Mrs. (Capt.) Chinn and her sister Miss Mabel Thomson arrived in the city today on the Montreal train. Miss Thomson has been visiting Mrs. Chinn in India.

FINANCIAL and COMMERCIAL

MEAT FOR BEARS IN THESE OBSERVATIONS

Reports of Discharges in Various Kinds of Labor-- Failures Are On the Increase--Conservatives Scent Danger--Stocks in the Hands of Professionals.

(N. Y. Journal of Commerce, Wednesday.) From day to day there are reports of the discharge of various kinds of labor. The electric business, for instance, has laid off several thousands of men; railway supplies are not in sufficient demand to justify the retention of the extra help taken on last year; the shoe business, manufacturers of cord, chemical companies, and others are all reducing their forces. Yesterday it was stated that a big manufacturer of locks had laid off 1,000 men. Incidents of this kind are suggestive. There is significance, too, in the fact that the longshoremen have been obliged to capitulate. So far the San Francisco strikers seem to have been able to dominate the city, but conditions there are not a criterion of those existing elsewhere. Labor has, without question, seen its heyday for the present. And it is perhaps well that it is so, for the fruits of prosperity were not always comforting. Failures are on the increase. Lines of industry that are unprofitably being liquidated are prominent in the list. Yesterday a knit goods man told of the failure of one of the mills in which he is interested. Orders, he said, were coming in on a large scale, but when contracts were booked raw material, wages and every item of expense went up a lower scale and now the price on this is being advanced. Cotton mills are sold up from six to twelve months ahead, and there is good weather would go far towards insuring an average yield.

THE INFLATION OF THE CURRENCY Conditions in the United States That May Have Grave Consequences.

NEW YORK, June 6--The country is in danger of entering a period of serious currency inflation, the circulation of national bank notes on June 1 having, as pointed out in these columns yesterday, exceeded \$600,000,000, an increase for the year of almost \$40,000,000. This unprecedented outpouring of bank notes is not unconnected with the present outflow of gold. Yesterday, another \$2,000,000 was engaged for Paris, bringing the total within a week to \$5,000,000. In spite of this the national banks are not taking steps to reduce their circulation. The ultimate consequences may be very grave. It may be interesting to give a table showing how the total circulation outstanding today compares with the circulation of the preceding months, and with this date in previous years:

Table with columns for date and circulation amount. Rows include June 1, 1907, May 1, 1907, April 1, 1907, March 1, 1907, Feb'y 1, 1907, Jan'y 1, 1907, Dec. 1, 1906, Nov. 1, 1906, Oct. 1, 1906, Sept. 1, 1906, Aug. 1, 1906, July 1, 1906, June 1, 1906, May 1, 1906, April 1, 1906, March 1, 1906, Feb'y 1, 1906, Jan'y 1, 1906, Dec. 1, 1905, Nov. 1, 1905, Oct. 1, 1905, Sept. 1, 1905, Aug. 1, 1905, July 1, 1905, June 1, 1905, May 1, 1905, April 1, 1905, March 1, 1905, Feb'y 1, 1905, Jan'y 1, 1905, Dec. 1, 1904, Nov. 1, 1904, Oct. 1, 1904, Sept. 1, 1904, Aug. 1, 1904, July 1, 1904, June 1, 1904, May 1, 1904, April 1, 1904, March 1, 1904, Feb'y 1, THE EVENING TIMES, ST. JOHN, N. B., FRIDAY, JUNE 7, 1907

THE EVENING TIMES.

The St. John Evening Times is published at 27 and 29 Canterbury street, every evening (Sundays excepted) by the St. John Times Printing and Publishing Co., Ltd. A company incorporated under the Joint Stock Companies Act.

JOHN RUSSELL, JR., President. A. M. BELDING, Editor. TELEPHONE—News and Editorial, 122; Advertising Dept., 70; Circulation Dept., 15. The Times has the largest afternoon circulation in the Maritime Provinces.

THE BOISE REVELATIONS

In cold-blooded depravity and indifference to the most awful crimes, the Canadian who under the name of Orchard is the chief witness in the great trial in Boise, Idaho, presents an example that is perhaps without parallel in the criminal annals of America. This man confesses that he killed without remorse, simply because he was paid to do it. Whether all that he states can be corroborated by other evidence or not, he has put his own head in the noose. The average, normal man turns with horror from such a revelation of criminal inclinations and utter abandonment to worse than brute passions. Orchard began badly, and drifted from crime to crime until nothing in human life was sacred when it stood in his way or in the way of his paymasters. But he tells the truth he was not alone. The inner circle of the miner's federation was an assassination bureau, of which he was the leading instrument. The world will follow with profound interest the developments at this trial, which, if Orchard's story be even in part corroborated, will prove that the climate of Russia is not the only one that breeds anarchy. Touching this question of anarchy in the United States, and the glorification of Haywood, Moyer and Pettibone by the Socialists, the Montreal Witness well says:— "Their past lives, so far as known, will not bear inspection. They were entirely 'undesirable' long before the death of the murdered governor. One of them is a criminal by habit and repute. Their one title to glory is that they have been put on trial for the murder of a ruler. All on trial for the same crime with this deed are denounced by these wrong-headed beings (the Socialists) as 'undesirables.' And what a deed it was! The honest governor of a remote state was entering his modest home, when he was blown to pieces by an infernal machine, his crime being that he was governor and had dared to firmly enforce the law. It was complicity with this deed, so far as appears, for no other achievement is alleged, that is to place the names of Moyer and John Brown and Karl Marx as emancipators. The socialism of this continent seems to be pure anarchism. No other kind survives the sea. A curious thing about it is that it seems to draw about it all the disorganized brains in the land. Clever and educated men who have a screw loose about them are found in every camp. It is a condition of social blood-poisoning in which the syzygetic germs gather and fester there and there. The disease is not native to this continent. It is contracted in the fetid slums of eastern Europe, and we know nothing for it but to let it work itself out of the system in the fresh air, or a free country in which there is room to live."

THE RAILROAD WRECKS

Railroad men have a clear-headed and capable champion in Grand Master Morrissey of the Brotherhood of Railroad Trainmen. In the discussion of the causes of railroad wrecks some writers, representing, of course, the companies operating the lines, have charged that the formation of unions among the railway men has been a contributory cause to the frequent and terrible disasters of recent years. To this Mr. Morrissey replies: "There is not a railroad labor organization that can justly be charged with hampering the enforcement of safe operation by opposing discipline. It is unreasonable to believe an organization would object to the adoption of methods that would make the employment of men less hazardous, while death is constantly working overtime among them."

Mr. Morrissey places the blame in quite the opposite quarter. He says further: "There is too much business for the railroads; too much hurry in conducting trains, and too few employees to insure the proper degree of safety to employee and traveler." He points out that the state railways of Germany employ more than three times the number of men per mile that are employed on American railways. Admitting that the American railroad managers are capable men, he lays the blame on the system, under which they are compelled to produce certain financial results, or lose their position. His own view of what is needed is thus stated:—"What, in my opinion, the American railway systems need to insure greater safety is more men to man and inspect the trains, to guard the switches and semaphores, and to patrol the tracks."

THE LAW'S DELAYS

Canadian readers have almost forgotten the affair of Gaynor and Greene, so long a time has elapsed since these gentlemen hounded in Quebec city and defied extradition, after having looted the American treasury in connection with contract work in Georgia. After the case had dragged along for several years they were finally extradited, and since there was no doubt of their guilt it was assumed that punishment would be speedy and fitting the crime. But in Georgia, as in Canada, there was delay. However, the federal court in Savannah finally found them guilty of fraud involving over half a million dollars in government contracts in Savannah harbor, and sentenced them to four years in prison and fines aggregating \$375,000. But this did not settle the matter. An appeal was taken to the United States circuit court. This court has now confirmed the sentence of the federal court at Savannah, but the end is not yet in sight. A Savannah despatch now gives

this further information:—"While the attorneys for Greene and Gaynor will not discuss their future action in the case pending the receipt of the full decision of the circuit court of appeals, it is expected that the fight in behalf of their clients will be carried to the United States supreme court. Every possible appeal will be resorted to in behalf of the convicted men."

The convicted men got away with half a million. The stake is large and the fight is therefore long. Justice must wait.

The statement made by Rev. C. W. Gordon (Ralph Connor) in the Presbyterian General Assembly at Montreal yesterday were of a character to cause a sensation, but they were mild compared with that made by Mr. G. M. McDonald, K. C., of Kingston. Mr. Gordon challenged the attitude of the church with reference to moral standards in politics; and Mr. McDonald asserted that the thing from which Canada chiefly suffers today is graft. Thoughtful men in the church realize more and more clearly that the religious and the social and political life of the people cannot be dissociated, and that the man who stands for religion must apply the standards to every phase of life.

The work of studying the currents of the Bay of Fundy which Dr. W. Bell Dawson is to take up is of great importance in connection with the trade of this port. There has been a theory current among the uninitiated that the bay is troubled with variable currents which are a great source of danger to vessels. The fact that the enormously increased steamship traffic in the last ten years has not been marred by any serious accidents refutes this theory, but it is important that accurate surveys be made, and the regular currents indicated.

The efforts of the King's Daughters to provide a rest room for women and girls, to be open in the evenings, is along the lines of the work of the Every Day Club for men. Such a rest room would serve a very useful purpose, and should be of special benefit to girls whose homes are not in the city.

The banquet given by Hon. Dr. Pugsley in Fredericton last evening was a most successful affair, and the presence of Mr. Carvell, M. P., will make more or less trouble for the fiction writers of a portion of the provincial press, who had some time since discovered a razor in Mr. Carvell's boot.

In deciding to carry out Engineer Barbour's recommendations with regard to distribution, the water board pursue the only reasonable course. It was known, when he presented his original report that renewal of certain distribution mains was involved.

Lord Ripon is still hopeful of Irish home rule. So is Mr. Redmond. And the king and queen will visit Ireland next month. The situation is interesting, and the position of the government, in view of the rejection of the Irish Councils Bill, is not as agreeable as it might be.

Sir Robert Bond will not deny that union with Canada would be a good thing for Newfoundland, but he declares the time is not yet ripe. Until the views of the people change, or a crisis occurs, union must wait.

After yesterday's evidence at the fire investigation the man who goes to a fire will have a new and wholesome respect for live wires that may be lying in wait for a victim.

Complaint is made that the fire investigation in this city is not sufficiently public to produce the most satisfactory results. Doubtless the source of complaint will be removed.

If the weather has been backward for the farmers it has enabled the lumbermen to get the log drives into safe waters, and that is a very important consideration.

With hay around twenty dollars per ton the New Brunswick farmer naturally welcomes the recent remarkably rapid growth of vegetation.

WILL RETURN TO DOMINION

Canadian Commercial Agents to Visit Canada from Time to Time.

OTTAWA, June 6.—(Special)—Continuing the policy established some little time ago of bringing the Canadian commercial agents back to Canada from time to time for the purpose of visiting Canadian trade centres and personally meeting Canadian business men, the department of trade and commerce has instructed A. W. Donly, of Mexico, to visit Canada during the present summer. Mr. Donly, it is expected, will arrive in Halifax in July by the Elder Dempster steamer service, flying between Canada and Mexico. After spending about three months in Canada, Mr. Donly will return to Mexico by the new steamship service on the Pacific coast from Vancouver.

Michael Kane, of the west side, desires the Times to say that he is not the person whose name was mentioned recently as having been in trouble with the Kerrigan boys.

More New Clothing and Furnishings Arrive

Our selling in May was so far beyond anything we had ever had that we found many lines our stock very low; by scouring the markets we have been able to replace these to splendid advantage. Most of it has arrived and is now being offered at exceptional prices.

- Men's Suits, - - \$3.95 to \$20.00
Boys' 3-Piece Suits, - 3.50 to 8.00
Boys' 2-Piece Suits, - 1.49 to 6.50
ALSO HATS, SHIRTS, UNDERWEAR, ETC.

J. N. HARVEY, TAILORING AND CLOTHING, 199 to 207 Union St.

AN ACTUAL "WALK-OVER" RESULT

Facts are what men want and here is one to think over...

IN THIRTY-FIVE YEARS the output of "Walk-Over" Shoes has increased from a half dozen pairs to fifteen thousand pairs daily.

15,000 Pairs Daily 4,500,000 Pairs Annually.

Think of the comfort and satisfaction they must be giving to have made such an immense gain in popular favor. Price in Canada, \$5.25 and \$5.50. Are you a "Walk-Over" man?

MOTHER EARTH

The wet earth-smell came to me where I The breath of rain, pungent and keen as Rich with the incense of the dark-drenched pine Sweet with the sweetness of the wet peat wood. And something stirred and quickened in my blood. Methought great deeds might spring to sudden birth. Born of the rain, and the sweet breath of Earth. Earth! Antaeus drank, and found most good. Primordial wine that wakes in us quick fires, A vagrant yearning for the wander-life, Laughter and longing, and young wide desires. For distance and great space and clash of strife. Who drinks the keef' earth-wine, he needs must call Antaeus' mother, mother of us all. —R. Macanlay, in the Academy.

IN LIGHTER VEIN

A PAINFUL DISCOVERY. "The Upstarts seem to have suspended their interest in the family tree. "Yes, they found a few of their ancestors hanging on some of the branches."

FORBIDDING THE BANNS.

"Do you think it is right for a woman to marry a man out of pity?" "Certainly not; pity and love are too near akin."

JOINING OPPOSITES.

"That poor theatrical angel has rather an acrobatic sort of a career." "What do you mean?" "He comes to the front only as a backer."

A LAST STAND.

"Don't you think the Newriches have too much silver at their functions?" "Do let them show their 'something' about them which has polish."

SIMPLE SYNONYM.

His Wife (sighing)—Which is proper "disillusioned" or disillusionized?" Her Husband—Oh just say "married" and let it go at that.

DIPLOMACY NEEDED.

Golfier—Ordered your next winter's coat yet? "Yes, sah. Ef you was to tell some pebble dey cud reach de seventh heben free of charge dey would ask you when de elevator was going up."

AN ENTHUSIASM.

When blossoming fields proclaim the May, Is life worth living? Rather! This world is just a big bouquet Which we are here to gather! —Washington Star.

SOON BE ECLIPSED.

"Is Jimmy, de porch climber, a star?" "Naw," replied the life cracker. "He used to be a star, but now we call him de sun."

FEW CLIMBERS.

"Dis am a lazy world, desoon," remarked Bruddah Sunflower. "Deed it am," replied Deacon Deedberry.

IN ARKANSAS.

The train was just disappearing around a curve as the drummer reached the depot. "Say," he queried of the station agent, "did that train happen to be ahead of time?" "It wam't," explained the agent. "That was yesterday's train."

REXTON

REXTON, N. B., June 4.—The death occurred at Rexton yesterday of Lloyd Thomas, son of Branch Thomas, after a lingering illness. He was about 30 years of age, and unmarried, of Richibucto, passed away at her home Sunday after a lingering illness. She was a daughter of the late Thomas Clark, of Kouchibouguac, and leaves a husband and three children.

CHARLOTTETOWN, P. E. I. June 6

**ROMANCE OF PING PONG TABLE ENDS IN THE DIVORCE COURT**

**New York Millionaire Now Suing for Divorce from Wife Whom He Met at a Ping Pong Tournament.**

NEW YORK, June 6.—With a suit for absolute divorce entered against his young and beautiful wife, millionaire Charles Rogers Burnett, grandson of the late Edwin M. Stanton, Secretary of War, under Lincoln will make a motion before Supreme court Justice McCall today asking that the case go to trial at once.

Young Burnett, who is known as "Tod" names Arthur G. Humphreys, president and general manager of the brokerage firm of A. G. Humphreys & Co., of No. 27 William street, as co-respondent. Former Commissioner of Licenses, F. L. C. Keating, chief counsel for Burnett, stated yesterday that he had numerous sensational affidavits regarding Humphreys' attentions to Mrs. Burnett. Humphreys is a famous athlete, having played quarter-back on the Trinity College eleven in 1904. He is now a member of many exclusive clubs in this city.

Mrs. Burnett has already sued her husband for a legal separation, and has instituted another suit against Mrs. Jeanette Burnett, mother of her husband, asking \$50,000 damages for alienation of his affections. The father is Congress man Rogers L. Burnett, of Stroudsburg, Pa., who made millions in the coal business. Yesterday he consented to make his first statement for publication to the American.

"I certainly propose to prosecute my suit for divorce," he said. "I am convinced that there has been a shameless plot to extort large sums of money from my mother and myself. As an instance I can point out my wife's suit against my mother for \$50,000 for alienation of my affections.

"As a matter of fact, my mother treated my wife like her own child for some time after our marriage, but when she realized the trap into which I had fallen she changed her attitude.

"I met my wife first at a ping-pong championship. She was then the champion ping-pong player of the upper West side and I held the championship of the Knickerbocker Athletic Club. It was a case of love on sight on my part, and I imagined that she reciprocated. As a matter of fact I am now convinced that my wife played a deliberate game to entice me into marriage. I was then seventeen and had not yet cut my eye-teeth, and it took me several months to learn that she really cared nothing for me, and had only married me for my money.

"In the first year of our married life I spent \$35,000 in trying to make my bride happy. Nothing satisfied her, however, and finally, after leaving my family home at No. 150 West Eighty-second street, I was forced to take hotel apartments, which I did up at an expense of \$3,000. Every such living did not please her, and the separation followed.

"It is true that I am now devoted to my wife, and that she is a fine woman, but she typifies everything to me in my life, which because of irreconcilable differences, I was unable to discuss in my wife."

Burnett has attained considerable publicity in times past because of his life as an amateur boxer, his daring dashes in a high-power automobile and his devotion to Miss Edna Jordan, a show girl, which led to his arrest after a fight with George Peter Mason, a well-known man-about-town.

Last February Henry Gravier, a wealthy liquor merchant, recovered a judgment of \$3,500 against Burnett as a result of an altercation between them at the Hotel Windsor. When the case was tried in court Burnett alleged that Gravier had circulated scandalous reports against his wife, and that he acted the part of a gentleman in resenting them with a blow. Burnett paid the judgment.

**THE FOLLOWERS OF BAHU ULLAH**

**An Asian Sect Has Made Converts in the United States.**

(New York Evening Post.)

A little band of the followers of Baha Ullah, who taught in Asia for forty years, "the religious unification and universal brotherhood of mankind," listened to the reading of the burial service of the sect for the late Dr. Chester I. Thacher, a retired Chicago physician, this morning. The Episcopal service was read later at the funeral, which took place at the residence of Mrs. J. A. Coccino, a sister-in-law of Dr. Thacher, No. 56 West Fifty-third street.

Dr. Thacher came to New York ten days ago to meet his son, also a physician, who had been traveling around the world. He died suddenly on Friday evening. The followers of Baha Ullah gathered in the parlor of Mrs. Coccino's house at ten o'clock. Before this Arthur S. Agnew and Howard McNutt had put upon the finger of the dead man the emblem of the sect, a large stone setting, which marks the last act of love and affection bestowed by the order upon its dead. McNutt read the burial service and Mr. Agnew offered prayer.

The service of Baha Ullah, taken from the Holy Book of Baha'ullah, which the "Baha'is" or the followers of Baha Ullah, was the author, is a solemn adjuration to the faithful and a profound tribute to the dead, who has been "raised up to the beautiful, out of the twilight of human understanding, to meet the glory of peace and eternal bliss."

In Asia today there are many thousands of the sect which had its origin in Persia and was introduced to America during the Chicago World's Fair. Abbas Effendi, oldest son of Baha'ullah, who died in 1892, is now the recognized leader of the sect. "Baha'is" proselytized through Persia and Turkish cities until 1851, when he was seized and hurried to his death on a charge of heresy, execution taking place in Tabriz, Persia. Baha'ullah, then a young man, immediately took up his work, leading people to live in unity and affection.

**VISIT OF EARL GREY**

**Preliminary Programme Arranged by Committee Yesterday.**

A meeting of the committee appointed to arrange details for the entertainment of Earl Grey during his visit to the province next August, was held in the mayor's office yesterday afternoon. Those present were Lieutenant-Governor Trevelyan, Mayor Robinson, Hon. C. H. LaBelle, the mayor and Ald. Bullock, Erskine and Lewis.

A preliminary programme was drawn up as follows:

Tuesday, Aug. 13.—Governor-General arrives on steam yacht Minto at 11. After luncheon he will be taken to the luncheon at the Union Club. At 3 o'clock an address of welcome from mayor and council will be read in the council chambers. At 8 o'clock dinner will be served at Union Club.

Wednesday, Aug. 14.—Visit to public institutions followed by luncheon by Canadian Club. At 4 p. m., inspection of Boys' Brigades. At 7 p. m., dinner by mayor at Union Club. To be followed by public reception in Keith's Theatre from 9 to 11.30 p. m.

Thursday, Aug. 15, will be spent in Fredericton, where address of welcome will be read and points of interest visited. A reception will be held in parliament buildings from 9 to 11.30 p. m.

Friday, Aug. 16.—Party returns to St. John, and a visit will be paid to Mrs. Cline's home for immigrant children at Nauyasganic.

Arrangements may also be made for a display of fireworks and illumination of the harbor.

**The Secret of Crisp Pastry**

Keep three things in view, if you want unvarying success with your pastry—cold water, good shortening, and blended flour.

Ice water and butter are preferable, but but it may be more convenient to use cold water and some other good shortening. But stick to the Blended Flour. It will never fail to give a light, flaky crust—no tender, it will break with a breath, and as easy to digest as it is delicious.

The wholeness of pie crust depends on the lightness of the flour that is the key to success. The flour that you look for in pie crust must be made of flour having a large percentage of starch. Ontario flour wheat contains all the requisites for light, airy, cake and biscuits, while Manitoba wheat has the heavier properties required in a strictly bread flour.

Combine the two, and you will get a perfect flour, that has the full rich flavor and delicacy of Ontario flour wheat, and the strength of Manitoba spring wheat—an ideal combination.

With ordinary care in mixing and rolling the dough, Blended Flour will give you the most delicious pastry you ever ate. Many millers are now blending these two grades of flour scientifically, so do not attempt to do the blending yourself—it is no easy thing to get just the right proportions.

**FAMOUS BOOK ON STAGE**

That famous book of light reading, "The Toy-makers," by Charles Felton Pidgin, author of "Quincy Adams Sawyer," "The Best New England story ever written," has at last been arranged in the form of a musical and put upon the stage by "The Jollies," a company of clever actors and actresses, singers and dancers and it will be given at the St. John Opera House on June 12th and 13th, for two nights only.

There are only a few books of the kind which have enjoyed greater success and it is only fair to assume that as a musical piece, it will be equally successful. It includes twenty-six musical numbers by Charles D. Blake and John A. Bennett and is bright and snappy from start to finish. The story revolves around a mechanical doll, brought to life by means of electricity and the scene is laid in a typical old English toy-shop. The entire scenic outfit is carried by the company and an elaborate production is promised.

Mrs. Lynch, Miss Josephine Lynch and Harry Lynch, Paradise Row, have returned from New York.

The value of Pabst Blue Ribbon Beer lies in its strengthening qualities as a food. Pabst Eight-Day Maltng Process retains all the food value of the barley-grain as found in this beer of quality.

**REMARKABLE INVENTION FOR THE CULTURE OF HAIR**

**THE EVANS VACUUM CAP**

is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

**60 DAYS' FREE TRIAL**

The Company's Guarantee

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles without resorting to any irritants, the problem of hair growth would be solved. Later on, when the EVANS VACUUM CAP was submitted to him or inspected, he remarked that the Cap would cure and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable. An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

**ENGINEER BARBOUR ASKS FOR LARGER WATER MAINS**

**Interesting Meeting of the Water and Sewerage Board Yesterday.**

At a special meeting of the water and sewerage board yesterday, a report from F. A. Barbour, consulting engineer, was read urging the immediate necessity of laying new and larger mains through several sections of the city in order to make the static pressure effective. The board ordered the recommendations carried out, and additional pipe ordered.

The Mooney claims were considered in private session.

Engineer Barbour's report was as follows:

Boston, Mass., June 5, 1907.

J. H. Frynk, Esq., Chairman of Water Board.

Dear Sir,—I desire to call your attention to certain improvements in the distribution system which are necessary in order to make effective the static pressure to be developed by the new supply.

At the original report, no general re-blocking of the distribution system is economically possible or necessary, and with the elevation of the new source a fire draft sufficient to satisfy the underwriters can be demonstrated by actual test, provided certain improvements are made. These improvements were referred to in the original report on pages eleven and twenty-five. It was there recommended that a ten inch (10 inch) pipe be laid in Carmarthen street, from Leicester to Britain street; a ten inch (10 inch) pipe in Duke street from Carmarthen to Prince William street; a ten inch (10 inch) pipe in Pond street to Market Street; and a ten inch (10 inch) pipe in Prince William street extended to Duke street.

Additional experiments during the past year have served to confirm these conclusions with slight modifications. There is no doubt that the section along the water front, from Market Square to St. James street, demands better protection and should be connected by larger pipes with the mains at the water front and the circuit through St. James and Britain streets.

The first will effectively utilize the large pipes leading from the March bridge to Port and through City Road and Paradise Row, and the second through Pitt, Charlotte and Britain streets.

Since writing the original report an eight inch (8 inch) pipe has been laid from Market Square along N. Wharf and up Nelson street to an alley. I therefore recommend that a ten inch (10 inch) pipe be laid in this street near its junction with Mill street.

I also recommend that a ten inch (10 inch) pipe in Prince William street be extended to St. James street, with the connection of the two and fifteen inch (15 inch) and 12 inch (12 inch) mains at the junction of Main and Mill streets and the twelve inch (12 inch) pipe in Germain street, with the twelve inch (12 inch) pipe in King street at the junction of these streets, should be immediately undertaken.

As soon as reasonably possible thereafter, I recommend the laying of a ten inch (10 inch) pipe in Carmarthen street from Leicester to Britain street, and a ten inch (10 inch) pipe in Duke street from Germain to Prince William street.

With these improvements the distribution system will be good in point of capacity. The new mains will be large pipes (12 inch to 18 inch) will extend through City Road street, Waterloo, Britain and Erin streets to Union street, and finally, after leaving my family home at No. 150 West Eighty-second street, I was forced to take hotel apartments, which I did up at an expense of \$3,000. Every such living did not please her, and the separation followed.

"It is true that I am now devoted to my wife, and that she is a fine woman, but she typifies everything to me in my life, which because of irreconcilable differences, I was unable to discuss in my wife."

Burnett has attained considerable publicity in times past because of his life as an amateur boxer, his daring dashes in a high-power automobile and his devotion to Miss Edna Jordan, a show girl, which led to his arrest after a fight with George Peter Mason, a well-known man-about-town.

Last February Henry Gravier, a wealthy liquor merchant, recovered a judgment of \$3,500 against Burnett as a result of an altercation between them at the Hotel Windsor. When the case was tried in court Burnett alleged that Gravier had circulated scandalous reports against his wife, and that he acted the part of a gentleman in resenting them with a blow. Burnett paid the judgment.

Mrs. E. J. Prosser, of San Jose (Cal.), is the guest of Mrs. Harry Miller, Douglass avenue.

Harry Leonard, of Ross & Leonard, Saskatoon, arrived home yesterday.

SAYS GRAFT IS CANADA'S GREATEST PROBLEM TODAY

Sensational Speeches at Presbyterian General Assembly Yesterday.

MONTREAL, June 6-That graft is rampant in Canada was the keynote of a strong speech before the Presbyterian General Assembly...

Canada from a moral point of view with the tremendous growth in wealth and the material progress of the country, there would no doubt be a little loosening of the moral bonds...

He was glad to hear Rev. Mr. Shearer, on a recent occasion, say that after association with the members on both sides of parliament he could say that Canada was governed by a very honorable body of men...

He believed that the next few years would be years of unprecedented trial for the Presbyterian church, he believed, was not lowered. Its tone was as high as ever it was, but somehow they could not bring to bear the manhood of the church at the right time so as to produce the best results.

He believed that the next few years would be years of unprecedented trial for the Presbyterian church, he believed, was not lowered. Its tone was as high as ever it was, but somehow they could not bring to bear the manhood of the church at the right time so as to produce the best results.

Saturday Afternoon Games.

The first Saturday afternoon game of the season will be played on Saturday at 2:30 p. m. on the Victoria grounds. The teams to face each other will be the Marathons and the Clippers. They are well matched and have been putting up excellent ball and should draw a big crowd.

**"KID" NICHOLS' LATEST SCHEME.**

The once famous pitcher, "Kid" Nichols, is erecting on the third floor of his building a new academy in Kansas City a device for reproducing every play in the baseball game the blues play away from home. He will have a diamond painted on a large board and electric lights at each position. The lights will be so arranged as to show each fielder a hit ball, whether cleanly or whether he hobbles it. Lights will show the progress of men on bases. A gong will indicate each run, while a buzzer will signify a hit. The batting order will be posted, and a line will show what man is at the bat. Cards will show the balls and strikes as registered against players.

Hatmen will often bat in very hard luck—but the ball hard, but unfortunately, directly at some one. Luck enters largely into batting averages in the baseball game, to little just at this stage of the game, when there has been so little base ball weather. The final batting percentages should never be based on anything less than 50 per cent. of the largest number of games played by any one batsman. It is not fair to the man who has participated in all of the games of a season to be rated with a man who has participated in but fifteen.

A ball team at Streaton, Ill., has a player named Turnpseed. Naturally he plays in the outer garden.

**COACHING FROM THE BENCH.**

Just how much a manager on the bench should be allowed to talk to his ball players is a matter of considerable controversy among umpires or others. There is a wide difference between coaching and talking. Managers have no right at all to coach from the bench, but a perfect right to talk to the players. It is a question if it were not better that no one be allowed to sit on the bench who is not in uniform, when the manager could coach to his heart's content if he desired to do so.

**TENNIS.**  
Rothsley Tennis Club.

For the first round of the Turnbull cup tournament, to be played by June 15, the drawing for partners resulted as follows: C. Mackay and Miss Brock, 1/2 of 15 vs. H. Crookshank and Mrs. Moore, 1/2 of 15 vs. E. Moore and Miss N. Fairweather, 1/2 vs. S. Allison and Mrs. S. A. Jones, 1/2 vs. W. Tromper and Mrs. J. Fairweather, 1/2 vs. 15 vs. F. W. Daniel and Miss McIntyre, 1/2 of 15.  
Thos. Bell and Miss Puddington, 1/2 of 15 vs. J. H. A. Fairweather and Miss Tomville, 1/2 of 15 vs. W. H. Harrison and Miss Thomson, 1/2 of 15 vs. W. G. Mackay and Miss N. Fairweather, 1/2 vs. W. G. Pugsley and Miss M. Fairweather, 1/2 vs. 15 vs. W. R. Turnbull and Miss Davidson, 1/2 vs. 15 vs.

**CRICKET.**  
CRICKET FEAT IS UNPRECEDENTED.

Many bowlers have performed the trick in first-class cricket; several—the most noticeable of recent instances being Sydney's success in the last Gentlemen v. players match—having taken all ten wickets in an innings; but the annals of the game revealed no such achievement as that of which Albert Trout, the Middlesex professional, was the hero at Lord's on May 22.

**MR. BARRY MAY BE CHOSEN NEW ATTORNEY GENERAL**

Provincial Government Caucus Held at Fredericton Yesterday—Dr. Pugsley Banquets Legislators and Departmental Heads.

Fredericton, N. B., June 6.—A caucus of members of the legislature supporting the government, held in the executive council chambers this evening, was presided over by Mr. Barnes, of Kent. The only absentees were Messrs. Young, of Gloucester, who is ill; Ferris and King, at present in the old country, and Whitehead, of York. Premier Robinson came in for a most cordial reception and the proceedings were most harmonious. Matters in connection with the policy of the party were discussed, but just what conclusions were arrived at have not been made public.

Premier Robinson was asked for information concerning what took place, and general was not discussed, but he intimated that some action would likely be taken before members of the legislature met in the city.

It is said that J. H. Barry, K. C., of this city, stands a good chance of securing the position. The table was set for a discussion, and it is understood another meeting will be held tomorrow.

At the conclusion of the caucus, ex-Premier Pugsley entertained the members of the legislature supporting the government and head officials of the several departments at a farewell dinner at the Queen Hotel. It was a most successful function, and everything passed off pleasantly.

There were more than fifty guests, and not a vacant seat. The table was beautifully decorated with smilax, carnations and apple blossoms.

Dr. Pugsley, who made an ideal chairman, had on his right Premier Robinson and Speaker O'Brien, and on his left E. H. Carr, M. P. for Carleton, and Hon. C. H. Lablache, Surveyor-General Sweeney occupied the vice-chair, having A. B. Copp on his left and Deputy Receiver-General on his right.

A full course dinner was served in Landlord McLaughlin's best style, and the guests departed in the hands of the guests.

Hanson's orchestra, from a position in the hall, furnished an excellent programme of music during the progress of the dinner.

The health of the King was proposed by the chairman and drank with musical accompaniment.

Hon. Dr. Pugsley also proposed the health of Premier Robinson. He made a witty speech and expressed the opinion that Mr. Robinson would fill the position more successfully than "HIT" knock, "is bloomin' 'ead h'off," declared Bob.

Mike Schreck and Jack Johnson were to have fought July 4, but Schreck has put off the fight indefinitely. He may never meet the colored heavyweight.

There is a half promise that they will get together on Labor Day, but by that time Brusso and Squires will have had their fight and this may alter the situation.

**ORCHARD'S CONFESSION GROWS MORE HORRIBLE**

His Victims Now Number Eighteen—On the Stand Yesterday He Swore Moyer, Haywood and Pettibone Planned the Work and Praised and Paid Him When it Was Done.

Boise, Idaho, June 6.—Harry Orchard crowed his admissions of grave crimes to-day, when, continuing his case against William D. Haywood, he made a detailed confession of the murder of Frank Steenberg by an infernal machine.

Orchard opened the way for his own conviction and execution for the mortal offense. He swore that the assassination of Steenberg was first suggested by Haywood, was plotted by Haywood, Moyer, Pettibone and himself, was financed by Haywood and was executed by himself after the failure of an attempt, in which Jack Simpkins had participated.

Orchard lifted the total of his own murder victims to eighteen, detailed the circumstances under which he tried to murder former Governor Peabody, Judge Goodard, Judge Gabbert, General Sherman Bell, Dave Moffatt and Frank Heme.

Then under cross-examination, Orchard confessed guilt of the sordid social crime of deserting his young child and wife in Ontario, going to British Columbia with Hattie Simpson, the wife of another man, and committing bigamy by marrying a third woman at Crepe Creek.

Through the shocking details of murder plots, stories of secret bomb-making and the use of man-hunts with sawed-off shot-guns and infernal machines as weapons, the witness went on in the same quiet, off-hand manner that marked his denials yesterday. His voice dropped to lower keys as the pitiful stories of the long hunt for Steenberg narrowed down to the last day and he told of the race from the hotel to the home to test his victim with the death-trap and the meeting in the evening gloom as the victim walked unharmed to his doom.

Though it all he wined but once, and that was when the defense made him name his six sisters and his one brother and give their residences in Ontario and New York.

New defense fought the story with a multiplicity of objections and succeeded in leading off an attempt to tell the story of the murder of Arthur Collins at To-Hi, a temporarily shut out the contents of a telegram received and a telegram sent by Orchard after his escape from the Brighton factory.

The state today began the corroboration of Orchard's confession by producing the lead casing of the Peabody bomb. Orchard identified it, swore that he brought it from Canon City to Denver and gave it to a man named Cunningham. It was thrown into the river and the state promises later to produce it.

Haywood and his kinfolk listened quietly to the long recital and about their first surprise was one of amusement when Attorney Richardson began his onslaught and brought out Orchard's domestic crimes.

There were the same precautions and the same armed guards today to protect Orchard and the same court room scenes as yesterday among the spectators, who were men to men as two to one. There was another rush for admittance and the doors of the court had to be closed at 9 o'clock.

Orchard finished his direct examination at 2:30 o'clock and the cross-examination only reached to the hour of three days of 1899 when the court rose. The cross-examination will be continued at 9 o'clock to-day.

Harry Orchard this morning on the stand continued his story of almost unbroken crime. First he gave the names of several persons he met in San Francisco when he went there to kill Fred Bradley, formerly manager of the Banker's Trust Sullivan mine in the Cour d'Alene, Orchard, part of the time, was known as Barry. On returning to Denver wearing a soldier's uniform, he called up Pettibone and a shotgun, but he did not see the judge. Haywood also wanted us to try again at Governor Peabody, who was about to be re-elected. Steve Adams, Billy Ackman and I made a bomb. We put it into the sidewalk at 128 street and Grant avenue in Denver. The governor walked along here every morning.

The passage of two coal weapons as the Adams and Orchard from pulling the wire, and the bomb was thrown into the river. Attempts to shoot Peabody likewise failed. Orchard said Haywood also wanted him to shoot Frank Hearn, of the Colorado Fuel & Iron Company, and Dave Moffatt, president of the First National Bank, who was behind the fight against the federation. He and Adams had no chance to kill these men.

"We were also to get after Judge Goodard who, Haywood said, was instrumental in defeating the eight-hour bill, which had been declared unconstitutional," Orchard continued.

"At the fall elections, Peabody was succeeded by Governor MacDonald. Peabody went to live at Canon City, Colorado. Moyer, Haywood and Pettibone all told me to keep after Peabody. It was at that time that I should become a life insurance solicitor."

Orchard declared he got recommendations for that position with one of the big agencies in Denver from Mr. Hawkins, an attorney, and partner of E. F. Richardson, one of the attorneys now representing Haywood, and F. J. Sullivan, president of the state federation of labor.

**POPULAR PIES**

Guess we'll have to call them that instead of STEAK PIES. Good reasons—not enough last Saturday to supply the demand. Making more every Saturday. Making still more tomorrow. A once-a-week treat that can't be beat for the money 5 cents. The proof is in the eating. Get around early tomorrow for yours.

A business meeting of the Women's Art Association will be held in the studio at 3.30 tomorrow afternoon.

A one mile handicap race will take place tomorrow night at the Nickel Roller Rink, for which twenty entries have been received.

Norwegian steamer Kathinka, Captain Thorsen, arrived in port this morning from Jamaica with fruit, etc. The steamer had a fine passage up.

Saturday buyers will find a fairly good supply in the country market, but those desirous of having a full variety to select from will be wise to be on hand early. Retail prices, generally speaking, are much the same as last week.

A report comes from Dalhousie that the Restigouche Woodworking Company, whose plant was recently destroyed by fire, will not resume operations. This, if true, will be a severe blow to Dalhousie as the industry was a large one employing about 125 to 150 men.

The Every Day Club has granted the free use of the Victoria grounds to the high school boys for their annual sports on Saturday afternoon, June 8th. These sports will be open only to high school boys, but the grounds will be open free to the public, and there will no doubt be a great crowd in attendance.

Yesterday, along the harbor front, the gasperaux fishing was good and almost all of the boats made large catches. The run of eel is only fair, but should the weather turn warm within a few days the fish will be plentiful. A number of salmon are being caught and the prospects are bright for a good salmon season.

The playgrounds committee of the Women's Council yesterday afternoon decided to conduct supervised playgrounds in the Centennial and Winter street grounds during the summer holidays. The meeting yesterday was merely preliminary and another will soon be held. The Every Day Club, through the president, tendered the use of the Victoria grounds, if they could be made of any service during the holiday season.

The Annapolis, N. S., schooner Margaret May Riley, Captain Richards, which arrived in port last Wednesday from Brunswick, Georgia, with a cargo of pitch pine, was 13 days on the passage to this port. In six days after leaving Brunswick she was off Nantucket South Shoals. On May 29th she had a strong westerly gale with heavy seas during which the deck cargo shifted, but very little damage was done. From the South Shoals up had northeast wind and calm weather. The schooner is discharging her cargo at the I. C. R. wharf.

Governor Tweed, who is President of the Miramichi Agricultural Exhibition Association, wrote to Mr. Frank Harrison, of Frank Harrison & Co., Liverpool, the firm so ably represented here by Mr. Neale, suggesting that a subscription to the stock of the association would be a proper way of showing interest in this lumber-producing community, and Mr. Harrison promptly replied, subscribing for stock to the amount of £100 sterling. Mr. Harrison's public spiritedness, in identifying himself so generously with the best interests of the Miramichi, simply because he buys lumber here, is a good example for resident business men and others to follow.—Chatham World, June 5.

PERSONALS

Miss Evelyn Bennett, of Hopewell Cape, left by Saturday morning's train for St. John, where she will take passage for England with her brother, Captain Ronald Bennett, master of the steamer Matavan. Miss Bennett was accompanied to St. John by her mother, Mrs. H. J. Bennett.—Albert Journal, June 5. Mr. and Mrs. J. C. Henderson and Miss Aileen, of Dominica, B. W. I. will arrive today on a visit to Mrs. Henderson's mother, Mrs. W. A. Lockhart, 133 Princess street.

Handren-Mabee. A pretty wedding took place Wednesday evening at the bride's residence, Elm street, when Miss Genevieve, daughter of Mrs. W. A. Mabee, was united in marriage to Ernest A. Handren, of this city. The ceremony was performed by Rev. J. C. B. Appel and was witnessed by the immediate relatives and friends of the contracting parties. The bride was the recipient of many beautiful and costly presents. Mr. and Mrs. Handren will reside at 38 City Road.

CENSURED BY MAGISTRATE

Timothy O'Brien, Charged With Beating His Father, is Lectured and Remanded.

Timothy O'Brien, Jr., is once more in trouble, having been arrested last night by Policemen Bowes on a warrant charging him with assaulting his old father, Timothy O'Brien, Sr.

In court this morning the younger O'Brien was severely censured by Judge Ritchie and then sent in on remand. O'Brien's aged father declared that the prisoner came into the house yesterday and demanded his dinner. He acted very badly, struck his father and then threatened to put him through the window.

His honor then called the prisoner forward and lectured him severely, pointing out that he was one of about five men in the country who would strike their father. O'Brien, Jr., was reminded of the scriptural command to "honor thy father and thy mother."

The prisoner was remanded and Mr. O'Brien, Sr., declared he didn't want the young man about the house, nor did he want him around at all. Bobby Dixon wants to follow the circus and sell tickets for the side show. He was arrested last night on a charge of drunkenness, and stated in court that he was going with the circus. Asked as to what part of the performance he would take part in, Dixon said he would not perform but thought he would sell tickets for the side-show, and if given his liberty he would catch up with the show. A couple of drunks were disposed of in the usual manner.

THE CAMDEN COMING

Charles W. Morse and Party to Make Inspection Tour in Her—Goes on Route June 21

(Bangor Commercial)

Bangor will have her first visit from the handsome new turbine steamer Camden of the Eastern Steamship Co. some time the first of next week. The Camden is now receiving her fittings and furnishings in Boston and it is announced from there that the steamer will sail Saturday with Charles W. Morse and the directors of the company on board for a trip along the coast as far east as St. John. The steamer will touch at Portland, Rockland, Bath, Camden, Bangor, Bar Harbor and St. John.

The Camden will go out on her first trip under the flag of the Eastern Steamship Co. in charge of Capt. William H. Allen who came on the Bangor division a short time ago. Capt. Allen went on the steamer Governor Cobb last winter and is thoroughly familiar with the management of the turbine steamers. Having been running on the Bangor division he is also familiar with the river landings so the Camden will be in good hands on her first trip into Penobscot waters.

Folks along the river will be waiting to give the new steamer a royal welcome when she dips her nose for the first time into the fresh water of the Penobscot. At Camden, for which town the steamer was named, a great ovation will await the steamer. The welcome at other river landings will be no less hearty. It will be great blowing of whistles all along the river. It is not known how long a stay the Camden will make in Bangor but it is unlikely that there will be any public reception such as there was when the City of Bangor and City of Rockland made its first trip here, though the steamer may be opened to the inspection of the public while she is in port.

On June 17 the Camden will make a trip to Marblehead and then go to New York with a party of bankers from Texas as guests of Mr. Morse. The steamer will leave Bangor June 21 on her first regular trip on the Boston-Bangor division. The Camden will replace the City of Bangor on the division, the City of Bangor going to the Kennebec. It is expected that the officers and crew of the City of Rockland will go in the Camden and the men of the City of Bangor will take the City of Rockland.

Upon her arrival in Boston last week the Camden was formally delivered to the Eastern Steamship Co. by representatives of the Bath Iron Works, where she was built. On Thursday night she was tested, with highly satisfactory results. The 788 incandescent lights and the powerful searchlight were in operation and the craft presented a beautiful picture. The searchlight is 18 inches in diameter and sends a 15-square yard radius for 2000 square yards. The Camden has two 35 k. w. General Electric turbine generating sets which is a new departure. Either one is capable of running all the lights.

SHOULD BE GOOD SHOW

Benefit Entertainment in Every Day Club Hall Tonight.

There was a final rehearsal last evening of the two comediettas to be produced by the Empire Dramatic Club at the Every Day Club hall this evening in aid of the playgrounds fund. The enlarged stage presents a very attractive appearance, with curtains clear across the room. The Empire club have taken their own scenery to the hall, and John White, the furniture dealer, kindly loaned some handsome furniture for the stage. A fine entertainment for this evening is assured. There will be a musical interlude, with vocal and instrumental selections, between the two comediettas.

ACADIA STUDENTS IN TOWN

A number of students from the Acadia institutions are in the city en route to their respective homes for vacation. Several of them are breaking the journey with short visits to college friends in this city. Among these are F. S. Goucher, of St. Stephen; H. Duffy, of Hillsboro; and Randolph Godfrey, of Boston, who for a few days are the guests of Gordon McIntyre, Main street. Miss Kathleen Gilmour, daughter of Dr. A. G. Gilmour, of St. Martins, is the guest of Miss Green Hale, Germania street. Gordon Debie, of Moncton, is the guest of Clifford Wilson, Carmarthen street. Miss West, of Moncton, is the guest of Mrs. Hutchinson, Douglas avenue.

OUT FOR TROUT

J. S. Climo, Harold Climo and William McDonald are enjoying a fishing trip at Lake Theobald, near St. Martins, on the St. John. Frank Shannon, George Peters, Robert Cochrane and W. L. McLellan left on the noon train today for a fishing trip to Wood Lake.
