P. S. COATE, Esq.,
Manager Chatham Gas Co.
Chatham:
Dear Sir,—I have used Coke in my furnace for several seasons, and find it twenty-five per cent cheaper than hard coal. It has not damaged the fire pot and has proved satisfactory in every way. I can heartily recommend it.
Sincerely yours,
D. S. PATERSON

Genuine Gas Coke will hereafter be sold and delivered at \$5.00 per ton, natural size, or \$5.50 per ton, crushed. There are as many heat units in a ton of Genuine Gas Coke as there are in the best quality of hard coal. Why not save the difference?

MONTHLY MEETING

W. C. T. U. Discuss the New Liquor Law—Other Matters Brought up

The regular meeting of the W. C. T. U. was held on Thursday afternoon, but owing to the inclement weather there was a small attendance.

Mrs. Dell, superintendent of temperance in Sunday schools, gave a paper on the work of her department, which contained excellent suggestions, if all Sunday school teachers were "instant in season" in impressing temperance truths upon the minds of their pupils much good would result.

Mrs. Shoemaker presided at the piano and Mrs. Jordan gave a solo, which was much appreciated.

Mrs. Graham, the county president, spoke of the need for extension of the work throughout the county, and plans were made to raise money for this purpose. A resolution was passed strongly condemning certain clauses of the new license act. While certain features of the bill are satisfactory from a temperance standpoint, there are others which are retrogressive and are direct concessions to the traffic. The clauses disapproved of are: Legalizing the sale of liquor on steamboats and on dining cars, to guests at hotels on Sundays; the requiring of a three-fifths majority to pass a local option by-law, which is contrary to British justice and fair play; the shortening of the term of trial of local option, which will make it easier for the traffic; to discredit the working of the by-law and keep the situation more unsettled and unstable, and, while an increase in license fee may be desirable as a matter of economics it is not a temperance measure, experience having proved that high license does not decrease drunkenness.

The secretary was directed to send copy of resolution to Hon. Mr. Hanna and the member for West Kent.

DOMINION HOUSE

Ottawa, April 7.—The Opposition found in the fall of the Laurier tower a splendid opportunity for heckling the Government, and availed themselves to the fullest extent. The Minister of Public Works announced that he had appointed Mr. Curry of Toronto and Mr. Hutchinson of Montreal to make the investigation.

The evening session was quite unruly. It was largely devoted to personalities between Messrs. Bennett and Combes and between Mr. Combes and Col. Sam Hughes. The Speaker repeatedly called the members to order. The House will adjourn from April 11 to April 17 for Easter.

Compromise Ends Controversy.

Vienna, April 7.—After fourteen months' of controversy between the throne and the coalition parties, the Hungarian crisis finally has been settled. Both sides express satisfaction with the result obtained, which appears to be in the nature of a compromise. The Fejervary Cabinet welcomed the overtures of the coalition and thus an agreement was speedily reached. Elections will be held within the proper time and parliamentary Government will be re-established.

No Winners and No Losers.

London, April 7.—In the House of Lords yesterday, replying to a question regarding the Moroccan conference, the under secretary, Lord Edmund Fitzmaurice, said that the signing of the protocol would occur at an early date, if not to-day. He added that when the papers were laid on the table in the House he thought the members would agree to the phrase, frequently used, that there had been "Neither victors nor vanquished," expressed the true situation.

Railway Fireman Killed.

Woodstock, April 7.—Nineteen-year-old Alfred Norwood, a Grand Trunk fireman of Sarnia, was instantly killed Thursday night in the G. T. R. yards. He had completed raking out the ashes from the ashpan, and was crawling from beneath his engine, not noticing the limited, running at thirty miles an hour on the adjacent track. The steps of the engine struck and instantly killed him. Norwood had been firing for about three months.

Forty-Nine Were Killed.

Nagold, Black Forest, Germany, April 7.—A revised list of the casualties resulting from the collapse of the Hotel um Hirschen (Stag Hotel) Thursday, shows that forty-nine persons lost their lives and that fifty were severely injured.

One Year In Central.

Guelph, April 7.—John B. Madill, who was found guilty of attempting to defraud the insurance companies in connection with the Hillsburg creamery, was yesterday sentenced to a year's imprisonment.

Run Over By Train.

Tilbury, April 7.—Fred Webster, a young man from Oil Springs, Ont., jumped from a M.C.R. train in front of another train here last night and had his foot cut off at the ankle.

Norwegian Post Dead.

Bergen, Norway, April 7.—Alexander Lange Kjeliland, Norwegian poet and author, died yesterday of paralysis of the heart. He was born in 1842.

Dead at 123.

Chicago, April 7.—At the extraordinary age of 123 years, Mrs. Philox Rogers, a negro woman, died Thursday at her home here.

McPHERSON PROPERTY BOUGHT;

BUT NOT BY THE COUNCIL

C. J. Ross Steals a March on the City Fathers and Acts While They are Talking it Over

OPPOSITION AT COUNCIL BOARD CAUSED THE DELAY

As exclusively announced in this journal yesterday, the deal the city authorities were trying to make for the McPherson property as a site for the new isolation hospital, is practically off. While they were considering the matter, a shrewd business man got in ahead of them, and has secured an option on the property, which, from information secured by the G. H. J., would seem to hold good.

In last night's account it was stated that Mr. C. J. Ross, Tissiman Ave., who is the purchaser, had an option on the property previous to the city. This was not quite correct, as it seems Mr. Ross had read the account of the special meetings of the Council and the Board of Health in the press, and shrewdly surmised that the city meant to purchase the property. As the city's option of two weeks had expired, he had a legal right to purchase, which he did at once, and it is understood the deed will be turned over to him on Monday. While the authorities were thinking the matter over, Mr. Ross got down to business and purchased the site.

The aldermen had a bewildered and baffled look this morning, when they became acquainted with the facts. The deal had been put

through with such despatch that it literally took their breath away.

Ald. Scullard, when seen by The Planet this morning, was of the opinion that nothing could be done to retain the site. He was of the opinion that the Council should have decided to purchase at an earlier date than they did, but he says that the matter was delayed on account of the opposition put on record by some of the members. The city's lease of the property does not expire till April 13, and, as they will have to receive a month's notice to vacate, they will remain in possession till May 13. This will give ample time to look up another site.

Ald. Scullard was asked if the authorities had any new site in mind. He laughingly replied that the Council will keep all future deals strictly on the quiet until such time as a settlement is arrived at.

Some of the citizens state that it is just as well the deal fell through, anyway, as the site is not altogether a favorable one for an isolation hospital. A prominent local physician says that the surroundings are not quite as congenial as they should be where sick people are to be confined, and besides, it is alleged that in times of heavy spring freshets the high water is a menace.

ANOTHER NOTICE IT IS FELT HERE

An Interesting Point of Law Brought up in the Drainage Court

A very interesting point of law came up recently before Drainage Referee J. B. Rankin in the case between Brooke and Warwick, two townships in the county of Lambton.

The township of Brooke wanted to appeal from the report of Engineer Jones in respect to a drain initiated by the township of Warwick. The statute provided that such appeals must be entered by the service of a notice on the head of the corporation, which in this case was the Reeve, within thirty days.

Instead of serving the Reeve, however, the township of Brooke served it on the Clerk of Warwick and Warwick took objection and moved to have the notice set aside.

The Referee refused to give effect to the motion and held that he had the power to give to the appealing township liberty to serve a notice now, as the thirty days had elapsed. He made an order to-day allowing Brooke township, giving a new notice to be served on the Reeve now, as though it had been served within thirty days, Brooke to pay all costs. Mr. E. G. Gurney acted for Brooke and J. G. Kerr for Warwick.

A REMARKABLE RECORD

Dr. John McVittie Drivers, who entertained the patrons of the Chatham Lecture Course so well the other evening, has had a phenomenal record during the season just closing. He has been on the lecture platform every night, Saturdays included, since September 28th last, with the exception of six nights. He returns to Chicago on Sundays, where he preaches every Sunday morning. His contract prices for his lectures this season amount to \$15,000, of which \$3,000 is paid out in travelling expenses. In June, July and August he lectures in the Chautauques in the South, and takes his holidays in September. He has been twice "round the world," spending a year on each occasion, and intends to make a third and last tour. He is a novelist of repute. Purple Peaks Remote was one of the successes of last season. He has two others in preparation.

When interviewed at the Garner after the lecture on Wednesday night, he was asked how he would spend his time from 11 p. m. till 1.13 a. m., when he was to take the Wabash for Chicago. His reply was that he would keep himself awake by writing six or eight pages of one of his novels.

Having travelled so extensively and observed so closely, he is a most entertaining conversationalist. In manner he is most affable and talks with delightful ease and grace of diction.

FIRST FRESH FISH

The first shipment of fresh fish for the year was made from here on Tuesday, via Dominion Express, by Mr. Louie Lorison, of Mitchell's Bay. He came in with 19 boxes of mixed fish and shipped them by the evening express, Tuesday.

Mr. Lorison is well known as one of the most enterprising as well as one of the most honorable fishermen on the lake front. Last year his shipments totalled up to a very large amount, and he expects that this year will succeed all former ones.—Wabash Herald.

OIL IN TILBURY TP.

A Number of Fine Wells Have Been Struck—A Few Notes

Three new wells have been commenced in the vicinity of the pumping station at Wheatley. One is being bored by Shafer, one by Scarlett and the third by a West Virginia company. These wells are principally being put down for gas and the company intend to start a lamp black factory.

W. C. Crawford, of Tilbury, has oil leases on about one thousand acres of land within a reasonable distance of the producing wells at Stewart. The lands are strictly on the "incline" and would appear to be first class propositions. Mr. Crawford is a progressive and far-seeing business head and always comes in on the ground floor in any new enterprise.

The well on the Smith farm is said by Mr. Miller and other oil men to be the best well in the field. Drilling operations are not quite completed there yet owing to a little difficulty on Wednesday which resulted in a crooked hole. This will have to be plugged in with stone and drilled in straight again. Oil men are confident that this will be a far superior well to any yet in the field. The oil-bearing vein is, judged from the appearance of this well, to be running south and east. It is expected that this well will be shot on Friday, and Mr. Miller assures us that 200 quarts of nitro-glycerine will be used at this shooting. This shot will be as much as was used in both of the other wells.—Merlin Mirror.

BLACK PATTI TROUBADOURS

From the Detroit Free Press of April 2nd—

The celebrated colored organization, known as the Black Patti Troubadours, occupies the stage of the Whitney Theatre this week. Messrs. Voeckel & Nolan, who projected the enterprise about ten years ago, are men of business acumen, large exper-

club swingers and hoop rollers. Harry Kraton's work especially is of the first grade. Comedian Rucker does an amusing monologue; Wall and Bradley introduce grotesque singing and sayings; Harry and Laura Brampton contribute a refined musical specialty; and "Southland Scenes" brings many of the principals and all the members of a lively chorus and ballet forward in a pleasing plantation entertainment.

Henry Carter's arrangement of "Pinafore" is last on the list of good things, with Mrs. Black Patti Jones as Josephine, and other principal roles by James P. Reed, Richard Barrett, Charles Bougla, Mamie Carter, J. T. Wall and Jeannette Murphy. Their rendering of the spirited Sullivan music is artistic.

Black Patti Troubadours play Chatham Monday night.

HOYT'S "A BUNCH OF KEYS." Take a series of clever complica-

A BUNCH OF KEYS

ience in the music field and knowledge of the showman's craft. Their company takes its name from Siseretta Jones, whom somebody, in a happy moment, described as the Black Patti. The phrase has clung to her as tenaciously as John Brown's characterization of Lotta in 1864 as "a dramatic cocktail," followed that inimitable performer on her road to riches and renown. Mrs. Jones has a voice of unusual range and power, and it seems to be of as good quality now as it was when she first came before the public. Her efforts yesterday were vociferously and enthusiastically applauded.

The first part consists in a musical farce, entitled "Looney Dreamland," a travesty on that unaccountable of the numerous company appear. The leaders are John Rucker, a comedian of ability, John Green, J. T. Wall, Al. E. Whitt, Richard Barrett, Maria Le Cuis, Chas. Bougla and Will A. Cooke. This is followed by an olio and a condensed version of "Pinafore."

The best feature of the olio is the act of Harry and Etheline Kraton,

tions, add a bunch of comedians, stir a handful of catchy songs, mix with several shapely chorus beauties, place upon a stage dressed with handsome costumes and you have the average farce comedy. Take all the above and add to them the magic of Charles H. Hoyt's name and "A Bunch of Keys" easily makes the fun-making vehicle of the decade. Manager Briscoe, of the Grand, has secured it as the attraction for Thursday, April 12th, when only one performance will be given. No farce comedy has been presented with success so continuously and none deserves better appreciation.

"Mexicana," the torridly tropical comic opera, which will be given a spectacular production under the direction of the Messrs. Shubert, at the Grand Opera House on Good Friday, with a big cast of favorites, is a humorous and tuncful picture of certain picturesque phases of life in the republic across the Rio Grande. The chorus, one of the liveliest and prettiest ever gotten together, has a most imposing and catchy ensemble numbers.

ANOTHER WONDERFUL CASE— Here is Something That Will be Welcome News to Many a Discouraged One.

Wm. H. Krehd.

"For several years I have been troubled with gas around my heart, shortness of breath, in fact, if I walked my usual gait my breath would get so short I would be compelled to make several stops during my walk."

"Of late my food did not digest properly. It turned sour in my stomach, causing me great distress; often, too, I had disagreeable attacks of belching gas and heartburn. I was bothered with severe pains across the small of my back and the least bending or turning would cause me to almost cry out."

"I was induced to try Dr. Leonard's Anti-Pill and from the very first found relief."

"For the last three months I have had no recurrence of my former complaints, so I am bound to say Anti-Pill has indeed cured me."

"This is the voluntary statement of Wm. H. Krehd, of 165 Queen St., Kingston, Ont."

BOOKS AND MAGAZINES

REVIEW OF KEITH'S MAGAZINE—EASTER NUMBER.

The Annual Double Easter Number of Keith's Magazine just received. This very handsome number of 100 pages is devoted to Country Homes and Summer Bungalows. It is profusely illustrated with some of the choicest examples of Country Homes and Summer Cottages, with many interior views and illustrated articles on decorating and furnishing homes.

The principal contributors are Ursula Nixon Hopkins, on "The Evolution of the Bungalow Craze"; a building experience by John P. Shirley, "How I Built a Sea-side Home"; a description of a number of "Low Cost Bungalows"; "The Evolution of a Country House" by N. Saunders Mann; and "Suggested in Household Embroidery" by Eleanor A. Cummins. There are over fifteen houses with complete descriptions and floor plans shown. These designs for the home builder are by leading architects and are representative of some of the best talent.

Subscription price \$1.50. Published by Max E. Keith, Minneapolis, Minn.

AN EASTER NUMBER.

The Easter Canadian Magazine, with its excellent colored cover and its attractive colored printing, is one of the best issues of this publication. Canadian periodicals generally are showing considerable improvement, as might naturally be expected with the growth of the country and the development of our national life. Such a number as this could not have been produced in this country ten years ago.

The historical and analytic article on the Grand Trunk Pacific is important, and is rendered attractive by the liberal use of photographs and portraits of the proposed line and portraits of the directors of the project. The stories are by W. A. Fraser, Herman Whitaker, Marjorie Jarvis, Mauriel Merrill and Mrs. Campbell Praed. All are Canadian writers with the exception of Mrs. Praed, who is an Australian.

A STRONG HEART AND STEADY NERVES

Very important it is in this age of competition to have a clear cool head, a strong heart and steady nerves. Too much rush and bustle, work and worry, fall to the lot of the average business man—his heart and nerve system will not stand it—he gives them too much work to do. Women also are doing the same thing attending to their household duties and looking after their social obligations. The constant strain under which they have to continue day in and day out, the irregularities of habits and loss of rest will soon shatter the strongest system. Before long you become nervous, starting at the least sudden sound, the heart flutters and palpitates, speaks fast before the eyes, the pulse becomes weak and irregular, you have faints and dizzy spells, lack of self-confidence, rush of blood to the head, irritability of temper, shortness of breath, starting in sleep, sensation of pins and needles, sleeplessness, restlessness and finally physical breakdown or nervous prostration.

MILBURN'S HEART AND NERVE PILLS

are the remedy you require to restore your strength and health. Their extraordinary curative power manifests itself immediately they are taken. Through the medium of the nervous system they impart a strengthening and restorative influence to every organ and tissue of the body. Many have been cured, among them being Mr. Ray V. Coomer, Wellington, P.E.I., Mrs. E. Kline, Humberston, Ont., Mr. C. McDonald, Portage la Prairie, Man., Mr. Walter Cleveland, Baywater, N.S., Mrs. Owen Martin, Alma, N.B. and thousands of others.

The price of Milburn's Heart and Nerve Pills is 50 cts. per box or 3 boxes for \$1.25. Can be procured at all drug and general stores, or will be sent on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

It is a good rule not to repeat that which you feel is not entirely the truth.

Remorse of the morning-after variety doesn't last long enough to do much good.

ABOUT RHEUMATISM.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which the medical profession has been so varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. On application of this Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

BLENHEIM

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Mr. Charles Cummings and family have moved to Chatham.

Messrs. G. Purser and John Collins were in Chatham on Tuesday.

A very enjoyable supper and entertainment was held in the church here.

Mr. Robt. Lewis is in Chatham making some alterations in the store the Messrs. Cummings are going to occupy on King St.

A BAD BRUISE

Often causes a good deal of trouble. The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes all blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard family liniment of Canada.

The days are getting longer but gas meter doesn't seem to have found it out.

SELF-CONTROL'S VALUE

WHY THIS VIRTUE IS SO IMPORTANT FOR A SUCCESSFUL LIFE.

RULER OF HIS OWN SPIRIT

Man Who Can Capture the Citadel of His Own Heart and Hold His Will and Life in Subjection to the Higher Law Hath Done a Noble Work in Himself—A Vivid Comparison.

Entered according to Act of Parliament of Canada, in the year 1906, by Frederick Dyer, Toronto, at the Dept. of Agriculture, Ottawa.

Los Angeles, Cal., April 1.—In this sermon the preacher deals with one of the familiar evils of our social and business life, the curse of ungovernable temper, and shows how the untiring energy of those who are victims of the habit may be transformed into a blessing. The text is Proverbs xvi, 32, "He that is slow to anger is better than the mighty and he that ruleth his spirit than he that taketh a city."

Popular enthusiasm is most easily kindled when the admiring multitudes are allowed to bend the knee before a human idol clothed in a soldier's uniform. The most inspiring call for common people is the bugle blast sounding the cavalryman's charge. "This true, the most beautiful monument of Edinburgh is the one erected to Sir Walter Scott, the writer, and in London it is the one erected to Prince Albert, Queen Victoria's consort, and in some respects the most conspicuous monument in Brooklyn is that erected to the memory of Henry Ward Beecher, the preacher. But here there is one monument erected in prominent cities to the memory of a statesman, a scientist, a poet or an artist there are five, ten, twenty monuments erected to the memory of military heroes. It is right to honor the hero of the field, the victor of the battle, the defender of the citadel, but the heroes of peace should be honored also.

King Solomon recognizes this fact in the words of his text. He is not deprecating such triumphs as that of Cyrus, who 600 years later laid siege to the city of Babylon and captured it by turning the Euphrates river from its course and by marching under the city gates by night, when the King and his courtiers were benumbed at a drunken carnival. He is not sneering at military genius such as was displayed by Titus, who captured Jerusalem in 70 A. D., but he is exalting the noble work of a man of God who can capture the citadel of his own heart and hold his will and life in subjection to a higher law. So to-day I want to show you why self control is so important for a successful life and why "he that is slow to anger is better than the mighty and he that ruleth his spirit than he that taketh a city."

The ungovernable temper is to be dreaded and feared. For the time being it underlies a man's thinking and reasoning powers. It may even become suicidal. It puts a man in the unenviable position of fighting against and destroying himself. As a snake when teased by an enemy cannot reach will in its frenzy bury its poisonous fangs in its own body, so the slave of ungovernable temper becomes the victim of his own rage and obsession. The brain in its action is very similar to the organs of the body. All its different parts are interdependent, as the heart, the brain, the kidneys, the lungs and the stomach act and react upon each other. When the heart stops its regular steady pumping, then every other organ languishes on account of this weakness. Then the water of the blood exudes through the tissues, and drops sets in. When the lungs cease to do their work, then the digestive apparatus is affected. Stomach trouble can cause nervous prostration. Once get the nerves out of tune and you may have nervous dyspepsia. The organs of the body are like the under stones of a great arching bridge. Take away any of the substones and the whole arch tumbles into a ruin. Such is the interdependence of the different parts of the brain. Let the will power once lose its grip and the reasoning faculty, or the seat of judgment, is gone. Then a man in his actions and words becomes like a runaway horse taking the bit in his teeth. He is just as apt to smash against a stone before he reaches a precipice or to dash before the onrushing locomotive as he is to keep the straight road of safety.

At such times a man will do something on the spur of the moment which he is apt to regret all the days of his life. He is like a drunkard drawing a knife in a saloon brawl. He is like a general entrenched in some impregnable Gibraltar who deliberately opens the gates and makes a foolish retreat. He is like an army which goes off and leaves its fortress unguarded to be pounced upon by a waiting foe.

Now, life under the very best of conditions is such an awful and a close struggle that you and I cannot afford to make any mistake on account of an ungovernable temper. When we are in conflict with a skilled foe we cannot afford to let our contempt get the better of us, as did Goliath when he went forth to attack David. If you do, just as sure as you live you will place yourself at the mercy of your antagonist. When you are preparing for life's work because something goes wrong or an injustice has been done you have no right to lose your temper. Every time a man lets his anger get the better of him he does not injure his enemies nearly as much as he damages himself. If you would learn to influence over others, you must be great in your power over yourself. This means that, no matter how great the provocation, you must learn to suffer injustice in silence. You must learn to bare your back for a castigation if you deserve it and grimly hold your tongue even when the lash is flogging the heart's blood.

The ungovernable temper is to be dreaded and feared for a second reason. No sooner does a man lose his temper than he drives from his side those who would naturally come forward as his defenders. He spikes the guns of those who would be his protectors. All through the world there is a desire to see fair play. If when going down the street you see a big boy whipping a small boy your natural

Twenty-Eight Army Generals Send Letters of Endorsement

To Dr. Hartman, the Inventor of Pe-ru-na.

No other catarrh remedy in the world has received such unstinted eulogy from so many renowned statesmen and military men as Peruna.

Gen. O'Beirne of Washington, D. C., writes: "As many of my friends and acquaintances have successfully used your Peruna as a catarrh cure, I feel that it is an effective remedy, and I recommend it as such to those suffering from that disease as a most hopeful source of relief."—James R. O'Beirne, 200 Broadway, Washington, D. C.

General S. S. Yoder of Ohio, writes: "I have found Peruna to be a wonderful remedy. I only used it for a short time and am thoroughly satisfied as to its merits."—S. S. Yoder, Washington, D. C.

Brigadier-General Kirby writes: "I can recommend Peruna to all those who are afflicted with catarrh."—D. T. Kirby, Washington, D. C.

Brigadier-General King of Confederate Army, writes: "I unhesitatingly state that I am convinced Peruna is a medicine that will effect all the cures that are claimed for it."—J. Floyd King, Washington, D. C.

General Smalls, Beaufort, S. C., writes: "I have used Peruna for catarrh trouble and find it beneficial and to be all that it promises, and freely give it my unqualified recommendation."—Robert Smalls.

General Abbott of Washington, D. C., writes: "I am fully convinced that your remedy Peruna is an excellent tonic. Many of my friends have used it with the most beneficial results for coughs, colds and catarrhal troubles."—Ira C. Abbott, 906 M St., N. W., Washington, D. C.

Captain Yarnell of Washington, D. C., writes: "Your medicine, Peruna, I believe to be the best medicine for catarrh on the market. I have taken only a small amount, and can see very beneficial results."—W. G. Yarnell, 2329 Lincoln street, N. E., Washington, D. C.

General McBride of U. S. A., writes: "I have no hesitation in recommending Peruna to all persons who are afflicted with catarrhal troubles."—J. D. McBride, 450 Pennsylvania Ave., N. W., Washington, D. C.

General Noske of O. V. U., writes: "I commend Peruna to those who are troubled with colds, producing catarrh, as a most efficacious cure and as

to take the small boy's part. And so in this great wide world if the masses of people see that you are being abused they will take your side if you yourself are willing and ready to suffer in silence.

The ungovernable temper is to be feared and dreaded for still another reason—the bitter tongue never made an enemy's sword. The angry retort never blunted an enemy's sword or threw him off his guard or made him have read about a great ambassador that even the grand vizier of the Turkish Sultan would tremble before him. He would rush into the Turkish official's presence and say, "I tell you, it must be done, or else our warships will soon be bombarding your capital!" But that is not the way you are going to make our enemies bow before us. We will not subdue them by torrents of invective, but only by kind words. "It is the angry tongue that breaketh the bone," says the Bible. Oh, no! "By long forbearance a prince is persuaded, and a soft tongue breaketh the bone." Ah, my friends, do you want to overcome your enemies, do you? Then do it not with a sledge hammer, but with the power of kindness. When a person hates you or ill treats you, then systematically go forth to win him over by love and forgiveness.

I was never more impressed with what love and kindness can do than when studying the life of Lincoln. His gentleness did more to save the country and give us a reunited north and south than all the bullets ever fired or all the swords ever drawn. His policy of conquering by gentleness was beautifully illustrated by an incident told

No Sleep For The Kidneys.

Old people are especially liable to kidney and bladder irritation. The organs are weakened by age. This starts up inflammation—blood is not properly purified as it goes to the kidneys—and the bladder is unable to retain the urine properly. There is a constant desire to urinate day and night—and sound, restful sleep is unknown.

Gen. Henderson of Washington, D. C., writes: "Peruna has been used in my family with the very best results, and I take pleasure in recommending your valuable remedy to my friends as a fine tonic and effective cure for catarrh."

Maj. Gen. Armstrong of Washington, D. C., writes: "As many of my old comrades and friends have been greatly benefited by the use of Peruna for catarrhal troubles, I heartily join in their endorsement of its curative qualities."

F. C. Armstrong.

General Pettys of the U. S. A., writes: "It affords me pleasure to say that some of my patients who have used Peruna as a tonic and also for catarrhal troubles, have been greatly benefited by the same. I am satisfied of the excellence of the same."—Charles Pettys.

General Legg of Washington, D. C., writes: "I take pleasure in endorsing the many recommendations I have heard and read of Peruna, because of having had knowledge of the truth of so many of them."

"We always tell our sick and ailing friends of the remedies that we have learned, from experience, were good for us when ailing in the same way, and we do it as a duty we feel that we owe them."

"Why is it any the less our duty to advise all the people we can when we know of a good and comparatively inexpensive remedy that makes many cures, and benefits in almost all cases?"

"My own little personal experience of being relieved of deafness, caused by a stage of catarrh, warrants me in advising all the afflicted to just try Peruna."—A. M. Legg.

Col. Shatswell of Washington, D. C., writes: "I commend Peruna as a most agreeable as well as effective medicine. Catarrh and catarrhal colds are checked and generally cured by a judicious use of it. It is a good promoter of digestion and is an excellent remedy for a weak stomach. It tones up the appetite and is not at all disagreeable to take."

Nathaniel Shatswell.

Captain Jackson of Washington, D. C., writes: "I am eighty-three years old, a veteran of the Black Hawk, Mexican and Civil Wars. Some years ago I was seriously affected with catarrh of the stomach. After the use of three bottles of Peruna every appearance of my complaint was removed."

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Will you not now begin systematically to curb your evil temper as a general rule? You say you are not able to do it in your own strength. That is true, but by the help of Jesus Christ you can conquer. And let me encourage you by reminding you that this temper is a proof of stoned up energy, which, if by the help of God you can bring under control, will fit you for useful service in his cause. Are you not ready to say, Oh, master, take my temper and rule it henceforth by thine own loving power?

What are the causes of an ungovernable temper? There are two, and both are directly or indirectly for the most part attributable to the parents of the man or woman having the vile temper. Father and mother sometimes are too lenient with their children when they raise them. They do not make their children obey. They do not teach them that "yes" means "yes" and "no" means "no." When their children begin to cry or to pout or to sulk for something the indulgent mother and father say, "Oh, well, go ahead and do it, if that will stop your crying."

The result is that many children never learn to subject their wills to a higher will. Allowed to indulge in fits of temper as babies, they are learning how to sulk as men.

As spoiled children they kick and scream because they cannot have what they want, and as adults they will lash themselves into fury when they do not get what they want in the home or in the store. Solomon was right when he said, "Train up a child in the way he should go, and when he is old he shall not depart from it."

A large percentage of ungovernable tempers can be charged directly or indirectly against wrong parental training. Teach your children to obey. Teach them to recognize other people's rights, as other people must respect their rights.

The next great cause of the ungovernable temper is the custom of teasing, which is to be seen everywhere around us and especially in the home. We find boys teasing boys, girls teasing girls, men and women teasing children, and even fathers and mothers delighting in tantalizing their own babies. We find that people are often more pleased at hearing others cry and stamp their feet in rage and seeing their eyes flash and their fists clinched than in seeing them smile and be happy. Beware, O man, how you make the angry passions of some one else leap and blaze! Remember that you cannot be true to your loved ones if you suffer their baser passions to assume the sway.

In closing, I would again read to you my text, "He that is slow to anger is better than the mighty and he that ruleth his spirit than he that taketh a city." You see, it is written in the present tense. It means for you to learn to govern your temper now. Perhaps by habit of past training you have been guilty of this sinful habit.

am in great trouble. Can I come and see you at once?" "Yes," I said; "jump down he enter my parlor than his eyes filled with tears, and his lips trembled as he said, 'Mr. Talmage, my wife and my two daughters have left me, and I want you to help me to get them to come back.' 'Do you drink?' I asked. 'No, I never drink.' 'Are you a gambler?' 'No,' he answered. 'Are you untrue to your marriage vows?' 'What is the 'No,' he again answered. 'What is the 'No,' I will tell you.' Then he told me a long story. He was a very nervous man and therefore very quick-tempered. There had been a family quarrel, and the mother had taken the two girls and left the house. 'And, oh,' he said, 'I do love them so much and I am so sorry. What am I to do? Will you help me?'

"No," I said, "I will not. I admire your wife for taking the girls and she has done. As far as I can make out, you have again and again threatened her life." He said, "Yes, I have." You have been going off in your ugly fits of jealous rage for at least a year or two. You work yourself up into a perfect pandemonium of fury. You are an unworthy husband, and there is no excuse for your actions. The wonder to me is that your wife has lived as long with you. You go to a boarding-house and get a room and live there alone long enough to prove that you are sincere in your repentance. Give part of your weekly wages, and I will see the two girls and that money will help her support her daughters.

How glad I am that I confided in you and wrote for your free sample package. The sample package I got from you checked my drinking, and before I had used the full treatment I was permanently cured. I gave him the remedy in his tea, and he had no taste or smell, he never knew he was taking it. I want others to know! so you can use this letter, but please not my name yet. I may say that my husband's health is better in every way than for years.

Humor and Philosophy

ANTICIPATED.

Come, gentle spring.
I sing
To you far enough in advance
So as not to take a chance,
Because
The applause
Rings keener and more true
When you
Are out of sight.
And right
Here I might observe among friends
That distance lends
Enchantment, but it won't yank
Any interest out of the bank.
When you are not in sight
We write
Poetry and rave,
But we cave
And take it all back
When you get us on the rack.
I don't like to knock,
But your stock
Doesn't get any higher
As you draw higher.
You break the spell,
For, truth to tell,
It falls with a dull thud
In the mud.
We call you gentle when you are
Not around;
But, confound
Your elusive ways,
The praise
Dies on our lips
As the grip grips!
We know of old
That you have a cold
Tucked away up your sleeve for us
Plus
Other ills too numerous to mention.
Your intention
May be all right,
But your bite
Is not all that could be desired.
That is why we are inspired
To sing before you're pulled off.
For then all we can do is to cough.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-regulated their stomachs by late eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demands for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and growing and used rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Scone root, Blackroot, Mandrake root. Then there is Black Cherry bark. The medicinal principles residing in these roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy. Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

FIFTY-FIVE KILLED.
One Hundred Dangerously Hurt and 25 Missing in Collapse of Hall.

Berlin, April 6.—A large hall attached to the Hotel Blackstag, in Nagold, South Germany, collapsed yesterday while the place was crowded with members of a local association who were celebrating an annual fete.

Fifty-five persons lost their lives, and seventy were dangerously injured by the collapse.

Nearly 200 persons were buried in the ruins. The building had not been fully completed, and the catastrophe is attributed to the non-observance of proper precautions. Up to 10 p. m. yesterday 55 bodies had been recovered and 100 wounded were being treated.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

INTERNATIONAL BIBLE LESSON FOR TO-MORROW.

Jesus and the Sabbath.—Matt. 12, 1-14.

Golden Text—"Remember the Sabbath day to keep it holy."

Jesus said, "I am not come to destroy the law but to fulfil." He did not set aside the ten commandments, but unfolded their deep, spiritual meaning. See Ex. 31, 13. Verily my Sabbaths ye shall keep; for it is a sign between me and you throughout your generations. Read Ex. 20, 12-20. Because Israel did not observe the signs the wrath of God fell upon them. Read Neh. 13. The awful woes predicted, recorded by the prophets, proves the great importance God placed upon the observance of the Sabbath. God's mind is unchanged, and although 2,500 years have passed will He not be responsible for our treatment of Sabbath ordinance, and if He humbly bleth His people Israel by national destruction and 70 years of captivity, how shall Christendom escape? Is not the first day of the week to the majority a holiday rather than a holy day? A day of selfish pleasure, rather than one on which to use the leisure to worship God and learn of Him in private as well as in public, and to teach others of Him.

The Lord Jesus maintained the righteousness of doing good on the Sabbath.

Veres 9-14.—In the synagogue on another Sabbath, when the man with a withered hand is healed, God would be glorified in His Son, and "Jesus said, stretch forth thy hand, and he stretched it forth, and it was restored whole as the other." His enemies recognized the lawfulness of the leisure to worship God and learn of Him in private as well as in public, and to teach others of Him.

THE HARWICH AFFAIR

At noon to-day The Planet had a visit from two school trustees from Harwich, who claimed to be the men referred to in a recent issue of this journal, in reference to a row and fight which occurred the other day at a Board meeting.

Both gentlemen were very much annoyed at the publicity given to their actions, and their mode of settling disputes. They admitted that the Planet that they had had a quarrel, which resulted in a fight with fists, but they claim that no blood had existed between them before the "scram" came off.

The time was 7.30 in the evening instead of in the afternoon, as stated; at least, they claim it was.

Both gentlemen were sorry the matter got out, as neither of them are, as a result, the worse of the affray, and are, in fact, now close friends.

The matter has spread over the whole township and the participants in the row wish it understood that things are going on quite smoothly at present in their district.

The Health Officers state that the small-pox epidemic is now well in hand, and that the patients are doing well. The persons who were quarantined were naturally very much annoyed over the publicity resulting, but they have since been consulting with the authorities, and making an effort to be as little trouble and expense to the city as possible. The persons quarantined have been isolated in a different section of the city actually affected with the malady.

Mr. Robert Gray, of the firm of Wm. Gray & Sons Company, informs us that, though not notified in any way to expect the Englishmen who lately arrived in Chatham, that the firm has already given employment to six of those strangers, and gave work to Mr. Wooding, the man of whom mention was made in last night's paper as having been sent this country through an emigration agency.

Ghosts would frighten many people who are not afraid of germs. Yet the germ is a real danger. If this microscopic animalism could be magnified to a size in proportion to its deadliness, it would show like a giant python, or fire breathing dragon. The one fact to remember is that the germ is powerless to harm the body when the blood is pure. It is body when the blood is pure. It is far easier to keep the germ out than to drive it out after it obtains a hold in the system. Dr. Pierce's Golden Medical Discovery is the most powerful and perfect of blood purifying medicines. It increases the quantity as well as the quality of the blood, and enables the body to resist disease, or to throw it off if disease has obtained a footing in some weak organ. Whenever the digestion is impaired, the nutrition of the body is diminished, the blood is made from the food which is eaten, and half digested food cannot supply the body with blood in quantity and quality adequate to its needs. For this condition there is no remedy equal to "Golden Medical Discovery." It cures ninety-eight out of every hundred persons who give it a fair trial. When there is constipation Dr. Pierce's Pleasant Pellets will promptly relieve and permanently cure.

A Vindication for Dr. Pierce

Decision by the Supreme Court of the State, Against the Ladies Home Journal.

A verdict has been rendered in favor of the plaintiff in the libel suit brought against the Ladies Home Journal (published by the Curtis Publishing Co.) by the World's Dispensary Medical Association, of which Dr. R. V. Pierce is President. The suit was brought by Dr. Pierce against the Curtis Publishing Co. for making false statements about one of its standard family medicines, known as Dr. Pierce's Favorite Prescription. In the May number of the Ladies Home Journal (1906), Mr. Edward Bok, the editor, stated that Dr. Pierce's Favorite Prescription contained alcohol and some other harmful ingredients. Dr. Pierce had in the action alleged that the defendant maliciously published an article containing such false and defamatory matter. Dr. Pierce further claimed that no alcohol is or ever was contained in his "Favorite Prescription" that said medicine contained no deleterious ingredients whatever; that Mr. Bok's statement, pretending to give some of the ingredients of said medicine, was wholly and absolutely false. During the trial, the World's Dispensary Medical Association stated that the ingredients of Dr. Pierce's Favorite Prescription were extracted from the following native roots: Golden Seal, Blue Cohosh, Lady's Slipper, Black Cohosh, Eryngium, by means of pure glycerine. He was asked how he knew, as a physician and experienced medical man, that the "Favorite Prescription" was a curative for diseases peculiar to women, such as amenorrhea, dysmenorrhea, ante-version, retro-version, and he stated that he knew such was the fact because of his professional experience and the many thousands of women who had been cured by this "Prescription." The Vice-President, being asked to give his authorities, read from the standard works, such as the United States Dispensary, The American Dispensary and many other standard medical books. The retraction printed by the Curtis Publishing Company two months after the libelous statement appeared and nearly two months after the suit had been begun stated that at their request and that the "Favorite Prescription" did not contain either alcohol, opium or digitalis.

CLASH AT LETHBRIDGE.

Non-Union Miners and Constable Fitzgerald Probably Fattally Hurt.

Lethbridge, Alta., April 6.—Yesterday some of the strikers came within the police pickets to persuade non-strikers to quit work. The police ordered them out, but the strikers refused to go, and when the police attempted to arrest them, 200 or 300 strikers came running down to aid their friends. As no officer was on hand to read the Riot Act, the police could not use their guns and free fight followed. Several men were hurt. L. Albert, a non-striker, was struck with a stone thrown from the crowd, and it is feared he is fatally injured.

Finally the strikers were driven back, and two leaders arrested.

Wednesday night Constable Fitzgerald was probably fatally wounded when the houses of Joseph Oros and Steve Ungary, both non-union miners, were dynamited.

Cars Stopped At Winnipeg.

Winnipeg, April 6.—Trouble broke out again in Winnipeg last night, when, for the first time since the strike started, the company tried to run cars after dark. The first cars out after 8 o'clock were stoned, and motemen and conductors chased. The next two cars along Main street were stopped opposite the Strathcona Hotel. One car had two women in it, but the crowd gallantly left it alone and attacked the other, severely badly wrecking it. The company withdrew its few cars at 9 o'clock. One car was stalled near the C. P. R. station after being stoned by a mob, and it would have been burned if the police had not guarded it for several hours.

The mediation of clergy and city council has apparently failed and to all appearances the company is preparing for a long fight.

Propose Arbitration.

New York, April 6.—Arbitration is proposed by the anthracite miners, whose general scale committee held another session with the representatives of the operators in New York yesterday. The operators will answer on Monday.

Strikers Attack Factories.

Abbeville, France, April 6.—The striking locksmiths of Pressenville Wednesday sacked the residences of employers and foremen, set fire to the furniture, prevented the firemen from extinguishing the flames, and smashed the machinery and the factory windows. Reinforcements have been ordered to Pressenville.

THE SUNLIGHT WAY

RUB ON SUNLIGHT SOAP

LEAVE 30 TO 60 MINUTES

RINSE WELL

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Hard rubbing and boiling are things of the past in homes where Sunlight Soap is used as directed.

Sunlight Soap will not injure even the daintiest fabric or the hands, and the clothes will be perfectly white, woolens soft and fluffy.

The reason for this is because Sunlight Soap is absolutely pure, contains no injurious chemicals—indeed, nothing but the active, cleansing, dirt-removing properties of soap that is nothing but soap.

5c. Buy it and follow directions. 5c. YOUR MONEY REFUNDED by the dealer from whom you buy Sunlight Soap if you find any cause for complaint.

LEVER BROTHERS LIMITED, TORONTO

Gifted, He Suicides.

Frank, Alta., April 6.—Corpl. E. W. Kimberly, in charge of "F" Barracks at this station, committed suicide yesterday morning by shooting himself in the mouth with a revolver. The act was committed while he was seated on the edge of his bed in the barracks. He had been jittered.

McCraw to Be Hanged.

Three Rivers, Que., April 6.—Wallace McCraw was sentenced yesterday to hang on Friday, June 29 next, in the jail yard here, for the murder of Percy Howard Slater.

Thanks to Dr. Goldwin Smith.

Toronto, April 6.—The members of the University Commission have concluded their labors and the report is now in possession of the Government. Prior to dissolution a vote of thanks was moved by Sir William Meredith and seconded by B. E. Walker, to Prof. Goldwin Smith for having placed "the Grange at their disposal, thus enabling the commission to conduct its inquiry and deliberations with the privacy that was essential to the work upon which it was engaged."

THROUGH THE HEART!

WHEN THE NERVES BECOME A WRECK AND VITALITY RUNS LOW BECAUSE THE HEART FAILS TO DO ITS WORK—THROUGH THE SELFSAME HEART—IF CURE COMES—MUST IT COME

Dr. Agnew's Cure for the Heart

Cures the nerves through the heart. Experience of the highest medical authorities has conclusively proven that the quickest way to cure diseases of the nerves is to fortify the heart with "food" that is natural to it, and that enriches the blood; and it has been proven also, beyond the shadow of a doubt, by this same high medical authority, that Dr. Agnew's Cure for the Heart is the most potent nerve nourisher and heart strengthener that has been "gathered in" from nature's lap to assuage sufferings, stop pain and heal the heartsick; and when you know that with the heart, the main spring, the balance wheel of life, out of order, the future looks out on nothing but darkness and suffering, why postpone applying the remedy? Why delay taking hold of the healing hand that will lift you back to health? Dr. Agnew's Cure for the Heart will relieve any and every form of heart disease in 30 minutes.

Margaret Smith, of Brussels, Ontario, says: "Many a time my suffering was so great that I would have hailed death with a welcome, but four bottles of Dr. Agnew's Cure for the heart wrought a wonderful cure in me."

TALE OF AN ANTIQUE RUG

By Edith M. Doane

Copyright, 1905, by E. C. Parcells

I am a prayer rug—an antique Gheordex, my master calls me—and I lie in a corner of the library before the shelves that hold his choicest books.

The morning sunshine envelops me when I find myself in the library, in a rich flood of yellow splendor; in the evening the blazing logs in the fireplace caress me with flickering shafts of golden light; at night I lie in the soft darkness and dream happily of the days of my youth.

Allah is good. I am content.

I was an old rug, worn smooth by the bare feet of the faithful, even before I was taken from the temple and brought to this strange country across the seas. For months I lay in dark, evil smelling places, before that day when I found myself once more in the blessed sunlight amid a babel of strange sights and sounds. The worshippers in this new temple swayed and jostled each other noisily; the priest waved his arms madly. "Going, going, gone!" he cried. "Going, going, gone!"

Aside from the crowd, in the corner where I lay, two men were standing. One talked earnestly to the other, who listened with a certain embarrassment.

"Her what you have told me," said the first, "Go home to her now. Get down on your knees and tell her that you've made all kinds of an ass of yourself and you know it. Beg for her forgiveness. Beg for one more chance. Beg for the boy's sake, to be allowed to try again."

The other man flushed deeply. "I have not been home for weeks," he said huskily. "I couldn't. I've done about all the evil a man can do—except that I couldn't go from that other crowd to her and the boy."

"But you are done with all that now," protested the first eagerly. "You have had your fling, and you've found it

ed and entreated," he read dully, "and now I have gone where I shall at least be spared the insult of your presence. You have ruined my life and your own, but the boy shall be saved."

Under the small square envelope was a long white one. "Her lawyers," he repeated monotonously, opening it and stumbling mechanically through its legal phrasing.

Then he threw himself in a chair and buried his face in his arms on the table.

"Oh, my God!" he sobbed brokenly. "Oh, my God!"

After that night I did not see the master for many months; then one evening he came into the library, looking older and sterner, with deep lines in his face. After that he spent nearly all his evenings in the library, sometimes with friends, but oftener alone, reading or just staring straight ahead into the fire. So the days rolled into weeks and the weeks into months and years until one evening the master came and stood for a long time looking at the picture of a woman and a boy on the mantel. "Three years to-night," he said slowly; "three long years."

The curtains of the doorway parted, and a woman came forward part way into the room, a slender, graceful woman who carried her head haughtily, although her lips quivered with nervousness.

The master turned abruptly. "Elizabeth!" he cried.

"You are surprised to see me here?" "Elizabeth," he said again in dazed astonishment, then: "The boy? What is wrong with the boy?" he cried sharply.

She flushed painfully. "It is because of him I am here. He has some claim on you still, even though I—have none."

She stopped abruptly and walked over to the fireplace, then turned and looked at him with proud, appealing eyes.

"I have not money enough to educate the boy properly," she said simply, "and there is no one I could come to but you—his father."

He did not answer her, but with one quick step forward took her hands in his.

"Elizabeth," he said almost fiercely, "I love you! I want you!"

Trembling, she leaned against the table.

"Love me? After all I did—the divorce—the boy?"

"The fault was mine. I loved you through it all. I have always loved you. I love you now."

He looked searchingly at the sweet, averted face, then, with a quick, happy movement, drew her close.

"It was not until afterward that I knew how dearly I loved you," she said, with a little catch like a sob in her voice.

That was the dawn of a new era. The old silence is gone and laughter and the soft sound of happy voices echo through the house. I am fond of them all, the master with his merry laugh, the mistress with her soft dark eyes and gracious ways, the boy who brings in troops of his admiring friends to see me.

If I sometimes long for the days of my youth—for the silence of the temple and the prayers of the faithful—what would you?

Allah alone is perfect. I am content.

WHERE DOCTORS DIFFER.

Conflicting Medical Testimony at the Lloyd Murder Trial.

Belleville, April 6.—The evidence in the Lloyd murder trial yesterday was mostly that of medical men, Drs. Johnson and McDonald of Toronto, Drs. Yeomans and Boyce of Belleville, and Dr. Matthew of Tweed, for the prosecution, swore that, in their opinion, the wounds on the woman's head were made before death, and that she was either dead or insensible when the burning took place.

Drs. Dolan and Gibson of Belleville, for the defence, swore that, in their opinion, the wounds on the woman's head could have been caused after death, when Lloyd was dragging his wife out of the burning chair.

The court sat last night, when the lawyers for the defence and prosecution addressed the jury. The judge will deliver his charge this morning.

RAINY RIVER MAN HAD TROUBLES

Till Dodd's Kidney Pills Cured his Kidneys.

Then His Rheumatism And Other Pains Vanished Once And For All—His Case Only One of Many.

Barwick, Ont., April 2.—(Special)—That Dodd's Kidney Pills will cure Rheumatism, or any other disease resulting from disordered Kidneys is the experience of many of the settlers in this Rainy River country. The case of William John Dixon, of this place, is a fair sample of the work the great Canadian Kidney Remedy is doing.

"I had Rheumatism so bad I had to use a stick to walk. I had pains in my back and right hip, and I had no comfort in sleeping."

"I could no more than dress or undress myself for nearly three months, and I was for nearly three weeks I could not lace my right shoe."

"My brother advised me to try Dodd's Kidney Pills, and I did so. After taking three boxes I could walk around and lace up my shoes and do my work. Six boxes cured me completely."

Dodd's Kidney Pills are the one sure cure for sick Kidneys. Sick Kidneys are the cause of nine-tenths of the ill the human family suffers from.

Are You Ready For the Spring?

Are you in a position to enjoy to the full the soft breezes and softer sunshine that are due to arrive almost any morning now? Have you cleared out the dregs of your winter stock of coughs, colds and grippe? Have you given your body the Spring overhauling it must have if you would have perfect health?

Everybody Needs Medicine in the Spring, and the greatest of all Spring medicines is Psychine. Psychine is really two medicines in one. It clears out coughs and colds, root and branch, and it kills all germs of grippe and consumption that have found lodging in your system during the winter months.

But in the preparation of Psychine it was not forgotten that killing germs and stopping their ravages was only half the work of giving good health. To complete that work the damage already done must be repaired. This is where the great tonic properties of Psychine comes in.

Acting directly on the stomach, the nerves, and the blood-making organs, Psychine gives new force to the life-making machinery of the body. It helps the appetite and helps digest the food, it sends pure, rich blood leaping through the veins, it tones up the body all over and makes you know once more the joy of living.

That is why Psychine is the Greatest of all Spring Medicines. It clears out all disease and results of disease, repairs all damage done, and gives new life all over the body. To meet the warm weather without a trace of that tired feeling anywhere about you you must use

"KEEP OFF THE GRASS."

It is really more needful to "keep off the grass" at this time of the year when the ground is in a soft condition than it is in the summer when the ground becomes settled. On this point the Woodstock Express says:

"There is no time in which more heed should be given to the command than now. Lawns are in a very soft state, and walking across them now makes unsightly and hurtful dents in them. Already on a number of lawns the turf has been cut up by careless people, so that it will take much of the coming warm season for it to recover. Beyond the clearing away of rubbish, lawns need for a few days only to be left alone. Of course, even those most disposed to getting to work early on their lawns can as yet not find work for the mower, but there is a tendency in some people to drag out the hose too soon. Drenching lawns on cold evenings of early spring with cold water may appear beneficial, but those who should know assert that such action is hurtful."

There is another respect in which the injunction ought to be implicitly obeyed at present, namely, as to driving on boulevards with wagons. Constant encroachment on them in the summer certainly injures them, but it takes very little now, to ruin them.

CRIME IN THE WEST.

Crime is becoming altogether too prevalent in the Canadian west. Hardly a day passes that acts of violence are not reported from one of the provinces and murders are occurring at distressingly short intervals. It looks very much as if certain elements of our foreign population are beginning to feel at home. The strangeness of British law and order have worn off and the hair trigger tempers of Southern Europe are beginning to manifest themselves.

The enforcement of the law against these people with such free and easy ideas of homicide will do something to induce respect for peace and order, but this teaches only the surface of things. The important point is that we have imported all too freely of undesirable Europeans and have actually paid for immigration which we would now gladly pay to turn back. We have exalted the idea of population without weighing the damages of indiscriminate immigration. The result is that we now see flashes of those evils which have rolled up such a colossal problem for our American friends.

It is time for Canada to anticipate the conditions which reckless immigration has created in the United States, and the watchword should be "No more immigration merely for the sake of swelling the census returns." Canada has the eye of the best settlers in the world to-day. They are coming in thousands from the United States, from Ontario and from Great Britain. They are coming with money, with settlers effects and, best of all, with healthy minds and healthy bodies. The Germans and the Scandinavians and there are no more contributors in the world will contribute to that tide of immigration which requires no further encouragement than the advertising of Canada's matchless advantages. It is a question of immigration and especially immigration from Europe which cannot with profit to this country be allowed to look pretty much after itself for awhile.—Winipeg Telegram.

The County of Kent Agricultural Show was held on the society's grounds on Wednesday, October 9, 1864.

There were 609 entries altogether and the exhibition was most successful. In the contest for prize sheep it was arranged to auction off the winners and some lively bidding took place. There was a good show of horses, including the two prize stallions "Percy" and "Blackhawk," belonging to T. R. G. Rutley and David Walker, respectively. Many fine cattle were also shown, B. Seamon and M. Button being the two most successful exhibitors. All the many other classes of exhibits were largely entered and much enthusiasm prevailed during the whole show, which was one of the finest ever held under the auspices of the Kent County Agricultural Society.

Free to You, My Sister

Free to You and Every Sister Woman Suffering from Woman's Ailments

I will mail free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—your mother, your sister, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand woman's sufferings. What we women know from experience we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or White Discharges, Ulceration, Displacement or Falling of the Womb, Protrusion, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, melancholy, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten days treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember that it will cost you nothing to give the treatment a complete trial, and if you should wish to continue, it will cost you only about 10 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment in plain wrapper, by return mail. I will also send you free of cost, my book "WOMAN'S OWN MEDICAL ADVISER," with explanatory illustrations showing why women suffer, and how they can cure themselves at home. Every woman should have it, and learn to think for herself. You must have an operation, you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young.

To mothers of daughters, I will explain a simple home treatment which speedily and effectively cures Leucorrhoea, Green Discharges, or any kind of irregular menstruation in young ladies. Pimples and health always result from it.

Wherever you live, I can refer you to ladies of your own locality, who know and will gladly tell you how this Home Treatment cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten days treatment is yours. Write today, as you may not see this offer again. Address

RUSSIAN COALITION.

Censorship of the Press Tightened After Election Results.

St. Petersburg, April 6.—The victories in the city elections just concluded, of the constitutional democrats, have been followed by a proposed coalition of the constitutional democrats, the Moderates and the Octobrists under the leadership of Ivan Petrunkevitch, who is a candidate for president of the House, and M. Shupoff, a prominent zemstvo leader, to insure a clear majority in the lower House of Parliament to resist any attempt on the part of the Government to prorogue it immediately upon its assembling.

It appears that the reactionists are seriously endeavoring to induce the Emperor to find any excuse to annul the new elections. The first act of the Government after the result of the St. Petersburg elections became known was to tighten the screws on the press. Some of the worst features of the censorship have been restored.

Smokers to Pay Cost of War.

St. Petersburg, April 6.—The exact financial burden caused by the war with Japan will be borne in part by tobacco consumers. A project to increase the internal revenue tax on an average of 20 per cent. has been approved for submission to the approaching National Parliament. The increase falls heavily on the choicer grades of "k" smoked by the peasants, will be raised eleven points.

To Improve Sakhalin Island.

St. Petersburg, April 6.—The Russian Government has decided to stop the deportation of convicts to the island of Sakhalin. The penal colonies there will be disbanded.

Horrible Child Murder in Montreal.

Montreal, April 6.—The body of Edith May Ahern, the four-year-old child which was reported to the police Wednesday as missing from her home at 40 Napoleon street, was found yesterday morning in a clump of bushes at Cote St. Paul, in the direction of which a child was seen going. The child was found lying on its back, its face covered with blood. The little girl had been strangled, and the body showed evidence of a criminal assault having been perpetrated.

Understanding at Last.

Budapest, April 6.—As a result of a conference of leaders of the coalition party, held here yesterday under the presidency of Francis Kossuth, a complete understanding has been reached with the legislative deadlock. Herr Kossuth and Count Andrássy started last night for Vienna, where they will have an audience of Emperor Francis Joseph to-day.

Aged Couple Die.

CABINET WILL DECIDE.

Whether Grand Trunk Pacific Will Be Given Contract Over Lowest Tenderers — Commissioners Disagree.

Ottawa, April 5.—Not until Saturday will the Cabinet decide upon the award of the contract for the sections of the National Transcontinental Railway between Winnipeg and Quebec, and it will be left to the Government to decide, for the commissioners report that they have been unable to agree upon an award.

It appears that W. B. McArthur was the lowest tender for the section between Winnipeg and Superior Junction, and Hogan and Macdonald the lowest on the section between Quebec and La Tuque.

According to report, Commissioners Molson and Reid held out for recommending acceptance of the lowest tender in each case, but Barnes and Young maintained that the estimate of Hogan and Macdonald was so far below the estimate of the Government that the "public interest" demanded it should be given to the Grand Trunk Pacific Co. itself, whose offer most nearly approximated the estimate of the Government engineers.

The whole situation bears out the prediction freely made by well-posted contractors, that the matter would be so arranged as to give the entire work to the Grand Trunk Pacific Co., who will sub-let to favorite contractors.

AWFUL PSORIASIS 35 YEARS

Terrible Scaly Humour in Patches All Over the Body—Skin Cracked and Bleeding—Itching Unbearable—Cured by Cuticura in Thirty Days at Small Expense.

ANOTHER WONDERFUL CURE BY CUTICURA

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Cuticura Soap, six boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent. I bathed with the Soap, applied the Ointment once a day, and took the Resolvent as directed. In thirty days I was completely cured, and I think permanently, as it was about five years ago."

The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually form again in twenty-four hours. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would come out. To remove the scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would come out.

It was worse on my arms and limbs, although it was in spots all over my body, as well as on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable.

"To sum it all up, I would not go through another ordeal of affliction for thirty-five years for the State of Kansas. (Signed) W. M. Chidester, Hutchinson, Kan., April 20, 1905."

Truth can take care of itself, but a lie has to be watched as carefully as a sore thumb.

BUDGET DEBATE ENDED

Premier Whitney's Effective Points on Harcourt Deal.

Correspondence Showed Mr. Hartly of Kingston Had Made an Offer on 1904 Bonds "Plus \$25,000 Commission"—Premier Wanted to Know Who Was to Get This Commission—Mr. Harcourt Thought Hartly Meant Bonus.

Toronto, April 6.—The second division of the present session of the Legislature took place yesterday, following an attempted explanation by Hon. Mr. Ross and Mr. Harcourt of the charge strongly driven home by Premier Whitney that the attempt to float the Temiskaming bonds in 1904 had brought about a binding agreement with the London brokerage firm of Coats, Son & Co., detrimental to the interests of the province.

The Government majority of 40, the vote being 44 to 24, included Mr. Rathbun, the Independent Liberal member from East Hastings, whose declaration to stand with the Government on the question, might be taken as one evidence of the strength of the Government's position.

The situation as developed a week before was given a new turn by the production of correspondence showing that, while in London on his mission, Mr. Harcourt had received a cablegram from then Premier Ross to the effect that Mr. Hartly of Kingston, a former member of the Legislature, had made an offer "plus \$25,000 commission."

Mr. Whitney wanted to know who the \$25,000 commission was for. Mr. Ross and Mr. Harcourt denied that there had been any understanding with Mr. Hartly, as the Premier directly charged, and declared he thought the \$25,000 was meant to be a bonus to be added to the figure offered. At this the Government benches laughed sardonically.

The Opposition leaders showed haste to have the discussion closed, the hour for rising had been passed.

Col. Matheson announced that Mr. Hanson of the firm of Coats, Son & Co., had written him making denial of the statement that the Provincial Treasurer had made in the House that he (Hanson) had gone about before the agreement was made with the Bank of Montreal to float the bonds protesting against its being done.

At the evening session of the House some of the estimates were passed, and the House went into committee on Mr. Hendrie's railway bill. Good progress was made, none of the clauses likely to be contentious being touched.

Province is a Claimant.

The Ontario Government is a claimant for the valuable power site on the Current River, claimed by George T. Marks and the Town of Port Arthur. A bill to incorporate the Current River Power Co. was before the private bills committee yesterday, when Hon. Adam Beck made the claim on behalf of the Government.

Mr. Marks claimed that he bought the rights in 1865. Owing to the Government's consideration of the bill was laid over.

The Kakebka Falls dispute was also before the committee. It will be further discussed to-day.

Province Shuts Off Electricity.

Kingston, April 6.—The Provincial Secretary has ordered that no more electricity be furnished to the Church of the Good Thief, Portsmouth, from Rockwood Asylum plant.

BANWELL'S PRISON DUTIES.

He Has an Easy Position as Librarian in the Penitentiary.

Kingston, April 6.—Banwell, the bank robber, is considered here to have a snail in the penitentiary. The duties of the position of librarian are not onerous. He remains in the library till 9 p. m., while the other convicts must return to their cells for the night at 6 in winter and 8 in the summer. During the day he is in the presence of some of the best books in the language, and much of his time can be spent in reading. His work consists in taking the library cards with the names of the books desired by the convicts, selecting these and taking them to their cells.

New Settlement Lands.

Toronto, April 6.—The Dominion Government has practically completed arrangements for the sale to settlers of several Indian reserves on the Rainy River between Fort Frances and the Town of Rainy River, comprising 50,000 acres. The negotiations were opened by the Provincial Government, and it is expected that details will be completed in a few weeks.

Guilty of Fraud For Insurance.

Guelpin, April 6.—John B. Madill was last night found guilty of an attempt to defraud insurance companies in connection with the burning of the Hills-bury creamery. A charge of arson was also preferred against him, but the jury has not yet proceeded with it. Crown has not yet nearly five hours. Chief Justice Mulock will pass sentence this morning.

Prisoner-Eluded Constable.

Berlin, April 6.—Albert Stricker, a young man of Elmira, was arrested yesterday on a charge of seduction, and remanded for trial. He was brought to Berlin by Constable Bowman, who took him to the Market Hotel while the prisoner's father was looking for bondsman. While waiting, Stricker eluded the constable and didn't return.

Three Years For Jewel Thief.

London, April 6.—George Webber Partridge of Woodstock was sentenced to three years in Kingston Penitentiary on being found guilty of stealing diamond rings from a Dundas street jeweler.

Made a D.D.

Toronto, April 6.—"Ralph Connor," the noted Canadian author, received the degree of doctor of divinity at Knox convocation at Westminster Church last night.

The Difference Between Expert and Unskilful Tea Blending

THE qualities of different teas prove that there is a distinct difference between expert Red Rose blending methods and the usual methods.

Several kinds of teas may be blended, but if unskilfully selected they will not combine to make a perfect blend; they will retain their original individual characteristics with their roughness and harshness emphasized.

Such tea is bitter, poorly flavored in the cup (and there is much of it in bulk and package form on the market). It emphasizes the result of inexperience, lack of knowledge of combining qualities of different teas, imperfect blending, poor selection, and the hundred and one other causes of poor tea.

But my expert Red Rose blenders select the right grades of strong, rich Indian teas and delicate fragrant Ceylon teas, and produce Red Rose Tea with entirely new characteristics—a tea with that "rich fruity flavor"—a tea so exquisitely different and better than any brand of Ceylon alone, that no one who once tries it ever goes back to Ceylon again.

STRICTURE CURED

YOU CAN PAY WHEN CURED. NO NAMES USED WITHOUT WRITTEN CONSENT. STRICTURE AND KIDNEY DISEASE CURED.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. I had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Dr. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight." G. E. WRIGHT, Lansing.

SHE'S ONLY ONE OF THOUSANDS

Who Have Found Relief From Their Indigestion and Dyspepsia in Dodd's Dyspepsia Tablets.

"I suffered for several years with dyspepsia. Nothing would digest without giving me great pain. I could not get anything to relieve me till a friend of mine advised me to use Dodd's Dyspepsia Tablets. One box cured me and I have had no return of the trouble since."

Such is the experience of Miss Lizzie Watling, 177 King William St., Hamilton, Ont. It should come as a message of hope to thousands of Canadians. It is only one of thousands of similar statements that prove conclusively that Dodd's Dyspepsia Tablets never fail to cure indigestion and dyspepsia of all stages. Dodd's Dyspepsia Tablets digest the food themselves. They do the stomach's work and give it a chance to rest and recuperate. They are thus a natural cure.

Help your stomach and it will help you. If you would eat what you like when you like use Dodd's Dyspepsia Tablets.

WEARING AWAY YOUR LUNGS?

Yes, and your strength, too. Stop coughing and get rid of that catarrh. The one remedy is "Cattarhazone," which goes to the diseased tissues along with the air that you breathe; it can't fail to reach the source of the trouble, it's bound to kill the germs, and as for healing up the sore places, nothing can surpass Cattarhazone. If you don't get instant relief and ultimate cure you will at least get back your money, for Cattarhazone is guaranteed to cure catarrh in any part of the system. You run the risk therefore of Cattarhazone—at our expense if not satisfied.

Mr. Burt's Commission Which He Says He Intends to Keep.

Notwithstanding Statement of Crown Attorney Curry That He Ought to Give It Over to York Loan—President of the Toronto Life Co. Makes Some Admissions Concerning Inner Workings of the Double-Barrelled Agency System.

Toronto, April 6.—Greater public interest than ever in the Phillips' investigation yesterday was evidenced by the large audience at the Police Court, especially in the afternoon.

President E. J. Burt of the Toronto Life was in the witness box nearly all the time, seeming little dismayed by the searching questions, even by the plain assertions that his statements were not believed. The chief feature of the day was his confession that from January, 1904, up to March of this year he had received a total commission of \$17,000 from Toronto Life funds.

"What has that to do with Phillips' asked the ever-protesting J. E. Jones. Two Reasons Given.

"If this man were holding anything for Phillips we ought to know it," observed Col. Denison.

"If this man obtained the money as a result of conspiracy with Phillips he is not entitled to it, and we want to get it," put in Mr. Curry.

"That it is impossible to get a fair trial in this court."

Crown Attorney Curry said he had had a denial that a cheque for \$1,800 was sent to Phillips. Phillips' deposit account, however, showed that he had got it, despite one young lady's denial.

Mr. Curry had the voucher from the Bank of Montreal.

But he had paid out \$7,627.50 on Toronto Life stock. He had forgotten to include the note for \$2,345 he held, payable by Phillips.

Toronto Life Affairs.

Crown Attorney Curry questioned witnesses concerning the transactions in Toronto Life stock. The latter said that Mrs. Barrett signed three blank applications for Toronto Life stock, and that these were filled in by Phillips, Mrs. Barrett and Miss Robb.

Witnesses said he did not know anything about Joan McCann. He was not aware that Phillips had a daughter who was married to a man named McCann.

Curry Getting Close.

Mr. Curry referred to a cheque dated July 13, 1905, for \$1,000, remarking to witnesses: "We are getting close up to the amount, proving the stock pretty closely to be that of Mr. Phillips."

The witness made no reply.

Crown Attorney Curry produced a cheque for \$5,000, payable to Joseph Phillips, and dated Dec. 30, 1904, that put in as an exhibit, having originally been drawn on the list, but apparently got into the hands of the Toronto Life.

Others cheques paid in by Phillips were put in.

Burt could not swear to the signature on the cheque payable to Georgina Hudson for \$15,000 (paid in as against her stock), as being that of Phillips.

Witness had no interest in the list of names drawn on the list, but apparently had cheques payable to himself. He admitted that he had got three cheques from The National Monthly.

They were sums, partly repayments for the loan of \$1,000 he had advanced to Phillips, and partly in respect of life assurance Phillips owed.

Curry Warns Witness.

"Now I am going to ask you to be very careful in answering this question," said Mr. Curry. "Look at cheque No. 24. Tell me whether that has any reference to the \$3,337.25 which you received on Jan. 15, 1904, for the Toronto Life."

"None whatever."

"Not one-third?"

"Not one-quarter has anything to do with it whatever."

"Where did you get the money you loaned Mr. Phillips?"

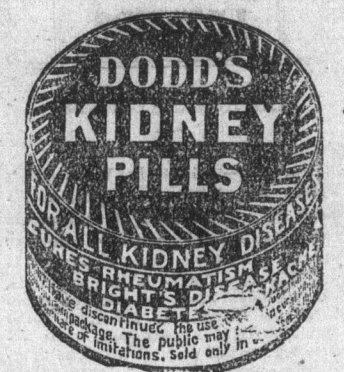

"I could not say. It may have been from the insurance premiums."

"Where did you put the money you got out of the cheque? Here is another case of cashing a cheque and not depositing it."

"I may be able to find out," replied the witness, who added that a cheque for \$7,627.50 was the balance due on an insurance premium for \$5,000.

Burt was unable to give the name of the parties applying for incorporation. He admitted that the Toronto Life started business on a deposit of \$25,000. He did not know how many shareholders of the Toronto Life were.

THE PORTLAND VASE.

A Masterpiece That Long Puzzled Antiquarians of Europe.

The workmanship of the Portland vase and the material of which it is composed long exercised the ingenuity of some of the greatest antiquarians in Europe. Brevet believed it to be chalcedony; Bartoli, Montfaucon and others, sardonyx; Count Fezi, amethyst; De la Chausse and Milson, agate, while Venturi decided that it was pasta.

Wedgwood's examination of the vase proved the last opinion to be the correct one. A layer of white glass had been fused on a dark blue body, the exquisite figures being afterward produced in the layer by cutting down to the blue by the gem engraver, after the manner of real cameos. Wedgwood also discovered that the vase had at one time been broken and repaired.

It was his opinion that the best which formed the bottom of the vase was a piece of some other work that had been cut down and inserted in the place of the original bottom, which had probably been broken at the time the vase itself was broken.

By the autumn of 1789 Wedgwood, after many failures, had succeeded in his arduous undertaking, and the first perfect copy of the famous Jasper ware, was finished. Several more copies were subsequently made, though the exact number does not seem at all certain. These were of various degrees of perfection and size and color. Originally sold at from 30 to 50 guineas each, according to excellence of finish, time has, of course, considerably enhanced their value, and some years ago, at the sale of the Martineau collection, one sold for £294.

In 1810 the Duke of Portland placed the vase in the British museum, where some thirty-five years afterward it was wantonly broken to atoms by a drunken visitor. After being skillfully repaired it was placed for additional safety with the gems.

Authorized by no means agreed as to the subject of the vase, relief, though various explanations have been offered. According to the museum catalogue, the composition represents on the one side the goddess of Justice, the bride of Paletus in the presence of Poseidon and Eros; on the reverse, Paletus and Thetis on Mount Pelion, and on the bottom of the vase (now detached) a youthful bust of Paris.

Entertaining Sister's Beau.

While the swain was waiting in the parlor for his innamorata that lady's younger sister ventured into the room to entertain the guest.

"Sister! I'll be down soon, Mr. Swilling," she said. "Say, can you tell me when a door is not a door?"

"That's a chestnut," he said. "A door is not a door when it is a jar or a jam."

"That's right," said the young sister gleefully. "Now, here's another: What makes more noise than a pig under?"

"Little girl," interrupted the young man somewhat testily. "Why are you asking me to guess those old sayings?"

"Why to entertain you till sister comes in. Isn't that the way Belle talks to you when she's here?"

"What makes you think so?" asked the young man.

"She told me that you had proposed several times, but that she was going to keep you guessing every time you called."

Prevents Rolling of Ships.

A German engineer, Otto von Schlick, who has been studying for many years the prevention of ships rolling, believes the solution lies in a gyroscopic device.

Herr von Schlick, who has been studying for many years the prevention of ships rolling, believes the solution lies in a gyroscopic device.

By mounting the gyroscopic in the hold, and his first experiments on a large scale have been undertaken with an old torpedo boat. In this craft a gyroscopic with a disk weighing 1,000 pounds was mounted with a steam turbine which could rotate it at a speed of more than 2,000 revolutions a minute. The oscillations and pitching of the vessel were carefully measured before the steam was admitted to the turbine, and then when the turbine was put in revolution the motion practically ceased. So successful were these experiments with the sixty-ton torpedo boat that it has been decided to proceed with a larger craft.

Calamitous.

One day a Dutchman, in his shirt sleeves, was shaving himself before the glass. He was so intent on his work that he cut off the tip of his nose. The pain caused him to drop his razor, which fell on his foot and cut off a portion of his big toe. He promptly picked up the razor and applied it to his nose, and vice versa. Now when he wants to scratch his nose he is obliged to take off his boot.—From the German.

The Light of the Sun.

From a comparison of the relative intensity of solar, lunar and artificial light, as determined by Professors Euler and Wollaston, it appears that the rays of the sun have an illuminating power that is wonderful in the extreme. According to their deductions, the illuminating power of the "great day star" is equal to that of 14,000 candles at a distance of one foot, or of 8,500,000,000,000,000,000,000 candles at a distance of 93,000,000 miles. From the above figures it follows that the amount of light which flows from the solar orb could not be produced by the daily burning of 200 gallons of kerosene, equal to the earth in magnitude.

Chew Your Food.

Eat slowly, masticate thoroughly, are two cardinal rules for the dyspeptic. Generally the patient will find relief in taking solids and liquids at separate times, for fluid dilutes the already weakened gastric secretion, and so diminishes the digestive powers. An excellent simple treatment is as follows: Take a tumbler of hot water on rising in the morning, a second at 11 o'clock, and another half an hour before bedtime. If a little bicarbonate of soda, equal to the on a spoonful, is added to the hot water, a further beneficial effect will be obtained.

Slaves to Rheumatism

Freed by "Fruit-a-tives"

"Fruit-a-tives" cure Rheumatism and Rheumatic pains by removing the poisons which cause the disease. Rheumatism means poisoned blood. Too much urea or tissue waste is retained in the blood, owing to defective action of the bowels, kidneys or skin. The retained urea becomes uric acid, which inflames nerves and joints and thus rheumatism is produced.

Mrs. R. H. DENNIS, Sault Ste. Marie, Ont., writes as follows: "I think 'Fruit-a-tives' are fine. I am using them for rheumatism, and have not felt it since I started to take them."

"Fruit-a-tives" cure Rheumatism by greatly stimulating the action of the liver, kidneys and skin. "Fruit-a-tives" make each of these vital organs do its share of nature's work properly. "Fruit-a-tives" rid the system of excessive urea and uric acid—and so purify and enrich the blood and build up the general health, that there can be no rheumatism.

"Fruit-a-tives" are fruit juices, concentrated and combined by our discovered process, which makes them much more powerful medicinally. Then tonics and internal antiseptics are added and the whole compressed into tablets.

If your druggist does not have them, don't take chances. Send prepaid receipt of price—50c a box or 6 boxes for \$3.00.

The British Anthem.

The whirling of time has brought changes of its own into the British national anthem. In 1745 it began:

God save great George, our king!

The king's name was again inserted in the second verse, which has been used as an argument to prove that the words were written by Ben Jonson as early as 1607 to celebrate King James I's escape from the gunpowder plot:

Confound their plottings, Frustrate their knavish tricks: On George our hopes we fix— God save the king!

The change to the present form is: On thee our hopes we fix, where duty has been substituted for majesty. There is another rendering, which the exigencies of the times no longer demand:

Oh, grant that Marshal Wade May by thy mighty aid Victory bring! May sedition hush And like a torrent rush! Rebellious Scots to crush; God save the king!

—London Queen.

MEN PAY WHEN CURED

So many men have been cheated out of their hard earned money by quacks and false specialists, whose injurious doses and so-called treatments are made to sell their pills, that we have decided to make a strong guarantee to our patients. We are carrying a full stock of our medicine, and we are carrying a full stock of our medicine, and we are carrying a full stock of our medicine.

Dr. Goldberg has 14 Diplomas and Certificates from various Colleges and State Boards of Medical Examiners (a reproduction of which is sent with the first letter to each patient), and he has successfully treated men on his pay when cured plan for years, permanently curing patients suffering from severe nervous disorders resulting from overwork, business and domestic cares, dissipation, etc.

Nervous debility and all of the accompanying symptoms, such as headache, loss of memory, mental depression, strange sensations, irritability, sleeplessness, weakness, trembling, heart palpitation, cold limbs, physical exhaustion, etc., are promptly cured; and blood, prostate trouble, early decay, skin diseases, bladder and kidney troubles are cured by our cure. The price is very reasonable, and no charges are made for examination and advice, no matter how many times the patient returns for treatment or not. Dr. Goldberg has no free samples and no proprietary medicine to sell. He is strictly opposed to all stimulants which temporarily relieve, but after a short time leave the patient in a worse condition than before taking his treatment. It is specially prepared for each individual case and is sent to the patient in the form of a letter, and it is sent to the patient in the form of a letter, and it is sent to the patient in the form of a letter.

It is healthy and safe to meet their fellow men with a feeling that they are strong and manly and fit to cope with the most trying conditions of life.

The treatments are sent to patients in the form of a letter, and it is sent to the patient in the form of a letter, and it is sent to the patient in the form of a letter.

SPORT

The prospects for sport in this city for the coming summer assumes a rather gloomy outlook when one sums everything up, due no doubt to the fact that there are no very encouraging symptoms of anything extraordinary in the way of lacrosse being indicated from present appearances. But there is little use in getting the blues over what cannot be helped, and it would be wise to make the best out of prevailing conditions. If we can't have a crack intermediate team, why not put on our best lick for an A1 junior aggregation?

And there is reason to believe that something can be expected from this direction. The Juniors are organized for the season, and are going to make a big bid for popular favor. It's a case of neck or nothing. They have got to put up a decent game, or lacrosse is done for in this city for a time, at least. They have received good encouragement from the citizens, and now all practically remains with themselves. They have a clear field, and it is up to them to pull lacrosse out of the rut. Lots of hard work and lots of practice will bring things around our way again. But there must be no grafting or favoritism shown. The building and replenishing of the team must be carried on from a cold, business point of view. Positions on the team should be granted from point of merit alone. If the players cannot be secured here, an effort should be made to secure them elsewhere, though a strictly home team will certainly prove the most popular.

The name of President O'Keefe of the Juniors has been mentioned as representative to the C. L. A. meeting to be held in Toronto next Friday. Mr. O'Keefe will undoubtedly prove the right man in the right place, and it is to be hoped that he will place himself on record as favoring the twenty year limit.

Con. Marriot, it is understood, has received a good offer to go to Durham for the season, which he has accepted. Mr. Marriot has been offered a good position in the northern town, and the chances of playing in good fast company. Con. has a large number of friends in this city who will regret his departure, but who at the same time will be tickled to see him make good.

The coming meeting of the C. L. A. is being looked forward to with interest by lacrosseists all over the country. Many new rules may be put into effect, but again it may result in the same old saw with the same old results. Discord is often one of the main features of the C. L. A. meetings. Whatever else may be done, it is to be sincerely hoped that the twenty year limit for the junior series will meet with favor. It has been talked of enough, and it will be an exceedingly good thing if it passes.

WILL PUSH THE MATTER

On Thursday afternoon the Property committee held a consultation with the architects, J. L. Wilson & Son, at the office of the latter, in regard to the alterations to be made at the old market building.

The matter was again thoroughly discussed and a definite course of action decided upon. The architects will prepare plans for four or five meat stalls and offices to be built upon the ground floor, and offices and lavatories to be built on the second floor. These plans will be placed in the hands of the committee for approval at the earliest possible date and the work will be commenced in a short time.

Truth can take care of itself, but a lie has to be watched as carefully as a sore thumb.

COAL SITUATION

Bituminous Operators Want Arbitration With Striking Miners.

New York, April 7.—Soft coal operators, who have not yet agreed to the 1903 scale and their miners, ask for arbitration. Their offer is identical, except where the term bituminous is substituted for anthracite with the one President Mitchell presented to the hard coal operators here Thursday.

The receipt of the proposition caused a stir. Within an hour of the receipt of the offer Mitchell sent reply to the effect that there was no power to act on the proposition, but he would submit it to the international executive board of the union at its meeting at Indianapolis week after next.

60 Days For Bigamy.

Toronto, April 7.—Alex. Cockburn was yesterday given 60 days for bigamy. While coming from the old country last August he made the acquaintance of Alice Jeffreys, aged 26, and married her in October. The arrival from Scotland of his first wife with five children placed him in the hands of the police. Both women asked that Cockburn be liberated, and when sentence was passed the wronged woman fainted in the witness box.

English Firms Anxious.

Toronto, April 7.—The Provincial Treasurer yesterday received the following cablegram from Lord Strathcona: "It is reported here that it is the intention of your Government to let Coal mines, by tenders. Am requested by English firms to request full particulars. Kindly cable." An answer will be sent by cable.

Policyholders Position Defined. Albany, N. Y., April 7.—Senator Armstrong in the Senate yesterday introduced a new bill designed to remove whatever doubt may exist as to the eligibility of policyholders in stock life insurance companies to be elected directors therein, regardless of whether or not he owns stock. The bill was advanced to third reading without opposition.

Girder Placed at Last.

Guelph, April 7.—The big girder for the Grand River bridge on the Guelph & Goderich Railway, which played an important part in two bad accidents, was successfully placed in position yesterday afternoon.

SAFETY FOR CHILDREN

Baby's Own Tablets is the only medicine that gives the mother the guarantee of a government analyst that it contains no poisonous opiate and is absolutely safe. This is worth much to every mother who cares for the future welfare of her child. The Tablets are good for the tenderest baby or for the well grown boy or girl, and cure the minor troubles that are inseparable from childhood. Mrs. W. J. Macintosh, Clam Harbor, N. S., says: "I have used Baby's Own Tablets for constipation, vomiting and colds and have found them a splendid medicine. I give the Tablets all the credit for the splendid health my little one now enjoys." The wise mother will always keep a box of these tablets on hand. They can be got from any druggist or by mail from The Dr. Williams Medicine Co., Brockville, Ont., at 25 cents a box.

SUNDAY 2 P. M.

The Black Patti Troubadours will arrive in Chatham from Detroit tomorrow afternoon by G. T. R. at two o'clock. It is expected crowds will be at the station to meet them. The company number about fifty people and have been meeting with wonderful success in Detroit this week. The Grand should be packed here for Monday night's performance.

The man who loses his temper can console himself with the knowledge that he has lots more.

LETTERS

THE HUMANE OFFICER.

To the Editor of The Planet:

Dear Sir,—Citizen, in Wednesday's Planet, complains of the Humane Officer not prosecuting offenders. His complaint should have been aimed in another direction. Mr. McGregor is not a paid official. If he prosecutes, the offender must be summoned before the Magistrate for trial, and Mr. McGregor has to spend time attending to the case. Then, the magistrate, who receives a large salary for the time he is sitting on his chair, gives the scallawag who ill-used the animal, a lecture and dismisses the case.

What has Mr. McGregor received for his loss of time? Nothing but the ill-will and laugh of the inhuman brute.

If the magistrate's pay depended upon convictions, how many would get off?

Neither the Humane Officer, nor any other man, should be asked to give his time to the public.

THE HEAD ST. SPUR

On Tuesday next there will be a joint meeting of the City Council and the residents of Head street in Mr. Stevens' office at the Kent Mills for the purpose of discussing the matter of the Head street railway spur, one which there has been so much discussion of late.

At this meeting several of the most prominent ratepayers on that street will voice the representative views of the residents, and it is more than likely that a practical suggestion will be made to the Council by a resident who has played a chief part in the controversy up till the present.
