#### London Strike to Spread

LONDON, Jan. 26.—(Can. Press.)—The executive council of the Building Trades Federation today adopted a resolution calling upon the plumbers, smiths, fitters, electricians, painters and allied trades to join in a strike. More than 100,000 men are affected.

Newspaper and Municipal Situation in Montreal is Full of Dynamite and People Are Rushing for Cover.

Most Highly Seasoned Stew That Has Ever Been Uncovered in Canada Beats All Other Scandals Put Together.

"We find that Alexander MacPherson came to his death at St. Michael's Hospital as the result of injuries sustained at the Toronto Railway Company's barns on St. Lawrence street on Jan. 24, caused by the negligence of the motorman, Henry, in backing his car on a signal from the shedman, Gilbert."

OTTAWA, Jan. 26.—In the house today, Mr. Andrew Broder, the veteran Conservative member for Dundas, and ex-Postmaster-General Lemieux contributed entertaining speeches to the debate upon addresses.

QUEBEC, Jan. 26.—(Can. Press.)—By attempting to light a stove today with coal oil, Wilfrid Robin, a boy aged 13 years, at Notre Dame of Rosaire, Montmorency County, caused an explosion which set fire to his clothes. Terrorstricken, he rushed upstairs and threw himself on his relations.

MONTREAL, Jan. 26.—(Special.)—Messrs. Macnab and Nichols, proprietors of The Daily Mail, left the city on the 11.30 train tonight to appear at the bar of the legislative assembly in Quebec tomorrow afternoon, whether they have been summoned by resolution of the assembly, and Hon. Messrs. Berard and Bergevin, members of the legislative council, in relation to the passing of an alleged iniquitous bill promoted by the Burns Detective Agency, as a company known by the name of the Montreal Fair Association.

### WEEK OF OPERA IS INAUGURATED

La Gioconda Sung by Renowned Artists Who Were Given Enthusiastic Reception.

(Special to The Toronto World) OTTAWA, Jan. 26.—The bribery charges in the Legislature of Quebec show the situation there to be full of dynamite. So is the newspaper and municipal situation of Montreal, and a surprising number of persons in both cities are now rushing clear of the explosions, when they go off. But it does not end there. All the politicians here in Ottawa are at full tension over the coming revelations.

Mr. Lemieux said the speech from the throne was "as meagre as our dinner last Christmas, as empty as the poor man's dinner pail, and unsatisfactory as a church collection in hard times." Mr. Lemieux favored free wheat and all but committed his party to free food. He declared that the Liberal party stood for a Canadian navy and would stand loyally by the government should it declare for a Canadian navy as its permanent naval policy.

Hon. George E. Foster, who was in his seat for the first time this session, was welcomed by a great round of applause from the government benches when he rose before the orders of the day to read a cable from Mr. Griffith announcing the funeral of Lord Strathcona.

### C. P. R. STEAMER STRUCK A ROCK

Princess Sophia's Passengers Were All Transferred Before Vessel Floated Off Reef.

VANCOUVER, B.C., Jan. 26.—(Can. Press.)—While making her way thru a blinding snowstorm late Sunday night off the northern coast of Vancouver Island, the C.P.R. steamer Princess Sophia touched a rock off Port Hardy, about 200 miles off Vancouver. She floated off a few hours later. In the meantime all the passengers were without difficulty transferred to the steamer Alki, which had answered the calls of the Sophia. The Alki is coming on to Vancouver and is due late tonight. The Sophia is at anchor awaiting the assistance of a salvage steamer from Victoria.

The National Opera Company of Canada opened their week's engagement last evening at the Royal with the promise of genuinely pleasurable presentations of grand opera favorites. The first night might be taken to illustrate the general impression which it is hoped to gain in the series of programs. There were no brilliant starting effects; no attempts at bizarre or unusual features. In fact the whole tone of "La Gioconda" was one of consistency. The text was not pleated up and sung as if a handful of rather good artists with individual ambitions had been turned loose upon it. There was a pleasing co-operation and spontaneity throughout which contributed greatly in some of the more critical periods of action.

It is believed that the charges to be made by Messrs. Macnab and Nichols of The Montreal Mail, based on the work of the Burns detectives for months at Montreal and in Quebec, will involve the names of at least a dozen members of the legislature at Quebec. Only three names have come out as yet, but they have made a sensation. One happens to be a member of the law firm of Prime Minister Gouin of Quebec, but it is also believed that the bulk of the allegations and a raft of others have left records in the Burns dictagraphs in connection with power and tramway affairs of Montreal, and they are of a most startling character also, and far exceed in surprise the record of the legislators.

Mr. Broder said that while there might be some distress in the cities, farmers were never more prosperous than at present. They were getting high prices and enjoyed the experience, but Sir Wilfrid Laurier was anxious to deprive them of the good market and the good prices they now enjoyed. It was much to be doubted whether 100,000 people were out of employment in Canada, but if they were it should be remembered that Canada was receiving immigrants at the rate of 100,000 a year.

At his apartments at the Chateau Hotel tonight, his son Mr. George Ross, M.P., and several Ontario senators were sitting up and reported that his condition was unchanged, but the physicians were anxious on account of his frail constitution and advanced years.

LONDON, Jan. 26.—(Can. Press.)—Sir Edward Carson, leader of the Ulsterites, in a speech at Lincoln tonight, said that he was ready to join John Redmond, the Irish nationalist leader, in an attempt to extend local government to Ireland, or to remove any abuses or injustices, social or religious.

Referring to Mr. Redmond's speech at Waterford on Sunday, he declared: "If this is the last word from his side we are in a lamentable and critical state of affairs. I am a man of peace, but not of peace at any price."

The Mall proprietors will reiterate their charges before the house, and in a written statement express their ability and willingness to prove each and every allegation made in the case. The procedure thenceforward will be in the hands of the committee of the legislature, whose appointment was reported in The World on Friday last.

While it is said there was no dispute between the two sides, it is believed that the charges to be made by Messrs. Macnab and Nichols of The Montreal Mail, based on the work of the Burns detectives for months at Montreal and in Quebec, will involve the names of at least a dozen members of the legislature at Quebec. Only three names have come out as yet, but they have made a sensation. Two Outstanding Figures. The story, so far as unfolded or hinted at by those who ought to know, turns for its start on the relations between Sir Hugh Graham of The Montreal Star and Lorne McGibbon, a financier of Montreal, of widespread interests. It certainly turns on newspapers, and it may turn on the street railway and power aspirations of these gentlemen. Graham wanted to dominate the newspaper situation of Montreal. He tried it once before, years ago, when a federal election was pending. He and his mysterious association bought La Presse, and bought an interest of some kind in La Patrie. Sir Wilfrid Laurier was to be overthrown, and the most surprising stories were handed out as to what was to happen. The plot failed, the La Presse was only kept in the service of Sir Wilfrid Laurier and his cause at the point of revolvers wielded by his friends in La Presse office. The defection of a dozen supporters and candidates of Sir Wilfrid did not take place. Sir Wilfrid Laurier was returned to power, and later on La Presse went back to its former owner, who is still in possession of it.

### SENATOR ROSS SERIOUSLY ILL

Condition Last Night Showed No Improvement and Anxiety is Felt.

(Special to The Toronto World) OTTAWA, Jan. 26.—Sir George Ross, leader of the opposition in the senate and former premier of Ontario, was taken suddenly ill Saturday and was worse yesterday.

Without a doubt the biggest genuine bargain of the season is offered tomorrow at Dineen's, 140 Yonge street. Thirty-seven marmot fur coats, formerly priced from \$175 to \$200, will be sold at the enormously reduced figure, \$125. They are from 48 inches to 52 inches long, designed in the latest style and most appropriate for driving, motoring or wear in the evening. With most of the real cold weather still to come, and the price of this fur rising, the investment should prove highly profitable and entirely safe. Don't fail to inspect.

### GIRL DIED OF HYDROPHOBIA

Bitten by Dog Seven Weeks Ago and Taken to Hospital Saturday, Death Came Soon.

Frances Stewart, 155 Roslin avenue, Bedford Park, the four-year-old girl supposed to have been suffering from hydrophobia, died in the Sick Children's Hospital, at 12.30 yesterday morning. Over seven weeks ago the child was bitten by a dog, but a week afterwards, thru the agency of carbolic acid, she was out playing. Saturday she became feverish and seemed to fear that the dog was chasing her. She was conveyed to the hospital, where she died yesterday.

A post-mortem is being held on the child to determine what caused her death.

### LONDON CENTRE OF BIG STRIKE

Building Industry Will Probably Be Paralyzed—General Strike in England Predicted.

LONDON, Jan. 26.—(Can. Press.)—The United Kingdom is again threatened with serious labor unrest. The Building Trades Federation in addition to calling upon the plumbers, painters and allied trades to strike has also decided in favor of bringing about a national building strike.

Should the recommendation of the executive council be ratified, London's building industry will be brought to a standstill. Work has already ceased on a dozen big buildings in the course of construction involving the expenditure of \$5,000,000. These include London's new county hall and several government buildings.

There is no sign of a settlement of the coal carriers' strike, and the employees of several big street transport companies threaten to support the coal men. Trouble is also brewing in the shipping world on the eight-hour question and higher wages.

Tom Mann, formerly president of the International Transport Workers Federation, in a speech at Dublin tonight, predicted a general strike in England in March, involving engineers, boilermakers and shipwrights.

### MUSICAL COMEDY DE LUXE

Richard Carle, Hattie Williams, Will West, et al, in the musical comedy de luxe, "The Doll Girl" this week at the Princess Theatre, provide an entertainment really worth while. Pretty girls, gorgeously gowned, are also very much in evidence.

### LA GIOCONDA SANG BY RENOWNED ARTISTS WHO WERE GIVEN ENTHUSIASTIC RECEPTION.

The National Opera Company of Canada opened their week's engagement last evening at the Royal with the promise of genuinely pleasurable presentations of grand opera favorites. The first night might be taken to illustrate the general impression which it is hoped to gain in the series of programs. There were no brilliant starting effects; no attempts at bizarre or unusual features. In fact the whole tone of "La Gioconda" was one of consistency. The text was not pleated up and sung as if a handful of rather good artists with individual ambitions had been turned loose upon it. There was a pleasing co-operation and spontaneity throughout which contributed greatly in some of the more critical periods of action.

While it is said there was no dispute between the two sides, it is believed that the charges to be made by Messrs. Macnab and Nichols of The Montreal Mail, based on the work of the Burns detectives for months at Montreal and in Quebec, will involve the names of at least a dozen members of the legislature at Quebec. Only three names have come out as yet, but they have made a sensation. One happens to be a member of the law firm of Prime Minister Gouin of Quebec, but it is also believed that the bulk of the allegations and a raft of others have left records in the Burns dictagraphs in connection with power and tramway affairs of Montreal, and they are of a most startling character also, and far exceed in surprise the record of the legislators.

Herald, and later on to form the opinion that Graham had not yet been paid for his money back that he spent on The Herald, in not having but Graham now has control of Star, Herald, Telegraph and The Weekly Standard. He owns some interests in other papers as well. He controls the Hearst newspaper features.

McGibbon has said in substance that Graham also owns a big block of Transvaal stock and that he went into the fight against Graham to head off an attempt that was to be made to extend the franchise and to give an amount of over \$50,000,000. That of itself is a great story and that is why Burns was brought here to head it off. But more of this further down.

**McGibbon "Man Behind"**  
McGibbon is left with only one known paper. The Pinnacle, a French paper, but it was McGibbon who brought Burns and his agents to Montreal. He did this, it is believed, under the management of Mr. Beck, his editor of The Herald. When The Herald was sold last week, it is said, Mr. Beck walked out of The Herald with all the reports of the Burns agents in his possession, and that they are now in possession of The Mail. It is believed that Messrs. Macneil and Nichols will offer to put copies of these reports in the hands of the speaker of the Quebec Legislature, where they will appear before the bar on Tuesday.

**Fought Franchise Extension.**  
In the meantime, this story must go back to the beginning. It was determined that no extension of the franchise was to be allowed if he could prevent it, and the Burns men were to collect evidence to show how vulnerable the legislature was that was expected to grant it, and here another peculiar incident happened. It is believed that Sir Lomer Gouin, who was supposed to be friendly to Robert, head of the transvaal, and to Sir Hugh Graham, street railway, had determined not to give any legislation to help the franchise grabbers. McGibbon, therefore, found himself with Graham on his way back and the likelihood that no transvaal legislation would be offered. At this point he sold out The Herald, but made no peace with Graham. He attacks Graham as a newspaper czar in The Financial Times of Saturday.

**Alleges Party Plot.**  
And now Sir Lomer Gouin came on the scene thru the columns of his organ, Le Soleil of Quebec. In that paper of Friday last under page headlines and big type, it is alleged that the Congress of the Quebec Legislature are promoting the charges made by The Mail. It says that Sir Lomer will insist on any members guilty of taking bribes being punished and driven out of public life, and also that he will insist on knowing who was at the bottom of the whole business of the charges, the employment of Burns men, etc. Le Soleil says this will be pursued to the end. Macneil and Nichols will therefore have to refer him to Beck and McGibbon, and McGibbon may refer him to the transvaal extension that he was trying to head off, and to Robert and Graham and Burns reports on the Montreal aldermen. Sir Lomer says he wants to know who seeks to discredit a legislature and to use it to discredit a race. So the thing grows, and unless he cares to give the protection of the crown to the Burns men they cannot come in to give evidence as if what they say be true they are criminals for bribery.

**Bourassa Takes Hearings.**  
Enters also on the scene at this time the tribune of the French people of Quebec, Henri Bourassa of Montreal, who in his paper Le Devoir demands that the truth and the whole truth must be told, even if his race be more or less involved, but he is more concerned about his former friends and allies, including Sir Lomer, in the legislature, than he is about his race. He wants Gouin's scalp, and he and Armand Lavergne have been on the trail now for years.

**GUELPH'S OLDEST INHABITANT DEAD**

**Henry Carter Bought Farm in Eramosa Fifty Years Ago—Served in Council.**

(Special to The Toronto World)  
GUELPH, Jan. 26.—There was a very large attendance at the Norfolk Street Methodist Church tonight to celebrate the occasion of the church being free from debt and the burning of the mortgage. The history of this church dates back to 1837, when it was known as the Wesleyan Methodist chapel.

John A. Little, for the past 25 years financial secretary of the Independent Order of Foresters, has resigned his position, and in recognition of his long and faithful service was presented with a valuable clock and an address by the members of the order, Past High Chief Ranger Clarence Bell of Toronto was present and addressed the meeting. Mr. Little is a well-known and enthusiastic carrier.

Henry Carter, one of the oldest and most highly respected residents of the city, passed away yesterday at his home, 279 Queen street west. Mr. Carter was born in this city Sept. 7, 1828, being the oldest man born in Guelph, and had lived in this vicinity all his life. Fifty years ago he bought a farm in Eramosa Township. About twenty years ago he retired from farming and had since lived in the city. While in Eramosa he served as councillor and reeve from 1876 until 1879, and he was later a member of his widow, a son, John Carter, reeve of Guelph township, and three grandchildren.

**PROF. MAVOR TO SPEAK**  
Professor James Mavor of the University of Toronto, will address the members of the Military Institute, University avenue, this evening 8 o'clock on "The Balance of Power in Europe."

**DEFACED COINS STOLEN**  
Unknown thieves, believed to have been children, made with a quantity of mutilated coins from the Bank of Montreal, stolen from the Bank of Montreal Church on Sunday evening. The amount stolen is 5 and 10 cent pieces, most of them plucked or cut, all were returned by the bank.

**NO HARD TIMES BRODER'S OPINION**

**Liberals Are Eager to Discern Evil Signs, His Contentment.**

(Continued From Page 1)

of 400,000 a year, and it took time for all these people to find work.

**Cost of High Living.**  
Dealing with the high cost of living, Mr. Broder said: "I know a man can live cheaply, for I've had to do it all myself. It is the mode of people's living that makes the cost high. A friend of mine was talking to me about the enormous cost of living, and pointed out that his wife did not bake her own bread as our mothers used to years ago, and I doubted if she knew where the scrubbing brush or broom was kept."

"The people are making more money now and they spend it more freely. The opposition urges the government to reduce the cost of living, but the government cannot make that when running around the barnyard lay one egg more, and it cannot make the cattle any fatter. It is the man who feeds them who can do that. The solution is with the farmer."

**Not For Free Wheat.**  
Mr. Broder said he could not view the question of free wheat from the same point of view as the western man. He added: "The future of the west depends on mixed farming, and it needs the by-product of the wheat. Without it dairying will suffer severely. We now grind enough flour in Canada for 14,000,000 people, but should grind enough for 50,000,000."

**Decline in Milch Cows.**  
Mr. Broder then referred to the decrease in the number of milch cows in Eastern Canada, and the increase in the west. In Ontario, in the last four years, owing to lack of the right kind of hired help, the number of milch cows fell from 30,000 to 26,000, while the non-milch cows increased from 13,000 to 19,000, and from 1901 to 1911 the decrease in milch cows in Ontario was 32,784. The other eastern provinces had also lost, but Manitoba gained 13,856, Saskatchewan gained 124,000, Alberta 101,586, and British Columbia 9420. Eastern Canada had lost in all 62,000 milch cows in the decade, while the west gained 249,374, making a net gain of 187,348.

Mr. Broder observed that the hard times in this country could not be so very bad when the trade report shows 5824 autos, worth \$7,870,000, imported from the United States in the first eleven months of last year. These were bought by Canadians, besides the autos made in this country.

**Limeux's Pessimism.**  
Hon. Rodolphe Limeux insisted that times were hard, with 15,000 men out of work in Toronto and 40,000 in Montreal. His figures as to the unemployed in Vancouver were challenged, however, by Mr. Stevens, M.P. for that city, and Solicitor-General Meighen ridiculed the statement that the Northwest Mounted Police had been called out in Regina to deal with bread riots.

Mr. Limeux went on to argue in favor of the removal of food duties, and especially for free wheat. In the United States, he said, people have obtained free lumber, free cement, free agricultural implements and practically free food. President Wilson set himself to reduce the tariff, reform the currency and curb the trusts and combines. He had succeeded admirably with the tariff, and Canada would do well to follow his example. As to the Canadian banking and currency laws, Mr. Limeux doubted if they could be improved upon.

**Shoe Trust Unpunished.**  
Getting on firmer ground, the ex-postmaster-general contrasted the attitude of Mr. Wilson toward the trust and combines with the attitude of the Dominion Government. He said that a board of enquiry appointed under the anti-combines act had found the United Shoe Company to be combine and to be engaged in unlawfully restricting competition in trade. That finding had been made 15 months ago, but nothing had been done to punish the corporation to this hour. It was still carrying on its illegal practices without any interference or restraint from the government.

Solicitor-General Meighen pointed out that the company had been given until May 15, 1913, to put its business on a legal basis. Conard Mr. Limeux said that it had not done so?

Mr. Limeux: "Can you? The government should be in a position to inform the house. I am informed that the company is still defying the law with impunity, because it has powerful friends and because it has a pull with the government." (Liberal applause.)

**UNION STATION PLANS HAVE NOT BEEN ALTERED**  
Railway Officials Visit Toronto, But Have No Information to Divulge.

Howard G. Kelley, vice-president of the Grand Trunk Railway, and H. R. Stafford, chief engineer of the G.T.R., were in Toronto yesterday, and it is understood their visit here was in connection with the formation of the terminal company for the erection of Toronto's new union station.

The railways had certainly lost no time when once a start was made on the work of clearing the site for the new depot, and when the time for its erection came the same progress would be shown, they said.

**FISH COMBINE WILL UNDERGO INVESTIGATION**  
Federal Commission's Sitting Here Next Week Promises Interesting Developments.

OTTAWA, Jan. 26.—The alleged fish combine in Ontario will be investigated when the highest cost of living commission pays a visit to Toronto. The commission will go thoroughly into the whole question, and fish dealers and packers from all over the province will be summoned to give evidence under oath as to the existence of the alleged combine for the shipping of fish across the line and the enhancing of prices.

The commission will work to Montreal first and will be in Toronto next week.

**MISSION REPORT READ**

Henry Singer Gives Details of Meetings Held Under Difficulties.

Supporters of the Toronto Jewish Mission filled the Bible Institute Hall, College street, last night. It was the best attended annual meeting in the history of the society.

Henry Singer, in his annual report as missionary said: "Our hall is surrounded by Jewish synagogues. The seating capacity is about 200, and on some occasions we have had it as full as could be. We have had 305 meetings in the various missions. It is certainly wonderful to observe the way in which the Jews sit and listen to the gospel, many also taking part in singing the gospel hymns. We sing these in both English and Yiddish, so that those not familiar with English can sing them in their own language.

"As the Jews are moving westward I felt the great need of holding meetings on the corner of Kensington avenue and St. Patrick street. At the first meeting we had about 2,000, the second meeting we had about 4,000. At both there was some disorder but the police soon stopped it. There is ample room for a mission in that section of our city, as there are more Jews there than in any other part of Toronto.

**In West Toronto.**  
"The meetings held at West Toronto have been well attended. In connection with the Hamilton Jewish Mission we have had great

**RADIUM KILLED CANCER PATIENTS**

Expert Gave Evidence Before Congressional Committee at Washington.

**A MERE EXPERIMENT**

Whether Radium is Cure in Certain Cases Not Yet Established.

WASHINGTON, Jan. 26.—(Can. Press.)—Radium as a cure for cancer is still in an experimental stage, and its use in the treatment of internal cancer results fatally in a large percentage of cases, according to the testimony before the house mines committee today, of Dr. William H. Campbell, director of the radium clinic of Pennsylvania. Dr. Campbell told the committee that so far as the deeper cancers are concerned, we cannot tell today what the outcome of the radium treatment will be.

"We can tell," he said, "that there is a difference of the tumor, the radium causes the disintegration of the tissue of the cancer, but something is created in that disintegration, which is absorbed by the blood, and which kills many patients. I can't tell, nobody can tell, for four or five years, just what the result will be."

"How many of your patients have died as a result of your treatment?" asked Representative Brynes of North Carolina.

**Shortened Their Lives.**  
Dr. Campbell demurred at this, but finally said that two out of five of the cases treated ended fatally. He added that all were in cases where the disintegration of the cancer would have resulted in death in a few months without treatment.

"I simply feel," he said, "that I've just shoved those patients over a little bit quicker."

Dr. Campbell said at the present

### PLOTTED AGAINST AUSTRIA-HUNGARY

French Newspaper Alleges Coalition Between Serbia and Roumania.

PARIS, Jan. 26.—(Can. Press.)—A coalition between Serbia and Roumania to break up the Austro-Hungarian Empire, in the event of its intervention in favor of Bulgaria during the recent Balkan war, was made by a secret treaty signed on June 10, 1913, according to La Petite République, which publishes the announcement today without reserve. The newspaper says the arrangement was known to both Germany and Russia, who were to have shared in the spoils.

The substance of the alleged treaty is printed today, showing that Germany was to be rewarded with Bohemia and the whole of German-speaking Austria, while Roumania was to receive as her share Transylvania and all of Hungary east of the River Tisza, thus doubling the size of her territory.

### BLACK WATCH DISTINCTION

From Glasgow Weekly Herald, Jan. 10: Army orders issued on Friday state that the king has approved of the Black Watch (Royal Highlanders) and the King's Royal Rifle Corps being permitted to bear upon the regimental colors or appointments the honorary distinction "North America, 1783-47," in recognition of services rendered during the war against the Red Indians (Pontiac's conspiracy). The operations in question consisted over a wide area of country bordering on and to the south of the great lakes, and were of a most arduous nature. In the summer of 1783, the future, treacherously attacked the outlying British forts, which were mainly garrisoned by detachments of first battalion 60th Royal American Regiment (now the King's Royal Rifle Corps). In many instances the garrisons of the forts and settlers in their neighborhoods were barbarously murdered. Fort Detroit, an important post, between Lakes Huron and Erie, was besieged for fifteen months before it was relieved.

### SUSPENDED SENTENCE FOR FRED HARDING

Judge Britton Advised Him to Be More Careful While Driving in Future.

Fred Harding, the young man found guilty on Friday of criminal negligence, was allowed to go on suspended sentence when he appeared before Mr. Justice Britton in the criminal assize court yesterday for sentence. The fatality occurred on the night of Jan. 8, when Harding struck and killed James Addis on West Queen street with his motor car. The evidence in the case showed that Harding had in the past been a very careful driver, and taking this fact into consideration, Judge Britton recommended that he be more careful in future.

GOOD BLOOD THE SECRET OF HEALTH

To Be Healthy You Must Keep the Blood Rich, Red and Pure. Dr. Williams' Pink Pills are used in any disease caused by thin or impure blood, and the list of such diseases is astonishingly large. Anemia literally means a condition in which the blood is thin and watery. In rheumatism the blood becomes thin more rapidly than in any other disease. After an attack of grippe, acute fevers the blood is always thin and impure, and Dr. Williams' Pink Pills are the tonic to use during convalescence. When the blood is poor and thin the stomach suffers. The food ferments, gas and certain acids form and the trouble is pronounced. Indigestion or dyspepsia. The nerves receive from the blood all of their nourishment to keep up their energy and vitality. Some forms of paralysis are caused by thin blood. The progress of locomotor ataxia is stopped in many cases when the blood is made pure and rich. This is only a partial list of the troubles having their origin in impure, watery blood, and all can be cured by supplying the blood with its missing constituents. This is exactly what Dr. Williams' Pink Pills do. Their chief mission is to make rich red blood; and this good blood reaches every organ and every nerve in the human body, thus driving out disease and bringing a renewed health and strength to thousands of weak, despondent people. Ask your neighbors. There is not an inhabitant of Canada where Dr. Williams' Pink Pills have not restored some sufferer, and all over the country there are grateful people who do not hesitate to say they owe health in some cases life itself to this great medicine. If you are ailing begin to cure yourself today by using Dr. Williams' Pink Pills. Sold by all dealers in medicine or by mail at 50 cents a box or six boxes for \$2.50. From The Dr. Williams' Medicine Co., Brockville, Ont.

Rock Gardens and Some Suitable Alpines. (Continued from Yesterday.) Rock plants may be planted at almost any time of the year, save, of course, in the midwinter. Many dealers in these plants keep a constant supply on hand, as pot plants, ready for the buyer.

Those amateurs who wish to start a rock garden and who are as yet ignorant of the various alpines, may obtain necessary first information from these dealers, who will advise the hardest and commonest sorts to be tried first. Later, when they have gained a little knowledge of the wonderful fascination of these plants, our amateurs may try more difficult sorts.

Many of the commoner alpines are very rapid ground coverers, and they have become thoroughly rooted, will creep over everything in reach and out of reach. These will need to be kept well within bounds, as the weaker and more delicate sorts will be crowded out or smothered to death. These greedy travelers are the arabidopsis, the saxifrage, the cerastium, and several other varieties. Some of these will be dealt with separately in these talks on rock gardens and alpines.

Once you have planted your stock of alpines, it is always wise to provide some winter protection. For this reason, no plant, however hardy, but is better for a little winter protection. It must be remembered, also, that many of these alpines, common to the north, are not in their native land. Therefore, like all strangers in a strange land, they are truly thankful for any kind of consideration that comes their way. This care and attention as to winter covering will be the very first warm touch those rock plants that suffer most from damp are such plants as clove themselves with woolly or hairy leaves. As instances, the hepaticas, the various woolly-leaved anemones, the alpine violets (cyclamens), and several others to be discussed later.

Again, all rock plants, as you may very easily understand, suffer much from the vicious attacks of the ordinary slugs. Now, slugs love to crawl over the damp and slimy surfaces of rotten or moldy wood, or slippery rock ledges. Therefore, your rockery walls should be made so damp that such condition will obtain. Thus, slugs will not be so apt to collect under your alpines.

However, every alpine amateur should keep a sharp lookout for these little single slug. It is a tiny, round, brown creature, and is very hard to see. It is not difficult, however, to follow him up—especially if you look for him in the early morning—and drop him into a pail of brine. Do not bury him. He can't be buried. Just simply drop him at once into the brine.

The great majority of rock plants do well in the shade. But quite as many revel in the sun. Some sun alpines are the alyssums, the arabidopsis, the anemones, the primulas, the tarella, all of which we shall speak of in time. (To Be Continued.) MISSISSAUGA GOLF. The eighth annual meeting of the shareholders and members of the Mississauga Golf and Country Club, Limited, was held in the King Edward Hotel on Saturday afternoon, Jan. 24, in the absence of Mr. L. A. Hamilton, president. Mr. A. R. Capreol, vice-president, occupied the chair. The usual reports were received, which show that the operations of this club for the year 1913 were the most satisfactory in its history. The directors expect the new course, as laid out by Mr. Geo. Cummings, to be ready for play early in the spring of this year. The handsome new club house is now completed and will be formally opened about May, 1914. As a young club Mississauga occupies an enviable position, and the enthusiasm displayed on the part of the meeting portends continued success. The directors are: L. A. Hamilton, president. A. R. Capreol, vice-president. Messrs. R. H. Coleman, Geo. A. Morrow, L. B. H. Ardagh, Geo. A. Morrow, J. M. Godfrey, Jas. McMillan, Thos. Gibson, directors. Mr. Thos. Allen was elected captain and Mr. Frank Roden vice-captain. FUNERAL OF JAMES AKITT WILL BE THIS AFTERNOON. Benevolent Societies to Be Represented at Service. Collingwood Man's Body. The funeral of James Akitt, who died of pneumonia at his home, 23 Gledhill street, on Sunday, will be held this afternoon at 3 o'clock, from the late residence, to Prospect Cemetery. Rev. J. C. Speers and Rev. T. E. Bartley will take the service. Mr. Akitt, who was 55 years of age, had lived for 30 years in Collingwood before he came to Toronto, in 1903. He is survived by his wife, four sons and one daughter. Of the sons, Hubert lives in Calgary, George in Collingwood, Roy and Norman in Toronto; Stella lives in Toronto. Four brothers and three sisters of Mr. Akitt are living. He was a member of the S. O. E. B. S. and of the Chosen Friends.

HONORED STRATHCONA'S MEMORY BY IMPRESSIVE ABBEY SERVICE

Large Congregation Included Many of the Greatest of the Empire—Service Simple But Marked by Stately Dignity—Favorite Hymn of Late High Commissioner Sung.

LONDON, Jan. 26.—(C. A. P.)—In Westminster Abbey a mighty congregation gathered today before the catalogue of Donald Alexander Smith, first Baron Strathcona, and Mount Royal—mighty, that is, touching the power and influence of the men who composed it. The Sovereign of this realm and Queen Mary, Alexandra, the Queen-mother, and the royal governor-general of Canada, were each represented. There attended in person the ambassadors of foreign powers, high commissioners and agents-general of the dominions of the empire, doctors from great seats of learning, leaders of philanthropy, money-changers of Lombard street and Threadneedle street, and merchants whose names are known in the far corners of the earth.

The unreserved part of the building was filled an hour before the service began, while crowds were gathered outside and along the route from the deceased peer's house in Grosvenor square. The catalogue was in the clear space which divides the transepts directly in front of the holy table, and only a few yards distant from the memorial to Wolfe. The service was simple yet marked dignity. Sir Frederick Bridge, who was at the organ, opened with music composed for the funeral of Queen Mary in 1894, followed by Chopin's Funeral March. After this there was a silence in the abbey for a space.

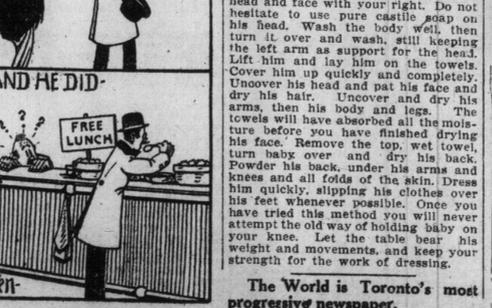

The congregation arose as the voice of the priest was heard at the great altar, and the opening sentence of the burial hymn, "O God of the living and the dead," was sung by Whose Hand, the hymn which Lord Strathcona recited a few hours before he died. The organ, headed by the officiating clergy, Bishop Ryle and Rev. H. Dix, director of the choir, wearing his cope, and the choir in their crimson cassocks and white surplices, preceded the coffin.

At its side walked the pall-bearers—Lord Aberdeen, Lord Lansdowne, Lord Lister, Lord Balfour, Lord Adam Smith, vice-chancellor of Aberdeen University, W. L. Griffith, the Duke of Argyll, the lord mayor, Lewis Harcourt, colonial secretary; Sir William Oser and Sir Thomas Skinner. A black velvet pall, on which in letters of gold were the words "Blessed be the dead which die in the Lord," covered the coffin, which was also surrounded by several wreaths. The 90th psalm was sung to Purcell's music, after which Dean Ryle, standing before the holy table, read St. Paul's wonderful argument for immortality contained in the 15th chapter of Corinthians.

"How Still and Peaceful is the Grave," a paraphrase from a portion of the book of Job, was rendered by the choir, followed by the Voice from Heaven to the music of Goss. The Lord's Prayer and two collects followed, and the final hymn, "Now the Laborer's Task is O'er." After the benediction, the organ spoke again in the "Dead March in Saul," during which the coffin was reverently borne out of the abbey.

SARNIA FEELING LACK OF HOTELS

Travelers Are Seeking Overnight Accommodation at Port Huron.

(Special to The Toronto World) SARNIA, Jan. 26.—The local street car company intends to put on a workmen's car early in the spring. The summer resort owned by the car company, on the shore of Lake Huron, will be fixed up as soon as possible, and the damage caused by the November storm will be repaired. A gang of men is at work repairing the hull of the steamer Imperial of the Imperial Oil Company fleet. Many of the night on the boat were badly buckled last spring, similar repairs are being done on the steamer Imperial. The work will cost several thousand dollars in every respect. Sarnia is short on hotel accommodation, and many travelers are crossing to Port Huron and putting up there for the night. One prominent manufacturer stated that he knew of twenty salesmen who stopped in the American city Friday night because they couldn't get accommodation in Sarnia. It is understood that a number of local capitalists are thinking of building a new hotel, which will be thoroughly modern in every respect. A scarcity of bricklayers is reported in the town. Builders cannot get enough men to fill positions, and are sending away for them. The large amount of work being done at the Imperial Oil Company's plant is believed to be responsible.

From Great Lakes To the Rockies

WOMEN SING THE PRAISES OF DODD'S KIDNEY PILLS

Saskatchewan Lady Adds Her Testimony to What Has Already Been Said of the Great Work Dodd's Kidney Pills Are Doing. CAESARVILLE, Sask., Jan. 26.—(Special.)—The scarcity of female help in a new country subjects the women of the prairies to unusual strain, and careful observation has established the fact that this strain first makes itself felt in the kidneys. For this reason Dodd's Kidney Pills are making an enviable reputation from the Great Lakes to the foothills of the Rockies. Everywhere you will find women singing the praises of the great Canadian kidney remedy that has banished their pain and weariness, and brought them back to health. Among the many is Mrs. Edgar Cowen, an estimable lady of this place.

"I have found Dodd's Kidney Pills very beneficial," Mrs. Cowen states. "If anything I can say will help any suffering, I am glad to add my testimonial to what has already been said." The kidneys strain all the refuse material out of the blood. If they are out of order this refuse remains in the blood, and becomes poison. That's why sound kidneys mean pure blood and good health. Dodd's Kidney Pills make sound kidneys.

FORGER TO BE HERMIT

Queer Sentence Passed on Californian. SAN JOSE, Cal., Jan. 26.—(Can. Press.)—Frank E. Murray, convicted forger, was sentenced today by Superior Judge Wm. Beasley to serve two years as a hermit in the mountains from here. Because Murray is fifty-eight years old the judge was not inclined to give him a jail sentence. One of the conditions of the sentence is that Murray may accept employment, whereby he must not visit a city or town in two years. The court will keep in touch with him during that time.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Kitchen Rules. MRS. YOUNG had not liked her middle-aged, next door neighbor one much when that lady had called on her, but now that the young woman had sprained her ankle and must sit in her sewing chair for a few days, she found this same "parakeety, neat old woman" a comfort and a help. For no girl could be had in the small town, and she came cheerfully, and put the little cottage in order in half the time it took the little bride.

She liked to come, too, and as she straightened things about, she said: "Never scrub your floorboards if you want them to last; wipe them with a sappy flannel cloth and dry them. And do tell, do you scrub this linoleum with a brush? Well, now, if I had such a floor covering I'd use ten years before it'd be as scratched as this, and you haven't had this ten weeks. You had ought to wipe it off with a mop and hot suds, and then dry it—but no brush. Then, when it gets dim, you just give it a coat of varnish and it will last you a whole life, most."

"And these bare steel knives must have been damp when you put them away; they had ought to be in a waxed paper to keep them dry. But now that they are rusted, I'd just admire to clean them, if you won't be spiteful." Permission given, she sifted a few ashes and hunted up two corse; she wet and dipped into the powder and scoured the knives with, the other she used for a polisher. The knives' silver handles she brightened with a chamolite. Her tongue ran on: "Most folks rub nice knives like these by wiping them on a towel. That always leaves damp streaks. They should be rubbed with soft, dry paper, and laid on a tray until they look dry."

"They should never be used about the stove; if you have no steel-hulls for cleaning your pans, use a nice clam shell. It's worth ten knives, any how, for scrubbing." The embarrassment Mrs. Young felt at having her careless housekeeping pointed out so bluntly had to melt away when she saw the neat old lady was delighted to put her kitchen things in order. Soon she was asking how to care for her tins and porcelain utensils.

"These tins are dull because you didn't use hot suds and hot rinsing water. Most likely you dried them in the oven after you washed them with a dry cloth, to be washed in hot, clean suds and scalded, and then rubbed with a dry cloth, to be kept bright. "Whiting is the best polisher; put a little on a flannel rag and rub it on with plenty of elbow grease, and they will look like new, right along." "Thanks," said Mrs. Young; "and how about the heavy iron skillets; they are so hard on my hands?" "Like as not, sniffed her neighbor. "You haven't no sal soda? Well, you must keep that on hand, and after your tins and porcelain are washed and dried and put away, put a lump of that in the water and scrub your iron ware with it and a long-handled brush. Rinse in hot water and dry on the stove. Clean frying pans look gray; yours look black and oily. I'll just clean 'em up for you, and then you'll have no trouble to keep them that way."

"When there is any grease in the pans or on the griddle wipe it off with a wad of paper before washing. "There is hardly anything in the kitchen that helps so much as plenty of clean, soft paper." "If you will come often," said Mrs. Young, "perhaps I will learn after all to keep my nice things in order." "Shucks, don't you worry a bit about learning," comforted the good old lady. "Why, don't you suppose someone had to tell me these things?"

EXILED MEXICANS ON PAY LIST YET

Huerta Troops Get Money for Fighting as Per Schedule Rates. EL PASO, Tex., Jan. 20.—(Can. Press.)—Altho they are to be sheltered and fed indefinitely by the United States Government, the Mexican soldiers at Fort Bliss, received from their own government today some of the pay due them for fighting before they crossed the Rio Grande. Each Mexican soldier received \$5, his first pay for months, and according to Gen. Salvador Mercado, the commander, the last. None of the foreign soldiers were permitted to leave the reservation to spend the money. An official census just completed by Col. Frederick Perkins shows there are now 5296 soldiers and refugees to be provided for. The officers total 238, The women number 1267, and the children 552. Bandits operating in Western Chihuahua state under Maximo Castillo are again creating terror among the American ranchmen according to reports received in Juarez, Castillo, who is operating independently of the rebels, was said to have threatened all Americans with death if they refused to give him their property. Gen. Villa has sent detachments to capture Castillo at Chihuahua, while his advance guard has reached Escalon, half way to Torreon.

#### New Ideas for Home Repairing

By Ann Marie Lloyd

It takes time to keep one's toilet silver in good condition, and nothing gives a room a shabbier appearance than a silver dressing table covered elaborately with blackened and tarnished silver.

One-third solution of oxalic acid is as good as anything to clean this silver. This is one part of oxalic acid to three parts of water. Be sure to allow the solution to touch only the silver. Keep it from the face of mirrors and from the bristles of brushes and the teeth of combs. After it has been applied wipe off with a cloth wrung out of hot water, and give a brisk polish with a mixture of alcohol and whiting applied with a chamois. The final polish should be with a bit of silk, which will remove all powder.

If there is a worn spot on the carpet or rug that is unsightly, it can be much improved by matching the colors in dye and going over the design with the right colors applied with a stiff brush.

Excellent mucilage, which leaves no mark after using, is made from gum tragacanth dissolved in cold water. Be sure the gum is perfectly clean and keep it covered after the water is added until it is ready for use. To prevent mold, add a few drops of oil of cloves. This is far superior to paste for scrap books.

There is no bleach that does as effective work as Javelle water, but it must never be used on colored clothes and it needs to be used carefully on delicate fabrics. Pour a pint of boiling water over half a pound of washing soda. Add to this a quart of boiling water in which is dissolved a quarter of a pound of chloride of lime. Stir till it is mixed. When it has stood long enough to settle, pour off the clear fluid, cork closely and keep in a dark place.

If there is a dent in your mission table you can easily steam it out. Soak a blotting paper in water, place over the dent and then dry it by a very hot iron. You may have to repeat the operation several times. If the dent is very persistent, let water stand over night in the depression, then proceed as above.

Upholstered furniture may be dry cleaned at home if one will only take time to do the work thoroughly. Mix equal parts of whiting and starch and cover all the soiled surfaces. Let it remain for a day and place in the sun. If there are places which show particular soil they should be wet with alcohol before the powder is applied. You need never be afraid of alcohol leaving spots or rings if you use it properly. After the powder has been on long enough to absorb the dirt and dirt, brush vigorously. Be sure to remove all the powder. If the furniture is mounted with a soft cloth dampened in alcohol.

Fannie Ward and Three of Her Remarkable Gowns.

### Fashionable Rose Tint Models Increasing in Favor

By MADGE MARVEL

ALTHOUGH it has been a season of pink in all shades, varying from the palest tint of the sea-shell to the deep heart of the rose, the spring-time will increase the use of this most becoming and flattering color. Even the changeable fashions, which are increasing each day in popularity, show rose and pink in a variety of combinations, as rose with green, pink and blue, deeper pink and gold. New lingerie emphasizes the use of pink in both crepe de chine and mull.

New Paris blouses are of pink batiste. New Palm Beach frocks are of rose linen. New lingerie gowns are mounted over pink slip. Pink roses encircle the

spring hats that are intended for the latter season. In short, it is a rose-colored outlook for the ones who scan the fashion horizon.

Fannie Ward, whose Paris gowns are as costly as they are beautiful, evidences a decided preference for pink in all its varying tones, and uses it in a variety of materials in the wonderful costumes with which she has dazzled the spectators in her latest play, "Madame President."

Three of these gowns are shown in the accompanying illustrations. The first one is of pink charmeuse in the loveliest shade of rose. The trained skirt is draped, and in the drapings the exquisite soft material catches varying lights and gives the effect of half a dozen variations of pink, from the palest blush to a deep rich tone that is almost corse. There is a narrow banding of sable on this skirt and at the sleeves that brings

out all the beauty of the color.

The minaret tunic is of rose point lace and the same lace forms the bodice with the wide kimono sleeves, and there is a wide sash of the charmeuse wound closely about the waist.

With this gown Miss Ward wears her pearls, long, lustrous strings, going twice around her neck and falling below her waist, and a hat with a veritable barricade of aigrettes at the back.

Also for wear with this gown there is an adorable wrap of rose pink velvet with sable used about the hem, which ends at the knees, as a finish for the sleeves and in a close band about the throat.

The wrap is in one piece, draped so skillfully that it gives the effect of voluminousness without bulk. It fastens with three chertite ornaments in a deeper shade of rose.

With this Miss Ward wears a close turban of black velvet with one saucy upstanding rabbit's ear directly in front and a smaller little ear at each side of it.

The gown shown in the third figure is a gorgeous affair of white velvet, so soft

and supple in quality that it seems more like chiffon. It is draped in the softest of folds that encircle the figure without beginning or end. There is the modish curve directly in front and a train which falls almost in front.

The tunic worn with this costume is a marvelous thing of rarest lace sewn with ermine-tails so tiny and applied with such skill that they seem at a distance to be part of the lace pattern.

The tunic is draped low on the hips in the Oriental manner, and is fastened at the side with a long scarf, and of the lace glittering with crystals. Even in this magnificent robe there is loyalty to her own, for, at the opening of the bodice, beneath the chiffon, is the shadow of pink tulle.

And in the hat, or perhaps it is more correctly termed a headdress, there is a draping of rose velvet to support two superb crepe plumes, one standing and the other placed at the opposite angle with the downward slant.

A bodice ornament of diamonds is worn with this costume as well as the pearls.

### Indian vs. White Man As User of Tobacco

By Dr. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (Johns Hopkins).  
Copyright, 1914, by Newspaper Feature Service.

FOR the sake of tobacco, Sir Walter Raleigh and Charles Lamb, as well as men since their time, have done everything but die. Savants, moralists, psychologists and medical doctors have fought a bitter and an eternal battle over its virtues and its vices. And statistics, like the dragon's teeth sown by Cadmus, can be summoned in martial array over night to prove either side of the tobacco problem.

Tobacco may be either the solace of the bachelor's reveries or the pernicious weed of the ministering angel, but it is as much outside the province of religion and morality as the poisonous habit of taking headache remedies, coal-tar dopes and coffee drinking.

There are all large questions for physiologists to docket upon, decide and discipline the public mind with. But they have nothing to do with ethics.

Felding was a devotee of the "glorious creature—who first discovered the use of tobacco!" He said its calm influence allows "the industrious to retire from business, the voluptuous from pleasure, the lover from a cruel mistress, the husband from a scolding wife, and I from all the world to my pipe."

What Tobacco Causes.

Just when a number of matchless American medical sovereigns and surprising native scientific "authorities" are pointing with pride to the noble, strong red man of America as the finest type of masculine kind, the originator of tobacco smoking; just when these same experts call attention to the fact that hospital records, mortality statistics, autopsy chronicles and Domesday Book contain an emphatic absence of all proof that nicotine or tobacco has ever presented any tangible evidence of human misery, along comes a "Tribune" among these medical minnows and demolishes with one blow their physiological house of cards.

Professor Frank-Hochwart, of Vienna, has established with certainty that neuralgias, absent-mindedness, loss of memory, psychic disturbances, a decreasing capacity to earn money, suicidal thoughts and hallucinations are directly due to the use of tobacco.

Boys and young men are dwarfed in the physique and in intelligence if they smoke or chew. Dr. S. Philip Goodhart, of New York, traces instances of awkwardness, mental confusion and inefficiency to the use of tobacco.

Excessive Use Disastrous.

Thus the newer psychological examinations show that the poisonous effects upon the muscles, sensations and thought prove Byron to have been a sane sufferer when he wrote: "Solitude tobacco" which from East to West cheers the tar's labors or the Sultan's rest.

As for the self-destructive effects upon boys and youths, who imitate the bombastic demagogues of their elders, who hold cigarettes, cigars and pipes in their mouths, they had better repeat Adam's experience in "As You Like It." "For in my youth I never did apply to my tobacco pipe, and I have since seen some of those tobacco pipes which from East to West cheers the tar's labors or the Sultan's rest."

At the self-destructive effects upon boys and youths, who imitate the bombastic demagogues of their elders, who hold cigarettes, cigars and pipes in their mouths, they had better repeat Adam's experience in "As You Like It." ### Great Novels in a Nutshell

#### "Ben Hur"

Condensed from the WALLACE novel by Anita von Hartmann.

NINETEEN hundred years ago a little Jewish boy named Ben Hur and a little Roman called Messala reared together in a beautiful garden in Jerusalem. One day Messala went away to Rome to become a soldier and Ben Hur cried as they said goodbye. Five years later, when Ben Hur was a tall, sun-browned lad of 17, Messala returned to Jerusalem, completely changed. Instead of the boy with kind eyes whom Ben Hur remembered, here was a haughty Roman who sneered at the faith of the Jews.

"You cannot understand me—I am an Israelite," Ben Hur told Messala. "We can never be the friends we have been—never!"

"So be it," drawled Messala. "Love is dead! War reigns!"

Next day Ben Hur and his little sister, Tirzah, watched from the roof of their home a procession in honor of the new Roman governor. As Ben Hur leaned over the parapet a loose tile slipped from under his hand and struck the ruler.

In an instant the house of the Hur was full of soldiers. Messala pointed out Ben Hur.

"Messala!" cried Ben Hur. "Save my mother and sister, I pray you!" Messala pretended not to hear.

"In the hour of Thy vengeance, O Lord," Ben Hur prayed, "mine the hand to put it on him!"

For three years Ben Hur served as a galley slave. Then a tribune adopted the young Jew and took him to Rome. When the tribune died he left his riches to Ben Hur, who at once set out to join a war expedition in Antioch. There he found a merchant called Simonides, once a servant of his father. Ben Hur found Simonides an old man, broken in body by Roman tortures, but mighty in spirit, and his daughter, Esther, a slender girl, very fair and sweet of face.

From Simonides' house Ben Hur went to the stadium where chariots were practicing for a great race. His eyes were attracted to the scarlet-clad figure of one charioteer. It was Messala!

Ben Hur turned away a herald shouted:

"The good Sheik Ilderim with four horses hath come up against the best, who will drive them to his satisfaction, to him he promises enrichment for ever."

"Come on, Peter," said Mary gaily, a partnership. It's a one-sided affair, with the responsibilities chiefly on the male side. I'm sorry Mary's a clinging vine.

Hereafter I take off my hat to the woman of sanity and grit and independence. The business of being a woman requires more brains and tact and sympathetic understanding than the clinging vine cares to develop.

"Peter," said my wife one evening, "let's take a sheet of paper and a pencil and plan all the dinners for next week. I want so much to know exactly what you want and to please you!"

I was pleased and gratified. To have Mary take such thought for my comfort was delightful in the extreme. Wherefore we instantly procured a sheet of paper and betook ourselves to the task with much laughter and foolishness.

"That's perfectly splendid!" exclaimed Mary radiantly. "Now I know, Peter, that I shan't make a single mistake, that I'll be having just what you like every night."

Now, the clinging vine is clever, too, in her way. By insidious flattery—and I bless her dear heart! Mary is an adept at it—she convinces the misguided male of the species that he is the poor fool doesn't look for an ulterior motive. It was a shock to me when eventually I discovered it.

**A Clinging Vine**

I HAVE married a clinging vine! And now for the first time in my life I realize just what it means. I have never been an ardent feminist, chiefly, perhaps, because I haven't thought much about it. With the primitive instinct of the majority of men, I have admitted the superiority of the feminine type of woman. And by feminine I do not mean feminine. There is a difference. I'm beginning to think it's quite as bad for a woman to be effeminate as it is for a man, it's a glory for her to be womanly and feminine.

My married experience, I take it, has greatly changed my views. Much as I love my pretty wife, the constant clinging of the vine has cloyed. It makes me irritable and saddles me with responsibilities of which I little dreamed in my pre-nuptial air-castles marriage.

### Daddy's Good Night Story

By GEORGE HENRY SMITH

BRER RABBIT was going along the path lippy-clip when he saw Judge Bear coming down the road. He sat right up on his hind legs and waited for the Judge.

"How do you do?" he asked of the Judge as he bowed very low so that his ears almost touched the ground.

"I'm going over to the cotton patch to get some cotton to put in my ears when I go to sleep. You better be glad you haven't big ears like mine," said Brer Rabbit.

"Yes, but I have mighty thick hair that bothers me some times; especially when bumble bees are around," answered the Judge.

"Don't speak about bees so loud," whispered Brer Rabbit. "I don't like those little fellows myself. They have hot places on them which burn my ears."

"Is that why you are going to put cotton in your ears?" asked Judge Bear.

"No, indeed," answered Brer Rabbit. "I'm going to put cotton in my ears so Mister Chipmunk won't tickle me any more when I go to sleep afternoons under the sassafras tree."

"Do you have to fill both ears with cotton?" asked the Judge. "You would be lying on one of them and that would save some cotton, I should think."

"I fill both my ears with cotton, for I am liable to turn over in my sleep and then Mister Chipmunk would be getting after the empty ear."

"Which sassafras tree is it you lie under?" asked the Judge.

"Why do you want to know?" asked Brer Rabbit, pricking up his ears. "I thought I might want to drop in by and by and see you when you wake up," said Judge Bear.

"I just guess I'll keep that for a little secret. You might tell Mister Jay Bird—not on purpose, of course, but then folks do tell things some times; they really do not mean to do any harm, but it is done, just the same."

"Come to think of it, I might want some cotton to put in my ears. Will you leave some under the sassafras tree by Huckleberry Creek?"

"Yes; I'll be glad to," replied Brer Rabbit.

"When he went to go under the fence to the cotton patch Brer Rabbit said to himself: "Now, what DO you think of that? Judge Bear got out of me where I was going to sleep. I'll have to fool him," and with that he hopped into the cotton field.

TUESDAY MORNING, JAN. 27.

FACTS FAVOR PURCHASE.

Over two hours' debate in the city council last night on a motion of Aldermen Wanless and Cameron elicited the fact that these gentlemen did not know everything about the matter they proposed to deal with. A good deal of similar information was brought to light in other quarters, but there was no wish on the part of anyone else in council to delay the course of proceedings in connection with the mayor's proposal to purchase the street railway.

Controller O'Neill assured the council that he had been in the negotiations and had on that account withdrawn from them. He knew, he asserted, that Sir William Mackenzie wished to gain entrance to the city for his radial railways, and that there was no clean-up of the franchises on that account. On being faced with the assertion that all the surface rights were being cleaned up, he insisted that the negotiations should cover the underground rights, as surface entrance privileges were now antiquated and worthless.

Mayor Hocken yesterday gave assurances that the agreement would be ready shortly, and it is clear from what Controller McCarthy said in council in reply to Ald. Cameron, that the actual terms of the sale will present new light to many people. It will be discovered, for example, that the price will have to be modified to meet the difference in time of the sale, which is calculated, as from July 1, last. The profits that are the intangible assets are much greater than the city experts estimated, so that the bargain will be even better than as first stated. All the facts are in favor of purchase.

UNITY IN DIVERSITY.

Those who object to a "checker-board" system in municipal government and municipal taxation in Ontario, should consider what is happening in the British Empire today. It comprises every variety of government except that of a self-contained republic, and every conceivable variety of taxation. There is the Commonwealth of Australia, modeled closely after the American Republic; the Dominion of Canada, with more limited provincial rights; the Union of South Africa, with the central government in almost complete control; the Dominion of New Zealand, a reproduction of the United Kingdom itself; crown colonies and dependencies with varying powers of self-government and military possessions under strict one-man rule. Each is confronted with its own difficulties and responsible for their settlement according to the measure of its responsibility.

As constituent parts of one empire, every community has an interest in what is being met and done throughout the imperial field. While not so much is known as ought to be, yet more is known than would otherwise be the case. Stray rivulets of information dribble along news channels, more of interest comes from the occasional visits of fellow-citizens from those distant communities and from the reports of Canadian travelers. But all the countries that acknowledge common citizenship and are working out their common destiny, can learn from one another, from mistakes quite as much as from successes. These opportunities assist in promoting the sense of imperial solidarity and extend the commonness of responsibility beyond local confines. On that account organizations like the Dominion Royal Commission can serve an important purpose.

THE MEXICAN SITUATION.

President Wilson is said to be contemplating a change of policy in connection with the Mexican situation, which makes only slow progress towards any real permanent adjustment. As matters stand, the Mexican dictator is in control of only part of the country, but it includes the capital, which gives him at least the advantage of being nominally the man in possession. The United States executive has refused to acknowledge Huerta on account of his reputed complicity in the death of Madero, and has caused it to be known that recognition will not be extended to any man who usurps the presidential office. With that resolve many will agree, but its acceptance does not bring the problem of Mexico nearer solution.

MORTAR KNIGHTS WILL ASSEMBLE IN TORONTO

Bricklayers' and Plasterers' International Body Reached Decision at Houston, Tex.

HOUSTON, Tex., Jan. 26.—(Special)—Toronto won the next annual convention of the International Bricklayers, Masons and Plasterers' Union here. The following officers were elected: President, William J. Bowen, New York; secretary, William Dobson, North Adams, Mass.; associate secretary, Allen Camp, Chicago; treasurer, Patrick Murray, Albany, N.Y.

A CYNICAL SITUATION

From The Montreal Financial Times, Jan. 24.

The situation which is generally understood to exist today in the afternoon newspaper field of Montreal, resulting from the reported acquisition by Sir Hugh Graham of a controlling interest in The Witness and The Herald, the sole competitors of his own creation, The Star-Bulletin in which acquisition is strongly confirmed by many developments of the past week—surely unique in the history of journalism. Montreal is a city in which the morning newspaper habit has never been very extensively developed, outside of the ranks of the press and professional men; up to a few months ago there had for many years been only one morning newspaper in the city, whose price, ranging at two cents and whose circulation was largely to the classes mentioned. Even now, with a new one-cent morning paper in the field, the Star-Herald-Witness combination constitutes a monopoly of the mechanism of information and opinion affairs, which could not be paralleled in any other city in the world.

As to whether such a situation can be permanent, it is not necessarily to be grave doubts. In any other city but Montreal, we would hardly be inclined to predict for a year's duration, the monopoly of a single newspaper, being reminded by water-families, invasions of our private affairs by Quebec Legation, and similar afflictions, and it would not, therefore, be surprising if it should last much longer here than it would elsewhere. Obviously the control by one mastermind of the entire group of "popular" organs of opinion in Montreal, supporting rival parties, advocating rival policies, involves a certain cynicism concerning the relation between the publisher and his public, which is not to be deplored. The exploitation of the public by the newspaper has made in the direction satirized by Arnold Bennett in "What the Public Wants" has never yet been surpassed in the history of the press. Monopoly of most other commodities can, when it becomes intolerable, be regulated by the state; it is difficult to see how a monopoly of the organs of opinion can be regulated by any state or any power. The prospects of exploitation which it holds out are unlimited. The exploitation of the work-journalist, deprived of an open market for the products of his brain and experience, will be serious enough, but it is not the worst. The exploitation of the advertising merchant, when it becomes intolerable, can, when it becomes intolerable, be regulated by the state; it is difficult to see how a monopoly of the organs of opinion can be regulated by any state or any power.

MIXED FARMING.

In the lecture on "The Romance of Agriculture," delivered by Mr. C. C. James at the university on Saturday night, there was much to give the farmers of Canada pause for reflection. Naturally enough the eyes of the outside world have been largely centred on the Dominion as a wheat producer and exporter, that being the product which, more than any other, is of universal appeal as the subject of either supply or demand. Canadian farmers, especially in the west, have concentrated their attention on wheat, and have neglected the more profitable market of mixed farming. It does appear not a little absurd that British Columbia and Manitoba should be dependent on imports of dairy products and vegetables, which they could themselves easily provide, and incidentally add rather than exhaust the fertility of the soil.

KING ALFONSO TO PAY VISIT TO ARGENTINA

Details of Trip Not Arranged by New Cabinet. MADRID, Jan. 26.—(Can. Press.)—Announcement is made in several of the Madrid newspapers of King Alfonso's projected trip to Argentina. Premier Dato is given as authority for the announcement. The minister of the interior, Jose Guerrero, said tonight that the trip was planned at the request of the ministry, but that the present cabinet had made no definite arrangements for it as yet.

THE SPIRIT OF ADVENTURE.

Sir Ernest Shackleton has been inundated with applications for places in his new expedition, which has for its object the crossing of the Antarctic continent. It involves a journey of 1700 miles without the possibility of renewing supplies at any pre-established stations. On this account it will be one of the most adventurous of enterprises, since until the travelers reach the pole they will pass through an entirely unknown country, by a wilderness of ice and snow can by any stretch of imagination be so called. Nevertheless, during as is the case, and poor the reward, save in honor, thousands are competing for the chance to risk their lives.

It has sometimes been said that the British race have lost their relish for deeds of high enterprise. Indeed, the observation has been made that "the reckless Englishmen who boldly sailed out from their little island to fight the Spanish Armada were long ago exterminated; an admirably prudent and cautious race has been left behind." This rather superficial judgment can hardly be supported. There has been no Spanish Armada to fight, just as there has been no Spanish Armada to fight, just as there has been no Spanish Armada to fight, just as there has been no Spanish Armada to fight.

## KINGSTON DOWNS VARSITY SENIORS

### Rough and Fast Game Goes to Limestone City Outfit—Nice Combination.

KINGSTON, Jan. 26.—(Special.)—In a game brimful of excitement, Frontenacs defeated Varsity in the Senior O.H.A. tonight by the score of 12 to 6. Half-time score was 6 to 3. Although the score was somewhat one-sided, Frontenacs had to fight for almost every tally, and the game was featured by many spectacular plays on both sides. Harvey Sproule was referee and had a rough time of it.

The ice was in great shape. Frontenacs started in at a great pace, and in two minutes Brouse scored the first goal by working the puck down the right wing. Varsity expected him to pass to centre, but the puck went flying into the net. Brouse took the puck down two minutes later and scored. At this stage both teams worked hard, and it took four minutes to make a score. Brouse intercepted a pass, passed to Crawford, who scored. After this score Varsity got their first look-in at the game. They showed great speed and pressed very hard. Pierce got possession of the puck and scored on a pretty shot.

Frontenacs played a rather loose game for a while. Wilson purloined the puck and found the nets for Varsity's second score. Varsity's third score was made on an individual rush thru the Frontenacs lines and made the third and last score for Varsity in the first half. Moore then got possession and passed to Crawford, who scored. Referee Sproule allowed it, saying it had resulted from a forward pass. The fans were very sore, and hissed. Several penalties were imposed. Nicholson, Brouse, McDowell and Pierce being at one time. At one stage Frontenacs had only four men on the ice. Kingston's fourth and fifth scores were made by Crawford on passes from Reid. Brouse then made a shot, which hit Armstrong's pad, and Stanton scored on the rebound in most spectacular fashion. This closed the scoring in the first half.

In the second half Brouse scored three, Crawford two, Gouinlock two and Stanton one. For Varsity, McDowell was the star, particularly in the second half. Stanton's work for Frontenacs was exceptionally good. Following are line-up and summary:

Frontenacs (12)—Goal, Cook; defence, Nicholson and Stanton; rover, Brouse; centre, Crawford; wings, Reid and Boyer.

## SINGLE RINKS ON SOFT ICE

Eight Games Decided, One an Extra End—The District Cup Draw.

The city single rink curling competition for the Canada Life trophy was played last night on soft ice and reduced to the eight. Peaker led off at Lakeview and it was tied on the 14th. Then Peaker scored one on the extra end. T. Rennie was behind in his game until the 13th, when he counted three and took the lead. Then he won by scoring two. Skip Munro falling to follow up the good work of the rest of his rink. C. Snow and W. H. Grant were always well up on the ice. T. Wilson and W. Scott. The rest of the games were rather one-sided. The fourth round has been ordered to be played tonight. The following are the scores:

## BRADLEY SIGNS LONG CONTRACT

Federal Baseball Team a Sure Thing for Toronto, Says Richard Carroll.

The Federal baseball forces started to gather in Toronto again yesterday and, according to the advance guard, they are here to stay. Richard Carroll stated last night in the King Edward Hotel that he has options on four sites, one of which will be selected this week. His conferees, B. Hepburn, M.P., and President Gilmore, will be here today to complete arrangements.

"A lot of stuff has been given out concerning us by organized ball interests that has no truth whatever in it," said Carroll. "They are having much trouble in signing players, and are taking this unfair method to cause a stampede."

The Federal circuit is an originally announced, via Toronto, Buffalo, Baltimore, Pittsburgh, Indianapolis, Kansas City, Chicago and St. Louis.

Carroll made the positive statement that Bill Bradley had been signed to a three years' contract to manage the Toronto Federals, and he defies anyone to deny it.

The Toronto promoters have assumed their obligations, declared Carroll, and the chance of the city being left off the circuit.

"What do you think of the Canadian Baseball League coming to Toronto?" Carroll was asked, and he merely replied, "The more the merrier."

## CANOE CLUB TURNS TABLES ON SIMCOES

Marriott's Pets Gave Paddlers Great Run for Their Money—Royals Beat Imperials.

Toronto Canoe Club and Simcoes put up a tidy battle at the Arena last night in the O.H.A. junior series. The teams played a close game at the Ravina rink on Saturday night and Simcoes won by 2 to 1. Last night the red rangers were on the long end, the score on this occasion being 2 to 1.

Lack of experience and weight cost Simcoes the game. They back-checked the winners, but could not stand the heavy checking of their heavier opponents and tired badly on end. With little more experience, which Teddy Marriott should give them by next season, the team from Ravina will be a hard proposition to beat in the junior series.

Hicks at rover was the best of the losers, but seemed unable to get in close on the T.C.C. defence. Every man on the forward line had the range of the goal, and no matter from what distance the shots came they were always dead on the net. Young, in goal, his head hardy coming above the top of the net, played an excellent game, and saved his team goals. Wagner at right wing scored two of the losers' goals, while Hicks notched the other.

The most of the members of the T.C.C. team tried to play the game alone, and the Simcoes defence generally stopped the forwards. Young, in goal, was able to shoot, Young at right wing worked hard all the time and was easily the best of the forwards.

The teams:

Simcoes (3)—Goal: Hayton; defence, Patton and Dynfield; rover, Hicks; centre, Brown; forwards, Goldsmith and Wagner.

Whitby (4)—Goal: Turner; defence, Mulvihill and Robertson; rover, Applegate; centre, Webster; forwards, Warwick and Young.

Referee—J. Moxon.

The summary:

—First Half—1. T.C.C. .... Webster ..... 13.00  
2. Simcoes ..... Wagner ..... 2.00  
3. T.C.C. .... Wagner ..... 2.00  
4. Simcoes ..... Hicks ..... 2.00  
5. Simcoes ..... Hicks ..... 1.30  
6. T.C.C. .... Young ..... 10.00  
7. T.C.C. .... Robertson ..... 5.00  
8. Imperial Bank were easy for the Royal Bank in their league fixture at the Arena last night. The score was 9 to 1, and is a good indication of the play. Schlegel of the Argonauts was the star for the losers, and rushed nicely. Most of his rushes, however, terminated before he had a chance to shoot, as the Royal defence men crowded him into the corners. If he did pass there was never a player up with him to make the play in centre ice. Riddell was the best of the winners, and played effective hockey, both offensively and defensively. The teams:

Royal (3)—Goal, Grant; defence, Davison and Morrow; rover, Riddell; centre, Washburn; forwards, Prangley and Brown.

Imperial (1)—Goal, Jones; defence, Schlegel and McKay; rover, Cathoun; centre, Traven; forwards, McKee and Gordon.

Referee—Buehah Davidson.

### CENTRAL SWIMMERS HAD REAL BUSY DAY

Saturday was a busy day for the Central Y. Swimming Club, both the junior and senior divisions being well represented. In the afternoon some 18 boys lined up for the swimming and 13 for the plunge. The 100 yards speed was the first on the program, Russ Bennett coming out first with Harold Morton and C. Harston close behind. In the long plunge, Billie Stephenson went in first, doing 32 feet and 38 inches, respectively. In the 50 yards speed, Willie Leslie swam as fast as a whale was chasing him, and won from B. Stephenson in the good time of 36.2. Freddie Sewell and Russ Bennett got together for 220 yards, and swam neck and neck for 150 yards, when Fred tried to swallow all the water in the pool, which compelled him to quit. Russ finishing alone. Diplomats were won by F. Ward, B. Bennett, W. Leslie, C. Harston, F. Sewell, A. Houson, B. Stephenson and H. Morton. In the evening the seniors got together for a team workout and general practice.

The 200-yard relay race was the best item of the evening. A team composed of F. Wood, R. Loundes, A. Reade and H. McKenzie, winning from B. team, composed of C. Farmer, A. Allan, R. Macadam and F. W. Young by six feet, in the good time of 1:53.3. Another practice will be held on Saturday next, when the officials hope for a full turnout of members.

### BALL RIVALS GOING TO LAW

CHICAGO, Jan. 26.—The first of the legal battles soon to be waged between the forces of organized and outlaw baseball will concern possession of the services of three players, Ward Miller, King Cole and Wm. Killifer. Miller, the outfielder, whose desertion of the Chicago Nationals for the St. Louis Cardinals was announced recently, stepped into the limelight today when President Murphy of the Chicago Club announced he was prepared to sue for an injunction to prevent Miller from playing with the rival league. Murphy also said he would sue the player personally for damages should the latter play with St. Louis.

### BAPTIST BASKETBALL

The standing and scores are as follows:  
Won. Lost. For. Agt.  
Beaverly ..... 5 1 270 144  
Dovercourt ..... 3 3 209 181  
Jarvis ..... 3 3 209 181  
Dovercourt B ..... 2 4 190 205  
Ancon ..... 0 6 153 322  
Indian Road ..... 39 Jarvis ..... 25  
Dovercourt A ..... 49 Colosse ..... 25  
The above scores are the results of two hard, fast games on Royal Temples, five furlongs, on Saturday night. The game between Indian Road put one over on the fast Jarvis, who expected to win. This game was a close one, and Jarvis was good that he could not work together at all. Jarvis, who almost they were decidedly unlucky. Lee checked Clarke, so that only two baskets resulted. Instead of the usual six or seven. McCutcheon and Chadwick furnished a good exhibition of fast-work for the Indians on the forward line, and aided by Graus' good shooting from away out, soon had a comfortable lead, which they increased in the second half. Half-time was 21-15.

### UPPER CANADA ARE GROUP CHAMPIONS

Beat St. Mikes in Deciding Game for Preparatory School Group.

By taking their return game with St. Michaels yesterday afternoon by the score of 5 to 2, Upper Canada won their group and will now go into the second round. It was a far better game than the score indicates, and the play was fast in patches. However, the speed that both teams showed at the start soon told, and early in the last half it was very evident that both teams were feeling the strain.

Reitsman and Dean were, as usual, the stars for the winners, while Austin, Doyle and O'Neill shared the honors for the green shirts. The U.C.C. boys opened the scoring early, and at half-time the score stood 3 to 0 in favor of them. However, this did not scare the Irishmen, and they went at it with a will. The game became rough, and they simply revelled in the stiff going. However, they failed to score, although they were making circles around their opponents, and U.C.C. recovered and came back strong. Just before time was called the scoring started again, and both teams tallied twice.

### BALMY BEACH GUN CLUB

The regular weekly shoot of the above club was held as usual on their grounds Saturday afternoon. A large turnout of members and friends were present, and many good scores were made. A.M. Bond winning the spoon with 35 straight. Summary:

# FIRST NIGHTS AT THE TORONTO THEATRES

## WEEK OF OPERA IS INAUGURATED

**La Gioconda Given at the Alexandra by National Opera Company.**

## CLAESSENS SANG TITLE

**Her Voice is Clear and Sweet and She Sings Like a Virtuoso.**

(Continued From Page 1.)

tinuous starrng, there is no belittling the excellence of the more important members of the cast. Of these Marie Claessens merits particular attention. Her singing in this city last year occasioned much favorable comment and the intervening period goes far towards justifying that impressions. Claessens sang on occasion last evening with the abandon of a virtuosa, and her voice is clear and sweet. In her department, however, an even more agreeable improvement is noted. She has risen to a more generous conception of her powers and in certain feminine roles, where formerly a little cold, she shows touches of a better instinct.

Linked about her are Marie Rappold and Rosa Oltzka, both of whom interpret feelingly and with a distinct sweetness of vocal expression the roles of Gioconda and La Cleca. The periods when these three voices rise together constitute a most happy combination of female voices.

There is in the general work of the cast an appreciable evidence of artistic ability. Stilted and self-conscious poses are infrequent and as they were arms and voices operate in unison. The ensembles in some scenes are tremendous in volume and well balanced. The choruses have the snap and precision of a well-trained choir and produce a round sonority of tone.

The equipment in nearly every particular is suited to bringing out the good points of this Puccini opera. The scenery in the second act is somewhat striking in character but helpful to the situation. The usual daub effects in background are missed.

The vocal attainments of the members approach in the majority of instances the characters they might logically be expected to represent. These secure, with his burly baritone carried frequently into a rollicking strain, makes a typical Barnaba, and infuses considerable passion into his rendering. Oltzka also vocally robust rounds out her contralto tones to the elevation of her part.

The tenor equipment of "La Gioconda," in the persons of Martino and Fermo, is of light Italian calibre. Both voices have a light singing quality, which is more satisfactory in the upper registers. In one of the arias, at least, Fermo sings with lyrical sweetness.

The dance in which Ethel Gilmore appears does not aim at anything classical in interpretation. It is merely a graceful, girlish little scene, rather gaudy in spirit and signifying the joy of life and youth. It is performed with grace, not to say agility, and ends in a frolic.

As a first night offering "La Gioconda" is well chosen. It combines the features which one likes to find in grand opera. The chorus invite a virility of tone and strength of expression, and the solo, duet and trio occasions draw out the strength of the leading singers.

The department of some of the supporters might be questioned. There is a little hardness in response on occasion, and extra standing of the vocalists. The costumes on the attendants in act 3 make one think of animated barber poles by their appearance. But from the standpoint of general consistency and well-thought action, the production attracts nothing but appreciation. It spells well for the week.

## GOOD COMEDY PROVIDED BY HONEYMOON GIRLS

Show at the Gayety Theatre This Week is Well Worth Seeing.

"The Honeymoon Girls" with Phil Ott the attraction, at the Gayety Theatre this week, is a good show, and patrons of the popular play house will do well to see it.

Phil Ott, as Fritz Von Hazenpfeffer, and Billy Inman, as Mike Casey, supply the brand of comedy which keeps the audience in good spirits throughout the entire performance, while a splendid chorus beautifully gowned ably assists in the rendition of the various catchy songs and dances that make up the bill. A whistling specialty by Dave Kinder is a decided novelty, and will be greatly appreciated by the patrons. The stage setting, too, is exceptionally good, and several scenes were applauded heartily by the audience.

**Messiah Choir at St. Barnabas.**  
A new cantata by Fred W. Peace entitled "Morn of Glory" will be given by the Church of the Messiah choir, under the direction of R. G. Stapella, tomorrow evening at 8 o'clock at St. Barnabas' Anglican Church, Danforth avenue.

The soprano solos will be sung by Jessie Plaxton, the brilliant young singer who created such a favorable impression at the National Chorus concert on Tuesday evening when she, at the last moment, took Marie Rappold's place in the "Jubilate Amen." Eliza Mitchener, a promising young pupil of Miss Crossley's, will be entrusted with the contralto part, and Edgar Barker and Richard A. Stapella the tenor and bass roles respectively. J. Percy Miller will preside at the organ.

## ST. GEORGE'S MINSTRELS.

The young men of St. George's Church will present a first-class minstrel show in the school house, John street, north of Queen, Thursday and Friday evenings of this week Jan. 28 and 29, 1914. The proceeds are in aid of the church poor fund.

## BASEBALL IN IRELAND WITH SONG AND STORY

Doolin and McCool at Shea's Are Typically Irish and Know About Fairies, Too.

## "SEYMOUR'S HAPPY FAMILY" REALISTIC PRODUCTION

Clever Little Dogs in Good Act—Other Features of Strong Bill of Vaudeville.

Not baseball in Ireland, as much as song, step and story (as they are sung, danced and related in the little green hills across the sea) are the acceptable offering of Doolin and McCool at Shea's this week. Doolin is typically Irish and while he knows a good deal about baseball, he is familiar too with fairies and with the tunes the bagpipes play. Their notes set hands and feet in motion and applause from the audience is won. His partner, McCool, has a fine tenor voice, and the partnership presents a most enjoyable act.

"Seymour's Happy Family" is composed of the cleverest little dogs to be found anywhere. They go thru a drill, perform all kinds of tricks, and even take part in a chorus. They are decidedly entertaining.

Joseph Hart's offering, "How Hofmeister Did It," by Bernard A. Reinold & Co., is a pleasing little domestic comedy that introduces laughter and tears and ends happily.

"The Green Beetle," a Chinese farce, is well staged, and cleverly played, York to be pleasant. The speaking voice of Louis Cosavant as See Yip is so remarkably rich as to be exceptional.

Bert Errol, with the Pictorial voice, gives a wonderful impersonation, making up, voice, walk and gestures all leading one to believe that a prima donna, standing on the platform, but when in response to treacherous recalls "Bert" bows, surrounded by his headgear and reveals his own short natural head covering, the transformation seems almost impossible of belief.

The Vivians, sharpshooters of international fame, prove a delight to those interested in rifle and gun.

Other features are Ted and Ethel Doolin, attractive versatile entertainers, and Grace Wilson, clever in song and recitation.

## JOLLY GIRLS BURLESQUE HAS MANY GOOD POINTS

Handcuff King and Tangoists Are Among the Features This Week

"The Jolly Girls," a very good burlesque production of the Progressive Circuit, opened at the Star Theatre yesterday afternoon. They present a two-act musical burlesque entitled "On the Boulevard," which is replete with all that can be desired in the way of mirth-making jokes and singing. Such well-known burlesque notables as Mul Clark, German comedian; James Duffy, George Hart, Irene Herrera and Bert Sheehan; tangoists; Bery Melton, Patricia Mackay, and Cummings, who lays claim of being the "handcuff king," go a long way toward making the show a success. The chorus consists of a large number of pretty and well-costumed girls.

## FURTHER ADVENTURES SHOWN AT THE STRAND

Story of Kathryn is Being Unfolded to Audiences That Crowd the Theatre.

Large audiences at the Strand yesterday were thrilled by the further unfolding of "The Adventures of Kathryn." More particularly at the final denouement was there that suppressed emotional atmosphere which indicates the utmost intensity of feeling.

The new reel shows the heroine successful in obtaining a week's respite from the dreadful destiny provided for her—that of marrying the arch plotter, Umballah. The week passes without relief and as Kathryn still refuses the hated alliance, a desperate issue is reached. She is submitted to two ordeals with wild animals. In the first she is made a human bait in a leopard trap, but is rescued by Bruce, an American sportsman, who arrives from the far interior, in the nick of time. In the second Kathryn is left in the arena while a horde of famished lions is loosed. Then comes the great climax, when a series of all buried mines are exploded carrying with them death and destruction. As the scene dies Bruce catches Kathryn in his arms.

## Mendelssohn Choir.

A distasteful feature of this season's Mendelssohn Choir concert is contained in the brilliant choral novelties which are distributed over the various parts of the cycle of next week. On Monday evening the choir will sing Moussorgsky's gorgeously scored "Joshua," for contralto and baritone chorus and large orchestra; also Novowizje's, "The Slavik Folk Scenes and Verdi's beautiful "stabat Mater." The most telling portions of the Manzoni Requiem, Tschakowsky's impressive "capella "Cherubim Song" will also be sung on the opening evening of the series.

The most important novelty for Tuesday evening is Kremser's "Prinz Eugen," a naive and highly descriptive work for men's chorus and orchestra, which created so great a sensation at the last Vienna Festival. A beautiful love song, "Mein Schatzlein," by Max Regar, will be sung in German by the combined choir, whose chief offering for Tuesday will be Wolf-Ferrari's masterpiece "La Vita Nuova." On Wednesday evening the two principal British novelties of recent years, Elgar's "The Music Makers" and Coleridge Taylor's "A Tale of Old Japan," will be sung. The soloists employed being the same as on Monday evening, namely, Miss Florence Hinkle, soprano; Miss Mildred Potter, contralto; Mr. Ross Miller, tenor; and Mr. Horatio Connell, baritone. Thursday evening's miscellaneous program, besides offering choral novelties by Sibelius, Bridge and Julius Harrison, will include a number of works chosen from the programs of the three preceding performances.

The sale of seats to non-subscribers begins at Massey Hall on Wednesday morning at 9 o'clock. Good locations are still available for all performances.

## KIPLING'S POEM A STRONG PLAY

"A Fool There Was" the Offering at the Grand.

## OLD ROSE COLOR SCHEME

In First Act is Beautiful—A Song Hit Arrives at Last.

From the opening bars of the rollicking and tuneful overture to the drop of the curtain on the finale of the third act of "The Doll Girl" at the Princess last night the new musical comedy was a hilarious and melodious success. "Come On Over Here" was whistled and hummed down King street after the performance, and it is as seductive in its way as the waltz songs of past seasons. The success of the piece does not depend upon the plot which is a mere shred of a thread, but it mixes up a French marquis and his nephew, a theatrical manager, and other professionals, an English nut, the belle of a Picardy village and her mother, and the usual comedy chorus, all young and good looking and ravishingly costumed. The first and third acts were models of beautiful scene sets, and the degree of taste expended on the ladies' dresses is away beyond the average.

A new color scheme in old rose in the first act is enchanting, and the Paris costumes are of real beauty. But all this is on the surface. The meat of the piece is cooked to a turn and appetizing for all who love a laugh. The capacity audience fairly roared over such originals as Richard Carle (the marquis), Will West (Romeo), Charles McNaughton (Buffon), Hattie Williams, fresher than ever as Rosalilla, and that nimble nixie, Dorothy Webb, with her sprightly dancing and dith singing. There is excellent business with her Julia, the big doll, which had duplicate costumes in every act of Yvette's own. In addition to these Robert Ewert, as Tiborius, the nephew, Yvette's lover, with a sympathetic tenor voice, contributed materially to the success of the piece by his singing. Dorothy Webb begins with a skipping song, and shortly after Hattie Williams introduces the captivating "Come on Over Here," which is encored several times. Mr. Ewert's solo has the same distinction, and then Richard Carle in a "kiss" song and a twin dance makes a hit. Hattie Williams returns with "Come on Over Here" and is again encored. In the second act Yvette and the Marquis have a very funny duet "Papa," in which the doll figure, Hattie Williams, has a double song, and perfect scream of a scene with Richard Carle in which she wows him with all the ardor of the Spanish "punch bowl slide" and the side is the least, most ethereal dance America has ever seen. Most of its steps are done in the air.

There's a new dance that puts all the "troits," "glides" and "buzes" into the also-danced class. It's called the "punch bowl slide" and it's the latest, most ethereal dance America has ever seen. Most of its steps are done in the air.

Warner Oland as the husband gave a delightful as well as interesting portrayal of a character, while Florence Auer as the wife, with her ability the equal of many of the leading women of the stage. It is a well-balanced act all the way thru and the production is complete in every detail.

"A Fool There Was" should prove a strong attraction at the Grand all week and the matinee act on Wednesday and Saturday as women will be interested in the story.

A Dance That Makes You Gasp. There's a new dance that puts all the "troits," "glides" and "buzes" into the also-danced class. It's called the "punch bowl slide" and it's the latest, most ethereal dance America has ever seen. Most of its steps are done in the air.

There's no danger of any other person almost certain death to anyone but Fred Stone.

## TWO STRONG FEATURES AT GARDEN THEATRE

Moths and the Mutual Girl Very Popular With Moving Picture Audiences.

Two of the strongest feature films yet presented at the Garden Theatre were sufficient to fill that popular theatre with a throng of audiences twice yesterday. In "Moths" a feature which appeals to the best class of patrons. Its story moves rapidly and with a sustained interest which compelled the close attention of the audience, while the reproductions of the various scenes are wonderfully vivid and well acted. The latter portion of the entertainment featured the famous "Mutual Girl" in a variety of pleasing situations. As the "Mutual Girl" is a widely advertised and very popular figure with moving-picture audiences, her reception yesterday was warm and promises to arouse a great deal of new interest.

## Tetrazzini and Ruffo.

Since the announcement in Saturday's papers of the program which Tetrazzini and Ruffo will sing at tomorrow night's joint concert in Massey Hall, there has been a continuous rush for seats. All day yesterday three ticket-sellers dealt out coupons and the tremendous capacity of the big auditorium will be tested to its limit at 8:15 tomorrow evening. No concert without a great Brindley (Drinking Song) from the Thomas opera, or Hamlet, it is hard to believe in a Hamlet singing a drinking song, even when the Hamlet is a famous old opera, but when Ruffo outpours it with the wonderful cadenza in which no singer can rival, it arouses enraptured enthusiasm which carries his auditors off their feet. In opera Ruffo acts most with his tones, and in the concert hall the exuberance and abounding vitality of his temperament keep him the tonal actor still.

As a relaxation after their long rainy journey from Minneapolis, Mme. Tetrazzini and Signor Ruffo with their party spent two hours at a Yonge street moving-picture theatre last night.

# A WONDERFUL COMBINATION

SIGNOR TITTA RUFFO

## TETRAZZINI--RUFFO AND THE NEW HEINTZMAN & CO. CONCERT GRAND PIANO

Mme. Tetrazzini and Signor Titta Ruffo arrived in Toronto yesterday (Monday), accompanied by Yves Nat, the brilliant young pianist, who is on tour with these famous artists as solo pianist and accompanist. They spent a good part of the day in the handsome piano salon of Ye Old Firm of Heintzman & Co., Limited, testing out the new concert grand piano just completed, and that will be used at the great Tetrazzini-Ruffo concert of this week for the first time.

All three were most enthusiastic and unstinted in their praises of this beautiful instrument, placing it first among the various world-known pianos that it has come to Tetrazzini and her associates to use.

Tetrazzini will use only a Heintzman & Co. piano in her Canadian tour this season, as at other times.

## PACIFIC COAST SWEEP BY DESTRUCTIVE STORM

Snow, Rain and Gales Caused Widespread Loss and Peril.

SEATTLE, Wash., Jan. 26.—(Can. Press.)—A severe storm swept over the Pacific northwest today, snow and rain being accompanied by a high wind, which at some places attained a velocity of 60 miles an hour. The storm on Puget Sound was the most severe recorded since the establishment of the weather bureau here. The wind blew 50 miles an hour at Cape Flattery and 54 miles an hour here. A portion of Eugene, Ore., was flooded today by the overflow from Amazon Creek, a small stream flowing thru the town. It was reported many people in the lower part of the town were marooned in their houses. Telephone and telegraph lines between Portland and Salem were badly crippled for a time today.

## "DUMMIES" EMPLOYED TO SECURE RICH COAL LAND

U. S. Government Makes Sensational Charges in Alleged Alaskan Conspiracy.

SEATTLE, Wash., Jan. 26.—(Can. Press.)—The prosecution in the case of the United States against Charles F. Munday and Archie W. Shields, charged with conspiracy to defraud the government of Alaska coal lands introduced today a great mass of documents from the Juneau land office and the office of the surveyor-general of Alaska, to prove the location of the lands by alleged "dummies" and their transfer to the Alaska Development Company, of which Munday was the moving spirit. Judge Nettler overruled the motion of the defence for an instructed verdict of not guilty. The defence contended that the indictment was invalidated when the government three years ago agreed not to press a certain portion of it.

## MOVE THE COURTS FROM CITY HALL

Law Association Thinks Separate Court House Should Be Built.

## TO DEVISE A REMEDY

Committee Was Appointed to See City and County Councils.

A movement is being launched by the County of York Law Association to have the various courts removed from the city hall, and to have a new court house erected, because of the fact that the sessions are impeded by the noise in the city hall. The following resolutions were passed at the annual meeting of the Law Association, held in the city hall yesterday afternoon: "That the administration of justice is impeded by the noise surrounding the present court rooms in the city hall, as well as by the improper vault accommodation for court records. The following officers were elected for the ensuing year: M. H. Ludwin, president; Angus McMurphy, vice-president; George E. Campbell, treasurer; J. D. Falconbridge, curator; W. A. Foster, secretary; Beverley Jones, historian; T. H. Barton and F. R. Reine, auditors; D. F. Simons, Charles Elliott, Shirley Denison, H. M. Mickle, G. E. Smith, J. E. Day, E. Hearn, D. Urquhart and Edward Balfour, trustees.

F. G. Roach spoke at the request of Chief Justice Falconbridge on the accommodation in the city hall, and also requested that the court rooms be removed from the city hall, and that a new court house be erected. A letter along similar lines from E. F. B. Johnson was read.

## LEAKING SCHOOER IN PORT

WILMINGTON, N. C., Jan. 26.—(Can. Press.)—Leaking badly and damaged by one of the most severe northeast gales of the year, the four-masted schooner, J. Holmes Birdall, of Wilmington, Capt. Douchy, bound from Jacksonville to Boston, was towed into Southport late today by the revenue cutter Seminole. The Birdall had a cargo of railroad ties and is waiting advice from her owners as to repairs.

## AND THE WORST IS YET TO COME

## FIRE IN GALT LIVERY.

GALT, Jan. 26.—(Special.)—Fire broke out today in the livery premises of Fire Chief Keyes, and, working its way to the mows, caused considerable damage before being overcome. Six streams were played on the flames, and only an excellent pressure enabled the firemen to get the blaze under control. The loss will amount to \$1000.

NEW IMPERIALISM TOUCHES THEATRES

British Actor Plans All-Red Circuit Embracing Overseas Possessions.

OTTAWA, Jan. 26.—(Can. Press.)—"We are not satisfied with the condition of the theatre in Canada. It is too much at the mercy of speculative men, who send you what they choose and who are not in touch with Imperial-Canadian ideals in this country. You have too many companies, which when they come across the line from the south suddenly become all British, and who very frequently are not British at all; and stars who are one week born in Calgary and the next in Indianapolis."

BATTLE ON FREE FOOD LIKELY TO BE DELAYED

Liberal Caucus Today May Reserve More Specific Amendments Until Later.

An Ottawa despatch to The Star yesterday says: "At the Liberal caucus on Tuesday the admirable moving of other amendments after that of Sir Wilfrid Laurier has been voted on will be discussed. This vote will be done Tuesday evening. The decision may be to reserve the more specific amendments relating to such questions as a free food and free wheat until a later stage of the session."

SELLING GROCERIES IN PROHIBITED HOURS

Three Dealers Fined—London Early Closing Bylaw Creating Lots of Trouble.

LONDON, Ont., Jan. 26.—(Can. Press.)—There has been a lot of trouble here of late over the recently established bylaw compelling all grocers to close at seven, including Saturdays. After the bylaw had been passed many small grocers complained that it was ruining their business, in stores which combined the sale of meat and canned goods. As a result of this three dealers were fined one dollar and costs this morning, by Magistrate Judd, who ruled that a store could sell "groceries" within prohibited hours.

ADD ANOTHER OFFICIAL TO H. C. O. L. COMMISSION

J. W. Vincent Appointed to Visit Toronto After Quebec City.

OTTAWA, Jan. 26.—(Can. Press.)—Frank A. Henniman, assistant deputy minister of inland revenue, has been added to the high cost of living commission. The board is anxious to complete the enquiry as soon as possible, and it was decided to add another member. The commission expects to visit Montreal, Quebec City and other points in Quebec Province next week.

LONDON LABOR MEN WILL PETITION BECK

Individual Appeals to Be Made to Local Member Urging Passing of Workmen's Bill.

LONDON, Ont., Jan. 26.—Three thousand letters will be sent to Hon. Adam Beck, M.L.A., asking that the Workmen's Compensation Act, as framed by William Ralph Meredith, be passed by the provincial legislature. The appeal will be unique in the history of London labor circles, every union man being requested to direct a personal appeal to the local member.

PUGSLEY AND MONK ARE STILL ON THE SICK LIST

OTTAWA, Jan. 26.—Hon. William Pugsley has been ill at his home in St. John for the past month and it is understood that his condition is such that it may be another month before he will take his seat in the house. Hon. F. D. Monk is still ill, it is understood, a sick man, and his friends say that he may not be able to take his seat. Two other members absent thru illness are Mr. W. M. Martin of Regina and Mr. Richards of Prince Edward Island.

TWO DOLLARS FOR ONE DOLLAR

Big New York Production and Company Coming to the Grand Opera House.

"Ready Money" with the big New York cast and production, has been secured by Mr. A. J. Small for presentation at the Grand Opera House next week. This is the first engagement this famous company will play at less than a two dollar scale of prices, and Mr. Small had to offer special inducements to Mr. William A. Brady to obtain the troupe for Toronto. The sale of seats is now on, and the enquiries for reservations indicate capacity audiences at every performance.

BIG ORANGE CROP IN PACIFIC FRUIT BELT

Citrus Growers Rewarded After Three Lean Years—Record Year Estimated.

CHICAGO, Jan. 26.—(Can. Press.)—After three years of disappointment, Pacific Coast citrus fruit growers this year have produced a bumper crop, according to a statement today by E. O. McCormick, vice-president of the Southern Pacific Railway. This year's crop of oranges alone, according to Mr. McCormick, will be sufficient to provide at least 15 oranges for every person in the United States. Estimates at present placed the California shipment at 40,000 cars, more than double that of a year ago and more than has been sent east any year in the life of the industry. The 40,000 cars would average 400 boxes each and every box would contain between 90 and 100 oranges, making approximately a billion and a half oranges shipped.

ARRAIGNED IN NEW YORK MUST ANSWER TO FORGERY

Frank A. Henniman Charged With Uttering Cheques Drawn on a Montreal Bank.

NEW YORK, Jan. 26.—(Can. Press.)—Frank A. Henniman, alias Frank Ernschaw, was today arraigned before United States Commissioner Shields on the charge of having committed forgeries in Canada aggregating \$1950. In the complaint made by Richard J. Newberry, senior British vice-consul at New York, it is charged that Henniman, on Dec. 10, 11 and 12 last, at Montreal, uttered three cheques, totaling \$1950, purporting to be signed by Odile Henuset and drawn on a Montreal bank. Henniman, alias Ernschaw, waived examination in extradition proceedings and consented to return to Montreal to answer the forgery charge.

STRATHCONA'S LAST GIFT MADE DAY BEFORE DEATH

MONTREAL, Jan. 26.—(Can. Press.)—How Lord Strathcona, only the day before he died, personally called \$46,000 to the governors of the Royal Victoria College, was told by William Peterson, principal of McGill University, at a memorial service held here today attended by the students. TRIES TO SAVE ANOTHER BOTH LOSE THEIR LIVES

AMSTERDAM, N. Y., Jan. 26.—(Can. Press.)—Oscar Miles, a gate-tender, and Miss Minnie Bauman were instantly killed this morning at a West Shore Railroad crossing in this city by a light engine. The gates were not in working order, and Miles rushed to warn Miss Bauman, who was slightly deaf, when both were struck.

RAILWAY IMPROVEMENTS IN CAPE BRETON

SYDNEY, Jan. 26.—The work of improving and preparing the Intercolonial Railway for the heavier traffic which is expected next season is going steadily along. The first diversion of the line in Cape Breton, section is to be made in the section from North Sydney to Leitchers Creek. Instead of coming from North Sydney Junction, the line will follow the shore to Sydney Mines, through North Sydney, and meet the main line at Leitchers Creek. This will cut out the present train from Sydney Mines to the Junction, and the delay at this point, and will greatly improve the service.

CHARGED WITH BLACKMAIL

MONTREAL, Jan. 26.—(Can. Press.)—R. M. Curran and Martin Seneca, two detectives employed by the Dominion Temperance Alliance, were today arrested on a charge of blackmail. The complaint against them is of J. P. Parker, owner of the Parisian Cafe, who says they said they had evidence against him of selling after hours, but would get out of town for \$20 each.

FALL THRU AIR HOLE TWO MEN ARE DROWNED

Sailor Tries to Walk Across St. Clair on Ice and Goes Under—Indian Meets Same Fate.

WALLACEBURG, Jan. 26.—(Can. Press.)—Last evening Michael E. Callahan, aged 18, a sailor, started to walk across the River St. Clair on the ice from Port Lambton to Robert's Point, and falling into an air hole, was drowned. While a gang of men dragged for his body a hat and basket were found near another air hole, and were identified as having belonged to Henry P. Johnston, an Indian, who had been missing since last Thursday, when he started to cross the ice from Port Lambton. Both men belonged to Wallaceburg.

# NEWS FROM THE CITY HALL

## COUNCIL MEMBERS WANT TO SEE SIGNED AGREEMENT OF PURCHASE

**Alderman Singer Advises That Discussion Be Dropped Until Agreement is Brought Down—'We Are Talking in the Dark,' Says Hiltz—Church Motion Swamped.**

Only five members of the city council answered Controller Church's roll call at the meeting last night, when there was a division on his motion to abandon the negotiations to clean-up the franchises. Nineteen members voted to go on with the negotiations. There was a full council. Ald. Maguire did his utmost to increase Controller Church's support and had to see the diminution of an already small minority.

There are left six who are trying to prevent the people having the right to vote on the clean-up of the franchises. They are Controllers Church and O'Neill, Aldermen Rowland, Meredith, Graham and Maguire.

All thru the lengthy debate the six who tried to prevent the question being decided by the people spoke their little pieces as they had been prepared for them.

Ald. Wanless moved that the negotiations for the clean-up of the franchises be extended to include the radial franchises outside the city limits. He repeated a conversation he had with one of the expert valuers (evidently John W. Mayes) to express his contention that the valuation of the surplus profits is an "infernal problem."

"Just to Kill Time," Controller Church interjected. "I can't see that there can be any clean-up of the franchise unless we buy up the radials outside the city limits," Ald. Wanless declared, but when he added that fifteen millions would be quite enough for the railway properties in and out of the city he was generally challenged. "If negotiations fall we should build the tubes," he said.

"We have spent enough money to wait until the agreement of purchase is brought down," said Ald. D. Spence. He scolded the council for talking too much.

"The price is too high and it is not a clean-up," Ald. Cameron asserted, but when challenged by Controller McCarthy he took refuge in the explanation that he is not a lawyer.

"The agreement of sale will give the city complete control of the streets, crossing and all," Controller McCarthy assured the council.

"Will underground franchises be included?" Controller O'Neill asked.

"The Controller O'Neill motion that the special committee confer with the Retail Merchants' Association upon having the hours of retail clerks reduced, was adopted.

McCauley's motion that the city should buy the property owners, was adopted.

Education Commission. Referring to the report of Judge Winchester upon the accounts and contracts of the board of education, Ald. Wickert suggested that the council should have a committee substituted for the board.

Ald. Maguire put thru a motion that the railway board be asked to order night service on the Metropolitan in North Toronto.

Ald. Wanless and Wickert were appointed to the treasury board.

## COME HERE TO LEARN

Mayor Graham of London, Ont., had a seat beside Mayor Hocken at yesterday's council meeting.

All Ontario recognizes that one has to come to Toronto to learn civic government," he said.

be ready for the next meeting of council. A committee of citizens need not be appointed, for it would not have full data. I believe that public sentiment approves my suggested appointment of a committee to study the matter.

"As to the value of the surplus profits which are doubled again in the next seven and a half years. I intend to have the agreement of purchase completed, brought down to this council and sent on to the provincial authorities."

"Mr. Geary should be instructed to stop work on the agreement of purchase until the committee of citizens reports," Ald. Maguire said.

"We should sit tight until the agreement of purchase is completed and we know what we will get for our money," Ald. Smith advised.

"Talking in the Dark." Ald. Hiltz declared: "Until we see the agreement of purchase we cannot talk and vote intelligently."

Ald. Singer urged deferring discussion until the agreement of purchase is brought down. "Is this council going to pass judgment upon something we have not seen?" he asked.

Controller Simpson was interrupted frequently by Ald. Maybee while talking on the question. "This is a sample of the hoodlumism we get in this council," the controller threw at Ald. Maybee. There were cries of "Retract!" but Ald. Maybee accepted his rebuke for infraction of the rules and the matter was dropped.

"We should wait for the agreement of purchase," Ald. Whetter urged.

"We should drop the whole miserable affair and go to the railway board for relief," Ald. Graham said.

"You Talk Too Much." Ald. Wanless spent enough money to wait until the agreement of purchase is brought down," said Ald. D. Spence. He scolded the council for talking too much.

"The price is too high and it is not a clean-up," Ald. Cameron asserted, but when challenged by Controller McCarthy he took refuge in the explanation that he is not a lawyer.

## CLAY BOTTOM PROVIDES THE FINEST ANCHORAGE ON JAMES BAY

Alternative Proposals as Regards the Placing of Line With Respect to Waterpower and Directors.

The attention of the Ontario Government is being directed to Moose Factory as the James Bay terminus of the Timiskaming & Northern Ontario Railway. In this regard, J. L. Englehart, chairman of the T. & N. O. Commission, says: "If there is a harbor on James Bay or Hudson Bay, that harbor is at Moose Factory, the only true harbor, notwithstanding what our friends to the east of us say. The bottom is good clay, and nothing is better for anchorage than clay."

A report on the extension of the T. & N. O. Railway to James Bay has just been issued. Two routes have been investigated. One of these is described as the east route, and the other as a west route.

## BUSY COUNCIL MEETING DID A DEAL OF ROUTINE

Arthur Lepper Honored for Brave Rescue—Leave of Absence for Cameron.

At yesterday's council meeting, Arthur Lepper of the civil health department, was presented by Mayor Hocken with a Royal Humane Society bronze medal for bravery. On the night of Aug. 20 last three young men were in bathing off Fisherman's Island, when a storm blew up and they were unable to get ashore. Mr. Lepper swam out to them and dragged them ashore, one after another. One of the rescued was too far gone to be resuscitated. Alex. and John Lapp are the rescued who survived.

Revive Committee. Ald. Dunn moved that the committee on legislation and resolutions, abolished two years ago, be revived. The vote was favorable to the introduction of a bill.

Commissioner Harris wrote that the civic survey officials have in their report upon the works department not presented complete information in their possession and have made statements not in accord with facts.

These bills were passed: To acquire land for extension of Earl street westward to Jarvis street; to issue debentures for purchase of Mimico Radial line, and to round the corners of King and Queen streets at Sunnyside for the approach of the new radial.

Ald. Cameron was granted a month's leave of absence.

Treasury Board Augmented. Two more members of the council are to be appointed to the treasury board.

A further grant of \$2000 was given the Social Survey Commission. The health is to be given a \$4500 Russell ambulance. Mrs. George Nixon was given \$1092, a year's salary of her husband, a sewer inspector who was killed.

Pension for Civic Employees. Controller O'Neill's motion that a special committee confer with the Pension and Sick Benefit fund for civic employees, was adopted.

Controller Simpson's motion that the special committee confer with the Retail Merchants' Association upon having the hours of retail clerks reduced, was adopted.

McCauley's motion that the city should buy the property owners, was adopted.

## MOOSE FACTORY BEST TERMINUS FOR ONTARIO GOVERNMENT ROAD SAYS COMMISSIONER ENGLEHART

Clay Bottom Provides the Finest Anchorage on James Bay—Alternative Proposals as Regards the Placing of Line With Respect to Waterpower and Directors.

The attention of the Ontario Government is being directed to Moose Factory as the James Bay terminus of the Timiskaming & Northern Ontario Railway. In this regard, J. L. Englehart, chairman of the T. & N. O. Commission, says: "If there is a harbor on James Bay or Hudson Bay, that harbor is at Moose Factory, the only true harbor, notwithstanding what our friends to the east of us say. The bottom is good clay, and nothing is better for anchorage than clay."

A report on the extension of the T. & N. O. Railway to James Bay has just been issued. Two routes have been investigated. One of these is described as the east route, and the other as a west route.

The east route is the most direct. By it it will be possible, as far as present information goes, to follow very closely the Sudbury-Nipissing boundary. To reach a port on the south shore of Moose, the line would be kept east of the west branch of the French River. The distance would be about 160 miles. This is the shortest possible route. Compared with any other there would be a great saving in bridges, the only one of importance being the Abitibi crossing near Jaw Bone Creek.

This line, keeping so far to the east, would be at a considerable distance from all the large water power sites. The last sixty miles would be thru very wet muskeg, as the drained area along the lower part of the French River extends only 100 to 500 feet from the shore. There would be a very limited supply of timber. The local supply is very scanty, and the line is too far away from the larger rivers to better timbered areas to the south.

There would be two summits between Jaw Bone Creek and Little Abitibi, and between Little Abitibi and French River. These being higher than any points on the west route, would not call for any gradients.

The entire route may be conveniently divided into four sections: From Cochrane to the north boundary of Colquhoun, twenty-seven or thirty-three miles, according to the route followed; from Colquhoun to the northern limit of good agricultural land, forty-three miles; thru the transi-tion area, fifteen miles; and across the coastal plain, 100 miles.

Water powers of great magnitude will be rendered available by the construction of a railway," states the report. "Sufficient power for operating purposes could be easily developed in any time by any means desirable to substitute electricity for steam power."

## HUDSON BAY COMPANY'S SHIPS DISCHARGED THEIR CARGOES AT MOOSE FACTORY HARBOR MANY YEARS AGO.

Regarding the depth of the water in James Bay in the vicinity of Moose Factory, the report states: "The radius of sounding in the open sea, of channel between outer buoy and Sandy Island may be summarized as follows: Four miles of from six to twelve feet at low water of spring tides; two and a half miles with from fourteen to twenty feet of water, three and one-half miles with from eighteen to twenty-five feet and one mile with from sixteen feet of water off the end of Middleboro Sands to twenty-four off the point of Sandy Island.

"The shallowest water occurs at the bar one mile inside of the outer buoy, five and three days before she could over the bar, and in two years she had to wait nine days, in three years four days, in four years two days, in five years one day. The number of days elapsing between the departure of the packet on board and the arrival of the ship may be taken as the time lost in waiting for a sufficiently high tide to enable her to pass over the bar.

"Out of a total 68 years in which the record of the departures is complete, the ship was enabled to pass out the same day in 7 different years, on the next day in 9 years, on the second day in 16 years, on the third day in 8 years, on the fourth day in 7 years and in from five to eight days after the packet was put aboard in the other 9 years. In 22 years the Lady Head was once delayed for eight days in getting out, twice delayed for six days and twice for five days, three times for four days, five times for three days, five times for two days and four times she went out the same day the packet was delivered. This represents a delay in getting out of the Moose River of 67 days in 22 years, or an average of three days per voyage. The delay occasioned the Lady Head when entering the Moose River in 21 years totals 70 days, or an average of 3 1/3 days per voyage."

## MOOSE FACTORY WILL REGAIN THE POSITION OF IMPORTANCE IT HELD BEFORE THE C.P.R. CAME.

Before the building of the Canadian Pacific Railway, the report continues, "when all of the territory tributary to James Bay carried on its trade thru that outlet, Moose Factory was the natural distributing centre. The building of railway lines to the north, whose natural route is along one or other of the large rivers which have their confluence in the estuary of the Moose, must some day bring it again to this position.

"The records of '50' years' traffic, when Moose Factory occupied this position, show how important an increase of a few feet in the depth of water of the bar at the mouth of the Moose River would have been to ships making this port. For 58 of these years we have complete records of the ship's arrival both outside and inside the bar. In only three years was the ship able to come in over the bar on the same day that she arrived outside; in 17 years she came in the next day after her arrival; in 9 years the second day after; in 8 years the third day after; in eight years the fourth day after; and in 10 years it was necessary to wait from five to twelve days. For 21 years the records of the arrival of the Lady Head are complete. In different years this ship, drawing about 15 feet, had to wait twelve, eleven, eight, six,

five and three days before she could over the bar, and in two years she had to wait nine days, in three years four days, in four years two days, in five years one day. The number of days elapsing between the departure of the packet on board and the arrival of the ship may be taken as the time lost in waiting for a sufficiently high tide to enable her to pass over the bar.

## LABOR SITUATION IS NOT OVERBAD

Those in Close Touch With Unemployed Say Hysteria Has Been Active.

## NO SUGAR IN COFFEE

Yonge Street Mission is Criticized—Good Work Goes Begging.

Agents and others in close touch with the unemployed situation in Toronto at the present time, claim that it is no more acute this year than others, but give as a cause for the difficulties of the unemployed, the fact that last June, July, August and September were bad months for the workers.

From some of the men in the various employment agencies comes the story that at the present time there is a great deal of hysteria connected with the unemployed situation, and that the outlook for a good year beginning about the middle of February is very bright.

More announced that the parks commission will supply work for 250 men today, while the work department is taking on more men every day.

A demonstration of the unemployed will be held tomorrow, when the men will assemble at the armories, and after marching thru the principal streets of the city, will return to the starting point. A mass meeting will then be held.

## BANANA GROWERS OBJECT TO REDUCTION IN PRICES

Jamaica Planters Say Trading Companies' Course is Unfair to Them.

KINGSTON, Jamaica, Jan. 26.—(Can. Press)—Jamaica planters are protesting against the action of banana companies trading here in reducing prices by five dollars per hundred bunches. They declare that the freight rates and market prices do not warrant this reduction from the annual contracts heretofore existing.

The contracts now offered by all the fruit companies are identical and the planters allege this denotes a combination to control prices.

## UNCLE WAS WISE BOUGHT UP LAND

Bay Street Property Once Easily Acquired, Now Worth a Fortune.

## NO ONE SEEMS TO KNOW WHO OWNS IT NOW UNCLE IS DEAD.

An injunction is being asked before Justice Middleton in the non-jury case, by Harry C. Snider, Toronto, the Canadian executor of the will of the late Thomas A. Snider, against Mrs. Mabel Carlton, New York, and the Central Trust and Safety Deposit Co. of Cincinnati, the American executor, to restrain them from placing a mortgage of \$1000 on the building at 79 Bay street, Toronto.

While the action is in the form of an injunction, it was made for the express purpose of obtaining a correct reading of the will of the late Thomas A. Snider, who is an uncle to Harry C. Snider and Mrs. Carlton.

Mrs. Carlton and her brother, T. E. Snider, were the heirs to the estate, each receive one-half. Mr. Snider went deeply into debt and in order to pay it off gave his right of ownership in the estate to his uncle, Thomas A. Snider. The latter erected a building on the land and received an annual rental of \$1000. He gave Mrs. Carlton \$200 as her share each year, and finally gave her \$20,000 in consideration of her right to half the estate. At that time the property could not sell for \$4000, but it is now worth \$100,000.

Since that time the uncle has made many wills. Mrs. Carlton claims that she still is heir to half the estate, and because of this that the injunction has been asked. She has already placed one mortgage of \$1000 on the building.

The case will continue today.

## WILFRED WARD'S LECTURE

Noted Biographer Will Speak at Loretto Abbey on Friday.

The public will have an opportunity on Friday afternoon next of hearing Wilfred Ward, the biographer of the late Cardinal Newman and Manning. He will give a lecture at Loretto Abbey to the students, and his subject will be "The Four Cardinals." It will be a rare opportunity for those who can hear the great English writer. The lecture will commence at 3 p.m.

Women will find more news of interest to them in The World's magazine page every morning than in any other paper.

## REDISTRIBUTION AND BALM BEACH

Ratepayers' Association Want Two Wards and Four Aldermen.

## ADDITION TO ST. AIDAN'S

Will Build New Parish House Costing Twenty Thousand—Other News.

For some time past the ward redistribution question has been under discussion by the Beaches' Association and yesterday afternoon a large number of ratepayers attended the council meeting at the city hall to discuss the redistribution of the ward.

The redistribution was informed by Mayor Hocken that the city council would ask instruction from the city council to have the matter referred back to the ward redistribution committee, the protest was forthcoming from the council, so the matter goes back to the committee for reconsideration.

Advise Deputation.

Ex-Alderman F. H. Baker, a Balm Beach ratepayer, stated to the World yesterday that as the former report that the ward would be divided into two wards was evidently not satisfactory he thought it was practically certain that Alderman Smith's motion for a redistribution of the ward was a failure.

Mr. Baker said that the ratepayers now have a chance to appear in a large deputation and make a statement regarding the redistribution of Ward One.

The deputation was informed by Mayor Hocken that the city council would ask instruction from the city council to have the matter referred back to the ward redistribution committee, the protest was forthcoming from the council, so the matter goes back to the committee for reconsideration.

## WANT RED LIGHTS ON FIRE ALARMS

At Last Fire, Citizens Ran to Station, Ignoring Fire Alarm Boxes.

## NEWS OF EARLSCOURT

Some Real Estate Sales, Concerts and Church Social Meetings.

Three hundred and fifty feet of hose was used on the fire at Ravensden avenue Sunday night by the Earlescourt fire department. This is another case in which the city fire department and city water was used to put out a fire in the city.

A suggestion made by an Earlescourt resident last evening might be taken advantage of by the city; that is, the placing of a red light or the painting of the words "fire alarm" on the hydrant light poles upon which the fire alarm boxes are fixed; also a large light put outside the fire station in Earlescourt with the word "fire station" painted on the globe.

The constable took the man to the Earlescourt station and plainclothesmen Hess and Acting Detective Crooner were dispatched to the address, 303 Perth avenue, given by the man as his home. They returned with arms laden with new household hardware of every description, comprising brass hinges, floor plates, switches, glass ornaments, carpenter's tools and every conceivable article which was capable of being moved, the value of which would amount to at least \$200. When asked how he came in possession of these spoils, the man, who gave his name as Austin Nicholson, a carpenter, confessed to having removed them by stealth on Sunday night and during the night, and appeared yesterday on a charge of theft. He was remanded for a week, and the material is now lying at No. 2 Station awaiting claimants.

Death of Mrs. Anson.

The death occurred yesterday of Mrs. Elizabeth Anson in her 69th year. She was a native of Scotland, and was formerly a resident of Woodstock. She had been ill for some time, and died at her late residence, 383 Clendennan avenue, tonight.

The St. John's branch of the A. Y. P. A. held its annual skating party last night in the church rink, St. John's road. About 75 young people enjoyed a great and enjoyable evening, and partook of an excellent supper afterwards in the clubrooms of the rink.

Camp No. 1, White Heather, has opened its season at the G. R. C. camp, No. 3, G. R. C., and Court Toronto Junction held their meetings last night in St. James' Hall.

## MAN CAUGHT WITH GOODS HE STOLE

Constable Alexander Made Smart Capture in Ward Seven on Sunday Night.

## OTHER DISTRICT NEWS

Mrs. Elizabeth Anson Called by Death—Funeral Takes Place Tomorrow.

Officer 264 was responsible for a neat piece of work in the capture of the thief who has been pilfering hardware and carpenter's tools from new houses in West Toronto for the past six months. On Sunday night, about nine o'clock, while patrolling his beat on St. Clair avenue, near Hounslow Heath road, Alexander noticed a man on the other side of the street with a suspicious bulge under his overcoat and a red handkerchief hanging from his pocket. The constable questioned him, and on receiving no reply opened his overcoat, disclosing a large roll of burglar and some electrical fittings suspended from the man's neck.

The constable took the man to the Earlescourt station and plainclothesmen Hess and Acting Detective Crooner were dispatched to the address, 303 Perth avenue, given by the man as his home. They returned with arms laden with new household hardware of every description, comprising brass hinges, floor plates, switches, glass ornaments, carpenter's tools and every conceivable article which was capable of being moved, the value of which would amount to at least \$200. When asked how he came in possession of these spoils, the man, who gave his name as Austin Nicholson, a carpenter, confessed to having removed them by stealth on Sunday night and during the night, and appeared yesterday on a charge of theft. He was remanded for a week, and the material is now lying at No. 2 Station awaiting claimants.

## TOWNSHIP COUNCIL TO PLAN SEWERAGE

As Requested by Commissioner Harris—Engineer Instructed Yesterday.

## COMMITTEES APPOINTED

Considerable Business Was Left Over for Next Monday's Meeting.

While no special action regarding special legislation towards getting city improvements in the congested suburban districts was taken by the Township Council yesterday, a resolution was passed instructing Engineer Barber to make a survey and prepare a plan of sewerage to be required in the township for a distance of 1000 feet north of the township limits, which the latter stated that if the township undertook to have the plan prepared, it would have to be connected with the city sewer system at an expense of \$100,000. There are twenty-six streets in which sewers will be required between Yonge and Dufferin streets.

The firm of New Theatre Bean were granted a permit for the erection of a new theatre in Mount Dennis. An application was received for street lights on Coulson avenue, Walmer road and Spadina road, where there are churches, and the congregations want the streets lighted. Reeve Syme promised to look into the matter.

Two committees were appointed to look after the east and west sides of the township. The committee for the east side was composed of Messrs. J. W. Jackson, W. C. Wilkinson, and J. H. Miller, and the committee for the west side was composed of Messrs. J. W. Jackson, W. C. Wilkinson, and J. H. Miller.

The Mount Dennis Ratepayers' Association sent a letter asking the council to remove the name of the street, which was a source of conflict with city street names, and also to lend every assistance towards getting a fixed assessment on the company's factory at Mount Dennis which had been prepared. After some discussion the council decided to remove the name of the street, and the latter getting a fixed assessment of \$100,000, five years at \$20,000, and ten years at \$15,000.

Votes for Women.

A communication was received from Margaret Gordon, M.P., chairman of the municipal franchise committee, asking the council's support in a vote for women bill, which will come before the legislature this session.

A by-law was passed to erect a school building in S. S. No. 27. The building will be located on Torrancia avenue, Todmorden.

It was decided that the township employees would be paid twice monthly.

A letter was read from Township Solicitor J. R. L. Starr, stating that the application of the township to the city for use of city water by connecting with the main owned by Robert Davies had been refused by the city. The letter was filed.

The regular meeting of the council will be held next Monday, when all these matters will be discussed.

TODMORDEN.

A sleighing party has been arranged by the finance committee of St. Andrew's church for tomorrow night. The sleighs will leave St. Andrew's Hall at 7:30 p.m., and on returning a social will be held in the hall, at which refreshments will be served.

A flock of wild ducks was seen in the district traveling north. This is very unusual, the earliest month of the year in which they have been seen before being April.

NORTH TORONTO.

The North Toronto branch of the Y. M. C. A. will hold an open night for the young ladies and gentlemen of the district on Friday, at eight o'clock. Weather permitting, there will be skating on the new rink, and refreshments will be served.

## DAMAGE ACTION NOW IS SETTLED

E. A. Butler Got Three Hundred and Seventy-Five Dollars.

## BUDDING HIGHWAYMAN Got Nine Months—Another Deputation to Board of Control.

E. W. D. Butler of Grace Terrace, Moore Park, who was injured by a fall on a defective sidewalk near the Moore Park bridge, the accident took place on July 29 last, and Mr. Butler, who is a real estate and financial broker, was unable to attend to his business for three months and his right shin was badly hurt by the fall. The city admitted liability and \$375 and costs was agreed upon as a settlement between the two parties.

Three different ladies have been held up in this district by a young boy named Fred Eckert. The boy held the ladies up with a revolver and then took their chaincases. The police court yesterday received nine months in the Central Prison.

Want Transportation.

A large deputation from the Moore Park Ratepayers' Association are going to the board of control tomorrow at 11 a.m. in connection with transportation facilities for Moore Park and North Toronto. It was suggested at a previous meeting of the ratepayers that a car line be laid down the parallel road to the Moore Park road and then a Summerhill avenue street car or Glen road, where connections could be made with either Yonge or Church street cars.

Mr. Godson, who is the contractor for the Moore Park sewer on McMillan avenue north of Summerhill avenue, which will serve the eastern section of Moore Park, has commenced to assemble his plant. A toolhouse is being constructed and work will shortly be commenced.

KETLEBY.

Mrs. Grubb will read a paper on "Life of Laura Secord," at the regular meeting of the Ketleby Branch of the Women's Institute tomorrow evening, in the Temperance Hall.

## PAST YEAR MUCH BETTER THAN LAST

Annual Meeting of Albion and Bolton Agricultural Society.

## G. DOWNEY, PRESIDENT

Last Year's Overdraft of Two Hundred Dollars Wiped Out—Balance.

The Albion and Bolton Agricultural Society have had a most successful year. The auditors' report was read at the annual meeting of the society and shows that last year's overdraft of \$200 has been wiped off and a balance on hand. The new officers are as follows: Hon. President, R. Blain, M.P.; J. R. Fallis, M.L.A., and Hon. Mr. Downey, president; Geo. Downey, vice-president; James W. Man and D. B. Kennedy, treasurer; Robert Smith, secretary; P. N. Levins, auditors; J. H. Bolton and C. L. Gott, grounds committee; James Ruston, A. Norton and D. B. Kennedy, directors. A. Norton, James Ruston, Alex. Goodfellow, Bert Mellor, W. H. Monkman, J. McCallister, W. Little, N. Downey and Alex. McKee.

This year's fair will be held on Monday and Tuesday, September 28 and 29.

## DEER PARK

There will be a meeting of the congregation of Deer Park Presbyterian Church this evening, for the purpose of organizing the churches of that district with a view to helping the social service commission meet the problem of unemployment in the down town parts of the city. The North Toronto district is practically free of ice harbingers that are apparent in the city thru unemployment.

## STOUFFVILLE

Reeve Saugster's brother, Dr. W. A. Saugster, has been unwell for some time and quite unable to attend to his professional duties. Dr. W. A. Saugster will therefore be unable to give the opening session of the county council the close of the session, but what is apparent in the city thru unemployment.

## WHITBY

The men of Whitby will meet tomorrow evening at eight o'clock in the council chamber to discuss the need of a recreation room for the young men and boys. The County of Ontario Old Girls' Association is desirous that everyone interested should attend.

FOREIGN SELLING DEPRESSED WHEAT

Australia and Russia Offer Cut Rate Prices—Other Grains Off.

CHICAGO, Jan. 26.—Evidence that Australia and Russia were underselling the United States, had a bearish influence here today on the price of wheat. Largely in consequence the market, although steady at the close, was 1/2c to 3/4c down, compared with Saturday night.

Failure of the Liverpool wheat market to respond to Saturday's advance on this side of the Atlantic led not only to general selling here, but also to enquiries as to the reason for the unusually independent course of prices at the British port.

The fact developed that offerings at Liverpool have been much more liberal than of late and were decidedly cheaper.

Australian cargoes appeared ready to be obtained at a discount from figures current in Chicago.

Mild temperatures and a snowfall throughout much of the winter crop region, gave wheat further impetus to a decline.

LIGHT AND SHADOW

A lesson of perseverance lies in Dumond's great masterpiece.

Columbus at Salamanca

(PARIS SALON, 1908.)

Even the lighting, sombre over the heroic figure of Columbus, glaring over the skeptical throng of learned doctors, conveys in some subtle way the contrast of present difficulty with future certainty.

The painting is a gem from the collection of John Wanamaker, and well worth the effort of a visit. Come in the morning when the crowds are least dense.

A Sweeping Half-Price Day in Millinery

Every colored, trimmed hat will be sold tomorrow at exactly half the prices now marked upon the goods. No change will be made in the tickets on the hats, but you can walk right in and choose what you want and have the price made by the attendant.

This does not apply to Black Mourning Hats, on which no price change can be made.

Also at half price all shapes in velours, beaver, plush and velvet; all our children's wear.

Some of the prices as now shown are as follows:—

White and Black Beavers, now \$1.00. Velvet and Plush Hats, now \$1.00 and \$1.95. Children's Bonnets, now 25c to \$1.00.

Trimmed Hats now \$1.00, \$2.50, \$5.00, \$7.50, \$10.00, \$15.00 and \$25.00.

Many of these prices have already been reduced from the higher figures of the early season. To-morrow you can take your choice at just one-half these prices, as we take stock to-morrow night and wish to clear the remaining floor stock at any price.
