As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornebeck, "do you believe in ghosts?" "I never seen one," said Hiram, "but I've known some people that was 'willing' to swear they'd seen one—'an' it scart 'em most to death—yes, sir."

"Well," said the reporter, "there is an apparently well authenticated report that a ghost has appeared at Ottawa."

"You don't say!" said Hiram. "Who is it? Old Sir John—or Sir Wilfrid—or Blake—or w'at?"

"A ghost from St. John," replied the reporter. "The ghost of harbor commission. Whenever anyone in authority is in the need of new wharves at St. John, this awful apparition rises before him and he takes to his heels."

"That's too bad," said Hiram. "I didn't s'pose any of 'em fellers up there believed in ghosts."

"I've heard," said Hiram, "that some people could conjure up ghosts. If a minister at Ottawa didn't want to be bothered, maybe he could call up this harbor commission ghost to scare everybody away."

Chief of Police Smith Reviews Work of Year

Excellent Report With Some Recommendations

Runabout for Detective Department is Asked for — Chief's Opinion on Effect of Prohibition Law on Arrests for Drunkenness.

The annual report for the year ended Dec. 31, 1919, being the first from Chief of Police J. J. Smith, was submitted to John Thornton, commissioner of public safety, today. The total strength on the force is shown as fifty-two, including the detective department and police liaison.

The total number of arrests was 1,587, including 851 for drunkenness, 114 for stealing and fifty-six for breaking and entering. The report of the detective department shows satisfactory work done during the last year, there being \$86,916.25 worth of goods reported lost or stolen and \$88,924.00 worth recovered, only \$3,188.50 not recovered.

The department also investigated 466 non-criminal cases, made 211 arrests in criminal cases (not including arrests for drunkenness) and assisted the liquor inspectors in twenty raids. This report is getting twenty-two court convictions in the various cases. This report is taken to reflect much credit upon the detective department.

The offences for which persons were summoned to court to answer totalled 397, seventy-five of these being for the violation of motor laws and eighty-four for the violation of city by-laws.

Among the persons arrested nearly every country in the world was represented, persons from Nova Scotia and the United States were in the greatest number outside of the province of New Brunswick, which was represented by 687. The total number of all nationalities arrested amounted to 1,372.

The greater number arrested were between the ages of twenty and thirty-four. Between the ages of thirty and thirty-nine, 337 were arrested, and 119 between the ages of fifteen and twenty. The number of those arrested without warrant totalled 1,020, sixty-three males and fifteen females were taken in for protection.

The number of juveniles arrested amounted to 114, including forty-two for stealing, nineteen for breaking and entering and eleven for truancy. At the age of sixteen nineteen boys and four girls were arrested, while at the other ages the number varied.

There were 287 ambulance calls made, 236 buildings found unoccupied and secured, doctors called to police station fifty-six times, twenty-nine dangerous holes and defective sidewalks repaired, seventy-four fire alarms given, twenty-five disturbances quelled, thirty-eight children found and returned home, twenty accidents and twenty automobile collisions reported, ninety-five articles found in the streets.

W. T. PERKINS DEAD

(Special to Times.) Boston, Jan. 15.—Winlow T. Perkins, thirty years connected with the Old Eastern Railroad, and later division superintendent of the Boston and Maine, died this morning at his home in Malden. He was particularly well known to former officials of the International and New Brunswick railroads. He retired from active duty ten years ago on account of ill health, but subject to recall. He was born in Tamworth, N. H., in 1881, and a few years in Minneapolis, then returned east and began his railroad career as agent of the Portsmouth and Dover road at Dover in 1914.

He was appointed superintendent of the Eastern Division of the Boston and Maine on July 1, 1910. During his long term in office he served under eleven presidents and six general managers and two general superintendents. On of his two sons, George W. is on the staff of the Boston Globe.

GRAVE CHARGES AGAINST MEXICO

Cruelty, Unredressed Murders and Property Destruction

TESTIMONY GIVEN AT SAN ANTONIO SUPPORTS STATEMENTS MADE IN WASHINGTON — TRICKERY IN WALLACE CASE ALLEGED.

San Antonio, Jan. 15.—Stories of terrible cruelty, unredressed murders and devastation of properties were given to the senate sub-committee investigating the Mexican situation yesterday by men in close touch with conditions in Mexico.

T. M. McDee, a cattleman from a border town, James Britt, a lawyer from Tampico, and George E. Blatlock, once the head of what was the largest colony of American farmers in Mexico, and now opening a small grocery store here, were the witnesses. The effect of their testimony was to strengthen the contention of witnesses heard in Washington that the insecurity of American people and property in Mexico is growing greater.

liquor must be moved to the private residence of the owner not later than Jan. 17.

There is one alternative left open to persons who are unable to move the liquor from storage to their homes by Friday next, and that carries but little consolation. Until Jan. 27 permits may be obtained to sell the liquor which remains in storage after Jan. 17 for non-beverage purposes.

The problem of the man with a small apartment and a large stock of liquor in a storage warehouse, presents a situation which has both its humorous and pathetic side, according to the viewpoint taken. At any rate, the regulations issued by Commissioner Hooper are final, and the government intends to declare warehouses in which the liquor is found, public nuisances, and to seize the liquor if the regulations are violated.

The term "liquor" in this instance covers beers and wines as well as the beverages containing a higher percentage of alcohol. The regulations do not apply, of course, to government bonded warehouses, over which the government has supervision. Seizures are to begin Feb. 1.

Here is the summary of the regulations as issued by the bureau of internal revenue:

"Persons having in storage warehouses, safe deposit vaults, and other places, legally acquired intoxicating liquors for beverage purposes, must remove such liquors to their private dwellings on or before Jan. 17, 1920, under a ruling issued by the bureau of internal revenue."

"Legally acquired liquor," is liquor bought prior to July 1, 1919.

"If liquors are found in storage warehouses or other places except private dwellings and government bonded warehouses after Feb. 1, 1920, and report of their possession has not been made to the bureau of internal revenue, such liquor will be subject to seizure and the places where they were stored may be declared a public and common nuisance."

"Proprietors of storage places where liquor is held subject to the orders of owners are required to make report of such liquor on or before Jan. 17, 1920. Failure of the owner to report it, nevertheless, will subject such liquor to seizure."

MOVIE MEN HIDE IN LOAD OF HAY TO FILM WILSON; FOILED.

Washington, Jan. 15.—Attempts of motion picture camera men to obtain photographs of President Wilson by using the method which resulted in pictures of the ex-Kaiser in his garden at Amerongen reaching the world were frustrated by White House secret service officers.

The camera men concealed themselves in a wagon load of hay, which was driven slowly by the White House while the president was on the lawn on his wheel chair. Before they could get their cameras into action, however, the secret service men stopped the wagon and investigated.

After the photographers had convinced the officers that they had not had time to make pictures they were allowed to go.

QUIT SMOKING, SAYS BISHOP

Declares Men of Canada Should Do So to Prevent Women Taking Up Habit.

Toronto, Jan. 15.—Bishop Reeve told an audience of 500 returned soldiers in the parish hall of St. Anne's church last night that the men of Canada might well give up smoking as an example to the women of the country.

"I have nothing to say against smoking," he said, "but what is going to become of this country when the women are beginning to smoke, as they are doing now, and when they dress as they are now doing at dances. You will have to give up smoking if you don't want your girls smoking, also your wives. The men will have to give up smoking in self-denial to set an example to the women."

The majority of the men present were smoking at the time the bishop was addressing them. They listened to him in respectful silence.

The Sugar Workers' Union met last evening with John Morrissey presiding and the meeting was adjourned to Sunday afternoon. Matters of interest were discussed.

ST. JOHN'S GREATEST MERCANTILE EVENT

Today Marks Beginning of Oak Hall's 31st Anniversary Sale—Great Throngs Prepared For.

The day has finally arrived for the beginning of Oak Hall's Annual Mid-winter Sale, marking their thirty first anniversary, an event now recognized as St. John's Greatest Mercantile Event.

No stone has been left unturned by Oak Hall to make this anniversary sale a greater success than any of its predecessors, and Oak Hall is confident of this result because of its adopted motto of Large Volume of Business at a Very Minimum of Profit, whereby they are enabled to sell at unusually low prices because of the enormous turnover.

In spite of the scarcity of good merchandise Oak Hall is continuing their policy of marking everything in their store at substantially reduced prices, along with many new lines that have been bought especially for this great event.

When people realize that next season's merchandise is costing, in many instances, more than the same goods are now marked, they will not hesitate to take full advantage of the unusual money-saving opportunities now offered.

LONDON'S NEW TUBE DEVICE

As a Train Nears a Station, Name Appears on Car Ceilings.

To relieve congestion and aid passengers by making it possible for them to see what station they are approaching a new plan for announcing or indicating stations on the street and underground railway lines in London has been worked out. The London Metropolitan Railroad has arranged to put into operation on its lines an electrical device by means of which stations are indicated in each passenger car. The indicating system is operated by

illuminating sections of the ceiling of each compartment. These illuminated sections are arranged in panels and each panel bears the name of a station. As the train approaches a station the panel bearing the name of that station becomes brilliantly illuminated and remains so until the station is reached. When that point is left the panel indicating the next station is illuminated. Before starting the journey the motor-man arranges a set of switches governing this indicating device, but the rest of the action is automatic, the mechanism being operated by a small striker on the track between the stations. For the further convenience of passengers it is intended to show on each panel, in addition to the name of the station, a street map of a square mile of the district surrounding the station giving the chief shopping centres and places of amusement. This new indicating system will be put in operation first on the Great Northern tube railroad and will be gradually extended to other lines. If it proves a success on these lines it is planned to install the same system on part of the street car routes.

People Who Write, But Can't Read.

A witness in a case at Ashby-de-la-Zouch was found to be suffering from the strange affection called "dyslexia." Though able to write and spell perfectly, he could not read. This applied not only to printed matter, but even to what he had written himself.

There are several similar diseases, all of which are very peculiar.

In "aphasia" the patient is unable to explain his thoughts by means of speech. It is a most painful business, for the sufferer tries desperately to talk but never gets hold of one correct word. For instance, if he means to say: "How do you do?" he may say, as in an actual instance, "I throw me out of window."

Sometimes he can form sentences, sometimes the words he utters are a mere meaningless jumble. The worst of it is that he knows perfectly well what he wants to say. It is not as if he were off his head. The "lesion," or weakness, affects only one particular portion of the brain.

A third form is "agraphia," or the inability to write. The sufferer is very often a person who has done a deal of writing and the blow falls quite suddenly. He can read as well as ever, but when he puts pen to paper he cannot put a single letter, let alone a word or sentence.—Pearson's Weekly.

Mrs. Flambush—"So your husband went to church with you?" Mrs. Benborough—"Yes, he did." "What was the minister's sermon about?" "Charity toward all." "And did your husband derive any benefit from the discourse?" "Well, I'll say he did, for when the preacher asked him what he thought of the sermon my husband refrained from replying."—Yonkers Statesman.

UNION BANK REPORT INDICATES PROGRESS

Reveals Further Strengthening of Financial Position - Important Gain in Assets.

Revealing a twelve-month period of significant progress from the viewpoint of financial strength, liquid assets and profits, the annual report of the Union Bank of Canada covering the year ended November 30, 1919, will be accepted by the shareholders as one of the most impressive returns in the Bank's fifty-five years.

A notable feature of the report is the addition of \$1,000,000 to the Reserve Fund, whose total is brought up to \$5,000,000. The appropriation to the Reserve was made possible by the application of \$1,000,000 representing premium from the \$3,000,000 new capital stock and the allocation of \$218,830 from current profits.

The total deposits for the bank for the year are \$135,496,214, compared with \$127,242,098 a year ago. Interest-bearing deposits at \$84,376,709 show a very satisfactory increase of \$31,939,219, or 32.29 per cent.

During the year the Union Bank of Canada made striking progress in extending its ramifications abroad as well as further extending its banking accommodation throughout Canada.

HARBOR FACILITIES.

Matters relating to St. John harbor facilities are developing rapidly. A delegation has gone to the capital, to discuss the whole matter with the directors of the Canadian National Railways and the acting minister of public works.

Mr. Alexander Smith of Ottawa, in a letter which is heartily approved by the Toronto Globe, urges the formation of Liberal Clubs in all Canadian constituencies to discuss political principles, policies and platforms, weighing them calmly, free from the excitement of a political campaign.

Mr. Frederick A. Peters will be missed in business and social circles in St. John, and many people through the province, who have business relations with the firm of which he was a member, will learn with personal regret that he has passed away.

The need of a local director of vocational training is so obvious that the board will be justified in taking immediate action.

PROPORTIONAL REPRESENTATION.

The farmers are said to be in favor of proportional representation in Canadian Finance points out that if the system had been in force in Ontario the farmers would not now be in power.

Table with 2 columns: Candidates Elected, Votes. Lists Liberals, Conservatives, Farmers, Laborites, Independents with their respective vote counts.

From the above, Canadian Finance points out the average number of votes polled per candidate was 10,892. If the proportional representation method of elections had been in force the result of the election would have been approximately as follows:

Table with 2 columns: Candidates Elected, Votes. Lists Liberals, Conservatives, Farmers, Laborites, Independents with their respective vote counts.

That is to say, with proportional representation the farmers would have been behind both Conservatives and Liberals. Putting the case another way, Ontario is governed by a cabinet whose supporters represent about one-third of the electors.

AN AMAZING UTTERANCE.

As an argument against prohibition, the Rev. Dr. G. Campbell Morgan, pastor of Westminster Chapel, London, now visiting in Syracuse, N. Y., is reported to have said: "When a man stops drinking he begins to think." Most persons would regard it as quite the opposite of a calamity to have all men use their mental powers.

When James Gordon Bennett was in the forefront of American newspaper publishers Frank A. Munsey was an unknown youth. Today the latter is the owner of the Bennett publications.

Rippling Rhymes by Walt Mason. (Copyright by George Matthew Adams.)

ONE KIND OF THRIFT.

I earn six hundred bones a year, and have some fourteen aunts to feed; and now that everything is dear, it takes some figuring indeed, I'm thrifty, in the higher sense, although I play in evil luck; my income covers my expense, no man can say I owe a buck, my neighbor carries three hundred wheels while for six hundred wheels I grind; and doubtless, in his pride, he feels that I'm the selling plater kind.

CANADA—EAST AND WEST.

DOMINION HAPPENINGS OF OTHER DAYS.

THE FIRST ROYAL VISIT.

The visit of His Royal Highness the Prince of Wales, to Canada during September, October and November last, was but one of a line of royal visits that date back to the fall of 1817. Then it was that the first prince of the royal blood set foot upon the soil of the new world.

FOR THOU WERT I.

(The Rambler in Christian Guardian.) Every time the Rambler goes home for Christmas his picture as a three-year-old brings back the poem. It runs as follows: "What little face is this I see Pressed to the pane, and wistfully With tender eyes regarding me Out in the misty weather."

IN LIGHTER VEIN.

If He Pressed Them Properly. "Oh, well," said the "Foggy." "Clothes do not make the man!" "Don't you believe it," responded the Grouch. "Suits # made many a lawyer."—Cincinnati Enquirer.

APPLIED ANATOMY.

"The human anatomy is a wonderful bit of mechanism," observed the Sage. "Yes," agreed the Fool. "Pat a man on the back and you'll make his head swell."—Cincinnati Enquirer.

CONPARATIVE LUXURY.

"My dear, you have been fairly prosperous this year, I think you might give me a few dozen eggs as a Christmas present." "Can't afford it, darling. You will have to content yourself this year with just a diamond necklace."—Baltimore American.

THE WIDOW'S SPIRIT.

The Parson—Mrs. Smith seems very cross with me, don't you notice she almost cut me? The Friend—I'm not surprised! The Parson—But why? The Friend—Don't you remember when you were preaching her husband's funeral sermon you said he had gone to a better home?—London Pasting Show.

IT ISN'T EASY.

To apologize. To begin again. To admit error. To be unselfish. To face a sneer. To be considerate. To observe the law. To keep on trying. To profit by mistakes. To waste of time. To think and then act. To keep out of the rut. To make the best of it. To shoulder deserved blame. To subdue an ugly temper. To maintain a high standard. To recognize the silver lining. But it always pays you!

PUBLIC HEALTH EDUCATION.

The need of home teaching to aid in the combatting of preventable disease is demonstrated by the appalling statistics of mortality in the United States during the eighteen months that the country was actually at war. The men who died as a result of combat or wounds received in battle in that period was 70,000, while during the same space of time 450,000 children under five years of age died in this country from diseases usually considered as preventable in the majority of cases.

BOLSHEVIKI AND RELIGION.

(Terminus in Toronto Globe.) The raids in the United States on the "Reds" are a reminder of what now is only too evident in the Bolshevism of Russia, its attitude of bitter hostility and unspokeable cruelty to religion.

Testimony to the same effect comes from the quarter—parent quarter—respondent of the English Christian World, who formerly represented that "religion is like opium, it makes the people stupid, but undiminishes and ruins those who indulge in it." These are the official views of the present regime, and they are being carried out ruthlessly, tyrannically and with a cruelty almost too terrible to relate.

BOLSHEVIKI THREATEN INDIA.

(Toronto Globe.) India is threatened by the advance of Bolsheviki through Asia by two widely different routes. One route leads to the borders of Bokhara, which is less than 200 miles from the borders of Afghanistan, though separated from it by the Hindu-Kush mountains. Apparently they used the Trans-Caspian railway running through Astrakhan and Gurgut, 400 to 500 miles north of the Caspian Sea.

ALASKA BY AIRPLANE.

(U. S. Air Service.) Steps are being taken by training and operation group, air service, to ascertain the feasibility of an airplane route to Alaska. Three routes have been outlined. Data have been received from J. W. Tyrrell, the explorer of Canada; for many reasons the summer season of course, appear to be the most suitable time for attempting an aerial trip to Alaska or any district in the Arctic, but that might be carried in the summer season to obtain suitable landing places. The country from Edmonton to the north is mostly covered with timber, although there are some prairie sections along the Peace river and at a few other points, but for the most part areas which are not covered with timber are composed of fields of broken, jagged rocks, upon which it would be impossible for an air machine to land in safety.

BOTH SIDES ARE WISER.

(N. Y. Evening Post.) By formally admitting defeat, the leaders of the steel strike have simply recognized a state of facts that has existed since the second fortnight of the strike. The steel workers were not defeated, as their leaders now claim, by the "press, the courts, the federal troops, state police and many public officials."

EX-CROWN PRINCE'S AUTO.

(N. Y. Times.) The German ex-crown Prince's former passenger car is now for sale, according to an announcement made by the Dorland Advertising Agency. The car is a high-grade "Protos" automobile, 1918 model, torpedo-shaped body, in splendid condition and practically new. The price of the car is \$4,500.

BRITANNIC UNDERWRITERS Fire and Automobile Insurance F. LLOYD CAMPBELL 42 Princess St. 6-20. The aftermath of the great war is bound to be filled with incidents of tremendous interest and of tremendous consequences to humanity. One of these is the meaning of the prohibition on the race. But perhaps most important of all is the dealing of man with man, in the markets of the world, and in the labor market in particular, for it is here that the passions of humanity clash with a violence second only to the passions roused by religion.

BOLSHEVISM SAID TO HAVE POOR PROSPECT. After a careful examination into the history of soviet development in Russia, Prof. Selig Perlman of the University of Wisconsin, told the American Sociological Society recently that Bolshevism in the United States was an impossibility because of differing conditions. Whereas, in the hourglass had to fight in it, in the United States, he said, the bourgeoisie would not dream of surrendering, but would quickly battle against the minority Labor dictatorship that got itself into power, and the farmers would lend their aid. Professor Perlman said the traits about the revolutionary movement in the United States was that it loomed up much larger than it really was. "Labor legislation and due attention to the needs of the exploited immigrant workers," concluded Professor Perlman, "may forever wear the latter from his revolutionary leadership. But apparently nothing short of a social revolution will satisfy the genuine rebel—the I. W. W. Yet his numbers are too few to threaten the existing order."

POLICEMEN. In speaking of policemen, Col. Arthur Woods has the following to say in "Policeman and Public" (Yale University Press). "On the whole, people probably don't think much about policemen anyway. They are rather taken for granted, like a lamp-post, or a letter box, or any other feature of the natural scenery of a city. Yet no one hesitates to find fault, and every one is ready to believe anything bad about them, as is exemplified by the advice given a cub reported once by one of the old-timers in the newspaper. The young scribe was sitting at the long writing table, looking bored and disconsolate. "What's wrong, boy?" "Oh, bored. There's nothing to do." "Nothing to do? Why don't you write a story for a change?" "Nothing to write." "Oh, go on. Now listen; when you've got to write about something, and there isn't anything to write about, just recite a story boosting the firemen or knocking the cops. Both always go!"

SAYS GERMANS HELP THE REDS

Polish Officer, Home to U. S., Declares There is Unbelievable Cruelty Inflicted.

New York, Jan. 15.—German officers, arms and ammunition are used to a large extent by the Bolsheviks in their campaign against the Polish of Pittsb. 24, ing to Major Starzynski of the Polish court of the medical staff of General Haller's first Polish army, more than half of which is composed of Poles born in the United States. He has just returned to the United States after two years of campaigning on the Polish frontiers, where, he avers, the Polish soldiers are almost totally lacking in equipment necessary to match the excellent German armament of the Bolsheviks.

"The enemy discipline is fairly good in battle," he continued, "but their excesses after they have taken a village are unbelievable. We saw evidence of their wanton cruelty everywhere. They confiscate and destroy and absolutely force submission by the people. Their general principle is to execute large numbers of the chief residents of any village they occupy for the salutary effect it will have, and then to permit excesses by their soldiers against men and women."

Fifty per cent of the Polish army today is in civilian clothes, according to the major, while most of the soldiers are without shoes. This condition, he said, is shared by large numbers of school boys and girls, who are fighting side by side with the soldiers.

MONCTON NURSES FOR HIGHER PAY

Moncton, Jan. 15.—Registered nurses here apart from the hospital staff have served on the hospital board notice that practically amounts to a strike. The letter representing the views of fifteen nurses, stated that after Jan. 15 registered nurses would demand \$21 a week for a twelve hour day. In effect this means that people engaging private nurses will have to pay \$42 a week for a twenty-four hour day. As the hospital board has no jurisdiction in the matter no action was taken.

DISASTROUS FIRE.

Fire on Saturday morning destroyed the shock mill at Port Elgin owned by Fred Magee, M. P. P., causing damage amounting to \$40,000. A chicken cannery factory and freezer in which were about ten tons of chickens were also prey to the flames.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel backache or bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Fermint (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

Quick, Safe Way To Remove Hairs

Keep a little delatone powder on your dressing table and when ugly, hairy growths appear, make a paste with a little of the powder and some water, apply and let remain on the hairy surface for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. This treatment is quite harmless and rarely more than one application is required, but to avoid disappointment care should be taken to buy the real delatone.

Use Cuticura to Keep Your Hair From Falling

How many times have barbers given this advice to men who are losing their hair because of dandruff and scalp irritation. At night rub Cuticura Ointment into the scalp. Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion, Canadian Depot: Lyons, Limited, St. Paul St., Montreal. Cuticura Soap shaves without ras.

BIG TASK FOR THE FRENCH-CANADIANS TO REPLACE LAVAL

Montreal, Jan. 15.—Senator Raoul Dandurand yesterday at the weekly luncheon of The Montreal Publicity Association, contended that the French-Canadians did not possess one-twentieth of the wealth of Montreal. He said it was a gigantic task that the French-Canadians were tackling when undertaking to rebuild the recently destroyed University of Montreal.

A WORKING GIRL'S LIFE

Day in and day out, month after month, she toils. Often she is the breadwinner of the family and must work that others may live. Rain or shine, warm or cold, she must be at her place of employment on time. A great majority of such girls are on their feet from morning until night, and symptoms of female troubles are early manifested by weak and aching backs, dragging pains, headaches and nervousness. Such girls are asked to try that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound. Dr. A. for more than forty years has been giving girls strength to do their work.

SLAYER OF DENTIST ASKS QUICK TRIAL

Isaac Isakowitz Ready to Die, He Tells Police—Killed Man with Hatchet.

New York, Jan. 15.—Realizing, he said, that he is going to the electric chair, and asking quick action, Isaac Isakowitz, arrested Saturday for the murder of Dr. Jack D. Hanania, a dentist, in the latter's office at 21 East 118th street, was arraigned in Harlem court. An affidavit charging suspicion of murder in the first degree was presented in the case.

The detective said Isakowitz had made a complete confession. Hearing was adjourned and Isakowitz was remanded to prison.

Dr. Hanania was beaten to death with a hatchet in his office Saturday morning. Isakowitz, according to his alleged confession, held a grudge against the dentist for the latter's part in prosecuting him, seven years ago, for an assault upon Rose Falcon, a cousin of the dentist.

Missionary Captured By Bandits in China

Dr. A. L. Shelton Being Held for Ransom Near Yunnanfu by Notorious Brigand.

Peking Jan. 7.—Dr. A. L. Shelton, a Christian missionary, was captured by bandits at Looyakuan, near Yunnanfu, on Saturday, Jan. 3, and is being held for ransom, according to reports received here.

The wife and two daughters of the missionary have arrived at Yunnanfu, the former declaring that the kidnapers were acting under orders of Yang Tien-fu, a notorious outlaw who has been operating, with 5,000 followers, in the Kochin Mountains. It is said his object has been to discredit the local government for the latter's refusal to accept the terms of surrender laid down by the band. The brigands stated they would treat their prisoner as a guest unless the military was employed to effect his release. Yang Tien-fu is reported to have been educated as a military officer in Japan.

Officials of the American legation here and Chinese authorities are investigating the case.

THIRD CASE AGAINST WM. WEBBER DISMISSED

William Webber was found not guilty of the third charge against him, that of keeping liquor for sale without a proper license in the police court yesterday afternoon and the case was dismissed.

William Ryan, counsel for the prosecution, in his address to the court, said that the onus was on the defendant and that he must prove beyond reasonable doubt that he did not have liquor for sale. He asked for a conviction. The magistrate, in summing up the evidence, said that he had not a particle of doubt as to the truth of the evidence of the defendant in denying that he had liquor for sale and he would therefore dismiss the case.

An application was made by Mr. Ryan for an order to destroy the liquor and he will be heard on this matter on Monday morning at 11 o'clock.

CARDINAL GIBBONS CONDEMNNS DIVORCE

Calls on Women to Sanctify the Home and Work to Stamp Out the Evil.

Declaring that divorce is one of the greatest evils of the present day, Cardinal Gibbons, in an address of welcome at the opening session of the International Federation of Catholic Alumnae in Baltimore, urged the women to maintain the sanctity of the home and to make every effort to check the divorce evil.

Cardinal Gibbons said that the Church would be deprived of an important factor for the development of Christianity in the nation were it not for the work of the women, and congratulated them on the work accomplished during the war. He said:

"As I have said many times before, I do not know what would become of the church and society at large if it were not for the female sex. I will leave out of consideration what the religious women are doing. I will say nothing of

that grand army of teaching women throughout the country. The Catholic school has become a factor for the development of Christianity, and therefore for true Christian civilization. "The whole country knows what woman has done throughout the late war. True, she did not fire any guns, draw swords, did not kill anybody, except by a glance of the eye. But she did a great deal for the happy consummation of the

war. She visited our soldiers, cheered them, brought into their lives comfort and joy. "I was informed that it lies within your line, now that we have peace, to take an interest in civil affairs. Yours is the domestic kingdom. Your sphere is the home, to make it joyous, bright and happy. Home is a very desolate place without a mother or wife to cheer

it. Your part, therefore, is to exercise mission in this domestic kingdom. If you sanctify the home you will sanctify the nation. The stream cannot rise higher than its source.

THE BUSINESS COLUMN

EDITED BY MANSFIELD F. HOUSE

"Free Verse" Makes

Free verse is not a bad idea when it comes to advertising, at least that's what Mockett's Store of Toledo, Ohio, has discovered.

It worried the advertising manager when he discovered that there were so many illustrations and such a bewildering array of advertising that his little single-column display were lost in the shuffle.

Then it occurred to him that some original form of type will so put pep into the physical appearance of a small-space advertisement that people are attracted to it. Now the store uses "free verse" together, as shown by this unique example:

He could sit down
He came in,
All fussed up
Like a debutante
At her first party
Or a new voter,
Afraid to ask
What to do,
And the clerk smiled
And showed him where
And see the stuff
He wanted to see,
And the clerk discovered
He wanted shirts,
And that was enough,
And the clerk got 'em,
And the man finally
Settled down
And got his nerve
And wanted to buy
A shirt of tan,
But the clerk told him
Tan wasn't good
For his kind of complexion
Or something like that,
And the man discovered
The clerk knew better
What he wanted,
Then he knew himself,
And after awhile
The man came out
Of his speechless state
And got real chummy;
And when he left
He said that Mockett's
Knew what to do
For fellows who want
The thing they want,
But don't know just
What in heck it is.

Trying Up the Goods and the Advertising.

Mr. Parkhurst, who handles the window displays for Ingersoll, Cheyenne, Wyo., maintains his own "clipping bureau." He receives many of the national publications with their attractive cover designs and color illustrations in their advertisements. When he sees a design that looks good he clips it and puts it in the rack above the bench on which he tucks out his shoes. Later, when he needs something, say a card for baby week, he refers to the collection and usually finds some illustration that improves the store looks up with national baby week. In order to stimulate late new shoppers in the department the store offers a discount of 10 per cent during baby week. The store does not maintain a large infants' wear department but it finds that it pays to make the department distinct, small as it is. Since doing so the business has grown greatly.

\$30,000 in Phonographs Sold Through Barber Shop.

A year ago the Lundstrom Furniture Store, of Logan, Utah, started carrying graphophones and to get them before all possible customers, the firm put a machine in the principal barber shop of the city and has kept it there ever since, well supplied with new records.

As a result the company has since then sold 140 machines at an average of \$200 each. This means a business of nearly \$30,000 in one year brought in mainly by the simple and inexpensive device of having a sample machine on exhibition in a place where every one has the time to look into it, discuss its qualities and enjoy its music.

The bootblack of the barber's shop enjoys tending to the records, as the machine is placed beside his stand. Polishing shoes is as seen a joy as crapping when you can do it in time to jazz music. The barbers in their moments of leisure put on their favorite records and never have a bohemian thought. The customers while taking off their collars, call for a favorite, and then stretch out in the chair for ten minutes of that peace of mind which invariably comes to a man when he is being manhandled by a skilful barber—a peace of mind that no mere woman can understand and that is greatly enhanced by Hawaiian music, serenades or fox-trots.

Every time a graphophone customer comes into the Lundstrom store, nine cases out of ten the barber shop impulse is at the bottom of it. If it is a woman customer, she says: "I want to look at that machine my husband talks about so much," or if it is a man he explains that he is there to look into that machine he heard at the barber's shop. For the shop takes no responsibility for the machine, neither as to giving price nor information. It simply gives it record work and a boot-black attendant, but every worker in the shop is a devoted graphophone fan. The shop has

become a clubhouse as well as a news exchange and is thus doubly attractive.

Methuselah's Shroud Have Been British!

Men who are conversant with the clothing situation in England are deriding why Mark Sullivan and Ogden Armour are getting so much publicity in the States merely because they mentioned that they wore their clothes for five years or so. Articles of apparel only five years old are in the infant class over there—in fact, one of the London papers has dug up a man who has been wearing the same overcoat for some forty-eight years.

"The coat," adds the correspondent, "still looks newer and fresher than many coats of comparatively recent date. It was made in 1861 by the master tailor of the Carbineer Regiment for an officer, who bequeathed it to his valet some ten years later.

"What's more, the present owner is also wearing a pair of shooting boots given him some fifty years ago!"

The publication of this item immediately caused a number of other readers to write in concerning the antiquity of their wearing apparel. One of them said that he has a straw hat which he has worn for twenty-seven years, but this was capped by a man with a lawyer that has seen service for more than a half century.

WHERE WILL BONDS GO?

(Toronto Globe.)
Within the next six weeks or so, it is estimated that bond issues amounting to upwards of \$80,000,000 will be offered in Canada, mainly from governments or municipalities, but it is expected that most of them will be sold in the United States. This is creating a new situation which may have a bearing in different directions. First of all, it would be thought such a tendency would affect exchange and bring down the premium on New York funds. Financiers seen yesterday would not go so far as to prophesy a drop, though it was admitted the sale of such a volume of securities across the line should have a steady effect on American funds. The sale of such issues in New York is an expensive operation, as, owing to the advanced nature of such a sale from this side is only made possible by the high rate of exchange. Another phase of the marketing of securities over the border is that bonds will become more scarce here at a time when the market is fairly strong, and there may be an effect in the higher prices of Canadian bonds. It is expected that borrowing will take place within the next few weeks by Saskatchewan, Ontario and Quebec.

LOOK FOR ADVANCES IN SECURITY PRICES

Discussing the trend of the security market, Wood, Gundy & Co. say: "The prices of Canadian high-grade securities such as provincial government and municipal bonds, are influenced by the yield obtainable from Dominion bonds. The necessity for issuing the enormous amounts of the various war and Victory loans on a high interest basis has resulted in low prices for Canadian provincial and municipal bonds during each Victory or War Loan campaign. Immediately after each loan the tendency is to increase gradually in price until the arrival of another government loan here at a time when there will be no necessity for another government loan on the scale and plan of the last Victory Loan, means that in the future no such check to the upward movement of the prices of high-grade securities will be in operation. There is no question but that bonds of Canadian governments and municipalities are much below the average prices of pre-war years, which may be regarded as more nearly representing their intrinsic values."

ALL CARDS ON THE TABLE; DRIVE OUT THE PROFITEER

Chicago, Jan. 15.—A demand that "all cards be placed upon the table and the man found guilty of profiteering be eliminated" was voiced yesterday by Fred Volant of Topeka, Kansas, before the National Association of Retail Clothiers. "Prices or money," he said, "do not go up or down, but are put up or down. You clothes are on the market. Go to the manufacturer of cloth, find out what a suit of clothes costs him and what he makes from it. Use this as a basis to find out who is profiteering. Let no guilty man escape."

RECENT DEATHS

The death of Major L. D. Jones, principal of the superior school, Dalnauise, took place yesterday, after a short illness of meningitis. He is a native of Centreville, Carleton county, and is survived by his wife, formerly Miss Eva McLean, River Charlie, N. B., and three children.

Captain William A. Barton died at his home at the Range, Queens county, N. B., recently, in the sixty-seventh year of his age. He spent the greater part of his life at sea when he was master of various vessels sailing from St. John to the West Indies.

The death of Jeremiah J. Keohan took place at his home at St. George's, Saturday morning, January 10, at the age of sixty-five. He was only ill one week from pneumonia. He leaves his wife, three sons and two daughters.

Mrs. James R. Long passed away at her home, Lower Buctouche, at the age of thirty-two. She leaves her husband, two children and her mother, Mrs. Curran of Sore's Island.

Mrs. Mary Surette died at her home, Leger's Corner, Tuesday evening, after a long illness from cancer. She was sixty-three years of age. She leaves one son, two daughters, two sisters and two brothers.

The death of William Logan occurred suddenly at the home of his sister, Mrs. James Forrest, Newcastle, on Monday night. He was a member of the 23rd battery during the late war. He leaves three brothers and three sisters.

In Shediac recently Terrance Sweney, father of C. N. R. Conductor Dennis Sweney of Moncton, passed away. He was eighty-six years old and a native of Melrose, Westmorland county.

At the home of Mr. and Mrs. Albert Sharp, Sussex, their daughter, Irma May, was united in marriage Monday afternoon to Warren Preston Myers of St. John. The ceremony was performed by Rev. A. V. Morash.

MARINE NOTES.
This is the season for repair work on river steamers, and several of the boats are undergoing extensive improvement. The steamer Champlain has been placed on Gregory's blocks to have a new boiler installed and to be thoroughly overhauled. Steamer Hampton is having its sides reconstructed and will be re-planned in place so as to put in first-class shape. The tug Lily Glacier of the St. John River Log Driving Company's fleet, and a very old boat, is being fitted with new decks.

To do the thing in style this close-fitting, double-breasted, smart Overcoat is one of the essentials. Every point, cut, make, cloth, fit, trim is a point in our favor. The After Stock-taking Price is \$22.40 or \$40.00, depending on quality of fabric.

CHIEF OF POLICE SMITH REVIEWS WORK OF YEAR

(Continued from page 1.)
The number of hours street lights were reported out amounted to 1,269. The number of owners of unlicensed dogs reported during the year was 1,078, while ninety-six dog summonses were issued.
Females of all ages were arrested for all manner of charges during the year, and 129 cases under the care of the police matron.
The report also refers to the death of Policeman James H. Go-line on August 9, 1919, after a service of twenty years.
During the year fourteen patrolmen, one sergeant-detective, and one sergeant were appointed to the force.
The usual amount of equipment was issued to the department during the year.
Chief Smith concludes his report as follows:
I would recommend that twelve pairs of Peesley handcuffs, twelve Iver Johnson revolvers, forty flash-lights, six silent policemen and forty leather batons be supplied to the department.
I would also recommend a high power automobile (runabout) for the benefit of the detective department, as it would enable them to get around much quicker in their investigations, especially in the outskirts of the city.
I would also ask the privilege of appointing another patrol sergeant, as I have had to keep one of the constables as acting patrol sergeant for the last year.
Increase in Arrests for Drunkenness.
The increase in arrests for drunkenness in the year 1919 is 245 over that of 1918, which fact, in my opinion, is largely due to the strictness of the provincial prohibition act, which compels the police to arrest all drunkards found on the public streets, whereas under the license act many were assisted to their homes by the police, or quiet were allowed to pass along if they did not become a nuisance to the public.
Juvenile Offenders.
The prevention and detection of offences committed by juveniles are the most difficult problems the police and detective department have to contend with, and chiefly due to too many easy escapes from the Boys' Industrial Home, as it appears impossible to keep these boys without a proper enclosure.
Detective Department.
During the year 1919 the work of the detective department has been very satisfactory, considering the great amount of thieving committed. Sergeant-Detective John T. Power's report speaks for itself.
Motor Vehicle Law.
During the year 1919 there have been seventy-five summonses to court to answer charges for violations of this act, and many protests have been made by the owners or drivers for being reported by the police; but in view of the fact that the death of three children was caused by being struck by motor cars within the year 1919, would show that the rigid enforcement of this law is justifiable.
Prohibition Violations.
During the year the police have co-operated with the liquor inspectors and assisted them at all times, the police having thirty-nine prosecutions under this act to their credit.
Alien Enemies Reporting.
During the year 1919, 631 alien enemies have been reporting twice each month to the police, but on Jan. 3, 1920, I received official notice from Alfred J. Cawdon, Esq., acting chief commissioner of police, that it would be no longer necessary for aliens of enemy nationality to report.
Assistance to Police.
I have to thank John H. Hamilton, Esq., 38 Wall street, and W. C. Wilson, Esq., 133 Union street, West End, for their courtesy and kindness at all times when appealed to for use of their telephones by the constables of this department.
In conclusion, I desire to thank you, as commissioner of public safety, for the assistance you have so kindly given me in this my first year of office, and I trust the same good feeling will continue to exist.

**UNION STREET
BUILDING SOLD**
The Honkins building, 177 to 179 Union street, owned by Miss Honkins of Toronto, has been purchased by Kenneth D. Sear, manager of the Star Millinery Company of King and Union streets, for the carrying on of his business. The building is to be renovated and new improvements made. This building has been occupied by Mr. Sear's relatives since the year 1877, his grandmother, Mrs. P. Redmond, being in possession at that time. The establishment in King street will still continue.

Nova Scotia 'Phones
Halifax, N. S., Jan 15.—The Board of Public Utilities of Nova Scotia has before it an application of the Maritime Telegraph and Telephone Company for permission to issue preferred stock to the amount of \$1,000,000 intended for the 1920 budget of the company, which will cover extensive improvements and additions to the service throughout the province. One of the important changes in the Halifax system will be the installation of the automatic telephone in the North End.

Now that the peace treaty has been ratified he is faced with the grave problem of finding a solution of the Irish question.

SOLDIERING IN ST. JOHN AGAIN AS BEFORE WAR

Training for 62nd Battalion to Begin Next Week—List of Officers as Submitted to Ottawa.

For the first time since before August 4, 1914, soldiering is to be resumed in the city on a peace-time basis. Announcement was made today that training for the 62nd Battalion would begin on next Tuesday, when an issue of clothing would be made to the recruits who have joined and a programme arranged for the training period. It is planned to make the scheme of instruction as attractive as possible, to have the regiment, which will be commanded by Lieut.-Colonel A. McMillan, D. S. O., assisted by former overseas officers and N. C. O.'s, made as much as can be in the form of an association of pals, with the element of club life entering to a large extent.
While quite a number of men have signed on there is still room for many more and those who wish to can join any day at the army training camp, which will be held on Tuesdays and Thursdays—and on the pay lists these will count together as one day. A list of officers has been submitted to Ottawa for approval but has not yet been officially returned as sanctioned. The slate of officers as it stands at present is as follows:
Headquarters—Col. A. McMillan, D. S. O., Major C. F. Leonard, D. S. O., M. C., adjutant; Lieut. H. B. Gilbert, instructor in musketry; Lieut. C. S. Cunningham, signalling officer; Major J. R. Miller, quartermaster; Capt. Wm. Warwick, medical officer; Capt. W. C. Krell, paymaster, and Hon. Major Rev. E. B. Hooper, chaplain.
"A" Company—Major C. J. Morgan, Capt. J. R. Gale, Lieut. C. P. Grannan, Lieut. F. P. J. Travis, Lieut. J. E. Ingram, M. M., Lieut. J. W. Dickson.
"B" Company—Major Geo. W. Keefe, Capt. R. W. B. Coster, Lieut. L. McC. Ritchie, Lieut. G. K. Holder, D. C. M., M. M., Lieut. W. L. Gifford, Lieut. W. L. Patterson.
"C" Company—Major W. A. McDougall, M. C., Capt. G. L. Short, Lieut. W. McQuade, Lieut. C. F. West, Lieut. D. G. Peters, M. M., Lieut. G. Bell, D. C. M., M. M., and Lieut. C. Golding.
With the programme of training, athletics and social affairs will figure strongly. It is planned to have an inter-company bowling league, making use of the fine bowling alleys at the armory, and also to start an indoor baseball league for which the spacious drill floor is well fitted. Those interested will be welcome to join the battalion whether they have seen service overseas or not, the only requirement being that they be within the age limit and physically fit.

POLICE COURT
In the police court today the case against Elizabeth Greer, charged with operating a motor car, was continued with keeping an immoral house in 408 Main street, was resumed. The girl was allowed to go on condition that she would go to her home in Woodstock. Berry was also allowed to go, but the magistrate made him promise that he would not allow any more immorality in his residence.
Three men charged with drunkenness were before the court. One who had sustained an injury on his wrist was sent to the hospital by order of Dr. F. T. Dunlop. The cut was caused by broken glass.

For Those Who Like Distinctiveness in Dining Room Furniture

We'd Recommend Suite Now in Window
We are anxious for you to look at the Queen Anne Dining Set now on exhibition in our show window—and want you to step in for a closer inspection of its material and workmanship.
The quiet dignity of the period will appeal in a refreshing degree to those who like distinctiveness. The wood is old oak quartered, and will fastly become the chosen among woods for dining sets because of its beauty and novelty.
We also have a wide range of other designs and woods about which we'll say more later. But for now this Queen Anne holds the stage's centre.

Bank's Position in Canada and Abroad

THE PRESIDENT'S ADDRESS

Gentlemen: More than twelve months have passed since the Great War ended and each month we have been more forcibly reminded of the heavy blows which have shaken the very foundation of our economic and social structure. Increasing disturbances in portions of Europe and Asia indicate that a genuine and abiding peace is not yet in sight. We should earnestly pray that the men to whose hands is entrusted the safety of the nations may be given the necessary patience, courage and wisdom to complete their stupendous task. We, who live in Canada, have much

cause for thankfulness. It is true that our national debt has increased during the past year by a very large amount but our country is a vast storehouse of natural resources and there is no doubt about our ability to meet our obligations. A determined effort should be made at once to develop these resources and to our full share towards supplying the world with our products. Our government has already shown its willingness to assist exporters in finding markets for their goods, and they are willing to extend further assistance in this direction. It is to be hoped that the department of immigration will actively engage in a campaign to secure a large number of a desirable class of immigrants. These are needed immediately if Canada is to supply her share of the world's requirements. The world has suffered from an epidemic of strikes, and we, in Canada, have not been free in this respect. I am glad to say that, in our country, there is now in evidence a desire for better understanding between capital and labor. It is incumbent upon each one of us to bring about industrial peace. This is the fifty-fifth Annual Meeting of our Bank, and I am glad to submit a report which shows substantial progress. New Stock Issue. Realizing that our responsibilities to the public were rapidly increasing, your Directors, last February, decided to offer the shareholders the three million dollars of new stock which they were empowered to issue. A considerable amount was subscribed for in England where we now have a very representative group of shareholders from whom we may confidently expect active support. Your General Manager and I recently visited London, where we have an admirable Advisory Committee under the chairmanship of Mr. Austin Harris, of Lloyd's Bank, the other members being Sir Keith Priece, Mr. Blair, Mr. Small

and Mr. Ashe. These gentlemen are devoting close attention to the affairs of the Bank, and under their prudent and able advice we are developing a satisfactory and profitable business. Our New York Office is proving an important factor in the business of the Bank and the transactions, originating in Canada, Great Britain and the United States, which pass through that channel, show a gratifying increase. The work of our Advisory Committee there is highly appreciated by us. Through all these troubled times we have felt no anxiety as we knew our interests were safe in their hands. Canada's Foreign Trade. As was forehadowed in our remarks last year, working in close co-operation with the National Park Bank of New York, we have opened up banking facilities for Canada's trade with foreign nations. Agencies have been opened in France, Japan and China, as well as on the Pacific Coast of America, which should bring much business to this Bank and prove very helpful to the merchants and manufacturers of the Dominion. We have kept our finances in such shape that we have been able to supply every legitimate demand from our customers and our relations with them are most cordial. Our business in Eastern Canada has become so important that we think it advisable that the Chairman of our Toronto Board should enjoy the distinction of being a Vice-President. We have great pleasure in congratulating Mr. Stephen Haas upon his appointment to that position. In British Columbia. A committee of your Directors, with the General Manager, visited Vancouver last spring for the purpose of investigating conditions in the Province of British Columbia. We were greatly impressed with its natural resources and future possibilities. Our interests are steadily growing in this province and they are becoming so important that we feel they should be guided by men of the stature with which conditions on the Pacific Coast. We have been most fortunate in obtaining the consent of Mr. George Kidd, General Manager of the P. Burns Company, Ltd., to act on an Advisory Committee with Mr. Mackinnon, British Columbia Director, as chairman. We believe their experience and ability will prove of inestimable value in furthering the interests of this Bank but of the Province of British Columbia. We have strengthened our position in Montreal by appointing Mr. J. B. Wadell to our Advisory Committee and recently Sir John W. Carson, Mr. Wadell resigned to take another important position. We are very pleased that he remains in close touch with the Bank and that we shall reap the benefit of his experience and advice. Farming Conditions. We pointed out last year that the soil was in a very dry condition and that a satisfactory crop in Western Canada could not be expected this year unless there was an abundant rainfall in the spring. Unfortunately, there was very little moisture—in some districts there was none—with the result that the crop returns were not at all uniform. Owing to high prices the value of the 1919 crop will exceed that of last year. Relief and extensions of credit will be necessary in some areas, but the Government and the Banks are giving sympathetic consideration to all such cases. We are justified in believing next year's crop will be sown under favorable conditions as there is an abundance of moisture in the ground due to the splendid rains which took place in the fall. Cattle. Scarcity of pasture and hay, together with unfavorable weather conditions, has caused a heavy decline in prices and forced many farmers and ranchers to dispose of their stock in an unbusinesslike condition. The early advent of winter caused anxiety to livestock owners, but I am glad to say, as a result of improved and effective measures have been taken to prevent further losses by shipping feed in to the needy districts. The efforts of the Provincial Governments to assist the ranchers and farmers in holding their stock can be warmly commended and the Banks are co-operating in every possible way. The detailed reports of our Provincial Superintendents from each Province are most interesting and will be printed in our Annual Report. Trade conditions in Canada are good, our products, and the demand for our wheat and pulp, etc., is greater than we can supply. It is a time when we should put forth every effort to increase production, and build up reserves against the years that are sure to come. The year is not yet paid for. Part of the price will be hard times, though they may not yet be in sight, and if we are wise we will be prepared for them. I regret extremely that my warm friend Mr. Riley, has asked to announce that he desires to retire from his position as Vice-President and Director. Mr. Riley has served with the Bank for fourteen years, and has seen our resources grow from \$28,000,000 to \$175,000,000. He will tell you with what pride he reflects upon this wonderful development, and you will know the share he has taken in obtaining it. Mr. Riley does not intend to resign at once, and I shall ask you to re-elect him today, but he feels that the time is drawing near when his own affairs will fully occupy him. He has kindly consented to continue to act until such time as we are able to replace him. I cannot close my remarks without making special reference to the splendid work that is being done by the officers of the bank. The spirit of loyalty which animates the whole staff is apparent to all. The results of their work are shown in the figures that are in your hands. You are indeed fortunate in having a General Manager who has proved that he can produce results eminently satisfactory to the shareholders, and also build up an army of able and enthusiastic workers, who know that their efforts will be duly appreciated and that their zeal will not be overlooked.

Bank's Notable Progress in Year

GENERAL MANAGER'S ADDRESS

Mr. Chairman and Gentlemen.— It gives me pleasure to present to you a satisfactory report of the Bank's operations during the past year. I reminded you a year ago that the period of readjustment upon which we were entering would, necessarily, create financial and economic problems, which must demand the serious consideration of every banker. This forecast has proved correct and we have been confronted by many complex questions. I am happy to say that we have been able to cope with them successfully and the Balance Sheet submitted to you reveals the Bank in its strongest position it has ever held. The President has dealt with general conditions, and I will, therefore, only touch upon important changes in our Balance Sheet. Capital Account. Our increased activities warranted the Directors in authorizing the issue of the balance of our unsubscribed stock amounting to \$8,000,000. This issue was made during the year, and you will be gratified to know that the amount was fully subscribed, with the result that our Paid-up Capital now stands at \$1,979,940. The balance between this amount and \$8,000,000 represents unpaid subscriptions not yet due. These subscriptions mature within the next two months and our capital will then stand at \$8,000,000 paid up. It is pleasing to note in this connection that we have added 1,425 new shareholders to our list, bringing the total up to 3,828. Rest Account. An addition of \$20,000,000 has been made to the Bank's Rest Account during the year, of which sum \$1,781,170 represents premium on new stock and \$218,830 a transfer from Profit and Loss. This addition to the Rest Account brings the total up to \$8,000,000 or 10.2 per cent of our Deposits. Profit and Loss Account. Net profits of \$602,256.90, after deducting the usual expenses and providing for an increase over the previous year of \$106,092.24. These net earnings are 3.75 per cent on our Capital and Reserve, and in this connection I would like to point out that our Net Profits do not reflect the earning power of our interest-bearing deposits, as well as available for a very short period. Circulation. The notes of the Bank in circulation compared with the figures of the previous year show an increase of \$374,170 or 8.08 per cent. Deposits. The Total Deposits of the Bank are this year \$138,406,143.83, showing an increase over the previous year of \$8,253,816 or 6.40 per cent. You will note from the Statement that our interest-bearing Deposits show a very satisfactory increase of \$15,989,219.82 or 23.29 per cent, while non-interest-bearing deposits show a decrease of \$7,855,408.32, being 18.07 per cent. I may say the decrease in the latter account was not unexpected as the increase in our carrying large special balances at the close of 1918. Total subscriptions to the Victory Loan of 1919, which passed through our Branches, amounted to the sum of \$28,500,000, a great proportion of which has been withdrawn from our Deposits. Cash Reserves. Our holdings of gold and silver coin and Dominion notes amount to \$14,078,725.93, being 9.11 per cent of our liabilities to the public. Quick Assets. The percentage of Quick Assets to Total Liabilities to the public is 47.23 per cent as compared with 60.48 per cent last year. Notes and Cheques of Other Banks. The total this year is \$9,085,682.41 compared with \$4,851,188.16 last year. Balances Due by Banks and Other Correspondents Elsewhere than in Canada. This amount is \$3,569,800.65 and figures of the previous year. Dominion and Provincial Government Securities. The figures this year are \$18,048,913.69 compared with \$12,527,922.82 last year, or an increase of 43.8 per cent. Canadian Municipal and British and Foreign Securities. This year these total \$15,818,016.79 compared with \$11,720,338.76 last year, approximately the same. Call and Short Loans in Canada. The figures this year are \$3,439,410.79 compared with \$6,508,728.64 last year, a decrease of \$3,069,317.85. This decrease does not mean a curtailment of our loans to Brokers in Canada, but is the result of the repayment of a special loan during the year. Call and Short Loans Elsewhere than in Canada. The figures this year are \$7,956,884.74 compared with \$8,889,150 last year, an increase of \$4,567,704.74, or 184.77 per cent. This increase is due entirely to the growing business of our London, England, and New York Agencies, and must not be taken as indicating a transfer of money from Canada. Current Loans in Canada. The total this year is \$86,529,166.17 compared with \$74,021,028.40 last year, an increase of \$12,508,137.77, or 16.89 per cent. This substantial sum will indicate to you that we are doing our part in meeting the increased demand for loans from the Canadian public. Our grain loans are included in these totals. Liabilities of Customers Under Letters of Credit. amount this year to \$7,186,940.91 compared with \$2,706,467.08, an increase of \$4,480,473.83. This increase, like that in our Call and Short Loans Elsewhere than in Canada,

is due to our Branches in London and New York.

Railway and Other Bonds, Debentures and Stocks. These show a small decrease this year of \$100,915.59.

Central Gold Reserves. The figures this year show a reduction of \$230,000 over the figures of the previous year, or 29.48 per cent. This withdrawal from the Central Gold Reserves was made possible by our increased capital, which automatically increased the Bank's circulating powers by an equivalent amount.

Bank Premises. The figures in this account show a reduction of \$704,866.09 and now stand at \$592,740.61. The decrease is due to the fact that we transferred a number of our smaller buildings to the Canadian Realty Corporation, whose bonds were disposed of at a satisfactory figure during the year.

Total Assets. The Total Assets of the Bank now amount to \$174,989,037.47, being an increase of \$11,807,003.95 or 14.20 per cent over last year.

A General Survey. My recent trip to England and the Continent was taken primarily to complete arrangements for the extension of our foreign business in connection with the Park-Union Foreign Banking Corporation. The arrangements concluded were, I believe, satisfactory, and we feel that conversations entered into will, ultimately, prove profitable to this Bank as well as to the Park-Union.

Though conditions in Europe are in an unsettled state it affords me satisfaction to advise you that the Bank's business at both our London and New York Agencies shows a steady and healthy growth. I can assure you that our interests are in very capable hands at both places.

Inflation of the various currencies has caused Exchange to become a most important question at the moment. An erroneous idea prevails in some quarters that the Banks are responsible for, and are making large profits out of the present situation. This is altogether incorrect. The Banks derive no extra profits as the result of heavy fluctuations in the Exchanges. We shall, indeed, welcome a return to normal conditions.

Any effort to restore rates by artificial methods should be discouraged. The vast debts of the War cannot be liquidated without the application of scientific methods, and it seems inevitable that readjustment must be made through a proper funding of the debts. No permanent relief can be expected until the nations of the world get together, without greed or selfish motives, and in a frank and fearless manner, face existing conditions. The United States, might very properly be expected to take the lead in this matter. In the meantime, as far as we are concerned in Canada, time, production and thrift are the only possible solvents. Exporters and importers should not open credits or engage in contracts without exercising the utmost caution. Their Banks can be of material assistance to them in this regard.

I am glad to be able to report the inauguration of our Managers' conference which we had hoped to put into effect some years ago. These conferences were held at strategic points and the proceedings at each place occupied two full days. Every meeting was attended by ten senior Executive Officers, who delivered interesting papers dealing with matters relating not only to the welfare of the Staff but to the betterment of the Bank's service.

The meetings took place at the following cities and the attendance was as follows:—
Winnipeg, July 21st and 22nd.....64
Regina, July 23rd and 24th.....49
Saskatoon, July 25th and 26th.....46
Edmonton, July 28th and 29th.....20
Calgary, July 30th and 31st.....40
Toronto, Aug. 2nd.....47
Montreal, Aug. 21st.....27

Many important matters were dealt with, and I have every hope that one of the results of these meetings will be increased efficiency in our service to the Public.

Branches. Eighty-nine new Branches have been opened during the year as follows:—
Prince Edward Island, 1; Nova Scotia, 8; New Brunswick, 2; Quebec, 1; Ontario, 13; Manitoba, 28; Saskatchewan, 22; Alberta, 17, and British Columbia, 2.

We now have 888 Branches in Canada, 2 in London, one Agency in New York, and close affiliations in France, China, Japan and on the Pacific Coast of America.

We feel that we are now in a position materially to assist in the development of Canada's trade with these countries.

Staff. Nine hundred and thirty-six of our original Staff were given leave of absence to enlist for active service overseas. Of this number, I regret to say that our records show that 100 have given up their lives for their country; 180 have not since reported, and I expect a large percentage of these have decided to engage in other pursuits. The balance, 688, have reported for duty and been absorbed into the establishment. Each of these Officers has been reinstated at an increased salary, the amount being the average increase he might have expected to receive had he been performing his usual duties at home. Our Staff now totals 2,115, of which 1,490 are males and 625 females. I cannot speak too highly of the splendid work of these Officers, their efficiency, zeal and loyalty is all that could be desired and there is, at the moment, a most pleasing "esprit de corps," which I trust will always continue.

General Proceedings of the Meeting. Mr. John Galt moved, seconded by Mr. R. T. Riley, that the report be adopted and that it be printed for distribution. The Chairman informed the meeting that the retiring auditors were eligible for re-election, and that no other nomination had been received. It was then moved by Mr. J. Turnbull and seconded by Mr. D. Finnie, that a sum not exceeding \$7,500.00 be set apart by the Directors for the remuneration of the auditors, to be apportioned by them as may be deemed advisable. Carried.

It was then moved by Mr. W. R. Allan, and seconded by Mr. J. S. Hough, K. C., that the meeting do proceed to the election of nineteen Directors for the ensuing year, and that the Chairman do cast one ballot for Messrs. W. R. Allan,

G. H. Balfour, Hume Blake, K. C. M. Bull, Major-General Sir John W. Carson, C. B., B. R. Cronyn, Edward L. Drewey, S. E. Elkin, M. P., John Galt, S. Haas, A. Hitchcock, J. S. Hough, K. C., W. H. Malkin, R. O. McCulloch, E. E. Kenaston, Sir Wm. Price, R. T. Riley, Wm. Shaw and Geo. H. Thomson.

The motion was carried unanimously. The ballot being cast, the scrutineers reported these gentlemen elected as Directors of the Bank for the year ending November 30th, 1920.

VICTIM OF AMNESIA IS DR. J. L. BRAND

Naval Lieutenant Commander Identifies as Father Man Picked Up as Tramp—Had Been Missing 3 Years.

Lambertville, N.J., Jan. 15.—The elderly man of culture, education and refinement who, with all recollection of his own identity blotted out, was rescued and taken to his home by the Rev. Dr. J. T. Bensley, after he had been cast into the city jail as a tramp, proved to be Dr. John L. Brand, a retired physician and church organist, who had wandered away from his home in Boston nearly three years ago.

Dr. Brand was identified by his son, Lieut. Commander Charles L. Brand, S. N., who hurried here from his station at the League Island Navy Yard in Philadelphia by a newspaper account of the puzzling amnesia victim. March 1917, when the elder Brand went out for a walk and never came back, and which languished after every available avenue of seeking seemed to have been exhausted. The father had disappeared once before, when living in Worcester, Mass., but soon recovered and returned.

The meeting between Dr. Brand and his son proved a dramatic event to those who witnessed it in the rectory of St. Andrew's Episcopal church, where Dr. Bensley was curing for his strange guest.

The son took one look, then with arms outstretched, called "Dad!" For an instant it looked as though the puzzled light might not fade from the older man's eyes and as if he would turn away indifferent. Then slowly the father's expression lightened to one of comprehension and, as he surrendered himself to the waiting arms, he exclaimed: "My son, thank God! At last!"

To a correspondent, Commander Brand said there was no mystery as to the circumstances of his father's disappearance and that every member of the little family would be overjoyed at his return.

"My father, who is now sixty-four years old," he said, "always was a deep thinker and a hard student and I believe he simply overtaxed his brain and something gave away. He had had no shock and there is nothing except sudden and complete loss of memory to account for his disappearance and his long absence.

"That memory now is returning rapidly, and I can say he is in excellent medical and physical condition. We have thought best not to discuss his wanderings with him, so I am not informed as to the story of his long absence.

"We have not decided yet when to take him away from Lambertville, but as soon as physicians decide it is safe and advisable we will take him back to New England."

Worcester, Mass., Jan. 15.—Dr. John L. Brand, located in Lambertville, N. J., was a music teacher in Worcester from 1902 until 1912, when he dropped out of sight. He was organist in St. John's Episcopal church about three years, and went from there to All Saints' church, Worcester.

"My father took the blame for the crime," young Brand said. "While playing a game of pool at Segal's saloon in Cincinnati, Hester struck my father with the butt end of a pool cue. He had no provocation for doing it. Naturally my father wanted to fight, but was restrained by his friends. That same night after he had told me and my sister about the affair, he and I again went to the pool room. Before going I took a revolver with me.

"When we got there we found Hester. Nothing happened to him, but later he followed us out. He started to attack my father and I shot him."

The clernency board did not announce what action would be taken.

CAIRO, Jan. 15.—Opposition to the Miller commission, now in Egypt in an attempt at conciliation, is giving indications of growth, due chiefly, it is said by some close observers, to the influence of Said Zagloul Pasha, the minister of justice.

HE ENJOYS HIS EVERY MEAL, NOW

Long Standing Stomach Trouble Removed and St. John Man Feels Fine, He Says.

"For the first time in ten years I can eat a good meal and enjoy it, with never a trace of any bad after effects," said Marshall McKay, 128 Waterloo street, St. John, New Brunswick, telling recently of the remarkable benefits he had received from Tangle. Mr. McKay is employed at the railway locomotive works in St. John, and is a well-known and highly respected citizen. Continuing, he said:

"It was impossible for all these years for me to eat the slightest thing without suffering from it afterward. After every meal what I ate would come back up into my mouth, and I was troubled something awful with the formation of gas. My kidneys bothered me a good deal and I had dreadful pains in the small of my back nearly all the time. I also suffered severely from rheumatism in my shoulders. My nerves were in such bad condition my sleep was very broken, which was very serious with me, as I worked mostly at night, and I always woke up with an awful taste in my mouth, and my hands would shake very badly.

"I had been reading many statements by others in the newspapers who said Tangle had benefited them so much I decided to try it also, and before I had finished the second bottle I noticed a great improvement in my condition. Well, I have taken five bottles in all, and I am completely rid of all my troubles. I have a fine appetite and eat three hearty meals a day. I am never troubled with my kidneys and the pains in my back have stopped. I never feel the slightest sign of rheumatism, and my nerves are in such fine shape I can sleep as sound as a log, and I never have that bad taste in my mouth on waking up. There is no doubt about Tangle being a grand medicine, and I take great pleasure in recommending it to others."

Tangle is sold in St. John by Ross Drug Company and E. W. Murray, who is the personal director of a special Tangle representative. (Adv.)

where he was organist until he disappeared. While a member of this city club he disappeared in a similar way and was gone some time, but returned and resumed his work.

CONFESSES TO MURDER TO FREE HIS FATHER.

George A. Hile, Jr., Tells Ohio Board He Shot Man, for Which Hile, Sr., Is Serving Term.

Columbus, Ohio, Jan. 15.—In an effort to obtain a pardon for his father, who is serving a penitentiary sentence for the crime, George Hile, Jr., of Cincinnati, confessed to having murdered George Hester, in Cincinnati, three years ago.

"I am the guilty one," Hile told the clernency board, during the hearing of an appeal for pardon from George A. Hile, sr., who is an honor prisoner working at the state prison farm near London.

"My father took the blame for the crime," young Hile said. "While playing a game of pool at Segal's saloon in Cincinnati, Hester struck my father with the butt end of a pool cue. He had no provocation for doing it. Naturally my father wanted to fight, but was restrained by his friends. That same night after he had told me and my sister about the affair, he and I again went to the pool room. Before going I took a revolver with me.

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began to Take "Fruit-a-lives"

"For a year, I suffered with rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about 'Fruit-a-lives' the great fruit medicine; and it seemed just what I needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

50c. a box, 6 for \$3.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

At a meeting of the Law Students' Society in the Pugsley building, last evening, routine matters were discussed. It was decided to have a supper next week on the occasion of the visit of Rev. L. Stannage Boyle, D. D., president of Kings College, Windsor. Dr. Boyle will be in St. John next week and will lecture to the student body.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation no rest, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 85 F. Marcellus avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

Morning News Over the Wires

The first airship service in connection with the seal fisheries has been inaugurated in Newfoundland. At a meeting of returned soldiers of Carleton county yesterday in Woodstock, N. B., Col. J. A. Melville presiding, it was decided not to nominate a candidate for the local legislature but to leave the choice to the different provincial parties to agree upon a returned soldier for the vacancy in the house.

Hon. A. K. MacLean has been offered the post of minister of public works in the Unionist government. The opening of the trial of M. Calliaux, former French president, charged with intriguing against his country, has been named for Feb. 11. Cole Derrah was found guilty yesterday in Woodstock, N. B., of a charge of indecent assault. His two little daughters were evidence against him. He was remanded for sentence.

Pitkinville, Ont., strongly impregnated with radium, is said to have been discovered near Kearney, north Ontario. P. E. Island fox ranchers are arranging to purchase old and worn out horses from the west to feed their foxes.

A scheme is being prepared by the Dominion government to arrange loans up to \$500 to returned soldiers who have completed a course in training, to enable them to purchase tools.

N. B. WATER POWER. A committee of the Commercial Club, of which P. D. McAvity is chairman, held a conference with Premier Foster at the Government rooms, yesterday, regarding the question of water power development in New Brunswick.

The premier told the committee that the government would submit the report of the waterways commission to the legislature at the next session and that a bill would be introduced during the session.

Every Woman's Ambition For Rosy Cheeks Now Easily Satisfied

Contracts And The Government

Ottawa, Jan. 14.—In a judgment just rendered by Justice J. E. C. Cassels of the exchequer court, a ruling is made which makes it clear that all business men or contractors entering into agreements with ministers of the crown should see that the latter have statutory powers to make such contracts or that the contracts receive the approval of the governor-general-in-council if they are to be binding. There is another point to make certain of as well, and that is that the contractor can have no legal claim on the public funds for services rendered unless there is a parliamentary appropriation to cover the work.

Some important cases such as the Ross rifle case will be coming up soon where it will even be argued that no contract made for a term of years is legal when it depends for its existence on parliamentary appropriations made from year to year. The judgment in this particular case was against Charles Livingston of Kingston in connection with a contract to supply clothing to the cadets at Kingston Military College. The judge found that no minister had a right to bind the crown for a term of years without the approval of the governor-general-in-council.

FORWARD MOVEMENT. With Charles Robinson presiding, a representative gathering of laymen from the local Presbyterian churches was held in St. Andrew's church last night at which an illustrated lecture was given by Rev. F. S. Dowling on the forward movement. C. G. Flewelling projected the stereopticon views, which were most interesting. The address was much enjoyed.

MAYOR TO TORONTO. Mayor Hewitt left last evening for Toronto, where he will attend a conference with the directors of the Canadian National Railways regarding the transportation problems here. His departure followed closely upon receipt of a telegram from the board which is now sitting. Commissioner Bullock is acting mayor in his absence.

F. A. Peters Dead

Frederick A. Peters, one of the best known business men of St. John, passed away at his residence, 200 Germain street, at 8.15 o'clock last evening, after a long illness. He was sixty-three years of age. Although he had been seriously ill since May 1918, and gradually sinking for several weeks, the end came as a profound shock to the circle of relatives and friends who knew of it just night, and the news of his death will be read this morning with widespread regret.

Mr. Peters was a member of the firm of C. H. Peters Sons, Ltd., grain merchants and tanners, a concern which is widely and most favorably known in business circles throughout the country. He was very active up to the time of his illness, in the commercial and social life of the city, and deeply interested in civic affairs. He was once president of the Union Club and was an active member of the Golf Club. He will be greatly missed.

Born at Gagetown (N. B.), Mr. Peters was a son of the late Charles H. Peters. He leaves besides his wife, who was Miss Ella Graves, daughter of the late Valentine Graves of this city, four sons, Harold, accountant with J. E. Moore & Co., Ltd., James of Montreal, and Gordon and Daryl of St. John, and four brothers, John, Edwin, Charles H., and Frank L. of St. John. It will be remembered that two of the sons, James and Daryl, served their country with distinction overseas. The sympathy of the community will be tendered to the bereaved family.

The funeral is to take place at 2.30 p.m. tomorrow from the family residence, 200 Germain street.

CHARGE DRY AGENTS WITH \$200,000 GRAFT. Net That Sum in Chicago for Protecting Illegal Liquor Sales, Roper Is Told.

Chicago, Jan. 15.—Illegal movement and sale of liquor in Chicago has netted federal agents, policemen, and politicians \$200,000 or more since July 1, according to evidence which, it is reported, has been turned over to Daniel C. Roper, internal revenue commissioner in Washington. Reports in the Federal Building here were that George Murdock, special investigator, and Charles F. Clynne, United States district attorney, gave the information personally to Roper.

Included in the rumored evidence were stories of false robberies of wholesale liquor houses, removal of the liquor to "clearing houses" of the graft syndicate and payment of fixed sums for "protection" to police and federal officials.

A Dyspepsia Cure

If Thin And Nervous Try Citro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition. It seems to be well established that this deficiency in phosphorus may now be met by the use of Citro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor, and strength replace weakness and lack of energy and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing. CAUTION:—White Citro-Phosphate is unsuited for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

ZAM-BUK. Purely Herbal—No poisonous coloring. Antiseptic—Stops blood-poison. Soothing—Ends pain and smarting, etc. Pure—Best for baby's rashes. Heals all sores. 50c. box. All Druggists and Stores.

Dyspepsia and Home Life. What a Relief When All the Family Eat the Same Food! Avoid Dyspepsia, Gas, Rinsing, Gas—Indigestion from Breakfast Sausage to Dinner Mince Pie.

Health and Happiness. To Be Free of Indigestion Contributes Wonderfully to the Happiness of Home Life.

joyment when there isn't a dyspeptic jinx among them. Of course, a case of dyspepsia or daily indigestion must be looked after. But it is far more to the point to prevent as well as to treat sour stomach, belching, water brash, etc., by such a valuable means as Stuart's Dyspepsia Tablets. Coddling the stomach with soft food and predigested stuff merely invites sluggishness.

These tablets digest food and assist the stomach to prepare the content for assimilation in the intestinal tract. Thus you get the practical relief and help which induces a better appetite and a greater freedom in the selection of foods. You will find Stuart's Dyspepsia Tablets on sale at any drug store in the United States and Canada, as they are considered one of the stand-bys by the druggist.

NEBRASKA'S PATRIARCH.

(New York Herald.) Nebraska has a rival for that Kentucky mountaineer who is said to be 181 years old. Nebraska's candidate for the honor of being the oldest man in America, if not in the world, is only 123 years old. But he is 123. There is no guesswork about it. He has the old family Bible containing the record of his birth on January 15, 1794. And he has other records and proofs. His age is not a matter of tradition. It is an authenticated fact. Old Tom Morris of Westerville, Nebraska, is the man Nebraska puts forward as the oldest man in America. He has lived in Westerville thirty-three years. He lived in Harrison county, Missouri, four years; Streator, Illinois, and Dickstone, Illinois, sheltered him for ten years. He was born in Berwyn, Montgomeryshire, North Wales, and he remembers when the Duke of Wellington won the battle of Waterloo from Napoleon. The only reason that I was not with the English at Waterloo was because of an accident to my foot which made me lame for life," Morris used to say, "I wanted to enlist, but the army wouldn't have me. I was lame." Morris always regretted his inability to be at Waterloo more than anything in the 123 years of his life, except the death of his sweetheart. The Lawyer—"You say you want to ask for \$10,000 a year alimony. How much does your husband make?" "He's making about \$8,000 at present, but I'm sure he could do better if he had to."—Life.

CITY MANAGER PLAN.

A city manager is the chief executive of a city, appointed by the elected council or commission solely by reason of his knowledge of municipal affairs and his administrative ability, to have control of the work of the administrative departments. This form of city government is quite new, having originated in Staunton, Virginia, in 1888. Dayton, Ohio, with a population of 139,000 is the largest city operated under a city manager. In general, the city manager plan appears to be making great progress each year, and cities that have tried it profess to be satisfied with results obtained.

SEVILLE'S PORTABLE HOUSES.

The Mayor of the Spanish city of Seville has evolved a plan to meet present housing needs by importing portable houses "made in the United States," setting them up on a tract of land which the city owns along the Grand River, and renting them to laborers. The housing problem has become serious; there is practically no lumber in Spain for building, and the cost of brick houses is prohibitive, so the mayor's idea, or that of whoever suggested it to him, will very likely be put in practice. At any rate, the authorities of Seville have said that they want about 1,000 portable houses, and would like to know what American manufacturers have to offer.

AGREEMENT REACHED.

REAL ESTATE

Owners of Property

To the property owner we ask the question: DO YOU WISH TO SELL? If that is your purpose you could do no better than communicate with us at once. We have a constant stream of inquiries for all classes of property, and yours may be just the property that someone is looking for. We make no charge for listing or advertising your only outlay is in paying the commission if we make a sale.

Don't wait till after the first of February as the buying is by that time fairly well cooled off. Phone us for appointment and it will be a pleasure to call upon you and give you any further detailed information desired.

This is our best season for the sale of house property. It is because the purchaser is certain of occupancy by May 1st on account of February being "Notice Month."

Again, surely the first of the new year is the permanent time to make as one of your resolutions to be of your own landlord.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

A GREAT BILL AT OPERA HOUSE

First Episode of "The Black Secret," Musical Numbers of Real Merit and Other Features - New Programme Friday.

It is doubtful if ever a better balanced or more popular programme was billed for the Opera House than the one showing tonight for the last time. It has musical numbers of real merit, an acoustic offering that would be hard to beat, and two acts just teeming with comedy, class singing and dancing. In addition there is the first episode of the new motion picture serial, "The Black Secret," which is one of the best ever shown on a local screen.

Music lovers should hear "The Four Gardens," a ladies' harmony singing quartette; and "Santuzza," his great European instrumental novelty; while those who have seen it before will want to see it again. "Mickey" is an unusual picture. It is not just like all those other comedies that contain much of the same old material just glossed up a bit. It contains much that is new and at the same time wholesome, entertaining and generally amusing. It has its share of melodrama, too; good straight melodrama, the kind that makes your hair stand on end if you happen to possess any. Could it be a combination more suited to the demands of the motion picture public?

WHO PAYS?

After fourteen years' experience in the fuel business we have found that one of the chief reasons for the high cost of fuel is the careless man who forgets to pay his bill, compelling the dealer to make his living profit, plus the poor account out of the dealer who does pay. We have therefore decided to eliminate the poor accounts entirely, by selling for cash only. It will surprise you to know what this will mean to you in the value received for your dollar.

We have the largest wood-warehouse in St. John and are thus able to guarantee DRY WOOD any time; we have it hard or soft, and will sell more dry wood and screened coal for the same money than any dealer who has to put your name on the ledger. Trusting that all our customers with their friends that pay their bills, will come and see us, or call up Main 1227, we are, as always, yours to command.

WIFE INVITES RIVAL TO SUP WITH HER!

Enid Bennett Shows Hubby a Thing or Two in "Stepping Out."

She invited the girl who was trying to win her husband right into her own home, did June Hillary, the heroine in "Stepping Out," the latest Paramount picture, which comes to the Imperial Theatre commencing tomorrow afternoon and all day Saturday. Enid Bennett plays the part of this audacious girl who has had her own way in the picture. She is dining in high-toned cafes just what the husband really expected to see. She is eating, scrubbing, and economize on food. It was a daring experiment and just what it worked furnished much of the interesting action. It has its share of melodrama, too; good straight melodrama, the kind that makes your hair stand on end if you happen to possess any. Could it be a combination more suited to the demands of the motion picture public?

This celebrated picture was presented at the Grand Theatre, Toronto, to 290 consecutive performances, a record breaker for that theatre. "Mickey" will be shown at the Grand Theatre, St. John, Tuesday, Wednesday and Thursday, next week. Don't miss it; this is positively the last opportunity.

MICKY IS COMING BACK; RETURN ENGAGEMENT AT THE UNIQUE NEXT WEEK

"Mickey" You've heard the name. Everybody today is singing "Mickey," dancing to "Mickey," and waiting to see "Mickey" all over again. The whole world adores "Mickey." That is the reason why we have had so many requests to bring the picture back. There are thousands in this city who haven't seen "Mickey" and no doubt thousands who have seen it before will want to see it again. "Mickey" is an unusual picture. It is not just like all those other comedies that contain much of the same old material just glossed up a bit. It contains much that is new and at the same time wholesome, entertaining and generally amusing. It has its share of melodrama, too; good straight melodrama, the kind that makes your hair stand on end if you happen to possess any. DOROTHY DALTON WELCOMED BACK

Dorothy Dalton in "The H. Ince's powerful and elaborate social story "The Market of Souls," at the Imperial yesterday was a decided triumph for the charming star and her talented supporting company. In every way the production was noteworthy superior and each scene was sumptuous and exclusive. The picture is too good to let pass. It will be shown again this afternoon and evening.

SHIPS' CAT WINS STRIKE FOR BEER

Zulia Knows What She Wants When She Wants It - Steward in Quandary.

Zulia, the cat of the good ship Maracaibo of the Red D Line, which docked in Brooklyn the other day, declared a "no beer, no work" strike, when the liner was at Porto Rico. Zulia came aboard the ship two years ago.

According to Fred Simpson, the steward, Zulia would not take a bite of food until she was served beer, he said, and she took a liking to the beverage.

On the voyage up the coast from Venezuela Zulia gave birth to three kittens. Thomas Gullifoy, the purser, finding that beer was so scarce, cut off Zulia's daily supply. But Zulia insisted on her daily beer. When the beer was not forthcoming she picked up her kittens and marched off ship. Sailors know it is a bad sign when a cat walks off a ship. They hunted up Zulia and her tribe on the dock. They tempted them with milk, but Zulia held out for the "stuff with a kick," Simpson declared.

Finally a bottle of 275 was produced and was poured into a bowl. Zulia lapped it up, and then having won her beer, she marched back on board with her kittens. Gullifoy is in a quandary now on how to get enough beer to take Zulia back on account of the government ban.

"WASH YOUR NECK" ORDER NEARLY GOT TWO BUNKER HILL BOYS IN TROUBLE

A recent general order from the Boston police commissioner to the members of the new police force requiring them to "wash their necks" nearly got two little lads in trouble New Year's eve, on Bunker Hill street, Charlestown, when one of the new officers saw one of the boys tell his brother he toiled his mother by washing his hands, face and neck instead of taking a bath as he was told to do.

The officer turned to the boys and asked them what they meant by washing their necks, and thinking the lads were kidding him, asked for their names and addresses.

The eldest, fourteen years old, replied he was telling his brother how he toiled his mother, and ordered him to take a bath and instead of doing so, washed his face, neck and hands and said he was not speaking to the entirely ignorant of the "wash-your-neck" order and wondered why the officer wanted their names. The little fellow, twelve years old, and timid, was afraid he was going to be arrested.

Mrs. Jessie M. Carr, formerly of Shediac, N. B., now of Fall River, filed divorce suit in Taunton, Mass., against her husband, Matthew H. Carr, of Shediac, the grounds being cruel and abusive treatment and neglect to provide.

Night Coughs Prevent Sleep WEAR OUT THE SYSTEM

The dry, hacking cough, cough, day and night is very much on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred Fairburn, Copper Cliff, Ont., writes:—"I caught a heavy cold, got a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night. I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone.

NEW MILITIA INSTRUCTIONS

(Montreal Star).

The local military headquarters received last night incomplete instructions for the reorganization of the active militia units in the city. Further instructions are expected this afternoon.

In each re-organized unit a commanding officer, preferably with overseas service, and after due consultation with the old officers of the corps (overseas and militia) will be selected and gazetted to command.

The new commanding officer will prepare a new slate of officers with due regard to war service, previous military rank, and after due consultation with the old officers of the corps (overseas and militia) will be selected and gazetted to command.

The rank and file being automatically discharged, the commanding officer has a clear field for re-organization in suitable ranks, and vacancies for new men of overseas experience, not former members of the unit.

A new general order will be immediately promulgated getting all officers on the new cadre. All officers on the old strength not reappointed, will be disposed of in one of the following ways: transferred to the corps reserve of the unit, transferred to the reserve of other units, Canadian militia, or retired.

Officers appointed to the active list will be recommended for such substantive rank as they may be appointed to in accordance with the establishment of the unit. Those who are recommended for a brevet, rank equal to the rank held by them in the reserve, will be recommended for a brevet, rank equal to the rank held by them in the reserve. They will, if recommended, be considered for promotion by war service for the next highest rank to any rank held by them in C. E. F. for a period of six months. If recommended for a substantive rank higher than that which they qualify as above, such appointment will be provisional, on re-organization, and subject to qualification.

The corps reserve of each unit of the active militia will be, for the present, not limited to any number of the various ranks. Officers with C. E. F. service may be recommended for appointment to the reserve of the unit in which they were qualified for appointment to the C. E. F. reserve, and with substantive rank one grade lower. They will be struck off the active list under the same conditions as without C. E. F. service may be appointed to the corps reserve of a unit in accordance with existing regulations.

Officers with C. E. F. service, who do not desire to be directly associated with any unit on the corps reserve, may be appointed to the general militia reserve of the unit in which they were qualified for appointment to the C. E. F. reserve. They will be struck off the active list under the same conditions as without C. E. F. service may be appointed to the corps reserve of a unit in accordance with existing regulations.

Officers of either the corps reserve or reserve of officers, Canadian militia, with C. E. F. service, may be appointed to the active list under the same conditions as without C. E. F. service, set forth above.

Dinner for Bobby McLean

New York, Jan. 14.—American sportsmen, men famous in all branches of sport, to the number of fifty, will give "Bobby" McLean, world's champion ice skater, a royal send-off Thursday evening prior to his sailing for Christiania, Norway, the following day.

The send-off will take the form of a reception, moving picture exhibition, and dinner. The reception and moving pictures will be shown at Sportsmen's Headquarters, Fortieth street and Fifth avenue, and the dinner will be at the Healey's. The pictures shown will be ones taken of McLean in action at Lake Placid this week. McLean will skate Matheson on Feb. 7 and 8.

GERMANS SOUGHT TO SEVER CABLES TO SEWER CABLES

U-Boats Used to Cut Lines to Europe - Destruction of Radio Stations Planned, Report of Gen. Squier Shows.

That the German submarines while operating off the Atlantic coast during the war succeeded in accomplishing part of a supposed gigantic Central Powers plot to cut all cables and destroy all high-power radio stations on the American coast is practically proved in the annual report of the Chief Signal Officer of the United States Army, Mr. General George O. Squier, in which he details with the reported plot, says the New York Evening Post. The army was informed of the plan by the navy, whose information was from sources considered reliable, and also details the partial accomplishment which would have hampered the navy's submarine cable cut on May 28, 1918, about 100 miles from New York.

The New York-Canso, Nova Scotia, cable failed to function at 12:35 p. m. on May 28, 1918, about 100 miles from New York.

The evidence which led Col. John J. Coghly, vice-president and chief engineer of the American Telephone and Telegraph Company, then a colonel in the signal corps of the army, and other cable experts to assign the guilt to German submarines was the fact that German submarines were operating along the Atlantic coast at that time, and further that the severed section of each cable was studied by Colonel Carly and other cable experts, according to the report, and the results of their examination disclosed that the cables were cut and not merely worn out or damaged by ordinary causes.

The points at which the armored wires were severed in both cables showed clearly the evidence of a sharp cutting instrument, and the absence of rust on the ends of the armor showed that the cut was of recent origin," the experts reported.

A few months after the United States cables between the United States and Europe. Shortly before he sailed for France, in August, 1917, at a conference held with Colonel Carly and other cable experts in New York it was concluded that complete severance of the cable by the enemy was not impossible.

The navy reported early in May, 1918, that "the enemy was using submarine vessels to cut cables and that certain local European cables had already been severed, presumably by this means." In June, 1918, the navy said it had heard "from sources believed to be reliable that the Central Powers were making preparations to cut all cables on the American coast by specially constructed submarines, and also to destroy all high-power American wireless stations. If unsuccessful, the enemy intended to make wireless communication difficult by international interference by German wireless stations with messages coming from and going to American high-power radio stations."

The navy's warnings and the partial fulfillment of the prophecy, General Squier, as a result of the opinions of Colonel Russell, Colonel Carly and other cable experts, directed Colonel Carly to take the necessary steps to develop the radio-telegraphic communications between the United States and Europe in order that communication between the War Department and the commander of the American Expeditionary Force would not be destroyed if the Central Powers succeeded in severing the cables.

The report discloses that through the co-operation of the army and navy an efficient radio-telegraphic communication service between the United States and Europe was effected by developing to the greatest practicable extent the higher power radio stations on the Atlantic coast, which worked in conjunction with the high-power radio stations in Great Britain and Ireland, in France and Italy, and also some in Canada were utilized. The Navy Department completed as soon as possible the high-power station it was building in Annapolis. The navy designed and erected another station in France, near Bordeaux.

The Women's Missionary Aid of the Charlotte street church held its annual crusade day and silver tea yesterday. In the afternoon the service was conducted by Miss Clara Fullerton, assisted by Mrs. J. H. Jenner and Mrs. George Dishart.

Tea was served by Mrs. W. P. Hoyt, assisted by Mrs. R. Webb, Miss Nellie Rogers, Miss Hazel Clark, Miss Vera Webb, Miss Jessie Hart, Mrs. H. B. Jenner, and Miss Gertrude Thompson.

Mrs. George Mott had charge of donations. Rev. A. I. Teaford, Mrs. James Patterson and Mrs. Silas Gregg took part in the programme.

The annual meeting of the New Brunswick Bible Society was held in Newcastle, Tuesday, with the president, Hon. J. G. Forbes of St. John presiding. Rev. F. S. Porter of St. John, field secretary, submitted the financial report which shows an increase of \$1,600. George Henderson of St. John also spoke.

The eight-hour day will be inaugurated in the Moncton police department today.

"LIV-RITE TONIC" IS CERTAIN CURE

For All Liver Troubles It Cannot be Beaten - Learn About It.

The steadily increasing demands for "Liv-Rite Tonic" mean much in the appreciation of its value. It has made many favorites among people not only in St. John, but elsewhere through the province and many repeat orders have been given. It is hardly to be expected in the case of any medicine that a first trial will make a complete cure, especially if the patient happens to have been suffering for some time, but this can be said of "Liv-Rite Tonic," that it will cure where others fail and while it may not do so on its first being taken, a vast improvement will certainly be made and if followed with a repetition will mean a victory over the internal disorders.

"Liv-Rite Tonic" is essentially a liver remedy. It is rapidly taking its place as the banner liver cure of the day. Where there are various troubles due to a bad liver, weakening of the blood, loss of vitality, impurities in the blood, loss of appetite, sleep, constipation, diarrhoea, yellow checks, headaches, it is almost a certainty that the liver is the source of trouble. This is where "Liv-Rite Tonic" does its work. If you are bothered in any of these ways try this great medicine today. If your druggist can't supply you, send a dollar to Maritime Drug Co., 108 Prince William street, St. John, and they will be glad to do so.—(Advt.)

Mackenzie King Well Received in the Island

Charlottetown, P. E. I., Jan. 14.—A flattering welcome was accorded Hon. W. L. Mackenzie King, Liberal leader and member for Prince, at two meetings here tonight when he addressed very large audiences. A warm reception was given also to Ernest Lapointe, who was received in two able addresses. Hon. Mr. King was tendered a luncheon by leading business men soon after his arrival. Among his announcements with regard to the effect that he intended to offer in North York riding as he did not wish to try to stand in the way of local aspirants in Prince Edward Island, he was elected to run in the former.

He received a delegation from the G. W. V. A., which pointed out to him that there was much dissatisfaction with regard to legislation for returned soldiers and he announced that a committee of Liberals in the house would be appointed to take up the soldiers' grievances and present them to the government.

SICK HEADACHES CONSTIPATION

If you suffer from constipation, for years, tried doctors and all the remedies you ever heard of or read of, without getting relief, if you have been subjected to all the miseries associated with constipation, such as sick and bilious headaches, biliousness, specks floating before the eyes, water brash, heartburn, jaundice and the painful, troublesome, internal bleeding or protruding piles, etc., wouldn't you consider it a blessing to be able to keep the bowels in a good healthy condition and prevent disease getting a foothold on your system? Do you need constipation relief? Our regular use relieving the worst cases of constipation.

Mrs. Malgoin McDermid, Cranston Station, N. S., writes:—"I have been sick for number of years with constipation. I tried all kinds of doctor's medicine, but none did me any good. I tried Milburn's Laxa-Liver Pills, and after using four vials I am completely cured and would heartily recommend them to all sufferers."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

QUEBEC CIVIL SERVICE SALARIES

Statement in Legislature - Registered Nurses to Be Incorporated.

Montreal, Jan. 15.—A despatch to the Gazette says Provincial Treasurer Mitchell told Arthur Sauve, leader of the opposition, that the average rate of salaries paid civil servants in the province as confederated was \$384.59 a year. In 1908, when the Gouin government came into power, the average was \$1,081, and on June 30, 1919, the average was \$1,419. Since May, 1912, the treasurer said, each permanent employee had received increases of \$50, \$100 and \$200, according to classification provided by law.

Second reading was given Mr. Miller's bill to admit women to the practice of law, and also to Mr. Tessier's bill in regard to exempting municipalities from actions for damage on the part of motorists who are themselves guilty of infractions of the motor vehicle law.

Second reading was given a bill to incorporate the Association of Registered Nurses of the Province of Quebec.

Winnipeg, Brandon, rural Saskatchewan, Calgary, Vancouver and Victoria. In the course of an interview with a representative of the Toronto Globe, Dr. Day spoke of the rise of the "Labor Church" in the cities throughout the west.

"In nearly every large centre so-called 'Labor Churches' are being formed," said Dr. Day.

"Are these churches popular?" asked the Globe.

"I couldn't say that they are popular, but they are there; and they will undoubtedly be a great factor in the life of the west."

"What is a Labor Church—is it a church or a lecture room?"

"They call it a church," replied Dr. Day; "whether they have anything more than a lecture I don't know. It

seems to be an effort to combine both the church and the open forum."

"Is the congregation allowed to question the minister, or to ask questions?"

"I suppose it would provide a great opportunity for discussing both social and religious questions."

Dr. Day stated that many of the ministers of these churches have come out of the other churches, and he believed that they were sincere in their desire to realize the church with the labor movement.

A \$20,000,000 Hotel.

"I am still negotiating for the purchase of Devonshire House," J. M. Bonham, who is known in America as "The Hotel King," told a London Daily Chronicle representative.

"If I am successful in putting the deal through I intend to build on the site an hotel worthy even of London, and which, as a business proposition, will cost about \$4,000,000. In addition, I would probably erect some residential flats that would not be without their special attractions."

"Failing the acquisition of the Devonshire House site, I shall endeavor to find an alternative spot somewhere in the West End."

"My general idea is to build an hotel

following somewhat the lines of my newest New York hotel—the Commodore. In this hotel there are 2,000 rooms and 2,000 baths, and it boasts the largest ball room in the United States.

"I am not here to revolutionize the hotel business, but it is my ambition to go one better, and to give London the best hotel that has ever been done in the world."

Majors Must Move. New York, Jan. 13.—The minor league clubs of the country have notified the major organizations that if they want a new working agreement with them they themselves must make the first move. The proposition must come from the majors. Just what arrangements will be reached is unknown at this time, but the feeling among the bigger fellows is that if the minors desire to work in harmony with them they must make the first offer. This makes it appear as if the two factions are as far apart as when they split last year.

Milwaukee Club Sold. Milwaukee, Wis., Jan. 12.—The Milwaukee American Association Baseball Club has been sold by Clarence Rowland and Hugh Brennan to a local syndicate at a figure said to approximate \$100,000. William H. Parker, formerly a Milwaukee newspaper publisher, is said to be among those acquiring the property.

Besides Park, those interested in the purchase of the Milwaukee club are Joseph D. O'Brien, secretary of the New York Giants; Otto Berchert, head of a local boxing club; W. F. Kinsella, a local business man, and a number of other well-known Milwaukeeans. O'Brien will retain his position with the New York Giants, but probably will be elected vice president of the Milwaukee club, with Otto Gorchert as president.

The following article appears in one of the Halifax exchanges:—"Speaking of the aster town, we would like to hear a little more of that coming baseball franchise of theirs. Halifax is interested to see the burg on the Reversing Falls get a wallop at the horse hide this coming summer, and while they will probably fall in their plans to get Brennan for coach they should not give up the idea."

At the present time there is not much more that can be said about the franchise. Until a meeting of the New England League is held those behind the movement here must bide their time and hope for the best. In the near future we hope to be in a position to give not only the fans in the sister city, but also those in St. John something definite.

The same Halifax paper also says that they never heard tell of a fighter named Lou Thompson, who is said to hail from Nova Scotia and claimed to have beaten right. The article was sent in to the sporting editor of this paper, but the writer had in some manner got the names of two of his men mixed. The boxer who is in Nova Scotia and is desirous of meeting any welterweight in the maritime provinces is named Williams not Thompson.

Everybody Knows that this is an actual bona-fide reduction—not a sale of odds and ends, but a reduction on every piece of merchandise in our store—a reduction on prices already below normal, because our volume of turnover is such that we can do business on a very minimum of profit. We get the volume. You get the benefit of better qualities at lower prices.

The Values Offered in this sale are indeed wonderful, and they are possible only through our great special purchases for cash at rock bottom prices, as well as enormous reductions from our entire regular stock.

Following is listed only a few of the many money-saving opportunities.
