CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } \$1.00 PER YEAR (The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI.

TORONTO, MONTREAL AND WINNIPEG, OCTOBER 5, 1904

No. 36

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL

310 MCINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

Winnipeg, Man.

LUMBER—Fine established business in good
Manitoba town, carrying a six thousand stock,
making a fine profit; buildings complete, small
amount of cash handles. THE LOCATORS, 55
Merchants' Bank Building, Winnipeg, Man.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade has lost no ground during the past week, as there has been an average movement and prices have been well maintained. There are no signs of weakness, and it is believed that when the elections in this country and the United States are over there will be a revival in the demand for lumber and a stiffening of prices. While the quantity of unsold lumber at the mills will be larger than at the close of navigation last year, it will not be more than enough to supply the demand until the new cut is ready next year. Several of the largest firms will operate conservatively in the woods this winter

and will figure upon stocking their mills for days runs only next season. In the face of a restricted production, there is no good reason for a decline in pine lumber prices.

The factory demand for hardwoods is more lively, which is taken to indicate that consumers have been running along with light stocks and are now willing to purchase for their winter requirements at present prices. Interior finish stock is experiencing a good movement, and there has been some improvement in the call for basswood.

QUEBEC AND NEW BRUNSWICK.

Increased activity is reported from some of the spruce districts, although the volume of trade is still small for this season of the year. There is a better feeling in respect to British business, the general opinion being that prices are likely to improve between now and the end of the year. Merchandisable spruce deals are worth about \$12 at St. John. Dullness prevails in logging circles on account of the contemplated contraction in operations. It is estimated that the coming winter's cut on the Upper St. John river will not be more than 65,000,000 feet, as compared with an average cut of about 120,000,000 feet. Operations on the Miramichi and Restigouche rivers will also be restricted, and in Nova Scotia a policy of curtailment will be followed to a lesser extent. There is an improved demand for lath, but shingles are still weak, with a larger number of sales of Extras at \$1.10 for Boston delivery.

UNITED STATES.

Reports from the United States are not so universally favorable as last week, trade in the east in particular being somewhat dull. In Philadelphia and New York the volume of business is by no means satisfactory. In Chicago and district there is a vast amount of building under way and lumber dealers are doing a steady trade, with prices well maintained. The manufacturers in the Lake Superior district make no complaint as to business. The bulk of their output has been disposed of and the small balance is almost certain to be held at firm prices. Dealers are buying southern pine quite liberally and prices have advanced from \$1 to \$2 per thousand. There is less strength shown by spruce, random cargoes at Boston having sold at slightly lower prices. Hardwoods generally are in good demand. Much of the southern production has passed into the hands of dealers, who are endeavoring to keep up prices. It is predicted that there will be a liberal production of Wisconsin and Michigan hardwood logs the coming winter and

there is consequently some hesitancy on the part of eastern buyers. Plain white and red oak are in fair demand and light supply, soft elm is scarce and basswood is plentiful.

There has been a recovery of about ten cents in the price of red cedar shingles. Reports from Washington state that wholesalers are eager to buy and that the situation shows a distinct improvement. This has been reflected in other kinds of shingles, although no advance in the east has taken place.

GREAT BRITAIN.

Indications are more numerous that the British lumber market is gaining strength. Business in London is brisker and importers are beginning to speculate. If the market were removed from the influence of Baltic shipments, there would probably be a surprisingly quick recovery in prices, but as this is out of the question the improvement promises to be very gradual. Stocks are changing hands more freely between merchant and consumer than has been the case for many months, and prices at the recent public sales have maintained a fairly steady level. Spruce deals are showing unusual strength. One report states: "There has been a much better demand for spruce during the week, and if this were only to continue for a few weeks at the same rate, there would be a substantial rise in prices to record. Stocks of 329 unassorted spruce have been cleared by the principal agents at £9 per standard, and many lines of unassorted that sold at £8 5s at the auctions a short time ago have been resold by the buyers at £9 per standard." Importers are beginning to feel that there are not likely to be heavy consignments from Canada, which is doing much towards restoring confidence.

STOCKS AND PRICES.

E. B. Foss & Company, of Bay City, Mich., have imported from the Georgian Bay district about 5,000,000 feet of lumber a month during the season.

Crate & Sparham, of Smiths Falls, Ont., have just bought 400 acres in Beckwith Township, near Franktown, on which there is a considerable quantity of timber.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., last week sold 3,000,000 feet of white pine lumber to the Detroit Lumber Company and Lowrie & Robinson.

The Spanish River Room Company handled approximately 160,000,000 feet of logs this season. Last year the output was 200,000,000 feet and next year it is likely to be still smaller.

Robert Potts, of Fredericton, N.B., has entered into a contract with the St. John Lumber Company, of Van Buren, Maine, to cut 3,000,000 feet of logs for them during the coming season.

The Pigeon River Lumber Company, of Port Arthur, Ont., will have five camps in operation this winter, three on the Canadian side and two on the American side. It is expected that from 30,000,000 to 35,000,000 feet of logs will be cut.

Hon. E. J. Davis, Commissioner of Crown Lands for Ontario, is asking for tenders by November 15th for the right to cut the red and white pine timber on a number of small parcels of cut-over and burnt-over lands situated in the Townships of Burleigh and Johnson and district of Algoma. The berths in Algoma district include No. 108, on the north shore of Lake Huron, and Berth A, on Dog Lake, 6 1/2 miles west of Chapleau.

There is now about 18,250,000 feet of last season's log cut of the provincial operators hung up in the upper St. John river, divided as follows:

	Feet
Randolph & Baker	6,000,000
Cunliffe	1,000,000
Kilburn	1,000,000
Chouinard	1,000,000
Edgecomb & Eaton (McConnell's)	5,000,000
Doucett Landry	1,500,000
Scott Bros	1,500,000
R. A. Estey estate	1,000,000
Hallett	750,000
	18,750,000

In addition to this the St. John Lumber Company at Van Buren were held up for 7,500,000 feet. This company, however, will operate quite extensively this winter. They will get out about 15,000,000 feet. The Van Buren Lumber Company will also operate on a fairly large scale, their estimate being about 10,000,000 feet.

NEW BRUNSWICK LETTER.
(Correspondence of the CANADA LUMBERMAN.)
St. John, N. B., Sept. 30th, 1904. — Things are somewhat brisker in lumber circles than they have been for some months past. All the mills in this vicinity are running at their full capacity and the annual output of this year promises to be about the average. Logs are coming along very freely and the indications are that there will be perhaps 20,000,000 feet piled and wintered at this port alone. As far as is known at present there have been very few large contracts made with loggers. This is a sure indication of a small cut this winter, as under ordinary conditions the choppers are in the woods by this time.

Many manufacturers are in a position this year where they have to run their mills at a loss or cease sawing altogether, owing to the high price they paid for their logs. As it means a heavy sum of money being tied up for a year at least unless they did so, those who were in that position have preferred to do the former. It may be depended upon that they will not be in a similar condition next year. This means that they will be more cautious in buying and contracting and already the reaction is being felt in logging circles, which fact is indicated in a lack of demand for woodmen and a consequent falling off in wages in that line ranging from 10 to 15 per cent.

While shingles have not shown any increased activity during the last fortnight, laths appear to be considerably more in demand and those who have any to sell are very hopeful of what the next month will bring forth. Shipments of laths have been fairly heavy since last writing, but the quantity of shingles on the different wharves has increased perceptibly.

The English market looks somewhat brighter than was the case at this time last month. Enquiries are more frequent and the demand has increased to such an extent that those interested are just now feeling very optimistic. Of course, this demand is not by any means heavy, but, compared with the depression of the last

few months, it is decidedly encouraging to the manufacturers.

Shipments have been sufficiently heavy to make considerable wharf-room and charters are booked that will relieve any inconvenience from this source for the next two months even if no further sales were made.

Prices have rallied and the indications seem to be, according to the opinions of men who are in a position to judge, that they will be higher yet before the closing in of winter.

Some large lots have been disposed of at prices ranging from \$11.75 to \$12.00 per M's. ft. for Merchantable (usual percentages of widths) 2/3 price for Fourth and Ends, f.o.b. steamer at New Brunswick port.

Charters to the West Coast of England are plentiful at 35s. per standard.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweeney with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN)
VANCOUVER, B.C., September 26, 1904.
 —The depression in the lumber business has been the cause of a cut in prices of lumber in this city, and the war has been carried on by the millmen until now figures are in many instances as much as 35 per cent. off the list price. It all started in one firm giving a price below the schedule agreed upon by the B. C. Lumber and Shingle Manufacturers' Association, and to which all the members subscribe, and of another when hearing it going it still lower. Shingles are being sold for \$1.35 and \$1.50. "There a. e times," one of the prominent manufacturers said on Saturday, "when most of us feel we should be put in an asylum until this irrational feeling has worn off. We know we are hurting ourselves and the trade, but still we go ahead."

A feature of the depression in the logging industry is the cornering of the available supply. Especially is this the case in cedar. Most of the independent loggers

are in financial difficulties, and since the government has refused to allow export, they have to wait until conditions brighten. They have stopped cutting, and those who have the money are now quietly buying up all the cedar and the fir. By spring logs may take a big jump and will be very high if the winter is as unfavorable as it is in getting out timber.

Export of lumber is small. The fleet now loading is only three vessels, the fewest on record. They are the Harold and Halewood at Hastings mill, and the Olivebank at Chemainus. Three charters only are reported, the William H. Talbot, the Admiral Tegethoff and the Halboa. A record was made in loading the Olivebank. She took on 2,570,000 feet, the largest cargo ever shipped at Chemainus, and this was put on through one hatch by the Victoria & Vancouver Stevedoring Company in 22 lay-days, an average of 114,000 feet per day.

Several mill fires have taken place during the month. The mill at Kamloops of the Kamloops Lumber Company, of which

George McCormick, M.P., is president, was burned, with a loss of \$20,000. Some lumber was also burned. Mr. G. F. Fowler, M.P., is on his way west, and when he arrives it will be decided whether the mill will be rebuilt at Kamloops or Savano. Messrs. Braden & Johnston, who have a mill at Salmon Arm, lost the plant and all their lumber. The loss will be about \$2,500, with no insurance. Mr. McCormick, when he heard of the misfortune, kindly offered to supply them with a boiler. They will rebuild so as to be ready to cut early in the spring. A watchman slept at the No. 1 mill of the King Lumber Company, near Cranbrook, and the mill was burned, he escaping with difficulty from the burning building. No lumber or logs were burned. Loss \$25,000, with some insurance. The Capilano Lumber Company, operating about seven miles from the mouth of the Capilano river, from which Vancouver gets its water supply, has suffered the loss of its saw mill.

Mr. J. Taylor, principal owner of the Arrowhead Lumber Company, has gone

Our Vancouver Mill cuts High-Grade Cedar, Fir, Spruce and Red Cedar Shingles. Correspondence solicited at all four points.

east after the disposal of the company's interests to McMillan Brothers, the Great Northern contractors. The price paid for the property was between \$275,000 and \$300,000.
It is understood that the Canadian Tim-

ber and Sawmills Co., Limited, the mill of which was seized at Trout Lake, will be reorganized, and that it will be operating shortly. The investment there is a large one.
Timber Inspector John Murray returned

last evening after making one of the largest seizures in the history of the province, and, in fact, of Canada. Americans were cutting timber on provincial lands in the southern portion of the Fraser delta and shipping it to the other side, contrary to

the law forbidding export, except under heavy tax. He found several large camps in full operation, and it is estimated that they must already have shipped several millions of feet of fine timber. A number of booms of logs were ready for shipment

Also Yellow Pine Finish and Timber.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co. New Orleans, La.

and were seized. In all, the value of the camps and timber will amount easily to \$100,000. The logs were being purchased by the Monarch Lumber Company and the Erie Lumber Company, of Blaine. The steal is one of the most audacious in the history of the west, it being only about 20

miles from New Westminster, and had been going on for six or eight months. Large donkey engines were being used, and the owner of one of the camps stated that had the seizure been made a day or two later, he would have been out \$6,000 more, as relying upon the success of oper-

ations to date, he had completed a deal to buy private timber, and was to have paid \$6,000 cash to-day.

The schooner William Marshall, from St. John, N.B., lost her deck load of laths at New London, Conn.
