EARL KITCHENER AND STAFF PERISHED WHEN H.M.S. HAMPSHIRE STRUCK MINE

GREATEST SHOCK TO EMPIRE SINCE THE WAR COMMENCED CANADIANS AGAIN HEAVILY ATTACKED AT HOOGHE FEAR THAT GEN. MERCER IS KILLED

War Minister Was Proceeding to Russia With His Staff to Meet the Czar and Visit Russian Front, When H.M.S. Hampshire Struck a Mine or Was Torpedoed off the Orkney Islands and All on Board Perished.

GEN. MERCER'S NOT YET FOUND ALL HOPE GONE

RUSSIANS BRILLIANTLY BEGIN OFFENSIVE AGAINST TEUTONS

LONDON, June 6, 10.20 p.m.—The news that Earl Kitchener, secretary of state for war, and his staff, who were proceeding to Russia aboard the cruiser Hampshire, were lost off the Orkney Islands last night, was the most stunning blow Great Britain has received since the war began.

London some time before the newspapers could get into the streets. There was a crowd about the stock exchange which required police reserves to deal with. The police told everyone to move on; that there was no truth in the reports.

Kitchener's brain was largely instrumental in planning and launching. There is no evidence to show whether the Hampshire was submerged or struck a mine. Many ships have been passing between Russia and Great Britain over the same route since the port of Archangel was opened.

Belief at Ottawa is That He Lost Life at Zillebeke. PROMOTIONS ARE MADE Brigadier-Generals Lipsett and Hughes Will Head Divisions.

Czar's Army Captures Positions All Along Front from Pripet Marshes to Roumania, and Takes Twenty-five Thousand Prisoners.

At the same time another mass of people were assembling about the government offices in Whitehall. All the windows of the war office had the curtains lowered. That confirmed the rumor beyond doubt. Other crowds gathered around the newspaper offices; when the boys came out with an armful of extras the people fell on them and fought for the papers.

The English undoubtedly are a stoical people and have taken the good and the bad tidings of the war with an absence of emotion surprising to outsiders. But no one could have walked the London streets today without perceiving that somehow the common people looked as tho a calamity had befallen them.

An official statement issued this evening says that Earl Kitchener was to have discussed important military and financial questions with Emperor Nicholas.

By a Staff Reporter. OTTAWA Ont., June 6.—It is now fully believed here that Gen. Mercer is dead. He was the commander of the third Canadian division and was reported missing since last Friday.

CANADIANS ATTACKED BY FOE ABOUT HOOGHE Fighting Marked by Heavy Bombardments and Mine Explosions—General Line Preserved Intact.

PETROGRAD, June 6.—(Via London, 7.50 p.m.)—The sudden blow struck by the Russians along the entire Galician front of 275 miles, from the Pripet to Roumania, is in the unanimous opinion of the military critics here, a brilliant beginning of the long awaited Russian offensive.

Admiral Jellicoe's report to the admiralty was as follows: "I have to report with deep regret that His Majesty's ship Hampshire, Capt. Herbert J. Savill, R.N., with Lord Kitchener and his staff on board, was sunk last night about 8 p.m., to the west of the Orkneys, either by a mine or a torpedo.

The fact that the cruiser Hampshire with between 200 and 300 men had sunk in these days of tension—had an unfortunate detail in these days when a thousand go under almost as an incident of warfare, and the Canadians' battle gets a scanty column in the newspapers.

The Hampshire which cost \$4,350,000, was built thirteen years ago, was 450 feet long and of 10,850 tonnage. Her regular complement was 685 men, but it is understood only about half that number were on board.

Where Disaster Occurred. The Orkney Islands off which the disaster occurred are off the northern coast of Scotland. The commander of the Hampshire was apparently heading for Archangel, intending to take a course around the northern end of the Scandinavian peninsula into the White Sea.

LONDON, June 6.—The Canadians had again to endure heavy bombardments and attacks on the front east of Ypres and north and south of Hooge this afternoon, but they preserved their general line intact. The Germans exploded a series of mines at various points on a 2000-yard front north of Hooge and penetrated front trenches. Their efforts in the way of mine explosions and bombardments were followed by unsuccessful attacks.

Moved on Whole Line. The forces opposing the Russian advance are estimated at 40 Austrian infantry divisions and from 10 to 15 Austrian cavalry divisions, assisted by, at the most, two divisions of German troops. This brings total Teutonic forces operating on this front up to 600,000 men.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE sudden death of Earl Kitchener on board H.M.S. Hampshire, sunk by a torpedo or a mine in the North Sea yesterday, removes one of the greatest military organizers of the time. His work as secretary of state for war in organizing the greatest army which the British Empire has ever seen, in the short space of 20 months, will stand as an enduring monument to his genius.

Women's Silk Suits Assembled for Special Selling

In Two Groups, Greatly Reduced at \$12.75 and \$17.75

450 High-class Imported Models, also some from our own Tailoring Department—This is the offering: Extra quality taffeta, soft faille and combinations of fine worsted serge with taffeta or poplin are the materials. A wide flare and attractive arrangements of pleating, panelling, shirring and yoked effect characterize the skirts; the coats frequently are in Russian blouse style, or else in Basque, Norfolk or loose "box" effect.

Crochet buttons form a charming touch on a black taffeta which has the waist line emphasized by straps of velvet across the back; the skirt is gathered into a yoke. A bright flame colored lining shows at throat, wrist, and skirt hem of a black poplin. Several serge and taffeta suits have a high pleated collar extending into French crash revers. Novelty black and white buttons form a decoration on several of the black suits. In fact trimmings are so novel and varied that full description is impossible. Notable among others are fancy buckles, strapping, and bands of velvet or self material. The colors are navy, black, grey, Belgian blue and tan tones. All sizes from 32 to 44-inch bust in the offering. Note extra large sizes.

"Old Bleach" Table Linens Just Here From Ireland

Just Arrived — Immense Shipment of the World-famous Damasks Direct From the Mills in the County of Antrim.

THE FINEST LINEN WOVEN ON A POWER LOOM is the proud boast of a certain species of damask included in this great consignment of "Old Bleach" which has just come out from Ireland. And verily it is a superb example of machine weaving, with the sheen of richest satin in its finish. The pattern is unique, showing chubby Cupids suspending themselves from classic scrolls. As for price, a set of table cloth, 2 1/2 yards square, 26 inches square, is \$48.50 the set. With cloth 2 1/2 by 3 and same size napkins—\$52.50 the set, and with cloth 2 1/2 by 3 1/2 and same napkins, \$55.50.

Never before in the history of the Linen Department has there been featured such an extensive variety in high-grade linens. In this celebrated sun-bleached damask is a huge selection of very lovely designs. Thus:

Affording a choice of shamrock, floral scroll or wild rose patterns are sets of "Old Bleach" priced as follows: Cloth, 2 x 2 1/2 yards, and 1 dozen 24-inch napkins, \$11.50 the set; and with cloth 2 by 3 yards and same napkins, at \$12.50.

In geranium, shamrock or a beautiful rose design are sets at these prices: Cloth, 2 by 2 yards, and 1 dozen 24-inch napkins, \$11.00; with cloth 2 by 2 1/2 yards and same napkins, \$12.25; with cloth 2 1/2 by 2 1/2 yards and same napkins, \$14.00.

Another quality offers a delicate wild rose design with ribbon and bay leaf border; an ivy and coin spot effect; a morning glory pattern; and the handsome "Queen's Lace." Sizes and prices are: Cloth, 2 by 2 yards, and napkins 24 inches square, \$13.00 the set; cloth, 2 by 2 1/2 yards, with same napkins, \$14.25; cloth, 2 1/2 by 3 yards, with same napkins, \$17.25; and cloth, 2 1/2 yards by 3 yards, with same napkins, \$18.25.

Empire wreath, scroll and ribbon, Marie Antoinette with flowers and lover's knot, and Sheraton with characteristic motif—such are some of the designs in sets at these prices: Cloth, 2 1/2 by 3 yards, and dozen 24-inch napkins, \$17.50 the set; cloth, 2 1/2 by 2 1/2 yards, and same napkins, \$20.00; and cloth, 2 1/2 by 3 yards, and same napkins, \$22.50.

Verandah Rugs Patterned Like Fine Old Indian Baskets

Made of Prairie Grass and Stencilled in the Quaint Designs Employed by the Old Tribes of Alaska — With Charming Color Effects in Blues, Browns and Greens, With Tan or Grey.

IT IS SOMETHING ORIGINAL, something of true artistic merit you find in these new prairie grass rugs. Looking for designs wherewith to pattern their floor-coverings the makers have turned to the beauteous baskets woven by the Indians of Alaska. Geometrical and conventional designs long identified with this and that tribe have been cleverly reproduced with the stencil brush, charming combinations of color being achieved. The sketch below shows one of the numerous patterns.

There are self-tone effects in brown or Delft blue on a grey or tan ground, also gayer schemes of green and red, or brown and green, or brown and red on green, tan or grey ground. For verandahs, bedrooms, or sunrooms they offer most attractive provision. Moreover, they promise thorough good wear. Sizes and prices are:

Table with 2 columns of rug sizes and prices. Size 8 x 6 is \$1.85, Size 8 x 10 is \$7.75, etc.

Also the Splendid Rattania and Mourouk Rugs

Another summer rug deserving of notice is this Rattania, so finely and smoothly woven of fibre as to claim suitability for indoor as well as outdoor use. Moreover, the colors are guaranteed fast, appearing in Greek key, band or floral borders in delightful tones of Delft blue, brown or green, with plain green or mottled fawn or grey centres. This is a reversible rug, the prices being as follows:

Table with 2 columns of rug sizes and prices. Size 4-6 x 7-6 is \$8.75, Size 6 x 9 is \$6.00, etc.

The Acme Four-Burner Gas Range at \$13.50

One of the many features of this Range is the advantage of the position of the oven lighter, which is placed inside the oven, 3 to 4 inches from the front door, which cannot be lighted till oven door is opened, thus eliminating the possibility of an explosion caused by an oven full of gas and when a match is placed under it.

It is made with four star drilled cooking burners and simmer, each controlled by separate adjustable needle-point valve and air mixer, under which is removable dirt tray. The body is of rolled steel with baked Japan finish, heavy feed bar and cast iron frame at front. Square plain oven with two racks heated with bar burners. —\$13.50 —Basement.

Amphian Player Piano, at \$325.00

An Up-to-date Piano With An Up-to-date Player for the Price You Would Ordinarily Pay for a Piano Alone.

BUYING IT AND SELLING IT FOR CASH—this is the secret of the unique price of the Amphian. To begin with, we purchase on advantageous terms, and to end with, we dispose of it without any of the usual expenses incurred in the selling of a player—without commissions, collector's fees, allowances for bad debts, etc., etc.

The sum which you pay for the Amphian represents but a small amount more than the actual cost of its production.

Moreover, it is an instrument of pronounced merit, the player being equipped with the Standard Pneumatic Action, in use to-day in approximately 80,000 pianos. Flexible striking finger and self-accenting bellows are other features making for mechanical perfection.

You who are turning over the question of acquiring a piano-player make a point of visiting the showrooms and having someone demonstrate the various "points" of the Amphian. You will be convinced that at \$325.00 it is, indeed, a high-grade instrument at an extraordinarily low price.

Invitations and Announcements

Engraved to the King's Taste on Vellum Paper in Script Lettering.

NOTHING SHORT OF PERFECTION answers the purpose where wedding stationery is concerned. And this, whether the nuptials be the large ceremonial event or the informal war-time affair. For if invitations be dispensed with, then are announcements in order.

Perfection of engraving, excellence of material and correctness of general form characterize all work turned out by the Stationery Department. Printed from copper plate on the finest vellum paper, the following prices include plate and sets of announcements or invitations with inside and outside envelopes:— 8 line script, plate and 25 sets... \$ 6.50 8 line script, plate and 50 sets... 7.25 8 line script, plate and 100 sets... 9.25 11 line script, plate and 25 sets... 8.25 11 line script, plate and 50 sets... 9.00 11 line script, plate and 100 sets... 11.00 14 line script, plate and 25 sets... 9.75 14 line script, plate and 50 sets... 10.50 14 line script, plate and 100 sets... 12.50 —Main Floor, Albert and James Sts.

P. L. G.—It wouldn't do for us to crowd that small room of yours with pattern and fringes, or you, yourself, would have no show in it. Its adornment must be simple. My suggestion would be little straight curtains of amber color, cream silk—wouldn't that be two or three tones deeper than the walls?—using a fine cream or ecru scrim or voile next the glass, old blue repp or valentine on the chairs, and on the floor a couple of small Oriental rugs in mellow Persian tones of blue, brown and ivory. The latter would claim the allotted \$40.00, I fear. The runner for the hall would be extra, alas, but since you give no idea of its size or shape, no practical recommendation can be made concerning it. This much can be said, however, that if the walls are covered with a patterned paper, then it would be well to keep to a small, simple geometric design in the rug—at nearly plain in effect as would be compatible with the hard wear it will receive.

Miss Menzies.—Of "Frog-he-would-a-wool-go" fame? You'll want to be very fine then. What would you think of a cream corduroy skirt? A smart one may be had in misses' sizes at \$5.00. Or you might prefer the swaggy little model in black and white shepherd's check, at \$3.50, or that in cream serge at \$6.00. They are all cut in the modish flare style with the belt, pockets or yoke of which you hear so much when sports togethery is the theme.

Chinchilla and corduroy are the favorite fabrics, Miss Menzies, where outing coats are concerned, jaunty little belted styles in cream chinchilla being featured at \$6.75, \$7.50, and \$10.00, and in cream corduroy at \$5.75, \$6.75, \$7.75 and \$10.00, the quality and tailoring, of course, improving with the price. So "Hey-ho!" says Anthony Newby.

Niagara.—Picture mouldings are not any more out of date than pictures. The gaudy borders which used to creep at us from the ceiling in the name of decoration, have been banished, happily, but the drop ceiling and the nearest or conventional banding are employed to charming effect—and with them, of course, the moulding. In your high-walled rooms, the drop ceiling would be preferable. I fancy, though, in case you feel the plain paper needs a little cheering up, a two or three-inch banding might be used as well—below the picture moulding.

For the wee, three-month-old baby are dainty carriage covers in white elderdown bound with pink, blue or white ribbon, at \$2.00, white knitted woolly ones at \$1.50, and others in the inevitable white plume, prettily embroidered, at \$1.50, \$2.25, on up to \$8.50 and \$9.75.

The Scribe. In choosing your new corset take advantage of the opportunity of consulting Miss Newport of New York, the clever corsetiere, who is now in attendance in the Corset Department, for the purpose of fitting the Spring models of the "Nemo" the corset famous from the Atlantic to the Pacific for its self-reducing models for stout figures. Appointments at fittings may be made by telephone. —Third Floor, Queen St.

The Increased Price of Imported Tires Gives No Increase of Quality

When you buy a tire manufactured outside of Canada you pay from 40 to 50 per cent more than the consumer in the country from whence that tire came.

Yet the added cost of imported tires gives you no increase in quality—no better tire value than the consumer obtains in the home-market of the manufacturer.

In the United States many of the brands that are exported to Canada sell at a lower price than Goodyear Tires. Yet the sale of Goodyears is much greater.

By thus giving their preference to Goodyear Tires motorists of the United States have decided that Goodyear offers the greatest values even in competition with lower-priced brands.

But in Canada most of these tires sell at higher prices than Goodyears.

"MADE IN CANADA" Cuts the Cost of Goodyear Tires

"Made in Canada" brings a direct, substantial saving to every purchaser of Goodyear Tires.

Were Goodyear Tires not made in Canada they would cost you more in price.

How big that increase in price would be you can judge from the tables given here.

The Lower Price Buys the Same Goodyear Excellence

Making Goodyear Tires in Canada lowers the price but does not lower the excellence of Goodyears. The results of Goodyear tests, Goodyear experiments, the ever-to-be maintained prestige of Goodyear internationalism, the Goodyear skill of Goodyear laboratories, combine to make Goodyear Made-in-Canada Tires give longer and more satisfactory service.

Dyspeptics Should Avoid Drugs and Medicines

Try a Little Magnesia Instead. Some people instinctively shut their eyes to danger, and it may be that instinct, take drugs, patent foods and medicines.

But closing the eyes does not banish the danger, and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia.

Physicians know this, and that is why their advice so often to sufferers from indigestion and stomach trouble is, "Just get out of an ounce of pure bismuted magnesia from your druggist, and take a teaspoonful in a little water immediately after every meal. This will instantly neutralize all the harmful acid in the stomach and stop all food fermentation, thus enabling you to enjoy hearty meals without experiencing the least pain or unpleasantness afterward."

WEDNESDAY MORNING, JUNE 7.

Lord Kitchener
Never does the flame of national life burn more brightly than when the heroic lives of the nation's best are cast upon the altar fire of her devotion and her aspiration. What we need today is an angel to take the coils of fire from this altar and touch the lips of those who are still indifferent to wake them to a new purpose and a new power. If we do not receive the spirit of consecration out of the events of these momentous days we are living in vain, and the gains marvelous victories and subdued all our foes and learned not this lesson we had fought in vain as a nation, and those among us who had failed to take their place where duty called them had better never have been born.

Shock after shock may yet be necessary before the nation awakens to the individual responsibility which each man must feel in his heart, and express in his life. We must not think that the war only means that the nations are at strife. The men and women of the nations are also at strife and are lined up as truly in the ranks that contend for freedom and justice or for tyranny and false dealing, as the they were uniforms and carried weapons on the field of battle.

We can imagine with what serene eyes the heroes who have passed from the conflict can turn to look upon our clouded planet, but with what coldness they must turn away from those who think they have neither part nor lot in the struggle. No man who did not do his duty could ever face Kitchener's eyes. But who would not like to be able to look Kitchener in the face? Yet there are graver judgments than that of Kitchener to be met.

Kitchener was the great exemplar of duty, and there were those who shuddered at the thought of his unswerving code of efficiency. In the great testing times of life there is no other code that serves. And it is as a testing time of the nations, and that of the individuals of the nations, that the present crisis in the world's affairs must be considered. As month after long months roll on, and the ghastly list of the dead lengthens out, this must be more and more apparent to anyone who thinks and who sees more in life than a wild night-mare of inhuman butchery.

We might say that we upon whom the end of the ages has come, must understand more fully our relation to the vast developments which are shaking the world to its foundations. It is not for nothing to any of us that the greatest sea-fight in the knowledge of man was fought a week ago, or that our greatest general passed to his account and left us to carry on the task to which he had dedicated his entire premeditated life. If these things do not move us then we are born too soon and have failed to understand our kinship with humanity. In Toronto especially, after the stirring tidings from Ypres, it should be the conviction of every man who can do anything to advance the cause to take up his share of the load without delay, and lay his offering on the altar where Kitchener has cast all that he had.

It is difficult to speak of Kitchener as one does of common men. He has been the hero of many of us for a generation at least. He embodied all that was ideally typical and strong in a British warrior. When he made his great conquest of the Sudan and for his reward asked that those who were pleased with his services should contribute to build a college for the benefit of the race which he had subdued, we felt that we had risen into a larger life. When we heard of his achievements in organization and his unswerving pains to attain perfection, we were inspired with the same desire to achieve what was in us. All that we set on a high level, and we felt that he wrought not as for human reward but for an unearthy standard which no man could measure but himself. Whatever his aim, whatever his task, there was the note of consecration, and we felt that the fire from the

altar had touched his lips, if no other, and not the less because those lips uttered few words.

There was once a tradition that he never smiled, and when he was photographed smiling, it was the most popular picture of the year. He must have smiled in his soul as the years passed away and he wrestled with the great issues of life and death in France, Cyprus, Palestine, Egypt, the Sudan, South Africa, India, and now last of all, summoned as a prince among men, to gather the strength of the nation he loved into an army to overthrow the forces of falsehood and darkness.

His huge task was fairly accomplished. Only a few days ago the prime minister paid him the greatest tribute that could be voiced by one man to another. And later he met all his critics, and disarmed them by his frankness and his free discussion of the questions that perplexed them. They were satisfied when he had spoken. Millions of his fellow countrymen are wearing the King's uniform because Kitchener called upon them. The trenches will be filled with a sterner resolution when they hear of the great leader's end. But it was such an end as he might well have desired. The ocean bed is not an unwelcome grave for a British soldier. The Kaiser may feel that he has wounded his enemies most sorely in taking the life of such a man as German Kultur could not produce, as highly efficient, as able, as profound as any German, but honest, true and humane, and magnanimous.

Making History at New Glasgow

Within a few weeks the keel of a new collier for its coasting trade will be laid by the Nova Scotia Steel and Coal Company. It is to be a steel vessel 220 feet long, and of about 2000 tons dead weight capacity. The stem, stern post and rudder forgings, all propelling shafting, propeller and all fittings will be made by the "Scottia" Company at their New Glasgow plant. All the frame angles, floor plates, etc., will be rolled at this plant. In short, the bulk of the building material will be furnished by the "Scottia" Company.

Col. Thomas L. Cantley, the director of the Nova Scotia Steel and Coal Company, believes that the launching of this vessel may inaugurate an era of naval and merchant ship construction in Canada. We have all the raw material, highly equipped plants, and highly intelligent labor. Why, therefore, should we not be able to build ships?

Sixty years ago the little colony of Nova Scotia ranked first among the shipbuilding nations of the world. Then the Yankee clipper and Canadian sailing vessel were to be seen in every harbor of the world. That in both countries an industry in which they took pride and greatly excelled should have languished miserably and all but died requires some explanation which it would be idle now to attempt. Suffice it to say that the mistakes of the past should be retrieved and our government should speedily extend the protecting wings of the national policy to a great national industry.

Our shipyards on the Great Lakes are successful in spite of great handicaps, but we have no shipbuilding on the Atlantic coast. Col. Cantley's collier will demonstrate the possibilities for the development of a great shipbuilding industry in this country, and the creation of a Canadian ocean marine. As she slips down the ways into the East River she may put a red letter day in the calendar of Canada.

He Had Told Friends He Wished to Die on the Battlefield.

WAS THRICE WOUNDED

Major Gault Raised Princess Pats and Did Gallant Service.

MONTREAL, June 6.—The announcement of the death of Major Hamilton Gault, who raised the Princess Patricia's Regiment, reached his family today.
Major Gault was wounded twice before he received a mortal wound in the recent Zillebeke fighting.
Major Gault was the unsuccessful petitioner for a divorce before the senate recently, naming a fellow-officer as a correspondent.

He told friends when he left to join his regiment that they would never see him again, as he was going to sell his life on the battlefield.

Toasts Omitted at Luncheon of Imperial Council of Commerce.

LONDON, June 6.—Nowhere has the news of Earl Kitchener's tragic end been received with more genuine sorrow than in the Canadian camps in England, where several times, though not in the immediate past, he undertook the inspection of the forces sent overseas, and Saturday week his lordship entertained a large party of wounded soldiers at his beautiful residence, Broom Park. The guests included a number of Canadians, with several of whom he shook hands and chatted.

The general impression that Earl Kitchener was an unbending martinet is dismissed by those who, like the Canadians referred to, have met him in semi-privacy.
Gen. Sir Sam Hughes had several interviews with him at the war office when he was here recently, sir Robert Borden met him many times when he was over last year. Earl Kitchener's sister, Mrs. Parker, was a speaker at the Lyceum Club dinner, which was attended by Canadians, last week. She spoke a few words regarding the "Canadian" share in the present conflict.

BRITISH WAR MACHINE WILL NOT SLIP A COG

New York Financial Circles Take This View of the Situation.

HEARD NEWS EARLY

Wall Street Was Prepared for Shock Which Did Not Come.

NEW YORK, June 6.—Wall Street knew of the reported fate of Earl Kitchener and his staff half an hour before the market opened, by which time newspapers were shouting the meagre details through the financial district. In banking circles and on the stock exchange the tragedy formed almost the one topic of discussion and was regarded as a blow to the cause of the allies. The market was little affected. In fact, as the day wore on, it was realized that while the death of Kitchener will have a depressing effect upon the United Kingdom because of his services early in the war, it would not cause a breakdown in the management of Great Britain's part in the Lord Kitchener's responsibilities have been gradually curtailed, until at the time of his death, he had little control over the strategy of the war and was engaged almost exclusively in matters of organization.

CRUISER STRUCK MINE NAVAL OFFICERS THINK

Chance of Torpedo Reaching Mark Under Conditions Very Small.

LONDON, June 6.—Naval officers express the opinion that the cruiser Hampshire must have struck a mine and would have to be an exceedingly lucky shot for a torpedo to get a ship with her speed, and under the conditions of the sea which was very rough. The Hampshire, while an old boat, and not fit for fleet action, was fast enough for patrol and blockade work. She carried a crew of between 400 and 500 men.

KITCHENER, DEAD, INSPIRES BRITAIN

ASQUITH WAS ABSENT

Toasts Omitted at Luncheon of Imperial Council of Commerce.

LONDON, June 6.—Premier Asquith was absent from the luncheon today of the Imperial Council of Commerce and was expected to deliver an important speech there, but he was absent because of the untimely death of the Hampshire with Earl Kitchener and members of his staff. Baron Desborough, who presided at the luncheon, in announcing that the usual toasts would be omitted, said:

"I am sure that all will agree that the death of Earl Kitchener is a great loss to the whole empire and a great personal loss to a great and great servant."
Sir Charles Wakefield, Lord Mayor of London, said:
"We have lost a unique personality, but Lord Kitchener is not dead in the eyes of his countrymen. He is an inspiration to us to continue and to stand our hearts, and with greater courage and determination to fight the battle to the finish in the cause of righteousness and freedom."
No one in the city received a greater shock than did Earl Kitchener's sister, Mrs. Parker. She was engaged this morning in a stall in Caledonian Market, where a bazaar was being held for the benefit of the Red Cross, and she had just autographed pictures and had for sale a number of her photographs, which had been in the possession of Queen Mary and was offered at auction and brought \$100.

OPPOSE APPLICATION OF SUBURBAN RAILWAY

"There is no special sanctity about the streets of Toronto," said Chairman D. M. McIntyre of the Ontario Railway Board to J. S. Fairly, representing the city in its application to the Toronto Suburban Railway, which desires to link up its Guelph line with its Lambton line.

Mr. Fairly said it would be an "unheard-of" thing to allow the railway to enter the city along a main thoroughfare. The time for such an entrance was passed, said he. They should be made to come in by tunnel.

"I know that the City of Toronto takes a very distorted view on railway matters," said the chairman. "It is an observation which I feel quite warranted in making."
The question is a legal one regarding the right of the railway to make the connection over a strip of public highway. They will then, the city contents, be able to run their cars down Dundas to Keele street and along Davenport and Bathurst to the crossing. Mr. McIntyre contended that they had the right.

LONDON, June 6.—The following official statement regarding the North Sea battle was issued here today:

"The German Admiralty in an official statement issued June 2 stated that among other casualties a British submarine was sunk in the course of the battle during the afternoon and night of the 1st of May. All British submarines at sea on that date have now returned. It must therefore be assumed, if any importance is to be attached to the German official statement, that the submarine sunk was an enemy submarine. This vessel should be added to the list of German losses stated in the British Admiralty communique of June 4."

The New Prohibition Law

The Manitoba Temperance Act, which corresponds closely to the Ontario enactment, went into effect on the first of the month and we find the Winnipeg newspapers anxiously asking what kind of service are the Manitoba hotels going to give the public under the new regime. In this connection The Winnipeg Free Press publishes a letter from a hotelkeeper who opened up in a local option district two years ago. He says he has spent a great deal of money, gone to much pains to furnish the best possible accommodations and believes that he will eventually come out alright, but he points out some of the "unfair conditions" which a temperance hotel in a country town has to contend with.

This Manitoba landlord, who seems to be something of a philosopher, observes that many habits of the former bar continue to drop in to the cafe for social converse. They are not enthusiastic consumers of pop and sarsaparilla, but they like a place to meet, sit down, smoke and chat, and are willing to "buy" the somewhat perfunctory, for the privilege.

Some of the down town hotels are going into the restaurant business on a big scale. They will turn their long bars into lunch counters, put in tables, and compete for the big noon day lunch business. Some of them may also revive the grill room and chop houses of former days. Some may also go after the rooming business and make an attractive rate by the month. There is authority for the statement that hundreds of hotel rooms down town are vacant every night.

President A. J. Johnston in his annual address to the Ontario College of Pharmacy congratulated the retail druggists upon their happy position under the Ontario Temperance Act. They may sell, but they are not obliged to. They take out no licenses as in Manitoba, need not carry a gallon of whiskey unless they want to and yet may sell intoxicants if they choose within the limits proscribed by law.

The reluctance of the druggists to both with the traffic encourages the belief that little illicit selling will be done by the drug stores, and the temperance people say that they fear nothing from the hotels. The temperance people probably feel that their main point has been accomplished in curtailing the license system, root and branch. The evils that flow from practically unlimited importation and consumption of liquor can be dealt with hereafter.

Under the Ontario Temperance Act a man may have, and keep all the liquor he can store in his private dwelling, and no quantity, however large, raises any legal presumption that he intends to deal with it unlawfully. If a bibulous gentleman with a large bank roll purchased Sir Henry Pellatt's castle he might lawfully keep a thousand barrels of whiskey on hand!

Sir William Has Country Confidence—Recent Tributes to Kitchener.

LONDON, June 6.—The first question asked when the news of Earl Kitchener's death was announced was, "Who will succeed him?" The answer invariably was: "Robertson, of course."

Sir William Robertson, who is regarded as the only possible successor to Earl Kitchener as the head of the British army, already had taken over the war secretary's duties temporarily when the secretary started on his ill-fated journey. On Saturday, and again yesterday, he had audiences with King George to report on the activities on the British front, in which the Canadians have so distinguished themselves.

The general has the full confidence of the country.
Elevate to Peerage.
While only a member of parliament may serve as secretary of war, Gen. Robertson would be eligible for elevation to the peerage, or a member of the house of commons might be appointed as secretary. With the understanding that the general, like Earl Kitchener, would have a free rein.

Earl Kitchener's conference on Friday with members of the house of commons, when he explained confidentially the military situation, was a remarkable incident in the proceedings of the war secretary's duties. Extraordinary precautions were taken to keep outsiders from the precincts of Westminster Palace.

Satisfied His Critics.
Earl Kitchener generally made a poor impression as a speaker, since he always read his statements from manuscript and did not talk in an effective way. On this occasion, however, he conversed freely with the members, answering questions from some critics who showed considerable bias.

After leaving the conference, some members declared their judgment of Earl Kitchener's work had been enhanced by his explanations. The proceedings were closed with the unusual formality of a vote of thanks.
Premier Asquith paid high tribute to Earl Kitchener's work in his speech at the recent adjournment of parliament, saying no other man could have raised the great armies which Kitchener assembled.

Burdett Too Great.
It has been suggested that there was placed on the war secretary's shoulders a load that was impossible for one man to bear. In the early part of the war he was responsible not only for the organization of armies, but for the enormous work of equipping them and supplying them with munitions. Since David Lloyd George took charge of the munitions department, Earl Kitchener had been able to devote himself more largely to the work of military organization.

Great Britain's allies had great confidence in Earl Kitchener's judgment. His visits to France and Italy were supposed to have had important results in co-ordinating the work of the war in the field. The fact that he had left London for Russia is regarded as an indication that he was on a similar mission to the country. The first intimation came in the bulletin announcing that he had been lost.

CHINESE REPUBLIC'S PRESIDENT IS DEAD

Yuan Shi-Kai Passed Away After a Short Illness.

WOULD-BE EMPEROR His Aspiration to Found New Dynasty Resulted in Revolution.

SHANGHAI, June 6.—Yuan Shi-Kai, president of the Chinese Republic, died yesterday morning.

Yuan Shi-Kai, who was 57 years old, was reported to have been taken seriously ill on May 25. At that time dispatches from China stated it was believed in Peking that the president had been poisoned, but this report was denied by the Chinese ambassador at Washington, who insisted that the president was not even ill.

Yuan Shi-Kai died while the storms of revolution were gathering in increasing strength. The revolt broke out in December, 1915, when the president announced his intention of establishing a monarchy and according to the throne as the first emperor of a new dynasty. His coronation was set for early in February of this year, but was postponed indefinitely owing to the extraordinary rapidly with which the flames of revolt spread thru southern China.

The establishment of a monarchy was strenuously opposed by Japan and the final abandonment of the plan was largely credited to the representations made by Tokyo.

The revolt progressed, however, and in March the governors of the Chinese provinces demanded the resignation of the president. In May the Provinces of Shansi and Shantung announced their independence, and a provisional general commanding revolutionary forces in the south, President Yuan Shi-Kai announced on May 28 his intention to resign when a suitable successor was chosen.

It was reported a little later that the president intended to take refuge in Japan, and dispatches from Tokyo said that he was negotiating for a residence in the Japanese capital.

O'BRIENE A DIPLOMAT DENIAL BY BERTRAM

Brig-Gen. Ellershaw Was Noted Soldier—Kitchener's Secretary Also Lost.

LONDON, June 6.—Accompanying Earl Kitchener as his staff were Hugh James O'Brien, former councillor of the British embassy at Petrograd, and former minister at Sofia; G. A. Fitzgerald, Earl Kitchener's private military secretary; Brig-Gen. Ellershaw, and Sir Frederick Donaldson.

Among other officers were three members of the war minister's personal staff: Lieut. R. D. MacPherson, F. R. Robertson and Detective McLaughlin. Lieut. MacPherson's mother is a resident of Toronto.

Sir Hay Frederick Donaldson, among those who accompanied Lord Kitchener on the Hampshire, was technical adviser to David Lloyd George, minister of munitions. He visited Canada last fall on the invitation of D. A. Thomas (Baron Rhondda) to study the possibility of manufacturing heavy ordnance in this country.

EVIDENCE AT END IN FUSE INQUIRY

Counsel Will Begin Summing Up Before Commission Today.

Hughes Used No Influence Regarding Contracts Under Probe.

OTTAWA, June 6.—All the available evidence in the fuse inquiry has been presented and summing up by counsel will begin tomorrow morning. It is probably that two days will suffice for this.

Gen. Alexander Bertram, chairman of the old shell committee, was recalled to the stand this afternoon, and was questioned by Mr. Hellmuth in regard to the statement of Lieut. Harris in the witness box, that on May 6, 1915, he was told by Gen. Bertram that if he wanted to get a contract from the shell committee he was to see Col. Allison.

Do you remember making such a statement? A: No, I wish I could. Gen. Bertram said he met Col. Allison for the first time at the meeting in New York on May 15 and had not met him again until after the opening of the present inquiry.

Gen. Bertram said that so far as he was concerned the only part Col. Allison had to do with the fuse contract was in regard to breaking prices and engaging manufacturers together.

Q: Was there pressure from Gen. Hughes to let these contracts to the American Ammunition Company and the International Company? A: No, I never mentioned it in any shape or form. It might also add that in connection with this work we had no interference on the part of the Canadian Government. They absolutely knew nothing of what we were doing except the cablegrams that went from us to the war office thru their department.

Carnegie's Statement. Col. David Carnegie was next recalled and furnished statement of the business done by the shell committee from September, 1914, to May 31, 1915. Mr. Carnegie thought the submission of this document would open the door to a wider inquiry, and stated that he had been trying to get into the shell business for five months, but had been effectually blocked.

Mr. Justice Duff said he had asked for the information, thinking it was only fair that the shell committee should have an opportunity of showing how busy they were during the period under investigation.

The statement was as follows: Value of orders received from war office during months of April and May only, \$102,001,840. Value of orders placed with manufacturers thru the shell committee, December to May, \$93,385,017.

Average daily number of orders issued in April and May, 6577. Factories employed on munitions up to May 31, 1915: On 15-pounder shrapnel, 38; on 18-pounder shrapnel, 255; on 15 pounder high explosive, 110; on 4.5 howitzer, 108; on 60-pounder high explosive, 16; on T. N. T., 2.

Delivery of munitions and component parts to shell committee to May, 1915, \$514,870. Value of deliveries during April and May alone, \$670,861.

Names Same Prices. Mr. Hellmuth then spent considerable time putting in a number of original documents whose identification by Col. Carnegie was necessary. One of the most interesting of these was a draft contract between the shell committee and the Standard Asbestos Co. of Toronto, the Canadian predecessor of the International Fuse Co. by which the company undertook to provide...

5,000,000 time fuses of two different designs for \$4.50 each. This contract was dated April 21, and it was after this date that Gen. Hughes sent Col. Allison to the United States to "break prices."

Mr. Hellmuth next referred to the charge made by Mr. Lloyd Harris in his evidence that the Russell Motor Co. was ignored by the shell committee in September, 1915, when other firms were called upon to tender on fuses.

Q: Have you any explanation to give to that? A: Oh, yes. The explanation that we received a cable from the war office on Sept. 7, asking if we could ascertain what facilities there were in Canada for the manufacture of No. 8 fuses. It wasn't a question of an order being placed, but merely a question of facilities.

TWO EXTREMES ARE GIVEN SHOCKER GOOD--McTIGUE BAD

First Game Easy for Leafs When Shocker Allowed Only Three Hits--McTigue Driven to Cover in Second Contest.

What is the use of playing these doubleheaders. They never get one anywhere. The usual performance happened yesterday when Tommy Leach and his Huslers split the bill with Birmingham's Biffers.

The first encounter was an utter rout for the hated enemy. Shocker had his guns well trained and bowled over reinforcements as fast as they came up.

It looked like a real ball game for six innings despite the fact that Rochester bunched two hits for run in the third.

The Leafs opened up Bird with a fullblast in the third round and showed over two runs. Blackburne doubled, and Zimmerman, who by the way made a very graceful debut with a double and two sacrifices in four journeys to the plate.

Two walks and Truesdale's double counted another in the fourth. A walk, a sacrifice, a wild heave and a single hit in the fifth were the only things that kept the other two in the game.

At Baltimore (International)--Baltimore won from Newark by bunting hits in the early innings. Good fielding by the Orioles behind Sherman kept the Newark score at zero.

At Richmond--Hits, bases on balls and Richmond's errors gave Providence an early lead. The game was tied in the eighth inning, but Providence won in the ninth.

At Montreal--Buffalo took two games from Montreal, 5 to 4 and 7 to 5. The first game was won solely by virtue of Montreal's errors, no less than nine mistakes upsetting the good pitching of Buffalo.

At Detroit (American)--Daus held Boston to three hits, and Detroit won 3 to 0. In the sixth inning Boston did not get a man to second base, and only scored one run, the final score being 3 to 0.

At St. Louis (National)--Pittsburgh took the first game of the series from St. Louis in a free-hitting game, 7 to 4. All of the Brooklyn runs were earned. Score, Pittsburgh 7, St. Louis 4.

At Philadelphia (National)--Chicago was in batting mood and drove two Philadelphia pitchers out of the rubber in five innings, and won the game, 5 to 2. Philadelphia could not locate Vaughn's delivery until late in the game. Score, Chicago 5, Philadelphia 2.

At Brooklyn (National)--Brooklyn took the first game of the series with Cincinnati in a free-hitting game, 7 to 4. All of the Brooklyn runs were earned. Score, Brooklyn 7, Cincinnati 4.

At New York (National)--Pittsburgh took the first game of the series from New York 3 to 2. Mannaux held the home club to five hits, while Pittsburgh bunched hits on Benton in three innings. Score, Pittsburgh 3, New York 2.

At Boston (National)--A batting rally by Detroit in the sixth inning netted two runs and a victory. The locals also rallied in their half of the innings, but Detroit scored only one run, the final score being 2 to 1.

At Detroit (American)--Daus held Boston to three hits, and Detroit won 3 to 0. In the sixth inning Boston did not get a man to second base, and only scored one run, the final score being 3 to 0.

At St. Louis (National)--Pittsburgh took the first game of the series from St. Louis in a free-hitting game, 7 to 4. All of the Brooklyn runs were earned. Score, Pittsburgh 7, St. Louis 4.

Only One Tyrus R. Cobb Greatest of All Players

Comiskey, Owner of White Sox, Pays Great Tribute to Detroit Star--Hildebrand's Busy Day to Start in American League.

Every vacant city lot and every corner pasture raises a new crop of baseball players each spring, all eager to take Tyrus Cobb's job away from him.

"Tyrus Cobb is the greatest ball player in the history of the game," that is the great tribute paid the Detroit star by Owner Comiskey of the Chicago White Sox.

Several years ago George Hildebrand broke into the American League as an umpire. In his day Hildebrand was a clever player. He was doubted up with men when he opened with the Detroit club.

The Best Street

Any street to be best must be built of a material that embodies, to the fullest extent, the factors of Quality, Economy—Permanence, which, combined, create satisfaction. All of these factors are summed up in their highest degree of development in the street that

is Built of Concrete

Concrete approaches nearer to the ideal for street paving than does any other material. Concrete has a lower first cost than materials now in general use. A minimum of maintenance and long life under any kind of traffic. It permits a low crown, has a smooth, non-slippery surface, is clean and easy of traction. It increases property values, civic pride, the satisfaction of every one using it, and decreases the street tax rate.

If you are interested in having Better Streets at less cost, let us send you our new free booklet, "Concrete Roads."

KELLY INDICTMENT STANDS.

Justice Prendergast Ruled That It is Valid.

WINNIPEG, June 6.—Mr. Justice Prendergast ruled this afternoon in the assize court that the attorney-general did not exceed his authority when he preferred the indictment against Thomas Kelly in Kelly's absence in the United States. This was in the course of a lengthy judgment in motion by Kelly's counsel to quash the indictment.

GERMANS WANT PEACE AFTER ADVANCING

Imperial Chancellor's Address in Reichstag in Jingoistic Strain.

NEWSY MARKET NOTES

Deliveries Were Small and Wanted—One Farmer's Big Sales.

Receipts of live stock of all kinds at Union Stock Yards yesterday were 37 cars—made up of 477 cattle, 425 calves, 686 hogs and 21 sheep and lambs. The receipts, while not heavy, taken in conjunction with the heavy receipts of the very fair market, and in the mind of the drovers and commission men there was an air of brightness which was generally lacking in Monday's market.

This was not reflected, however, in the market, and the best that could be said of Tuesday's trading was that it held steady with that of Monday. There was a fairly active demand for the better class of butchers' cattle, but at the close it was stated that quite a few lots were held over for today's sale.

The sale by McDonald & Halligan to the Harris Abattoir Company of a pair of extra choice steers for the high figure of \$10.50, as stated in the market notes, was one of the features of the day. The price is said to constitute a new record outside of Christmas or Easter sales, and cannot be accepted as indicating any startling changes in the situation at yesterday's market. Taken altogether, the market was without any very special features, and is said to apply equally to all lines of live stock offered. Stockers continue to be light in supply, with more wanted than are offered.

Butchers—Of the best butchers, one or two loads sold at \$8.25, and the best run in general was from \$9.40 to \$9.60. Good butchers brought from \$7.75 to \$8.40, and medium butchers from \$7.50 to \$8.25. Choice cows were off \$1.25 per cwt., selling at from \$7.50 to \$8, and from \$7.75 to \$7.50 per cwt. Bulls—Choice bulls were slow of sale at from \$7.75 to \$8.75.

Feeders—Good feeders were in fair demand, steers weighing from 800 to 900 lbs. bringing from \$7.75 to \$8.75. Stockers—Choice stockers, weighing from 700 to 800 lbs., were worth from \$7.25 to \$8, and good heifers, \$4.75 to \$7.25.

Milk cows—Choice milk cows sold all day from \$7.50 to \$10.50 to \$10.75, weighed off cars, and \$10.25 to \$10.75 fed and watered. Lambs and calves were steady at unchanged prices.

REPRESENTATIVE SALES. Rice and Whaley sold 3 steers, 770 lbs. at \$8; 4 steers, 5480 lbs. at \$8; 1 bull, 530 lbs. at \$8.25; 2 steers, 2,200 lbs. at \$8.25; 4 cows, 2,700 lbs. at \$8.25; 2 heavy, \$8.95 to \$9.50; rough, \$8.95 to \$9.10; pigs, \$8.75 to \$8.30; bulk of sales, \$8.20 to \$8.40.

Sheep and lambs—Receipts, 14,000; market firm; native, \$7.50 to \$7.85; spring lambs, \$8.25 to \$11.25.

Hogs—Receipts, 14,000; market weak; light, \$8.85 to \$9.35; mixed, \$9 to \$9.50; heavy, \$8.95 to \$9.50; rough, \$8.95 to \$9.10; pigs, \$8.75 to \$8.30; bulk of sales, \$8.20 to \$8.40.

STRONGER FEELING AFTERNOON TRADING

Big Dome Turned Strong Here and in New York—McIntyre Recovered.

The market at the Standard Exchange yesterday was moderately active, interest being chiefly centered in the Porcupine list. Price changes on the whole were narrow, and with the exception of two or three issues proceedings were rather quiet.

In the gold list, Big Dome firmed up, going higher to 57 1/2 on the close. Apparently, the splendid report of Dome production for May, which appeared a couple of days ago, has attracted considerable attention.

Rumors of internal friction were in circulation on the street to account for the weakness of Porcupine Crown. This stock continued to decline yesterday, closing at a loss of 1-2 points.

West Dome Consolidated opened at 27 1/2, three-quarters down from the previous close, and strengthened up to 28 on the close.

CHICAGO, June 6—Wheat prices rose to a material extent today, chiefly as a result of foreign buying of futures here, and because of Indian advice about wheat market conditions.

Unfavorable weather was chiefly responsible for the strength of corn. Besides shipping demand appeared to have been discounted in advance.

Lower prices on hogs weakened provisions. A break in the Liverpool market was also a bearish factor.

TEMPERANCE WOMEN IN ANNUAL CONFERENCE
Reports Show Big Increase in Membership of Toronto District.

The 13th annual meeting of Toronto District W. C. T. U. opened at Willard Hall yesterday afternoon, and will continue its sessions today. The attendance services were led by Mrs. Kerr, who also gave the report of evangelistic work for the year. Reports showed that the district has now 2443 members, an increase of 85 over last year.

In order to aid the work of the committee of 100, the amount of \$2424 was given. A teacher who speaks the language of a foreign portion of the population was paid \$250 for her services in teaching temperance and citizenship. Other disbursements were \$250 that of helping six women to shop and dress in accordance with the ideas of the country in which they are now living. Other disbursements were \$250 to the Local Temperance League, and \$250 which went to the men over seas.

Total receipts of Frances Willard Hall were \$18,104.64, and disbursements \$17,712.13. Balance in hand \$392.51. The board rates of the houses had not been raised. Mrs. Warren, matron, reported that 391,304 soap-wrappers had been collected throughout the Dominion. Letters numbering 393, besides cards, had been sent out. The district has now 41 unions, which represent an increase of three during the year.

The press report was read by Mrs. Robinson, and that of the fund by Mrs. Welch. Mrs. W. D. Hay, who spoke for the house committee, reported on the work of the past 12 months. A Bible of special work was presented to the meeting by Mrs. S. E. McGill. The committee on resolutions was appointed and consisted of the following members: Mrs. Courtois, Mrs. H. Gray, Mrs. W. Pugsley, Mrs. R. T. Hopwood, Mrs. George Toye, Mrs. Welch reported on law enforcement and legislation. Two readings, "Domestic" and "The Street Piano" were read by Miss Vera Gray. Mrs. Westwood, president of the new Y in the east end, which has 25 members, introduced a meeting. Mrs. Duff.

Work is Thrilling.
The long queue of refugees which daily stretches from the depot across the street to the Ypres road, is a pathetic picture. They are seeking food and shelter, each telling their own tale of misery. Perhaps none of them is more than a few months old. Beyond the line of years, left back by the mother, bent with worry and suffering from lack of attention. Some are in a wooden hut just seven miles from the Belgian trenches, which one on the perpetual quiver for thrills.

Nervous and Almost Crazy With Pains in the Head
Clergyman Certifies to This Cure of Nervous Prostration by Use of Dr. Chase's Nerve Food.

No ailment is more discouraging than Nervous Prostration. You may feel better for a day or two, only to find the next day that you have lost ground and are worse than ever. The headaches are worse, languid feelings are terribly depressing. As you lose strength you lose hope and courage and look to the future with fear and trembling.

Dr. Chase's Nerve Food is the greatest blessing that has ever come to the sufferer from nervous exhaustion. It is not narcotic in its influence. It does not deaden the trembling, irritated nerves, but through the medium of the blood nourishes them back to health as nothing else can.

Mrs. Alonzo B. Eisner, Billtown, King's County, N.S., writes: "I was very low with nervous prostration and was about discouraged, as I could not sleep nights and was almost crazy with the pain in my head. I had tried many doctors, but seemed to get little benefit from their treatments.

"A friend handed me Dr. Chase's Nerve Food, so that I might read about the Nerve Food. A single box of this treatment cured me of the value, for I was better. I cannot tell how many boxes I used, but the results were so highly satisfactory that I cannot praise it too much. My health and strength have been restored so that I can do all my own work, and I recommend the Nerve Food to all who suffer from nervous prostration." This is to certify that I am acquainted with Mrs. A. B. Eisner and believe her statement in regard to Dr. Chase's Nerve Food to be true and correct.—Rev. Arthur A. Whitman.

Some patience is required in the treatment of nervous prostration. You will not be using Dr. Chase's Nerve Food long before you begin to find your strength and good cheer returning. You will then be encouraged to continue the use of the food cure until cured. 50 cents a box, all dealers, or Edmunds, Bates & Company, Limited, Toronto.

GREAT WORK OF TORONTO WOMEN WITHIN SOUND OF THE CANNON
They Care for Belgian Refugees.

ATTEND TO ALL ILLS TAKE MEN'S PLACES
Impoverished Mothers and Babies Are Nourished Back to Health.

Toronto generally should be interested in the following paragraphs from letters which came a few days ago from Mrs. Agar Adamson and Miss Margaret Bell Saunders, two women from Toronto, who with Mrs. Inna-Taylor, another one-time resident of Toronto, are now doing wonderful patriotic work among the Belgian refugees at Furness, Belgium. These three have for many months been devoting their time to caring for and attending the children who are gathered at this point out of the reach of attack, but even here they are not safe, repeated raids having been made from aeroplanes, in one which, a young girl, the daughter of the mayor of the place, was killed and one Canadian girl Miss Saunders wounded.

The letters referred to say: "Francisco came running into the depot, Flemish as usual, his arms eloquent. 'Come, Madam, please. There is a Boche just overreached the dugout, but before we whisking thru the air which told that luckily, were in the trenches, which are close to the school. There is a boy always on the lookout, who keeps a bonnet on the clouds, for hostile air force.' There were a few refugees in the little post, de second, at the time. These we hurried into the dugout, a hot airless place with so many occupants. I can never know the moment these murderous machines will come whirling over one."

Work is Thrilling.
The long queue of refugees which daily stretches from the depot across the street to the Ypres road, is a pathetic picture. They are seeking food and shelter, each telling their own tale of misery. Some are in a wooden hut just seven miles from the Belgian trenches, which one on the perpetual quiver for thrills.

Care For All Ills.
The queue which forms at the door of the refuge which secures is no less pathetic than the one at the depot. Only these are mostly children. Children with soptic sores, with burns and with a hundred ailments, they have no civilian doctor to care for them, and are entirely dependent on our small dispensary. They are rather fortunate to have the dispensary, for the doctor of the headquarters to prescribe for them absolutely free.

NURSES' GRADUATE CLUB REPORTS.
Reports from the Nurses' Graduate Club on Sherbourne street show that last year the membership was 456. This year 181 new members were enrolled and 18 rejoined, but owing to many changes the membership at present is only 422. During the year 1695 calls were answered, but the registry was unable to fill them all. The financial statement showed a good balance in hand. Assistance was given to the nurses of the French Flag Corps to the amount of \$200. The Central Registry Extension Fund was given \$150. This fund goes to the payment of nurses sent to patients who are themselves unable to pay.

SOLDIERS' COMFORTS SHIPPED TO TRENCHES
Mrs. Arthur Van Koughnet reported for soldiers' comforts on the field from the Toronto Women's Patriotic League at 84 Bay Street for the week that the shipment for the trenches was: 241 pairs socks, 285 gauze underclothes, 196 handkerchiefs, 37 towels, 47 mitts underwear, 25 nightshirts, 23 sleeping caps, 140 mouth-wipes, 11 utility bags, 1 set pyjamas, 8 dressing gowns, 15 special caplets, 16 box sox, 5 services caps, 25 lbs. candy, also quantities of soap, overseas chocolate, Christmas cake, ozo, tea, biscuits, cigarettes, etc.

WILLS PROBATED
Mary Ann Jobson, a widow, who died at Westboro April 20, left on estate of \$491.74. By her will two daughters, Emma Jane and Ada Elizabeth, inherit the household belongings. They also share a legacy of \$500 each and share equally in the residue with two brothers, William and Herbert.

Eleven persons share the estate of William M. Watson, who died on May 22 last, leaving \$48,410. Bella Lister, the treasurer of the Industrial Home and Aged Men's and Women's Homes, with the consent of the attorney-general's department, has made application to administer the estate of Janu McPherson, who died on May 8. She was indolent to the institution, and as far as is known, left no relatives.

FOR BELGIAN RELIEF.
The Belgian Relief Committee, 94 Park street, are very pleased to report that the sum of \$568 has been paid to the fund as the result of the tournament held at the Hunt Club on May 29.
