Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boule and Birch. These latter have exceptional quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

CURRENT TRADE CONDITIONS.

ONTARIO.

The transactions in lumber during the past week have borne out the prediction made in our last issue that there would be no great volume of trade during the closing weeks of the year. A goodly number of enquiries are being made, and some sales have been effected, but indications are not lacking that the trade is settling down to a winter basis. Large purchases for spring delivery are not likely to be made until January or February. The probability is that the spring demand will present itself earlier than is usual. There is an unconfirmed rumor that large contracts have been placed with the Ottawa valley mills for their next season's production of British deals. Pine mill culls are showing strength, and we would not be surprised if considerably higher prices for these would rule next season. Pine lath also give evidence of selling at higher figures. There is a scarcity of the better grades of basswood lumber. Other lines of hardwoods remain unchanged, with the demand showing a slight improvement.

A factor in the white pine market which should not be disregarded is the almost certainty of a decreased production of logs this winter. In view of the high cost of labor and supplies, logging operations in nearly every district are on a limited scale. There is much difficulty in obtaining the necessary number of woodsmen, and should weather conditions throughout the winter prove unfavorable, the production of logs may be even less than operators are reckon-

ing upon. The prospects, therefore, are that less lumber will be manufactured next year than in the season now closing.

QUEBEC AND NEW BRUNSWICK.

Shipping from the St. Lawrence being practically over for the season, the spruce lumber market is consequently quiet. Shippers on this side are waiting events in Great Britain before contracting with manufacturers for next season's cut, and it must be said that the outlook for British trade is none too promising. The United States market has shown more life and shipments have increased. Spruce clap-boards are selling, on Boston rate of freight, at \$29 to \$30 for extra, and \$27 to \$28 for clear, while the corresponding figures for pine are \$36 to \$38 and \$33 to \$37. Extra cedar shingles are stronger at \$2.75 to \$2.90, clears bringing \$2.40 to \$3.50.

MANITOBA AND BRITISH COLUMBIA.

Throughout Manitoba and the Territories the movement of lumber is light. The retail dealers have sufficient stocks to carry them through the winter, and will not purchase for spring delivery until after the turn of the year. In British Columbia the local consumption of lumber continues to be of large value, and the shingle market is particularly firm. Vessels are now loading lumber at Chemainus for South Africa, and an increased export trade may be expected as a result.

UNITED STATES.

The lumber market of the United States has gained strength during the past week, with indications of slight weakness in respect to one or two classes of stock. The favorable features are a heavy movement of stock to the east, an increased number of enquiries for spring delivery, and higher prices for certain grades. The Boston market has developed unexpected strength, dealers there reporting a marked increase in demand. Buffalo dealers also tell of an improvement in demand, with a light supply of all grades above barn boards. Low grade inch seems to be slightly weaker and in larger supply, although at Tonawanda there is said to be a scarcity of 1x12 inch, the price of which has been advanced by one dollar per thousand. The manufacturers of spruce are advancing prices. At Bangor, Maine, narrow spruce is quoted at \$16 to \$17, wide at \$17.50 to \$20, scantlings at \$15 to \$16, and spruce boards, 10 to 16 feet long, at \$13 to \$14. Basswood leads the hardwoods in point of demand. A large eastern consuming firm is said to have made heavy purchases of 1½ inch basswood in the Chicago market. Black ash is scarce, while maple is quite plentiful, with inch firsts and seconds selling the in Buffalo market at \$22.

Lath prices have been advanced 25 cents per thousand in Cleveland, Bangor, and several other markets. At Ashland, Wis., No 1 white pine lath is held at \$2.50.

GREAT BRITAIN.

The reports from Great Britain tell of an unsatisfactory condition of the timber market. London seems to be the centre

of the weakness, as stocks there are larger accordingly than at the other ports. A decided tendency towards lower prices has exhibited itself during the past fortnight. This is clearly shown by the result of the auction sale held by Churchill & Sim on the 14th inst., when nearly all classes of deals sold from ten shillings to one pound per standard lower than at the previous sale. St. John spruce deals sold 20 shillings lower, and battens 10 shillings lower, but it is said that this can be partly accounted for by the quality of the lumber. In contrast to other lines planed boards and flooring are showing strength.

We are yet unable to report any purchases of next season's goods. The market is in such a position that shippers are holding back their quotations in the hope that the consumption and demand may pick up, and that they may be able to effect sales at higher prices by waiting a few weeks. In our opinion the conditions are now favorable to high prices for early spring shipments.

STOCKS AND RICES.

Thos. Wilcox, of Parry Sound, Ont., has transferred his logging contract at Henvey Inlet for Burton Bros. to John Kennedy, of Barrie.

A report comes from Great Britain that large contracts for deals have been closed with importers in Spain at prices in advance of those paid last season.

The Skillings, Whitney & Barnes Lumber Company, of Boston, Mass., are reported to have purchased the entire cut of mill run lumber sawn by the Conger Lumber Company, of Parry Sound, during the past season.

The Hawkesbury Lumber Company, of Hawkesbury, Ont., had about 40,000 logs hewn up this season in the Black river. They are now building a canal from a small lake into Black lake to permit of bringing the logs down.

The Dominion government invites tenders up to noon of December 1st for supply of timber and lumber required for the Quebec canals during 1901. Information may be obtained from Ernest Marceau, superintending engineer, 1709 Notre Dame street, Montreal.

The steamship Forest Holme sailed from Quebec last week for London, with a cargo of timber and deals. The steamer Norden sailed from St. John, N. B., for Valencia and Barcelona, with a cargo of lumber, shipped by A. Cushing & Co.

F. E. Neale, of Chatham, N. B., has made his last shipment of lumber for the season. The total quantity shipped was 33,000,000 feet, of which 22,000,000 feet was shipped from Miramichi and 11,000,000 feet from Campbellton. Mr. Neale is the largest shipper of spruce deals on the north shore of New Brunswick.

Six timber berths were sold by the New Brunswick Government last week at high prices, as follows: Rockwell Stream, three miles, to Alex Burnette, at \$4 per mile. North Branch Shikiobank river, two miles to C. E. Gallagher, at \$8 per mile; West Branch of South Branch of the Nepisiguit river, 57.9 miles, to W. T. Whitehead, at \$101 per mile; West Branch of South Branch of Nepisiguit river, 57.9 miles, to W. T. Whitehead, at \$101 per mile; Big Tracadie river, at mouth of Lord and Foy's brook, six miles, to Sumner & Co., at \$52 per mile; Big Tracadie river, at mouth of Little South Branch, six miles, to Sumner & Co., at \$51 per mile.

The McCaskill steam saw mill at Little Narrows, N. S., was destroyed by fires last week. The loss is \$2,000, and no insurance.

A saw mill at Marysville, N. B., owned by Alex Gibson & Sons, was destroyed by fire on November 26th. The mill contained gang and rotary saws, and cut about 35,000 feet of lumber per day.
