COMPETITION IN CRUELTY

Germans Work Systematically Their Allies Like Mad Dogs.

[Canadian Press.]

London, Oct. 2.—The Daily Chronicle prints the following from its Bucharest correspondent:

"It is more than probable that when all the horrors perpetrated by the Bulgarians and Germans at Tutrakan are known and officially confirmed they will rival anything yet recited in Balkan warfare. There seems to be competition between the two allies as to whom could inflict the most torture. The Germans, as usual, did the thing systematically, putting the Rumanian prisoners in batches and shooting them in the market places and other convenient spaces.

...meless Horrors Practiced.

"...regular massacre of the Ru... civil population was organ... the Bulgarian soldiers aided ...garian inhabitants, going from ... to street killing, maiming ...torturing as they went. Some ...se who escaped state that ... the Bulgarian inhabitants ...ook part were well-dressed ... and young men in light suits ...raw hats, while the women in... their children to share in the ... Knives, hatchets, anything ... which torture could be in..., were employed, and teeth ... used by women. Nameless ...rs were perpetrated. Limbs ... lopped off, eyes gouged out, or ...many wounds as possible inflicted ... the helpless victims.

Woman Becomes Lunatic.

"There is in the hospital today in Bucharest a raving lunatic, a lady of good Rumanian family, wife of a judge, who, hearing that the Rumanians were being massacred, rushed half dressed to the tribunal to save her husband. She arrived just in time to see a hatchet descend on her husband's head and cleave his body nearly in halves. She was found and recognized by some Rumanian officers, who brought her to the capital.

"During the fighting the Bulgarian women and children followed the lines, stabbing and torturing the wounded. Bodies were found with twenty and thirty cuts and worse. There are a dozen Rumanian soldiers in hospitals bearing as many wounds who still lived to suffer torture. Many of the women had rifles. More than one wounded soldier was shot in the back.

"A very strict inquiry is to be made and a full report addressed to allied and neutral countries."

FIGHT FOR REGINA TRENCH

Stubborn Attacks in Last 24 Hours, With Haig's Men On Top.

[Canadian Press.]

London, Oct. 2—12:59 p.m.—British troops on the Somme front last night repulsed a German counter-attack on their advanced positions to the east of the village of Eaucourt L'Abbaye, the war office announced today.

The buildings of Eaucourt L'Abbaye have been cleared of Germans.

In the Thiepval region the British advanced last night north of Courcelette, but were forced by a German counter-attack to give up part of a trench they had captured in this vicinity. The statement follows:

"During the night our troops south of the Ancre beat off an enemy attack on our advanced positions east of Eaucourt L'Abbaye. We have now established our front in that area and have cleared the buildings of Eaucourt L'Abbaye of the enemy.

"Further west, during the night, we also established our lines from a point 1,200 yards north of Courcelette in the direction of the Hessian trench. An enemy counter-attack forced us to relinquish a portion of the Regina trench which we had gained further to the north. This area has shown stubborn fighting during the past twenty-four hours.

"Elsewhere on our front the night was ... the enemy's trenches were carried out north of Neuville St. Vaast and east of Laventie."

OCCUPY GERMAN TRENCH.

Paris, Oct. 2.—Noon.—The war office announced today that the French captured a trench and prisoners on the Somme front last night, in a local operation east of Bouchavesnes.

The text of the communication follows:

"To the north of the River Somme an operation on our part resulted in our occupying a German trench to the east of Bouchavesnes, and we took some prisoners.

"Elsewhere the night passed in relative quiet."

Superb Aerial Defences Chased Off One, Brought Down Other.

London, Oct. 2—4:07 p.m.—One person was killed and one injured in the raid. The material damage was small.

"Police reports show that the total casualty in last night's raid were one man killed and one woman injured," says an official statement made public this afternoon. "The material damage was insignificant, although the raiders covered a wide area and dropped a great number of bombs. Four houses were seriously damaged. Some glass houses were demolished, and a number of windows were broken."

[Canadian Press.]

London, Oct. 2.—A writer in a morning newspaper, telling of the bringing of the zeppelin last night, says:

"It was about 11:30 when searchlights first began to stab the sky, and a humming in the air indicated the presence of a zeppelin in this district. At about a quarter to 12 heavy firing was heard.

"The zeppelin was then seen, looking like a silver pencil, and very high up. The guns continued to fire at it, but soon afterward it disappeared. Five minutes later guns began firing again, and some shells burst very close to their objective.

Drops Like Plummet.

"Then a red spot glowed in the sky, just as on the previous occasion a week ago. The light traveled from point to point along the back of the zeppelin, which flared up, and dropping into a perpendicular position, began its descent. It seemed at first to drop rather slowly. Immediately it disappeared the sky was lit up."

Another writer says sparks and flames a thousand feet high illuminated the entire district with a red glare.

Another correspondent states that the descent of the burning raider was swift, the whole incident being over in about fifteen seconds.

May Have Killed a Cow!

A farmer, in whose field the raider came down, gave the following account of its destruction:

"It was nearly midnight when I first heard the guns. I warned my wife, and we got up. I went out in front of the house, and there I saw a zeppelin almost above us.

"It seemed as if it might fall at any moment on the house. I took my children to safety. A second or two later the great thing began to fall. It was one mass of flames. It actually fell in a field behind my farmyard, and quite

WHOLESALE SLAUGHTER OF GREEKS IN ASIA MINOR; TURKEY IS IN A TURMOIL

THE DIARY OF MARS

SUCCESSFUL RESUMPTION by the Russians of their offensive in Galicia draws attention anew to the eastern war theatre, in which the operations have been apparently of comparatively small importance since Gen. Brussiloff's drive for Lemberg was held up some time ago.

BERLIN AND VIENNA concede that advantages have been gained by the Russians, who are attacking from both the northeast and southeast of the Galician capital and have gained ground south of Brzezany in the latter district and along the Brody-Zlochoff road in the former.

ON THE SOUTHEASTERN front in Macedonia the British have maintained the advantages scored in their attack of last Saturday near the Struma, beating off Bulgarian counter-attacks and retaining the two villages captured along the road to Seres, according to London today.

THE FORWARD MOVEMENT along the Struma synchronizes with a Serbian success on the westerly Macedonian front. The long-continued struggle in the Kaimakcalan district resulted in the Serbians not only securing possession of the principal heights in the region southeast of Monastir, but, according to Paris, in an advance of more than a mile north of the main peak, where a village has been taken.

RECENT OPERATIONS by the French along the Somme front appear to have been mostly in the nature of minor attacks, probably preparatory to some larger movement in the Peronne region, while the British main effort has been directed to the thrust toward Bapaume along the road from Pozieres, where an advance on a front of more than a mile and a half was announced by London last night. Paris today reports a French success in a local operation east of Souchavnes, north of Peronne, where a trench and some prisoners were captured.

THE ZEPPELIN DESTROYED during the air raid on England last night was brought down in flames while attempting to return to the attack on London after having once been driven off, the British official announcement states. Of the eleven other airships taking part in the raid, ten are declared to have wandered aimlessly over the eastern counties, the remaining one trying to reach London, but being prevented by the British defensive forces. Most of the bombs, it is said, appeared to have done little damage. No casualties have as yet been reported.

[Canadian Press.]

New York, Oct. 2.—A news agency dispatch from Rome published here today says:

"Reports that Greece is about to declare war on the side of the Allies has led to the wholesale massacre of Greeks in Asia Minor by the Turks, the Greek legation was advised today.

Greek residents of the Smyrna district have suffered greatly from persecution, and in outlying districts many Greeks have been killed.

The Turkish commander in Armenia, according to a news agency report, has issued a proclamation to his troops, protesting against the failure of the Central Powers to supply more ammunition, and declaring that the Turkish army in the Caucasus has been forced to rely wholly upon its own resources.

Constantinople is much aroused over the possibility that the Greeks may join the Allies. The Constantinople newspapers declare that in the event of an Allied victory in the Balkans, Constantinople would be burned to the ground before the Greeks would be allowed to enter Stata Sophia.

POLITICAL APPOINTMENT SERIOUS DISASTER TO THE CANADIAN ARMY

Daily Mail Glad Sir Sam Hughes Does Not Command.

London, Oct. 2.—The Daily Mail editorially says: "The Canadian press, reflecting the views of Canadian soldiers who have endured actual warfare, are anxious lest in gratitude for his zeal in raising men Sir Sam Hughes shall be given command at the front. Early in the war certain political soldiers received unwise commands, but as the sanguinary nature of the struggle developed it became obvious that the real front is no place for politicians, however eloquent, active and astute. The Canadian press and the Canadian soldier need therefore have no anxiety. It is understood Sir Sam now quite appreciates the changed situation, and is not seeking active service. We are glad to record the fact, for we agree with our Canadian contemporaries that a political appointment might bring about a serious disaster of the first magnitude to the Canadian army. Sir Sam is doing good work here in keeping the Dominion in the limelight, and we are glad to have him among us."

DETROIT SMASH CAUSES ARREST OF G.T.R. WATCHMAN

Crippled Employee Disappeared After Eight Were Killed.

Detroit, Oct. 2.—Valentine Choinski, gateman for the Grand Trunk Railway at its Forest avenue crossing, was taken into custody this forenoon, his detention being the first phase of an investigation by the prosecuting attorney of the grade crossing accident at midnight last night. Eight persons were killed and 53 injured when a crosstown trolley car, crowded with passengers, collided with three freight cars and a switch engine.

County officials also have detained William Carter, motorman, and Alex. Clistre, conductor, who were in charge of the street car, and Henry Gibson, engineer, and Robert O'Keefe, freight conductor. Choinski, a cripple, was employed by the Grand Trunk Railway a few days ago. He was on duty when the cars came together, but left the scene of the accident and was not found until this morning.

Five of the dead were identified at the morgue this forenoon. The list follows:

Joseph Zacinski, 35 years old; Jacob Dauss, 24; Ludwig Champski, 25; Fred E. Lauby, 25; 4-year-old daughter of John Kopler.

All these persons were from Detroit. The bodies of one woman and two men have not been identified.

Police and hospital records show that all of the injured persons thus far reported were local residents.

The Count Suffers an Attack of "Cold Feet!"

London, Oct. 2.—Friends of Count Zeppelin were alarmed when they learned that another airship had been brought down in England last night, says the Amsterdam correspondent of the Exchange Telegraph Company. The count intended to take part in the raid, the correspondent cables, but a message sent to Germany elicited the information that at the last moment, owing to the persuasion of his family, he decided not to join the raiders.

RUSSIAN GAINS IN DRIVE FOR LEMBERG ADMITTED

Positions Held by Turkish Troops the Objectives Taken—Many Attacks Are Successful On Army of Prince Leopold.

[Canadian Press.]

Vienna, Oct. 2.—Via London, 9:15 a.m.—Gains for the Russians in their new drive toward Lemberg are admitted in a statement issued by the war office supplementing the announcement of yesterday. The text of the statement follows:

"The front of Archduke Charles Francis: Fighting in the Carpathians is slackening. Southwest and south of Brzezany the enemy attacked with strong forces the Turkish troops operating between the Zlota Lipa and the Potutory railway station. The Russians gained some metres of ground.

"Front of Prince Leopold: Opposite Gen. Boehm-Ermolli's army the enemy attacked our positions to the north of the road from Brody to Zlochoff, but were completely repulsed. At one spot three and in another seven attacks were shattered. South of the road the enemy penetrated the sector of one regiment. A counter-attack, begun early this morning, is progressing favorably and has regained the greater part of the lost trenches.

"Italian theatre: The Italian artillery is again directing a very heavy fire against our position on the Carso plateau, which has extended to our lines in the Vippacco valley. In the southeastern theatre there is nothing to report."

MUCH BOOTY AND PRISONERS.

[Canadian Press.]

Petrograd, Oct. 2—Via London, 1:55 p.m.—The Austrians made heavy counter-attacks yesterday in an attempt to regain the ground lost in the new Russian drive on Lemberg. The war office announced today that the attacks were repulsed and that 1,500 more prisoners were taken.

This fighting occurred on the front southeast of Lemberg, where heavy engagements are still in progress. The announcement follows:

"On the western front, in the region of the River Narayuvka, and on the heights on the right bank of the River Zlota Lipa, stubborn fighting is continuing. The enemy initiated counter-attacks, which were repelled by our fire. He suffered great losses and left in our hands 1,860 of the rank and file. With the Austrian prisoners were also Turks and Germans.

"On the River Bystritza, in the region of Bogorodchan, our patrols removed two field sentries and defeated the enemy advance guards, taking also a number of prisoners. The total number of prisoners taken by this section of Gen. Letchitzky's army during the battle from September 19 to 23, inclusive, in the Carpathians on the front extending to the Rumanian frontier, is 12 officers and 2,596 of the rank and file. The war booty captured during the same period amounts to four cannon, 13 machine guns, two mine throwers, one trench mortar, 75 shells and hand grenades, 100 cases of machine-gun belts, several thousand rifles and a large number of cartridges.

"There were no developments on the Caucasian front."

INNKEEPER WAS READY FOR SIX HOLD-UP MEN; GIVES 'EM WORST OF IT

Boasted They Were Coming, But Left One Dead, One Wounded After Fight.

Chicago, Ill., Oct. 2.—After telephoning to the proprietor of an inn at Burr Oak, a suburb, that they were coming to hold up his place, six armed men drove up at the inn in a commandeered automobile early today and attempted to carry out their threat. They were met, however, by the proprietor, a waiter and a bartender, all armed, and in the ensuing pistol fight one of the robbers was killed and another seriously wounded. The dead man was recognized as a Chicago police character, known as "Peggy." He had a wooden leg. The wounded robber stumbled into a hospital, and said he was Daniel Hartman. The four uninjured members of the band escaped.

GERMAN SUB IN ARCTIC SINKS 3 NORWEGIAN SHIPS

Norway Has Lost Boats Valued at $9,000,000 Since August.

[Canadian Press.]

Christiania, Norway, Oct. 2, via London.—A German submarine has made its way into the Arctic Ocean and torpedoed three Norwegian steamships there.

The vessels torpedoed were the Sinsen, Ravn and Rolf Jarl. The crews were saved. Steamship traffic over the regular route covering the northern Norwegian towns has been stopped.

Since August the Germans have sunk Norwegian boats valued at $9,000,000.

The Sinsen's gross tonnage was 1,325, and that of the Rolf Jarl 1,265. There are listed three ... Norwegian steamships Ravn, all of them under 1,300 tons. The purpose of the German submarine operations probably is to interfere with the transportation of war materials to Russia by way of the White Sea ports.

LOCAL TEMPERATURES.

Following were the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night: Highest, 61; lowest, 30. The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 49; lowest, 33.

Serbians Gain More Than Mile in Second Victory Over the Fleeing Bulgars

British Repulse Attacks On Newly Won Positions With Sanguinary Losses, Enemy Leaving Many Dead On Field of Battle.

Paris, Oct. 2.—Noon.—Following up the advantage gained over the Bulgarians at Kaimakcalan height, on the western end of the Macedonian front, the Serbians advanced one and a quarter miles north of the height and occupied the village of Kotchovie, the war office announced today.

The Bulgarians made a counter-attack on the positions newly won by the British on the left bank of the Struma. The statement says the Bulgarians were repulsed, leaving many dead on the field.

The text of the statement follows:

"On the left bank of the Struma the British repulsed several counter-attacks delivered by the Bulgarians against the new positions captured by our allies on September 30. Swept by a curtain of fire and by machine guns the waves of the enemy's assaulting columns scattered and many bodies remain on the field.

"East of the Cerna the Serbians, pursuing the advantage gained yesterday, advanced two kilometres to the north of Kaimakcalan. In addition to a battery taken by the Serbians, two French guns which were lost during the violent Bulgarian counter-attacks on September 28 and 29, were retaken. Fifty additional prisoners were captured by the Serbians in this region.

"On our left wing there has been an intermittent cannonade, without any infantry action. Bad weather prevailing on this portion of the front interfered with operations."

CONFIRMS SERB WIN.

[Canadian Press.]

London, Oct. 2—1 p.m.—The following official Serbian statement dated Sunday was received here today:

"The Serbian Drina division has taken the important position of Kotchovie, one and a half miles northeast of Kaimakcalan (on the western end of the Macedonian front).

"The Bulgarian battery which we took yesterday is one of field guns, not mountain guns, as previously announced."

Guns on Monitors Brought by Canal To Somme Front

Iron-Clads Participate in Attacks On Mount St. Quentin.

(Special Cable to The Advertiser.)

BY HENRY WOOD.

WITH THE FRENCH ARMIES BEFORE PERONNE, Oct. 2.—Naval forces have joined the Allies here in the great land battle of the Somme, seventy miles from the sea.

Iron-clad monitors, utilizing France's magnificent network of canals along the Somme, centering at Peronne, are participating in the daily bombardment of Mount St. Quentin, which dominates Peronne from the east.

They advance slowly on the German stronghold, as the land lines creep forward, and have done much effective work.

Mount St. Quentin, constituting the key to the defence of Peronne, is slowly and steadily being encircled by the French in the same manner that preceded the capture of Combles.

The position, a strong one, stands at the summit of a hill overlooking Peronne.

When the proper time comes Mount St. Quentin will be taken by the French and with a minimum loss in men, an artillery officer said today. In the final assault, their infantry will dash forward, preceded 100 yards by a curtain of fire of shells that will not permit the surviving Germans to inflict any serious losses.

COL. GRAHAM KEEPS STRICTEST CHECK ON HIS TONGUE NOW

Refuses To Discuss His Reinstatement or Affairs.

DOESN'T KNOW WHO DID IT

Nor Is He Aware What Is To Become of Belanger and Renton.

A contrast to his disposition of a week ago to tell the press all he knew of his suspension from command of the 142nd Battalion, Lieut.-Col. C. M. R. Graham, who came back to London today as reinstated commander of the unit that reached here at 2:05 on its last leave, has absolutely nothing to say.

Says He Does Not Know.

To The Advertiser the reinstated commander refused to say anything of the reinstatement. Pressed for an answer as to who it was that had ordered his reinstatement, he declared absolutely that he did not know.

"Was it Acting-Minister of Militia McCurdy, Major-Gen. Logie or the militia council?" asked a reporter.

"I don't know," replied the colonel.

"Isn't it a peculiar thing that you don't know who it was ordered your reinstatement?" queried the newspaper.

"I don't know anything about that. I only know that I am ignorant of who did it," was the commander's comeback.

Fate of Privates.

The same lack of knowledge was exhibited by the London's Own commander in connection with the fate of Ptes. Lucien Belanger and Renton, the boy whose spanking on the colonel's orders caused his suspension and the man whose fulfillment of his commander's orders raised such a storm of protest at Camp Borden that he had to be sent to London.

"I don't know what is to become of them," stated the colonel.

Germans Realized Too Late What Preparation Meant.

BRIAND TOOK THE LEAD

Opening of Dardanelles More Necessary Than Taking Bulgaria.

ASIA TROOPS TO MOVE

Russians Will Launch Attack From Captured Port of Trebizond.

[Canadian Press.]

New York, Oct. 2.—The Paris correspondent of the Herald cabled Sunday as follows:

A mighty drive on Constantinople may bring the decision in the war before the end of the present year. The knowledge that this drive is coming is regarded as the explanation of the alarm felt in Germany, as shown by the refusal of the private bankers and moneyed classes to subscribe to the new loan and by the speech delivered on Thursday last in the Reichstag by the chancellor of the empire, with its appeal for new sacrifices.

Realized Too Late.

The preparations for the march on the Turkish capital have long been under way, and as there is now no longer any motive for concealment, the subject is being alluded to in rather frank manner in the press of the Allies. The Prussian great general staff realized the trend of the Allies' campaign only when it is too late. The desperate effort was made to retrieve the situation when Field Marshal von Hindenburg was appointed to the supreme command, Field Marshal von Mackensen being sent to bar the road southward through Bulgaria to the Russians, and for a moment there was concern in the camps of the Allies lest he should succeed in creating a situation which would halt for an appreciable time the projected operations of the Russians and Rumanians.

Germans Bewildered.

The false statement which was published in Germany to the effect that Field Marshal von Mackensen turned and was rolling on the R... left preparatory to the taking of ...

ROUSING WELCOME FOR ELEVEN MEN BACK FROM FRANCE

Station Was Crowded With Citizens and Soldiers.

PROCESSION DOWN TOWN

Three Londoners in the Party Which Arrived Home on Sunday.

Undoubtedly the most hearty welcome given to soldier's returning to the city, since the first party arrived early in the year, was that accorded to eleven wounded and invalided men who arrived here Sunday at 11:30, via the C. P. R.

Long before the train was due, the station was crowded with citizens eager to welcome the men. Many soldiers who arrived in the city some time ago were also at the station to welcome their comrades. Capt. Alexander and Capt. Smallman, of the Central Military Convalescent Hospital, officially greeted the men.

The citizens were represented by a number from the Soldier's Aid Commission. Acting-secretary Ed. Lance had charge of the arrangements for the reception. Others who were at the station were Mayor H. A. Stevenson, B. C. McCann, A. T. McMahon, acting chairman of the reception committee, and others of the various committees of the Soldier's Aid Commission.

Automobiles loaned by George Copeland, J. C. Beemer, Charles Abbott, A. T. McMahon, W. McPhillips and Mayor Stevenson, took the soldiers to the Tecumseh House

Band Was Out.

The band of the 1st Hussars generously offered its services free and added much to the success of the welcome. The procession headed by the band made its way down Richmond street to the Tecumseh House. From there five of the men were taken to the Military Hospital to report, returning in a short time to have lunch with the others at the hotel. Before the men dined, Mayor Stevenson made a speech welcoming them in behalf of the citizens.

Three of those who arrieved were Londoners. J. Fulcher of 472 Charlotte street, is a member of the Canadian Engineers and is home on sick-leave. Leo Donohue, of 25 Wyatt street, belonged to the 2nd A. M. B. and was invalided home after five months service overseas. The other Londoner, Pte. R. Johnston, of 538 Dundas street, was also invalided home. He was a member of the 70th Battalion and went overseas with that unit. In England he was attached to the 39th Battalion, but illness prevented him from going to France.

Was in France.

Pte. H. McGinnis enlisted in Kitchener with the 34th Battalion. He was sent to England with the first draft from that battalion and there was attached to the famous First Battalion. In France he served for 11 months in the hottest engagements and escaped unwounded except for a slight injury in the shoulder from a shell splinter during a trench raid. The Huns, however, "got" him finally during one of the engagements at the Ypres Salient.

He was acting as a bomber and with the rest of the party had made his way safely across "no man's land" to within a few feet of his objective point. As the party dashed for the trench a bullet hit him in the head above the right eye. He lay in the trench for some time, and although taken back to the hospital, was not expected to live. He pulled through with only the loss of the sight of his right eye. His battalion, he stated, although continually reinforced, was scarcely ever stronger than 500. In the charge during which he was wounded, they attacked with four hundred men and returned with only one hundred.

Were Invalided.

Pte. F. Sexton of Maidstone enlisted with the 70th Battalion and was invalided from England, as was Pte. M. Felsh of the 1st Divisional Ammunition Column. Pte. Welsh's home town is Guelph. Pte. D. W. Mann of St. Thomas was with the 91st Battalion. He was invalided from England. Pte. J. Miracle of Essex was also invalided from England. He was a member of the 99th Battalion.

Pte. E. R. Walton of Clinton, who was also one of those who arrived, has two sons in the service. One was with him in the 33rd Battalion and the other is with the 5th Royal Lancers. He himself was invalided from England after going overseas with the main body of the 33rd Battalion. Evidence of the thoroughness with which the battalions are broken up upon their arrival in the Old Country is shown by the fact that only ten of them were left with him in one of the training camps there, the others being distributed to other points.

Wounded at Ypres.

Pte. A. C. Thompson of Windsor was attached to the 2nd Battalion. He was wounded at Ypres on April 4 and since then has been convalescing in an English Hospital. Shell concussion was the cause of Pte. B. Morris, of the 18th Battalion, being invalided home. A shell, which exploded above a horse which he was holding, rendered him incapable for further service although none of the fragments touched him. Before enlisting he resided at Waterloo.

The men arrived in Canada with a party of three hundred at Quebec aboard the Missanabie. Except for one or two rough days, they stated, that the voyage was an excellent one.

Those in the Party.

Those who returned are:

Pte. J. Fulcher, Engineers, 472 Charlotte street, London.
Pte. Leo Donohue, 2nd A. M. B., 25 Wyatt street, London.
Pte. R. Johnston, 70th Battalion, 538 Dundas street, London.
Pte. H. McGinnis, 34th Battalion, Kitchener.
Pte. F. Sexton, 70th Battalion, Maidstone.
Pte. E. R. Walton, 33rd Battalion, Clinton.
Pte. M. Welsh, 1st D. A. C., Guelph.
Pte. D. W. Mann, 91st Battalion, St. Thomas.
Pte. J. Miracle, 99th Battalion, Essex.
Pte. A. C. Thompson, 2nd Battalion, Windsor.
Pte. B. Morris, 18th Battalion, Waterloo.

Former London Police Officer Wounded and In Germany.

Pte. Fred Hogg, who went overseas with the 33rd Battalion, is a prisoner in Germany, and is badly in need of some good things to eat. Hogg is a former member of London police force, and no word had been received from him since June 16 until a card came Saturday stating that he was wounded in both feet during a fight, and unable to get away, was captured by the Germans. His card indicates that he is not especially satisfied with the food supplied him.

The local police officers are making up a big parcel of good things, which will be sent to the wounded soldier at once. It is hoped he will get them before Christmas.

"We certainly will see to it that no member of the force who is wounded and a prisoner goes hungry," said Detective Sergeant Thomas Nickle.

OXFORD BATTALION MEN WILL ATTEND FAIR AT INGERSOLL

This Unit May Soon Go Overseas.

All Citizens Given Chance to Attend in the Afternoon.

[Special to The Advertiser.]

INGERSOLL, Oct. 1.—The Ingersoll fair will open tomorrow, and fine weather is practically all that is required to make it a success. The entries have been coming in increased numbers over former years, and the interest appears to be more widespread.

The track has been put in good shape for the trials of speed.

As soon as it was learned Saturday that the 168th Battalion was among the battalions warned for overseas service, and that the men of B Company would be here on Tuesday for their last leave, it was decided to have the unit attend the fair in a body. The program as outlined will consist of a parade early in the afternoon to the fair grounds. The soldiers, 250 strong, headed by their famous pipe band and the Marconi Club Band of London, will parade to the park.

A holiday between the hours of 1:30 and 4:30 p.m. has been proclaimed by Mayor Elliott to enable citizens generally to attend the fair.

LIEUT. JOSEPH WALTERS OFF TO BATTLEFRONT

Former Advertiser Man Went Overseas With the 91st Battalion.

Lieut. Joseph Walters, formerly of The Advertiser editorial staff, who went to England with the 91st Battalion, left the training camp in England for the battlefront in France on Friday. A cable message conveying this information was received on Saturday by his father, J. D. Walters, 1029 Richmond street. After reaching England, Lieut. Walters was transferred to another battalion and later joined a bombing section.

ARRANGING SERVICES FOR SOLDIERS IN CAMP

Ministerial Alliance Meets Today to Consider Winter Work.

A special meeting of the Ministerial Alliance is being held this afternoon at 5 o'clock in the Y. M. C. A. to make arrangements for services to be held in the different churches of the city during the coming winter for the soldiers in training here.

Such arrangements are being made by request of military headquarters, presented last Monday to the executive of the Alliance by Rev. Capt. Hindson, chaplain of the 153th Battalion.

HORSES ARRIVED HERE IN POOR CONDITION

Battery Mounts, Therefore, Being Subjected to Court of Inquiry.

A court of inquiry has been ordered to investigate and report on the condition of 160 horses which were received at Queen's Park last Friday night from Camp Petawawa. The animals were either in bad condition when shipped or received poor treatment on the way, as they are reported to be in poor shape now.

Major Baron Osborne is president of the board of inquiry. Major G. W. Nelson and Major R. Emmerton are members.

WANT DATES CHANGED

Presentation of Colors and Fair Booked Same Day.

The management of the Rockwood Fair Association is taking up with militia headquarters here the matter of having the date for the presentation of colors to the Wellington Battalion changed. As it stands at present Rockwood fair falls on the same day (Friday, October 6) as the 153rd is to receive colors. A large number of the exhibitors of the Rockwood fair have boys in the battalion, and want to attend, and the Rockwood show always draws a large crowd from Guelph. Representations to have the colors presented Saturday are being made. The matter is under consideration.

STRATFORD PLANNING RECEPTION TO PERTHS

[Special to The Advertiser.]

STRATFORD, Oct. 1. — The 110th Battalion will be home on Monday on the final fair day, and the finance committee of the city council will consider some form of reception to the Perthas.

Nothing further has been heard from Col. Shannon in reference to troops being quartered here this winter, but it is not thought likely that Stratford will have any soldiers this year, in view of the fact that only four Western Ontario battalions will winter in this district.

This Is the Fourth Western Ontario Unit Likely to Sail.

[Special to The Advertiser.]

CAMP BORDEN, Oct. 1.—The fourth battalion from Military District No. 1, and the fifteenth unit in camp, the 161st Huron Battalion, was warned for overseas yesterday. No. 1 Division notified headquarters here that they had a vacancy for an immediate overseas unit, and left the choice to Major-General W. A. Logie, who selected the Hurons.

They will proceed on their last leave on Thursday and although they may not be one of the first units to move in the overseas exodus it is rumored that they will not be long in camp after their return.

RETURNING AFTER VISIT TO SOLDIER-HUSBAND

Wife of Major Gunn Coming to London —Brother Goes to India.

Mrs. J. N. Gunn of Calgary, daughter of Rev. W. M. Martin and Mrs. Martin, Ridout street south, is on her way back to Canada after a visit with her husband, Major J. N. Gunn of the R. A. M. C. in London, England. Mrs. Gunn, who with her babe has been staying with her parents since the enlistment of her husband, went overseas some weeks ago with her brother, Capt. Beattie Martin.

Major Gunn, second in command of No. 2 Casualty Clearing Station, France, was fortunate enough to secure a seven-days' furlough to spend with his wife. He has recently been promoted from the rank of captain to major.

In a letter of a few days ago to his parents, Capt. Beattie Martin stated that he was being sent to India, and expected to leave a few days after reporting at Aldershot for duty.

He was obliged to return home on sick leave in June, owing to an acute attack of rheumatism contracted during five months in the trenches as medical officer with a battalion of British regulars.

LONDON OFFICER IS ADJUTANT GENERAL OF C.E.F. OVERSEAS

Col. Frank Reid Is Named in This New Rank.

PART OF NEW SYSTEM

Reorganization of Canadian Forces in England Brings Him Promotion.

Although headquarters here has never been officially notified of his promotion, dispatches refer now to Col. Frank Reid of this city as "adjutant-general of the Canadian overseas forces." The announcement has been made through cable news from the old land that "Col. Frank Reid, the new adjutant-general, has left Folkestone for London."

This appointment of the London officer as adjutant-general follows a part of the reorganization scheme now being worked out in England so far as Canadian forces are concerned. The new policy has been to consolidate the work as much as possible, and with this end in view, it is reported that the majority of the chief staff officers have been sent to London, where they will be brought together as much as possible.

Since the declaration of the war Col. Reid has won rapid promotion. His work in assisting and superintending the transporting of the first Canadian contingent from Valcartier to England won for him a staff appointment overseas, and a little later promotion to the rank of a full colonel and the appointment as head of a new Canadian army branch that took over the administration work of the Canadian forces in England. The appointment of adjutant-general is supposed to be the natural sequence to this.

Returned Soldier Will Undergo His Tenth Operation

St. Julien Veteran Cheerfully Faces Another Surgical Attempt To Save Life.

Corp. Mitchell, a returned 1st Battalion man, and vice-president of the Returned Soldiers' Association, is about to undergo his tenth operation. Corp. Mitchell was wounded at the battle of St. Julien, and as a result his left arm had to be amputated. The wound never healed properly, the bone continuing to decay, and a series of operations has been necessary. About two inches of the stump remain and the new operation will entirely remove that. Corp. Mitchell remains cheerful in spite of his unenviable record.

GIVEN APPOINTMENT

Major Tanton of 135th Takes Over Special Company Command.

Major F. Tanton, late of the 135th Battalion, has been appointed to the command, temporarily, of No. 1 Special Service Company. Major Tanton was junior company major of the Middlesex battalion and as junior majors are not permitted on the establishment of infantry units, he was unable to accompany the unit when it was sent overseas, Major Duncan Stuart, junior battalion major, having taken his place as a company commander.

GREAT DRIVE

rest and the treating of Rumania as Serbia had been treated, and to the destruction of the Russian army—a statement that has been left without rectification and which apparently is still believed by the masses in Germany—shows in the plainest way the bewilderment of the military authorities in Berlin, and their anxiety to prevent the public from learning the facts.

All previous information given out regarding the intentions of the Allies in the southeastern field was designd to furnish the impression that Nish or Sofia was the objective of the projected Russian movement southward through Rumania. The conquest of either of these cities would be of great importance to the Allies, but would not compare with that of Constantinople.

Made No Provision.

The military onlookers in the allied countries express astonishment that the Prussian military chiefs committed the blunder of not appreciating the situation, or at least of not taking into account and making provision for a move of this kind. The operations of the great Russian army under the command of the Grand Duke Nicholas in Armenia, one critic says, would have aroused suspicion in the minds of any enemy leaders who were not blinded by their own theories and principles and their own self-importance.

The grand duke's army, using the conquered port of Trebizond as a base, is expected to have a vitally important part in the conquest of Constantinople. Although the plans of the Allies are, of course, kept secret, it is regarded as established that the attack against the well-guarded capital of the Ottoman Empire will this time be made simultaneously from the Bosphorus side of the Straits, and from the land side by armies operating through Bulgaria.

Land On Bulgar Coast.

It is believed that the bulk of the Russian army in Asia-Minor, composed of hardened veterans, will be landed on the Bulgarian coast to co-operate with the armies moving southward, although it has also been suggested that it may be disembarked at Constanzan to aid the combined Russian and Rumanian forces in sweeping aside the present opposing Bulgarian-Turkish-Prussian troops under Field Marshal von Mackensen. Time and the exigencies of the situation will decide that point.

The real purpose of the Saloniki venture which for many months was a problem with which the military observers wrestled, is now clearly perceived. With the new light comes a high tribute to the French leaders who were responsible for it.

While Gen. Joffre's part in deciding on the expedition has been well known and much discussed, that of the head of the French Government, Aristide Briand, was less well known. To Mr. Briand are now being paid compliments of the very highest kind in the press of the Allies, and particularly in France, Italy and Russia.

The Saloniki Scheme.

It is known that this far-sighted statesman had difficulties of all kinds to overcome in convincing others of the accuracy of his judgment regarding the section where a decision could best be sought and the consequent desirability of building up a great military force at Saloniki, and that it was only by tireless insistence that he succeeded in bringing it about. To win the war quickly and decisively, he argued, communications must be opened up with Russia in order that France and Great Britain might supply the great masses of Russian recruits with equipment and with artillery, arms and ammunition. Through the present lines, by Archangel or overland from Siberia this cannot be satisfactorily done.

Conquest Is Necessary.

"The suggestion that the punishment of Bulgaria is indispensable," says M. De Lanessen, one time French minister of marine, in the Paris Journal, "is, of course, true; but the conquest of Constantinople is urgent. We are already in autumn; winter will soon be here, and during the winter the communications with Russia from Great Britain and France through Archangel will be interrupted.

"Now it is of the highest importance that at the present point in the war relations be maintained as close and as frequent as possible between all the nations and all the armies of the entente.

"The taking of Constantinople means the opening of the Dardanelles; it means the condemning of the Turkish army in Asia to death or capitulation; it means Bulgaria at the mercy of the Allies; it means for the central empire a defeat forecasting the final collapse."

FLAG DAY IN AID OF WAR SUFFERERS WAS A SPLENDID SUCCESS

Women Collected $2,500 on Streets From Citizens.

SUBSCRIPTIONS COMING

Expected That the $5,000 Aimed at Will Be Fully Realized.

Members of the Municipal Chapter I. O. D. E. and the many outside workers who assisted them are rejoicing in the success of flag day on Saturday for French relief. Thorough organization by the conveners of the tag day committee, Mrs. T. Gillean and Mrs. J. B. McKillop, an effective publicity campaign, the sympathy of the citizens with the cause, a large and enthusiastic army of workers, and last, and very important, a perfect day, all contributed to this pronounced success.

By 7 o'clock in the evening, when the fingers of the treasurers were almost too weary to turn over a single other coin, approximately $2,500 had been counted, with several taggers still to make returns. The goal of ambition of those who launched the French relief tag day movement was $5,000, and it is hoped that this will be fully made up in the near future by subscriptions, several of which have been promised.

Check for $100.

The largest tag day donation was received by one of the captains in South London, Mrs. W. D. F. Jarvis, a check for $100.

Mrs. R. M. Graham, secretary of the Municipal Chapter, was another captain who took in a large amount during the day.

Four girls of Mrs. W. Ashplant's team by 3 o'clock in the afternoon, announced that they already had among them in their boxes about $80. Two of the girls had each received a ten-dollar bill, and contributions of this denomination were surprising by their number. Several $5 bills were also discovered when the money boxes were opened, and bills developed quite an amazing habit of hob-nobbing with coin on this particular day.

An instance of self-denial for the fund was related by one tagger. A woman had $2 for matinee tickets for the afternoon. Instead of enjoying the play she dropped the bill in the first tag day box which came her way.

Met a Grouch.

A little red-headed, business-like lady who was getting along famously confessed he had met one grouch.

"When I asked him if he would buy a flag," said the boy, "he took it, then he pushed a fifty-cent piece through the slot. I thanked him, and he said, 'Where's my change?' I told him we didn't make any change. He got so mad he wouldn't take the flag. He threw it down on the sidewalk and tramped away. I waited a minute, then I picked it up. It wasn't any the worse, so I sold it again."

Among those who had a very long, responsible day's work in connection with flag day, were the conveners of the committee, Mrs. Gillean and Mrs. McKillop, and Mrs. Tobias, who looked after the numbering, giving out, and checking up of the boxes as they were returned. All three were on duty before 7 o'clock in the morning, remaining until after 7 o'clock in the evening, when the headquarters was declared closed till Monday morning.

Mrs. Ch. T. Campbell, treasurer of the Municipal Chapter, and Mrs. T. H. Smallman, joint treasurer of the tag day fund, assisted by Mrs. Niven, regent, Mrs. W. M. Gartshore and Miss Burwell, also put in long, strenuous hours, at the exacting work of counting the money as it was returned in the boxes.

It is probable the full results of the money received in the boxes will be known by noon on Monday. Mrs. Ch. T. Campbell, treasurer of the Municipal Chapter, whose residence number is 32 Queen's avenue, will be glad to look after any further subscriptions to the French relief fund.

WATERWORKS AUDIT FAILS TO MEET WITH ONTARIO SANCTION

Does Not Meet Requirements, Say Provincial Auditors.

GRANTS ARE HELD UP

Month's Difference in Returns Cause of Trouble Over System.

That the audit of the waterworks department does not meet with the approval of the provincial auditors was the rather startling information received by the board of control today, and as a result of this unsatisfactory condition of affairs, certain grants, among them one to the board of education for $3,700, have been held up.

W. O. Galloway, who is in charge of this work for the Provincial Government, notified the board that the waterworks audit was not prepared in accordance with the municipal act. A statement to November 30th, is given each year by the utilities commission, when the department demands a statement up to the end of the year. He did not question the manner of keeping the books, but he demanded that the act be lived up to. This statement should be published also he requested. As a result certain grants were being held up.

"This gentleman does not understand the waterworks act," declared Controller J. M. Moore.

A copy of the statement was ordered forwarded to the utilities commission.

INCINERATOR STAFF ORDERED TO BE GOOD

Controllers Lay Down Law and Make Superintendent Responsible.

The trouble at the city incinerator has been straightened out, the board of control taking definite action today. Some time ago Chief Engineer Kerr was placed in full charge, but the other engineers took exception to that, and have been making things miserable for the chief, it was claimed.

The result was that Engineer Bennett was suspended for not obeying orders.

The board decided to give Supt. Walker of the garbage department, authority to reinstate Engineer Bennett when he thinks it advisable, and to warn the others that they must obey Mr. Kerr's orders or they would be dismissed at once.

On the suggestion of Controller Moore, the place will be cleaned up. It is in rather bad way at present, and unless the house is put in order somebody will be fired.

Mr. Walker is to be in full charge of the operation of the plant and all the men.

RIDOUT STREET BREAKWATER IS A LOCAL IMPROVEMENT

Property Owners Must, Therefore, Pay Biggest Share of $50,000 Cost.

"The city cannot undertake the Ridout street breakwater except as a local improvement, for which the affected property owners will have to pay a large share of the cost. This is estimated at $50,000.

Controller Moore, at the meeting of the board of control today, said that the Provincial Government, which made a big grant to Brantford for a similar purpose, should be asked to make a grant in view of these facts. The city engineer was instructed to communicate with that body at once.

In the meantime a petition will be circulated among the property owners to see if they want the improvement.

CANNOT KEEP BELVIDERE CONVALESCENT HOME OPEN

Mayor Stevenson, at the request of the Lord Roberts' Chapter, Daughters of the Empire, wired to Hon. J. A. Lougheed, chairman of the Soldiers' Hospital Commission, asking him if it were possible to keep Belvidere Hospital open. He received an answer today to the effect that it would not be possible, as Victoria Hospital affords the commission all the facilities needed at this time.

The Lord Roberts' Chapter, which has been doing much for the men at Belvidere, is disappointed at the news.

BELIEVES HIS STORY.—James Sullivan, charged with trespassing on Grand Trunk property, was discharged in police court today, his explanation to the magistrate being that he had not wilfully yiolated any railroad rule. The charge was laid by Special G. T. R. Officer John Hughes, who stated that he had found Sullivan stored away in a special race horse car bound for Windsor. Sullivan testified that the men on the train had consented to his riding, and he had not attempted to beat his way. Magistrate Judd thought that Sullivan was under the impression that he was doing no wrong, and accordingly dismissed him with a warning to not attempt to ride the "blind baggage" out of the city.

DECIDING FUTURE OF WOMEN'S MUSIC CLUB

Executive Meeting This Afternoon Most Important One in This Respect.

The first meeting of the season of the executive of the Woman's Music Club started at 2:30 o'clock this afternoon to deal with unforeseen circumstances which have arisen affecting the immediate future of the club. The past season of the club has been the most successful in its history and the members of the executive are looking forward to another record-breaking year for this organization, which is continually extending its influence. Apart from its educational value, since the outbreak of the war, the fortnightly recitals have proved an inestimable boom in the way of recreation to the many whose time and attention is largely centred in the war and Red Cross and other forms of war relief work.

PARIS AND BRANTFORD BOYS ADMIT STEALING

[Special to The Advertiser.]

STRATFORD, Oct. 1.—As a sequel to a hold-up in the Grand Trunk yards a few days ago, George Wilson of Brantford, aged 17, and John Schultz, Paris, aged 15, were charged in the police court Saturday with the theft of 50 cents from another lad, Clifford Barnhardt. They admitted their guilt and were remanded for a week.

According to the Barnhardt boy the two threatened to shoot him if he said a word about the incident. They were remanded for a week.

PORT STANLEY LINE AUDIT IMPOSSIBLE, SAYS CITY AUDITOR

Cannot Undertake Work, He Reports Today.

SUGGESTS OTTAWA MAN

Controllers, However, Favor Employment of Local Accountant.

City Auditor W. M. Dunlop informed the board of control today that it would be impossible for him to undertake the work of auditing the London and Port Stanley Railway books up to July 1, 1916, as the other work of city auditing would require all his time. He recommended that George L. Blatch, Ottawa, be secured for this purpose. The work would require three weeks or more of Mr. Dunlop's time, and he could not spare it under the present circumstances, he declared.

Controller J. M. Moore took the position that local men should be employed for this work. He thought Mr. Dunlop should be responsible.

If no local accountants can be secured to do the work, Mr. Dunlop will be empowered to engage the best man in sight.

Mr. Dunlop also reported that Andrew Dale had announced that he could not accept the position of auditor for the utilities commission, but would devote all his time to assisting Mr. Dunlop. He was asked to appear before the council this evening, but could not do so. However, this explanation will clear the way.

PRE-PROHIBITION BOOZE LESS DEADLY FOR FINES

Those Who Used It Escape With $5 Penalty.

Becoming intoxicated on liquor purchased prior to the enforcement of the Ontario temperance act, brings a milder penalty than jags from booze purchased since September 16th, as two persons discovered in police court today.

Howard Davis bears the distinction of the first to be fined under the city bylaw since the provincial act became effective.

He purchased his supply during fair week, and touched it a trifle too often on Saturday. He was fined under the city bylaw $5 or in default of payment 5 days in jail.

Andrew Riordan drew a similar fine, his story and that of Davis being identical in every particular except that the whisky had been purchased from different liquor stores.

A warning was given by the magistrate that to repeat would mean a considerably severer penalty.

WEDDING BELLS

DOUGLAS—WALKER.

A quiet autumn wedding was solemnized at the home of Wilfred Walker, Walkers, Ont., on Tuesday, September 26, when his eldest sister, Margaret M., was married to Andrew Douglas of Mosa. The ceremony, which was performed by Rev. Dr. J. Frazer Smith, took place under an arch of maple leaves decorated with flags. At 3 o'clock, to the strains of Lohengrin's bridal march, played by Miss Helen Douglas, sister of the groom, the bride entered the parlor leaning on the arm of her brother. She was very prettily gowned in ivory satin de chene with crystal and pearl trimmings, and wore the customary bridal veil, caught with orange blossoms. She carried a shower bouquet of Bridal roses and maiden hair fern.

After congratulations the guests all retired to the dining-room, where a sumptuous wedding dinner was served. The young couple then motored to Glencoe, taking the Eastern Flyer for Toronto, Hamilton and Burk's Falls, the bride traveling in a smart suit of Belgium blue gaberdine and black velvet hat trimmed with large black wings touched with pink.

PUTNAM—GROSENBACKER.

The marriage took place quietly this forenoon at Talbot Street Baptist parsonage, Rev. H. H. Bingham officiating, of Harry H. Putnam of this city and Miss Emily Martha Grosenbacker, also of London. The young people, who were unattended, will take up their residence at 116 High street.

SIX LONDON BROTHERS IN KHAKI; ONE NOW "MISSING"

PTE. ARCHIE E. PERKINS.

Pte. Archie E. Perkins, late of the 70th Battalion, who is now reported officially as "Missing" between September 15 and 17, was one of six brothers who are serving King and country. The message of Pte. Archie figuring in the casualty lists was not the first of the kind received by his father, Charles Edward Perkins of 12 Orchard street, for early in the month he was notified that Sapper Bert Perkins of the Royal Engineers (Imperial Service) had been wounded in the left wrist.

Sapper Perkins was the first of the six brothers to enlist. In civilian life he was an operator at the London Electric, and he paid his own passage to England in order to enlist in the Royal Engineers. For twelve months to a day he served in the trenches before he was wounded and sent back to the base.

Pte. Harry Perkins, who left with the 33rd, and who is now a dispatch rider attached to the Canadian Engineers, was the next. He is 25 years of age.

Pte. Jack Perkins, aged 24, and the only one of the brothers who is married, joined the 70th with Pte. Archie, aged 20, now reported as missing. Pte. Jack was employed at the Ontario Spring Bed and Mattress Company, while Archie was in the employ of Silverwoods, Limited.

Pte. Fred Perkins, 21, enlisted with the 135th (Middlesex) Battalion, and is now overseas. He gave up a good position as a Great Lakes wheelsman to join Lieut.-Col. Bart Robson's command.

The youngest of the brothers, Pte. Ernest, is 19 years of age, and is a member of the 142nd Battalion, London's Own.

WEEK-END LISTS OF LOCAL CASUALTIES HEAVY ONCE AGAIN

Two Londoners Reported Dead and One Missing.

OTHERS WERE WOUNDED

City Hit Hard in Drive On the Somme Through Increasing Roll.

As was the case last Monday, the week-end casualty lists recorded a heavy toll of London lives lost and of local men wounded and missing in the big Somme drive.

Over the week-end two London soldiers were reported died of wounds, or killed in action, one was reported missing and nine more wounded or ill.

Mrs. Edgar Coleman, 26 Egerton street, was officially notified Sunday afternoon that her husband, Pte. Edgar Coleman, of the A. M. C., of the 70th Battalion had died of wounds in France.

Pte. Coleman enlisted with the 1st Battalion on the outbreak of war, and went with the London men to Valcartier, but was obliged to return owing to ill-health. He subsequently was accepted by the A. M. C. and went overseas with the 70th Battalion in the spring. He is survived by his wife and two small children.

The name of this soldier who has given his life for the great cause, appears on the honor roll of Hamilton Road Presbyterian Church of which, with his wife, he was a member.

Mrs. Coleman's father, Mr. Stannard, is enlisted for special service, and she has a brother-in-law in active service.

Wife Now in England.

Pte. Hugh McGinnis, another ex-member of the 70th Battalion, is the second Londoner to die, according to the latest lists. He was killed in action on September 20.

The message notifying his wife, Florence McGinnis, of the soldier's death was sent to 577 Dundas stret but the widow of the 70th man is now in England and is supposed to know of the casualty.

Pte. Benjamin N. Parker, infantry, also formerly of the 70th is in No. 2 Canadian General Hospital at Letherport suffering from shell shock. The message announcing this casualty was sent to Mrs. Marie Parker, 273 William street, and advised her that Pte. Parker had been admitted there on September 22.

One of Six Brothers in Khaki.

Pte. Archie E. Perkins, son of Charles Edwin Perkins of 12 Orchard street, reported as missing, is one of six brothers in khaki. One of these has already been wounded. The official message says that he was reported missing between September 15 and September 17.

Pte. Eldon Garret who went over with the 33rd and who is listed as wounded, was a student at Western University and Huron College.

Mrs. Annie Waite, of 1163 Laura street was notified that Pte. William S. Waite, 53169, is a shell shock victim. He is in No. 2 General Hospital at Boulogne where he was admitted on September 20.

Pte. Charles Archie Piper, infantry, a son of Mrs. Alice Piper of 606 King street, has been wounded in the left leg. He was admitted to No. 5 Northern General Hospital at Leicester on September 25.

Seriously Ill.

Although he has never been reported in the official dispatches as ill, Driver W. A. Davis, 4th Canadian Field Ambulance, has been admitted to No. 3 Canadian General Hospital, seriously ill. A postcard conveying this news was received by his wife, Mrs. Davis, of 104 Tecumseh avenue, today.

Driver Davis left London with the 18th Battalion, but in the last letter received from him, dated August 16, he said that he had been transferred to the Field Ambulance Corps as a driver. Since that letter no word has been received, although his wife formerly heard from him every week. The official postcard she received from the hospital chaplain today announced that her husband was suffering from a serious inflammation of the neck.

Wounds Severe.

"Severe" is added to the official statement of the nature of the wounds sustained by Pte. Chester William Anderson, formerly of the 33rd, in a message sent to George P. Anderson of 488 Pall Mall street. He was reported officially as having been admitted to No. 18 General Hospital at Camiers on September 17 with gunshot wounds in leg and back.

Mrs. Pearl Rutherford, R. R. No. 4, Byron, has been notified that Pte. Edwin Robert Rutherford, No. 602740, has been officially reported admitted to hospital on September 9. No further information as to the hospital or to nature of his wounds or injuries are furnished by this report.

Pte. Charles Buffalo, No. 402635, who enlisted here with the 33rd, has been wounded. The date is given as septem-

CITY PROBE ORDERED INTO H. C. OF L. HERE BY CONTROL BOARD

Legislation Committee Is Instructed To Investigate.

BY HAMILTON ORDER

Request From Ambitious City Council Staggers Local Controllers.

The legislation committee of the city council, known as No. 4 committee, will investigate the high cost of living.

At a meeting of the board of control today a lengthy communication was received from the Hamilton council, suggesting that the Dominion Government be petitioned to investigate the subject, that a special committee of the city council be named to investigate local conditions and report, and that the Legislature of the province be petitioned to allow the various municipalities to set aside a certain amount of money to purchase supplies of food, coal, etc., open stores, and so on, without a vote of the ratepayers, a two-thirds vote of the council alone being necessary.

The board thought this rather a big order, and sent the whole thing to No. 4 committee. The Government at Ottawa has been petitioned to investigate the problem, however.

ADDING DRILLING RIGS TO HURRY UP WORK

Utilities Manager Announces Purpose of Speeding Progress.

General Manager E. V. Buchanan will endeavor to get more drillers to sink wells for the utilities commission.

Driller Jos. Harvey started work last week, but had to stop, as all his tools had not arrived. Another rig has been placed at the Redmond ponds, and will start work at once.

"We want more drilling rigs, in order to get the work advanced," the manager announced. "We can make little progress at present, and it is my intention to hurry the work, in order to get the water."

It is possible that the commission may order a rig to the Macgregor farm, to see what can be discovered there by a properly-sunk well.

$1,000,000 IN TAXES ALREADY PAID IN

90 Per Cent of 1916 Dues Have Been Met.

Deputy Tax Collector Chas. Turner is busily engaged in making his returns for the second installment of taxes. He reports that the receipts are large, but he has been unable to tabulate them at present.

It would seem that more than 90 per cent of the taxes for the year have been paid. The collectors have handled to date about $1,000,000.

THANKSGIVING DAY UNION SERVICES IN LONDON ARRANGED

Methodists and Presbyterians Making Plans.

CHURCHES ARE SELECTED

First Methodist and First Presbyterian Designated—Keep Tab On Recruits.

At a meeting of the London Methodist Ministerial Association held today in Wesley Hall, a communication from the army and navy board was read in regard to keeping accurate records of recruits from the Methodist churches. The pastors were asked to make reports to date to the financial secretary of the London district, Rev. W. J. Ashton, and to keep him posted in regard to the number of men enlisting, who have enlisted or are enlisting in their congregations.

Final arrangements were made for the union Methodist Thanksgiving services to be held on Monday next at 11 o'clock in the First Methodist Church, when Rev. Dr. H. S. Dougall will preach. The point was emphasized that the service is to be a union one at which members of all the Methodist churches in the city are expected to be present. Rev. Dr. Barber and Rev. N. D. Drew were appointed a committee to look after advertising. The following new members were welcomed into the association: Rev. J. D. Richardson, M.A., Empress Avenue Church, Rev. H. T. Ferguson, Centennial Church; Rev. W. J. Ashton, Wellington Street Methodist; Luther Butt, Hill Street Church; Rev. G. W. Rivers, B.D., Dorchester; Rev. J. R. Peters of Strathroy district, was a guest of the day who was received as a corresponding member.

The feature of the meeting was a paper given by Rev. Byron Snell, London Junction, on "The Relation of Children to the Church."

A resolution was passed to place on record the appreciation of the association of the excellent essay. Rev. Dr. Dougall, Rev. Messrs. Kennear, Cooper, H. T. Ferguson and others took part in the discussion on the paper, Rev. Mr. Snell replying.

One Hour's Service.

At a meeting of the Presbyterian Ministers' Monday Club held this morning at the home of the President, Rev. J. G. Stuart, South London, it was decided to hold a short, bright, union thanksgiving service, not exceeding an hour in length, on Thanksgiving Day, Monday, October 9, at 11 a.m., in the First Presbyterian Church. The program was arranged as follows: Rev. J. G. Stuart, president of the club, to preside; address by Rev. James MacKay of New St. James' Presbyterian Church, Rev. W. J. Knox and other ministers of the city assisting in the service. Special music suitable to the season.

Discussion took place in regard to services for the soldiers in training during the coming winter. No definite arrangements were made, awaiting the meeting this afternoon of the Ministerial Alliance as a whole.

It was decided to arrange the Inter-Church Young People's Society debating series as usual. Rev. W. R. McIntosh taking charge.

Those present this forenoon were Rev. J. G. Stuart, Rev. Dr. McCrae, Rev. D. C. MacGregor, Rev. Mr. Hosie, London Junction, and Rev. Mr. Crawford, Westminster.

HELL'S REALITY FORMS BASIS OF CONTROVERSY

Former London Minister Takes Leading Part in This Toronto Church Fight.

Rev. T. T. Shields, former pastor of the Adelaide Street Baptist Church, this city, and now pastor of the Jarvis Street Church, Toronto, has become one of the central figures in a theological dispute in that city over the reality of "hell."

A Toronto dispatch on the controversy says:

Jarvis Street Baptist Church rang with the message of the wrath last night, when Rev. T. T. Shields gave a counter-blast to a sermon on love recently preached by Rev. Dr. James Henderson of Eaton Memorial Church.

"No one will question the tenderness of Jesus," said Mr. Shields, "but He who said, 'Come unto me,' also said, 'Ye generation of vipers, how can ye escape the damnation of hell?' From a pulpit in this city it has been said: 'If that's what God says, then your God is my devil.' I have no hesitation in saying that such teaching is from the pit itself, and I make no apology for saying so.

"I don't know anything about the future, but Jesus spoke of 'outer darkness,' and I don't know what he meant. I believe the language is highly figurative, but if the figure is terrible the reality must be more so. I have seen men in hell in this life. I have seen the drunkard and the sensualist burning up in the fires they have themselves kindled. The fires that lay hold of the chambers of the mind endure for milleniums. These are false guides who promise men life where God has forewarned them. Find me the worst sinner in the world, and I'll tell him that Christ can save him. No one will speak more earnestly of the love of God than I, and the measure of that love is the gift of Jesus."

Dr. Henderson Replies to Critics.

Taking the point of departure that apathy to good is the beginning of sin and that sin is the state of the soul in which there is ceaseless biting of conscience for wrongdoing, Rev. James Henderson, D. D., at the Eaton Memorial Church last evening replied to persons who had written to him on his recent utterances on the idea of hell. "Cannot we bury this old corpse of the outworn theology?" he asked in answering two or three who said they believed in the actual, material, bodily torture which was the older notion of the punishment which followed spiritual wrongding. An immaterial soul could not feel a physical, material pain. He added that he sincerely regretted the controversy which had arisen over what he had been for so long preaching, and what had been always accepted in that church as the only reasonable interpretation of what was meant by the term "hell."

Dr. Henderson perhaps gave the best definition of what he meant by the conception of "hell within" in the words of Milton in "Paradise Lost":

"The mind is its own place, and in itself
Can make a heaven of hell, a hell of heaven."

LADY'S SUDDEN DEATH.

BOTHWELL, Oct. 1.—The funeral of Mrs. Edward Hope was held on Tuesday, the service being conducted by Rev. Dr. Fothergill of the Methodist Church. Mrs. Hope died suddenly of heart-failure while making jelly.

Ashplants — The Good Shoe People

VOICE OF THE PEOPLE

The Reinstatement of Col. Graham.

To the Editor of The Advertiser:

I see by your valued paper of this date, with a good deal of astonishment, that C. M. R. Graham had, according to information given out, been reinstated as C. O. of the 142nd—"London's Own."

Does anyone think that this is not another slap, and a hard one, at recruiting?

Can we forget the unctuous talks that Col. Graham used to give us, only a short time ago, from various pulpits and platforms, urging young men to make the same sacrifice (?) he had done and help crush the spirit of militarism that threatened to overwhelm a suffering world? And now, a few short months after he has donned the khaki and has been placed in a position to impose his will on the men under him, he deliberately overrides all military law and orders corporal punishment for one of his men; so showing that the very thing that we are fighting against has a firm hold upon him.

Then he goes to Ottawa, to headquarters, and we hear, has arranged matters and has been reinstated.

The man who illegally started the whole trouble gets off Scott free. The man who, to use the colonel's euphonious expression, was spanked, (it would be called flogging in any English public school), and the man, who, obeying orders, became the spanker, are both discharged. With this precedent laid down, what guarantee has any man who enlists, got that the same treatment may not be meted out to him? And what guarantee have those of us who have sons, not in safety first positions, but in France, that they may not be so treated?

Let me say, Mr. Editor, that I am not one who would in any way discourage enlistment; my only son is in France—six of my nephews were there—there are only three now—one sleeps beneath the turf of that blood-soaked land, one who was there got an unconditional discharge on account of shell shock, one was so badly wounded early in 1915 that after spending ten or eleven months in hospital in France and England, he is now only fit for light duty—and only a day or two ago I was advised by my sister that she had been at one of our western camps on the 20th instant, to say good-bye to the last, and youngest of her three sons (all of whom, as well as my own boy, went over as privates), so you will see that our hearts are in the right place, and that our earnest desire is to see this war won, which it will be, by the Allies, we have given of our best, and I cannot refrain from saying that the reinstatement of Col. Graham, after such a breach of discipline, notwithstanding his saying that the whole proceedings was ordered in such a loving and fatherly spirit, seems to me a far from wise move on the part of those having authority in this matter, apologizing for asking for so much of your valuable space, I inclose my card, and remain.

A PERPLEXED ONE.

High Cost of Living.

To the Editor of The Advertiser:

Perhaps never before in the memory of many now living have prices been so high in bread, butter, eggs, potatoes and milk. How to remedy it in any degree is an interesting question. A commission to inquire as to the cause might be useful, but its value would be doubtful unless it had power to enforce its findings. As to bread, the bakers seem to find it easy to get it to "rise." Presumably they "knead the dough." A protest might be registered by many housewives who could do their own baking—now as the cooler weather comes on. The writer never before paid 40 cents per pound for butter—in an experience of nearly 40 years. The farmers used to think that if they received 12 cents per dozen for eggs it was a fair return, but in view of the rise in other things I think the people would not complain of 25 cents per dozen, but between 3 and 4 cents apiece for eggs does seem exhorbitant. The Texas Siftings says that an industrious hen who attends to her business, will make more than a college graduate. Eggsactly. At the present price they should at least be warranted sound. A friend bought a dozen recently and out of the first four broken, two were bad. A local grocer said that a customer declared to him that the only way to safeguard the freshness of the egg was to get the hen to stamp the egg when laid. I think the only way to reach that desirable result will be to feed the hens "dates." A fresh egg is one recently brought into eggistence, and not eggshumed from cold storage, and which does not eggsplode and eggshale, etc. If milk continues to rise what about the poor family with a number of small children? Even at the present price one might be excused for "crying over spilled milk." And the once lowly and plentiful potato is soaring so high in price that it will soon be refusing to associate with anybody but new-laid eggs. And the potato's companion—the onion—is equally scarce and expensive, owing in part, at least in this locality, to the dry season. They are now recommended by physicians as good for the lungs. They do certainly strengthen the breath. The writer will not vouch for this, but it is said that out in Kansas they provide against a dry summer and plant the potatoes and onions in alternate rows, and because of the proximity of the onions they bring tears to the eyes of the potatoes, keep them moist and insure a good yield. If there is anything in this for our farmer friends they are welcome to the suggestion. I must not trespass further on your space, but confess that the question suggested by the heading of this letter remains unanswered. A READER.

BURNED BODIES

close to a haystack. So far as I know it has not done any damage, but it is possible some of my cows may have been killed."

Only a Heap of Scrap.

Except for part of the envelope, there is left hardly a vestige recognizable as part of the huge airship which was brought down last night near Potter's Bar. The zeppelin burned more fiercely than the one previously destroyed, which, like her, fortunately fell in an open field.

The members of the crew were incinerated beyond recognition. The bodies were scattered over the field on which the airship alighted, some 80 yards from a farmer's cottage. Evidently the Germans jumped from the gondola as it neared the ground.

The zeppelin appeared to remain almost stationary in the air for three minutes after the envelope burst into flames. The tongues of fire seemed to lick along the bag until it was all ablaze. Even then it dropped so slowly that many persons who had not awakened until the cheering aroused them were able to reach their windows in time to see it fall.

Kept Outside City.

Neither the airship which was destroyed nor the second one which attacked London succeeded in penetrating the outer defences of the capital. Little or no damage was done by either of them, or by the eight others which operated over eastern counties.

THE OFFICIAL REPORT.

[Canadian Press.]

London, Oct. 2.—Ten zeppelins took part in last night's raid over England. Two of them attempted to attack London. One of them was driven away and the other, as was reported last night, was destroyed. No reports of casualties have been received. Following is an official account of the raid:

"Ten airships crossed the east coast last night between 9 o'clock and midnight. One airship approached the north of London at about 10 p.m., but was driven off by gunfire and pursued by aeroplanes. She attempted to return from the northwest, but was attacked by guns and aeroplanes and brought to earth in flames in the neighborhood of Potter's Bar shortly before midnight.

"A second airship attempted to attack London from the northeast and was driven off. Bombs were dropped. No reports of casualties or damage have yet been received.

"The remaining airships wandered aimlessly over the eastern counties. In Lincolnshire bombs were dropped promiscuously. Most of them appear to have been dropped in open country without doing damage.

"The airship destroyed was of the latest type."

SAYS PRETTY GIRLS ARE BEST TEACHERS FOR PUBLIC SCHOOLS

Make Best Type, Declares Collegiate Head.

CUT DOWN THE HOLIDAYS

This Is Part of His Advice Given To Rotary Club Members.

Principal George F. Rogers of the collegiate institute delivered an address, crammed full of epigrammatic truths, before the Rotary Club at its weekly lunch today.

"School business needs no apology," he said. "The lawyer and the doctor can get rid of their mistakes readily, but our mistakes grow up into leading citizens. We are in control of the biggest industry in the state, and our raw material is the most valuable and most expensive. It is the priceless product of our homes. The finished product is the best in Canada. Canada does not export anything so valuable as an educated young man. School teaching is a habit. When a young man graduates from college, he has a mass of information that he can use in only one line—school teaching. It unfits a man for anything else, save possibly becoming an insurance agent. I believe the Ancient Mariner, spoken of by Coleridge, was an insurance agent.

Pretty Girls Best Teachers.

"One of the bad features about school teaching is that the men and women are not permanent in their jobs. They do not go from the cradle to the grave in the profession, but generally from one cradle to another. And these are among the best of our teachers. The sweet pretty girl makes a better teacher than one, who is perhaps not so sweet and pretty. Teaching is hard on the soul. I do not know why teachers are so universally disliked. It is a remnant from darker ages. When I go away for my holidays I generally assume the good fellowship, etc., of a soap traveler.

"The first teacher was the Serpent in the Garden of Eden. He taught Eve the difference between good and evil. Eve was a natural born teacher, and she taught Adam. Then they established the first kindergarten. We, too, teach the difference between good and evil.

Don't Need Long Holidays.

"An ideal school is one that is open all the time. It should not be closed every summer, and dark every evening. Teachers do not need two months' holidays in the summer any more than a businessman does. It should be open all the time, not 40 weeks out of every 52. It should be open for all the public all the time. I do not believe that the average pupil between 14 and 18 should be turned loose for two months in the summer. They should spend at least the mornings in school. There should be summer schools. In some parts of the United States they have schools for public school children where the backward are helped along.

Against Home Work.

"I do not believe a school should run from 9 to 4 only. It should open at 8 o'clock and close when the work was finished. There should be no home work. When a child quits the school he should be finished for the day.

"Evening classes should be established where those who work may get the training they most need. The Technical and High School are doing some work along this line, but not enough.

"No central body should set the curricula for the schools. No persons in such a position can know local conditions.

"There should be supervised study. In that way we could eliminate home work.

Not Best System.

"The school should satisfy the wants of the pupil. Somebody once said that our school system was the best in the world, and we have been laboring under this handicap ever since. It is not the best, and we should look about us and see what is being done.

"We should have more sympathetic support from the employers of labor. A certificate should have a larger cash value than it has now.

"The parents should get in closer touch with the school. I will welcome the day when 50 parents a day visit the school. They should see their children at work and play. We must train for complete living. We should inculcate good taste; in short, we should turn out the finished product."

INFANTILE PARALYSIS SHOWS IN KITCHENER

One-Year-Old Child Is in Isolation Hospital—Another Suspected.

[Special to The Advertiser.]

Kitchener, Oct. 1.—The dread disease infantile paralysis, which for months past has been scourging different cities, has developed in this city.

The first unfortunate to be stricken is the year-old infant of Mr. and Mrs. Hewitt of Locust street.

For several days the attending physicians have ben watching the case closely. The child is now in the isolation hospital, where the possibility of further spread is eliminated. Another case is under suspicion on Louisa street.

The last cases here were in 1911.

POOR CHEMIST BECAME POSSESSOR OF MILLIONS

Will of Rockefeller's Chief Chemist Reveals His Wealth.

New York, Oct. 2.—How a poor student of chemistry who came here from Germany in 1868 attracted the attention of John D. Rockefeller, became chief chemist of the Standard Oil Company and amassed a fortune of $10,485,828, is disclosed by appraisal of the estate of the late Hermann Frasch of this city.

After attaining success as a chemist, Mr. Frasch undertook to develop a sulphur mine in Louisiana which had passed through the hands of four companies that were unable to make it pay. The sulphur lay 800 feet below the surface. Mr. Frasch devised a method of conveying superheated water into the mine melting the sulphur, and then pumping it out through a pipe. The appraisers estimated the value of the stock of the company owning the mine at $12,003 a shore. Mr. Frasch owned 505 shares.

NO ENEMY VISIBLE ON BRITISH FRONT ALONG THE STRUMA

Two Villages Among Positions Taken On Saturday.

London, Oct. 2—11:55 a.m.—"The portions of the Bulgarian line on the Struma front which we captured on September 30 include the villages of Kara Zakoiabala and Kara Zakoizir," says today's official report of operations on the Macedonian front. "Repeated enemy counter-attacks against these places were entirely unsuccessful and were beaten off with heavy loss. All the ground won has now been consolidated. There is no sign of enemy for some distance in front of our trenches.

"In addition to the heavy casualties inflicted on the enemy, the number of prisoners taken has been increased to 250. Our casualties were comparatively small. Three machine guns were captured."

Postcard Brings Word.

Pte. Roy Schuler.

A postcard received by Mrs. John T. Schuler, 316 Thames street, is the first intimation of the wounding of one of her four Indian sons in khaki. An official army postcard dated September 16, bears the news that Pte. Roy Schuler has been wounded and admitted to a hospital.

Pte. Schuler enlisted here on December 27 last with the 70th, and went overseas with that unit. When the 70th was split up, he was sent to the grenade school and attached to a mounted rifles regiment. He went over to France with a reinforcing draft.

The extent or nature of his injuries is not referred to on the card, but the young Indian soldier says he is "doing fine."

Brother of Mrs. MacGregor.

Mrs. D. C. MacGregor, St. Andrew's manse, was recently notified that her younger brother, Lieut. Donald Johnston Miller of the Canadian Engineers, was wounded on September 15th, the day of the big engagement for the Canadians.

The report further stated that he had been removed to a British military hospital at Bolougne, and that his condition was not serious.

Since then he has himself sent a cable to his mother in Orillia stating that his wound is slight.

CHINESE LOAN LIKELY, ACCORDING TO JAPS

Assistance in Conjunction With Entente Allies Probable.

Tokio, Sept. 12.—(Correspondence.)—In connection with the pending negotiations with Chilna over the Cheng-Chia Tun incident the impression exists in diplomatic circles here that Japan merely desires at this time to consolidate the position and influence she has already obtained in China. Concretely this would take the form of obtaining certain police rights in South Manchuria and Eastern Inner Mongolia, which Japan regards as special Japanese zones of influence. It might also include the right to secure the appointment of Japanese advisers for these districts.

A treaty concerning South Manchuria and Eastern Inner Mongolia was signed at Pekin in May, 1915, following the presentation of an ultimatum by Japan to China. This convention gave to Japanese subjects the right to lease land and erect buildings in South Manchuria necessary for commercial, industrial and agricultural purposes, as well as the liberty to enter, travel and reside in that district. It also granted the right for subjects of Japan and China jointly to carry on agricultural and industrial undertakings in Eastern Inner Mongolia. Also, China engaged to open as early as possible cities and towns in Eastern Inner Mongolia for the residence and trade of foreigners.

It is regarded as likely that Japan will seek to develop her pacific ascendency in China by affirming her position and sphere of influence in Eastern Inner Mongolia and South Manchuria. A loan by Japan in conjunction with the Entente Allies seems very probable. It is reported here that Kinichi Kawakami, a well-known financier formerly on the board of the South Manchurian Railway Company, will be appointed to the post of financial adviser to the Chinese Government upon the recommendation of Baron Hayashi, Japan's new minister to Pekin.

COL. ALLAN DEAD.

[Canadian Press.]

Toronto, Oct. 1.—Lieut.-Col. W. D. Allan, D.S.O., commandant of the famous 3rd Battalion, died today in a London hospital. He had been in the hospital for over two weeks, having undergone an operation for abscess of the brain, but news of his death came as a surprise to his relatives in Toronto, for previous reports had been to the effect that he was making satisfactory progress. Lieut.-Col Allan was a native of Toronto.

UNDERWRITERS TO DEMAND AUXILIARY PUMP EQUIPMENT

Commission Expected To Meet This Requirement.

OIL-BURNING ENGINE

Prices On Crude Oil Fuel Outfit Will Be Secured.

It was stated today that the underwriters would demand an auxiliary plant for the city of London. This, of course, will be met by the utilities commission, it was stated, in order that the insurance rates may be kept down.

Prices on a crude oil-burning engine will be secured for the information of the board. This will get steam up in 15 minutes at the longest, and will save itself for power correction purposes, and will be a handy standby unit, in case hydro breaks down.

It is known that figures for this are being obtained, and facts prepared regarding its operation.

That it will be ordered soon seems probable. The commissioners are convinced that it is absolutely necessary.

CONSIDERING CASE OF L. AND P. S. R. TRAINMEN

Elgin Crown Attorney Has Not Decided What Action Will Be Taken.

A long distance telephone announcement made to The Advertiser this afternoon by Crown Attorney McCrimmon of St. Thomas, says that no action has yet been decided in the case of the London and Port Stanley train crew, censured by the St. Thomas coroner's jury last week for allowing Earl Oliver to lie beside the tracks for an hour without attention. Oliver later died in the Amassa Wood Hospital, St. Thomas, and the facts of the case, as brought out by the coroner's inquiry, caused a storm or protest. The crew was summarily dismissed by General Manager Richards of the L. and P. S. R.

"I see by your paper that the trainmen have been discharged," said the Elgin official to The Advertiser. "That is the only development in the case to date. I am considering what action will be taken, but have come to no decision yet."

It was currently reported that criminal action would be taken against the train crew.

FINGAL SCHOOL FAIR DATED FOR OCTOBER 11

[Special to The Advertiser.]

FINGAL, Oct. 1.—The school fair is to be held on the school grounds on Oct. 11.

Joel Davis will open his evaporator next Monday and will pay highest prices for apples.

The Scotch evening given by Miss Minnie McLaughlin's S. S. pupils in the Coon road school last Friday evening was a decided success. There was a large crowd present to enjoy the following program: Reading, by Rev. Langill; solos, by Misses Abena Campbell and Mary McPherson and Mrs. Jas. Black.

Lunch was served daintily on small tables. The class comprises a number of young girls and boys scarcely in their teens and the way they carried out the whole evening's entertainment reflects great credit on them and their teacher.

Miss Hattie Johnston secured her entrance to Normal certificate this week. This was a surprise as her name did not appear in the list of successful candidates in July. Four candidates from our continuation school got their lower school examinations and thirteen got their entrance to Normal this year. A number of the candidates are too young to go to Normal school and taking languages.

A number of letters have been received from 91st Battalion boys and they report all in good health. Most of the boys are in France.

Anniversary services will be held in Knox Church on Nov. 5. Sacrament services will be held on Oct. 15. Preparatory services will be held on Friday and Saturday.

NEWBURY SCHOOL FAIR

[Special to The Advertiser.]

NEWBURY, Oct. 1.—Despite the northern wind and the rain the school fair was a great success. There was an attendance of nearly 300. The entries of every class and all exhibits were splendid.

On account of the spring rains and the dry summer the agricultural showing was not as good as other years, but considering the unfavorable season the potatoes, mangolds, beets and corn were excellent.

Cakes, flowers, candy, hemstitched towels, cushion tops, writing, maps and all collections of weeds, woods, etc., were also shown, and prizes awarded.

The races were entered into with much gist, and this made the fair lively and interesting.

A shooting gallery was on the grounds, and lunch and candy were sold by the Women's Institute.

A concert was held in the hall at night, at which Sergt. McRaye of the Army Medical Corps of Toronto gave his interesting address: "Canada and the Empire," also readings from Dr. Drummond's poems, "The Habitant," "Little Batiste," "The Dublin Fusiliers." Solos were sung by M. Fowler, and a pennant drill by eight girls. The hall was crowded, proceeds being $44.

A great deal of the success of the fair and concert is due to the efforts of J. A. Armstrong, principal of the public school.

DEREHAM TP. RECRUIT HAS SEEN SERVICE

TILLSONBURG, Oct. 1. — John Shephard, farm laborer, 9th concession of Dereham, has enlisted with the Railway Construction Battalion and will leave at once for Valcartier with the expectation of going overseas shortly. He was in the British army 25 years and had served in India and South Africa and had received long service and good conduct medals and had been honorably discharged. He had a strong desire to join the colors ever since war was declared, and at last the feeling became so irresistible, and although he is 46 years of age he has started off to the defence of his country. One of Mr. Shephard's sons is serving in the British army and the other making munitions.

ANGLICAN MINISTERS ON TRAIL OF GARBAGE TAX

Discuss Question Again at Meeting Held Today.

At the meeting of the Anglican Clerical Association this morning, the members were unanimous in expressing themselves determined to combat what they termed the injustice of the garbage tax on church property. Dean Davis, convener of the Ministerial Alliance committee, reported the steps taken to date both towards enforcement of the tax on the part of the powers that be, and the steps taken by the committee in the way of opposing the measure.

The remainder of the meeting was devoted to the election of officers and the planning of work for the coming season. It was decided to have a paper presented at each meeting.

The election resulted as follows: President, Very Rev. Dean Davis; first vice-president, Archdeacon Richardson; second vice-president, Canon Craig; secretary-treasurer, Rev. C. W. Foreman, curate in St. Paul's Cathedral.

"LONDON'S OWN" HOME ON ITS LAST LEAVE

Arrives Here Today and Will Leave for East on Saturday.

London's Own, the 142nd Battalion, arrived today for its last leave home. A special C. P. R. train brought the men down from Camp Borden and landed them in their home city shortly after 2 o'clock this afternoon. After forming at the C. P. R. station the battalion was paraded to the Armories. There it was dismissed by reinstated Lieut.-Col. C. M. R. Graham.

The men of the battalion are free until Saturday afternoon next. At 2 o'clock the unit will leave for the east.

MAY ORDER SALE OF TRAVELERS' CLUB HERE

Directors Considering Move and Will Decide Shortly.

It was stated today by an officer of the Travelers' Club that the directors would meet in a short time and order the sale of the building.

There are large numbers of the members who believe that the institution cannot be made to pay under existing conditions, and they will recommend its sale.

The property is valuable, and there is but a small mortgage against it.

CANADIAN MILK SENT TO RELIEVE SHORTAGE

Deadlock Exists Between Distributors and the Dairymen, Latter Demanding Increase.

New York, Oct. 2.—The first effects of a milk famine were felt here today as the result of the deadlock between dairymen and distributors over the price the former shall receive for their product. It was estimated that milk trains brought to this city last night 600,000 less than the usual 2,500,000 quarts.

The milk companies announce that hospitals and homes in which there are children who are ill will receive first consideration, and for the present will obtain a full supply. Some of the milk now arriving here is coming from Pennsylvania, Delaware, Illinois and Canada. After Wednesday, it is stated, virtually all the supply except that marketed by the Dairymen's League must come from a great distance. It is said that the league can supply about 12 per cent of the amount now consumed.

The contracts of the distributing corporations with New York and New Jersey farmers ended yesterday, and the 17,000 members of the Dairymen's League are determined not to renew their contracts at less than 4¾c a quart.

Attorney-General Woodbury has promised an investigation at the request of the distributors, who allege that the Dairymen's League is a combination in restraint of trade.

STORMS AND INSECTS AFFECT COTTON CROP

Loss of Almost Three Million Bales Is Estimated.

[Canadian Press.]

Washington, D. C., Oct. 2.—Storms and insects have wrought havoc with the cotton crop this year and caused a loss of almost 3,000,000 bales throughout the growing season. The crop will be approximately 11,637,000 equivalent 500-pound bales, according to the department of agriculture's forecasts made today, basing its estimate on the condition of the crop on September 25.

In the first forecast of production made from conditions existing June 25, the quantity was estimated at 14,266,000 bales. The condition on September 25 was 56.3 per cent of a normal, which is the lowest condition on record for that time of the year.

Cotton this year was planted on the fourth largest acreage ever recorded, 35,994,000 acres. In 1911, when 36,045,000 acres were planted, the crop was 15,693,000 bales; in 1913, when there were 37,089,000 acres, the crop was 14,156,000 bales, and in 1914, when the acreage was 36,832,000, the crop amounted to 16,135,000 bales. Indications are that this year's crop will yield only 153.6 bushels per acre.

65 MILLION GALLONS OF GASOLINE EXTRACTED

Output Secured From Natural Gas Worth $5,150,000.

Washington, Oct. 2.—A decided increase in the quantity of gasoline extracted from natural gas is indicated in statistics for the year 1915 just completed by the geological survey. The quantity of raw gasoline extracted from natural gas and sold in that year amounted to 65,364,665 gallons, a gain of 22,712,033 gallons, or 53 per cent more than the quantity marketed in 1914. The average price received for the unblended product at the sources of production was 7.9c a gallon, and the market value of the entire output was $5,150,823.

The volume of natural gas utilized in the manufacture of this quantity of gasoline, exclusive of that recovered as drips from gas mains, is estimated at more than 24,000,000,000 cubic feet, and the average recovery of gasoline per 1,000 feet was 2.57 gallons.

CAR STRIKE AT ALBANY.

[Canadian Press.]

Albany, N. Y., Oct. 2.—Local street car service of the United Traction Company was at a standstill early today. The strike was caused by the refusal of the company to reinstate a motorman who had been disciplined on the charge of having run past a "dead stop" sign. The strike involves about 800 men.

BRITISH DEFENCES BROUGHT TO EARTH ANOTHER ZEPPELIN

Fourth Attack Results Disastrously for Attackers.

A SIGHT FOR SPECTATORS

Crowds Break Into Cheers as the Giant Airship Falls.

AMSTERDAM, Oct. 1.—Via London.—The military critic of the Frankfurter Zeitung says conditions for zeppelin attacks on England are more difficult than a year ago. The British, he says, have had time to carry their defence measures to the highest perfection.

LONDON, Oct. 2.—12:45 a.m.—Another zeppelin raid against London and the east coast of England is in progress. An airship is reported to have been brought down in flames north of London, according to the official statement, issued shortly after midnight. The statement reads:

"A number of hostile airships crossed the east coast between 9 o'clock and midnight. A few bombs were dropped near the coast, but no damage is reported.

"The raid is still in progress, and some airships are in the vicinity of London, where some guns have been in action.

"An airship is reported brought down in flames north of London."

Great crowds cheered the spectacle of the burning zeppelin as it fell in the London district. The great flare from the burning aircraft was visible for a long distance.

Advices from the suburbs of London give graphic accounts of the manner in which the zeppelin—the fourth to be brought down on English soil—fell a victim to Great Britain's anti-aircraft defences.

Although the zeppelin crashed to earth almost due north of London, the spectacle of the descending blazing mass was witnessed by thousands of Londoners, who showed their satisfaction by loud cheering.

The zeppelin began to descend slowly, and then dropped very fast, the blaze from it lighting up the countryside for many miles like day.

FRENCH FLIER TAKEN.

Berlin, Oct. 2. (By Wireless to Sayville.)—Dispatches from Sofia to the Overseas News Agency say that a French biplane on September 30 made a flight over the Bulgarian capital and was immediately attacked by the guns of the fortress there. The hostile aeroplane dropped only one bomb which fell to the north of the city. The raider was brought down near Gebian by Bulgarian aviators, and the occupants of the machine, a French pilot and a Serbian observer, both of whom were unhurt, were made prisoners.

THE SPANISH BUDGET.

Paris, Oct. 2.—The Spanish budget laid before parliament, says a Havas dispatch from Madrid, shows expenditures estimated at approximately 1,325,000,000 pesetas and revenues estimated at approximately 1,421,000,000 pesetas. Extra ordinary credits of 2,133,000,000 pesetas to be spread over a period of ten years, are asked for the reconstitution of the army and navy, for roads, railways and public instruction.

Four Zepp Raids in the Last Month

Four zeppelin raids on London and the east coast have been carried out in the last month, the more recent attacks being made by airships of the newer and bigger type. On Sept. 2 one zeppelin was struck while flying over the London district and fell in flames.

Two zeppelins were destroyed in the raid of Sept. 23. On that occasion the raiders killed 38 and wounded 125 persons. The following night, in another raid, in which the airships apparently escaped without damage, they killed 36 persons and wounded 27.

In the raid of Sept. 2, only two persons suffered death and thirteen were injured.

Save Your Wife's Wages

The London Life Insurance Company Handeth One To the Thoughtless Man.

If you can't save your own wages, why not save your wife's?

But perhaps you don't pay her wages. You simply give her a home and the right of working for you and the children. Do you think that is right?

If she is satisfied with a home as her share in your marriage partnership, the least you can do is to see that her wages shall be paid even if you should die. She surely has a right to enough to keep a roof over her head.

By putting on a Life Insurance Policy, payable to her, you are doing the very least you should do towards paying your wife's wages. Send us your name and address and we will tell you how to pay her wages with a policy "Good as Gold."

WILLIAM CARROLL DEAD, PIONEER SCHOOL TEACHER

Had Held Government Offices—Guelph School Trustee.

[Special to The Advertiser.]

GUELPH, Oct. 1.—The passing of William Carroll, one of the pioneer teachers of this district, for 24 years clerk of the county court, and for 17 years registrar of the surrogate court of Wellington, severs another of the few [illegible] links with the early history of the city and district. Mr. Carroll was born in county Cork, Ireland, in 1833, and taught school in his early days in a national school there. In Dublin in 1852 he married his first wife, Bridget Aylward, and they came to Canada in the same year. He taught school in the York road school house for seventeen years, leaving there to take charge of the Guelph separate school in 1871.

After seven years there he was appointed inspector of weights and measures by the Mackenzie administration. This office was abolished in 1880, and Mr. Carroll returned to teaching in S. S. No. 6, Pilkington, where he remained for thirteen years, then getting the appointment of clerk of the county court.

In February, 1893, he became registrar of the surrogate court. He was a member of the county board of examiners for teachers from 1880 until that board was abolished under the new regulations. He was also a member of the Guelph board of education from 1893 to 1912.

He sustained a paralytic stroke about four years ago, since when he had been confined to his home. His first wife died in March, 1892, and in June of 1896 he married Caroline Joseph of Pilkington. Of his family of his first wife there survive four sons, John of Chicago, Joseph of Pittsburg, Edward of Guelph, and Charles of New York, and one daughter, Miss Teresa of Milton. Of his second family there survive three sons, William, Austin and Francis at home with their mother. Mr. Carroll was a staunch Liberal, and a member of the Roman Catholic Church.

CAMDEN-DRESDEN FAIR A FINANCIAL SUCCESS

Gate Receipts $350—Weather Bad—Only One Race.

DRESDEN, Oct. 1. — The Camden-Dresden fair held here on Friday, while not the usual success financially, on account of bad roads and unpropitious weather, had an average crowd and good exhibits in all lines.

The horse-races were called off on account of the condition of the track, except the free-for-all, and a ladies' driving contest.

The Scotch dancing by Florence and Jean Adkin and little Olga Mahler was an attractive feature.

The showing of fine horses was exceptionally good, and the exhibits of live stock of all kinds well up to the standard.

A fine lot of vegetables and fruits was shown in the palace, the tomatoes exhibited by Miles Hart being particularly fine. Mahler Bros.' apples were the most attractive among the fruits, the exhibit being worth of the greatest commendation.

The gate receipts amounted to $350.

The ladies of the I. O. D. E. served dinner and tea in the Methodist Church and also had a tearoom at the fair grounds, and netted about $225 as a result.

HARROW YOUNG FOLK HONOR MISS LONG

Make Presentation and Address — Tomato Season at Height.

[Special to The Advertiser.]

HARROW, Oct. 1.—An interesting gathering of the young people of Harrow was held at the home of Mrs. Arthur Wright to do honor to Miss Flossie Long, who with her parents will move to Windsor in the near future. The evening was spent in music, games and social intercourse. On behalf of the young people Otto Ferris presented Miss Long with a dainty chocolate set of Haviland china and a nicely-worded address. Miss Long made a suitable and touching reply. During the evening a dainty lunch was served. Miss Long has been a general favorite among the young people. The Methodist Church will also miss her as she was a member of the choir, the Young Ladies' Mission Circle and president of the Epworth League, and took an interest in every good work.

Large quantities of tomatoes are being brought in to the canning factory these days. About 2,500 bushels have also been shipped to Highgate to the Dominion Canners Factory there. John Redman is handling these goods.

KEITH HILLIER WINS THE HANNA TROPHY ON FOUR ACRES CORN

P. L. Fancher of O. A. C. Announces Awards.

[Special to The Advertiser.]

SARNIA, Oct. 1. — The Hanna trophy, presented in the Lambton Corn Growers' Association field crop competition, goes to Keith Hillier of Sarnia Township for 1916, for the best four acres of corn grown in Lambton County, any variety.

The judging was done by P. L. Fancher, dean of the residence of the Ontario Agricultural College, Guelph.

The standing of the first ten competitors follows: Keith R. Hillier, Sarnia Township, score 84, variety Golden Glow; H. Sheller, Sombra Township, score 82, White Cap Dent; W. J. Weed, Brooke Township, 81, Golden Glow; F. W. Oke, Brooke Township, 80, Golden Glow; James Abra, Moore Township, 72½; T. A. Lampman, Plympton Township, 79, White Cap Dent; Leslie Oke, Brooke Township, 77½, Golden Glow; J. McRae, Sombra Township, 73½, White Cap Dent; Wesley Ford, Moore Township, 72½, White Cap Dent.

Fields Well Cultivated.

In commenting on the results of the competition Mr. Fancher was much gratified to find the fields well cultivated and free from weeds, with a few exceptions; another pleasing feature was the large percentage of ripe corn in the majority of the fields visited. Careful selecting, handling and storing of the ears should result in an abundance of strong seed next spring. The reason of the smallness of varieties was the lateness of maturity, only one field showing a good percentage of ripe corn for the year, in the Wisconsin variety of corn.

In the Golden Glow fields there was a variation in type, in stock, as well as ears—one tending to coarseness in ear and stalk, giving greater size, and less uniformity and quality; another giving a more medium-sized ear and stalk with quality and uniformity.

NATIVE OF AMHERSTBURG DIES IN DETROIT CITY

[Special to The Advertiser.]

DETROIT, Oct. 1. — After a residence of half a century in Detroit, Mich., Delia Elliott, 85 years old, a member of one of Amherstburg's oldest and most prominent families, is dead at her home in this city. Born in the old Canadian town, Miss Elliott had conducted a large theatrical boarding-house here for many years, and numbered among her friends most of the old-time actors and actresses.

WYOMING SERGEANT REPORTED MISSING

WYOMING Oct. 1.—It was with great regret the people in Wyoming and vicinity heard of Sergeant Neatheral being reported missing. Mrs. J. P. Jermain, 2nd Line, Plympton, received the message from Ottawa Friday noon. Sergt. Peter Neatheral enlisted with the 70th Battalion. The report states that he has been missing since September 17. James Neatheral, an older brother, is in the same Battalion.

MOUNT BRYDGES SCHOOL FAIR.

MOUNT BRYDGES, Oct. 2.—The Mount Brydges public school held fair on Friday, and it was a big success. The school and grounds were crowded with visitors. The pupils put on a first-class program, an interesting item being the pageant of countries contest, all the countries engaged in the war being represented. The costumes were excellent. Altogether the program was first-class. Rev. F. Reycraft was chairman.

The exhibits of the children's work for the year were exceptionally good. The agricultural features were the best shown by the school children in years. Lunch was served by the members of the Mount Brydges Women's Institute, and good speeches were delivered by Revs Reycraft, McFarland, Hartley and Robertson, who congratulated the teachers, Mrs. McDugal and Miss Thornton, on their excellent work in the school. Margaret Reycraft won first prize for the best costume, representing Canada; Wesley Wyatt, first prize for England. Margaret Reycraft also won first prize for public speaking.

VILLAGE FALLS TO BRITISH, WHO MOVE ON BAPAUME ROAD

Transloy, On Peronne Road, Is Bombarded by Great Guns.

OVER 300 MORE PRISONERS

British Casualties Reported Light—Tanks Help in Progress.

LONDON, Oct. 1.—By making an advance today on a front of three thousand yards in the Somme sector the British strengthened the Allied hold on the two main roads leading from the south to Bapaume and made distinct progress nearer this village. The official statement issued at midnight from headquarters stated that the line was pushed forward from the east of Eaucourt l'Abbaye to the Albert-Bapaume road. Eaucourt l'Abbaye itself is reported to be in British hands. Further east the British outposts were pushed beyond the original front line and the village of Transloy on the Peronne-Bapaume road was effectively bombarded.

A step toward this gain was taken last night when German positions between Flers and Le Sars were captured. Progress was made about Thiepval, where practically all of the Schwaben redoubt is now in British hands.

The text of the statement issued tonight reads:

Capture Whole Objective.

"Sunday afternoon south o' the Ancre our centre attacked and captured the whole of its objective on a front of 3,000 yards, from a point east of Eaucourt l'Abbaye to the Albert-Bapaume road, northwest of Destemont farm. The village of Eaucourt l'abbaye is reported to be in our hands.

"Farther east we pushed our outposts well beyond the original front line. More than 300 prisoners have already been taken and our casualties up to the present are small.

"In this action the new armored cars have done valuable work in clearing the enemy trenches behind the infantry advance.

Transloy Bombarded.

"The village of Transloy (north of Morval) was effectively bombarded by our artillery and an ammunition dump blown up.

"On Saturday two aeroplanes were successfully bombed by our aeroplanes and at least one machine was destroyed. In the fighting over this front four enemy machines were brought down. One of our machines is missing.

"Enemy troops and transports were repeatedly attacked from the air with machine gun fire, and in one instance several hundred infantry were dispersed.

"Since September 18 we have taken between the Ancre and the Somme 24 field guns, three howitzers and three heavy howitzers.

From July 1 to September 30, in the same area we made prisoner 488 officers and 26,147 other ranks."

Progress Made Saturday.

A British official announcement made at noon today says:

"During the night some progress was made between Flers and Le Sars. There was heavy shelling in that neighborhood, and also around Gueudecourt.

"In the Thiepval area the enemy was driven out of ground he held near the Stuff redoubts. We increased our gains at Schwaben redoubt, only a minute portion whereof remains unbroken.

"Sixteen raids were carried out successfully last night on our front between Ypres and Neuve Chapelle. A number of prisoners were taken, and much loss was inflicted on the enemy.

"A captured German army order, dated September 21, emphasized the importance at that time of the position at Les Boeufs as 'the last protection of the artillery, which must in no circumstances be lost.' We captured this position a few days afterwards."

The statement issued Saturday night reads as follows:

"On the battlefield south of the Ancre there is no change in the general situation. Heavy shelling continues during the day, especially at the Destremont farm and around the Stuff and Zollern redoubts.

"Our line was slightly advanced south of Eaucourt L'Abbaye. In the Thiepval area we took prisoners three officers and 164 other ranks.

"On Thursday two enemy aeroplanes were brought down in addition to the one mentioned in last night's report."

FRENCH GAIN AT THREE POINTS.

PARIS, Oct. 1.—French troops have captured some elements of trenches to the north of Rancourt and southwest of Morval on the Somme front, according to the official communication issued tonight.

The text reads:

"On the Somme front we carried out during the day some small operations which enabled us to capture trench elements north of Rancourt and southeast of Morval. There was reciprocal shelling at different points along the front, especially violent south of the Somme.

"In Champagne, in the region south of Butte de Mesnil the enemy attempted two sudden attacks after lively bombardments. Our curtain of fire immediately checked one attempt and the other, east of Tahure, also failed.

"Everywhere else there was the usual cannonade.

"Aviation: A captive balloon was brought down in flames in the region of Longavesnes (northwest of Peronne) on the Somme front."

In fighting at close quarters on the Somme front last night, the French pushed forward their lines near Morval and Clery, it was announced officially at noon today.

"On the Somme front there was considerable artillery activity," the statement says. "We made some progress during the night by hand-grenade fighting to the southwest of Morval, along the Somme and to the southeast of Clery.

"Elsewhere on the front there was intermittent cannonading."

There was no infantry action on the Somme front yesterday, according to the official statement issued Saturday night. "The artillery duel," it says, "was brisk in the section of Rancourt and Bouchavesnes. Elsewhere all was quiet."

BERLIN REPORT.

BERLIN, Oct. 1.—5:21 p.m.—The British and French renewed their attacks on the Somme front yesterday, and desperate hand-to-hand fighting took place. The official report of today says the assaults were repulsed.

The announcement follows:

"Against the front of Duke Albrecht of Wurttemberg and also against the Flanders and Artois front of Prince Rupprecht's army, the British developed particularly lively patrol activity.

"In the battlefront north of the Somme the artillery fighting attained great violence in the afternoon. Near the east of Thiepval strong British attacks again developed. As on previous days, they were repulsed by the troops of Generals von Stein and Sixt von Armin, after desperate hand-to-hand fighting.

"From Rancourt and the west thereof French regiments made fruitless attacks against our positions. Local attacks from Courcelette, Morval and northwest of Halle (one and a quarter miles northwest of Peronne) broke down under our curtain of fire.

"On the front of the German Crown Prince during a temporary revival of artillery activity on the right bank of the Meuse (Verdun front) small and unimportant hand-grenade attacks occurred."

Turner on Thursday evening with an address expressing their appreciation of the good work she has performed while a resident of Blyth for the past four years, and also with a well-filled purse of gold. It is the intention of Rev. and Mrs. Turner to leave here on Wednesday for their home in Montreal.

SHOUTING AUDIENCE WINS ADMIRATION OF BILLY SUNDAY

Evangelist Calls It Most Appreciative He Ever Had.

OVER 25,000 PRESENT

Plea Made for Single Standards of Morality—Liquor Traffic Flayed.

DETROIT, Mich., Oct. 1. — Between 25,000 and 30,000 men of every class and description, composing what the evangelist congratulated himself on as the "most appreciative audience I ever had in my life," heard Billy Sunday in one of his celebrated sermons, entitled, "The Devil's Boomerang," or "Hot Cakes Off the Griddle," this afternoon and evening.

In his sermons, which were punctuated by applause and outbursts of laughter, when he made some exceptionally pungent remark, the famous preacher flayed the liquor traffic, and dilated at length on the evils attendant on liquor indulgence, quoting statistics from numerous medical and government authorities.

His sermon was also a strenuous plea for single standards of morality, and when at the climax of one of his more forceful utterances, he literally shouted, "The virtue of womanhood is the rampart wall of civilization," he was compelled to stop while his audience cheered.

Sin Is Sexless.

"I would spit on a society that makes a distinction between the morality of men and women. Sin is sexless," exclaimed the evangelist. "It is all the same whether a sinner wears a coat or a petticoat. The question of purity is not merely a moral question. It is a question in which the very self-preservation of the race is involved. The downfall of Rome, the downfall of Greece, were brought about by the violation of the law of chastity, and woe be to America, God pity America, if the youth of our land is permitted to run headlong into the cataclysms which destroyed those great nations of old."

Applause Heard a Block.

Seldom has his audience been so appreciative as it was this afternoon. On numerous occasions the evangelist carried his audience with him in the intensity of his feeling, and when his voice ran through the huge tabernacle with the words, "After 1,900 years of beer-wrecking, wine-wrecking, whisky-wrecking, it is high time the dirty, low gang were sent to hell," there was a storm of applause which could be heard a block away.

One of the more dramatic moments in the afternon sermon which called forth a tumultuous demonstration, and scores of men cried out, "Amen, amen," was when the evangelist leaping to a chair on the platform, said:

"You say you cannot prohibit men from drinking. But the law can be enforced against whisky just the same as it can be enforced against anything else, if you have honest officials to enforce it."

JEW RECOGNIZES SUNDAY IN MATTER OF BUSINESS

Protests Account of Fellow-Hebrew for Work Done.

WINDSOR, Oct. 1. — Sued for the cost of decorating the interior of his home, Abram Greenberg of Ford entered a novel defence that, as the work was done on a Sunday, the plaintiff, Isadore Minster, 55 Brant street, Windsor, could not legally collect.

Both Greenberg and Minster are members of the Jewish race, and under ordinary circumstances do not recognize the Gentile Sabbath. As the testimony offered County Judge Smith yesterday morning in division court, that less than $2 of the work was done on a Sunday, Greenberg was ordered to pay the plaintiff $20 and costs.

Eight Persons Killed, Twenty-Five Injured, In a Detroit Collision

Grand Trunk Switch Engine Crashes Into a Street Car Crowded With People Returning From Billy Sunday Meeting.

Detroit, Oct. 2.—1 a. m.—Eight persons are dead and 25 others injured, 15 of them seriously, as the result of a collision here shortly after midnight this (Monday) morning between a Forest avenue street car and a Grand Trunk switch engine pushing three cars. The accident occurred at Dequinder street crossing, a spot which has been the scene of more than one fatality in years past.

The street car, heavily laden with passengers on the way home from the Billy Sunday tabernacle, had just gotten squarely in the middle of the railroad tracks when the switch engine, running at perhaps 25 miles an hour, crashed into it.

That more persons did not lose their lives is a miracle. The engine, of the 8-wheeled mogul type, plunged through the street car as though it were a paper hoop, emerging on the opposite side, its speed still unchecked, its pilot dripping with the life-blood of the victims.

And as it passed it left behind a mangled mass of humanity. White-haired women and little children, many wounded unto death, lay alongside the right of way, the momentary silence which followed, intensifying the horror.

Bodies Badly Mangled.

The bodies of the persons killed were so badly mangled that identification at the scene of the wreck was almost impossible.

One was a woman, whose head was severed completely from her body.

Four of the dead were men, while one was a young baby.

According to stories of survivors, the accident happened so quickly none of them knew just what had taken place. The Grand Trunk crew in charge of the locomotive, No. 1715, refused to give their names, as did members of the switching crew. The crew asserts the switch engine had the right-of-way.

There is a derailing device at this crossing and the train crew claim there was nothing to prevent the conductor of the street car from seeing the oncoming cars had he operated the derailing device.

Happened Quickly.

Charles Fisher, of 174 Brookfield avenue, Pontiac, a contractor, was standing near the railroad crossing on Forest avenue east, and was an eyewitness of the accident.

"It all happened so quickly I cannot tell much about it," he said. "I saw the freight car loom into sight and the next moment it had crashed into the street car, which was loaded to the doors."

Asked if he had noticed the conductor run across the track to set the derailing device, he said he had not.

He said he "thought" he saw a lantern swinging on top of the first box car, the one that hit the street car.

The train was in charge of Conductor Robert O'Keefe, 91 Guilloz street, and Engineer Gibson.

The estimate of number dead is based on the fitting together of heads, bodies and limbs.

TRADES CONGRESS OPPOSES ASIATIC LABOR; DEMANDS RESTAURANT INSPECTORS

Would Prevent Importation of Musicians — Will Assist in Securing Labor for Munitions Factories if Private Profits Are Eliminated.

TORONTO, Oct. 1.—In a number of resolutions passed at the convention of the Dominion Trades and Labor congress, after six days' deliberation, was brought to a conclusion this morning. The convention from the standpoint of importance and business done was easily the best ever held by the congress.

The attempt of some corporations to supplant the white man with Asiatic workers gave rise to heated debate. After considerable discussion the congress indorsed a resolution submitted by the Ontario Provincial Council of Carpenters, asking organized labor to give its moral support to secure legislation for the elimination of Asiatic labor from the Dominion.

Ottawa was chosen for the convention of 1917. Winnipeg, Hamilton, Quebec and Calgary all wanted it.

At the evening session last evening resolutions were passed recommending that the Dominion Government appoint a special sanitary board for the inspection of kitchens, foods and cooking utensils in hotels and restaurants; the establishment of an eight-hour work day in all industries; that steps be taken to have the Ontario workmen's compensation act extended to all provinces; that provincial executive of the congress take action to have all employees in the building trades covered by the workmen's compensation act; that amendments be made to the immigration laws preventing the importation of musicians to this country; that the Government appoint a permanent, competent, practical stage mechanic as theatre inspector; that all barber shops be closed on public holidays. Also the following:

Eliminate Private Profits.

"That organized labor go on record as willing to co-operate fully in assisting to secure an ample supply of labor needed for the production of war material, providing that such manufacture be carried on in either government-owned or government-controlled factories, thus eliminating private profits from the national needs."

David Rees, Fernie, B. C., was elected fraternal delegate to the British Trades Congress, and T. A. Stevenson, Toronto, to the American Federation of Labor, Baltimore.

Election of Officers.

The election of officers resulted as follows:

President, James C. Walters, Ottawa (acclamation); vice-presidents, Alexander Watchman, Victoria, B. C.; James Simpson, Toronto, and R. A. Rigg, M.P.P., Winnipeg; secretary-treasurer, P. M. Draper, Ottawa. Provincial executives: Ontario—Wm. Glockling, Toronto (chairman); Ald. H. J. Halford, Hamilton; W. Lodge, Ottawa; John Sutherland, Toronto. Nova Scotia—Ralph Esinor, Halifax (chairman); Clifford Dane, New Glasgow; A. J. MacDonald, Pictou, and Michael Murphy, Halifax, Quebec. Quebec—J. T. Foster, Montreal, (chairman); M. Walsh, Quebec; Adolph Gariepy, Montreal; Z. L. Esperance, Montreal. Manitoba—A. W. Puttee, Winnipeg (chairman); Percy Cann, Winnipeg; C. A. Kennedy, Winnipeg; J. W. Wilson, Winnipeg. Saskatchewan—R. S. Chadwick, Moose Jaw (chairman); J. D. Wallace, Saskatoon; H. Perry, Regina, and E. B. Judson, Prince Albert.

THREATENED LOSS IS TURNED INTO PROFITS

Tobacco Growers Sell Leaf Slightly Frost-Bitten.

BUYERS BUSY IN ESSEX

150,000 Pounds of "Nipped" Stuff Bought on Pelee Island.

[Special to The Advertiser.]

LEAMINGTON, Oct. 1.—Tobacco growers who expected to lose heavily owing to the recent frost have succeeded in selling large quantities of the leaf, which was damaged only slightly, at from 8 to 12 cents a pound. At first it was feared that the losses directly due to the frost in this district would total $150,000. As a result of sales which have been negotiated in the past few days, however, the losses will be reduced until they will not be serious.

Enormous purchases of all kinds of leaf were made during the past week by buyers who covered a large part of Essex and Kent.

The Imperial Tobacco Company, whose buyers have been scouring the country for first-class Burley leaf, have purchased about a million pounds, with a part of the territory yet uncovered. The prevailing price paid was 16 cents, barn run, for choice crops, and practically all the leaf purchased was housed before the frost. Lance Ier looked after the company's interests in the Harrow section, Warren Malott in North and South Gosfield, Russell Wigle and Capt. Hairsine in Mersea, while F. R. Gregory and William James did the buying in Kent.

F. S. Moss, representing the Rock City Tobacco Company of Quebec, reports the purchase of a million pounds of Burley at prices gratifying to the growers. The frosted tobacco, which it was thought at first would be a loss to the growers, is being sold at a profit, bringing from 8 to 12 cents per pound, and anyone having frosted tobacco is advised not to destroy it.

Lewis Wigle, another local buyer, reports the purchase of 450,000 pounds of Burley at from 15 to 16 cents, the most at the former price. For frosted tobacco he has been paying 12½ cents. Of the total amount he secured 150,000 pounds on Pelee Island.

SWISS-GERMAN PACT OF SHORT DURATION

Will Expire at the End of April, Next Year.

LONDON, Oct. 1.—The trade agreement reached between Germany and Switzerland, according to a Berlin telegram received at Amsterdam, says a Reuter dispatch, stipulates that each country's own products and goods so far as they are not necessary for home consumption may be exchanged. Germany is said to have pledged supplies of 253,000 tons of coal a month as well as quantities of iron and steel, which Switzerland wants to meet her own needs. Both parties have agreed to a speedy settlement of the question of export permits.

Regarding German goods stored in Switzerland, for which no export permit can be granted at present, the Swiss Government has agreed to refrain from seizure or destruction, and has promised to release them after cessation of hostilities.

Requests for exportation of war materials manufactured in Switzerland from raw material obtained in Germany will be submitted to the examination of a special Swiss export committee. The agreement, the dispatch says, will expire at the end of April, 1917.

NO OFFERS ARE MADE TO BUY STR. FRONTIER

[Special to The Advertiser.]

CHATHAM, Oct. 1.—No offer of purchase was made at the sale Saturday for the ill-fated "Frontier" which has rested on the bed of the river all summer.

By order of court the pleasure steamer is to be sold for debt, though it is understood the owners are making an attempt to satisfy all claims with the hope of still retaining their property.

PRO-GERMAN PLOTS.

THERE IS MORE than a suspicion in New York that the great plot to tie up industry in that city by means of a general strike over the street railway situation was neither more nor less than a German scheme to prevent shipments of munitions to the Allies. Facts are not lacking to provide basis for this belief.

One Herr Bohm, whose name proclaims his nationality, was chairman of the workers' board of strategy. He was one of the most active in trying to bring into the strike the munition workers and longshoremen, on the excuse that J. P. Morgan was one of the great car line magnates and was also Britain's agent in the United States. He argued that to hamper the manufacture and shipment of munitions would work serious injury to Morgan, and thus assist in bringing him to time in the street railway case.

This Bohm, as the New York Times points out, was previously prominent in that citizens' league which besought the president to declare an embargo on munitions, but, failing in this, he later took up the strike proposition, which is also proving a "fizzle." The longshoremen have refused to be led by the nose to please any German, and the munition workers have taken a similar stand. Even the men who did go on strike, or take holidays for the first few days, are returning to work everywhere, and the plot, like all other pro-German moves, has become a farce.

Wherever a pro-German shows his hand in America, distrust is aroused. Bohm has been superceded on the strategy board. The members lost faith in him, or, in other words, began to know him for what he is, and took means to be rid of him. A hyphenate is becoming recognized as an enemy to all good Americans and an object of suspicion.

If the affairs of Herr Bohm were investigated, some connection between him and the foreign office at Berlin would very probably be discovered. It has become dangerous to have schemers employed in the embassy at Washington, and so others have been appointed to undertake the tasks once performed by von Papen and friends. Their aims and their measures all bear the same trade mark.

BILLY EXAGGERATES.

EVEN a temperamental evangelist gains nothing by exaggeration or untruth, and when he says, "There aren't devils enough in hell to pull a boy away from the arms of a Christian mother," he is wandering far from the truth.

Are there no heart-broken Christian women among his acquaintances for whom life has lost its joys because their boys have gone astray? If there are not, his circle of friends is very limited. Surely he knows of Christian mothers who grow weary waiting for the day their boys will be freed from jails and penitentiaries.

Motherhood and its power need no false praise. The world realizes a mother's influence on her children.

SETTING THEM DOWN.

PRESIDENT WILSON was at his best the other day in his telegram to Hyphenate O'Leary. It was the reply of a gentleman, a scholar and a statesman to the mean vulgarity of a mere vote-seller. With peddlers like O'Leary a president of dignity can have no dealings. He will not cater to "disloyal Americans" for their votes. People like O'Leary and his German-Irish confederates can keep off the Wilson doorstep.

One is reminded of the famous Punch cartoon on the Fashoda incident twenty years ago. Major Marchand having crowded into British territory in Central Africa, Punch pictured an organ-grinder and monkey trying to collect something at John Bull's door. Clear out of here, said John. "What you give me, if I go away?" "I'll give you something if you don't," was the reply.

When a gentleman suddenly puts a cad in his place, it often hurts the cad. But it is satisfaction to every one else.

President Wilson is in something the same position as Lincoln in 1864. He is seeking re-election in the teeth of a copperhead opposition. Occasionally he seems to waver a little, attempting to soothe or coax the vampire. But in his message to O'Leary he strikes the blood-sucker in the mouth, as it deserves.

NEUTRALITY.

GERMAN papers are working themselves into hysterics over the fact that Americans are fighting for the Allies, and assert that this is a breach of neutrality on the part of America. Of course, they are merely seizing upon the faintest excuse to condemn the United States.

If the German contentions were true, there are no neutral powers now. Swedes, Norwegians, Spaniards, Swiss and Danes are fighting in the Allied armies, nearly all of these being represented in the noted French Foreign Legion. That the Teutons have not received offers of service from individuals of other nations is due to the universal feeling that they are the enemies of civilization and there is nothing in their cause to commend itself to the adventurous citizens of neutral countries—not even the hope of being on the winning side.

Germany is losing and looking for someone on whom to lay the blame.

A GERMAN MISTAKE.

WHILE nothing is yet officially known about the fate of the submarine Bremen, there are good reasons for supposing that the British authorities know what has happened to her and are keeping their knowledge quiet.

For some weeks there have come dispatches from Berlin, at intervals, hinting that the German admiralty knew all about her, and that she was quite safe, but after the wild delight in Berlin over her supposed arrival in New London and the acceptance of this fairy tale as true by the president of the Reichstag, this bluff is of no further use. The truth is evident: wherever the Bremen may be, the Hun officials have no more knowledge of her than the Esquimos.

It was a bad break on the part of the president to congratulate the nation on the arrival of the Bremen, simply because an American tug was supposed to have gone to meet her. The Teutons have been smiling to themselves and telling each other, "Our leaders know all about her, and she will repeat the Deutschland's feat." Now they look blank and suspect she has gone to the bottom or, worse still, is in a British harbor. At any rate, she is lost to Germany.

WANTED

SIR SAM'S face, distributed at $1.50, is to shine on Canadian armies, like the holy ikons or sacred pictures carried by the Russians into battle. It would be a nice idea to put miniature copies on the brass buttons, on tie-pins, handkerchief-corners, etc. The happy thought may be extended: St. Wesley might beam forth from a mahogany frame or a banner, St. Bob would look well with his lips pursed up on a pennant, and we recommend a little figurine of St. Borden for 'round the neck, as good as a horseshoe. There are a lot of lesser worthies, also in Manitoba, British Columbia and New Brunswick whose pictures as well as persons will be "wanted."

A WONDERFUL DISCOVERY.

ONLY surgeons and physicians will realize the importance of the discovery of a young Scottish soldier of a method of photographing the diseased tissue in human bodies, but even the lay mind can comprehend that his invention will mean the salvation of many lives during the war and in years to come.

With his apparatus in use, there will be fewer operations performed for appendicitis only to find that the trouble lies in some other organ. Operations for blood clots on the brain will be performed with more certainty and dispatch than ever before, and the injured or wounded man will have his chances of recovery increased tremendously.

It is as if the whole anatomy of the human could be laid bare to the doctor without any incisions being made, instead of the old groping in the dark. Sergt. James Shearer deserves to rank with the highest of humanity's benefactors.

Peace Offerings.

By Louise Oliver.

Aimee, pale and heavy-eyed from loss of sleep, was suddenly made aware of sounds of sobbing in the kitchen. She hastily put down her cup of coffee, and, leaving the table, pushed open the swinging door.

"What in the world is wrong, Tillie?" she asked kindly.

But Tillie, sobbing into a pan of apple-skins, was beyond explaining the cause of her troubles. Her shoulders heaved alarmingly, and the corners of her apron were inadequate to cope with the flood of tears.

Aimee shook her gently. "Stop, Tillie, stop this minute, and tell me the trouble. Is somebody dead?"

"No—he—he's not dead. Only I wish I was. He's been that mean an' neglectful lately, an' last night here I was dressed an' everything an' all ready to go to the janitors' ball in that pink silk ye gave me an' new slippers an' real silk stockings an' all. An' Jake never came a step for me. I waited till 11 o'clock an' never so much as his hat showed up. So I goes to bed thinking he'd call up this morning an' tell me what was wrong. But, no, sir; it's nearly 9 an' never a word! I'll never marry him now. He can coax till he's green, but I won't give in."

"Oh, come, Tillie! Jake's all right. Something has kept him and he will explain. Don't cry any more, anyway, and tell me if you hear from him. I'd like to know what was wrong."

"All right, Miss Aimee. I'll tell you what happens. There, you go back an' eat your breakfast. Why, I don't believe you've tasted a bite. You look as blue as saffron yourself this morning. I'll make you a piece of fresh toast this minute an' you try an 'eat it."

Aimee's lips trembled. She had forgotten her own trouble for the minute in Tillie's. But it came back now, with paralyzing force, the fact that everything was over between her and John Stratford. The day before, she had sent back his ring and letters and all the things he had given her, a pearl lavallier for Christmas, an ivory set for her birthday, and a bracelet for Easter. Then there were books and pictures and other things.

She had written a note clear and conclusive. "Dear John,—Your plea of business cannot explain away all of your neglect lately. I'm keen enough to reason things out for myself and realize that you would hesitate to hurt me by telling me that your love has cooled. I am going to take the burden on myself. I hope I'm broad enough to make allowances for human nature. If there is anyone else, I hope you will be happy. Don't try to see me, please. I am going away.—Aimee."

But Aunt Sarah's rheumatism got worse, and Aimee found it impossible to run away from trouble. She stayed at home and played nurse and tried as hard as she could to forget her misery. Days passed and no word came from John Stratford. It hurt her dreadfully to think he had not considered her note worthy of reply.

"I suppose," she thought bitterly, "the other girl has the things by this time. Well, I hope he doesn't break her heart, as he has done mine."

One thing helped the long, heavy days to pass—her interest in the troubles of Tillie and Jake. Tillie, it seemed, was having the upper hand. Jake had come with a good excuse of broken steampipes and a whole night without sleep, but Tillie's Irish was up and she took delight in her lover's subjection. "You'll treat me like a lady, Jake, or I'll have none of you. Joe Dolan has a fine job with the Consolidated, and his money rattles in his pockets like the brains in some folks' heads." So Jake, "yellow as indigo," as Tillie put it thoughtfully, returned to his vacuum cleaners and steampipes determined to ask the advice of his very good friend, the lawyer on the fourth floor.

One day Tillie triumphantly went to a corner of the kitchen cupboard when Aimee came in to see about lunch and held up a tribute to the dove of peace. "Ain't it a peach, Miss Aimee? Jake brought it last night, an' won't it go well with the pink silk?" Tillie was clasping a fine gold chain about her neck. "All I did, though, when he gave it to me was to turn up my nose an' say I'd think it over whether I'd keep it or not. He never guessed how tickled I was, Jake didn't."

But Aimee stood frozen to stone. The lavallier was the one she had sent back to John. Had her lover no heart at all, no conscience!

The mystery deepened when, a few days later, Tillie brought in the bracelet that had been another of John's gifts to Aimee.

One night, she went into the pantry to get something, when she heard Tillie and Jake talking in the kitchen.

"He's a fine man, Mr. Stratford is, Tillie. But something's wrong lately and I can't make out quite. He'd been workin' hard, stayin' up nights till all hours in some kind of a deal that meant money to him, he said, if he could put it through. I used to open the door on my rounds about midnight and he was never too busy to pass a word or two. One night he said: 'Jake, I've been successful. I've made a lot of money, and now I'm going to get married to the nicest girl in the world.

A small section of a telephone switchboard, showing the advantage of a pause between the hundreds and the tens in calling a number.

When the Operator Says "One Two—Six Three"

No doubt you have noticed the way the telephone operator repeats numbers. When, for example, you ask for "One Two—Six Three," she repeats "One Two Six Three," pausing just a fraction of a second between the hundreds and the tens.

There's a real reason for this practice:

The switchboard before which the telephone operator sits is honeycombed with tiny holes, each the termination of a subscriber's line. These holes are in sections of one hundred. To locate "1263," the operator first finds the section labelled "12" and then the "63" hole in that section.

Careful tests have proved that this method of repeating numbers tends to prevent mistakes, and, as the operator more readily locates the required number on the switchboard, it helps to speed up your service.

You can help the operator in her efforts to give you quicker service by adopting this new style in calling telephone numbers.

Fry's Pure Cocoa

NO need to ask if you want your little girl to be bonny, plump and rosy-cheeked. Of course you do! Yet little folks' appetites are "finicky" and sometimes turn from ordinary foods. That is just the time to use FRY'S Pure Cocoa. It makes a delicous food beverage that no child can resist and its rich nourishment is absorbed by the little body as eagerly as the flowers drink in the spring rains. All good grocers sell it, but, of course, remember

Shall We Start That Prisoners' Fund?

A number of readers have from time to time urged that the "Cynthians" unite in an effort to send comforts to a prisoner of war in Germany. These, and others, would without doubt read with interest particulars of the Red Cross Prisoners' Club, which appeared in issues of Thursday, September 21. In her article under heading of Red Cross and C. W. C. A., the press secretary of the Red Cross states that a dollar and a quarter will supply one of the Canadian boys, interned in German camp, with a parcel of food. Two dollars and fifty cents per month will give him two parcels of food a month and four deliveries of fresh bread from England. Five dollars a month will insure him a parcel each week, and fresh bread twice a week.

As the idea seemed to be to send small individual donations to me, the difficulty of guaranteeing a stated sum per month is apparent, unless contributors were religiously prompt, something not always the case where the givers are so widely scattered. Hence, it would seem that to remit to the Red Cross Prisoners' Club secretary in sums of $1.25 as often as that amount accumulated, would be the best way. Miss D. Gunn, 136 Kent street, London, is the secretary, and any reader desirous of adopting a prisoner all for herself should write Miss Gunn for full particulars.

Already 50 cents has been contributed toward the proposed fund for prisoners, and this I shall hold pending further opinions "for" or "against" the organizing of the fund. If readers are favorable, there is no difficulty in the way except (as in the case with "Aunt Nannie's" quilt fund) that coins sent in letters unregistered do not always carry safely, and I hesitate to undertake another "fund" and have letters go astray. It seems to reflect more or less upon the person to whom they are addressed.

However, if reader-folks are desirous of carrying on the proposition, why, "Barkis is willin'." Shall be sitting with bated breath to hear remarks. Every 5 cents and every dime will count, so do not be ashamed to send yours to help the fund along.

Interesting letters on the subject from "Diem" and "Maw" will appear in the column. CYNTHIA GREY.

"Mother Hen's" Cackle.

Dear Miss Grey,—Am inclosing "How Sockery Set a Hen" for "Always Tries to Help," if she has not already been supplied. Would be pleased if she would send me either of the first two readings she offered. Has the reader who asked for "Jimmy Butler and the Owl" received it yet? I found it in an old book today and will send it if still wanted.

Well, "Old Bird," I have turned up at last. Wanted to before, but couldn't think of a thing to say, but when Miss Grey intimated that I would be after your scalp for using slang, I thought I'd better speak up and relieve your mind.

That remark of yours, Miss Grey, sent me round the house smiling from ear to ear all afternoon, not quite a "mile of smiles," but quite a stretch. It struck me as so comical that I should be considered so death on slang, for at one time (am quite out of practice now) I could have taken honors in an examination on "street vernacular," but if "She got my goat" had been on it, I would have failed dismally, as I couldn't make any sense out of it "no how," and (let me whisper, Miss Grey) I fear you would have lost a lot of marks, too, for you translated it, "She's the limit," and here a few nights ago The Advertiser printed a short story entitled, "How He Got the Old Man's Goat," and the reading proved the meaning to be how he got even with the old man, so the aforementioned would likely mean "She got even with me," at least, I should think so. Now, please, don't be angry at my correction, for such an important matter should certainly be made right. Just think how terrible it would be if either you or I should be conversing with the Right Rev. Archbishop So-and-So and remark, "My dear sir, you've got my goat," meaning "you're the limit," when the true meaning may be entirely different. Or, worse still, if one should so address a Quaker friend, how horrified he would be as he replied, "Nay, friend. Thee is wrong. I have not thy goat, nor have I seen such a creature in thy possession." Nonsense, avaunt.

I certainly agree with you, "Old Bird," that it's the people who buy the goods who pay for the premiums. Of course, if one can get coupons, etc., free from those who have paid for them, then one is "in" to that extent. Yes, "Old Bird," I live in Middlesex, and often go to London—not by auto yet, though, I'm sorry to say. Time for me to stop cackling.

MOTHER HEN.

Ans.—I've spent quite a few moments trying to picture just how a "Mother Hen" would look with mouth spread "form ear to ear." But, honest, "Mother Hen," you're still away out on the meaning of that phrase. Even the Archbishop of Something-or-Other would know that. If certain conversation or actions or attitude on the part of other persons or individuals makes you feel mad, exasperated and aggravated, with a strong desire to slap that persons, or persons, then he, she or they may be said to have "got your goat." Now does that shed any light on the difficulty? For, as you say, such an important point should be settled in both our minds.

I forget who asked for "Jimmy Butler." Please speak up, somebody. A copy of "Sockery" has been received from another source and sent to "Always Glad to Help," but maybe she will copy the piece for you anyway.

Muriel's "First Aid."

Dear Miss Grey,—See "Y. S. M." would like sore mouth wash. All I ever used for my babies' mouths was boracic acid, used after each feeding whether mouth was sore or not. My first baby had a little thrush. I used it strong and it soon cured him. A half teaspoon to four tablespoons of boiled water is quantity of sore mouth (more water for just ordinary wash). Put a small piece of absorbent cotton (or perfectly clean old linen would do) round little finger, dip in solution, cooled, carefully wash gums, lips, inside cheeks and tongue, use fresh piece each time mouth is washed. If mouth is very bad get borax and honey from druggist and use the same way after each feeding. I have had no personal experience with this, but I saw a baby with a dreadful sore mouth (it used to bleed when washed) cured with it; the mother did it before and after feeding. I hope this will help "Y. M. S." a little, for I know a little of the care babies are.

I agree with "Old Bird" re coupon and presents; never had much faith in getting "something for nothing." As before, MURIEL.

P.S.—My little ones are in vogue; they have whooping cough. My little girl has been quite bad; had to have the doctor.—M.

Ans.—On "Young Stepmother's" behalf, thanks, "Muriel." Sorry your own kiddies are having a siege. The coupons you send will be divided.

Not Superstitious.

Dear Miss Grey,—While reading your interesting column I saw where "Young Stepmother" would like Sweetheart coupons for a cabinet. I have thirteen which I am inclosing for her. I hope they are the right kind. I hope she isn't superstitious about number thirteen, as I'm not, and I know number thirteen would not bring her any bad luck.

I also read where "One From Old England" asks for a cure for rheumatism. Take a teaspoonful of sulphur in a little fruit juice or milk about twice a week, and it will ease the most severe pain. But be careful not to catch cold after taking it. May I call again some time.

FLORETTA.

Ans. — You're a sensible person, "Floretta," not to withhold your help just for a superstition. And it won't make any difference to "Y. S." for your thirteen will accompany a few score of other coupons waiting to be forwarded to her. You'll always be welcome, so come again, "Floretta."

From Sussex, Too.

Dear Miss Grey,—I noticed that one of the "Cynthians" signed herself "Sussex Girl" and oh I was wondering which part she came from. "Sussex Girl," do you know Hove? Yes, I lived in Hove for nine or ten years. Isn't Sussex just the dearest little county in England? Do you know Poynings, Devil's Dyke, West Blatchington or Portslade? Don't you just get homesick in the spring, "Sussex Girl," and long to be on the beautiful South Downs, or walking along those beautiful country roads with the hedges on either side, beneath which the primroses and violets grow? There is no place in the world like England, and no place in England like Sussex. I was so interested to see that you came from Brighton, "O. F. C. E." Of course there is no need to ask if you know Hove. I suppose in the summer you just long for the seashore. I do. I am eighteen, and have been in Canada for four years, but have never met anyone from Hove or Brighton. I don't think April ever comes but what I think of those lines, "Oh! to be in England, now that April's there," but my soldier brother, who is in England, when he wrote last month, said, "Oh, to be in Canada, now that August's there."

"Sussex Girl" and "O. F. C. E.," do write, please. Now I must "dry up," or Miss Grey will be throwing the desk at me. Kindest regards, I remain as before, "AMBITIOUS.

Ans.—You write a most interesting letter, and one would fairly long to see the hedges and the primroses, after reading your description.

I'm just as glad as can be that you wrote me the personal part of your letter, and you and your sister have my very hearty wish for your progress. May I ask if it is the shorthand course you intend taking? If so, I know of a manual that you could borrow, to study in the meantime, or for all the term if that helped any. Just drop me a line. And no wonder you are delighted with "brother's" advance.

A Soldier for "S. E. B."

Dear Miss Grey,—Just once more, I want to shake hands with "Aunt Nannie" for her sumpathy, and to tell "O. F. O. E." that the treatment for sciatica applies also to her case. Yes, "S. E. B.," I did make that mistake, and I guess we each had a good laugh over it, not to mention Miss Grey, for when I wrote that letter I inclosed my husband's card as a proof I was a bonafide soldier's wife. She naturally thought it was an address to forward on, but being more thoughtful than myself she inquired first, so I had to send a "chaser" after that letter, or "Calamity Ann" would have "nothin'" on us. Shall be interested to know which you "adopt." I send each of them a small thing now and then, also papers, but I have my own to send parcels to. Say, try olive oil and glycerine mixed for whooping cough, about a teaspoonful every four hours, and feed them after the asms, then the food will digest.

To the younger soldiers' wives I would say, They are gone, and all the worrying we can do won't help them a trifle; we can send them comforts, pray for them, and look after the young ones we have sole charge of. I took to nerve medicines, bromides, etc., but have cut them all out and taken on this motto:

In all your work and all your play,
Do your best,
And in His hands, without care,
Leave the rest.

ENGINEER'S WIFE.

Ans.—The soldiers' names contained in your "chaser" have been sent to "S. E. B." and no doubt some other of our readers will be eager to "adopt" the remaining two. Re your postscript—here's another laugh! Not me at all, dear lady, although the name is the same I have never seen her. Quite a joke, isn't it?

Still They Come.

Dear Miss Grey,—Another new one! I am inclosing ten coupons. All I happen to have just now. I would be very glad if someone would send me some Gillett's coupons. I will inclose a stamped envelope. Best wishes to all.

CECELIE.

Ans.—I'm glad to send you some Gillett's coupons in return for those you send, and which have been forwarded to another reader.

She Is Just 12.

Dear Miss Grey,—Will you spare a little space in your column for a girl 12 years old, in the Junior Fourth class and five feet one, and three-quarter inches, and weigh 86 pounds? Do you think me tall and do you think twelve a good age to be in the Junior Fourth class? Will you give me your opinion about a girl of my age to wear a band of ribbon around my forehead? I will have to close, as this is my first call. Yours, I remain,

DARK EYES.

Ans.—Since you are not very big around, I think perhaps we can squeeze you in somewhere, my dear. You are tall for your age, are progressing very well at school, I think and may wear the ribbon around your forehead if you wish. Success to you in this term just beginning.

It Is Lovely.

Dear Miss Grey,—Saw in Friday's paper where "English Genevieve" wanted the recipe for quince honey. This is how I make mine, and it is lovely: One pint of sugar to one large quince grated. Boil sugar to a syrup. Then put in quince, and boil to a syrup again.

Am sending the remainder of Gillett's Lye coupons and one flag. Hope you got the others all right. I am still, JOB'S YOUNGEST SISTER.

P.S.—Will send my address if the song I asked for in my previous letter comes in.—J. Y. S.

Ans.—Your recipe sounds truly delicious. Your first letter appeared in issue of Monday.

Farmer's Daughter Again.

Dear Miss Grey,—Very sorry I offended some of the ladies of your Page. One lady said the farmers were too stingy; that may be in some cases, but not this. Others thought I was running the soldiers' wives down. Not me. I think a great deal of the soldiers' wives. It was the farmers I was talking about. One lady said the farmers did very little for the soldiers. She is right. They may do some, but not half enough. We do quite a lot, but not enough. My mother says to quit nagging and get down to work and make the soldiers' wives happy. Quite a lot from around here knew who wrote that letter, and said I did right in contradicting "Soldier's Wife, Oxford County." My mother comes from there. Well, must close. Hoping this will suit some of them, and make my meaning clear. Yours as B4.

FARMER'S DAUGHTER OF 13.

What Is Required?

Dear Miss Grey,—I thought I would venture again to visit you. I saw where some were asking for soldier flags, so thought I would send the couple I have. Don't you think, Miss Grey, that people who run the soldiers' wives down should have their own men taken, and then see how they like it? I have three little ones, and being a soldier's wife I hate to see the wives of soldiers talked against, as there is bad in the civilians as well. Do you think, Miss Grey, I am qualified enough for an insurance woman, as I am not strong enough for farm work?

Thanking you for the trouble I am, I will sign myself,

TROUBLESOME FANNIE.

Ans.—Not sure I just know what qualifications would be required. Judging by the insurance "men" I have met, the "gift of the gab," ability to figure quickly, and a fairly agreeable exterior, are among the adjuncts. Suppose the same would be demanded of a woman agent. If you try it, may success meet your effort, little soldier wife.

Exchange Large Flags.

Dear Miss Grey,—Please find inclosed three soldier flags; also three of the larger sized flags for anyone who wishes them. Am also sending the words of "Good Luck to the Boys of the Allies," as it is so often asked for.

In return would like to receive five of the flower inserts and three of the larger flags, one with King George, King Albert and President Poincare. Will inclose postage.

SOLDIER'S LASSIE.

Ans.—The three large flags "Lassie" sends me bear the pictures of King Alphonso of Spain, President Wilson and the czar of Russia. Who will exchange for those "Lassie" wants?

Needs More Blue.

Dear Miss Grey,—I received the blocks safely, "Mrs. Homebird's," "Red Wings," "Scotty," "M. of Four" and "Caesar's" all so nice, but how "Caesar" ever made those fine even stitches is a wonder to me, the dear boy, seven maple leaves so neatly done, as regular and even as machine work; he sure had stick-to-it-iveness to work all those besides "Greetings," his own name, and Mail-Box name, and the red and white block, too.

I need a few more blue blocks, and will look for a "perfectly good" one from our dear "Calamity Ann"—sorry the other one went astray.

A lady wishes me to ask if anyone has the words to a poem entitled, "We Just Made a Farmer of Jim," also, "Life's Boat."

Been out in the lifeboat often?

Aye, aye, sir, often enough.

A "Soldier's Mother" has our sympathy. If I had the address of her son—one of my adopted boys—I'd be glad to send him some cheery messages, and if near Sandling camp have a friend to call on him. I received a nice letter from "Ice Cream"" I have been quite sick for a few days. Will write to each dear friend soon as I am able. I am hoping everyone's cosmos is as pretty as mine; the blossoms seem to dance in the fall breeze. Frost has killed nearly all other flowers. With greetings to all my soldier boys and friends.

"AUNT NANNIE."

Ans.—While you were penning this letter, "Aunt Nannie," the mail was fast bringing you another express order for seven dollars, being accumulated "mites" from readers. As they still come in I shall remit you further when a sufficient sum has gathered. What a glorious chance for some of those tardy ones to still have a hand at the quilt. Shall hope to receive blue blocks from a number of the Cynthians to complete the blue quilt. Eight inches square, of blue washable cotton or chambray, pen name worked in centre inside a feather-stitched circle, using white cotton.

And I hope everyone's cosmos is as pretty as mine! "Aunt Nannie" sent me the seed last spring; they grew quite above my head, and for a month now have been a glorious mass of bloom.

NOTES

"Roses," I am sorry to withhold your letter, but as it is simply and solely advertising matter, I cannot do otherwise. Rules are very strict in this regard.

"Yorkshirelte," you evidently mean the hospital for the insane. Absolutely no reason why you should not apply for a position as attendant; it is honorable work. Write to Dr. Robinson, Superintendent.

"Daisy," no direct reply to a wedding announcement is required, but you may write the bride a letter of good wishes. If you know her fairly well, or call on her after she gets settled in her new home. Re your legal query, a lawyer says it would depend on the terms of the will, and he could not tell without seeing it.

"Short," the address of "Dominion Maid" has been sent you re recitations.

(All Rights Reserved.)

The six daily studies for this week constitute the International S. S. Lesson for next Sunday. Read the Bible Story on which this study is based, as you ponder the following questions:

"Paul Before Felix." Acts, xxiv.

Golden Text—"Herein I also eexrcise myself to have a conscience void of offense toward God and men always." Acts, xxiv., 16.

1. Verses 1-9—When a high priest or distinguished preacher has fallen and espouses a bad cause, how should he be estimated?

2. This man Tertullus was much in the position of a modern lawyer; can you conceive it probable or possible, that he could be a consistent Christian and yet hold a brief against Paul?

3. If a rich, unscrupulous man has a lawsuit against a well-known good man, why should a Christian lawyer not accept the case for the prosecution?

4. What accusations did they bring against Paul, and what part of the evidence, presented to Felix by Tertullus, was true and what part untrue?

London Advertiser COOK-BOOK

Recipes Supplied By Cynthia Grey's Readers.

Sent By "Sarnia Cook."

Grape Marmalade—Pulp the grapes, but put the skins and pulp together into a preserving kettle and let boil. When the skins are tender, let cool until you can work the mass through a fine colander. Wash the kettle and return the strained grapes, set over the fire, and add the same measure of sugar as there is of the grapes. Let boil 5 minutes and put hot into jelly tumblers. If grapes are not quite ripe, the marmalade will be more firm.

Tomato Butter.—10 lbs. ripe tomatoes peeled; pour over them 1 pint of vinegar. Let stand overnight; in morning put in colander and allow to drain. Make syrup of following: 1 quart of vinegar, 3 lbs. brown sugar, 1½ cups tomato juice, 1 tablespoon salt, 1 ta spoon red pepper. Put following spices in muslin bag: 1 tablespoon whole cloves, 1 tablespoon allspice, 1 tablespoon stick cinnamon. Put syrup on stove, and let it get hot. Leave bag of spice in till flavored sufficient; add tomatoes. Boil all slowly for 3 hours.

Grape Jam.—¾-lb. sugar to 1 lb. grapes; squeeze the pulp from the skins. Boil the pulp a few minutes. Remove the seeds by putting through a sieve, then add the skins and sugar. Boil until it thickens, and put up like other jams.

Dominion Maid.

Devil's Food.—1 egg, 1 1-4 cups granulated sugar, 1-4 cup lard (not butter), 1 cup sour milk, 1 teaspoon soda, 1 pinch salt, vanilla, 1½ cups flour, 4 tablespoons cocoa.

White Icing—1 cup granulated sugar, enough water to moisten nicely. Boil until it hairs. Then add the stiffly-beaten white of one egg, and beat until cool enough to spread. Before putting on cake add vanilla to taste. (I always put a small pinch of salt in white of egg. It beats up quicker).

Cocoa Icing.—Put 4 teaspoons cocoa in a small saucepan, add 2 tablespoons cold water; stir until perfectly smooth, then add 3 tablespoons hot water, and cook for one or two minutes. Add ½ teaspoon vanilla, and a speck of salt. Then stir in about 1¾ cups icing sugar (or enough to make icing nice and thick to spread on cake).

Sweet Green Tomato Pickles—Seven pounds tomatoes sliced, 3 pounds brown sugar, 1 quart vinegar, 1 tablespoon each of cloves, allspice and cinnamon. Boil until syrup is as thick as molasses, keeping tomatoes in all the time. Slice the tomatoes over night, with a slight sprinkling of salt. In the morning drain all the liquor off, and weigh the tomatoes.

DODGERS REGAIN LEAD ON PHILLIES

Hammer Alexander All Over the Lot.

MARQUARD INVINCIBLE

After the First Inning Hard-Hitting Phillies Only Got One Hit.

BROOKLYN, Sept. 30.—Rube Marquard carried the Brooklyns back into the National League leadership this afternoon by pitching a wonderful game against Philadelphia. The score was 6 to 1. Marquard turned the Philadelphias back time after time and allowed them only three hits, two of which came in the first inning and resulted in Philadelphia's lone run.

Alexander, on whom Manager Pat Moran depended to clinch the lead, which the Philadelphias had captured by defeating the home folks in the morning game, was hammered savagely by the Brooklyn batters. Stengel's batting was a feature. His home run in the fifth inning unsteadied Alexander, who seemed to lose his speed and much of his quick-breaking curve after that.

Brooklyns have now four games with the onrushing New Yorks, while Philadelphia returns home for their final series of six games with the Boston Nationals. Brooklyn's defence scintillated today.

NATIONAL COMMISSION MEETS ON WEDNESDAY

BOSTON, Sept. 30.—Joseph Lannin, president of the Boston American League baseball club, today received a message from Ban Johnson, president of the league, stating that the National Baseball Commission will meet in New York at 10 o'clock Wednesday morning to complete arrangements for the world's series games. The meeting had previously been scheduled for Tuesday morning.

MEN OF IRON DIVISION PLAY GREAT FOOTBALL

Heroes of Verdun Hold Famous Team to Single Point.

Paris, Oct. 2.—Fresh from the battlefield, eleven men of the famous 20th Army Corps, which has distinguished itself all through the war and particularly at Verdun, played a game of football yesterday with the team of the Association Sportive Francaise before a crowd of 20,000. The 20th Corps includes what is called the "Iron Division," composed largely of Parisians, among whom are some football stars. Though it had been more than two years since they had played together the soldiers, while unable to score, held their well trained adversaries to a single point.

Interest Now Centres on Fight in National League

Red Sox Cinch American League Championship, But Phillies and Dodgers Still Have To Decide Title of Other Big Circuit—Phillies Are Favorites Now.

NEW YORK, Oct. 1.—Boston, winner of the world's championship of 1915, is again pennant winner in the American League. Although Chicago's defeat in their first game today brought a decision in the American, the pennant in the National League is not yet clinched, and it will take the concluding games of the season to decide the winner. Brooklyn in first place and Philadelphia in second appear to have the best mathematical chances of opposing Boston in the inter-league championship series. The latter team can lose all its remaining games without a chance of Chicago catching up.

Whether Brooklyn, Philadelphia or Boston wins in the National, the classic of baseball will be played in the east as it was last year with Boston, as in the preceding two years, having one of the contending teams. Not since 1910, when Chicago won first place in the National League, has the west had a contender in the championship series.

Brooklyn Slipping.

Brooklyn, although maintaining its hold on first place, is not playing the brand of baseball the team showed during July and early August. After taking three out of four games from Chicago, the first three days of last week, Thursday brought the opening game of the concluding series with Philadelphia. In an erratic contest Philadelphia, with Alexander in the box, overwhelmed Brooklyn 8 to 4. Friday's contest was postponed until Saturday morning when Philadelphia, with Rixey pitching, defeated Brooklyn decisively 7 to 3. In the afternoon Brooklyn won 6 to 1. Marquard held the champions to three hits while Alexander was hit hard.

Final Games This Week.

The final games of the season between the four first division teams in the National League will be played at Brooklyn and Philadelphia. New York and Brooklyn will meet in a four game series on Monday, Tuesday, Wednesday and Thursday, while Boston and Philadelphia are battling in six games in the same four days. Double-headers are scheduled for Monday and Tuesday in Philadelphia. Upon these games the pennant depends.

The Red Sox have three games yet to play against Philadelphia on Monday, Tuesday and Wednesday. Chicago and Detroit completed their schedules today.

Philadelphia in the American established a record for games lost. Their total for the season was 116 games.

228th Battalion Enters Team in N. H. A. Hockey

Will Take Over the Franchise Formerly Owned by the Ontarios of Toronto.

MONTREAL, Oct. 1.—The 228th Battalion team, Toronto, was admitted to the National Hockey Association at the association's annual meeting at the Windsor Hotel this city, yesterday afternoon, and the new club will take over the old Ontario Club's franchise. It is understood that the players of other clubs who are in the battalion will become the property of the 228th. It was agreed that the clubs and players alike shall share in the division of the money in the first three matches in the world's series. There is to be no drafting this season, the players becoming the immediate property of the clubs they are with at present.

The election of president was postponed until October 28. Owner Lichtenheim of the Wanderers Club stated that he would see that the playing of his men would not interfere with any of them enlisting.

Big Season May Open on Friday At Braves' Field

First Two Games For World's Series Will Be Played in Boston.

New York, Oct. 2.—It appears almost certain that the opening games of the world's series will be played at Braves Field in Boston beginning October 6 or 7. The suggestion has been made to the National Commission that the usual formality of tossing a coin for the privilege of staging the initial contests be dispensed with this season and the first two games awarded to Boston Americans. The suggestion is put forward by the officials of the latter club and will in all probability be adopted by the commission, if acceptable, to the National League club owners, who are considering the proposition.

Boston All Ready.

The Boston American League Club authorities have said that they have arranged to play their games at Braves Field and that park will have seating capacity for 42,000 spectators. It is ready to receive the games, while neither the Brooklyn nor Philadelphia National League Club is justified, in view of the closeness of the National League pennant race, in installing additional stands and boxes until it is settled which of the two clubs will meet the winner of the American League pennant.

Will Open Friday.

If the first two games are played in Boston, the National League pennant-winners will have between four and five days in which to prepare additional seating accommodations for the fans, and since both parks are comparatively small, the loss of a Saturday game will make little difference in the receipts, as the teams will play to capacity on any day of the week. If the plan is adopted, as appears to be likely, it may be that the opening game will be played on Friday, October 6, in order to permit the shift after the first two games to be made between Saturday night and Monday morning.

REBELLION QUELLED

Outbreak in Dutch East Indies Ends in Surrender.

[Canadian Press.]

The Hague, via London, Oct. 2.—The rebellion in the Dutch East Indies is being quelled, according to official dispatches received by the Government. The rebels in the district near Mocaratebi have surrendered. Three brigades of infantry inflicted serious losses on a rebel force near Semaboe on September 26.

A dispatch to London on August 29 reported riots in the Jambi district of Sumatra. At one place, the dispatch said, the administrator and twenty police had been killed. On September 5 an official statement at The Hague stated that the rebellion was spreading and that several towns had been sacked.

FRED MITCHELL MAY MANAGE THE BRAVES

Boston, Oct. 1.—A persistent rumor, as yet lacking official confirmation, is current that Fred Mitchell, formerly of Toronto, will succeed George Stallings as manager of the Boston Braves at the close of the present season. Manager Stallings, the story goes, will fall heir to the presidential toga of President Percy D. Haughton, who is said to be anxious to retire owing to the pressure of commercial enterprises in which he is interested. Mitchell recently signed a three-year contract with the Braves.

OLD SARNIA BOYS WIN FROM FRESHMEN 4 TO 0

[Special to The Advertiser.]

SARNIA, Oct. 1. — The old boys of the collegiate institute were again victorious over the freshies in the annual gridiron battle, defeating the youngsters 4 to 0. Lack of condition was plainly evident, but about another week's work-out will round the team into shape, and by the time Thanksgiving Day rolls around they should be in splendid shape for their first official battle with the Windsor C. I. This game is to be played 50-50, or, in other words, half under Canadian rules and half under American rules. Nothing short of a decisive victory will satisfy the local manager, and he promises to put the team through some grueling work-outs during next week.

EX-WAR CHIEF THIRD MEMBER OF GOVERNMENT

Venizelos Completes Triumvirate in Cabinet.

KING STILL DICKERING

Athens Stock Market Buoyant in Anticipation of Early Decision.

ATHENS, Oct. 1.—Via London.—The Official Gazette of the provisional government publishes this morning a decree signed by M. Venizelos and Vice-Admiral Coundouriotis, "by virtue of the power vested in them by popular decree of September 26," naming Gen. Panyotis Danglis, the former minister of war, as the third member of the triumvirate, heading the provisional government.

The Island of Tenedos has joined in the revolutionary movement.

Forty-five policemen, cadets and soldiers, who were desirous of joining the revolutionists at Saloniki, went to the French legation yesterday. Jean Guillemin, the French minister, supplied for them an armed escort from the marines guarding the French legation. With this escort the men paraded through the streets to embark.

Several Greek officers followed in an automobile, and set out with the men for Saloniki.

VENIZELOS SENDS CONGRATULATIONS.

PARIS, Sept. 30.—Former Premier Venizelos of Greece and Vice-Admiral Coundouriotis have telegraphed to Premier Briand congratulating him upon the recent French successes. The premier expressed his thanks to the Greek leaders through the French consul at Canea, Crete.

DECISION EXPECTED TODAY.

ATHENS, Friday, September 29.—Via London, Oct. 1.—(Delayed.)—Notwithstanding the persistent assertions by adherents of former Premier Venizelos and the Entente that King Constantine is merely playing for time, and does not intend to declare war, those close to the king are confident he will telegraph his decision to King George, Emperor Nicholas and Premier Poincare on Monday, at the latest. The Athens stock market is extraordinarily bullish.

Once the king's decision has been reached, it is expected a national cabinet will be formed in consultation with the British minister. M. Venizelos probably will have a portfolio if he desires.

Gen. Moschopoulos, chief of staff, asked King Constantine this noon to grant him a leave of absence for 45 days. The king assented. Gen. Gennadis probably will replace him.

The Hesperini, a newspaper with German affiliations, for which M. Stratos, who is leader of the new anti-Venizelos war party, has written previously, refused today to publish the pro-war articles of M. Stratos.

REPLY IS OVERDUE.

ATHENS, Sept. 27.—Via London, Sept. 30.—(Delayed by censor.)—The representatives at Athens of the Entente powers are expected to reply tomorrow to the Greek Government's note of September 18, delivered at the Entente capitals, declaring categorically Greece's acceptance of departure from neutrality in principle. While it is understood the proposal of Greece to join the Entente Allies will be accepted, certain guarantees of sincerity probably will be demanded. Former Premier Gounaris, Skouloudis and Rhallis will be excluded from membership in any national ministry that may be formed, and certain restrictions will be made in regard to military posts to be held by officers suspected of hostility to the Entente, such as Gen. Dousmanis and Col. Metaxas, formerly of the generaly staff.

King Still Worries.

Those closest to King Constantine fear only one event which may end all possibility of co-operation between Greece and the Entente—that the Entente may continue to show ill-disguised suspicion of the sovereign's motives and sincerity, even after war virtually has been declared, and may meet the king's advances in the spirit of mistrust displayed in editorials in London and Paris newspapers. These editorials, republished by the Athens newspaper organs of former Premier Venizelos, have done much hitherto to render difficult Greece's entry into the war.

King Constantine's closest adviser said to the Associated Press this afternoon: "If the Entente wants Greece as an ally, it would facilitate matters greatly if it would treat the king as a potential ally, and not as an actual enemy."

Meanwhile the palace resembles the headquarters of an army. Generals, naval officers, the premier, the foreign minister and the minister of the interior followed one another in rapid audiences with the king today.

MEALS WILL FIT! NO INDIGESTION, GAS OR ACIDITY

Eat without fear of sourness, heartburn, belching or dyspepsia.

The moment "Pape's Diapepsin" reaches the stomach all distress goes.

If your meals don't fit comfortably, or you feel bloated after eating and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas which sours your entire meal—interferes with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by any other name—always remember that instant relief is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order stomach within five minutes, and digest promptly, without any fuss or discomfort all of any kind of food you eat.

GERMAN MILITARY GENIUS FOCUSED ON THE EAST

With the announcement that Gen. von Falkenhayn, until recently chief of the German general staff, is in command of operations in Transylvania, it is made apparent that the Teutons are focusing their strategical and tactical strength on the east front and in the Balkans. Von Hindenburg, the new chief of staff, is in the east, while von Mackensen, the third member of the enshrined trio of German marshals, is conducting the campaign in Dobrudja. The kaiser is reported on the Russian front.

SERBIANS CAPTURE THE LAST OF KAIMAKCALAN HEIGHTS; BULGARS FLEE IN A PANIC

Brilliant Attack Wins Important point on the Road to Monastir—Frightful Loss Caused the Enemy by Work of Artillery.

LONDON, Oct. 1.—The Serbians on Saturday gained an important success at Kaimakcalan, says a Reuter dispatch from Saloniki. After violent artillery preparation, causing frightful havoc in the ranks of the Bulgars, the Serbian infantry executed a brilliant attack, capturing all the remaining points on this position.

The ground was covered with dead Bulgarians and the Bulgarian survivors fled panic-stricken. The Serbians captured a complete battery of mountain guns and recaptured a gun and three bomb-throwers abandoned during a recent Bulgarian counter-attack, besides taking a quantity of war material and machine guns.

The Serbian advance continues, the dispatch continues.

BRITISH WIN VICTORY.

A British official communication issued this evening and dealing with the fighting in Macedonia reads:

BERLIN ADMITS IT.

"In the region of Kaimakcalan the Serbians attacked the heights which were strongly held by the Bulgarians. Gallantry our allies mastered the resistance of the enemy, who was forced to abandon the position, leaving numerous dead. The Serbians captured a Bulgarian battery.

"On our left wing a spirted artillery duel continues.

"One of the aeroplanes bombarded Sofia and continued its journey to Bucharest, where it landed."

WASHINGTON FEARS GERMANS MAY RESUME SUBMARINE WARFARE

Not Willing to Accept Denials From Berlin.

WASHINGTON, Oct. 1. — Increasing agitation in Germany for a complete resumption of the submarine warfare, Chancellor von Bethmann-Hollweg's declaration before the Reichstag that any statesman failing to use German's every weapon to shorten the war "deserved to be hanged," and the recent apparently inspired simultaneous publication in German papers of attacks on American neutrality, brought forth an informal statement from the state department of the American Government's attitude to the situation.

Any action which endangers American lives through the sinking of ships without warning, or by failing to provide proper safeguards, it was emphatically asserted, will immediately reopen the submarine question with all its possibilities.

Emphatic denials that Germany has any intention of reopening a relentless campaign of submarine warfare are contained in confidential advices from Berlin to diplomatic quarters here, but some anxiety is nevertheless manifesting itself in official circles. Some high officials are inclined to believe that the German chancellor has been won over to the von Tirpitz party. They argue that with the gradual crunching in of the German lines under the increased realization that England is the superenemy, pressure in Germany will become irresistible to strike in every possible way.

GRANTON W. A. TO AID IN REBUILDING CHURCH

Start Fund for Edifice in Cochrane Destroyed by Fire.

[Special to The Advertiser.]

GRANTON, Oct. 1.—The Women's Auxiliary of St. Thomas' Church held a tea at the Rectory last week, with the object of raising funds to assist in rebuilding Holy Trinity Rectory at Cochrane, which was destroyed by fire this summer.

Cochrane was the former home of Rev. and Mrs. Bythell, and the ladies here entered into the scheme heartily. An enjoyable evening was spent and the sum of $17.10 was realized toward the worthy object.

On Tuesday evening, September 19, the new incumbent of St. Thomas' Church was instituted into the charge of St. Thomas' Church and Holy Trinity Church, Prospect Hill. Venerable Archdeacon Richardson, was in charge of the service which was impressive.

A series of sermons on "The Prodigal Son" was begun this evening by the pastor, Mr. Alp, in the Presbyterian Church.

Belgian Artillery Wreck Positions Held by Germans

HAVRE, via London, Oct. 1.—The Belgian official weekly review says that the artillery duel has been renewed with the greatest violence during the last week, especially in the region of Dixmude and north of that place, where the Belgian guns of all calibres furiously engaged the German batteries.

The Belgian fire, the review says, was particularly destructive in the district of Het Sas, where the German works were wrecked partly. Farther south in the directions of Boesinghe, there have been constant and violent duels with trench guns and field guns, all of which have been in favor of the Belgians.

Bremen Is Caught in a Steel Net the Latest Report

One of Seventy German Submarines So Disposed of by British.

WASHINGTON, Oct. 1.—Another report of the capture of the German merchant submarine Bremen reached official circles here today from unofficial but usually reliable sources. According to this account, which is given credence by some high military officers, the Bremen was seen three weeks ago at the big British naval station at Rosyth on the east coast of Scotland, having been captured in one of the steel nets recently used with such success by Great Britain against underwater craft.

More than 70 submarines are said to have been taken or destroyed by the nets.

In spite of persistent reports of the Bremen's capture, her agents in this country apparently still are confident that she is safe on the high seas and will appear at New London, Conn., in due time.

So successful were the officers and crew in keeping the news from the 646 passengers that only a few were aware of the peril she had been in.

The Philadelphia left Philadelphia September 23. How the fire started has not been determined. Among the passengers was Sir Herbert Beerbohm Tree, the English actor.

Jostoff was reported to have died from appendicitis on September 1. It was reported in Amsterdam at the time that he had committed suicide because of Bulgaria's delay in declaring war on Rumania. Another version of his death which was published by the London Times, was that he had been murdered. According to the Times' story, Gen. Jostoff was an obstacle to the German control of the Bulgarian army.

VON FALKENHAYN FORCES RETREAT OF THE RUMANIANS

Former Chief of Staff Commands in Transylvania.

TEUTONS TAKE PRISONERS

Berlin Says More Than 3,000 Men, Besides Supplies, Are Captured.

BUCHAREST, Sept. 30.—Via London, Oct. 1.—The retreat of the Rumanians from the Hermannstadt district is admitted in the official communication from headquarters.

The Rumanians were attacked on all sides at Sibia, otherwise known as Hermannstadt, the statement says, and retreated southward after fighting their way through enemy forces attacking from the south.

The text reads:

"The fighting is general on the north and northwestern fronts, where we took six hundred prisoners.

"Our troops at Sibia (Hermannstadt) attacked on all sides by superior enemy forces, after a battle lasting three days, re-established their communication to the south, repulsing the enemy, who was attacking from that direction. Our troops retired southward.

"On the southern front a weak enemy attempt to land aat Corabia was immediately repulsed.

"In Dobrudja there were intermittent artillery duels."

3,000 PRISONERS, SAYS BERLIN.

BERLIN, Oct. 1.—Via London.—More than three thousand prisoners have been taken by the Germans in the battle near Herrmannstadt, Transylvania, where the first Rumanian army was defeated and dispersed. Thirteen guns and a large quantity of war supplies also have been captured. Rumanian attacks have been repulsed. The following is the official account of the operations in the Transylvanian theatre:

"On the eastern front Rumanian attacks in Maros valley were repulsed. In Georgeny valley and further south our vanguards partly evaded the enemy's thrust. The booty taken by German troops in the fighting south of Henndorf has been increased by eight cannon. Northwest of Fogaras the enemy has ceased to attack.

"As a result of the battle of Hermannstadt more than 3,000 prisoners and thirteen guns were brought in up to yesterday. One hangar, two aeroplanes, ten locomotives, three hundred railway cars laden with munitions, more than two hundred munitions wagons, more than two hundred loaded baggage wagons, seventy transport wagons and one hospital train also have been taken. Further material is being brought in gradually from the woods. Rothenthurm Pass is filled with vehicles blown to pieces by our fire.

"South of the pass strong Rumanian attacks, directed against the heights west of Caineni, were repulsed. In the Hatzeger Mountains the enemy made a fruitless attack west of Streil Sztrigy valley.

"An Austro-Hungarian Danube flotilla forced an entry into the harbor of Corabia, and besides nine vessels captured eleven partly loaded ships. Bucharest has been bombarded by our aeroplanes with visibly good results."

AUSTRIA CALLS IT COMPLETE VICTORY.

VIENNA, Oct. 1, via London—1:45 p.m.—The victory gained over the Rumanians in the Hermannstadt region of Transylvania by Gen. von Falkenhayn's army was complete, and the Rumanian army was dispersed, the war office announced today. The Rumanian forces in the Fogaras region attacked in an attempt to retrieve the situation, but were not able to make great headway, although they compelled the Austrians to retire on one section of the front. The following official account of these operations was given out here today:

"On the Rumanian front, west of Petresony, Rumanian attacks were repulsed.

"Near Hermannstadt German Austro-Hungarian forces under command of Gen. von Falkenhayn gained a complete victory. Four days ago by a wide encircling movement a column of Bavarian troops blocked the road through Rothenthurm Pass, in the enemy's rear. All the enemy's attempts to reopen the road were fruitless.

Advance From Three Sides.

"Simultaneously Austro-Hungarian and German troops from the west, north and south advance against the Rumanian divisions operating south of Hermannstadt. The enemy fought desperately in the battle, which was of the most sanguinary character. Deprived of any practicable roads, the remnants of the Rumanian troops fled into the Fogaras Mountains. The number of prisoners taken is large, while the quantity of booty is enormous.

"An offensive resumed on September 28 by the Rumanians against the Transylvanian eastern front was not able to alter the result of this battle, although north of Fogaras and near Szekely Udvarhely and Oderhellen our advanced troops had to retire on the main forces.

"On the other hand the Germans in a counter-attack south of Hendorf captured eleven Rumanian officers, 591 men and three machine guns.

Attacks Rumanian Port.

On September 29 an Austro-Hungarian motor boat detachment, reinforced by an armed steamer and the German motor vessel Weichsel, attacked the Rumanian port of Corabia (on the Danube), after having silenced the enemy's defensive works. Our forces penetrated the inner port and destroyed the railway station, the harbor works, a Russian armed steamer which sought refuge at Corbia in the spring, and also some mine layers and tugs, finally bringing back nine Austro-Hungarian tugs which had been detained in port. We sustained no loss."

BAYFIELD'S EARLIEST SETTLER IS DYING

T. J. Marks, First Merchant in District, Not Expected to Live.

[Special to The Advertiser.]

BAYFIELD, Oct. 1.—One of the earliest settlers in Bayfield in the person of T. J. Marks is lying at the point of death and the end is expected at any time.

Mr. Marks who is in his 88th year, came to this village when it was only a small clearing of houses in the forest. He built the first store, a small log structure, and stocked it with what merchandise and groceries were obtainable in those days.

This old landmark, now in a somewhat dilapidated condition, can still be seen on the bank of the lake at the edge of the village.

Mr. Marks afterwards built and conducted the first hotel, and has told of many an incident of pioneer days when "good whiskey" sold at ten cents a gallon.

In those days Bayfield was the principal Canadian port on Lake Huron between Sarnia and the Soo, but was afterwards replaced by Goderich because of better harbor facilities.

Mr. Marks conducted a small clothing store until the past year, when he retired to private life. He has been in ill-health for some months, but found it necessary to take to his bed only two weeks ago.

The attending physician entertains no hope for his recovery.

GREATER ADVANTAGES FOR JEWS IN RUSSIA

PETROGRAD, Oct. 1—via London.—Jews will enjoy greater educational advantages in Russia in the future. A series of high schools and technical schools exclusively for Jewish students is to be established, and greater freedom will be accorded with respect to their entry into the universities.

The Russian Government, it is announced, in the interest of education, extends this greater advantage to the Jews. In addition to the large number of schools exclusively for Jewish students which exist at the present time, permission has been granted for the establishment of Jewish gymnasiums (high or preparatory schools) in Petrograd, Kiev and other cities and towns, as well as colleges, among which is the polytechnic institution at Yekaterinoslav.

The increased facilities for the entry of Jews into the Petrograd university are to be seen in the fact that this year ninety-four out of 807 matriculated students attended the university, or about 11½ per cent.

After a period of comparative inactivity the Russians inaugurated strong offensive movements north and south of the Galician capital. According to today's war office report, material successes have been won. It is said the Austro-German positions were penetrated, and that more than 4,000 prisoners were taken. The Teutonic forces are offering bitter resistance. The announcement follows:

"In the region south of Riga, a German aeroplane, hit by our artillery, fell into the enemy line.

"In the neighborhood of the Brody-Krasne railway line (Krasne is 30 miles northeast of Lemberg) and to the south thereof fighting is taking place, our troops forcing their way forward. The enemy is offering stubborn resistance. We captured here 59 officers and 1,928 men.

Progress is Favorable.

"Fighting is proceeding in our favor south of Brzezany (50 miles southeast of Lemberg) on the River Tseniuvka, and in the region of the heights on the right bank of the Zlota Lipa. Here we captured part of the enemy position by assault, taking during this operation 112 officers and 2,268 men. We also captured several machine guns. Enemy counter-attacks during the night were frustrated by our fire.

"In the same region an aerial encounter with a German albatross took place. The gallant staff cavalry captain Tchirkoff attacked the enemy aeroplane and forced it to descend abruptly in the German lines.

"On the Caucasian front there were no developments."

GERMANS CAN'T SPARE MEN FOR BIG EFFORTS.

PETROGRAD, Oct. 1.—2 p.m.—Via London, Oct. 2.—3:10 a.m.—The struggle along the entire southwestern front continues with undiminished intensity, both without salient episodes or any changes in the general situation. The Germans are piling up reserves in the neighborhood of Vladimir-Volynski, where they are trying desperately to wrest the initiative from Gen. Brusiloff's armies. But according to the accounts of observers, despite the considerable concentration of forces, the Germans are not longer able to spare enough men to deliver the old-time smashing blows, which by sheer numbers of shells and men drove at all costs through the opposing lines.

Halicz Under Fire.

There has also been renewed activity near Halicz, which still appears to rest securely in Austro-German hands. The town is, however, under the fire of Russian guns. Here, as further north, the Germans are struggling to launch a successful offensive, which thus far has always been defeated in its preliminary stages by a Russian counter-attack.

Russ Aviation Improves.

A striking improvement has recently been noticeable in Russian aviation. In addition to raids officially reported, Russian aviators have executed a number of attacks behind the German lines on the southwestern frontier, and have bombed stations and stores. According to the Russian officers, the percentage of losses in these operations has been extremely small. One of the most successful exploits of the aviation squadron to be reported recently was the flight of twelve aeroplanes over Podvisokoye station, southwest of Brzezany, where more than 1,600 pounds of bombs were dropped.

The aviators reported that they had engaged a large German air fleet, which they compelled to retire with serious losses.

The recent fighting in the Carpathians has been limited to scouting parties, and the situation there is unchanged.

Berlin's Report.

BERLIN, Oct. 1.—Via London.—The Russians have assumed the offensive at many points and have made an advance in Galicia southeast of Lemberg it was announced officially today.

APPEALS DRAINAGE AWARD IN HURON

Engineers Claim That Results Are Not Satisfactory.

[Special to The Advertiser.]

CLINTON, Oct. 1.—Judge Dickson of Goderich presided on Saturday over an appeal made by Miss Smith of Toronto against a drainage award made by Engineer Farncombe of London for Goderich Township Council.

Miss Smith has 30 acres of land, and she has been assessed $148 towards the new drain, which is proposed to drain the Rance, Smith, Holland Trick properties.

D. Urquahart, K.C., of Toronto, and Engineers E. A. James and E. M. Proctor of Toronto are representing Miss Smith, and they claim that while the award is heavy the results are not satisfactory, and claim that the natural flow of the water should not be followed, but instead a substantial drain should run through the Rance property and empty into the Bayfield River. Judge Dickson reserved the decision.

AD KING CONSTANTINE

The former war minister and former chief of the general staff, Gen. Danglis left Athens today aboard an allied destroyer to join M. Venizelos.

Demonstrations against ex-Premier Venizelos are reported to have occurred at Nauplia, which ended in rioting, the prefect being forced to flee.

PLEADS FOR CLOSER UNITY.

NEW YORK, Oct. 1.—Preaching in the cathedral of St. John the Divine here today, the Rev. Dr. H. W. Yeatman-Briggs, lord bishop of Worcester, England, made a plea for closer unity between the English and American branches of the Episcopal Church in the interest of civilization and Christianity. He will represent the Church of England at the general convention of the Episcopal Church to be held in St. Louis this month.

PARIS, Oct. 1.—Prosper Renaud, mayor of Verdun, has been nominated a chevalier of the Legion of Honor for "notwithstanding his age and ill-health, remaining at his post during the most intense bombardment of the town, helping in the evacuation of its citizens and in many other ways, and leaving town only upon order from the military authorities."

TO PROTECT BUCHAREST WITH ALIEN ENEMIES

Rumania Will Place Them Where Germans Drop Shells.

LONDON, Oct. 2.—"In their latest raid on Bucharest," says the Times' Bucharest correspondent, "the German aeroplanes dropped proclamations declaring that Bucharest will be laid in ruins soon unless Rumania hastens to make a separate peace.

"In view of the probable continuance of the raids the Government authorities are reported as planning to bring numbers of foreigners who are now detained in concentration camps in the country to Bucharest, where they will be lodged in places most exposed to attack."

RUSSIA'S POPULATION IS NOW 182,182,000

PETROGRAD, Oct. 1.—Via London. According to the statistics for the year 1915 which are now available, the population of Russia increased over 53,600,000 or 42 per cent. since 1897. It increased over 3,800,000 or more than 2 per cent. since 1914. The total population is set down at 182,182,600.

TUG SPRUNG LEAK AT SEA.

HALIFAX, Oct. 1.—The American tug Gettysburg, from Chatham, N.B., with pulp-laden barges in tow for Portland, Me., wirelessed to Halifax this morning that she was in distress 30 miles southwest of Seal Island, Yarmouth County, N.S., drifting before a northeasterly gale. The steamer Rawson, Halifax for New York, was standing by ready to rescue the barge crews. The Gettysburg asked Halifax for assistance. At 6 o'clock this evening the Gettysburg reported that she was leaking badly, but the steamer Canadian had given her a line, and was towing her to Yarmouth. The steamer Sagamore had the barge crews aboard.

A pleasant and profitable time is anticipated.

BELL—FERRIS.

BLYTH, Oct. 1.—A pretty wedding took place at the home of the bride's parents, Mr. and Mrs. Robert Ferris, Oak Grove Farm, Hullett, on Wednesday, when their eldest daughter, Lola, became the bride of Wm. Bell, a young farmer of the same township. At high noon, to the strains of Lohengrin's Bridal Chorus, played by the sister of the groom, the bridal party took their places before a bank of ferns and asters, when Rev. J. Vbery, Londesboro, united them in marriage. The bride wore a dainty wedding gown of white silk crepe and carried a bouquet of pink carnations. Her traveling suit was African brown, with hat of black and silver.

MRS. MAY'S LETTER TO WOMEN

More Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Chicago, Ill.—"I suffered from a bad case of female ills. Lydia E. Pinkham's Vegetable Compound was recommended, and I took about six bottles. It fixed me up all right. The common symptoms of such a condition — pain when walking, irritation, bearing down pains and backache, nervousness and disordered digestion—soon passed away. I look much better now than I did before, and I recommend the Compound every time for female troubles, as it did for me all it is claimed to do. You have my permission to publish this letter." MRS. J. MAY, 3548 S. Lincoln street, Chicago, Ill.

If you have any of the symptoms mentioned in Mrs. May's letter, remember what Lydia E. Pinkham's Vegetable Compound did for her, and try it yourself. It is a good old-fashioned medicine, made from roots and herbs, and it has helped countless numbers of women.

If you need special advice, write to Lydia E. Pinkham Medicine Company (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

BOURASSA ATTACKS LAURIER BECAUSE OF LOYALTY TO BRITAIN

Calls Him Most Nefarious Man Quebec Ever Had.

RECALLS STORY OF PAST

Tells How Liberal Leader Declined to Fight Against England in Aid of France.

MONTREAL, Oct. 1. — Henri Bourassa, speaking at Nicolet today in connection with the "farewell' 'of Paul Emile Lemarche, who has resigned his seat in the Federal Parliament because the term of five years for which he was elected has expired, paid some attention to Sir Wilfrid Laurier for Sir Wilfrid's pro-British attitude. Mr. Bourassa referred to the Liberal leader as "the most nefarious man this province has ever had."

The attack was received in silence by the gathering, about five thousand persons.

Mr. Bourassa said: "I respect the white hair of Sir Wilfrid Laurier, but he has no right to take advantage of his white hair to forget the past." The particular past referred to by Mr. Bouassa was that Sir Wilfrid in 1870, when only 30 years of age, failed to take up his gun in behalf of France, because the English policy at that time was to have France crushed.

"Then, as now, he was ready for English slavery," said Bourassa.

GRAIN.

Winnipeg, Oct. 1.—Wheat closed ½c to ⅞c higher on the local market yesterday, with October at $1.59⅞ to $1.60, November at $1.58⅜, December at $1.54⅛, and May at $1.53⅛. Oats were ¼c lower to ½c higher, with October at 52½c, December at 50¾c, and May at 53⅛c to 53¼c. Barley was ⅞c higher, and flax closed 1c to 2c higher, with October and November at $2.11½, and December at $2.10½.

The day was one of the dullest since the new wheat began to move. The cash wheat was unsatisfactory.

Premiums were steadily disappearing. That on No. 1 northern is down 3c over the option early in the day, and it is rumored an even lower price had been accepted, but this was not verified. There was not one grade of spot wheat that could be said to be actively wanted during the entire session.

Chicago, Oct. 2.—Increasing drought damage in Argentina gave a basis today for a fresh advance in wheat prices here. Dispatches from Rosario, in the centre of the dry district, said the effects of the long-continued lack of rain were serious, and that all crops were suffering. Scantiness of receipts at the domestic spring wheat terminals and at Winnipeg tended also to handicap the bulls.

Opening quotations, which ranged from ¼@¾c higher, with December at $1 54¼@1 54⅝, and May at $1 54@1 54⅝, were followed by moderate further gains.

THE COTTON CROP.

Washington, D. C., Oct. 2.—Cotton ginned prior to September 25 amounted to 4,062,991 bales, including 83,527 round bales, and 31,260 bales of sea island, the census bureau today announced in its second ginning report of the season. That compared with 2,903,829 bales ginned to the same period last year.

The cotton crop this year will be approximately 11,637,000 equivalent 500-pound bales, the department of agriculture announced today in its monthly forecast. That estimate was based on the condition of the crop on September 25, which was 56.3 per cent of a normal, compared with 62.2 per cent last month, 60.8 last year, and 67.2, the ten-year average condition on September 25.

LONDON STOCK EXCHANGE.

London, Oct. 2.—Money was in good demand and discount rates were steady today.

The new Exchequer bonds, with the additional announcement that applications will be received shortly for amounts of £5 and upward, are still adversely affecting investment stocks, which continued to decline on the stock exchange today. Belief that a portion of the French loan will be offered here was an additional depressing factor. On the other hand, the banks are receiving liberal orders from customers to apply for the new exchequer issue. Japanese bonds and Kaffirs were about the only steady sections. American securities moved irregularly.

WALL STREET.

New York, Oct. 2—Wall Street, 10:30 a.m.—Developments over the week-end, particularly the publication of numerous additional favorable railway statements of earnings, infused strength to investment issues at today's opening. Norfolk and Western rose 2 points to the new record of 138⅞, with a keen inquiry for other coalers, notably Lehigh Valley, Erie and Reading. Illinois Central and Northern Pacific were the other active and strong features of that division. Industrials, including United States Steel, American Can, Pressed Steel Car and Colorado Fuel, were higher by 1 to 2 points, with concurrent gains in leading equipments and metals.

Noon.—The advance met with considerable opposition and realizing sales, the short interest again concentrating its efforts upon United States Steel and other prominent industrials, which not only surrendered all their early gains but soon rell 1 to 2 points under last week's final prices. The tendency in that quarter was once more offset, however, by further gains in rails, Norfolk and Western extending its advance to 140, and other stocks of that group showing fresh strength. On the setback, industrials and equipments became more active and stronger, especially American and Baldwin Locomotives and Crucible Steel. Trading during the first hour was in large volume, but dwindled perceptibly before noon. Bonds were irregular.

1:30 p.m.—The noteworthy feature of the intermediate session was its extreme apathy, business being at the lowest ebb of any similar period for the past month. Prices were disposed to sag on moderate offerings rails declining with specialties.

Shipments for the season to October 1 were 33,899,490 tons, against 24,363,710 in 1915.

GUELPH.

Guelph, Sept. 30.—What the dry weather has done for the market gardener was shown here this morning. One grower had a cauliflower, the first one ready for market. It was a poor sample, but he stated that he had put out 800 plants, and the best of them now were no bigger than a small tomato. There were lots of peaches, the Hamilton growers being here in full force. Fine varieties were selling at 60c. Crabapples and late plums were readily sold. Some of the prevailing prices for staples were: Beef hindquarters, 15c @ 15½c; live hogs, $11.50 @ $12; spring lamb, 19c @ 20c butter, 39c @ 40c; eggs, 35c; chickens, 17c @ 19c; barley, 85c @ 90c; oats, 50c @ 55c; wheat, $1.30; baled hay, $12 @ $13.50; loose hay is selling around $11.

Hay remained stationary at $10, with bran at $25. Potatoes were offered at $2.25 per bag. Beef hindquarters sold from 16c @ 18c per pound, and 14c for front quarters. Potatoes, apples and a small offering of chickens were features. Potatoes by the bag were disposed of at $2 a bag, or 50c a basket. Old chickens sold at 20c a pound, and young chickens at 25c. Thirty-five cents a pound was asked for geese, and 25c for ducks. The market is usually over before 9 o'clock, and the high prices prevalent may result from the early morning rush, the farmers having practically no difficulty in getting whatever prices they ask.

INGERSOLL.

Ingersoll, Oct. 1.—Market conditions were Saturday much the same as a week ago. The attendance was well up to the average, and the demand generally was keen. The price of eggs again showed an upward tendency, some sales being made at 35c. Butter sold freely at 40c, while at the stores creamery butter is selling at 43c a pound. Chickens are more plentiful, and the quality good. They ranged in price from 60c to $1 each. Ducks sold at 75c and 85c each.

Grapes and late pears were offered in considerable quantity at reasonable prices, grapes retailing at from 25c to 35c per basket, and pears from 40c to 50c. Chickens retailed at from 60c to $1, according to quality, and were scarce. Eggs and butter remained practically unchanged. Select weight live hogs for next week are quoted at $11.35, a drop of 40c from last week's quotations. The grain market is reported as being firmer, and a further advance in the price of wheat is anticipated in the near future.

Tomatoes sold at 35c @ 40c per basket; celery, endive and radish brought 5c per bunch; while butter and eggs remained firm at 35c per lb. and per dozen. POPE'S PROTEST FALLS ON DEAF EARS OF ITALY

Austrian Ambassador's Quarters Were Seized.

PRIVILEGES OF VATICAN

Secretary of Benedict Claims That Act Interfered With Rights of Holy See.

[Canadian Press.]

Rome, Oct. 1—Via Paris, Oct. 2.—Notwithstanding the official protest by the Vatican to representatives of the governments accredited to the Holy See regarding the action of the Italian Government in seizing in August the Palazzo di Venizia, the quarters in Rome of the Austrian ambassador to the Vatican, it is not thought that the Italian Government will change its plans with regard to the building.

Violates Guarantees.

The protest is a lengthy document. It was issued by Cardinal Gasparri, papal secretary of state, in the name of Pope Benedict. In it the stand is taken that Italy, in the seizure of the palace, has violated the law of guarantees of 1871 establishing relations between the Vatican and Italy, in that Italy now interferes with the rights of an ambassador to the Holy See.

"Against such an act, which is new proof of abnormal conditions, the Holy See lodges a formal and solemn protest," says the document, which then asks the governments to heed the protest and to call the attention of the Italian Government to the irregularity.

Privileges Have Ceased.

The Stefani Agency, in a note contesting the grounds for the Vatican's protest against the seizure of the Palazzo di Venezia, says the decree of seizure is a wartime measure directed against a building the property of an enemy state and has nothing to do with the Vatican's privileges. The note adds that even admitting Austria-Hungary had privileges in connection with the Vatican guarantees, these have ceased to be applicable since the ambassador to the Holy See transferred his embassy to Switzerland.

TEMPERANCE BOOZE HAS WONDERFUL KICK

Guelph Man So Testifies In Police Court Today.

Pleading guilty in police court Saturday to driving an automobile while intoxicated, Erton Hesson, whose home is in Guelph, was fined $10 and costs by Police Magistrate Judd.

Erton admitted that he was intoxicated, but claimed that "lagerine" did the trick.

He claimed that he had drunk nothing but "lagerine," and failed to understand how he could have become intoxicated on the light beverage.

He was charged under the motor vehicle act and fined under this, and not under the Ontario temperance act.

Commenting on the case, Chief Williams thought that if the lagerine being sold was as potent as Hesson claimed, it would be advisable to have it analyzed.

ORGANISTS' CLUB FORMED IN LONDON BY PROFESSIONALS

Object Is To Work Out Plans for Mutual Helpfulness.

C. E. WHEELER PRESIDENT

Members Are Enthusiastic Over Prospects of New Organization.

London at last has an organziation of professional musicians, known as "The Organists' Club." It came into existence on Saturday evening, at a meeting held in the home of Charles E. Wheeler, probably the church organist of longest standing in the city. It is unique in one particular. It is the first organization of the kind in Canada formed under the auspices of the National Society of Organists, the Canadian Guild of Organists. The one passport which will admit a candidate to membership in the local club is membership in the Canadian Guild of Organists.

After it was unanimously decided to form the club, the following officers were elected: President, Charles E. Wheeler, F.C.G.O.; vice-president, E. W. G. Quantz; secretary, Miss Minnie Raymond.

J. Parnell Morris and Thomas Mitchelltree, with F. G. Killmaster, will arrange the program of entertainment for the next meeting, which will be held in Mr. Killmaster's studio.

Social Meetings.

The object in forming the club is to promote a better understanding among the organists of the city and for mutual helpfulness. To this end the meetings, to be held once a month, will be mainly social in character at first.

To the sixteen or seventeen members in London of the Canadian Guild of Organsts, thirteen were able to be present at the initial meeting on Saturday evening. All expressed themselves as very enthusiastic over the project, believing much good would result through the becoming better acquainted of the musicians, both in the way of better mutual understanding and the promoting of musical interests in the city.

It was pointed out that membership based on standing in the National society would give to the club and its members a certain prestige and also enable them to help in promoting musical interests beyond the limits of London.

Are Appreciative.

The more recent comers to London were especially appreciative of such a movement. One organist who holds a prominent position and who has been here a couple of years, stated that he considered that personally he had benefitted by the one gathering of Saturday evening. Previous to that time, he had only met two or three of the other organists present, who are doing a work similar to his own.

The ambition of the new club and its president is eventually to have every church organist in the city included in the membership in order that its ideals may be realized to the greatest possible extent.

The objects and aims of the Canadian Guild of Organists, membership in which constitutes eligibility for membership in the London Organists' Club are as follows:

(1) To advance the cause of church music in Canada, by providing a system of examinations for the better definition and protection of the profession.

(2) To advance the technical ability, and increase the general knowledge and proficiency of the Canadian organist and choirmaster.

(3) To afford opportunities for intercourse among musicians, and for the discussion of topics of interest to the profession.

(4) To encourage musical composition generally in Canada and the study of sacred music in particular.

(5) To promote whatever else may tend to raise the standard of proficiency and to elevate the status of the profession.

During the evening Mr. Wheeler read a letter from Dr. Albert Ham, president of the Canadian Guild of Organists, expressing his gratification at the step which London organists proposed taking in organizing a club under the wing of the Canadian Guild, and also extending his good wishes.

RALLY DAY SERVICES IN LONDON CHURCHES WERE WELL ATTENDED

Special Addresses Were Given in Many Sunday Schools.

MANY PARENTS VISIT

Importance of Young People Getting Christian Start Emphasized.

Rally Sunday at the Talbot Street Baptist Church brought out over four hundred Sunday school scholars yesterday afternoon. The principal feature of the exercises was an illustrated address by the pastor, Rev. H. H. Bingham, on "Camps I Have Visited," showing over thirty views, dealing with military life at Camps Borden, Barriefield and Petawawa.

Mr. Bingham dwelt first upon the life of the soldier, explaining the remarkable change that comes into his life in the transfer from his ordinary occupation to the military life at the training camps.

Men in Training.

Views were presented on the screen showing the men in training in the different departments.

The Army Service Corps and the bakeries were shown, and explained, and scenes were presented showing the meetings held in the big auditorium tents, and the interest displayed by the men in the services was visibly portrayed in the pictures.

FIRST CONGREGATIONAL.

Rally day services held in the First Congregational Church yesterday were well attended, many parents and friends of the Sunday school pupils coming out.

Professor Barker, on behalf of the school, presented a former member, Alfred Douglass, now of the 241st Highlanders, with a wrist watch. The friends wished him a safe return after he does "his bit" "Somewhere in France."

W. Liddicoatt gave a splendid address on "The Sunday School."

A SPLENDID SERVICE.

Yesterday was rally Sunday in the First Presbyterian Sunday School, and the special service was one of the best and most largely attended in the history of the church. The room was prettily decorated with flags, flowers, foliage and fruit. The share of the primary classes in the program consisted in singing a hymn, and it was excellently rendered.

Rev. H. MacFarlane of the A. M. C. gave an address entitled "Doing My Bit." He outlined the history of the Union Jack, and what it stood for. Rallying to the British standard, he said, meant service and even sacrifice. All who are engaged in Christ's service are urged to serve faithfully and sacrifice all if necessary for his sake. Mr. McFarlane quoted an officer returned from the front, who declared that dying is easy compared to living rightly. He emphasized the importance of young people starting right and following God's commands in order to stand firm against temptations.

The collection which is for the Sunday school committee of the Presbyterian Church, amounted to $50.

The young people of the church meet this evening to complete organization for the winter's work, and on Thursday evening the boys of the intermediate department meet at 6 o'clock for supper, and the first regular mid-week meeting of the year.

ADELAIDE STREET BAPTIST.

Successful rally day services were held yesterday in Adelaide Street Baptist Church, the platform being decorated for the occasion by the members of the Young Ladies' Good Cheer Class.

In the morning the pastor spoke of the "Relation of the Church to the Sunday School," pointing out that the school was not an organization apart from the church, but a part of the church itself. It was, in fact, in the words of a well-known writer, "The church studying the word of God," therefore all the church members should set the boys a good example in the matter by linking up with the Sunday school, and closed by making an appeal for more male teachers.

In the afternoon a big rally of the young people of the school was held in the auditorium of the church, presided over by Ed. Noel, superintendent. Leslie R. Roberts presided at the organ, and led a well-trained choir of young people of the school. During the rally the Misses L. and H. Boyd, assisted by the choir, rendered a duet. Capt. Hindson of the 153rd Battalion held the attention of all present by his address on "Doing Our Bit." The pastor, Rev. James H. Boyd, also spoke on "Our Victory."

At the evening service Capt. Hindson preached on the "Magnetism of Jesus," choosing as his text, "I, if I be lifted from the earth, will draw all men unto me." After a reference to the force and mystery of magnetism in the physical world, he set forth the attractiveness of the personality of Jesus. "Christ does not force men, he draws them. He compels no man to accept his teaching or his personality. He woos and wins them."

A large proportion of the congregation remained for the communion service, which followed, presided over by the pastor.

Speaking of the failure of the school to hold the boys after a certain age, he laid the blame upon the man who failed to be in the Sunday school, and deeply interested in its work and welfare.

MRS. McCRAE SPEAKS.

Mrs. D. L. McCrae was the speaker Sunday afternoon on the occasion of the annual Sunday school rally day service in Wortley Road Baptist Church, South London.

The special subject announced on the Baptist rally day program was "The Great War." Touching upon the struggle in which the nations are engaged at the present time, Mrs. McCrae likened it to the great world war against sin and unrighteousness waged by the Christian church.

"This is being fought," she said, "by regiments of the Christian church under different names, known as denominations. Each church represents a battalion and the companies are the organizations into which it is divided. Upon the individual character of the members of these companies depends success or failure in winning victory."

DENIES THAT CHURCH HAS PUT TRADITIONS BEFORE GOD'S WORD

Rev. Dr. McCrae Answers Charge of Local Rector.

NOT AGAINST EVOLUTION

Bible Teaches Religion and Gospel of Christ, Not Science.

Dr. D. L. McCrae preached at the Hamilton Road Presbyterian Church Sunday evening to a very large congregation on "Better Than Evolution." The text was taken from I. Cor. x., 4: "They drank of that spiritual rock that followed them and that rock was Christ." The church and the ministers, said Dr. McCrae, have been charged with putting the traditions of men before the word of the living God. During the 40 years that I have been preaching I have been doing the reverse of that. The same is true of all the educated ministers that I have met with in all the churches. Then we were told that "the evil of this age is not drunkenness, nor the Germans, nor the war they have brought upon us, but the deliberate opposition of the church to evolution." This is an amazing statement to come from a pulpit. I for one do not take kindly to this kind of abuse, and to these uncalled for charges.

Are Not Opposed.

"As a matter of fact the accredited teachers and all the historic churches as a whole are not opposed to the scientific doctrine of evolution. They accept it as a method by which God works, but they refuse to accept any theory of evolution that shuts out God and His Christ. I have never opposed the doctrine of scientific evolution. But my business as a minister of God is to do something else than preach evolution. I leave that work to the science professor. He can do it better than I or any other ordinary minister. I have another message. The Bible was not given to teach science. The point of view of the whole Bible is not scientific, but religious. That purpose is stamped on almost every part of it. There is no mistaking the great gospel which the Bible exists to proclaim. It is "Christ and Him crucified." It is that Christ who became dead and is alive again forever more, came to put away out of human haarts and out of the world the sin and selfishness—the devil-heartedness that has deluged the world in blood through this bloody war. Only through the cross can this be done.

Cannot Understand.

"How the preaching of evolution is going to change everything and save the world and bring in the kingdom of God on earth—the kingdom of righteousness and peace and goodwill among men and nations—I am utterly unable to see. Look at Europe. Germany long ago accepted evolution more fully than any other nation in the world. And the German church certainly has not been opposed to evolution. What has this gospel of evolution done to bring in the kingdom of peace and goodwill in Germany? No answer is needed.

The World's Needs.

The one thing made clearer than ever before is that what the world supremely needs is the religion of Christ, which centres in His cross. It is a personal Christ we must bring to men. The whole revelation of God in Jesus Christ is focussed in the cross. We cannot preach Jesus Christ and not preach Him crucified. Christ and His cross are inseparable. When love and sin meet there must be crucifixion. And the cross of Christ is the absolute manifestation in humanity of the eternal sin-bearing love of God. "We preach Christ crucified unto the Jews a stumbling block, and unto the Greeks foolishness, but unto them which are called both Jews and Greeks Christ the power of God and the wisdom of God." "They drank by that spiritual rock that followed them, and that rock was Christ." That's better than evolution.

FIRST CONGREGATIONAL.

"Devolution vs: Evolution," was Rev. Dr. Silcox's subject last evening at the First Congregational Church.

"The Eden story of man's innocence is followed by a story black with shame and crime," he said. "There is something that acting on human nature turns man away from God into paths that slope to moral death.

"Evolution—the rising from a lower form of life to a higher form. The moral opposite of devolution—which is always a deterioration, a decay.

"In human life and society we see many examples of devolution—degeneration, a reverting to the lower. 'Perversion of aim,' Darwin claimed, was the first condition of degradation, and this is true of the moral world as well as of the physical. Reversion follows perversion. Each one is conscious at times of the tendency to cease following the gleam. Too many stop half way, and wrongly give the first fruits of their toil, "to objects little worthy of the gift."

"Perhaps in our own life this principle may be at work though we are not conscious of it. We cannot afford to allow any reversion to the lower in our life and character.."

SOLDIERS ATTEND.

The sacrament of the Lord's Supper was observed in St. Andrew's Church Sunday morning, and the auditorium was filled to its capacity with communicants, non-members taking seats in the gallery. Towards the conclusion of the service, Rev. D. C. MacGregor expressed gratification at the presence of a large number of soldiers.

"Among them," he said, "are several who have returned from overseas, and at least one who partook of the communion the last time in France."

In view of the fact that yesterday was the beginning of a special self-denial week in the Presbyterian Church appointed by the General Assembly, and looking towards a thank offering on Sunday, October 8th, to wipe out a deficit of $170,000 of the home mission board, Mr. MacGregor in his sermon made a special appeal for this object.

"Speaking as a member of the home mission board of the church, I wish," he said, "that you could just sit on the board and be obliged to blue pencil field after field for lack of funds, and refuse new appeal after new appeal."

Had to Refuse.

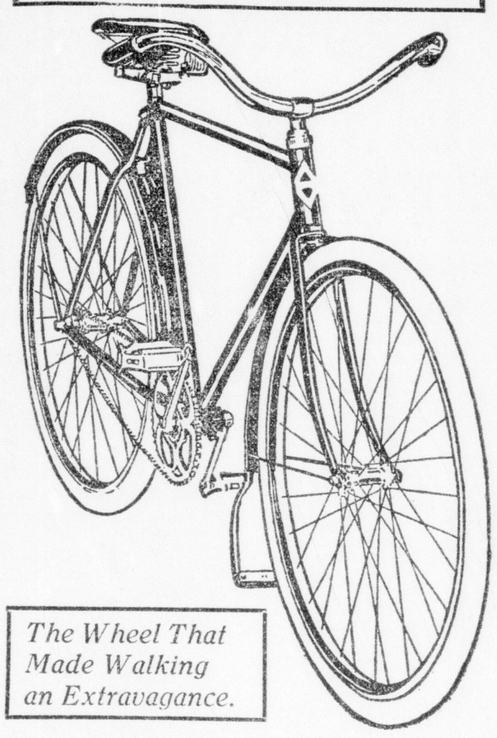

"A mission boat used to be sent up the coast to a big logging district. This year there are thousands of loggers up there. They went in last year. An appeal has come to us to send up a missionary and a medical man. The boat is tied up in Vancouver. We have been obliged to refuse the appeal for the reason we haven't the money to grant it. This is but one of many incidents which I could go on telling you for an hour, just such incidents as we met at the meeting of the board in Toronto a week ago."

The session of St. Andrew's Church has named $1,000 as the amount which it believes the congregation can well afford to contribute towards the deficit fund.

LOOKING FOR CROWD OF 300 ON SUNDAY SPECIAL

Accommodation for That Many Secured in Tabernacle.

It is expected that at least 300 will leave Tuesday on the C. P. R. special train secured by the Colborne Street Methodist Church to carry Londoners to Detroit to hear Billy Sunday. Seating for at least 300 has been reserved in the Sunday Tabernacle, where his services are being held, and if the number going is larger more accommodation will be wired for before the train leaves.

People who do not want to run the risk of sitting through the afternoon meeting with a hungry feeling that even the interest aroused by a Billy Sunday cannot satisfy, are advised to eat luncheon before leaving home or carry it along. It has been impossible to secure a dining car for the special, and if good time is made only half an hour will remain after reaching Detroit before it is time for the afternoon meeting to start in the auditorium at 2 o'clock. Arrangements have been made with the Detroit street railway system to have special cars at the station to meet the London contingent and carry the members direct to the Tabernacle.

The evening meeting begins at 7:30 o'clock, and the regular train leaving Detroit at 9:30 p.m. will be held half an hour to enable all who wish to do so to return to London the same day. Tickets will be good returning by any train the following day.

BAKERS TO TELL WHY BREAD PRICES RAISE

Will Discuss Present Situation at the Radical Club.

At last night's meeting of the Radical Club, Chairman John Easton announced that next Sunday night the master bakers of London will attend and present their claims for increased prices. John Bridge of the Neal Bread Company will be one of the speakers.

Last evening John A. Cottam spoke on "Man's Destiny."

"Each individual has access to all the resources of the universe," he said, "and man's destiny is to become conscious of the powers which surround him. Whether or not an individual lives after death, man's destiny lies within him, and is his capacity of becoming conscious of conditions and the great power which is already within his reach."

The speaker stated that he was dealing with a subject to which no limit of discussion could be set and would treat it from the standpoint of his personal experiences.

He traced man's progress from infancy to the later stages of life, and stated that he believed in an infinite existence prior to the present one. Infants, he said, did not identify their bodies with their own beings; they were not self-conscious. When they were older they became self-conscious, thinking only for themselves, and in some ways being mere animals. The youth develops family consciousness, he asserted, and instead of thinking only for himself, thinks more for his father and mother and other members of the family. As he grows older still he develops a sense of responsibility in his community, his province, his country, and in some cases of humanity as a whole. "The good of an individual, self-centred, cannot reach the greatest heights," he claimed.

Continuing, he said: "The universe is not a hard, cold mechanism. It is a visible universe, which is a growing, living organism, and we are part of it. Man's destiny is an integral part of it. Each individual is endowed with all the power of the universe."

The address called forth many other opinions from those present.

Two Lean Dogs Are Dug Out of Drain; Missing Five Days

Lost on Coon Hunt—Crawl Two Miles Through Tile.

[Special to The Advertiser.]

AYLMER, Oct. 1. — While some parties were coon hunting north of this place Monday evening last they lost their two dogs, one a hound and the other a collie.

On Thursday night Marley Cattel went after the cows on his father's farm, and when crossing a field heard a strange noise from almost under his feet. He looked about him but could not see anything, and decided to investigate. He got a spade and dug down to a tile drain known as the Argyle drain, and removing one of the 14-inch tile saw a dog in it.

Thinking it might be a mad dog he put the tile in again and did not let him out, but went home and told what he found. The next morning Cattel and a neighbor, John Skinner, went to the spot and let out the two lost dogs.

They had traveled up the 14-inch tile for a distance of about two miles, and could not proceed further on account of the tile in the balance of the drain being 12-inch, and too small for them to pass through.

The dogs belonged to Geo. Wall, and were pretty gaunt when removed, being in from Monday night to Friday morning.
