province, when Lieutenant-Governor Mortimer Clark formally dismissed the members of the Local Assembly yester day morning. His Honor arrived at the Parliament Buildings at a few min-utes before 11 o'clock, and, accompan-ied by his aide-de-camp and a traveling escort of twelve mounted troopers drawn from the Royal Canadian Dra-goons. His coming was signalized by the strains of the National Anthem and the general salute from the waiting guard of honor of 100 men of the Royal Grenadiers.

Within the chamber, the scriptural two or three were gathered together, Hon. Messrs. Foy, Pyne, Monteith, Cochrane and Beck were at their desks, together with twelve of the Government members. The Opposition was repre-sented by Hon, G. P. Graham and Hon. being caught between an iron girder and an electric traveling crane that he died yesterday. then delivered the following address,
dealing with the work of the session:
An Unusually Important Session.

Mr. Speaker and Gentlemen of the Legislative Assembly.—In relieving you from labors of an unusually import-ant and arduous nature, I have to thank you for the close attention you have given to your public duties, as well as the beneficial legislation that has been enacted. The work undertaken and ac-complished is of such extent, variety and value as to make the session now

closing without a parallel in the history of this province in that respect.

It is with much gratification I observe that the Legislature has joined with the Parliament of Canada in extending an invitation to Their Majesties the King and Ones to right this countries. the King and Queen to visit this coun try, and I need hardly remark that the people as a whole enthusiastically second the efforts of their representa-tive bodies in extending this invitation.

We have been favored since the opening of the session by a visit from His Royal Highness Prince Arthur of Connaught, who, as a rephew of our gracious King, has been received with every evidence of loyalty and devotion to the Crown by the people of On-tario, and who, in his individual capacity, made a very favorable impression on all who had the pleasure of coming in contact with him.

Aids to Agriculture.

Among the measures that it is my privilege to sanction, I am glad to no-tice there are several which have in view the interests of agriculture; the basic industry of this province. The provision by which the grants to agricultural societies will be paid in accordance with the work actually done for agriculture is calculated to have a heipful effect. The enactment of a law providing for the appointment of dairy inspectors should prove of advantage to the butter and cheese industry. The measure for the protection of bees should likewise be satisfactory to the farmers of Ontario. I notice also that you have taken steps to bring to the Agricultural College the assistance of its graduates by providing that they will cultural societies will be paid in ac-

railways, whereby the former tax is doubled, will assist the province materially in carrying on its charitable institutions and at the same time yield revenue to the municipalities.

By the enactment of the bill amending the Liquor License law more effective restrictions have been placed around the liquor traffic. It is gratifying to know that the province and the municipalities share equally in the increasing revenue that this measure will yield. The clauses of the bill tending towards the permanence and efficiency of Local Option have met with very general approval from moderate men.

Work For Education. In regard to the very important sub ject of education, two measures have been enacted. The bill respecting the Department of Education provides for the appointment of a Superintendent of Winnipeg, May 15.—Miss Mabel Robertson, aged 20, stenographer, of this city, met an untimely death Saturday afternoon. She went out to Headingly to stay over Sunday with a friend and was riding from the end of the car line to her destination on a heavy load of ties. The horses became unmanageable and ran away. Miss Robertson was thrown out and a heavy tie fell on her forehead, killing her instantly.

The measure regarding the great and growing mining development of Ontarlo is calculated to effect a useful and opportune purpose in simplifying the law, facilitating the work of the prospector and encouraging the investment of capital. It is impossible to over-estimate the great advantages that will accrue to all kinds of industries and the development that will ensue from the general application of electric power at reasonable rates. On all hands it is agreed that it means to the Province of Ontario an industrial revolution. It is satisfactory to know that in a session in which so much important work has been undertaken, you have been able to deal carefully and wisely with this important question.

ACROBATIC DANCING.

It Was Regarded By the Ancient Greeks With Contempt.

Greeks With Contempt.

A passage in Herodotus tells us with what contempt the Greeks treated mere acrobatic dancing and how inferior it was considered to be to the higher art. A certain Hippocleides, having been asked to show one of the many accomplishments which entitled him to become the husband of the daughter of the tyrant of Sicyon, proceeded to display himself in the dance, and having commenced with a stately measure he then wished to show his wonderful agility, and so well did he succeed that Clisthenes, the tyrant, angrily exclaimed, "Son of Tisander, you have danced away your marriage!" refusing to have a son-in-law who was so little of an artist that he could make a boast of his mere skill. Socrates, too, had great dislike to the "wonderful tricks" which dancers could perform with their bodies and thought them very ugly. What would have been his disgust could be have seen some of our modern contortions? As in all great art, the Greeks in their dancing made use of mechanical means only in so far as they could assist in carrying out the artists' inspiration. The true artist should not be so hampered by any technical difficulties. He must be an absolute master of "technique," but never should he allow that "technique" to be the end and aim of his art. By so doing he forfeits all claim to the title of artist in the real and highest sense of that much abused word.

Looking, then, at the subject from this point of view, we can see the gulf which separates modern dancing from the Greek dancing. The modern term denotes something entirely mechanical, however pretty and pleasing our dancing masters contrive to make it by having rhythmical acrobatic feats performed by beautiful executants. Dancing in the Greek sense must be interpreted quite differently. It is rhythmical movement—and so far it is mechanical—but it is also pantomimic. It is the imitation of words by gestures, the bodily expression of a feeling. Nineteenth Century.

She can ill afford to lose any part of her population, for the allurements of an Atlantic residence 1,200 miles from the nearest continent are not overpowering. Perhaps, however, if it were generally known that St. Helena had no public debt its popularity as a fashlonable water place might rise to the level of 1899, when the Boer warriors built up their shattered constitutions under the influence of its healthy climate. For the palmy days of the island one can ill afford to lose any part of her For the palmy days of the island one must go back to the time when the Suez canal was unheard of and vessels bound to and from India made it a port of call and filled the pockets of the islands with gold. WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked by

An eminent physician says that women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male truth, but not the whole truth, to a male truth, but not the whole truth, to a male truth, but not the whole truth, to a male truth to their sex.

It is a terrible ordeal to a delicate sensitive, refined woman to be obliged to answer certain questions when those questions are asked even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot set the proper information to work on?

This is the reason why thousands and housands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physiciar who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Sinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Madame Alfred Arrand of 414 Dornbackers Street, Montreal, Can., writes;

It is quite possible, however, for the woman who possesses in any degree an artistic gift to invent scores of new ideas and to utilize them with inexpensive materials at home.

Most of the favors seen in the shops are costly because of the idea, not of the materials. The wise woman, then, will purchase a model and fashion the required number from it and thus be enabled to furnish her guests with a souvenir of double value. It is pretty, and it is the work of her own hand.

Great care, however, must be taken Great care, however, must be taken that the trinket does not have a home-

Now, here in the cut are some charming favors which were copied from models at a well known shop.

One is a poppy, a pretty silken poppy, which might be purchased at any millinery department or even made of millinery department or even made of crape paper, and the long stems are twisted into a standard form. Another of the tall favors is the rose fashioned in a manner similar to the tulip. It must be admitted that the tall favors do not, on the whole, give as artistic an effect as the shorter ones.

There are four classes of persons who should not drink large quantities of hot water. These are as follows: (1) People who have irritability of the heart; hot water will cause palpitation of the heart in such cases; (2) persons with dilated stomachs: (3) persons afwith dilated stomachs; (3) persons af-flicted with "sour stomachs;" (4) persons who have soreness of the stomach or pain induced by light pressure. These rules are not for those who take hot water simply to relieve thirst, but hot water simply to relieve thirst, but as a means of washing out the stomach. Hot water will relieve thirst better than cold water, and for that purpose it is not to be condemned. But hot water is an excitant and in cases in which irritation of the stomach exists should be avoided.

CUTICURA REMEDIES WORK WONDERS

Mr. A. C. Barnett, proprietor of a general store in Avard, Oklahoma, tells in the following grateful letter how Cuticura cured him and his son

how Cuticura cured him and his son of terrible eczemas:

"My little boy had eczema. His head was one solid sore, all over his sealp; his hair all came out, and he suffered very much. I had a physician treat him, but at the end of three months he was no better. I remembered that the Cuticura Remedies had cured me, and after giving him two bottles of Cuticura Resolvent, according to directions, and using Cuticura Soap and Ointment on him daily, his eczema left him, his hair grew again, and neither he nor myself have had any eczema since.

As to his own case, Mr. Barnett says:
"I suffered with eczema, a burning, itehing, breaking out on my face for more than a year. I took treatment from physicians for several months, which did no good. I was then advised to try Cuticura. I took six bottles of Cuticura Resolvent, and used Cuticura Soap and Ointment freely every day. I began to improve soon after starting to use them, and when I had taken the six bottles of the Resolvent my face had become clear, I had good color, and all cruptions had left me.

Round-Up of Train Rebbery Suspects Is Proceeding.

Vancouver, B. C., May 15.—While the Canadian Pacific officials here think they have in Jim Christie the man who assisted in the hold-up of the Imperial Limited, and that two men, Moir and Wilson, also in jail, were confederates, the police are continuing the hunt with bloodhounds in case of mistaken identity. Paul Stevens, from Mentana, a man with an unenviable reputation, has also been arrested as an alleged accomplice. Christie, Moir and Wilson appeared before the police magistrate at Vernon yesterday morning and were remanded for seven days.

Mallorytown, May 15.—Gaunt and pretty well exhausted, Challabran, the escaped lunatic-murderer, quietly accepted arrest at the hands of County Constable Wilser Mallory on the main road between here and Kingston, early last evening. At midnight he was taken back to the penitentiary by Detective Foster. He was unarmed, save for a jackknife. He still wore prison trousers. Other garments he had on had been stolen from the home of Capt. Carnegie at Rockwood.

In his week's journey Challabran had covered forty-six miles, all afoot, and traveled only by night. His first appearance was at the home of Manley Cross, a lighthouse-keeper, residing four miles east of Gananoque, on Tuesday last, where he had dinner.

NERVOUS CHILDREN

Children!

St. Vitus dance is a disease that is becoming more and more frequent among school children. Young people tire the nerves with study and the nerves cry out. Sometimes the trouble takes the form of neuralgia, headache, nervous exhaustion, weak-ness of the limbs and muscles, and what we call "being run down." In other cases St. Vitus dance is the reult and the sufferer frequently loses all control of the limbs, which keep up a constant jerking and twitching. The case of Flossie Doan, of Crowland, Ont., proves the value of Dr. Williams' Pink Pills. Mars: Doan says: "A couple of years ago my daughter Flossie was dangerously afflicted with St. Vitus dance. She became so nervous that after a time we could not let her see even her friends. She could not pick up a

friends. She could not pick up a dish, lace her shoes, or make any movement to help herself. She had grown thin and very pale, and as she had been treated by several doctors without benefit. I feared she would not be several distributed advised. vould not recover. A friend advised would not recover, A friend advised me to give her Dr. Williams' Pink Pills, and after sile had used a couple of boxes I could see that they were helping her. We gave her nine boxes in all, and by that time she was perfectly well, and every symptom of trouble had passed away and she is now a strong, well developed girl."

YE OLDE FIRM, HEINTZMAN

& CO., TORONTO

Mr. John Glassford, their district manager for Western Ontario, has just received the following letter from his firm, which we think the public in general should know: It is as follows:

Mr. John Glassford, Chatham, Ont.:

Dear Sir.—We are pleased to tell you that our agents. Messrs. Lavi-

meets here at the end of this month, the Canadian Manufacturerrs' Association will ask the Commission t start an enquiry into the whole sys-tem upon which the freight rates in Ontario are based. "It has been felt generally that

the work of the Commission has bee one-sided, and the movement on the part of the association, said J. Mar-low, the transportation expert, "is to give the shippers a chance to get at the railways who, under the leadership of A. G. Blair, have adopt-ed a deliberate policy of delay."— Toronto World.
