The sentence was remitted immediately. Madame Deperdussin, his wife and co-defendant, was acquitted.

STRICT NEUTRALITY WILL BE THE POLICY OF NEW SWEDISH CABINET

London, March 31.—Strict neutrality will be the policy of the new Swedish cabinet, according to a Stockholm despatch to Reuters. The new premier, Carl Swarits, has issued the following statement: "In conformity with the principles laid down by his majesty in charging me with the formation of a new ministry, the first duty of the government will be to follow fully the new policy of impartial neutrality which his majesty and the former ministry successfully carried out. It is true that the difficulties of the most active pro-German elements in Sweden, if this is the case it is considered certain that such an agreement will have an important effect on the whole situation in Scandinavia."

PARIS MAY HAVE TO COME TO OIL LAMPS FOR STREETS

Paris, March 31.—The question of lighting the streets of Paris with oil lamps will be considered at a meeting of the city council today. The increasing difficulty of obtaining sufficient coal for the municipal gas plants has made a decision in the matter imperative.

BEIJUM AND THE BELGIANS

In Temple of Honor Hall, Main street, last evening, Mrs. E. Atherton Smith gave her illustrated lecture on Belgium. Then and Now. Apart from her eloquent description, the pictures showing the beauties of Belgian cities before and after the war and then the ruin wrought by the Hun brought the horrors of the war very strongly home to her hearers. Mayor Hayes presided, and at the close a hearty vote of thanks was tendered Mrs. Smith.

TORIC GIVE WIDER FIELD OF VISION

The deep curve of Toric lenses increases the usefulness of glasses. On the benefit of the lens, the eye extends further away from the centre than is possible with a flat lens. The eye is strained, and the curve of the glass is there to correct any defect in refraction. Their cost is only slightly more than flat lenses - a mighty small price to pay for the great increase in usefulness, comfort and good appearance. Step into Sharp's and have Toric lenses demonstrated.

THE WAR SITUATION

Sir Edward Carson, while admitting that the submarine campaign is causing serious damage, said yesterday that "German hopes of starving Britain are quite illusory."

and with the aid of sanatoria, but we are paying no attention whatever to the housing conditions. Until the housing conditions are improved, ill-success must attend the efforts to combat all diseases, and when the citizens fully realize the true relation between housing and health, and morals they will refuse to tolerate continuance of present conditions.

So conservative a journal as Bradstreet's very strongly advocates universal military training in the United States. It says: "Whatever action of an emergency nature may be taken by Congress to meet the exigencies of the situation now confronting the country, it is essential that it should now lay broad and deep the foundations of a real system of national defense. The only system that will in its results measure up to the responsibilities of the nation is one based upon the universal training of its male citizens of military age."

The good roads movement in Canada will receive another impetus at the fourth Canadian and International Good Roads Congress to be held in Ottawa, April 10 to 14 inclusive. Not only will there be important addresses and lectures, but a general discussion of those interested in the movement, and there will also be a very complete display of road materials and road building machinery and equipment.

Dr. W. H. Hattie, provincial health officer of Nova Scotia, in an address this week on the subject of tuberculosis, said that in the city of Halifax alone this disease, in its various manifestations, has caused over 500 deaths during the eight years for which they have statistics, while in the same period it has caused 7,000 deaths in the province. By far the larger number of these deaths have been from tuberculosis of the lungs—784 in the city; 5,468 in the province.

Dr. Hattie said that since the opening in 1904 of the Provincial Sanatorium at Kentville, where Dr. Miller is carrying on a work that merits the highest commendation, the records up to September 30th, 1915, show that 40 per cent. of the patients treated are either quite restored or are sufficiently well to be at work; but the disease cannot be fought by sanatoria alone. Pointing out that evidence has accumulated from many sources, which indicates that the crowding of people in ill-ventilated, badly lighted dwellings plays a tremendous part in favoring the development of this disease, and the opinion is rapidly gaining ground that it is in the homes that our most vigorous fight against the disease must be carried on, Dr. Hattie said:

"The key to the situation lies unquestionably in the housing question. If statistics prove anything, they prove to the hilt that the disease originates and thrives in direct proportion to the unsatisfactory nature of the house and its surroundings; and they prove invariably that an improvement in these conditions is followed, as by the law of cause and effect, by an immediate fall of the tuberculosis rate. The correction of bad housing conditions is, therefore, most necessary to a successful campaign against tuberculosis."

WHEN YOU CAN'T SLEEP YOU SHOULD USE MILBURN'S HEART and NERVE PILLS Sleeplessness is caused by the nervous system becoming deranged. Perhaps too much worry has gotten on your nerves, perhaps you have over-worked yourself, or have been excessive in your use of tobacco, but whatever the cause, the nervous system must be built up again before restful sleep can be secured. Those whose rest is broken into by frightful dreams, nightmares, sinking and smothering sensations, who wake up in the morning as tired as they went to bed, can have their sleep peacefully undisturbed, refreshing sleep back again by using Milburn's Heart and Nerve Pills. Mrs. John Sloan, Halsey Station, Ont., writes: "Over a year ago I was very nervous. I could not sleep at night, and I would faint at the slightest fright. I tried several doctors, but they did me practically no good. I noticed your advertisement, and immediately tried Milburn's Heart and Nerve Pills, and I am proud to say they cured me. German Clergymen Preaching Defiance

Say God Is With The People And Urge Them To Be Of Good Cheer

Say Their Cause Is Just

Kaiser Called the World's Figure of Destiny, and Military Leaders and Chancellor Lauded

Germany's clergymen, so many of whom have done yeoman service since the outbreak of the war in helping to lead the German people with the idea that the Germans are the chosen people of God, are again rallying to the defence of the kaiser, and, in sermons and newspaper articles, are urging the kaiser's subjects to hold out to the utmost. German newspapers received in London within the last few weeks contain many items telling of the activities of the clergy, specially of the Evangelical preachers.

The Rev. Dr. Baumgarten, an eminent theologian of Kiel University, has been lecturing on the sources of German power in holding out. There are those who say, who speak of an approaching fourth act of the war drama, but for his part he would like to commit himself to this view. But, fourth act or first act, Germans will hold out. What are the sources of this power of holding out? he asks himself.

First of all there is the truth and transparency of the German cause. Germans have now a clear notion of what is threatening—nothing less than destruction, says the reverend doctor. The Paris economic conference acted on the principle that Germany was to be rendered economically impotent, and the German workman will be the first to suffer should this principle be put into action. This is now thoroughly understood in the ranks of the German army, and in consequence the nation is tightening its belt, more than ever determined that the British starvation war shall not force them to yield.

According to the Reverend Doctor, another great source of German power in holding out is the confidence of the people in their leaders. It is, of course, not necessary to accept everything without criticism, but in judging the leaders of the army and navy criticism is rather superfluous. Look at Hindenburg: Is it not an act of divine providence that an actual hero of this character stands at the head of things? The chancellor, says Dr. Baumgarten, is no genius of the Bismarck order. He has constantly committed grave mistakes, and one of the most serious of these is his failure to take the lead in the peace negotiations. He is always moderate—a respectable, noble, quietly suffering man.

Finally, according to Prof. Baumgarten, the German nation draws un-speakable power from holding out from the fact that it believes in Providence, in God. It believes that the moral law holds good around all the threats of the world.

In an article entitled "Reflections on the Kaiser's Speech," written for the illustrious Zeitung, Dr. Vogel of Potsdam, court preacher, says that shortly after the outbreak of the war he appeared to his court chaplain as "a deeply injured man, a scandalously deceived man with a broken heart."

But evidently recovered, for a year afterward, Dr. Vogel again had occasion to observe the narrow way. This he then then appeared to the "spiritual eye" of the divine:

"A man poor with the sword, victorious at least a world of enemies. Around him were dilapidated fortresses, captured capitals, the overthrow of kingdoms. Before him panting enemies; behind him princes, leaders and soldiers, all resolved to devote their last breath to his service."

Dr. Vogel is enthusiastic over the kaiser's peace proposals, and says:

BILLY SUNDAY AND THE WAR

Signing up with God means signing up against such horrors as those.

Any way, he figures God will find time to deal with Gehenna.

"After the war, is over and the swords are beaten into ploughshares," he predicts, "God may say: 'Now, Billy, go to sign over New York state. And then maybe there won't be something doing!'"

War with Germany does not come before the New York campaign begins Sunday will inject the probability of it into all his sermons, warning against the danger of unpreparedness and urging his hearers to heed the scriptural injunction to "Gird on the sword."

The danger of impending war has gripped the entire Sunday party. All the men workers are professedly ready to volunteer for service at any time. George M. Sunday, business manager, and Billy Sunday has offered as a military aviator. A large battle plane is under construction for his order at the Curtiss plant in Buffalo.

"They were not the proposals of a phantasm, but of the most important man which this earth bears at the present time. The German emperor is not without a shadow of doubt. He stands before us all as an example for his empire, the man of hope, the German figure of destiny, of destiny not only for Germany but for Europe, for the entire world."

Writing in the Cologne Gazette a Rev. Fuller says he voices the desire of large bodies of ecclesiastics in that the millions at the front are fighting at the present moment for the security of the holding out of the German future. Should all the enormous sacrifices made hitherto be in vain, he asks, should all the sufferings have been in order, according to Scheldemann's prescription, that every one should carry his own burden, and that what was Belgian should remain Belgian, and what was French should remain French?

It is certain, says Herr Follet, that the German nation has nothing in common with this queer sentimentality. It is not that it will not long be able to live in security if Belgium is once left to the English as an invasion-gate, and the French get back all their territory. It will not be completely satisfied even if Germany should retain only the coast of Flanders and the mining district of Briey. It has still greater demands to make. viz., that England should surrender Gibraltar to Spain, Malta to Austria, Cyprus, the Suez Canal and Egypt to Turkey, and that Belfort should become German.

Under the heading, "German Consolation," Dr. Johannes Muller, an eminent theologian and pedagogue, fills half a page of the Tagliche Rundschau with an article, part of which is translated as follows by The Daily Chronicle:

"German hearts, never despair; do what your conscience dictates.

"We have conducted this war on the principles of justice, and humanity, and it was only against our wishes that we were compelled to resort to retaliative measures, only when all the pacific reasons were closed to us. All along we have delayed using our sharpest weapons and always to our own injury. And now, when we are victorious, we are only like the dew from the dawn, if we do not have courage against death and the depths. Spring will come again, then, when our enemies, it was only God's name we seized our very sharpest weapons. And this we did, moreover, because our conscience dictated the step. Therefore, German people, do not despair!

"We have suffered terribly in body and soul. The losses to our manhood are frightful, but children will be born to us like the dew from the dawn, if we need. That which we have possessed in the future. Catastrophes are not the result of our Kultur among all the nations has been destroyed. He has turned us into ourselves. Harden yourselves, German people; collect yourselves, strike roots in the depths. Spring will come again, and once more you will strike out your branches, a great world tree. And should you be poor in this world's goods, you will be rich in yourselves. Should your Kultur collapse in ruins, have confidence in the future. WOMAN'S PART IN THE GREAT WAR

The Words "The Women Are Splendid" Is Not Universal In Application

Some Are Unsplendid

A Striking Article in a London Paper—Warm Tribute to the V. A. D., But Sharp Criticism of the "Women Slackers"—What a Wounded Soldier Said

(London Paper) "The women are splendid." It is said so constantly that one hears that the women who are quietly doing their work are far from splendid seem to be sheltering under its tribute. The women who are not all "splendid." Multitudes of them are indeed doing so nobly that one shrinks from praise of them. Women recent praise almost as much as they resent blame. A woman smells fattery in every chaplet she is offered. Praise the work of a capable man and you fire him to greater effort. Praise the work of a capable woman and she at once suspects you of "flattery." It is one of the ways of the sex that the other sex has never riddled. But what praise could purchase more and devotion and self-sacrifice being given by the women who are doing the work of the men who are still standing out took up their share

Baby's Itching Burning Skin Quickly Soothed by Cuticura Ointment. It's wonderful how quickly a hot bath with Cuticura Soap followed by a gentle anointing with Cuticura Ointment relieves itching, burning eczemas, rashes and chafings, permits sleep for infant and rest for mother, and points to speedy healing in most cases when it seems nothing would do any good. This is only one of the many things Cuticura does for the skin when used for every-day toilet purposes.

Educated unoccupied women have been appealed to for many months for work on the land. The thousands that responded to the call have had to cope with their own toil and the toil of the thousands who have turned deaf ears. In theatres, picture palaces, and other places of entertainment appeals are thrown on the curtains urging unoccupied women to train and qualify for the ever-growing need of nurses for the wounded. Thousands of unoccupied women have responded; thousands still look on the illuminated words on those screens as if they were an irrelevant interlude in life's main business of keeping oneself amused. After the war, when the historians look their study desks, clear a space for chair and desk among their pyramids of notes and records, and start upon odysseys that would make Homer faint-hearted, their chapters upon "Women in the War" will need golden pages for the story of the V. A. D. nurses. Do unoccupied women who are still sitting idle know even the skeleton story of what the V. A. D. nurses are doing? Do they know that because they are sitting idle they are neglecting the young girls who are still standing out took up their share

BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Cleanses the Little Liver and Bowels and They Get Well Quick

When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When your child is listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of California Syrup of Figs, and in a few hours all the clogged-up constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Until recent years it was a just reproach against women that they never stood by each other as men stand by each other. Among them was little sex comradeship, little sex loyalty. All that has changed, and wonderfully altered. The accusation does not hold today. Something greater than suffrage, something that has given the woman a place in the sun, a comradeship that will largely solve the new world of steel, between woman and woman, and burden of these days of destiny are holding out hands of appeal to the women who still do not realize that compulsory service will come and they will be "fetched."

being "splendid" I did not ask her; it was more interesting to hear her comments on the women who still do not realize.

The women who do not realize would only realize there would be no more overwork of the women who are working. In the early days of the war there was a tremendous impetus and activity among women. "Leagues" and "committees" and "sub-committees" arose in every district in bewildering legion. The citizen's home was invaded. The women who actually became labor and necessities of the country, are giving themselves the best time of their lives in "giving the boys a good time" of them are the unoccupied, educated women who are still idle in the homes of well-off parents; of them are the multitude of aimless single women who had all kinds of boarding houses all over the country.

Many people when they contract a cold do not pay any attention to it, thinking perhaps it will pass away in a day or two. This is a mistake, for, for they know it, it has settled on the fact that on the first sign of a cough or runny nose, it is better to get rid of it immediately. It may cause years of suffering from some serious lung trouble. Mr. A. George, 30 Bloor's Place, Toronto, Ont., writes: "Having greatly benefited from your remedy, Dr. Wood's Norway Pine Syrup, I take the liberty to write you a few words about the effect of that wonderful syrup. I had a severe cold followed by a spasmodic cough and pain in my chest. I was treated by many doctors, but without any benefit. I also took many proprietary medicines which all failed to cure my ailment. I then took Dr. Wood's Norway Pine Syrup, and after using three bottles I was completely cured. I can recommend it to anyone as a God-sent remedy." "Dr. Wood's" is put up in a yellow wrapper, three pine trees, the trade mark, price 25c. and 50c. Manufactured for the past twenty-five years by The T. Millburn Co., Limited, Toronto, Ont.

High Blood Pressure

When your case becomes complicated and medicines fail, the doctor makes a test of the blood pressure, fearing that there may be something wrong with the condition of the kidneys and the action of the heart. He realizes that when the kidneys fail to filter the poisons from the blood that there will be a hardening of the arteries, and when the pressure of blood comes on they will snap like so much deteriorated rubber-tubing—the result is a clot of blood on the brain, hemorrhage in the heart, or wherever the weak point may be. But why allow this condition to be reached when you can so readily regulate the action of the liver and kidneys by using Dr. Chase's Kidney-Liver Pills. Troubles of this nature have their beginning when, from over-eating or lack of exercise, the liver goes wrong, and throws an undue burden on the kidneys. Headaches, biliousness, constipation and indigestion give due warning, and by the timely use of Dr. Chase's Kidney-Liver Pills there need be no further trouble. The liver is awakened to action, the bowels regulated, and the kidneys strengthened in their all-important work by purifying the blood and thereby preventing pain and serious disease. This is the greatest of family medicines, because of the host of ills that are relieved and prevented by keeping the liver, kidneys and bowels healthy and active. One pill a dose, 25 cents a box. All dealers, or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappointing. 538

Doctor Says Crying Need Of The Woman Of Today Is More Iron in Her Blood

TO PUT STRENGTH IN HER NERVES AND COLOR IN HER CHEEKS

Any Woman Who Tires Easily, is Nervous or Irritable, or Looks Pale, Haggard and Worn Should Have Her Blood Examined for Iron Deficiency.

Administration of Nuxated Iron in Clinical Tests Gives Most Astonishing Youthful Strength and Makes Women Look Years Younger

"There can be no health, beautiful, out of it, and as a consequence you become weak, pale and sickly looking. Just as you would use Nuxated Iron widely in my own practice in most severe aggravated conditions with unfavorable results, I have had many other physicians to the consequences of iron deficiency in the following test: See how long you can walk or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Many an athlete and prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena; while many another has gone down in ignominious defeat simply for the lack of iron." Dr. Howard James, late of the United States Health Service, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ill-physical weakness, nervous irritability, indigestion, flabby, sagging muscles, etc., etc.—and in consequence of their weakened, run-down condition they are so liable to contract serious and even fatal diseases, that I deem it my duty to advise all such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy." NOTE—Nuxated Iron, which as prescribed recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists of all strength builders. It is widely prescribed by eminent physicians both in Europe and America. Unlike the older iron-organic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers of this product have the confidence of iron that offer to forfeit \$100,000 to take any man or woman under 60 who lacks iron, and increase their strength 200 per cent. or over in four weeks time. They provide them with no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days time. It is dispensed in this city by Wasson's Drug Store, and by all good druggists.

Stops that Pain in the Back

Pain in the back is one of the most common symptoms of kidney trouble. Every movement becomes a torture, and if neglected, the disorder finally confines the sufferer to bed. This is exactly what happened in the case of Mr. Arnold McAaskell, of Hants County, Nova Scotia. He sought vainly for relief until he decided to try

GinPills FOR THE KIDNEYS Before he had used one box he began to feel better. Two boxes entirely relieved him. And best of all up to the time he wrote us, he had had no further sign of the trouble. Mr. McAaskell concludes his letter of gratitude by saying: "I cannot say too much in favor of these great pills and would recommend them to anyone suffering from kidney trouble."

Kidney or bladder trouble may also take the form of swollen joints, rheumatism, lameness, or constant headaches. Don't neglect these symptoms. GinPills will cure them and escape worse ills. The Non cathartic Nature cure for Constipation

Helps the System to Cure Itself. You cannot cure constipation by violent methods. Violence is never effective against nature. That is why the use of morning salts and purgative pills so easily become a habit. These things do not cure the trouble; they only force matters, and in so doing weaken the bowels till natural action becomes impossible, and you have to go on taking year pills or salts indefinitely. Compare Dr. Cassell's Instant Relief. This great tonic laxative helps nature by strengthening the bowels, natural action is restored and a cure effected which is real and lasting.

Dr. CHAS. F. FORBES, D.Sc., F.R.C.M.S., a well-known British Scientist, writes: "Never saw Salts or Purgatives for constipation— to force Bowel action is to aggravate the trouble and create the Constipation habit. I recommend as a superior and convenient treatment Dr. Cassell's Instant Relief." Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, spots before the eyes, flatulence and wind, indigestion, acidity, nervousness, and all the ailments arising from indigestion which is a sure indication of liver troubles. The War News in Last Night's Cables

London, March 30.—British troops have captured the villages of Royalcourt, Sorel-Le-Grand and Pins, between Bertincourt and Rodel, on the front in France, according to the official statement from British headquarters issued tonight.

A German attack upon British positions south of Neuville-Bourjoval, it is added, was driven off with loss.

At the same time a German retirement on both sides of the Peronne-Fins road because of strong British pressure is announced by Berlin. Two of the villages, captured by the British, Pins and Sorel-Le-Grand, are on this road, while the other Royalcourt, is three miles to the north and eight miles west of Bapume.

Field Marshal Haig's men, London says, after hard fighting, have also gained ground west of Sorel-Le-Grand, in the direction of Heudicourt, and toward the railroad running south from Marcin. A German attack against the British positions south of Neuville-Bourjoval, between Royalcourt and Pins, is reported by London to have been checked with loss.

German lines east of Neuville St. Vaast were entered this morning by the British troops, who inflicted casualties and took prisoners. The text of the official statement reads:

"We have occupied the villages of Royalcourt, Sorel-Le-Grand and Pins and, toward the railroad running south from Marcin, in the neighborhood of Heudicourt, where we took a few prisoners. Early this morning a hostile attack upon our positions south of Neuville-Bourjoval was driven off with loss.

"We entered the enemy's lines last night at two points east of Neuville-St. Vaast, inflicting casualties and secured prisoners.

"The artillery was active on both sides at a number of points during the day. East of Vermelles our artillery obtained several hits on a German train."

London, March 30.—In answer to questions from the representatives of the Associated Press concerning German submarine activities Sir Edward Carson, first lord of the admiralty said:

"German statements are exaggerated but no one suggests that submarine warfare does not cause very serious damage, both to neutrals and belligerents. The losses do not, however, exceed the estimates on which we have based our policy, and after the most careful consideration it is abundantly clear that German hopes of starving us out are quite illusory. So far neutral countries have suffered more from German methods than have belligerents."

Amsterdam, via London, March 31.—"During the night of March 28-29, part of our naval forces cruised in the barred zone off the south coast of England," says an official statement received here from Berlin. "Beyond the armed English steamer Mascotte, which encountered eight miles east of Lowestoft and sunk by artillery fire, neither the enemy fighting forces nor merchant shipping was sighted. Seven men of the Mascotte's crew were made prisoners."

New York, March 30.—The Associated Press carries the following despatch without a date line:

An armed vessel, believed to be the converted German raider St. Theodore, was sighted in mid-ocean three days ago by the American freight steamer Mongolia, which today arrived at an American port.

It was not the St. Theodore, the Mongolia's officers were certain the vessel was a German raider, both because of her actions and because her wireless operators talked in German.

The Mongolia encountered the raider on March 27, 1,000 miles east of Sandy Hook, the officers said. The raider approached within a half mile of the American freighter, and then turned and made away without signaling, but her wireless was crackling out messages in German to some unknown vessel.

Rio Janeiro, March 30.—The French bark Camborne has arrived here with 200 men of the crew of various steamers and sailing ships sunk by a German raider off the island of Trinidad.

They reported that many sailors from the sunken vessels were drowned.

New York, March 30.—A news agency despatch is published here today as follows:

With the British Armies in the Field, March 30.—British officers saw signs behind the German lines today that the Teutons were uncertain of their ability to hold their new defensive positions.

This belief was based on reports of numerous fires, series of explosions and preparations reported in progress by the Germans for flooding operations of the same character as those adopted in their retreat to the "Hindenburg line." More-

over, French civilians left behind by the waves of retreating Germans reported an increasing dissatisfaction spreading among the German soldiers themselves. Before leaving, many citizens said, the soldiers revealed to them a situation in Germany somewhat akin to that which preceded the Russian revolution. The soldiers expressed general dissatisfaction with the state of affairs at home. They said they were treated like dogs in the army, while their folks at home were regarded as "mere cattle." French inhabitants declared an old repeated phrase they heard from the German soldiers was that "When the war is over those who are responsible will have to suffer."

A new German plan for raising money was revealed at Jaccourt. The French were worth, and, on being told, promptly issued notes for this full amount, forcing the French civil officers of the town to sign these obligations. A number of other villages reported they were victims of the same plan.

London, March 30.—The Right Hon. William Hayes Fisher, parliamentary secretary to the local government board, in an address at Hall's Cattery said that was not an exaggeration to say that the country was in deadly peril at the present moment.

"We must have national service for everybody," said Mr. Fisher. "We must not intend to stand more than three years of war. Germany's idea was to starve us out before we could knock her out. What we want is to knock the enemy out this year, and we are beginning to do it."

MR. REID GIVES UP SECRETARY'S POST IN R. M. ASSOCIATION

A meeting of the New Brunswick executive and advisory board of the Retail Merchants' Association of Canada was held last evening in the board room, 124 Prince William street, President A. G. Skinner in the chair. The following members were present: F. W. Daniel, Allan A. McIntyre, Robert Reid, Wm. Hawker and Jas. S. McGivern.

Reports were read regarding the financial standing of the association. A convention held in the city two weeks ago; also business deferred from the convention was considered, viz., the dominion-wide securing of legislation for the saving of daylight and that the matter be forwarded to the dominion office of the association at Ottawa, legislation for the collection of small debts to be passed over to the legislation committee of this association.

Allan McIntyre, provincial treasurer, submitted the financial statement to date.

The secretary was instructed to convey the thanks of the provincial executive to the newspapers for the generous reporting of the convention. Also Dr. Percival Bonnell, F. J. Punter, the 196 "Canadian Buffs" quartette, and F. C. Cochran and Thos. Drummond and the committee for their energetic work regarding the banquet.

The secretary, Robert Reid, gave a report of his work and stated that having received the appointment, uncollected, as provincial manager of the Northern Life Assurance Company of London, Ontario, to take effect April 1, he asked that his resignation, tendered to the provincial president in February, be formally accepted by the provincial executive.

On motion, his resignation was accepted and all expressed their regrets in losing his valuable services as secretary. They highly commended his work since taking office. Mr. Reid was made a member of the provincial advisory board as he intends being a member of the association in the future.

Miss F. P. Alward was appointed acting secretary. It was decided to appoint a successor to Mr. Reid for the time being as the dominion board is sending an organizer to go over the province at once in the interest of the association.

The following were appointed as a provincial advisory board: Wm. Hawker, H. W. Blain, Jas. S. McGivern, Robert Reid, J. H. Vaughan and Thos. Drummond.

WANTS \$1,000 DAMAGES FOR SPRAWLING IN GLUE. Boston, March 30.—Wong Yea Sue, 68 Beach street, is suing Amory Elio, owner of the Board of Trade building for \$1,000 damages for injuries caused by slipping on glue in the defendant's building, Dec. 8, 1914. The case went to trial yesterday before Judge Bennett in the municipal court.

The plaintiff claimed he went to the building to pay customs dues, and in descending the stairs on his way out he fell and broke his wrist and injured his hips. A boy employed by a stationery concern dropped a bottle of glue on the stairs on which the plaintiff slipped. The plaintiff also sues that company. He testified he was glue all over. The mudglue was even under his shoes. He went home in a taxi cab and was laid up two weeks in bed. He paid \$30 to a doctor, lost his salary of \$75 a week as manager of an important concern and \$30 as agent of a steamship line.

Wesley Conroy, colored, formerly employed by Thorpe & Martin, testified about the bottle of mudglue breaking on him and spilling over the floor.

FRNCH GOVERNMENT GRANT TO RESTORE RE-CAPTURED LAND. Paris, March 30.—The government introduced in the chamber of deputies a supplementary bill for 200,000,000 francs. The money is to be used for agricultural aid to the invaded districts, including those recently evacuated by the Germans.

WAR CONDITIONS IN MOTHERLAND

Inspiring Address Given by Mrs. McLaren Brown in the Opera House

That London is one vast hospital, with all disturbing noises made an offense against law and order after 8 o'clock at night, was a statement made by Mrs. McLaren Brown, wife of the manager in England for the C. P. R., during an address given in the St. John Opera House last night.

The talk, which dealt with the work of the Canadian Red Cross Society and the needs of the Canadian soldiers who, despite the herculean efforts of the women here in the dominion, are by no means fully supplied with the comforts they need in the trenches.

Mrs. McLaren Brown is a strong, forceful speaker. She has every quality of a natural orator; rather emotional at times, she carried her audience with her through the streets of London to the supply depots of the association which, despite the donations from this side of the water, were obliged to spend \$80,000 for field comforts for the Canadian soldiers. Mrs. G. A. Kubring, president of the Women's Canadian Club, presided.

Mrs. McLaren Brown was the only one seated on the stage, which was decorated with the flags of the Allies and cut flowers.

Before the speaker was introduced, Mrs. Kubring asked that a resolution be presented by Mrs. H. A. Powell. Mrs. Powell accordingly read an order extending sympathy to Her Royal Highness Princess Patricia on the death of her mother, the Duchess of Connaught. This was unanimously passed.

strained awaiting news of the front. There is no hint of a call on this side, of Zeppelin raids; there are no light fires or a penetrating from your windows, and no poking around dark streets at night.

The people over there are going to be hungry; there is no question about it. I paid 2 cents a pound for food. I want to forget what I paid for fish; onions are a luxury and the use of white flour has been forbidden until after the war.

"London is one vast hospital. No cries are heard, no whistles are blown, no clock strike in that great city after 8 o'clock on account of the wounded. They have ceased to realize all that Great Britain has suffered.

"Ethically in Great Britain before the war individualism had run wild. Politically the country was bewildered.

"On this untried, cynical people fell the curse of war. But the people faced the issue like true men and women, and after the war they will once again find firm ground under their feet.

"When I think of all this war has done I would go out and raise a statue to the Kaiser. He meant our destruction. He has caused our salvation."

In closing, the speaker said that the goods sent from Canada are less than 37 per cent of the amounts sent by the C. W. C. A. into the trenches. The rest, she said, were bought on the other side.

She then gave some very interesting figures, showing the hundreds of thousands of articles that are shipped every week. In closing, she urged greater effort on the part of every woman to be inter-upted by Mrs. McLaren Brown, the man and boys who are giving of their lives for Canada and the world.

At the conclusion of the address, several ladies asked questions concerning the work of the C. W. C. A. and expressed their appreciation of the splendid address. Mrs. Kubring, on behalf of the club, thanked Mrs. McLaren Brown. It was after 6 o'clock when the meeting closed.

"Can you hear it? I tell you something serious!" ventured the young housewife.

"Yes, don't keep anything from me," gasped the bride.

"Well, my dear, I'm getting tired of angel food every day for dinner. Would it be too much to ask you to have liver and onions?"

"Hurray! How's This Cincinnati authority says corns dry up and lift out with fingers."

Hospital records show that every time you corns appear, you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a certain ounce of a drug called freezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

GIRLS! TRY IT! HAVE THICK, WAVY BEAUTIFUL HAIR

Every particle of dandruff disappears and hair stops coming out.

Draw a moist cloth through hair and double its beauty at once.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse."

Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—but really new hair growing all over the scalp.

If you care for a pretty, soft hair and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

Save your hair! Beautiful! You will say this was the best 25 cents you ever spent.

MAN WHO GAVE THE TENDERLOIN ITS NAME

Death of Noted New York Police Officer—Was a Nova Scotian

New York, March 31.—Alexander Scott Williams, one time police inspector, is dead here in his 75th year. While on the police force he proved a terror to all lawbreakers, as he was a firm believer in the efficacy of the club as a preventive and corrective of evil. After he was made an inspector, in August, 1897, he said: "There is more law in the business end of a night stick than in a decision of the supreme court."

1889, Mr. Williams was a boy when he came to New York. He became an apprentice to a ship carpenter. While still a young man he was made superintendent of the shipyard of W. H. Webb & Co. in this city. Afterwards he became a master mechanic, and made a voyage around the world, touching at Mexico and Japan. While in the latter country he built a vessel for native officials. On his return to the United States Mr. Williams was engaged by the naval authorities to raise a sunken vessel off the reefs at Key West, Fla. He was successful in his undertaking and was rewarded with a good post at the New York navy yard.

THE ONWARD MARCH OF WOMAN SUFFRAGE

(Halifax Chronicle.) The Bill to amend The Nova Scotia Franchise Act, which places women on exactly the same footing as men, with regard to the exercise of the suffrage, passed its second reading in the House of Assembly yesterday afternoon without a dissenting voice. The bill, in short, provides that the qualifications which entitle a man to vote at the present time shall apply precisely the same to the women. At the present time women are entitled, upon property qualifications, to vote in civic, town and municipal elections. This bill extends by one stroke the suffrage to them for the election of members of the House of Assembly.

Commons for a definite termination, the boundaries of freedom; and if the members of the government and of the legislature are loyal to the principle of true Nova Scotia will deal with this question seriously, recognizing that it is a reform into law at the present season, just as which we owe not merely to women but to the whole citizenship of the country, activities of life, so old prejudices, it and that the splendid example which has my still remain, should be forever discarded. The onward sweep of democracy is the brightest hope of a war-racked world.

JAMES F. WINSTON WRITES OF BAPTIE, SPEED SKATER

(By James F. Winston, physical director, Y.M.C.A.)

As ice skating all over the world has taken on a big boom in the last season and particularly in St. John, we thought about skating and one skater in particular will not be amiss.

This individual, Baptie, is the world's professional skater. Baptie has issued a challenge recently to any skater in the world, under any condition, for any amount.

He says that he means this challenge seriously, and that he will accept it if a European will not accept he would be glad to hear from Ed Lamey, Bobby McLean or Morris Wood, who are, in his estimation, the best skaters in this country.

Baptie is a most unusual athlete. He has been racing for the last twenty-seven years. "I am better today than ever," he says, just as all old timers do.

"I take the best care of myself, neither smoke nor drink, and am always in good condition. I haven't had a real challenge race for years. All the others are afraid of me, I tell you. This chap Mathison, I'll skate him a real challenge race for years, but he is a good all-around skater, and he is as good as ever this season, defeating a lot of the youngsters."

At local races he is a good all-around skater, and he is as good as ever this season, defeating a lot of the youngsters.

Case Bretón Boy Wins

The Providence Journal says: The semi-final of eight rounds, with Dan McDonald, of Waukegan, on one end of the argument, and Young Dundee of Federal Hall, on the other, was productive of the fireworks that are always seen when they crash. The Waukegan lad won the decision in decisive fashion, and didn't need the clean knockout score in the opening inning to aid him.

There was clean action all the way, with McDonald landing cleaner blows and scoring often. In the first canto he shot a severe left to the power of the Italian, which was up in a jiffy. Several times during the fracas McDonald staggered Dundee with heavy wallops, but was never able to put him down again. Dundee fought hard, trying every second, but was not cleaned.

The Gloucester Bay Gazette says McDonald is a son of Neil J. McDonald of Hedgesport, C.B.

"Speed Demons" to Join Aviators.

Los Angeles, Cal., March 29.—Five of fifteen automobile racers, well known by De Lloyd Thompson, well known aviator, to join a proposed military unit, to be known as the "Aerobics," and to serve the government in case of war, have accepted, according to a statement here by Thompson.

"Eddie Hickenbacher, Earl Cooper, Joe Thomas, George Hill and Eddie Pullen have told me they would join," Thompson said. "Most of the drivers I have invited to join have made flights with me and are fearless and capable mechanics."

Cordele, Ga., March 28.—After being delayed by a wreck, the Yankees and Braves battled late this afternoon and managed to squeeze a six-inning game, part of which was played after dark.

The Braves won by producing left-handed pitcher, who was 3 to 0, and although Caldwell and Nehf the left-handers pitched well the Bostonian had the help of better support and the timely batting of the large Mr. Knott.

The game was a close one, and the Yankees, after being hit for a considerable time, the teams were transferred from one train to another. For a while they were scrambling all over the ties and Georgia were in a game all night long.

In this, the first scrap with an outside force, the Yankees suffered from lack of practice. They had not been in action for five days and were not keyed up.

The Braves had been rain-bound also, but not so long, and were more on their toes than the American Leaguers.

The batting was thin on both sides, but in one inning Knott hit over the left field fence for a homer, Kelly got a scratch hit, Gowdy swatted safely on a hit and run maneuver, and Nunnemaker failed to throw accurately in an attempt to block a double steal.

Knott batted in the third hostile run, but his hit would have been useless had he not been followed by Kelly.

Braves to one run with perfect support, such as Nehf received, but he was not quite as steady as the left-hander.

Both pitchers had a lot of "stuffs" on the ball, and, in addition, had the help of the waiting light. Nehf was effective with men on bases, but in the fifth inning when he wobbled a fine catch in deep center by Collins saved him. Pipp lammed to the centre field corner with two men on bases, and Collins scooted back and plucked the ball out of the twilight.

Lee Magee and Peck bunched hits on Nehf in the fourth inning, but there were two out at the time. If Pipp, first man up in this inning, had not allowed himself to be caught napping by Gowdy, the hits of Magee and Peck would have produced some scoring.

The Yankees were captured by Baker today, but he was filling that position merely in pro tem capacity.

RICH WIDOW ROBBED OF \$35,000 IN GEMS

Hand Bag To Acquaintance To Hold While She Tries On Gown

Thief Posed as a Doctor - Won Woman's Confidence by Showing Interest in Her Newly Acquired Business Interests

New York, March 31.—Mrs. Mary Strangmann, a rich widow of Buffalo, sued longly at one portrait after another in the Rogues' Gallery yesterday afternoon in vain hope of seeing "Dr. Carl Edwards, German physician and college professor," who, she says, fled from Lord & Taylor's store on March 10 with her handbag containing jewels worth \$35,000 and \$500 in cash which she gave him to hold, while she tied on a gown.

in getting to work was due to Mrs. Strangmann's reluctance to make public her loss and her consequent effort to find the jewels and the German through private detectives who have been looking for him in a number of large cities. Mrs. Strangmann's acquaintance with the well-tailored and rather handsome young German dates, she explained, from a little after the time she became possessed of valuable brewery properties upon the death of her husband, Carl A. Strangmann. Among the holdings which passed to her ownership upon the probate of her husband's will about a year ago was the German-American Brewery of Buffalo, which owns several large plants.

Edwards appeared in Buffalo soon after. Suave, plausible, and seemingly prosperous, he posed as a millionaire interested in brewery properties and opened up negotiations for some of those owned by the widow. While these negotiations were proceeding in desultory fashion, Mrs. Strangmann said, the supposed buyer, who was about 35 years old, appeared from time to time at social gatherings to which she was invited though at the same time she did not suspect that he was cultivating her acquaintance for any ulterior purpose. She said at one time the man suggested marriage and that though she refused him, they remained on amicable terms. Once Mrs. Strangmann showed "Edwards" a photograph of herself which displayed her wearing the now missing jewelry—a pearl necklace that was a wedding present from her husband,

EXPERIMENTS WITH FLAX FOR FIBRE AT OTTAWA

(Experimental Farms Note) During the year 1915 plots of flax were grown at the Central Experimental farm, Ottawa. The seed was obtained from Holland. The samples were pulled at various stages of ripeness, retted under water and afterwards scutched by the Ontario Flax Co., Ltd. They were valued by an expert of the York St. Flax Spinning Co., Belfast, Ireland, but in no case could any of the samples be pronounced first class.

of 96 per cent, it was necessary to sow a somewhat larger quantity than two bushels of the latter—as a matter of fact 2 1/2 bushels. In some cases the average height of the seven plots first sown was 80 1/4 inches and the average of the last seven was twenty-nine inches.

I believe I am blind!"

"I am sure I don't know. But don't you see the light?" "I see no more than you, but we must find the lamp. I hope you did not put it where it can set fire to something." She got up and found the lamp, which had already begun to char the upper shelf.

NO REFORM OF PRUSSIAN FRANCHISE AT PRESENT SAYS IMPERIAL CHANCELLOR

London, March 30.—Reuter's Amsterdam correspondent says that Dr. Von Bethmann-Hollweg in his address to the Reichstag yesterday referred to the events on the battle fronts and especially the western front where, he said, things had been accomplished for which warm thanks were due to the brave troops.

Refrerring to domestic affairs the chancellor said the day's speeches had not convinced him that a reform of the Prussian franchise could be begun now. It would be a very serious matter to decide such a question while millions of men were in the trenches. The chancellor concluded by expressing confidence that the unity of the German people, who were without differences, would make them invincible.

The seed used in 1916 was harvested from some of the plots sown with Dutch seed in 1915. The rate of sowing per acre varied between 1 1/2 bushels and 2 1/2 bushels of seed germinating 100 per cent. This means that where it was decided to sow two bushels an acre of seed with a germination of 100 per cent, and the sample of seed available gave, when tested, a germination

of 96 per cent, it was necessary to sow a somewhat larger quantity than two bushels of the latter—as a matter of fact 2 1/2 bushels. In some cases the average height of the seven plots first sown was 80 1/4 inches and the average of the last seven was twenty-nine inches.
