

# The Acadian

Vol. XXXIX. No. 50.

WOLFVILLE, NOVA SCOTIA, FRIDAY, SEPTEMBER 3, 1920.

\$1.50, payable in advance.

## Boys' Annual Camp

The second annual Kings County Boys Camp was brought to a successful termination on Monday, August 30th.

The new camp site on the North shore of Sunken Lake is really beautiful and a great improvement over the Black River Lake site used in previous years. The camp as usual, was under the personal direction of Mr. E. Percy Brown who was assisted by Dr. Hemmeon, Mr. Smart—a guide sent by Mr. R. P. Bell of Halifax, who also donated the canoe, and several of the older Wolfville boys.

There were about 60 boys there including boys from Berwick, Waterville, Port Williams and Canning as well as our own Wolfville boys. The camp this year was entirely under canvass, there being one large marquee and 13 smaller tents in use. With the exception of the first day the weather was ideal.

Each day was commenced by "flag raising" and repeating "The Scout Promise", after which followed breakfast at 7 o'clock. All tents were then made tidy and the day was spent in a continual programme of recreation and instruction, broken only by the rest hour after the noon meal. The two boats, two punts and canoe were in constant use; baseball and other group games were played; while considerable time was given to Scouting games in the neighborhood. Instruction in the art of camp cooking is a factor that should not be overlooked, as each boy had the opportunity of acting as one of the days' cooks, under the direction of one of the older boys who was chief cook for the day. The food judged by camp standards was exceptionally good throughout. The camp is admirably well suited for swimming—a good spring board adding much to the sport. There were competitions in rowing, paddling, swimming, diving, collecting leaves and wild flowers, campfire entertaining, etc.

The Scout Promise was taken there for the first time by several boys and many Scout Tests were passed. Instruction in swimming and life saving was given; while a practical talk and demonstration of artificial respiration by Dr. Elliott is very worthy of mention. So also was the instructive talk on "birds" given to the boys by Mr. R. W. Tufts.

Perhaps the most enjoyable time for many was the evening "camp fire" around which songs were sung and both instructional and amusing talks and stories were intensely listened to. Each camp fire and day was brought to a close by singing The National Anthem, Praise God from Whom All Blessings Flow and repeating The Lord's Prayer.

On Wednesday many visitors were welcomed to the camp and they all seemed well pleased with the admirable surroundings.

Sunday coming at the close of the week was a typical "day of rest". In the morning those who wished went on "hikes", while in the afternoon all were present, with a large number of visitors, at an open air service conducted under the trees by Dr. Cutten.

All who had an opportunity to pass judgement on the week's outing were unanimous in calling it a great success. Certain it is that every boy had a good wholesome time; while the instilling in to the lives of the boys of the principles for which the Scout Movement stands must have been in some degree successful.

Thanks are hereby expressed to the many Wolfville people who so willingly contributed their cars, teams and time to the transportation of the boys to and from camp.

## The British Apple Market

Fruit Commissioner to Speak in Wolfville on Sept. 11.

Arrangements have been made by Mr. F. W. Foster, Secretary of the Nova Scotia Fruit Growers' Association, for a series of meetings of Nova Scotia fruit-growers, to be addressed by Mr. J. Forsythe Smith, Canadian Fruit Trade Commissioner in England. These meetings will be held in the evenings at the following centres: Kentville, Sept. 3; Windsor, Sept. 4; Berwick, Sept. 7; Middleton, Sept. 8; Kingston, Sept. 9; Bridgetown, Sept. 10; Wolfville, Sept. 11.

Mr. Smith, who represents the Dominion Department of Trade and Commerce, in covering the British apple market for the Canadian apple industry has just completed a tour of British Columbia and Ontario apple producing centres, where similar meetings have been held, and has much of interest to discuss with Nova Scotia apple growers before he sails for the Old Country on Sept. 18, to resume his duties on the market.

Among the points that will be dealt with in his addresses are: The working of the British Government apple price order; the general conditions affecting the sale of apples on the market, variety, size and color preferences; box packing for Nova Scotia; apple requirements in Norway, Denmark and Holland; development of the English apple industry; the working of the different systems of distribution, etc.

The meeting in Wolfville will be held on September 11th, and it is hoped that a good gathering of local fruit growers will assemble to take advantage of this unique opportunity of securing first-hand information as to these markets.

From a rather careful investigation of the situation, THE ACADIAN learns that the prospects for the 1920 apple crop are encouraging. While the crop will not be so large as that of last year the amount of good fruit will probably be considerable in excess of the 1919 harvest. Last year while the crop was large the quality was inferior with the result that in many cases shippers received very little returns. This year the price at the outset is good and already many orchards have been disposed of at remunerative prices.

### Tells How to Regain Perfect Health and Keep it by Bathing Internally.

Are you aware that nearly one million bright, intelligent people throughout Canada and the United States alone bathe internally instead of loading their system with drugs? Why? Because it keeps them in better health in every way.

Internal bathing is the only sure means of keeping the intestines clean and free from accumulated waste matter, which is sure to slowly poison the system and become food for the millions of bacteria which infest the system, thereby causing rheumatism, impure blood, indigestion, headaches and a hundred other ailments which are directly the result of constipation.

If you want to be healthy all the time we would strongly advise you to get a J.B.L. Cascade, which is the only perfected appliance ever devised for efficiently cleansing the colon and lower intestines. It is the invention of Dr. Chas. A. Tyrrel of New York, who is a specialist on Internal Bathing. The J.B.L. Cascade is shown and explained at A. V. Rand's Wolfville Drug Store, where you can receive an interesting book called "Why Man of Today is Only 50% Efficient." It will tell you facts about yourself that you probably never realized before, or phone or write Tyrrel's Hygienic Institute, 163 College Street, Toronto.

## Cricket Still Active

The great event in the cricket season in the Annapolis Valley will be the match at Windsor on Sept. 8th, between a team already picked representing Bridgetown, Kentville, Wolfville and Windsor, and the West Indians. The latter are fine players and good sports and have not been defeated this year.

The cricket team recently organized at Annapolis Royal went down to defeat before the Bridgetown team on Saturday.

Considerable activity in cricket is reported from Sydney, C. B., and several matches have been played.

A fine match was played on Thursday of last week between Bridgetown and Windsor, which resulted in a victory for the latter by one run. On Saturday Kentville played Windsor, winning by a substantial majority. Mr. Spittal bowled very effectively for Kentville, taking five wickets.

The Windsor cricketers came to Wolfville on Wednesday for a friendly game which resulted in a win for the visitors.

Wolfville's cricket team to date has played 11 matches and won three. They have faced frequent defeats but like good sports they have come up smiling every time. In their fielding and batting there has been a marked improvement and next year no doubt they will have better luck. They all play the game for the sake of the game.

### WILL SHIP BETTER APPLES THIS YEAR.

The Board of Directors of the United Fruit Co. Ltd., held their annual quarterly meeting at Kentville Tuesday afternoon, discussing routine matters. The important meeting occurred afterwards when 38 Managers of subsidiary companies out of a total of 40 held a meeting to meet General Manager A. E. McMahon. This meeting was of importance from the fact that there was a lively discussion as to the standing of the Nova Scotia apple in the export markets at the present time. It was admitted that the Nova Scotia apple had lost some of its prestige. The general opinion expressed that this loss of prestige was largely due to the early frost of last year, resulting in apples coming into the packing houses in bad condition. It was however, unanimously decided by the 38 Managers of the subsidiary companies who are responsible for packing that this year will see a better pack.

## Public School Opened

Public school opened Monday, August 30th.

Principal Ford has the following staff of teachers:

Miss S. G. Stevens—High School Asst. Miss R. M. Ernst—Grade VIII. Miss M. Drysdale—Grades VI and VII. Mrs. E. J. Everett—Grades IVa and V. Miss Gladys West—Grades III and IVb. Miss Susie Baxter—Grade II. Mrs. Davison—Grade I.

The enrolment is 340 which is unusually large for the opening week.

At the Provincial examinations, the High School students had marked success. Only one failed in Grade XI, one in Grade X, and one in Grade IX. A more detailed statement will be made next week.

### ANGLICAN NOTES

Rev. R. F. Dixon, accompanied by his daughter, Mrs. F. N. Corwin, left on Tuesday to spend his annual vacation at New Haven, Conn. During Mr. Dixon's absence the services will be taken by Rev. George Cheese, of Hantsport.

The Sunday School reassembles next Sunday at 3 p.m.

The early celebration of the Holy Communion will be discontinued during the absence of the Rector. The Sunday services will be Matins at 11 a.m. and Evensong at 7 p.m.

### NEW AMUSEMENT TAXES.

The last issue of Royal Gazette contained a proclamation that by Order-in-Council the amendments to the amusement tax went into effect on Aug. 20 and they provide that a place of amusement includes, apart from the theatres:

"Every building, tent, enclosure, or place, and every structure, apparatus, machine, contrivance or device whatsoever, the purpose of which is to provide any amusement or recreation whatsoever for the public, or some of them, and which is conducted for gain."

This would include horse races, baseball games, billiard halls, dances, etc., on which the theatre tax will thus be charged, as at theatres and boxing matches at present.

Upon each attendance, participation or indulgence a tax of one cent is to be charged for each ten cents or fraction thereof charged as such fee.

The taxes are to be collected by the amusement owners.

## City Fathers Meet

Town to be Extended Eastward

The regular monthly meeting of the Council was held on Wednesday evening with the Mayor and all of the Councilors present.

An application from Policeman Crowell for two weeks holidays was granted.

A letter was read from Mr. J. A. Ingram asking for a sewer on Earncliffe avenue. The matter was referred to the Sewer Committee with the understanding that the work be performed as soon as possible.

To be continued.

Coun. Sutherland reported that the work of paving Linden avenue had been completed and work on Front street is now in progress.

A request from the Electric Commission to augment their vote of \$50 towards the purchase of a typewriter for town use was discussed and it was voted to procure a typewriter at a cost not to exceed \$100.

The matter of the extension of the town's boudry on the East came up again on a new petition from residents of that section and this time received favorable consideration and provision was made for the necessary steps to be taken.

Mayor Fitch gave an interesting report of the meeting of the Union of Nova Scotia Municipalities at Windsor last week.

The usual number of bills were passed and other routine business was transacted.

The matter of the sale of the Electric Light debentures was referred to the Finance Committee.

### DEATH OF CHARLES HARRIS

The funeral of Charles F. Harris age 33, was held in Wolfville on Thursday, August 26th at three o'clock p.m., services being conducted at the home of his father A. S. Harris.

Rev. A. Martell and Dr. McDonald officiated at the house and grave. His remains were conveyed to the beautiful cemetery in Wolfville. The pall bearers were H. H. Harris, W. C. B. Harris, J. D. Harris and T. S. Sanford. The casket was banked with beautiful wreaths and flowers from the family and friends. Mr. and Mrs. Harris and family wish to express their appreciation of the great kindness and sympathy shown by relatives and friends during his long illness. Such kindness can never be forgotten.

See It at the Opera House!

Show at 8 P. M.      Price: 20c. and 30c.

Notes and Comments

The public library of Dallas, Texas, issues phonograph records the same as books are issued.

Approximately 500 women students worked their way through the University of Wisconsin during the past year.

Where a pall of smoke hangs over an industrial city, it diminishes the amount of sunlight by at least 20 per cent.

Dadon school boys are being bribed by bookmakers, it is said, to act as agents in taking bets from their school-mates.

Many cultured Russian women formerly of high position in their native country are now waitresses in Constantinople.

Spain has no Monday morning newspapers, for Sunday work of any kind in newspaper plants is forbidden by the Government.

In Japan it is no uncommon sight to see women smoking, the most of them beginning the habit when they are about 10 years of age.

Fair-haired people require more oxygen and nourishment than do those with dark hair, and therefore are to be found more in the country.

More than 200 Irish girls landed in New York recently with the intention of becoming taxi drivers, a vocation they followed in Ireland.

At least one myth has been pretty effectively punctured. Profiteers will not be able to fool the public any more with tales of shortage of sugar.

CANNING NOTES

Mrs. Todd Begg, accompanied by Miss Sylvia Keith, left for Stellarton on Friday.

The Women's Institute of Canning met at the home of Mrs. Joseph Northup, on Thursday afternoon, a large number being present.

The results of the Provincial examinations for Grade X have been received, and reflect credit upon the principal, Mr. Pearson and his staff, all of the candidates being successful. They are Ruth Sheffield, Emma Bigelow, Margaret Harding, Florence Ross, Gaylord Woodworth, Bertram Blenkhorne, Marguerite Reid, Frances Burns, Edward Kipman, Julia Covert and Montague Burgess.

NO POSTAGE STAMPS

Palestine is the only country which now has no postage stamp of its own. But representatives of the Zionist Government have informed London philatelists that this anomaly promises soon to be rectified, for, with the establishment of Palestine as the national home of the Jewish nation, it is believed little time will be lost in emulating the examples of other small nations called into being by mandates of the Peace Conference by the issuance of distinctive stamps. Stamps sold by British Army post offices in adjacent former enemy territory are being utilized for overprinting with the word "Palestine".

A MOTHER'S TRIALS

Care of the Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

GASPEREAU NOTES

Mr. Ray Coldwell, Principal of Waterford High School, Cape Breton, has returned to his duties after spending his vacation at the home of his parents Mr. and Mrs. Everett Coldwell.

Mr. and Mrs. Wm. Bagster who have been spending a few weeks visiting friends here, have returned to their home in Harvard, Mass.

Mrs. Sheridan and daughter Lois have returned to Boston after spending their vacation with relatives and friends here. School opened this week, only the Primary Department in attendance. Owing to the scarcity of teachers, we were unable to secure a Principal.

A few friends motored to the Experimental Farm, Kentville, to enjoy a family picnic, given in honor of Mr. and Mrs. Watson Duncanson and near relatives, where a very pleasant day was spent.

Owing to the dryness of the season only about two-thirds of a hay crop was produced, but a much better grain crop is expected.

GRAND PRE NOTES.

Prof. A. B. Dawson, Ph. D., of Loyola University, Chicago, Ill., accompanied by his wife, has been spending the summer vacation in the Maritime Provinces. Dr. and Mrs. Dawson are now at Grand Pre, guests of Mrs. Scott Trenholm. They expect to return to Chicago by the middle of September. During their stay on Prince Edward Island, Prof. Dawson has been engaged with the Biological Board of Canada doing experimental work on the young lobster.

Dr. J. Alfred Faulkner of Brew Theological Seminary is spending part of his vacation at Grand Pre, the guest of his sister, Mrs. Louise Bishop. He occupied the pulpit of the Lower Horton Methodist Church on Sunday morning.

It is said of the Imperial Press party that there has been not a "grouch" since it started on its long trip west. This is notable, but, The Calgary Herald points out, it is not so remarkable after all. Men and women of the press the world over learn to take things as they come. And to their present tour "things as they come" have been as good as they could be made. The delegates themselves have paid tribute to the excellence of the organization of their trip.

SAD DEATH AT HANTSPORT

The following from the Hantsport news in last week's "Hants Journal" will be read with deep regret by the friends of the deceased in this vicinity. THE ACADIAN extends sympathy to the bereaved ones.

The sad intelligence was received here on Tuesday Aug. 17th, that Mr. Cecil Fullerton had passed away at the Victoria General Hospital, Halifax. Mr. Fullerton underwent an operation for appendicitis at the P. M. Hospital, Windsor about six weeks ago and was apparently on the road to recovery and returned home when unlooked for complications set in. Dr. H. K. McDonald, of Halifax was summoned and a consultation held which resulted in an immediate removal to the V. G. Hospital, Halifax, where Mr. Fullerton underwent a second operation, from which he never rallied. Mr. Fullerton was a fine specimen of manhood, possessing wonderful business propensities, always taking a great interest in civic affairs, in fact everything pertaining to the welfare of the town. He was the possessor of an extremely optimistic disposition and a general favorite, "A friend to everyone, and everyone his friend." His passing away has cast a gloom over the entire community. He leaves to mourn his loss, a young widow, to whom he was married a little over a year ago, a father and mother, Mr. W. Fullerton in the West, and Mrs. Fullerton at home; three brothers, Laurie and Gordon, of Boston, and Everett at home; also one sister, Hilda, who is ill at her home here. The funeral, which was held from the deceased's late residence on Friday afternoon, was the largest, to the writers knowledge ever held in Hantsport. The service was conducted by the Rev. T. H. Hodson, pastor of the Methodist Church, assisted by Rev. L. H. Crandall and the Rev. Dr. Faulkner, Prof. of Theology of Drew Seminary, New York. The floral tributes were magnificent and profuse, testifying to the esteem in which the deceased was held. Cecil Fullerton sleeps beneath a veritable garden of flowers. The sympathy of not only the entire community, but a wide circle of friends, goes out to the sorrowing ones.

Are You Run-Down? Have You Ambitions?

The French are introducing a most wonderful tonic, called Vital Tablets. You at once feel the new strength and health coming back to you. If you are not feeling well, why not try Vital Tablets. They will build you up. Get a box to-day. Price 50c a box, at all drug stores or by mail. The Scobell Drug Co., Montreal.

FLOUR PRIZE TO DROP

WINNIPEG, Aug. 27—Following the start of the full movement of the 1920 crop and the resumption of competitive dealing by millers, it is stated today on good authority, according to a local paper, that there will be a drop in the price of flour and also in the price of bran and shorts.

One prominent miller said that the drop in the price of flour would be \$1.50 per barrel at least. It was likely to take effect soon, probably next week, or the week following, he intimated. The price of flour per barrel now is \$14.30.

The price of bran and shorts, it was said, would drop from \$7.00 to \$5.00 per ton.

NEW COAT OF ARMS

The design of the new Canadian coat of arms has gone to the College of Heralds. The procedure is somewhat involved. After approval by the Canadian Government, the design goes to the College of Heralds, where, it is possible some minor technical changes may be suggested. Subsequently formal approval is given by the King in Council on instructions issued to the Earl Marshall, who is head of the College of Heralds. The new coat of arms bears the device "a mari usque ad mare" (from sea to sea). It is taken from the singularly appropriate line in the 72nd Psalm: "He shall have dominion from sea to sea." Approval of the coat of arms was the last act of the Borden Government.

New York bootleggers are said to be transporting their wares in hearses, and hearses, it is remarked are also carrying some of their victims.

A proposed Winnipeg factory will manufacture boxes from a wood fibre. The fibre will be made of pressed waste paper and wood screening, reinforced with metal.

For Your Children

YOU say and believe that you would do anything for your children. Have you started a savings account for them yet? Do it today at the Bank of Montreal, even if you begin with only one dollar. There is no better way to teach them thrift and no more important lesson for them to learn.

## When Home Seems Good

**A** BLIZZARD OUTDOORS—warmth and comfort within. There is nothing in the home so necessary as a good furnace. Stoves and base burners are unequal to the task—they choke the air with dust and only warm parts of the house.

And buying a furnace is a matter of knowing how. The warm air heating system is the least costly. It is the most effective and healthful too. The

### ENTERPRISE BLAZER WARM FURNACE

will keep every corner of your home delightfully comfortable in all kinds of weather. It draws in the pure fresh air from the big outdoors, warms and moistens it and sends it on its way to you. Stoves and radiators can only heat the same air over and over.

Every part of the Enterprise Blazer Furnace is made just a little bit better than is necessary—the grate bars a little stronger—the fire-pot a little heavier. These are the things that enable us to guarantee that the Blazer Furnace will give you entire satisfaction.

### COULD NOT STOMACH THIS CLAIM

Here is a yarn a Nova Scotian in the West sent to a chum at home:—"A sailor who had served in the U. S. navy during the war went to a tattooer and had tattooed on his breast a big American eagle with the inscription: "We Won The War". Shortly after the ship was in Havana harbour and the crew were in swimming. A shark came along and picked this fellow out for his dinner, but as he was about to take ahold he suddenly turned and dove for the bottom, being heard to mutter as he went down: "By gum, I can't swallow that."

### Constipated Children

Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always be depended upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold under a guarantee to be entirely free from opiates or other injurious drugs. Concerning them Mrs. Thomas A. Bouton, Lake Baker, N. B., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### CANADA'S APPLE TRADE.

MONTREAL, AUG. 26—In connection with Canada's apple trade with Great Britain, J. F. Smith, representative in the Old Country, the Canadian Department of Trade and Commerce, who passed through Montreal yesterday, said the outlook for trade overseas was very good with demand strong and prices satisfactory.

### FARM WEALTH

Government figures placed the agricultural wealth of Canada at \$7,397,299,000 last year. This total is made up of the agricultural production for the year valued at \$1,975,841,000; of farm lands valued at \$2,792,229,000; of buildings valued at \$927,584,000; of implements valued at \$387,079,000; and of live stock valued at \$1,296,602,000.

Canada's agricultural wealth is increasing very materially. In 1918 the total farm production was valued at \$1,118,694; in 1919 the production was \$1,975,841,000. New settlements are being opened while increasing population and general developments add to the value of land; also the increased values reflect the enhanced prices. Figures as to actual quantities of production would perhaps be a truer measure of progress.

### GOVERNMENT FINDS THAT ADVERTISING PAYS

(London Express)

The most interesting feature of this vast disposal of Government war stores has been the part played in it by advertisement in the newspapers. The greater proportion of these sales of over five hundred millions has been in response to advertisements costing the Government in money a very small fraction of one per cent on the total sales. Newspapers can congratulate themselves on having done a public service in this matter and on having proved conclusively the rewards that await this form of expenditure.

Shortly after the return from England of Miss Carmichael, of New Glasgow, says the Halifax Herald, arrangements will be perfected for a Provincial Council of the eight Local Councils of Women, and a large group are anticipated that gathering with keen interest. The eight Local Councils in Nova Scotia, each of which represents an influential body of womanhood, are those of New Glasgow, Pictou, Yarmouth, Sydney, North Sydney and Halifax.

## "Your Teeth"

By Rea Proctor McGee, M.D., D.D.S.  
Editor ORAL HYGIENE.

### LOSS OF THE TEMPORARY TEETH

All temporary teeth that are abscessed must be removed. There must be no delay. Harmless abscesses do not exist. If your child is carrying poison in its mouth and you know it, are you willing to resume the responsibility when the little one suffers from systemic infection, or do you expect to place the blame upon an all-wise "Providence". Every child's mouth should be examined at frequent intervals to find out whether or not there is decay or infection or both.

In many cities and towns, both in this country and in Europe, there are public school clinics where the children's mouths are examined and where reparative work is done. In many states the public health boards send out dental clinic committees to examine the mouths of children in the country and small town districts so that the parents may be informed on the conditions that are present in the mouths of their children. The interest in these clinics is very great. In January, 1920, an examination clinic was being held by the Minnesota Public Health Commission in a far northern district, where the temperature was below zero and the snow was two feet deep. One country school twenty miles away bundled up three bobbed loads of little tots and sent them to be examined. The people of that kind of a district appreciate their children and are going to raise them up to be strong healthy citizens. These clinics are for the purpose of informing the parents what should be done and the parents can then take the child to the dentist of their choice and have the child's mouth put in order. When you get a school report on your child's mouth, appreciate it by following instructions.

The Imperial Press Conference delegates have now traversed Canada from ocean to ocean, and presently will set out on their return journey eastward via another route. Although they have seen a great deal of Canada, they have not seen it all, but the return journey over the Transcontinental route will give them still a better idea of the vastness of our Canadian heritage. When they complete their journey they will be the better able to visualize the great future which lies before this Dominion. They will have profited greatly, we believe, from what they have seen and heard of Canada. We, on the other hand, should derive a great deal of advantage from the reports which they will give to their various constituencies of their travels in Canada.

Save the surface and you save all Paint's Labor

Scarcity of Small Homes  
Materials and labour still too high to encourage building. There seems to be small prospect of a downward trend in construction materials, and the price of labor is still so high that the average man hesitates a long while before undertaking any repair job that

Safeguard that valuable home of yours

YOU can never afford to let your home deteriorate for lack of paint. Lately property values have risen so high that the cost of a few cans of paint is a trifling expense for the safeguarding of the home. With this knowledge there is a more complete understanding of paint economy and a belief that it pays to use dependable paints, even if they cost a little more per can than the ordinary kind.

## B-H "ENGLISH" PAINT

70% Pure White Lead  
(Brandram's Genuine B.B.)  
30% Pure White Zinc  
100% Pure Paint

is guaranteed—every can of it—over the signature of the maker. There is also printed on it the basic formula which ensures permanence and "covering capacity." In spite of the rise in cost of materials, Brandram's B.B. White Lead and other similar quality ingredients are used in the same liberal quantities as in the very earliest days of B-H manufacture. B-H "English" Paint will never be allowed to deviate from its original standard of quality no matter how conditions may influence other manufacturers. There's too much at stake in the wonderful B-H reputation to risk its prestige by even a slight departure from the famous formula which gives it such "body" brilliance, durability and all-round satisfaction.

## Ten Years After

Ten years ago the first packages of KING COLE TEA were packed and put on the market. The time that has elapsed since then has been filled with hard work and with many difficult situations to be met and overcome. But withal, it has been a period of unquestionable, steady and persistent progress. KING COLE TEA has never looked back. Every year has brought its increase. Today its sale is ten times greater than the first year's business. This is the public's remarkable tribute to the worth of KING COLE TEA. It speaks for unusual service.

Editorial Notes

What has happened to the Post Office clock? We have not heard it strike for some time.

Our readers will be interested in the announcement of the coming Chautauque in Sept. 20-22, which appears elsewhere in this paper. This will be the first time Wolfville has had the privilege of hearing these programmes presented in our own town, and we feel sure a generous support will be given to the citizens who have guaranteed the undertaking. Those who secure season tickets before the opening of the entertainment will be able to hear the full six performances for the very moderate amount of \$1.50. THE ACADIAN would like to see Chautauque become a regular institution in Wolfville and a generous patronage will make this possible.

A TIMELY SUGGESTION

To the Editor of THE ACADIAN:

Owing to the natural beauties of the country about Wolfville as well as its good climate, it can readily become a favorite resort of American and Canadian Tourists, if well advertised by those who visit here give good reports when returning to their homes. It is certain that those who leave the place with resentment arising from the feeling they have net highwaymen and been skinned, will deter others from coming here and operate to the disadvantage of the town. Other towns fix the livery and motor car services—why cannot the town council here do likewise? Why cannot the rate to Blomidon, Look-off, Scotts Bay, through Gaspereau Valley, Grand Pre, Evangeline Beach, etc., etc. be fixed by town regulation and such regulation posted in the hotels, so that travellers may feel they have not been imposed upon and done up. Our town is not big enough to support pirates or sharpers—and these classes, wheter livery men, hotel men or tradesmen, ought to understand they do not possess the right of way to destroy the place. Let the Council act.

CITIZEN.

DIED

Barnaby.—At "Hillside Farm", Aylesford, August 27th, 1920. Miss Lydia A. Barnaby, in the 93rd year of her age. Funeral from her late residence, interment at Upper Canard.

The United States Bureau of Crops estimates that the sugar "shortage," from which that country has been suffering, was largely propaganda put forth by the refiners. The Bureau's bulletin makes it clear that during the existence of this alleged sugar famine there were 1,300,000 tons more sugar than usual in the country. We wonder what the exact figures for Canada would show during the much advertised "famine" in this Dominion—whether the "shortage" here, as well as "shortages" in other commodities, was manufactured according to the same plan.

Next Monday is Labor Day and a public holiday.

The Gormley Block on Acadia street has been sold to Miss Flo. M. Harris and Mrs. Haliburton.

Rev. G. W. Miller exchanged pulpits on Sunday last with Rev. F. J. Armitage, of Windsor.

Plans are being made to have the Dominion parliament open its next session on January 29th.

Mr. Gordon Ralph has purchased Mr. W. J. Boates' place at Grand Pre, on which he will in future reside.

Dr. J. Glen Allen and family have returned to the house on Summer street which they occupied last winter.

Miss Susie Baxfer has been awarded the Strathcona prize for the efficiency of her pupils in physical drill, in her school.

Wolfville was visited by a severe electric storm on Tuesday. Considerable damage was done in some parts of the province.

Mr. and Mrs. Bedford Chase announce the engagement of their daughter, Jean, to Mr. Paul Mosher, of North Sydney, marriage to take place early in September.

The pulpit of the Baptist church will be occupied on Sunday by the pastor, Dr. J. H. MacDonald. The Baptist Sunday School will reassemble on Sunday at 3 p.m.

Montreal bakers announce that there will be a reduction in the price of bread around the last of the month or the beginning of October, due to the recent drop in the price of flour.

Mr. and Mrs. B. O. Davidson enjoyed a very pleasant motor trip to Halifax, on Sunday as the guests of Mr. Cecil Young and Mrs. Young. The party returned on Monday.

The Middleton baseball team defeated the Yarmouth team on the latter's grounds on Friday by the score of 6-3. The deciding game between these two teams will be played at Bridgetown this afternoon.

On Thursday afternoon of last week Mr. and Mrs. W. H. Chase, tendered a reception in honor of their guests, Lieut. Col. Arthur Webster, brother of Mrs. Chase, Mrs. Webster and Miss Grace Webster, of Edinburgh, Scotland.

There will be a Tennis Tea on Saturday afternoon on the grounds of Dr. G. E. DeWitt. This will be the last tea of the season. The hostesses will be Mrs. Creighton, Mrs. Ford, Mrs. R. DeWolfe, Misses Harvey, Chute and DeWolfe.

Kentville Advertiser.—At a meeting of the members of the Three Counties Exhibition that was held on Tuesday evening W. E. Porter was appointed as Secretary of the Association to succeed Walter Carruthers who died suddenly last week.

The death of Mrs. Lydia A. Burnaby, an aged and highly esteemed lady at one time well known in Wolfville, occurred on Friday last at Aylesford. Mrs. A. V. Rand, of this town, is a niece, with whom she resided for some years. The interment was at Upper Canard.

OTTAWA, August 30.—In wood and wood products alone Canada sends the world a quantity which exceeds in value what she receives from outside her own borders by \$210,254,875.

In the twelve months ended July 31, 1920, Canada exported as measured by value received the following quantities: Newsprint, \$90,084,414; other paper, \$12,060,050; manufactured wood, \$122,706,285; wood pulp, \$57,919,248; other manufactured wood, \$3,919,661; a total of \$256,689,648. Imports in the same period were as follows: Paper, \$11,912,692; wood, \$25,522,081, a total of \$37,434,773.

In both cases for every item this represents a great increase over the same period in the previous year, and a still greater one over 1918. Contrasting these figures with those for the twelve months ending July 31, 1918, it is seen that there has been a phenomenal increase in exports to the value of \$124,660,770, or 95 per cent.

In the paper exports newsprint bulks large as the great money getter for Canada. An analysis for the first four months of the present fiscal year, that is April, May, June and July, show that the foreign demand for this chief product of Canada outside of those originating on the farm is still on the increase.

# MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

## MODERN GASOLINE OF POOR QUALITY

It is perhaps a fortunate thing for the automobile industry that in its beginning the early builders had for a fuel gasoline of a far different grade than that which we use today. Though we still call our motor fuel "gasoline", it actually much more resembles kerosene than it does gasoline that the designers of the first automobiles knew.

The gasoline of 20 years ago was an extremely high grade, volatile fluid, that mixed with air so rapidly that the early designers really never knew what a carburetion problem was. In fact the very earliest cars of French and English design actually had no such thing as a carburetor. From the top of the fuel tank under the front seat hung a number of wicks such as were used in kerosene lamps. Drawn up by the wicks, the gasoline evaporated, and mixed with the air and was drawn directly into the cylinders through a long tube. It may be imagined that the designers of those days had their hands full with such problems as ignition and lubrication, and it is probably just as well that the problem of carburetion did not give trouble until later years when the other questions had been satisfactorily solved.

By the time fifteen years of motoring had elapsed, the carburetion problem had begun to be very serious indeed. The consumption of motor fuel had reached such enormous figures that despite the utmost efforts of the oil industry it was impossible to produce anything like an adequate supply of gasoline that approached the old standards.

The early day gasoline was one of the very first products of the process of distillation, one of the lightest oils that rose at the lowest temperature in the still. It became necessary to use more and more of the heavier fuels that were less volatile and required a higher temperature to make them evaporate in the still. The result is that the "gasoline" of today is now hardly distinguishable from a very light kerosene.

It soon became evident to users and to engineers alike that the heavier fuels were not giving the same degree of satisfaction that the lighter fuels did. In the course of their investigations to find out what was the trouble, engineers actually put glass windows into the side of the carburetors and manifolds of their experimental cars to see what was causing the trouble. This is what they found:

Into the stream of air drawn by the suction of the piston the carburetor sprays the gasoline. Little drops of the heavier elements of the gasoline are carried along by the stream of air. If they strike a sharp corner in the intake manifold they fall, or if the stream air moves too slowly they also fall. Drop adds to drop, a little puddle of raw gasoline collects and is drawn into the cylinder. It runs down the cylinder wall past the piston, "cutting" the essential film of lubricating oil from the cylinder wall and, dropping into the crankcase, dilutes the lubricating oil and ruins its lubricating propensities. Carbon deposits form. All sorts of motor troubles develop. Bearings wear and "knocks" and all kindred symptoms of motor "grief" appear.

### CAUSE OF STARTER FAILING

When pressure on the starter pedal or button fails to cause the engine to be cranked the trouble is not difficult to find, though it may be quite difficult to remedy.

The usual causes of such troubles are: Weak battery, poor contact of the cables with the battery, a short circuit caused by cable insulation being worn through, switch trouble, or trouble in the starting motor.

A battery test will quickly tell if the source of the current is at fault. If the battery is up to charge, then the cables should be examined and the terminals cleaned and tightened. Then the cables should be examined.

The starting motor brushes being worn often causes trouble and in much-used starters the commutator may be worn. The starter switch may stick or make such poor contact as to deliver little current.

If in pressing the pedal there is a whirling sound but no cranking, the spring on the starting motor shaft may be broken.

If the sugar speculators are caught in the drop in prices, there will be no tears of compassion for them from the next consuming public. Thanks to the "break" in the American market, the people at last have the promise of relief. Sugar is on the toboggan slide.

## BRAKE LININGS NEED CARE

You probably have noticed that at times your brakes don't hold. It frequently is the cause of serious accidents, for the brakes are the only safety device on a motor car.

Very likely the brake lining has become coated with oil or grease, which acts as a lubricant. This condition is dangerous, for it may cause the brakes to slip when applied. At the earliest opportunity the lining and the brake drums should be wiped clean with kerosene.

The brake lining may have become worn so that insufficient pressure is brought to bear against the revolving metal drum, and the car cannot be stopped quickly. A few adjustments, which any mechanic can make while you wait, will often compensate for the reduced thickness of the worn lining.

If the lining has become worn beyond the margin of safety, it is best to have the brakes relined. In the selection of new brake lining, the motorist should be guided by the experience of the leading automobile engineers, who have made numerous analyses and tests of various kinds of brake lining material.

The wise motorist is satisfied not alone in being able to drive a car, but thankful that he can stop it. He values a smooth, short stop no less than he appreciates a quick, easy getaway. Watch the brakes—enjoy greater comfort and safety.

An average of 28 cars a minute, or a total of 15,979 motor vehicles, is the daily traffic record at Forty-Second street and Fifth avenue, New York City.

See That Your Ticket Reads Via Canadian National Railways

City Ticket Office 107-109 Hollis Street, Halifax

So far as British manufacturers are concerned the peak of high prices in motor cars and their fittings has been reached and a gradual decline may be expected, is the opinion of J. H. Rose, manager of a large London firm dealing in automobile accessories, who is now visiting Montreal with a view to developing trade with Canada.

The horse and buggy driver knows but little about a motor car, but little experience soon teaches him that some car drivers are continually fighting their cars, just as some horse drivers are continually fighting the horse. Others car drivers let the machine glide along in a manner resembling the poetry of motion as some drivers guide the horse.

While expecting capture by the Germans, an Australian soldier swallowed a banknote of large denomination. Recently he received a new note from the British government.

The average rent for a 6-room house in the month of June in the entire Dominion was \$25.28.

So great has been the slump in the prices of sugar in the States in the last ten days that Boston's two big refiners, the American and the Revere, have withdrawn their product from the market. Boston brokers are offering sugar at from \$18.25 to \$22.25 a hundred pounds.

**MAKE LIFE ON THE FARM APPEALING**

Since the war a problem which has been worrying agriculturalists all over the country is that of keeping the boy and the girl on the farm. All the literature that I have seen on the subject shows quite plainly that no panacea has been discovered to meet the difficulty in connection with the exodus of the boys and girls from the farms. I think that hon. gentlemen will all agree that we can at least go a long way towards solving the problem by adopting better farm methods; by making the home more attractive; by keeping better livestock; by making more profit on the farm, which will make possible more comfortable conditions such as will be conducive to happiness and contentment; by making conditions tolerable for the farmer's wife, and generally by doing everything we can to make life on the farm appealing. In addition to this, I think that good roads and cheap automobiles should play a very great part in helping to keep the young people on the farms by rendering very valuable assistance to the farmer in different ways in connection with his work and by enabling him and his family to move around and mix with the neighbours, thus obtaining some social pleasure out of life.—Hon. S. E. Tolmie, in House of Commons, May 14, 1920.

**RETAIL PRICES WILL SLUMP**

WASHINGTON, August 27—Retail prices in the opinion of the Federal Reserve Board, will decline slightly during the coming fall and winter months and will slump next spring, to lower levels.

Summarizing recent changes in prices of various commodities in the United States, the Board in a report last night said that "Saving afforded by manufacturers through lessened costs of materials and increased efficiency of labor must eventually be reflected in a downward movement of retail prices."

Changes on the prices of raw materials, which were reported to have declined sharply during the past few weeks, will not show their effect, according to the Board, in retail prices until early next spring.

The Board stated that an "important downward tendency" in prices of all commodities except food had been evidenced throughout the United States, the reduction in prices of raw products having been especially marked.

This general lowering of the price level, it was believed, indicates a probable drop in food prices during the coming months.

**Keep Them Growing**

Children who are over-thin, listless or delicate, should take **Scott's Emulsion** regularly every day as an aid to growth and sturdiness. Nothing surpasses **Scott's Emulsion** as a tonic-nutrient for a child of any age.

**PLAN TO PERPETUATE THE HEROIC WORK OF DR. GREN-FELL'S MISSION**

OTTAWA, Aug. 27—With a view to perpetuate the heroic work of Dr. Wilfred T. Grenfell's mission along the coast of Labrador, friends of Dr. Grenfell in Canada, the United States, Newfoundland, England and elsewhere, are banding themselves together into a society, according to word reaching the Capital. The headquarters of the organization will be in New York. The objects of the association are said to be to insure the continuance of Dr. Grenfell's mission, and to take steps, while Dr. Grenfell is still able to direct the work, to guarantee that the work will go on after he has been compelled to give up its direction.
