Toronto's Real Problems

The City of Toronto and the people who live in the suburbs have to deal with conditions and not with theories. The City of Toronto is growing, and has been growing for years at an enormous rate. It is growing faster to-day than ever and notwithstanding recent annexations thousands of people are now living in the suburbs who work in Toronto or the industries connected with Toronto. They cannot get houses to live in in the city. They have to go out where they can get them, and if they are thrifty enough to build houses for themselves they must buy lots in the suburbs; they cannot pay the city prices for land—and there is little land in the city available.

These people want water; they want streets; they want single fare transportation; they want police and fire protection, and they want roads; and they are willing to pay for them. A water famine threatens Toronto and its environs. A special body of experts engaged by the city say that Toronto must provide a water system for a million people, and that the area included is the country south of Lawrence-avenue. It includes North Toronto; it includes the country north of Danforth-avenue; it includes the people north of St. Clair-avenue, and it includes the people in Swansea and Runnymede.

These people want water and they want civic improvements, and as we said they are willing to pay their share for them; but the only way they can get them is by making them a part of the city.

For years now The World has been advocating the extension of the city to include the people in and make them contributory by way of taxation to the improvements they must have. If a new water-works system costing \$5,000,000 must be started at once, why should not these people who are to benefit by it later on begin now to pay their share of the cost; and if we have to commute the ratepayers within the city limits or soon to be within the city limits, why shouldn't we do it now and make these people pay their share?

These are the conditions, but rather than deal with the conditions, The Globe and The Telegram have set up a theory, and that theory is Single Tax; that until a proper system of taxation along the lines of Henry George be adopted—and the effect of which is that unimproved land should be made to pay its share—nothing should be done, and especially, according to The Telegram because certain land butchers have laid out and sold lots to the people in the suburbs and have made money out of it. In other words, these people must stay out and suffer the need of water, the need of fire, police and sanitary inspection, single fares, and other municipal conveniences which they are asking for and willing to pay for.

And on top of all this now comes the proposal of the Canadian Northern Railway to open up 1200 acres of land at Leaside, where they propose to have a railway town of 2000 people, and the rest of the area to be divided for residential purposes. That means that in a short time there will be a population of ten thousand people looking for city conveniences in the vicinity of Leaside.

But the Canadian Northern have already announced in overtures made to the Town of North Toronto that they would like their new district annexed to North Toronto. They don't say how North Toronto is to supply these people with water. Nor do they say how the traction problem is to be solved. But there is a very shrewd suspicion that if the railway interests can get additional franchises on Yonge-street in North Toronto and get Leaside put into North Toronto, they will be able to develop a traction system in connection with roads that will put the city at the mercy of double fares and will greatly injure the present city system when it is taken over by the municipality ten years hence.

The Globe and The Telegram are doing all they can to stop the annexation of North Toronto and to enlarge that municipality so as to have these additional franchises brought into existence. At least that is the effect of their policy, and they both are talking about Henry George and Single Tax. Where are these people on the real facts of existing conditions and the wise policy of taking in North Toronto now, and then declaring terms to Leaside as to how it shall come in before the land butchers have carved it up, which seems to be the theory of The Telegram.

Would The Telegram have left West Toronto Junction out of the city, although it is the most thriving and growing part of the city to-day? Would they have left out East Toronto and the Midway, although those people are all and Toronto? As a matter of fact, all these people are trying to make a living in this city. Why should Toronto not provide for this magnificent growth by a good progressive policy? But The Telegram influence has dominated the city hall for years now and the result is the present mismanagement of which the citizens complain. At the very moment when the mayor and council are prepared to deal with the question of the annexation of North Toronto and the gradual extension of the area of the city, The Telegram and its little eyes under the guise of opposing the land butchers is pursuing the policy that cannot end in other than the creation of additional franchises against the interests of public ownership and public control.

Will The Telegram now tell us how those who, according to its own newspapers and its own maps last night, are demanding a water supply north of Danforth-avenue, are to get it? And how the people in Runnymede and Swansea are to get what they are asking for, and how the people in North Toronto are to get what they seek?

The Telegram's article is a decision that Toronto is unable to take advantage of the magnificent opportunity that has come to it. Little eyes can never do anything, but big eyes, a forward policy and a courageous policy will do a great deal at the present moment.

And speaking of land butchers, let The Telegram find out who is opposing the annexation of North Toronto to-day and who is proposing the extension of North Toronto to include the land butchers who own large tracts in North Toronto and the gradual extension of whose object is to fasten two fares on all the people living there and then leave the city to commute them afterwards as best it can, and after they have sold their land and reaped a profit from the public.

And why should Toronto undertake to find a water supply for North Toronto and Leaside if they seek to create themselves into a separate municipality?

MINISTER DIDN'T KNOW COUPLE WHO WED

Rev. Mr. Brown Would Not Have Performed Ceremony Otherwise—License Was Not Issued at Lalonde's Jewelry Store, Nor Was Ring Purchased There.

Mr. and Mrs. Ernest C. Robbins, the week-minded persons who were married some time ago, continue to live in a little cottage in Swansea.

The marriage license was issued by J. H. Wilkinson, a Ward Seven jeweler, and not by Lalonde & Sons, the West Queen-street jeweler, who did not even sell Robbins the wedding ring.

Mr. Lalonde also states that they did not know the man personally, and it was for the purpose of buying a signet ring that he visited their store.

Yesterday afternoon The World succeeded in seeing the items at the parliament buildings. It is signed by Wilkinson as issuer and Rev. Albert Brown as the officiating minister.

Mr. Brown Did Not Know.

There is no one who feels any worse over the unfortunate wedding than the Rev. Albert Brown. He says that, although the couple did not appear very bright, he had no reason to suspect mental deficiency. No other minister communicated with him to warn him against uniting the two, and he was absolutely unaware that he was marrying a couple whom two other ministers had refused to marry. If he had known such was the case he also would have declined. Arrangements for the wedding were made over the telephone by a woman during the morning, but who she is Mr. Brown does not know.

John Clayton, a half-brother of the bridegroom, and a man named Brown, were the witnesses. Both Miss Wilson and Robbins answered the questions in a satisfactory manner, leaving no suspicion in the minister's mind that they were week-minded. Mr. Brown has since then met the Rev. A. Logan Geggie and now knows that the girl should not have been married.

Blamed the Doctor.

Yesterday a man giving the name of Higgins called at the residence of Dr. Forbes Godfrey at Mimico and said that he had been told by The World that the doctor was responsible for the story which appeared in this paper yesterday morning. He was accompanied by Robbins, and they stated that their purpose was to make Dr. Godfrey examine the man again and then force him to retract the statement made in the paper. When informed that the doctor was away the caller declared that he would sue every paper in Toronto which published anything about Robbins, and he would sell his farm to get enough to do it. Asked by Mrs. Godfrey if he was a relation Higgins replied that it was none of her business.

Dr. Godfrey Was Not Responsible for the Story in The World.

NEED HEAVIER DAMS

Hydro-electric to Revise Estimates for Bruce, Huron and Grey.

The Hydro-Electric Commission will revise its estimates for the counties of Bruce, Huron and Grey. This action has been rendered necessary by the heavy floods which took place in this district during the recent spring. The commission have thought it wiser to figure on heavier dams than were at first contemplated. The examination during the winter of the rivers which it is intended to use for the production of power has shown that a good flow of water is available at all seasons of the year.

TO AID AUSTRALIAN FLEET.

LONDON, June 5.—(C.A.P.)—Arrangements have been made whereby the admiralty will lend the cruiser Encounter to the Australian squadron for the purpose of training the crew. The Encounter will recommission with specially qualified officers and a buccard crew.

BETTER WEATHER AND STRAW HATS.

That cool wave of yesterday will be treasured in the memory of those who were out when the dog days came. It's straw hat time again, and the calendar, and by-day should see you under a new straw sky-pecce. Dinsen is showing some fine blocks by Henry Heath of London, and Dunlop of New York or whom the company is sole Canadian agents. These straws are the best made anywhere, and do not cost any more than the poorer grades.

STILL HOPEFUL

LIVELY TOPICS FOR THE SYNOD

Cathedral Scheme, Marriage Law, Pari-Mutuels and Temperance Policy Will Be Under Fire.

Marriage laws, the banish the bar movement, and the downtown church problem will be among the live topics before the Anglican Synod at St. James' Parish Hall at the meeting which opens their session on Tuesday night.

Quite an animated discussion is looked for on Tuesday afternoon when the report on the state of the church report comes up. Some prominent clerical and lay delegates take the view that undue attention has been concentrated in the St. Alban's Cathedral project, considering the urgency of the downtown church requirements. They may voice their sentiments when the state of the church report is under consideration.

Banish the Bar Resolution.

James Edmund Jones has given notice of two interesting motions which may come up on opening day.

One, while commending the Ontario Government for faithfully endeavoring to enforce the liquor laws, declares that the synod "believes that public opinion is now sufficiently advanced to warrant legislation abolishing the sale of intoxicating liquor in the licensed bar room."

As this motion is practically an endorsement of the Rowell policy it will be certain to evoke a keen interchange of views.

The same delegate will also move in favor of a change of the Bill, "The Church of England in Canada" but that final action should be deferred to a subsequent session.

Publicity to Marriage Licenses.

Archdeacon Ingles will move the adoption of the following resolution from the moral and social reform committee: "We recommend that the synod should urge upon the government the desirability of making it necessary to give publicity to all marriage licenses issued, thru the medium of the newspapers, and that a form of special license be prepared by way of precaution in the case of marriage between those of different races, and that the clergy be urged to encourage the calling of the bans of marriage in accordance with the laws of the church."

The same committee reports under the caption, "Race Track Gambling": "There must be no relaxing of effort against the gambling evil. The introduction of pari-mutuel machines has in some ways increased the evil.

"We strongly protest against the two banks, charities which have been granted, giving the holders the legal right to operate in every city in Canada. Gambling is criminal except on the race track, and such gambling which we in Canada permit on the race track is illegal in all the states of the American Republic except seven; and thus our own country is a kind of gambler's paradise. The situation calls for persistent and energetic protest."

Party of Orphan Girls.

BROCKVILLE, June 5.—(Special.)—A party of orphan girls from the Quarry Homes, Scotland, numbering 70, arrived to-day at the Canadian distributing centre here. They range from six to fourteen years.

WANT ANOTHER FIVE THOUSAND

Dr. Norton Says Problems in Toronto and Hamilton Are Baffling at Present Time.

Rev. Dr. Norton, superintendent of the Baptist Home Mission Board, published his eleventh annual review of the work yesterday. He stated that the board was not in quite so good a financial position as a year ago, owing in part to the small number of legacies during the year.

"The problems facing the board are becoming more and more acute. The city problem in Toronto, Hamilton, Montreal and Ottawa is at the present moment baffling, but we hope for a solution in the near future."

Rev. Dr. Norton asks the denomination to raise an additional \$5000 this year for an extension of work in the cities and in northern Ontario.

WEST-CATHERINE CAMPAIGN.

Two days' subscriptions in the six-day campaign being conducted by West Presbyterian Church amount to \$12,200, according to reports presented at the meeting of the various teams last night.

INQUIRY BOARD FOR THE CAMP

Evidence is Being Taken to Ascertain Whether There is or Was Any Liquor in Camp.

(By a Staff Reporter.)
NIAGARA-ON-THE-LAKE, Ont., June 5.—General Cotton to-day appointed a board of inquiry to make a thorough investigation in order to ascertain whether any liquor is to be found in camp, or has been in camp since it was opened. The board consists of Lieut. Col. W. Wallace, adjutant; Lieut. Col. F. W. Hill, 4th, and Major the Rev. E. C. Piper, chaplain of the 57th. It is understood that the board was appointed as a result of a communication from the militia department at Ottawa.

The board held its first meeting at headquarters this afternoon, when the commanding officers were called. It is understood that they all denied knowledge of any liquor inside the lines, either in officers' or other tents. At the present time, they said, no liquor was being used in any of the mess tents, and the regulations were being carried out to the letter. Other officers will be called to-morrow.

BELGIAN RIOTS NOT SUPPRESSED

BRUSSELS, June 5.—(Can. Press.)—The council of the labor party to-day decided against an immediate general strike, in spite of protests by the Walloons regarding such action for next month. In the event of the government refusing to consider a measure for the revision of the constitution, which the Socialist deputies have introduced in the chamber, both the Socialist and Liberal parties have issued an urgent appeal to their followers to refrain from violence, and to devote their energies to obtaining the abolition of the plural vote by parliamentary methods. These appeals, however, have had no effect in the Walloon provinces, where the strike are spreading.

Acts of violence are of hourly occurrence, notwithstanding the energetic action of the authorities. At Brussels rioting was renewed to-night. The scenes of yesterday were repeated. As fast as the police scattered the mob at one place it reformatted at another. Many persons were hurt. There were frequent clashes, both sides employing great violence. Several of the police were wounded by gunfire.

Strawberries This Season Will Be Ten Cents a Box

Canneries Are Short of All Kinds of Fruit and Are Offering High Prices, Which Means That Toronto Consumers Must Pay More—Decrease in Acreage, But Increase in Number of Growers.

(By a Staff Reporter.)
ST. CATHARINES, June 5.—One of the important features in connection with the home grown strawberry outlook, is the fact that the canneries are short of all kinds of fruit, and are making an effort to grab most of this year's Niagara district crop. They are offering \$1.4 cents a box in the patch, which is an increase of 25 per cent. over last year's price.

This largely determines the market price. It costs the canneries for picking, boxing and delivery well on to 2 cents per box, which means that the berries will cost them about \$1.4 cents laid down at the factory door. Discussing the question with The World, Robert Thompson, one of the best informed fruit men in the district, said that the price in Toronto this year would not be less than 10 cents per box, although there may be a slight cut on this owing to special conditions, such as over-shipments. Therefore any one who can get hold of berries for preserving at 10 cents should not wait for a better price. Many of the growers would not sell to the canneries even with the tempting offer of \$1.4 cents without handling, because they cannot always depend upon the factories. They prefer to do a sure business with their commission houses in Toronto.

Crop in Two Weeks.

Mr. Thompson stated that the crop this year looks exceedingly well, but it would not come in for at least two weeks, and it would be at least three weeks before there would be a full and constant supply. The acreage is small this year owing to the drought a year ago, which scared off some of the growers. The weather has been all that was necessary for growth, and from now on little more sunshine will work wonders.

Increased Prosperity.

A trip thru the Townships of Louth and Grantham, within a mile or two of St. Catharines, reveals the fact that the large farms are disappearing. They are being broken up into small lots of from 10 to 50 acres, and fruit trees are being set out. Substantial buildings and the clean well-kept homes and lawns indicate increased prosperity. Quite a number of farms close to the city have been developed by Toronto people, who have moved here within the past three years to go into the fruit industry.

More Fruit Growers.

It is stated that there are from 5 to 8 per cent. more people growing fruit in the Niagara district this year than last. In fact, for several years there has been a steady increase in the number of small farms, an increase in acreage and growth of general fruit. This year's decrease in the acreage in strawberries is due entirely to the reasons given before, that a season of drought results in the growers being a little too cautious the next year.

There is likewise a decrease in the acreage in raspberries. Grapes, plums, pears and peaches are all looking well. Regarding the peach outlook, although the annual scare was noted a few weeks ago, there is likely to be an average crop.

Early apples will be better than last year; grapes late, but better than last year, and the recent cold dip has not done any damage. All round, a splendid year is promised for the Niagara district, to be followed, it is expected, by good profits and more intensive fruit farming next year.

SCOTT FARM BRINGS \$260,000

Large King W. Block Bought

Northwest Corner of Dufferin and Eglinton Resold at Over Two Thousand Dollars an Acre.

The Scott farm, at the northwest corner of Eglinton-avenue and Dufferin-street, has been purchased by the Colonial Real Estate and Securities Co. at a price near to \$250,000. The property contains 135 acres. The Fairbank Hotel is on the former Scott holdings, but is not included in the deal.

The vendors were R. A. Bradshaw and A. J. Bentley, and the deal was handled by A. R. Morton & Co., Limited, of Toronto.

CHARGED WITH THEFT.

William A. Forrester, of 25 McMillan-street, was arrested last evening by Detective Newton on charges of going under the pockets and stealing \$8.30 from William Chirres, who has a room in the same house.

Forrester was charged with the theft of a watch and a pair of cufflinks, valued at \$8.30.

Forrester was held in custody at the police station.

The purchase of three parcels of property at the northwest corner of West King and Tecumseh-streets were yesterday concluded. They total 132.6 feet of frontage on King-street, and cost the buyer, a local investor, who is thought to be connected with factory interests, \$39,500.

The properties bought included the corner which is Nos. 158-8 West King-street, 32.6 feet front and 50 feet depth on Tecumseh-street, from Mrs. Isabella Lorsch; Nos. 704-706, from Mrs. Amelia Clarkson, a front of 32 feet and a depth of 35 feet; Nos. 768-778, a front of 75 feet by 35 feet deep, from F. H. Good.

The block is now occupied by eleven small roughcast cottages and houses, all tenanted.

The transaction was negotiated by The Title and Trust Co.

LONG SHOT WINS ENGLISH DERBY

The Finish: Tagalie, 25 to 2, 1; Jaeger, 8 to 1; King Horse, 66 to 1, 3—King Horse Was Fourth.

LONDON, June 5.—At Epsom Downs to-day, W. Raphael's grey filly, Tagalie, ridden by Fred Winter, won the Derby, by a mile and a half, from the runner-up, Jaeger, ridden by J. G. B. Jackson. The King's horse, Pinthead, was fourth, and the favorite, King Horse, was fourth.

Tagalie led all the way, Raif following into the lead at the start and maintaining his advantage in masterful style throughout the race. Sweeper II, who was the favorite at 3 to 1, was never prominent in the race. King George's entry, Pinthead, ran a good race and finished fourth, but he was separated from the other horses.

Tagalie led all the way, Raif following into the lead at the start and maintaining his advantage in masterful style throughout the race. Sweeper II, who was the favorite at 3 to 1, was never prominent in the race. King George's entry, Pinthead, ran a good race and finished fourth, but he was separated from the other horses.

Tagalie led all the way, Raif following into the lead at the start and maintaining his advantage in masterful style throughout the race. Sweeper II, who was the favorite at 3 to 1, was never prominent in the race. King George's entry, Pinthead, ran a good race and finished fourth, but he was separated from the other horses.

EATON'S

Men's English Straw Hats Clearing at 75c

It's a Gigantic Offering of Men's English Straw Hats — When our buyer was in Europe, he cleared out several hundreds of high-grade straw hats, in the boater and boater styles, at his own price, and we offer them right at the beginning of the season, in some cases at nearly half price. In the lot are sommers, cantons, splits and outer brims, with different dimensions of brims and crowns. Extra selection to wait on you quickly. 75c Friday-evening display.

Pretty Soft for Jeff in the Navy, Yes, Indeed Pretty Soft By "Bud" Fisher

OH, FINE! HERE'S A NOTICE POSTED THAT SAYS THAT A NUMBER OF SAULS ARE WANTED TO REENLIST AS MARINES. FOR SERVICE IN CUBA. GREAT! I'LL GET JEFF TO BE A MARINE. WHEN HE GETS ORDERS TO FIGHT IN CUBA I'LL BE WELL BE CLARED TO DEATH. HE MIGHT GET SHOT TOO.

THEY'RE GOIN' TO LET A FEW SAULS REENLIST AS MARINES. GEE! YOU'RE LUCKY, THEY ONLY WANT SMALL MEN, I WISH I COULD BE ONE BUT I'M TOO BIG.

YAS?

AW, HERE'S WHERE I GOTTA SCRUB AGAIN.

ALL HANDS BUSY ON THE BRASS.

SAY, YOU PINHEAD, DIDN'T YOU HEAR 'EM ORDER ALL HANDS BUSY ON THE BRASS?

OH, THAT'S ONLY FOR THE SAULS. US MARINES DON'T MONKEY WITH THE BOAT, WE'RE FOR LAND DUTY ONLY.

HEY! YOU BOOB, GET AWAY FROM THAT GUN - DON'T YOU SEE WE'RE GONNA HAVE TARGET PRACTICE!

I KNOW IT!

FOUNDED 1890. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO, 50 WEST RICHMOND STREET. TELEPHONE CALLS: Main 636 - Private Exchange Connecting All Departments. \$3.00

PROGRESSIVE PROTECTION The protection of a tariff duty is given by the government to the manufacturer to be used by him as a shield and not as a sword.

PROBLEM OF MENTAL DEFICIENCY. If it be the case that two persons of feeble mind were recently married in Toronto, under various circumstances, the minister who actually refused to solemnize their union would be well advised to explain his action.

STATE LOANS TO FARMERS. Canada's interest in the probable introduction into this continent of European methods of granting financial aid to farmers, in the form of loans upon planted or growing crops, is no less than that of the United States.

CHILD GAVE ALARM. Awakened Parents, Who Escaped When House Caught Fire. Ronan Possava of 9 Foster-place awakened his parents at an early hour yesterday morning by the cry of fire.

LABORER FOUND DEAD. John Poulter Was Probably Struck by a Train. John Poulter, a laborer of 422 Coxwell-street, was found dead on the side of the Grand Trunk tracks about a yard west of Greenwood-avenue at the corner of York-street, yesterday morning.

PERJURER GIVEN 14 YEARS. MURPHY, who two years ago was tried and acquitted on the charge of murdering the killing of two young men, Dale and Que, to fourteen years imprisonment.

CANADIAN CADETS AT ANTWERP. ANTWERP, June 5.—At a largely-attended representative dinner, organized by the British consular-general, and to-day more than ever that the one solution of the question is the straight viaduct.

DRINK B. Absolutely removes all crusting and dandruff from the scalp. No itching. No bad after-effects. No loss of hair. No loss of color. No loss of vitality. No loss of appetite. No loss of sleep. No loss of strength. No loss of health. No loss of life.

STRAIGHT VIADUCT SOLUTION FOR TORONTO. Future Centre of City Will Be at Bloor and Yonge, and Time and Energy Would Be Wasted if Danforth Viaduct Were Curved, Say Board of Trade Members.

G.T.R. Trainmen Satisfied. MONTREAL, June 5.—(Can. Press).—The twenty-four members of the joint protective board of the Brotherhood of Locomotive Firemen and Engineers, who have been here since May 15, representing the firemen of the Grand Trunk Railway from Chicago to Portland, Me., are reported to be well satisfied with the revised schedule along which they declare are satisfactory lines.

ALUMNI BANQUET. Portrait of Dr. Edward Fisher Unveiled at Conservatory of Music. About two hundred graduates of the Toronto Conservatory of Music were present at the banquet of the Alumni Association, which was held at the University of Toronto, last evening.

WHERE IS YOUR SALARY? The person who commences the week with the knowledge that the past week's salary is gross, and with a mortgage on the future week's salary, is not a man to work, and as a rule, does not get any value received by his employer.

THE CEMENT DUTY. If the people of the west cannot obtain cement in Canada they would be allowed to purchase it in the United States or elsewhere, and the customs duties should be suspended or refunded.

THE NECESSITY OF DRAINAGE. If you ask us what is the greatest drawback in the Township of York we would say, lack of drainage; and the Township of York is by all odds the richest township in Canada, it is all metropolitan, and will be part of a great city; but the roads are execrable, and are especially so in a year like the present after a long, hard winter.

CALL PARLIAMENT TOGETHER. The Toronto News, in an able article, calls upon the government to deal with the grievances of the west, especially those arising from excessive freight rates and tariff abuses. The News plans itself squarely upon the position taken by The World and by Mr. W. F. Maclean, M. P. for South York, in parliament, viz., that these grievances in respect to excessive charges and inadequate service by the railway companies cannot be adequately dealt with by the Dominion Railway Commission.

Another Marvellous Cure by Dodd's Kidney Pills. Ludger Cote's Backache had developed into Bright's Disease, and pain and ache were his portion—Dodd's Kidney Pills cured him. ST. YVON, Gaspe Co., Que., June 5.—(Special).—Once more a name has been sent the name of the old Canadian, Ludger Cote, who has been afflicted with Bright's Disease, and who has been cured by Dodd's Kidney Pills.

DRINK B. Absolutely removes all crusting and dandruff from the scalp. No itching. No bad after-effects. No loss of hair. No loss of color. No loss of vitality. No loss of appetite. No loss of sleep. No loss of strength. No loss of health. No loss of life.

GATLIN TRAIL. PUBLIC SERVICE AND PRIVATE OPERATION. Notwithstanding all warnings, based on the experience of other municipalities that embraced their franchises to private companies, there were towns in Ontario that succumbed to the temptation of ostensibly better terms than those offered by the hydro-electric commission.

G.T.R. Trainmen Satisfied. MONTREAL, June 5.—(Can. Press).—The twenty-four members of the joint protective board of the Brotherhood of Locomotive Firemen and Engineers, who have been here since May 15, representing the firemen of the Grand Trunk Railway from Chicago to Portland, Me., are reported to be well satisfied with the revised schedule along which they declare are satisfactory lines.
