FINANCING MILLIONS.

THE SYNDICATE'S PROSPECTS OF FLOATING THEIR STOCK.

The money, what it is wanted for, where it is to be raised, and how it is to be raised, are the questions that are being asked by the public.

But for all that can be learned it would appear that the syndicate of Amsterdam bankers are willing to take a good many millions. But they will not give more than sixty cents on the dollar for it, and they have a certain number of days wherein to accept or refuse.

For instance, many years ago they did the London banking house of Glyn, Mills, Currie & Co., were the largest Grand Trunk stock. Their judgment was that the stock would not pay. But they were forced to float it or lose the Canadian account. They chose to float it, and in their host of friends.

But if the Dutchmen do not want to take the syndicate bonds at 60 there are some American houses who will take them at a lower figure. So there is considerable likelihood of the syndicate raising the money.

As to what the syndicate has done with the money, they get it in the amount of money they get in. They use it to push up their enterprise; that is the main thing. Let us then pray that they get it, and from outside at that, after the amount of Ontario and Quebec capital looked up in unproductive investment there is death of duca in the land.

La Belle Russe. Manager Comber has been fortunate enough to secure for appearance at the Royal opera house next Tuesday, and Wednesday, with a matinee on the latter day, Miss Jeffrey Lewis.

La Belle Russe was a treat. While the play is powerful, the music is surprising, and the management is sane and agreeable nature. Those who had seen Miss Lewis in time past, and who remembered the vigor of her performance, were not taken back with the powerful impression she made on her audience; but the play itself was a sort of revelation, because she had brought with her a past, for a series of the so-called melodramatic and sensational, and hardly expected to witness something which appeared more of an hereditary. In this case not only a sense of seeing and the art of fashion in dress-making.

SATURDAY MORNING JANUARY 20, 1888.

WHAT GEN. SPENCER SAYS

ABOUT THE FRAUDULENT STATE BONDS CONTRACT.

Mr. Spencer, the former member of the House of Commons, has been speaking at a public meeting in Toronto on the subject of the fraudulent state bonds contract.

He said that the contract was a gross fraud, and that the government had been deceived by the contractors.

He also said that the contractors had been guilty of a gross fraud, and that the government had been deceived by them.

He concluded by saying that the government should take steps to prevent such a fraud from occurring again.

ST. GEORGE'S SOCIETY.

Annual Meeting Last Night—Reports and Election of Officers.

The annual meeting of the St. George's Society was held yesterday evening at the hall in Louis street.

The reports of the officers were read, and the election of officers took place.

The meeting was a successful one, and the officers were elected for the coming year.

The meeting was held in a large hall, and was attended by a large number of members.

LANGTRY IN ST. LOUIS.

FREDDIE COMES INTO COLLISION WITH A NEWSPAPER MAN.

A challenge to Freddie Langtry to a prize fight with a newspaper man was made in St. Louis.

The challenge was made by a newspaper man who was angry with Langtry for some article he had written.

Langtry accepted the challenge, and the fight was arranged for a date in the future.

The fight was expected to be a very interesting one, and was followed by a large number of people.

WORLD OF SPORTS.

THE BELLEVILLE-COONING MATCH.

The Belleville-Cooning match was held yesterday afternoon at the Woodstock district.

The match was a very close one, and was followed by a large number of spectators.

The match was held in a large field, and was attended by a large number of people.

The match was a very interesting one, and was followed by a large number of people.

CONSPIRACY IN FRANCE.

HUGE PREPARATIONS FOR A REVOLUTION.

There are reports of a conspiracy in France, and of huge preparations for a revolution.

The reports are that the conspirators are preparing for a revolution in the near future.

The reports are that the conspirators are preparing for a revolution in the near future.

The reports are that the conspirators are preparing for a revolution in the near future.

IRLAND'S CONDITION.

AN ADDRESS BY EARL SPENCER—The Marquis of Hartington.

An address by Earl Spencer and the Marquis of Hartington was given in London on the condition of Ireland.

The address was a very interesting one, and was followed by a large number of people.

The address was a very interesting one, and was followed by a large number of people.

THE NEED OF A NEW COURT HOUSE.

Probably between one-fourth and one-third of the whole number of cases tried in Ontario by the judges of the high court of justice are tried at the old court house on Adelaide street.

PROVINCIAL STATISTICS OF INDUSTRY.

The St. John (N. B.) Sun, after quoting a report to the effect that Manitoba is about to follow the example of Ontario in establishing a regular system of crop reports, says: "Here is an example for imitation, in part, by our own province."

THE FISHERY QUESTION—DATES TO BE REMEMBERED.

We have already drawn attention to the fact that in the United States Senate a motion requiring the president to give notice to Great Britain on the second day of July next to terminate the existing fishery arrangements, had been referred to the committee on foreign relations.

HOW COAL PRICES ARE MADE.

We find the following in Luard's Coal Trade Journal (New York) of a recent date: "The Toronto coal dealers have resolved to occur in the action taken by the western shippers, at their last meeting in New York, in making prices for the Toronto market, and to maintain such prices, viz: \$6 75 per ton delivered; \$5 25 per ton in yard; and \$5 00 per ton by carload, on cars, for all sizes of anthracite coal; and that the coal producers be respectfully asked to make prices for this market from time to time in future; and also, that the coal producers, refuse to supply coal to any dealers failing to maintain such prices and who will not agree to do so at time of purchase."

THE NORTHWEST AS A WHEAT COUNTRY.

It may well be doubted whether there are in all Canada two men better qualified than the brothers Ogilvie, of Montreal, to judge of the capabilities of the Northwest as a wheat producing country. In the milling business they have had long experience, and on a very large scale, and from the very opening of the new era in the Northwest they have paid special attention to the wheat trade there in its smallest beginnings.

grain is stacked in such a manner that it keeps perfectly dry under the heaviest rains. The western fall in Manitoba would be a month compared with what they have in the old country sometimes.

We learn from the Gazette that Mr. W. W. Ogilvie, who has recently returned from an extended business tour in the Northwest, has opened up twelve wheat stations on the new extension of the main line of the Canada Pacific railroad, along which towns are springing up on each side almost as fast as the rails are laid. An important feature in the above railway enterprise is the fact that already the line has been opened far enough to divert a good deal of the Montana trade to Winnipeg.

THE GREAT GERMAN REMEDY FOR RHEUMATISM.

It looks as if still another fight for life will have to be made by the French Republic. There is probably some fire beneath the smoke of rumors of a legitimist rising in the west of France. The government can not afford to treat with contempt actual or rumored attempts upon its authority, and Prince Napoleon was not arrested a moment too soon. If it be not prompt and firm as the occasion demands the streets of French cities may run with blood ere long.

REASON FOR PREFERRED THE ETNA LIFE INSURANCE CO.

BECAUSE it is a strong stock company. It has \$7,500,000 capital stock fully paid up.

BECAUSE it has a large surplus fund than most other companies in proportion to the liabilities.

BECAUSE the cost of insurance is less in the ETNA than in most other companies by reason of its better organization, its more economical management and the safer and more profitable investment of its funds.

BECAUSE the ETNA has no speculative plans of insurance by which a policy-holder is induced to hope for profits from the forfeiture and loss of one less fortunate; nor has the company been subjected to extravagant expenditures by reason of such speculative plans and forfeitures, but has protection and an investment, not for a speculation or a forfeiture.

BECAUSE no poor man can lose a dollar of the money paid, through inability to continue, after he has paid two, or at most three years, on the present ordinary participating rates. In most other cases, the loss is a heavy one.

BECAUSE on all "with profits" or ordinary participating rates, both Endowment and Life, a Cash Dividend is regularly made every year, applicable to the reduction of twenty successive years.

BECAUSE by the large accumulation of funds, and economical management, it attracts the very best lives—those looking for a good investment, and likely to live to old age. Poor lives are not interested in getting into a durable company.

BECAUSE farmers, clergymen, lawyers, doctors, merchants, brokers, tradesmen, mechanics, business drivers, editors, miners, &c., in some companies, but in each engaging permanent experience in the business.

BECAUSE the rates are lower than in most companies—its stock rates a lower than those of any other company doing business in Canada; and every such policy contains a clause showing its superiority, which is good for in case of inability to continue payments.
