YOUR MILKMAN'S FINGER TIPS ARE DANGEROUSLY FULL OF BACTERIA.

ON your milkman's hands,—unless he uses the care of a surgeon about to perform an operation,—there are millions of germs. When you remember that thousands of these infinitesimals can cluster with ease on the point of a needle, you can imagine what a milkman's hands look like under a microscope. Suppose when your milkman picks up an empty bottle to fill it at the dairy, he happens to grasp it in such a way that his finger touches the inside! Suppose when he is putting in the paper cap his hand rubs the under side! The only consolation one has is that the great majority of germs about us are not the germs of malignant disease. But some day—! Why—think of it,—in 1908 the Medical Health Officer of the city of Montreal seized and condemned 32 lids of milk cans and 68 cans themselves as being in a foul and unsanitary condition. How many of these germ-laden containers do you suppose are doing duty in St. John's undiscovered—distributing bacteria and spreading disease?

Jersey Cream, Reindeer Milk.

JERSEY CREAM is free from disease germs. The user of it runs none of the risk of the raw milk user; tubercular or typhoid infected milk has no terrors for him. Jersey Cream is simply a rich, pure, whole milk with two-thirds of the water evaporated. No sugar—no preservatives—are added; the sterilization makes it keep. And nothing is taken from it but hot water; not one single unit of food value is lost. Indeed, the Dominion Government food experts place the nutritive value of Jersey Cream above all other evaporated milks. They analyze it as having butter-fat at 3.05 per cent. In Jersey Cream you get the whole milk just as it came from the cow, then sterilized and hermetically sealed so that it reaches you as pure and wholesome as it was the day it was milked from the animal. If you add the right proportion of water to Jersey Cream you obtain a rich milk on which the cream will rise naturally. It is because Jersey Cream is thus a "whole milk" that you get a richness from its use in milk dishes that you never get with any raw milk. And being unswetened, you can use it for cooking. But it is to the cleanliness

of Jersey Cream and Reindeer Milk that we want to draw your attention. Jersey Cream and Reindeer Milk are clean because we make a business of cleanliness; from the moment the milk leaves the cow until you open the can in your home, we guard it against contamination. When a farmer begins to sell milk to us, he has to conform to our "Dairy Rules," and to obey our inspectors. We insist upon sanitary cow stables, correct rations for the cows; we enforce hygienic milking methods, prompt and thorough aerating and cooling of the milk, and we make the farmer drive his milk to us well covered to prevent contamination from dust and heating—and in a spring wagon. And then, even after all this, every drop of milk a farmer supplies us has to pass our expert testers for quality and flavor. Every can in every batch is rigidly inspected—and what's more, the rule against milk with even the slightest taint is rigidly enforced. That's how we maintain our usually high standard. Finally, when milk reaches our plant—where more than half the time of each employee is spent in keeping every piece of apparatus and utensil scrupulously clean—the first thing that is done is to put the en-

tire contents of each can through a sterilizing process. You are beginning to realize, aren't you, what Jersey Cream and Reindeer Milk can mean in your home? Remember to be sure to ask for JERSEY Cream and REINDEER Milk by name—JERSEY Cream and REINDEER MILK. Reindeer Milk owes its Richness, Purity and fine Flavor to the high quality of the milk used, and to the careful attention given to details at every stage of the process of preparation. Absolutely nothing but the best granulated sugar is added to the full rich milk of the best dairy district of Canada.

Remember THIS!

YOU CANNOT DRIFT TO SUCCESS.
It's a good deal easier to drift with the stream than to swim against it. But there's neither glory nor safety in drifting; the world reserves its applause for the man that opposes the current and forces his way to the Harbor. The stream of life has always crowds of drifters trusting to currents of luck to float them to the Harbor of Success. That's why so many bachelors wear looks of disappointment. Their bright dreams of youth have faded with the years, their age has no refuge. Not a pleasant prospect to think about, is it? But you'll do well to think about it now while there is still time to provide for the future; it is not too late to catch up with the crowds of House Furnishers; begin to-day. Secure your partner, visit our store and you will certainly buy.

CHAPTER VII.

"I Never Heard of Her!"

Then gradually the realization of her position broke upon her. With hands tightly clasped, she struggled against an unpalpable excitement. With a start, she roused herself, and, springing to her feet, looked around her.

It was no stage illusion, no stage scene; it was real! This was Woodleigh Hall, and she was its mistress! Then, overwhelming her, came the remembrance of the old man's welcoming love, which cried aloud in every look and word he had bestowed upon her. The touch of his trembling lips seemed to glow upon her forehead now, his loving accents of fatherly pride rang in her ears, pleading and accusing! And she had deceived him! That love which he had lavished unparingly upon her was meant for that other girl, his lawful daughter, whom she had left in the lone hut on the prairie road!

Crowding upon her brain, came these, and kindred thoughts, with such maddening confusion that they seemed to deprive her of sense and feeling.

With a low cry, she flung her white arms above her head and hid her face upon the snowy coverlid.

What right had she there? The right of hate, bred of wrong crying for revenge. Revenge! Yes, she was fulfilling her oath, she was filling up the cup of bitterness to the brim; but not only for that old man, who had so cruelly wronged her dead mother. For she felt, with a strong conviction that would not be denied that her heart—that heart which should have been steered against pity, against love—had gone out toward the old man who, sworn to hate him as she was, was her father!

With a low moan, she wrestled with the newborn tenderness—and with yet another. For, hide her eyes as she would, another face, another form, rose to reprove her. This time it was the handsome face of a stalwart man; honest, staunch and true.

The face she saw in the doorway of Five Forks hut; the face that had shone upon her with manly tenderness all through the long journey; the face that had always been near her to encourage and cheer her; the face

that had appealed to her to-night, with such love and gentleness.

'How can I hate him as I ought?' she moaned. 'He saved me that night, and—and—loves me! How can I hate him? What has he done that I should watch and wait to work him harm?'

Over and over again this cry rose from her heart, until nature, overstrained, prevailed, and, sobbing she fell asleep—a wild and troubled sleep—for suddenly the rich and costly room passed from her consciousness, and in its place appeared a miserable garret, from the corner of which rose slowly and painfully a haggard, careworn woman, who, with uplifted, wasted hand, whispered 'Remember! Tossing restlessly, the girl stretched out her hands imploringly.

'Mother, mother!' she moaned in her sleep—I cannot, cannot! Take back my vow!'

And once more the thin, anguished lips seemed to mutter: 'Remember! before love, comes re-venge!'

All night she struggled, appealing against that inexorable vision, but at last, as dawn moved slowly from the east, she fell into unbroken sleep, and the sun rising, pierced the curtains and shone softly upon her lovely face lying calm and peacefully as a child's upon the pillow, with its edging of Flemish lace.

In a room at a further end of the corridor sat Harold in his evening clothes, not an article of which he had commenced to take off, though the dawn was spreading over the gray sky. Lost in thought, he sat in a low chair, his hands thrust in his pockets—a favorite attitude with him—his handsome, tanned face lying back against the cushions with a troubled expression upon it.

'What is it that divides us?' he asked himself for the hundredth time. 'Is it indifference? No; her manner would be easier and less constrained. Is it dislike?' At the question he rose with a troubled frown. 'Why should she dislike me, unless—unless there was some one else in that vague past of hers? and as this possible answer occurred to him his face paled.

'Perhaps that is it. If I thought so, if I felt sure of it, I would leave her at once. And yet—could I? What has come over me? It is not her beauty alone which has woven this spell—I have seen women as beautiful as she is; I am no school-boy smitten by the first pretty face. No, it is not her beauty, for I feel that if she were to lose it, if she were to become as suddenly plain as she is now lovely, I should love her still. It is herself. Every movement she makes in that strange, lithe way of hers, every word in her low, sweet-penetrating voice weaves the spell more potent. Day by day it has grown more irresistible, until I am become—what I am! and with a smile that was almost bitter he glanced at the reflection of his pale face. 'And, after all, if it be too late!' he murmured; 'if she has given herself to some other fellow out there in the new world—what is to become of me? Yes, I forgot when we made our covenant that there was a third and a most important party to it, whom we had not consulted.'

Absently he slowly pulled off his clothes, flinging them, as in the manner of men, into a disordered heap, and went to bed, just as the sun, which fell upon the placid loveliness of the girl of whom he was dreaming, pierced the curtains of his room, and shone upon his anxious face.

When Lillian awoke she found her maid awaiting her in the adjoining dressing room, and turning over three or four morning dresses, with that absorbed look which a woman wears when her heart is wholly in her work,

Thousands of people owe their good health to Dr. Bovel's Herb Tablets. Thousands of others are rapidly being restored to health and strength through the marvellous powers of this extraordinary medicine. Here is just one case from Sault Ste. Marie, Ont.

Sault Ste. Marie, Ont. Gentlemen:— Last winter I was afflicted with biliousness and congestion of the liver, had no appetite, terrible headache for five or six weeks and nothing seemed to help me until I had almost despaired of ever getting better. I tried Dr. Bovel's Herb Tablets which seemed to suit my case and I began to improve right away and in a few weeks was able to do my work again. I can now eat anything and have good health.

She started as the tall, graceful figure of her mistress in its simple, white-robe entered, and Lillian, glancing at the clock—a gem of the Queen Anne period—smiled apologetically. 'It is so late,' she said.

Annie dropped a graceful courtesy that would not have disgraced her mistress.

'Yes, miss, she said, 'that is the time. I should have called you, but Sir Talbot sent word that you were not to be awakened, and the whole house has been kept quiet, so that you might not be disturbed. And will you have chocolate or tea, miss? I will get it while you have your bath; it is nearly warm.'

'The bath?' said Lillian, smiling; 'I'll have it cold—quite cold. And you may bring me some chocolate. Stay; what time does Sir Talbot and Mr. Woodleigh have breakfast?'

Annie glanced at the clock. 'Sir Talbot—about this time, Miss Lillian. Mr. Harold generally has his as soon as he comes back from the river; but Sir Talbot sent word that he would wait for you.'

'Then I must be quick,' said Lillian.

And when Annie came back with the chocolate she found her mistress half dressed, much to her surprise. How much more surprised she would have been if she could have known that her mistress had learned to change her dress three times in one evening, and that in five minutes in each change!

In respectful silence Annie escorted her mistress to the breakfast room, and Sir Talbot, looking up as the door opened, started from his chair to welcome her with loving and eager alacrity.

To the old man she appeared, in her plain, morning dress of China chintz and olive gray, more freshly beautiful than in her stately dinner dress.

Drawing her toward him he kissed her and led her to her chair, waiting with old-fashioned courtesy until she had settled herself before he resumed his seat.

To be continued.

where it is—on the Brecon Road. This is the mail coach pillar "erected by John Bull, Inspector of Mail Coaches, with the aid of \$85 received by him from forty-one subscribers in the year 1841." It was put up "as a caution to mail drivers to keep from intoxication." It appears from the inscription that on December 19, 1833, one Edward Jenkins was driving the Gloucester and Carnarvon mail coach. Unfortunately he was very drunk, and when he met a cart coming the other way he was too fuddled to pull over to his proper side. The leaders swerved and went over a precipice 121 feet. The coach was dashed to pieces.

The undelivered articles at the Returned Letter Office, perhaps better known as the Dead Letter Office, form a remarkable collection. The number of letters and parcels which are improperly addressed is simply astounding, and even more so are the extraordinary articles which people think fit to send through the post. False teeth, puddings, snakes, lizards, leeches, weasels, tarantulas, tortoises, lame rats and mice are only a few of the specimens which startle the Dead Letter Office clerks, and are kept as long as possible in case they should be claimed. But most interesting of all are the documents and the anecdotes which are carefully treasured in the museum. A bag of letters which had been stolen was recovered almost intact, and the following notice was sent with each letter: "This letter was enclosed in the Newport letter bag for London, on November 6, 1822, which had been stolen, and was found on the 17th inst. (1824) concealed over a hayloft at the New Passage Inn, with the contents mutilated."

Millions of Missives.
Interesting Relics.

General Post Office Has Queer Reminders of Bygone Days—False Teeth and Puddings.

From among the millions of missives, which pass annually through the General Post Office in London there are always a few which go to swell the numberless interesting relics in the G. P. O. museum. But the museum does not contain letters only, every kind of curiosity connected with the postal system seems to have gravitated with it, each (says a writer in the Globe) forming a link with the past, and in many instances having a sufficiently startling story attached to it. There is the old mail-bag which was stolen by a highwayman in 1798, and found in 1876 in an old one, which was being demolished where, when fresh foundations were being dug, several skeletons were discovered. There are some old brass bound watches once used by the guards of His Majesty's mail. These watches were provided with a lock and key, so that after being regulated at headquarters they could not be tampered with.

Mail Coach Pillar.

There are two of the staves used by all ranks in the postal service during the Chartist riots; and the ancient horse-pistols, without which no guard felt secure in olden times, but perhaps the most interesting relic, leaving documents out of the question, is one which must perforce remain

Now Cured of Rheumatism

Cost him \$100.00 for medicines which failed—Cured by DR. CHASE'S KIDNEY-LIVER PILLS.

Mr. James Clark, Maidstone, Sask., writes: 'I suffered for four years with rheumatism in my shoulders and could not lift my arms above the head. I tried nearly all the advertised remedies but none of them gave me relief. It cost me at least \$100.00 for medicines before I used Dr. Chase's Kidney-Liver Pills. With the use of this medicine, I soon found relief. I followed up this treatment for six months and was then quite free from rheumatism. While using Dr. Chase's Kidney-Liver Pills I also used Dr. Chase's Backache Plaster when so stiff that I could scarcely bend. They always found the weak spot and gave relief while the internal treatment was bringing about a thorough cure.'

The success of Dr. Chase's Kidney-Liver Pills has been phenomenal. One pill a dose, 25 cents a box, at all dealers or Edmansons, Bates & Co., Toronto. Dr. Chase's Recipes will be sent free on request.

The Evening Chit-Chat

By REED CAMERON

It is not raining rain to me, It's raining daffodils; In every dimpled drop I see Wild flowers on the hills.

The clouds of errand engulf the day, And overwhelm the town; It is not raining rain to me, It's raining roses down.

A health unto the happy, A fig for him who frets! It is not raining rain to me, It's raining violets.

—Robert Loveman.

It is pretty hard to see the daffodils in the rain, when that particular day on which you planned to go sky-larking turns out rainy, isn't it?

And yet the daffodils are so pretty sure to be there, and often many more of them than you realize.

This is a word for discouraged and rebellious people.

People to whom some wrench, some disappointment, some very unwelcome change in life has come.

Dear folks, it is hard for you to believe that in your particular change or disappointment there can be any preparation for future happiness, but truly there may be.

Again and again, even in my small individual experience, I have seen it happen that the sharp ungentled turn of the road that seemed so cruel and unnecessary, has been the very turn that led straight to the land of heart's desire.

And more than once I have seen the shock of sudden misfortune and suffering turn the trend of a life out of some unfortunate rut into which it had gotten.

Once on a time was a woman who went wrong, and because she thought it would be too hard to get back, and because she thought she was having a

good time, stayed wrong. Continual merry-making and the possession of beautiful things, and admiration and the semblance of love, hid the horror and emptiness of her life from her, until one day what she considered a terrible misfortune came to her.

She became very ill of typhoid fever. Everyone deserted her. She was friendless and alone and in want. And, with all that had hid it from her stripped away, she saw the horror and emptiness of her life—saw it so plainly that she turned away from it forever. And to-day she is a good and happy woman with a home and children.

If she had known how to pray she would have surely prayed that the sickness should have been averted, and yet she would have been praying for destruction.

Out of the rain of disillusionment came the daffodils of peace and happiness.

The woman who repeated to me the quotation which follows probably knew as great a disappointment as any woman could, for, on what was to have been her wedding day, she found that her lover was unfaithful to her. As she quoted this, she said, "I have found it true."

"There is help in the still places of life, its retreats, its withdrawals for communion with God and one's own soul. Bereavement is one of the still places of life; disappointment is another; pain is another. We come out of deep bereavements, out of all the seriously arresting experiences of life, if we accept such experiences in the right spirit, with clarified wisdom, with renewed faith, with better adjustment to the Divine Plan. At first it may seem, when we are called aside into the still places, like a turning back of life upon itself, an undoing of all its hopes and purposes. But by and by we learn that the still place is instead a place where life gathers itself together, finds itself, heads with new power and usefulness in the direction which God indicates

Silence!

The instep of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong. Sick Women Well.

You can't afford to accept a spurious nostrum as a substitute for this non-alcoholic medicine of known composition.

HOUSEHOLD NOTES.

Keep rice, sugar, beans, bread crumbs, etc. in glass jars, and packages of nutmegs, soda, baking powder, etc., in a large tin box.

To remove grease from garments, dissolve a tablespoonful of salt in four tablespoonfuls of alcohol, shake it well, and apply with a sponge.

Tomatoes may be stuffed with any mixture that is approved by the addition of tomato ketchup—meat, fish.

Twitching of the Nerves

Wonderful cures brought about by DR. A. W. CHASE'S NERVE FOOD. It is only by watching the symptoms of nervous exhaustion and applying restorative treatment that you can ever hope to ward off locomotor ataxia and paralysis.

Mrs. E. J. Vanderburgh, of Eastern Welland Ave., St. Catharines, Ont., states:—"For twenty-one years I was badly afflicted with heart trouble, nervousness and cramps in the limbs, also twitching of the nerves and nervous headaches. I became weak, debilitated and emaciated. My condition was distressing and I was made worse through worry and loss of sleep.

"I tried a hundred remedies in vain. After having used half a dozen boxes of Dr. Chase's Nerve Food my old trouble had entirely vanished, and I was enjoying better health than I had since girlhood."

Such cases as this prove the wonderful efficiency of Dr. A. W. Chase's Nerve Food. It cures in Nature's way by enriching the blood and its benefits are lasting. 50 cts. a box, all dealers. Edmanston, Latex & Co., Toronto.

After scrubbing potatoes to bake, grease them with lard, and the outer skins will come off like so much charred paper when the potatoes are served.

To prevent preserves from moulding, place a disc of oiled paper on top of the fruit, and on this pour a tablespoonful of brandy. Then fasten on the top.

To prevent starch from sticking to the irons, and to gain a finer gloss add a tablespoonful of kerosene to a quart of starch when it is cooked, stirring well.

A tablespoonful of kerosene to a gallon of clear, warm water is excellent for washing windows and mirrors, as it cleans without leaving a streaked effect.

Charles P. Knapp, Banker, Convicted.

Binghamton, N.Y., June 24.—Chas. P. Knapp, one of the firm of Knapp Brothers, private bankers of deposit, New York, which failed over a year ago, at the time the Binghamton Trust Company doors were closed, this morning was convicted of receiving a deposit in his bank on the day before it closed, knowing at the time that the bank was insolvent. The trial has been in progress since June 13th. The jury retired late yesterday afternoon and reconvened at the opening of the court this morning. Knapp was immediately sentenced to Auburn prison for not less than 15 months nor more than two years. The failure of Knapp Brothers was due to excessive and unsecured loans to the Outing Magazine publishers, and it was the crash of the banking firm that caused the suspension and subsequent liquidation of the Binghamton Trust Company. Chas. J. Knapp, an uncle of the man just convicted and a member of Knapp Brothers, as well as President of the Binghamton Trust Company, is indicted on a similar charge.

Trial by Rice.

They have peculiar methods of trying suspects in Bengal. One of these is called "trial by rice." Every person suspected was ordered to be present, and all turned up. First the people were made to sit in a semicircle, and a "plate" (a square of plantain leaf) was set before each. Then a priest walked up and down chanting and scattering flowers. This ceremony over, one of the clerks went to each man and gave him raw rice, and told him to chew it to a pulp. After about ten minutes they were told to stop and eject it into the plantain leaf. All did so easily, with the exception of three men. One of these promptly commenced to cry and begged for mercy, confessing everything and stating that another of the three was the chief instigator. It is a curious fact that fear, arising from an evil conscience, prevents saliva coming to the mouth, with the result described.—London Globe.

What It Means.

As constituted by the Municipal Election of 1906, the City Council are reaching the end of their tenure, and shortly we shall have a Council with its personnel selected according to the last. The most remarkable feature is the change of personnel brought about by retirement and not by rejection. The present Mayor has voluntarily left Municipal administration, and four of the six Councilors have also voluntarily retired; altogether five out of seven members of the City Corporation determined not to seek the suffrages of the City electors again, and to withdraw their services from the city. The voluntary nature of the retirement is emphasized by the confidence extended to the two members who determined to offer their experienced services to the city—one was elected at the top of the poll which gave him the dignity and standing of Deputy-Mayor.

It seems to follow from this that citizens generally recognized the value of experience in Municipal management. We hope this will be sufficient in future to induce more than two out of seven experienced men to come forward. We do not wish to be misunderstood. We do not believe that these men had done something to merit confidence—but it really meant that their services were valuable assets in the attempt which citizens are determined shall be made to put the city on a better footing, and especially in the attempt to clean up the city, and take away from us the reproach of an abominable death-rate, without doubt, we have not been sufficiently wise to help ourselves and see to it that our surroundings are wholesome.

The Bonavista Here.

The S. S. Bonavista, Capt. Frazer, arrived here at 12.30 today from Montreal via Summerside, Charlottetown, Soudria and the two Sydneys, after a run of 8 days. She had fine weather until Sydney was left when dense fog prevailed and continued until after she had passed Cape Race. She has a three-parts cargo including 4 trawls for J. & W. Pitts, 56 head of cattle and 129 sheep. Her passengers from Montreal were—M. Cullen, Mr. Goodwill, Mrs. Goodwill, Sr., Mrs. Follett, Miss Evelyn Follett, Miss Boggs, Miss K. Burke, Miss B. Burke, T. Liddy, Miss Donovan, Gower McKay, E. W. McGuire, F. Brown, J.S. Frazer and 24 steerage. She has 4 round trippers on board.

Fogota's Dimensions.

The S. S. Fogota, the new ship for the Pogo mail service, which was launched at Glasgow in May, and was built by the Dundee Shipbuilding Co., Ltd., is a fine ship. She is 145 feet long; 24 ft. 6 in. wide and 10 feet 6 inches deep. She is a fine boat, built of the best material for ice navigation and has accommodation for 40 sailors and 30 steerage passengers.

ONE OF THE HITS—In last night's performance one of the hits of the evening was Master Charles Rosseth as Captain Jubo who with his boy army of local playmates added much interest and enthusiasm in the first act and also furnished the finishing touches to the fair ground scene.

Supreme Court.

HON. J. ANDERSON ALLOWED \$4,000 FOR HIS SERVICES IN WINDING UP THE COMMERCIAL BANK.

Some time ago Hon. J. Anderson who has served 120 months as Trustee in winding up the affairs of the Commercial Bank applied to the Court for his discharge as Trustee and for the Court to settle the amount of his compensation. The Court ordered the accounts to be referred to Mr. D. Browning, K. C., and appointed Mr. Furlong, K. C., to watch the inquiry in the interest of the creditors. Mr. McNelly, K. C., appeared for Mr. Anderson. Mr. Browning made a close examination of the accounts and reported, and the Court sat on the report, and Mr. McNelly applied for compensation. Mr. Furlong for creditors was satisfied that the affairs of the Bank were practically wound up and everything ripe for compensation being settled. As further information was found to be necessary the report was referred back, and eventually Mr. Browning put in a supplementary report.

The accounts having been investigated and Mr. Furlong satisfied for the creditors, the Judges took up the question of compensation. Yesterday judgment was delivered. The Chief Justice decided on \$4,000. Mr. Justice Emerson came to the same decision. Mr. Justice Johnson differed from his brother Judges on the construction of the compensation clause to Trustees in the Insolvency Act and came to the opinion that in view of the special services rendered by the Trustee in connection with the closing and correcting accounts liberal compensation (\$7,000) should be awarded and particularly so, as the counsel for the creditors had recognized the meritorious nature of some of these services and had expressed an opinion that the percentage basis might be insufficient compensation for them. Some time ago Mr. Anderson was given to understand that \$5,000 might possibly be allowed him, but that before the amount was decided on, he must pay back to the Bank with interest all amounts he had paid himself after he reached the \$5,000 limit.

This limit has been reduced to \$4,000, and the accounts will be adjusted by the Master on that basis. It will be interesting to note that the other trustees were paid as follows:—
Mr. Fox for 33 mos. . . . \$8,600
Mr. Fenelon for 24 mos. . . . 4,600
Mr. Mare for 114 mos. . . . 11,616
Mr. Furlong for 60 mos. . . . 5,736
These collected over \$1,000,000. Mr. Anderson collected nearly \$200,000, and for 72 months out of the 120 he was sole trustee.
(Full Bench).
In the appeal case of Sergt. Newhook vs. Mona Tobin, on motion of Mr. Hutchings, K.C., the appeal was dismissed. In this case the defendant was fined \$50 for breach of a default one month's imprisonment for a breach of the 15th section of the Temperance Act.

POLICE COURT NEWS.

For the first time during a lengthy period there was a clean docket at the police court to-day. Several civil cases were heard in the Central District Court by Judge Knight.
Richard and Albert Codner, of Torbay, summoned William Codner for having his trap out to within less than 80 fathoms distance to plaintiffs. According to the evidence given, when first put out it was within the prescribed limit, but people say that when deft. got his out their's had drifted 30 fathoms from its original position, and when their's was put back to its original position the distance between the traps had decreased to 30 fathoms. Plaintiffs hold that Defendant should be required to move his trawl to the regulation distance. At 1 p.m. His Honor intimated that he would review the evidence adduced and render judgment this afternoon. Mr. Higgins, for Pittis, Mr. Carty, for Deft.

Cooking Lessons.

The Fleischmann Cooking Classes in charge of Mrs. Peacock at the British Hall are being attended by a large number of ladies, who are delighted with the demonstration. The menu for next week is as follows:
Monday—Milk Bread, Potato Buns, Pastry, Lemon Sticks.
Wednesday—Graham Bread, Maple Rent Ring, Scalloped Apples.
Thursday—Water Bread, Clover Leaf Rolls, Wheat Muffins, Puff Ginger Bread.
Friday—Nut Bread, Lunch Rolls, Salmon Salad.
Friday Night—Bread, Cloven Leaf Rolls, German Coffee Cake.

French Castaways Here

The two French fishermen of the banker St. Pierre who got astray from their vessel and were picked up and landed at Cape Broyle. The men suffered considerably with cold while adrift, and will be forwarded to St. Pierre by the French Consul. They were 24 hours in the dory, had plenty of Macutin and water; they are natives of St. Servon, France. Their names are Louis Mace and Emile Breton. The Captain of the St. Pierre is Francois Berthelot.

Good Inland Fishing.

Some excellent catches of trout were brought to the city by last night's train. Messrs. W. Harvey and W. Farniter, of the South Side, who had spent two days at Spread Eagle Pond, returned with 10 dozen beauties. Some of the fish weighed 1 1/2 and 2 lbs. Messrs. Clouston, Charles and Thompson also came in from Whitbourne with baskets filled with the "specked beauties."
RECOVERING.—Mr. T. J. Allan is somewhat improved in health to-day.

Three Girls Run Over.

A little girl named Peddie, aged 3 years, with two others passing along at the foot of Brazil's Square shortly after 2 o'clock to-day, were run down by a heavy lumber dray and the wheels went over the little girl Peddie. It is feared she is fatally injured. One of the little girls was kicked in the head by the horse and is badly cut; the third girl escaped by a miracle. The two injured children were brought to Dr. Arch Tait's surgery and were attended to.

Southern Shore Mails.

Cabman Stamp has been given the contract of conveying the mails to the Southern Shore for \$1,000. Mr. J. Coughlan, who was doing the work previously, was receiving only \$750 for the same work of taking the mails to LaManche. Mr. Coughlan has been doing the work for 34 years and it certainly would be only an act of justice to give him the refusal of the work at the increased pay of \$1,000. Mr. Sam Joy's tender was \$800, and R. Cole's tender \$1,000, but Mr. Stamp being a friend of Hon. M. P. Cashin got the job. It is certainly hard on John Coughlan.

THE BOYS PROTEST.—It has been noticed of late that some of the head book-keepers in city offices so manage on half holidays that the juniors in such places are delayed until 1.30 and 2 p.m. Their chances of getting in the country are thus spoiled and they feel badly about such treatment. These men should remember that they were once boys themselves and that they would not like similar treatment when young.

NATURAL HISTORY SOCIETY.—The proposed meeting will not take place to-night, but some day next week. It is hoped the Governor will be able to attend.

Ask for Minard's and take no other.

Use of Sawdust.

Every now and then the daily papers bring in an item about some one who is trying to utilize the sawdust which accumulates all too rapidly at some sawmills and wood-working establishments.
Meanwhile some of our electric furnace pioneers have quietly gone ahead and have already been using

sawdust for years as one of the ingredients for making that exceedingly hard grinding material carbonyundum.

To produce this a heavy current is passed through a core of coke surrounded by a mixture of carbon, sand, salt and sawdust. Which again goes to show that marvelous results can be obtained from the most common-place ingredients when the magic of the electric current is available.—From Popular Mechanics.

EXPULSION OF JEWS.

Special to Evening Telegram. KIEV, Russia, June 30.—The expulsion of Jews still continues, 158 being sent out of Kiev in the last two days. Many of them were given time to arrange their affairs before departing, while others proceeded to specified destinations under protection of passports.

KING PRESENTED WITH MEDAL.

Special to Evening Telegram. LONDON, June 29.—King George gave an audience to-day to General Stewart Woodford, of New York, President of the Hudson-Fulton Celebration Commission, who presented the King with an official gold medal. Accompanying the medal was an address originally prepared for the late King Edward. In reply King George referred to his emotion upon receiving an address originally intended for his father who had so cordially associated himself with the celebration. He thanked General Woodford and added: "I know that this medal will be prized by the Government of this country as a memento of the festival and as an evidence of that hospitality so warmly extended to those who represented my Government. I most heartily wish that the two countries may ever work together in the promotion of everything conducive to the peace of the world."

HARVARD'S WIN.

Special Evening Telegram. NEW LONDON, Conn., June 30.—The setting sun could not tinge the waters of the Thames this evening with a deeper crimson than they had been dyed by the victories of three Harvard crews on the broad four mile stretch between this city and Gale's Ferry. Harvard met Yale to-day in their 44th annual rowing regatta. Five lengths was Harvard's margin of success in the "Varsity" eight oared race, three in the freshman and four in the "Varsity" four. The freshman four oared race won by Yale Wednesday evening was the only sweet drop in Yale's bitter cup of defeat. Nearly 6,000 persons in the fit cars of the observation trains on both sides of the river followed the "Varsity" race. From more than 200 yachts and small boats along the course as many more cheered the oarsmen.

JAPAN WILL ANNEX COREA.

Special Evening Telegram. TOKIO, June 30.—There is every reason to believe that an announcement of the annexation of Korea is imminent. In accordance with the convention recently made between Korea and Japan, the Korean Emperor has issued an edict delegating to the Japanese Government the police administration of the country. This is the first step and the final step will be taken when Korea is under guard. The garrisons are being steadily strengthened. The mass of Koreans accept the reports of the annexation with indifference, but a decided spirit of unrest and activity among the anti-Japanese element necessitates precaution prior to the forthcoming announcement. The Japanese resident General of Korea on July 15 will confer with the Korean Emperor, who is reported to be in an easy state of mind in view of the ample provisions which has been made for him, his immediate family and other members of royalty under the annexation arrangements. The text of the Russo-Japanese convention recently made will be published soon in St. Petersburg.

Carew Street School Concert.

A very pleasing concert was given in the lecture room of Cochrane St. Church by the scholars of Carew St. School. The teachers, Miss Alice Fenwick and Miss Florence March, are to be congratulated. From the commencement to the last item on the programme the children sustained their parts well.

The sentiment expressed in the opening chorus: "Aim for the top of the hill, my lads," had the right swing.

Rev. Mr. Dunn was most happy in his remarks as chairman; if "brevity is the soul of wit" it was a truism in his case.

Lillian Pippy, a tot of four, gave a recitation. All eyes were fastened on her sweet face and charming ways.

Drill by the Senior Department—"The Harvesters"—was most interesting, and the intricacies were remembered and faithfully executed.

Olive Scaplen recited "Driving the cows home."

One of the hits of the evening was an action song by the Primary Department: "My Taddy Bear." Drill: "The Daisies" was a very graceful performance.

Dialogue, revealed the "horror of war, when a mother and a sweet-heart were deprived of their dear one: Longfellow's "Village Blacksmith" was sung and acted in chorus.

Gussie Goodland gave a humorous recitation: "Grandpa's Hair."

The "Paries" and action song was the last item. It was a dainty exercise, and those who performed merited the hearty applause.

Miss J. E. Parsons performed at the piano with grace and skill. Many in the audience heard her for the first time.

At the conclusion of the programme prizes were distributed to the scholars who were most successful in the year's work.

A Motor Boat Cruise.

W. T. Petrie and J. A. Barrett have returned from Port au Port after an interesting cruise in the former's motor launch. On the trip west they explored the waters of the Serpentine River and were astonished at what they saw there. The stream appears to be teeming with salmon and trout of the largest kind. Trout of large size are also plentiful, and Messrs. Petrie and Barrett secured a large quantity. This stream is practically unknown to anglers and a revelation awaits the sportsman who will pitch his tent there.—Western Star.

Are You Wise?

There are two ways of seeing things. One way is to see them as they appear; another is to see them with the mind. One may see the sun causing nature to appear brilliantly and enchanting; the other closes the eye and see all in one's imagination. That is what Solomon meant when he said, "The wise man has his eyes in his head." Therefore every wise man is getting his Clothing, Dry goods and Furniture for Cash or Credit from

Shooting Match.

The McLoughlan Challenge Medal was won by J. W. Morris with a score of 93 at the Butts yesterday. The Club Junior Prize was won by Mr. Taylor who made a score of 82. Mr. Knight tied on this figure with him, but Mr. Taylor won on the shoot off. There was a fairly large attendance and conditions were most favourable for shooting.

FROM PETER'S RIVER.

Mary arrived here from Peter's River yesterday morning. She brought down three fine eggs taken from the wreck of the Montrose and some other material. Part of the hull of the ship is still on the beach but is being gradually cut away by the people who use it for firewood.

ANNUAL SPORTS OF ST. BONAVENTURE'S COLLEGE STUDENTS.

The annual sports at the Campus of St. Bonaventure's College were held yesterday under very favourable conditions. The weather was beautiful and probably the largest gathering that ever assembled there on similar occasions was attracted to the place to spend the half holiday. The College and the Campus were gaily decorated with bunting, giving to the whole scene a charming appearance. In fact it would be difficult to find a more beautiful spot in Newfoundland than St. Bon's. Campus, and yesterday it certainly looked at its best.

Amongst those present were His Excellency the Governor and Lady Williams and suite, Rt. Rev. Mons. Roche, the clergy and Christian Bros. and many prominent citizens. The Bands of the C. C. C. Mount Cashel and of H. M. S. Cornwall were present and played exquisite music during the evening.

The programme was an interesting and well varied one. The football contest after a hard struggle was won by St. Bon's by a score of two goals to one. His Excellency the Governor when presenting the prizes took occasion to congratulate the

winners and to wish them continued success. The special prizes to boys of 15, 16 and 17 years of age for securing the highest number of points were won by Masters Hayes, Keefe and Devereaux. The readiness and precision with which the field exercises were prepared reflects great on the teachers of Physical Drill and Bayonet Exercises and Figure Marching. During the afternoon teas were served by the ladies of St. Bon's Association in the College Hall and temperance drinks, ice creams, candies, etc., were sold in the stalls around the Campus. The financial receipts, we understand, were highly satisfactory. Following is the programme:—

- (1) Juniors, 1st Hagen; 2nd Jackman; (b) Intermediate, 1st Keogh; 2nd Neary; (c) Seniors, 1st Devereaux, 2nd McGrath.
- (2) Relay Race. Boarding Students vs. Day Students.—Won by Boarders. Their names are: O'Leary, O'Brien, Hagon and Jackman.
- (3) High Jump—Seniors. (a) Won by Knight; height 4 ft.; 2nd, Keogh. (b) Races (Primary). Five heats were run; the winners were: R. Murphy, J. Kielly, H. Walsh, C. Egan, J. Murphy.
- (4) Bayonet Exercise—Seniors. Squad from College under command of Mr. L. C. Murphy.
- (5) March Past by Students. Under Corporal Whitty (H. M. S.

Calypso.)

- (6) 75 Yards Dash. (a) Juniors, 1st Egan; (b) Intermediate, 1st Keogh; (c) Seniors, 1st M. Dunn.
- (7) Physical Drill—Juniors. Drilled by Corporal Whitty of H. M. S. Calypso.
- (8) Football Fives. (a) Collegians vs. B. I. S. (b) Star vs. St. Bon's. In the former contest the Collegians defeated their opponents by 3 goals to nil. The latter event was more exciting and resulted in a win for the College boys by 2 goals to 1.
- (9) ¼ Mile Run—Intermediate. 1st, Keegan; 2nd, Keough.
- (10) Drill (Free Exercises)—Preparatory. This event evoked much laughter, from the little tots from the Junior departments performed the exercises with much precision.
- (11) Pole Jump—Seniors. (a) Won by Neary, height 7 ft. 1 inch. (b) Races—Preparatory. The winners were W. Parrell, J. Daly, P. Skinner, C. Gleeson.
- (12) Figure Marching—Seniors. Relay Race. Past vs. Present.—Won by Past, the names of whom are Messrs. Burnham, Greene, Kent and Hean.
- (13) Races—Preliminary. Cleary and Knight dead heat.
- (14) Half Mile Race—Seniors. 1st, Robertson; 2nd, McDonald.
- (15) Final Football Fives. The final football fives was won by St. Bon's by 2 to 1 against the Collegians. The winning team was:—Hean, Burnham, O'Flaherty, Power and Templeman.

"A DOUBLE MARRIAGE."

For the Friday and Saturday attraction at the T. A. Hall, with a Saturday matinee, the Chicago Stock Company will present the dramatization of that famous and widely read novel entitled, "A Double Marriage." The play deals with life in France during the reign of Napoleon the Great, and is intensely interesting from beginning to end. It is a tale of love, hatred and the chivalry for which France was noted at this period. The entire acting company is included in the cast, and a performance of exceptional merit is guaranteed. The handsome costumes of the Napoleonic era will be worn and the scenery will be of that elaborate and correct nature that has made the Chicago Stock Company's productions famous.

On Monday night the Company will enter upon its last three days in this city, presenting the delightful rural play, "The Dairy Farm" on Monday and Tuesday. Wednesday night, "The Little Gray Lady" will be produced.

League Football.

COLLEGIANS DEFEAT CASUALS BY 1 GOAL.

Yesterday evening the Casuals and Collegians met on St. George's Field in the eighth football match of the League series. There was a very large attendance and the weather was excellent both for players and spectators. The teams lined up as follows:—

Casuals—H. Foster, goal; Ring, H. Herder, backs; H. Brown, H. Brown, Forbes, halves; Ningham, McIntyre, P. Mars, den, W. Smallwood, forwards.

Collegians—B. Butler, goal; Gear, C. Thomas, backs; T. E. Barnes, A. Pike, halves; B. St. Hill, J. Aitken, ney, S. James, forwards.

Winning the toss, the Casuals elected to play from the western goal. It was almost perfectly calm, and neither side any particular advantage, and when the ball was kicked off the Casuals immediately became aggressive and got down field, but the Collegians showed a solid front, and driving the ball back it was taken charge of by Jim Aitken, who made a good attempt to score but was followed by Bowring. The Casuals now worked hard to score. Mars did some nice individual work and passing to Lumsden he sent the ball between the goal posts. He was off sides and the goal didn't count. When the leather was again set going Lumsden once more showed excellent play, and getting down on the left wing he sent in a beauty, placing the ball in the net and scoring for the Casuals. The Collegians now worked hard for the equalizer, but no scoring resulted and the teams crossed—Casuals, 1 goal; Collegians, 0.

When the ball was once more put in motion the Collegians showed that they were not daunted by the reverse of the first half. They combined well, put a good deal of "ginger" into their work, and Penny getting the ball banged the equalizer into the net. The Collegian stock now went up, they played a fine, rattling game and James soon scored the second goal. The game shortly after ended with Collegians, 2 goals; Casuals, 1. Mr. W. J. Higgins was referee.

The s.s. Adventure, Capt. Couch, with a party of 250 excursionists, which left this port for Ferryland yesterday at 2:30 p.m., did not reach there owing to the dense fog that prevailed all the evening. The ship was out there about 12 hours and most of the female passengers suffered the agonies of seasickness.

Sir Francis Hopwood and Grenfell Mission.

Dear Mr. Editor.—On seeing a note in the paper to-day concerning the remarkable career of Sir Francis Hopwood, it would certainly interest many to know that it was Sir Francis Hopwood who is responsible for the existence of the work of the R.N.M.D.S.F. in Labrador. It was not only at his personal request that I brought out the Albert, and subsequently agreed to continue work on the land by building hospitals, but also largely at his personal expense the first voyage was equipped. His constant advice and sympathy have been at the disposal of the Mission ever since it commenced.

Yours faithfully,

Mission Band Picnic.

At the Methodist Orphanage grounds last evening an enjoyable picnic was held under the auspices of the Alexandra Mission Band of Gower Street Church. There were about 120 present. The afternoon was spent in a most enjoyable manner by the orphans who had tea, cakes, sweets and candies in galore. Amongst the visitors were Rev. Dr. Curtis and the Pastor of Gower Street Church. Miss Slaughter showed the visitors through the Home and they were highly pleased.

FRIDAY, July 1, 1910.
Those ladies who were out under the sun yesterday—and who was not?—will doubtless feel the effects on their faces to-day, unless they were wise enough to use Cream of Lilies at bedtime. Those who did not have the Cream last night need not despair, however, because they can always procure it from us, and one application will make a marked difference. Cream of Lilies removes sunburn and that dry uncomfortable feeling from the skin. Price, 25c.
Those trouters who neglected to take a bottle of Tar Oil and Penroyal with them yesterday, are sorry to-day, with many mosquito bites ornamenting their faces. They should try a little Sal Volatile. This will promptly remove the swelling and inflammation. Ten cents worth will do.

The Bell Island excursion party to the number of over one hundred, arrived by the S. S. Euphrates yesterday morning. The day was very disagreeable, but the lads and lasses from the Iron Island no doubt enjoyed their visit; a dance in the night added to the amusement.

The Japanese Garden Party, postponed yesterday, is being held to-day in Bannerman House Grounds. To-day is delightfully fine and our townspeople will have a most pleasant evening. The party is held by the ladies of the Presbyterian Church.

Struck a Sail Boat.

As Messrs. J. Scurry, J. Molloy, E. Atkins and R. Clare were enjoying a sail down the harbor yesterday a steam launch crossing from the South Side, crashed into their boat and came near sinking her. There was only one man in the launch, and he was below at the fires when the men in the boat who had not time to get out of the way yelled to him, but he evidently did not hear. Atkins, fearing the boat would go under, jumped on board the launch as it sped past, and the others hurriedly made for the shore in their boat which was not badly damaged.

Dean of Norwich Denies That He Is Intemperate or Ever Contracted a Morganatic Marriage.

London, June 20.—The Dean of Norwich yesterday made a remarkable address in a church near Norwich, in which he referred to King George as "a man to my personal knowledge of intense self-sacrifice and of high character." He then mentioned "two accusations, brought, as I think, by that part of society which is no society at all, firstly, that the King is sometimes accused of inebriety. You may take me on undoubted authority that it is a libel. So far as his close friends have noticed him, he is a man who ever, from the point of view of health, has to be abstemious. He does not desire to be anything else.

"The accusation is still more unworthy, that prior to his marriage to the present Queen he had what is called a secret or morganatic marriage, with children by it. That is absolutely, root and branch, an untruth. The King is a man, who, with

a wife of like disposition as himself, has been wont during his leisure to sit in his garden with his young children around him just the same as any of us might."

The King and Queen to-day visited the vault in St. George's Chapel, Windsor Castle, where the body of King Edward is interred.
