ECONOMY AND PUBLICITY
FOR THE NEW YORK LIFE

President Kingsley in a Letter
to Policy Holders Outlines
a Radical Departure from
Former Methods—No Limit
to Business

NEW YORK, July 19.—Economy,
the widest, fairest and fullest publicity
and continuation of a world wide
policy is to be the keynote of the new
administration of the New York Life
Insurance Co., as announced by Pres-
ident Darwin P. Kingsley in his first
letter to policy holders, which was
made public today. Mr. Kingsley in
his letter says he believes the state
of New York has made an economic
mistake in putting an arbitrary limita-
tion upon the amount of new business
which the company may do in a
year. He believes that in the interests
of policy holders the company should
be permitted to do what business it
can do normally do within the limit
of expenses fixed by law. "If, how-
ever, we learn from larger experience
that we are wrong in this belief," says
the letter, "and that a life insurance
company can better serve its members
if it has only 1,000,000,000 of insurance
instead of only one hundred million, it
operates in one country instead of
all the countries of the world, then
I shall be quick to recognize that fact
and shall act accordingly."

McGILL GRADUATE
WINS HIGH HONOR

Herbert J. Rose Award Fellowship in
Exeter College at Oxford
University.

(Montreal Star.)
News has just been received here of
the latest honor bestowed on Herbert
J. Rose, the brilliant classical student,
who three years ago was sent to Ox-
ford University as one of McGill's
Rhodes scholars. Rose has been award-
ed the Herbert J. Rose Award Fellowship
in Exeter College, Oxford, one of the
highest honors in the gift of the
British Empire, and should he
desire to follow out the course of study
in which he has already done such ex-
tensive work, he will now be able to do
so with the greatest facility.

Mr. Rose has had a most successful
career in scholarship, both at Montreal
where he graduated in Arts with first
rank honors in classics, and at Oxford
where he has now completed his course
as a Rhodes scholar. At Oxford he
has won prizes and honors throughout
the course. Among other laurels, he
has won the Ireland and Craven scholar-
ships in one year, these being the
premier honors in classics in the Uni-
versity, and also the Chancellor's Latin
essay prize.

POPE HONORS THE
KING OF ABYSSINIA

ROME, July 19.—The Pope has com-
missioned Father Maria Bernardo of
the Capuchin Order and head of the
Harrar leper settlement in East Africa,
to convey his autograph letter and the
grand Cross of the Order of the Holy
Sepulcher, to King Menelik of Abyssinia.
Father Bernardo arrived in Rome
in the latter part of March bearing an
autograph letter from King Menelik to
the Pope and conferring on his holiness
the decoration of the Star of Ethiopia.

PEDLAR PALMER GETS
OFF WITH FIVE YEARS

LONDON, July 19.—Pedlar Palmer, the
English pugilist, has been sentenc-
ed to five years' penal servitude for
having caused the death of Robert
Choat, a gas house stoker, of Deptford.

ROME, July 19.—M. Cuchida, the
special Japanese ambassador to the
Vatican, has arrived here bearing an
autograph letter from the Emperor of
Japan to the Pope. The Emperor ex-
tends his thanks to the Pope for having
sent a special envoy to him in the per-
son of Mr. Okumura.
PARIS, July 19.—Victor H. Hallet,
the novelist, is dead. He was born in
1850.

RUNAWAY BOY TRIED TO
JUMP OUT OF WINDOW

Several Marriages in Moncton—More
Liquor Dealers Summoned
to Court.

MONCTON, N. B., July 19.—Russel
Maxwell, the twelve-year-old lad who
ran away from his home in Truro, and
is being kept here until the police take
him back this morning attempted to
jump from the second-story window of
the boarding house where he is being
kept. He had climbed out of the win-
dow and was all ready to drop when
one of the other boarders saw him and
pulled the lad back to safety. He
will probably be taken back to Truro
today. Maxwell claims he ran away
because his stepfather ill-treated him.
In St. Bernard's church on Wednes-
day an interesting wedding event took
place when Miss Ellen, daughter of
Mrs. Peter Lege, was married to
Oscar LeBlanc, son of Peter D. LeBlanc,
all of Moncton. Rev. Fr. Bellevue,
Grand Vicar, performed the ceremony.
At the residence of William Budd
yesterday, his son, Fred Budd, was
married to Mrs. Ella May Budd.
Constable Belyea, of Shediac, was
here today, and served several more
Scott Act summonses on local dealers,
issued out of Shediac court. Richard
Herbert has already been fined fifty
dollars and costs at Shediac and three
other local courts. There is no Scott Act
inspector in Moncton at present.

MIKE SULLIVAN IS
HERE ON A VISIT

His Brother is Still Looking for a Fight
With Downs.

Among the arrivals on the steamer
Yale this morning was Mike (Twin)
Sullivan who has just dropped in to
meet some old acquaintances. The boy
is out of everything foreign to the
prize ring but he happened to mention
that he has still in the vaults of
the Boston American one thousand
dollars posted for a match between his
brother John, and Burns, the world's
champion, and, says Mike, "There is
\$250 for a side bet."
Jack Sullivan since his visit to St.
John is much heavier and he has many
admirers who think that he should be
given a chance at Burns for world's
championship honors, instead of men
like Squares who drop into America as
strangers. Mr. Sullivan will remain in
the city for a few days and will then
return to his home in Cambridge, Mass.

A HUNDRED HEAT VICTIMS
TAKEN TO HOSPITALS

PHILADELPHIA, July 19.—Of the
thousands of persons overcome by the
heat while watching the Elks parade
yesterday, about 100 spent the night in
hospitals. Many of them were discharg-
ed today. The number of deaths due
more or less directly to the heat num-
bered four and there are about a dozen
cases considered serious by the hospital
physicians. The dead were residents of
this city and those still in a serious
condition are also Philadelphia. The
big feature of Elks' week being over,
thousands of visitors left town
today either for the various seashore
resorts, the Jamestown Exposition or
their homes. There is still a great num-
ber in town.

LALLY THE WINNER OF
THE ECLIPSE STAKES

LONDON, July 19.—The eclipse
stakes, 10,000 sovereigns, distance about
one mile and a quarter for 3 and 4
year olds, were run at Sandown Park
today and won by W. B. Pursey's
chestnut colt Lally. W. B. Bay's Ancoy
was second and Lord Roseberry's Be-
zonian was third. Seven horses started.
Sancy was a hot favorite.

SENT UP FOR TRIAL.

LONDON, July 19.—Mrs. Josephine
Leslie, who was arrested at Newmar-
ket, July 4, charged with defrauding
members of a well known family by
false pretenses and who represented
herself as a friend of J. Pierpont Mor-
gan, has been committed for trial at
the Central Criminal Court.
The first iron steamship was built
in 1839.

CENTRAL AMERICA
READY FOR PEACE

Little Stands in Way Other
Than Question as to Who
Should Get the Credit

United States Ready With Mexico to Lead
Helping Hand When Requests From
Governments is Unanimous.

WASHINGTON, D. C., July 19.—Central
American peace is within sight but
the question of recognition will get the credit
for its accomplishment is a burning is-
sue. Through his Minister of Foreign
Affairs, Senator J. D. Games, who is now
here, and his Minister to the United
States, Senator Cora, President Zelaya,
of Nicaragua, is now trying to bring
about the calling of a conference of the
five Central American republics in
Washington. After a conference with
the Assistant Secretary of State, Robert
L. Bacon, today, Senator Cora said:
"There will be, as far as Nicaragua
is concerned, no fighting in Central
America, Nicaragua is for peace."
This came as support to earlier re-
ports that finding both the United
States and Mexico would lend no sym-
pathy to President Zelaya's aggressive
policy of forcing a confederation of all
the Central American States. Zelaya
had changed his tactics and would at-
tempt to point the way to peace.

Other Central American governments
may enter finally into a Washington
conference, but they do not look kindly
upon any peace suggestions emanating
from President Zelaya. His course of
action during the last year has caused
him to be hated and distrusted by Sal-
vador and Honduras. The former has
broken the treaty of Amapala, which
ended his war with Honduras, before
the ink was dry. Honduras, too, has
broken the treaty of Amapala, which
ended his war with Honduras, before
the ink was dry.

All the Central American govern-
ments are apparently in favor of a
Washington conference, but it was
pointed out today by one minister that
the feasibility of such a meeting from
President Zelaya would be destroyed
from the outset.

Before Senator Games arrived here on
his special mission from President Ze-
laya the ministers of the other Central
American governments had been dis-
cussing the feasibility of a conference
at Washington for the purpose of nego-
ciating a peace treaty with compulsory
arbitration provisions and which would
be signed so closely under the eyes
of the United States and Mexico that any
republic which wantonly should break
it would thereby offer an affront to the
two great powers.

HEARING IN SEELY CASE
WILL BEGIN THIS EVENING

Widow of Dead Man Brings the Charge
of Murder—Prisoners are Out
on Call.

DALHOUSIE, N. B., July 19.—The
jury at the coroner's inquest in the
Seely-Fontaine shooting affair at Dal-
housie, disassembled for acquittal
and one for murder. When it was learn-
ed that the crown dropped the case the
widow of the deceased had war-
ranted out before Police Magistrate
Windsor, of the town of Dalhousie,
charging Policeman George Seely and
Wm. Gallop with the murder of her
husband. The defendants were allowed
to go on two thousand dollars bail each
to appear before Police Magistrate
Windsor at eleven o'clock. R. A.
Lawlor, of Chatham, is counsel for the
prosecution and W. A. Mott, of Camp-
bellton, is counsel for the defense.
The counsel for the defense having
important business in Campbellton the
hearing was adjourned to 8:30 tonight.

TAKING NO CHANCES
WITH HARRY MCLEAN

TANGIER, July 19.—The reports
brought in here by courier that Kaid
Sir Harry MacLean had succeeded in
escaping from the hands of the handi-
capped, appear to be untrue. The lat-
est letter received from the Kaid is
dated July 13, it says among other
things that his men had been dug
around his tent in order to prevent his
escape.

Daniel Fullerton was summoned to
the police court this morning on a war-
rant issued by ferry gatekeeper "Chad,"
on the charge of abusive language,
which was to the effect that Fullerton,
a hack man, threatened to break the
gatekeeper's face. The plaintiff and de-
fendant made lengthy orations to the
court, and the magistrate fined Full-
erton \$5 which he allowed to stand
against him.

THE EMPEROR OF KOREA
FORCED TO ABDICATE

His Conduct During the Past
Generation Has Placed the
Nation in Grave Distress
—Dramatic Scene When
He Signed His Abdication.

ENGLAND'S THANKS
FOR KINSTON AID
Sends Formal Expression of Gratitude for
Service of American Vessels
After Earthquake.

WASHINGTON, July 19.—Formal
thanks and recognition will get the credit
aid rendered in stricken Kingston at
the time of the earthquake last Jan-
uary by Rear Admiral Charles H. Davis,
U. S. N., and the officers and men of
the Missouri, the Indiana and the
gunboat Yankton, has been received by
Secretary Root. These were conveyed in
a note from Esme Howard, counselor
of the British Embassy to Secretary
Root.

The message conveys the thanks of
the present Government of Jamaica in be-
half of the Jamaican government and
serves to repudiate the action of former
Governor Alexander Sutherland
who peremptorily requested Rear Ad-
miral Davis to withdraw his men from
their work of clearing the debris and
rescuing victims at Kingston. The let-
ter from the counselor of the British
Embassy which was today made pub-
lic by Acting Secretary of the Navy,
Truman H. Newberry, says:

"I have the honor to state that your
note of May 1, intimating to me on be-
half of the Navy Department that no
charges lie against the government of
Jamaica for the stores sent to King-
ston by the American Atlantic Fleet at
the time of the earthquake was com-
municated by the Embassy to the Gov-
ernor of the island."
"The Governor has now requested me
to convey to you and through you to
the United States government an ex-
pression of his sincere thanks on behalf
of the Jamaica government and the
sufferers for the articles so generously
and promptly supplied and to express
his grateful appreciation of the action
taken by the President and the Con-
gress in declaring that no charges
would lie against the colonial govern-
ment in consequence of the issue of
these stores."

NO REVISION OF
TARIFF TILL 1909

Mr. Roosevelt Said to Fear Consequences
of Tariff Tinkering Until After
Presidential Election.

OYSTER BAY, N. Y., July 19.—Pres-
ident Roosevelt, Senator Albert J.
Hopkins of Illinois, and H. E. Miles,
representing the Wisconsin Tariff Re-
vision League, discussed tariff revision
at a luncheon at Sagamore Hill to-
day. Senator Hopkins on leaving Oys-
ter Bay said that the conclusion was
reached that no tariff revision should
be undertaken until after the next Pre-
sidential election.

"It would be suicidal to the repub-
lican party," the Senator added, "to
undertake a revision of the tariff dur-
ing the next Congress. After the Pre-
sidential election I believe it will be
the duty of the Republican party to
revise the tariff and that it will be
done."

Senator Hopkins remarked that he
believed such an argument would ap-
pear to and be accepted by the repub-
lican revisionists in all parts of the
country.
Senator Hopkins was enthusiastic
regarding the presidential boom of Mr.
Cannon. He said:—"Of course, if
President Roosevelt was a candidate
there would be not the slightest op-
position in the convention to his nomi-
nation. But I am thoroughly con-
vinced that Mr. Roosevelt will not
consider the nomination, that he is
entirely sincere in declaring himself not
to be a candidate under any circum-
stances."
"Speaker Cannon will have the en-
tire Illinois delegation solidly behind
him, and I thoroughly believe that if
nominated he would make the best
use of any man the republican party
could put forward."

REPORT THAT SEVENTEEN
PERSONS WERE DROWNED

SANTIAGO DE CHILE, July 19.—
The Argentine steamer Toro has been
wrecked. Seventeen persons are re-
ported drowned.

CAN'T BE MUCH OF HER LEFT.

A remarkable surgical operation was
performed Wednesday last week by
Dr. J. M. Deason at his private hos-
pital at Milltown, when he removed
from Miss Sarah F. Lyan, of Milltown,
Me., a tumor weighing over one hun-
dred pounds, that had been eighteen
years developing. Dr. Webster and
Dr. Mason assisted at the operation.
The successful removal of a tumor of
such large development has been but
seldom recorded in medical annals.
The patient is progressing favorably
towards complete restoration to health.
—Bacon.

THE EMPEROR OF KOREA

His Conduct During the Past
Generation Has Placed the
Nation in Grave Distress
—Dramatic Scene When
He Signed His Abdication.

THE HAGUE, July 18.—Yi Sang Sul,
at one time Premier of Korea, and now
a member of the Korean delegation,
whose presence at the Hague is said
to have precipitated the present crisis
in Korean affairs, was informed today
by the Associated Press of the abdic-
ation of the Emperor of Korea and the
forecasts of trouble in the Hermit King-
dom as a result. Yi Sang Sul said:
"I have heard nothing directly as the
Japanese control in Korea prevents
communication between me and my
friends there. The Japanese are cap-
able of everything. If they have im-
posed abdication, which in this case
means dethronement, serious trouble
will occur."

The correspondent then spoke with
Kotoku Tsusuki, head of the Japanese
mission to the peace conference on the
same matter. The Japanese statesman
said:
"I do not think that matters have
gone so far. Generally speaking we are
more concerned for practical results
than the removal of the Emperor who,
although he has abdicated will be re-
sponsible as long as he lives for the mis-
chiefs he has stirred up against us. Evi-
dently his remaining on the throne has
become a serious obstacle to the carry-
ing out of our programme for the
regeneration of Korea."

SEOUL, July 19.—Briefly the Emperor
in the imperial receipt of abdication,
expresses his regret that during the
forty-four years of his reign, natural
calamities have followed in rapid suc-
cession and the people's distress has
become so aggravated that he deemed
it now time to transfer the crown to
the heir apparent in conformity with
ancestral usages.

SEOUL, July 19.—It is reported that
a most dramatic scene occurred at the
palace last night when the ministers
headed by Premier Yi Young Young ap-
peared before His Majesty and made
the cabinet's final representation in
urging the Emperor's abdication. His
Majesty was in a high state of excite-
ment, but the premier in the most
humble but firm tone dwelt at length
upon want of precaution and wisdom
of the Emperor's policies heretofore,
especially in diplomatic affairs, where-
by he was endangering the safety of
the nation. The premier enumerated
the facts of his Majesty's duplicities,
which culminated in the dispatch of a
delegation to the Hague peace confer-
ence and forcibly reasoned the useless-
ness of the Emperor's disavowal of his
relation with the Hague peace confer-
ence.

Unable to successfully combat the
logic of the Premier's representation,
the Emperor sought a last refuge in
the Council of Elder Statesmen, doubt-
less anticipating their sympathies. The
council was immediately convened.
Four elders quickly responded and ap-
peared before His Majesty at 1 o'clock
this (Friday) morning. The Emperor's
disappointment and surprise was
boundless when they unanimously
agreed with the ministers' advice. His
Majesty's mind was finally made up
and he consented to the draft for an
imperial receipt announcing his abdic-
ation which was placed before him for
his signature. The Emperor's abdic-
ation was indelible. Greatly agitated
and perturbed he signed the docu-
ment and the seal was affixed amid
impressive silence.

WANTS METHODISTS TO
START A BIG CAMPAIGN

For the Improvement of Social Conditions
All Over the World.

LONDON, July 19.—At the annual
conference of the Wesleyan adherents
sitting in Wesley Chapel, Robert W.
Perks, M.P., for Lincolnshire, present-
ed the important proposition that the
time had arrived when the Wesleyan
forces throughout the world should
bind themselves with a mighty band
and grapple with the great economic
and social questions of the day. He
suggested the establishment of Metho-
dist bureaus in all parts of the world
to deal with the questions of immigra-
tion and unemployment, labor, and to
build up a practical loan society and
savings bank and other kindred insti-
tutions for mutual aid.

Mr. Perks declared that Methodism
is a vast religious free masonry with
world wide riches and resources, only
wanting the proper machinery to be-
come a tremendous confederacy for
mutual self help.
No action was taken on the proposi-
tion thus presented, but the conference
was greatly impressed with the possi-
bilities.

Between two and three o'clock a
man walking along Union street stole
a bale of cotton print from Keane's
shop. Sergeant Campbell and two
officers went in pursuit.

NEW BRUNSWICK HORSES
WIN ALL THREE RACES

The Yankee horsemen got their bumps at Moosepath yesterday. Domestic who started in the 235 class, being the only horse from across the line to get inside the money, and although he was an even money and heavily favored favorite against the field, the best he could do with him was to get second place. There were about a thousand people present, a much larger crowd than on the first day, and they certainly enjoyed full value for their money. The weather conditions were very pleasant, and the track in fine shape. The 240 trot, which was won by Marguerite, a very pretty little grey mare, owned by Gallagher Bros. of Woodstock, and driven by James Gallagher, was the only one of the three events to go in straight heats. John Ball, owned by Hugh O'Neill of Fredericton, was the principal contender against Marguerite in this race, and secured second money, being driven by F. Collins. Axel, a handsome brown horse, with very stylish way of going, showed his bursts of speed and was much admired, but third money was the best he could get. H. C. Jewett in his own car, and Tom Holmes was the teamster. Charge Parkland, driven by Danny Steeg, got fourth money. First money in the 235 class went to Laura Merrill, Fred. Duncanson was second, and it was a very popular win. It took five heats to settle this race, Red Rose being distanced after having won two heats. In the third heat she strained a tendon in one of her forelegs, and although Ireland kept her going the whole way round she was unable to finish by the way of C. S. Jackson, the owner of Red Rose, certainly travelled in hard luck down here. Not only did he lose at least \$500, but he was also injured in the 235 class, his winner in the 235 class the previous day was protested. Mr. Allen of Fredericton, the owner of Miss Litha, who was second in that race, claiming that he was a ringer. Mr. Jackson was called to the judge's stand yesterday and questioned about the matter, but he declared the horse was as represented. The judges will report the matter to the National Trotting Association, and until after they have made investigation the money will not be paid over. Domestic, the American horse, got second money in this race, and Della Alister of Sussex, third money. Bella Donna made the fight very interesting in the last two heats for Domestic and Laura Merrill, coming in second in the fourth heat, after a great finish, and third in the fifth heat. Domestic nosing him out in the stretch. The doctor drove a good race, and received a great ovation from the crowd, with whom he seemed to be very popular. In Laura Merrill, who took a mark of 2:27-1/2, Fred Duncanson has a mare of great promise. She has only started in three races, but she has lots of speed and a very nice way of going, and undoubtedly will take a much lower mark before the season is over. Fred Fraser drove her yesterday and handled her well. The second heat in which she finished ahead of Red Rose, she was set back for breaking, but she took the next three in fine style. Little Don, entered by the Fredericton Club Stables, and Black Diamond, owned by James Flood, and driven by W. Brickley, were both distanced in the second heat of this race, and Red Rose in the third, consequently when the horses were called out for the last heat there were only three left to face the starter, but they made a pretty race, finishing in the order in which they started. Laura Merrill took first money; Domestic second money; Bella Donna third money. Burline, owned by A. B. Kitchen, and driven by Thomas Holmes, won the 218 class, after Lady Patten had taken the first heat. There was a strong suspicion in the minds of many people that he could have taken this heat, too, so strong, in fact, that Holmes was summoned to the stand for a heart to heart talk with the judges. The wily Thomas said that he was afraid to drive him out on the turns, but consented to let him go in future, whether he knocked the sulky to pieces or not. Ruth Wilkes, who fought a hard race the day before, started in this race, and made a good showing, beating Lady

NEW DIVISIONAL OFFICER COMING
Changes in Salvation Army—Maritime Provinces Now Have Two Divisions—Concert Last Night
Colonel Gaskin, the Canadian General Secretary of the Salvation Army, will arrive in the city at noon today. He will be accompanied by Major and Mrs. Morehan. They have been appointed district officers for the Nova Scotia division, with headquarters at Halifax, but under the orders of Brig. Turner in this city.
The creation of this new position is in keeping with the new policy which has been inaugurated in Ontario, by which the Army is divided into large divisions instead of into districts. In the Maritime Provinces, the eight districts have been made into two divisions. The Nova Scotia division, part of which includes this province and part of Nova Scotia, will have about 24 corps and the Nova Scotia division, which includes P. E. Island, will have 27 corps.
The new district officers will be welcomed by a large staff of officers, including Brig. Turner, Major Phillips and the provincial staff. A meeting will be held at the Army barracks in Carleton at eight o'clock. Col. Gaskin is an interesting speaker, and Major and Mrs. Morehan are Salvationists of long experience and a great rally is expected. Col. Gaskin and party will leave for Halifax on the midnight train to be there for the week-end meetings. The new officers will take charge next Monday night.
A number of changes are to take place in the staff through the province. The only local change is in the West End corps, where Capt. Drace will be replaced by Capt. Anderson, son of P. E. I., will succeed to the position.
About four hundred attended the concert given last night by the Springfield division of the Salvation Army. This clever troupe, which arrived here last night, has been touring the province in Carleton, Indiantown and the Erieley street barracks, is composed of eighteen young people, who gave a very pleasing entertainment of a variety of nature. Ensign Cornish, for whose corps the entertainment was given, is of the opinion that the concert was a complete success.

STREET CARS COLLIDED;
FIFTEEN PEOPLE HURT
NEW HAVEN, Conn., July 18—In a rear-end collision between two open trolley cars on the New Haven and Shelton Avenue tonight, fifteen persons were more or less seriously injured. Both cars were crowded with members of Taylor Congregational church, returning from a picnic. The forward car had stopped at the church to let passengers off, when the rear car crashed into the standing car. Failure of the airbrake to work was given as the cause of the accident.
COVENTRY CAN'T HIDE ENGLISH LADY GODIVA MUST HAVE ENGLISH INSTEAD OF AMERICAN HORSE.
LONDON, July 18—The directors of the Coventry pageant, fascinated by the magnificent proportions of Mr. Armour's largest gray horse, Big Jim, applied to the owner to allow him to carry Lady Godiva, who will represent Coventry in the pageant.
Word was brought to the city yesterday by the river steamer Springfield that Lucy Sprague, a sixteen-year-old girl of Hatfield's Point, while picking strawberries with her sister in a berry field near that place on Wednesday, she fell from a high point, and was killed by the stroke of a plow. The girl escaped with a broken arm. The fracture was found to be near the wrist. Dr. Somerville rendered the necessary medical assistance.
There is to be another branch bank added to those already in this city. The Bank of Nova Scotia, whose office here is situated on Prince William street, has decided to open an up-town branch in the Fairing building on Charlotte street. Like the Bank of New Brunswick, the Nova Scotia institution is taking advantage of the movement of business up-town. The Bank of B. N. A. has also a branch in this district. The increase in banking facilities within the last year or so has been very noticeable. Both the Royal Bank and Bank of N. B. have branches in the North End, and the local institution has also branches in Fairville and the West End. This bank, which only a few years ago had no branches at all, has now fourteen.

LOCAL NEWS
Over-zealously is the cause of nearly all of our ailments. Nebedega water will remedy the ills. 37 Church street.
Nothing will improve your clothes as much as having them cleaned and pressed at McFarland, the tailor, Clifton House Block, 72 Princess street.
Summer wash wearables are laundered with homelike care and precision at Ungar's. The finest work done at shortest notice. Phone.
Summer bargains at the Parisian Store, 47 Brunswick street. Good Black Point, regular \$1.75, in summer sale \$1.10 only. Watch for the right place and be sure you get the bargain.
If you are subject to headaches and nervousness good optical advice should be taken at once. Consult D. Boyaner, graduate optician, 33 Dock St., the only exclusive optician in the city.
The tennis courts at Woodstock have been opened. They prove very satisfactory and large crowds of players and spectators have been present during the past few evenings.
Several R. K. Y. C. and Westfield Outing Association salmon boats will leave for Carter's Point on Saturday to join the R. K. Y. C. cruise and attend the annual church service.
The corner stone of the new wing of the Hotel Dieu Hospital was laid at 3 o'clock yesterday. Bishop Rogers presided at the ceremony. Hon. C. H. LaBelle and Wm. Currie, M. P., were present. The new wing will cost about \$40,000.
The Boston train was about 25 minutes late in leaving the city this morning. She had to wait for the I. C. R. which was delayed at Truro. The C. P. R. suburban was also late in arriving, being held at Grand Bay to pass the Boston.
The salmon boat Lalla Rookh, owned by George Warwick, which sank on the river on Saturday last, has not yet been recovered. If success does not attend the efforts of those now looking for the boat a diver will be engaged.
Owing to the closing in of a sewer, the Street Railway Co. has been obliged to stop work at laying the double track on City Road. The sewer is opposite Victoria Park and is a very large one. Civil engineers are now engaged repairing it.
The family of Cyrus Macfarlane, of 212 Brunswick street, were in a state of anxiety last night over the disappearance of Bert, the ten year old son. The lad had been seen on the street at midnight. Word was received at 2:30 this morning that the lad was safe and sound at Golden Grove.
Patrick Shea of Golden Grove was knocked down by a team near Hart market Square yesterday afternoon. He had just alighted from his own carriage when a double team ran down on him. Mr. Shea was thrown violently to the ground. He was badly injured about the head and back and shoulders.
A party of five composed of Norman A. Hornbrook, Jack and Alvin Soban, Sam Parkhill, Miss Beale Nobles and cousin of the latter, got lost in the fog in the Kennecott river Wednesday night. They drifted about and were rescued by a search party about midnight. They reached Riverside about half past two and all walked home to Renforth.
Owing to the large number of passengers on the steamer from the island which arrived at Point du Chene too late yesterday to make connections with the C. P. R., a special train was held a short time, thus permitting the passengers for the states to make connections. The run was made in about two hours.
A number of the police have volunteered to assist Officer Crawford financially to bear the expense of having his case placed on the train. No more of this kind of thing is to be done. Many of the police think that their own safety is endangered by the decision of the magistrate, and some have decided hereafter to carry revolvers as a protection. Should the appeal be fruitless, it is said there is likely to be a number of resignations from the force.
Frank Doody is confined to his summer home at Lingley with eye trouble. Under two weeks ago two pieces of cinder entered his right eye while he was travelling on the train. No more was thought of the matter until Wednesday when he began to suffer greatly. Mr. Doody went to a physician who found it necessary to make two incisions in the eye in order to remove the cinder.
Word was brought to the city yesterday by the river steamer Springfield that Lucy Sprague, a sixteen-year-old girl of Hatfield's Point, while picking strawberries with her sister in a berry field near that place on Wednesday, she fell from a high point, and was killed by the stroke of a plow. The girl escaped with a broken arm. The fracture was found to be near the wrist. Dr. Somerville rendered the necessary medical assistance.

KING'S GODSON GUARDED.
Kidnappers Said to be After Sir Albert Naylor-Land and Brother.
LONDON, July 18—A story has been current for the last few days that two brothers, students at Eton, being threatened with kidnapping are being protected by detectives. It is now stated that they are Sir Albert and George Naylor-Land, sons of the late Sir Herbert and Lady Naylor-Land, who was formerly Miss Chamberlain, of Cleveland, Ohio.
The most convincing reports are in circulation, varying from an absolute denial of the whole story to the liveliest sensation. The Chronicle quotes the police as admitting that detectives had been employed to watch a strange man who was lurking suspiciously at Eton, a circumstance which made her nervous, but she contradicted the assertion that her sons were guarded.
Nothing is obtainable at Eton, where the masters and boys are sworn to secrecy. The Naylor-Lands are held to a large fortune, which they will receive when they come of age. It is a coincidence that Amelia Chetwynd, a little girl who figured in a notorious kidnapping case in 1905, is a cousin of these boys, the elder of whom is godson of the king.
DUBLIN, July 18—It is stated that the senior whip of the Irish party, Sir Thomas Henry Gratton Edmondson, is about to resign his seat in Parliament for South Wexford, for the reason that he is out of sympathy with the policy of his party.

Ice cream, confectionery at White's Restaurant, King street. Special arrangements for suburban patrons.

DEATHS.
MRS. J. W. NOBLES.
A telegram to friends in this city yesterday brought the sad news of the death in Toronto yesterday morning of Mrs. J. W. Nobles of Ottawa. Mrs. Nobles had gone to Toronto just a few weeks before to visit her son, whose home is here, and soon after was taken ill, and about a week ago entered a hospital, where she underwent an operation which was thought to be satisfactory by the doctors at the time, although the case was considered a very serious one. The last days, however, it was thought the danger point was passed, and her husband, who was with her, and other friends were feeling quite hopeful of her recovery, so that her death yesterday came as a great shock to all. Both Sir and Mrs. Nobles belong to Kings Co., N. B., she being formerly a Miss Sprout of Sussex and a daughter of John Sprout, now living in West-mooreland Co.
Mr. Nobles and family will have the deep sympathy of many in this city and throughout the province in this bereavement which has come to them. D. L. and W. F. Nobles of this city are brothers of Mr. Nobles. The funeral takes place at Toronto today.
BENJAMIN W. STACKHOUSE.
Benjamin W. Stackhouse died suddenly at his home on Richmond street last evening. He had complained of feeling ill, but death was unexpected. Mr. Stackhouse was 52 years of age and a carpenter by trade. He is survived by his wife, one daughter, Ida, and one son, Joseph W.

BABIES IN THE LONDON SALOONS

Phase of the Drink Evil That Gives Alarm in England.

Movement to Prevent Children From Drinking at Public Bars—Alcoholism Among Women in London—Evils of Private Bars.

LONDON, July 5.—Physicians by no means agree in regard to the action of alcohol on the human system. In the London Lancet a few weeks ago a number of the best known British physicians published a manifesto, expressing their opinion that in certain circumstances, and when used with due discretion, alcohol was beneficial to man.

This statement came somewhat as a bombshell and has given rise to an acrimonious discussion among some of the leaders of the medical world. It may be asserted nevertheless that the trend of scientific opinion is in favor of total abstinence and that the greatest authorities now hold the view that there are few cases of disease in which the employment of alcohol is serviceable.

At any rate, opinions are altogether unanimous that excess of alcohol is injurious to man in the highest degree and that much of the physical and mental degeneration and degradation to which civilized races are subjected is due to the abuse of spirit drink.

Unfortunately Great Britain occupies an unenviable position so far as the consumption of alcohol beverages is concerned. Perhaps the people of this country are not so greatly addicted to strong drinks as was formerly the case, but the situation in this respect is still melancholy.

The report of Dr. Braithwaite, inspector of inebriate homes for a part of England, which was issued a few weeks ago, affords a striking confirmation of this statement. To such homes are committed those inebriated persons who are unable to control themselves and who are therefore able to give a comparative opinion in respect to American saloons and British public houses, say unhesitatingly that in all respects the saloon on the other side of the Atlantic is superior to the British public house. It is cleaner and it seldom, if ever, presents the grimy appearance which characterizes the ordinary public house in the poorer districts on this side of the water.

The best time to view the London public house in all its glory, or its shame, is on a Saturday night. Both men and women are there more or less well supplied with money, which a large number of them freely distribute at the particular public house which they affect. Such a place is crowded to suffocation with a motley and it must be said a generally uncouth throng of men and women and even of boys and girls.

The so-called private bars are a distinctive and a peculiarly objectionable feature of the London public house. The bars are merely narrow boarded partitions opening to a common counter and afford excellent facilities for women to drink, to some extent shielded from the public gaze.

The ventilation of these bars is inadequate, indeed execrable; the heat is very great, as the poor insist that the temperature should be high and proper sanitary arrangements are conspicuous by their absence. The result is that the atmosphere is stuffy and almost suffocating, which combined with the crowded state of the bars is especially conducive to the contracting and the spread of disease.

English women, and perhaps London women more than women in any other part of the country, are probably the only members of their sex in the world who will shamelessly and unblushingly

stand at the bar of a public house and drink. Of course, Americans who have visited the districts of London in which the poor most do congregate have been greatly struck by this feature of London slum life. Jack London in some sketches he made a few years ago of life in the East End of London made reference to this matter, and Tim Sullivan, even when he paid a visit to London in the summer of 1905, expressed himself disgusted with the brazen manner in which English women of a certain class drank at the public bars.

It is not only women of the lower classes, coster girls and factory workers and wives of laborers who drink in public, but those who may be termed entirely respectable women think it no shame to drink and gossip in the public house. In fact, the private bar has come to be generally regarded as a convenient place in which cronies of the local news and scandal, while at the same time they may refresh themselves with the beverage they prefer.

It goes without saying that women who drink must neglect their children and home duties. Unlike the man, who often has perforce to keep sober for fear of losing his work, the woman is under no supervision. Rubber stamps and the local news and scandal, while at the same time they may refresh themselves with the beverage they prefer.

For a long time little or no notice was taken by the lay or the medical press of the increasing habit of public drinking by British women. Now and then an outspoken person would declaim against the evil, but his voice was as one "crying in the wilderness." It seemed as if people were afraid and ashamed to lay bare such a blot, and the subject was ignored.

Later the question has become so serious that it has absolutely compelled the attention of public and scientific men. The latest phase of the matter has been a series of articles by G. R. Sims contributed to the London Tribune.

The articles of Mr. Sims were written in a popular style, somewhat sensational, maybe, but they achieved their object. Widespread notice was aroused, and the ultimate result was that a meeting was convened, at which were present the chief members of the medical profession and men drawn from public life and the learned professions.

The point dealt with at this meeting and in the articles of Mr. Sims was that infant mortality was increasing and increased by the custom among the poorer classes of British society of mothers taking infants to arms in public houses and actually giving these little ones strong drink. As Sir Lauder Brunton, one of the best known London physicians said at the meeting:

"My experience as physician at St. Bartholomew's Hospital, reaching over several hundred thousand cases, has shown me that the ordinary rule which obtains is, Mother, a bit and supple, a bit and sup, and generally the sup consists of gin and water. It must be quite evident that this process of slow poisoning destroys the child, or would say body and mind were it not that very often the body is destroyed before the mind has time to develop."

The meeting decided that steps should be taken to introduce legislation to prevent children, and especially infants in arms, from entering a public house. It is a satisfactory sign that public opinion in England has so far been aroused as to clamor for legal methods to put an end to children entering public houses. Unfortunately the evil will be only scotched, not killed. So long as the custom continues to prevail of women drinking in public houses, just so long will the harmful effects of the habit be exhibited in the rising generation.

A writer in the London Lancet of about a year ago put the situation in a nutshell when he said: "The drunken woman whose duties are supposed to be domestic is a particular curse to the community, because she has not the check upon her that is applied in the case of a man by the ordinary discipline of labor, and because her children suffer in an appalling way physically and morally."

The assertion may be made that a certain part of the female population of London and of other large British cities, and that this form of drinking is almost the greatest curse which exists in Great Britain. Although the theory is no longer held that the alcoholic taint can be transmitted from parents to children, yet it is known that the children of drunken parents are invariably of a high strung, nervous, neurotic disposition, predisposed to the use of alcohol and peculiarly susceptible to its injurious action.

The hopeful phase of the situation is that the leaders of thought in all the professions in England have become alive to the menace involved in the drinking habits of some British women and will use their best efforts to stop the evil.

DIVORCES. According to figures compiled by the census bureau at Washington a divorce suit is filed every two minutes during working hours of court officials, and a divorce is granted every three minutes in the United States. This has been the average for the last twenty years, and census officials say the number is increasing at an alarming rate.

CLASSIFIED ADS.

ONE CENT PER WORD per issue is all it costs to insert advertisements like those appearing below in the lively columns of THE SUN or STAR. This ensures them being read in 6,500 St. John homes every evening, and by nearly 8,000 people during the day. SUN and STAR Classified ads. are veritable little busybodies.

ST. JOHN STAR.

ST. JOHN, N. B., JULY 19, 1907.

NEWSPAPER READING.

It is not giving away trade secrets to comment on the wonderful increase of newspaper readers in New Brunswick, and, more particularly, in St. John, during the past few years. A decade ago subscribers to local papers were not half as numerous as they are at present. It is estimated that in 1902 the combined circulation of all the St. John dailies was not more than 15,000. Today it varies from 25,000 to 35,000. It is true that in the past five years the newspapers, all of them, have greatly improved, both in style of make-up and in the quality and variety of news contained. Correspondence services have been extended, and real live matter of interest to the average citizen is now given chief attention. In the same time there has been carried on an active campaign by all offices for the securing of new subscribers, but it is, perhaps, hardly fair to believe that even such efforts combined with the better papers can account for the marvelous increase in readers. The question is asked, why there should be such an increase? Is it because people are taking a more active interest in affairs of the world, or is there something lacking in the education of the present generation which makes them turn to the feeding news of a day rather than to literature which will live? It is true that people want to be posted in what is going on, and it may be that there is more activity of general interest in the world now than there ever has been in the past. But whatever the reason the fact remains that New Brunswick, perhaps in common with the rest of the world, is now in the greatest newspaper reading period of its history.

WHARF BUILDING.

In the years 1859 and 1860, while the long wharf, so called, was under construction, four contractors were engaged on the work. Mr. Connolly did the dredging; Mr. Mayes the wharf building; Mr. Appleby constructed the warehouse, and Mr. Jamieson the grain elevator. In the building of that wharf the outer end was first attended to, then the southern side and finally the northern. Both sides would have been carried on together had it not been that some very heavy dredging was found which delayed one portion of the work. In 1900 a visitor to that wharf would have seen the dredge working on one portion, gangs of men engaged in building up the crib, another large crane erecting a warehouse and a fourth party building the conveyor. After the job got well under way all four contractors were carried on together and arrangements were such that there was no delay at any one part. Almost 1300 feet of wharf were built and from the time the dredging was commenced, until the whole contract was completed, thirteen months elapsed. At the present time in West St. John work is going on on 1,500 feet of wharf but the plan adopted has been such that now, although the cribs are practically finished and all the piling driven, the contractor for the warehouse has not yet been able to commence operations. It would appear that in this last contract the builders have not had much regard for the convenience of each other, but have gone ahead in a manner most suited to themselves and not in the best interests of the city. Mr. D. C. Clark, with a very small crew, has finished the pile driving and is now putting the caps on piles out the outer end of the wharf, working in towards Union street. This is being done because there was some alleged delay on the part of the civic officials in giving certain information. The finishing of the piling on the outer end will cause some inconvenience to the builders of the warehouse, who could carry on their work more easily if enabled to start at the Union street end.

PUT OUT OF BUSINESS.

Among the many new laws which went into effect on the 12th of July in the state of Texas, one of the most drastic is known as the Robertson Insurance Law. By this it is decreed that all insurance companies doing business in the state must invest 75 per cent. of their reserves on Texas policies in securities within the state. As a result of this, which the companies declare is contrary, twenty-two old line insurance companies have already retired from the field. All their business has been closed and they have withdrawn their agents. They allege that the already high taxes and the money they oblige themselves to loan on policies makes it impossible for them to comply with the law and they prefer giving up the business. In leaving the state, these companies deprive Texas of 738-

450 which they have been paying annually as taxes.

A very valuable enactment, which hits the railways, is one which compels them to keep full crews on all trains, prohibiting the working of employees for more than fourteen hours a day and the working of telegraph operators for more than eight hours a day. All railroads are compelled to use electric headlights on locomotives.

"HEAR COALS OF FIRE UPON HIS HEAD."

Young Tommy Smith came home one day From school so very sad, For Jackey Jones, the wicked boy, Had made him sore and mad. He'd punched his head, he'd knocked him down, And caused his tears to flow, He was a dreadful wicked boy To use poor Tommy so.

Tom swore revenge on Jackey Jones, And threatened vengeance dire, But when at home his mother said, "Dear Tom hear coals of fire, Upon the head of Jackey Jones, And kind he'll be to you." But when he met that awful boy John in a passion flew.

He cruelly said, "Now, Tommy Smith I'm going to lick you more, And on the punch of little Tom He struck full hard and sore."

But Tommy knew what mother told, And handed Jack a pie, Which greedy Jack ate swiftly up, Resolved to do or die.

"Gosh, it was good," Jack calmly said, "Why did you give it me?" "Because you struck me," Tommy said, "That's why I give it thee."

Bad Jackey Jones struck him again, And said, "Go, get more pie." "Hear coals of fire upon his head," Therefore did not reply.

VALUABLE CONCH SHELL.

There are evidently a number of mysterious properties about the conch shell in its relation to Indian religious rites and ceremonies that require investigation. For instance, a conch with its spirals twisting to the right instead of to the left is supposed to be worth its weight in gold. Some years ago a conch of that description was offered for sale in Chilcutta with a reserve price of a lac of rupees placed on it. It was eventually bought in for 24,000.

The motive of these people, said Bishop Doane, discussing married people who quarrel, is like the motive of a Scot who was found weeping one day. "Oh, Saunders, mon," said a neighbor, peeping in at the open door, attracted by the sounds of weeping which came from the freestone. "What's ailing ye?" "Oh, dear-oh, dear!" sobbed Saunders. "Donald Mackintosh's wife is dead." "Aweel," said the neighbor, "what o' that? She's no relation o' you, ye ken?" "I know she's not, but it just seems as if everybody's gettin' a change but me."

Brown always was particular to appear to be in a better position than he really was; it was a great failing he had. On one occasion he took his eldest son with him for a walk, and permitted him to play with some other boys while he read his paper. Going home later Brown inquired: "Well, what did you talk about to those boys in the park?" "Oh," replied the lad, "I told them you were our footman! I did it to keep up appearances, you know."

Father—You should learn to keep everything in its place, my son. Arthur—Well, won't you tell ma to keep her slipper on her foot?

"Luckiest man I ever knew! Everything succeeded with him. He has only to say what he wanted and he got it. Why, confound it, I was walking with him one day—who very last day of his life—and he said to me, 'When I die I want to die suddenly.' Got run over that very night. Ever see such luck!"

Man—Why did you pull that poor boy's ear? Boy—I was only holdin' it—'e was pullin'.

WHEN AND HOW TO HUG.

The Union correspondent of the Calais Advertiser, who is a man of wide experience, gives the public the benefit of his advice on a matter of great importance:—"A young lady of Lansing, Mich., died last week as the result of being hugged by the young man to whom she was to be married. Too much care cannot be exercised in putting arms around young girls of today and we wish to impress this fact upon the minds of the young men who are just coming on the stage of action. Of course, men along in years do not need advice. The boys are more apt to put more force into the right arm than they are aware of, a hundred per cent. more than they were apt to do in sawing wood, or carrying a bundle of coal upstairs. They should bear in mind that girls are too valuable to be used in developing the muscle you would at a symposium. You don't have to squeeze a girl till her liver is forced from its normal position and she chokes, to show her that you love her. A gentle squeeze of the arm around her waist when she is not looking, and the least pressure upon her belt is all that the law requires."

A BRILLIANT BABOON.

The mandrill baboon has the most brilliant coloring of any quadruped. It shows blue, red and purple or violet tints.

MANY PROSTRATIONS FROM THE HEAT YESTERDAY.

PHILADELPHIA, July 18.—The parade of the Benevolent and Protective Order of Elks was marked during its progress by the prostration from heat of an army of persons estimated by the police and hospital authorities at 2,500. Never has there been such a wholesale prostration of people in the city. For six hours the police, ambulance surgeons and the Red Cross nurses were kept on the run looking after persons who collapsed under the scorching rays of the sun and largely because of their excellent service, but one case resulted fatally. James Rowley, aged 44 years, of this city, died in a hospital after being stricken in the street. The other stricken persons are said to be in good condition, with no prospect of fatal results.

The parade ground was on Broad street for a distance of three miles north and the same distance south of the city hall. The parade counter-marched the last three miles back to the city hall, so that they traversed upwards of nine miles, yet few of those overcome by the heat were in the line of march.

Those who succumbed were among the spectators jammed along the street in a solid mass from one end of the parade to the other. The temperature hovered around ninety degrees, and the humidity was excessive. Most of the victims were chiefly from this city and the surrounding territory. The police secured records of more than 1,000 heat cases, which were handled by them or taken to hospitals, but hundreds were cared for in the dispensaries, where no record is kept. Every attention was given to the spectators to see that they were protected, but it required four hours for the marchers to pass a given point, and the larger people stood by the hot sun for two hours or more before the parade started. The total number in the

line of march is conservatively estimated at 20,000 men, with about 125 floats. The Grand Lodge installed its newly elected officers tonight, at which time it was announced that at a previous session the state associations of Elks had been given official recognition. This decision on the part of the Grand Lodge settles a fight that has been waged for two years. The state association is restricted in its work and may not take up legislative matters or interfere with legislative affairs in the subordinate lodges. Its principal work will be along charitable and fraternal lines.

BOSTON, July 18.—With the temperature and humidity both exceeding that of yesterday, which was the most oppressive day of the year, Boston experienced great suffering today. Particular deaths and a dozen recorded prostrations were the record of the day. Charles T. Graustein, aged 30, of Cambridge, died early in the day as a result of prostration yesterday. The temperature dropped to 75 this evening, where it stood at midnight. Humidity, however, continued excessive throughout the day, and well into the night, causing much suffering.

Three deaths were reported to the police as having been due directly or indirectly to the heat and humidity, while ten cases of prostration were treated at the hospital. BOSTON, Mass., July 18.—In the suburban town the heat also claimed a victim, Mrs. Mary Gorman dying in East Braintree and T. Murane, in the hospital in Quincy.

BERLIN BALLOON STORY RIDICULED

Proposed Flight of 1,600 Kilometers but Journalistic Invention, Says Major Gross.

BERLIN, July 18.—Berlin papers have been printing statements regarding German balloons and airships which did not fail to surprise Zeppelin's known. This morning a popular local paper asserts with all gravity that Count Zeppelin is about to undertake a flight from Friedrichshaven, on Lake Constance, to Emden Port, on the North Sea, and back, a distance estimated at least 1,600 kilometers as the bird flies.

It is seriously stated that no flight is possible. Details of Zeppelin's device has excited much merriment. Major Gross, of the military ballooning department, when I called this afternoon to discuss the matter, said:—"The report is a pure invention of an imaginative journalist. Why Zeppelin's balloon is not even ready to fly, and he will not operate until his new balloon, half of which, contrary to the floating one, is on land, is finished. He then will experiment for some time. I will not say a flight of this description will remain an impossibility, but for some time to come it cannot be taken into consideration. The longest flight hitherto accomplished by Zeppelin's device of three hours. Zeppelin never exceeded two."

TRAFFIC IN KNIGHTHOODS.

Serious Charge Made in British Parliament.

LONDON, July 18.—An effort is being made looking to an investigation of the matter of the bestowal of honors both by the present and the late governments. Rumor having been busy with the names of some of the recipients, who, it is alleged, contributed freely to party funds with the understanding that they would be remembered at the distribution of knightships and other honors. Mr. Cecil Lee, member of parliament from East St. Pancras, who is also a newspaper proprietor, brought the matter up through the press and the House of Commons. Yesterday Lord Robert Cecil, on a question of privilege, endeavored to have Mr. Lee brought before the bar of the House for the purpose of giving him an opportunity of substantiating his charges. The subject, however, was shelved on motion of Premier Campbell-Bannerman, who the Right Hon. Arthur J. Balfour supported. Mr. Arthur Basil Maricham will revive the question, having given notice of a

THE DANES AND THE RAVEN. Perhaps the Danes selected the raven for their standard out of feelings of gratitude, for before the invention of the mariner's compass they must have found him extremely useful. The only method of determining whether land was near was to let loose a raven. If the bird was land he sailed away forever; if he did not, he returned to the ship.—London Chronicle.

WRONG SHOES. Artemus Ward once remarked, "There is one thing to be said in favor of tight shoes—they make a man forget all his other troubles." It isn't always the "size" of a shoe that causes a mischief. It's the make of the shoe, the material, the shape of it. Your feet are "traveling companions" that carry you everywhere you want to go. They are valuable servants and expect to be treated well. Easy, glove-fitting shoes are the greatest comfort your feet can have. These are the only kind of shoes we sell. No matter what kind of feet you have, we'll fit it. Crushed feet are neither useful nor ornamental, but they are painful. We are not shoe sellers, only—we are feet fitters as well. D. MONAHAN, THE SHOE MAN, 32 Charlotte Street.

\$1500 Worth of GROCERIES—INCLUDING—Tea, Sugar, Canned Goods, Lard, Butter, Evaporated Apples and Potatoes. Also Strawberries, fresh picked every day, at lowest cash price, by the box, dozen or crate. Store open every evening till 9.30. ROBERTSON & CO., 562-564 Main Street, St. John, N. B.

THE POPE REPLIES TO CATHOLIC AUTHORS. ROME, July 19.—The Syllabus promulgated by the Pope yesterday with regard to the so-called modernism in the faith contains a preamble which sets forth that Roman Catholic authors, under the pretext of examining dogmas explain them in the name of history in such a fashion that the dogmas themselves disappear. To prevent such errors, the preamble says, the Pope has ordered a congregation of inquisition to note and reprove the principal errors, and with his approbation sixty-five propositions are condemned. These include the following: Divine inspiration does not guarantee all and every part of the Holy Scriptures against error. The resurrection of the Saviour is not an historical fact, but is purely supernatural. It can neither be demonstrated nor is it demonstrable. The Roman Catholic church became the head of all churches not by Divine ordinance, but by purely political circumstances. The church is the enemy of natural and theological sciences. The Christian doctrine was first taught by Pauline, then Hellenic, then Universal. The principal articles of the Apostles Creed had not the same significance to the primitive Christians as they have to the Christians of the present time.

MUST PAY TEN CENTS A SPOOL FOR THREAD. Combine Advances Prices Beyond all Reason. NEW YORK, July 19.—Cotton thread, until a short time ago, the most stable in price of all the staples, selling the country over for five cents a spool, is to be advanced again so that the retail price will be ten cents. On May 29, there was an advance which brought the retail price to six and seven cents. Increased cost of raw material and an advance in wages are the reasons given for the contemplated increase in price. Independent manufacturers declare that neither of these reasons is a good one for when cotton was selling much higher than it is now thread retailed for five cents.

When You Take Cold. One way is to pay no attention to it; at least, not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway. We have no secret. We mean to do it right. Lowell, Mass. The French name of our Cherry Pectoral is "Sirop de Coquelicot."

ROBERT IS BOUND TO MARRY THE GIRL

PARIS, July 19.—Prince Robert de Broglie, whose marriage a year ago in Chicago with Miss Estelle Alexander, an American, was yesterday declared void by the French courts, will within a few days, formally notify his father, at whose instance the marriage was annulled, of his intention to re-marry Miss Alexander under the French law. This notice will be served through a notary.

Under the law passed during the last session of the Chamber of Deputies modifying marriage procedure in France, Robert is free to marry at the end of thirty days unless his father interposes an objection. If this step is taken, however, Robert must personally appear in court and request permission to marry, and this the court must grant him.

THE DEATH OF CHAS. SMITH.

FREDERICTON, N. B., July 19.—Charles Smith, the young man drowned at Petawawa yesterday, was a son of Mr. and Mrs. Robert Smith, of this city. The deceased, who was 19 years of age, had been connected with the Infantry School for the past four years. He leaves besides his parents, three sisters and four brothers.

The first steel pen was made in 1829. Ships were first "copper bottomed" in 1837.

Society

Miss Cameron, of Roland Park, Baltimore, is visiting Miss Ethel Emerson, Germain street.

Mrs. P. Clinton Reed (nee Colwell) was at home to her friends on Wednesday afternoon at her father's residence, 88 Paradise Row.

Mrs. A. B. Clifford received her friends at her home 142 Britain street yesterday afternoon.

Mr. M. Nelson, of Montreal, formerly of the street railway company here, was in the city on Tuesday.

Miss George Adam, of this city, is visiting friends in Fredericton.

The Messrs McLaughlin, of Goodrich street, are visiting Miss Freda Wren at Yarmouth.

Miss Innes Oglvie is visiting Mr. and Mrs. W. L. Rogers, of Yarmouth.

Mrs. H. R. Spalding, of Piffeld, Me., is visiting her brother, F. L. Hackett, general superintendent of the N. B. Telephone Co., at the Lansdowne House.

Miss Olive Golding, of Boston, is visiting her parents Mr. and Mrs. J. N. Golding, Waterloo street.

Mrs. Herbert C. Jordan, of Bangor, is visiting relatives in St. John.

Mr. and Mrs. Ralph Bell have removed from Halifax to Montreal, where Mr. Bell has taken a position in a large hardware firm.

Mr. Arthur M. ... of the St. John Iron Works staff, with Mrs. Irvine and child, will very shortly remove from St. John to Montreal. Mr. Irvine intends to engage in business for himself in the commercial metropolis.

Miss Hatty Allen is visiting friends in Fredericton.

Dr. and Mrs. Pugsley returned on Wednesday from Upper Canada.

Hon. Mr. Emmerson was among the guests at the Royal this week.

The marriage will take place on Wednesday next at Miss Jewell's, daughter of Mrs. Annie E. McLean, Elliott Row, and Frank S. Bonnell, formerly of St. John and now of Vancouver.

Mr. Chalmers Jack, of Toronto, is spending a few weeks vacation with his parents, Mr. and Mrs. Rutherford Jack at Ononette.

Messrs. Will Allison, Allan Thomas and Andrew Jones, and Misses Mabel McAvity, Miss Trueman, Miss May McIntyre and Mrs. Puddington are on a fishing trip on the South Branch.

Mr. and Mrs. C. J. Milligan sailed from New York on Wednesday for Liverpool. They will visit Mr. Milligan's relatives in Scotland, and later will spend some time in Cardiff, Wales. Mrs. Milligan's former home. They will be away from St. John for four months.

Miss Nora O'Brien is spending a few weeks with her sister, Mrs. Charles Randolph, Bay Street.

Mr. B. R. Macaulay left on Monday evening on a business trip to England.

Senator Ellis and Mrs. Lawrence returned on Saturday evening from a trip to the old country.

Dr. L. A. Cliff, of Boston, is visiting here the guest of his sister, Mrs. Price, Princess street.

Miss Edith Gandy, of Fredericton, is visiting friends here.

Rev. W. B. Stewart spent a few days of this week in Sussex.

Rev. A. H. Morton, of Halifax, spent Sunday in the city. Rev. Mr. Morton preached in St. Andrew's church Sunday evening.

Mrs. A. E. Vessey, of St. Stephen, was a week-end visitor here, the guest of Miss Powell, Orange street.

Miss Nellie Short, of St. Stephen, is visiting Mrs. R. J. Ritchie, Elliott Row.

Mrs. F. A. Fraser spent the week-end with friends in Westfield.

Miss Annie Colter is visiting in Woodville, where she is the guest of her friend, Miss Faye Camber.

Dr. and Mrs. ... Walker returned on Monday from a trip to England.

Mrs. Mildred Isaacs has returned from Halifax after a very pleasant trip.

BRITISH RIFLE TEAM TO SAIL FOR CANADA ON AUGUST 9

When the Empress of Britain sails from Liverpool on August 8th, she will have on board the English rifle team of fifteen officers and men who will compete at Ottawa, with teams chosen from the services of Canada and the United States for the Palma Trophy, which is the greatest match rifle in the world. The team has been selected by the National Rifle Association from among the best marksmen in the Royal Navy, the Army and the Volunteers. It will be under command of Colonel Hopton, Inspector of Small Arms, Enfield, and one of the greatest match rifle shots of the day, Major Richardson, 2nd V. B. Northumberland Fusiliers, has been chosen as the shooting captain, and Captain Lloyd, D. S. O., will be the adjutant, while the other members chosen are the following: Colonel J. H. Royal, Engineer; Lieutenant E. L. Parnell, 2nd (South) Middlesex; R. V. Sergeant-Major J. Hythe; Quartermaster-Sergeant Robinson, School of Musketry, Hythe; Warrant Officer A. J. Raven, Royal Navy; Armourer-Sergeant G. McAffie, Galloway Rifles; Armourer-Sergeant J. E. Martin, 5th V. B. Highland Light Infantry; Lance-Corporal A. L. Fulton, 13th Middlesex (Queen's Westminsters); Sergeant A. Paterson, 3rd V. B. Seaforth Highlanders; Armourer-Sergeant A. J. Comber, 2nd V. B. East Surrey; Quartermaster-Sergeant J. Fraser, 1st Buffs; Rifleman W. Tatlow, 2nd V. B. Warwick.

Immediately after the competition on August 10th, the British team will journey across the continent and on September 13th will sail from Vancouver for Australia, where they will take part in friendly competition at Sydney before returning home.

The contests for the Palma Trophy at one time caused a great deal of interest on both sides of the Atlantic. In 1892, the British team won it at Ottawa and in the following year, United States marksmen were given possession of the trophy at Bisley, scoring 1570 points against Great Britain's 1555. But in 1894, the United States Association of Riflemen returned it to its former holders, having discovered that they had used a rifle barrel with a special grooving and not the service weapon of their army. Thinking they had committed a breach of conditions of the contest, they returned it to the National Rifle Association for another competition.

The rules governing the contest in September are that each man of the team shall fire ten rounds at 300, 500, and 1,000 yards, using the service rifle and sights adopted in the country they represent and any ammunition suitable to the rifle.

right name is said to be George Krieger, was held at two o'clock at the naval hospital under the Episcopal rites. The customary firing salute and band was dispensed with owing to the condition of the other Georgian men in the hospital.

INJURED MEN ARE MAKING A GALLANT FIGHT FOR LIFE

BOSTON, July 19.—Misspinner Jas. P. Cruise, one of the sailors injured by the accident on the battleship Georgia while at target practice in Cape Cod Bay Monday, is making a gallant fight for his life against terrible odds in the United States naval hospital at Chelsea. Buoyed up by the presence of his father, Major Thomas Cruise of Omaha, Nebraska, and of his mother and brother, the misspinner seemed to have a slight turn for the better today. With a pulse of 120 and a temperature of 103 it is only the marvellous vitality which Cruise has shown which has kept him alive so far.

Seaman Louis O. Meese also showed a slight improvement today, retaining some nourishment, but his condition was regarded as extremely serious tonight.

There is little change tonight in the condition of the other men. Seaman John A. Ruseh, Harold A. Gilbert, Jas. P. Thomas and John O. Malesic are still on the critical list with hopes of recovery. Acting Gun Captain Charles H. Hansell will probably be dismissed from the hospital in a week.

The funeral of George Miller, whose

BRIDEGROOM ARRESTED

WINDSOR, July 19.—Earle Leslie Mitts, aged seventeen years, of Detroit, was before Magistrate Bartlett today charged with perjury in having obtained a marriage license last week from Mr. Templeton of Windsor by swearing falsely to his own age and that of the young girl whom he wished to marry, as well as giving fictitious names for both. On going home the young wife was locked up by her parents, who had strongly objected to the two keeping company. On learning that the license had been obtained by misrepresentation the girl's father induced young Mitts to accompany him to this city, where he was at one time held under arrest on a charge of perjury.

A RIOT IN PALERMO

PALERMO, July 19.—A meeting was held yesterday to protest against the arrest of Signor Hesi, the former minister of public instruction, who is charged with embezzlement.

Revolvers were discharged from balconies at the officers and one spectator was killed, many being injured.

Secure a Straw Hat.

15 cents, 25 cents, 50 cents
WILL BUY ONE AT MAGEE'S.

WE have a lot of sample hats in BOATER and SHAPED styles, which we have marked in three lots—15 cents, 25 cents, 50 cents. These hats in some cases were never out of the boxes till we put them at these prices; others are soiled, but in any case they would sell from 75c to \$3.00 each. All sizes and shapes to suit every man.

D. MAGEE'S SONS,

ST. PETERSBURG, July 19.—Nothing is known here of the report published in a London newspaper yesterday in the shape of a despatch from Vienna, that a wholesale massacre of Jews had occurred at Skowitz in Russian Poland near the Austrian frontier.

MONTECALLO, N. Y., July 19.—Herman Burnstette, a short story writer and author of New York city, was run over by a large touring car in this place last night and is probably fatally injured.

WILL DIE FOR KILLING A WHOLE FAMILY

CHICAGO, July 19.—Herman Billik, last night was found guilty of killing with poison Adolph Vzal and five of his children. The jury fixed the penalty of death.

During the trial, testimony was submitted by the state charging Billik with having disposed of Vzal and his children in order to collect the life insurance they carried. Mrs. Vzal was shown to have been under the influence of Billik, whom she loved, and evidence showed that she had guilty knowledge of the murdering of her husband and children by Billik. The day after his arrest Mrs. Vzal committed suicide by taking poison.

BASEBALL CHANGES.

NEW YORK, July 19.—An announcement was made yesterday by the managers of the greater New York Baseball Club of the purchase of Pitcher DuChille-Brand, the former Princeton University pitcher, and Hanning also a pitcher who has been with the Williamsport team of the Tri-State league. Doc Hillbrand, who was awarded to the Washington club of the American league by the National Commission against his wishes, has announced that he will not play professional ball unless he is allowed to pick the club he is to play with.

Malachi Kittidge, who has been managing the Montreal club of the Eastern League, was yesterday deposited from the management and given his unconditional release. He will be succeeded by Jimmy Morgan, the Georgetown College boy, who played with the Providence team in 1905.

THE WORLD'S STAMPS.

One of the pastimes very popular with the younger generation at the present day is that of stamp collecting; and in thousands of homes, after school hours, youngsters may be seen pasting the small slips of water-marked paper into albums with solemn care.

This hobby is, at the same time, one which tends to promote a thoughtful turn of mind, and no doubt numbers of juvenile and other philatelic enthusiasts will be interested in the following information on the world's postage stamps.

The total number of all known varieties of postage stamps issued by all the governments of the world up to the present time is 20,495, of which 6153 are appertained to the British Empire, and 14,343 to the rest of the world. Europe has issued 4,261, Asia 3,556, Africa 4,468, America 4,885, the West Indies 1,637, and Oceania 1,485. These figures comprise only standard varieties of postage-stamps, and do not include post-cards, letter-cards, stamped envelopes or wrappers.

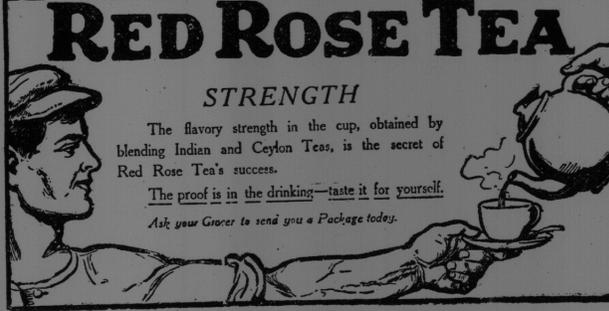

RED ROSE TEA

STRENGTH

The flavory strength in the cup, obtained by blending Indian and Ceylon Teas, is the secret of Red Rose Tea's success.

The proof is in the drinking—taste it for yourself.

THOUSANDS WELCOME SIR WILFRID LAURIER HOME

Great Demonstration at Quebec Last Night

Big C. P. R. Liner Met at Grosse Island by Fleet of Dominion Steamers Crowded With Distinguished Representatives--He is Hale and hearty.

QUEBEC, July 18.—Sir Wilfrid Laurier arrived back in Canada tonight on the Empress of Britain at half past ten and was accorded a reception that quite put in the shade all previous demonstrations to welcome a returning premier.

There was however, one great change between Sir Wilfrid's present home-coming and his return from the coronation festivities four years ago.

Then the Canadian Premier came back apparently broken in health. Tonight Sir Wilfrid appeared smiling and happy, browned by the Atlantic breezes and evidently full of healthy energy. Indeed not for four years has he looked so well. Although the Empress of Britain made so rapid a trip that the Premier arrived some hours before he was expected there was an enormous crowd at the docks to welcome him, many members of the cabinet being here while there were strong delegations from both Dominion and Provincial parliaments.

Sir Wilfrid's reception really started at Grosse Island, where the government steamers Druid, Lady Aberdeen, Frontenac, Lady Grey, Strathcona and the ferryboat, Fortean, met, loaded with members of parliament and representatives from all over eastern Canada, the C. P. R. liner, the Empress, was a good deal mixed up owing to the surprisingly early appearance of the Empress of Britain. It had been intended to take Sir Wilfrid from Grosse Island on the Lady Grey, but this was found impossible at the last moment, so the Premier and his party came up to the ancient capital on the Empress. There were really two receptions to the Premier.

An immense crowd had gathered at the breakwater, when the reception committee, ministers and members of parliament, met the Premier and welcomed Sir Wilfrid home. The band of the Royal Canadian Garrison Artillery was on the deck and played a series of national airs as the big boat pulled in. As soon as preliminary formalities were over Sir Wilfrid Laurier, with Lady Laurier, Madame Brodeur, Miss Melvin Jones and other members of the premier's party were transferred to the government steamer Lady Grey, which conveyed them, with a big crowd of admirers of the premier, to the King's wharf, where a second reception awaited Sir Wilfrid on reaching the Chateau Frontenac. Sir Wilfrid spent some time in the rotunda meeting his friends, with an animation and evident pleasure that delighted everybody.

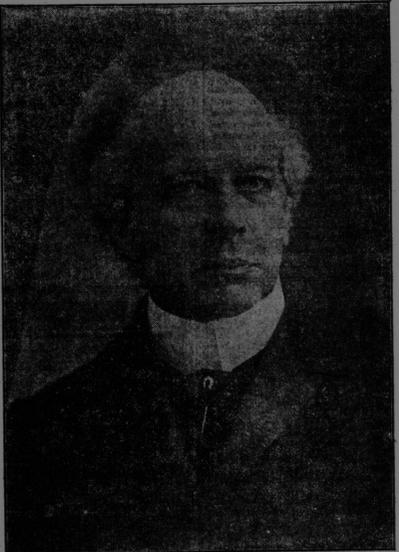

It was very evident that, his trip to England, if it did nothing else, had greatly improved the Premier's health, and he was warmly congratulated by all on his improved looks. The real formal welcome to the Premier will occur tomorrow evening, when a big open air meeting and speeches will be held. Sir Wilfrid will remain at the Chateau Frontenac all day, meeting his friends and in the evening at 8 o'clock a big procession will form up at the Chateau and proceed to the St. Peter's Market, where a platform has been erected, at which Sir Wilfrid and other members of the Dominion and provincial governments will speak.

Amongst those who will greet Sir Wilfrid tonight were Hon. Messrs. Paterson, Aylesworth, Lemieux and Templeman, who with the reception ceremonies were looked after by Hon. Jacques Bureau, Solicitor General. Practically the whole provincial legislature was present while scores of members of the Dominion house from Ontario and Quebec were on hand. It is expected that many more will arrive by the night trains and ahead for the formal welcome tomorrow.

On Saturday morning Sir Wilfrid and his party will start for Montreal on the Lady Grey, stopping at Three Rivers and Sorel, where brief demonstrations will be held. The party will arrive at Montreal early on Saturday evening.

MONTREAL, July 18.—Lovel's directory, which annually publishes an estimate of the population of the city which is usually very close to the census, gives the present population of Montreal and contiguous suburbs as 484,000, a gain over last year of 29,000. Most of the gains were in the suburbs. There are 119,000 names in the directory.

SIR WILFRID LAURIER

VALUABLE ADVICE TO MARITIME PROVINCE PEOPLE FROM NEW PRESIDENT OF TORONTO UNIVERSITY

HALIFAX, N. S., July 18.—By far the largest social meeting of the Canadian Club yet held was that which assembled at the Halifax Hotel today to hear and in a sense say farewell to President Falconer of the University of Toronto. It was another tribute of the regard felt for President Falconer by all classes and creeds in this city.

President Campbell announced that Dr. Falconer, who is vice-president of the Canadian Club, has been elected first honorary member of the club. Dr. Falconer moved a resolution beautifully embodied and bound in morocco, which said in part: "The executive committee have nominated Dr. Falconer as first honorary member of the club, basing their recommendation on his scholarly attainments, his valuable educational work, and his deep and patriotic interest in the national and intellectual life of Canada."

"In heartily adopting the recommendation of the executive committee his fellow members also desire to pay a personal tribute to the moral earnestness, the broad sympathy and their admiration and warm regard, and they feel confident that he will fill with dignity and high distinction the influential position to which he has been called."

Dr. Falconer received an ovation in rising to reply, and after a few minutes of replying, he proceeded to discuss The Place of the Maritime Provinces in the Life of the Dominion. After a glowing picture of the national beauty and material resources of the Maritime Provinces he said: "From a purely physical point of view these provinces are a necessary factor in the life of the Dominion, affording an outlet to the Atlantic all the year round, and a priceless possession and an inevitable channel for the route of the world's travel and commerce."

They are, and must remain as a necessary link in any national chain. Remove these links and the whole chain will have to be rearranged. The Maritime Provinces will serve their highest function according to the quality of manhood which they contribute to the Dominion. Are its men disciplined, are they moral, are they masters of themselves, are they able to show that they are greater than their material environment? The very fact that the people of these provinces, though prosperous, are not wealthy, is in their favor. There is perhaps less likelihood here than elsewhere of the invasion of luxury. They may find it easier than others to do as their manhood, because the climate and the soil will never enervate them by offering too easily the comforts of life. Nor need we think that this mastery comes only by supreme effort of will. It follows in the wake of honest duties honestly done.

"In these provinces we should be true to ourselves and live a life that is the most natural to ourselves. Maintain our individuality. Let me urge you not to be over-anxious to reproduce here the same type of living which is found elsewhere. These provinces, if they live their own simple and yet busy life, will enrich the total life of the Dominion more than by seeking to follow the example of luxury and wealthier provinces. The very variety of life here gives it character."

Dr. Falconer urged Nova Scotia to maintain her reputation for intelligence and cherish the heritage purchased through their fathers' struggles for justice and appreciate the value of political freedom. He deplored the evils of corruption among the electorate, at the root of a great deal of which, he believed, was ignorance rather than depravity. The multitudes do not know the meaning of a vote and sell for money without a twinge of conscience.

FORSYTHE WILL GET SENTENCE TODAY

Found Guilty of Stealing from Railway Station — His Skilful Defense

EDMUNDSTON, N. B., July 18.—The trial of Harry F. Forsythe on the two last charges against him, was continued today. Thane M. Jones, one of the crown counsel, withdrew the charge of breaking into the bar of Felix Hebert for lack of proof, and the case proceeded on the remaining charge of stealing from the Temiscouata Railway station at Clair. The jury after a few minutes' deliberation found him guilty of the charge and Judge Carleton will sentence Forsythe tomorrow at 10 a. m. Forsythe defended himself today with surprising skill and a bold attempt for a disagreement at least was made in his address to the jury. "Gentlemen," he said dramatically, taking in his hand the camera alleged to have been stolen, "This is my camera; it has the letters H. F., my initials, upon it. The jury, please, carefully note by one of the pencil markings on the rough surface of the black leather cover of the camera and it was only after considerable time was it seen that the initials pointed out were not H. F., but H. N., the initials of Guy Hector Nadeau, the magistrate who had held the preliminary examination."

MORE LIBEL SUITS IN CONNECTION WITH CAYUGA MURDER TRIAL

TORONTO, July 18.—In connection with the Cayuga murder trial more libel suits were instituted today at Osgoode Hall. All told, 300 suits have been issued and \$10,000 damages are claimed in each instance. The defendants are: Henry Gorman, George H. Gammeter, Guelph; Woodstock Express Printing Company, Limited; Jaffrey Bros., Limited, Galt; used by Mrs. Gorman; Cayuga; Geo. Gorman; Cayuga; W. A. Fry, Dunnville, and the Standard Printing Co., Windsor, used by Mrs. Gorman; S. Stephenson, Chatham, used by Mrs. Perkins; T. A. McDonald and Ralph Currie. A large number of suits against leading dailies were entered previously.

ASKED TO FIGHT, HE STRUCK COMPANION AND KILLED HIM

QUEBEC, July 18.—Edward Bernier is held responsible for the death of Anselme Godreau, whose bruised body was found at the door of the accused's father at Stoupeville, Quebec, on Monday morning. The coroner's inquest yesterday revealed the fact that a quarrel ensued over liquor and Godreau struck him with a flask. This so enraged Godreau that he tried to induce Bernier to fight, and the latter picked up a piece of wood, struck him on the head, and Godreau fell, dying soon after. Bernier fled from the locality, and up to the present has not been captured, although the authorities have every hope of bringing him to justice.

OTTAWA LADY DROWNED IN THE RIDEAU CANAL

OTTAWA, July 18.—Irene Haldane, an Ottawa young lady, daughter of the late Mark Haldane, was drowned in the Rideau canal at Ottawa this evening. She was paddling alone in a canoe when it upset. She was in the water twenty minutes, and when brought to land efforts to resuscitate her were of no avail. Miss Haldane lived with her mother on Rideau street.

CONSCIENCE MONEY

OTTAWA, July 18.—The department of finance has been advised of the payment of \$30 as conscience money to the controller of the Intercolonial Railway, Moncton.

RHEUMATISM MURPHY'S 3 X CURES

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a permanent cure in a few days. It purifies the blood, it neutralizes the acid, it drives away a lame or aching knee, it drives away a lame or aching back, it drives away a lame or aching leg. Have you stiff or swollen joints, no matter how old they are? Have you rheumatism, sciatica, neuralgia, or any other kind of nerve pain? If you have any kidney or bladder trouble, get Murphy's Special Kidney Cure. Money back if it fails. Murphy's Vitalizer makes weak men strong and restores lost vigor.

THE OAK HALL MIDSUMMER SALE HAS TAKEN THE TOWN BY STORM

It's admittedly the Greatest Mid-Summer Sale of Men's and Boys' Clothing and Furnishings ever held in St. John's. Greatest in Quality, Greatest in Variety, Greatest in Values, and that it will be Greatest in Amount of Sales.

Seems a foregone conclusion. Judging by yesterday's enormous response. And why shouldn't it be so? Prices are reduced on our entire stock from 25 to 50 per cent of prices already lower than elsewhere—this is because we are manufacturers and save you the middleman's profit which other stores have to pay and get back from you on higher prices.

Very Special Bargains

A lot Men's Fancy Tweed Suits in size 36 only—odds and ends of the season's selling. \$15.00 Suits, Now \$7.50. \$18.00 Suits, Now \$9.00. \$20.00 Suits, Now \$10.00. ALL-RED SUBSIDY HAS NOT BEEN REFUSED

Report that Committee Reported Adversely to Project Has Been Authoritatively Denied---Decision Not Reached Yet---Campbell Bannerman Said to be Strongly Favorable.

LONDON, July 18.—The acute character of the conflict among the ministers over the All-Red project is reflected in the statements and counter-statements regarding the government's favorable. Lord George and other ministers favorable to the project are much annoyed at their own organs' announcement yesterday of the refusal of a subsidy, especially seeing that Sir Wilfrid Laurier has not yet sent the details upon which their final decision is supposed to partially rest. All that today's official statement means is that the government's decision is not to be formally announced for several weeks.

Free trade opponents still maintain that the decision must be hostile unless the ministry is prepared to change its mind. On the other hand ministerial Imperialists like the Chronicle maintain that this is the Liberal premier's effective alternative to a tariff preference.

The Pall Mall Gazette says there is no probability that the government's decision as to the All-Red route will be adverse. It declares Sir Henry Campbell-Bannerman is converted to the preference. "So long as the subsidy is granted," it says, "the government's motives matter very little. It is an inducement towards a larger policy of union with the colonies. It cannot stand in the way either of preference or of tariff reform."

Mr. Balfour's contribution to the colonial preference debate received no mention in the Times. Morning Post or Telegraph. The Radical satiricalist claims that Balfour has once more eluded the grip of the tariff reformers. The Morning Post: "Lord George was content to treat the whole business as nothing more than an attempt on the part of tariff reformers to chase Balfour into their camp. Apparently, he cannot realize that there is a growing body of public opinion to which a politician on either side is an object of any importance whatever, except in so far as he has power to further obstruct the great national interest."

The Chronicle says: "The majority of the Conservative party are angry with their leader for declaring so decisively in favor of the All-Red route. The House of Commons today, Sir Edward Grey stated that he hoped to make a statement regarding the Newfoundland fisheries negotiations before the end of the session."

BRITISH JOURNALISTS WILL TOUR CANADA

LONDON, July 18.—A party of provincial journalists will sail tomorrow on a month's tour of Canada at the invitation of the Dominion government. No restrictions or stipulations have been enforced on the party. They are free to record their own individual impressions as they choose. Those who are with the party are: Comb, Dundas Advertiser; Langstaff, Newcastle Chronicle; Maitland, Manchester Guardian; Elliott, Ipswich Times; Redwood, Western Daily Press; Birt, Dunsford, Bridgewater Mercury; Powell, Birmingham Dispatch; McConkey, Belfast Telegraph, and Cook, Sheffield Independent.

DR. SEXTON TALKS ON TECHNICAL EDUCATION

Interesting Lecture Before Summer School of Science—Some of His Suggestions

RIVERSIDE, N. B., July 18.—Dr. Sexton of Halifax, director of Nova Scotia, gave a very interesting and timely address before the Summer School of Science last evening on the value of technical education in the Maritime Provinces. The lecture was to have been tonight, but was given last evening instead on account of Dr. Sexton having an important engagement, which made it necessary for him to leave here this morning. The change of date doubtless interfered to some extent with the attendance, which, regretably, was not so large as might have been expected. Dr. C. Matthews of the Summer School occupied the chair. Dr. Sexton, after expressing his pleasure at having a trip to this beautiful spot, he wished to give a plain talk in a plain manner to make, if possible, the subject of technical education a little plainer. One reason that we in these provinces should do more in the way of technical education was that everybody else was doing so. Germany with its great commercial supremacy, has taught the world the value of technical education, her complete system of education, both ordinary and technical, being responsible for her grand trade expansion. We must go ahead on the principle of self-preservation, for our industries would surely be invaded by others better equipped. In 1870 a warship reached England, having painted on its side "Made in Germany." This was then the cause of ridicule, but when German cutlery began to be sold in Sheffield, England began to be alarmed, and realized that to hold their trade they must progress also in the way of education. The speaker had particular emphasis on the value of skilled labor, and the great demands made on it in the world today. The Maritime Provinces, Dr. Sexton claimed, should be the workshop of Canada. They were well located geographically and had coal in almost unlimited quantities and a water power incomparable. The Bay of Fundy with its great rise and fall of tide would, he earnestly believed, be utilized in the near future to furnish power to these provinces. By a simple calculation it was shown that the waters of the bay seven miles from the shore had power to supply a manufacturing city the size of Niagara Falls every ten miles. The speaker was particularly optimistic in this regard, considering it was not visionary to look for the time when this great natural power would be harnessed to man's work. In the course of his talk Dr. Sexton referred to his pleasure at meeting with ex-Gov. McClellan, a patron saint of education in this section, who has strong ideas along modern lines. The doctor was given a hearty vote of thanks, moved by Dr. Andrews and seconded by H. Bond Bailey. Mr. Bailey, in his remarks, while approving strongly of the value of technical institutions, felt that the people of New Brunswick should have a share of such institutions and that they should not be expected to have to send their boys to Nova Scotia for the final two years. He hoped for a school of forestry at Fredericton, and trusted that the N. B. centre should not be overlooked.

EXTENSIVE SCHEME OF MackENZIE & MANN

TORONTO, July 18.—With reference to the proposition of Mackenzie and Mann to occupy a large portion of Ashbridges Bay with an iron smelter, it is said that a formal offer will be made in a week or so. If Mackenzie and Mann establish a smelter at Ashbridges Bay they may also locate cut shops there. It is said they have a very extensive scheme on foot, which, if it goes through, will mean an enterprise requiring capital of about forty million dollars. If Mackenzie and Mann should locate in the East End they would reclaim a large section of marsh and employ nearly 12,000 men in a few years.

Crowds Applaud Pictures

The Nickel was actually crowded every performance yesterday afternoon and evening, and the pictures and song proved so highly interesting that applause was bestowed generously, and Mr. Austin and Baby Rosa were called upon repeatedly to re-urge the chorus of My Irish Rosie, a very catchy piece, which is spontaneously illuminated with views. Judging from the outbursts of approval and hum of excitement as hundreds of feet of pictorial gelatine were run through the machine, the pictures entitled The Bandits appear mostly in demand. It is a lively story of an attack upon a noble lady and her escort in Italian mountains and a timely rescue by English tourists. The applause is deafening when the climax is reached. Those views which show how French peasants make bread is an educative film, and all children should see these foreign scenes. She Couldn't Reform Him, and Humors of Amateur Golf are laugh makers pure and simple.

Store Open Evenings.

LOCAL NEWS.

Mrs. A. E. McKinley is visiting her parents at Three Rivers, Quebec.

The Carleton Cornet Band will give a concert on Market Square, West End, this evening.

The steamer Yale arrived from Boston this morning with the largest crowd of tourists of the season. The passengers list numbered 600 without counting the many children on board.

Repairs on the break in the water main in Fernhill cemetery which occurred on Wednesday were completed yesterday.

The funeral of the late Miss Mary Strain took place at 2:30 this afternoon from the residence of Mrs. Stephen Murphy, Acadia street. Rev. S. Howard officiated and interment was in Fernhill.

The Westfield wharf was quite badly damaged last night when the steamer Elaine made her call. The tide was running up river strongly and before the hawser could be loosened one corner of the wharf was torn away. It is probable that a new wharf will be erected soon, as the present one is in a dilapidated condition.

The brass plate which usually hangs outside a Union street dentist's office was found on Portland street early this morning by officers of the police. The plate probably intended to sell the sign for old junk, but could not efface the name, consequently left their booty behind.

A SERIOUS FIGHT IN THE ASSYRIAN COLONY

A row of quite a serious nature occurred at the corner of Brunswick street last night at twelve o'clock. A number of young men living that vicinity and who loaf there shouted after William Peters, a member of the Assyrian colony, who was talking with a chum, Salam George. The two Assyrians walked away and the young men, thinking the two were afraid, began stoning them, with the result that Peters was badly cut under the eye. The two defended themselves and were assisted by others of the colony. The police were later called.

Peters appeared in the police court at noon today to secure warrants for the arrest of the men who assaulted him. The Assyrians felt quite indignant that they should be subjected to such treatment by roughs who will claim more adequate police protection.

Raymond Tobias, an Assyrian, called at the Star office this morning and said there was no truth whatever in the report that the row was caused by jealousy on the part of the Assyrians owing to city residents visiting the women of the colony.

BERRIES ARE IN DEMAND.

S. S. Aberdeen holds the record for the number of berries to be brought to the city this summer. On the last trip down the Aberdeen brought 479 crates. Berries were then selling at seven cents, yet in spite of the large quantities arriving, the price advanced to eight cents. The cause of the raise was the large number of buyers who were at the steamboat to buy the berries, attracted by what they thought would be cheap prices.

When the Elaine arrived at Indian-town this morning the few berries on board were bought by dealers at the top notch prices. Five hundred crates are expected on the Aberdeen this afternoon and the prices will probably lower somewhat. Shippers say the demand for berries was never so great before and consequently they are happy.

THIS EVENING.

Continuous performance at the Nickel.

Band at Rockwood Park.

Band concert on Market Square, West End.

STILL ANOTHER.

John Sperdake, the Charlotte street confectioner has leased property in the rear of his premises, where he will have a moving picture and illustrated song theatre constructed, which will seat 600 people. John De Angolis, proprietor of the King street show-shining parlor, has not been able to secure a lease of the store, now occupied by Geo. Smith, on King street, where he intended to open a picture show. He has given up the idea.

PERSONALS

Miss Nellie McMichael is the guest of Mrs. Palmer at Hampton.

W. P. Hasbaway and family are spending the summer at Linden Heights, Hampton.

Mrs. J. N. Harvey and family have taken Allen Hick's house at Hampton for the summer.

Ernest March is visiting his grandparents, Mr. and Mrs. John March at Hampton.

Miss Marion Nugent and Miss Gertrude Ryan, St. John, are spending their holidays with their grandfather, J. E. Ryan, at Norton.

Robert J. Logan, the assistant city treasurer of Brookline, Mass., is in the city on a short visit.

LOST—Thursday afternoon, gold watch between Harrison's Grocery on Main street and McGoldrick's on Mill street. Finder please leave at 49 Brook street. 12-7-07.

ST. JOHN RIVER IS NOW WHOLLY CLEAR OF LOGS

One of the Most Successful Seasons on Record—The Last Drive is in Safe Waters and All Lumbermen are Happy

Edward Pond, son of Levi W. Pond, who is now in charge of the corporation drive, is in the city and brought word that the last bunch of logs on the river have within the past few days been brought into safe waters. This completes the best clearing up on the St. John in a good many years and there are now not more than a million feet which will not be brought to the booms. These few odd bunches are still on the landings and were never put in water, otherwise they would have been brought out.

St. John mill men agree that the driving season just ended has been an ideal one. They have a superstition that every third year is favorable, but admit that this year is exceptionally so. Last season almost 35,000,000 feet were hung up and the year before that over 20,000,000. Operators when sending their crews into the woods last fall had decided that owing to the large quantities of logs still in the river the cut would be reduced, but the weather was so exceptionally favorable that instead of reducing they increased their operations, and the consequence is that following the successful driving season the booms will probably have more than they can attend to. The gangs on the booms have been increased and the number of logs rafted so far is greater than ever before. The only thing which can interfere with the final success of the season will be the inability of the boom employes to raft all the logs brought down, but if work keeps on at the present rate, St. John mills will not be able to run to capacity for all of the present season, but can start a month earlier in the spring.

Both the English and American market have gone off considerably of late, and unless there is some improvement, next winter's cut will be a minimum one.

One of the leading mill owners, speaking to the Star today, remarked that this season was ideal in every way. The weather conditions have been perfect ever since last fall, and although the general public complained about the spring coolness and the amount of rain fall, lumbermen on the contrary were pleased.

DOCTORS WANT DR. SPANGLER TO MAKE THE WAY EASY

Suggest That His Counsel Should Admit the Charge Brought Against Him.

The case brought against Dr. Spangler was to have been heard in the police court this morning. The osteopathist was in court with his solicitors, J. D. Hazen and H. A. Powell and also a number of friends. C. N. Skinner appeared for the prosecution and said that he was not ready to go on with the case and asked for an adjournment. He said Dr. Spangler had practiced openly and it was unpleasant to subpoena people to court who had been treated by him. If the defence would admit to this it might be unnecessary to summon these persons. Mr. Hazen said the defence would not be prepared to make any admissions and the parties making the charges would have to be prepared to prove the same.

It was decided that the case should be heard next Friday morning at ten o'clock.

PAID FOR THE LICENSES

The Canadian White Company paid to the chamberlain today \$40 as license fees for the two stone carvers who are employed on the New Royal Bank building. When these men, Joseph Eaton and John Findlay, arrived from Boston, they were called upon to pay fees of \$20 each. The Canadian White Co. refused to pay this amount, as they considered a laborer's license should be sufficient. The civic authorities refused to accept the \$7.50, claiming that the men were artists at their trade. The recorder was called into consultation and he held that the men should pay the \$20. The company were notified and to end the matter they paid the amount this morning.

Citizens are sweltering today under a clear sky and hot sun. Many are complaining of the heat while the tourists from the States say that they just enjoy the fine, cool, bracing air of old St. John. The thermometer at the meteorological office registered 79 on Charlotte street where the thermometer felt the heat from the pavements and buildings a thermometer at 19 o'clock registered 89 degrees and went up a couple of points towards noon. There was very little wind this morning, and that caused the temperature to become somewhat sultry, but when the tourists think the air sultry, the home folk should feel pleased that at least the visitors are enjoying it.
