Andrew Gibbon Meets Death in the Commercial Hotel, Fredericton—Cows Struck by Lightning

(Special to Times.) Fredericton, May 30.—Andrew Gibbon, a native of Ireland, who has been working in the woods near Tracy station for several months, met with a fatal accident in the Commercial Hotel early this morning.

Andrew Gibbon Meets Death in the Commercial Hotel, Fredericton—Cows Struck by Lightning (Special to Times.) The Standard this morning contained an article several columns in length, the gist of which was the statement that a contract, between the provincial government and the St. John & Valley Railway Company for the construction of the St. John Valley Railway is ready for signature, but that it has not been signed because the federal government will not give the federal subsidy of \$2,000 a mile for such a road.

The Standard's article refers to the Gould scheme for a road from some point near Quebec, across Maine, into the parish of Andover, and thence down to Gagetown and across country to St. John. The Standard's article attempts to represent Hon. Mr. Pugsley as the chief obstacle to the construction of the Valley Railway, and to suggest that the Minister of Public Works today by the Times, and he made the following statements regarding the subject.

"Mr. Fleming's statement does not alter the situation. He has been informed by me that, in pursuance of the policy which the federal government adopted at the request of a delegation, representing the St. John Valley Railway Company, and the people of the St. John valley generally, and of which delegation Mr. Fleming was a member, namely for the construction of a high class road to be operated as part of the intercolonial railway, a subsidy for a line from a point of connection with the National Transcontinental at Grand Falls to the city of St. John.

Shows No Reason for Change "Mr. Fleming's statement does not give me good reason for departing from that policy. A road operated by the I. C. R. upon the basis agreed upon, of handing over forty per cent of the gross earnings to the company to pay interest on the debt, is a very profitable proposition for the province. Mr. Fleming's plan and to be operated by a company without any security against default in its interest payments. But, in order that the public might understand fully what this means, I should have stated that the provincial government has taken authority to sell the bonds and hand the proceeds of the sale to the company from time to time, out of which it will be able to discharge the interest. In other words, the provincial government would be furnishing the money which, in turn, the company would deposit with the government for security.

Need Have No Capital In view of the fact that all the contracts would be bound to under the proposed contract would be to build a line from a point in the parish of Andover to a point of junction with the G. P. R. at Welsford, with no heavy bridges, and which would be of the character of a second class road (having in mind modern railway construction) if the company secured the dominion subsidy in cash of \$2,000 a mile, and the proceeds of the provincial bonds.

Mr. John Tyrrell

Scratched Until I Tore the Flesh

"It was in the latter end of the year 1903 that a nasty itch came through my skin, and I scratched it until I tore the flesh. I used several ointments to no effect. I went to a skin hospital. They advised me to go to the hospital, but I refused. I could not sleep with the constant itch. I was that way until one day about the month of January. One day I chanced to see the name of Cuticura Soap and Ointment in the paper. At last I had a remedy. I used it, and I found that I got one lot of Cuticura Soap and Ointment all right, and I used it after it. I have not had any more of the same itching since, and I have been able to sleep nights, but I can sleep as well as ever."

SNARK THEIF IN CHURCH

Chatham World-Collection plate was inadvertently left on the communion table in St. Mary's on Sunday before last, and some one entered and helped himself to part of the collection. The thief was familiar with the place, and had been there often before. He had placed pennies on the plate from which he stole dollars. He thought by leaving part of the money that the theft would not be discovered, but inquiry shows that certain envelopes and banknotes which were placed on the plate are missing.

The Evening Chit-Chat

By RUTH CAMERON

FOR man must work and woman must weep. And the sooner it's over the sooner to sleep— And good-bye to the bar and it's moaning."

"Oh, I wish I were a man. I could do so much more in my work." It was Molly, the little stenographer, who enunciated that sentiment. She made her moan before a group of half a dozen women, and four out of the six promptly echoed her sentiment.

"Just imagine being able to ask anyone you wanted to marry you, and not simply sit and wait to be asked," said the author's wife. "Aren't they lucky?"

"Wouldn't it be great to be able to travel around anywhere you liked and see the world and have adventures and never have to think about propriety?" mused the butler's girl.

The other two didn't give any reason, just said they'd always wished they'd been born boys instead of girls. Have you ever noticed how often you hear this sentiment expressed among women, especially of the younger generation?

"How I wish I had been born a man!" Why, to one young woman I've heard say she was heartily glad she was a woman, I've heard ten say they wish they had been born on the other side of the fence.

Incidentally, I can't recall that I ever heard a man say he wished he had been born a woman. Can you?

Isn't it queer? And yet I can't quite condemn the attitude, because I must confess that I've been one of the few sometimes.

But I do think there is a good deal more on the reverse of the medal than many of us who envy men their freedom and their opportunity to do big things, realize. For instance, I've often heard one of these would-have-been-men say with a sigh of relief when the work went badly, "Oh, well, I suppose, I shall get married and stop work some day."

Please remember that a man, no matter how strenuous and exhausting the competition, no matter how disagreeable the conditions of his work may be, cannot look forward to any such relief. Marriage means to him merely the shouldering of new and tremendous responsibilities. He cannot fall now, he cannot drop out of the ranks. He must keep on, no matter how tired and weary of life he may be, once he has given "hustage to fortune" in the shape of a wife and children.

Again, we think it must be splendid to be able to seek out the one you love and who loves you, instead of sitting with folded hands hoping against hope that the right man will come for you, which, like as not, he never will.

But turn the medal over again. Isn't it wonderful to know that the one who lays his heart at your feet has chosen you out of all the human beings he knows to be his mate? The man can only know that the woman has chosen him out of the few who have sought her, no matter how good she is. There is one joy in having the right man choose out of all the world, but there is another joy in being chosen out of all the world.

These are but two ways in which the medal you thought had only one side can be turned over. Doubtless you can find others for yourself.

THE WAUGH-CLARK CASE

Text of Police Magistrate's Decision Which County Court Judge Reversed

Following is Police Magistrate's judgment in the case of Waugh vs. Policeman Clark which was reversed by Judge Forbes yesterday.

This is a case of rather rare occurrence in this city. The defendant, Clark, a constable of the city police force, is charged with assault, the alleged assault arising out of the arrest of one Waugh last Tuesday night.

Last month I sent a citizen to goal for ten months for assaulting a policeman. The defendant swears that on the night in question he saw Waugh alone, staggering along, that he said "Go home," that in about ten minutes he followed him up to Goddard's and said "Go home." Waugh said "He got me off my feet and put up a fight and tried to get away. I pushed him back with my hand. Tried to pull handcuffs on. Struck him once but not intentionally.

Gaffney said "Let me have him and I'll take him home. Two women came. He says he is satisfied that the cut on the back of the head was made by the hand cuffs. Waugh struck me before I arrested him. I may have made a mark on his throat. He got him up. Watching him from Union street, I did not first arrest him because he started towards home. Waugh was not then in company with the two. He was staggering and making head.

When 15 or 20 feet from him I took my gloves off. Did not grab him. He was in my shoulder. Did not grab him by the throat. Was holding him down when Gaffney came, straddled legs on my chest. He got me off six times. Gaffney said he would take him. I said "Let him alone I'm going to let him go. There were three men with him. Waugh was not then in company with the two. He was staggering and making head.

The witness for the prosecution are Clarence Campbell, Richard McCannand, Bart Gaffney, Mrs. Goddard and Mrs. Clark. Each of these witnesses gives his own version of the case and each bears out the text of the arrest and of the subsequent action.

The first question is: Should there have been an arrest? Admitting that an arrest was necessary, was it made? Was there any legal reason for the use of handcuffs? Was there any violence or force used? Was there any necessity for any violence or force used?

The defendant when he first saw him admitted that he did not arrest him because he started towards home. He was holding him down when Gaffney came, straddled legs on my chest. He got me off six times. Gaffney said he would take him. I said "Let him alone I'm going to let him go. There were three men with him. Waugh was not then in company with the two. He was staggering and making head.

The defendant's version of what took place differs from the version given by the crown witnesses. Was Waugh not going to a block of his home? Was he not out? How and by whom?

The defendant says that he is satisfied that the cut on the back of his head was not made by the handcuffs. Probably this is true. The evidence that blood was seen by the doctor and as shown to the court?

It is imperative, when buying, to look for the name H. P. and a picture of the British House of Parliament on the label for a sauce as good as this will often be found. Beware, never in the opinion of the writer, equalled.

Five may not prevail in the court or jury do not believe the five. But is there any good reason why Mr. Gaffney should not be believed? Is there any good reason why the young men Campbell and McCannand are not to be believed, and how about the two kind-hearted women who, in a most womanly way described the treatment of Waugh by the policeman?

Then we have the silent witness, the cut on the back of Waugh's head, such a wound as might have been made by pounding his head against the stone. Then we have the man's blood coloring the stones on the public street; the stone against which witnessed Waugh's head; that defendant pointed Waugh's head; that I have my own fixed opinion about the arrest of a drunken man who is not using profane or obscene language and who is going towards his home in company with his friends, but it is not necessary in this case to say further than that I believe the defendant guilty of the assault charged and he is imprudent in default of payment he be imprisoned in the common jail of the city and county of Saint John for two months.

GREATER ST. JOHN

An interview with the Minister of Public Works, published in The Times today, confirms and amplifies recent despatches from Ottawa announcing that the work in Courtenay Bay is soon to go forward, and that it will include a dry dock and ship repair plant, the first of the wharves for the Grand Trunk Pacific, together with a breakwater and the necessary dredging in connection with these projects.

Hon. Mr. Pugsley says that tenders will be advertised for in a short time and that it is his expectation that a contract for the entire work will be awarded by August. Some newspapers have attempted to create confusion by speaking as though the call for tenders was to be delayed until August, whereas the fact is that the tenders will be asked for in a week or ten days, and the contract will be let about two months later.

Some of the largest and most responsible English construction companies will be among the tenderers. There is sufficient money already voted to start the work, and more will be forthcoming as it is required. The awarding of the contract would, of course, remove all doubts even in partisan Conservative minds as to providing the money, for when the Dominion government lets contracts it never fails to see that they are carried through to completion.

Hon. Mr. Pugsley, in addition to his highly satisfactory statement about Courtenay Bay, confirms his previous position in regard to the Valley railroad. The Dominion government is ready to subsidize a line from Grand Falls to St. John, to be operated as part of the Intercolonial. This would afford the best possible protection to the province which is to guarantee the bonds of the road, and would give the entire valley a first class service and reasonable rates.

CANADIAN IMMIGRATION

Two millions of immigrants coming into Canada in a decade is a fairly good showing, and better still is the fact that these new fellow-citizens are so largely from Britain and the United States. For a long time when the adjoining republic was receiving the chief streams of people seeking new homes and new conditions, it was common for the immigrants to say: "America is a good country to make money in, Europe is better to spend it in." They saw the country mainly too much from the materialistic, money-making side.

Canada cannot be satisfied with any such partial appreciation. The twentieth century belongs to Canada, as Sir Wilfrid Laurier has often remarked, and this army of hordes who are entering should not only give her commercial and industrial supremacy but should make of her a world's exemplar. We are drawing immigrants from the best classes in other lands, and by reason of the opportunity and the special conditions in this country, we will always continue to do so. The criminal class among them are not numerous and the otherwise vicious are less numerous still. They are a great army of toilers—the very best classes that any country can receive.

Every opportunity should be given new arrivals to adjust themselves to conditions in this land to learn English, if they are without that language on arriving, and to become familiar with the institutions of the country. In one particular at least our immigration laws are immensely in advance of those of the United States, for while that country absolutely excludes those who have places in view or the prospect of getting places, Canada insists on the very opposite, that is, that each immigrant who has little money shall have a place to work or a prospect of getting one prior to admission.

The need of aggressive advertising on the part of the Maritime Provinces is shown more strongly than ever in the immigration bulletin which has just been issued. These provinces are getting nothing like their share of the incoming tide, and they are in every way better suited to the majority of the English and Scotch farmers who are coming into the country than is the West. New Brunswick has nothing like an enlightened policy in this matter of immigration. At present the newcomers simply land in this port to pass through the country. It is our fault if they are not made familiar with our conditions and induced to stop here.

THE CRIMINALOID

The word is coined by Professor Ross to indicate that class of men who prosper by flagitious practices which have not yet come under the effective ban of public opinion. They are criminals who are saloon rather than storage passengers in society. Their attitude is not that of the criminal, because through stock-watering and similar practices they distance their more scrupulous rivals and reap an uncommon worldly prosperity. With this worldly success as a shield and bulwark they are able to withstand the evil day, and having done all under able legal advice, they often succeed in weathering the evil day when it does come.

These men are often models of correct deportment in the ordinary affairs of life, but to make millions by mergers and stock manipulations they regard as sound business policy. In the enormous development which our country is at present experiencing such a man finds his sinister opportunity, and his triumph raises up a host of imitators who discover fresh opportunities for illicit gain. The ordinary criminal takes our purses, but this type takes our ideals; this is the reason why his devious works are so intensely anti-social. Sir Sanford Fleming's charge regarding the cement merger should be probed to the bottom.

GLASS CURTAIN, WEIGHT 27 TONS, FOR THEATRE

The first stained-glass theatre curtain to be constructed is now on exhibition at a well-known New York studio. It has been completed for use in the National Theatre of Mexico, in the City of Mexico. Absolutely without parallel in the realm of theatrical art, it has attracted the enthusiastic attention of several New York theatre men.

The curtain contains more than 2,000 square feet of glass mosaic and weighs 27 tons. It is divided into 50 panels each containing nearly 1,000,000 separate pieces of Favrite glass, which is a concrete composition thoroughly impervious to heat or moisture. These squares are set into a heavy bronze framework. The curtain is over eight inches thick. It will be operated by hydraulic pressure and will require seven seconds for raising or lowering. Although the curtain is in itself of sufficient artistic beauty to command instant admiration, it is only when played upon by the specially designed electric illumination that its real values are brought out.

This lighting is operated entirely from in front. The opalescent, iridescent qualities of the glass when under the play of this illumination give a touch of realism to the picture that makes it seem a real Mexican landscape rather than a merely artificial reproduction on a flat surface.

The curtain is the conception of Senor Adamo Bani, a distinguished Mexican architect, who is also the creator of the theatre for which it is designed. This theatre, now nearing completion, has already cost over \$8,000,000. It will seat 2,000 people, and with its ramps, fountains and gardens will occupy five acres.

GETTING OUT THE STRENGTH

Among the applicants for the conscription in a Richmond household was a rather dashing young fellow. The lady of the house was rather doubtful as to the ability of the militia, and therefore propounded more than the usual number of questions to her. Some were fairly satisfactory; but when the interrogatories touched the question of making tea, the negotiations were declared off.

"How long do you boil tea?"

"Well, ma'am," said the fellow, "that's matter of taste, ain't it? Some folks boil it longer, an' some shorter."

"But you do boil it?"

"Cert'n'y, ma'am, I boils it. Pussenly I always thought dat two hours was long 'nough to hile any tea. 'Yer 'im git de strength outen any kind of tea in dat time."—M. Lippincott's.

THE LAND OF THE MIDNIGHT SONS

(W. Paul McCormick—Jack Thornton—in the New York Herald.)

Hear the rattle of the windlass, as our anchor comes away.

We are bound for pack "Point Barrow," and we make a start today.

Keep a tight hold on your dinner for outside the North Wind blows.

And unless you are a sailor you'll be throwing up your teeth.

Up into the Polar Sea where the nights the same as day.

Where our creditors can't touch us for the best part of our pay.

Where there are no lubbers, sea-sick where the ship forgets to roll.

And the sun comes up at midnight from the ice-pack round the Pole.

Take me back to Old Point Barrow, for its there that I would be.

I am sick of this old country, and I guess it's sick of me.

I am tired of dodging tailors, fighting nickel slot machines, and playing cards with fellows who were dragging off my jeans.

Up into the Polar Sea where ice is de-livered free.

And a man don't have to hustle a bally bundle bag.

Where there's no Salvation Army, where the church bells never toll.

And the sun comes up at midnight from an ice-pack round the Pole.

I've enough of gay theatre, fancy drive and one night ball.

Get introduced to some fair dame for one whirl round the ball.

On the street next day she greets you with an educated stare.

She remembers to have met you but she dis-remembers where.

Why up in the Polar Sea where the In-muit maidens be.

There's a fat, black-eyed "Wassena," who is longing now for me.

She is sitting in her "reeloo" chewing on a "muck-luck" sole.

When the sun comes up at midnight from an ice-pack round the Pole.

Mr. Goodness—Well, you may say what you like about your minister being inexperienced, but I have nothing but praise for your young pastor—nothing but praise.

ARE YOU ANAEMIC OR BLOODLESS?

If so, the Spring is a Most Trying Time for You

Your Hope Rests in Getting the Blood Rich and Red by Using

DR. CHASE'S NERVE FOOD

Shortness of breath and fatigue with slight exertion, failure of the vital organs to properly perform their functions, and pallor of the gums and eyelids, are among the indications of anaemia or bloodlessness.

The blood is thinner and more watery in the spring than at any other season, and for this reason the person who is subject to anaemia, a lack of blood, suffers the most.

You may increase the number of red corpuscles by using Dr. Chase's Nerve Food. This great nutritive treatment does not merely stimulate the system, but it rebuilds it, and the system is both naturally and permanently strengthened.

Sleeplessness, indigestion, neuralgic and sciatic pains, and irregularities of the vital organs become a thing of the past when Dr. Chase's Nerve Food is used.

It is only natural that you should get strong and well when this building-up treatment is used, for it supplies to the blood in condensed and easily assimilated form the elements which go to form new, rich blood.

Your digestive system has failed to extract sufficient nutrition from the food you eat, and hence the necessity of such direct nourishment as is supplied to the blood by Dr. Chase's Nerve Food. Six boxes, 6 for \$2.50, at all dealers or Edman-son, Bates & Co., Limited, Toronto.

CHIEF CLARK MUST PAY OWN EXPENSES

Safety Board Refuses Grant for Attendance at Police Chiefs' Convention - City Fire Matters

At a meeting of the safety board yesterday afternoon a request from Chief of Police Clark to a grant of \$50 towards his expenses while attending the meeting of the Association of Canadian Chiefs of Police in Ottawa, of which he is president, was refused. The holidays of the police men, firemen and police janitors were recommended fourteen days all round. The grant to Nos. 1 and 2 Salvage Corps was increased from \$200 to \$300 per year and a committee was struck to take into consideration the introduction of motor power into the department to handle the vehicles. Ald. McLeod moved that a sum be set aside to form a savings corps for the west side but the motion was not considered.

AN INTERNATIONAL WEDDING

Claude Bryan Annette Furness

Son of Canadian rector weds niece of a wealthy English Lord. This was one of the biggest international weddings of the London marriage season. Mr. Bryan is the son of Rev. Bernard Bryan, rector of the Church of the Epiphany, Toronto, and Miss Furness is niece of Lord Furness, head of the great steamship line, and incidentally head of a recent big steamship merger on the Canadian-American States great lakes. Hon. Mackenzie King, minister of labor for Canada, was groomsmen. Sir Wilfrid Laurier and many titled people were present. Lord Furness gave the bride away.

Ex-Policeman Crawford will get a new overcoat and trousers to replace those destroyed in aiding the police in an arrest.

W. C. Haslam's request for renewal of lease of a lot in Protection street was sent to the board of works. May G. Christopher was given a renewal of a Guy's ward lot lease. W. C. Haslam's application for lease of a lot at St. James and Lancaster streets was held up and the availability of selling the lots in that section will be considered.

The renewal of leases of lots was granted to Joseph A. Robert B. and William McIntosh, Rodney street; Jasper E. Cameron, corner of Watson and St. James streets; west end; Sarah E. Smith, west end; W. J. Fox was refused a lease of a lot in Lancaster at 840, John Sims of Fairville offered \$25 for a lot on the Manawagonish Road under rental to Mr. Taylor for \$23. He claimed that the latter had it by private arrangement with the director while he had to make a formal application. The director said he had power to rent the lot privately. As Mr. Sims said that he would make other charges a committee was appointed to investigate. The chairman appointed Alderman J. B. Jones, Green and Elliott with the director. GREAT WORKS TO GO ALONG AT SAME TIME

Dry Dock and Ship Plant Linked With Dredging, Wharf Construction and Breakwater Work—Courtenay Bay Contracts in August

In addition to matters touched on by Hon. Mr. Pugsley in the Times interview yesterday the minister said: "The work at Courtenay Bay will surely be proceeded with and the tenders will be called in a very short time and, just as soon as possible after they close, the contract will be awarded. The tenders will not only include the construction of the breakwater, Grand Trunk Pacific wharves and the necessary dredging, but for a dry dock and ship repair plant as well. It would have been an easy matter to have asked for the dredging and the construction of the wharves and the breakwater some time ago, but I thought it better in the interest of St. John that the dry dock and ship repair plant should be linked up with these other large public works in order that they might go along at the same time. For example, the rock excavated necessarily for the dry dock can be used in part for the construction of the breakwater and other material not required in one place can be utilized in another. "The people of St. John and of the province will be glad to learn that we have been able to interest some of the largest and most responsible English construction companies in this great undertaking and have their assurance that they will be pleased to tender. Parliament has voted sufficient money to make a start, the plans are about ready and giving a reasonable time for the contractors to figure I think we should be in a position to award the contracts in August of this year. "While speaking of railways, the minister was asked when the branch line legislation would come up. "Just as soon as parliament reassembles," he replied, "and when the measure to take over the branches passes action will be taken along these lines as soon as possible." Dr. Pugsley gave assurance to Dr. McAllister, M. P. for Kings-Albert, who met him at Sussex and who assured him in an interview that secret taken in that question in Albert county at the present time. "Some reference made to the Valley Railway situation caused Dr. Pugsley to say that he was sure the people of the valley and of the province would agree with the position taken by the federal government in agreeing to subsidize the valley road from Grand Falls to John's Bay for its operation as a part of the Intercolonial Railway, which would ensure the protection of the provincial interests and a splendid service.

Daily Hints For the Cook

SOUP MILK BISCUITS. One quart sifted flour, two very heaping teaspoons cream of tartar and one not quite a heaping of soda. Sift again, then mix stiff enough to handle easily with sour milk. Knead, roll about half an inch thick, cut into biscuits and bake in a quick oven. If milk is creamy they need no shortening. If not, rub a small piece of butter or lard into the flour. BROWN BREAD. One-third cup Indian meal, two-thirds cup rye meal, 1 1/2 cup flour, 1 1/2 cup molasses, two-thirds cup sour milk, half cup raisins, 1 1/2 teaspoon saleratus (mixed in sour milk), pinch of salt; steam in a one-pound cocco can. It is a little larger than a baking powder can, with a tight cover. Put it in a 5-pound lard pail and put in hot water enough to go half way up the small can. Cover tightly and steam in oven for two and a half hours. Just enough for two.

A Delicate Rose-Tint Given to Complexion

(From What to Wear.) "Oily, shiny skin," says Marguerite DeVale, "can be given a delicate rose-tint, and delightful clearness to the complexion, and greasy creams are avoided, and a simple, inexpensive lotion used made by dissolving in eight ounces of water one ounce of a small amount of the finest of myrtle leaf extract. This lotion applied to the face, neck and arms freshens the complexion, softens the skin and gives to it a rich, velvety softness, and its continuing use lends a charm and elegance to the hair or to an unattractive complexion. "Another advantage of the myrtle-rose lotion is that it crosses and will not grow hairs, while it protects the delicate complexion from changeable weather and guards against freckles and tan."

CITY EMPLOYEES ARE SEEKING HIGHER PAY

Matters For Board of Works To Consider at This Evening's Meeting

There will be considerable routine business to be dealt with at this evening's meeting of the board of public works. Among other matters for consideration is a request of the city laborers for more pay, the men of the scavenger department making \$1.75 and quarrymen and asphalters \$2 each a day.

There is also a recommendation that the New Brunswick Telephone Co. be granted permission to lay conduits in Dorchester street, City Road and Wall street under an agreement to be prepared by the recorder. The board will have a recommendation that all permanent employees be granted ten days vacation.

The matter of placing the supervision of the streets under Assistant City Engineer Hatfield will also be up for consideration. Regarding this departure it is understood that it will occasion some discussion and from what can be learned the West Side aldermen are against it.

C. J. WARD'S ESTATE

Will in Probate Today - A Lorneville Matter

In the probate court today, the will of Charles J. Ward, tavern keeper, was proved. He gave all his estate to his wife, Mrs. Anne Ward, absolutely. The testator died on March 12 last; his widow on the 28th day of the same month, which was proved by her husband's will, died. The wife made her will appointing Andrew McIntosh of the Parish of Simonsville, executor and trustee, and directed him to divide her property one-half to be given to her adopted daughter, Esther White Ward, the other half to be equally divided among her sisters and half brother and half sister. Practically all of the estate of which Mr. Ward was seized was what she got from her husband, Charles J. Ward left no relatives so far as known except a niece whose residence is unknown here. Accordingly administration with the will annexed was granted on the husband's estate to Andrew McIntosh, the executor and trustee of the wife's estate. Real estate in British street is valued at \$1200, personal estate consisting of the leasehold in which the deceased did business, namely the One Mile House, and other personal property valued at \$4,800. J. B. M. Baxter K. C. is proctor.

In the matter of the estate of Mrs. Martha Stinson, late of Lorneville, the accounts and vouchers of Anne, Jane Cochran, widow, the administratrix, were presented with a petition to pass them. A citation was issued returnable on July 17. J. King Kelley is proctor.

THREE CHARGES ARE MADE AGAINST BOY

Arthur Lockhart Arrested on Suspension Bridge Last Night - Theft, Getting Goods on False Pretences and Truancy

Arthur Lockhart, a twelve year old youth, was arrested between 10 and 11 o'clock last night by Policemen Lee and Clark, and in the police court three charges were read against him. He is charged with having stolen \$2.25 from Mrs. William Thompson on Monday, May 29, in the house of Mrs. Frank Craft in Water street, also with obtaining goods under false pretences from Harry Sparks store in Douglas avenue on Monday, 29th, and also with truancy.

On Monday Mrs. Thompson, who resides in St. John street, west end, hinted to her husband's dinner to him. On his return she gave him ten cents, which she took from a pocket-book in his presence. Soon after she put the pocket-book in her pocket and went down to Mrs. Craft's house.

She left her coat in the hall and went inside. When she returned for the coat she could not locate it. However, about 10.30 last night they caught him on the suspension bridge, as he was returning home from the city. He admitted the theft and went along with the police. He said that he had been in town all afternoon and evening and had visited six picture theatres and ten restaurants.

Lockhart was employed with Mr. Sparks, who keeps a confectionery store in Douglas avenue, and one on the west side, selling potatoes, but was discharged on the 29th. However, he went into the avenue store and told the girl that Mr. Sparks had sent him four or five peanuts and candy. He received the goods to the value of \$1, and departed. The police were looking for him on this charge. On several occasions he visited his home, but he had always made a getaway, escaping out of a window and over roofs. Several witnesses were in court this morning, but the case was adjourned in order to have the facts in regard to it.

CARLETON WEDDING

Clarence O. Dale's, Now of Boston, Weds Miss Jennie Muriel Cunningham

A very pretty wedding was solemnized in the Carleton Presbyterian church at 9 o'clock this morning, when the pastor, Rev. H. R. Reed, united in marriage Miss Jennie Muriel Cunningham, daughter of William A. Cunningham, of the West Side, and Clarence O. Dale's, now of Boston, T. O. Dale's, of the C. P. R. here. The church was very tastefully decorated with tropical plants and lilies. The ceremony was performed in the presence of a large number of friends and relatives of the bride and groom. The bride looked charming in a fine tailor made suit with a black picture hat, and carried a bridal bouquet of lilies of the valley. She was given away by her father, and was unattended. Miss Nettie Retallick presided at the organ.

After the ceremony the bridal party drove to the Union Depot and left on the Boston train on a fifteen minute trip to Boston, New York, Buffalo, Washington, Philadelphia and Albany. Mr. Dale's holds a lucrative position in the office of the general manager of the Boston & Albany Railroad and has been living in Boston for several years. The popularity of the young people was attested by the large array of beautiful presents they received. The groom is a graduate of the St. John School, and has a great many friends in the city. Mr. and Mrs. Dale will reside in Newtonville, Mass.

THE MEN WHO WILL TAKE SCHOOL CENSUS

The work of taking the census in the city schools is to be conducted during the next two or three weeks, and some of the enumerators began their duties this morning in their respective wards. They will visit the houses, each street in the ward to which they are assigned, and take the names and ages of the children from five to fourteen years. When this has been done, the lists will be compared with those in the registers of the schools, and in this way the number of children who should attend school, as well as the number who do not, will be determined.

Supt. H. S. Bridges this morning gave out the following as those who had been selected as enumerators, with their respective wards: - Harold Gardiner, both wards St. John west; Caleb Belyea, Landsdowne; W. J. Short, Lorne; Albert Peters, Queens and Duke; Frank McGuire, Prince; Martin Layton, Kings; R. A. C. Down, Dufferin; Mark Stevens, Wellington; James McKinney, Sydney; Daniel B. Collins, Victoria; and James O'Leary, Stanley.

NO BOY SCOUTS FROM HERE TO CORONATION

So far as is known at present none of the local members of the various detachments of boy scouts is planning on attending the coronation festivities in June. W. H. Moor, Y. M. C. A. boys' secretary, announced some time ago that an opportunity was presented for the boy scouts of this city to attend, but up to the present none have accepted it, and it is thought unlikely that any will go.

POLICE COURT TODAY

Two prisoners on drunkenness charge and one charged with being a vagrant faced Judge Ritchie in the police court this morning. Robert Campbell was fined \$8 for drunkenness and Frank Dunbar \$4 for a like offence. Michael Dunn, arrested for being a common vagrant, with no means of support, was allowed to go on condition that he leave town at once. Dunn told the court that he belonged to the United States, but came to this city from Halifax to seek work. "How can you get out of town," asked the magistrate. "I can walk," answered Dunn. "Then start walking," replied His Honor, and Dunn did.

PICNIC POSTPONED

At a meeting held in their rooms last evening the members of Branch 482, C. M. B. A., decided to postpone the holding of their picnic from July until on or about Labor Day next. The picnic will probably be held at Chapel Grove.
