Tuesday, 7th January, 1879.  
After the Christmas holidays.  
ROBERT TORRANCE,  
Sec. Board of Education. 2385-d

**GUELPH TOWNSHIP**  
This is our last year for 1878 and we will  
sore or less with Lung Disease, Coughs, Colic,  
or Consumption, yet some would die rather than  
pay 75 cents for a bottle of medicine that would  
cure them. Dr. A. Boschee's German Syrup has  
been introduced in this county from Ger-  
many, and its wondrous cures astonishes every  
one that try it. If you doubt what we say in  
print, cut this out and take it to your Druggist,  
and get a small bottle for 10 cents and try it,  
or a regular size for 75 cents. 1895-dw

**Mutual Fire Insurance Co**  
**THE ANNUAL GENERAL MEET-**  
ing of the members of this society will be held at  
the American Hotel, Guelph.  
On Saturday, 11th January, 1879.  
at 2 o'clock p. m.,  
For the election of directors and other business.  
WM. WHITELAW,  
Secretary. 2387-dw

**New Year's Gifts**  
The balance of our stock of  
Fancy Goods,  
Toys,  
Work Boxes,  
Dressing Cases,  
Dolls,  
Will be sold very cheap.  
Our assortment is the best.  
Our prices the lowest.  
We give more for the money than  
any one else.  
**DAY SELLS CHEAP.**  
2135-dw

### HERALDY.

**Many Minor Matters Mixed.**  
—Happy new year.  
—Fair day, to-morrow.  
—Were you at the mass meeting, last night?  
—Reliance Lodge, I. O. O. F., met, last even-  
ing.  
—Now shake hands with 1878; he's going  
—Swearing off time will be here in a few  
hours.  
—Artillery brigade band met for practice, last  
night.  
—What did you wear at the carnival, Monday  
night?  
—Jontonus has re-appeared on the municipal  
scene.  
—Happy new year, when it comes, some hours  
later.  
—Candidates will have a grand field day to-  
morrow.  
—Sample of letter, January 2: Guelph, Jan.  
2, 1878.  
—The prospects are that the January fair won't  
amount to much.  
—A. L. McMillan, the new chief of police,  
discharges his duties, to-morrow.  
—There will be a grand shoot at Grange's  
shooting gallery, to-night. Go and see.  
—Some hitherto undisplayed oratorical talent  
was heard at the town hall, Monday night.  
—St. George's church Sunday school will have  
a dissolving view entertainment, Wednesday  
evening.  
—Instead of a midnight service, to-night, at St.  
George's church, there will be a service at 10  
p. m. to-morrow.  
—A great deal of interesting matter has, in  
consequence of the crowded state of the Her-  
ald's columns, been held over till next year.  
—Erratum:—In the ward nomination returns  
last week, David's ward, Gilbert O. Madlock was  
nominated by Joseph Groom and R. W. Stewart.  
—A hint to candidates: In Kingston they  
send 'round their photographs to the electors. If  
you are good looking—and where is the candi-  
date who is not—try this method.  
—SENTECED.—John Carroll and John McCall-  
um were, Monday, found guilty of stealing seven  
turkeys from Geo. Elliott, of Puslinch, recently.  
—The former was sentenced to three months and  
the latter to two months, hard labor, in the com-  
mon goal.  
—DIVISION COURTS.—His Honor Judge Chad-  
wick will hold division courts, in the month of  
January, as follows:—Guelph 3, Rockwood 9,  
Berkeley 10, Elora 14, Palmerston and Harri-  
son, at Palmerston 15, Mount Forest 16, Drayton  
17, Arthur 21, Ferguson 22, Erin 28, Orangeville  
29.  
—EPT'S COOK.—GRATEFUL AND COMFORTING  
By a thorough knowledge of the natural laws  
which govern the operations of digestion and nu-  
trition, and by a careful application of the fine  
properties of well selected cocoa, Mr. Epps has  
provided our breakfast tables with a delicately  
prepared beverage which may save us many heavy  
bills. It is by judicious use of such arti-  
ficially prepared food that a constitution may be gradually  
ruined. All ailments, therefore, to resist every tempta-  
tion. Hundreds of subtle maladies are  
around us ready to attack wherever there  
is a weak point. We may escape many a fatal  
ill by keeping ourselves supplied with pure  
food and a properly nourished frame. —Civil  
Service Gazette.—Sold only in packets, labeled  
"JAMES EPPS & Co., Homoeopathic Chemists,  
London, Eng." 1303-dw

**RELIANCE LODGE, I. O. O. F.—Monday**  
evening, Reliance Lodge, I. O. O. F., elected the fol-  
lowing officers for the ensuing term:  
J. H. Dist, N. G.  
J. H. Martin, V. G.  
J. Thacker, R. S.  
W. S. Smith, P. S.  
J. Reid, Treas.  
Appointment of officers and installation, Mon-  
day evening, Jan. 5.

**SCHOOLS.—The school management**  
committee, inspector and principal met, Saturday,  
and made the appointments of teachers to vacan-  
cies: Miss Clara Robins, to south ward school,  
vacant by the resignation of Miss Little; Miss  
Oldham promoted to room lately occupied by  
Miss Maddock, resigned; Miss Evans, to room  
no. 1, central school; Miss McLean, to room 7,  
in place of Miss Oldham, promoted.

**CHALMERS' CHURCH.—The annual**  
meeting of the teachers of the Sunday school in connection  
with this church was held, Monday evening, at  
the residence of Rev. Dr. Wardrop. A very  
enjoyable social time was spent, and the follow-  
ing officers for 1879 were elected:—Superinten-  
dant, D. Guthrie, M. P.; asst. do., George  
Anderson; secretary-treasurer, William Ward-  
rop; librarian, John Mortimer; asst. do., Hugh  
McPherson.

**MISSION SUNDAY SCHOOL.—For**  
some years the mission Sunday school, composed of children  
who go to no other school, has been carried on  
amid great difficulties, and has done an immense  
amount of good in a quiet way. During 1878 it  
has not gone back any, and the teachers and  
friends pouring giving the children a New Year's  
treat, this (Tuesday) evening. There will be a  
Christmas tree, and the time spent will be en-  
joyable.

**THE SOUP KITCHEN.—The ladies**  
who have the management of this charitable institution met,  
Monday afternoon. They talked over matters,  
and came to the conclusion, although the funds  
were low, to start the kitchen for the winter.  
They will solicit donations from farmers and  
others, and all articles sent will be received with  
thanks. Although Monday was the first day of  
the opening, there were no fewer than ten pairs  
of soup supplied to poor families in town. The  
institution deserves support.

**THE CARNAVAL.—There was a**  
fairly good turnout at the carnival, Monday night, at  
the skating rink. The ice was very good, but it was  
a want greatly felt, that no music had been pro-  
vided. There were sixty in costume, and the  
following is the complete list of those masked  
and their assumed characters: Thos. Hefferman,  
the beggar of Rome; Mary Hefferman, patchwork;  
R. P. Gow, tramp; George Little, tramp; Chris  
Shaw, New York hot black; Ed. Carroll, Ro-  
man nobleman; H. Barry, sailor; John Arm-  
strong, clown; G. W. Lamond, Uncle Sam;  
Miss K. Hogg, buy a houn; Robert Minnick,  
Hungarian; James Houston, niggerly nigger; L.  
Cossitt, fireman; F. M. Cossitt, Indian; G. J.  
Little, Negro; James Naismith, Negro; David  
Kennedy, Model Farm student; James Brown,  
Model Farm student; C. Crow, Turk; G. G. Row-  
land, soldier; Minnie Scott, grandma; E.  
Mills, little old woman; A. Mills, stars and  
stripes; Joe Anderson, kin-klux; J. J. Morris-  
man, Cicero; Robert Morris, Peye; Jas. Morris,  
old Mother Hubbard; Maggie Armstrong, water  
nymph; Eleanor Armstrong, Gipsy girl; Wm.  
Ellis, sailor; John Hisk, soldier; Miss Loch-  
witzer, James Gow, Negro; James Fraser, and  
O. Coulson, Burgess Brothers; M. Morris, Ser-  
vian peasant; Miss Arnold, winter; Ed. Ward,  
city swell; A. W. Stewart, court jester; Maggie  
Shaw, Red Ridinghood; Alf. Galbraith, red,  
white and blue; F. F. Gough, Gallatin Guards;  
A. Taylor, sailor; H. Clarke, Quakeress; Wm.  
Hall and Wm. Mercer, officers; W. Kilgour,  
1777; A. Bell, French soldier; J. Bruce, clubs;  
H. Chisholm, child of the regiment; F. O.  
Clark, 100 years ago; Alice Clark, knight;  
Jessie Clark, Highland lassie; J. R. Cameron,  
Mephistopheles.

### TOWN TALK.

**No-Day's Budget, Urban and Suburban.**  
**NO PAPER.**—To-morrow will be New Year's  
Day, and therefore no paper will be issued from  
this office. The WEEKLY HERALD will be issued  
to-night. The HERALD wishes its many readers  
a Happy New Year, and many returns of the  
day.

**NOMINATIONS AT PUSLINCH.**—The following  
is a report of the nominations for the township  
of Puslinch, M.C. —Reeve, Wm. Leslie;  
deputy reeve, Wm. Nicol; both elected by ac-  
clamation. Councillors, D. McFarlane, John  
Iles, M. Spruhan, J. Glennie and P. Mahon.

**PRESIDENTIAL.**—Monday evening, Wm.  
Phillip, the popular and excellent bandmaster of  
the artillery brigade band, was presented, by the  
members, with a magnificently gold-mounted and  
jewelled ebony musical baton, and a highly com-  
plimentary address. As the HERALD'S space is  
so crowded, to-day, the address and description of  
the baton is held over till Thursday.

THE NOMINATIONS.

Municipal election matters in Guelph remained uneventful until the Saturday evening previous to the nominations, at which time a little breeze was fanned up by the anti-water works people. At the nominations for the general members of the council it seemed almost as if the mayor and the several reeves were to go by default, but few citizens manifesting any ambition to run for these offices.

As had been expected, Mayor Howard was re-elected by acclamation. This fact is to be considered more as an evidence that he is the most available man, rather than an endorsement of his whole career during the past year. It has been claimed for him that he maintained better order at the council board than did his predecessor. The fact is that the comparative quietness of the council of 1878 is entirely due to the members thereof. Had Mayor Howard presided over but one gentleman who, a part of the year, occupied a seat at the board of 1877, his friends would scarcely find excuse to boast of his order maintaining abilities. The fire engine business was a great mistake. It has been sufficiently ventilated. Happily it has terminated "without much cost" to the town. Notwithstanding anything which can be said against His Worship's public career, it must be mentioned that he has been an extremely good mayor. He has paid a very great deal of attention, and has also spent a very great deal of time in arranging the municipal affairs of the town to the best of his ability, and if he has failed in one or two instances it was not for lack of attention, it was not from the absence of a desire to do what was right and proper. The experience of the past year will add to his already large possession of that estimable quality—caution; and he will be able to steer clear of the rocks he grazed against in his first year's voyage. Take it all in all, Mr. Howard was probably the best available man the people could have chosen.

Mr. Chase, as first deputy reeve, was also elected by acclamation. This was also a good selection. Mr. Chase has proven himself to be a thoroughly practical, sensible, painstaking councillor, and his promotion, by acclamation, to the position of first deputy reeve is deserved. It shows that he enjoys the confidence of the people, and it is safe to say that he will never, knowingly, betray that confidence. If Mr. Chase has any particular fault it is his great generosity. This may not generally be considered a fault, nor is it in the abstract. The particular exhibition of generosity on the part of Mr. Chase, which may be found fault with, consists in the fact that, after he was elected by acclamation, he took upon himself the entire blame of the Amoskeag engine purchase. This was a generous action; but it was rather "too thin," as it is expressed in the vernacular. Nobody is deceived by the avowment. It was but a spontaneous outburst of gratitude toward the people, and generosity toward his companions of the fire and water committee.

Among the general members of the council chosen in the recent election, Messrs. Geo. Sleeman, Geo. Elliott, and F. J. Chadwick. Mr. Sleeman has a card in today's paper. Messrs. Elliott and Chadwick were nominated in their absence and have not yet expressed their intentions.

Messrs. Charles Davidson and J. P. MacMillan are the candidates for the second deputy reeve-ship. Mr. Davidson is well and most favorably known. During a former connection with the council he acquitted himself in such a manner as to win the confidence and esteem of all. His experience is large, his views are sound, and to a comprehensive understanding he adds great executive ability, and, taking, as he does, a very great interest in all the affairs of the town, it need not be said that he will, if elected, give every attention to the duties of the office. Mr. MacMillan is also well known. He has occupied a seat at the board for a number of years. But it must be acknowledged that Mr. Macmillan has not given that attention to the affairs of the council which is expected of a gentleman chosen by the people for that express purpose. His absence from the board, at important sessions, has not been a rare occurrence; and his presence has been distinguished by exhibitions of "eloquence rather than by faithful work.

The candidates for third deputy reeve are Messrs. M. J. Doran and F. Biscoe. Both have been members of the council for the past year. Mr. Doran has not distinguished himself for anything in particular, except, perhaps, a silent thoughtfulness of the kind not connected with any very definite understanding of the subject in hand. He is not the sort of man to represent the people of an active, growing community, the affairs of which are of some importance, and the money of which should be spent to advantage. Mr. Biscoe is energetic, always in his place, and never by any chance lets anything go by default. He has done the town good service for the past two years, the first in the trying position of chairman of the relief committee. He is eminently disposed to be fair in all things, and never, under any circumstances, permits party or other relations to interfere with what he considers to be for the good of the community.

There are plenty of candidates for ward representatives, and, as usual, there are good, bad, and indifferent men in the field. Let the electors look them carefully over, and select the best.

The Mercury in its endeavor to say something about something, does the police force a very great injustice. After saying that "the present force is quite sufficient for all purposes required, if their duty is only pointed out to them, and they are required to do it," the paper goes on to abuse the policemen for having allowed certain disreputable houses to exist, for having allowed people to fight in different parts of the town, and for various other things. It accuses the policemen of incompetency, and hints at a return to the old ward constable method as a remedy. Now, the Mercury must know, as every citizen knows, that the men belonging to the force of Guelph are just as good, just as active, just as intelligent, just as anxious to do what is right, as the members of the best police force

in the world. But the Mercury must remember that when the late chief was removed, the council put the control of the police in the hands of his Worship the Mayor; and if his Worship the Mayor has shirked the responsibility, and directed the policemen to take their instructions from Mr. Kelly, he is not the least to blame for the inefficiency of the force. The men have, even to this day, been acting under the instructions of Mr. Kelly, by the direction of the Mayor, and are not in any way responsible for the manner in which the work has been done—or, rather, neglected. Had his Worship directed the police, as he was instructed to do by the council, things would have been different. The blame rests entirely with His Worship. The Mercury, of course did not think of this. It only sought to gain a little credit for "instructing" the new chief, on the eye of his taking office.

HO! FOR THE HOLIDAYS AT

John Horsman's.

Boots and Shoes.

"Get half a dollar I shall fall down? Bet half a dollar I shall fall!" murmured an old chap, as, loaded to the muzzle with forty-rod, white-key, he was receding his way down street. "Bet half a dollar!" Just here the old boy's heels flew so high in the air that his head and shoulders beat them back to the ground. Rising to a sitting posture, he took up his hat, rubbed the back of his head and then said: "Won the money! and it is the first bet I've won this winter."

Just received

Men's Seamless Felt Boots—best quality—long and short legs.

Just received a fine lot of

Ladies and Gentlemen's Buckskin Moccasins,

Which I am selling cheap.

Also a lot of Boys' Buckskin Moccasins, cheap.

I have received another lot of Fine French Kid Slippers the "Jolly Make" for sale at

TAWSE'S,

25 Wyndham St., Guelph.

BACHE'S

Hair Restorative.

THIS PREPARATION WHICH IS rapidly spreading the dangerous and poisonous compounds hitherto used as applications for the hair, is highly recommended on account of its harmless nature and gradual but invariably efficacy. It differs from all other articles which have been hitherto offered, in not being a dye to bring all heads of hair to one color. It possesses moreover the property of removing dandruff, and prevents the hair from falling off. Although it contains no oil, it nevertheless imparts to the hair the peculiar lustre of health, promoting and strengthening its growth.

Price 75 cents.

Bache's Magic Liniment

For the immediate relief and permanent cure of Rheumatism, Sprains, Bruises, Frost Bites, Cramps, Lumbago, Swelling of the Joints, Stiffness of the Muscles, Sore Throat, Scalds, Burns, &c.

It is the best Liniment ever made for man or beast. This Liniment is warranted to give relief and cure.

Price 50 cents.

Bache's Pulmonic Balsam

The most effective remedy for a speedy and sure cure of Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Pain in the Chest, and all the diseases of the Lungs.

Not only affording instant relief, but effecting a rapid and lasting cure, and warranted to give satisfaction in every case.

Price 50 cents.

XMAS.

year's discipline than he ought to make a better member than he did this year. He assumed a great portion of the blame for the Amherst engine business, and thought Mr. Gowdy an ill-used man. They had got through that matter without much cost to the town.

Mr. Stevenson—Thanks to the Herald.  
Mr. Chase sat down after again thanking them for his election.  
Mr. Davidson, who had been nominated for second deputy reeve, came forward, and said that he had not intended at first to run for any municipal office this year, as his time was fully occupied. He would, however, do what he could for Guelph's interest. There were some things which he had given some attention to which required looking after. One of these was the water works scheme. He had been one of those who spoke at the Saturday night meeting referred to by the mayor, and he could tell that gentleman that he did not tell any lies. He was not in the habit of doing that sort of thing. The mayor had said he was in favor of the present water works scheme, and was an advocate for commissioners who would carry it out. He took the other side, as he believed the scheme one of great extravagance, and one for which there was no necessity at the present time. He went into considerable detail to show that at least \$25,000 would be actually wasted, so far as Guelph's requirements went, if the scheme was carried out, and advocated a system which would centre in a stand pipe on the Catholic hill. He referred to the needless expenditure of keeping the engines going all the time, which would be necessitated by the present scheme, and argued that not more than \$20,000 would be expended in Guelph, out of the \$70,000, in labor. The present works estimates were based on the Guelph and London ones, but he could inform them that rock would be met with in Guelph before six feet depth had been reached, and this would be an extra in the cost of construction. The work, too, would be let by tender, and contractors could bring their workmen from where they liked, and therefore the Guelph laborer would not necessarily be benefited. This labor cry was a false one.

Mr. Howard explained that in London contractors were bound to use London labor, and so it would be in the case of Guelph.  
Mr. Davidson then referred to the fact that that could only be done in the case of laboring men, and not where the contract was a mechanical one. With regard to insurance he could assure them, as an insurance agent for twenty five years, that water works would not be lower to any appreciable extent the rate of insurance in Guelph. In answer to Mr. Howard, Mr. Davidson said that fires had been so few in Guelph for some time that risk was rated as low as it was in many places which had water works. With respect to the county council he felt that a very erroneous feeling had got abroad in respect to the influence of town representatives had there. Town and village representation was small in that body when compared with the rural representation. Therefore the former were compelled to submit, as they could be voted down if the council chose. With regard to the question of separation from the county, it was a question with him whether it would be good policy to separate at the present time. He understood it cost Brantford \$2,000 or \$3,000 a year more to run the city since it was separated from the county. It became then to be in favor of economy, because he didn't think property could be assessed for anything like it was this year in Guelph in 1879, and it would have to be shown him that it would effect a saving of the town's revenue before he would support this separation and making Guelph a city scheme. If elected he would endeavor to best further Guelph's interests.

Mr. Hatch asked Mr. Davidson, just as he was about to retire, a string of questions so fast that the reporter couldn't catch them all. One of them was, are you in favor of erecting the town into a city? Mr. Davidson answered that he didn't know if it could be shown that that course was best for Guelph he would support it. Mr. Melvin and Mr. Bischoff then spoke together. From what they said it was gathered that Brantford had saved \$1,700 a year since coming a city. And as Brantford's county rate was only \$5,000 and ours was \$8,000 we ought in the nature of things to save more than it did. A rather sharp dialogue then occurred between Mr. Hatch and Mr. Melvin. Then Mr. Hatch succeeded in getting a short hearing. He asserted that there was never before so many empty houses in Guelph as there were at the present time; that there never was so many men seeking work and finding it not; that many men who were ruling, or trying to rule Guelph, were not able to pay their debts and were trying to get the town into the same position; and that never before had municipal matters been run in such a reckless manner. He concluded by saying they were tired of allowing a dozen or 16 men to run the town affairs, and would now make a move to put in an efficient and economical council. He moved that the meeting adjourn till 7.30 o'clock. The returning officer declared the meeting adjourned till half-past seven o'clock.

#### THE MEETING IN THE EVENING.

At seven o'clock, the time when the adjourned nomination meeting was to begin there were only fifty-five persons present, including the returning officer, Town Clerk Harvey, who occupied the chair.

In the course of half an hour, however, there were added to the number a great many more, till before the close of the meeting there must have been at least five hundred present.  
Mr. Davidson, who had not finished his address to the electors, was the first speaker. He said that he thought he had finished his speech, in the morning, but inasmuch as he had not fully replied to Mr. Hatch's questions he would occupy a short time now to do so. He would say he was not a supporter of the present scheme of water works, and with regard to the labor explanation of the mayor he would say it was a very doubtful thing whether Guelph labor could be forced on the contractors. He held that the large mains which were a portion of the present scheme were unnecessary at the present time. His opinion was that two stand pipes erected on different hills in Guelph would do all that was really required by Guelph just now. These would be far more available in case of fire than would water works with an engine a mile and a half from the town. He considered the laying of pipe along Queen street from Ontario to the hospital a perfect waste of money, for who along it would buy water for household purposes when they had the river and springs not equalled even in Guelph at their very doors? He believed that for 50 years to come the well water supply would hold out good, and when that was the case no one would buy river water. The livery stables, the hotels, etc., might possibly require and would buy water, but these alone would be a very small item. He was in favor of postponing the carrying out of this scheme until better times, and then in two or three years after this began water works, which could be extended as required. He considered the present scheme a very extravagant one, in view of the financial condition of the town. With respect to erecting Guelph into a city, the financial portion as between town and county, would be settled by arbitrators; but still the scheme would have to be worked up by the town members of the county council, and that would entail a great deal of work. He dwelt on the impossibility of town members getting the rate in the county council cut down when their members were so few, and showed up the system of log-rolling which had to be pursued in order to get anything at all for the town. He considered the town had never received justice from the county, and gave the history of an attempt made some years ago that justice done in the courts. Farming land in Wellington was not assessed within \$20 per acre of its true value, while with town property in many cases the assessment was above its value. Legislation was the only remedy for this condition of things. If the Government would appoint assessors to assess all property, in town and county this year, for next year's taxes, there would be a more equitable assessment, for where the assessor held his office by the will of the township he tried to please his masters so that he could keep his situation. Thus they should not expect too much from their county councillors. He was in favor of making the town a city if it would lessen the assessment and taxes. It was true that we wouldn't have to pay \$8,000 county rate, but would not the incidentals in city government total up about annual? He referred to the figures given by Mr. Davidson in the morning, relative to Brantford, and admitted that it was possible that his (Mr. D.'s) informant might have made a mistake, as the figures were nearly similar in amount but on different sides. He referred to the depreciation of property in Guelph, and said that if the ratepayers expected to build up Guelph they must give at least their moral support to railway schemes which would feed Guelph. If we had no manufacturing within us, we must induce people outside to trade with us. If we wanted to secure new and large manufacturing we must make our taxation as low as possible. Then he gave the history of Hamilton's bankruptcy, and held it up to the people as a warning. What he wanted was to hear the views of the commissioners as to whether they would, if elected, go on with the work or not. He thought the work should not be gone on with until the advent of more prosperous times.

John Thomas Cunningham asked Mr. Davidson a question relative to the criminality of assessors, and their punishment, if they didn't assess high enough, which was answered by quoting the law on the subject.  
When Mr. MacMillan's name was called by the returning officer, Mr. Peterson wanted to know how many

(Continued on page four.)

## UNABATED SUCCESS

The Lion's Great Sale.

THE FRESH INDUCEMENTS

Which we are offering every day, draw

Constantly Increasing Crowds.

Many stores are satisfied if they have one or two busy days each week, but at

The Lion we are busy and even crowded every Day

There must be some reason for this. What is it? Why a very simple one indeed—just this—

The Lion's Prices are the Lowest, and the Goods are the cheapest in Guelph, and the People know this is so,

And the consequence is, they throng to us:

Nothing Like Cheap Goods to draw a Crowd.

THE GREAT DIFFERENCE

All who read advertisements will find a great difference between ours and those of other stores. Our neighbors prefer to use generalities—such as "they are the true friends of the people"—"their is the best and cheapest stock"—"low prices"—"gentlemanly treatment"—"fatherly interest in their customers' welfare"—and all other good qualities are conferred to them.

The Lion comes down to the bare facts, and gives the Plain Figures, and defies any one to sell as cheap.

For the Christmas Season we give Special Inducements.

Read these Prices:

Towelling, 5c. Wincey, 6c.  
Factory Cotton, full yd wide 7c. Brown Linen, 10c.  
Brown Duck, 12c. Tickings, 12c.  
Boys' Pants—ready made, 62c. A splendid Tweed 40c.  
Men's Overcoats, \$3.50, \$4.50, and \$5.50, worth twice the money.  
Horse Blankets, with straps, ready shaped, \$1  
Beautiful Snow-Flaked Dress Goods, reduced from 25c to 12c  
Fur Muffs, 75c  
French Merinos, all wool, 25c  
Tartan Plaids, all wool, 25c  
Yard Wide Twill Sheetings, 10c  
Millinery, Mantles, &c., &c., at cost price.

Such Big Reductions were never known before.

These are a few Figures which speak for themselves and we guarantee everything else equally cheap.

Only Remember our Terms are Strictly Cash during the Sale.

Merchant Tailors.

421 d

meetings of council Mr. Macmillan had attended during the past year. He understood that he had attended only about 25 of the meetings, and (Mr. P.) did not think this was attending to his duties.

Mr. Richardson, who had been called upon, had thought water commissioners were more active in the past. He had been called upon to bring forward a resolution that the water works by-law, which had been approved by the council, should be amended so as to carry out its provisions. After the commission had been appointed, and had had a meeting, and had called as to the cost of all materials and work which would be required in the construction of the water works, the commission had advised the commissioners that the water works could be built for even a less sum of money than the by-law called for, and that the water works could be carried out with the work they were doing. They had advertised for tenders for carrying out the work, and had received tenders for lower than were ever given in Canada before. Why had they been advertised for so soon? Because it would require two months at least to make a contract for the work as soon as the spring broke. Many men were out of work, and they thought they had better get the piping so that the water works could be carried out in the winter. The piping cost them \$1.25 per hundred weight, or about the price of iron. The contractors had advised them that if they waited for two or three months longer that the price would have been some thousands of dollars higher. For had laid down thirty-one miles of pipe, from \$21 to \$22 per ton, while they had secured piping at \$21.50 per ton, had been on the streets where they were wanted. This was at least \$35 less than could have been done three or four years ago. They had not expected everything to remain so low as that they were getting it now. The piping had been ordered in March and 200 tons per month till August. He stated his former statement as to the cost of the piping and the cost of the water works. The tenders ranged from \$28.50 per ton in Canada. The tenders from the United States and Canada to \$20, and were from both the United States and Canada. He compared the keeping up of a fire brigade, with engines and hose, and stated that iron piping cost less than the cost of same number of feet laid down for the same purpose. He had been told that these works carried out, and he thought that the water works were to be carried out, and laid down on the streets where they were required. He then showed the Guelph's need of better fire protection, and stated that the cost of water works would be infinitely cheaper than keeping up a fire engine and tank system, which had to be replaced every two or three years. If the water works were carried out, it would be a permanent benefit to the city. He thought the water works were a better investment than any other. He thought the water works were a better investment than any other. He thought the water works were a better investment than any other.

Mr. Peterson stated what he thought the object of the meeting, and then he explained his personal observations. He was the only advocate of his pet scheme, and he read the mayor's lecture on trying to crush the fire speech of the electors. He alluded to the poor execution of the scheme, and drew a picture of the fire department many had to see. He desired that other ratepayers should be treated in a similar manner. He advocated strongly the laying out of the scheme, and asked them to pause in this matter. He did not think the contractors could lose much, if they threw up the matter now. He didn't want his property mortgaged, and stated that a scheme establishing a water works in Guelph would be a more sensible thing to do. After some further remarks, similar to those already published, and his statements on the water works scheme, he sat down.

Mr. Cunningham again spoke as the seconder of the motion, but his speech was not relevant. Mr. Melvin defended the mayor, and the scheme for water works, and gave a detailed history of all the steps taken all the present time. During the time he was speaking to the financial aspect of the question Mr. Hatch said the town had floating liabilities at the time of the publication of the by-law, but Mr. Harvey who was appealed to, said there was not a cent of floating liability at that time.

Then a discussion between Mr. Melvin, Mr. Stevenson, and others, ensued, relative to the merits of the drinking water works, and the various schemes which had been proposed on the amount of revenue likely to be derived from the works when completed, but all these points have already been published.

Mr. Davidson stated his case, as the mayor had referred to him, and charged with the management of the water works, and had destroyed English's foundry. Dr. Keating spoke as to the revenue question, and also about the water for drinking purposes. He reiterated his former statements about the wells of English, and didn't think that hardly any revenue would arise from the water works.

Mr. Chase spoke as a ratepayer, and defended Mr. Peterson's financial position, which he had been attacked by Mr. Hatch. He sketched the progress of a large fire in Guelph, and made a telling speech in favor of water works.

When he had concluded his remarks Mr. Hatch said he had said in the morning "most of them have come to pay to pay their debts," and Mr. Chase still firmly held that Mr. Hatch had said "some of them couldn't pay their debts," and said that was what Mr. Harvey had said. He also backed up Mr. Melvin's accuracy in detailing the various steps of the water works scheme. He didn't think what good it would do to carry the resolution.

Mr. Hatch wanted the motion put.

Mr. McLagan said he wanted to say a word or two before the motion was put. The total taxable property of the town was \$2,500,000, and the total debt of the water works was \$100,000. The sinking fund to pay for the water works would be \$2,417,000, or 2 mills on the dollar. Therefore a ratepayer whose property was assessed for \$300, would pay only 60 cents per year for the water works. He then read insurance statistics, and said that a large saving would be gained to the taxable property of the town by the carrying out of the scheme for water works. These statistics have already been published.

After some crossing between Mr. McLagan, Mr. Peterson, Mr. Peterson, Mr. Peterson, Mr. Peterson, and Mr. Peterson, and a short speech by Mr. Peterson on the insurance question, the motion was put. The chairman, Mr. Harvey, gave his decision that both sides have it; he couldn't see much difference. Customary close of the meeting.

### Books, Stationery & Fancy Goods

## PATERSON & MACKENZIE,

Successors to John Anderson.

DEB TO INFORM THE PUBLIC THAT THE WHOLE OF THE OLD STOCK OF

### Books, Stationery and Fancy Goods,

Must and will be sold at any price, to make room for New Goods coming in.
