The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

**Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".**

**Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Her ships were then manned entirely by Canadians

There are 8,700 Ships under the Canadian Flag to-day, with a personnel of 15,000

The value of the Merchant Fleet of Canada is \$250,000,000.00

Through lack of interest of Canadians in their Maritime affairs these ships are neither officered nor manned by Canadians

To-day the protection of Canadian Trade Routes is not given by Canada

The burden of the British Navy is **Seventeen Dollars** per Head of the British Taxpayer

The burden of the Canadian Navy is **Twenty-five Cents** per Head of the Canadian Taxpayer

—A tribute from the French writer, VERNEDÉ.

# THE GOVERNMENT OF CANADA HAS ACCEPTED THE RESPONSIBILITY

of providing a Defensive Navy, of augmenting the Merchant Navy, of maintaining ports and lighthouses, and undertaking regulations for the Conservation of National Sea Power.

It is the responsibility of private enterprise to own Merchant Ships, find cargoes, and from profits by the freights, provide sea transportation.

## THE CANADIAN PUBLIC'S RESPONSIBILITY IS TO INSIST

Upon the development of our Sea Heritage.

to enlighten people upon the importance of the sea; so that Canadian products may be shipped, through Canadian ports, in Canadian ships, officered and manned by trained Canadians.

to encourage and to undertake the training of Canadian lads to man Canada's Navy and Mercantile Marine.

—to formulate a fundamentally sound policy for the training of our present sea-faring population, to meet an emergency, so that Canadian overseas commerce will be adequately protected.

—to support facilities for making the Sailor's life ashore endurable.

—to provide for dependents of those who died to protect Canada, Nationally, Imperially and Commercially.

These objects can only be achieved through an organization representative of public responsibility and outside party policies.

## TO CONTINUE THE SEA-CONSCIOUS SPIRIT IN THE PEOPLE

*"There must be a beginning in any great matter . . . ."* —SIR FRANCIS DRAKE.

The map of the Dominion shows at a glance the extreme difficulty of spreading a Sea-Conscious Spirit amongst Canadians.

This difficulty must be overcome; and those who are inspired with the importance of the task, must continue to shoulder the burden.

## TO CONTINUE THE SEA-CONSCIOUS SPIRIT IN THE SCHOOLS

*"There must be a beginning in any great matter, but to continue unto the end."* —SIR FRANCIS DRAKE.

As a Merchant Navy is the first step to sea power in any nation,

So is the seed-sowing of fundamental national ideals in the schools, the first step to national greatness.

There is no medium for national propaganda, comparable to the school child.

The Department of Education of nearly all the Provinces—have, through the endeavours of the Navy League, incorporated Naval History as a definite part of their instruction.

## TO CONTINUE THE SEA-CONSCIOUS SPIRIT IN THE GOVERNMENT

*"There must be a beginning in any great matter, but to continue unto the end, until it be thoroughly finished . . . ."* SIR FRANCIS DRAKE.

The need for Sea-Conscious Spirit in the Government was felt when the Naval estimates were placed before the House of Commons this year.

Irrespective of party, members were, as a whole, apathetic to formulating a Canadian Naval programme.

Without an informed constituency in the country, inspired by the Members and friends of the Navy League, it would have been almost impossible to have laid the foundation of a Defensive Naval Policy.

The League, accepting its public responsibility, stimulated such a pressure of public opinion upon Members of the House of Commons that they quickly sensed the National Spirit in the matter, and passed the Naval estimates.

## TO CONTINUE TRAINING 2,000 CANADIAN LADS FOR THE SEA

*"There must be a beginning in any great matter, but to continue unto the end, until it be thoroughly finished, YIELDS THE TRUE GLORY."*—SIR FRANCIS DRAKE.

It takes six times as long to train a seaman as it does to build a ship.

Maritime strength cannot be achieved in a year or even a decade. Its growth can only be commensurate with the development of sea-conscious spirit in the nation.

The continuous training of over two thousand Canadian lads, in the Boy's Naval Brigades of the Navy League of Canada, is to-day having an effect on our maritime future.

Only through this medium can the foundation be laid of trained Canadian seamen for our ships.

Since May 1, sixty of these lads have completed their training and passed into the Canadian Merchant Navy. As this goes to press, fifty more are on the way to England to man the new ships of the re-organised Royal Canadian Navy.

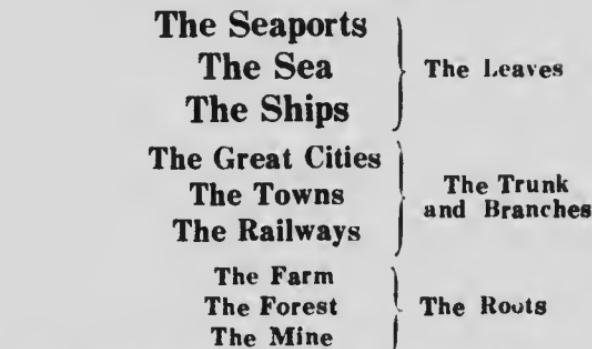

Under the guidance of Experienced Sea Minds, it is being planned to give chosen lads from the Boys' Naval Brigades an ocean-going education second to none, so that Canada will have efficient master seamen.

## **TO CONTINUE TO RELIEVE DISTRESS OF DEPENDENTS OF MERCHANT SAILORS. THEY DIED—WE LIVE**

The grants of the League for relief in Canada up to date amount to \$30,250.

After this year, the League expects to cease asking for funds for the relief of the Canadian dependents of Merchant Sailors who were killed on Active Service. With the Trust Funds now in hand, together with the sum set aside in the Budget, to be raised by public subscription, it should be possible to establish an endowment, the income from which will be sufficient to provide these dependents with a pension equal to that granted to the dependents of Naval men killed on Active Service.

As many of these dependents are young children, the endowment must continue for a number of years, until the children become self-supporting.
