LOW RATE EXCURSION

To California and the Lewis and

Clark Exposition The personally conducted excursion to the Pacific Coast via the Grand Trunk Railway System, to start July bids tair to be an unqualified suc cess. Every arrangement in connection with this excursion has been to the end that the one hundred and twenty-five people who take the trip may enjoy the pleasantest tour of their

The route is one of the most attractive on the American continent, the rates are the lowest ever named from the Atlantic to the Pacific, and the details looking to the convenience and pleasure of the members of the party have had the most careful consideration. In short, everything considered, this tour affords any who desire to visit the Far West, the opportunity of a lifetime. Any who anticipate joining the July 5 party, should make their reservations at once, as all details must be closed within the next few days.

A second party will start on Aug. 28. Bookings for this one are coming in rapidly and any desiring to secure accommodations must apply soon.

Each party will be personally conducted by E. C. Bowler of Bonaventure Depot, Montreal, from whom full information may be obtained.

Goods Roads Money

The Ontario Government will introduce an important change in the system of granting aid to Provincial County Councils for the work of making good roads. Under the former Good Roads Act the sum of \$1,000,000 was apportioned for the purpose, to be distributed among the different counties in proportion to their population. Under a new Act, introduced by Hon. Dr. Reaume, the Government agrees to pay one-third of the cost of effecting good roads in various counties, the plans for which have been approved by the Governor-Gener-al-in-Council. The time limit within which counties are allowed to submit their application is extended for one

If it were generally understood how salutary the act of laughing is to the bodily health there might be more laughter than lamentation in the world, and the farcial comedies prove more attractive to the invalid than physicians. The old adage, "Laugh and grow fat," is

old adage, "Laugh and grow fat," is founded on a sound physioligical basis, It is commonly observed that fat men laugh with considerable facility. But they do not laugh because they are fat. They are fat because they laugh, the act of cachinnation having a profound influence in promoting appetite, oxidation of the blood, digestion—indeed, the entire and complex process of nutrition. Good nourishment produces the contented body. The fit temple of the contented ed body. The fit temple of the contented mind, which is, we know on excellent

authority, a perpetual feast.
The immediate physical results of indulgence in laughter are numerous. In the first place, the act of laughing in-

abdominal organs undergo a kind of kneeding not unlike that undergone dur-ing massage, and this is of great benefit in rousing them from that torpor to which they are liable. The heart is also stimulated to more vigorous contrac-tion during the active cachinnatory pro-

lous foxins which the body eccasionary elaborates from the food supplied to it, elaborates from the food supplied to it, elaborates from the food supplied to it, doubtes from the food supplied to all the portage of the system and prevent the entrance of hartful matters from the alimentary of hartful matters from the food supplied to the probability of th pate this kind of mental depression, by mechanically rousing the system, increasing the rate of exidation of the THE STOMACH.—This is sadly too often by which such poisons are eliminated porting to cure, in the end do the patient imand, by its beneficial action on the liver, mensely more harm than good. Dr. Von sting the absorption into the system prolonged-of that kind evoked by the well played farcial comedy. It is a mat-ter of common knowledge that a man landles more heartily when in company others than he does by himself; states are 'catching;" hence, in a thea-

wasting of the massive which subserve it. If such a man would look on the lighter side of life and laugh a little more, his appetite and digestion would improve, and he would be able to acquire that minimum amount of fat which is necessary to the well-being of the body-fat being a necessary constituent of the healthy brain and nervous system. The laughing habit is one, therefore, that is worth cultivating. It is a matter of everyday experience that one feels the better for a good laugh, an explosion of laughter being, in truth a nervestorm, comparable in its effect to a thundreton in Nature 1988. thunderstorm in Nature (on a very small reale), doing good by dissipating those oppressive clouds of care which sometimes darken the mental horizon.

Mamma—Yes, dear.

Tommy (who has just been licked by his father)—Say, mam, do you think there is ever going to be another flood? times darken the mental horizon.

researches," said a member t of the deeps on Genes, we con-

taus a sort of natural dark lantern. Their supposed to.

of the light emitted by them. The exact purpose of these organs can only be conjectured. The structure of the eyes of densea fishes is modified for adaptation to the phosphorescent light emitted by the luminous organs.

As these organs are distributed over the body, in an arrangement peculiar to the As these organs are distributed over the body, in an arrangement peculiar to the species, and shine with light of various hues, it is inferred that they serve, like the pignent cells of daylight animals, to form a characteristic specific pattern. So far from being black, then, these fishes must present weirdly gorgeous spectacles, illuminated as they are amid the dark surrounding waters. "In some cases the luminous organs of deep-sea fishes shine not outward, but inward. Such illuminating organs are found most frequently in the eye cavity, and the probable interpretation of them is that they originally shone outward, but, becoming covered with skin folds, their purpose has become modified into supplying the eyes of the fishes with increased sensitiveness to differences of color between species."

ENGLISH SPAVIN LINIMENT

Removes all hard, soft or calloused lumps and blemishes from horses, blood spavin, curbs, splints, ringbone, sweeney, stifles, sprams, sore and swollen throat, coughs, etc. Save \$50 by use of one bot-tle. Warranted the most wonderful

Heroism's Reward.

mind, which is, we know on excellent authority, a perpetual feast.

The immediate physical results of indulgence in laughter are numerous. In the first place, the act of laughing involves the exercise of a large number of muscles, including many of those of the face, neck, chest and abdomen, which if they are exercised sufficinetly, often become correspondingly well developed, as do also all those glands, blood vessels, nerves and other tissues in timate connection with them. The facial muscles, for example, of the man who laughs often and easily are generally developed to a degree which gives him the facial rotundity of a contented child. But laughter accomplishes much more than the production of this mere outward appearance of well-being. It has a highly beneficial influence on those two vital organs, the heart and the lungs.

During what is called a "fit of laughter," the lungs may be almost concording the previously only stagnant air Fresh air is then drawn in to the fullest extent of their capacity, inflating we ordinarily practice comparatively large tracks of an easils are not used. During this process the general circulation is accelerated, impure air is hurried out of the system and fresh air burried out of the system

Little Helen was a firm believer in prayer ,and was taught always to attend cess. Persons who, so to speak, let them-selves po, and laugh with a will, some-times bring almost all the principal truscles of their body into play, twist-a special prayer for rain to-night, as the family devotions. During a season of ing turning and bending themselves almost flouble in sheer musclar exhillarawant of it is causing much suffering and bending themselves at want of it is causing much suffering and many deaths among the animals. Her father had hardly left the house when state often caused by a poisoning of the nervous state with one of those curton beautiful than the state of the nervous state with one of those curtons are the nervous states are the ne her knees, prayed for the much-needed

indirectly stimulating the organs the case. So many nauseous nostrums pur-Stan's Pineapple Tablets are a purely vege table pepsin preparation, as harmless milk. One after eating prevents any dist der of the digastive organs, 66 in a box. cents.—40

> Costly Living in Gotham. Every day in New York there is some fresh

aggravation to matrimony cropping up in places affected by bachelors. It costs 10 that is because most of our emotional states are 'catching," hence, in a theater an audience is easily seized with appearance of the most vigorous laughter, as it may be with equally uncontrollable panic. The most vigorous laughter, then, must be sought in company.

The spare, meiancholy and miserable looking man is thin because he seldom or never gives way to healthy laughter. Meutal worries, real or imaginary, will so prevent nutrition through the influence of mind on body, as to produce wasting of the muscular system and those other tissues which subserve it. If such a man would look on the lighter

Holidays on Saturday. (New York Times.)

One of our correspondents has suggested that all holidays be celebrated on the Saturdays that come nearest their dates. There is something in this idea and is deserved consideration. We suspect however, that the consideration would end in the reaction of the idea. Of course holidays are a rather serious interruption to trade and industry, but it is far from certain that, in moderate numbers, they are as much of an injury as of an interruption, and a holiday historic date is robbed of most of its sentiment and enhancement.

HO! FOR NEW YORK!

high Valley Railroad excursion, Friday, June 16th. Tickets good for return until June 30th. Tickets good on regular fast express trains leaving Suspension Bridge, June 16th, at 3.50 and 7.15 a. m., 6.29, and 10.15 p. m. Don't

The Czar of Russia, it is said, has \$25,000,000 in vested in English securities, and it is also declared that he would ties, and it is also declared that he would in an extreme crisis fly and live in England, as other troubled monarch have done before him. Then he has a second string to his bow in the \$6,000,000 invested in American rails, iron and coal. So long as he remains in Russia, however, he draws, according to a French international almanac which was recently suppressed in St. Petersburg, \$42,573,000 a year. That does not represent the total incon- of his family. The swarm of relatives account for a huge sum, the imperial appanages alone representing \$10,000. ial appanages alone representing \$10,000,-000 a year.

Offers a Simple Solution.

you a nickel?" said Miss De Style Oh, no. I never dispense promiscuous alms. Why do you not obtain employment?"

"Please, mum," was the timid reply, "I have a small baby and people won't be bothered by a woman with a child."

"Then, you absurd creature, why not leave the child at home with its nurse?"

Speaking From Experience.

First Truant-Say, Billy, ain't you going none?
Second Truant—Not much. If we goes home now we gets a lightne, but if we leave it till after dark we gets kissed and cuddled and given cake for not being drowned.

Fortunate is the man who has a friend willing to listen to his troubles.

There are very few cleansing operations in which Sunlight Soap cannot be used to advantage. It makes the home bright and clean.

Bargain Hunters and Store News. The woman bargain hunter has for many years been regarded as the legiti-mate butt of the professional jokesmith. With characteristic American exaggeraion she is habitually represented as buy-ing what she does not want for cheap-ness' sake; but the truth is, as a writer in The Milwaukee Sentinel points out, that with the same allowance as her less prudent sister she "manages to dress better, to keep the children looking better, to keep the children looking better, to keep the house better fur nished and the table fuller." The bar gain hunter reads the daily newspaper, and looks first of all for the store announcements, with mutual profit to her-self and to the advertisers. Her husband may laugh at her, but he would be the first to protest if she should neglect to keep posted as to how to keep house economically.

Saving a Shade Tree

(Philadelphia Ledger.) (Philadelphia Ledger.)
The right of a fine shade tree to live ni Central Park, New York, has caused quite a controversy between the park department and the department of water supply, gas and electricity. The latter had started to dig a ditch for a water main that would have destroyed one of the maples in the park. The park department protested and the water men said that if the route of the ditch were changed it would cost the city \$15,000.
The park department replied that the maple was worth \$15,000, and another route has been staked out.

Deodand Law for Scorchers.

Deodand Law for Scorchers.

When the Marquis of Queensberry seeks in court a license to carry a gun to protect himself and his children from the deadly onslaught of the reckless autemblier, it is apparent that over-speeding and scorching through city streets is by no means an evil confined to streauous Americans. Since fines are ineffective, it is now suggested that the ancient law of the deodand be revived and the punishment shifted to the machine that does the mischief. Under the deodand of yore a cart running over or occasioning the death of a "reasonable creature" was forfeited to the king for pious purposes. If for cart automobile he substituted and in place of the king a society for the prevention of cruelty to reasonable creatures a modern law of the deodand, the proposer contends, would prove a genuine blessing.

RUNNING SORES, the outcome of neglect, or bad blood, have a never-failing balm in Dr. Agnew's Ointment. Will heal the most stubborn cases. Soothes irritation almost instantly after first application. It relieves all itching and burning skin diseases in a day. It cures piles in 3 to 5 nights.

Horse and Woman, The borse shares with woman, the greatest animate physical beauty, and the classification does the lady no discredit. As for man, his partner in pulchritude is away down the line, probably a mule and maybe a burro. The horse ranks high in our admiration and appreciation not alone because he is handsome, but because he is patient, agile and useful.

If dropped on the floor and stepped on, it will not ignite, as some times happens with the common parlor match. Will strike on any surface,

ASKS PEACE TERMS

Lamsdorff and Witte Want to Know Japan's Terms.

A Paris cable: It is definitely known that the Russian Foreign Minister, Count Lamsdorff, seconded by M. Witte, President of the Committee of Ministers, has be over once both Japan and Russia have initiated overtures through the Russian representatives abroad to learn Japan's disposition and terms of peace. These overtures, it is said here, began three days ago, and were the cause of the more hopeful view which the officials began to have. At the same time it was then and still is recognized that Count Lamsdorff and M. Witte represent the peace element, and it is not yet clear how far the movement is shared by the Emperor.

Agree on Peace Views. A Berlin cable: The interviews Baron Speck Von Sternburg has had with President Roosevelt and the cable correspondence between the Ambassador and th Foreign Office here resulted in the President and the Emperor finding that they had identical views on the subject of peace and were nearly of the same on as to the method of drawing opinion as to the method of drawing Russias and Japan into negotiations. The joint view appeared to be that others, including France and Great Briothers, including France and Great Britain ought to be left out because to be understood the peace situation was fully considered. This will place the Ambassa all would be a slow and cumbersome business and would impress Russia as taking on the character of outside pressure and it is intimated that he may carry and agreement better from M. Loubet to sure. It now transpires that Ambassador Meyer's audience of Emperor Nicholas had been preceded by a family council at Tsarskoe-Selo at which it is expected a decision was reached that peace was entertainable if Japan's conditions were not too unreasonable.

ROOSEVELT CRITICIZED.

Russian Newspapers Anneyed at the

Pussian Newspapers Atnoyed at the States—The Ships at Manila.

A St. Petersburg cable: The Russian press, notably the Novoe Vremya and the Russ, the latter frequently reflecting the views of the Foreign Office, display a great deal of resentment against the United States for entorcing the 24-hours rule in the case of the three Russian cruisers at Manila. The Russ quotes the American neutrality regulations, and controlds that President Roosevelt in applying the principle that only injuries received during a storm, and not in battle, can be repaired in American ports, not only narrows the American perts, not only narrows the American perts, not only narrows the American regulations, but infringes recognized principles. tle, can be repaired in American ports, not only narrows the American regula-tions, but infringes recognized principles the terresentations have been made to Washington on the subject.

to put one of their own party in the chair.
After the election the House adjourned until
June 20th.

SUBMARINE BOAT SUNK; FOURTEEN MEN DROWNED.

Three Explosions Took Place on Board Before She Foundered.

Circumstances Surrounding the Sinking of Other Submarine Boats Recalled.

A Plymouth cable: Submarine boat "A-8" was lost off the breakwater here this morning. The explosions are said to have occurred on board before she foundered. She had on board eighteen officers and men, including her regular crew and men who were in training. Fourteen of the number were downed and the others were picked up. The disaster occurred while the "A-8" was proceeding to sea for practice, accompanied by another submarine boat and a torpedo boat. Three explosions were seen from the shore to occur on board the "A-8," which suddenly disappeared. Tugs and divers immediately proceeded to the scene.

The sub-marine boat less in eighteen, a steamer while the submarine boat was submerged. fathoms of water. The first intimation

of the disaster came from the boat herself, signalling that she was submerged and could not come to the surface. A signal was received shortly before noon which said: "All right up to the present."

Diving parties immediately proceeded to the scene. Those who were saved were standing in the vicinity of the con-ning tower at the time of the disaster, the husband was left in the pantry, and in the morning Mrs. Harry Diamond drank them. She ate a hearty breakfast afterwards, and about 8 o'clock was taken deathly sick. The shortly after.

boat A-1, off Portsmouth March 18 last The crew were battened down and year as the result of being run down by suffocated by the fumes of gasoline.

The explosion on board the A-5 was described as being so violent that it was heard ten miles away, and shook the submarine's convoy, the Hazard, from stem to stern.

Six men lost their lives and twelve were seriously injured in this disaster. The disaster to A—I was even more appalling. She was submerged near the Nave lightship, off Portsmouth, when she was run down by a steamer of the Don-ald Curie line, and all on board of her, eleven officers and men, were drowned. The loss of the submarine boat was not about 300 tons displacement and was known for some hours after the liner had launched in 1904. reported to the manoeuvring fleet that she had struck a torpedo, and after a long search the ill-fated submarine boat was discovered. It was presumed that

FLOATS FROM FLAGSTAFFS IN PLACE OF THE UNION FLAG.

A Christiania, Norway, cable: The Norwegian tricolor was hoisted this morning over Akershus Fort throughout the country in place of the Union flag. The substitution was attended by great ceremony at the fort, where the members of the Storthing were assembled, and 30,000 of the public witnessed the event from points of vant-age. The garrison was paraded in front of the quarters of the commandant of the fort, and the commandant read the

resolution of the Storthing dissolving the union with Sweden.

As the clock in the tower of the fort chimed ten the Union flag, which had floated there since 1814, was hauled down, the troops presented arms, the band played the patriotic air. Sons of Norway, and after only a momentary interim, the first gun of a national salute boomed, the flag was broken open and the troops again presented arms. The people then uncovered and cheered wild-ly, the band adding to the general enthusiasm by playing the popular air, Yes, We Love This Country. First one and then another took up the words of the song, until the whole crowd joined in, after which round after round of cheering again greeted the flag. Three cheers were next given for the father-land, and the singing of the National

Anthem concluded the ceremony. Victoria, B. C., June 12.—The Esqui-malt & Nanaimo Railway and a land of Commerce has furnished all the consul-generals with copies of the Storthing's resolution, and has invited them to notify their respective Governments of the dissolution of the union. Minister of State Loveland's appoint-

ment as Foreign Minister of Norway be-comes effective June 15. Stockholm, June 9.— Crown Prince Gustav on his return from Berlin to-day was met by the rolay family, the Ministers and a large crowd of people, who cheered him enthusiastically. The city s decorated with flags.

WIRE-PULLING RESENTED.

Exciting Scene in the Montreal Conference.

Ottawa, June 12.—There was an exciting scene in the closing hours of the Montreal Methodist Conference this cussion had been in progress on the reolution recommending the organization said that, while he sympathized with the resolution, it did not altogether eet the object sought. What was needed was personal effort and the pro-duction of a virile type of Christianity. Mr. Thomas rather hinted that in the djoining room, where the Stationing Committee were sitting, some undesire There have been things going on matter was also touched on by Rev. 1 2. Burke, of South Mountain, who said Theer have been things going on m he room out yonder in the last twenty four hours that every honest Method-ist ought to be ashamed of." This observation raised a great hub-bub, some members of the conference

shouting, "Oh, oh," and others, "Say Rev Mr. Burke-I will say it now if ou want me to. The Chairman, Rev. Dr. Ryckman-1

Fairbanks had been speaking for nearly twenty minutes, when McConnell, who had been slowly making his way through the crowd, made a bold effort to the crowd, made a bold effort to the crowd, made a bold effort to the crowd were filled with clippings from Chicago reach the side of the speaker. His right hand was placed on a rusty revolver in his hip pocket as he surveyed Fairbanks, and then he made a quick movement as if to attack the Vice-President.

In a struggle with four detectives, who seized McConnell, eit was necessary to choke him into submission: While being placed in a patrol wagon McConnell to submission while being placed in a patrol wagon McConnell to submission. While being placed in a patrol wagon McConnell to submission while the placed in a patrol wagon McConnell to submission. think I must ask for a resolution.

Rev. Mr. Burke—The resolution is
this "That this contened discourages of the wire-pulling. We will put it in plain language: "On the part of some pian language: "On the part of some ministers and some laymen in conec-tion with this conference that seriously interferes with the work of the Sta-tioning Committee."

gether.

"Even the revolutionists" the Russ | dogged the Russian fleet from the time adds, "are not traitors. They are fighting the present rotten bureucracy, and the mother country. They would not the mother country. They would not the relies of neutrality, the North Russian fleet from the time it left Cronstadt, and for trying to force all the powers to accept her interpretation of the rules of neutrality, the North Russian fleet from the time. tion of the rules of neutramity, the Novoe Vremya declares that President Roosevelt, whom it refers to as "Mr. Roosevelt," contaminated by England's example, arbitrarily interprets his own rules in a sense favorable to Japan, addition. "Mr. Prograph, takes full advantages tolerate a disgraceful peace."

Universal regret is expressed in official circles at the retirement of M. Delcasse, until recently French Minister for Foreign Affairs. He was regarded as a true friend of Russia, was a personal friend of Foreign Minister Count Lamsdorff, and was a sincere and unequivocal supporter of the dual alliance. The Novoe Vremya says:

"We know how to appreciate true friends. We have some of them."

"ules in a sense favorable to Japan, adding: "Mr. Roosevelt takes full advantage for the fact that Russia is helpless and powerless to do more than protest. The Japanese Minister is reported to have enguivocal supporter of the dual alliance. The Novoe Vremya says:

"We know how to appreciate true friends. We have some of them."

friends. We have some of them." The Russ and the Slovo consider M. Delcasse to be the victim of trying to play the impossible role of connecting link between two rivals—Russia and Great Britain. The Slovo says: "M. Delcasse's policy was ever directed to-wards the isolation of Germany, but he forgot that an alliance with Great Britain would ruin any political system aimed against Germany. The British alliance has not helped France in Morocco but it has embroiled her with Germany. M. Deleasse pays the penalty by retiring as complications can be easier avoided with him out of the Cabinet and his with him out of the Cabinet, and his retirement will not effect the dual alliance."

A Russian Repulse.

Tokio, cable despatch savs: Imperial army headquarters give out following: "At 11.30 o'clock on the morning of June 7th, a body of Russians, some 160 strong advanced from the direction of Sumiaotsz, about a mile and a quarter of east of Ainyipienmen, but were met and repulsed by us on an eminence lying north of that place. The enemy fled in confusion toward Nienyiling, seven miles northeast of Yinyipienmen. "One soldier and two saddled horses

were captured. "With the exception of skirmishes be tween scouts on both sides there is no change to report elsewhere.'

ASKS PEACE TERMS.

Lamsdorff and Witte Want to Know Japan's Terms.

A Paris cable: It is definitely known that the Russian Foreign Minister, Count Lamsdorff, seconded by M. Witte, President of the Committee of Ministers, has initiated overtures through the Russian representatives abroad to learn Japan's the arrangement of the preliminaries. The belligerents are expected to be able to arrange the peace terms direct. The

peful view which the officials began t At the same time it was then and still is recognized that Count Lamsdorff and M. Witte represent the peace element, and it is not yet clear how far the movement is shared by the Emperor. Agree on Peace Views.

A Berlin cable: The interviews Baron Speck Von Sternburg has had with President Roosevelt and the cable correspondent dence between the Ambassador and the Foreign Office here resulted in the President and the Emperor finding that they had identical views on the subject of peace and were nearly of the same opinion as to the method of drawing Pursia, and Languagiant reservitions. Russia and Japan into negotiations.

The joint view appeared to be that others, including France and Great Britain ought to be left out because to be sure of a community of views among all would be a slow and cumbersome business and would inverse. business and would impress Russia as taking on the character of outside pressure. It now transpires that Ambassa-dor Meyer's audience of Emperor Nicho-las had been preceded by a family coun-cil at Tsarskee-Selo at which it is expected a decision was reached that near as entertainable if Japan's conditions

ROOSEVELT CRITICIZED

Russian Newspapers Accepted at the

States-The Ships at Manila, A St. Petersburg cable: The Russian faction is expressed in official and press, notably the Novoe Vremya and the Russ, the latter frequently reflecting the views of the Fareign Office dialety. Russia and Japan together for the pur the Russ, the latter frequently reflecting the views of the Foreign Office, display a great deal of resentment against the United States for carorsing the 24-hours' rule in the case of the three Russian cruisers at Manila. The Russ quotes the American neutrality regulations, and contends that President Roosevelt in applying the principle that only injuries received during a storm, and not in battle, thin be repaired in American perfactions, but infringes recognized principles of integrational law. This paper declares it thus official warrant for the statement that representations have been made to Washington on the subject.

The Novee Vremya is exceedingly sarcastic. After a slap at Great Britain for the alleged manner in which her vessels

in an endeaver to bring about a meet-ing of representatives of the two powers. It is pointed out in these circles that from the first Russia declared her preference to negotiating with Japan direct, and President Roosevelt, apparently acting on that line, is arranging the preliminaries for direct negotiations between Japan and Russia.

MORE SKIRMISHING.

sian Attacks.

A Tokio cable despatch: Army head-quarters have given out the following: A detachment of our forces which ad-vanced from Lianshuichnan two miles east of Chenchangtsu, dislodging one company of foot and fifty horse of the menny, holding the hills north of that place, and at three o'clock on the morning of June 7 occupied an eminence east of Chapengan and four miles northeast that his wire had never bought any, to

enemy attempted an attack of Soufaug-tao, ten miles north of Changtu, and on Taotun, five miles northwest of Changtu, and on Shithitti, two miles north of Tao-tun. All attacks were repulsed." power by the transmission through their representatives at the heligogenets, re-

representatives at the belligerents' respective capitals that it is the solemn conviction of their respective Governments that the time has arrived for the warring countries to conclude peace. The President's offer seems limited to bringwarring countries to conclude peace. The President's offer seems limited to bringing the plenipotentiaries of Japan and Russia together to arrange the preliminary terms for the conclusion of a limited armistice, and the selection of a place for the future negotiations, and the plenipotentiaries, in the opinion of the enipotentiaries, in the opinion of the dijlomats, will take the next move, as it is not believed that Japan will divulge her terms until the plenipotentiaries

THANKS FROM CZAR.

Rojestvensky Praised for His Bravery in the Fight.

A St. Petersburg cable despatch says: mperor Nicholas has cabled the following message to Admiral Rojestvensky:

"From my heart I thank you and all the officers of the squadron who have honorably done their duty for your unselfish work for Russia and for me. By the will of the Almighty success was not destined to crown your endeavors, but your boundless brayers will element. but your boundless bravery will always be a source of pride to the country." "I wish you a speedy recovery. May God console you all.

reconciled to the internment of the three Russian cruisers at Manila, but it opposes on principle the rule that warships injured in battle can repair their machinery and boilers at neutral ports. The oficials add that friction over this minor question would be exceedingly unfortunate just at the time that President Rosevelt is assuming the delicate role of Roosevelt to bring the belligerents to (Sgd.) Nicholas." The peculiar wording of the message it attracting attention, The restriction of the Emperor's thanks to those honorof the Emperor's thanks to those honorably doing their duty is fanning the ugly talk regarding the surrender of the ships and the conduct of some of the crews. The messages of Admiral Enquist and Capt. Chagin, of the Russian cruiser Almaz, did not contain any intimation of misbehavior on the part of the officers or crews, and added that the officers and men may be consoled by the thought they performed their sacred duty. A Gunshu Pass cable: Gen. Batjanoff, commander of third Manchurian army, addressing the troops yesterday on the occasion of the Empress' birthday, told

SUBMARINE BOAT SUNK: FOURTEEN MEN DROWNED.

Three Explosions Took Place on Board Before She Foundered.

Circumstances Surrounding the Sinking of Other Submarine Boats Recalled.

A Plymouth cable: Submarine boat "A-8" was lost off the breakwater here this morning. The explosions are said to have occurred on board before she foundered. She had on board eighteen officers and men, including her regular crew and men who were in training. Fourteen of the number were drowned and the others were picked up. The disaster occurred while the "A-8" was proceeding to sea for practice, accompanied by another submarine boat and a torpedo boat. Three explosions were seen from the shore to occur on board the "A-8," which suddenly disappeared. Tugs and divers immediately proceeded to the scene.

••••••••••• The sub-marine boat less in eighteen, a steamer while the submarine boat was fathoms of water. The first intimation of the disaster came from the boat herof the disaster came from the boat her-self, signalling that she was submerged and could not come to the surface. A signal was received shortly before noon which said: "All right up to the pres-ort"

for him. He declared that salts did not agree with him, and took some oil instead. The young wife said she would take the salts in the morning herself, and that she would place them in the pantry over night.

The mixed cup of salts prepared for the husband was left in the pantry, and in the morning Mrs. Harry Diamond drank them. She ate a hearty breakfast afterwards, and about 8 o'clock was taken deathly sick. The husband assisted her to bed, and The sinking of the British submarine.

The sinking of the British submarine

The explosion on board the A-5 was escribed as being so violent that it was heard ten miles away, and shook the submarine's convoy, the Hazard, from stem

to stern.
Six men lost their lives and twelve were seriously injured in this disaster.

The disaster to A-1 was even more appalling. She was submerged near the Nave lightship, off Portsmouth, when she was run down by a steamer of the Don-ald Curie line, and all on board of her, eleven officers and men, were drowned. The loss of the submarine boat was not

known for some hours after the liner had reported to the manoeuvring fleet that she had struck a torpedo, and after a long search the ill-fated submarine boat was discovered. It was presumed that the steamer, in striking the submarine-boat, upset her, spilled the gasoline in the tanks, and rendered her helpless.

to live, and that somebody must have NORWEGIAN TRICOLOR.

be FLOATS FROM FLAGSTAFFS IN PLACE OF THE UNION FLAG.

A Christiania, Norway, cable: Norwegian tricolor was hoisted this morning over Akershus Fort and throughout the country in place of the Union flag. The substitution was attended by great ceremony at the fort, tended by great ceremony at the fort, where the members of the Storthing were assembled, and 30,000 of the public witnessed the event from points of vantage. by an awning. No books will be kept, for the reason that constant exposure to the air is hurtful to them, but the library and reading on the third floor, will be plentifully stocked with the usual supply of good literature.

Any person who prefers to read on the roof may select his book or paper and carry it to the roof, and ther read until he tires. At night the roof will be lighted with electricity, and the light be lighted with electricity, and the light shining through the plants, nodding in the cooling breezes, will make a restful and refreshing picture, for the workers of the great East Side. A special cus-todian will be in charge of the garden.

MOTOR CAR ON FIRE.

Only Unpleasant Incident in Connection With Alfonso's Tour. London, June 12.-The only unplea-

sant incident of the day in connection with King Alfonso's tour of the city occurred in Bond street this morning. His Majesty and three other persons were the occupants of a motor car and had passed through the shopping district without attracting unusual atten-tion, when the car was discovered to be on fire. The King at once alighted and on the line king at once anguited and returned to Buckingham Palace in an-other motor car provided by detectives from Scotlard Yard, who were in attendance on his Majesty.

Later in the afternoon King Alfonso Later in the atternoon King Allonso and King Edward went in a motor car to Ranelagh, where a special polo match had been arranged. Lord Lansdowne, Secretary of State

for Foreign Affairs, to-day entertained some sixty gentlemen in honor of King Alforso. The party included the Arch-Monso. The party included the Archishop of Canterbury and a number of ambassadors and Ministers. Premier Palfour, several members of the Cab inet and Sir Henry Campbell-Bann sr-

After the dinner the Spanish ruler was present at a brilliant ball given by the Marchioness of Londonderry.

Wheat a Foot High, Winniper June 12 - To-day's crop renotes rapid growing during the week, some points stating that the grain has risen three inches in about as many days. A liberal supply of moisture and favorable weather continue to contribute cannot have anything like that.

DESERT SHEEP HERDERS.

Their Lonely, Dreary Life Tends to Drive Them Crasy.

Do you realize what it means to watch 5,000 sheep alone in the desert? You have read weird, grewsome stories of the horror of the solitary lighthouse keeper's life, but compared to the days of the Mexican shepherd those of the average keeper of the light are filled with gayety and noise. Even with their one or two dogs the shepherds often go insane, and were it not for the company of their shaggy collies the lunacy among them would rise to an almost incredible percentage, if we are to believe those who have followed the sheep in the desert and therefore may be supposed to know.

Once in old Santa Fe. N. M., I met a man who for twelve years had followed the sheep. His work was done. All day long he sat in a chair in the rear of a little dobe store, crouched over, gibbering to himself, bleating—an idiot. He still saw his sheep swaying like a great white wave among the sagebrush, and ever in his ears sounded the killing monotone of their bleats. One boy, though fifteen years of age, is mentally no further advanced than the average child of five. His father is a shepherd, his mother died when he was four years old, and his father took him out upon the range. All his life has been spent among the sheep. He is one

with them today. How is it possible, then, you ask, that men are to be found willing to watch them? It is very easy. Sheep herding is a lazy job at best, and the "greaser" is the laziest creature on earth. For \$20 a month he is willing to sit in the sand and listen to the never ending bleating until the little mind he has gives way insane. He is glad to take the chance for \$20 a month.

The greaser is not the only shepherd in the west. On the vast ranges of Nevada and Wyoming you may run across an occasional college man tending the sheep. Once, indeed, a college professor, ill of consumption, undertook to follow 5,000 bleaters for the summer. In autumn they found him insane, on his hands and knees among the sheep, bleating with them. Day after day his eyes behold only a brilliant turquoise sky, in which hangs a sun of brass; an ocean sweep of sage flecked sand and a slowly moving, compact mass of sheep. His ears hear no sound save the steady "Baa, baa!" day and night, af-fecting him as the Chinese criminal of ancient days was affected by the regu-lar tap, tap of a hidden drum.

And yet so long as the desert continues to provide food for the "bleaters" so long will shepherds go mad among the flocks, and for ten years the desert's greatest value to man has been the food it has offered the sheep, nor yet is the store depleted.-Pilgrim.

Here are the three deadly symptoms of old age: Selfishness, stagnation, in-

If we find them in ourselves we may know we are growing old, even if we are on the merry side of thirty. But, happily, we have three defenses, which are invulnerable. If we use them we shall die young if we live to be a hundred. They are: Sympathy progress,

The first is the hardest to most of us, because our own little prison of the actual is so immensely important to us. There is no denying the fact that when you have a toothache yourself it is hard to have to consider other pecple's aches. But it can be done, though it generally involves physical effort, for we must bestir ourselves and act. The mere feeling of sympathy expressed by action is a poor, useless thing, but the soul, determined not to grow old, can GREATEST NURSERIES" in the village of force the body to such physical effort, though there is no denying that it is hard work.

> Toothache is something to be dreaded. Until a dentist can be consulted

and the exact cause of the disturbance located and professionally treated it is an excellent thing to moisten the finger and, after dipping it into some bicarbonate of soda, rub it on the gum round the sore tooth. It is also a relief to mix a teaspoonful of this bicarbonate of soda in half a glass of warm water and rinse the mouth with some every little while, holding a little in the mouth for a few seconds so that it penetrates all the crevices. The soda, being an alkali, serves to neutralize the acids in the mouth, which are often the cause of toothache.

Knew the Crowd. A street preacher in a vest of Scotland town called a policeman who was passing and complained about being annoyed by a certain section of the au-

dience and asked him to remove the objectionable ones. "Weel, ye see," replied the cautious officer, "it would be a hard job for me

tae spot them, but I'll tell ye what I'd dae if I were you.' "What would you do?" eagerly inquired the preacher.

"Just gae round wi' the hat!"

"Yes," said the lecturer, "I'm dealing in furniture these days." "How is that?" asked a listener. "Making one night stands under a

lecture bureau, with the help of the

When to Cut Weeds, She-When should a young widow discard her weeds? He-Oh, I don't know, but I suppose she should cut them out just as soon as she wants to raise a second crop of orange blossoms.

Decision of character will often give to an inferior mind command over a superior.-Wirk

The Iron Horse has made anothes advance into the cold regions of the north. On Saturday last for the first time the shores of Ontario and Huron were made resound by the shrill blast of the same locomotive.

The morning sun shone out clear and cold as we moved off from the Bay street station, the thin air permitting a distinct view of the opposite shores of the lake. We soon ting a distinct view of the opposite shores of the lake. We soom reached Bell Ewart, on the shores of Lake Simcos, which, though yesterday reclaimed from the wilderness, is a place fast assuming the appearance of civilization and active business. In a short time we found ourselves at Barrie station, and here we must confess we were disappointed. Having never seen Barrie before except on paper, we had formed in our mind a picture, whose truthfulness the reality was far from bearing out. We were told, however, to suspend our judgment until we bearing out. We were told, however, to suspend our judgment until we had seen it in summer, when its beauties are marvelous, and we took the hint. . . The road being in good order, we made up for the loss of time, running through the sandy plains of Sunnidale and other townships at a rate which would have astonished the primitive owners of the soil had any of them remained the witness the exciting scene. The only

soil had any of them remained to witness the exciting scene. The only clearing we noticed on this part of the road is one which, we were told, is the nucleus of a youthful colony-planted by the enterprising firm of Messrs. Jacques & Hay, who are about to erect a mill. . . . Owing to the heavy snow which had fallen the previous day, the workmen had been prevented from laying down the ties and rails on a short portion of ties and rails on a short portion of the road, so that we had to dismount and traverse the remainden (to Collingwood) on foot.

We all returned in safety, thanks to Mr. A. Brunel, after a very pleasant trip—a trip not intended as a formal opening of the road, but simply with the view of inspecting the line, which will not be practically in use

until about new year.
(The road, then called the Ontario, Simcoe & Huron Railroad, is now part of the northern division of the Grand Trunk. Mr. Brunel was the superintendent.)—From The Globe, of Dec. 5, 1854.

Represents Port Simpson.

W. Finlayson of Port Simpson, B. Railway. In a launch explosion in which one man was killed, he being frightfully scalded, to save his life he had to have 375 pieces of skin grafted on him. At first the male residents of Port Simpson were backward in giving up tissues of their epidermis, but the ladies came gallantly forward and endured the pain inseparable from the sacrifice of integument. Of course all the men quickly followed suit.

One of the greatest mistakes of parents and those who have charge of children is that they are likely to allow the young ones too little time to sleep. With one excuse or another the youngsters are up later at night than they should be, and as they must be off to school betimes in the morning and there may be duties to perform they of our "handy" before ordering elsewhere. are called before they have finished their morning nap. Children, as a rule, ought to sleep ten or eleven hours, and to do this they must be put to bed early enough at night so that they may get this amount of uninterrupted rest.-Modern Women.

The Seal of Approval

Is given by Physicians to

Dr Hugo's Health Tablets for Women.

Doctors generally prescribe their own remedies.

They haven't a good word to say for liquid preparations, and people who know what these preparations contain, don't blame the doctors.

But it is different with Dr. Hugo's remedy. Honest physicians are obliged

to admit its merits. They themselves prescribe many of its ingredients. Some give our Tablets to their patients (see testimony below) knowing that

They Make Healthy Women

After consulting my physician and being told that I was suffering from a run-down condition which accounted for many other its, with which I was suffering, I with which I was suffering, I was presented with a box of brown tablets. I took them and in less than a week began to improve, and before two weeks had elapsed was so much better that I felt congratulations were due my physician. Upon complimenting him I was honestly informed by him that I had been taking Dr. Hugo's Health Tablets for Women. It is of little consequence how I obtained the medicine, but of one thing I am certain, I have received greater benefit from it than any other medicine I ever used. progressing very rapidly. Work on the building of the founda tion of the bank will be started in a

few days. The regular meeting of the municipal council was held in the Council Chamber on Monday evening and tranacted general business.

Township Roads

What Judge Meredith considered an important point in the law regarding the liability of municipalities to keep their roadways in a safe condition, was decided by him at Osgoode Hall, Toronto, in a suit against the town- ren and to cook, sweep, wash, sew and ships of Minto and Normandy. The question was whether on raising the level of a road by means of an enbankment, the municipality is bound day and yet there is much working to protect it by a guard rail, and on ove failing to do so, is liable in damages. Judge Meredith holds that it is so liable and assesses \$1,500 damages against the two townships for failing to provide the guard. The plaintiffs in the case are Albert Plant, a farmer, of Egremont township, and his wife. While driving this spring their horse bolted and took them over the embankment on a road on the line be tween the two defendant townships.

Spraying Potatoes The American Agriculturist, in speaking of an experiment carried on last season by Vermont Experiment Station in the spraying of potatoes to prevent rot, says that in the Station's the sprayed area was rotted, while 80 per cent of that grown in the unsprayed area was lost by rot. The net gain was 261 bushels per acre, as a result of spraying with bordeaux. The spraying was done August 9th and September 5th, with bordeaux arrove to the residence where the cereparis green mixture (six pounds copper sulphate, four pounds stone solely with paris green. The late blight (which directly or indirectly causes most of the loss from the rot of the tubers), was first seen on un spread very slowly, but, when the tops were killed by frost September 23rd, fully 90 per cent of the foliage on the sprayed potatoes August 21st. It unsprayed rows was dead, being mostly by this disease. No late blight could be found at this time on the sprayed rows where fully 90 per cent of the leaves were alive.

Control of Automobiles

British Auto Association has offered a standing reward of £100 for the identification of drivers of cars who on the ground for the erection of his cause injury to other road users, and then run away to escape the consetheir own power to allay the feeling tales, which have never before Mr. W. G. CRADDOCK which has been aroused against them. and by applying the above suggestion one means can be found to this end.

In the United States automobile run at less than 25 miles an hour, even through the crowded thoroughfares. In another case a scorcher refused to submit to arrest, insolently declaring that he was employed by a millionaire, and would not stop for anyone. As a result of a number of similiar cases the Tribune declares there should be more strenuous dealing with these impudent scorchers. Im prisonment, it says, would be a more fitting penalty than a mere fine.

While en route from Smith's Falls to Fairfield, he was prevent rot, says that in the Station's experience 8 per cent, of the crop on the sprayed area was rotted, while 80 trom Smith's Falls to Fairfield, he was taken very ill, and with great difficult weached the home of his uncle A doctor diagnosed the case as measles.

drove to the residence where the mony was performed, the groom being too ill to leave his bed. The wedding lime, 1-2 pounds of paris green, 40 line, 1-2 pounds of paris green, 40 was afterwards celebrated at the home gallons water); one-third was sprayed of the bride's parents, and next morn of the bride's parents, and next morn ing she returned to the groom's sick chamber for the honey moon.

The bride is a daughter of one of the wealthiest farmers in Leeds County,

'Raffles" Stories in The Mail and **Empire**

Mr. E. W. Hornung's stories of 'Raffles: the Amateur Cracksman' are universally admitted to be the The automobile people of Great Britain have done something which the motor drivers in Ontario might copy with advantage. The secretary of the story of his exploits excel in vigor jewel-robber, is one new to fiction; the story of his exploits excel in vigor and thrilling interest the work of any other modern writer. The Mail and Empire will begin publication in the Daily on May 13th and Weekly edition on May 18 of Mr. Hornung's quences. Auto drivers here have it in new series of "Amateur Cracksman

appeared in periodical form.

The first of these tales, "The Ides Solo Organist, Pianist and Voice of March," introduces Raffles and his In the United States automobile faithful companion, "Bunny," in their drivers have gone to still greater ex first and most exciting burglary of the drivers have gone to still greater of tremes than they have here. One case is reported by the New York Tribune, in which a man actually had his in which a man actually had his the Westle distinction for the next as in the Weekly edition for the nex

three months. Orders taken at the office of this paper for The Weekly Mail and Em pire and Athens Reporter to be mailed to any address in Canada, Great Britain or the United States from now until Jan. 1st. 1906, for 75 cents.

Life

The poet's exclamation: "O Life feel thee bounding in my veins," is a ovous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortun ate. They do not live, but exist; for Woven Wire Fence to live implies more than to be. To live is to be well and strong-to arise blessings, and that medicine is Hood's Sarsaparilla. The weak, run-down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into been thoroughly repaired life, and makes life more abounding.

We are glad to say these words in its favor to the readers of our columns.

Brockville Cheese Board

By a vote of 65 to 43, Brockville Cheese Board decided at their last Thorough Courses session that the meeting day shall continue to be Saturday. After discussion, further consideration of the clause making compulsory the sale of cheese on the board was postponed until Saturday next. A total of 6,281 boxes was offered and nearly the whole board was cleared at the ruling price of 93c.

Reporter office posters always please particular patrons.

Sometimes the hair is not properly nourished. It suffers for food, starves. Then it falls out, turns prematurely gray. Ayer's Hair Vigor is a

INTERNATIONAL LESSON NO. XIII JUNE 26TH, 1905.

Review-Read John 16: 1-15.

Summary.—Lesson I. Topic: Jesus the Shepard of souls. Place, Jerusalem. Jesus tells them that He is the Shepherd of the sheep; He is also the door; the Pharisees and false professors were the thieves and robbers trying to destroy the sheep. Those who trust in Christ and enter in through the door shall be saved; Christ comes to give His life for the sheep; the wolf—Satan—tries to destroy the sheep; the hireling fleeth when the wolf cometh; the good shepherd cares for and protects the sheep; other sheep—the Gentiles—were soon to be brought into his church. Although He laid down His life yet he would take it again.

II. Resurection and life. "Jesus said to the woman who answered the eadl, "Have you seen anything of a lost lamb about here?" "No, sir," was the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in terms sof ull of meaning that they touched her heart, and led her to confess with tears that she was the fost lamb for whom the good Shepherd even then was seeking. There are many lost lambs.

II. Resurection and life. "Jesus said to the woman who answered the eadl, "Have you seen anything of a lost lamb about here?" "She said she had seen none. "Are you certain there is no lost lamb here?" he inquired the third time, in whom the good Shepherd even then was seeking. There are many lost lambs.

II. Resurection and life. "Jesus said to the woman who answered the eadl, "Have you seen anything of a lost lamb about here?" "No, sir," was the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in the reply. "Are you certain there is no lost lamb here?" he inquired the third time, in the reply. "Are you certain

life yet he would take it again.

H. Topic: Jesus in the crisis times of life. Places: Bethabara, in Perea; Bethany, near Jerusalem. Lazarus was sick and his sisters, Mary and Martha, sent and his sisters, Mary and Martia, senior Jesus informing him; Jesus remained in Bethabara two days, then took His disciples and went to Bethany; when he arrived in Bethany Lazarus had been dead and buried four days; Martha met Jesus first; Mary was then called; they mourned that Christ had not been there before He died; Jesus groaned in spirit wept; the Jews said: "Behold, how He loved Him;" Jesus asked them to take away the stone; Christ prays; calls with a loud voice; Lazarus then came forth; many of the Jews believed in Jesus when they saw the miracle.

when they saw the miracle.

III. Topic: Love's service to the Master. Place: Bethany, at the home of Simon the leper. Jesus is again in Bethany. A feast is provided for Him and His disciples; Lazarus who was raised from the dead sat with Him at the table; during the supper Mary anointed Christ's head and feet with very costly introduct, the whole house was filled.

ointment; the whole house was filled with the odor of the ointment; she wiped His feet with her hair.

IV. Topic: The kingship of Jesus. Place: From Bethany to Jerusalem and in the temple courts; Jesus took His disciples and started toward Jerusalem. The ciples and started toward Jerusalem. The eiples and started toward Jerusalem. The people who had heard of the raising of Lazarus crowded around him; a great throng of people came out from Jerusa-lem to meet him; they greeted him as a king and cried: "Hosanna;" Christ rode on a young colt; certain Greeks desired to see him; Andrew and Philip tell Jesus, Jesus come out where the Greeks were

Jesus came out where the Greeks were and taught them.
V. Topic: Jesus teaches humility Place: An upper room in Jerusalem Jesus and his disciples are about to partake of the Passover supper; the disciples disputed over which should be the greatest and Jesus teaches them a lesson in humility having and made in the property of and Jesus teaches them a Jesson in their feet; Peter objected Jesus answers his objection; Peter says, "Not my feet only," Christ refers to his betrayal.

VI. Topic: Aids to fruitful service. Place: In Jerusalem in an upper room. The supper is over; Judas has left and is planning to betray him; Jesus teaches

is planning to betray him; Jesus teacher his disciples important truths through the figure of a grape vine; he is the vine; his father is the husbandman; Christians are the branches; the branches must be purged that they may bring forth much fruit; those who abide not in Christ are cast into the fire; Christ is glorified when we bring forth much fruit. VII. Topic: Christ's prayer for his followers. Place: In an upper room in Jerusalem. Before Christ and his dis-

Jerusalem. Before Christ and his disciples go out into the darkness of the night Christ prays: 1. For Himself.

2. For His disciples. 3. For all believers. He desired that they be kept from the evils that are in the world; that they be sanctified; that they may know the truth; that all believers should be truly united; that they may be partakers of His glory; He asks that His love may abide in them.

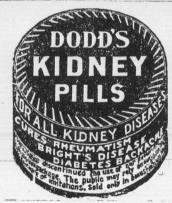

VIII. Tonic. Christ's challenge and VIII. Topic: Christ's challenge and indication. Place: Pilate's pudgment

vindication. Place: Pilate's pudgment hall. The Jews accuse Jesus; He is taken before the high priest; He is then taken before Pilate; it was early in the morning; the Jews would not entered the property of the period of the property of the period of the to them; demands a formal charge; questions Jesus; is convinced that He is innocent; they clamored for Barabbas and asked that Jesus might be crucified. IX. Topic: The crucifixion of Jesus

Christ, Place: Golgotha, Christ goes forth bearing His cross; a great multitude follows: He was crucified at nine o'clock; two thieves were crucified with him; Pilate wrote the title in Hebrew, Greek and Latin; the soldiers cast lot for Christ's tunie: Psalm xxii, 18 is thus fulfilled; Jesus provides for His mother.
X. Topic: The resurrection of Jesus Christ. Place: A garden near Calvacy The women were early at the tomb; several women and Peter and John had left; Mary tarried; two angels appear ed to her; Christ appeared to her; He told her to go to tell his brethren; appeared to disciples in the upper room. XI. Topic: The ministry of the risen Christ, Place: Isle of Patmos, John had been banished to Patmos; John was in the spirit on the Lord's day-Sunday heard a voice; saw seven golden candle-sticks and one like unto the Son of man standing in the midst; Christ is described: John fell at His feet as dead; was told to write what he had seen; this same Christ is still walking in the midst

of His people. XII. Topic: The blessedness of Heavand the new earth; in the midst o there was also the tree of life which bare twelve manner of fruits; servants served him; there was no night; the

Golden Text: "But these are writtenthat ye might believe that Jesus is the

Christ, the Son of God, and that believing ye might have life through His name" (John xx. 31). Let the word "life" be the keynote for the review.

Lesson I. Life given for life. "I am the good shepherd; the good shepherd giveth his life for the sheep" (John x. 11). "He gives his life a ransom for many". (Matt. xx. 28). The shepherd dies that his sheep may live (John xv. 13). A man of God halted at the door of a log house in a clearing, and said to

unto her, I am the resurrection and the life" (John xi. 25). It was not a question of time. He could as easily raise Lazurus that day as the last day, for He, the resurrection, the power to im-part, maintain and restore life, was there. He would teach Martha that the resurrection was not an impersonal fate to take place in the future, but a per-sonal effect proceeding from himself; iot a distant resurrection, but a present

what she could" (Mark xiv. 8). God will in the proceedings of the day. First is use what you have if you lovingly do the communication from the United your part.

IV. Life in him that cometh, "Blessed is he that cometh in the name of the Lord" (Matt. xxi. 9). Sages of earth, He is the key of your problems; troubled spirits, your peace; lovers of wealth, your treasure. The Word solves the enigma of life and conquers the power of death.

V. Life and love. "By love serve on another" (Gal. v. 13.— Human love cannot attain to all this. We must obtain divine love. We must "abide in His love" (John xv. 10). VI. Life and fruit-bearing, "Herein is

VI. Life and fruit-bearing. "Herein is My Father glorified that ye bear much fruit" (John xv.8). "The fruit of the Spirit is love" (Gal. v. 22, 23), and there are eight varieties: Joy, peace, longsuffering, gentleness, goodness, faith

meekness, temperance.

VII. Life through prayer. "I pray for them" (John xvii. 9). The high priest prays for his own, and bears their names tion in securing systematic religious in upon his heart, broken for them, and upon the palms of His hands, pierced

or them.

VIII. Life and truth. "Every one that is of the truth, receives My teaching, and follows Me as Master." "To hear large for the introduction of an act in large for the introduction of an act in Jesus' voice is to harken to His words and obey His will. Over such He reigns as King, in a higher, more absolute sense than any earthly monarch over His subjects."

IX. Life through death. "Christ died

for saken, that we might take the place of the accepted (Eph. i. 6).

X. Life after death. "But now is Christ risen from the dead, and become the first fruits of them that slept" (1 Cor. xv. 20.) A little girl stood with her mother beside the open grave of a darling sister. Her mother said, "Take one more look, my child. This is the last look you may have of your sister."

But the child thought beyond the tomb, and replied, "Oh. mamma, we shall see on The Jubilee Fund and After. He was and replied, "Oh, mamma, we shall see her in the resurrection." What a balm that was, in that hour of severe anguish. It was better to think of that part, than grieve over the separation on earth. Even a "child shall lead them," and it was so at that little girl's grave. XI Life evermore. "I am He that liv-eth, and was dead; and behold I am alive forevermore" (Rev. i. 18). "He that liveth." The living One (R. V.) Who had no beginning and no end. "Was suffered on the cross that was speaking. "Alive forevermore." The source of life. To him belongs absolute being as contrasted with the relative being of

the creature.

XII. Life by overcoming. "To him Me in My throne." (Rev. iii. 21.). Abbie C. Morrow.

SANK A POACHING TUG.

Dominion Government Fisheries Protect tion Vessel Ran Into Her.

A Port Stanley, Ont., report: This norning about 9.15 the Government ruiser Vigilant, Capt. Dunn, sighted fishing tug about six miles east of Middle Island, in Lake Erie, and about five miles north of the boundary line. The aptain changed his course and made owards the tug, which proved to be the Grace M., of Lorain, Ohio., Capt, William Galbraith. The tug came towards the Vigilant, and when quite near her Capt. Dunn signalled with his whistle for her crew to check. No attention was paid to the signal. Then Capt. Dunn whistled to stop, but the tug shot past the Vigilant with full steam.

Captain Dunn tuned and soon ever

Captain Dunn turned and soon over hauled her, but the tug continued to dodge the Vigilant, notwithstanding to fact that Captain Dunn had fired acros per bows several times. The Vigitant was again coming up on the tug when the again attempted to cross the Vigshe again attempted to cross the vig liant's bow. Captain Dunn, seeing there was likely to be a collision, stopped and backed full steam.

He had his boat well stopped when

ney came together, but the me of the Vigilant was sufficient to roll the Grace M. over, and she sank. Cap-tain Dunn rescued Capt. Galbraith, En-gineer Wm. Rulleson and D. Popplewell, a fisherman. Two fishermen named Martin Oleson. Cleveland, and Wm. Anderson, of Lorain, were drowned. Captain Galbraith admits that Capt. Captain Galoratti admits that Capt.

Dunn was in no way to blame, and
now to his sorrow realizes he should
have obeyed Capt. Dunn's signals and
stopped his boat when ordered to do so.

Toronto City Hall Hit.

A Toronto report: The City Hall was visited for the second time on Monday night by lightning, which struck the pastor of the First Baptist Church here and the tower and shattered it. Tiling and debris fell to the main roof, causing damage in several places had been placed on exhibition as a loan, that she saw the accused take a cross which had been placed about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the dead the burglar secured about \$5,000 worth, which formerly belonged to the secured the burglar secured about \$5,000 worth, which formerly belonged to the secured the burglar secured the burglar secured about \$5,000 worth, which formerly belonged to the secured the burglar secured about \$5,000 worth, which the secured the burglar secur visited for the second time on Monday it. Tiling and debris fell to the main roof, causing damage in several places and crashing on the pavement below. The shock turned the generator brake hall went out. The tower is insured the librarian was closing up, as that the saw the accused take a cross, which formerly belonged to the dead man, from an old pair of trousers. Cadorette's body had been found in the river. Chief Jüstice Lacosto to day charged that there was no evidence upon which

SUBSCRIPTIONS.

Liberal Offerings of Canadian Congregationalists.

Annual Meeting of Union of Ontario and Quebec.

First Step Taken Towards Union With United Brethern.

A Toronto report: The fifty-second an nual convention of the Congregational Union of Ontario and Quebec, which held its first session at Bond Street Church yesterday morning, with 100 delegates registered, promises to mark an epoch in esurrection-power.

III. Life and service. "She hath done ada. Two notable features stand forth the history of that denomination in Canthe communication from the United Brethren of Canada, in which they an-

> tions as to make probable the freeing from debt of every Congregational church in Canada.

The United Brethren have 40 churche in Canada. This union will add greatly to the strength of both. To-morrow a committee will further consider the suggested union with the Methodist and Presbyterian Churches. Rev. Washington Gladdon, of Columbus, Ohio, in a letter to the union, said that the denomination in the United States would watch the steps with great interest, as a union is

tion in securing systematic religious in-struction in public schools. The com-munication was referred to the Business

the Ontario Legislature to permit the incorporation of churches at a moderate expenditure.

Applications for membership in the

union were made by Rev. H. A. Carson, B. A., Rev. Prof. Lyman, B. A., Rev. G. A. Sanden, and Rev. J. B. Silcox. The following Swedish churches also applied IX. Life through death. "Christ died for our sins, according to the scriptures" (1Cor. xv. 3). He took the place of the forsaken, that we might take the place for admission: Elm Church, Highland Park Bethel Church, and Wetaskawin

on The Jubilee Fund and After. He wa followed with the greatest interest as in told of the fathering of the fund in Eng land and of how the church undertool two years ago to clear every Canadian church of debt before the end of 1905. As the committee meeting then they had made a maximum estimate of \$93,000 but last New Year's that amount had been exceeded by \$44,000. Thirty-nine churches were then in debt, but to-day that liveth." The living One (R. V.) Who had no beginning and no end. "Was dead." It was Jesus, the Messiah, who suffered on the cross that was speaking. "Alive forevermore." The source of life. To him belongs absolute being a meant \$23 for each family, and if the Presbyterians or Methodists in Canada undertooka similar fund they would have to raise a total of \$5,000,000 each to duplicate the work of the Congregationalists. Two churches, it was true, had

was still open. (Laughter.)

The Maritime Provinces were lumped in the estimate for \$20,000. Truro along gave \$540, and St. John, N. B., \$2,900 The reading of the figures showing this extraordinary response was greeted re-peatedly with the applause of the dele-gates. The fund will probably almost reach, and possibly exceed, \$200,000 by the end of 1905.

KING OSCAR.

REFUSES TO RECEIVE THE STOR-THING'S ADDRESS.

Stockholm, June 12.-King Oscar ha refused to receive the deputation appointed to present to him the Norwegian

Storthing's address. Christiania, Norway, June 8.-Th ouncil of State, following the action o the Storthing in dissolving the union Norway and Sweden, is proceeding with the re-organization of the Government. The Department of National Defence has issued a decree to the army intimating that the army must comply with the new conditions, rendering allegime to those now conducting the Government.

Minister of State Love has been or ointed Foreign Minister, and the Couril of State has decided to divorce th Foreign Office from the Departments of Commerce, Navigation, etc., with which heretofore it has been amalgamated.

BURGLARS STEAL GEMS.

Museum of Carnegic Library at Van-

couver Robbed. Vancouver, B. C., June 12 .-- A burglar stowed himself away in the Carnegie hiprary when it was being closed last night. The thief ransacked the museum hibrary when it was being closed last hight. The thief ransacked the museum located on the upper floor, securing a number of coins, gold nuggets and gems, the latter being from the collection of Rev. Dr. Roland D. Grant, formerly paster of the First Baptist Church here and now engaged in a lecturing torus in the most improvement.

SULTAN OF MOROCCO SULKY,

Mr. Lowther Presents His Credentials at langier.

Lowther, British Minister to Morocco, presented his credentials to the Sultan to-day. The ceremony was attended by the customary picturesque Moroccan display. Mr. Lowther in his speech, assured the Sultan of the sincerity of King Edward and of the British Government in their desire for the welfare of Morocco and their earnest wishes for the co and their earnest wishes for the maintenance of the power and authority of the Sherifian ruler. The latter reciprocated the wish for a continuance frame for the next fifteen years.

Tangier, Morocco, June 12.—Gerard A. of the traditional friendship between owther, British Minister to Morocco, the two countries. Throughout the interview the Sultan was impassive almost indifferent.

The political situation remains be-fogged and will not be cleared up until Mr. Lowther has a private audience of the Sultan.

It is reported that private offers have been made to the Sultan of the loan of \$25,000,000, and it is alleged the offer is

MAY ABANDON CONFERENCE.

Belief That Colonial Premiers Will Not Meet Next Year.

London, June 12.—In the House of ommons last night the Colonial Secretary said that at the last Colonial Con ference it was decided to meet at intervals of not more than four years, and i would be, he thought, a pity, without the assent of the colonies, to postpone or adjourn it for any partisan purpose. It was clear that once the conference was assembled it would not be competent to rule out any question brought forward by a colonial Premier. The Prime Minister had informed the

House that the Government did not propose to initiate any subject dealing with the commercial preference, and not to summon any Indian representatives to the meeting under those conditions. He entirely agreed with Lord Lans-downe, that it would be extremely improbable that the colonies would bring up the fiscal question. It was not question of such entrancing interest pretizing nature. He did not deny that it was of transcendent importance, men would not go to great labo forming propositions when conditions for discussion were not the most favorable. The Graphic says that from yester-rad's debate in the Commons it may safely be inferred that the Government

has finally abandoned the idea of holding a colonial conference in 1906. Unless that were the case, Lord Lyttelton and Lord Lansdowne would hardly have spoken with so much emphasis of the inconvenience of such a conference and of the improbability of assembling. Or the whole this decision will be generally

NO FURTHER OBSTRUCTION.

Canadian Lumbermen May Get Logs Pas

St. John River Boom. Vanburen, Me., June 12.—As a result of a conference between President Allan Hammond, of the Vanburen Company, and Levi W. Pond, the log-driving contractor, of St. John, N. B., it has been announced that the log-driving difficulties on the St. John Fires have been ulties on the St. John River have been adjusted, and that Mr. Pond's boats will be permitted to pass the Vanburen booms and ascend the river to Edmunds booms and ascend the river to Lamingus ton to-day. The water in the river is falling, and it is said that there is 12, 000,000 feet of lumber hung up on the Upper St. John River, and 30,000,000 stranded in the Miramichi River.

ARSONE PHARON ACQUITTED.

Murder Case at Montreal Breaks Down

Evidence Being Unimportant. The shock turned the generator brake hall went out. The tower is insured against lightning, but no estimate of the damage caused has yet been prepared. The last visitation of lightning, A window in the basement was found in the river. Chief Jūstice Lacoste to-day charged that there was no evidence upon which the front door was not tampered with. A window in the basement was found in the river. Chief Jūstice Lacoste to-day charged that there was no evidence upon which the front door was not tampered with. A window in the basement was found in the river. Chief Jūstice Lacoste to-day charged that there was no evidence upon which the front door was not tampered with. A window in the basement was found in the river. PUNCH GETS IT.

Chlcroform Joke Reaches England With Dr. Osler.

London, June 12.-"Dr. William Osler London, June 12.—"Dr. William Osler has arrived in London," says Punch. "and all persons over a certain age are trying to look as young as possible."

Oxford, Eng., June v.—(Associated Press despatch.)—The convocation of the university proposes to confer on Dr. Wm. Osler the degree of doctor of medicine and also the honorary degree of cine, and also the honorary degree of doctor of letters on Basil Lanneau Gil-dersleeve, professor of Greek at Johns Hopkins University.

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute fact that Canadian How often do we

hear the expres-sion, "I am so nervous, it seems as if I should fly; " or, "Bould fly; " or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmiy

perform your daily tasks or care for your children.

The relation of the nerves and gen-

erative organs in women is so close that nine-tenths of the nervous pros-tration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points

at the least provocation. All this points
to nervous prostration.

Nothing will relieve this distressing
condition and prevent months of prostration and suffering so surely as Lydia
E. Pinkham's Vegetable Compound.

Miss Lelah Stowell, of 177 Wellingtransfer Eingsten Ont, writes:

Miss Lelah Stowell, of 177 Wellington St., Kingston, Ont., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed a Godsend to suffering women, and I only wish that they all knew what it can do for them and there would be no need of their dragging out miserable lyes in agony. I suffered for years with bearing-down pains, extreme nervousness and excruciating headaches, but a few bottles of your Vegetable Compound made life look new and promising to me. I am light and happy and I do not know what sickness is, and I have enjoyed the best of health now for over four years. Lydie E. Pinkham's Vegetable Compound has sent cunshine into thousands of homes and hearts."

Will not the volumes of letters from

Will not the volumes of letters from women made strong by Lydia E. Pink-ham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

Toronto Live Stock. Receipts of live stock at the city mar-

Receipts of live stock at the city market were 9 cars, composed of 62 cattle, 22 sheep, 349 hogs and 19 horses.

The receipts for the week as reported by the railways were 175 cars, 2.301 cattle, 1,059 sheep, 3,533 hogs, 580 calves and 21 horses.

Mr. Harris reports prices for hogs as unchanged at \$6.65 for selects, and \$5.40 for lights and fats. The above quotations are for hogs fed and watered.

Bradstreet's . Trade-Montreal trade reports to Bradstreet's say: The backward spring with an attendant rain and cool weather has had a bad effect upon nearly all lines of trade. In drygoods this is particularly the case. Summer gods are not moving as they should, nor will they until warmer weather sets in in reality. er weather sets in in reality. But in other lines of trade there has been some other lines of trade there has been some signs of improvement, Country stocks have been moving fairly well and there is a better tone to the sorting trade. It is generally felt, and wholesalers here admit the truth of the statement, that the trade of this year is not so great in volume as that of a year ago. The heavy movement of hardware is unabat-

ed and the demand for groceries is rather more active. Sugars have declined 10c per 100 lbs, but in other lines of odities there are few changes in Toronto trade advices to Bradstreet's say: Wholesale trade here has taken on a more active true during the past wek. Staple lines of groceries are mov-ing well and all lines of hardware continue to move briskly. The retailers are well supplied with summer goods, which are not now moving any too well on acount of the cool weather. Other lines of business report conditions quite satisfactory. The industries are actively engaged and the general outlook is bright. Trade with the Nor hwest continues act-

ve and there is an improvement in col-lections from htat part of the country. Country trade is fiir. At Quebec reports to Bradstreet's show little change in trade conditions from that of the preciding week. In the shoe industry some of the larger fac-tories are fairly large. Winnipeg advices to Bradstret's say:

The bettered condition of things noted last week continues. Building opera-tions here and in the surrounding coun-

try is rapidly developing.

Victoria and Viccouver: There is a quiet tone to tribere and less activity is noted to a branches of trade.

This is natural, be ever, after the activities. ity of the past looked upon m v months and it is as a passing lu!!. Active preparations are under way for the coming amon an which is expect-

d 'n hearry large, Bradstret's advices from Hamilton say trade there is in a generally story condition. The provement of ale goods is not lared but retail trade and the manufacturing interests sho considerable activity. The movement of summer gods is affected by the convention. Collections are fair to good. London trade reports ceipts of country produce large and the retail tade try shows some improveme Reports from Ottawa to in the coun

Gradstreet's While the industries engaged, there is still : the movement of wholes: tail stocks are not moving exactly as they should, and there is resulting owness in sorting lines. Collections are only fair.

The Czar of Russia has four separate ervices" of horses and carriages-name the Russian, English, French and galasts. Each set comprises at least fifty orses. The Russian set accompanies the Emperor wherever he goes, and at Gat-shina it is used together with the Eng-lish set. The gala and French horses and carriages are housed at St. Petersburg-in the winter palace stables. The Czar's gala turn-out consists of fifty Hanover-ian horses, which are perfectly white, with blue eyes.

girl's delicate lips quivering, and fills her eyes with newfound tears. eyes with newfound tears.

"Yes, I must go," he says, presently;
"As you say, I have had my—rest, and must be on my pilgrimage again, And yet—and yet, Heaven knows I am sorry

"Are you so—sorry?" says Jeanne, sorrowfully incredulous. "Well, Hal will "Ah, Hal!" he says.

"Ah, Hall" he says.
"Do not laugh at him." she says, simply. "Hal is only a boy, but he has a warm heart, and you have taught him to "I did not laugh," he says gravely. hope Hal will not forget me-I shall not

"He will not forget you," says Jeanne The win not forget your and that is natural, seeing how kind you have been to him. No, he will not forget you, long after you have forgotten New-ton Regis."

He turns to her sharply, almost fierce with some word on his lips, but "Jeanne," he says, after a pause,"when

you were looking over the portfolio which I lent Hal, you asked me the meaning of the sketch of the girl sitting thinking, with her face in her hands, with the line undergoed to making also. thinking, with her face in her hands, with the line underneath, "which shall I

"Yes," says Jeanne. "I remember. It was a girl with light hair—"
"It was dark when first I sketched it but I altered it, he says, quickly. "I could not tell you the meaning then—I

think I can to-night."

Jeanne looks up. They are walking now across an open glade, and there is enough light for her to see that the dark eyes above her are looking down into hers with a suppressed emotion which, if Jeanne knew anything of such things, is fiercely passionate, bitterly intense. But Jeanne, faintly troubled and full of an achieve unreat does not understand. think I can to-night. an aching unrest, does not understand.

She is still asleep.
"I think I know my own meaning now when I painted that picture. Do wou care to hear it?"

"Tell me," says Jeanne, simply.
"It is the portrait of a girl whom I
w—whom I read of ——"

saw—whom I read of—"

Jeanne utters a low cry of alarm, and
lays one hand flutteringly on his arm.
It was only an owl which has flown from
the old clus with a shrick; but Jeanne's

merves are highly strong to-night.

With a little gasp she takes her hand away, and shrinks from his side again, but her touch light as it was, has sent the blood to Vernon Vane's face, and his words came more quickly and in-

his words came more quickly and intensely.

"This girl of my picture—lived in a village a long way out of the mad world; she was a child, so young, so innocent, that she did not even know that she was beautiful. I tried to paint her face as I saw it first, with the golden gleam in her hair the light of laughter in her dark eyes—"

"She, has blue eyes in the picture," eavy Jeanne, sofly.

"—but failed; no hand could do it, not the mightiest that ever wielded brush, for the sweet, innocent purity no one can give on canvas or noem. This one with me, and hugged them to my heart in my solitude, though I strove hard to put them from me. I know it, because I used to watch for your passing and knew when you were near without having seen you with my actual eyes; because, Jeanne, though I fought against the feeling. I never heard your voice but it rang down deep in my heart; because when you were not near me I was wretched, and when you were near mie, I was wretched that I could not hold you in my arms as I do now. And you, Jeanne; can you say all that? Ah, no!"

"No," she says softly: "because I did not know what love was. I know what

child-girl of mine had lived all her life not know what love was. I know what dearly-beloved kitchen, and Jeanne was by the name of galvanism.

lost, like the babes in the wood?

CHAPTER X.

Jeanne starts from her lover's side like a frightened fawn at Hal's voice, with her hand upon the arm which had been around her waist a minute ago; but the pressure of that hand! how different it was to the light, feather-touch which it had been when they started, and how

was to the light, feather-touch which it had been wnen they started, and how close it was pressed to his heart.

Surely Jeanne had never lived till name has awakened at last—has awakened into a glorious world of love and joy! Hal tramps by their side whistling, quite unconscious of the momentous change which has taken place in the lives of his companions, and so they reach the Gate House.

"All safe!" says Hal, looking up at

"All safe!" says Hal, looking up at the old red building. "Never come home but I expect to see it reduced to ruins but I expect to see it reduced to Indus-by some one of uncle's experiments. You'll come in and try a little of uncle's black bottle of old whiskey, Mr. Vane?" "Shall I?" whispers Vernon. "Shall I come in and tell them?" Jeanne hesitates a moment; then she looks up, her eyes beaming with love, and with a soft little flush on her face. creed, and offers her the hollow, worth-less fancy which he calls his love."

The stern, savage tones sink into Jean-ne's heart, and set her trembling. Insen-

and with a soft little flush on her face.

"No," she says softly; "not to night. I want to have it all to myself—to my very self for one night!"

"Run on and get the door open, Hal," says. Vernon; then, as the boy disappears, he takes her in his arms.

"Good night, my darling, my own, good night. Will von—can you give me one who stands by and watches, unnoticed and silent. This second man knows more of the world than the other one who

of the world than the other one who prates so glibly of it. This second man has come to the village for rest from that same world and its treachery; has come to be rid of his fellow-men and himself. He sees the girl of my picture, and for all his bitterness and his misanthropy, notwithstanding all his vows, he loves her. But he has no wild joys to love her. But he has no wild joys to work the seed and draws his face down to hers neck and draws his face down to hers here were then seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here were the seed and draws his face down to hers here. thropy, notwinstanding an intervention of the property and his love to offer her. In the property and his love to offer her.

offer her, as has the other man; he has but poverty and his love to offer her. Now then, which will she choose?".

There is a moment's pause; with pale startled face, Jeanne walks on, her eyes fixed on the handsome, passionate face of the speaker.

"The one, forgetting for a moment his selfishness and self-interest, will come, and with his name, his noble birth, his place in the world, in hand; the other will lay at her feet his past—dark, sin-will ay at her feet his past—dark, sin-will ay at her feet his poverty and stained and remorseful—his poverty and such unspeakable joy in the breeze, and such unspeakable joy in this soul as he had thought the world not seen the courtyard.

He sees her turn on the threshold and wave one white hand, and then the door closes, and the night seems to have suddenly grown dark. He turns and strides denly grown dark. He turns and strides of the speaker.

"There is a moment's pause; with pale startled face, Jeanne walks on, her eyes fixed on the handsome, passionate face of the speaker.

"The one, Jorgetting for a moment his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he goes down to the cliffs and stands gazing out contain his happiness as yet, and he g The one, lorgetting for a moment his selfishness and self-interest, will come, and with his name, his noble birth, his place in the world, in hand; the other will lay at her feet his past—dark, sinstained and remorseful—his poverty and his love—which wil she choose?"

his soul as he had thought the work could never give him.

"Oh, my darling!" he murmurs, "and have I found you at last when I had given up in despair; have I found the one thing all my life has been set upon, a true, pure, trusting love—for love's sake and mine alone? Oh, Jeanne, my child-woman, my own!" Jeanne's head droops for a moment, then she raises her face; it is white and startled, just as that statue of Galatea's might have been, and was, when the sculptor caled it into life by the sheer might of his passionate love. it has not quite gone yet; childhood and girlhod are loosening their grasp, but still hold her. Love—love! what is it?

And as he spoke, Vernon Vane, the grim, cynical recluse, seemed to change; the hard, stern features softened and the hard, stern reatures sortened and grew young, the cold eyes gleamed brightly, the rare smile lit up the hand-some face, and remained there. If love-had awakened Jeanne and called her into life it had given you life to We it, dreamed of it never. And yet, as his deep, musical tones have sounded in her ears, what was it that made her heart echo to them? Why is it that her into life, it had given new life to Vernon

Vane. And Jeanne-well, Jeanne was afraid eyes feel drawn to his—why? As she asks herself—Jeanne—child Jeanne, re-calls the touch of his hand, the sound of his voice, as he knelt by her side in the Nancy Bell, and now, as then, she feels her soul slipping from her, "Jeanne," he murmurs, now as he did "Jeanne," he murmurs, now as he did then: "Jeanne, answer me, for I love

It is said at last! the magic words were spoken which breaks the long spell of innocence.

"Jeanne," he says, passionately, bending down to her and holding out his arms toward her, "I love you."

she shrinks away, and with a cry, covers her face with her haids. It is the cry of the newly-born soul, startled and alarm. "Where am I? Have I bend dreaming? Oh. yes! but no—no, he said it, and I can feel his kisse on my face now—now!" and she touched her lips wrapper at

"Yes, he kissed me! no one else has kissed me like that. Yes, it is love; I "Jeanne—Jeanne!" he says, brokenly and remorsefully: "have I frightened you, my darling?"
"No—no, don't touch me! don't come near me, yet." she continues brokenly, almost inaudibly, and, as she directs, he new it the moment he whispered: ove you!' And he—he so great and noble, so grand, loves me! Oh, what for —what for? Why should he? I am such a simple, poor, miserable girl; and he! oh, it cannot be true—it cannot be true; and yet. I love you, Jeanne, I love you!

He said it, and it must be true!' Jeanen fell asleep repeating these nagic words which she had heard for the first time, and they were in her ears when she awoke. The happy sleep long, let poets say what they may to the con-trary, and the sun was streaming through the diamond casement window re she stole downstairs with a tell-tale ere she stole downstairs with a terriam blush on her face, and the light in her eyes which Vernon Vane's kisses had called there. To Jeanne, there seemed a new light over the earth, that filled it with a new beauty, she was half persuaded that the birds, flitting from elm to alm wars rejoining in her joy. elm, were rejoicing in her joy. "Well, child," said Aunt Jane,

"That I loved you," she answers, looking up at him, her eyes shining solemnly through her tears. thought you were never coming down Were you so very tired last night? What "You love me, my darling!" he says rembling in his turn in the presence of did you do-dance? "No," said Jeanne, hiding her flushed cheeks behind her cup; 'there was no cheeks behind her cup; 'there was no dancing, aunt, I think."
"You think,' 'echoed Aunt Jane. "Bless the pure and spotless soul.
"Yes, do I not?" she says. "Tell me whether I do. But—wait—just say that

"You think," echoed Aunt Jane. "Biess the girl! Don't you know? Well, you don't look any the worse for your gay doings. And Mr. Vane was there, after all? He is getting quite sociable. Which of the girls did he fall in love with—eh? Maud or Georgina?"

"I—I—don't think with either, aunt,"

tammered poor Jeanne.
"Hum! too soon, I suppose. I've kept
our breakfast warm for you, and now our breakfast warm for you, and now must go. Bless the girl, what a color he's got," she added, and as she passed he bent down and kissed the sweet, upurned face. Jeanne wound her arms around the

"No—thing," replied Jeanne, exasper

atingly.
"What is it you want? Something, I'll be bound. What is it, child?"
"Nothing in all the wordl," exclaimed Jeanne, fervently.

Aunt Jane stared, murmured, "Bless the child!" afain, and bolted off to her

I felt, and yet I cannot tell, not even now. But I was restless and unhappy when you were not near, and happy when you were not near, and happy when you were; then something seemed to sing within me; and once—once when you held my hand and called me by name, in the boat"— her voice breaks, and her eyes fill with tears—"I felt that I must come to you—that—that I could not move away! Was that love!"

And what does he sav? What can he say? Not one word, for the fulness of the joy which strikes and keeps him silent. But, bending his head, he takes her face in his hands, lovelier now than it was five miutes past, ad kisses her twice, thrice on the lips. And Jeanne? Jeanne unshrinkingly places her soul in his hands, and gives him, with purest, sweetest trust, kiss for kiss.

And thus they narrowly escape being found by Master Hal, who comes troting down the lane, shouting:

"Jeanne—Jeanne! Mr, Vane! Are you lost, like the babes in the wood?"

I felt with her secret unteld. She finished her breakfast, and, being a healthy girl, although in love, made a hearty one, and then went dutifully to the piano; but then went dutifully to the piano; but scales were not to be thought of this morning, for every one of them went to the tune of "I love you, Jeanne!" and before five minutes had elapsed, she had caught up her hat and was out in the garden. There was room there to think and realize; besides, she could see from the arbor the corner of the road which Vernon Vane would pass.

What would Aunt Jane say to him when he came? Suppose they said "No?" Suddenly there came the clatter of the horses' hoofs upon the road, and Jeanne was wondering who it could be, when they suddenly ceased, and a man's footsteps were heard coming around the garden path. Now he was here, so near, Jeanne grew timid and shy, and drew back within the arbor to gain did result of the product of the form of the product of the form of the road which vernon Vane would she do if they said "No?" Suddenly there came the clatter of the horses' hoofs upon the road time; the footsteps grew slower, then ceased, and Jeanne, with a sudden dread lest he should go again, arose and sprang

to the opening and almost into the arms of—Clarence Fitzjames.

The surprise and disappointment were so keen that she stood speechless for a moment, then she held out her hand and

stammered a good morning.

As she did so, something in his appear ance struck her with a sense of strange ness. He was dressed as usual, with the scrupulous care for which nis valet was famous, but it was not his faultless attire, but himself, that was different to the usual languidly nonchalant honor-able. As he took off his hat hurriedly, Jeanne saw he was, marvellous to beho lushed and excited, and the hand which grasped hers, and pressed it closely, was hot and feverish. Still stranger, his roice, usually so low, and melodiously ndolent, was quick and earnest.

(To be continued.)

RHEUMATIC PAINS

Driven Out of the System Ly Dr. Williams Pink Pills

'My life was absolutely made mis-'My life was absolutely made mis-erable by rheumatism," says Mr. Geo. F. Hilpert, of West River, Sheet Har-Furthermore, there would be no need back and joints. I became almost a cripple and could scarcely move about. I had medical aid, but it did not help me then I began taking a remedy alleged to be a cure for rheumatism, and I used ten dollars worth, but derived the state of th I used ten dollars worth, but derived absolutely no benefit. The constant suffering I was in began to tell on my hitherto strong constitution and I became so badly run down that I despaired of ever being in good health again. Then a friend called my attention to Dr. Williams' Pink Pills, and although somewhat skeptical I decided to try them. I had only used a few boxes when I began to feel better, and after I had used something over a dozen boxes I was sagain in good health. Every twange of the trouble had left me, and although I have been subject to much exposure in the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps being much more economical than strange in the case of the pumps are driven by electricity, and this same form of energy is utilized for power and for illumination, in the case of the pumps being much more economical than strange in the case of the pumps are driven by electricity, and this same form of energy is utilized for power and for illumination, in the case of the pumps are driven by electricity, and this same form of energy is utilized for power and for illumination, in the case of the pumps are driven by electricity, and this same form o

of the trouble had left me, and although I have been subject to much exposure since, I have not had a twinge of the old pain. I can honestly say that Dr. William's Pink Pills cured me after other expensive treatment had failed."

Rheumatism was rooted in Mr. Hilpert's blood. The cold, and the wet and the exposure only started the pain going. Dr. Williams' Pink Pills cured because they drove the poisonous uric acid out of the blood and filled the veins with that new rich blood anat And Jeanne—well, Jeanne was alread actually afraid to face the homely scrutiny of Annt Jane; she felt that her story was written on her half-parted lips.
"I am so tired, Hal, tell them," she said, and slipped by him up to her own make new blood, and that is why they cure common ailments like rheumatism, sciatica, lumbago, anaemia, indigestion, headaches and backaches, kidney and livit critical ways that the cure common ailments like rheumatism, sciatica, lumbago, anaemia, indigestion, headaches and backaches, kidney and livit roubles and nervous troubles such as neuralgia, St. Vitus dance and paralysis. And it is this same way that thy cure the irregularities and secret troubles of women and growing girls. No other medicine con do this, and ailing people will save money and speedily get good health by taking Dr. Williams' Pink Pills at once. But you must get the gennine icine con do this, and aning people will save money and speedily get good health by taking Dr. Williams' Pink Pills at once. But you must get the genuine with the full name, Dr. Williams' Pink Pills for Pale People, on the wrapper around each box. Sold by wrapper around each box. Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Standard Apple Box

...... Fruit growers and box makers should bear in mind the amendment to the Act egulating the size of fruit packages recently passed, legalizing a minimum standard box. This box has a minimum size of 10 x11x20 inches inside measure ment. There is no specification as to the thickness of the material other than that it should be strong and seasoned wood. It is recommended, however, that the ends should be at least five-eights of an inch thick and the sides at east three-eights of an inch thick, and should be no objectionable odor

There are no specifications as to what grade of fruit shall be packed in boxes. The market reports, however, would discourage the shipment in boxes of anything but apples of the very highest grade; the rest of the fruit can be more economically shipped in barrels.

Nature Helps Inventors.

H. Walking on the outskirts of a city one autumn evening a young man became interested in watching the seeds falling from a sycamore tree. He observed that they acquired a rotary motion before reaching the ground, and inquiring into the cause, he found that the two wings were slightly turned in opposite directions, which caused them to revolve in falling. The idea of making

a screw propeller on this principle at once occurred to him. Galyani, a natural philosopher of Italy. Galvani, a natural philosopher of Italy, was dissecting a dead frog one day while a pupil was making experiments in electricity by his side. He observed that the muscles of the frog, being exposed, gave signs of motion whenever the nerves came in contace with the scalpel. Galvani discovered the existence of a new principle in this phenomenon and origin. principle in this phenomenon and originated the fertile branch of physics known

Gas to Drive Ucean Liners.

Engine Builders Working Out a New Marine Motor to Displace Steam,

One of the leading questions in mechanical engineering of the present day is the extent to which the steam engine will be supplanted by the internal combustion motor, in which the explosive force of the gases produced by the va-porization or decomposition of the fuel is used instead of the expansive force

of the steam produced by the heat of combustion acting on water. In motor or power boats and automo-bile vehicles, where liquid fuel is available, the internal combustion engine has obtained recognized supremacy, while the gas engine burning blast furnace gases or illuminating or fuel gas, or producer gas made in adjacent apparatus, shows under some conditions great economy and in certain favorable instances remires coult hold the grount of fuel decourse.

and in certain favorable instances requires only half the amount of fuel demanded by steam to produce a given out put of power.

Such success has been secured already with gas engines that it is now demonstrated that it is far more economical to use a so-called producer plant to transform coal into gas and then use the gas in a gas motor than to burn the fuel under the boiler of a steam engine.

Accordingly, with the experience gained Accordingly, with the experience gained from constructing large gas engines for power plants on land, it was but natural that engineers should consider whether the same efficiency could not be secured

in marine gas engines.

If the conditions demanded in this class of machinery could be met the advantages of the gas engine would be even more striking than on land. Thus the absence of smoke would be as valuable for a naval vessel as it would be agree able for the passengers on a liner, while the fact that a pound of fuel would car-ry a gas propelled steamer twice as far as one using steam would increase the radius of action of a war vessel and

F. Hilpert, of West River, Sneet harbor, N. S. "I am employed every spring
as a river driver and in consequence
am exposed to all sorts of weather and
exposure in the cold water. A few years
ago while engaged at my work I was
seized with the most acute pains in my
the service of the great saving in weight, since while
seized with the most acute pains in my
the gas engine may be slightly heavier

attractive to engineers is apparent at first glance, and accordingly it is not difficult to understand why in England and Germany considerable attention rebeen very unfavorable for pollinguous recently has been paid to the designing of marine engines in which a producer plant and a gas motor take the place of boilers and recipropating engines or turn the most destructive insects.

Pears—Pear bloom is most abundant.

Pears—Pear bloom is most abundant.

vessels of considerable size, and has actually constructed launches and barges in which his engines have been tested. His method is to use a number of single acting cylinders, as in gas engines a number of small units are more economical than

a single cylinder and piston of large size.

The principal advantage asserted for a gas engine built on this principle is that it can be operated at a comparatively high rate of speed, while at the same time the reciprocating parts and the flywheels are of smaller mass. Furthermore, such engines are more susceptibermore, such engines are more susceptible. thermore, such engines are more susceptible of regulation, and involve a smaller nitial outlay. The individual parts of the motor are small, and are accessible

for cleaning and repairs.

The gas from the producer consists of carbon monoxid (24 per cent.), carbon dioxid (5 per cent.), hydrogen (17 per cent.), and nitrogen (34 per cent.). It can be made from anthracite coal or coke in the smaller sizes, or from lump coal, and t is interesting to note that certain of the leaner coals that are deficient in steam producing properties can be em-ployed most advantageously in the gas

The action of the producer consists in raising to incandescence by means of an air blast the fuel at the bottom of the producer so that by combustion carbon dioxid results. This passes through th theated coal and becomes carbon monoxid, which is a combustible gas.

Steam from a small boiler may be in-

troduced at the grate, and this on pass-ing through the coal becomes decompos-ed, its hydrogen going to enrich the car-bon monoxid, while its ovygen combines with the carbon and eventually forms carbon monoxid. The gas is washed, cooled and purified, and after being mix-

cooled and purified, and after being mixed with air forms an explosive compound
which is used in the cylinder.

The effect of suction in the cylinder is
to draw from the producer an even supply of gas, and the successful use that
has been made of the idea has increased
largely the efficiency of the gas engine.
The consumption of ceal in a gas engine
amounts to from one to two or more
pounds per horse power per hour, and pounds per horse power per hour, and when it is realized that the same amount of power generated by steam requires from three to five and a half pounds of coal, the superior quality of the gas en-

ine is apparent. Herr Capitaine has constructed a launch equipped with a 25-horse-power gas engine, which is about 36 feet in length, with 7-foot beam, while a vessel for steam engines for similar power would be at least 58 feet in length and of 14 feet beam. The steamboat consequently yould have nearly four times the displacement and much greater resistance.

As the gas engines are at present designed and constructed it is thought that 1,000 horse-power is the limit for the

satisfactory working of a marine gas motor. British engine builders have un-dertaken the construction of four-cylinder marine engines of 600 horse-power and six-cylinder marine engines of 900 horse-power, so that within a short time a practical demonstration of the effi-

a practical demonstration of the effi-ciency and merits of the gas propelled vessel may be had.

In the meantime Herr Capitaine has branched out along a new line and has prepared plans for a marine engine of from 2,000 to 2,500 horse-power. Instead of using the pressure of the atmosphere for the return stroke of the piston, he employs air compressed to three atmospheres, and this is used also to compress the explosive mixture of gas and air be-

fore ignition.

The engine presents a number of complex features which have been worked out systematically, and it is asserted that in a steamer equipped with gas engines of 20,000 horse-power, which is approximately the power of the engines of the St. Paul, the economy over the best turbine or reciprocating engines would be 50 per cent, or an annual saving in the cost of fuel if under steam for 2,500 hours of a year, of \$50. 000, not to mention the expenses and delays incidental to more frequent coaling, cost of operation, etc.

Ing, cost of operation, etc.

In the case of an engine of 10,000 horse-power it was computed that, with the saving in the initial cost, which is not inconsiderable, the saving incidental to the operation of a gas engine would amount in the first year to more than \$100,000, or 10 per cent. of the cost of the vessel.

While the gas engine for marine purposes is still in the experimental stage, yet from theoretical discussions and pre-liminary trials it seems to promise great results, and it is hardly unreasonable to expect that the development of marine engines of the internal combustion type of large size will be as rapid and satisfactory when once it is begun as the development of the gasoline launch and motor boat.

Fruit Crop Report.

Dominion of Canada, Department of Agriculture, Fruit Division,

The general conditions for fruit of all kinds are excellent. Th winter, thought cold, has not resulted in exceptional damage to trees and vines. The only serious losses are from tree-girdling by mice, and the mutilation of trees by the heavy snow-fall in the Maritime Provinces. Minor losses by winter-killing in eastern. Canada are reported in cases of trees injured but not killed outright by the winter of 1903-4, as well as in cases of trees

that were overloaded in 1904.
Apples—Reports are almost unanimous that the show for bloom is excellent. It must not be forgotten that the critical period of "setting" is not yet reported over any large area. The weather has been very unfavorable for pollination for

of marine engines in which a plant and a gas motor take the place of boilers and recipropating engines or turbines. In Germany the most important work in this field, perhaps, has been done by E. Capitaine, who has spent many years in the study of the gas engine and producer and has carried on a large number of experiments of great practical value.

The prepared designs for several and has actually all the plum trees in excellent conditions for growth, have placed the plum trees in excellent conditions for growth, have for the plum trees in excellent conditions for intervene. It is not too early to make preparations for an exceptional crop and prevent a repetations for an exceptional crop and prevent a repetations for an exceptional crop and prevent a repetations for an exceptional crop and prevent a repetations.

an exceptional crop and prevent a repeti-tion of the disastrous losses of 1903.

Peaches—The new plantings have scarcely balanced the winter-killing of 1899 and 1903, so that even with a favoran able outlook for this season on heathy trees the aggregate crop will not

large.
Other Fruits-Cherries and bush fruits are all in good condition. Strawberries are reported in fair condition but with winter-killing. The spring frosts to date have not seriously hurt the crop except in very limited areas. Raspberries promise well, but no over-production. Spraying—The spraying demonstra-tions of the Departments of Agriculture, Dominion and Provincial, together with

the teachings of the fruit growers' asso ciations, are making an impression.

Spraying is more general than ever bevate parties for hire are reported in sev-eral sections.

Foreign Countries—The report of the apple crop in the United States would indicate a medium to good crop. The indicate a medium to good crop. The English plum crop is medium, with a prospect of being less than average.

A MOTHER'S PRAISE

In every part of Canada you will find mothers who speak in the highest praise of Baby's Own Tablets. Among these is Mrs. James Konkle, Beamsville, Ont, who says: "I have used Baby's Own Tablets for over three years, and I would not be without them. They have done more for my children than any medicine I have ever used. My little girl now four have ever used. My little girl ,now four years old, was always troubled with indigestios and constipation, and although other medicines helped her temporarily, Baby's Own Tablets were the tablets to my baby from time to time since she was two days old, and they always worked like a charm. She is now two years old, and a more healthy child, would be hard to find. The Tablets are certainly a life-saver." These tablets cure have ever used.. My little girl ,now four would be hard to find. The Tablets are certainly a life-saver." These tablets cure all minor ailments of infants and young children. They contain no poisoning seothing stuff, and there is no danger of giving an overdose as there is with liquid medicine. Sold by all druggists or sent by mail at 25 cents a box by writ-ing The Dr. Williams Medicine Company, Brockville, Ont.

Resorting to Desperate Remedy.
