ONTARIO TO HELP THE HALIFAX MEMORIAL

Will Give a Thousand Dollars to Monument Fund. Pagli's Mind Affected as Result of a Knockout—C.P.R. Section Foreman Killed Near Quebec.

TORONTO, July 21.—A man named Barrymore, a resident of the United States, who has passed under different names, has been arrested here charged with robbing Mr. and Mrs. D. W. of Quebec, of valuable jewelry while they were guests at the Walker House.

LONDON, July 21.—Frank Erbe, a well known pugilist, whose home is in Toledo, was yesterday found lying drugged beside the railroad tracks. After being taken to the hospital he attempted to commit suicide but failed.

ST. CATHERINES, July 21.—The police are looking for a man named Secord, a farmer, who beat his son and hired man for testifying against him in a wife beating case.

QUEBEC, July 21.—Alphonse Chenard, a C. P. R. section foreman, is dead here as a result of injuries received when he was struck yesterday by an immigration train.

FIVE INJURED BY EXPLOSION OF GAS

Man Lit a Match to Hunt for a Leaking Pipe

Murder Suspected in Death of Mrs. Burns, of Battlefield—O'Neill Entertained for the Canadian Honley.

STRAFORD, Ont., July 21.—There was an explosion of gas in the house of E. Evans of Erie street last night which resulted in serious injuries to five persons. Mr. and Mrs. Evans, together with Mr. and Mrs. Chas. Kitchel and their daughter, who were visiting them at the time, were all more or less seriously burned.

BAFFIELD, Ont., July 21.—Mrs. W. J. Burns, wife of a herring boatman of this village, was found dead in her house several days ago with a stocking knotted around her neck and a mark of a heavy blow on her temple. Local interest was excited, but no inquiry held until Saturday, when Dr. Shaw Kitchel and their daughter, who were visiting them at the time, were all more or less seriously burned.

TORONTO, July 21.—Another inquiry for the Canadian Honley has been received from the Arsenal Rowing Club of Baltimore, which sends a senior four coached by Jimmy Rice, a former Toronto oarsman. John O'Neill wired from Halifax yesterday that he would enter in the senior sculls if his new Clasper shell arrived in time.

PROTECTS HIMSELF AGAINST HARRIMAN'S DEATH

New York Broker Insures the Railway Magistrate's Life as Precaution Against Depreciation of Securities.

NEW YORK, July 21.—One insurance policy for \$100,000 on the life of E. H. Harriman has been written by Lloyds, London, for a New York broker, who has large holdings of Harriman stocks. His object is to protect his holdings from any depression which he regards as likely in the event of Mr. Harriman's death.

LIVERPOOL, July 21.—C. F. R. Jake Chapman arrived here tonight, Tuesday.

THE NAMES OF ONE HUNDRED AND FIFTY CANDIDATES ARE ANNOUNCED TODAY

For the accommodation of those who wish to enter the contest or gain information respecting it, and who cannot call during the day the Contest Department of The Star and Sun will keep open until eight o'clock at night. If you are unable to call at any time, write or phone the Contest Manager and a representative will call and give you the desired information.

WAR IN MOROCCO SEEMS UNPOPULAR

Demonstrations in Madrid Against Despatch of Troops

Much Rioting in the Streets—Tribesmen Made Another Attack on the Spanish Position But Were Repulsed.

MELILLA, Morocco, July 21.—Moorish tribesmen today attacked a Spanish force at the Railroad station just outside the town but were repulsed by sniping guns.

MADRID, July 21.—The first body of soldiers to reinforce the Spanish troops at Melilla where severe fighting has been going on for several days past, between the Moorish tribesmen and a Spanish force, left this city at 3 o'clock this morning. Despite the early hour an enormous crowd gathered and cries of protest against the departure of the troops were numerous. The police were obliged to charge the people several times before they were dispersed.

SEVILLE, Spain, July 21.—An infantry brigade was today ordered to Melilla to reinforce the Spanish troops there.

MADRID, via Badajoz on the Portuguese Frontier, July 21.—Great excitement prevails in the Spanish capital. The population is clearly opposed to the Spanish-Moroccan war in Africa. There were several demonstrations in front of the War Ministry today and much rioting in the streets, in which women took a prominent part.

UNION PACIFIC DISPOSES OF BIG STOCK HOLDINGS

More Than Ten Millions Involved in Transfer of Atchison, Topoka and Santa Fe Preferred Stock.

NEW YORK, N. Y., July 20.—It became known today that Kuhn, Loeb and Company had bought from the Union Pacific Railroad Company all, or practically all, of the Atchison, Topoka and Santa Fe preferred stock, which the Union Pacific had published in 1906. Part of the stock, it is understood, has already been sold to banking houses. The price received was not given out.

CAPE RACE, July 21.—E. M. S. Empress of Ireland reported 90 miles southeast of here at 4:35 a. m. today, due to arrive at Quebec at 9 a. m. Friday.

END OF THE STRIKE IS ALREADY IN SIGHT

But U. M. W. A. Men Say It Will Drag Along Gradually Wearing Itself Out is the General Opinion—Discreditable Conduct Attributed to Strikers.

SYDNEY, N.S., July 21.—The local U. M. W. organ, the Glace Bay Standard, in its issue of today states the strikers will have all the financial backing they want from the central organization in the United States and that the strike will be continued. On the other hand the coal company and the P. W. A. claim that the end of the strike is already in sight. In support of this they point to the coal output and shipments which are daily increasing. Yesterday's output was 5,111 tons from colliers and banks. This morning 2,000 tons were mined at No. 2 colliery. The company reports substantial progress at Nos. 2, 3 and 4, the strongholds of the strikers. The opinion of impartial observers is that the strike will gradually wear itself out. The disaffected men coming back to work a few at a time. With a daily total approaching ten thousand tons available for shipment the company is now able to dictate terms.

WANT MORE RIGID IMMIGRATION LAWS

Ontario Finds Too Many New Arrivals Become Lunatics

Grand Trunk Pacific Disputes With Toronto Over Smoke Nuisance—U. S. Training Ships May Visit Canada.

CHATHAM, Ont., July 21.—Saturday when 50 Detroit motor boats headed by Mayor Erdmeyer of that city visit Chatham the keels of two American warships may plow the waters of the Thames for the first time since 1812. Efforts are being made to induce the Washington authorities to permit the training vessels Don Juan, Austria and Merril to come here with the motor boats.

TORONTO, July 21.—That the immigrants and asylums of Ontario are being filled to an alarming degree by prisoners from Europe who have been in Canada for only a brief period is alleged in a report which has been issued by the asylum and prisons branch of provincial secretary's department. The report is intended to throw a radically new light on the federal immigration policy and hint at the desirability of strict conditions at points of entrance.

PAPKE REFUSES TO FIGHT LANGFORD

Draws the Color Line—He is After Ketchell—The Latter Has Been Hurt in an Auto Smash.

SAN FRANCISCO, July 21.—Stanley Ketchell, the champion middleweight pugilist, was painfully injured yesterday by being thrown violently against the front of the automobile which he was riding when the machine collided with a wagon. It was feared at first that his arm had been broken, but later developments showed only a severe strain. In shielding his face from the glass front Ketchell badly lacerated his hands.

SALT LAKE CITY, Utah, July 21.—"Say for me to the entire world, I never fight a negro. Langford has no chance with me. That's final." My game is Ketchell," was the declaration of Billy Papke when the question of a match with Langford was discussed here.

LOS ANGELES, Calif., July 21.—Paul J. C. Derkmun rode a 2 1/2 horse power motor cycle from Los Angeles to San Diego and return yesterday in ten hours, 55 minutes, 30 seconds, breaking the record held by Howard Shattor by 1 hour, 20 minutes and 20 seconds.

PARIS, July 21.—"The Canal in Winter," by E. W. Redfield, of Center Bridge, Donna, the only American picture to receive a medal at the Spring Salon of the Society of French Artists, has been purchased by the government for the Luxembourg Gallery.

MR. BROWN'S MEMORY MUST HAVE BEEN POOR

His Reply to Letter Which He Did Remember Receiving.

Produced by J. Fraser Gregory— Says St. John Mills are Worth Over a Million—Lawyers Disagree

J. Fraser Gregory again occupied the witness stand at this morning's session of the St. John River Commission, resuming where he left off yesterday morning as the commission met yesterday afternoon only to adjourn in order to give the counsel more time to prepare their work.

Mr. Gregory described the jam at Van Buren in 1908, when twenty millions of logs were held up. After considerable discussion he was allowed to introduce a letter written by him to Mr. Brown, Manager of the St. John Lumber Co., protesting against their slowness in sorting the logs, and Mr. Brown's letter acknowledging receipt of the communication. At a previous sitting Mr. Brown had denied knowledge of this letter. Mr. Gregory also told of giving orders this spring to have the booms at Black River cut in order to release his logs, which were held up there. He explained the increased cost of driving below Grand Falls as due to the delay caused by the sorting works at Van Buren.

Witness told of earliest operations on the river, starting in 1840, when John Glastor went up as far as present operations are conducted, to cut pine timber. At present the mills at St. John which saw up river timber are valued at \$1,025,000.

Fred G. Goodspeed gave evidence regarding a survey which he made of the river along the section in dispute in 1907.

There was considerable cross-examining between the counsel this morning. Mr. Fellows on one occasion asked to be put on record as saying that what a witness thought another man felt was great evidence.

The commission resumes at 2:30, when Mr. Goodspeed will be recalled.

When the court opened J. Fraser Gregory again took the stand and Hon. W. P. Jones presided with his examination. Witness told of the delay caused by holding the logs at Van Buren.

In conversation with Mr. Brown at Van Buren on June 1st, they both estimated the quantity of lumber in the booms and in the jams there. After the discussion between the counsel it was decided that these estimates could not be admitted.

Witness related Van Buren on June 1st, 1908. He thought the jam there even greater than this year, when twenty millions were held up. The logs were not using side caps to allow down river logs to escape though they were using them to admit to their own mill. At the booms at their mill there was no outlet at all for down river logs. Mr. Brown was absent at the time, but as soon as he returned to St. John witness wrote to him about the matter. He offered a copy of the letter as evidence.

Mr. J. A. Gregory stated that when Mr. Brown was on the stand he testified about this letter and devised knowledge of it.

Mr. Jones did not press for a detailed account of this letter and evidence Mr. Brown's own letter in acknowledgment of Mr. Gregory's letter.

The court then decided to accept the copy. The letter referred to the fact that there were no side caps and pointed out that they could erect those at small expense. He also objected to the quantity of logs belonging to other companies which was being sawn by the St. John Lumber Co.

WASHINGTON, July 20.—The "What is whiskey" question that has occupied much of the attention of the department of justice recently advanced another step yesterday when the time expired for filing briefs for president Taft's consideration. Solicitor general Powers decided the questions submitted by him considering the meaning of the term "Whisky" on May 24 last. His opinion is in general favor to the blended whisky. The president has now to render the final decision, affirming or reversing the solicitor's general conclusion.

LIVERPOOL, July 21.—The two years' old selling price of 100 sovereigns distant five furlongs, was won today by H. P. Whitney's Ballyhoop Billy. Countess was second and the Isabelle filly third. Six horses ran.

HYANNIS, Mass., July 20.—The sloop Penrose arrived here today from Newport having on board Captain McMakani, a well known driver, and his crew, who immediately commenced to blow up the wreck of the five masted schooner Jennie French Potter at Half Moon Shoals near Cross Rip.

BLUEJACKETS HAVING BIG TIME IN LONDON

A Hundred and Fifty Warships in the Thames

Officers and Men Entertained at Luncheon and Afterwards at a Vaudeville Show in Guild Hall.

LONDON, July 21.—The blue jackets of the 19 warships in the Thames, who heretofore have filled the role of hosts, were guests of the city of London today. Twelve hundred of them marched through the principal thoroughfares and were greeted with unbounded enthusiasm. The decorations along the line of march were on a lavish scale, and demonstrated the widespread interest awakened in Londoners by the stay of the fleet in the very heart of the city.

After the parade the officers and men were tendered a luncheon in the Guild Hall, as guests of the Lord Mayor and Corporation Council and subsequently enjoyed a vaudeville entertainment in the Guild Hall during the many centuries of its existence.

MOB AVENGES DEATH OF KENTUCKY SHERIFF

Small Boy Drowned—Shoer Men Want Raw Material on Free List—Wrecked Schooner Blows Up.

PADUCAH, Ky., July 20.—Without firing a shot, a mob took Albert Lawson, a negro, who on Sunday shot Sheriff R. M. Compton from the parish jail tonight and hanged him to a mulberry tree a few yards from the prison. About thirty minutes later the dead body was cut down.

METHUEN, Mass., July 20.—Harvey Perreault, aged seven, of this town, was drowned in Harris Pond, three days northwest of this town, late today. The boy was at one of the summer camps in the pond and had come in in a boat with other boys and in playing about in the boat accidentally fell overboard.

RESTON, Mass., July 20.—President Taft endorsing his position in relation to free raw material, was adopted by unanimous vote at the first business session of the National Leather Shoe Finders Association at the hotel fair building today.

HYANNIS, Mass., July 20.—The sloop Penrose arrived here today from Newport having on board Captain McMakani, a well known driver, and his crew, who immediately commenced to blow up the wreck of the five masted schooner Jennie French Potter at Half Moon Shoals near Cross Rip.

MUSICAL INSTRUMENTS

Wanted a woman, "that a lady's maid always acquires the same voice, over the telephone at least, that her mistress has? I don't know whether it is unconscious or deliberate, but I have noticed for a long time that whenever I ring up a friend I am answered by what I think is her own voice, but when I venture to say, "Oh, good morning, Gertrude," behold it isn't Gertrude at all, nor Grace, nor Beatrice, but her very courteous maid, if, on the other hand, I say, "I should like to speak to Miss Millions," then it proves to be my dearest friend, who, of course, chills because I have mistaken her melodious voice for that of the maid.

MEXICAN'S STAFF OF LIFE

The Tortilla is Their Bread - Frijoles Are Zolled Beans. The tortilla is the ancient Indian bread of Mexico. Its only constituent is Indian corn (maize), which the women soak in limewater until the kernels are at the point of bursting, then wash thoroughly until it is free from lime, when they grind it by rubbing it on a large block of stone, especially cut for the purpose, with a smaller stone which they hold in their hands... FRENCH CABINET FALLS FOLLOWING DRAMATIC SCENE IN CHAMBER

PARIS, July 20.—The Clemenceau cabinet fell suddenly tonight under dramatic circumstances at the conclusion of a violent debate over naval scandals, extending over several days.

Taunted De'casse Premier Clemenceau, who always has been an adversary of M. De'casse, smarting under the criticism and doubtless over-confident of a majority, which on July 15, upon the general policies of the government was 186.

NEW YORK, July 20.—Wall Street—the opening dealings in stocks carried prices upward, the majority of gains showing small fractions. American Car and General Electric rose 1/2 and Reading, Norfolk and Western, 5/8. The dealings were quite active.

EVELYN TELLS TALE OF LOVES TO BE AVENGED ON THAWS

Pictures Harry as a Brute; White as Chivalrous—Slayer's Wife Admits New Passion and a Possible Marriage—Can't Get More Money.

NEW YORK, July 20.—It is evident that Evelyn Thaw is a woman who will get out of the Thaw family in the future will be mighty skimpy. Having come to this understanding with herself, the former art model, chorus girl and spot-light figure in New York life is giving her tongue plenty of action.

For at least a year attorneys for the Thaw family and for Evelyn have contended over the allowance which should be made to the young wife. Neither side care to force the issue to a trial in open court, but each tried to bluff the other into thinking that it was an appeal to court.

Evidently Mrs. William Thaw's attorneys have won and Evelyn will receive her allowance of \$70 a week. Hence the remarkable interview of yesterday.

PICTURES THE REAL EVELYN. She talked as only Evelyn Thaw could talk, in an irresponsible way, tearing to pieces by her own confession that little footing she held on the platform of respectability, driving the dart into the eyes of Harry Thaw, announcing her love for Stanford White, whom Harry Thaw killed, and who she now she has met up with a new man associate and frankly declaring that she is not at all straight-laced in her views of life.

She paints a new picture of Evelyn Thaw which is likely to shock her many sympathizers who read during the Thaw trial all about the suffering woman at the ends of their perils that these sympathizers live in the rural districts and do not linger long on paper Treasury.

Here is the whole story as Evelyn told it yesterday: "I have been quoted so many times by women writers of mawkish sentimentality with reams of sobbing words at the ends of their perils that I rejoice at being able to tell this story which, at last, is ready to be told with the understanding it will be put in any kind of language that is not my own.

STILL CUTS UP HIGH JINKS. "I laugh and play and cut up the highest kind of jinks in spite of all I've gone through. I'm still a young woman. I'm an optimist by disposition. I don't talk the way I am quoted in newspapers. I'm just as anxious to end for all time the ridiculous nonsense that is being spread about my portrait and my name.

"The first one is that I have never committed any crime. I am a young woman whose unfortunate upbringing has ended in my being connected with a sordid murder. I am just as anxious to end for all time the ridiculous nonsense that is being spread about my portrait and my name.

"My married life with Thaw I lived at home as quietly and with as much regard for the conventions as to what I saw. I'm just as anxious to end for all time the ridiculous nonsense that is being spread about my portrait and my name.

"If you will have the truth, I am distinctly unmoral, as the world today views morals. I have my own code of ethics, and I live up to them. But from present-day ideas I am unmoral. There is no question about it.

"I'm not a bad woman," she said, "but I am not a good woman either. I am just a woman who has been through a lot of things. I am not a saint, but I am not a sinner either.

"I shall have no hesitancy in giving my name to the public. I shall have no hesitancy in giving my name to the public. I shall have no hesitancy in giving my name to the public.

"I shall have no hesitancy in giving my name to the public. I shall have no hesitancy in giving my name to the public. I shall have no hesitancy in giving my name to the public.

Go Where You Will; Look Where You Will

The fact remains that you will not find at any other store such values for your money in MEN'S and BOYS' SUMMER CLOTHING and FURNISHINGS as you can get at Oak Hall

There's never any wobbling at Oak Hall when the time comes to cut prices. Our mid-summer clearance sale started last Thursday. It's a sale of clothing fully up to the mark in fabric, style and color.

There's good reason for it. We know that the true starting point for a great business next season is to sell the present fine line of serviceable clothing now. Carrying stock to another season is an old-fashioned method. We won't do it.

PICNICKERS HAVE ROLLICKING TIME

Two Enjoyable Outings Yesterday

St. Luke's Church at Watters' Landing and St. James' at Westfield

The steamer May Queen, which was chartered for the occasion, carried the hundreds of picnickers to Watters' Landing yesterday to attend St. Luke's annual Sunday school picnic. Many others enjoyed the trip in J. H. Fairweather's motor boat, which also conveyed the belated ones to the picnic grounds.

Land and water sports formed part of the day's amusement, and many close contests were witnessed. Great interest was taken in the four-oared races for ladies and men. In the ladies' race the finish was so close that the judges found it hard to decide a winner, but in the men's four-oared the St. Clements crew maintained a good lead over St. Luke's oarsmen.

Refreshments were served during the day by a committee of ladies in charge assisted by several of the Sunday school teachers. Mr. McKim presented prizes to the winners of the various events. The weather proved ideal and the day's outing was enjoyed by all.

At Westfield Beach yesterday the Sunday school of St. James' (Episcopal) church held the most successful picnic in the history of that church. Crowds left at 9:25 a. m. and 1:10 p. m. Upon reaching the grounds luncheon was served by the ladies in charge.

During the afternoon a series of sports, including five events for the girls and ladies and five for the boys and men, were pulled off. Among the parishioners who donated prizes for these events were Kendall Hall, A. H. Ellis, Cuthbert Lee, R. J. Dabner and the rector of the parish. The following schedule gives the events and winners in detail:

BOYS' AND LADIES' RACES

Age 5 to 7, 25 yards—First, Hazel Evans; second, Thelma Swanton. Age 8 to 11, 50 yards—First, Myrtle Evans; second, Clara Morton. Senior, 50 yards—First, Adelaide Hotter; second, Francis Murray. Teachers, 50 yards—First, Miss Murray; second, Miss Crowne. Married ladies, 25 yards—First, Mrs. Miller; 2nd, Mrs. Patricia.

MEN AND BOYS' RACES

Hop, skip and jump—First, R. Hotter; second, Albert Ellis. Boys, age 5 to 10 years—First, Ralph Lee; second, Harry Shaw. Boys, age 8 to 11 years, 100 yards—First, Geo. Morrison; second, Geo. Duane. Senior boys, 200 yards—First, Jack Murray; second, Geo. Tange. Men's race, 100 yards—First, Robert Murray; second, Zwing Sandall. Rec. J. E. Hand awarded the prizes, after which refreshments were again served and the picnickers prepared for the return to the city.

STINGY, NOT BRUTAL

"The story that he beat me in the club in Germany, that Mr. Jerome tried to make me admit when he sprang the Abe Hummel affidavit in the first trial, was also absolutely untrue. Except that he was absolutely stingy with me at all times, Thaw never abused me in all the time we were together before our marriage.

"In Paris he refused to allow me to go to see any of the things all Americans take to. He said if I hadn't seen them it wouldn't hurt me any to miss them. He took me to just two places—the Cafe de Paris and the Rat Mort, and those who know say that they are Sunday schools compared with what may be seen in Paris. I do not say this in a complaining spirit. I want to be fair to Thaw. I honestly believe it was because I wanted to keep me from all such things.

"You will remember I swore on the stand I was drugged by Stanford White and left unconscious. I also said I recovered from the ill effects of that drug in less than three hours; dressed and went home as usual. At that time I knew as well as any one else that every one doubted the truth of the statement.

"It is not true that I hated Stanford White then or at any time. He was my mother and higher berated and more considerate of all women than any man one meets in the course of events; that his unhappy attitude toward women and girls is a fault to be minimized in summing up his whole life's career.

"I was not the man who stole the money from me away from White, just the same as men in the Stone Age stole women, if folk lore says such things happened, and I understand that is the way the old tales go. "For more than a year before that Christmas night in 1903 I had seen White only occasionally. But he was my protector, my patron, if you will, and I loved him more than I ever had any man or woman in my life, my mother and father not excepted.

"He was giving me a birthday party the very night Thaw appeared with a revolver in my dressing room and told me he would kill White before he would allow him ever to take me away from him. There was nothing for me to do under the circumstances but go with Thaw. I hardly knew him. I did not like him. It was simply a case of go or be killed.

"That was the nature of the beginning of our love affair. "Before I begin the story of my life with Thaw, I must tell just what happened about Jack Barrymore. He was a dear, sweet, whole-souled man, as far as I know, anywhere near my own age I had ever known since I began to understand the way of the world. But Stanford White developed the idea as hard as he could. He got my mother to side with him, and he got my father to side with him. Poor old Jack they had said many terrible things.

"After Thaw took me away from Stanford White, after I found myself entirely dependent on Thaw's beneficence, I took on a very different aspect for me. "Never once in all the years that I have known him, after that Christmas night, when he took me out of the dressing room in the garden theater, has he ever been unkind to me. "It didn't matter so much as it would have if I had been a different type of man who wants to deck me out in beautiful gowns and jewelry and jewels and diamonds and down in restaurants to be gazed at by less expensively dressed women, as then I had shown. "If I had never come to New York I should have settled down in Pittsburg and made some shoe work and had beautiful children and been peacefully happy. I am naturally do and insist on my being treated like a real invalid for a month afterward.

The list of contestants is published today for the first time. You will notice it is not a very large one; there is plenty of room for energetic candidates to enter and win one of the many prizes. In fact this announcement really means the opening of the contest. Many who have sent in inquiries claim that they have not the time to devote to campaigning. We want to convince you that these prizes may be won with votes secured during your leisure moments. You are not asked to neglect your business or occupation, whatever it may be. We could not consistently expect that of you. We want you when this great contest is finally over to have nothing but the very best of feeling toward the SUN and STAR. We would not expect to look for this were we not fair and square to each and every contestant whose name appears in the list. The Contest Department is ever at your service in the matter of advice or suggestion which may help you win the prize which you want most. So do not delay, but fill out a nomination blank at the bottom of the page and send it to the Contest Manager. He will either call or send some one to convince you of the vast importance of having your name in this list when it next appears. You really cannot afford to miss this opportunity.

LONDON NEWS AND GOSSIP BY LETTER

King Startles Many by Wearing Soft Hat With Frock Coat
LONDON, July 11.—The summer show of the Royal Horticultural Society in London is finer than ever this year, and special precautions are being taken to protect rare specimens of flowers and plants. It is not that they are likely to be carried away bodily by thieves or to have blooms cut from them, though there have been instances of both forms of theft in past years, but what is likely to happen is that unscrupulous growers may indulge in "another nipping," a simple operation for expert. The author is the little bag at the

top of each stamen containing the pollen or fertilizing dust, which must be conveyed to the pistil before any seed can be formed. When the pollen of one flower is accidentally or deliberately applied to the pistil of another with different characteristics hybrids are produced; which in the case of orchids, as every amateur knows, may be most curiously formed and marked, and therefore very valuable. The "another nipping" as he is known among horticulturists, always has a long thumbnail. While apparently examining the centre of a flower he slips off one of the tiny anthers and carries it on his nail till he can secretly put it in a little box. He hastens home, and as soon as possible paints with the pollen of the stolen anther such pistils as he hopes to fertilize. Seeds form in due course, and he gets possibly a flower surpassing that from which the anther was stolen. At the Royal Horticultural Show every rare flower is watched over by a stalwart and eagle-eyed guardian appointed by the grower. In the background lurk watchful police, and the anther snapper will have no easy task to procure his spoil. Wire-screens ruin all the effects of grouping, so the only way to protect the precious an-

thers is by having custodians always about. Once more King Edward has set a new style and given a momentary shock to fashionable men who pride themselves upon wearing only what is absolutely correct at certain times on certain occasions. A soft, light-colored Homburg hat with a frock coat these arbiters of style do not consider correct, and when the king at a house party not long ago appeared arrayed after the manner one Sunday the men present gasped with astonishment, but the king can do no wrong, so, of course, they did likewise. The king's frock coat was worn with gray trousers, white waistcoat and black tie, but instead of the requisite top hat, so sleek and shabby, there was an unpretentious but thoroughly comfortably light gray soft felt Homburg hat. The frock coat had always been crowned by the top hat before, and there are some bold spirits who are still questioning the possibility of changing such an absolutely canonical style. However, in the end the king's custom will be followed. It always is, and the Homburg hat he so favors may usurp the prerogatives of many kinds of headgear. Certainly it is comfortable, and that is a great deal. The king sometimes strifes society by these radical changes in dress, but the queen never does. She follows convention slavishly so far as wearing things which should be worn together, and she will not have anything to do with fashions which are extreme. Two privileges, however, she reserves to herself. She never changes her style of hair dressing, no matter how the prevailing mode may be. For years she has clung to the high curl, coils of hair or the top of her head and the fringe which was in vogue when she was young. In her hair, too, she will not conform to prevailing modes. Gainsboroughs, bell-shapes, bobbies, high crowns, low browns come and go, but Queen Alexandra wears always the simple toques, which suit her delicate features.

BRIDE OF PRINCE IS 27 YEARS HIS SENIOR

D.I. Dragos Think Schmid Millions Are Honored by Alliance
ROME, July 20.—Aristocratic Rome is talking about the recent wedding of Prince Alfonso del Drago and Mrs. Josephine Schmid, widow of a wealthy New York brewer. The prince comes of one of the best families in Rome, the del Dragos' genealogical tree running back into ancient times. Unfortunately it has not been a very prosperous family in recent years. The Roman nobility feels that the Schmid millions are honored by falling into such distinction. Another reason for the interest taken in Rome is in the ages of the bride and bridegroom. Prince del Drago is 27 years old while the prin-

DANCE DENOUNCED BY MINISTER IN SERMON

All Who Indulge in Pastime Are Deluded Souls, He Says
SELWINGSTROVE, Pa., July 20.—Denouncing dancing in the most scathing sermon ever delivered from a local pulpit the Rev. Allen C. Shue, pastor of the Methodist Episcopal church here, today surprised his auditors with his plain speaking. Mr. Shue said in part: "It is not my business to seek popular approval. I am a minister of the gospel and has married children who have started a friendly suit to settle the estate. "Dancing does far more than dull the spiritual life. It becomes in many cases a very stepping stone to hell. The modern dance is disgraceful. The position the girl takes is un lady-like. If she were seen in that position with a man at any other place she would be considered indecent. "What is it that makes young people so fond of the dance? Is it the dance itself? Could some of the conversations of dancers be heard, you would not think so. And yet the most respectable people will hug and be hugged in public in company with some who are public in bruter. "After the ball, what?"

MINISTER OF LABOR IS NOT WANTED BY MINES

The Decision of Officials of Labor Congress.

Department Asked to Still Difficulty With Municipal Employees—St. John Soldiers Will See Airship Experiment.

OTTAWA, Ont., July 21—In response to a suggestion made yesterday from Glace Bay by James Simpson, Vice-President of Trades and Labor Congress, that intervention of the Minister of Labor be requested in an effort to settle coal strike, the following telegram has been sent to Mr. Simpson by President Verville and Secretary Draper, on behalf of Congress executive: "Congress deems it inadvisable at this juncture to request the Minister of Labor to visit strike premises at Glace Bay, believing that his mission would be fruitless."

The Minister of Labor has received the report of the board of conciliation and investigation which was established last month to deal with the dispute between Canadian Western Coal Company of Taber, Alta., and its employees. The board brings in an unanimous report on the matter at issue and agrees that the company in adopting a new basis for weighing coal mined should adopt the screening system in vogue in the Leithbridge mines in substitution for the system recently adopted by the company.

The first board of conciliation and investigation under the Lemieux Act in connection with a dispute between a municipality and its employees was established today by the Minister of Labor. About 300 employees of Saskatoon, Sask., engaged in a variety of municipal undertakings applied for a board to adjudicate upon a number of questions, as to conditions of labor particularly in respect to the safety of the employees. The city council has been asked to name an employer and a representative of the employees. The board, headed by Mr. J. Stephenson, of Winnipeg, has been named as the representative of the employees.

The first flight of Prof. Graham Bell's two aeroplanes now being assembled at Petawawa camp, will take place under the direction of Messrs. Baldwin and McCurdy early next week. The aviators expect to spend a few days for initial flights.

Employers' Liability Act Unconstitutional According to Decision Handed Down by Supreme Court of Connecticut.

NEW HAVEN, Conn., July 20—The Connecticut Supreme Court of Errors this afternoon handed down a decision in favor of the New York, New Haven and Hartford Railroad Company in the case of William H. Hoxie, an Edgar G. Mondou, actions for damages, finding no error. In effect this means that the court by unanimous opinion declares that the employers' liability act passed by congress on April 22, 1908, is unconstitutional.

In the Hoxie case, after the railroad as the defendant in the superior court had set up the plea that the act in question was unconstitutional, in the parallel case of Mondou, who also was a railroad brakeman injured while coupling cars, the federal government intervened with a plea to uphold the constitutionality of the act, the department of justice being represented by a special attorney. The arguments were made at Hartford last month.

The opinion was written by Chief Justice Baldwin. This case was an action of William H. Hoxie, a train-hand, for injury on the railroad of the defendant corporation at Auburn, Mass. The complaint alleged that while coupling cars the plaintiff was servant in control of another train servant in control of another train running between Hartford and Worcester and he claims damages under the federal liability act relating to the liability of common carriers by railroads engaged in commerce between states. A demurrer to the complaint was sustained and judgment rendered for the defendant. The decision upholds Judge Ralph Wheeler, of the Superior Court, who had declared unconstitutional the act in question in the Mondou case.

Press Conferences Will Be Continued

OTTAWA, July 21—On his return to the city today, P. D. Moss, a delegate to the Press Conference, stated that a future conference would be held. The reduction of the Pacific cable rights was discussed at some length at the meeting of the press representatives. This would mean a cheaper cable news throughout the British Empire. There was already a proposal to establish a government line before the Imperial Press conference.

Cost Him \$200 To Shoot A Moose

BATHURST, July 20—On information laid by W. H. O'Brien, game and fire warden, for this district, Albert Moss, Joseph Conture and Xavier Doucet, of St. Mary's, were fined \$200 for unlawfully killing three moose in the woods.

The matter of the dispute between Lonsbury Company and Daniel Murphy, in respect to the payment for a purchase by Murphy for the plaintiff's agent, has been decided in favor of Mr. Murphy.

BENTLEY'S VICTORY WAS CELEBRATED IN ENTHUSIASTIC STYLE

Opposite Candidate in County Received 1075 Votes and Mosher 1025.

In the St. John County by-election for the provincial house, A. P. Bentley of St. Martins, defeated J. P. Mosher, the candidate of the Hagan administration, with a majority of fifty votes. Bentley secured the total of 1075, while Mosher's aggregate reached 1025. At Fairville last evening a largely attended rally of the victorious opposition was held. At St. Martins there was also a meeting, and a bonfire was lighted in front of Mr. Bentley's residence.

STRIKE SETTLED WITH MUTUAL CONCESSIONS

3,500 Employees of Steel Car Works at Buller, Pa., Return to Work Today.

BUTLER, Pa., July 20—The strike which for four days has tied up the Standard Steel Car Works, was settled today, and the 3,500 employees of the plant will return to work tomorrow morning. The settlement, which is a compromise, was brought about through the efforts of Rev. Peter F. Bezawski, of the Polish Catholic church here, and under whose auspices the men have been acting almost from the beginning. Following the presentation of an ultimatum by the men today, Attorney Levi M. Wise and Mr. Bezawski were called into consultation with company officials. The latter agreed to take back all the workmen and consented to a reduction of the per cent of delinquent rents taken from the pay envelopes of the men each week.

Mr. Bezawski, acting for the strikers, then agreed to advise the demand for an increase in wages, consenting to the company's statement, that it would follow its usual custom in such matters. An agreement was drawn up which was ratified by the strikers at a mass meeting this evening.

BOLIVIA'S INSULTS BROUGHT ON THE CLIMAX

References in Official Circular to a Recent Arbitration Award Led Argentina to Break Off Relations.

LAPAZ, Bolivia, July 21—It is stated here today that Argentina's reason for breaking off diplomatic relations with Bolivia yesterday was the result of a telegraphic circular issued by President of the latter Republic to its provincial governors in which he alluded in offensive terms to the arbitration award recently handed down by the President of Argentina in the matter of the boundary dispute between Bolivia and Peru, and also the Bolivian president's orders to the municipal officials at Lapaz to suspend the centenary feasts and treat the day as one of national mourning. Argentina considered it incompatible with dignity to maintain diplomatic relations with Bolivia under the circumstances, and ordered the minister at Lapaz to retire.

The Argentine government yesterday sent the Bolivian Minister his passports and elevated him to leave the city within 24 hours. The Argentine Minister to Bolivia also was ordered to leave Lapaz immediately. The rupture was brought about by Bolivia, deciding to submit to Parliament, for consideration of the Arbitral Award rendered by President Alvear of Argentina in the boundary dispute between Bolivia and Peru, which had been considered sufficient reason by Argentina for breaking off diplomatic relations with Bolivia.

ONLY SLIGHTLY INJURED BY FALL OF 75 FEET

TORONTO, July 21—James Peters, janitor of Wycliffe College, had the unusual experience yesterday afternoon of falling nearly seventy-five feet from an elevator shaft, and escaping with only a badly sprained shoulder and a severe burn to the calf of one leg, caused by coming in contact with one of the ropes on the drop down.

BANK STATEMENT POINTS TO BETTER CONDITIONS

OTTAWA, July 21—The June bank statement shows the chartered banks of Canada as numbering 21, as compared with 20 in May, the reason being the disappearance from the list of the Banque St. Jean. The figures on the balance sheet show an increase. Current loans in Canada, for example, stand at \$25,225,000, as against \$23,221,211 a month ago. Deposits payable on note stand at \$45,178,476 as against \$43,599,117 at the end of May. The assets total \$1,022,719,019 as against \$1,044,029,533 and the liabilities \$610,192,342 as against \$581,029,514. The note circulation is \$70,170,493 as against \$68,523,229 in May.

MR. BROWN'S MEMORY MUST HAVE BEEN POOR

(Continued from page one)

NONE OF HIS BUSINESS. Mr. Brown's letter acknowledged receipt of the letter and said that his company felt they were grossly misused by the St. John River Log Driving Co. in that they did not get their fair share of the prize logs. He also stated bluntly that he did not see why he should answer Mr. Gregory's questions about his methods of conducting his own business.

Witness, continuing, said that the booms at Crook Island were in position during the whole season and boats travelling the river had to cross over them.

Mr. Jones asked why the cost of driving had not been increased above Grand Falls in the same proportion as the increase in the rates below the falls. Witness pointed out that the sorting works at Van Buren were not able to handle the increased volume of the drive. Further, there is good driving above Grand Falls and so did not interfere with the main part of the drive. Further, there is good driving above Grand Falls and so did not interfere with the main part of the drive.

Witness gave the cost of driving above the falls as follows: In 1906, \$1.00 per cord; in 1907, \$1.25; in 1908, \$1.50; in 1909, \$1.75; in 1910, \$2.00; in 1911, \$2.25; in 1912, \$2.50; in 1913, \$2.75; in 1914, \$3.00; in 1915, \$3.25; in 1916, \$3.50; in 1917, \$3.75; in 1918, \$4.00; in 1919, \$4.25; in 1920, \$4.50; in 1921, \$4.75; in 1922, \$5.00; in 1923, \$5.25; in 1924, \$5.50; in 1925, \$5.75; in 1926, \$6.00; in 1927, \$6.25; in 1928, \$6.50; in 1929, \$6.75; in 1930, \$7.00; in 1931, \$7.25; in 1932, \$7.50; in 1933, \$7.75; in 1934, \$8.00.

Correcting a statement made yesterday, Mr. Gregory said that if there had been no obstruction at Van Buren 50 per cent of the logs would have reached Fredericton without assistance and all of them would have been sent to their destination.

When Mr. Gregory was about to give an estimate of the value of the lumber mills in St. John which saw logs from up river, Mr. Fellows questioned his ability as an expert witness. It was demonstrated to the satisfaction of the commission that Mr. Gregory was qualified to give an estimate of the value of the mills. Mr. Gregory insisted that the only value to be placed on the mills was the value of the logs which they were producing.

After further discussion Mr. Gregory gave his estimate of the cost of the mills at \$1,000,000. At this point Mr. Gregory was excused for a few minutes to attend the sale of the no-mark logs.

FRED G. GOODSPEED. When the commission resumed Fred G. Goodspeed of the engineering staff of the Public Works Department of Canada, was called and submitted diagrams of surveys made by him on the St. John River during the past three years. Examined by Mr. Fellows he said that in July, 1907, the river was above Grand Falls and worked down the river.

Describing the boom at Crook Island in 1907, he said that when he saw the boom in May, 1907, and in October, 1908, there was only one opening wide enough for the American side of the river below. In May, 1907, the men were working at the boom but in October, 1908, the boom was closed. The later date was discharged with an explanation of the places in which booms were shown on maps.

Mr. Jones asked when he was to return with the field notes of this survey.

MR. GREGORY RESUMES. J. Fraser Gregory, who had returned in the meantime, was again called to the stand. He said that the estimates at the St. John mills which he had submitted did not include working capital on timber lands, but simply the cost of the mills.

Mr. Jones endeavored to secure from the witness information which he had gleaned from Mr. Murray regarding the length of the time the river had been used for logging on the St. John. Mr. Fellows objected that he leave Lapaz immediately, which in which ancient customs could be proved.

Witness, continuing, said that the traditions of the river as he knew them were to the effect that in the early part of the century the river was used for as far as they now go to pine timber. This timber was driven to St. John.

Mr. W. H. Murray succeeded his uncle, Mr. Thomas Murray, who about 1860 operated a mill at Springville. Earlier in the century he had been conducting lumbering operations above Grand Falls. The contractor of the Upper Corporation, E. V. Pond. This spring a run of logs in February set a run of logs that had been in the ice high on the bank. Mr. Pond extended his first energies in getting these logs into the river. Until 1886 the logs were not great object in buying the logs as he felt that he was helping the St. John lumber Co. by not increasing the jam at Van Buren.

Mr. Fellows—"That is great evidence, to tell what another man felt." Continuing witness said that if the Black River had not been boomed the logs in it would also have come to Van Buren. He said that there was no object in getting the logs down. As soon as the jam was broken on this date, there was every anxiety to get the logs down as soon as possible.

On the 20th of May, this year, witness gave evidence that the Black River had been boomed that day. He had about fourteen millions there and they were being only about 24 hours as he said he would assume all responsibility. The free running logs would reach Van Buren in two or three days. He had driven any quicker it would have increased the difficulties at Van Buren.

In the corporation drive there were several river drives, but in brook driving there was usually only one. Witness had received statements from Alexis Sagie, the inspector at

THE COMMONWEALTH COULDN'T END STRIKE

First Attempt of the Kind a Failure.

State Has No Power to Force Men to Work or the Company to Employ Them.

PITTSBURGH, Pa., July 20—The first effort on record in the United States to stop a strike by enjoining both the principals and the commonwealth failed today when Judges Ward and Brown, of the common pleas court, sustained the demurrer of the Pressed Steel Car Company, to the petition for injunction, made by the Public Defense Association of Pittsburgh against the company, the striking employees and the sheriff of Allegheny county. The hearing consumed the better part of the afternoon. For the strikers, who admitted the conditions set forth by the petitioners and the Public Defense Association, it was argued that the strike is costing tax-payers much money and great uneasiness. For the company it was argued that the petitioners are not injured personally and the corporation is not one of public service but private, the courts cannot interfere. The formal ruling of the court in refusing the petition of the Public Defense Association in part follows:

"We only have jurisdiction in regard to a trouble growing immediately out of the strike and any request for a restraining injunction against violence that may lead to loss of life or injury to property, will be considered."

"We sustain the demurrer of the defendant company in so far as it relates to that which concerns the right of a taxpayer to file such a bill."

The court also refused to establish a precedent and caused general comment, as the option handed down is far-reaching in effect.

ARRESTED FOR PASSING A RAISED CHECK

And Is Recognized as Man Who Showed Check to Police Yesterday Claiming He Had Been Stolen With It.

Further developments have arisen in the case of a man who passed a raised check on the Victoria grounds yesterday after purchasing several articles at Oak Hall. Wallace presented the check which was recognized as a raised one, and upon being told so by the clerks, Mr. Wallace appeared astonished and left the store to seek the aid of the police.

The facts of the case throw a different light upon the matter. Yesterday after purchasing several articles at Oak Hall, Wallace presented the check which was recognized as a raised one, and upon being told so by the clerks, Mr. Wallace appeared astonished and left the store to seek the aid of the police.

He called on Chief Clark and related the above story, leaving the matter in the hands of the police.

This morning Wallace tried to obtain a suit of clothes, rain coat, etc., from Deasy & Johnson, Main street, who refused the check and notified the police, with the result that Wallace is now lodged in Central Police Station until the facts of the case are established.

Van Buren, and an inspector named Colwell, relating to the quantity of logs sawn by the St. John Lumber Co., which were the property of other parties.

Reading from these statements he started to tell that about the logs cut in 1905, Mr. Fellows objected on the grounds that Mr. Colwell himself was available.

Mr. J. A. Gregory held that the evidence was admissible as the office records of an officer of the logging company. He would, however, call Mr. Dagle later to confirm his reports.

A adjournment was then made until 10.30. The commissioners to make a ruling on the question raised by Mr. Fellows before opening the afternoon session.

The Tobique Valley dam committee of the Board of Trade met yesterday and completed its organization. The committee will look into the merits and demerits of the dam for the building of which legislation is sought. The new industry committee of the board met yesterday and dealt with some correspondence.

DR. SAMSON AND GOSPEL OF THRIFT

He Will Be Heard in St. John in Y. M. C. A. Hall This Evening.

The Hamilton Spectator, a Conservative paper, made the following comments on the lecture of Dr. Samson, who will speak in the Y. M. C. A. hall here this evening on Sir Richard Cartwright's annuity scheme:

"One of the most practical gospel sermons delivered in Hamilton for many a day, and it was not by a regularly ordained preacher either, was heard in Wesley church last night.

"The preachers tell us every Sunday how to live so that when we die we die we may have a safe passport into the glories of the world beyond. TRACK RECORD LOWERED AT HILLSGROVE, R. I. Sensational Racing Marks Opening Day—Large Crowd Present.

HILLSGROVE, R. I., July 20—Sensational racing, in which the track record was lowered, marked the opening day of a five-day meet at the Hills Grove half mile track today. Fine weather brought out a large crowd from all parts of the country and the track was in excellent condition.

In the last heat of the 210 pace, the Cannon, a warm favorite, broke the track record of 2:12 1/2, made 14 years by Barney, negotiating the quarter mile in 2:12 1/4 and winning the race in straight heats. The second heat of the 210 pace was made up of John F. Gibson and is believed to have been the fastest time made in this class for several days. In the third heat, the favorite in this event, took the first heat, Gibson taking the other three. In the 210 pace, thoughtful, who won at Woonsocket last week was a favorite, got the first two heats. The price stated to have been paid was \$4,500.

Many of the horses at Moospath were indisposed today and when brought on the track for a try-out they did considerable coughing. In conversation with a prominent horseman the Star learned that nearly all the horses had been affected with a slight cold, but nothing that would prevent them from starting tomorrow. This is quite a common occurrence with horses travelling, as oftentimes the change of climate is responsible while travelling in the cars will sometimes bring on a cold. However, those at the track claim their speed will not be affected and good racing is promised during the meet.

DEPLORES THE LACK OF PUBLIC INTEREST

In the Campaign Against Consumption

Dr. Walker-Tells the Medical Men How Brunswick (Dorset) Would to Care Anything About the Movement.

At the session of the twenty-ninth annual meeting of the New Brunswick Medical Society in the council chamber this morning, the subject of tuberculosis was dealt with. Dr. W. B. McVeigh read a helpful paper on the disease. Upon its completion Dr. Thomas Walker, president of the anti-tuberculosis society, made a vigorous appeal for assistance in fighting the plague.

He deplored the action of various counties in refusing to work up sufficient public interest. Others participated in the discussion, and it is probable that the society will hereafter more vigorously attack tuberculosis.

The reading of a number of excellent papers on various forms of diseases occupied the attention of the meeting during the morning. Adjournment was made about one o'clock.

The committee on Dr. Skinner's paper on "Public Health" made a report, recommending the adoption of a number of the suggestions. The paper, which was read yesterday, was an able one. The committee recommended that copies of it with the suggestions be sent to the government, Board of Health, and the School Trustees.

An interesting paper on Asthology of Tuberculosis was read by Dr. W. B. McVeigh. He declared each individual case of consumption must be studied. Suitable education should be given to the public generally.

Fresh air, sunshine and dryness with abundant diet of hearty food were required in the treatment of tuberculosis. The patient should also have exercise. The building-up of tissues and repairing of wastes are brought about by food. A reasonable amount of milk and eggs form excellent diet.

However, such quantities and quality of food should be given as the patient can assimilate properly. Exercise and rest must be graduated proportionately for the disease. It is a possibility of the patients taking too much exercise. The physician in attendance should carefully discriminate between too much and too little rest and exercise.

During his paper Dr. McVeigh quoted a number of eminent physicians on the matter. The opportunities of the tuberculosis association are simply tremendous, declared Dr. Thos. Walker in conclusion.

Dr. Thos. Walker was called upon to refer to the discussion on the paper. He referred to the formation of the anti-tuberculosis society. There has been a great deal of talk about the disease, but nothing that would prevent them from starting tomorrow. This is quite a common occurrence with horses travelling, as oftentimes the change of climate is responsible while travelling in the cars will sometimes bring on a cold.

Dr. Walker appealed to the meeting to commence the work of combating the evil. But two counties had formed auxiliary societies, namely Charlotte and St. John.

The speaker made a strong protest against the suggestion of Dr. Butler to placard the house where tuberculosis patients reside. He again deplored the inactivity of the people of New Brunswick in not uniting to stampede this disease. The prevention of tuberculosis is preferable to the cure. To eradicate the disease the air should be at present.

It is also important to disinfect the sick room at regular intervals. The patient should have a separate room. The disinfectant should be Brunswick should care for the pauper tuberculosis patients. In the province there are but four beds for consumptive patients. The speaker also referred to the necessity of the disinfection of schools. He related personal experiences in the treatment of the disease and told of the great benefit of fresh air. A tuberculosis patient under proper treatment receives practically six meals a day.

Dr. McVeigh, who was not in attendance. Dr. Bailey, of St. Martins, stated he would be pleased to join in any effort made to prevent the spread of the disease. He related personal experiences of a systematic campaign. The doctor regretted the fact that he had not received not less of the general meetings, as he desired to be in attendance.

Dr. McVeigh also spoke briefly on the matter. Helpful papers were delivered on "Prognosis" by Dr. G. G. Melvin, and "Fracture of Base of Skull" by Dr. F. H. Wetmore, of Hampton.

The society will meet again this afternoon when the business will be completed.
