JOHN H. ROBERTS IN KENT CO.

The Celebrated English Apostle of Temperance Speaking on Prohibition.

MAY COME TO DOAKTOWN

Rare Chance Of Hearing One Of The World's Greatest Orators

On the 21st instant, John H. Roberts, the gifted English apostle of prohibition, delivered a powerful address in the Every Day Club, St. John, and at its conclusion many persons signed the petition in favor of a prohibition law which is now being circulated throughout the province.

Mr. Roberts' speech was an analysis of the impressions and feelings of a visitor from Mars, who might visit the earth, and ask questions relative to what he saw in connection with the liquor traffic. This visitor would note that liquor produces such an effect on men that it is necessary to lock them up, and would ask why the persons who sold it were not locked up instead.

He would become acquainted with the evil that follow in the train of the traffic, and would be amazed that instead of destroying it the state accepted revenue from it. He would see missionaries and bibles going to heathen lands along with casks of rum and would be astonished at the sight.

Mr. Roberts by this method of stating the case brought out with great clearness the strongest arguments against the liquor traffic. He told of his experiences in Maine, and in local option localities in Massachusetts, and declared that the real need was not prohibition in states or localities, but national prohibition.

He sharply criticized the attitude of the church in relation to the liquor traffic and incisively declared that while there is much effort to get men into heaven there should be much more to get heaven into men. He made a very vigorous appeal to the men before him to devote themselves to personal effort to reclaim the victims of the spirit habit who needed sympathy and help.

John H. Roberts arrived at Harcourt on Saturday, Aug. 22nd.

In the evening a very cordial reception was given to Mr. Roberts in the Public Hall, Addy-street, where were given by Rev. R. H. Stavert, District Worthy Patriarch of the District Division of the counties of Kent and Northumberland, under whose auspices Mr. Roberts appears and also by Messrs L. J. Watken and S. M. Dunn.

To the words of welcome Mr. Roberts made a fitting reply, and in closing made a strong appeal to all to do all in their power to make the proposed campaign a grand success.

After the addresses had been given, ice cream was served and a very pleasant evening was spent. The meeting was brought to a close by the singing of "Throw Out the Life Line".

On Sunday, Mr. Roberts addressed large and attentive audiences at Grangeville at 11 a. m.; Mill Branch at 3 p. m.; Harby Road, 5.30 p. m.; and Harcourt at 7.30 p. m.

On Monday afternoon Mr. Roberts addressed a meeting for women in the Public Hall, Harby Road.

The women of Harcourt and vicinity are looking forward to the organizing of a branch of the W. C. T. U. in order to better do their part in helping to conquer the drink curse.

In the evening Mr. Roberts gave his noted lecture on "Marriage and Heredity," their Problems and Perils. A large number of people were present and the lecture was much enjoyed by all. At the close of the lecture a petition asking for the names of all men and women who would wish to have a Prohibition law enforced in New Brunswick, was passed around and largely signed.

Mr. Roberts' programme for the next nine days will be as follows:— Tuesday, August 25—Mill Branch;

Anderson's Furniture Factory Burned to the Ground and Loss \$100,000.

OTHER FIRES ON FRIDAY.

Saturday night, about 9.45, an alarm of fire startled the town, and soon the Anderson Furniture factory was seen to be in flames. The fire, of which the origin is unknown, seems to have started on the southwest corner of the building, where the dry house was situated. The wind was in the best possible direction to carry the fire on to the main building. The whole establishment was soon in flames, and no efforts of the firemen availed to stop the progress of the fire fiend. They were early on the ground, and worked hard, but the fire licked up the dry building and the dry materials within almost as fast as if no water were being poured on. So hot was the blaze that a large amount of hose had to be abandoned to destruction, the operators having only time to get themselves to safety.

In less than two hours the factory and its outbuildings were gone, nothing being left but the chimney, some other brick work, and a pile of smoking ruins. A great quantity of lumber in the yards also went up in smoke.

The wind carried the cinders into the river, just past Hickson's mill, which, had the wind veered a point or two, would have been in great peril. As it was, a portion of the fire brigade was, early in the evening, detached to protect the mill and wharf.

The direction of the wind was most fortunate for the other buildings of the town.

The destruction of the factory is a great loss to Newcastle. The factory including its contents, among the latter being a great quantity of furniture for local needs and three or four car loads ready for export, was valued at \$100,000. The insurance in various companies, is only \$45,000. The factory was running with a about three-quarter staff. Mr. O. G.

Anderson, the head of the company, had just returned from Winnipeg and the west, where he had secured orders sufficient to keep the factory running until Christmas. Prospects for the future of the factory was excellent. The company employed a resident agent at Winnipeg and another at Vancouver, who covered all the territory between Fort William and Victoria; another resident agent at Montreal, and three travelling agents in Quebec and the Maritime Provinces.

The factory was erected four years ago. Everything was new; machinery the latest mode; and the whole outfit was one of the best in the Dominion. During the financial panic last January, the company went into liquidation, but at the first meeting of creditors they unanimously agreed to continue operating the factory, so good a statement did the business show, and it was expected that as soon as the financial depression was over the company would resume operations permanently. The business being a prosperous one from the beginning, giving employment to from 50 to 80 persons, and paying out in wages about \$25,000 per year, and as much more for material purchased locally, the loss to the town is very great. Fifty persons were employed in the factory the last week.

Saturday morning about one o'clock the paint shop of A. C. Allen's carriage factory, was destroyed by fire. Fire appears to have caught at both ends at once. The building was wrecked, causing a loss of some \$500. There was no insurance. Five wagons belonging to R. H. Greenley, five or six and a large number of parts belonging to John Morrissey, and wagons and parts belonging to Mr. Allen and other parties, were also destroyed. Origin of the fire unknown. Friday afternoon the ice house in the rear of John Brander's store was burned. It is not known how that fire started.

I. C. R. FIREMAN LOSES BOTH LEGS.

Terrible Accident to Robert Connell of Campbellton on Monday Last

MISSING HIS FOOTING

And Fell Between Engine and Tender, Wheels Passing Over Him

Campbellton, Aug. 24.—Almost deplorable accident occurred in the yard here this morning. Fireman Connell in attempting to board the engine while in motion missed his footing and fell between the engine and tender having both limbs terribly mangled. Later the doctors found it necessary to take off both legs.

Fireman Connell resides in Campbellton, being the only support of his widowed mother, and ran on the Ocean Limited between Campbellton and St. Flevie.

MISS. PECK IS SAFE.

Lima, Peru, Aug. 20.—After suffering terrible hardships, Miss Annie S. Peck, of Providence R. I., the mountain climber, returned from her trip up Mount Huascaran yesterday. She was given an enthusiastic reception, as it was feared that she had met with some accident, no word having been received from her since Friday afternoon, when she signalled her arrival at an altitude of 25,000 feet.

Miss Peck was accompanied by two alpine climbers, and it was because of the sickness of these men that the party was prevented from reaching the summit of the peak.

Registered guides in this section are receiving many letters of inquiry from American sports anxious to hunt big game in New Brunswick this fall, and have already made a large number of engagements. It was thought at first that the presidential elections would prevent many sportsmen from visiting the province this year, but it looks now as if the influx would be as great if not greater than last year, which was a record breaker for the province.

THE ST. GEORGE STRIKE.

Settlement Made Between Union And One Of The Largest Operators.

St. George, N. B., Aug. 31.—The Granite Cutters' Union and O'Brien & Fieldwin reached a settlement tonight. Some concessions were made by both sides. The men have gained an eight hour day, two paid days a month and an increase over the old bill of prices. It is stated that this firm have an abundance of orders and all cutters now in town will be able to work. The mill will resume operations on Monday. The strike was declared June 1. Many who left town for other granite centres will probably return. It is not known what action the other firms will take. There is much rejoicing over the outcome of the meeting which was held tonight. It is generally understood that Senator Gilmore and Mayor Laurence were instrumental in bringing about the settlement.

A SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation. We can state without fear of a contradiction that there are hundreds, yes, thousands, of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**.

For proof of this statement read the following letter.

Mrs. Letitia Blair, Cannifton, Ont., writes to Mrs. Pinkham:

"I was sick for five years. One doctor told me it was ulceration, and another told me it was a fibroid tumor, and advised an operation. No one knows what I suffered, and the bearing down pains were terrible."

"I wrote to my sister about it, and she advised me to take Lydia E. Pinkham's Vegetable Compound."

"It has cured me of all my troubles, and I did not have to have the operation after all. The Compound also helped me to pass safely through Change of Life."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ailments, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains and backache.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible, but I can now surely kill the pains and purge of this terrible disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfect, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I have found the missing link, and the cause of Rheumatism is gone forever. There is now no real need—no actual cause to suffer longer without help. We sell, and in evidence recommend

DUTCH FEEL LIKE FIGHTING.

Venezuela a Weaker Nation, Has Offended Their National Honor.

THE HAGUE, Wednesday.—After the hours' session during which the dispute between the Netherlands and Venezuela was canvassed exhaustively in all its phases, the Cabinet dispersed shortly after midnight last night and the Minister of Foreign Affairs, J. R. D. M. Van Swinderen, proceeded to the Royal Chateau, at Het Loo, to acquaint Queen Wilhelmina with the result of the Council.

The terms of the Netherlands answer to the letter of President Castro of Venezuela, were fully discussed and it is understood that the actual text, as well as broad lines of action drawn up to meet any possible eventualities were agreed upon.

The view is entertained in diplomatic circles here that the present difficulty between Holland and Venezuela is not of a nature to be settled by arbitration and in explanation it is pointed out that the dispute is not of a private commercial character like the difficulties between Venezuela and Great Britain, Germany and the United States. In these cases satisfaction for claims was sought, and Holland has no claim against Venezuela. It is maintained here that the present question is rather one of sovereignty and national honor, which are not susceptible of settlement by arbitration.

Satisfied With Japan

LONDON, Wednesday.—It is learned that R. C. Drury has written Sir Claude MacDonald British Ambassador thanking him for the courtesy, kindness and co-operation in giving effect to the wishes of the Ottawa Club. Mr. Drury also expresses in his letter his firm conviction that the Japanese Government are taking every possible step to avoid friction with Canada in the question of Japanese emigration.

Mr. Drury is perfectly satisfied that the Japanese foreign office will allow no course to be taken which will prejudice good relations between the two countries.

NETTED \$1400. The congregation of St. Timothy's Church, Adamsville, held their annual picnic on Tuesday and Wednesday the 11th and 12th of August. It was as usual a grand success. The sum of \$1400.00 being realized.

Minard's Liniment Cures Diphtheria

In the Newcastle Police Court Wednesday the adjourned case of John H. Anford, town merchant versus Walter Scott, was again taken up before Magistrate R. L. Maibey. Witnesses were Donald K. McAulay, fermman and mechanical superintendent for the Rhodes, Curry & Co. of Amherst, who are doing some work remodeling the I. C. R. roundhouse here, and Adington Vye, mechanical superintendent for the government of same work being done around said works and Inspector of the whole.

Walter Scott is charged with working without a license. Prosecution seeks to establish that Scott is employed by Rhodes, Curry & Co. and therefore liable to the law that makes non-ratepayers take out a license, while the defence claims that he is employed on government work and thereby exempt. Case was adjourned till the 26th instant at 10 a. m.

HON. MR. PUGSLEY IN ST. JOHN.

Does Not Know When the General Elections Will Be Held.

LIBERAL PROSPECTS GOOD

To Complete Dredging of St. John River and Courtenay Bay.

ST. JOHN, Thursday.—The Minister of Public Works arrived from Ottawa Wednesday. When interviewed he said he knew nothing of the date of the next general election. The present political activity merely meant that the party was keeping up its organization.

The erection of the grain conveyor for West St. John is to be begun as soon as the plans are ready. Mr. Pugsley also said that two surveying parties had surveyed the St. John river between Fredericton and Woodstock and he felt hopeful that the result of the survey would warrant the dredging of the channel to ensure steamboat navigation throughout the summer.

Sir Wilfrid Laurier said himself that he was in excellent health and would soon begin the campaign in Ontario and the other provinces. The length of the session had been due to opposition obstruction.

The outlook for the Liberal party was good all over the Dominion.

The G. T. P. was anxiously awaiting the result of the Courtenay Bay borings as it was realized that that section of the harbor was considered the place for the dock facilities. He was pleased himself that the result, so far indicated the bay could be dredged.

A popular idea used to prevail that teas were pretty much alike but "Salada" Tea is proving a pleasant surprise to thousands of tea-drinkers. Sold by grocers everywhere.

LACK OF DISCIPLINE.

Is Verdict Of Jury in The Case Of Lieutenant Tilly P. Urquhart.

That there was a lack of discipline on the military train which Sergeant T. P. Urquhart, of St. John, met his death, was the verdict returned at Moncton by the jury empanelled to enquire into the case, the verdict being as follows: Sergeant Urquhart came to his death by falling from a military train while in a scuffle with Sergeant Murphy, who was ejecting him from the car where he, Sergeant Urquhart, had gone contrary to order. The evidence shows lack of military discipline on the train.

OBITUARY

JOHN THORNTON.

The death occurred at Summerside, P. E. I., on the 12th after three weeks illness, of John Thornton, at the age of 90 years. Deceased was born in Dundee, Scotland, 1818, and came to this country in 1824 landing at Richibucto, N. B., where he resided for some years, being engineer in a large mill. He removed to P. E. Island about thirty-five years ago, locating at Margate, where he conducted a mill business for several years. He leaves to mourn one son and two daughters, one of which resides in New Glasgow and the other in Chatham, N. B.

DROP LIKE WORMY APPLES.

David Starr Jordan, president of Leland Stanford, Jr., University of California, says: "Boys who smoke cigarettes are like wormy apples. They drop long before harvest time. They rarely make failures in after life, because they do not have any after life. The boy who begins smoking before his fifteenth year never enters the life of the world. When other boys are taking hold of the world's work he is concerned with the sexton and undertaker."

While two young ladies were returning to Newcastle on the ferry boat one evening last week, one of them had a narrow escape from being crushed. In getting off the boat her foot got caught between the slip and ferry, and tore the young lady's boot off. Only for the promptness of Mr. Mather and Mr. L. McDonald in reversing the engines the young lady would have been crushed to death.

HARVESTING IN CENTRAL CANADA.

Wheat Yield Varying From 10 to 20 Bushels Per Acre.

WINNIPEG, Thursday.—Cutting is general in Southern Manitoba and at a few points on the main line and northern branches of the C. P. R., according to reports issued by the company last night. It will be general over the entire province by the end of the week.

Slight frosts have been general but very little damage is reported.

The estimated yield per acre for wheat varies considerably, running from 10 to 11 bushels in Pimouchee and Winkler territory to 20 and 22 at points where the weather conditions are more favorable. In Saskatchewan cutting will be general by the end of week, although there is a number of points but damage will be light.

Zeppelin Not Discouraged.

FRIEDRICHAFEN, Tuesday.—Count Zeppelin, who on Saturday declared his intention to manufacture material for the construction of a new airship at his own works intends to build three gigantic balloon halls as well as factories and workmen's quarters. The only difficulty in the way of carrying out this plan is the exorbitant prices owners are demanding for land along the shores of Lake Constance. Count Zeppelin threatens that unless a reduction is made in the prices asked, he will accept the offer of land free of charge made by other cities and will remove his plant to one of these places.

C. P. R. Deny the Report

MONTREAL, Thursday.—An emphatic denial is given by the management of the C. P. R. to the report that an ultimatum had been issued to their striking mechanics to the effect that if they did not return to work by noon today they would never be permitted to re-enter the employ of the company under any circumstances. The company states that they are not only willing but anxious to re-engage any of their old men. Eighty men were engaged here today two of them being old hands.

HOT WEATHER AILMENTS.

A medicine that will keep children well is a great boon to every mother. This is just what Baby's Own Tablets do. An occasional dose keeps the little stomach and bowels right, and prevents sickness. During the hot weather months stomach troubles, especially due to fatal diarrhoea, or cholera infantum, and if a medicine like Baby's Own Tablets is not at hand the child may die in a few hours. The wise mother will always keep a box of Tablets in the house and give them to her children occasionally to clear out the stomach and bowels and keep them well. Don't wait until the child is sick—the delay may cost a precious little life. Get the Tablets now and you may feel reasonably safe. Every mother who uses these Tablets praises them and that is the best evidence that there is no other medicine for children so good. And the mother has the guarantee of a government analyst that the Tablets contain no opiate or harmful drug. Dealers sell the Tablets at 25 cents a box or you can get them by mail from the Dr. Williams Medicine Co., Brockville Ont.

ACCIDENTALLY KILLED BY HORSE.

ST. STEPHEN, Thursday.—A peculiar and very sad accident occurred in Milltown this evening. B. H. Kerr had returned from the field with a load of hay and was hoisting it to his loft by aid of a horse. His little three year old girl had hold of the reins as the horse moved out in the yard. Some of the gearing caught suddenly and the horse was jerked back with such force that it fell on the little child, crushing its life out instantly. Some cuts were found on the little one's head but death had been caused by the ribs penetrating the lungs. The parents are prostrated by the sudden blow.

Y. M. C. A. MEET AT CHATHAM.

Proved To Be a Most Successful Athletic Event.

THE WINNERS.

Most of the Prizes Went to Moncton and St. John Contestants.

CHATHAM, Thursday.—The second annual Y. M. C. A. sports held this afternoon on the exhibition race track were very successful and attracted a large attendance.

The majority of the events were carried off by outside competitors of whom Harry Patterson of the Thistle Athletic Association of St. Stephen, won a gold silver medal given for the highest individual score, winning this with thirteen points, two firsts and one second.

A wind down the track favored those in the hundred yard dash which Jack Browster won in 101-2 seconds beating out Patterson by a few inches. Patterson got his revenge in the 220 when, in spite of the wind and slightly heavy track, he did the distance in 23-2-5 seconds with Browster a close second.

Patterson fought out the 440 with A. W. Covey of St. John and had to do the distance in 52 seconds to beat out the St. John man. This mark is within 4-5 of a second of the mark-time record. Patterson finished in good shape and later figured in a fast exhibition mile relay.

E. Sterling of St. John, won the half mile in 2:15 and the mile in 4:54, finishing with long leads in each and sprinting the last fifty yards in a way that brought the grandstand to its feet.

The mile relay between Chatham and Moncton proved the afternoon's most exciting event. Joe Wood of Moncton and Chubb McLoon of Chatham, started off and Wood led his rival by 40 yards at the end of the quarter. At Moncton and John Dickson of Chatham, did the second quarter, and Dickson outdressed Moncton's by 20 yards in a hard run. On third quarter Watling of Chatham amid wild enthusiasm came up to Lea of Moncton, and Fraser of Chatham, and Symons of Moncton started on the home stretch on almost equal terms. Fraser passed his man but could not stand the pace and thirty yards from finish he collapsed.

An exhibition relay was then run by the combined St. John and St. Stephen quartet who covered the distance in the very fast time of 2:55. Two local men who won were James Watson, who cleared 5 feet 3 inches in high jump and Joseph Trainor put tee shot 33 feet 4 inches from the circle.

Medals were given for the first and second places and prizes were presented at the conclusion of the events by Miss Frances Snowball.

The summary is:

NEW LAW IS WORKING.

Liquor Importation Into Some Scott Counties Rapidly Decreasing.

According to the wholesale liquor dealers in St. John, the promulgation of the act prohibiting the shipment of alcoholic liquors into Scott counties under penalty of seizure and subsequent confiscation, has considerably injured the local trade. Hitherto a shipment could be freely forwarded to its destination regardless of whether the latter was situated in a Scott county or not. A bill would be later sent to the retail dealer and the amount collected, but under the new statute the liquor would be promptly seized when it reached its destination and the concern would bear the loss.

The St. John dealers in speaking of the situation say the only remedy seems to be in disguising the nature of the goods in the shipment. This has been practised with success on several occasions. When the intoxicants entered the Scott Act town the parcel was labeled "beef, iron and wine" and the Scott Act inspector was usually too busy to think twice on the variety of the contents.

Since the rigid enforcement of the Scott Act, the manufacturers of intoxicants are said to have devised many methods of evading the laws. A freck beer named Schenck beer is reported to have made its debut in Fredericton recently. This beer, it is claimed, is manufactured in St. John and is Pilsener beer under an assumed name. The new law also prohibits any transfer company from accepting intoxicating liquors for shipment under penalty of imposition of a fine of fifty dollars with the alternative of one month in jail. One query of William Thomson and Co., St. John, was learned that the steamer Seneca is now refusing to take any shipments of liquor to Nova Scotia.

DEAFNESS CANNOT BE CURED by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by curing the inflammation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a "catarrh" of the Eustachian Tube, which is not a permanent condition, hearing will be restored, and the inflammation will be cured. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Dr. C. C. Catarrh Cure. Sent for circulars. P. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

PRaise FROM GERMANY.
"This great land of the future, this rising people of the twentieth century, is the flattening way in which the Berliner Tageblatt, one of the most influential of the German newspapers, refers to Canada and Canadians."

"Canada's good Government, its richness in natural products, its healthy population, all of which are bringing the country into line with the great nations of the world," this paper further says in advocating that the German Government lose no time in endeavoring to establish closer commercial relations with this country.

Guess we can stand a little taffy now and then, but we shall still go on sawing wood.

ST. JOHN EXHIBITION.
St. John's Exhibition prospects were never brighter in any year since the International Fair has been held in this city.

This year the people of St. John are uniting to make the show good in every particular, and exhibitors from all parts of the country have made entries up to date.

Every department of the Exhibition promises to be more interesting than usual.

Apart from the show itself the management has arranged to make every hour of the day interesting. Amusement hall features will be particularly attractive—the Pike will possess such interest as never before, the fireworks spectacular and grand.

Excursion rates from all points are so attractive that none should fail to be in St. John Exhibition week. September 12 to 19.

The footprints of Dyspepsia have been directly traced to the Stomach nerves. When these "inside nerves" fail, indigestion and stomach distress must surely result. For this, druggists everywhere are supplying a prescription known as Dr. Shoop's Restorative. First, these tiny inside Stomach Heart and Kidney nerves fail. Then gas belching, Heart palpitation or falling Kidneys follow. Don't drug the Stomach, or stimulate the Heart or Kidneys. But strengthen them with Dr. Shoop's Restorative. It is the nerves, not the organs that are calling for help. Within 48 hours after starting the Restorative treatment, you will realize the gain. A test will tell. Sold by all dealers.

FATHER MORRISCY MEDICINE CO.

Will Exploit the Prescriptions Which Proved so Beneficial In The Past.

CHATHAM, Tuesday.—The Father Morrissey Medicine Company, Limited, has been incorporated with a capital stock of \$25,000. The members of the company are Richard O'Leary and Wm. H. Hogan of Richibucto; W. C. Winslow, J. D. B. F. McKenzie and Harry J. Neely of Chatham; W. S. Montgomery of Dalhousie and D. J. Buckley of Rogersville. The place of business will be at Chatham and a factory will be started here employing at the outset about a dozen hands. The company expects to arrive its products on the market by November 1st.

Father Morrissey, whose marvelous cures excited the wonder and admiration of the people in both Canada and the United States, and whose fame has travelled to the farthest west of this continent, left his famous prescriptions as a legacy to the Sisters of the Hotel Dieu, Chatham, in which institution he passed his last days.

In order that this asset may be made of commercial value to the institution he wished to aid, the above company was formed and has secured a Dominion charter for the manufacture and sale of the medicines, so that in addition to the members of the company the Sisters of the Hotel Dieu have a large financial interest. The pharmaceutical end of the company's business will be under the direction of Mr. McKenzie, who is a chemist of well known standing, and who has a knowledge of Father Morrissey's medical practice gained by experience in his work with Father Morrissey, and his paring his prescriptions and assisting in preparations of his formulas. The standing of other members connected with the formation of the company is sufficient to guarantee that the business of the company will be conducted successfully.

August time tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative, improvement will be noticed. Of course, full health will not immediately return. The gain, however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influences depress first the Stomach, then the Stomach, Heart, and Kidneys will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by all dealers.

Military Plans Considered Safe

OTTAWA, Wednesday.—There is no truth in the report that the plans of the Halifax defences sent from Ottawa to Halifax are missing. The plans referred to are safe at headquarters here. What gave rise to the report was the fact that some correspondence relating to Halifax has been mislaid.

The militia authorities say they have no fear that this correspondence has been stolen but declare that a thorough examination of their files will produce it.

MISTAKEN IDENTITY
Ex-Governor Cleaves, of Portland, recently told the following story about the late John Pottle, a well known barrister of Kennebec county for many years who defended nearly all of the criminals in that county years ago.

One day an evangelist of the Holy Roller type struck Augusta, and in consequence of some minor offence he committed was arrested. He refused to engage a lawyer to defend him at the trial, saying that the Lord would defend him. His friends thought differently and engaged a party. When the case came up in court the evangelist and several other prisoners were brought into court to plead. Pottle was busy with papers and did not realize what was going on. The evangelist who entered a plea of not guilty, told Judge Libby, who was presiding, that he had engaged counsel and said: "Your honor I have secured the services of able counsel; the Lord Jesus Christ will look after me."

About this time another lawyer kicked Pottle, who was busy with some papers and realizing that his client had entered a plea, for he was standing before the judge, the lawyer without a moment's hesitation said: "Yes, your honor, I appear for him."

A COURAGEOUS RESCUE.

Edgar Bourque of Moncton, Saves a Man From Drowning at Gaspe.

HELPS SAILOR Pull Out Skipper Fyfe at Risk of His Own Life.

Edgar Bourque son of Dr. L. N. Bourque, of Moncton by his bravery and heroic conduct saved a man from drowning at Gaspe a few days ago. Bourque is in the employ of the Calhoun Lumber Company and on the day of the dramatic incident, he was engaged in tallying lumber on the wharf.

The schooner Freddie J. Higgins had just finished loading a car of lumber and was lying out in the harbor some distance away. The owner of the schooner, Walter Fife, and three other men belonging to the schooner, who had been on shore set out in a boat to row to the schooner. A heavy gale was blowing at the time and the sea was very rough. When some distance from the wharf the boat swamped and went to the bottom leaving the four occupants struggling in the water. All men except Fife were able to swim.

Bourque was a witness of the trouble and seeing the danger of the men he hurriedly divested himself of his outer clothing and prepared to render assistance. A Norwegian sailor, who was one of the party, seeing the helpless condition of the owner of the schooner endeavored to keep him afloat, but was unable to save him alone. Bourque promptly jumped in to the sea, and being a strong swimmer was soon at the side of the drowning man. Fife at the time was under the water and when Bourque arrived the struggle to save him began.

Bourque grasped the struggling man on one side and the sailor took hold of him on the other. It meant a heroic and a life and death struggle on the part of the two men to get Fife ashore but after a hard battle with the rough waves they accomplished their purpose. They finally reached shore with the drowning man and both were in an exhausted condition.

Fife was unconscious, but after working with him for half an hour he was resuscitated and was able to be around. The other two were in the boat and were able to reach shore unaided, but had it not been for the heroic assistance of the Moncton man the owner of the schooner would undoubtedly have lost his life.

Mr. Bourque was quick to discern the inability of the Norwegian sailor to save Fife alone and it was due to his courageous act that the rescue was accomplished.

Mr. Fife, who belongs to New London, P. E. I., it is needless to say was deeply grateful to the men who saved him from a watery grave and especially was he thankful to Bourque who braved great danger to rescue him.

INCURABLE HEART TROUBLE

LOOKED FOR DEATH IN A SHORT TIME.

Entirely Cured by "Fruit-a-tives."

"Gentlemen.—The days of miracles are not all past and I feel that my complete recovery, from what seemed inevitable death, is practically a miracle. I suffered from severe indigestion and dyspepsia for nearly two years. I could not take food without fearful distress and I became almost a skeleton as the result of the suffering. I could not do any work and became so run down and weak that I could hardly walk. I was attended by two experienced doctors. They both pronounced my case heart failure and incurable, and I looked forward for death in a short time. I not only had the doctors but they gave me up. I tried many remedies and treatments but got no better.

At this time my son asked me to try "Fruit-a-tives" and from the outset taking these wonderful tablets I was better and gradually this medicine completely cured me. I took a large number of boxes, perhaps a dozen, and now I am entirely cured and I have gained over thirty pounds in weight. I am now so well that I have sold my farm and bought 200 acres more land. I make this statement voluntarily for the sake of humanity, and I am convinced that "Fruit-a-tives" is a wonderful remedy that will cure stomach trouble where doctors and everything else fail."

(Sd) Henry Speers, J.P. Speers had what we call "irritated heart." Indigestion and dyspepsia completely upset the stomach. Poisonous gases were formed which swelled the walls of the stomach and pressed against the heart.

"Fruit-a-tives" immediately strengthened the stomach, insured sound digestion and regulated the bowels. There were no poisons—no noxious gases remaining in the system, and the heart was no longer irritated. Then the pain and fluttering stopped. "Fruit-a-tives" is put up in two sizes 25c and 50c. If your dealer has not both, write Fruit-a-tives Limited, Ottawa.

REGULAR MEETING
TOWN COUNCIL

Mrs. P. J. McEvoy Resigns the Office of School Trustee.

BILLS PASSED.

The Question of Typewriting the By-Laws Again Thashed Out.

Town Council met in regular session Thursday night, Mayor Miller and all the aldermen present.

The resignation of Mrs. P. J. McEvoy as school trustee was received and accepted.

On recommendation Finance Committee the following bills were ordered paid:

Advocate Pub. Co., \$21.75
Board of Health, 20.00

Ald. Belyea, chairman Finance Committee, submitted following statement of receipts and expenditures of the different departments for the present year up to August 1st:

ELECTRIC LIGHT.
To collections, \$2,778.27
By expense, \$1,575.33
Fuel, 1,880.91

WATER.
To collections, \$801.20
By expense, \$376.03

POLICE.
To estimate, \$650.00
By police salaries half yr., \$507.00
" expense to July 1st, \$14.00

PUBLIC WORKS.
To assessment for yr., \$1,500.00
By sewer expenses, \$10.43
" town team (to Dec 31st), 700.00
" roads, 302.42
" Public Works, 123.08

FIRE DEPARTMENT.
To assessment, \$1,350.00
By fire Co. (to Dec 31st), \$810.00
" public square, including salary, 345.00
" fire Dept. (to July 31st), 91.90

TAXES.
Default Taxes collected by Town Marshall to date, \$1,047.03
Total default taxes collected by assistant Marshall last year, 1,411.85

(In the matter of fuel, about five-sixths of the total is charged to the Light Account, and the balance (\$313) to the Water Account. Of the Electric Light expenses about \$500 was incurred by the breaking of the engine last year.)

On recommendation of the Public Works Committee, the following bills were ordered paid:

James Falconer, \$11.25
W. H. Thorne & Co., 70.20
James Robinson Co., 72.40
John Maloney, 104.19
Cummings Reid, 18.48
W. H. Thorne & Co., 5.38

On recommendation of the Light and Water Committee, the following bills were ordered paid:

James Falconer, 50
Colonial Lubricating Co., 21.40
Intercolonial Coal Mining Co., 61.88
Canada General Electric Co., 1.27
T. McAvity & Sons, 17.89

On recommendation of the Police Committee, T. W. Butler's bill of \$28 for legal services was ordered paid. The Mayor told Ald. Falconer, chairman of the committee, that henceforth he was to be consulted about the engagement of legal advice for the Town Marshall.

The Park and Fire Committee recommended payment of \$24.50 to James Falconer—\$12.50 for repairing and painting seats in park, and \$12.00 for painting the wheels of the fire engine for the July celebration.

Ald. Morrissey thought that \$12.00 was a little high for painting four wheels. Ald. Doyle thought it was not too much.

On motion of Ald. Doyle and Shaw the bill passed.

Replying to Ald. Belyea, Mayor Miller said that four extra firemen had been engaged.

Ald. Belyea thought it would have been more businesslike to have not engaged the men until next year when their salaries could have been provided for by assessment.

The By-Laws and Petitions Committee reported as follows:

(1) Recommending cancellation of James McKinnon's poll tax for 1908-1909, because of his affidavit that he was sixty years old in 1902.

(2) Recommending that prayer of W. J. Black's Petition for remission of taxes be not granted.

(3) Recommending that a rebate of \$2.50 be given on license fees for booths erected on the streets on recent holidays.

The report was taken up section by section.

It was moved by Ald. Morrissey and Falconer that section 1 be not adopted.—Lost.

On motion of Ald. Belyea and McMurdo the question of Mr. McKinnon's taxes was referred back to Assessors for their recommendation.

Section 2 was adopted.

Section 3 was lost on following vote:

For rebate—Ald. Shaw, Ferguson, Russell, Doyle, against rebate—Ald. Falconer, Morrissey, McMurdo and Belyea, and the Mayor.

To Ald. Morrissey, Ald. McMurdo said that work on the sewers mentioned at last meeting would be begun next week.

In re Brown's Brook, it was the opinion of the Board that the Council had nothing to do with the emptying of private sewerage therein.

Ald. McMurdo, Morrissey and Belyea were appointed a committee to investigate the question of Miss Power's taxes.

After a discussion on the By-Laws question, Ald. Belyea and Morrissey moved that the motions previously passed re bills for typewriting by-laws be reconsidered.

Motion was lost on following vote: Yea—Ald. Belyea, Doyle, Falconer, Morrissey, Nay—Ald. Ferguson, McMurdo, Russell and Shaw, and the Mayor.

After further discussion on the same subject, Council adjourned.

THE AGE OF CHIVALRY.

It is Now Rather Than In the Days of Knights Errant.

When we speak of the age of chivalry we are apt to imagine the existence at an earlier period of a finer sense of honor, of loftier ideals, of sublimer courage and of more devoted unselfishness than are found in the practical workaday world of today.

As a matter of fact, "very gentle perils knights," such as Chaucer describes, who rode about with squires, rescuing distressed damsels and redressing wrongs generally, were very few.

The age was comparatively a harsh and cruel one. Oppression and violence prevailed, and human rights and justice were little regarded.

Poverty was more general and the condition of the poor more abject than anything we know, and the richest enjoyed little of the comfort which is to-day well nigh universal.

People were supposed to bear the ills to which they were born, and all the efforts of a dozen knights in mail and plumed helmets did not go as far toward alleviating misery in a month as do the ministrations of a single visiting nurse now.

We live in an age of chivalry vastly expanded. Where there was one worker for others in the knights' days, there are a hundred now, and chivalry permeates the spirit of all the good causes which enlist so many willing hands.

Between the tenth and fourteenth centuries it was but in the bud. Now it is in flower and later on the full harvest of fruitage will come.

There never was a time when there was such universal war against oppression of the weak and helpless, when every form of cruelty was so indignantly frowned upon, when manhood and childhood were more sturdily championed and protected, when the poor and sick were so tenderly regarded and cared for, when the lower animals were made the object of such solicitude and shelter from harm and suffering. There never was a time when, at peace as we are with all the world, there were more constant exhibitions of quiet, modest courage and splendid heroism than are constantly occurring in the records of our daily lives. In all sorts of accidents—by fire and flood, by the forces of nature, by travel and by the operation of great industries—there is always some one ready, generally some unknown, unheralded person, to risk his life for the sake of others. If that isn't chivalry there never was such a thing. We do not yet by any means possess all the virtues, but courage and unselfish devotion in times of stress are very good to build on.

Doom of the House Fly.

Science is a broom or trap merely, but with a club. The mosquito has long been convicted of spreading disease. Later the rat was shown to be an indirect agent, and now the common house fly is put on the list of pests that are dangerous to human life.

Faraway lands, notably Africa, have long been notorious as the breeding places of flies having a deadly bite. Even in this country a sand fly is not pleasant customer to meet with.

Horses are tortured by a peculiar breed of flies. Perhaps the harmless looking fellow around which centre many jokes has venom in his little makeup which is a poison when transferred to the blood of man.

On general principles we should like to abolish flies. They love to swim in milk and cream and burrow in butter, and also have a liking for certain wall paper and countless bright ornaments which the housewife wishes to keep spotless. In fact, flies are a nuisance from first to last, and if they are dangerous as well the proper thing is to fence them out and annihilate all who break in. Screenmakers say that the use of screens continues even after the mosquitoes, which brought them into existence, have departed. While barring out the mosquitoes people found that the fly nuisance was abated also. But flies get inside if they are allowed to breed outside. And they will breed wherever the refuse they delight to feed on is left exposed. Cleanliness all around the premises spells starvation for flies.

Artillery Salutes.

The firing of artillery salutes is a relic of feudal days. When guns first came into use it was considered an act of extreme courtesy if you loaded all your guns with shot and rounds and fired them whenever a great personage approached your castle. The reason was the same as removing your helmet—you trusted your visitor by emptying all your guns before he came within range. This custom very rapidly went through many modifications. In the first place, rapid fire guns were not in vogue those days, and, as firing and loading took considerable time, tradition says in several instances this friendly custom created great havoc in the retinue of the approaching visitor, and the use of blank cartridges was adopted for obvious reasons. Naturally in a short time this courtesy was adopted by men-of-war.

LIQUOR TOO PREVALENT.

Says Prominent Newcastle Clergyman Discussing the Recent Fires In Town.

FIRE WATER, FIRE BUGS.

Everyone Should Assist In Banishing Liquor From the Land.

Sunday evening, Rev. S. J. MacArthur in St. James Presbyterian church, took as text "Am I my brother's keeper?" and "He that loveth not his brother whom he hath seen how can he love God whom he hath not seen?" He said in part:

Shirking one's duty is an old trait of man, as old as the race. Still, wherever Cain goes he always sees his brother's blood. Sin unrepented grows darker, more deadly, each day.

They who love God must prove it by their conduct to their fellowmen. Resistance to brotherhood is resistance to Christ. We are responsible to our kind. If any person of this church or community goes astray, it is because conditions in this church or community were such as to make it easy for him or her to go astray.

If we are followers of Jesus we must give ourselves for others as he did. How the Negroes of the U. S. A., who are making such rapid progress could be helped, instead of hindered by the Whites!

We have dangerous race feeling—British vs. French—in Canada, and our harvesters are said to have disgraced themselves in the North West. Who is responsible—the church the school, or the home?

Did they think, men listening to him, that conditions in our town are satisfactory? Last night, at the fire more than once men looked at him and wished he had not been a witness. He had asked leading men what they thought of the conditions in the town and their opinion was the same as his own.

He knew of no fire bug without fire water. No sober man would touch a match to his neighbor's property. He loved Newcastle better than his birthplace. He saw last night, beardless boys overcome with liquor before ten o'clock; later, men were overcome with liquor; later still, he overheard a group of men discussing how to get a supply of liquor to finish the night's debauch.

He had been told that some time ago Rev. Father Dixon had expressed himself as ready to do all in his power to obliterate the liquor traffic in Newcastle. He had no doubt that Father Dixon was of the same mind now.

What were the people going to do about it? He hoped that the government at next session would pass an act abolishing the bar, and that they would appoint their own officers to enforce that law, instead of leaving their appointment and control in the hands of municipal councils as at present.

If no liquor were sold, the merchants would sell more dry goods, groceries and hardware.

People say nothing can be done, but P. E. I. had crippled the liquor business effectively. If this does not concern us, it concerns our neighbors. Let us do something for their sakes.

The firemen did their duty nobly last night, but their work was made harder by men who under the influence of liquor interfered with them in their work.

Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the 160 acres more or less. extent of one-quarter section of Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub Agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:
(1). At least six months' residence upon and cultivation of its land in each year for three years
(2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Americans Becoming Canadians.

To the New York Times it is easier to understand the cause of emigration of United States citizens to Canada than to be reconciled to it. But what the Times finds hardest of all is to believe that, for whatever reason, the feeling of American citizenship is weakening as shown by the immigrants becoming naturalized British Canadians as soon as possible after crossing the border. This would be more comprehensible to the Times if it were necessary to become naturalized to hold land in Canada. It might seem as though the immigrants were selling their birthright for a valuable consideration. As it is the change of citizenship appears an unnecessary, and therefore a gratuitous, selling out of what Americans have been accustomed to think almost priceless. It appears quite natural to the Times that Britons and Canadians coming into the United States should take a most offensive oath renouncing their own sovereign, but finds it altogether incomprehensible that Americans brought up to adore their own privileges of citizenship and to adore all other allegiances, and especially that from which it is the glory of their nation to have emancipated itself, should be found awaiting allegiance to a British sovereign. We presume one of the causes while have smoothed the way to this curious and unexpected defection was surprise at finding all the carefully instilled illusions of school days untrue and at finding a country every whit as free as their own and more law abiding.

Scott Has a Good Majority.

The Scott Liberal Government seems to have been returned to power by a very good working majority of twelve in a house of forty. That is plenty as it is good neither for government nor a state to have a weak opposition. There have been lots of wild charges made in the Conservative papers about gangs of heifers being employed and all sorts of immoral promises being made on the government side so as to influence the elections; but the fact that three cabinet ministers were defeated in three constituencies not only is a feather in the cap of the Opposition but is also a pretty good indication that the freedom of the voters was little interfered with. On the other hand it is charged that Mr. Haultain and his merry men had plenty of assistance from Manitoba. Be that as it may the province has shown sufficiently plainly that Mr. Scott's past rule has been appreciated and that they prefer a Liberal government for the next five years to men whose battle cry is 'provincial rights' and whose boast is that they prefer to think provincially rather than patriotically and nationally.

HAS NO USE FOR CATS

A story is told of Lord Roberts in connection with his well-known antipathy of cats. Dining one night at a friend's house in India, he begged that the cat be kept out of the room. He said as it may be the province of the cat to be in the room, as they were never allowed admission even into the house. Still 'Bobs' insisted that there must be one in his vicinity and indeed, became so affected as he always is—faint, if we mistake not—that he was obliged to leave the table. It was subsequently discovered that the intense regret of his hosts that a strange cat had actually found its way surreptitiously behind a screen.

Doubt Strength of Bridge.

Probably because of the collapse of the Quebec bridge a doubt has been raised as to the ability of the new Blackwell's Island bridge at New York to stand the severe strain it will have to endure. The original plans of the bridge were prepared by a Mr. Lindenthal, but he has not been retained in the control of the undertaking, and now he urges that the final test should be made a very thorough one.

Both Sides Holding Out.

There are as yet no indications of any probability of an early strike settlement of the differences between the C. P. R. and its striking employees. Each side expresses confidence of ability to hold out until the other yields. Meantime the men are losing their wages, the company's business is badly hampered and the cost of the business done is enormously increased. The result must mean great loss to both parties.

IN AN INGLE NEUK.

(By a Banker.)

In many a Scotch or English ancestral castle or ancient baronial mansion may be seen in the vaulted lanqueting hall a deep, partly enclosed recess, which in old-time phraseology was known as the ingle neuk. And if these nullioned walls could speak, and if those figured tapestries could recount all the tales of love and of intrigue, of bloodshed and of romance which have been enacted, all down the centuries, within the seclusion of that retreat, what a chronicle of events, of far more stirring interest than any fiction, would they narrate.

Now, it is a fair young girl, on her knees, head thrown back so that her golden tresses trail on the ground, and her hands clasped beneath her neck in an agony of despair and overwhelming, bitterest grief. For he to whom she had pledged her troth, who, a few short weeks before had gone to fight the battles of his country, had been cut down with a battleaxe and his corpse lay there unheeded on the stricken field.

Or now a hundred years later, when brother fought with brother with envenomed hate, and the land was drenched with blood of kith and kin, and fire and sword were engulfing the country in ruin and plunging thousands of families in grief for their loved ones—that ingle neuk saw struck down in his prime the valiant heir of the house, who, after cutting down several of his assailants was at length overpowered by numbers, and fell, his back to the wall, fighting to the very last. And that bloodstain on the floor remains ever a token of an act of valour, and of cruel malevolence and wrong.

And yet another hundred years. Side by side are seated there in that arched recess a striking, manly form considerably past middle age, but in the very prime of life and vigour, together with his newly wedded young wife, whose portrait still adorns those walls. And through the stress of a long and caseless campaign life had crowded out all else but thoughts of conquest and of glory, yet now with all his virile strength he adores and idolizes the fair one who has given him, her first love, the passionate devotion of her very heart and soul; and laying aside his sword he will now live but for her.

And so, generation after generation in unbroken line, warriors, and states and benefactors to their country, have sat in that secluded ingle neuk to think but their plans or to rest from their labours. And now in the village church hard by, memorial brass, or recumbent figure, or mural tablet recount their deeds of valour or of crime. And there will they all rest until at the sound of the Archangels' trumpet they burst open those tombs and start once more into life. Then will they who have done good and the punishment of whose sin has been borne by the Redeemer, go into everlasting life. And they who have done evil will awake to the resurrection of condemnation.

Costs are to be added to the ten-dollar fines for exceeding the automobile speed limit in Toronto. The men who show this kind of disregard for the safety of the public are generally hugh at a dozen such fines. It was Vanderbilt who said: 'The public be damned.'

KUMFORT HEADACHE POWDERS

YOUR HOUSEHOLD WORK

HOUSEHOLD work and Kumfort Headache Powders go naturally together. Your work seems like a mountain of heavy trials and hardships when you are suffering from an aggravating, sickening, dispiriting headache. Kumfort Headache Powders are a positive cure. They offer you quick and sure relief. They are guaranteed to be better than anything else on the market and to be more effective. If they prove otherwise, your money will be refunded.

Please bear in mind that these are not ordinary headache powders composed of drugs which soothe you and dull the nerves. They do not jeopardize your health.

They are formed of natural vegetable remedies which seek the root of the trouble and, by removing the cause, effect a cure.

Anybody can take them without fear of ill after-effects. 10 cents for a package of four powders; twelve for 25 cents. At your druggist's, or mailed postpaid on receipt of price.

MADAME ALFRED LAROCHE, wife of Proprietor Hotel St. Eustache, writes: "I have found them a perfect cure for headache. Yesterday I suffered terribly from headache, but took a Kumfort Powder and in a few minutes my head was tranquil and perfectly cured."

ROBERT CROW, of New Glasgow Milling Co., writes: "Kumfort Headache Powders work like a charm with me. I recommend them to all sufferers from headache in any form."

MICHAEL HENNESSY, of Jaggins, N. S., says: "I and Kumfort Headache Powders all right. They cure a headache for me in a few minutes."

W. C. BALCOMB, Hantsport, N. S., says: "I used Kumfort Headache Powders recently and found them a marvelous cure."

\$50 A WEEK FROM EACH.
Two fines last week, and two this week—all for first offences—were collected from two Newcastle liquor dealers.

At a meeting of the Chatham Fire Department, Monday evening, last week, the following provisional changes of command were made: Chief, Captain Thos. Fitzpatrick; Captain, Lieut. P. J. Ryan; Lieut., Samuel McDonald.

The severe sentence imposed on men who illegally sell liquor on the Grand Trunk Pacific should have a salutary effect. The penalties are not too severe for the offence is a very grave one. Drunken navies, especially the foreign element, are a menace to the welfare of the people.—St John Evening Times.

John McMulkin, factory inspector, has been in Chatham, Loggville, Nelson, Newcastle and vicinity lately, inspecting mills and factories. He reports finding them all generally obeying the rules and regulations, and willing to make any improvement he suggests. Mr. McMulkin left on Thursday for Richibucto and Buctouche.

The Alexander Gibson Ry. and Mfg. Co's mill at Blackville have finished their season's cutting and have closed down. About five or six million feet of logs were manufactured, being upwards of two million feet short of the usual cut. Before it resumes sawing next season a new foundation will have to be placed under the steam mill, and it is said that new foundation will be of concrete. The Company's mill at Marysville will continue sawing until the close of navigation in the fall.

Messrs. John A. and James Bremner of Somerville, Mass., who are spending the summer at Rockheads, are building an auxiliary cruising yawl for pleasure and for going to and from their cranberry farm at Point Sapin. The yacht will be 34ft. over all, about 12ft. water line, and ten feet beam. She will be a light draught boat with centreboard, and will be sloop rigged and have a large sail plan. Her frames are hewn oak.—World.

A NEW DOCTOR.
Dr. Taylor, who has had several years experience in general practice, and has lately taken a special course in the treatment of the eye, nose and throat will open an office in town. The doctor comes well recommended and we would bespeak for him a liberal share of the public patronage. Office address and card will appear in next week's issue.

A. O. H. CONVENTION
IN ST. JOHN.
The provincial convention of the A. O. H. met in St. John yesterday. There are twenty-seven divisions represented, of which Northumberland has nine and Restigouche three. Father J. J. McLaughlin of Richibucto is provincial chaplain. The Newcastle delegates are Ald. C. J. Morrissey, T. Herbert Whalen and John Fallon.

BODY RECOVERED.
The body of Herman Johann Sebe, the young native of the Russian Baltic provinces, who was drowned at Newcastle the previous Sunday afternoon, was recovered Wednesday at French Fort Cove, a mile below the place of accident, by Stanley Tozer in his gasoline yacht. No inquest was considered necessary. The body was interred in the Church of England cemetery at 2 o'clock Thursday afternoon.

Mr. John G. Cliff went from Derby, Miramichi, to Manitoba seven years ago with a capital of \$1,000, and a team of horses. To-day he owns 1280 acres of well improved land, twenty-six head of horses and has a good outfit of modern machinery. He has just completed a beautiful residence at a cost of \$2500.00. Mr. Cliff says if any one had told him he could accomplish this in seven years he would not have believed it. This season Mr. Cliff threshed 2000 bushels of wheat off 380 acres and 2500 bushels of oats from 50 acres.

Winnipeg, Aug. 21.—The first passenger train to travel westward over the Grand Trunk Pacific left Fortage La Prairie yesterday. It carried 150 American settlers.

BUSINESS QUIET
Business is reported quiet in all lines in town these days, but it is expected things will brighten up early in September.

The executive of the Liberal party of Kings county, together with C. J. Ounan and S. S. Ryan of Albert county, met Thursday in St. John and arranged to call a convention of the Liberals in the united constituency of Kings-Albert, at Sussex, on Friday afternoon, August 28.

J. F. Bourque who used to do business here for the Metropolitan Life Insurance Co. and later took over the Star Steam Laundry, Chatham, left a few days ago for parts unknown. The laundry is being continued in business by Alfred Houghton and S. A. Gould.

Chief Commissioner of Public Works Morrissey Friday morning awarded contract for St. Jacques bridge, Madawaska County, to J. D. McLaughlin of Queens County, the contract price being between \$12,000 and \$13,000. The bridge will consist of two covered Howe truss spans and will be upwards of 325 feet in length. It will have concrete piers and abutments.

Rev. J. B. Ganong addressed Sunday School meetings at Whitneyville Baptist Church Monday night, and Redbank Presbyterian last night. To-night he speaks in Lytleton Baptist church; to-morrow evening at River Louison and on Friday night at Eel River.

MILLETON.

(Special Correspondence).

MILLETON, Aug. 22.—A dance and supper in aid of the new school was held at the Temperance Hall, Milton, on Wednesday night. It was patronized by a large number, and over a hundred dollars was realized. It is said there was considerable drunkenness and some fighting.

Miss Daisy Crocker left for the west on Wednesday.

The sidewalks have for a long time been in a disgraceful condition. It was unsafe to walk on them. An attempt is now being made to repair them.

HALIFAX, Wednesday.—The maritime board of trade, held its opening season at 2.30 p. m. today. It was the largest attended in the board's history. Addresses of welcome were given by Lieut.-Governor Fraser, Mayor Crosby, President Bell of the maritime board and President Faulkner of the Halifax board.

Governor Fraser spoke of the great value of honesty in business and advised the members not to fear honest competition. The lower provinces he said, afforded as good opportunities as the United States to men of brains. Mayor Crosby extended the welcome of the city to the delegates.

President Faulkner expressed the pleasure of the Halifax board in entertaining the maritime board.

President Bell of the maritime board referred to many questions of the day. He pointed out that the trade of the maritime provinces amounted to \$675 per annum for a family of five. The need of cheap power, better roads, technical education, tourist trade, steel building, the P. E. Island tunnels, a fast Atlantic service and greater railway facilities were some of the matters touched upon in his address.

An unanimous resolution was passed approving of a direct line of the I. C. R. from Grand Lake to Dartmouth through the route to the port of Halifax by nine miles.

W. B. Snowball of Chatham brought the claims of Chatham as a terminus of the fast Atlantic service to the attention of the board.

A resolution advocating the prohibition of the exportation of pulp wood from Canada, was passed.

The meeting adjourned till Thursday morning.

"Good" Loaf | "Poor" Loaf
"Happy" Cook | "Unhappy" Cook
BOTH DUE TO THE FLOUR CHOSEN

The "unhappy" cook chose a flour which had the strength of its "gluten elements destroyed by the 'electrical' bleaching process" and therefore couldn't "rise to the occasion." Result: "Wretched" loaf.

The "happy" cook chose "North West Gem" flour, which is made of the highest quality Manitoba No. 1 Hard Wheat. It is not "purified" by "electricity." Each wheat berry is thoroughly "washed" and "cleaned" by a special "new" process of our own and used in no other mill. Result: A flour which makes the lightest, whitest, tastiest, most wholesome loaf.

Ask your dealer for "North West Gem." Accept no substitute, because there is no flour milled that will make such "good" loaves.
