30TH YEAR

STRIKE SETTLED, MEN ORDERED BACK GAIN A YEAR IN STANDARD WAGES GET HAYS SCHEDULE TILL YEAR 1912

**Will Report for Duty at
Once and Strikebreakers Are to Be Respected
During the Period of Their Elimination.**

**QUESTION OF PENSIONS
WAS NEVER DISCUSSED.**

Strike was called off at 6 p.m., and men told to report to the company this morning.

Company to re-employ strikers as soon as possible.

Local G.T.R. officials late last night professed to be without instructions.

Hon. Mackenzie King says Sir Frederick Borden exerted the winning influence over Hays.

Men get the schedule now in force of G.T.R., and standardization in 1912.

Pension features not discussed.

MONTREAL, Aug. 2.—(Special)—The strike of the Grand Trunk Railway trainmen and conductors, which was launched at 9:30 p.m. on Monday night, July 18, was officially declared off at 6 o'clock to-night.

The settlement effected between the company and the strikers is, in effect, a compromise. It was stated by President Garretson of the O.R.C., to-night, that the company and brotherhood officials parted on the most friendly terms.

The following general order was sent out by Vice-President James Murdoch, B.R.T., and Vice-President Sam Berry, O.R.C., to the strikers' committees:

Advise all men to report for duty at once.

Instruct to carefully avoid any maltreatment of strikebreakers until they are officially recognized as such. All men will be returned to the service as soon as possible.

The printed wage schedule issued by company becomes effective May 1. Canadian Pacific rates and rules become effective Dec. 31, 1911.

Any strikers found guilty of acts of violence or disorder during the strike will be dismissed by men till the standard rates are adopted.

The increased rates of pay are made retroactive dating from May 1, 1910.

The standardization of the Central Vermont also is made Dec. 31, 1911, but the same to equal the Rutland, rather than the C.P.R., as in the Grand Trunk system.

King Met a Tartar.

The official announcement of the settlement was made by Hon. Mr. King, minister of labor, at Ottawa, at 7:30 p.m. The minister is reported to have said that Mr. Hays was the most obstinate railway president he ever encountered.

Just what Sir Fred Borden has played in the negotiations is yet to transpire. It is known that he was the first person consulted in Montreal when Mr. King arrived last week.

While there doesn't seem to be any definite ruling as to how long the men's masters may be entitled to their employer's employ, Mr. Murdoch said to-night that the understanding reached on that point was perfectly satisfactory.

"Everything is lovely," said Mr. Murdoch, and denying a report that he was not as much pleased as were the other brotherhood parties to the outcome of the conference, added: "There is no difference of opinion between the members of the conference and the officers in charge of the situation. Our opinions in this and all matters are identical. Under the circumstances, everything is as satisfactory as could be expected."

Get Their Strike Pay.

According to the statement reached all men in the employ of the company May 1, are to be entitled to the benefit of the increased wage between that date and July 18, when the strike occurred. Also, as the strike was prolonged more than two weeks, the workers are less than 24 hours, the workers are entitled to strike pay for 13 days, so that they will suffer to any great extent if at all, by the walk-out outside from the advanced wage of the future.

As to the question of having restored to the strikers the pension privileges lost by the strike, Mr. Murdoch said that had not been discussed in the conferences. He explained why.

Pension Not a Factor.

"We have always taken the position that pensions are an unknown quantity," he said, "that they are placed into effect on many systems only for the purpose of testing the loyalty of the men to their organization in the time of trouble."

"If men employed in train service get the wage rates and conditions of employment to which they are entitled during the years they are able to give loyal and useful service to their employers, they will probably be able to place themselves in a position whereby they are not of necessity dependent in their advanced years on the pension fund."

"We presume the company is in the same position to do just as it pleases.

Continued on Page 7, Col. 4.

THE STRIKE SETTLEMENT

The effect of the G.T.R. strike settlement is a compromise. Whereas the company was willing that the standard rates should go into force in 1913, they have agreed that they shall go into force in 1912. Also, the rules which have gone into force on the C.P.R. have been agreed upon. They are particularly favorable to the men. The terms of the settlement of the difficulties are as follows:

1. The company will put back as soon as possible the men, other than those who have been, or may be, found guilty of acts of violence or disorderly conduct, the understanding being that there is to be no coercion or intimidation used toward the new men.

2. The company will put into effect, from May 1, 1910, the rates named in schedule of rates dated July 18, 1910, those rates to be embodied in the present schedules now in effect on this line, it being understood that those rates shall in no instance effect a reduction in any existing rate.

3. The company will, on Jan. 1, 1912, make effective in train and yard service on the G.T.R. the rates of pay and the rules contained in the schedule or agreement on that date in effect on the lines of the Canadian Pacific Railway east of Port Willam.

The three above propositions shall apply also to the Central Vermont Railroad Co., the said railroad to be substituted for the Grand Trunk Railway, and the Rutland Railroad to be substituted for the Canadian Pacific Railway, wherever the same are used or understood in the above.

In the case of the Central Vermont, by the "schedule of rates dated July 18, 1910," is meant the schedule issued by the management of that company since July 1.

Signed by

Charles M. Hays, President G.T.R. System.

The Story of a Railway

KING WIRES GLAD NEWS TO PREMIER IN WEST

And Also Gets Telegram of Congratulation From Vice-Presidents of Strikers.

OTTAWA, Aug. 2.—(Special)—At 7:30 o'clock to-night Hon. Mackenzie King, minister of labor, announced that the G.T.R. strike had been settled, as a result of government intervention.

He stated that the successful issue of the negotiations was due mainly to Sir Frederick Borden.

Indeed, he remarked, that had it not been for the services of the minister of militia, he did not believe that the strike would now be ended.

Hon. Mr. King sent the following telegram to Wilfrid Laurier at Stratford, Sask.:

"Am delighted to inform you that the strike of the conductors and trainmen on the Grand Trunk Railway System has been brought to an end this afternoon by government intervention."

In the meantime trolley lines, the New York Central, the Canadian Pacific, the Toronto, Hamilton and Buffalo, the Canadian Northern, have come into Ontario and switched business away from the line that was first on the ground, had the best roadbed and equipment. The present strike only emphasizes this fact! These other roads got business by trading on the stubbornness of the Grand Trunk and by promised friendliness and a desire to accommodate Ontario business.

The salvation of the Grand Trunk will begin when its chief executive is located in Toronto, in the province where most of its business originates!

We have known the Grand Trunk longer than Mr. Hays and we are sure that the above statement and conclusion is sound.

Sitting in an office in Montreal with teeth set to fight Ontario has ruined three-fourths of the vitality of the Grand Trunk!

William Mackenzie and the Canadian Northern and Sir Thomas Shaughnessy and the Canadian Pacific are, the one building, the other planning to build, about to enter the last preserve of the Grand Trunk, the towns between Toronto and Kingston on the north shore of Lake Ontario. The Grand Trunk is cursed in these towns daily, as the menace of their lives. Ask the people of Cobourg, for instance, what they think of the service they are getting.

Mr. Hays big enough to change all this and to start in to cultivate the province that gives him his paying business?

What's the matter with the Grand Trunk? Why, Fighting Ontario for Fifty Years!

Change it all, Mr. Hays, and make up to Ontario! And if Mr. Smithers is here he'd better ask Ontario what it thinks of Grand Trunk methods.

The Railway Magnates Are Coming Down

The World has had recent occasion,

like Fluelein, "to hold discourse" with a couple of railway magnates in Canada: Sir Thomas Shaughnessy and Mr. C. M. Hays, with one about "missions," with the other about wages.

There ain't goin' to be no millions just now, and there is goin' to be some more wages.

Public rights win in each case, but it took these thumbs.

MILLION AND HALF LOSS

Insurance Companies Hard Hit by Campbell Fire.

ST. JOHN, N.B., Aug. 2.—(Special)—A statement of the insurance losses in the Campbellton conflagration, now nearly complete, shows a total of \$148,450.

The strike is over and men win,

the World said. They all go back—

—the company will be more glad to get them all back, and to reinstate every man as to rank and position.

They also get increased pay, and they get recognition of the standard wage in 18 months.

It Was Sir Fred

The Hon. Mr. King says Sir Fred Borden settled the strike.

The World is inclined to think it helped to settle it by putting Mr. Hays in the proper frame of mind. What do you think?

A RETROSPECT.

Aug. 3, 1847: The electric telegraph was introduced into Canada connecting Quebec, Montreal and Toronto.

OFFICIALS SILENT BUT STRIKERS CHEERED

How the Good News Was Received Last Night.—Manager Brownlee, Late at Night, Said He Was Without Instructions.

Grand Trunk officials had little to say last night regarding the strike settlement reached in Montreal. Their replies to queries followed pretty closely a general formula running like this: "No, I can't say anything at all about it, because I haven't been officially advised."

W. G. Brownlee, general manager of transportation, allowed himself to depart a trifle from the procedure. "I don't know," he said, "whether he would be surprised if the company agreed to take back all the strikers except those found guilty of violence or disorderly conduct."

"It would decidedly," said Mr. Brownlee, "promptly thereafter reiterate, 'That's all right, we can't tell.'

Later in the night, he was asked if he had received word from Montreal, but declared that he had not. He had no comment to offer on the terms of the agreement as quoted to him. Ten days ago Mr. Brownlee announced that the strike was still open.

Apparently, the official mail traveled slowly. W. H. Farrel, superintendent of terminals, hadn't got any advice last night, so he said. The conditions of the compromise were told him over the phone by a World reporter. He was strictly reticent. Later, when seen, he denied all intimation of the terms as though he had all the time in the world for something new. He appeared to think that negotiations turned upon the conditions under which the strikers were to be taken back, and that the Grand Trunk had scored a point.

"It will be a company that will name the terms," he said.

J. D. McDonald, district passenger agent, also took the view that the issue was the condition of the return of the strikers to their jobs.

About 11 o'clock the G.T.R. advertisement for 500 men wanted, that has been appearing since the strike was ordered, did not appear to-day.

Aldred caught hold of the end of the canoe, at the same time noticing the two men who were pulling him and the other at the other end of the canoe.

He told them to hold on, while he would endeavor to get the craft to shore. Suddenly the couple sank, and Aldred, who is a robust man, dived in, caught the young woman and brought her to the surface in an exhausted condition. He was unable to find the body of his nephew, which was recovered yesterday morning and brought to this city for burial.

The funeral of the young man will take place to-day at 3 o'clock under the auspices of the I.O.O.F. from 12 Brooklyn-avenue to Norway Cemetery.

RIVERDALE MAN DROWNED IN SCUGOG

May Visit Toronto

Herbert Sweetman loses his life while fishing from a canoe—Uncle saves sweetheart from same fate.

Herbert Maxwell Sweetman, aged 23, only child and sole support of his widowed mother, Mrs. W. D. Sweetman, who resides at Brooklyn-avenue, Riverdale, met with an untimely death on the Civic Holiday in the deep waters of Lake Scugog, near Port Perry, where, in company of his sweetheart, he was spending the day with relatives.

The young man, who was an employee of the Dunlop Rubber Works, was an occupant of a canoe in which he also seated Miss Porter and his uncle, Nelson Alford, a resident of Port Perry, 8 miles from the lake.

Later in the night, he was asked if he had received word from Montreal, but declared that he had not. He had no comment to offer on the terms of the agreement as quoted to him. Ten days ago Mr. Brownlee announced that the strike was still open.

HAMILTON HAPPENINGS

NOT HYDROPHOBIA, BUT A SIMILAR DISEASE

Victim is Five-Year-Old Girl—Moulder's Strike is Still On.

HAMILTON, Aug. 2.—(Special)—The scare which was created to-day by the report that another case of hydrophobia had been discovered in this city, was exploded to-night by a statement purporting to come from the physicians in the case that it was not a case of hydrophobia, but was some similar disease. The victim is five-year-old Marie Mitchell, whose parents reside at 253 North Wentworth-street. She exhibited symptoms of what was supposed to be hydrophobia to-day, but was examined by Dr. Parry and Langill thought it was a case of hydrophobia; but declared that they would be unable to tell for certain until to-night. What the similar disease is, with which the two doctors have discovered the child to be affected, could not be learned.

The periodical reminder that the moulder's strike is still on in some of the shops, was delivered this evening when Robt. Stephenson, 430 North Ferguson-street, who started an all-out attack on Wm. James, a non-union moulder at the D. Moore foundry, Stephenson is one of the union men who have been on strike for over a year.

The inquest into the death of Hartie Taber, who was killed by a bullet from a revolver in the hands of his cousin, James Shifford of Toronto, last week, was held to-night, and a verdict of accidental death was returned.

The works' committee of the city council had 47 items on the order paper to-morrow, and it was nearly midnight when the meeting was adjourned.

A deputation of west end residents threatened to sue the city for damages from the flooding of their premises, unless something was done to enlarge the Main-street sewer.

A committee was formed that determined that as soon as it could be learned what proportion of the cost of a general west end sewer the government was going to bear, a new sewer was to be built. Miss Jeanette Lewis' request for permission for a store on the southeast corner of the city hall for the purpose of selling brick paper weights, on the ground that it would result in an obstruction of the sidewalk.

It was decided to ask the Dominion Parliament to intercede to compel the T. H. and B. Railways to afford protection to the approaches to the Hunter-street tunnel. The request of the waterworks foreman for an increase in pay was referred to a special committee. As no offer had been received for the purchase of the sand-sucker, nothing was done regarding it.

The Royal Hamilton Yacht Club bowling team won the championship in the city last bowling tournament, which was concluded at the Thistle lawn this afternoon. The team defeated the Thistles by 17 to 15, thereby winning The Times trophy by 19 to 5. E. Burrows was skip for the R.H.Y.C., Dr. Edgar for the Thistles, T. M. Chapman for the Victorians and Burwell Griffin for the Jesters.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern, perfectly first-class American plan. Rates \$1.50 to \$2 per day. Thos. Hanrahan, proprietor. Phone 1465. 138th

RAIN FLOODS SASKATOON
Storm Did Invaluable Good to the Country and Crops.

SASKATOON, Sask., Aug. 2.—(Special)—The heaviest rainfall of the season visited this city and district this morning. Rain fell in torrents for about two hours, and the streets of the city were flooded, as were also many of the surrounding farms. The storm was accompanied by thunder, lightning and thunder, and lightening struck the district and city. The half did not do any damage, however, and, on the whole, the storm did invaluable good to the country and crops. The wheat crop in this district is rapidly nearing maturity, and harvesting will commence within another week.

DETERMINED TO DIE

Brewery Worker Swallows Acid and Fly Poison.

So fixed was the determination of Fred Cox to die that when he returned to his home at 110 Sydenham-street from his work at the O'Keefe Brewery, and found a quantity of carbolic acid with which his land-lady had been cleaning his room, he swallowed it.

This did not come as rapidly as desired, however, so a quantity of fly poison, which he found in a cupboard, he吞下了. The landlady discovered that he was upon the verge of a collapse and summoned the police ambulance. He was taken to the General Hospital, fighting the way to be allowed to die, and even there the hospital reluctantly submitted to treat him, as there would give no reason for his rash act, but he was brooding for some time. He is 45 years of age and single. He will likely recover.

Lightning Works Havoc.

WOODSTOCK, N.B., Aug. 2.—(Special)—Lightning to-day fired and destroyed two barns and two houses in this vicinity. A horse died in the flames of one barn.

She Was Successful, Too.

Miss C. T. Tyrrell, 108 Bathurst-street, passed the examination for entrance to the normal school from St. Joseph's Academy. Her name was omitted from the list yesterday.

Army Service Corps Band

will play on Turbine moonlight Friday night to Long Branch, leaving Bay-street 1.15 p.m. Tickets 35 cents. Do not miss this.

WROTE TO THE CORONER SAYS BABE WAS DISEASED

Dumas, Sought by Police in Baby Brown Case, is in Cleveland—Jury Alleges Neglect

Negligence on the part of C. R. Dumas and wife was blamed by the jury at the morgue last night for the death of Nellie Goodwin, the illegitimate child of Nellie Goodwin, who died at 3 Gerard-place on July 2. The jury recommended that in all cases of illegitimacy, when young girls were placed in maternity homes, the case should be reported to the police.

Dumas, a moulder from H. He wrote a letter to Dr. G. W. Graham, the coroner, dating the letter at Buffalo, N.Y., July 27, and finishing and mailing it at Cleveland, Ohio. The letter says that when they received the child it was very emaciated. The Goodwin family expressed themselves as not wanting to have anything further to do with it. The child had several diseases, and they were of the opinion that it also had consumption. The letter showed that Dumas was familiar with medicine, as he used a number of technical terms in explaining the child's complaints. It also said that a doctor who was called was of the opinion that the child was an idiot and could not live. Dumas said he would receive letters addressed to him at the general delivery, Cleveland.

Dumas' brother, John, 223 Amherst-street, brother of the mother of the deceased infant, said he knew the father of the child by sight. He saw him walking with Nellie Goodwin one evening in June, 1908. As he wished to make sure that he would know the father again, he followed the pair for some distance. He saw the man several times after that. Nellie had told him the name given by the father of the child, James Brown, and he stopped him on the street and asked if that was his name. He was answered in the affirmative. The fellow was of medium height. The money paid to the Dumas family amounted to \$100, of which \$10 was for clothes.

Mrs. Lola Craig of 200 Carlton-street saw Brown several times. She did not know whether she would know him again. She said he was a little fellow. She was told that \$20 had been paid for the adoption.

T. L. Monahan, assistant county crown attorney, acted for the crown.

DIPHTHERIA BREAKS OUT

Epidemic of Disease in Stricken Town of Campbellton.

CAMPBELLTON, N.B., Aug. 2.—(Special)—Further evidence of an epidemic breaking out in this desolate town developed to-day. A new case of diphtheria was discovered by the health officer, in a daily round from tent to tent, and this along with the measles and general sickness, is making the situation a truly desperate one.

The fire underwriters of New Brunswick have given notice that an emergency increase in insurance rates, in order to protect the town, will be effected. A deputation of west end residents threatened to sue the city for damages from the flooding of their premises, unless something was done to enlarge the Main-street sewer.

A committee was formed that determined that as soon as it could be learned what proportion of the cost of a general west end sewer the government was going to bear, a new sewer was to be built. Miss Jeanette Lewis' request for permission for a store on the southeast corner of the city hall for the purpose of selling brick paper weights, on the ground that it would result in an obstruction of the sidewalk.

HAMILTON HAPPENINGS

NOT HYDROPHOBIA, BUT A SIMILAR DISEASE

Victim is Five-Year-Old Girl—Moulder's Strike is Still On.

HAMILTON, Aug. 2.—(Special)—The scare which was created to-day by the report that another case of hydrophobia had been discovered in this city, was exploded to-night by a statement purporting to come from the physicians in the case that it was not a case of hydrophobia, but was some similar disease. The victim is five-year-old Marie Mitchell, whose parents reside at 253 North Wentworth-street. She exhibited symptoms of what was supposed to be hydrophobia to-day, but was examined by Dr. Parry and Langill thought it was a case of hydrophobia; but declared that they would be unable to tell for certain until to-night. What the similar disease is, with which the two doctors have discovered the child to be affected, could not be learned.

The periodical reminder that the moulder's strike is still on in some of the shops, was delivered this evening when Robt. Stephenson, 430 North Ferguson-street, who started an all-out attack on Wm. James, a non-union moulder at the D. Moore foundry, Stephenson is one of the union men who have been on strike for over a year.

The inquest into the death of Hartie Taber, who was killed by a bullet from a revolver in the hands of his cousin, James Shifford of Toronto, last week, was held to-night, and a verdict of accidental death was returned.

The works' committee of the city council had 47 items on the order paper to-morrow, and it was nearly midnight when the meeting was adjourned.

A deputation of west end residents threatened to sue the city for damages from the flooding of their premises, unless something was done to enlarge the Main-street sewer.

A committee was formed that determined that as soon as it could be learned what proportion of the cost of a general west end sewer the government was going to bear, a new sewer was to be built. Miss Jeanette Lewis' request for permission for a store on the southeast corner of the city hall for the purpose of selling brick paper weights, on the ground that it would result in an obstruction of the

EATON'S DAILY STORE NEWS

Women's Suits Less Than Half-price

Suits we've not shown before—sample excess manufacture, made for late Spring trade, fortunately the styles anticipate the fashion trend for Fall. And you're buying them at a price that does not represent the bare cost of the material, let alone the high-class tailoring and finishing.

Two Styles—Fine imported shrunken serge, semi-fitting coat, silk lined, lengths 32 inches, collar and cuffs done with moire silks and soutache braid, eleven-gored skirt, double box pleat, panel front, side gores, pleated from below hips; black, navy and grey.

The Other is of fancy woven stripe worsted, single-breasted, semi-fitting coat, taffeta silk lined; skirt fifteen gore, black, navy, grey, wistaria.

At less than half usual price. **TO-DAY**, each \$9.95

Cloth Skirts at a Saving

250 Women's Cloth Skirts, in four of our best tailored styles, from all-wool imported Panams, panel effect, side pleats and panel front, buttoned trimmed, gore on each side, with hanging cluster pleats. Special stout women's skirts, fine all-wool serge, in nine-gored long panel front. There are in the lot about sixty of our "Special Style" maternity skirt. **TO-DAY**, each \$4.75

Second Floor, James Street.

Corset Covers, 25c

Any reduction whatever from our regular price would make these well worth while coming for and coming early, for they were an exceptional value, but the quantity has become limited, so we've given them an extra big price reduction to make sure of a quick clearance—a reduction that permits you to buy them for almost less than they could be made for. Made of fine quality cotton, full fronts with four clusters of tucks, four rows of lace insertion, neck finished with rows of lace beading and ribbon and edge of lace, arms finished with edge of lace; sizes 32 to 42. **TO-DAY'S** reduced price 25c

Second Floor, Centre.

Toyland News

Modeling—Children delight in it; making faces, animals, cups and saucers, fruit, etc. Plasticine is the great modeling material; does not stick to hands, always plastic, can be used over and over; different colors, in boxes, 5c, 10c, 20c, 25c, 50c, 75c \$1.00

Fifth Floor.

Last Day of the Annual Shirt Sale

The great sale ends to-day. Another special shipment has luckily arrived in time, and it includes many new patterns just as good and even better than those included in the first day's.

This Sale features Shirts of high-grade material in an unprecedented variety of stylish and attractive patterns; not a shirt in the collection that will not satisfy the most critical taste; striped patterns in many widths of white and colored grounds, polka dots, fancy figures, plain shades; a few with pleated bosoms, but mostly plain cut, with small American attached cuffs; all sizes, 14 to 17½, with an ample variety in each size; placed in separate lots for quick choosing; two whole counters filled—no waiting. The one price, **TO-DAY**, each 50c

Main Floor, Queen Street.

The August Furniture Sale Gives Values Like These:

The wheels have begun to turn in the big months of the furniture year, full of splendid saving possibilities. We cannot give much idea of the reliable, well designed pieces in the limited space of a newspaper. We can merely tell you that for months we have been arranging the supply and fitting for the values to make this the greatest of our already notable August Sales.

A few values for Wednesday, the second day, will supply an index of the price advantages

Record Time
For a Stallion

Aug. 2.—Two new speed records in the harness sport marked the Grand Circuit racing at the Grounds. Driving for him after his injury at Grand Rapids, E. F. Geers turned to the sulky by sending the two fastest miles ever run by a stallion, each mile being 20¾. This time also is unequalled by a five-year-old stallion, the former two heat runner, and Bob Douglas, who second to The Harvester, the five-year-old stayer. Geers also drove The Star, the Chamber of Commerce, who gave straight beating at the wire by the first heat.

The Harvester was tactically as his pilot had been extended to the limit, and popular with the crowd, as could get was a division fourth place. The champion Douglas was the only heat winner, and The Harvester got in both heats when ap-

peared, the champion trotter had a picked to win. The Horse of the Times \$3000 Futurity, who broke away and third place, was the get in the C. Stake to Peter's fifth victory in the

AUGUST 3 1910

Sovereign

Hot Water Boiler

Adds 10 to 15 per cent. more than its entire cost to the selling price of any home in which it is installed—and pays for itself as well with the coal it saves.

Larger First Section

The "larger first section," in its proper proportion is an exclusive feature in the "Sovereign" Hot Water Boiler. The "Dictionary of Heating" (it's free; write for it) tells how this first section saves coal and increases the heating capacity.

MAIL ORDERS A STUDY.

JOHN CATTO & SON

55 to 61 King Street East,

TORONTO.

PRISON LABOR CONTRACTS

Will All Have Expired by End of August.

As early as the beginning of next month, prison labor contracts, as far as the Ontario Provincial Government are concerned, will be a thing of the past. The only remaining contract, of a long list, is that of the Taylor Scott Ware Co., which expires September 1.

This will mean that of the 400 men at the Central Prison, 150 will be retained and employed in construction and farm work. Another hundred will be utilized in the north in making roads and in other colonization work.

The remaining 150 will be put at making goods to be purchased and used by government-aided and supported institutions, such as hospitals and asylums.

COL.-SERGT. GREET DEAD
Q. O. R. Man on Bisan Team Passes Away in England.

A cable received yesterday afternoon brought the sad intelligence that Col.-Sergeant Jos. Greet of 319 Spadina Avenue, one of the Canadian Bisan team, had succumbed to typhoid fever. The deceased was born at Dublin in 1873 but spent most of his life in Cornwall, England. He came to Canada six years ago, and began work as a carpenter. Sgt. Greet was 27 years of age, an unmarried man, who was a member of the Masonic Order, a member of L.O.L. 342, of the Cornishmen's Association, and of the Canadian Order of Foresters.

Particularly enthusiastic in regimental and military matters, he became one of the crack units of the Dominion. The sad condition of the Dominion, in view of its excellent condition when he set out for the old country with the other Canadian Bisan team, a few weeks ago. The first intimation of his being ill was a cable or July 13, which said he was in the hospital at Bisan.

George D. McNichol Dead.
News of the death at Au Sable, Mich., on Monday, of George D. McNichol, formerly of Toronto, was received last night by J. D. Keachie, secretary of St. Andrew's Lodge, A. F. & A. M. The message was from Daniel McNichol, vice-principal master of the Au Sable lodge, stating that a representative was in charge of the remains, which will arrive in Toronto this afternoon. The funeral will be held under the auspices of St. Andrew's Lodge.

Thousands of the cans are used as water buckets. The interior of a Malay, Tamil or Chinese home contains American tin cans. The number of cans shipped to some useful purpose are made by puncturing holes. Thousands of dust pans are made from the cans by removing one side, curving two sides and attaching a large wooden handle. Bakings and cooking utensils of all kinds are also skilfully manufactured and may be seen in thousands of homes.

For storing articles of food against onslaughts the tin can is a blessing. Hundreds of men are engaged in manufacturing from tin cans funnels, pepper and salt casters, soap dish, nail punch, grating, griddle, biscuit tins, tea and coffee pots, ladies' mugs, cake patties, Chinese pipes, oil pumps, money boxes, and the framework for false teeth.

So necessary has the American tin can become to these people that to be deprived of its manifold uses would cause a real hardship.

Better Service To-day.
WELLAND, Aug. 2.—There are no passenger trains passing on the Welland division of the Grand Trunk yet. Mail is carried by motor cars. Welland factories are not suffering on account, having so many other railroads.

Dr. Martel's Female Pills

SEVENTEEN YEARS THE STANDARD

Prescribed and recommended for women's ailments, a scientifically prepared female product. The result from their use is quick and permanent.

DEATHS

GUNN—Suddenly, at St. Basil's, Tuesday, Aug. 1, by the Rev. Father Nicholas Hughes, C.S.C., Margaret Lois Hughes, youngest daughter of the late Patrick Hughes, to Charles William Miller, president corporation of New York City.

WILSON-CRANMAD—At Parkdale Presbyterian Church, Toronto, on Saturday evening, July 26, 1910, Long, Gertrude, Elizabeth Bessie, daughter of Mrs. George Cranmad, 247 Beatrice-street, to Harold D. Wilson, son of David Wilson, Whitby.

MAILED TO THE EDITOR

WILL NOT COMMIT POLITICAL SUICIDE.

LONDON, Aug. 2.—(C.A.P.T.)—The Morning Post protests against the position by the free trade press of the report of the "gigantic delegation" to Laurier in favor of abolition of the tariff. It says that Laurier is as likely to commit political suicide as to embark on a fatal free trade policy.

Use of usefulness of tin cans in Malaysia after they have been emptied of American prepared products, is described by Consul-General James T. Du Bois of Singapore, in a report sent to Washington.

The Malay Peninsula produces about six-five per cent of the total output of nearly 500,000 tons, valued at \$4,000,000; about one-third of the United States imports come from there.

In that comes back to the Malay Peninsula in the form of tin cans is interesting. Of the approximately \$2,000,000 worth of goods shipped from the United States to this region, about \$800,000 of it comes in the cans of all varieties. It requires 1,300,000 cans—each can can hold 100 pounds—and the purpose for which these cans are used after the oil has been consumed are various and peculiar.

Thousands of the cans are used as water buckets. The interior of a Malay, Tamil or Chinese home contains

American tin cans. The number of cans shipped to some useful purpose are made by puncturing holes.

Thousands of dust pans are made from the cans by removing one side, curving two sides and attaching a large wooden handle.

Bakings and cooking utensils of all kinds are also skilfully manufactured and may be seen in thousands of homes.

For storing articles of food against

theft, the tin cans are a blessing. Hundreds of men are engaged in manufacturing from tin cans funnels, pepper and salt casters, soap dish, nail punch, grating, griddle, biscuit tins, tea and coffee pots, ladies' mugs, cake patties, Chinese pipes, oil pumps, money boxes, and the framework for false teeth.

So necessary has the American tin can become to these people that to be deprived of its manifold uses would cause a real hardship.

FIVE DAMAGE SUITS ENTERED.

OTTAWA, Aug. 2.—Five writs, amounting in all to \$282, were filed in Hull Court-house against the City of Hull and the General Explosives Co., Ltd., of Montreal, for damages sustained thru the recent explosion. Those suing are entitled to \$300. Georges Lafreniere for \$700; James Lafreniere for \$400; Joseph Piché for \$210 and George Hartley for \$35.

WILL NOT COMMIT POLITICAL SUICIDE.

WORLD'S DEBT TO CANADA

A WONDERFUL ACHIEVEMENT

**Discovery of "Fruit-a-tives" Has
Meant Health For All,**

Canada's fame does not rest solely on her furs and wheat fields. Her rise in the esteem of the world is not due to her Cobalt mines. It is the work of her great men that has made her great. A graduate of McGill University has won lasting renown for his original researches in the realms of physics.

Everyone knows that fruit is wholesome, when eaten judiciously. Physicians generally recognize the fact that fruit juices have a beneficial effect on the various organs of the body.

The discovery of a medicine physician to discover a process whereby the medicinal action of fruit could be so increased as to make the intensified juices a wonderful cure.

"Fruit-a-tives" is this combination of fruit juices and tones. Since its introduction it has met with success accorded to no other medicine in the world. The reason is plain. "Fruit-a-tives" is the one remedy that is actually made of fruit, and is the only remedy that naturally cures Cancer, Bright's Disease, Indigestion, Headaches, Rheumatism, Neuralgia, Backache, Kidney and Skin Troubles. At all dealers at 50¢ a box, 6 for \$2.50, or trial size 25¢, or from Fruit-a-tives, Limited, Ottawa.

HOW SISTERS PERISHED

Victims of Gravenhurst Drowning Recently From England.

Details of the drowning of the Misses Katherine and Nora Jewesson at Gravenhurst add to the pathos. In Toronto, they lived at 72 Walker Avenue. The family had been here for two years. They came to this country from England last autumn. One of the sisters, Cicely, secured employment as a domestic at the home of John M. Morrow, 72 Walker Avenue. A few months ago, she was taken ill and was sent to Gravenhurst Hospital to undergo an operation. Her two sisters, Nora, aged 21, and Katherine, aged 17, stayed at the Walker home to take her place while she was in the hospital. The eldest sister developed consumption, shortly after arriving in Canada and has been staying at Gravenhurst Sanitarium.

It was to see her and to have a holiday as well, that Nora and the youngest sister, Katherine, went to Gravenhurst. They were acquainted with J. P. and R. H. Roberts, who live in a resort, two miles away, and they went over there for supper on Saturday.

While waiting for supper to get ready, they asked him to take them out for a paddle in his canoe. He refused at first, saying that the lake was too rough and unsafe, but the girls insisted. Finally, he finally prevailed upon him to start out. They had not gone far when the swells from steamer Nipissing, heading for Gravenhurst, whirled up.

Miss Nellie Jewesson, a half-sister, received the sad news by telephone just as a souvenir postal card was delivered, saying, "Arrived, all safe. Will write later. Katherine."

HAYS SAW IT COMING

Letter to R. H. A. Secretary Anticipated Settlement.

"I have noted your suggestions as to a board of arbitration, and am pleased to advise you that present indications are that we are nearing a settlement which will make unnecessary any action in the direction contemplated," says a letter from C. M. Hays of the G.T.R., received yesterday by E. M. Trowen, secretary of the Retail Merchants' Association.

The R.M.A. sent a letter to Mr. Hays suggesting that instead of experienced railwaymen being appointed to the arbitration, two persons, who might suggest the experience of wise business men with a general knowledge of what was fair and right, might be better.

INSURANCE RATE REDUCED.

LONDON, Ont., Aug. 2.—(Special)—Major Beattie received word from the Underwriters' Association this afternoon that the key rate for insurance for the congested business centre of the city by 20 cents per thousand. It is further stated that on the completion of the arterial wiggles scheme, reservoir and pumping plant, and subject to the purchase of a new fire engine, a capacity of 1,000 gallons per minute will make it further reduction of 20 cents in business in the mercantile district.

Escaped by the Window.
MEADOWLARK, Aug. 2.—At about 2 o'clock this morning fire破坏了 the residence of Mrs. Maxwell, on Barry-street, apparently caused by mice. Mrs. Maxwell, who is a widow, succeeded in getting the children out by the window.

SENSATIONAL ESCAPE FROM JAIL AT LONDON

Two Prisoners Climbed a 26 Foot Wall and Succeeded in Getting Away.

LONDON, Ont., Aug. 2.—(Special)—John Roberts, under three years' sentence for burglary, and Joseph Steadman, awaiting sentence for burglary, made a daring escape from the county jail here this afternoon, and have not been caught yet. While the other prisoners were in the exercise yard under charge of Acting-Sergeant Haller, while his attention was drawn elsewhere, they climbed a 26-foot wall, being assisted in their climb by a wooden latravay ten feet high. They then came to a point where it was but twelve feet high, and then dropped into a flower bed and walked quickly away. No one appears to have seen them go, and they were not missed until the prisoners fled back into the jail. It is thought that two Indians, who were in the yard with them, gave some assistance.

"Fruit-a-tives" is this combination of fruit juices and tones. Since its introduction it has met with success accorded to no other medicine in the world.

The reason is plain. "Fruit-a-tives" is the one remedy that is actually made of fruit, and is the only remedy that naturally cures Cancer, Bright's Disease, Indigestion, Headaches, Rheumatism, Neuralgia, Backache, Kidney and Skin Troubles. At all dealers at 50¢ a box, 6 for \$2.50, or trial size 25¢, or from Fruit-a-tives, Limited, Ottawa.

AUTOMOBILE SEIZED

After it Had Been Undervalued for the Customs.

An attempt to get an automobile thru the Canadian customs at an undervaluation is attended by severe penalties, as some Niagara Falls parties have learned.

It is reported that H. H. Wilson, of the Ontario Ford Co., presented an invoice to the customs officers consenting that an auto had been sold by him to General Francis Greene of Buffalo, for \$1500, on which valuation the duty was paid.

But instead of the value being as represented, but \$1500, the car was assessed to be \$2268, and the machine was seized. The owner was called upon to pay \$268, plus 35 per cent. duty, less the duty already paid on the undervaluation of \$1500. To square things with the Canadian customs cost over \$3000.

DEFY THE AUTHORITIES

Serious Situation with Liquor Sellers on G. T. P. Construction Work.

OTTAWA, Aug. 2.—(Special)—The Transcontinental Railway commissioners are much concerned over reports from La Tuque, concerning whisky troubles in the vicinity of construction work.

The magistrate decided that Dunn had brought the trouble on himself by not letting State to enter, training him not to take the law in his own hands so easily. Meanwhile, Stafford has been dismissed by President Powers.

The magistrate decided that Dunn was not to be sold within five miles on either side of the railway, while under construction.

Reports to the commissioners state, however, that the whiskey sellers are openly defying the authorities, and refuse to remove themselves. The situation is so serious that the dozen Dominion police were sent to La Tuque to-day, heavily armed, and with the simple order to see that the law is obeyed.

In the Afternoon Court.

Magistrate H. H. Wilson announced yesterday that he would grade his findings on speeding to meet the speed at which the accused was going. Thus, overall charged with going at 21 miles an hour was fined \$5 and costs.

These cases were settled out of court.

Frederick Gooderman, William Hibbert, James George, John Allen, J. Matheson, were fined \$2 each for having one or more dogs.

York Pioneers.

The York Pioneers, in the Canadian militia, held yesterday afternoon, President Daniel Lamb presiding.

A resolution of condolence with the family of the late William Rennie, former president, was passed.

Arrangements were made for the annual dinner of the York Pioneers, to be held at the York Club, on Sept. 1.

Marine Engineers leave Montreal 8.15 a.m. daily except Saturday. Ocean Limited leaves Montreal 7.30 p.m. daily except Saturday. Bonaventure Union St. Pier, Montreal.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors

give many names, but which few of them really

know. It is a physical weakness, a break-down,

as it were, of the body, and it is a disease of the mind.

No matter what may be its cause (for they

are a most varied class), its symptoms are much the same, viz., loss of energy, depression of spirits and want of energy for all the ordinary activities of life. It is a disease which is usually accompanied by insomnia, and it is often associated with a desire to sleep.

It is a disease which is usually associated with a desire to sleep.

It is a disease which is usually associated with a desire to sleep.

It is a disease which is usually associated with a desire to sleep.

It is a disease which is usually associated with a desire to sleep.

in
YORK COUNTY West Toronto
North Toronto
East Toronto

ANNEXATION PETITION IS OVER-SUBSCRIBED

Nearly 300 Names on North To-
ronto List—Clerk and Treas-
urer Appointed—Suburbs.

Muskoka to-day, and will remain in
town for the present. The members of
his family are still in the north.

Chief Goss was in the town to-
day for a short time, but he will ac-
company his great ladies to Wash-
ington to-morrow, thence he will be unable to
take any active part in the competitions.

Dr. Jeff's salary as medical health-
officer will be \$100 instead of \$50, as
formerly.

WEST TORONTO.

Well-Known Local Orangeman Dies
in Grace Hospital.

WEST TORONTO, Aug. 2.—(Special)—The death occurred in Grace Hos-
pital, yesterday of William Brown, one of the best known men in town,
and who has for years conducted the
hotel of that name on the Weston
Road. Late, Mr. Brown was engaged in the
brick making industry.

Decassey was taken ill on Sunday,
and was removed in Mr. Spikes' private
ambulance to the hospital. He
died yesterday, and was buried in a
cemetery in Etobicoke.

There was little or no comment on
the situation. Councillor Walter
presenting the petition and briefly
outlining the preliminary conditions
agreed upon, which are in short as
follows:

The extension of the Toronto
Street Railway to the northern limits of
the town as part of the Toronto
Street Railway, together with a single
fare.

The retention of the present town
officials and employees.

The city to continue the supply of
water as long as possible from the
present town water system.

The grouping of Don Park and
the present part of North Toronto as
a distinct ward if possible.

The assumption of the present
debt for water mains and the construction
of the town as part of the general debt
of the city, otherwise the local im-
provements will be paid by the town in
the same way as by Toronto.

The opening up of other high-
ways thru the town as necessary.

"We must deal cautiously with this
matter," said Mayor Brown, "as the
names of the petitioners will be used to
support the bill, and the work and costs
will be determined by the legal status."

This will be done within the intervening
two weeks before the next meet-
ing of council, and if they are con-
firmed, a bylaw will be forthwith pre-
pared and the vote taken within a month
thereafter. So that by Sept. 1 or there-
abouts North Toronto people will have
an opportunity to again exercise the
franchise.

A good deal of discussion took place
relative to the proposed bylaw, and
the question of a
subpoena to W. J. Douglas as town
clerk, appointing J. E. Stevenson, a
local man, to the position at a salary
of \$600, while H. E. Norman, also a lo-
cal man, gets the treasurerhip at a
salary of \$500 per annum.

On the night of Friday, July 27, in
visiting the office of clerk and treasurer,
it was learned that Mr. Rossiter, who
had been deputed to interview the pro-
perty owners, was not very encouraging.

Practically all the large property
owners, as S. W. Armstrong, Mr. Good-
win, Mr. Bennett, and others, were
willing to sell out at a good fancy price, while
some few declared they would not
stand in the way of progress. The
problem was taken up with Mr. Con-
sider, who retains the homestead, and
he, with the help of Mr. Rossiter, will
continue the work of investigation.

The strike of town laborers is over,
the men capitulating and accepting the
terms previously offered and paid
by the employers.

"I think they should have known
what they were striking for before
they went out," said Councillor Mur-
phy.

"Only a little misunderstanding,"
said the mayor and the incident closed.

N. Y. Secures More London Gold--Rebound in Stocks

C. N. R. IN THE WEST

Mr. Mann Expects to See Construction in B. C. Completed in 1913.

The Vancouver Province reporter on the eve of his sailing for Prince Rupert, D. D. Mann, vice-president of the Canadian Northern Railway, who is taking a trip thru British Columbia, stated that he probably spend two or three weeks in the Stewart Mining Camp. In regard to the Canadian Northern, Mr. Mann said:

"All our plans are being made to finish the construction of the Canadian Northern in British Columbia one year ahead of the specified time for its completion. That means the last touch on the undertaking in the summer of 1913. We have agreed with the government of this province calls for the finishing of the work within four years from the first day of the present month."

"Our working forces have started on the first coast section of sixty miles from the banks of the Fraser river opposite New Westminster. The section is now claiming our attention, but shortly work will be started on another section lying immediately to the east of the first one. No contract has yet been awarded for this second section, but it will not be long before one is let and work will be started on it this year."

"At the eastern end of our line in British Columbia we have not yet started work. In one year's time we will be working on the eastern end of the road in this province. We have now a large working force heading westward into the Yellowhead from Edmonton. Till that force reaches British Columbia the eastern end of the road in this province will not be touched. It is essential to construction at that point that we should have our rails laid westward from Edmonton."

"On the western end of the Canadian Northern in British Columbia may be undertaken at many points owing to the accessibility of our route. This will make for speedy work, and I am confident we will have the entire line completed a year ahead of time."

MIGHT COUNTER ON U. S.

If Claim Holds Some of Own Bay May Be Extra Territorial.

(Canadian Associated Press Cable.)

LONDON, Aug. 2.—At the Hague fisheries dispute, Counsel Robson for England entered upon the sixth day of his speech, and continued his argument on the fifth question before the tribunal, and claimed exclusive jurisdiction over the Great Britain and the North Atlantic fisheries in all bays and 120 miles beyond. In support of his claim he quoted largely from official documents, some of which were of much historical interest.

He argued that in the American interpretation of the clause relating to the treaty of 1818, the word "bays" became superfluous, because the United States wished to trace the line of demarcation in territorial waters where three miles from the shore. In fact, he said, the United States in 1818 had recognized precisely the same right which it received in 1783 to fish in territorial waters three miles from the coasts and in bays, which then were considered the property of the coastal states. This contention was supported by the English Bar Incident of 1790, he said. If large bays only are to be considered territorial waters, when other nations consented, and the tribunal endorsed this erroneous opinion, Great Britain would withdraw her consent to territoriality in the Delaware and Chesapeake Bays.

Reduced Railway Rates.

At a meeting of the Eastern Canadian Passenger Association held yesterday, rates were considered for numerous events, among them being the following:

St. Jahn's, Que., August 5, 1910, annual regatta, Canadian Canoe Association; Cobourg, Ont., August 16-19, 1910, Canadian Showman Horse Show; Montreal, Que., Sept. 27-30, Oct. 1-10, 1910, Montreal Horse Show; Port Glasgow, Ont. (Rodney Station), August 17, 1910, Aldborough Old Boys' Reunion; Excursions to Chicago, Bay City, Cleveland, Detroit, Grand Rapids, Toledo, Huron, Saginaw, St. Paul, and Minneapolis, Gaithersburg, Md., December 5-12, 1910, Provincial Winter Fair; Ottawa, Ont., January 16-20, 1910, Eastern Ontario Livestock and Poultry Show.

Succession Duties.

The succession duties were given out yesterday from the parliament buildings for the month of July to have amounted to \$109,458. For the same month last year the total was \$76,319. So far the amount taken in this department has been \$488,514.

A RESPITE IN REALIZING MOVEMENT.

World Office.

Tuesday Evening, Aug. 2.

The Toronto Stock Exchange showed an entire lack of snap during to-day's session, trading being of only moderate volume, and showing no signs of any initiative force. Public interest in the market was of small proportions, and price concessions were confined to small fractions, even in the favorite speculative issues. There was nothing in outside news of any influence market-wise, but the steadier tone to Wall-street helped sentiment locally. The sharp rally at New York during the late trading will help to ward off selling in Canadian, as in American securities, and provide a respite from nervous liquidation for a few days.

Wall St. Takes Turn for Better Vigorous Rebound at the Close

Sharp Recovery in New York Late in Day on More Optimistic News

—Domestic Issues Hold Firm.

World Office,

Tuesday Evening, Aug. 2.

Despite the three days' holiday there was no suggestion of orders on the Toronto Stock Exchange to-day, trading was conducted on a small scale and with no material change in value in any of the active securities.

The rally on Wall-street late in the day had an influence on sentiment locally, but this came too late to have any marked effect on prices. Supporting bids at the close, however, were well maintained, and in several instances were above the current sales taken for the last of the season.

Regular Dividend.

International Harvester Co. declared regular quarterly dividend of 1 per cent. on common stock.

America Imports More Gold.

LONDON, Aug. 2.—America secured \$100,412,000 worth of gold, advancing a point from the opening sale, the stock selling as high as 107 here, while at the close bids were half a point below that figure. Mackay was not up to the high point of Friday last, ending the day at 106 and closing at that figure. The stock was not dealt in on the New York market.

In the purely domestic issues Steel

Corporation gained nearly a point, and closed at the top. Black Lake was up a point, but Duluth-Superior to 107, the rest of the day was flat, losing 7-8 from the close last week.

The tropical tractions were comparatively steady, both Rio and Sao Paulo changing hands at prices only fractionally removed from those of the preceding session.

The market rebound was dull and seemingly moved entirely in accord with New York, being affected by the slightest change in the Wall-street situation. There was little breadth to the speculative movement, but liquidation was well taken care of and good support was evident in nearly every section of the list.

WALL STREET POINTERS.

Copper sales in July larger than any month since the first of the year.

Some improvement in demand for pig iron reported.

St. Louis and San Francisco show record gross earnings for year ended June 30, but only earn about 1 per cent. on common.

Bar silver in London averaged above 25d. an ounce in July for the first time in two years.

Lazard Freres have bought 465,000 bar gold in London.

London: The visible supply of copper in Europe is reported at 99,250 tons, against 102,670 tons on July 15, a decrease of 320 tons.

L. Von Hoffman & Co. secured \$500,000 gold in London for import.

Preparations for government suit against American Sugar Co. under Sherman Anti-Trust Law practically concluded.

Locomotive engineers on railroads running west of Chicago said to be formulating demands for increased wages.

Joseph says: From now on the Morgan interests are at a probability to be more closely identified with market. The government cotton report has been generally discounted marksmanship. There's a fair jarico short interest in Lead, but conservative for the time. Specialties, B.R.T. is seen to recover. Take on Canadian Pacific and Pennsylvania.

*Decrease.

Visible Supply.

Broadhurst's estimates the visible supply of wheat, barley, oats, rye, etc., from 3,355,000 bushels; Canada, decrease, 655,000 bushels; U. S. and Canada, increase, 2,600,000 bushels; wheat and in Europe, increase, 2,300,000 bushels; barley, 4,600,000 bushels; Corn, decrease, 16,000 bushels; Oats, increase, 42,000 bushels. European wheat this week, 65,000,000 bushels; barley, 36,000,000 bushels; wheat, 1,000,000 bushels. Last year there was a decrease of 3,000,000 bushels, while the total amounted 50,600,000 bushels.

Broomhall's Cable.

LIVERPOOL, Aug. 2.—Broomhall cables to-day:

France.—Reports are being received of a very bad harvest, but the crop is progressing, but yields generally are poor and the quality low.

Italy.—Threshing is about finished, and the results are disappointing. Foreign wheat has been freely bought.

The weekly foreign crop summary will be issued on Wednesday.

Crop Report.

Iowa crop report says rainfall deficient during last week of July. However, three-fourths of the corn crop is in excellent condition. Pasture report from threshed district indicates that the quality of small grain is excellent, and that the yield will be considerably above the average of recent years.

Special Russian news service says: In the southeast weather is fine and arrivals are increasing. In the southwest the weather is good, but the reports from both are being received at Nicolaopolis that rust is causing damage. Arrivals at the ports are increasing and are expected to be large. Still the market is firm under a good demand.

S. LAWRENCE MARKET.

Receipts of farm produce were 200 bushels of grain, 22 loads of hay (all new), three loads of straw and a few dressed hogs.

Oats—Two hundred bushels sold at 48c.

Hay—Twenty-two loads of new sold at 17 to \$20 per ton.

Straw—Three loads sold at 15 to 18c per ton.

Market Notes.

Joshua Ingman bought six dressed hogs at \$18 per cwt.

The August Hosiery Sale

Will Start With a Rush at Eight a. m. Thursday

Get an early breakfast to-morrow!

The Hosiery Sale with a reputation behind it begins on the stroke of eight—and its opening values should not be missed.

New Hosiery from Europe has been pouring in faster than we anticipated—some of it actually arriving in Toronto before the buyer who bought it. So when this sale begins to-morrow our shelves will be loaded with the kind of new goods that make both customers and salespeople enthusiastic.

Most of the important hosiery mills of England, France and Germany have been visited by our buyer during the past few weeks—and you'll see to-morrow how many "good things" we've found for you. There are no "seconds" on sale here, but we made, at many of the mills, a clean sweep of their "**overmakes**." Remember, "overmakes" are perfect goods, just what the mill runs in excess of their actual European orders—and our buyer arriving, cash in hand, "scooped" many of these fine lots.

August Hosiery adds more to the family comfort and happiness than Christmas stockings, when such prices as these prevail

WOMEN'S HOSIERY.
