

### INQUEST INTO SHOOTING OF JOHN SIMONS

Evidence Showed End Came When Boy and He Were Scuffling.

### SMALL BOYS' SECOND OFFENCE

Recruiting for 133rd Keeps Up With Good Results.

Simcoe, June 10.—The inquest into the shooting affair which took place at Forestville on July 2nd, was held at that place to-day. Crown Attorney Slaght was in attendance and Mr. J. Porter, of the firm of Kelly and Porter, was present on behalf of the accused. Eleven witnesses were called and the jury, after short deliberation, brought in an open verdict to the effect that John Simons came to his death by a bullet from a rifle discharged while in the hands of the boy prisoner, Robert Henry Beecher.

**Sitting in Kitchen**  
The sum of the testimony went to show that two soldiers, who were formerly Barnardo boys in Miss Garr's home, had come to spend the week end and had brought the 22-calibre rifle with them. There was some target practice outside, after which Simons, the prisoner, and a boy named Harry Brown, were in the kitchen; the boys on a couch on one side and Simons on the other. Beecher had the rifle in his hands.

**Got Into Argument**  
Conversation turned to the subject of the work of the following day. Monday, Simons stated that the boys must go and work for a neighbor.

### Rube Oldring Goes to Yankees

Another of Connie Mack's Men Leaves the Fold.

Philadelphia, July 11.—Rube Oldring, former star outfielder of the Philadelphia Athletics, announced last night that he would sign a contract to-day to play the remainder of the season with the New York American League Club. He said he was induced to accept the offer of the New York club because of the crippled condition of the team, and added that he would retire from baseball at the end of the season. Oldring announced his retirement from baseball July 1. Connie Mack gave him his unconditional release and said he would not stand in the outfielder's way if he wanted to join some other team.

**Good Word for Boy**  
All of the witnesses called, even relatives of Simons, had a good word for the boy and the community look upon the matter as young Brown stepped in his evidence. Beecher was taken down to hear the proceedings and returned in custody this evening. He will have a preliminary trial before Squire John Cope, at St. Williams on Friday.

**A Boy Criminal**  
When T. J. Agner, K.C., stepped into police court on Saturday morning, to look after the interests of the Crown in a horse theft case, and the prisoner was, the constable pointed to the nine year old son of Robert Hasket. The young lad was up for the second offence.

**On Suspended Sentence**  
Last fall he took another steed and was publicly flogged for his misdeeds. On Saturday he was let go with the shadow of the reformatory hanging over him in case of any repetition of like conduct. Ensey Barker, of Charlottetown, was the owner of the horse stolen.

**FOUR DROWNED WHEN ROWBOAT CAPSIZES**  
Winnipeg, July 11.—John Dart, his wife and two children were drowned in the Red Deer River yesterday afternoon at Rosedale, a mining village on the C.N.R. about nine miles north of here. The river was in flood and the boat in which the Dart family was endeavoring to cross the stream was capsized and all were lost. Four other children, all under seven years of age, are left orphans by the tragedy.

### MANUFACTURERS IN HUNGARY ARE AGAINST CHANGE

Stand Opposed to Economic Union Between Germany and Austria.

BACKED UP BY PARLIAMENT

Vienna, July 11.—(Correspondence of the Associated Press)—German and Austrian aspirations for a closer economic union have received a setback at the hands of the Budapest Chamber of Commerce. In emphatically worded resolutions, that body has declared that the new Ausgleich with Austria shall be for only ten years, and has further expressed its conviction that Hungary must be independent of Austria in customs matters, and have her own tariffs.

### Do Not Like Opposition

The Ausgleich is the working agreement between Austria and Hungary for carrying on the joint affairs of the dual monarchy, including provisions for customs and finances. Originating in the compromise of 1867, the legal term of the agreement was fixed at 10 years but since the movement began for a closer economic union between Germany and Austria-Hungary, it has been urged that the Ausgleich, which expires next year, be extended to twenty or twenty-five years so as to make possible some of the readjustments that would not be possible in a shorter period. The leaders in the movement for the economic union, who have been meeting in Berlin, Vienna, Budapest, Munich, Dresden and Prague, have considered the extension of the Ausgleich to be a most essential matter, and the action of the Budapest Chamber of Commerce in opposition to it has caused much irritation among those who hope that the economic alliance will be perfected. Hungarian Parliament Not in Favor

It is said that the Hungarian parliament, on the whole, is also opposed to the extension of the Ausgleich. The negotiations every ten years for each new Ausgleich have always been used by the politicians in Budapest to extract all sorts of concessions, political, financial and economic, from the government in Vienna, and the Hungarians will not readily sacrifice such a powerful weapon.

The determined stand of the Budapest Chamber in the matter of a separation of the customs systems of the monarchy has also opened up serious problems. While the Ausgleich is chiefly an agricultural state, it has in the past few years been laboriously building up various industries with governmental assistance, to the point of competition with Austria, which is chiefly a manufacturing state. In Hungary it has been decreed that no industrial interests have insisted that a speedy development of home industry can only be brought about if Hungary has her own system against Austria, and make her own commercial treaties with other nations.

### Agricultural Interests Stand Pat

The agricultural interests, on the other hand, prefer the continuance of the common customs tariffs for the whole empire, as they desire to shut out the importation of grain, and cattle, and meat, in common with their Austrian associates, and then too they sell most of their produce in Austria. Since the outbreak of the war, the internal relations between Austria and Hungary had considerably improved and it was hoped that independent customs territory in the two nations would become still more closely united in the future.

### No Back-down

But all the influences of the war, and the necessity for showing an undivided front to the foe, have failed to make the Hungarian manufacturers recede from their demands for customs separation from Austria. It is true that the resolutions of the Chamber of Commerce admit that the time is not opportune for making such a tremendous change, but in the firm conviction is expressed that an independent customs territory is the only way of developing home industries. Even this statement of the situation was too mild for some of the speakers in the debate, who pressed forward without delay and petitions sent to the parliament to this end. With regard to Germany the resolution demand that a new, reciprocal commercial treaty, shall be entered into which shall pay the utmost possible regard to the interests of all the participants, without excluding foreign nations from the benefits of the special concessions.

### RIOTING AT CAMP BORDEN

(Continued from Page One.)

trying to cause further destruction, a number of them having secured their rifles and bayonets. At one point shortly before 11 o'clock, when a company of the 170th Battalion were preparing to charge the rioters, the trouble assumed an ugly look, and one of the rioters fired eight revolver shots, which either were aimed into the air or in the darkness, did not find a mark. The darkness made it almost impossible to get the situation in hand, as some of the London units, whose men were the ringleaders in the disturbance, were altogether out of control of their officers.

The hopeful feature of the situation as far as could be made out was the fact that the men who were rioting were largely without leaders and acted like a mob. With the first movement of the armed force from the 170th Battalion towards them there was an immediate dispersal, though some remained hidden behind large buildings in a position from which it was difficult to see or surround them.

The main cause of the trouble, as far as could be learned from a number of self-appointed spokesmen whom General Logie called upon to see him during the early part of the disturbance, was the duel and lack of water during the rehearsal parade on the ceremonial area in the morning in preparation for the visit of inspection of Major-General Sir Sam Hughes, which was announced to take place to-day.

The London men in the disturbance also complained at having been sent to the camp, though many of them had been in the 170th Battalion District No. 1 were equally well represented. The crowd included men from practically every regiment in camp, though many of these were merely spectators, not more than a few hundred being actively riotous. There were probably between 2,000 and 4,000 men altogether in the disturbance.

### THE KNIGHT

Once a good King had a bad kingdom. There were so many evil people in it that he did not know what to do, and he grieved and grieved until there came one night when the sun was setting, a splendid knight came with a shield as bright as the moon. "Knight," said the old King, "what wouldst thou?" "Give me thy daughter to wife," said the knight, "and I will make thy kingdom as good as thou art, old King." "Alas!" said the old King, "There are wiser and better folk than I, but few kings have wicker subjects. Almost it seems as if there were a spell upon them." "My father," said the princess, "let this splendid knight with his shining shield go forth and teach thy foolish people virtue and wisdom. Then, indeed, will I wed him." So the knight went forth and, meeting a snarling old man, he bade him look in the shield and say what he saw. "I see a snarling, unhappy old man," said he who looked. Am I so?" "Yes," said the knight. "Think upon it, for bear the magic shield of truth." From one end of the kingdom to the other travelled the splendid knight with the shining shield, and

## News Notes

About 300 men just out of prison have obtained work during the last eight months, according to a report made by Charles K. Blatchly, employment secretary of the Prison Association of New York.

Hastings-on-Hudson. Toledo authorities have decided to place an embargo on all children under sixteen from New York city. The action is taken to prevent the introduction of infantile paralysis.

Sugar cane growing has been resumed in the State of Texas. There is a dearth of mules and

horses for the American Army. Michigan Progressives have joined a movement for a new third party. Government figures show paper exports have increased in the last six months.

The National Education Association adopted a measure for military training in U. S. schools. Reports from the storm-swept Gulf States put the property damage at more than \$,000,000. Corn on a garden plot owned by J. W. Hill of Kansas City, grew ten inches a day for four days. According to figures announced by the Census Bureau, the population of New York City is 5,334,000. Mr. Joseph Ramsey, Jr., railroad builder, and formerly president of the Wabash system, is dead.

## 215TH GOT SEVEN MEN YESTERDAY

Total Strength This Morning 549—Second Inoculation Thursday.

The strength of the 215th Battalion this morning stood at one short of the 550 mark, seven recruits having been obtained yesterday, bringing the muster roll to 549. By night, the 550 mark will have been exceeded, one recruit being already secured this morning. Seven men in one day is considered a very good showing in view of the comparative slowness which has come over recruiting recently, but when the next big campaign of the 215th is launched, it is anticipated that a decided improvement will be registered.

Having now fully recovered from the effects of their last week's inoculation, the members of the 215th will undergo the experience for the second time on Thursday of this week, a day which is looked forward to by all with mingled sentiments.

## Good Support to Military Service Fund of Y.M.C.A.

Mr. Frank Cockshutt, President, and Mr. H. W. Pitton, Hon. Treasurer, on behalf of the local committee having charge of the campaign in aid of the "Military Service" fund of the Y.M.C.A. beg to report that they met with very generous support, the total amount subscribed being \$5,847.50, of which \$5,447.50 has been paid in and remitted to the treasurer of the National Council of the Y.M.C.A. of Canada. The balance, \$400.00 is payable on or before the 1st of September.

The committee wish to take this opportunity of thanking the subscribers for their very liberal contributions to this splendid work. They also wish to express their appreciation to the voluntary workers for their cordial assistance.

## Exchange Rate is Now Rising

By Special Wire to the Courier.  
Berlin, via London, July 11.—The exchange rate of New York which for a long time was nailed fast at 5.175 marks per dollar, equivalent on the New York basis of quotation to 77 1/4 has been the subject of a moderate, but steady rise in the past week. To-day it reached 5.28. A noteworthy circumstance in the movement is that while the Berlin rate remained stationary during the week, the rate in New York in June to a low record, the Berlin rise began after and in face of an improvement in New York.

**TWO BATTLES MEET.**  
Kid O'Brien, of boxing fame, who once went twenty-two rounds with Battling Nelson, is living now in Brantford, and last night was hunting up Nelson when he learned he was in the city. He located him eventually in the New American, and it is said prospects are good for their hooking up again in September in Flint, Mich.

**OLDING TO THE HIGHLANDERS.**  
Philadelphia, July 11.—Rube Oldring, the former Athletic outfielder, announced yesterday afternoon that he had signed a contract to play with the New York Highlanders.

## LOCAL NEWS ITEMS

**MOSQUITO OIL.**  
A circular received in the city clerk's office, from the Indiana Reformer Co., of Buffalo, N. Y., draws attention to Indian Mosquito Oil, a product which when placed on any swamps, marshes, or any stagnant water, dumps, garbage cans, or rubbish piles will absolutely kill all mosquitoes and not allow them to breed. The price quoted is 11 cents per gallon, or 10 cents in five or ten barrel lots.

**GRANDVIEW PATRIOTIC.**  
A local committee of the Patriotic Fund Association was formed in Grandview last evening, when a meeting was held for that purpose, with a fairly large attendance. A committee of about ten, to form the executive was appointed. Mr. Geo. Alderson being elected chairman and Miss Fyle, secretary. The committee proper will hold its first meeting on Thursday evening next, when the various districts will be organized and other arrangements made.

**WORD FROM LT. CORNELIUS.**  
Mrs. Cornelius, Colborne street, received word from her son, Lieut. J. R. Cornelius of the 58th Battalion, formerly organist of Park Baptist church, that he has been removed to a convalescent home in Scotland. Lt. Cornelius was shell-shocked and sent to hospital in England, from which he has been removed to Scotland. He reports that he is improving slowly, but that it will be some time evidently before he is altogether recovered.

**SUFFERING FROM SHOCK.**  
Mrs. Thomas Hill, 45 Church St., who was accompanying her little boy to the hospital in the ambulance last Saturday when the horses ran away, is rather seriously ill at her home, suffering from a nervous shock. The horses ran some considerable distance before being stopped, and it has been suggested that two men should always accompany the ambulance to avoid any possibility of accident.

## ALREADY BREMEN HAS LEFT PORT

(Continued from Page One.)  
State department officials held to be a merchant ship. The British and French embassies have asked the state department to satisfy itself of the vessel's character, but no protest against the boat's entrance into American waters was made. Navy officers have been detailed to assist the Baltimore collector in examining the submarine. Officials put little faith in rumors that there might be objection to a close inspection of the boat on the ground that it was of a secret type of construction.

## FIVE BRITISH ARMORED PATROL BOATS ARE SUNK

**Austrian Light Cruiser Novara Disposes of Them, Says Vienna.**  
By Special Wire to the Courier.  
Berlin, July 11, via wireless to Sayville.—The Austrian admiralty announced to-day that an Austrian cruiser had sunk four or five British armored patrol boats. Only nine men from the British vessels were rescued. The announcement follows: "Our cruiser Novara met a group of four or, according to the declaration of prisoners, five armored British patrol boats off Otranto road (at the lower end of the Adriatic). All the patrol boats were destroyed by artillery fire. All the steamers sank in flames, three of them after the explosion of their boilers. The Novara was able to rescue only nine members of the British crews."

## MISS EVA RUDDY RETURNS HOME

**Brantford Girl Spent a Year Nursing in Base Hospital in France.**  
After a year's nursing service at the front, Miss Eva Ruddy, of this city returned to her home at 40 Dufferin avenue yesterday after a fair weather and uneventful journey. For a year, Miss Ruddy was attached to Number 23 General Base Hospital, at Etaples, France. This institution is some thirty or forty miles in the rear of the firing line and twenty miles from Boulogne. It is a base hospital, that is to say that from it patients are sent, when partially convalescent, back to England to a convalescent home. Patients who are expected to recover in any period under three weeks are retained at the hospital until able to return to the front.

In No. 23 Hospital, where Miss Ruddy was stationed, accommodation was and is provided for some 1,500 patients, a number which is seldom reached at one time. The average is about 900 patients. Near by are eight other hospitals, all offering similar accommodation, so that the needs of the wounded may always be immediately attended to in a sufficient and adequate manner. A large re-inforcement concentration camp is also situated near Etaples, containing generally about 70,000 men, so that the locality is by no means a lonely one.

"We had a great many wounded Canadians in the hospital at various times," said Miss Ruddy, "and they all bore their injuries bravely. I encountered very few Brantford men, but one, although it contains many Canadian nurses and doctors. None of them, however, were from Brantford or this vicinity. Yes, I am home for good now—unless the war should last for several years yet, which is very improbable."

## GERMANS QUIT FRENCH GUN

**Streets and Buildings Base Within Another Thrust Out of it—Joffre**

London, July 11.—Hand-to-hand fighting of great ferocity raged in front yesterday. The allies on both banks of the river kept up the steady and pushing pressure against the Germans. The most important action of the day was the capture of the French, in a dash assault of a commanding hill on the southern bank of the Somme, which gives them control, not only of that entire section lying in the head of the river, but brings the streets and buildings of Peronne within sight of their artillery.

**German Base No More.**  
The Germans last night are reported to be hastily withdrawing stores and heavy guns which have been gathered at Peronne. With the French in artillery control of the town, it has lost all value as a base for which it served the Germans for more than twenty months. French critics are confident that another thrust will bring the troops of Joffre into the city.

GERMANS QUITTING PERONNE; FRENCH GUNS CONTROL TOWN

Streets and Buildings of Great Teuton Base Within Sight of Artillery—Another Thrust Will Clear Enemy Out of it—Joffre's Big Plans.

London, July 11.—Hand-to-hand fighting of great ferocity raged in many sectors of the Somme battle front yesterday. The allies on both banks of the river kept up their steady and pushing pressure against the Germans. The most important action of the day was the capture by the French, in a dashing assault, of a commanding hill on the south-eastern bank of the Somme, which gives them control, not only of that entire section lying in the bed of the river, but brings the streets and buildings of Peronne within sight of their artillery.

German Base No More. The Germans last night are reported to be hastily withdrawing war stores and heavy guns which had been gathered at Peronne. With the French in artillery control of the town, it has lost all value as a base, for which it served the Germans for more than twenty months. French critics are confident that another thrust will bring the troops of Gen. Foch into the city. The height carried yesterday is listed on military maps as Hill No. 97. It is located southeast of Peronne, which was taken by storm yesterday. In a further advance the French also claim to have recaptured the Maisonnelle Farm and a small copse to the northward.

Big German Counter-attacks. During the day the French engaged in heavy attacks against positions previously captured by them, but taken in a night counter-movement of the Germans. Not only on the entire front of attacks south of the Somme but also against the British north of the river the Germans displayed more activity than has marked their efforts on any day since the opening of the Franco-British offensive.

While the British last night report an advance in the region of Ovillers and La Boisselle and claim to have penetrated into the strongly fortified Mametz Wood, Gen. Haig's report admits that the Bois des Trones, a triangular-shaped forest, which the British had taken only after several days of hard fighting, has been lost. Berlin this morning reported the capture of the wood. The Teutons won back the position after they had been repulsed with heavy losses five times in succession. The fighting con-

tinued throughout the night and well into the morning. The German counter strokes against the French south of the Somme were delivered with great power and resulted in the recapture of Barleux, a village which marked the most extended point of the French advance on Peronne. Last night the French war office reports progress by Gen. Foch's troops towards the recapture of this place. The French are battling in the outskirts and among outlying buildings of the ruined hamlet. The French also have pushed eastward of Biaches, carrying a redoubt where a German force had managed to sustain itself, although surrounded for more than 24 hours. The fighting in the west is extending beyond the limits of anything seen in recent months. While the Germans continue to concentrate their main offensive campaign against Verdun and the allies in Picardy, large actions have developed at several other points on the front. The paper says that all the results expected have been accomplished and that further successes are assured.

Everybody will realize," says the Times, "the danger of making known in the newspapers the plan which is being executed by General Joffre. It must be understood that the operations cannot be carried out in a rigid and invariable form. Napoleon himself never entertained such ideas. His plans were dominated by one chief purpose, and were modified after observing the movements of the enemy. "Our operations have begun and begun well and it is unnecessary to seek to foretell what will follow. On the immense front where the French are in contact with the enemy the developments will be evolutionary. Without putting aside his main purpose, the French commander may modify his first intentions."

DANGEROUS TO LEAD HITTERS. Leading batsmen in the American Association have been bumped by Dame Fortune pretty regularly of late. George Stovall worked his way into the lead and then smashed a finger, sending him to the bench for a week. Then Larry Chappelle took the lead and broke a blood vessel in a fall in the outfield, which has sent him to the hospital for a while. Bert Daniels, the latest slugger to show at the head of the list, sprained his ankle running bases in Kansas City Saturday.

DEATH CALLS JOHN MCCOSH. Local Registrar of High Court at Barrie. Barrie, July 11.—John McCosh, local Registrar of the High Court, died here yesterday. He was 72 years of age, and had been in poor health since the death of his wife six months ago. Mr. McCosh was born in Paris, Ont.; studied law under M. C. Cameron of Toronto, and was graduated from Osgoode Hall. He practised his profession in Orillia for thirty-five years. For a time Judge Gunn was a partner. He was Mayor of Orillia for four terms and a candidate for the Legislature in 1906, opposing Mr. J. B. Tudhope. He is survived by his son Percy and the following daughters: Mrs. D. Harwood, Fernie, B.C.; Mrs. (Dr.) Anderson, Victoria, B.C.; and Mrs. Finlayson of Toronto.

DEVORE'S LUCK GONE. The luck that carried Josh Devore into two world series melons after he was "through," apparently has deserted him. Josh has been given St. Louis an unconditional release from the American association for his failure to hit.

PITCH HITTER AND RELIEF PITCHER. There is not the same unanimity regarding the proposed rule to eliminate the pinch hitter and relief pitcher. Some enthusiasts hold that the idea with certain limitations would improve the game while others are equally positive that it would remove one of the most interesting features of baseball strategy.

SMITH'S HOME RUN. New York July 11.—Cleveland reduced New York's lead to one and a half games by defeating the Yankees in the second game of what was kept in the second game by a score of 3 to 2. The first game was called off owing to wet grounds. The visitors won in the eighth inning, when Smith, a pinch hitter, drove a home run into the right field stands. Score: Cleveland . . . 000002010—3 5 2. New York . . . 01000100—2 8 1. Schauer, Russell and O'Neill; Shawkey, Russell and Nunamaker; Walters.

PIRATES' NEW PLAYER HELPS TO BEAT GIANTS. Pittsburgh, July 11.—Pittsburgh batted Schauer and Schupp freely yesterday and defeated New York by a score of 7 to 1. Umpire Byron put Merkle out of the game for protesting a decision. Farmer, the new pitcher, led with the bat, making two singles and a double. The score:— R.H.E. New York . . . 001000000—1 5 2. Pittsburgh . . . 21100202x—7 10 0. Schauer, Schupp and Rariden; Miller and Wilson.

HUSTLERS WIN FIRST AND GRAY'S TAKE SECOND. Rochester, N. Y. July 11.—Rochester divided honors with Providence yesterday, Rochester winning the first game of the double-header, 7 to 4, and Providence administering shutout, 4 to 0, in the second. Schultz was hit hard in the second inning of the opening game, and with the errors behind him, yielded five runs, which was enough to win. Billard was in excellent form in the second game, allowing but six scattered hits. Scores:— R.H.E. Providence . . . 201001000—4 10 4. Rochester . . . 0500002x—7 10 2. Schultz and Yelle, Hersche and Hale. Second game:— R.H.E. Providence . . . 020010100—4 9 1. Rochester . . . 000000000—0 6 1. Billard and Blackburn; Ritter and Casey.

CINCINNATI WINS ONE FROM LEAGUE LEADERS. Cincinnati, July 11.—Cincinnati took the last game of the series from Brooklyn here yesterday, 8 to 3. Dell took the lead in the sixth inning after Chase and Fisher had singled and Griffith was passed, filling the bases. Appleton was taken out to allow a pinch hitter to bat for him. The score:— R.H.E. Brooklyn . . . 000102000—3 6 2. Cincinnati . . . 00120201x—8 9 1. Dell, Appleton, Mails and Meyers; Schneider and Wingo.

TWOMBLEY DRIVES IN FIVE RUNS OUT OF SIX

Toronto, July 11.—The presence of one Twombley of Baltimore in the ball game at the Island Stadium yesterday accounts for the defeat of the Leafs by 6 to 2. Of course there were a few other athletes out there helping to fill in and make an afternoon's sport for a meagre crowd of usual washday proportions, but they were merely "supers," as they say "back stage" at the theatres. Twombley had three hits, a double and two singles. That is doing fairly well for four appearances at bat, but when one stops to consider that Twombley's hits drove in five of the six Orioles runs, it must be said that he earned his pay.

In addition to doing a lot of damage with his bludgeon, he displayed his versatility by stepping over to Russell and playing that position handsomely.

Yesterday it was Manning who found the show, and then more to his batting of the Baltimore Orioles. McTigue, himself a frequent recent victim of enemy bats, took up the work in the sixth inning and pitched very fast ball. Two runs were scored while the tall southpaw was on the hill, but they were already on the base paths when he went to Manning's relief.

McTigue acted as though he could have beaten the Birds had he been entrusted with the task of pitching the entire game, in three innings he held them to two hits. However, it was Manning's turn to perform. As is very often the case, the brilliant efforts of a relief pitcher went to waste.

By innings:— Toronto . . . 010000010—2. Baltimore . . . 002020200—6. CHICAGO SHUT OUT. BOSTON RED SOX TWICE. Boston, July 11.—Boston was shut out by Chicago yesterday, the visitors making four runs in the first game and three in the second. In both contests the White Sox batted vigorously, while the Red Sox made to bear in the last week or so and maybe his temper is getting a little frayed. If the magnates and the American league had been protesting him against unwarranted abuse he would be in a better frame of mind to have a few bad strikes called.

It doesn't seem just that the fans can get away with anything at all in the line of rowdy conduct and everything is all right, yet whenever a ball player makes a mistake, such as Cobb's Sunday, he is disciplined. The suspension of Ty at this time is an injustice to the Detroit club, which has been having enough bad breaks without the loss of its star. It is also unjust to the Cleveland club, for Ty is a drawing card and his presence in tomorrow's games would have meant a lot of extra money.

What is a "Balk"? No Rule in Baseball Interpreted in More Ways. There is probably no rule in the baseball book interpreted in more various ways than that defining a balk. According to Bill Klem, Al. Mannaux "balks" with his knee when he pitches with runners on bases. According to other umpires in the National League, Mannaux's motion is not a balk. Who is right? Mannaux and Manager Callaghan both say that Mannaux has not changed his style in the least with the same motion, both of arms and legs, that he always used. Yet Klem has seen it to pick upon him this season, and has penalized him twice for walking. The umpire not only called balks on Al, but he announced in the hearing of several players of other clubs that the Pirate pitcher's motion was a balk, thereby tipping opponents of the Pirates off to harass the twirler when he worked against them.

SHOULD NOT PICK ON COBB

Hughie Jennings Says People Expect Too Much of Him.

HE IS INSULTED MUCH TOO FREELY

Comments on Cobb's Punishment for His Break in St. Louis.

Here's what Hugh Jennings says: "I can't understand why he are on Ty. Possibly he lately hasn't been playing such brilliant ball as he sometimes has played, but he still is the king of them all, nevertheless. Every time he falls down in a pinch now or fails in an attempt to make a brilliant play, he is hooted and abused just as though he had committed some frightful crime. The fans ought to remember that if he isn't up to his standard at this moment, it was he who set the standard so high that nobody else could even approach it. He could play considerably less brilliantly than he is playing now and still lead all rivals.

"A player doesn't mind being criticized in a decent way, for that is part of the game, but there is no reason why a man should be viciously insulted because he doesn't make a hit every time up. Cobb is as much a gentleman as anybody in the game, the last man that anybody ought to pick on. He is trying his best at all times to give the patrons their money's worth, and he is succeeding, even though he isn't always the sup-er-man that they know him to be. He has borne the insults with great patience but he is a sensitive fellow and feels them keenly.

"President Johnson's discipline for Sunday's offence seems to me to have been too drastic. Mr. Johnson ought to remember that Cobb has had a lot to bear in the last week or so and maybe his temper is getting a little frayed. If the magnates and the American league had been protesting him against unwarranted abuse he would be in a better frame of mind to have a few bad strikes called.

## IMPOSSIBLE FOR CANADIAN NICKEL TO GET TO ENEMY

### Minister of Lands, Forests and Mines in the Hearst Government Declares all Nickel Exported is Under License Whereby the Further Disposal of Every Pound of it Can be Watched by British Government

Toronto, July 11.—"If the Deutschland, a German submarine of the so-called improved type of merchant marine craft, which is at present seeking shelter in neutral waters in the United States, hopes to return to the fatherland with a cargo of Canadian nickel and rubber, the people of Canada have no reason to feel alarmed. If such a cargo is abandoned her present moorings the nickel aboard will not be that shipped to the United States from the nickel mines of Ontario."

This statement was made by the Hon. G. Howard Ferguson, Minister of Lands, Forests and Mines, yesterday.

No Ontario Nickel for Germany.

"If the Deutschland ever reaches mid-ocean with this supposed cargo of nickel it will not contain one ounce of that mineral mined in Ontario. There are other sources from which the nickel is obtainable. This submarine will not advertise herself at the expense of the Province of Ontario upon her return trip. She is being carefully watched, and from advice furnished me, I have no hesitation in repeating that she will never carry Canadian nickel back to the fatherland."

Hot Shot for Editor

"The newspaper editor who sits in his office and tells the public that Canadian nickel is in danger of reaching the enemy's shores is not only falsifying conditions, but seriously injuring recruiting. I do not think that this Province or any other Province of the Dominion is going to tolerate a condition which carries with it death to the sons of fathers of the Dominion who are giving up their services for the Empire. It is positively absurd."

Every ounce of nickel that is shipped to the United States from Ontario goes out under a Dominion license. The British Government is the watchdog. It knows and can trace every ounce of nickel to its destination after it is disposed of in American territory. There is an

## ITALY'S KING A GREAT ASSET

King Victor Emmanuel a Soldier Born and Bred.

KNOWS HIS TROOPS THOROUGHLY Makes No Show, Lives Simply and is Often in Fighting Line.

London, July 11.—(New York Times cable)—The military correspondent of the London Times describing his recent tour of the Italian front, says in yesterday morning's issue:

"Italy is fortunate in having at her head at this critical hour of her destiny a king who is a soldier born and bred. It is a common saying here that the King of Italy is home sick when he is absent from the army, and it is certain his majesty spends every hour he can spare from state affairs with his troops. He wears on his only to those who have been at the front a year, and though he deprecates any allusion to the fact, it is true that he is constantly in the firing line. He has had many narrow escapes and is personally known to the whole army who love to see him in their midst."

Knows His Troops.

"I have not found any officer of his army who has a better, more intimate or more accurate knowledge of his troops than the king. His attention to the wants of the army is absolutely untiring and his cool judgment and large experience must often be of great service to his ministers and generals."

"I do not know whether the field headquarters of the King of Italy or King Albert of Belgium is most unpretentious, but certainly both monarchs live in circumstances of extreme simplicity. My recollection is that when I last had the honor of visiting King Albert's headquarters, the bell in which I must call the king did not ring, and the Queen of the Belgians had to get up and fetch tea herself. When I had the honor of being received by the King of Italy I found His Majesty in a neat little villa which had only four people, and the king working in a room of which the only furniture was, I can recall, consisted of a camp bed, a chest of drawers and a small table and two chairs of uncompromising hardness. The only ornament in the room was the bust of just above the king's head. It had been mounted as a souvenir by the queen."

HUNGARIAN INTERNED.

He Write Asking Friend About Get-Smuggled Over Border.

Owen Sound, July 11.—Acting under instructions from the Dominion Police at Ottawa, John Kuhar, a Hungarian, was placed under arrest on Wednesday and taken Friday afternoon to Stanley Barracks, Toronto, by P. C. Bone. Kuhar came to Owen Sound from Brampton three weeks ago to work in the Malleable Iron plant. He evidently had not been complying with the regulations which necessitates enemy aliens to register, and he was discovered by the censoring of a letter which he sent to a friend in the United States. In which he asked if anything could be done to smuggle him across the border.

SHOT IN LEG.

Ailsa Craig Lad Hurt While Cleaning Rifle.

Ailsa Craig, July 11.—While cleaning a rifle in his father's shop yesterday morning, Chester Alexander, son of Mr. Johnstone Alexander, Blackleg, was accidentally shot in the leg. He did not know the rifle was loaded. Dr. Anderson was called and ordered him rushed at once to Victoria Hospital. The young lad was suffering considerable pain.

"Fruit-a-tives" Soon Relieved This Dangerous Condition

632 GERRARD ST. EAST, TORONTO.

"For two years, I was a victim of Acute Indigestion and Gas In The Stomach. It afterwards attacked my Heart and I had pains all over my body, so that I could hardly move around. I tried all kinds of Medicine but none of them did me any good. At last, I decided to try "Fruit-a-tives". I bought the first box last June, and now I am well, after using only three boxes. I recommend "Fruit-a-tives" to anyone suffering from Indigestion".

## OVERWHELM HER WITH FORCE IS THE WRONG WAY

Thus President Wilson Talks of the Mexican Situation.

GAVE ADDRESS TO SALESMEN

Urged Them to Carry Justice and Fair Dealing Everywhere.

By Special Wire to the Courier.

Detroit, Mich., July 11.—President Wilson aroused great enthusiasm at the World's Salesmanship Congress yesterday by urging that business men carry justice and fair dealing to the ports of the world, particularly those of Mexico and thereby establish confidence in American principles. His efforts, he declared, will be to serve all America by serving Mexico herself for her best interests without using force, and to serve the few "gentlemen" who wish to exploit Mexican possessions.

Peace! Wanted

"When the President asked the crowd what he desired at the end of all the present world troubles, he shouted "peace" in one voice, and then added that his wish was "permanent peace."

"I hear some men say," he said, "that they want to help Mexico, and the way they propose to help her is to overwhelm her with force. That is the wrong way as well as the long way."

After fighting them you would have a nation full of justified suspicion. Thus you would not help them. You would shut every door against you.

Mexico is Suspicious.

"What makes Mexico suspicious is that she thinks we do not want to serve her, but possess her. And she has justification for these suspicions in the way some gentlemen have sought to exploit her possessions."

"I will not serve these gentlemen, but I will serve all Americans by trying to serve Mexico herself. The way to establish our sovereignty is to respect hers."

Merchant Marine Coming

The president declared that the merchant marine which some are "so slow in giving us," will be a great help to the business interests of the United States. In order to gain foreign business, however, he added, it will be necessary for American businessmen to adapt the goods to the demands of other countries, and not try to force their own ideas on other markets. Salesmanship, he said, would go hand-in-hand with statesmanship after the close of the war.

FARM LABORERS WANTED

The Western Provinces of Canada have experienced an acute shortage of farm laborers for spring seeding and summer work this year.

Even when times were normal throughout Canada moreover, it was always necessary to bring from twenty-five to thirty thousand laborers from Eastern points for the harvest season.

As voluntary enlistments have been very heavy, and inasmuch as a successful crop is predicted by the experts, grave fear is being felt along the lines of the Canadian Northern Railway, on account of the difficulty experienced in obtaining labor, which means steady work and good wages for all who visit in the districts served by the C. N. R.

WESTPORT EDITOR IS DROWNED AT CORNWALL

Cornwall, July 11.—W. B. Adams, editor and proprietor of the Westport Mirror, was drowned yesterday in the Rideau, near Westport, while fishing, in company with James Conley, of Westport. Their boat upset. Adams was swimming to shore, but became exhausted and sank within 12 feet of the land.

## Water Mixed With Whisky

New Regulations in Britain Impairs Strength of Liquid.

London, June 11.—It has been decreed by the Board of Control that after July 1st, no spirits, with the exception of those proved to have been bottled before June 6th, of this year, are to be sold unless 25 degrees under proof. At \$1.25 per bottle, compared with the pre-war price of 7 cents, the whiskey drinker will receive 94 cents worth of whiskey and pay 31 cents for about half a pint of water that he will be compelled to drink with it.

Despite the earlier efforts of the Board of Control to restrict the consumption of spirits, the consumption increased in a year three million gallons. Apparently the whiskey drinker finds that the more his whiskey is diluted the more whiskey he has to drink to obtain the same results. And he does it in about half the time it used to take him when public houses were open all day and whiskey was much cheaper.

WOMEN DOCTORS IN CHINA

Pekin, June 12.—Forty-two women doctors, graduated from various medical schools, will shortly be given certificates to practice in Peking. These will be the first women granted official permission to practice medicine in the Chinese capital.

## Announcement

Foreseeing the probability of the Electric range taking the place of the gas, we have finally, after considerable time looking over the various makes of ranges, been successful in procuring the Local Agency for the National Electric Range.

This range is made by the NATIONAL ELECTRIC HEATING CO. of Toronto, who are the pioneers in the manufacture of electric heating appliances in Canada.

These ranges have been tested and experimented with for three years before they were placed before the public, and are known and absolutely guaranteed to do anything an electric range is supposed to do.

These ranges are built to a standard, the price being a secondary consideration.

We have inquired and have been informed by different experts that there is not a better Electric Range on the market to-day than the National.

The range is absolutely guaranteed in material, workmanship, economy and service by the makers and ourselves.

We invite the citizens of Brantford to inspect the NATIONAL ELECTRIC RANGE in our Show Room No. 9 King Street, where we have six different styles and sizes to choose from.

We are offering these ranges at respectively one price only, for we are selling them at the lowest possible profit.

Yours very truly,
