### Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below. L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de numérisation sont indiqués ci-dessous.

Coloured covers / Couverture de couleur		Coloured pages / Pages de couleur
Covers damaged / Couverture endommagée		Pages damaged / Pages endommagées
Covers restored and/or laminated / Couverture restaurée et/ou pelliculée		Pages restored and/or laminated / Pages restaurées et/ou pelliculées
Cover title missing / Le titre de couverture manque		Pages discoloured, stained or foxed/ Pages décolorées, tachetées ou piquées
 Coloured maps /		Pages detached / Pages détachées
Cartes géographiques en couleur	$\checkmark$	Showthrough / Transparence
Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)	$\square$	Quality of print varies / Qualité inégale de l'impression
Coloured plates and/or illustrations / Planches et/ou illustrations en couleur	[]	Includes supplementary materials /
Bound with other material / Relié avec d'autres documents		Comprend du matériel supplémentaire
Only edition available / Seule édition disponible		Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from scanning / II se peut que certaines pages blanches ajoutées lors d'une
Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.		restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été numérisées.

Additional comments / Commentaires supplémentaires: Continuous pagination.

-A settlement at 40 cents in the dollar, cash, has been made by Connors Bros., shoes, Toronto, recently referred to .-- R. B. Ritchie, shoes, Toronto, has assigned. He began in April, '99, on limited capital.

---The advance in price of goods generally last year is evidenced by Sauerbeck's index for 1899 giving the average as 68, against 64 in 1898 and 62 in 1897. With the exception of agriculture the industries throughout Europe were more prosperous than during any of the preceding 18 years. Canada's "growing time" is consequently not exceptional, but merely shows that this country is sharing in the world's prosperity.

-A London, Eng., dispatch states that negotiations are understood to be in progress for the formation of a naval reserve in Canada; the difficulty created by the requirements of six months' training in a man-of-war being one of the conditions of service in the United Kingdom, it is thought, will be overcome. There will be under construction in 1900 seventeen battleships, twenty armored cruisers, a first-class protected eraiser, two second-class protected cruisers, a third-class cruiser, eight sloops, two gunboats, four torpedo boats, and twenty-one torpedo-boat destroyers. The naval estimates for 1900 and 1901 total £27,522,600, an (nerease of £928,100, providing for an increase of 220 officers and 4,020 men for new ships, It is proposed to build two new battleships, six first-class armored cruisers, a second-class cruiser, two twin-screw sloops, three gunboats. and two forpedo boats.

TORONTO, ONT.

ed on collateral." Like most smart antithetic sayings, this is not strictly true. A story is told of an English banker who died forty years ago, that on asking a would-be borrower what security he offered, he was told, "personal security." The banker was a wag. He assented to the loan and requested his customer to step inside the vault. "Pray," said he, "what is this for?" "O!" said the banker, "I place all my securifies in this safe!" Needless to say, as the "personal" security could not be left in the banker's possession, his money was. -Now there is a restriction put upon the export of pulp wood from Canada, the "Paper Mill," the organ of the American trade, says, the mills in the States do not require pulp wood from Canada. This being so, they have no reason for complaint on account of Canadian legislation to restrain the export of pulp wood.

> -The dry goods firm of Delage & Gauvreau, Quebec, recently referred to, are now endeavouring to settle at 60 cents in the dollar, spread over 12 months, secured.

> -A. L. Grover & Co., dry goods, Trenton, Ont., have assigned. A. L. Grover, the sole owner, began in the fall of '99, with little capital of his own, being previously a clerk.

-The Molsons Bank has declared the usual 4 per cent. half yearly dividend, payable 2nd April.

-With the success which has attended the construction of electric railways in the past few years, it is safe to presume that with the improvements which from time to time are being introduced the next decade will witness networks of electric street railways connecting almost every town in the older provinces. A Galt, Ont., letter states that Mr. J. S. Clark, head of the Grand Valley Railway Company which is arranging to build an electric line from Port Dover to Goderich, Ont., has been interviewing Boards of Trade along the proposed route. He stated the company is backed by large capitalists in New York, and London. Eng., including D. W. McNair, J. Acton Lomax, Charles R. Sickles, Dr. Sanger, of New York; Hon. Jas. Roche, late of the Alaska Boundary Commission; and O. McNair, of the Warsaw Bank, Buffalo, and that the road is certain to be built. Part of the way has already been bought; the company has secured its charter for as far as Berlin, from Port Dover, and are now petitioning the Dominion Government for the privilege of operating ferries on Lakes Erie and Huron, connecting with the railway at the two lake points mentioned. They are also petitioning the Ontario Legislature to construct dams at the headwaters of the Grand and Nith Rivers in order that the volume of the spring floods, which are always disastrous, may be greatly lessened. Arrangements are said to have been completed for the purchase of the charter of the Preston and Berlin Electric Railway Company. The toll road from Ayr to Paris has also been secured.

---Property-owners often violate the terms of a fire-insurance policy without knowing it. Hundreds of dollars are thus paid out yearly for policies that would be worthless if a claim should be contested. An authority quoted by the "Roller Mill" mentions the following ways in which a p of fire insurance can be violated:-1. Failure to pay premium at proper time. 2. Change of title or ownership by sale, gift, marriage settlement, devise-any way but by descent-without consent of the company. 3. Mortgaging the property insured, real or personal, when prohibited by conditions of the policy, without consent of the company. 4. Foreclosure proceedings without consent of the com-5. False statements in applications (when taken) pany. relating to title, encumbrance, and other facts material to the risk. 6. Other insurance without consent of the company. 7. Permitting buildings insured to become vacant or unoccupied for more than ten days without consent of the company. S. Taking a new partner without consent of the company. 9. Increase of risk by keeping prohibited articles on the premises or by change of occupancy of the premises insured. 10. Removal of personal property to a new location without consent of the company. 11. Erection of an exposure to the property insured without consent of the company.

-The proprietors of the "Daily Chronicle," London, England, are reported to have secured an interest in the concession granted by the Ontario Government for securing power from Niagara Falls. A large paper mill is projected on the Canadian side of the river, the product of which would be used principally by London newspapers.

-The Hartt & Adair Coal Company, Montreal, has been

incorporated. Capital stock, \$30,000. -Citizens of Wiarton, Ont., are desirous of Governmental aid in the contemplated improvement of their harbor.

-The suburban town of Westmount is promised a better mail service, gained through the repeated efforts of a member of the Commercial Travellers' Association.

-It is announced at Hamilton that the Carbolite Company, Limited, will in a short time commence the construction of a large factory near the Smelting Works, which will be used for the manufacture of calcium carbide. It is proposed to use the Smelting Works slag for the making of carbide-a material not heretofore used for this purpose in Canada, but known to be valuable for that purpose in other countries. It is expected that about 50 tons of slagwill be used when the works are in full blast. The company also intends in the near future to locate an American branch of the works at Tonawanda, N.Y., where there are blast furnaces.

---At the recent annual meeting of the Western Fair Board at London, Ont., the following Board of Directors were re-elected: Licut.-Col. W. M. Gartshore, Licut.-Col. F. B. Leys, M.P.P., Messrs. A. M. Smart, Geo. Taylor, W. J. Reid, W. M. Spencer, B. Shaw-Wood, Jas. H. Brown, W. R. Hobbs, J. S. Pearce, and J. W. Little. The board subsequently re-elected the following officers: Lieut.-Col. W. M. Gartshore, London, President; Mr. J. W. Little, Ilondon, and Mr. Allan Bogue, Vice-Presidents; Mr. D. Mackenzie, Treasurer; Mr. J. A. Nelles, Secretary. The financial statement shows receipts of \$34,642.04, and disbursements of \$32,-010.44. The assets total \$43,332.44 and the liabilities nil. Last year was, with one exception, the best in the history of the fair.

As the price of lumber advances and the scarcity of timber becomes more universally recognized it is well that interest is being taken throughout the Dominion in the preservation of timber reserves and the withholding of the same from free distribution which would soon terminate their worth. At a meeting of the Ontario Lumbermen's Association, held in Toronto recently, the following resolution was carried: "That the Lumbermen's Association of Ontario express their satisfaction in having the manufacturing clause placed in all licenses; and further, that this Association reiterate the opinion expressed on former occasions, that in the absence of reciprocity in lumber between Canada and the United States, the Government of Canada be requested to impose an import duty on lumber corresponding with that imposed by the Government of the United States and thereby remove any injustice which at present exists to Canadian lumbermen." The election of officers resultd as follows: President, John Waldie; Vice-President Jas. Scott; Second Vice-President-Robt. Watt: Secretary-Treasurer-W. B. Tindall; Board of Management John Bertram, John Waldie, J. E. Murphy, T. Conlon, R. Cook, James Scott, N. Dyment, W. A. Charlton, J. B. Miller, C. Beck.

-It is stated that the entire ouput of white pine lumber, for the present year, of the four mills of Messrs. Mc-Lachlin Bros., Arnprior, Ont., has been contracted for by a prominent Montreal dealer. It is the intention to export the greater part to the English and U.S. markets. The amount will reach some 65,000,000 feet.

-Quitting the plow for the apparently quicker profits of the store, John J. Shaver, of South Finch, Ont., began in general merchandise last spring, with little capital and less experience. His assignment now may cause the farm to be viewed with more favor.

-At Leduc, N.W.T., Trimble Bros., general store, have assigned. The assignce places the assets at \$6,400, and liabilities at \$4,400. The failure was due to impossibility of collections, and too much crediting on a limitde cash capital. The firm is composed of Wm. N. and John H. Trimble, who began in the spring of '99. A sale was made last summer but the deal was not consummated.

-The stock, fixtures, book debts, etc., of the insolvent firm of Glover & Brais, Montreal, were disposed of by auction on the 27th ult. The wholesale stock, valued at \$71,-000, was sold at 67 cents in the dollar. Stock and fixtures of the retail store, value, \$21,000, were sold at 47 cents in the dollar. Book debts and bills receivable, amounting to \$34,000, brought 58% cents in the dollar.

-At Cranbrook, B.C., the general store firm of Maggs & Hughes, has assigned. The business was started March, '99, the former being previously with the Hudson Bay Company.

Produced by Fermenting Worts, and at Present Wasted.

bacon.

THERE IS A VERY LARGE AND RAPIDLY GROWING DEMAND FOR THIS GAS AT REMUNERATIVE PRICES.

The new Railway Regulations as to the carriage of Liquid Carbonic Acid Gas are now so stringent, and the cost of carriage so great, that any Brewers or Distillers adopting the Company's Process in a provincial town would practically have a monopoly in the district served by them.

FULL PARTICULARS AS TO PLANT AND METHOD OF WORKING PATENT SYSTEM MAY BE OBTAINED FROM

The Brewers' and Distillers' Co<sup>2</sup> Co., Ld., 16 VICTORIA STREET, LONDON, ENGLAND. 

--The variable character of the retail trade seldom admits of a full life being uninterruptedly devoted to its pursuits. At Brantford, Ont., on the 25th ult., ex-Ald. J. P. Excell passed away after being 50 years in business. He was well-known and highly respected.

-Work on the various new enterprises at Sault Ste. Marie, Ont., is progressing rapidly. In common with the drawback encountered by many firms in the past year the delay in obtaining structural iron was accountable for much loss of time, but this has been overcome. A visitor from the "Soo," in Toronto, recently stated that the reduction works will be partly completed by June 1, when a portion of them at least will be immediately utilized in the smelling of copper and nickel. When completed this mill will handle one thousand tons of ore per day and employ 1,500 men. The railway enterprises of the company are progressing equally rapidly. Ten miles of the line conneeting the great Helen iron mine at Michipicoten with the C.P.R. at Missanabie are now completed, while the whole forty miles will be finished by April 1. The company has also commenced the construction of the Algoma Central Railway from the Sault to Missanibe, where 700 men are now at work. This number will be increased by 2,000 by April 1. It is stated there is some difficulty in getting workmen. The Ontario Government will be asked to cooperate in obtaining immigration for the purpose of getting workmen and settlers for the Algoma district. Special efforts will be made to obtain settlers from the British Isles, as English-speaking men are preferred. Men are needed now in the construction work, and will be needed later in the mills, but in addition to that farmers are wanted. At present hundreds of carloads of farmers' produce are imported into the district annually for consumption as When the population is increased by many thoufood. sands of artisans, as it will soon be, the need will be much greater, and any settlers who go on lands there will be assured of a good price for all products.

Our Oak Leather is Tanned and Curried in the good old way and made into Belting, with the accumulative experience of 43 years. "Extra" Brand.

-The following companies have received Ontario charters:-E. L. Sawyer & Co., with a share capital of \$10,000; the John Campbell Flour Mills Company, St. Thomas, with a share capital of \$100,000; the Powell Granite Company, Toronto, with a share capital of \$20,000; the Canada Woollen Mills, Toronto, with a share capital of \$2,000,000; the Carbolite Company, Hamilton, with a share capital of \$1,-000,000.

-Grand Trunk Railway System-Earnings 15th to 21st February, 1900, \$425,617; 1899, \$371,599; increase, \$54,018. Chicago and Grand Trunk earnings omitted.

-The Bank of British North America is now offering to draw drafts payable in South Africa.

No Dead Stock, oily threads nor miserable yellow fillings of short staple. Not even in lowest grades. Three grades—Three prices and far the best for the price.

# S. E. Breakspear, Manufacturing Jeweller AND Silversmith, 38 St. John's Lane, - - CLERKENWELL,

-The Union Bank of Halifax made \$65,002 net profits last year, being 13.18 per cent. on the paid-up capital.

LONDON, E.C., ENGLAND.

-The new mode of procedure now being introduced by the U-S -authorities in the government of the Philippines, or the subjugation of its rebellious inhabitants, will be watched with some little interest by those who question its wisdom at the present stage of the game. From information received at Washington from Manila, at the end of the present expedition into the two provinces at the extreme southern part of the Island of Luzon, military operations in the Philippines will close. Afterwards there is nothing to do but to undertake to maintain order through a police system. It is said that attention is now being given to that subject, and steps are being taken to form a thoroughly mobile, lightly-armed gendarmeric, something on the order of the Canadian Mounted Police, to cover the islands at all points, and conserve the energies of regular troops.

H. J. COOPER & Co., Ltd., 22 & 23, Thavies Inn., Holborn Oirona, LONDON, E. C., Eng.

-A Calcutta dispatch states that for the first time on record a Viceroy of India, Lord Curzon, is about to visit Assam, India's great tea garden. His object, it is understood, is to examine into the needs of the province regarding the tea industry. 'The projected visit greatly pleases the inhabitants, and it is hoped it will add new life to the tea industry.

-The paper makers are endeavouring to form a combine, which would increase the cost of paper. With the price of paper considerably under two cents per pound in the United States, there may be some doubt as to the success of the endeavour. Some American papers have contracts running at \$1.37½ to \$1.40 per 100 pounds.

-A settlement at 35 cents in the dollar, cash, has been secured by E. Durand, fruits, Quebec, previously referred to.

-At Cornwall, Ont., Massey Bros., grocers, are in finaneial trouble, a very small affair.

——In 1899 there were 739,153 gallons of Australian wines imported into England, against 717,591 in 1898. We do not hear of increased imports of Canadian wines.

660

-The D. Black Carriage Company, Brantford, Ont., is offering to compromise. D. Black, supposed to be the sole owner, was formerly with the Cortland Carriage Co.

- Au Grand Bazaar, dry goods, Quebec, already noted, is now seeking a settlement at 50 cents in the dollar, payable in 3, 6, 9 and 10 months, secured. Liabilities are \$17,000 and assets \$15,000.

-The assignce has possession of the general store of Daniel Nickerson (jr.), Cape Island, N.S. He had been in the freighting and trading business for many years, but sold his vessels and began in the present line a few years ago, with little capital.-J. Jippaway, trader, Montreal, has filed consent to assign.

-The boukhobors, whose recent settlement in the North-West was viewed from some quarters as not the most desirable, are becoming recognized as possessing many qualities which go to make good citizens. A prominent Manitoba contractor, speaking of these people, referred to them as thrifty, frugal, honest, ambitious to learn and capable of mastering the English language in one year. -At a recent convention of Quebec fruit growers at Granby, the following officers were chosen: Hon. president, Hon. S. A. Fisher; hon. first vice-president, Mr. A. Dupuis; hon. second vice-president, Mr. C. P. Newman; president, Dr. Wood, St. Johns; vice-president, Mr. N. E. Jack, Chateauguay; directors, No. 1 district, Mr. W. M. Patterson; No. 2 district, Mr. J. M. Fisk; No. 3 district, Mr. J. N. Carter; No. 4 district, Mr. G. Verreau; No. 5 district, Mr. J. C. Chapais; No. 6 district, Mr. R. Hamilton; No. 7 district, Mr. Tremblay; No. 8 district, Mr. R. W. Shepherd; No. 9 district, Mr. R. Brodie.

-A Belleville, Ont., dispatch states that at a recent meeting of the committee of the Eastern Butter and Cheese Association the following inspectors were appointed: Hugh Howie, Belleville, and Tweed district; T. B. Lowery, Madoa, Stirling, Campbellford and Brighton districts; George Bensley, Napanee and Kingston districts; R. W. Ward, Peterboro and Victoria counties.

---A project is under way to utilise a large tract of waste land lying north of Orillia, Ont., unsuitable for cultivation, by making the roads leading thereto of a passable characand using the district for pasture. Government aid is being sought in the matter.

### BEET SUGAR INDUSTRY.

The encouragement given the proposed new beet sugar industry in Canada as referred to in a recent issue has been productive of benefit in so far as getting the matter into more practical shape. A number of those interested in the industry at a recent meeting in Toronto elected the following officers: President, John Parry, Dunnville, Ont., First Vice-President, Dr. McLaughlin, ex-M.P.P., Bowmanville; Second Vice-President, V. B. Freeman, Wiarton; Third Vice-President, A. Filshie, Mount Forest; Fourth Vice-President, W. S. Caron, Aylmer; Secretary-Treasurer D. H. Price, Aylmer; Excutive Committee, the above officers and Mayor Smith, of Chatham, Hugh Blain, Toronto; E. R. Blow, Whitby; Mayor Ramsay, Dunnville; Mayor McCallum, Welland; George E. Bristol, Hamilton; Harvey C. Kennedy, Wiarton; John A. Auld, M.P.P., Amherstburg; D. W. Stewart, Mount Forest; E. W. Rathbun, Deseronto. A deputation of over 100 from the convention waited upon the Cabinet and asked for the granting of a bounty of one cent a pound for five years, on all beet sugar made in the Province. All the members of the Cabinet were present, as well as a large number of the members of the Legislature. The deputation was introduced by Mayor Parry of Dunnville, while in addition arguments were given by Mr. McMullen of Watertown, N.Y.; Dr. McLaughEn, Bowmanville; Mr. Hugh Blain, Toronto; Mr. W. S. Caron, Aylmer; Mayor Smith, of Chatham, Mr. Freeman of Wiarton, and others.

The speakers represented that a graduated bounty beginning at one cent a pound was necessary for a period of five years, to give the industry a start, as for some time after beginning it would be necessary to spend considerable money in educating the farmers on beet culture. Wiley, chemist in the U.S. Department of Agriculture, was quoted as saying that Canada, and not the United States, was the centre of the beet sugar belt of the continent. In answer to a question by the Premier, Mr. Blain stated he thought the price of sugar in Outario would be lowered to the consumers if the beet sugar industry were encouraged here. The advantages of the by-product of pulp as a cattle food were also emphasized. The Premier promised to con-The meeting in the morning passed the sider the matter. following resolution: "This convention is of the opinion that the Provincial Government should grant a bounty for the encouragement of the beet sugar industry."

### OF INTEREST TO FRUIT-GROWERS.

-An amendment to the San Jose scale act, of great importance to the fruit growers of Ontario, has been prepared and will shortly be introduced by the Minister of Agricul-Under the provisions of the act at present the only method of ridding the country of the pest is by destroying the trees. The change proposed will be the treatment of the scale by chemical process, a method which has been persistently urged on the Government during the last year. particularly by the fruit-growers of the Niagara district. The growers have found the destruction of the trees a great loss to them, and in view of the opinion which exists in many well-informed quarters that the chemical treatment will check, if not eventually kill, the scale, it has been deemed advisable to insert this provision in the act. The intention is to have the treatment done under Government supervision, and in view of the tendency of the scale to spread, provision will be made for compulsory treatment or otherwise destruction without compensation.

-M. McKenzie & Co., dry goods, Wyoming, Ont., have assigned. Mrs. M. McKenzie is understood as sole owner, the husband managing. He was unsuccessful in business and afterwards managed the Wyoming Co-operative Association, which did not prove successful, and in August, '99, his wife bought the stock.

-An offer to compromise at 60 cts. in the dollar, is made by D. M. Walker & Co., dry goods, St. Catharines, Ont., whose assignment was recently referred to.

-An offer of 40 cents in the dollar is referred to the creditors of P. Bedard, hardware, Quebec, lie began in May, '98, with little capital.

### FRIDAY, MARCH 2ND, 1900.

### DEPARTMENTAL STORE DECISION.

The Supreme Court of Missouri U.S., has decided in favour of departmental stores in an action taken in the summer of '99 with a view to making such stores pay heavy licenses. This will, in all probability, end the discussion of imposing restraints on departmental stores in the United States for the present. The following view was taken by the Court: "If the selling of the different articles enumerated in any one of the groups designated by the act is innocent and harmless when pursued separately as a business, how does it become harmful and dangerous merely because the articles in two or more, classes or groups designated in the act become united for sale under one unit of management?

"If the terms life liberty, and property, as used in the constitution, are 'representative terms, and cover every right to which a member of the body politic is entitled under the law,' and that within this comprehensive scope are embraced the right to buy and sell as others may; and to pursue such honest calling, vocation, or business as the citizen may choose, subject only to such restraints on the imposition of such burdens as may be required or imposed for the general good, and, if 'due process of law,' is to be defined as 'the law of the land,' designed to protect and preserve the rights of the citizen against arbitrary legislation, as well as against arbitrary executive or judicial action, then 'due process of law' is denied when any particular person of a class or of the community is singled out for the imposition of burdenss not imposed upon and to be borne by all of the class, or of the community at large, unless the imposition, or restraint, be based upon existing distinctions that differentiate the particular individuals or the class to be affected, from the body of the community and this question as to whether the persons thus designated constitute a natural or a reasonable class depends upon facts which the court passing upon the validity or invalidity of the legislation must determine upon.

Unexcelled Cuisine.

Roberts and Kitchener had perfect confidence in their having put the Boer army where escape was impossible, and where reinforcements could not reach without also being entrapped. To attack men in so hopeless a position seemed more like a battue than war. As General Cronje, with characteristic contempt for human life, not only refused to surrender, but kept up a vain but dangerous fire at his captors, General Roberts had no option but to return the fire in order to compel his captive to lay down his arms. At day-break on Majuba Hill Day, which for 19 years was the Boers' annual Thanksgiving Day, a force made up of British regulars and Canadians secured a position close to the Boer line. This proved the crisis, as, on their appearance the Boer General sent a message into the British camp announcing his surrender without conditions. The usual formalities at once followed, the sword of General Cronje was handed to Lord Roberts, and the British flag floated over a camp occupied by some 4,000 disarmed and disheartened Boers. This victory adds another feather to each of the already richly-adorned caps of Generals Roberts and Kitchener. It sets a large army free to co-operate with the forces under General Buller, by whose combined action Ladysmith is certain to be relieved. The result of this will be, the addition of a further 10,000 or 12,000 men to the British army in Natal. Whether General Joubert will make a stand against so powerful a combination has yet to be seen. But, from present appearances, he will either have to fight or surrender, but most likely, he will have to take each course in succession. The bravery shown by Canadian troops in this war have won the highest encomiums of the Generals in command. Lord Roherts speaks in one message of their "conspicuous gallantry." In the British House of Commons, and in the House of Lords, the allusion to Canadians in the message read elicited loud cheers. In all the chief cities

of Great Britain there have been public demonstrations of pride in Canadian loyalty, and most enthusiastic tributes paid to the courage of Canadian soldiers. Every British home "gentle and simple," palace and cot, has rung with praises of this Dominion and its gallant sons. Leading journals are calling for some Imperial monument of unrivalled magnificence being erected in honour of Canada, Australia and New Zealand, whose help of the Empire in time of need is declared to have done more to consolidate the British Empire than all the actions of statesmen ever accomplished or could ever hope to John Bull, with all his faults, is not "An abachieve. sent-minded beggar." The best he has will not be too good for Canadians.

In view of the opinion having been expressed by some that the war will create an ineradicable feud between British and Dutch, it is well to remember that about two centuries ago a Dutch army marched through the south of England, entered London, and helped in putting a Dutchman on the British throne. Their descendants have become Britons in the fullest sense. On the streets of this eity also there are eminent citizens who remember their Dutch ancestry with pride, than whom the Queen has no more loyal subjects. England will lift the Boers to her own high plane of civilization, then, in good time, will transform them into ardent friends of the British Empire.

Since writing above the news has arrived of Ladysmith having been relieved. General Buller is admitted by German, French and other European critics of pro-Boer sympathies, to have had one of the hardest tasks ever undertaken by a military force. His triumph is thrilling the whole Empire with joy. Its moral effect will be incalculably favourable to the prestige of British arms. "Lord Buller of Ladysmith," is the title we predict he will soon wear and honour.

### THE TELEPHONE SERVICE.

We fear the telephone is responsible for some measure of the impatience characteristic of the age. We have become so accustomed to calling each other up without notice by a ring and Hello ! that we expect the whole world to be standing ready at a 'phone, receiver in hand, waiting to answer whatever we have to ask, or to say. While the person called is occupied in passing from his office chair to the instrument we are apt to become irritated at so long an interval passing before hearing his salule in response. That any mortal should dare to be occupied when we call his attention, is almost an af-It is well for Job's reputation that he had no front. telephone to worry him; had he possessed one, there would have been no such proverb, as, "patient as Job." The stream of nervous impatience poured into a 'phone mouth-piece has all to be received by the young girls of the Central office. The coolness they maintain while being incessantly "stormed at by shot and shell" messages, shows them to be models of discipline. Were they to display an equal degree of impatient irritation to that which is manifest in many of the calls they answer, the wires would melt with fervent heat. They, however, carry on their duties with most commendable assiduity, quickness and courtesy. Users of the telephone service would do well to recognise the admirable manner in which the Hello girl does her trying work. To have acquired such proficiency, combined with such patient readiness to meet the wishes of subscribers, speaks well also for the managing officials of the company, by whom the staff has been trained in celerity and courtesy. To the efficiency of the service is doubtless due the high value and character of the Bell Telephone shares; and when, at the close of the annual meeting, Mr. Sise, the President, was heard to remark (sotto voce) that he had "waited twenty years for that compliment," he must have had in his mind the proneness of shareholders to find fault, and their slowness to bestow a little deserved praise.

At the recent annual meeting, Mr. W. H. Evans, a shareholder and subscriber, paid a high tribute to the service generally, based upon his observations in various parts of the country. As he was in the British Telegraph service as an Electrician and holds a prize presented from the Queen through Lord Derby, for "Proficiency in Magnetism and Electricity," and is in the service of a corporation who use the telephone system largely in this eity, and Toronto, his testimony is valuable. It coincides with the general experience of subscribers to the Bell Telephone Co.

In working such delicate scientific instruments, as are used in the telephone service, there must necessarily be occasional hitches in transmitting messages. Many of these arise from the general idea prevailing that, in speaking at the 'phone the actual voice of the speaker is heard. Hence so many shout at the 'phone as they fancy it requires a very loud tone to be heard at a distance. This is an error, as what is heard is not a human voice at all, but the mechanical vibration created by a voice at one point being duplicated by similar vibrations mechanically produced at another point. A shout is apt to create a buzzing noise, so also are words spoken too The messages heard most clearly are those rapidly. spoken slowly and distinctly in the ordinary tone of conversation with a person close at hand. The telephone is a very courteous intermediary between speakers, it objects to messages spoken with noise and irritation. If speakers would remember this there would be fewer complaints of indistinctness. We advise speakers through a 'phone to keep cool, to utter their words slowly and quietly. Subscribers would also aid in the accurate transmission of messages were they to bear in mind, that the Hello! girl is only anxious to carry out their wishes as rapidly and as accurately as possible.

### BRITISH AND AMERICAN TRADE METHODS.

Betwen the methods adopted severally by the British and the Americans to attract trade there is one marked distinction. When a Yankee sees any new article of foreign manufacture his first thought is how could that be made in the States so as to sell at a much lower price. When a Britisher sees any new article, his first thought is, how could it be improved in materials, workmanship, or design; consideration of price being quite a secondary The ideal of one is, cheapness, of the other, matter. quality. Both these features are attractive to trade. To the production of low-priced goods the United States and Germany each owe their manufacturing success. To the maintenance of high qualities in her manufactures Great Britain is largely indebted for her vast industries. - Amcrican and German manufacturers have realized more than their British rivals how enormous is the demand for low-priced goods.

There are numerous articles only intended for temporary service. To put good materials and costly workmanship into them is waste, just as it would be to use silk for wrapping up groceries. Things that perish rapidly in the using need only be equal to their temporary Recently we had need of an article to assist service. us in a task that occupied only a few hours. We found one of British make, for which \$1.25 was asked. Τt was perfect of its kind, it was made to last for years. One of American make was offered at 90 cents, quite inferior to the British, but amply good enough for our requirements. Now this article is in demand for short service, the Americans having caught on to this have put a cheap one in the market, the British have gone on making it strong enough to last in constant use for a life time, without providing a second quality for occasional, temporary use. This devotion to excellence of quality by British manufacturers has given a chance to their foreign competitors that has been utilized to the building up of a large trade. Had the old country makers being equally ready to cater for whatever tastes were so prevalent as to be creating a demand for cheaper classes of goods, they might have enlarged their output and checked the expansion of their foreign rivals' trade. Take, for instance, silver-plated wares, the Americans have adopted English patterns, but they meet the popular fancy for cheap, showy goods by turning them out with the slightest coating of silver, almost thin enough to be rubbed off with a finger, like the bloom on a peach. The demand for cheap silver-plated goods is so large and so continuous as to sustain extensive establishments. Why should not British makers cater for both markets, by making goods to meet the popular call for cheapness, as well as as those required by buyers who are willing to pay for a higher quality? They can do this with eminent success even heating the Germans at their own game, when they try. Goods are on sale in this city made in England by special request to cut out cheap German goods. Those

664

"made in Germany" are simply "not in it" compared with those made in England, so far as quality is concerned, and the English goods are cheaper, as well as far more serviceable. British manufacturers will find it to their advantage to recognize their being so general a demand for low-priced goods. Of their ability to supply these in successful competition with Germans or Americans, now British Goods have a rebate of 25 per cent. on Customs duties, we are perfectly confident. They may pity our tastes, but why should they decline cater to them, if thereby money can be made?

### BRITISH AMERICA ASSURANCE CO.

The 66th annual meeting of the above company was held at Toronto on 23rd ult. We have pleasure in directing attention to the annual report and statement Considering the which will be found on a later page. generally disastrous record of fire insurance business last year, we took up the report of the British America with misgivings, anticipating its being in line with that of so many other companies, This fear was dissipated by the first sentence in the Report, though it is admitted that, "the exceptionally layourable results shown by the Canadian business," were counteracted to some extent by "the unusually heavy fire losses that occurred in several of the larger cities in the United States." This gives another illustration of the wisdom of a fire insurance company extending its risks over a wide and varied field, as has been done with such success by the British America. Ths company is an especial favourite in the States where its stability, prompt and honourable settlements of losses are highly appreciated, as they are throughout Canada.

"The causes to which are attributable the appalling increase in fire lossses in the United States demand the closest investigaton by underwriters. The old notion that bad trade, or threatening trade prospects, is the main cause of enlarged fire losses, is evidently not supported by the experience of last two years. The United States never had so prosperous a year as 1899, nor ever so enormous a fire loss. A fire may be an accident now and again, but we do not believe in accidents, in the proper sense, occurring synchronously in all parts of one country. Fires caused by neglect of precautions, or carclessness, or recklessness, are not accidents, they are the inevitable, natural effects of known causes that ought to be removed.

The business of the British America last year, compared with 1898 stood as follows:

· · · · ·	1899.	1898.	Increase.
Total cash income	.\$1,622,250	\$1,472,307	\$149,943
Total expenditure			117,798

ment in results is the low loss ratio of this company, 48 per cent., as against 56 per cent. of all companies reporting to the Dominion Government. As the premium receipts last year were over one and a half million dollars, it can be readily seen how a small percentage loss on such a sum affects seriously the results of the year, one per cent. on that sum being \$15,000. The company reports steady and continued growth of Canadian business, as it well may, for its management is highly popular. Owing

to enlarging business a by-law was passed to increase the capital to \$1,000,000, by distributing shares in the ratio of 1 to 3 to the shareholders at a premium of 15 per cent. The marine business has been sufficiently satisfactory to justify its being continued. The President, the Huble. G. A. Cox intimated that the company proposed to establish husiness connections at points beyond the limits of Canada and the States where favourable openings presented themselves. The underwriting and executive abilities of Mr. J. J. Kenny, Vice-President, are recognized in all fire insurance circles as being exceptionally high. In Mr. P. H. Sims also, the company has a most efficient officer, and the staff in this city well represent this eminent Canadian company.

### NEW YORK LIFE INSURANCE CO.

The progress in Canada of this colossal company during the past year is shown by the following figures comparing its business and position at the close of 1899 with those of 1898:

	Dec. 31, '98.	Dec. 31, 99.	Increase.
Income in Canada	\$ 1,059,908	\$ 1,138,505	\$78,596

### THE HOME SAVINGS AND LOAN CO.

The above company's annual statement appears on another page of this issue. We invite attention to it as an exhibit of the strength achieved by sagacious management. The company a considerable time ago, saw the desirability of avoiding, as it were, putting all its eggs in one basket, or, placing all its resources in one class of loans. The opportunities for placing money on collaterals of stocks, bonds, and debentures are much more limited than are those for lending on mortgage securities. The field is indeed so limited and the competition of the banks so effective, that it would be unreasonable to expeet other loan companies to model their business on the It is plan adopted by the Home Savings and Loan Co. a tribute to the foresight of its management that it stepped in when the opportunity arose to secure a good share of the collateral loan business, and the shrewdness to recognize the strength given to a financial institution by having a large amount of assets readily convertible The profits from short time loans on stocks, into cash. bonds and securities of that class are not as large as on mortgages having several years to run, but, there are contingent risks associated with the latter business which not infrequently destroy all its profit and advantages. In the past year the Home Savings profits were, however, enough to provide two half-yearly dividends at 7 per cent. per annum, and leave \$9,000 to be added to Contingent Fund, and increase the amount at credit of Profit As the Reserve Fund and the Conand Loss by \$777. tingent Fund together exceed the paid-up capital by \$45,-000, there seems to be a probability of the dividend be-The loans on collaterals were increased ing increased. last year from \$1,264,950 in 1898, to \$1,501,089, the addition made being \$236,139. Towards this new business there was \$97,097 received from increased deposits. The development of business has induced the company to decide upon increasing the subscribed capital from \$2,000,-000 to \$2,500,000, on terms to be arranged by the direc-There was a decrease last year in amount of loans tors. on mortgages, by \$146,498, evidencing there being some difficulty in obtaining scentities of this class which are up to the high standard required. The Home Savings now holds immediately available assets amounting to \$1,-709,831, which sum is equal to close upon S0 per cent. of Such a position is one of very exceptional its deposits. We note that the sum of \$500 was voted by strength. the shareholders towards the Canadian Patriotic Fund Association, also that the salary of Mr. James C. Mason, assistant accountant who joined the Canadian Contingent for service in South Africa, "be continued until his return." The manager, Mr. James Mason, did good service in the North West rebellion, at a considerable sacrifice to his bodily comfort, but with added distinction to his honour as a loyal Canadian. His son will, we trust, bring home even higher honour to himself and country. We deeply regret the absence from the meeting of the President, Sir Frank Smith, than whom Canada has no more estimable son, nor one more universally beloved by all classes.

### THE JANUARY BANK STATEMENT.

Owing to its late arrival last week we had to leave out of our last issue the complete bank statement for January, which will be found on a later page, Our annual volumes for many years past are unique in naving the official monthly bank returns in full, which renders them of especial value to all banks, financial institutions, public libraries, and all who take an interest in the banking records of this Dominion.

### WASTING INSOLVENTS' ASSETS.

We have before us a copy of the "First and Final Dividend Sheet" of the Montreal Novelty Co., Louiseville, insolvent, to which a correspondent draws attention. It is a document those should study who obstruct the passage of an Act for the equitable distribution of insolvent estates. The statement in a condensed form is as follows:

Receipts.

Sale of Stock and Fixtures, at Louiseville	1,690.36
Sale of goods by auction, net	223.08
Collections	1.64
Sale of rent to 30th April, 1900	50.00

### Disbursements.

\$1,965.08

Costs of stock-taking and delivery	\$163.25
Legal expenses and deed	
Travelling expenses	
Insurance on slock	3.65
Advertisements and notices	74.08
G. L. L. D. Caron, guardianship	21.00
Auctioneer's fees	25.00

	•	
Curator's		230.99
Total disbursemen	uts	\$1.177.28
	itors	
		••••
		\$1,965.05
• · •	ileged \$190.00	

Ordinary creditors, \$13,284.26, at 4½ cents in the dollar ..... 597.80

-\$ 787.80

Before one cent of the assets of the above estate was available for the creditors, to whom they equitably belonged, there was 59 cents on the dollar spent on legal proceedings, no less than 88.10 being paid as "costs of appointing curators," and "\$110.15, costs of examining the msolvent!" The estate was in a bad enough condition under the best of winding-up arrangements, but, as our correspondent's letter says, it was outrageous that two-thirds of the value of the estate should be spent before the creditors had a chance to get a cent. A wisely framed Insolvency Act would have enabled the above estate to be wound up at one-third of the cost.

It is one of the most senseless of notions to suppose that trade can be carried on without credit being extended by merchants to customers. Had such an idea prevailed in early times this country would have remained undeveloped, as indeed would have every now civilized country. Credit, for trade purposes, is equivalent to capital. Indeed where there is no credit there is no capital, for the forces which necessitate and develop credit are essential to the safe and profitable employment of capital, the two are as intimately correlated as a dynamo and electric power.

To object to a wise Insolvency Act because it might tend to develop the credit system is analogous to objecting to the growth of food products because of the dangers of gluttony. The most effectual restraint upon what evils arise from the mis-use of credit would be a good Insolvency Act, by which dishonest traders would be kept in fear of the law, and their assets would be expeditiously, equitably and economically distributed among the creditors. Where no Insolvency Act is in force, credit is grossly abused, it is secured by the grossest frauds, and honest merchants are exposed to the untrammelled and unpunishable depredations of a class of men who use credit for the same purposes as are the tools of a burglar.

### BICYCLE CONDITIONS AND, PROSPECTS.

In the "Contemporary Review" for January is an article on the condition and prospects of the bicycle industry. The opening sentence is, "We who are about to die, salute you," a phrase, as our readers know, used by the doomed in the Coliseum, in the days when men fought with beasts, human and otherwise, to make sport for a Roman holiday crowd. The writer is well known in the bicycle world as an authority on all that pertains to that machine. He appears to have become satiated with the enjoyments derivable from a bike, and is now looking forward to the joys of a new sensation. His views are, however, worth considering by makers and riders of bicycles.

He denounces racing as having developed a standard style of bike which he condemns with unmeasured severity. An eminent member of the Cycle Engineers' Institute said at one of its recent meetings, "The incing cycle has been and is the curse of the trade." Racing certainly has been productive of strong prejudices against the use of bikes, owing to the frequency of accidents caused to riders and pedestrians. It has done harm also by a type of machine having become the standard in which comfort to the user, safety and wearing qualities are sacrificed to ensure mere speed. A bicycle indeed, in the minds of a large number of those who own one, is a machine for transporting a person from nowhere in particular to some other indefinite point in the shortest possible time. In the judgment of cycle engineers there has not been the slightest practical improvement made in bikes by those who have devoted their skill to perfecting them as racing machines, while they have sacrificed features more permanently attractive and valu-What has been done is much as though those able. who breed horses for the saddle, had taken up the business of furnishing race horses instead of good steady roadsters, adapted for riding with comfort and safety and with all the speed required for practical purposes. No sane man gallops at full speed through streets, as is done by bikers in this city.

The writer is especially severe in condemning the free wheel, which he regards as, "an absurdity, being dangerous, complicated, useless, and nothing more than an obsolete fad." As he has ridden wheels of almost every make, in tours extending all over Europe, as well as throughout the United Kingdom, his judgment carries He also condemns the general exceptional weight. adoption of a standard pattern for bikes. This, he compares to there being a standard pattern for clothes, regardless of men's sizes and variations in figure. Every rider ought, he says, to be measured for his bike and have it fitted to suit. This, we suppose, would create a bicycle industry akin to that of the "semi-ready" clothing stores. We doubt the feasibility of this arrangement. A more natural analogy is that between sizes of horses Every man who rides horseback, as far as and bikes, possible, secures a steed and saddle best adapted to his weight and form, the variations, however, are limited to a few standard sizes. If we are not mistaken this obtains also with bikes, as certainly there are several patterns of both wheels and saddles, and adjustments can be made to suit the convenience of different classes of riders. But the writer is justified in condemning the tendency to cater so exclusively to the tastes of those who wish to use a bike for racing. This is a morbid fancy that must prove ephemeral and while it lasts be prejudicial to the bicycle industry. Bicycle racing has already sacrificed scores of lives, lamed hundreds of victims, led numbers to abandon their wheels, and deterred thousands from adopting them.

We do not share the writer's views as to the bike being "about to die," by being displaced by self-propelled wheels, or motor bikes. There is no sign whatever of any such change being at hand. Such machines would cost so much more than an ordinary wheel as to be restricted to a very limited number of users. The bike is here to stay, but, it wil have to be more generally valued for its utility and less as a racing machine, if it is to retain and increase its popularity. The "roadster" bike, easy to ride, comfortable in the saddle, not readily put out of order, more substantially constructed, and less liable to the freaks of fashion, will be the machine of the future. For bicycles of this class, moderate in price,

the demand will long be sufficient to maintain an extensive trade.

### THE PROPOSAL TO DAM THE NIAGARA RIVER.

Following the fear that the Chicago drainage canal will have the effect of lowering the surface of all the great lakes below Lake Superior to the injury of the trade of all cities bordering on them, comes a proposed remedy from parties interested in the spending of public money. The idea originated in Washington, it is only-and simply-to make a dam across the Niagara river somewhere above the Falls and below Lake Erie. There can be no doubt that the Chicago drainage canal will have an appreciable effect in drawing off much of the water that heretofore has passed down the St. Lawrence; to what extent it will be felt remains to be proven. No doubt a dam above the Falls would keep the water of all the lakes above it at the present levels. That, however, would be at the expense of Lake Untario and all the St. Lawrence river down to Quebec.

From natural causes the volume of water coming from the great lakes has been less of late years than formerly and no artificial construction that would still further lessen it could possibly be tolerated on both sides of the international waters below the Falls. Such a dam as that proposed could not fail to be injurious. 11 the dam is made high enough, after it is completed, to raise the water to its present level, there would, for some years, in all probability, be no water passing over it, into Lake Untario below it. The idea cannot seriously be enter-If it could, fortunately, for all the interests tained. concerned, Canadian legislation would be required to give it effect. One half of the width of the waterway where it is proposed to make the dam is within the jurisdiction of this Dominion. No government or parliament of this country is ever likely to give authority for such a work to be done. Canada has too much money invested in our canal system to jeopardize it by allowing the natural supply of water to be diverted or tampered with, within our own limits.

It is not at all likely that the scheme will ever get beyond newspaper articles and will soon-like many other visionary projects—be consigned to oblivion. It is only a few years ago that a lively newspaper discussion was going on about a dam across the Straits of Belle Isle. That scheme was intended to prevent the flow of the ice and cold water from the Arctic regions into the Gulf of St. Lawrence, and so change the climate of Eastern Canada most beneficially. The proposal never had the slightest chance of being carried into effect; it ended in newspaper discussion. The project was a harmless one, the same, however, cannot be said of the one now proposed. Compared with its proposed predecessor at the Straits of Belle Isle, it is only a small affair, but if carried out it would be injurious to Canadian interests. After the discussion has run its course the proposed scheme will probably follow in the wake of the other big dam and be forgotten.

### FRAUDULENT INSOLVENTS.

Our attention has been drawn to two highly scandalous cases of fraudulent insolvencies. They go to show the crying need of an Act under which a check would be put upon proceedings of that character, and punishment inflicted upon those who dely the law. About three months ago, a change was made in the partnership of a eity firm. At the time of the change is was announced that the firm had a surplus. When a new partner enters a firm there is a presumption that, at least, the business is solvent, as men do not usually go aboard a ship that is known to be sinking. At a meeting of creditors held last week the estate was declared unable to pay a divi-The old books were found to have been dedend. stroyed and a new set written up, some of the entries in which were incapable of explanation. Where the surplus had gone, and with it assets equal to the whole of the liabilities existing when it was declared to exist, was also a mystery not cleared up to the creditors. How a surplus, which was said to exist in December, could have been converted into a much larger deficit in February, will probably never be explained. If, nowever, we had a good Insolvency Act, the matter would be probed to the core, and in default of a satisfactory explanation the traders involved would find themselves prohibited from engaging in business, and probably be placed where business is not transacted.

Another case was that of an eastern merchant who, about a year ago, declared that his affairs showed a very handsome surplus, more, indeed, than were his total liabilities. Tast week this prosperous and well to do trader of a year ago endeavoured to buy goods in this city. A few days afterwards he became insolvent and offered his creditors about one-third of their claims in settlement. Here again a surplus had vanished and given place to a deficit, in regard to the cause of which change, no satisfactory explanations were offered. Had the insolvent succeeded in his effort to secure goods that shortage would have been correspondingly increased. Both the above cases ought to be judicially investigated. It can hardly be doubled that in each of them such a crime was committed, as, in the interests of trade, calls for exposure and punishment.

### HATS.

The average man is more particular in buying a hat than in buying a suit of clothes. He knows the suit will fit him, if his tailor is correct, but a fit, while extremely necessary in a hat, is not all the buyer is looking for. This being the case a fraction of an inch difference in the leaf or crown makes the hat either desirable or unbecoming to the wearer; so much so that in the case of the latter, not only is the head ill-dressed, but its crowning influence reaches to the shoes, and absorbing, to more or less extent, the mind of the wearer, it influences the man, his business and his friends.

The styles of soft hats for the coming season are but little changed compared with last year. Perhaps they may be said to be a little smarter. The tendency of the round crown to the stiff hat is to a lower make, returning to the style of some five years ago. Importers are experiencing an active demand for spring and summer goods. The manufacturers who accepted orders at the values of November and December last are finding fluch difficulty in completing such without a loss owing to the continued advance of raw material. In most cases they disposed of their stocks, which were bought low; at the market rate, and when these are exhausted, are obliged to ask the current advance. Under these circumstances

buyers will be compelled to pay fifteen to twenty per cent. advance on all fur, wool and straw hats of fresh manufacture. While the turn over in quantity has not shown thus far a large increase the quality price makes a material difference.

In regard to furs, the advance is all along the line, and is very heavy, especially in fine goods. As a result dealers will require to pay a large advance on next season's requirements.

### NEW YORK'S RAPID TRANSIT PROBLEM.

For over quarter of a century the city of New York has been endeavouring to solve the problem of how to secure more rapid transit for its population, which, from the peculiar topography of the city, can only extend in one direction, that is northward. Surface street railways were hopelessly insufficient from the beginning. The elevated railways were established with the expecta tion of their becoming a satisfactory solution of the important problem. In a measure these elevated railways were a success in relieving the pressure of travel at certain hours of the day. The unsightliness of these constructions and the many inconveniences attending their location on principal thoroughfares, have caused them to be looked upon with such general disfavour that the citizens looked forward for some other form of relief.

Some twelve years ago the idea was started to construct an underground railway from the Battery, at the extreme lower end of the city to the Harlem river. The project seemed surrounded with difficulties. The idea, however, was popular, and an attempt to commence it made, but under such crude management that the scheme failed. The seed, however, had been sown and a Rapid Transit Commission, independent of municipal control in its management, was appointed by the State Legislature. After a long struggle against powerful adverse influences a contract has been awarded for the rapid transit underground tunnel from the City Hall to Spuyter Duyvil, which is nearly thirteen miles from the centre of the city, besides branches to the various districts on the East river side.

The tunnel will be large enough to permit the running on four lines of tracks and afford space for gas pipes, telegraph, telephone, and other tubes for wires, from the privilege to use which the city will derive a revenue. The contractor, Mr. J. B. McDonald, is to receive \$35,000,000 corporation bonds, having fifty years to run, as the work progresses. But, under the terms of the contract, he has to provide interest for them, and a sinking fund of an annual amount that, at the end of fifty years, when the city's bonds fall due, will cover them, after which term the whole property and system in connection with this rapid transit system will fall to the ownership of the city of New York.

The guarantees given by the contractor to ensure the fulfilment of what he has undertaken, appear ample to secure the end aimed at. He has strong men behind him. When the contract was signed on Saturday last he deposited an accepted cheque for \$1,000,000 as security for the completion of the road within the stipulated time of flive years. This cheque was accompanied by bonds to the amount of \$6,000,000, given by several guarantee companies. These securities are intended to guarantee that, 1st, all the conditions shall be complied with ensuring the payment of the sinking fund which is to provide for the payment of the \$35,000,000 city bonds with the interest upon them, and 2nd, the running of the road under the regulations stipulated in the contract, and 3rd, that at the end of fifty years the whole work will be delivered over to the city free and clear of all incumbrances and in working order.

This is an immense municipal undertaking which if successful, as it is most likely to be, will be remarkable from the fact that the problem of rapid transit in that great city will have been solved without any cost to the citizens, who, at the end of the fifty years, will be the owners of the whole property. The commissioners for this work, who were appointed by the State Legislature, independent of municipal control, appear to have made an excellent and judicious arrangement. That it will be carried out there can scarcely be any doubt. The contractor has the backing of strong and astute financial men who must have seen their way clear to make a substantial profit out of such an extended contract before advancing, and becoming responsible for so many mil-The work is to be commenced within lions of dollars. thirty days after the signing of the contract and as it is clearly to the interest of the contractor and his supporters to push on the work, in order to get revenue, it will doubtless be completed within the stipulated time.

The intention is to extend the tunnel from the City Hall and pass under the East river to Brooklyn so as to bring the whole of Long Island into connection with the system of rapid transit. That will surely follow unless rival interests have sufficient influence with the city aldermen, who will have a say in the matter, which may retard, if not prevent, so reasonable an extension of facilities for the movements of the vast population of the great city of New York.

Meetings, Reports, &c.

### BRITISH AMERICA ASSURANCE COMPANY.

The sixty-sixth annual meeting of the Shareholders of this Company was held at its offices in Toronto, at noon on Friday, the 23rd February.

The President, Hon. Geo. A. Cox, occupied the chair, and Mr. P. H. Sims, who was appointed to act as Secretary, read the following

### ANNUAL REPORT.

The Directors have pleasure in presenting the sixty-sixth Annual Report, embracing the financial statements of the Company to the 31st December, 1899.

There has been a satisfactory growth in the premium income for the year in both the fire and marine branches. The Canadian fire business has shown exceptionally favorable results, and there has been a moderate profit on the marine business written during the year. In the United States, however, this company has, in common with all others doing business there, suffered from the unusually heavy fire losses that have occurred in several of the larger cities.

The net profit on the year's transactions (\$62,038.89) has been sufficient to pay the usual half-yearly dividends at the rate of 7 per cent. per annum, and, after writing off an amount to cover depreciation in office furniture and securities, to provide for an addition of nearly \$7,000 to the Reserve Fund, which now amounts to \$577,687.04. The reserve to cover the estimated liability on unexpired policies has been increased to meet the additional amount at risk, and is more than an ample provision, according to the Company's experiences, to meet losses that will accrue upon policies in force at the end of the year.

In view of the increased business of the Company and the contemplated enlargement of its field of operations, the Di-

rectors deem the present an opportune time to increase the capital stock, as contemplated in its act of incorporation, to \$1,000,000. A by-law will be submitted to the meeting to authorize the issue of \$250,000 additional stock, to be allotted pro rata to present shareholders at a premium of 15 per cent.

### SUMMARY OF FINANCIAL STATEMENT.

Surplus to policyholders	_	

The President, in moving the adoption of the report, said

that it was gratifying to be able to refer to the satisfactory growth during the year in the income of the Company, which, after deducting amounts paid for reinsurance, showed net premium receipts of upwards of one and a half million dollars. The most encouraging features in connection with the past year's transactions were the steady and continued growth of the Canadian fire business, and the very moderate losses which have been sustained in the Dominion. While the general experience of companies doing business in this country had been favorable, owing to the fire losses having been considerably below the average of preceding years, the experience of this Company had been exceptionally so. From reports of the business in Canada that have been published, it appears that the average ratio of losses to premiums of all companies reporting to the Dominion Government had been 56 per cent. The British America was 48 per cent. In the United States on the other hand, the general experience, as well as that of this Company, had been much less satisfactory, the fire loss having been far in excess of those of average years, and the loss resulting from the Company's operations in that field had-materially reduced the total profit of the year. In the marine branch, he was pleased to say that the results of the past year had been such as to justify the action of the Directors in continuing the business of this department, notwithstanding the adverse experience of previous years, and so far as can be judged from the present outlook as to rates and general conditions of marine underwriting, the prospects for the present year appeared encouraging in this branch. The President also referred to the establishment of business connections at points beyond the limits of Canada and the United States, where favorable openings might

present themselves. The Report was adopted, and a by-law was passed providing for an incrase of capital stock of the Company to one million dollars, by the allotment of two hundred and fifty thousand dollars new stock to shareholders in the proportion of one share to every three shares held by them.

The following gentlemen were re-elected to serve as Directors for the ensuing year: Hon. Geo. A. Cox, J. J. Kenny, Hon. S. C. Wood, Thomas Long, John Hoskin, Q.C., IJ.D., II. M. Pellatt, R. Jaffray, A. Myers, and E. W. Cox.

At a meeting of the Board held subsequently Mr. Geo. A. Cox was re-elected President and Mr. J. J. Kenny Vice-President.

### THE HOME SAVINGS AND LOAN COMPANY, LIMITED.

The twenty-first Annual General Meeting of the Shareholders was held in the Company's Office, No. 78 Church Street, Toronto, on Thursday, February 15th, 1900, at 12 o'clock noon.

The Vice-President, Mr. Eugene O'Keefe, occupied the chair; and the Manager, Mr. James Mason, acted as Scoretary.

There was then produced and read the statement of the Manager, declaring upon oath that the requirements of Sec. 63, "The Loan Corporations' Act," being Revised Statutes of Ontario, 1897, chapter 205, as to notice, had been fully

То

complied with. The Minutes of the last Annual General Meeting, held 16th February, 1899, were, upon motion to that effect, taken as read, and were confirmed.

The Annual Report and Statement were then presented.

The Directors beg to submit the Twenty-first Annual Report, with accompanying Financial Statements, duly audited, showing the result of the Company's business for the year ended 31st December, 1899, and its position on that day.

The same difficulty in obtaining safe Mortgage Loans on City of Toronto property at paying rates, referred to in last year's Report, was experienced this year. Rates of interest obtainable on loans on collaterals ruled low during the earlier part of the year, but gradually improved.

After paying and providing for two half-yearly dividends, at the rate of seven per cent. per annum, and paying all expenses, including salaries, printing, advertising, auditors' fees and all commissions on loans, and providing for Directors' compensation, there remained a balance of \$10,482.82. Of this sum \$9,000 is added to the Contingent Account, and the remainder, \$1,482.82, placed at the credit of Profit and Loss Account.

The Reserve Fund stands at \$200,000, being equal to the Paid-up Capital, and the Contingent Account is \$45,000.

Deposits increased \$97,000. Loans on Collaterals increased \$236,000, and Mortgage Loans decreased \$142,000.

The Shareholders will be asked to consider and sanction a By-Law passed by the Directors for an increase of the Capital Stock of the Company from Two Million Dollars to Two Million Five Hundred Thousand Dollars. This new Stock to be issued from time to time should an increase in the business of the Company render such necessary.

All of which is respectfully submitted.

FRANK SMITH, President.

Toronto, February 1st, 1900.

> J. M. SULLIVAN, J. G. HALL,

> > Auditors.

To the President and Directors of The Home Savings and Loan Company, Limited.

Toronto, February 1st. 1900.

The adoption of the annual Report and Statement was moved by the Vice-President, seconded by Mr. John Foy, and carried.

Moved by Mr. C. C. Baines, seconded by Mr. John Hanrahan, "That the thanks of the Shareholders be and are hereby tendered to the President, Vice-President and Directors, for their careful attention to the affairs of the Company during the past year."-Carried.

Moved by Mr. J. J. Foy, seconded by Mr. Edward Stock, "That the thanks of the Shareholders are due and are hereby given to the Manager and other Officers of the Company for the efficient manner in which they performed their respective duties during the past year."-Carried.

Moved by Mr. John Foy, seconded by Mr. Edward Stock, "And resolved, that the By-law (No. 55), passed by the Directors of The Home Savings and Loan Company, Limited, on the Twenty-ninth day of January, A.D., 1900, to increase the Capital Stock of the Company from the sum of \$2,000,000 to the sum of \$2,500,000, by the issue of five thousand shares of new stock at \$100 each, be and the same is hereby sanetioned."-Carried unanimously.

### By-Law No. 55.

A By-law to increase the Capital Stock of The Home Savings and Loan Company, Limited. Whereas, the Capital Stock of The Home Savings and Loan Company, Limited, is two million dollars, divided into twenty thousand shares of one hundred dollars each, which has all been taken up and ten per centum thereon paid in, And, whereas, for the due carrying out of the objects of the Company, the said Company considers it requisite to make a by-law increasing the Capital Stock of the Company to two million five hundred thousand dollars. Now, therefore, The Home Savings and Loan Company, Limited, enacts as follows, that is to say: 1. That the Capital Stock of the said Company be and the same is hereby increased from the sum of two million dollars to the sum of two million and five hundred thousand dollars, by the issue of five thousand shares of new stock at one hundred dollars each. 2. That the said new shares be issued and allotted in such manner and proportion as the Directors of the Company may deem proper for the benefit of the Company. 3. That this By-law be submitted with all due despatch for the sanction of the shareholders of the Company at a general meeting thereof, to be called for considering the same.

Moved by Mr. John Hanrahan, seconded by Mr. C. C. Baines, "That the sum of \$500 be donated from the funds of the Company to the Canadian Patriotic Fund Association, and, "That the salary of Mr. James C. Mason, Assistant Accountant, now on service with the Royal Canadian Regiment in South Africa be continued until his return."-Carrieđ.

Moved by Mr. Edward Stock, seconded by Mr. C. C. Baines, "That Messrs. John M. Sullivan and John G. Hall be the auditors of the Company for the ensuing year; and that they each be paid the sum of \$450 for their serivces." Carried.

Moved by Mr. J. J. Foy, seconded by Mr. R. B. Street,

"That the poll be now opened for the election of Directors, and that the same be closed whenever five minutes shall have elapsed without a vote having been tendered; and that Messrs. C. C. Baines and Augustine Foy be the scrutineers to take the vote; and that they report the result to this meeting."—Carried. The election was then proceeded with, the result of the ballot being the election of the following: Ilon. Sir Frank Smith, and Messrs. Eugene O'Keefe, John Foy, Edward Stock, and John Ryan. On motion the chair was taken by Mr. John Foy, and a vote of thanks tendered the Vice-President for his conduct in the chair. The meeting then adjourned. At a meeting of the new Board, held immediately after the close of the above, Hon. Sir Frank Smith was re-elected President, and Mr. Eugene O'Keefe reelected Vice-President of the Company.

### Correspondence.

### WINDING-UP EXPENSES.

Editor "Journal of Commerce":

Dear Sir,—Do you not think it is about time we had an Insolvent Law in this country? We enclose herewith a statement of the affairs of the Montreal Novelty Co., sent us to-day by the curator. Is it not outrageous that two-thirds of the value of the estate should be spent before the creditors have a chance to get a cent?

We notice by this morning's "Gazette" that the Board of Trade are again asking the Government an Insolvency Bill, and we trust something definite will come from their appeal. Yours truly,

The Lang Manufacturing Co., H. H. LANG, President,

Montreal, 22nd February, 1900.

### ACKNOWLEDGMENTS.

We are favoured with the Auditor-General's Report for 1899, also with the same in 20 divisions, the hint we gave some time ago having been taken to issue this report in sec-The U.S. Commissioner of Labour has our thanks tions. for bound volume No. 1 of his interesting reports, which are admirable specimens of statistical work. Mr. F. A. Betts Insurance Commissioner of Connecticut, has obliged us with Parts 1 and 2 of his 33rd Annual Report. The New York Bankers' Magazine for February is up to the usual high standard of this publication. It contains an elaborate schedule showing the condition of the Trust companies of the State of New York, also articles on "Great Banks and their influence on the Money Market," "The Senate plan for refunding the Debt," and other financial topics of interest, with a full and well arranged mass of statistical details relating to monetary affairs. The monthly reports of the Department of Trade and Commerce come regularly.

### BE WISE IN TIME.

-The merchants doing business in the Western mining centres, often envied by some who see only the glittering side of trade, are not without their share of business worries and probable disappointments. A Rossland, B.C., dispatch states that in view of the existing troubles in some of the mines some sixty merchants issued the following announcement: "We, the undersigned merchants, and others, doing business in the City of Rossland, in view of the partial, closing down of the mines, and realizing that in the event of a general strike or lockout of the miners in the Rossland camp, we should not be able to continue the system of credit now in vogue, have agreed and do hereby give notice that should such a calamity as foreshadowed occur, we shall entirely discontinue giving credit to any one whomsoever, and shall sell nothing but for spot cash. We are impelled to this action solely with a view to selfprotection, we might also say self-preservation, and because we have been advised by the banks doing business in Rossland and by the wholesalers that we would not receive from them such credit and accommodation as would enable us to carry on our business on the same lines as at present. We shall regret if the necessity arises to take this step, but we feel that it is better for us to make this intimation now rather than after the possible event."

### AMERICAN PIG IRON PRODUCTION.

-The American Iron and Steel Association reports that the total United States production of pig iron in 1899 was 13,620,703 gross tons, against 11,773,934 tons, in 1898, an increase of 1,846,769 tons or nearly 16 per cent. In '1898 there was made 2,121,254 tons more than in 1897, and in 1895 2,788,920 tons more than in 1894. The production in the second half of 1899 was more than a million tons greater than in the first half. The stocks which were unsold in the hands of manufacturers or their agents on December 31st, 1899, amounted to 63,429 tons, against 291,233 tons on The consumption of pig iron in 1899 December 31st, 1898. considerably exceeded the year's total production. The total supply was as follows: Production, 13,620,703 tons; unsold stocks on January 1st, 1899, including warrant stocks, 415 333 tons; imports, about 37,000 tons; total supply, 14,073,036 tons. Deducting about 230,000 tons exported and 68,309 tons of unsold stock on December 31st, 1899, gives us 13,774,727 tons as the approximate consumption for The whole number of furnaces in blast on Dethe year. cember 31st, 1899, was 289, against 240 on June 30th, 1899, and 202 on December 31st, 1898, Of the production of Bessemer pig iron, Pennsylvania furnished 4,473,493 tons; Ohio 1,852,965 tons; Illinois, 1,330,169 tons; the balance of 546,151 tons coming from six other States. Of the basic pig, 738,-608 tons were made in Pennsylvania; 166,093 tons in Maryland, Virginia and Alabama; 80,382 tons in Ohio and Missouri.

sleighs, a great loss in either case.

-A Greenwood, B.C., despatch states another important consolidation of two Boundary Creek mining companies is in process of consummation. The following brief telegram was sent to the president of each of the mining stock exchanges in Montreal, Toronto, and Rossland, by the president and general manager of the Winnipeg Mining and Smelting Company: — "Winnipeg mine closed down to day pending consolidation with the Brandon and Golden Crown." While all the details of the consolidation have not yet been perfected, it is announced that Montreal and Toronto capitalists were behind the new company. The idea of consolidating the two mines has been on the tapis for some time. It is proposed to use the main shaft of the Brandon & Golden Crown Company for the output of the two properties. Both mines are developed by shaft to a depth of 300 Within the past three weeks feet. the Winnipeg mine has shipped nine carloads of ore to the Trail smelter, the returns from the entire shipments have been most satisfactory. A fraction over \$20 to the ton was the net profits. By the consolidation of the companies both properties can be worked on a much more economical and profitable scale.

-The large increase in cotton mills throughout the Southern States within the past year or two has caused considerable change in labor. A New Orleans paper discussing the situation says: "The rapid increase in the number of new cotton mills in North Carolina has had its expected effect, and that State is now consuming all its cotton at home instead of exporting it to 'England' or 'New England to be manufactured into cloth abroad. This radical change has naturally hurt several industries. The compress men are doing no business. Cotton is compressed in order that it may take less space in the hold of a vessel, and the steamer can carry more bales than in an un-

compressed state. There is no need for this compressing when the cotton is not to be exported but kept at home and consumed in the mills, hence the North Carolina presses have little, if any,work to do. All those in the centre of the State are idle, and it is only at Wilmington, which exports cotton for the neighboring States of Georgia and South Carolina, that the compresses have any work to do. The European cotion buyers also have no longer anything to do in North Carolina and have been called off and sent to the neighboring States-there is no cotton for them to buy in North Carolina. But while these minor industries have suffered North Carolina as a whole has been greatly benefited by the change. The farmers are getting a great deal more for their cotton than they ever received before; and cotton in its manufactured state is worth four or more times as much as in the staple. During next season the North Carolina mills will have to import some cotton to keep running at full force; but it will have no difficulty in getting all its needs from the neighboring State of South North Carolina has set a Carolina. good example to the other Southern States in the solution of the cotton problem - an example which we are glad to see they are following." Four new cotton mills have just been set on foot in South Carolina. The Cox mill. at Anderson, \$50,000; the Anderson mill,

increase from \$500,000 to \$600,000, and a \$200,000 bleachery at Aiken. A conern capitalized at \$100,000 obtained papers to develop water power on the 'rugela River to operate cotton mills.

#### MOVING.

Moving this year? If not see that the old office is made light with Luxfer Light. You cannot afford to have your clerks hurt their eyesight if you can do anything to prevent it. This is no wild statement. Luxfer Prisms have saved the eyesight of many an one. It is one thing to work in a dull office and an entirely different thing to work in a bright office.

-The building destroyed a few days ago, known as the Theatre Francais, was originally a skating rink. In 1890 it was turned into a theatre and as such has been known under a number of names. In 1893 it became L'Opera Francais, and in 1896 the Theatre Francais, at which an English stock company performed up to date of the fire. The companies chiefly interested in the fire are the Norwich Union, Royal, Guardian, and Scottish Union. An enquiry as to the origin of the fire and real value of the building is likely to be instituted by the underwriters. FINANCIAL.

Montreal, Thursday, Mar. 1, 1900.

The surrender of General Cronje, with what remained of his army, and the relief of Ladysmith, this week within four days of each other, are events of supreme importance. Their effect on the money market has been discountd, and, as we said last week, markets fluctuate far more under bad news than good. The general effect will be to give a steadier tone, less anxity will prevail, confidence has had two good doses of tonic pick-me-up, that will brace the system. What next and -next? as was asked at a more serious crisis, is the question of the day. A sudden peace we do not expect, but any more British reverses of any moment are unlikely to occur. That General Buller has won will give universal satisfaction, except to the Boers and their friends, that the honours of the war have fallen so largely to Canadians will be of material benefit to Canada has had the this country. most effective and magnificent advertisement on record. England owes us much, we trust she will show her gratitude by helping our commerce. A number of companies are about enlarging their capital, among them the British America Assurance Company, the Home Savings and Loan Company, and the Montreal Street Railway. Notices of the two former institutions appear elsewhere in this issue. The

..... Oontractors to the War Office and The Admiralty .....

perceptibly which will count for much gain later on. In hardware there has been no quotable changes, wholesale firms report good business for future Leather is in somewhat betdeivery. ter request while shoe manufacturers express much satisfaction at the outlook for next season's trade. Dairy products are higher. The paint trade is being interested in viewing the height to which oils and turpentine are soaring, the former having advanced 2 cents this week. Sugars have shown a decline of 5c per 100 lbs. all round. Teas are very quiet. The severe snow storm prevailing will block country roads for a few days, while it will also have the good effect of breaking the heart of the winter and hurrying the way for millinery openings next week which are the first sure harbingers of spring.

BUTTER.--The market during the past BUTTER.—The market during the past week has been very firm. Receipts are almost nil and as a result the tone is strong and higher prices rule all round. Fresh makes of creamery sell at 24e to 25e, with held qualities 22e to 23e. Dairies of all kinds are in light supply and quoted at 20e to 22e. Itolls bring 21e to 224/ce. The spring season is likely to open with a strong request for stock which would keep prices of both dairy and creamery at a very good figure well into the season. CUEFER.—In this market there has

CHEESE.—In this market there has been but few transactions to record. Offerings are small and in the absence of stock business passing is light. Col-ored is scarce and firmly held at 12½ c to 12½ c, with finest white 12c to 12½ c. DRUGS, CHEMICALS, BARKS, ETC.-Quining has advanced. German makers Quinine has advanced. German makers have raised prices from 34 to 35 cents owing to the advanced in einchona bark. There has been an unusually heavy demand in European countries owing to the prevalence of influenza. It is expected from recent communica-tions with the English Chamber of Commerce that carbolic acid restric-

\$1.40 per barrel. The stock of split and round herring has been very short and round herring has been very short this season, owing to the light run of-fish, in the Newfoundland bays, and because the weather in that vicinity has been too mild for freezing the fish that were taken. Fifty vessels were fitted out from Gloucester and Porthtted out from Globester and Port-land, but only seven of this number, it is reported, succeeded in getting full cargoes. Two vessels returned to Glou-cester last week from Bay of Islands, having been out two months, and, ac-cording to one of the owners, they did not have an available on the total of the set have the set of t

baving been out two months, and, ac-cording to one of the owners, they did not have as much as one herring be-tween them. Gloucester, according to some reports, sunk fully \$100,000 in the frozen herring industry this season. The prices in Newfoundland for fresh fish for freezing have been the highest ever known, up to \$3.50 per barrel hav-ing been paid. FLOUR, FEED AND MEAL. — The market is unchanged as to prices and a steady-trade is being done. Some round lots of flour are moving to South Africa. Oatmeal is dull and liable to be shaded as to price. meed is in good demand but not so firm as previous weeks indicatd. Country roads are good and much distributing is looked for before the final breaking up. Quo-tations are: Flour—Winter wheat pa-tents, \$3.80 to \$3.90; straight rollers, \$3.50 to \$3.60 and in bags, \$1.65; Mani-toba patents, \$3.80 to \$3.90; strong bakers, \$3.50 to \$3.60; Manitoba bran, bulk, \$14.50; shorts, \$16; mouille, \$14 to \$20 per ton; oatmeal, \$3.35 to \$3.40; and \$1.60 to \$1.65 per bag; baled hay No. 1, \$9.50 to \$10; No. 2, \$8.25 to \$9.00; elover and mixed, \$7 to \$7.25; best tim-othy hay in bulk, is held at \$8 to \$5.50 per load, averaging 1,500 Ibs. GAME, FOWL, ETC.—Prices in these

GAME, FOWL, ETC. Prices in these lines are held well up. The market is and a good trade is passing which bids fair to continue. Fresh killed turkeys

fair to continue. Fresh killed turkeys are now worth 1c to 12c; frozen, 8c to 10c; fowls, 5c to 7c; chickens, 6c to 10c; ducks, 9c to 11c; geese, 7c to 8c. GREEN FRUITS. — Apples are moving freely for best guality. California oranges are undergoing a fair demand for the season. Almeria grapes are being closed out. Celery is in good request, although the quality is not en-tirely. up to requirements. The advance in Florida fruit owing to the frosts was of but short duration and frosts was of but short duration and prices have again reacted. Pineapples are slow sellers. Lemon firmer. Quota-tions are: Calif. navel oranges, \$275 to \$3.50: seedlings, \$2.25 to \$2.50. Valen-cia oranges, 420's, \$4.25 to \$4.501 large sizes, \$5.50 to \$6: 714's, \$5.50; Flo-vida oranges, \$7.50 box: lemons, \$2.35 to \$2.75; bananas, \$2.50 to \$3.25; bunch in cases; pineapples, 25c to 35c, each; to-matoes; \$3 to \$3.50 crate; grape fruit, \$5.50 pr box: tangerines, \$5.00 per 1/2

box. Apples, \$1.50 to \$2.25 for No. 2's and \$3.50 a bbl. for No. 1. Coccanuts, \$3.50 per 100; Spanish onions, crates, 75c; California celery, \$5.75 to \$6.00

75c; California celery, come crate. GROCERIES.—The sugar market has taken a slight tumble, values now be-ing on the basis of \$4.45 for granulated and \$3.65 to \$4.30 for branded yellows. The drop was occasioned through the lower prices for raw and a decline all round in the U.S. markets. Spices are very firm, some being quoted at slight advances. In tea there is little doing. No large sales arebeing made and prevery firm, some one of a advances. In tea there is little doing. No large sales arebeing made and pre-sent needs are purchased on the most cconomical lines. Raisins are scarce. Quotations for molasses showed a de-cline of one cent in the new product last week. Brooms are steady at the there is active opposilate advance. There is active opposi-tion in New. York canned goods cir-cles over the Farrell bill which seeks to impose a heavy duty on all cans, and also have the year of packing stamped thereon. It is not likely the bill will also have the year of packing sample thereon. It is not likely the bill will carry. Canned goods are all higher there, without this proposed addition. HARDWARE AND METALS.—The mar-ket continues very steady all former advances being recognized, but no new advances being recognized, but no new prices have been listed for the week. Tin is steady at the advance noted last week. The latest London cables showed £1 decline in price and £1 advance in futures for the day. The shipments from the Straits during the last half of February were 800 tons to the United States, 725 tons to England, and 70 tons to the Continent. The shipments dur-ing the entire month were 1,380 tons to the United States, 1,400 tons to Eng-land, and 300 tons to the Continent, making a total of 3,080 tons, against 4,710 tons in the corresponding month last year. HIDES AND TALLOW.—Prices of green

last year. HIDES AND TALLOW.—Prices of green hides are quotably unchanged, although rumor has it that owing to Quebec competition dealers are paying 10 cents for No. 1. The U.S. markets are in-clined to dullness, buyers showing in-difference in the purchases. In New York an unchanged and steady market was reported for common dry hides. Demand was quict as tanners were show Demand was quiet, as tanners were slow to make purchases. Offerings contin-ued limited, as importers' stocks were light, and arrivals were only moderate; nght, and arrivals were only inderate; prices were without change. An easier market was reported for eity slaugh-te hides; and a limited volume of busi-ness transacted at lower prices. De-mand continued light, as neither tan-ners, nor dealers were buyers, and to effect sales salters had to accept lower hid bid.

bid. LEATHER AND SHOES.—The market has recovered somewhat from the ex-treme dullness which characterized it since the New. Year set in. Considera-ble business is being done with manu-

facturers who in many instances are running low in stock, for balance of spring orders. It is expected the movespring orders. It is expected the move-ment will considerably improve from now on. Some makers are working on fall samples in addition to spring goods. From the retail trade indica-tions are assuring. A few western failures not of large moment, scarcely surprised those interested, for the man who goes into business unprepared for a struggle does not disappoint his friends when he emerges through the rear door. Prices of leather keep firm and prices of shoes are kept on a parity with the present cost of supplies wher with the present cost of supplies wher-ever possible. It is said that compe-tition between Montreal and Toronto houses has resulted in an advance in hides, but dealers do not confirm this. Quebec shoe houses are busy and rebort the outlook bright. A new price list on leather belting was adopted on the 19th ult, which shows a material

A new price list on leather belting was adopted on the 19th ult, which shows a material advance all round.
PAINTS, OILS AND GLASS. — There has been another advance of 2 cents per gallon in linseed oils bringing the price to 67 to 68c for raw and 70c to 71c for boiled. Scal oils are also higher at 47½ c for straw scal in a jobbing way Paints are firm all along the line and any change will be for an advance in both paints and glass. A fair trade is being done. Mineral lubricating oils are all dearer in the U.S. markets, owing in part to the higher cost of everything required in their production and the extra cost of freight.
TROVISIONS.—Light arrivals of dressed hogs continue to influence the markt, both east and west, and values are corespondingly higher. Holders all through the country had been waiting patiently for some advance. This being at hand supplies are moving but are being picked up at nearest points before getting a chance to assemble. Light average are worth here \$6 to \$6.25 in quantities and job at 25 cents per hundred more. Heavy stock is worth \$5.50 to \$5.75. Bacon and hams respond and are higher in proportion. Quotations are: Canadian short cut mess porks \$15 to \$15.50; short cut back, \$14.50 to \$15; and heavy long cut mess, \$14 to \$15 per barrel; pure Canadian lard, "in pails, 7½ c to 8c per lb.; and compound refined, 6c to 6½ c per lb. Hams, 10c to 12c, and bacon, 11c to 12c per 115.
WOOL--DOMESTIC AND FOREIGN.—The next series of Colonial sales opens in London on the 6th-inst., and owing to the tondency of the last closing series buyers are not inclined to venture, at present quotations, but are waiting to see what the opening will bring. It is known that many Canadian manufacturers have very light supplies and early purchases are imperative, but

STAIRFOOT, BARNSLEY,

#### ENGLAND.

immediate needs are picked up in a immediate needs are picked up in a small way meantime. There is a pos-sibility of prices showing a decline as much wool was withdrawn at the last sales rather than submit to lower values, but this idea is not generally entertained. There is no charge here. Cânadian is pretty well sold out. Cape sold this week at 23c to 27c as to quali-ty. California is worth 18c to 22c. The situation of the money market will have much to do with the coming sales.

TORONTO WHOLESALE TRADE. (Revised by Telegraph).

#### Toronto, March 1, 1900.

Business this week was fairly active, with the turnover in dry goods reportwith the turnover in dry goods report-ed better than for corresponding pe-riods of former years. Prices are very strong, with cotton goods likely to go higher. The millinery "openings" are attracting country buyers to the city. Hardware and metals in fair demand, with prices unchanged. Groceries sell-ing fairly well with sugars and canned goods easier. Leather is going out freely and hides are ½e lower. Money is unchanged at 5½e per cent for call loans and at 6 per cent, for prime dis-counts. Stoeks were irregular this week. Latest sales: Bank of Com-merce 147. Imperial 200, Dominion 267½. Toronto Ry. 101¼, Twin City 64. Gen. Electric 181, London Electric 114. Canada Per. Loan 127, War Eagle 132¼. Virtue 78.

Butter, &c.—There is a good demand with supplies of butter small. Choice dairy tub scarce and quoted at 20e to 21c, and medium 17c to 18c. Large 21c, and medium 17c to 18c. Large rolls, 20c to 22c, Creamery firm at 22c to 23c for tub and at 24c to 25c for rolls. Cheese is firm at 13c. Eggs are steady at 17c for new laid and at 13c to 14c for limed in case lots. Dressed Hogs.—Receipts small and prices very firm. Small lots of choice

sell at \$6.75 to \$7, and car lots of selections at \$6.50.

Flour and Grain.—The flour market is quiet. Straight rollers in barrels for uxport\_at \$2.75 to \$2.90, the latter for choice brands. Manitoba patents, \$3.80 to \$3.90, and strong bakers, \$3.50 to \$3.60. Bran scarce and firm at \$15 to \$3.60 alcherte \$15 to \$15 for met. Oct. \$3.60. Bran scarce and firm at \$15 to \$16 and shorts \$17 to \$17.50 west. Oat-meal, \$3.20 in bags and \$3.30 in barrels. Wheat quiet and steady, with white and red quoted west at 64½c to 65½c and here at 69c. Goose wheat 68c to 69c low freights. No. 1 Manitoba hard 79½c, grinding in transit. and 78½c North Bay. Barley is firm; No. 1 is cuoted at 44c west and at 45c east; No. 2 is 41c to 42c west. Oats, 28c east for white and 27c west; mixed, 26½c west. Peas are firm at 62c to 62½c west and at 63½c east. If ye, 50c west and 51c east. Buckwheat. 40: west and 50c east. Corn steady at 40% to 41c on track for Canadian and 42c for American.

American. Groceries.—Trade fairly active this week. Sugars are 5c per 100 lbs. lower with granulated quoted at \$4.53 to \$4.78 and yellows, \$3.83 to \$4.48. Valencia raisins, layers, 7½c to Sc. Provincial currants 4½c to 5c Filiatras, 5c to 5½c. Coffees firm; Rio green, 10 to 11c; Mocha, 23c to 28c. Canned goods easier, tomatoes, 95c to \$1; peas, 75c to \$1.00; corn, \$1.05 to \$1.10. Teas, firm, with good demand for medium grades.

Hardware and Metals. — There is a hir trade with shipments large, owfair ing glass continue very firm. Hides and Skins.—The hide market

is weaker; Cured, 9c to 10c for No. 1 green; No. 2 quoted at 8c. Calfskins, 10c to 11c for No. 1 and 9c for No. 2.

green; No. 2 quoted at 8c. Calfskins, 10c to 11c for No. 1 and 9c for No. 2. Sheepskins, \$1.10 to \$1.20. Live Stock.—The cattle market is quiet at unchanged prices. Choice shippers, 4%c to 5c per lb., and me-dium, 4½c. Butchers bring 4c to 4½c per lb. for prime, 3½c for medium, 3c for inferior. Sheep, 3c to 3½c, and lambs 5c to 5½c per lb. Hogs, firmer at 5%c per lb. for choice bacon and 4%cto 4%c for heavy and light fat. Provisions.—There is a fair demand for cured meats, which are firm. Mess pork is selling at \$14.00 to \$14.50 and short cut at \$15 to \$15.50. Bacon firm at 7c to 7½c for large lots of long clear and at 7½c to 7%c for small lots. Rolls, 8c to 8½c. Hams, smoked, 10½c to 11½c. Lard is firm at at 6%c to 7½c to 6c. Potatoes, 40c to 42c per bag. Hops, 14c to 16c. Beans, \$1.75 to \$1.80 for hand-picked. Wool.—Business quiet and prices un-changed. Fleece, 19c to 20c and un-washed, 11c to 12c. Pulled wools 20c and extras 22c to 22½c. washed, 11c to 12c. If and extras 22c to 221/2c.

#### COTSWORTH ARC LAMPS.

There can hardly be a doubt that electricity will be the illuminant of the future for private houses, hotels, public Extensively as buildings and streets. this kind of light is now used it is only One feature yet in its initial stage. which gives so much promise to electrical lighting is the steadiness of its development, and the entire absence of any sign of a retrograde movement. Wherever established it has come to stay and extend. It is somewhat more expensive than ordinary gas, mainly so because it is used so much more freely owing to its being more effective, agreeable and safe. It is not, however, any more dcar than gas when introduced was more expensive than candles, yet gas has made candles a curiosity, as electric lamps ere long, will make, gas The "Cotsworth" Are Lamp burners. and Electric Lighting Syndicate, of London, England, has introduced an arc lamp which is a great improvement upon all others. It is cheap, reliable, weatherproof, easily trimmed, simple STOCKS AND BONDS.

in mechanism, free from flickering and in all respects most effective and satisfactory: This lamp abolishes all loose chains and unsightly gear. Both termin-als are carefully insulated, and the frame of the lamp forms no part of the circuit. This gives immunity from shock should the lamps be working in series on a high tension circuit. The patent lowering and raising gear is simplicity itself. The organs of electrical interests are unanimous in pronouncing the "Cotsworth" Are Lamp as superior to others in the steadiness, and brilliance of its light, as well as in the neatness of its appearance and simplicity of mechanism. A plain type specially adapted to factories, workshops, laundries, etc., is highly commended. An-

684

other style is made specially for places where work has to be carried on at A fourth type, without loose night. cords, or chains, is unique in its adaptability to billiard rooms, printing offices, etc., as it gives a steady uniform light with absolutely no shadow. The firm or syndicate supplies carbons that burn noiselessly, and without ash, they are admitted to be by far the best obtainable. We are much struck with the lamp posts invented by the firm, to carry are lights. They are so made as to provide a ladder available to the man who has to trim them, which is out of sight when out of use and which he can unlock and bring into service instantly and replace and re-lock in a few secconds. These are made either quite

plain, or so artistic as to be rather an adornment to a street than an evesore as are these clumsy affairs now in use, which are a disgrace to the age. Another of their lamps called "The Prism Globe" is, by all odds, superior to any in the market. It is unsurpassed for domestic lighting, for theatres, concert halls, hotels, clubs, wherever indeed a lamp giving a bright, soft light is needed that is at once economical, dustproof, and elegant. Dealers in electrical supplies who wish to be up-to-date should put themselves in communication with the "Cotsworth" Arc Lamp & Electric Lighting Syndicate, whose goods, while very moderate in price, have special attractions that cannot fail to ensure a large sale.

OVER100 MACHINES SUPPLIED FOR DAIRIES IN ENGLAND AND COLONIES

Fruit Cold Storage a speciality.

Bank of Ottawa bonus of one per cent equal in all to a dividend of 9 per cent per annum. Moleone Bank bonus of one per cent equal in all to a dividend of 9 per cent per annum.

-ane heavy advance in all kinds of lumber and wooden ware of late should draw more attention to the preservation of Canadian timber which is each year being recognized in a greater degree as the future source of supplies for the continent. At a recent meeting of the Canadian Institute, Toronto, Mr. J. A. Duff, B.A., of the School of Practical Science, read an interesting paper on "Timber Testing." He pointed out the importance of caring for the vast timber wealth of the province. There were two distinct objects for which experiments might be made upon industrial materials; the one, caned the scientific, was for the single purpose of employing the material with properties of the material; the other, called the commercial, was for the purpose of employing thematerial with greater economy and skill in works for the advantage of man. The commercial experiments were applications of the scientific, and their value was in proportion to the progress of the latter. The scientific investigations required a large expenditure of time and money, and were beyond the resources of the private individual. They were of benefit to the whole community, and it was clearly the duty of the Government to make provision for that department of

scientific work. The relative decline in the industries of Great Britain was an example of the failure to recognize this duty and responsibility. The rich Province of Ontario had been receiving for many years about one million

dollars per year from timber dues, but had expended only a few thousand dollars of all this money on the science of forest production, and not one dollar on the economic manufacture and use of wood products.

-A Point Edward, Ont., letter states it is reported on good authority that the Ontario Lumber Company will soon begin work on a large mill, which, with other expected industries, will mark a boom for the village.
