RUSSIANS SLOWLY BUT SURELY ADVANCING UPON BERLIN

British Troops Will Resist Main Attack of Advancing Germans ALLIED ARMIES MAINTAINING THEIR POSITION IN BELGIUM

RUSSIANS MAY REACH BERLIN IN THREE WEEKS

Possibility of an Attack on German Capital in a Short Time Admitted at St. Petersburg—Four Armies of 2,000,000 Men Each Under Arms, and Each Will Be Fresh for Every New Battle—German Forts to Be Isolated and Bottled Up—Successful Advance Continues.

ST. PETERSBURG, Aug. 28.—The possibility of an attack on Berlin by the Russian army was officially admitted here today. Within three weeks was given as the probable time, and it was declared that Russia now has more than 8,000,000 men under arms, divided into armies of about 2,000,000 each.

RETIRED PAST ALLENSTEIN. ST. PETERSBURG, Aug. 28.—(Delayed in transmission).—The 20th German Army Corps, which defended the frontier in this region, has retired precipitately past Allenstein, its headquarters in peace time, as far as Osterode, which is on a direct railway from Osterode to Danzig, seventy-two miles, a mere trifle if the retreating armies could travel by rail, but four heavy marches thru some of the marshiest, vilest marching country in Europe, the very same country as Russian troops have now emerged from.

THREW EVERYTHING AWAY. We have no exact information how many army corps Germany left to oppose the advance of Russia, perhaps seven, possibly only five. Whatever their number, three are retreating under cover of the fortress at Königsberg and is in full flight on Osterode. All four flung away in the retreat, their arms, ammunition and even food. The Russian armies, by forced marches, have driven a wedge between the German forces. So demoralizing was the effect of the Russian commanders' strategy that the German forces abandoned their entrenched positions on the River Angerapp without fight. Their line of flight is sown with cartridges, hand grenades and knapsacks flung away by the men in their retreat.

CAVALRY CLEARING THE COUNTRY. The Russian forces operating in the Austrian Province of Galicia have advanced on a widely flung front and the cavalry is engaged in clearing the country before the approach of the army. The Austrian troops have failed seriously to oppose this sweeping Russian advance, which has been achieving a series of successes at small cost in casualties.

RUSSIANS CAPTURE GUNS. LONDON, Aug. 27.—Following the victory of the Russians the German troops in eastern Prussia evacuated the region of Masuron. The Russian advance has not suffered any reverse in that section. Difficulties present throughout by the River Tervolin, the western outlets of which the Germans occupied yesterday. The report that the Russians had captured 100 cannon from the enemy has been confirmed. The Russian offensive movement in Galicia is now following its normal course until checked, in the region south and southwest of Tarnopol. The southern army or left wing of the invading Russian army is now forcing its way thru the Austrian Province of Galicia and has already occupied a wide tract of territory. The objective point, for the present at least, is the important town of Lemberg.

Czar Announces Intention of Attacking Berlin

LONDON, AUG. 27.—St. Petersburg despatches state that the czar has announced his intention of attacking Berlin within three weeks. It is reported that the army mobilization has been satisfactorily completed and that now there are 8,000,000 men under arms.

The French embassy has asserted that the City of Lille has not been taken, but that there has been sharp fighting in that territory, in the nature of advance guard skirmishing.

This tends to modify the earlier reports from Ostend that the Germans had occupied Lille, Roubaix and Valenciennes.

Premier Makes Statement in Reply to Protests By Newspapers Against Veil of Secrecy—Defends Measures Taken, But Promises Relaxation in Near Future.

LONDON, Aug. 27.—The protests by the British papers against the censorship and against the country being kept in darkness over the military operations received attention at Premier Asquith's hands tonight.

Survivors of Trawler Are Landed in England. LONDON, Aug. 27.—Thirteen survivors of a Danish trawler, which was sunk by coming in the North Sea, have been landed at Shields. Four of the crew of the trawler lost their lives.

KAISER MUST SOON WITHDRAW TROOPS

Menace of Russia Makes Germany's Position Desperate—Transfer of Force to Meet Russians Will Give Allies Chance to Make Strong Forward Movement.

PARIS, Aug. 27.—(8.05 p.m.)—Gen. De La Croix, the eminent military critic of *Le Temps*, writes as follows on the situation: "In judging of the actual situation one must, before all, not separate the events which are unfolding upon the Franco-Belgian frontiers and the conflict which is going on between Germany and Russia. The Russians are advancing in eastern Prussia and Galicia, and they are far from having all their forces in the movement, because of the immensity of their country."

Belgium Forced Back. "In the north the British have attacked forces greatly superior in number, and were obliged, after brilliant resistance, to withdraw a little in the rear on their right. "Our armies maintained their positions in Belgium. The army of Antwerp, by its offensive, has drawn off and held before it several German divisions."

KAISER WILHELM DER GROSSE SUNK. The cheering announcement was immediately followed by a statement of First Lord of the Admiralty Churchill, that the great passenger liner, Kaiser Wilhelm Der Grosse of the North German Lloyd Line, taken over by agreement by Germany at the beginning of the war, had been sent to the bottom off the West African coast by the light cruiser High Flyer.

British Troops Are Upholding All the Traditions of the Service and Now Occupy the Centre of Allies' Lines, While French Bre on the Flanks—Three French Towns Taken By Germans—Ostend Expects an Attack Today—France is Assured of Victory Because Resolved to Gain It—Four More Classes of Reserves Called Out in Italy—Official French Bulletin Says 7,000 German Bodies Have Been Found—Insurrections in Austria.

LONDON, Aug. 28.—(12.40 a.m.)—The British press bureau at 12.30 o'clock this morning gave out the following statement: "The French operations of war over a distance of some 250 miles have necessitated certain changes in the position of our troops, who are now occupying a strong line to meet the German advance, supported by the French army on both flanks."

ALLIES RESUME THE OFFENSIVE. PARIS, Aug. 27.—(11 p.m.)—The following official bulletin was issued by the war office tonight: "In the Vosges district our troops today resumed the offensive and drove back the Germans, who yesterday had forced them to retire on the Saint Die side."

LONGWY FORTRESS SURRENDERS. Longwy, a very old fortress, the garrison of which consisted of only one battalion, which had been bombarded Aug. 3, capitulated today after holding out for over 24 days. More than half the garrison was killed or wounded. Lieut.-Col. Darche, governor of Longwy, has been nominated an officer of the Legion of Honor for 'heroic conduct in the defence of Longwy.'

SECRECY ON OPERATIONS WILL SOON END. LONDON, Aug. 27.—Premier Asquith, in the house of commons today, made the positive promise that the secrecy on operations in France and Belgium would be ended, asserting that the government was fully alive to the necessity of removing public strain. He declared reasons of strategy no longer required silence.

Survivors of Famed Makers' Soft. A most interesting item falls to be recorded for the benefit of the men and young men of Toronto and district. Dineen's, 149 Yonge street, have just unpacked an uncommonly fine shipment of Stetson's American soft hats. There's a great variety of shapes and colors, and it is difficult to imagine any man falling to get an entirely becoming model. They are priced \$4 and \$5. Stetson's unbreakable, self-conforming stiff hats (the most stylish and comfortable made) are also in this shipment in all the new fall shapes. The sooner you make your choice the better. Come in today: it's one of the most popular hat days at Dineen's.

Belgium Betrayed by Spy. Betrayed by a German spy disguised in a Belgian uniform, 348 Belgians were killed at Merbes-le-Chateau, when tricked by the spy into taking a path of danger. The refugee who brought the story to this place declared that the Belgians kept several thousands of Germans at bay for three days until the spy showed them a path which he said was a safe retreat. The Germans, said the refugee, then shot them down.

Canadian Press Despatch. LONDON, Aug. 27.—Winston Spencer Churchill, first lord of the admiralty, announced in the house of commons today the sinking of the Kaiser Wilhelm Der Grosse, a German armed merchant cruiser, equipped as an armed merchant cruiser, which was sent to the bottom of the Atlantic by the H.M.S. High Flyer off the west coast of Africa.

Twenty Million Men Available for Russia

Canadian Press Despatch. LONDON, Aug. 27.—A despatch to the Post from St. Petersburg comments on the excellence of the Russian army and the inexhaustible supply of men to draw upon. It says further: "Russia will have no difficulty in finding 20,000,000 men to complete the work begun by its trained fighting forces. Moreover, this is the first time in the history of the world that the Russian army has taken the field with adequate equipment and a sufficient supply of men, and when the Russian army has been trained in the Japanese campaign."

UNBEATEN BRITISH FORCED TO RETIRE

Utmost Gallantry Was Displayed by Troops—No Details of Losses.

Canadian Press Despatch. LONDON, August 27.—Regarding the reverse reported in France, where the falling back of the French forces also compelled the British to retire, also accounts of the British army behaved with the utmost gallantry. They were unbeaten when the general situation necessitated Joffre's order of retirement. The latest news of England is that the British army has been defeated in one battle since the Crimea. The list of casualties has not been received, leaving friends and relatives in a state of anxiety. If anything, England's enthusiasm for war has been stimulated by the British troops participating, and when the casualty list is published it is likely to have the effect of fully arousing the British lion.

ITALY IS AGAINST WAR

Canadian Press Despatch. LONDON, August 27.—A Times despatch from Rome declares that great pressure is being brought to bear on Italy by Germany and Austria to join in the war with both countries, making her alluring promises, but without effect.

BRITISH SHOWING SPIES NO MERCY

Execution Follows Detection Immediately—French Method Foolishly Humane.

Canadian Press Despatch. NEW YORK, August 27.—A London Standard despatch from Paris to The Tribune says: "The correspondent of Le Temps, who had occasion to follow them on the way to the front, is loud in his admiration of the British soldiers' discipline, equipment and commissariat arrangements. But what he admires most was the summary methods of dealing with spies, every one captured being shot immediately. A British captain explained his attitude through a French interpreter, as follows: "You French pride yourselves on your humanity in cases where humanity is a mere useless sentimentality. To spare the life of a spy is postponing his trial is a crime against our own troops. A spy may be able by some means to convey a harvest of news to his own side, so as to enable the enemy to surprise us precisely when we hope to surprise him. In such cases, inopportune indulgence may cost the lives of several hundreds of our own troops."

PRIESTS RETURN FROM PALESTINE

Frenchmen Join Colors From All Parts of the World.

Canadian Press Despatch. LONDON, Aug. 27.—A despatch to Reuters' Telegram Company from Paris states that Prince Louis Antoine of Orleans and Braganza, who resigned his commission in the Austro-Hungarian army at the outbreak of the war, has been authorized by King George to serve in the British army. He has left for the front to join the staff.

NO SPIES HAVE BEEN EXECUTED IN BRITAIN

Canadian Press Despatch. LONDON, August 27.—Home Secretary McKenna stated this afternoon that no spies had been shot in England. There have been rumors that many persons in the secret employ of Germany have been executed.

H. R. H. INTERESTED IN RED CROSS WORK

Duke of Connaught Gave Impetus to Organization of Society.

AN APPEAL FOR FUNDS

To Open Hospital for Convalescents—Make Society Dominion-Wide.

The Duke of Connaught showed himself to be much interested in the work of the Red Cross Society at its meeting in Ottawa, of which a branch was organized there. With the organization of the branch in the capital city, it was the object of the meeting to send broadcast thru Canada the expression of their hope that similar movements would be taken in all parts of the country. The governor-general in his speech said there was one thing worse than war—it was dishonor. It was to avoid the latter that Great Britain entered upon the present war. "I have often talked to Canadian audiences," said his royal highness, "and I flatter myself that I have never talked to deaf ears, but I hope my words to-night urging your support for the Red Cross movement may prove an added incentive to you to give your support to this worthy object."

Money is Needed.

Colonel Eyerson, the president of the Red Cross Society of Canada, asked Canadians to support a movement which was inaugurated by Florence Nightingale, and which was intended to brighten the days of the wounded soldier, and bring him back to convalescence. Funds were needed to carry on this work, as supplies in England were bought more cheaply than in this country. The funds would not be devoted to the needs of the Canadian soldiers only; they would be added to the funds of the other countries to provide relief for the soldiers of the entire allied armies. The Red Cross Society also wished to establish a hospital of one hundred or more beds where the soldiers could go during convalescence, and before shipment home. The ability to do this will depend on the amount of money raised.

Nineteen Houses Left at Herve Out of Five Hundred.

Canadian Press Despatch. BERLIN, August 26.—The Tageblatt's correspondent writes that Namur was forty-two kilometers, by mortars and by one forty-two centimetre howitzer. He says he could plainly hear the shells striking the forts, and that everyone was astonished at the precision of the German guns.

GERMANS REPORT LOSS OF CRUISER

Magdeburg Blown Up—Turistic General Commands Turkish Army.

Canadian Press Despatch. WASHINGTON, Aug. 27.—The German embassy today received the following by wireless from the foreign office at Berlin: "Vienna reports that Liman Pasha has been appointed commander in chief of the Turkish European troops. The small cruiser Magdeburg entering the Finnish Bay ran aground after a fight with superior forces and was blown up by her captain. Most of the crew were saved.

ADVANCE OF RUSSIANS CONTINUES UNCHECKED

Canadian Press Despatch. ST. PETERSBURG, Aug. 27, via London, 5:23 p.m.—The following official communication was made public here today: "Our offensive both in East Prussia and Galicia developed increasing success on August 26. The Germans hastened their retreat toward Koeneburg and Allenstein.

RUSSIANS CAPTURED ONE HUNDRED CANNON

Canadian Press Despatch. PARIS, Aug. 27, 3:40 p.m.—An official statement issued by the war office this afternoon says: "The German troops retired from the region of Mauren in East Prussia after the Russian victory. A Russian advance is unretarded in that country, which presents difficulties and the outlet of which to the west was occupied yesterday. It is estimated that 100 cannon were taken from the enemy."

Guidance, Comfort, Strength

Canadian Press Despatch. LONDON, August 27.—The British nation at heart is still profoundly religious. The naval and military missions are distributing individual pocket Bibles to every man in the army and fleet. Each bears this inscription for every sailor and soldier, written by Lord Roberts, "Fighting Bob," the idol of the British army: "Ask you to put your trust in God. He will watch over you and strengthen you. You will find in this little book guidance when you are in health, comfort when you are in sickness and strength when you are in adversity. "Roberts, F. M."

Solemn Pledge Given by Commons That Germany Will Pay Dearly for Invasion—Premier Asquith, Bonar Law and John Redmond Express Like Sentiment

Canadian Press Despatch. LONDON, Aug. 27.—On Premier Asquith's motion the house adopted an address to King George, praying his majesty to convey to the King of Belgium an expression of admiration of parliament of Belgium's heroic resistance to the German invasion.

AGAINST BRUTE FORCE

"But our admiration and our sympathy are not confined to the Belgian army. They go out in the fullest measure to the Belgian people, who have endured, and who are enduring now, all the horrors of war, and we do not doubt that they are enduring them in a form which ought to be impossible amongst civilized nations. (Cheers.) Whatever doubt may have been felt among us as to the justice or necessity of our taking part in this war has been removed by what has happened and is happening in Belgium. What has happened there confirms the belief in which we entered upon this war, namely, that it is in reality a struggle of the small nations and of civilization against brute force—a force which is not the less brutal because it has at its disposal the material resources and inventions of science.

DECISION NOT REPENTED

"We do not regret our decision in engaging in this war. The issue was one which no great nation, without undying shame, could have declined. Never has the duty of preserving her national independence been more bravely acknowledged, and never has it been more strenuously and heroically discharged than during the last week by the Belgian King and his people," said Premier Asquith. "They have faced without flinching and against almost incalculable odds, the horrors of devastation, spoliation and outrage. They have won for themselves immortal glory. We are proud of their alliance, and in the name of the United Kingdom and of the whole empire, we assure them that they may count to the end on our whole-hearted and unflinching support."

BRITISH WARSHIPS IN GULF OF MEXICO

Allege Gross Attacks On German Subjects

Kaiser's Press Agents Also Claim Liege Fell on Sixth Day of Mobilization, German Successes Are Grossly Belittled, and Kaiser's Men Are Much Abused.

Special to The Toronto World.

NEW YORK, Aug. 27.—The official press bureau of the German navy department today issued, thru Capt. Boyed, naval attache of the German embassy, who is now in New York, a statement accusing Britain of having made, before the war, "blinding arrangements with France, as well as Russia, also this her ministers had repeatedly and vehemently denied." In declaring that "Germany is fighting for civilization against the barbarism of France," the statement says: "The Russian Poles greeted our troops wherever they came with open enthusiasm and furnished them voluntarily with the best they could afford. In Poland, in Finland, in the Caucasus, and in the Ukraine, revolutions have been started. "All the Austrian peoples, especially the Poles and the Slavic Czechs, declared in enthusiastic demonstrations that they are resolved to take vengeance for the cruel murder of the archduke.

Claim Mean Treatment. "In France and Belgium German citizens were treated in the meanest and most incredible manner. They were driven out of Paris and Antwerp, and in many cases their money and railroad tickets were taken away. They were then left without the slightest protection to the mercies of the mob. All Germans without means have been transported to southwestern France, where they are forced to do work of the lowest kind.

Excesses Against Germans. "In Belgium excesses against German citizens have taken place which should be expected only from savages. Every store owned by a German has been wrecked. Practically all Germans were robbed of their belongings. Many who tried to escape were slaughtered and the clothes torn from their bodies. German women have been stripped, dragged thru the streets

by the hair when naked and shamelessly abused. "In France and especially in Belgium, the inhabitants have attacked and killed small detachments of soldiers, physicians and wounded from ambush. The German Consul in Marseilles was beaten by a mob, and his office was thrown at him. The German Embassy at St. Petersburg has been demolished and in all these cases the police made not even an effort to interfere. "According to trustworthy reports all Italians have been driven from France, after being abused shamefully.

Successes Belittled. "Our successes so far have been grossly belittled or not reported at all. Liege was completely in our possession about the sixth day of mobilization. This is a success that has no equal in the history of the world. On the preceding day an attempt has been made to surprise the fortress with weak forces, which was repelled. Out of this a great and important defeat has been constructed.

Know from Absolutely Reliable Sources. "We know from absolutely reliable sources that the French army intended to march into Luxembourg and Belgium immediately hostilities were started. The neutrality of Belgium was first violated by French military aeroplanes, many of which flew over Belgium in an effort to observe the movements of the German army, without any protest on the part of Belgian authorities."

CANAL GUARD-DESERTERS.

ST. CATHARINES, August 27.—Tiring of military guard duty on the Welland Canal, Private Alexander Hall came to McGuire's second-hand store, tried on a suit and decamped with it leaving his uniform behind. He was remanded on a charge of desertion until Monday, when he will probably be charged with desertion.

SWISS SITUATION ONE OF NEUTRALITY

Entire Army of Two Hundred Thousand Raised as Military Precaution.

DECLARATION ISSUED

Canadians Assured of Safety in Hands of the Swiss People.

The official text of the declaration of Swiss neutrality by the federal council of Switzerland was received yesterday by the Swiss consul in Toronto, Mr. Remy Burger. The consul-general in Canada in sending out the copy of the declaration expressed the hope that Canada should understand the position of the Swiss people, and could be assured that Canadians in Switzerland are safe. The 15,000 stranded Americans who were left in the country on the outbreak of the war were assisted by the authorities, and were provided with special trains to ports of embarkation for their return home.

Forces Mobilized. "Altho maintaining a strict neutrality, Switzerland has mobilized its entire army of 200,000 men, and has them in instant readiness to repel any menace which might threaten the nation. This move was taken merely as a precaution, for fear that their declaration of neutrality might not be respected. All the Alpine passes, the frontiers and the fortifications are strongly guarded. The financial situation is reported as being entirely satisfactory. There were no panics or heavy withdrawals from banks, and a special paper currency was issued to preserve the metal reserves. The Canadian consulate is at the disposal of Canadians wishing to locate relatives or friends in Switzerland.

To Respect Treaties.

"The federal council will not fail to scrupulously respect in the exercise of the rights in question all restrictions named in the treaties, especially in all matters concerning the administration of this territory, the council will endeavor to act in concert with the French Government. The federal council has the firm conviction that the present declaration will be favorably received by the belligerent powers, as well as by the United States, and regarded as an expression of the fraternal love of the Swiss people for the principles of neutrality, and also of the loyal affirmation of the consequences resulting from the confederation from the treaties of 1815."

CANADA BREAD COMPANY SHAREHOLDERS MEET

The President, Cawthra Mulock, States the Policy of the Company With Regard to the Price of Bread.

The annual general meeting of the Canada Bread Company, Limited, was held yesterday when the reports for the year ending June 30th were received and adopted. The president, Mr. Cawthra Mulock, presided at the meeting, and the financial statement and general manager's report was presented by the vice-president and general manager, Mr. Mark Bredin. The proceedings of the meeting were largely routine, with the exception of an interesting statement by the president, who moved the following resolution, which received the unanimous support of the shareholders: "In moving the adoption of the report, the president, Mr. Cawthra Mulock, said: "Gentlemen: Because of the critical situation that we are all experiencing, and the resultant alarming increase in the cost of living, I desire to say a word as to the present and future policy of the Canada Bread Company with regard to its own product. We have all along maintained, and are proving, the desirability of providing the public with a first grade article at a minimum price. "It has been demonstrated that the Canada Bread Company is most efficiently managed, the cost of operation has been reduced from time to time, and it has given to the public a high quality of bread. The business of the company is constantly growing, and I am pleased to tell you that the sales continue to show gains. Your directors are well satisfied with the progress that has been made, and what pleases me the more is that the board has unanimously decided that this year we ask the shareholders to especially consider our obligations to our customers. We will continue to exercise all possible economies, but we do not intend to take advantage of the present situation, and we will endeavor to keep stable the price of bread, even if, on a larger volume of business, there is a possible sacrifice of profits. "I would like to be able to make the statement that the price will not be increased; I regret, however, that I cannot but I do say, on behalf of the company, that we will guarantee the public that no increase will obtain which is not forced upon us by stern necessity. We recognize, both individ-

The War From a New Angle

FROM week to week The Sunday World has told in illustrated articles of the new sciences that have entered into this war, and has featured the fighting equipment of the nations engaged. Next Sunday the War of the Millions will be lighted from a new side.

A SERIES of four or five articles on the history of modern Europe starts this coming Sunday; from these you may get a grasp of the great underlying causes of the world-tumult and insight into the political changes that are certain to begin as the war ends. The first tells in a comprehensive, complete way of the French Revolution, the frightful period of history that some are prophesying will be repeated in Germany. Another striking article this Sunday tells of Frederick the Great, who fought, back to wall, against almost all Europe for seven years. Interesting parallels and comparisons with his descendant, the kaiser, are drawn.

BIG men and big incidents of the present war are pictured or written of also. AN illustrated article that has most interest for women tells of the martial note that has been struck in millinery—at the fall displays will be seen hats that closely copy those of Canadian and continental regiments.

Toronto Troops in Camp and on Their Way

THE going away of Toronto soldiers and life in the mobilization camp at Valcartier are portrayed in many vivid photos. These are pictures of Canadian history, pictures that you will want to send to friends outside The Sunday World's circulation zone, or preserve for the years to come.

The Last News Before Monday

The Sunday World cables give you the last news as the week ends. These cables complete a six-section newspaper that is keenly alive to every feature of public interest as befits a paper entering eighty per cent. of the English-speaking homes of Toronto. Five Cents Every Place.

Most of East Prussia Overrun by Russians

Canadian Press Despatch. ST. PETERSBURG, Aug. 26.—(Via London, 2:15 a.m. U.S.T.)—The Novos Vremya says today that the general staff has made public only the details regarding the striking success to the Russian arms in East Prussia, it is apparent that the greater part of that province is now occupied by Russians and that the Germans are in a condition of demoralization. "Altho no figures of the casualties have been given," the newspaper adds, "the fighting was most obstinate and sanguinary. The German retreat finally degenerated into a rout. The evacuation of the western part of Russian Poland is now virtually complete. The Germans evidently were disappointed and nonplussed by the failure of the Russian Poles to rise against Russia. "The German prisoners are reported to

be indifferent as to their captivity. Near Vlodzki, a Russian peasant was hailed by two German scouts, both of them armed heavily. "Come here; we are your prisoners!" they called out. The peasant, however, distrustful the summons and took to his heels, whereupon the horsemen caught up with him and insisted on surrendering. "Arrest us quickly and take us somewhere to obtain food and sleep," they begged. "Many tales are told of the heroism of the Cossacks. One detachment dashed across a burning railway bridge and fell upon the enemy with such fury that several Germans were cut in two by their swords. The leader of the Cossacks received sixteen wounds, but he boasted that he had put out eleven of the enemy before he fell."

eighty-five, including the captain, are missing. The Magdeburg was blown up. The survivors reached Germany today.

DULUTH-SUPERIOR EARNINGS. Duluth-Superior Traction earnings for the third week of August were \$26,709.33, an increase of \$117.96. Since January 1 earnings were \$225,702.60, an increase of \$42,393.55.

GERMANS FORCED TO DESTROY SHIP

Light Cruiser Magdeburg Ran Aground When Russians Came Up.

Canadian Press Despatch. BERLIN, via Amsterdam and London, Aug. 27, 8:09 p.m.—The German admiralty has issued the following: "The light cruiser Magdeburg ran ashore in a fog on the island of Odenburg, in the Gulf of Finland. On account of thick weather other German warships in the vicinity were unable to render assistance, and all efforts to float the vessel having failed, the captain decided to sacrifice his ship, as a superior Russian naval force was preparing to attack. "Under a heavy fire from the Russian fleet, a majority of the cruiser's crew was saved by the German torpedo boat 'V 28.' Seventeen men were killed, twenty-five wounded and

British Army Man Praised Canadians for Their Answer to Britain's Call.

Lieut.-Col. Aide Bray Hassell of London, Eng., who is visiting Toronto in conjunction with other military gentlemen with the object of purchasing horses for army purposes, when seen by The World last night expressed his great admiration for the manner in which the young men of Canada had answered to the call of the mother country. He spoke in the highest terms of the splendid physique of a Highland regiment which he had seen arrive at Montreal yesterday. When asked as to the manner in which the call had been answered in England, he stated that there was not the slightest difficulty in securing all the men that Kitchener had asked for.

THOUSANDS TO GET JOBS ON ROADWAYS

Saskatchewan Will Take Active Steps to Relieve Unemployment Situation.

Canadian Press Despatch. REGINA, Sask., Aug. 26.—Employment for more than 2500 men in the areas in the west and southwest of Saskatchewan will be found during the fall by the provincial highways commission, who are spending \$500,000 on road work and bridge construction. Many of the road crews are already at work, and by Sept. 1 at least 150 crews of from fifteen to twenty men each will be engaged. There will be from ten to twelve teams with every crew. In accordance with the plan announced by Premier Scott about a week ago for affording relief to settlers whose crops have been a whole or partial failure, the whole of the road organization in Saskatchewan is now being moved into the southwest. Every married man in the districts which have suffered will be given work until he has earned \$15 in wages, and every single man until he has earned \$75. When these sums have been earned the settlers will be expected to stand aside and allow other men to take their place, in order that the funds may be distributed as evenly as possible.

EXPEDITIONARY FORCE OF BRITISH MARINES LANDS AT OSTEND

Still More About Banking and the Money Stringency!

Nothing is so interesting to the business community and to the man in the street as discussion of the financial stringency caused by the war; and how Canada, seeing that we, too, are to get over it. We are as much a belligerent as Great Britain or Germany; conditions of belligerency exist in Canada, and therefore money stringency, unparalleled in our history, prevails.

We give the minister of finance and the Canadian Government every credit for taking measures to ease off the stringency, and offering their services and the use of the national credit to the banks to this end. But the more we investigate the more are we convinced that the relief measures of parliament will be more or less futile if something is not done to improve the status of Dominion notes as against bank notes. We regret to have to say at this moment that we believe that most of the legislation, not only what was passed the other day, but even the legislation which provided the emergency currency some years ago for moving crops and further widened in the new Bank Act, has been for the express purpose of holding back national currency and bringing forward bank-note currency. We believe the time has come when a national currency will have to take the place of a bank-note issue, and especially must this be done in times like the present.

We are even more than suspicious of the legislation of last week, which nominally increases the issue of Dominion notes against which a 25 per cent. reserve in gold is necessary—from \$50,000,000 to \$50,000,000. Our present construction of that legislation is that it allows the government to release \$15,000,000 of the gold reserve now held by it and allows it to apply this gold to its own needs; and in this case our understanding further is that the government will take this gold and deposit it in the Bank of Montreal, and the Bank of Montreal will deposit it in the gold reserve at Montreal, and issue bank notes against it; and instead of there being, as the public were led to believe, an increase in the national note issue, there will be an increase in the bank-note issue; and that therefore national currency will be further restricted and practically put in cold storage! If we are wrong in this construction we will be only too glad to have someone straighten us out.

Be that as it may, we are more and more convinced that it is absolutely necessary to retire the bank-note circulation, and as we expressed ourselves on this point yesterday, we believe this can be done without any great injury to the banks. We would have all the banks deposit their note issues up to the amount of their limit with the government under the provisions of the legislation of last week, and take in exchange therefor Dominion notes, or, as we prefer to call it, government money, and pay not more than one per cent. plus the cost of printing, on such circulation to the extent that they applied for it. We would then have a uniform system of national currency, and a further issue of national notes against securities deposited with the government would be available for the banks, also on the basis of the legislation of last week. This would meet the situation.

Every country in the world is coming to a currency of national notes in place of bank notes. It is the practice in the United States, in France, in Germany in many other countries; and since the war began, put out millions of one-pound notes—straight government money, and just as good as the Bank of England. Out of this practice we are confident there will come a national currency in England in place of the Bank of England notes and gold, and we believe it is in this direction that Lloyd George is now moving.

But we regret that we have to repeat what we have already said above, that even in the legislation of last week, whether intentional or not, and the legislation of recent years, the whole tendency has been to tie up and curtail the issue of national notes and to widen the issue of bank notes. Whatever merit the government relief measures have, to our mind, turns on the fullest and completest use of national notes instead of bank notes. Nor need this hurt the banks.

And now let us come to the clearing house situation referred to in these columns yesterday, and when up to last night had not been straightened out. It turns on the status of bank notes. Although the order-in-council declaring bank notes to be legal tender was passed in the first week of this month, and they have been legal tender ever since in every other place, they are still without that standing in the clearing houses of the banks at Toronto and Montreal! Each bank has each day to settle its balances with other banks in "bank legal" and these are practically gold certificates issued by the Dominion Government. Why should not bank notes be legal tender in the clearing houses as well as "bank legal"? And if this were the case, the banks would be in a much better position to avail themselves of the advantages created by the legislation last week. One great trouble with the banking system of Canada has been this condition of affairs, because, to our mind, it is an absolute waste of energy and, what is worse, paralyzes the efficiency of the banks to meet public requirements.

And we must also regret that, although this question has been before the general managers for a fortnight or more, they have failed, as we said yesterday, to come to any settlement or to provide any rules in this respect. Surely they are not afraid of bank notes which by their own claims are secured by a redemption fund, not afraid of their own bank notes which have been declared by the government to be legal tender? We believe that by that declaration of legal tender the government itself has guaranteed the whole bank circulation of Canada. Why, then, should some of the banks of Toronto and Montreal hesitate in accepting the situation and by accepting it facilitate the assistance the government is willing to give to tide over the stringency?

The delay in this case must come from the quarters that instructed local managers to refuse further advances and press for repayment of loans. This kind of policy will not pull Canada thru the present stringency, and we believe we are not misinformed when we say that the conservative attitude of some of the banks in meeting expressed his surprise at the conservative attitude of some of the banks in meeting the whole situation. We are even told that he is willing to help the loan companies and trust companies if they put up securities with the banks, and in that way enable them to assist building operations and other things that go toward employment. Every municipality and government that can possibly get money at these times for the purpose of carrying on needed public works, and especially ones that call for the employment of labor, ought to be active now in making arrangements to this end.

There is no declaration so good as that of Lloyd George: "We want to keep England going, and we want the banks to help England to keep going, and the government of England will be behind the banks and behind the employers in carrying out this object." Lloyd George has shown himself to be one of the biggest men that ever sat at the head of the English treasury table, and what he is doing in keeping the situation in his own hands. He does not turn it over to bank managers or wait for them to act, but he orders things to be done, and they are done, and as a consequence the rate of loans in England today is almost as low as in times of peace.

The best information that was forthcoming yesterday was to the effect that our minister of finance is more than anxious that the banks of this country take advantage of the offers of help made by the government for the benefit of bank customers. In fact, we believe that at the very time that Lloyd George was lecturing some of the British banks for not assisting business in England, the treasury at Ottawa was addressing a circular to the banks of Canada, expressing surprise at the complaints coming into Ottawa about the refusal of assistance to customers by banks all over the country; and again pressing on banks to help customers by taking advantage of the government's assistance.

In the United States the stringency is as bad as here, perhaps worse; but the banks over there are using reserves to help customers, and they are all getting ready to take advantage of their share of the \$500,000,000 emergency currency now in the hands of the secretary of the treasury for the relief of business. Each local association of banks arrange among themselves to have the percentage allowed to them of this credit to be put up against it. And beyond this there is the early organization of the reserve banks which, as soon as they come into action, will rediscunt any good commercial paper deposited with them by the member banks. And all this \$500,000,000 of emergency currency now in hand and the other hundreds of millions that will come thru the reserve banks is to be in national notes of the United States, or, as the secretary of the treasury calls it, government money, and it is the best money in the world. It is like Lloyd George's government money, and it is the best money in the world. It is like Lloyd George's government money, and it is the best money in the world. What we therefore urge on the minister of finance and the government is that they must at the earliest possible moment get our currency in the shape of national notes and take away for all time the inconvenience and discrimination and the lack of support of business that follow on the use of bank notes when a much better medium is available.

And now to another point. The World has heard of cases in which the Canadian banks have not acted entirely fair with customers. Although there have been difficulties in effecting exchange or payment of maturing bills between here and England, it will require some justification from banks who in instances charged \$6 for the payment of £1 in London. The normal cost to a Canadian merchant for payment in London of £1 is \$4.87, so that by demanding \$6 for the same service the Canadian banks have added nearly 25 per cent. to the merchant's bill of goods bought for settlement in the world's money market. It has always been believed that the Canadian banks had available, by means of, or by means of, a fund in London by which they could take care of obligations from this side; and if this was the case, the banks that have charged exorbitant rates of exchange have taken an undue advantage of customers. Canadian banks hold extraordinary privileges from the Canadian Parliament, and it does not look well for them to take advantage of an unusual situation to exact extreme usury from customers or public whom they are supposed to serve faithfully and fairly. Here is an instance: A Canadian merchant bought goods in England to the extent of £1000; for this when the bill matured he expected to have his bank send to London \$4870. Instead of this, however, he demanded the high exchange rate, as was done in many instances a fortnight or so ago, he would have to remit \$6000, or a loss of \$1130. This amount must be either lost to the importing merchant or paid by the consumer in higher prices for the commodities. It is certain that the transmitting banks lost nothing, and it would be interesting to know where the rake-off went.

STATES TAKES CHARGE OF JAPANESE EMBASSY

Special to The Toronto World.
WASHINGTON, Aug. 27.—The United States, while it has not yet re-

ceived notification of the declaration of war of Austria against Japan, has assumed charge of the Japanese embassy in Austria and will perform the same service for Austria in Tokio as soon as the expected request is received at the state department.

Viscount Chinda, Japanese ambassador to the United States, called up on the secretary of state today but both insisted that no matters of importance were discussed, the call being merely in order that the diplomatist might pay his respects to the secretary as is usual each Thursday.

THE I. O. D. E. WHAT IT IS
The Imperial Order Daughters of the Empire was established during the dark days of 1890, when England was engaged in the Boer War, and when her overseas dominions loyally responded to her call, as they are doing to-day. The aims and objects of the order are primarily to draw the motherland and the dominions over the seas into closer bonds of mutual knowledge and mutual understanding, and to preserve in the hearts of our children the nobility and beauty of self-sacrifice, courage and endurance, to cherish the memory and heroic deeds, to keep sacred the last resting places of our heroes and heroines who have lost their lives for the honor and defence of their country. During the years of peace the order has been most active in educational work and in fighting the dread white plague, and now once more we are called to active service of our king and country—there is much to be done and the order now extends a hearty invitation to any woman or bodies of women to become "Daughters of the Empire." Those wishing to form chapters, will please communicate with the National Secretary, Mrs. Lucas Parke, 238 East Bloor Street, Toronto, who will forward all necessary information.

WILL WATCH OVER WORK OF ENLISTED DOCTORS

Past Members of Academy of Medicine Compose Committee to Care for Practises.
That the fellows of the Academy of Medicine undertake, without charge, the professional care of the needy dependents of men who have gone to the war was one of the resolutions passed by the local body, at a special meeting yesterday afternoon. A committee has been appointed for the purpose of supervising such work.
The physicians also decided to cooperate with the civic authorities in solving the problem of the medical care of the unemployed during the winter months. A further resolution was passed appointing a committee of past members of the academy to make provision for the care of the private practice of doctors who have gone to the front, and for the protection of their interests, especially in hospital or other appointments. A donation of \$1000 to the patriotic fund was authorized by the meeting.

A Fine Exhibit for the Fair.

F. B. Drage.

The marriage took place yesterday afternoon at 3 o'clock in the parish house of the Church of St. Simon, Howard street, the Rev. Edward Cayley officiating, of Helen Huntington Warren and the late Mr. H. D. Warren, son of Mr. Charles W. Band, New York. The party consisted of the bride and groom, with madonna lilies, and all the pillars down to the door were hung with a profusion of white-tipped white asters and asparagus fern. The whole end of the chapel was hung with green curtains, which made a very effective background for the wedding party, and Dr. Harrison played the organ with a violin accompaniment, and the bride was met at the door by the choir, which preceded her up the aisle, singing "The Voice That Breathed O'er Eden." The wedding was a very simple affair. Mr. David Dick of Cobourg, Mr. Gerald Larkin and the bride's two young brothers, Mr. Eric Warren and Mr. Harold Warren, who in company with the best man, received gold pens, knives from the groom; then Miss Carolyn Warren, the bride's sister, and lastly, the bride, who was brought in by her brother, Mr. Warren. She was given away by her brother, who wore a draped gown of soft white silk, trimmed with crystal and pearl tulle, and carried a bouquet of lilies and white orchids, edged with maiden-hair. The bride was dressed in a gown of white Brussels lace, a black plumed hat, and a long veil. The groom wore a tuxedo, and carried a bouquet of lilies and white orchids, edged with maiden-hair.
