MR. JAMES M. GILLIATT CELEBRATES NINETY-FIRST BIRTHDAY.

There was a very pleasant evening spent at the home of Mr. and Mrs. James M. Gilliatt, Granville Ferry Thursday, Feb. 3rd, that being the ninety-first birthday anniversary of the gentleman. A goodly number of his nieces and nephews arrived with heads full of fun and hands full of sticks and proceeded to apply the latter until the number of ninety-one blows were laid on. The frolic was as much enjoyed by Mr. Gilliatt as anyone. After this part of the program was completed the company repaired to the drawing room where a portion of the evening was spent in social conversation and games of different kinds. Then as a change from this a number of nice musical selections were rendered by Miss A. Robblee, of Granville Centre, this part of the program being ended refreshments were passed around. The evening being spent the guests departed, congratulations being extended to the host and hostess, wishing them many more years of life and happiness.

Good Stock for Annapolis Co.

Two dairy bulls of at least as good breeding as can be found in Canada have recently been purchased at the Agricultural College Farm by two of our farmers.

Mr. A. J. Wheelock, of Clarence, secured a Holstein whose dam has produced from 1200 to 1400 lbs. of milk in a year and whose sire is a well-known prize winner at different shows all over Canada. He was sold last year for over \$1000.

R. J. Messenger purchased an Avshire of equally good breeding. Prof. Cummings in a letter to Mr. Messenger, says of this animal:—

“His dam's record for ten months 1907-8 was 10,214 lbs. and in '08 '09 10,500 lbs. and is one of our most persistent performers and his favorite cow with visiting farmers.”

“His sire ‘Secretary’ was for three years at the head of the herd of Andrew Mitchell, of Bercheshire, Scotland. He was purchased because his dam and granddam were two of the best milk producers in Scotland. I myself, considered ‘Secretary’ one of the best breeding bulls of any breed I have ever known. The one I am sending you is the most popular of ‘Secretary's’ progeny here.”

Both of these animals have been consistently bred for production and the purchasers are to be commended for their enterprise in bringing such stock into the county. Mr. Messenger has also recently imported a York-shire from prize winning stock.

The Giving of Power

In several towns, including our own, says the Yarmouth Times in an editorial today has been a day of contest for civic honors. The excitement has not been great for there is no great issue before the ratifiers. Few care what the result is—for the majority go and cast their vote as a matter of personal obligation to one or more of the candidates. And yet every intelligent person must know that an incorporated town of self-governing citizens cannot survive except as the characteristic body of its electorate is composed of intelligent, well-informed and discriminating units. Self-government by the ignorant and indifferent is inconceivable. All our laws are drawn in the avowed interest of morality, and their several provisions assume that there can be no stable human society where the individual members do not constantly observe toward one another the dictates of justice, truth, honesty and mutual forbearance. But what is the use of law? No law amounts to anything unless the overwhelming preponderance of the people of their own inner desire, without regard to the penalty, voluntarily choose to keep it. If this be so, the hope of any community is the giving of power into the hands of men who prefer to do right and only men who feel their moral responsibility can be expected to do this.

If then the nation, the community, the town, with the instinct of self-preservation would defend its life and insure its future it must put in office citizens who desire to do right, and deal justly with all the varied interests under their control, moral, industrial, educational, civic and municipal. If other men gain control the consequent condition of affairs cannot be laid to their charge, but directly to defects in the moral sense of the masses of the people who after all determine what conditions are to be or are not to be. This makes a very concrete and definite problem in civic welfare—not a problem to be wrangled over by sects and fought back and forth between the religious and irreligious, but a great question for the united consideration of all patriots. No one has ever yet or ever will advance a clear, convincing argument against the statement that the first need of a nation is an upright citizenship.

A few minutes delay in treating some cases of croup, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberlain's Cough Remedy in the house, and at the first indication of croup give the child a dose. Pleasant to take and always cures. Sold by all dealers.

BACK FROM GOLD FIELDS

Mayor of Shediac Graphically Describes Wild Rush to the Rich District in North Ontario, and Reckless Staking of Claims.—Warning to Possible Investors.

After three days of steady travelling, Mr. E. R. McDonald, Mayor of Shediac, arrived in Moncton yesterday, says the Moncton Transcript enroute home from the Porcupine, Ont., gold regions, one hundred miles north west of Cobalt, Ont. Mr. McDonald spent the past month in these regions and had many interesting stories to tell of the recent gold discoveries there.

When a Transcript reporter Mayo

that the country on which so much attention is now centered, is sure to be one of Canada's greatest assets. “One cannot safely doubt” he said, any prediction that may be made as to the extent of the mineral riches in that section of the country and the probable discovery of precious stones. It is hard for the mind to conceive the extent of the maddening rush of gold seekers that are now invading that part of the world. The backwoodsmen, French Canadians, laborers, the city men, English immigrants, and Swedes are to be recognized in that struggling procession. Those acquainted with the rush to Gowganda say that this new find offers no comparison whatever.

A WILD RUSH.

“So wild and uncalculated has this rush become that claims are staked without the slightest evidence of mineral deposit. Swamps, muckhegs, hills and valleys alike are blanketed. Until development is done it is impossible to estimate the extent of the width of the gold field. It runs in a north easterly and south westerly direction and within its boundaries are veins of free gold bearing quartz occasionally showing up on the surface. In some of the richer claims as in the Wilson, O'Brien and Banerman, pure gold nuggets of the size of peas can be seen scattered through the quartz. The country is covered in places with a low, dwarf, black spruce. In other places the spruce are tall and slim, but nowhere do the trees grow to any considerable size. I penetrated the “bush for sixty miles west of the “steel”—that is meant for the railroad—and in travelling in that country one does not receive the convenience of modern hotels.”

Jack Wilson, the discoverer of the new gold region and his company, hold nineteen claims, many of them of great value. It is stated that they have been

offered a sum up in seven figures for their holdings. I personally know of one claim being sold for \$300,000 and many others are reported to have reached close up to that amount.

ANOTHER GOWGANDA.

“Some are of the opinion that Porcupine will but repeat the history of Gowganda and that after wild catting ceases and sound business prevails that there will be but two or three good gold producers in the whole region, but the gold field is much wider in Porcupine than it is in Gowganda.

“Gold City is the name which is likely to be given the Porcupine region. Eight tents and a few log huts and shacks alone existed when I first saw what is to be Gold City, but within a very short time after a post office site was selected and buildings were being erected for a quarter of a mile surrounding the site. A local telephone system is being erected from Matheson on the road to Gold City and the trees are being utilized to support the wire.

WARNING TO INVESTORS.

“For anyone intending to invest in that country at the present time the only safe way to make money for those not acquainted with the conditions is to keep out of the game, for by that means the sum netted is precisely the sum intended to be invested.

“It is remarkable what order prevails in that wilderness, which up to the present time is without any system of police protection, the only lawless element being foreigners and the best of good nature prevails among the Canadians.

Mr. McDonald spoke in the highest terms of the Ontario prospectors and stated that they give every evidence of being desirous for a square deal. He said that Gold City would rise on Porcupine Lake at a distance of about twenty-six miles from North Ont. and Temiscaming railway; there can be no railway communication for some time to come and supplies must all be taken in during the winter as the swamps in the summer will not permit. The weather at times is very mild for perhaps a week and then it will turn suddenly cold the thermometer reaching at times as low as 35 or 40 below zero.

Mr. McDonald also visited Cobalt while absent, and various other prospective points.

A pound of 40c. Red Rose goes further than any 30c. or 35c. tea and it is distinctly superior in quality.

30c. and 35c. Red Rose Teas are good teas, so good that very many people say they want nothing better. But, if they would once try a package of the 40c. Red Rose they would use nothing else in future

Just think, five cups of 40c. Red Rose Tea will only cost 1c. One lb. makes over 200 cups. Not a question of affording.

Mr. G. L. Garrow of 116 Millicent St., Toronto, writes under date of September 13, 1908, "One year ago this spring I contracted a severe cold in the chest, which developed into Bronchitis. I took three kinds of medicine and found no improvement. A friend of mine advised me to try PSYCHINE and in three days I felt like a new man again. I desire to let others know what a valuable cure you have in PSYCHINE for it cured me where all other medicines had failed. I am more than thankful to be well again, and for the sake of others who may be ill, you may publish this testimonial." Stop that cold or the results will be serious. MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES,
MAIN BUILDING FOR PATIENTS.

A national institution that accepts patients from all parts of Canada. There is one of hundreds of letters being received daily.

John D. McNaughton, New Lis-bournd, Ont.: A young man not belonging here, and suffering from, it is believed, consumption, is being kept by one of the hotels here. He has no means and has been refused admission to our hospital. The conditions where he is offer him no chance. Could he be admitted to your Free Hospital for Consumptives? If not, could you inform me where he can be sent, and what steps are necessary to secure prompt admittance? NOT A SINGLE PATIENT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL BECAUSE OF HIS OR HER INABILITY TO PAY.

Since the hospital was opened in April, 1902, one thousand five hundred and twenty-four patients have been treated in this one institution, representing people from every province in the Dominion. For the week ending November 20th, 1909, one hundred and twenty-five patients were in residence. Ninety-six of these are not paying a copper for their maintenance—absolutely free. The other twenty-nine paid from \$2.00 to \$1.00 a week. No one pays more than \$4.00.

Suitable cases are admitted promptly on completion of application papers.

A GRATEFUL PATIENT

I was at your Sanatorium ten months, and I was sent away from there as an apparent cure. I am now working in the city, and I am feeling fine. I was most thankful for the care I got from the doctors and staff, and I must say that I spent the time of my life while I was there.

Between Good Flour and Flour That's Good Enough

THE DIFFERENCE between good and bad, Madam? Just as great as between eggs fresh from the "cackle" and others of more ancient vintage; between "all-wool" and "arf and arf." Might add that good flour and poor flour are divided by a price difference and, incidentally, a baking difference. Which explains why you would gladly pay just a little more to get FIVE ROSES certainty. Because it's worth more, and practically all cheap flours are faithful flours.

FIVE ROSES, Madam, is worth the money. We are convinced that nothing so rich in the dear-to-the-taste flavor of the ripe, red Manitoba spring wheat berry, so entirely different has ever been offered to discriminating housewives.

A pound goes farther—its strength and absorption powers would make its use economical at much above the price your grocer asks.

Even if all other millers knew where to get the same plump, sun-ripened, wholesome berries, and even if they had the same facilities to prevent possible spoiling before the grain reaches the rolls, and they had mills as perfect as the Kewatin Pure-Food plant to grind this prime grain—

Yet their product would not begin to compare with FIVE ROSES.

—One improvement which the new
street commissioners have a chance
to make which will be appreciated
is in regard to the breaking of the
roads after a snow-fall. Friday evening
last the public had to break its
own roads through the snow and turn
out in the morning and break them a-
gain through drifts two feet deep.
The snow-plough did not set along
Queen Street until half-past eight
and at one o'clock it had not reached
Washington Street nor the side streets.
The snow-fall of the previous week
though fully a foot deep on the side-
walks was not broken out at all, and
school-children had to make their way
through snow up to their knees in
many instances. In other towns the
snow-plough turns out at the begin-
ning of the storm and keeps on the
rounds till the storm is over. In
Bridgetown the usual custom is to
wait until the business people and
school-children have broken the path
for the snow-plough. It is time the
order was reversed.

—Elsewhere will be found a notice
of the purchase by two of our enter-
prising farmers of new breeding stock
of a superior strain. This the Moni-
tor-Sentinel is pleased to observe.
shows a determination to improve ex-
isting conditions of dairy farming,
which are not up to the standard that
the advantages of our valley for
stock-raising would warrant. Dairy
farming should take its place with
fruit-raising in the Annapolis Valley.
A failure in the fruit crop would not
then be such a serious set-back to our
farmers as it is at present, when it is
their staple dependence. There is al-
ways ample market for dairy prod-
ucts both at home and abroad and
prominent agriculturists are strongly
urging our farmers to improve their
advantages in the matter of dairy
farming.

Strong Blow at Liquor Traffic

ST. JOHN, N. B., Feb 6.—The Lenten
pastoral letter of Rt. Rev. T. Casey,
Catholic Bishop of St. John, read in
the Catholic churches of the diocese
to-day has caused a stir because of
its strong pronouncement against
the liquor traffic, his words being
declared to form the most severe
arraignment of the liquor business
ever given in official Catholic utter-
ance in the maritime provinces, per-
haps anywhere in Canada, and cul-
minating in what is looked on as a
direct call to every Catholic in the
liquor business to give it up. The
pastoral was peculiarly of interest
in the St. John city portion of the
diocese as nearly all the retail li-
quor dealers here are of Catholic faith.

Senator William Roach of Halifax

Obituary.

MRS. MARY A. BRINTON.
At the home of her son, Mr. Eber
Brinton, at St. Croix Cove, on the
morning of Feb. 3rd, Mrs. Mary A.
Brinton, widow of the late Travis
Brinton, passed away, aged seventy-
nine and nine months.

Mrs. Brinton was the daughter of
Mr. and Mrs. Handley Chute, and was
born at Hampton. About sixty years
ago she married Mr. Brinton, and af-
ter being a few years in Port Lorne,
they settled permanently in St. Croix
Cove.

In early life she united with the
Hampton church, in which she was
an active worker, and her daily life
and conversation was a bright testi-
mony for the cause she loved, and
will remain an inspiration in the
hearts of a host of friends who will
long cherish her memory.

She is survived by one son, Mr.
Eber Brinton, one brother, Mr. Robt.
Chute, of Hampton, and three sisters,
Mrs. Samuel Gesner, of Lynn, Mass.,
Mrs. Hannah Brinton, of Hampton
and Mrs. Lorenzo Fash of Granville.
The funeral services were conducted
by Rev. W. S. Smith. The interment
was at St. Croix Cove.

SAVED HER LIFE

Zam-Buk Cured Scalp Eczema

If you have eczema, ringworm or
any scalp sore, do not permit your
hair to be cut off without first trying
Zam-Buk. Mrs. Davis Monteith, of 93
Bertrand street, Norwood Winnipeg
says: "My daughter contracted ec-
zema of the scalp, and this broke out
regularly for three years in suc-
cession. It would probably have been
recurring yet each season had it not
been for Zam-Buk. The eczema first
started with an outbreak of little
red, watery pimples, which turned in-
to large sores. We consulted a medi-
cal man, and tried lotions, powders
salves and all kinds of things but in
vain.

"Each time the disease appeared
her hair had to be cut off. When this
had been done three times a friend
suggested that, as other things had
failed, I should try Zam-Buk. In-
stead of again consulting a doctor
and going through the old and ineffec-
tive programme, I acted on this
advice, and obtained some Zam-Buk.
Almost as soon as this was applied
the child experienced relief. The it-
ching and irritation seemed to be
soothed, and in several places, after
some days' treatment, there appeared
marked signs of improvement so we
thought we would not this time cut
off the hair.

"We kept on applying Zam-Buk
until in a few weeks it was very evi-
dent a complete cure was being ef-
fected. In the end all the sores were
healed, the hair over the effected
parts had grown again, and at the
present time her scalp is healthy and
quite free from every trace of sore or
eczema." The same healing virtue is
responsible for cure of ulcers, absces-
ses, running sores, cuts, cracks, chil-
dren's rashes. There is nothing to
equal Zam-Buk, as it is so pure. All
druggists and stores at 50 cents a
box, or post free from Zam-Buk Co.,
Toronto, for price.

D'ISRAELI ASBESTOS COM- PANY SHOW EXCEL- LENT STATEMENT

The D'Israeli Asbestos Co., Inc.,
whose asbestos quarries are situated
at D'Israeli, Quebec, have issued
their Annual Statement audited by F.
P. Blanchet and E. P. Oliver. Their
financial statement is a very credita-
ble one and shows a good cash bal-
ance in the bank, and a large amount
spent on their Plant and Branch Rail-
road, and other resources of consid-
erable value. Copy of this statement
can be procured on application.

This company is free from debt and
bond obligations. They expect to be
producing asbestos early in the spring
and at the present time the machin-
ery is being installed to operate their
250 ton capacity plant.

The stock of the D'Israeli Asbestos
Company is widely held by investors
who realize that asbestos stocks form
a safe channel to invest their surplus
funds. Feb. 8. It

O'HIGGINS IN THE LIMELIGHT.

Canadian Writer Is In Centre of Poli-
tical Storm In Denver.

Mr. Harvey J. O'Higgins, formerly
of Toronto, who has become one of
the best known writers in New York,
is very far from being a man who
courts sensational publicity for him-
self or his work. But he is getting it
just the same. His name is at the pre-
sent being mentioned in the news-
papers of Denver, Colorado, almost as
frequently as the name Beresford was
mentioned in the press of Toronto
during fair week. It is, in fact, ap-
pearing constantly in papers all over
the Western States; and it is just
possible that before this article ap-
pears, Mr. O'Higgins may have been
slandered or kidnapped, or possibly
the fingers of his writing hand may
have been shot away.

Now, what on earth, you ask, has modest, quiet
Harvey O'Higgins been up to that he
should be in the thick of such a
storm? Well, this is the way of it,
and the story will be interesting to
his many Canadian friends and ad-
mirers.

Most people who read the papers at
all carefully have heard something of
Benjamin Barr Lindsey, judge of the
juvenile court in Denver. They call
him "de kids' judge." He is the
friend of all children, and believes
that it is the duty of the state, what
very, very careful in the handling of
boys and girls who, standing un-
guarded and unadvised at the thresh-
old of life, are in danger of becom-
ing criminals instead of useful citi-
zens. He believes in trying by every
conceivable method that is practice-
able to set children on the right path
before sentencing them to jail to herd
with confirmed criminals. He has de-
vised many ways of doing this, and
children's society agents and Govern-
ment officials from all over the world
go to his court to observe the results
of his juvenile parole system and other
methods of dealing with youthful
offenders. But he has not been con-
tent to fight for the children. For
years he has been fighting against the
rotten methods of machine politicians,
and dishonest corporations and com-
binations in the city and the state
in which he lives. Some time ago
Everybody's Magazine concluded that
the publication of an autobiography of
Judge Ben. B. Lindsey would be
in the language of Kid Barnes, the
"big noise" of a season in magazine
features. So they arrange with the
judge for the material, and sent Har-
vey O'Higgins to Denver to edit it—
meaning that the latter would write
the story, concisely and strikingly.

Mr. O'Higgins says that Lindsey, who
is a tiny ninety-eight pound man,
is a lion in courage, has done wonder-
ful things in the way of reform in Den-
ver, although he has neither money,
personal magnetism, nor strong friends.
His enemies are legion, including all
the gamblers and hard cases, male
and female, of the city. He has been
offered big bribes to quit his fight for
the honest administration of honest
laws. He has been threatened. At-
tempts have been made to discredit
him and blacken his character, but
he keeps on fighting.

Recently it became known in Den-
ver that Judge Lindsey's real story
containing "real names," and written
by the skillful hand of Mr. O'Higgins
was about ready for publication—a
tipping story of 750 words. And
during the past two weeks it is said
that lawyers and detectives, repre-
senting powerful influences and men
whose "real names" were likely to be
slandered to a continent as crooks,
have been busy trying to induce the
magazine not to print the story. It
is to be hoped that no extreme
western vengeance will fall upon Mr.
O'Higgins for his part in promised
sensational exposure, although such
newspaper headings as "Gangs Plot-
ted His Murder" are employed by
friendly newspapers in describing the
danger in which Lindsey himself
stands. In this connection, however,
it is reassuring to note that even
the papers most strongly antagonistic
to the judge are free in their praise
of "the famous magazine writer and
"realist" and "gentleman of charm-
ing personality" who is writing the
sister "autobiography."

The Boy Collector.

One day recently the front door-
bell of a certain Toronto house rang
and the mistress of the house, answer-
ing the summons, found at the thresh-
old a diminutive Irish lad.
"Well," she queried, "what is it?"
"I've come for the money," was the
laconic but cryptic response.

The lady had no idea what the boy
meant, but finally the latter made it
clear that he had come to collect a
small sum owing on a parcel which
had been delivered to a visitor in
the house. The lady paid the money
and then suggested that she be given
a receipt.

"Receipt—what's that?" asked the
small but determined collector.

The lady explained that as they
were each acting the part of agent in
the transaction it would be advisable
for him to give her something in the
shape of a voucher.

The lad's education evidently did
not include a knowledge of the tech-
nicities of any such formal proceed-
ing as this, but he was bright and
Irish. So, with the remark, "Aw, I
know what you want now," he wrote
on the back of the memorandum, he
had brought with him:

"T. Maloney came for the money
and got it."

A Mackenzie Phillipic.

Gratifying offers are being received
daily from private individuals, who
are ready to donate old and historic
volumes and documents to the new
Ontario legislative library now being
formed to replace that which was de-
stroyed by fire. Only this morning
a letter was received from a Toronto
gentleman offering a relic of the re-
bellion days of 1837. It is a pamphlet
by William Lyon Mackenzie entitled
the "Legislative Black List of Upper
Canada, or Official Corruption and
Hypocrisy Unmasked." This is a
pamphlet which was not in the col-
lection of the destroyed library.

PURITY FLOUR

And Its Keeping Qualities

SOME people find it necessary to buy a considerable quantity of flour at one time—sufficient to last for a long period. Naturally they are anxious to procure a flour of the kind best adapted to lengthy storage.

There are two important reasons why PURITY FLOUR possesses these qualities. One is that it is made entirely from Manitoba Hard Wheat. The other lies in the fact that the careful milling necessary to produce "Purity" absolutely excludes all low-grade particles of the wheat berry. It's the high grade Manitoba Hard Wheat Flour that keeps—stands longest storage. That's "Purity."

"Purity" flour may cost a little more, but is more than worth the difference. Try it. Watch results both for quality and yield.

Pioneer Shipbuilder at Granville Ferry, Dead

Death has removed one of the oldest and most respected citizens of Granville Ferry in the person of Robert Mills, who passed away Friday afternoon 4th inst. Mr. Mills was born at Granville Ferry, where he has since resided. He was born in 1822, and has been identified with the business and general advancement of the place during his long life. In his younger days he was associated with the late John Johnson and W. M. Weatherspoon in building and managing vessels and was the last survivor of the pioneer shipbuilders of Granville Ferry. In religion, while not a communicant of any church, he was a general supporter and constant attendant of the Methodist church and his hospitable home will be remembered, especially by the older ministers of that denomination. Mr. Mills was twice married, first to Lucy, only daughter of the late Harris Hall, and second to Mary Hall Smith, widow of Captain William Smith. He is survived by his widow and three children. The funeral took place Sunday afternoon at 2.30 p.m., from his late residence.

Beautiful Women

Paris is Full of Them and Nearly All Use Parisian Sage.

In the beauty show at the metropolis two years ago Gold Medals were awarded to five different women.

To the most beautiful women between twenty and twenty-five; between thirty and thirty-five; between thirty-five and forty; between forty and forty-five.

A society reporter who interviewed all five women in the interest of his papers, reported that all of them had beautiful hair, and that each of the five enthusiastically attributed her luxuriant hair to Parisian Sage.

S. N. Weare sells Parisian Sage for fifty cents a large bottle. He guarantees it to cure dandruff in two weeks; to stop falling hair and itching of the scalp. It makes any woman's hair beautiful, soft and luxuriant.

THE CHARM OF OLD LADIES

"I love old ladies best," wrote Thomas Ashe. And how many good reasons there are for the preference he expresses! Old ladies have a special charm, which like the scent of sweet lavender, and the soft light of evening, is indefinable, but potent in its influence.

It is easy to mention some of the characteristics of old ladies which we most appreciate—the white hair which nature gives them for a crown of silver; the face full of sweet records; the delicate frail hands in which the blue veins show clearly marked; the little touch of helplessness, irresistible in its appeal to us. But the greatest attraction of all is the power of sympathy which often marks the woman who has scaled the heights of joy and love, and sounded also the deep waters of sorrow. All the deep waters of sorrow. All the long years of life she has paid is not too great for the treasure won—a heart "at leisure from itself to soothe and sympathize."

Some American cities are so full of hurry and bustle that it seems impossible to crowd old there gracefully and even in England the milliners and dressmakers frequently assert that "there are no old ladies now." Few things are more pathetic than the mistaken efforts of some women to hide the marks of advancing years. They forget that there are countless women "of the old school," like those whom Austin Dobson wrote, "whose fair old faces grow more fair," and thus Father Time himself, "finds no cheeks unclaimed of care," ventures only to kiss them "with Vauxhall grace," and leaves them beautiful.

An attack of the grip is often followed by a persistent cough, which to many proves a great annoyance. Chamberlain's Cough Remedy has been extensively used and with good success for the relief and cure of this cough. Many cases have been cured after all other remedies had failed. Sold by all dealers.

A CALM MAN.

Mr. J. Ephson is a calm man, not easily upset. On one occasion, as his motor-car had come to a sudden stop he crawled underneath to see what was the matter. Somehow or other some petrol ignited, a fierce burst of flame and smoke came forth, enveloping Mr. Ephson. In the midst of the excitement he walked on one side, with his usual slow and regular step. His face was black his eyebrows and eyelashes were singed, and what was left of his hair and beard was a sight to behold. Someone brought a mirror and he had a look at himself. As usual he, however, he took matters philosophically. "Well," he said slowly and deliberately, "I was needing a shave and my hair cut anyway."

An English Chemist Has Discovered How to Grow Hair

In England the ladies have entirely abandoned wearing rats, which is due entirely to this new discovery.

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed SALVIA makes a most pleasant hair dressing. Mr. Warren, your druggist, is the first to import this preparation into Bridgetown, and a large nervous bottle can be purchased for 50c.

JUST A HINT.

Mr. Styalate—Is that c,ock right? Miss DePink (wearily)—I think it must need cleaning. It's been two or three hours going that last hour.

UNION BLEND TEA the Tea that satisfies

THE best customers I have are people who simply cannot learn to like ordinary tea—they find in Union Blend a richness and delicacy coupled with a strength that other teas do not even approach.

They gladly pay the price—forty cents a pound—because they realize it is tea economy. It is economy, because it goes half as far again as ordinary tea; indeed, being unaccustomed to its strength, most people make it too strong at first. Then, they learn that a little Union Blend makes more tea and makes it far better than can be made from a good deal of the common kind.

Go to your grocer and get a pound packet of Union Blend—be sure my picture is on the end—and try it for yourself. One single pound carries conviction.

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement—the tea itself is worth the price, fully.

TRY EVEN A HALF POUND THERE is only one way for you to prove that Union Blend Tea is all I claim—better than other teas. Try it. If it is not up to your expectations, I stand to lose more than you do. For my advertising can only induce you to try it once—can only introduce Union Blend to you; after that, its own quality must continue to sell it. Yet I am not only willing but anxious to risk the test—will you give me that chance? Go to your grocer, get a single pound—or a half pound if you prefer—and I shall be perfectly satisfied to accept your decision.

PROFESSIONAL ADVICE.
A mother who was a trained nurse, protests against the unwisdom of women who keep their healthy children of two years, three years and even four years old strapped in baby carriages during their outings when the little things are able and eager to get out and use their legs. "The children walk indoors," she said. "Why not have them walk outdoors? It is surely good for them to exercise in the fresh air. It absolutely brines tears to my eyes sometimes to see active children old enough to toddle about kicking their little legs and beating their fists in carriages."

Why don't you write. Have you forgotten your promise when you went away? Why don't you write? It's surely not that you've not anything to say. The time is going fast. Know you how many weeks have passed And found us watching day by day? Why don't you write? We love you. Your silence makes forbidding chill. Why don't you write and let us know If you are faring well or ill? Your absence weren't so cruel, dear If we sometimes from you could hear And know that you were all right still. Why don't you write? The world-succcess Cannot have tired you quite away From every thought of tenderness For dear ones waiting day by day. Weary with longing and distress— Your silence and forgetfulness. For such devotion is poor pay. And if you have not won success— If want sits by your board today Why don't you write? We'd never guess At anything you did not say. Then write and say you'll ne'er forget Your mother, tho' you get in debt For stamp and paper, need to pay And if the world with pomp and show Is counting you amongst her great, Write quickly, let the old folks know Your grandeur ere it be too late. Eleven Warships in Four Years

Ottawa, Feb. 3.—The naval policies of the political parties in Canada were exposed in the house of commons today.
Sir Wilfrid Laurier defined the stand of the government. Mr Borden declared the policy of the opposition, and Mr. Monk announced the attitude of the opposition, to the opposition.

Sir Wilfrid declared for a navy of eleven vessels built in Canada within the next four years.
Mr. Monk declared that the government's policy changed the relations of Canada and the mother country and that the question of a navy should be put to the country in the form of a plebiscite.

Hon. Mr. Lennox thought that after the unanimous resolution passed in March last it might have been expected that the two parties would have united on the question of a Canadian navy. He gave the leader of the opposition credit for having put his policy in concrete form before the house, but in the province of Quebec there had been the same shoutings and shriekings on the part of a section as there were during the Boer war.

A GREAT FEAT

Under the caption 'What has been done in six months' the Montreal Witness has issued a brief statement to its clientele, that admirably serves to summarize the activities of this truly great newspaper. We reproduce this summary in part for our readers:
'The Witness' has been reorganized and revitalized in all its departments. Editorial and reportorial staffs have been augmented by the most experienced men to be procured. The Advertising Department has been placed under an Advertising Manager with twenty-five years' experience in Canadian advertising. The size of the 'Daily' and 'Weekly Witness' has been almost doubled. The effects of the recent disastrous fire which destroyed the 'Witness' building and plant have been largely overcome. Upwards of \$15,000.00 have been spent in exploiting circulation. The most modern presses, type, and equipment have been installed. The circulation of the 'Daily' and 'Weekly' issues has been increased by thousands. The advertising has increased over thirty per cent.

The Montreal 'Witness' is indeed an ideal family newspaper, maintaining at all times a high moral standard. Its news reliable, well-arranged, and its editorials acknowledged on all sides to be 'at once fair and forceful.'
Most of our readers want a metropolitan paper as well as the indispensable local newspaper, and they cannot do better than take the 'Witness.' The price of the 'Daily Witness' is \$3.00 a year, and of the 'Weekly' Witness and Canadian Homestead, \$1.00 a year. Samples will be freely and promptly sent upon request by the publishers, JOHN DOUGALL & SON, 'Witness' Building, Montreal, or may be taken at the office of this paper which will forward subscriptions if desired.

Only Medicine That Did Any Good

After Suffering Tortures For Years, This Lady Found Happy Relief in "Fruit-a-tives".

Frankville, Ont., June 11th, 1908.
"I have received most wonderful benefit from taking "Fruit-a-tives." I suffered for years from headaches and pain in the back, and I consulted doctors and took every remedy obtainable without any relief. Then I began taking "Fruit-a-tives" and this was the only medicine that ever did me any real good. I took several boxes altogether, and now I am entirely well of all my dreadful headaches and backaches.

MRS FRANK EATON

I take "Fruit-a-tives" occasionally still, but I am quite cured of a trouble that was said to be incurable. I give this testimony voluntarily, in order that others who suffer as I suffered, may try this wonderful medicine and be cured."
(Signed) MRS. FRANK EATON.
"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50 or trial box, 25c — or sent post-paid on receipt of price by Fruit-a-tives Limited, Ottawa.

DOES NOT PAY.

Saying sharp things does not pay. It may gratify your spite at first but it is better to have friends than enemies, and if you cannot make people happy at least refrain from adding to their misery. What if this woman is not your ideal of womanly perfection, or that man your model man? Your mission on earth is not to remind them of the fact. Each of us has faults of his own or of her own; in correcting them we shall find ample occupation. A "sting" or a "dig" never did any good—never helped any one to be better.

You must always keep in view In case of colds what's best to do And don't forget it. Rub the throat, sniff up the nose The remedy I now propose. And do it thoroughly with Empire Liniment.

PEERS OWN FIFTH OF LAND AREA OF UNITED KINGDOM

The land owners in the House of Lords who would be affected by the land tax proposed in the rejected Budget comprise the whole House, with the exception of a mere handful.
None of the Lords own so little as a thousand acres. Most of their holdings can be reckoned in tens of thousands, while the holdings of twenty-three members exceed one hundred thousand acres each.

The latest survey from which figures can be compiled shows that the Peers of all parties hold 16,411,986 acres or one-fifth of the total area of the United Kingdom. The Peers who defeated the Budget hold together 10,078,979 acres. The average holdings of the Dukes is 142,564 acres each; of the marquises, 47,500 acres; of the earls, 30,217 acres; of the viscounts, 15,234 acres and of the barons, 14,152 acres.
So far as can be ascertained the railroad directors in the House of Lords number forty-two, and the bank directors and bank partners forty-four, but there are possibly more. Lord Rothchild, Avebury, Strathcona and Swathing, formerly head of Samuel Montague & Co., are the most conspicuous banking names. Probably about fifty are conspicuous as industrial capitalists, but many others are connected with industrial concerns.

BILIOUSNESS AND ALL LIVER DISORDERS ARE CURED BY MOTHER SEIGEL'S SYRUP.
The tortures of biliousness must yield to Mother Seigel's Syrup, because this great medicine tones and strengthens the liver, regulates the flow of bile, and cleanses the whole system.

Shilah's Cure

IT'S mere hard fact that "Oshawa" Guaranteed Shingles make ten times as good a roof as even the best wood shingles--and that at but one-tenth their cost.

Suppose you get at the rights of this roofing question--

Slate makes a handsome roof, and a very fair roof, with its laid right,--and if you will pay the price. It's the only roofing that even compares with "Oshawa" Shingles for shedding wet. But-- A slate roof costs 4 times as much to buy; thrice as much to lay; and weighs 7 times as much--which demands heavy, rigid timbering to sustain it.

OSHAWA STEEL SHINGLES Guaranteed "GOOD FOR A HUNDRED YEARS" The PEDLAR PEOPLE of Oshawa Established 1861. Includes list of agents in Montreal, Ottawa, Toronto, London, Chatham, Winnipeg, Quebec, St John, N.B., Halifax.
