## 105th ANNIVERSARY ODDFELLOWSHIP

Present Lodge Celebrated Occasion on Sunday Lately Attended— Oddfellows Addressed by Rev. J. H. Freestone in United Church.

On Sunday last the Oddfellows and Sisters of the United Church rendered the Rebecca parade for their annual church service to the United Church, Bridgetown. There were quite a few visiting members from Middleton and other places. As the parade marched into the church, Mrs. A. R. Bishop, the organist of the United church played a suitable organ voluntary, as indeed she did upon their retirement. The service opened with the singing of the hymn, "All Hail the Power of Jesus Name." The Pastor of the church led in prayer. The choir of the United church rendered the Anthem, "Oh, How Lovely" very acceptably, the solo parts being taken by Miss Ruth Burns and Mr. Harold Price. The parable of the Prodigal Son was read as lesson after which the Rev. J. H. Freestone sang a solo, "Watching your Light." The congregation joined in the singing of "Onward Christian Soldiers." During the offertory, Mr. Ross Bishop started the gathering with a splendid violin solo with organ accompaniment by Mrs. A. R. Bishop. The sermon was delivered by the Pastor of the United Church, Rev. J. H. Freestone from Mark, ch. 15—verses 27, and 28, and was listened to with marked attention. The speaker emphasized service as the test of real life and drew interesting deductions appropriate to its application implied in the principles and work of Oddfellowship. The church was well filled with worshippers nearly the entire center seats being occupied by the officers and members of the order of whom nearly a hundred were present. The floral decorations in the church were very handsome and effective.

## WISH BRIDGETOWN IN NEW BASEBALL LEAGUE.

Major Walker of Yarmouth, Dr. McCreagh and other representatives of the Kentville and Yarmouth baseball teams met here last evening with local baseball enthusiasts to discuss the matter of Bridgetown entering the new league proposed to be made up of Halifax, Kentville, Yarmouth and Bridgetown. A proposition was made by the visitors to guarantee deficits which Bridgetown might incur during the season up to \$500. The matter was discussed pro and con at length and will likely be fully decided upon shortly after we go to press. The big questions are financing and public support. With these satisfactory it is expected to make the new venture a go. Guarantors are being secured against a possible deficit to be met in the autumn. Those enthusiastic on the question do not expect any deficit to occur or at the worst but a small one.

## SCHOOL TEACHERS FOR JANITOR'S JOB.

Saskatoon, Sask.—The Rosthern, Sask. School Board has decided to retain the school janitor at \$1,200, as a result a number of the teachers have entered applications for the janitor's job.

## CONCERT OF MRS. CHADWICK'S SINGING CLASS FINELY RENDERED

By an oversight we quite omitted to record in our last issue the concert given in the Bridgetown Court House on the evening of May 1st, by Mrs. Chadwick's Singing Class. The stage presented a most delightful picture. In the front a profusion of potted plants (kindly loaned by Mrs. E. R. Orlando) were tastefully arranged, behind which the class, dressed in white, was grouped, the whole being backed by a display of flags. Part I consisted of a miscellaneous program of vocal and instrumental music, every number of which was enthusiastically received. In fact, judging by the applause, the audience would have liked a repetition of several of the numbers, and for the songs by Mrs. Ruggles and the piano solo by Miss E. Daniels, they were not to be denied.

Part II was a rendition of Thomas Faer's cantata "Greeting the Gypsy Queen," and we would that all our readers could have heard this pleasing little work as interpreted by this class. Like the two-part songs in Part I it showed consistent and persistent work. In attack, shading and finish the twenty-seven voices were as one, and it must have been very gratifying to all concerned (and especially to Mrs. Chadwick) that the seasons' work culminated in such a result. The chorus "Gaily Trip we the Lightsome Dance," was particularly effective.

It is much to be hoped that this, or a similar class, will be arranged next winter or, better still, that a full four-part class might be formed with orchestra accompaniment and some suitable work undertaken. We believe there is ample material for such in our midst, and the concert just given shows what it is possible to accomplish by steady and painstaking work.

## ANNUAL MEETING CLARENCE CHURCH

Largely Attended And Much Enjoyed. Thirty-One Baptized—Mother's Day Observed—Trail Rangers Outing.

Paradise.—Mother's Day was observed in Paradise, May 11th, Rev. W. S. Smith preached from the subject, "The Oldest University—The School at Mother's Knee." The floral decorations were beautiful. Special carnation bouquets in memory of Mother's Day were provided by Mr. and Mrs. H. W. Longley, Mr. and Mrs. Frank Balcom, Mr. Ernest Balcom and sons, Misses flowers, daffodils and lilies among ferns and other potted plants also spoke lovingly of Mother. At the close of the service twenty-five new members received the Hand-of-Fellowship. Special Mother's Day music was provided by the choir. The service was largely attended.

Mother's Day was otherwise made memorable here this year when instead of the afternoon service, at W. Paradise the service of Baptism was performed in the waters of the Paradise Brook. Pastor Smith had the happy privilege of burying in baptism thirty-one converts who thus publicly expressed their desire to live the life of a believer in Christ and a follower of Christ. Others who have been accepted by the church will be baptized at a later date.

The annual meeting of the Paradise and Clarence Baptist church was held Monday afternoon and evening, May 5th. Reports read in the afternoon from the different societies were most gratifying. A well provided supper was served in the vestry by the Paradise ladies.

Rev. Robert Allen of Nictaux addressed the evening session on the subject of "The Service of Humility—by Christ and for Christ." Mr. Allen's message made a deep impression on the hearts of those present. A new feature of the evening service was an address of appreciation by the Pastor to the presidents of the various societies, the presidents of the Paradise societies being called upon to respond. The good weather, the excellent roads and the large attendance all helped to make this year's annual church gathering one of the best yet.

Rev. Edward Morris of Halifax, official organizer of the Orange Association in Nova Scotia and Prince Edward Island, spoke in Longley's Hall, Tuesday evening, May 6th. Mr. Morris is not only an eloquent speaker but is thoroughly conversant with the work which he represents. To hear him is not only a privilege to be sought but one which no intelligent community can well afford to miss.

The Trail Rangers of Clarence, accompanied by their pastor, W. S. Smith, spent the day of May 10th at the Paradise Lake and surrounding vicinity, where some very fine trout were landed by the party. A big feature of this yearly outing, which Mr. Smith has taken now for three years with S. S. boys of Clarence is the noon day lunch. In view of some healthy appetites and some grown-up habit of forgetfulness, a generous provided lunch comes in handy.

Mr. McNutt of Digby, piano tuner, was here recently, when he tuned several pianos and made much needed repairs on the church organ. Friends from Clarence, Bridgetown, Lawrenceville, Middleton and elsewhere, visited here on Sunday and attended the baptism. Some also attended the evening preaching service.

Mrs. Stewart Kinley and little daughters of Windsor are guests at the home of Mr. and Mrs. J. S. Longley.

Rev. J. Hadden Balcom is in Boston. (Continued on Page Four)

## OBITUARY.

**Edward A. Craig.**  
On Friday about midnight death removed one of the oldest and most esteemed citizens of the town, Mr. Edward A. Craig. Mr. Craig had been confined to his room for some months past and the end was not unexpected.

He leaves to mourn their loss, wife, three sons, Earle and Lorne of Boston (the latter the sole surviving member of family by his first wife nee Amanda Morse of Bridgetown, who predeceased him many years ago.) James at home, two daughters, Miss Ethel, teller in the Bank of Nova Scotia Branch in Bridgetown, and Miss Kathleen of M. W. Graves and Co's. office staff. A son Percy, by his first marriage was in the Imperial force and died as a result of service for his country.

The late Mr. Craig at the time of his death was seventy-three years and six months of age. He was born at Morristown, King's County and his father, Wm. Craig a native of Ireland, taught school in King's County for many years, and there married Miss Mary Tupper, first cousin of the late Sir Charles Tupper, a former premier of Canada. Of a family of eight James, Thomas, Edward, Will, Mrs. C. L. Hilsley, Mrs. Wm. Connell, Mrs. John H. Webster and Mrs. John Caldwell, the late Mr. Edward Craig was the last surviving member.

He came to Bridgetown as a young man and has since continuously resided here. He was associated with his brother Will for years in the Bridgetown foundry, and later conducted a blacksmith and general repairing shop. In 1911 he was appointed Customs Examining Officer, which position he filled till serious illness intervened.

A public spirited citizen he took an active interest in all matters pertaining to the good of the town and for some years served at the Council Board.

He was for a long time Financial Secretary of the Independent Order of Foresters and was a man who enjoyed a high degree of popularity and esteem.

Twenty-six years ago last February he was united in marriage to Miss Annie Kelly of Lunenburg and his surviving children with one exception are of that union.

The funeral took place at 3:30 on Tuesday from his late residence and was largely attended. Services were conducted by Rev. W. S. Smith of Paradise and interment was in the old Morse Burying ground where his first wife, nee Amanda Morse was interred.

Mrs. Andrew Hardwick.  
Annapolis Royal.—The very sudden death occurred at 3 o'clock Thursday morning of Mrs. Andrew Hardwick, widow of the late Andrew Hardwick, who was Post Master at Annapolis Royal for twenty-seven years.

The deceased, who was formerly Miss Nettie Lockwood, of Kings County, was over seventy years of age. She had been in failing health since the sudden death of her husband in January, but the end was entirely unexpected. During the night she called to her son, and asked for a drink of water, and on returning with it he found that his mother had passed away.

Mrs. Hardwick is survived by two sons—Harold of Halifax; and Richard, who returned from Boston about six months ago; also her sister-in-law, Miss Sarah Hardwick, who has been Assistant in the Post Office for a long period.

KENTVILLE ROTARY.  
\$500 Assured For Publicity Bureau—Plans for Boys' Work.  
Kentville.—The weekly luncheon of the Rotary Club was held at Cornwallis Inn Thursday, with a representative attendance. F. H. Sexton, principal of the Technical College, Halifax, was the guest and speaker of the day. Fred Miller presided.

## BRIDGETOWN HIGH WINS FIRST MATCH

Defeats Berwick 7 to 2 Saturday Afternoon—Good Game, Visitors Lead Till Near End of Sixth Inning.

The High School Baseball League got away to a good start on Saturday afternoon when the local team met the Berwick boys here and Middleton High played Annapolis at the latter place. Middleton won handsily at Annapolis and the Bridgetown boys also won their contest with a good margin though for the first six innings its looked like anyones game.

Lockett in the box was in good form and retired a big bunch by the strike-out steady ball and fooled the local boys many times. The game as a whole was snappy clean ball and a credit to the boys for the opening of the season. The only really regrettable feature was the very small attendance of local people. Berwick visitors made up about two thirds of the gate.

Our High School boys have a good playing bunch and are worthy of full support. We have no doubt that they will receive it in future as they further demonstrate their ability to give the public a good exhibition of ball.

Berwick scored two runs in the second innings and Bridgetown one. From then on till the sixth innings neither team scored and players were retired on both sides in one, two, three order.

In the sixth the local boys got on a batting streak and evening the score went one better. Timely well placed hits by Fay and Mack contributed to the result largely. Piggott and Fay did some good sweating in the seventh and three more runs were tallied. Lockett's run in the eighth ended the scoring, leaving the local boys on the long end of a 7 to 2 score with an inning to spare.

A little misunderstanding arose from the fact that Bridgetown played one boy from Grade 7 in the game. The rules as drawn up had nothing against this procedure, in fact, we learn that it was more or less understood that any boy registered and attending school before May 1st, was entitled to a position on teams if his skill as a player warranted putting him on, the idea underlying being to develop as early as possible all good baseball talent in the respective departments.

## THE COUNTRY INN.

Montreal's new Mayor says the "Gazette" struck the nail squarely on the head when he said that what Quebec needed was good roads and not necessarily large hotels, but good ones. For thus will the freshest of tourists yearly swell into a flood.

The Mayor, we make bold to assume, belongs to that vast and hitherto neglected majority which prefers peace, comfort and good cheer to the riot and specious luxury of the modern caravanserai. He knows, no doubt what any one of good taste should know, that the small hotel is often the most acceptable. For here one is spared the company of the reckless spender, the loud and aggressive holiday-maker and the man who lives by his wits. The old inns of the English countryside (fifteen or twenty miles apart, according to the post stage of Georgian days), are vastly more attractive to American tourists of good taste than the most expensive palaces at a fashionable watering-place. With the automobile, they have come into their own again.

In Canada, it true, there is no old posting system to resuscitate. To guarantee here to American tourists of good taste (and there are millions of them just across the border) the service which they would most desire, we should build at every likely spot a comfortable, quiet and unpretentious hostelry. In the past we have catered too little for this class. Yet this is the class from which the best tourist is drawn. Such people return year after year, helping to enrich the countryside and promote the fellowship of nations.

Even if all this were not so, still would there be reason to sprinkle our Province here and there with comfortable inns. In this country we do not walk for pleasure, as those without automobiles do in the Old Country; yet who is to say that we would not, if there were the places to walk to? And what doctor is there who will not tell us that we do not walk enough? It is not everyone that can afford a car or the membership fees of a golf club.

The above is worthy of consideration by the Nova Scotia Publicity Bureau. There are many wholesome trusts in it—Acadian Recorder.

## HOW TO GET THE TAXES DOWN.

Perhaps the brightest side of the taxation situation is the growing appreciation by the public that lower levies must necessarily be accompanied by less spending. Boards of Trade are usually calling on the various governments for local improvements to be financed out of the public purse, are leading the present campaign for retrenchment. Newspapers throughout the country are showing a desire to educate public opinion as to cause

and effect in taxation. The Calgary Herald declares that "the members of the legislature should hear from us people in their constituencies, not in the form of requests for new services, but in the form of demands that the members support an economy program."

Politicians have for years worked on the principle that the way to get votes is to spend money—to get their hands into the "pork barrel." When the people bring it home to these same politicians that what they want is less spending and lower taxes and that they will cast their vote accordingly a real improvement in the situation may be looked for.—Financial Post.

## NEWFOUNDLAND'S PULP SCANDAL.

Sir Richard Squires, ex-Premier of Newfoundland, has been visiting Canadian cities, and at the same time there have been despatches from St. John's announcing the intention of the present administration of the "oldest colony" to prosecute him and some of his late colleagues for malfeasance in office. Many Canadians are in the dark as to what the scandal is about. Enlightenment comes from a recent editorial in the Chatham (N.B.) "Gazette."

A probe which has been in progress at St. John's shows that during the Squires administration, the Minister of Fisheries Sir William Coaker, went to New York with the purpose of selling pulpwood on government lands. With the consent of his Premier, Sir Richard Squires, he disposed of 70,000 cords of pulpwood at \$5 to \$7 per cord according to quality. The government undertook to pay the cost of cutting and bringing out the pulpwood which amounted to \$14.65 per cord. The loss did not end there; for the New York purchasers refused to accept delivery on the original terms and finally got the wood at \$2 and \$3 per cord. Thus it cost the people of Newfoundland approximately \$1,250,000 to sell 70,000 cords of pulpwood. Of this vast sum the New York purchasers got the benefit without one copper of risk or preliminary investment for production on the island.

When such things happen the general public is apt to suspect a nigger in the wood pile. We are not sufficiently familiar with the party names in Newfoundland to know whether the Squires administration was what is known in Canada as a "Progressive" government; but it is plain that they had little to learn from Ontario "Progressives" on the subject of how to squander the public revenues without return.

The Chatham "Gazette" regards the whole episode as a very good argument for pulpwood embargoes in Newfoundland and Canada. It states that refusal of delivery by American mills in order to force down the agree-

ed price is an old trick. It states that millions were lost about 1920 by New Brunswickers through this same method. Acceptance was refused to thousands of cords of pulpwood contracted for in black and white; which had been cut and peeled at high expense to the vendors. In those cases, however, the bargains originally arrived at were not deliberately imprudent as was the Squires-Coaker transaction; under which at the very outset the government agreed to make a present of hundreds of thousands of dollars to New York buyers.—(Saturday Night.)

## EUROPE COMING BACK.

Wall Street Journal: As regards Europe, there is not a shadow of doubt that it is on the threshold of a great revival. Signs are not wanting of the turning point. Austria, apparently the most hopeless insolvent has been placed on her feet again. The economic demoralization of Germany has been arrested. France has called a halt on her unwise loan program. Italy is surprising the world by her masterly management of her finances. Not even a Labor Government in England can affect the stability of her time-honored institutions.

## USE AND ABUSE OF THE FILM.

London Chronicle: The danger of the cinema is that its uses should become stereotyped; that it should fall into the hands of a particular kind of producer who establishes conventions of his own, and believes that he is giving the public what it wants. Generally he is not. He is giving the public what he has accustomed them to look for. They have no choice. For that reason it is most important that the practice and art of the films should not be appropriated by a few types of producer, but should be cultivated by others who are prepared to explore new ground.

## SINGAPORE.

Detroit Free Press: That the opponents of the Singapore enterprise are not altogether easy in their minds about the correctness of their position seems to be suggested by the manner in which some of the representatives of the Liberal party went out of their way to contend that the construction of a far eastern naval base would violate the "spirit" of the letter of the Washington agreement. Since neither the United States, nor Japan, nor France has objected to the fortification of Singapore on any ground, and since the port lies definitely outside the territorial limitations of the treaty, the argument sounds like a subterfuge rather than like a sincere expression of belief. Indeed, it might be rather to the advantage of the United States than otherwise if the British were to fortify Singapore.

## SLAVES OF FORMULA.

London Morning Post: The open sesame to power in these days is not a programme, but a phrase. A rattle wins the attention of an infant and some mystical combination of words, brief, resounding, and meaningless, attracts and subjugates the children of democracy. We have free education, but at the same time we have enslaved minds. Whatever else democracy has done, it has not destroyed the fascination which absurdity, whether it be expressed in words or symbols, has for the average human being.

## EXAMPLE OF STATE MANAGEMENT.

Westminster Gazette: Had Wembley been a commercial undertaking directed by men concerned to see that their stakes in it were not wasted, there would have been no occasion to complain of inadequate publicity, nor for public anxiety whether the project can be carried through by the appointed date. The British Empire Exhibition has been a very instructive commentary in State management on a large scale, and the Labor Party might with advantage turn its attention to the moral to be drawn from it.

## BUT BRITAIN PAYS.

Springfield Republican: In striving to devise new and more efficient methods of transferring the earnings of one nation to the people of another they are grappling with one of the most difficult and puzzling problems of modern civilization. Some years before the war the English pacifist, Norman Angell, in a book entitled, "The Great Illusion," took the ground that the problem was insoluble and that therefore war had ceased to be a profitable industry. His conclusions were vehemently attacked by the militarists in all countries, but the question was still unsettled when the war came and the difficulties raised since the war by the derangement of international exchange have to some extent strengthened his argument. Debts on such a scale cannot be paid in gold, and paper money is useless, while the transfer of commodities on an abnormal scale presents difficulties of various sorts. Whether the debt is a war indemnity or merely the result of money to prosecute a war, the question of payment presents grave technical difficulties. Only small wars can be made profitable in the old sense.

## ORDER IN SPAIN.

London Times: Spain is governed by a Directory which is clearly sincere in its aim and which makes not the slightest pretence of disguising its will or its desires in the forms of Parliamentary procedure. Spain has not suffered from the change. The Directory, being obviously human, has made mistakes, has failed in some respects to appreciate inevitable intricacies and complexities in the conduct of public business. The necessary adjustment between order and freedom has not on every occasion been wisely made. Certain arrests and imprisonments have been of a nature to cause misapprehension and disgust. On the whole, however, the new regime in Spain compares very favorably with those that have preceded it.

## BRANCH LINES ARE NECESSARY.

Sir Henry Thornton's Statement Before Railway Committee of Commons.

Ottawa.—Sir Henry Thornton appeared before the Railway Committee of the House of Commons today to make a statement on the branch lines bills. "In no way," declared Sir Henry "was the preparation of the branch lines program influenced by any member of the Government or for any political reasons."

The Bills, said Sir Henry, represented the considered opinion of the directors of the Canadian National Railways, of himself, and of the officers of the company consideration being given to the following points:  
(1) The money already spent on various branch lines and the work thereby done.  
(2) The strategic economic traffic value of each branch.  
(3) The measure of relief afforded to farmers through the shortening of the road haul on grain and other products.  
(4) regard to the aggregate amount of money which the Dominion presumably had to spend on branch lines.

"LET US DO IT OURSELVES," IS THEIR MOTTO.

Maritime Development Association Aims at Bringing Maritime People Back Home.

St. John.—"United we stand, divided we fall." "All for one and one for all," and "Let's do it ourselves," seem to be the mottoes of an institution which has been built up through the action of the Maritime Board of Trade and which within a few days will be incorporated and known as the Maritime Development Association according to Colonel Robert Innis, of Ottawa, secretary of the Maritime Board of Trade committee appointed for the purpose of organizing the institution.

A meeting will be held within the next few days when the matter will be gone into thoroughly, and by that time it is expected that practically all of the influential business men of the three provinces will have become interested.

The proposed association plans to work for the good of the Maritimes—always. It will work along colonization schemes, but particularly its forces will be directed to re-colonizing the Maritimes with Maritime people who have migrated elsewhere. Col. Innis will address a meeting of the Maritime branch of the Canadian Manufacturers Associations in Moncton this week.

A meeting of the Maritime members of Parliament was held in Ottawa last week, when the matter was placed before them and Colonel Innis says they are now considering the proposition.

## OIL FOR THE STREETS.

Last year's experiment with oiling the streets clearly demonstrated that for dust laying oil is the only thing. For years we suffered with the dust nuisance, in spite of all that could be done to lay the dust by means of watering carts. But last year we enjoyed complete freedom from dust on the streets where the oil was laid. The oil did more than lay the dust; it held the street material together, prevented the autos from sucking it up and having it blown to the four winds. The oil paid for itself in saving wear and tear on the streets. What is accomplished in dust laying was pure velvet.

At last evening's meeting Messrs. H. S. Hamilton and J. A. Fisher urged on the council the consideration of using the oil again this year. Some of the councillors favored the oil but Mayor McEachern and Chairman Hugh Sutherland seemed to think it was too expensive. The mayor thought that the salt water should be tried. Salt water will never lay the dust and if used at all freely will cost as much as the oil. Formerly, Coun. Brennan tells us that wherever the salt water touches the finish on the wheels or other parts of autos it will leave a permanent stain. This matter of oiling the streets will be considered by the council again on Monday night. We think that all interested in clean streets and comfort should urge on their representatives in the council the use of oil. It has been proved that it is the only solution to the dust nuisance and by virtue of its binding qualities is a road preserver and builder. We do not want to go back to the old days when dust polluted the whole town and spread disease and discomfort everywhere.—Picton Advocate.

FRANCE IS NOT VERY HOPEFUL.

Paris Papers Do Not Believe Germany Will Carry Out Reparations Plan.

Paris, France, if today's press correctly interprets her attitude, sees in the result of the German elections a falling out of hope for early fulfillment of the Dawes-Young plan.

The Paris morning papers declare the outcome, with gains registered by the German Nationalist party, renders some of fulfillment illusory, although none expect open resistance.

Mr. Edmund Clark near Annapolis Royal reached his one hundred and second anniversary on Monday, May 5th and as ever received many expressions of good will from far and near, his son Mr. Adam Clark being present to join in congratulations, other far away relatives were unable through distance and other causes to be present.

We understand Mr. Clark still retains remarkable vigor of body and mind and enjoys the true light which alone can comfort and support in life's decline. To our aged friend as well as to those who so faithfully and tenderly care for him we extend our heartfelt good wishes.

MIDDLETON LIVES PROMINENT CITIZEN

Late Samuel Legg, Aged 86, Lived Twenty-One Years in Each of Three Places.

Middleton.—The death occurred here suddenly Wednesday morning of Samuel Legg at the age of 86 years.

Mr. Legg was born in Halifax, Feb. 2nd, 1838. He lived there for 21 years and then moved to Berwick, King's County, where he married and lived for another twenty-one year period.

Removing to Bridgetown, Annapolis County, he spent another twenty-one years.

He came to Middleton, twenty-three years ago, where he has lived ever since, an honored and highly esteemed member of the community. He was a Justice of the Peace for many years for Annapolis County, as well as Stipendiary Magistrate. He also served in the latter capacity for the Town of Middleton since its incorporation in 1898.

He was a Methodist in religion, and a staunch Liberal in politics. He was a man of highest integrity. He was predeceased by his wife several years ago and has since resided with his only son Frank, and daughter-in-law. He also leaves two daughters who are married in Boston.

EFFORT WELCOMED ELSEWHERE

Cities and Towns through the Maritimes have been experimenting in recent years with the application of oil to the streets as a means of greatly reducing or eliminating altogether the dust nuisance. The towns of Pictou and Digby clearly demonstrated that for dust laying, oil is in a class by itself.

In a shoemaker's window, for example, is found the pointed question: "Don't you wish you were in my shoes?" while outside a builder's establishment is inscribed: "I send innocent men to the scaffold."

Witty, too, is the frank announcement, which graces a lawyer's office in a state town: "I study the law—an the profits." But the undertaker who stated: "There are no complaints from my customers," has beaten the lot.

HILLY NOVA SCOTIA FARMS BEING DESERTED.

Agriculture Advised to Turn to Dairy Products, Leaving Beef Raising.

A survey of agricultural conditions in Nova Scotia, will in general, establish the fact that during the past quarter of a century a considerable number of farms have been deserted. It will be found, however, that in the main these are farms which were cleared by the early Scottish settlers, who coming from the Highlands of Scotland, sought corresponding hilly areas in Nova Scotia and made homes for themselves on lands which while capable of providing a living, were not sufficiently fertile to provide much more than that.

A like condition has existed in the Eastern States of America. Any writer, therefore, seeking to present the dark side of agriculture in the East could find considerable basis for his views by presenting figures in respect to abandoned farms. On the other side it will be found that in the main, progress has been and is being made in the valleys and what might be termed lowlands of Nova Scotia.

It will also be found that many who are trying to present the adverse side of agriculture are pointing to the fact that the market for beef is much less favorable to the farmer than it was even a decade ago, for under present conditions a farmer finds it almost impossible to get a market for his beef.

However, this is the case where, according to the best authorities, farmers are trying to persist in carrying on a type of farming in which Nova Scotia cannot successfully compete either with Western Canada or with such foreign countries as the Argentine Republic, where grain is grown in much larger quantities than in the East and where consequently, high-class beef can be matured more cheaply.

In this connection it is worth noting that even in Ontario and the Prairie Provinces farmers are finding it increasingly difficult to make money out of beef because when they come to export they find they cannot produce beef as cheaply as say the Argentine Republic. The result is that annually more and more farmers in Ontario and all the western provinces are turning from beef raising to dairying.

The fact, therefore, that beef raising has lost ground in Nova Scotia, does not establish any decay in her agriculture, especially when it appears, that, as beef raising has fallen off, dairying has developed.

FREIGHT TRAFFIC AT ATLANTIC PORTS

Number of Tons Hauled in and Out of Halifax, St. John and Portland.

Ottawa.—In reply to a question by Dr. MacLaren, a return has been presented showing the number of tons of freight hauled in and out of Portland, St. John, and Halifax, and by the Canadian Pacific in and out of St. John in the year 1922 and 1923. The figures are as follows:

Canadian National. Portland—1922 in 787,739; out, 121,658; 1923, in, 810,467; out, 121,879.

Halifax—1922, in 595,598; out, 164,786; 1923, in, 492,210; out, 106,755.

St. John—1922, in, 392,151; out, 159,433; 1923, in, 381,642; out, 161,123.

On the Canadian Pacific at St. John the freight received in 1923 was 798,033, and shipped was 373,929; in 1922, received, 929,882, shipped, 393,107.

COST ESTIMATED AT \$3,500,000. BEAR RIVER CHERRY CARNIVAL, JULY 24.

The Line is to be Completed by 1926 —Branch Line Also Between Lockport Station and Town of Lockport.

Ottawa.—Sir Henry Thornton, President of the Canadian National Railways, again appeared before the Railway Committee of the House this morning, on the Canadian National branch line bills. He was questioned on the proposed branch line from Sunny Brae to Guysboro, N. S.

This line is to be 67 miles in length. Its estimated cost is \$3,500,000. No construction is proposed this year, although final surveys are to be made. It is proposed to do the grading next year and to complete the line in 1926.

The idea, said Sir Henry, was to open up a district for the lumbering industry and for agricultural products. The line was merely carrying out a plan originating some years ago.

Two colored fellows were standing discussing family trees. "Yes, sub," said Lem. "I can trace back to a family tree."

"Chase 'em back to family tree?" said Bill. "Naw, boy, trace 'em, I said."

"Well dey ain't only two things dat lives in trees," said Bill.—Birds and monkeys and you sho' ain't got no feathers on you."

TOO MANY HOME CARES

One Reason Why so Many Women Are Weak and Run-Down.

The work of the woman in the home makes greater demands on her vitality than men realize, and there is always something more to do. No wonder women's backs ache, and their nerves are worn out.

A woman with plenty of healthy red blood in her veins finds work in the home easy; her vitality is at par. This points the way to health in women who feel run-down and depressed.

The answer having the largest and nearest correct list of words is awarded FIRST PRIZE, and the answer having the next largest and nearest correct list will receive a cash prize of \$100.00. 8. Collaborators may co-operate in answering the puzzle, but only one prize will be awarded to more than one household; nor will prizes be awarded to more than one of any group outside the family, where two or more have been working together. 9. All answers will receive the same consideration regardless of whether or not a subscription for either The Morning Chronicle or Evening Echo is sent in. 10. There will be three independent judges, having no connection with The Morning Chronicle or Evening Echo who will judge the answers submitted and award the prizes at the end of the puzzle game and participants by sending in their list, agree to accept decision of the judges as final and conclusive. 11. The judges will meet on June 12th, 1924, and the announcement of the prize winners and correct list of words will be published in both The Morning Chronicle and The Evening Echo as quickly thereafter as possible. 12. Subscription (both new or renewal) by mail or cheque will be accepted. However, in order for the \$1,750.00 Prize at least one NEW subscription must be sent in. A new subscriber is one who has not been receiving The Morning Chronicle or The Evening Echo since April 1st, 1924. 13. No subscription for less than the regular advertised rates of The Morning Chronicle and The Evening Echo will be accepted to count in the Puzzle Game. No commission allowed to agents. EXTRA LARGE PICTURE PUZZLES MAILED ON REQUEST RURAL ROUTE SUBSCRIBERS ADDRESS PUZZLE MANAGER DEPT. A. This offer applies to rural route patrons, as well as subscribers in cities and towns. If you are already receiving The Halifax Chronicle or The Evening Echo, your subscription will be extended from its present expiration. Send in a NEW subscription with your name or two new subscriptions, and qualify for the big prize. This is an easy way to win \$1,750. The Morning Chronicle and The Evening Echo HALIFAX NOVA SCOTIA

## ONLY THREE CAMPS IN WORLD HAVE BEATEN COBALT FOR SILVER

Only three camps in the world have beaten Cobalt for silver. "They're 40 years old, we're only 20. Give us a chance." So say the people of the big Canadian silver field in an invitation they are sending out to old time miners to come back for the 20th Anniversary.

They back up their statement with figures which show that Cobalt has produced over 10,000 tons of pure silver—enough to put silver spoons in the mouths of 2,400,000,000 lucky babies.

The world's silver record of large camps is:

Locality (Metric Tons)	Years
Potosi, Bolivia	39,000 Since 1545
Guanajuato, Mexico	15,000 Since 1558
Zacatecas, Mexico	14,000 1548—1832

Silver Production

Cobalt, Canada ... 19,640 Since 1904  
Freiberg, Germany ... 5,242 1163—1896  
Comstock, Nevada ... 4,820 1859—1899  
Pachuca, Mexico ... 3,500 1522—1901

The larger camps were discovered and exploited by the Spaniards in their conquest of the Americas. Cobalt was discovered by simple blacksmith and firebranders and exploited by typical prospectors, nearly all of whom became rich. It is estimated that Cobalt has produced 25 million ounces and made thousands independently wealthy.

In the early days silver was produced for three cents an ounce and sold for sixty cents. Profits have been enormous to fortunate miners. Incidentally the district has provided the rest of Canada with more prosaic business such as boots and shoes and other supplies than 20 foreign countries. It is interesting to note that the old timers' reunion, June 28th to July 1st, will find the camp at the height of its prosperity. The richest silver finds in the world's annals have been made in the past year. A vein, five feet wide, found just six months ago, in places is solid silver. Fifty dollars worth of dynamite blasted down 100,000 oz. or more.

Cobalt, while Canada's best known mining camp, is totally different from the movie conception. It is a well-built, very orderly place. The town has only one policeman, and he's grown portly on his ease. The people, however, have all the hearty optimism and the gift for enthusiastic hospitality belonging to the pioneers. It is not likely that anyone will have a chance to sleep when the old timers stampede back.

## INTERESTING CASES BEFORE COUNTY COURT

Yarmouth.—In the case of Rex vs. Marling before the regular spring sitting of the County court for Yarmouth, Judge Grierson dismissed the appeal with costs. The appellant Marling died shortly after an appeal was entered, but when the appeal was called in the County Court no evidence of his death was produced by his bondsman who did not appear in court at all. Under such circumstances Judge Grierson decided that the appeal must be dismissed with costs for which the informant claims the bondsman are liable. Whether they will contest their liability is not known.

The civil case of the Municipality of Clare vs. Mattinson brought out some fine points in the law relating to assessment. The defendant claims he was twice assessed for certain lumber. The Plaintiff denies this and claims that even if so the defendant remedy was by appeal from the assessment, and having neglected to do so he cannot refuse to pay taxes lawfully levied under the assessment. Decision was reserved.

## THE PREACHER AND THE DOCTOR

A doctor, like wine, is the better for age.  
A preacher, like bread, must be new.  
A welcome is given the medical sage;  
The cleric gets the adieu.

How strange that the cure of a physical ill,  
Requires the ripeness of years;  
While sickness of spirit is hopeless until  
A youth in the pulpit appears.  
Physicians work to the end of their days  
But clergymen sooner retire;  
The salary wanes as the preacher decays;  
The fees of the doctor rise higher.

No wonder the ranks of the healers are full;  
No wonder young parsons diminish;  
'Tis money that gives one profession its pull;  
While want gives the other its finish.

## MARITIME UNION IS PROPOSED.

Hon. W. F. Roberts of New Brunswick, Premier of the Maritime Provinces, announced that he proposed the formation of a non-partisan union, and that this union should be formed among the members of the three Maritime Provinces at Ottawa.

Hon. W. F. Roberts, Minister of Health of New Brunswick, was in conference yesterday with Premier Armstrong and members of the Nova Scotia Government regarding the proposal of the New Brunswick Legislature that there should be formed among the members of the Three Maritime Provinces at Ottawa a non-partisan union, and that this union should during each session of the Federal Parliament meet monthly to discuss Maritime interests to the intent that practical unanimity may be had in supporting all measures for the peculiar advantage of the Provinces.

At the conclusion of the conference Premier Armstrong was asked by The Morning Chronicle what progress had been made. The Premier replied that the Government informed Dr. Roberts that they would consider the resolution, and might possibly make some arrangement for a conference between the members of the Government and the Committee of the New Brunswick Legislature which is appointed to discuss the matter; provided that Prince Edward Island was included. As yet there has been no intimation received from Prince Edward Island as when the resolution passed the New Brunswick House of Assembly, and it will be a matter for the Government to deal. The resolution will not be placed before the Nova Scotia Legislature now, as it is felt that the Legislature would not approve of it unless there were further time for its consideration.

## MOSCHELLE COUPLE CELEBRATED SIXTIETH WEDDING ANNIVERSARY

Annapolis Royal.—A very interesting event took place Tuesday at Moschelle, when Mr. and Mrs. George Barteaux celebrated the sixtieth anniversary of their wedding-day, and received the congratulations of many friends and relatives. Mrs. Isaac Whitman and Mrs. Herbert Harris assisted in receiving the guests, and dainty refreshments were served. Among those present from town were Dr. Robinson and his daughter, Miss Helen.

Mrs. Barteaux was formerly Miss Pheobe Jefferson, and five children were born of this union, three of whom—Mrs. Isaac Whitman, George Jr., and Charles—are married and settled quite near their parents. The oldest son, William, died in early manhood, leaving a son; and the youngest, Frederick, enlisted here in the 21st Battalion, and gave his life in the Great War.

## TO EXPECTANT MOTHERS

A Letter from Mrs. Smith Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children was born and afterwards, and find it a great help. Before my first baby was born I had shortness of breath and ringing in my ears. I felt as if I would never pull through. One day a friend of my husband told him what the Vegetable Compound had done for his wife and advised him to take a bottle home for me. After the fourth bottle I was a different woman. I have four children now, and I always find the Vegetable Compound a great help as it seems to make confinement easier. I recommend it to my friends."—Mrs. FRED H. SMITH, John St., Trenton, Ont.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect effectively as nature intended. Thousands of women testify to this fact.

## COAL IS CHEAPER IN MONTREAL

Fight Between British and Anthracite Interests.

Montreal.—The price of American anthracite was today reduced from \$17.00 a ton to \$15.25. A fight for the Montreal market has begun between merchants handling Welsh and Scottish coal and those selling the United States product. It is understood the British interests this year will lay down 300,000 tons of coal, which is half of the city's supply. Due to competition from Nova Scotia coke this commodity has dropped from \$14.00 to \$12.50.

Kentville.—A shipment of 85 head of steers averaging 1200 pounds, went to England from Nova Scotia on the "Canadian Leader" on the 20th from Halifax. The shipment was made up of 27 head from the Experimental Station, Kentville; 20 from the Experimental Farm, Nappan; 25 from Charles Logan, Amherst; 6 from C. C. H. Eaton, Canard and 7 from M. K. Ellis, Port Williams. These were consigned to P. D. Chapman, Cardiff. The stock compared favorably with that from the West, 150 head going by the same boat.

## RELIGION STATISTICS OF CANADA

The Dominion Bureau of Statistics has just issued a bulletin classifying the population enumerated in the 1921 census according to religious adherence.

The chief denominations are represented in Canada as follows:  
Roman Catholics ... 3,333,633 38.50%  
Presbyterians ... 1,407,812 16.03%  
Anglicans ... 1,407,959 16.02%  
Methodists ... 1,158,744 13.18%  
Baptists ... 421,730 4.80%  
Lutherans ... 287,384 3.28%

The proportions have changed very little since 1881, the first year for which these figures are available.

## U. S. OFFICIALS SUPPORT PROTEST AGAINST WATER DIVERSION.

Wisconsin Representative Agrees That Passage of Bill Which Would Lower Lake Levels Would Be "Violation of Treaty Made With Dominion, Other Authorities Condemn Chicago's Proposals"

Washington.—C. S. Ferris, water power commissioner of New York; Fred C. Repp, corporation counsel of Buffalo, and Harvey Goulder, of Cleveland, general counsel for the Lake Carriers' Association, appeared recently before the house rivers and harbors committee in opposing the Hull Bill providing for a diversion of 10,000 cubic feet of water a second from Lake Michigan for Chicago's sewage system.

Mr. Goulder described the Great Lakes' importance as a means of transportation and said that anyone would be justified in protesting against a one and one-half foot reduction in depth. Development of waterways must be carried on, he said, carefully and temperately.

Representative Voigt, Republican, Wisconsin, read a protest signed by the eleven Wisconsin representatives against the Hull Bill on the ground of "common right and justice." Mr. Voigt added that he thought passage of the bill would violate article two of the treaty of 1910 with Canada.

Will R. Hopkins, Cleveland city manager declared any lowering of the lake level would constitute direct tax on the people of Cleveland, who, he said, were already under expense for harbor dredging. He also declared the diversion of water for Chicago would mean loss of power from the Niagara power plants, upon which Cleveland and the surrounding territory depended.

Mr. Hopkins further claimed that the whole project was unnecessary, as Chicago's system of sewage disposal was "antiquated." Cleveland at an expense of about \$12,000,000 had erected plants for sewage disposal and filtration of its drinking water and Chicago should do the same, he said.

## OVER SIX MILLION TONS OF COAL RAISED IN N. S.

Of 6,170,690 tons of coal raised in the mines of this province last year, 784,648 tons were produced in the County of Cumberland, according to the Mines Report which has just been tabled in the local Legislature. This compares with 576,988 tons raised in the mines of this county in 1922 and 647,484 tons produced in 1921. The biggest producer was the mine of the Cumberland Railway & Coal Company in Springfield which had a total output of 554,948 tons and of which 471,141 tons were sold.

## BERWICK HIGH SCHOOL STRONG CONTESTERS FOR BASEBALL HONORS.

The High School is putting a strong team in the Valley High School Baseball League. The line-up for Berwick is: Pitcher, Frank Woodworth, catcher, Harvey Savage; 1st base, Charles McNally; 2nd base, Ronald Parker; 3rd base Jack Parker (Captain) short stop, Carlyle Savage; centre field, Osborne Grimm; right field, Edward Margeson; left field, Arthur Parker; spares, George Margeson, Bert Rose and Cecil Rood; mascot Ikey Corkum.

Miss Roney deserves much credit for her efforts in organizing a High School team. But she needs something more than praise. She needs the solid support of the citizens generally. Baseball is the great national game in the United States, and it is rapidly rising to that status here. It is the most popular of all summer sports. Every town in the Valley has been trying to develop a winning team. In many cases, in order to do that it has been deemed necessary to import players, often at considerable expense. This is not very sportsman-like, and ought not to be done. If the home talent were properly developed, outside players would not be necessary in making of a strong team.

And the only way to develop it is to start with the boys and get them into the game as soon as they reach their teens. This is one great advantage of having a High School team and a High School league: it gets the boys into training and develops their baseball talents. And a High School team must of necessity be strictly amateur. There are no funds to buy fancy players from outside. The support of the High School team will mean a good deal to the baseball future of the town.—Berwick Register.

## PROVINCIAL POLICE FORCE ESTIMATE REDUCED.

A motion to reduce the estimate for the Provincial Police Force, from \$7,000, as previously passed by the House, to \$5,000, made by Hon. D. A. Cameron, passed the House yesterday without discussion. The reduction, Mr. Cameron pointed out, was due to the fact that under amendments to the Temperance Bill, the enforcement of the Act would not be transferred to the Attorney General's department.

## CANADA'S PROTEST ON WATERWAYS.

Will Take An Active Part in Appeal to U. S. Courts.

Ottawa.—Canada will take an active part in the appeal to be taken to the higher United States courts in the matter of the right of the sanitary commission of Chicago to divert the Great Lakes waterways. This is the most recent phase of the much discussed question, according to a correspondent between Ottawa and Washington tabled by Premier King, in the House of Commons today.

The voluminous correspondence shows that Canada's protest against the diversion began in 1912, when the Duke of Connaught then Governor General enlisted the help of the British Ambassador, the late Right Hon. James Bryce, in presenting Canada's case. A special committee of the United States Senate investigated. The Secretary of War, Mr. Stimson found against Chicago's right to take water from the Great Lakes and divert it to the Gulf of Mexico, in order to carry on sanitary and water power operations. The district court of the United States later upheld this Government's dictum.

An appeal is to be taken shortly to the supreme court of the United States.

North Range.—On Saturday evening a company of friends gathered at the home of Albert Treffroy, Bloomfield, on the anniversary of his 77th birthday. An enjoyable evening was spent with music and games. Refreshments were served.

## CHEVROLET

—a factor in modern business and social activity

IF the automobile were suddenly withdrawn from our modern business and social life, do you realize how speedy and complete would be the disorganization? Wider in its influence and effect than any other factor of present-day existence—the automobile has become of vital importance to commerce and society.

And Chevrolet can claim a prominent place in automobile progress, because it has brought quality and dependability within the realm of the popular-priced car.

Chevrolet transportation is the most economical per mile. Chevrolet reliability is an established fact among motor-car users. Chevrolet exceeds expectations in the beauty of its appearance and the completeness of its appointments.

The Chevrolet Utility Coupe (with its handsome "body by Fisher") is the choice of the commercial user—the business or professional man, or salesman, whose business the automobile has assisted so materially. The Utility Coupe is a car of which anyone may well feel proud.

## Rheumatism Gone, Says Montreal Hotel Man

F. A. Mongeau Tells How He Recovered Strength After 8 Years Of Rheumatism

F. A. Mongeau, popular night clerk at the Prince of Wales Hotel 17 and 19 McGill College Ave., Montreal, Canada, lends his name to further the cause of Tanlac, the treatment that has proved of such great benefit to him.

"After all Tanlac has done for me," said Mr. Mongeau, "I just feel like praising it to everybody. Eight years of muscular rheumatism had just about made a cripple of me. I got to

where I simply had to limp around on a cane. My nerves became affected, my sleep unsteady and I felt completely knocked out.

"Six bottles of Tanlac, taken eight months ago, made a new man of me and I have had no further trouble with rheumatism, or my health, since. My nerves are steady as a die, I sleep fine and fell the same way. Anyone wanting to know of me what Tanlac will do, just phone me here at the hotel."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

### ST. CROIX COVE

Mr. Edward Marshall and daughter Mandy, Mr. Rose spent the 4th at the home of Mr. and Mrs. Robert Marshall.

Mr. Herbert Dixon and Frank Graves, Port Lorne, visited friends here recently.

Mrs. Ada Risteen, who had been spending the winter in Mass., arrived at the home of Mr. Wm. C. Hall, Monday 5th, as housekeeper.

The late Mrs. Wm. C. Hall, left a bequest of forty dollars to the church here, which was put into an arc window. It was designed by Mr. Melbourne Charlton, Port Lorne, and made in the factory owned by J. H. Hicks and Sons, Bridgetown. It is a very nice piece of workmanship and is a great addition to the church.

### OPERA VANQUISHING JAZZ

Chautauqua Managers See Decline of Old-Fashioned Humorist and Orator Chicago.—No more magic, no more jubilee singers, plays instead of impersonators; less jazz—more grand opera, and lectures with a purpose by men who have achieved, are demands which indicate changes in the tastes of the American public, according to the Lyceum and Chautauqua Managers Association, in convention here.

"We haven't had a call for a 'humorist' in five years," said one manager. "The public wants humor, but there must be something more—a religious or educational value, though it can't be labeled as such. And the old-fashioned orator is gone, too."

More than 15,000 towns in the United States have a winter Lyceum course, and over 5,000 have the Chautauqua circuit in summer.

### ZANE GREY TO VISIT NOVA SCOTIA

Zane Grey, the well-known novelist, is to visit Nova Scotia this summer, spending his entire vacation practically along the south shore. The great portrayer of western life has become keenly interested in the possibilities for tuna fishing in Nova Scotia. A sport he is coming especially to enjoy is catching one of these fighting sea monsters with hook and line. Moreover, he has been persuaded to include a movie outfit with his other gear and if good films can be secured the novelist is willing to give Nova Scotia the benefit of the excellent publicity made available there-by. Mr. Banks, of the Gold Hunter, says that L. D. Mitchell interested Zane Grey in the possibilities of tuna fishing off Port Medway, and understands that C. E. Millard is building a large motor boat to be used by Mr. Grey and Mr. Mitchell.

### ACADIA ANNIVERSARIES

The Acadia Anniversaries promise to attract an unusually large number this year. The graduating class will be one of the largest in the history of the University. The usual exercises will be of more than usual interest. An unique interest will attach to the laying of the corner-stone of the new building. The ample proportions and the beautiful outlines of this building are becoming more apparent every day. The foundation is completed, the steel for the superstructure is in position, and the floors, with the exception of those in the side-gallery of the auditorium, are laid.

The baccalaureate sermon will be preached on Sunday May 25th by Professor A. L. McCrimmon, ex-Chancellor of McMaster University. Dr. McCrimmon is one of the best known of Canada's public speakers, an educationist of recognized ability, of sound scholarship, and a speaker of unusual force and brilliance. The evening address, under the auspices of the Y. M. C. A., will be given by Rev. S. S. Poole of the German Street Baptist church. Dr. Poole is too widely and favorably known to require an introduction to Maritime audiences. His name is a guarantee of the quality of his address.

It will be a matter of delight to the friends of Acadia to know that President Cutten, of Colgate University, and formerly of Acadia, will officiate at the laying of the corner-stone.

The program for the week is as follows:

- Saturday, May 24th, 8.15 p.m.—College Play.
- Sunday, May 25th, 11.00 a.m.—Baccalaureate Sermon, Prof. A. L. McCrimmon, M.A., LL.D., 3.00 p.m.—Alumni Memorial Service, 7.30 p.m.—Address before the Y. M. C. A., Rev. S. S. Poole, D.D.
- Monday, May 26th, 3.30 p.m.—Ball game on campus.
- 7.30 p.m.—Academy Closing. Address, Rev. J. H. MacDonald, D.D.
- Tuesday, May 27th, 10.00 a.m.—Graduating Class Exercises.
- 2.00 p.m.—Intercollegiate Track Meet.
- 7.30 p.m.—Seminary Closing.
- Wednesday, May 28th, 10.00 a.m.—University Convocation.
- 2.30 p.m.—Laying of Corner Stone.
- 8.00 p.m.—Reception at President's Residence.

### FRUIT CEREAL COMPANY MEET.

Kentville.—The directors of the new industry, "The Fruit Cereal Company Ltd." met in conference here Wednesday afternoon. Colonel J. L. Regan, a native of King's County, represented Montreal interests. Major O'Malley, of the C. P. R., also was present. Other directors present were T. P. Calkin, president, Col. R. Innes, Captain Salter, Bridgetown, George E. Graham, A. E. McMahon and H. H. Bligh, Kentville. The prospectus was read and approved of and papers for incorporation were prepared and are ready for registration. The necessary patents have been applied for and granted and the trade mark approved.

### LITCHFIELD.

The Misses Addie Hamilton and Beatrice Gregory have returned home from their visit in Hampton.

Miss Greta Hamilton leaves this Friday for Boston.

Miss Clara Ellis has returned home from her visit at Victoria Beach, Mr. Douglas Ellis was also a week-end guest at the same place.

Mr. Rendall Hamilton has returned home from Hampton, where he has been employed for the past two months.

Quite an exciting time occurred here about noon today, when a horse belonging to Mr. James Clark of Stoney Beach took fright and ran away, pacing the road at full speed for some distance, he was at last captured and held by Mr. Wilbur Hamilton until the owner arrived on the spot. No damage was done except to the harness which was broken in several places.

Mrs. Catherine Dukeshire leaves here on Saturday to spend the summer in St. John, N. B.

#### SCENIC PHOTOS DESIRED

To the Editor:—Sir,—The Nova Scotia Publicity Bureau is undertaking a campaign to create greater interest in Nova Scotia amongst tourists and prospective summer residents. One of the best methods by which this interest can be aroused is the broadcasting of attractive pictures, illustrating Nova Scotia scenery and sport.

Amateur photographers possessing clear-cut photographs suitable for reproduction of beautiful spots in this Province are earnestly requested to send copies to the Secretary, Nova Scotia Publicity Bureau, Halifax.

These photos should, if possible, show some life. Scenes illustrating surf bathing are useful, also salmon or trout fishing, hunting, canoeing, boating, yachting, golf. In a word, photographs of persons having a good time in Nova Scotia.

Photographs of this character would help a good cause along, as they would demonstrate better than words the resources of Nova Scotia as a real vacation land.

A. J. CAMPBELL, Secretary, N. S. Publicity Bureau, Halifax.

### REV. P. R. HAYDEN TENDERS RESIGNATION

At the morning service, on Sunday last at the Baptist Church, the Rev. P. R. Hayden tendered his resignation as pastor. It is understood that he has accepted a unanimous call to become the pastor of the Bridgetown Baptist church. Mr. Hayden's decision to terminate his pastorate of the Baptist church here, will be received with very general regret. His five years of faithful work has greatly endeared him to his congregation. He has been a good citizen, taking an active interest in all that has made for the welfare of the town, and he is held in high respect and esteem by all. Mr. Hayden is a faithful, hardworking pastor, and a preacher of more than ordinary ability, and the Baptist church has grown and prospered under his ministry here. He has been especially successful in his work among the young people of his congregation, by whom he is much beloved.

It is understood that Mr. Hayden's resignation is not to take effect until the first of August.—Berwick Register.

### KINGS CO. FARMER SHOOTS HIMSELF.

Kentville.—Early Tuesday morning George Spinney, aged 50 years, living in Harmony, committed suicide by shooting himself.

He leaves his wife and four sons, Alfred, the eldest, in the United States, and Kenneth, Wylie and Robie at home.

Several years ago he was under treatment for some mental disorder, but was apparently cured, and he had lived at home for the last two years.

He had been despondent at times, lately, and it is believed that it was during one of these periods he ended his life. He lived for nearly three quarters of an hour after shooting himself. Medical aid was summoned but he died soon after the arrival of the doctor.

### How to Purify the Blood

"Fifteen to thirty drops of Extract of Root, commonly called Mitter's Siga's Curative Syrup, may be taken in water with meals and at bedtime, for indigestion, constipation and bad blood. Persistence in this treatment will give permanent relief in nearly every case." Get the genuine in drug stores.

### SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark—"I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE"—but would you be satisfied with their quality?

"You'll like the flavor"

### LIQUOR VENDORS SALES DECREASE

Decline of Over Hundred Thousand Dollars Between Sept. 30 and April 30

There has been a decrease of over one hundred thousand dollars in the income of the Board of Vendors' Commission from the sale of liquor between September 30th, 1923, and April 30th, 1924. This was learned in the House of Assembly yesterday when Hon. D. A. Cameron, Provincial Secretary, tabled answers to a number of questions asked by Mr. MacDonald (Hants) regarding the administration of the Commission. The announcement of this decrease, which in exact figures was \$110,219.25, was received with some satisfaction by members of the Government, who had been endeavoring to convince critics of the Government's policy that smuggling was the cause for much of the liquor seen about the Province, and smuggling of liquors into Nova Scotia was a matter entirely beyond the jurisdiction of the Province to control. This very extraordinary decrease in the receipts of the Commission would indicate that if liquor was still as evident in Nova Scotia this year as in previous years, it must be through smuggling that it was obtainable.

Mr. MacDonald had asked other questions, one concerning the number of appointments made by the Board of Vendors' Commission since September 30th, 1923. According to the answers handed down, there were three appointments—James Dawson, aged 62 years, on a salary of \$1,200; Thomas Griffin, age 39, on a salary of \$1,150; and Clifford Holland, age 50, on a salary of \$1,150. They were store-keeper and warehousemen respectively.—Chronicle.

### CREDIT VS. CASH.

An exchange tells the story of a grocer doing business in its city who offered to extend the credit of one of his customers if it was not convenient for him to pay cash at the time. The man had been his customer for some time and had been paying his bills as regularly as he found it possible, never being very far behind in his payments, so that his custom was considered desirable. When the grocer made the offer of credit he received a surprise. His customer told him: "I don't want to pay my bills. If I am left to myself I will run bills and a bill that will stagger me. You mean, all right and I appreciate your intention, but you are not doing me a kindness in getting me to buy from you without paying cash at the time or by the end of the week. I want you to keep after me until I become a cash customer. I know my failing, and you can help me overcome it."

An exceptional and a very unusual customer, perhaps, but he touched on a vital business issue. It is far better for a man to understand that he must face his financial obligations promptly. It is largely a matter of habit unless he happens to be overtaken by sickness or misfortune. Merchants who offer credit would often confer a favor on their customers if they were to point out to them instead the advantage of paying their bills promptly, for only those who do so are likely to escape the increasing burden of debt that ruins so many lives, and to accumulate savings and thus enjoy the prospect of a comfortable old age. A cash business enables the merchant to meet his own engagements more promptly, enabling him to buy more cheaply, and to contribute in no small degree to the general prosperity by diminishing the general volume of credit in the community.

### WILL CUT PRICE OF FARM IMPLEMENTS

Toronto.—The Massey-Harris Company, Limited, the largest manufacturers of farm implements in Canada, announced that they will pass on the farmer in the form of reduced prices for machinery, the saving effected in the remission by the Government of the sales tax on farm implements and the lessened duties on raw materials. The new budget reduces the import duties on farm implements and machinery as well as raw materials entering into their manufacture.

### APPEAL SUCCESSFUL

word has just been received by W. A. Livingstone, solicitor for Harry P. DeLap, in the case of DeLap vs. Hayden & Ray, that the full bench of the Supreme Court of Nova Scotia against the decision of His Honor the Chief Justice in the case

has been fully allowed. The decision by His Honor in trial here was in favor of Hayden and Ray, but the full bench now disallows this decision and awards \$200 damages to DeLap besides costs of trial and cost of appeal. The decision affects the entire coast of the Maritime Provinces as to fish weirs and trespass.—Spectator.

### "Fisherman's Luck. Good Business."

"When you see a desk-ribbon jockey casting the fly on the French River, or exhibiting the skin of a Nipigon trout, you may know him for a good business man."

SOME men are stamp collectors, some play golf, yet others go off across the world in search of big game. Some hunt hidden treasures whether of an archaeological nature or the raw material as found in the Canadian mine. To some men these things are merely hobbies, to others a living.

Some businesses and some occupations call for a breaking down of the cast-iron partitions which we are apt to erect between what the world is pleased to call "a living" and a "hobby."

When we have worked for some time at earning a "living" we are apt to be suddenly aware that something of strength, something of alertness, some "virtue" has gone out of us. And in order to get back, we set about recreating that lost strength. By nature man is not a "specialist."

Yet we all know, to our cost, the tendency of modern business-life is to make him so. The pressure of "business" of which we boast, the system, the competition, of which we think so highly, as to be always in pursuit of it, is in reality a juggernaut, a fierce feudal overlord of the worst type, since we are in bondage to it without knowing it. We actually take our chains lovingly to our hearts.

Sometimes the awakening comes in the form of a rude shock. A physician's dictum. But as often as not in quite another form. That subtle and yet tangible shock received when some younger, fresher mind, some "mere chit of a fellow" beats us at our own game. That is the awakening that hurts. Because we know that at the club, other men are saying "Fell down on the job." Whereas the truth is, "Stuck to his job, not wisely but too well," would be so much nearer the truth.

When business first began its pressure. When business first began to be so intense we felt we "could not leave it," the number of "break-downs" was terrific. But just about that time we began to see that to go down and out was not playing the game, but surrendering, surrendering not altogether to pressure from without but to weakness within—a failure to stand-up against "fearful odds"—unexercised lungs.

And so we began to cast about for a means of strength—that iron-strength of nerve—which would stand up squarely under ordinary fire and rise like a well-trimmed ship to meet the waves of unexpected storms. This thing has been thought out and acted upon as a positive condition of modern life and business we may say within the past twenty years, and more firmly yet within the last ten years.

Men now go away and leave their business at least once each year. And the wiser take a vacation not only in summer but in winter as well. The more intense the business, the heavier the fire, the greater need for re-energizing that strength which is burned out. The greater need for the gathering up of new ideas.

So, when you see a business-man, a banker or railroad president, or a company official, or any other desk-ribbon jockey casting the fly on the French River, or exhibiting the skin of a Nipigon trout sketched on a board, pleased as any school boy who has carried his bat out at cricket, or kicked a goal for the school team, you know him not so much for a great sport as for a good business man. The very fact that he belongs to those who get back to Nature wins your confidence. You know him for a man who has the business situation of the day in hand. One who is about to shed the burden of that tide which surges in the affairs of men. "A live wire," competing youth, calls him.—Victoria Hayward.

The Post Office Department has made arrangements and issued instructions to Postmasters of Savings Bank offices to permit of direct withdrawals by savings bank depositors from the post office of any sum up to \$25 without having to make application to the Department at Ottawa, as has been the practice since the Post Office Savings Bank was established in 1865.

### Local Happenings

The announcement in our last issue of the birth of a daughter to Mr. and Mrs. M. G. Salter, Prince Albert, Saskatchewan, was received with interest by readers of the Monitor. Particularly as both Mr. and Mrs. Salter as former residents of Bridgetown enjoyed a high degree of popularity socially, and have many friends in town and county. Mr. Salter, son of Capt. and Mrs. J. W. Salter, is one of the rising lawyers of the Western town and Mrs. Salter, nee Connie Lloyd, daughter of Mr. and Mrs. J. E. Lloyd, was one of the most highly esteemed young ladies of Bridgetown. Their friends here extend congratulations.

You ought to see Auntie after the Village Constable with her Umbrella.

Rev. A. R. Reynolds, Rev. P. R. Hayden and Miss Annie Roney, Principal of schools were among Berwick visitors who attended the baseball game here Saturday afternoon.

The Circus scene is a scream. If you want to get the thrills of the old time circus don't miss Aunt Jerusha on Thursday.

What is MORSE'S SELECTED ORANGE PEKOE Tea? It is the finest product of the tea gardens of India and Ceylon plus the capacity of a tea blender, who takes infinite pains to get the most there is in both, of body and of flavor. There is no better balanced blended tea than this one.

Mr. W. A. Warren has the honor among local sportsmen of landing the first salmon of the season. It was caught at Paradise on Saturday and weighed in the neighborhood of nine pounds. (Mr. Warren hooked another and after playing him for about an hour had him within an ace of capture when the hook parted from the gut and the fish made his escape. Mr. Warren was fishing alone but had a companion been present with salt the result would have been different. The fish was of large size and put up a great fight.)

Elopements, clairvoyant scenes, duels, etc., on Thursday at the Primrose.

Attention is called in another column to the adjourned annual meeting of the Riverside Cemetery Company, Tuesday evening, May 20th.

If you want to laugh, and laugh, and laugh, you must see the Village Constable in a duel with the Circus proprietor.

Mrs. Cecil Piggott last week received a telegram from Boston signed Thompson, informing her that her husband had died very suddenly. The news surprised and overwhelmed her but to her great surprise and relief the next day Mr. Piggott made his appearance very much alive and after a brief visit departed once more.

My! My! My! the way the country clouds floored the smart manager of the Clairvoyant lady who could guess any number blindfolded. It is to laugh. Ha—!

Rev. D. I. Lyttle, of Clementsport, occupied the pulpit of United Baptist church on Sunday evening. During his stay in Parrishore he was the guest of Capt. and Mrs. Burpee Tupper. Rev. Mr. Lyttle has accepted the invitation to become pastor of the church, and commences his work there on June 1st.

Mr. M. Ring of Beaconsfield, informs us that a robin which has been nesting and rearing a brood in the same spot for the past two years is back again on the job in the same place.

## How To Have Rested Feet

Try This Recipe:—

**FOR Tired FEET or FEET WITH CORNS, BURNS, CALLOUSES, INGROWING TOE NAILS or FAULEN ARCHES.**

Come to our store and let us pull off those narrow pointed toe, bone-bending, high heel shoes. They're the cause of your foot ills—your aching, tired feet. We'll put those feet into (Taplin's) low broad heels, snaz arch fitting, body balancing, high quality-comfortable shoes, that will let your feet grow as they should. You'll feel the good results at once, no breaking-in or discomfort.

Tuesday's we allow special discounts, always take advantage of our specials, we will have specials for Tuesday 20th.
