Russians Start Heavy Attack on Austrians PARTIES IN PACT TO AVERT German Consul Accused of Plot to Invade Canada

Heavy Fighting Again Breaks Out in Galicia With

vanced Austrian Position, But Later Lost It.

al Cable to The Toronto World. LONDON, Feb. 8 .- Hard fighting, it s learned from German sources, has broken out between the Russians and Austrians on the Galician front, with the Russians doing the attacking. The engagement was started at an Austrian infantry depot, for which the contention was bitter, while the artillery actions have become more vio-

lent in this theatre.

A despatch from Berlin says: "The Russians are again on the aggressive in Galicia according to today's statement by Austro-Hungarian army head-quarters, transmitted here. In one atinfantry position northwest of Tarnopol, the Russians temporarily succeeded in entering the point attacked according to the statement, but were

shortly afterwards ejected. "The position in question was the object of repeated Russian attacks, according to the statement, which adds that, favored by clearer weather, the artillery along the whole northeastern,

or Russian front has been active."
Russians Report Skirmishing.
The Russians, however, in their report tonight, do not mention the undertaking of a big offensive on the Galician front, and they merely easy that cian front, and they merely say that effectively replied to them. A strong party of German scouts, which approached the Russian positions beween the Medmoussi and Demmen Lakes was driven away by fusillades. Russian army observers report that a great many German troops have been

Laurier Interpreted Premier's Words as Warning of Speedy Appeal to Country if Resolution Was Opposed-War Only Half Over in Borden's Opinion.

By a Staff Reporter

OTTAWA, Feb. 8 .- There will be no war time election in Canada. That at least may be fairly inferred from the action of the house of commons today, which by a unanimous vote passed an address to his majesty praying for an amendment to the B. N. A. Act by imperial legislation. The draft bill which accompanied the address, and is made a part thereof, extends the lifetime of the present house of commons until October 7, 1917. The resolution has been sent to the senate for concurrence.

Altho the resolution was expected to pass the house it was anticipated until this afternoon that considerable discussion would arise thereon, and that the opposition would not concur until after a long debate and considerable bargaining, but after a moderate and conciliatory address by Austrians took refuge in Cattaro. A rier, speaking for his side of the house, declared that the resolution pedo the allied vessels yesterday off should be adopted. The decision had the Liberals, but it is said that some of his followers from Quebec threatened to become insurgent, and it was decided to have the house adopt the

resolution as quickly as possible. Borden Gave Warning. Sir Robert Borden, while disclaiming any thought of party advantage, declared emphatically that the resolution must be adopted by a substanon the other side of the house, as a

on the other side of the house, as a party, he said, offered any opposition, the resolution would be withdrawn. "Then it will be for the government to decide what course to take," said the I remier significantly.

Sir Wi frid Laurier, during the course of his speech, warned his followers that unless they concurred in the resolution they must face an electhe resolution they must face an elec-tion, and that they should enter the campaign handicapped by the charge that they had brought on a political contest at a time when all the energies of the nation should be directed to the successful prosecution of the war He said if the resolution was passed he would consider the gov-ernment pledged to hold no

To this statement To this statement Sir Robert
Porden made no reply, and some Conservative members are saying tonight
that the government has a free hand that the government has a free faith at any time in the future to appeal to the country. The general opinion, however, is that the present session will close within a few weeks and that the government will not hold an election until after another session of parlia-

ment.
The prime minister's address was followed with close attention by a crowded house and was frequently interrupted by applause. Sir Wilfrid Laurier in closing declared that Canada must remain in the war until Belgium had regained her independence until France had regained her terriuntil France had regained her territory and the Germans were driven across the Rhine When he concluded

tory and the Germans were driven across the Rhine When he concluded thege was a generous outburst of appliance from both sides of the chamber.

Premier Presents Situation.

Sir Robert said, in opening, that the proposed action was obviously of an unusual character and could only be justified by the unusual circumstances in which we found ourselves. It would be for parliament, after careful consideration, to determine whether it was necessary to amend the constitution of the country so as to prolong the lifetime of the present house. If there were any opposition, if the gentlemen on the other side, as a party, were opposed to the resolution, it would be withdrawn. It would then be for the government to decide what course to take. (Applause from the government benches.)

It had been customary, the premier said, to hold an election every fourth year. In view of the redistribution of seats, the present government would have been quite justified in appealing

For tax purposes the township is divided into two districts. On the eastern division William Pringle received all but \$3 of the total amount due and on the western division, where the work was in charge of W. F. Nicholls, less than \$60 remains outstanding. Reeve Nigh stated last night that the returns created a record and were hailed by the council as indicating great prosperity among the farmers generally. The total amount of taxes would approximate \$30,-000.

The Russians report that engagements on the Caucasus front still continue to redound to their advantage. The Russian fleet in the Black Sea successfully bombarded the Turkish positions in the coastal region, that is, to support the Russian advance along the Black Sea littoral on Trebizond. Sir Robert Borden told the Canadian House of Commons yesterday that the war was not half over. The allies, in his estimation, will not put their full strength into the fray until the middle of next summer.

But in the case of Great Britain, the last million men are being trained, and as the cadres of the new units were formed in advance, it should not take longer than six months to get ready the last reserve, but before that final draft of men is ready, the British army will have placed its maximum-striking force in the field, leaving an adequate force of well and partially trained men behind it to fill the gaps in the ranks as rapidly as they are made after the fighting has begun in earnest. That is, the British organization will have to supply a constant stream of about 30,000 men a week to replace casualties.

Russia, it is said, will wage a strong offensive war as soon as she brings up her field forces to a strength equal to two-thirds of the German and Austrian. Two or three months ago it was said that she was still short a million and a half rifles, but these were being delivered at a steady rate. But when she will have her new armies fully equipped, only the war ministers of the allies and the Russian general staff are aware, and it is this uncertainty which is worrying the Germans. That is why the Wolff Press Agency periodically supplies estimates as to the number of prisoners For Convalescents of war, which are wholly unreliable, and even absult. In the summer to 1915 the Germans claimed that they had two million prisoners of war; in of war, which are wholly unreliable, and even absurd. In the summer of the autumn, three millions, and in February, 1916, they have scaled this down by more than fifty per cent.

German figures of the number of war prisoners that they have taken tone, the same are rendered undependable by their habit, also adopted by the Bulgarians, of seizing any unfortunate enemy civilians whom they may encounter, and blood-making and putting them down as war prisoners.

## NATIONAL TRUST IS IN FLOURISHING CONDITION

Reports Showed an Increase in Assets of Seven and a Half

TEN PER CENT. DIVIDEND

W. Flavelle, President, and Sir L. M. Jones, John Aird and J. W. Woods on Directorate.

A ten per cent. dividend and a general flourishing condition of affairs was reported in the financial statement for 1915 presented at the annual meeting of the National Trust Co., Ltd., yesterday. J. W. Flavelle, president of the Organization, announced that there had been an increase of assets amounting to \$7,637.806 during the last year.

The net profits, after providing for the cost of management, salaries, advertising, cost of auditing and all other expenses, were \$229.152.99. With the addition of the \$54,657.47 brought forward from 1914, a total of \$283,810.46 is on hand. This enabled the company to declare the dividend of ten per cent. payable quarterly, amounting to \$150,000. To write off the company's office premises took \$50,000 and subscriptions to the patriotic, Red Cross and other funds total \$11,250. There is left to carry forward in the profit and loss account for 1916 the sum of \$73,560.46.

President J. W. Flavelle occupied the chair and J. C. Breckenridge, the assistant manager, acted as secretary. The names of Sir Lyman Melvin Jones, John Aird and J. W. Woods were added to the board of directors.

The general statement showed a capital account of \$3,140,543.48, a guaranteed trust account of \$6,986.333.04, and estates, trust and legacy accounts totaling \$49,205,608.68, making a grand total of \$59,322,485.15.

President Flavelle's speech in moving the adoption of the report commented on the remarkable prosperity in Canada durinstitutions had shared in the general prosperity, and he was able to report that the National Trust Company had enjoyed its share. The shaence of a large part of the staff of the company on active service had augmented the task of administration of assets.

Regret for the death of Alexander Laird was expressed by Mr. Flavelle. The appreciation of the board for the service rendered to the company by the resident directors at Montreal and Winnipeg was voiced by the president.

Mr. Rundle, the general manager of the company, also addressed the shareholders. He company is admin

reported for 1914, which was \$7,637,806.10 less than this amount. Another point which he emphasized was that the assets of the company had increased 150 per cent. within the last six years. The large grain yield in western Canada was said to result not only in very satisfactory payments of interest on the company's mortgages, but also in substantial reductions of principal.

The advantages which a corporate executorship has over a private trustee were

ecutorship has over a private trustee were illustrated by Mr. Rundle, by the fact that the company, in its capacity as executor, trustee, etc., made many temporary advances of its own funds for the protection of the trust estates.

## RECRUITING SITUATION IS MORE ENCOURAGING

City Council Names Committee to Regulate Insurance of All Soldiers.

**NEWS FROM HAMILTON** 

Death of Capt. Frederick Gates McLaren is Much Regretted.

HAMILTON, Wednesday, Feb. 9 .-Recruiting is daily taking an upward rend here to such an extent that the military authorities are becoming ubilant. The raising of the 173rd Highland Battalion coupled with the innouncement of the Tiger Battalion appears to have had the desired effect stimulating recruiting here, with the result that all the units stationed here are equally reaping the benefit.

Up to ten o'clock last night sixty apolicants passed thru the depots of the 3th Royal and 91st Highlanders. The 173rd received 36 men and the 120th received twenty, while the remaining four were signed up by Lieut. Mills for the 47th Battery now in training at the Exhibition Camp.

Leaving the Tiger Battalion out, as

t has not commenced recruiting, there s still nearly a total of 1500 men needed to bring the three units here up to strength. The 178rd is now about 200 trong which means another 1000 men City Battalions Needed.

The 120th Battalion's parade state is 844 men, making another 306 men necessary. Lieut.-Col. Stewart wants

approximately 80 men to complete his unit and Lieut. Mills of the 47th Battery has authority to recruit another

35 men.

Insurance Committee.

Final action was taken by city council last night regarding the formation of the Hamilton soldiers' benefit fund commitee, and the pessing of a bylaw respecting the insuring of the soldiers. The committee will be composed of Mayor Walters, W. R. Leckle, city treasurer; J. P. Bell, W. S. Connolly, Lt.-Col. A. F. Hatch, Walder Parke and Geo. C. Coppley.

A cablegram received yesterday from Havre, France, announced the death in a military hospital of Capt. Freder-lick Gates McLaren, youngest son of the late Lt.-Col. Henry McLaren, former commanding officer of the 13th Royal Regiment. The announcement was not unexpected, as word was received on Saturday that his condition was serious. He was well-known here, being on the staff of the 13th Royal Regiment previous to enlisting for overseas service. Three of his brothers are at present serving the colors.

William Henstridge, president of the Ward Eight Improvement Society, ap-peared before the board of control again yesterday and urged that steps be taken immediately to have the gas supply for East Hamilton increased. He was informed that the board is at present dealing with the question and will hold a conference with the gas of-ficials on Friday in an effort to have the situation improved.

#### RED CROSS CONCERT BY HIGH PARK CHURCH CHOIR

One of the most successful Red Cross concerts held in this district during the season was given by the choir of High Perk Avenue Methodist Church last evening. Notwithstanding the stormy wea her the spacious church was packed to the doors.

The work of the choir, which was corducted by H. S. Martindale, was splendid, and the Sabbath effect seemed to disappear entirely. "The Horn" by Fleger, sung by Ruthven McDonald, with his usual effectiveness, was well received, as was his second number, "The Cedevin Love Song" by Pinsu i. Miss Hazel Byram, violinist, was encored for her artistic rendering of "Spanish Dance" by Hersche. "The Hunting Tower" and "My Old Dutch," humorous contributions, by Wm. McKendry, were both as preciated numbers. Miss Alice Rowe, tributions by Wm. McKendry, were both appreciated numbers. Miss Alice Rowe, scoparo, sang Delibes' "Les Files de Cadiz with excellent voice. "Three Fishers" by Hullah, sung by Miss Pearl Steinhoff, contralto, was a feature of the oregram. The soprano voice of Mrs. F. Danks was heard to advantage in Arditi's "Il Bacio." Miss Grace Irwin, planist, rendered "Love Waltz" by Moszkowski with a pleasing touch. "The Bandolero" by Stuart, sung by Sidney Smith, bariwith a pleasing touch. "The Bandolero" by Stuart, rung by Sidney Smith, baritone, demanded an encore. H. Ru herford, tenor, ably assisted the choir in Elgar's "Land of Hope and Glory."

Dr. Vo tgoccupied his usual place at the organ.

## PREDICTS SWEEPING VICTORY FOR HYDRO

Sir Adam Beck Points Out Benefits of Radials to Residents of Meadowvale.

Sir Adam Beck, addressing a large gathering of the residents of Meadow-vale and Toronto Township last night, dealt at some length with the provincial hydro-electric matters and stated in passing that the service rates as already stated at other meetings would be reduced from \$2 to \$1.50.

Sir Adam cited the success attending the hydro-electric as a guarantee that the same care and forethought would be incorporated in the Toronto-Hamilton radial line. Lower passenger and express rates, and rapid transit were some of the benefits which would follow the building of the new line, Sir Adam also spoke on financing the road and was accorded a splendid reception.

T. Hannigan of Guelph, chairman of the Ontario hydro-electric municipalities, told of the success attending the London-Port Stanley Railway, and predicted that the bylaw would carry in all the municipalities on Saturday by large majorities. The meeting was presided over by Reeve McCaugherty of Toronto Township.

Returned Soldier Demonstrates That Expert Knitters Are Not All Women.

#### CAMPAIGN NEARS CLOSE

Every Citizen Can Help in Some Way to Bring Comfort to Canada's Soldiers,

A pair of sox knit by a returned soldier came into The World yesterday among the donations, and. judging from the workmanship, the knitter would be a valuable asset to our work-room on the fourth floor. It is quite evident that the expert knitters are evident that the expert knitters are not all women, and the convenor wishes to state here that any man wishing to give his services in this capacity will be welcomed. Come along, you men knitters and do your bit! The response to yesterday's request was splendid. The men took up the challenge and arrived early in the day with bundles of your and good wool lenge and arrived early in the day with bundles of wool, and good wool at that, quite as nice as an experience! "shopper" would purchase. We want more men to help in this work. All that is necessary is the purchase of one pair of sox or a pound or so of wool—six ounces, if you like, for this amount will make one pair of sox.

And we wront the wormen who have mool—six ounces, if you like, for this amount will make one pair of sox.

And we want the women who have not already done so to lend a hand in the work for the remainter of the week. If you cannot knit, come and learn, and if you "haven't time," at least take time enough to encourage your friends to help along the good work. Remember, it is for the boys in the trenches that the sox are being collected, and try to imagine how many thousand pairs are needed. Then you will have some idea how much your will have some idea how much your donation is going to help.

Tuck a little message with your name and address into the sox and wait for a reply. It will come with the thanks of the boy in Ichaki. Please address all donations to Miss H. M. Ball, "Sox Day" convenor, World Building, 40 West Richmond street. Send it today! Now is the time to respond. For any further particulars phone Main 5305, or Parkdale 4971.

#### MILITARY TRAINING METHODS IN FRANCE

Madame Rocherezu Tells Women's Press Club How Officers Are Made.

Madame Rochereau, wife of the French consul, gave a most happy and nteresting address at the Women's Press Club yesterday afternoon. She told of the Secours National and something of what the organization had done in Toronto. In this connection she gave special recognition to the press, without which it would have been impossible to accomplish half the things done.

Perhaps the most interesting portion of the talk was that which told of the methods of military training in use in France. Every man must train. The officer must first secure his scholastic equivalent to our degree in arts. Then follows a three-year course, with written and oral examiations. About six thousand candidates present themselves annually severe is the test that only about three hundred are successful Then a year in the ranks follows, during which period the man who will later command, has a trial of every degree of menial or other necessary labor. The spirit of comradeship in the French service is one of its de-lightful phases, the soldiers generally

#### Transforms Complexion; Wins Social Favors

"Had I been unable to transform my complexion so quickly, so completely, by a unique process I had just learned of, I never could have attended the Charity Ball." A certain social favorite, a picture of loveliness at the great event, told me this. "I had been much run down," said. "When I beheld myself in the mirror after a night's troubled sieep, I saw I was becoming heavy-eyed and paie. I could not take, and attend the ball, the long rest my physician advised. A friend suggested I get an ounce of mercolized wax at the druggist's and use it as I would cold cream. I did—the result is apparent. In a week I had a new complexion. The wax took off the old skin so gradually there was no discomfort. Now you see the fresh, bright underskin, with its youthful glow and expression." # Who Shall Control ? Your Private Life.

O you propose to be robbed of your freedom as British subjects or not? That is the plain issue in this Prohibition campaign. It is not wnether you may drink a glass of beer: that is a minor matter. It is whether a body of men, obsessed with one idea and working upon the excited enthusiasm of their followers, shall presume to control your private life. For, if they do this in one thing. why not in everything? That has always been the story of these assaults upon personal freedom, and history is full of them: an attack upon one particular point and then gradually along the whole line.

Puritanism in England and the Blue Laws of New England are instances in point.

The men who are opposing Prohibition to-day, therefore, are fighting exactly the same battle as are the Allies; for Liberty against Tyranny.

HERE are several things, also, to be remembered in this connection. First, this contest has nothing to do with individual abstinence. Many of the strongest opponents of Prohibition are total abstainers. Every man has a perfect right to be an abstainer,. and in some instances duty may demand this of him. Again, this question of Liberty is entirely apart from the religious phase of the subject, for even the most ardent Prohibitionist will not claim that he is supported in his position by Christianity or the Bible. Again, Provincial Prohibition is heralded as being but a step towards the Absolute Prohibition throughout the whole Dominion of the manufacture and importation of alcoholic beverages. Now, does anybody in his senses believe that this could possibly be enforced when it is the easiest thing in the world for anyone to make whiskey? Especially in Canada would it be unenforcible, with its enormous and open frontiers. The Dominion would certainly then be the favored home of the "Bootlegger," "Blind-pigger," and "Moonshiner."

Do you intend, then, to forfeit your Liberty, won through centuries of struggle, or do you not? That is the question: no more, no less.

It is unlikely that two at- port by Canada of the cause of the tacks are to be launched at the same allies against Germany? time, one on the east and one on the west front. If the kaiser could manage it no doubt he would start both together. In order to keep his empire in good heart he must start something. The probabilities look like once more as the objective.

As a matter of fact artillery actions of a violent character have been proceeding for some days, and there is a more or less reliable yarn about another dashing forth of the German fleet from Kiel, which is customary when from Kiel, which is customary when military action is contemplated. Germany of course, does not wish the tributing to the defeat of the central do. But the allied airmen have been may be.

The B German troops and there has been one of the organizations which have concentration behind the German been active and there is no mincing of trenches. The allied artillery has been words in the declaration of the objects active also, and the cannonading has in view. Huge petitions are being been equal to anything in the war.

The German intention is probably to encourage Bulgaria and deter allies. Should Germany be able to to the side of Germany, and stir up from a Canadian point of view, and it more trouble in the east. In no other way can the kaiser hope to influence success. The stake is worth playing Perhaps it is because the South Afrifor, and if he could win it, the war would be prolonged indefinitely. Even the capture of Calais would not

mean the defeat of the allies, but it would add infinite difficulties to a task already difficult. In the face of all these things it seems inexplicable that any one eligible for enlistment should hang back. The fate of what British people understand by civilization hangs in the balance, yet there are many who have not yet thrown their weight into the scale. All that is needed to overwhelm the German armies are the men who are hanging back when they should be enlisted and in training for the front. Should the war be prolonged these slackers will suffer far worse privations at home than ever they would on the battle

#### Insurance on Government Buildings

Why does the government not insure its buildings? is a question which has been asked by a number of people. The answer is one which should not upset the susceptibilities of the insurance men, nor mislead the public generally into doing what the government does under conditions which the public generally do not enjoy. Many large firms carry their own insurance, setting aside year by year in a special fund what they think would be a fair premium on their risk. This is true of several large maritime concerns. It has been found to work well in the case of very large businesses with extensive premises where an almost military rigor of guardianship is enforced and every appliance is kept that could be needed in case of fire. The experience of the government

has shown that it can carry its own risks as profitably as by paying out premiums to a company. Had the government paid out insurance premiums for the last forty years it is a problem depending on the size of the payments whether the amount would not have been greater than the loss now sustained.

There have been large amounts spent in watchmen's services and in other ways for protection of the parliament buildings and usually such protection has been wholly effective chquirers should figure out the amount of insurance which would have been paid at regular premium rates on Westminster Abbey or St. Paul's Cathedral or the Tower of London since they were built, in order to un-

#### Canada's Poor Policy on Nickel

(Editorial, Sudbury Mining News, Feb. 4.) It is difficult to understand how Canadian citizens or British subjects can take any other view of the nickel situation than that advanced by Mr. Maclean, in his speech in the house of commons or Feb. 1, and, if there is a place in the British Empire where this opinion should be unanimous, it is in Sudbury. Yet we find a few men, who consider themselves fairly prominent, and who profess to favor retining in Canada, continually casting doubts as to the possibility of recourse, absurd, and are merely excuses with the idea of delaying one inevitable. The nickel trust is making enormous pro-

The nickel trust is making enormous profits out of the war, and their parriotism towards Great Britain may be gauged by the increased price per pound for nickel and a doubling up of the first which it seems mighty poor business to allow a foreign corporation, among whom, it is alleged, are German stockholders, to exploit our nickel lands, without the slightest restriction and under only a norminal tax. It would not be quite such slightest restriction and under only a nominal tax. It would not be quite such a raw deal if the complete process were done in Canada; that is, from the mine to the market; but it is certainly rubbing it in when the refining part is accomplished away down in New Jersey. The only really satisfactory method would be for the government to take complete charge of the refining end, and then to place a prohibitory embargo on anything but refined nickel leaving the country. What objection can there be to this What objection can there be to this course except from those directly interested, and from those who may be in some way or another in the pay of the

#### OTTAWA FIRE AND SPRINKLERS.

Editor World: In August of last year the writer, with Chief Smith of Toronto Fire Department, attended the convention of fire chiefs held at Ottawa. He and I took a trip thru the parliament buildings, and we were much struck with the general layout of the buildings.

We satisfied ourselves that a fire could make great headway, owing to from them, with nothing in the way Now, Mr. Editor, if those buildings had been fitted with a sprinkler system, I venture to say the fire would been held within bounds until he arrival of the fire department. Just here let me say that the Ottawa Fire Department is second to none on the continent, considering the number of nen and apparatus they have. The writer is in charge of a private

tire department, where the entire plant sprinkled, and we know something about what sprinklers will do. A well cared for sprinkler system is without doubt the best automatic fire extin-guisher before the world today; the sprinkler is always on the job and never sleaps.

The writer was surprised at the num ber of fire chiefs who knew nothing practically about sprinklers—in fact. looked upon them as a fad. A paper on sprinklers, their care and efficiency was read at that meeting by the writer, addition an exhibition of sprinklers under fire conditions was given, and I assure you it was a revelation to those present.

## Zinc, the Spectacular

The metal profits of the United States | on. Britain. Britain had for a time to in 1915 put zine at the apex. According to The Engineering and Mining Journal of New York (Jan. 8, 1916) the dividends ciliate our neighbors across the line. of mining companies (iron excluded) in But for the sturdy and ever-ready but 1915 were \$75,000,000, the largest in almost lone voice of Roosevelt upholds. history. Included in these are a few re- ing Britain's righteous cause and deturns from those deriving a profit from zinc and these in the cases named will not exceed \$3,000,000, leaving the profits cans, the situation would be very cristpaid on gold, silver, lead and copper at \$72,000,000. To these must be added the numberless small mines whose profits are never reported and these we may fix at a guess at \$14,000,000, and we must add as much more as extra profits made and not distributed in so prosperous a political factor or party in Canada is alive year. These companies reporting own to this and elso doing all that ought to practically all the smelters treating gold, be done to make the British Empire ab. silver, copper and lead, so that the combined profits for mining and smelting these metals may be fairly put at \$100,- ter with what nation or nations it is at 000,000 for the last year.

Compare zinc with that showing. All | raised in parliament, but nothing the zinc smelters are close corporations and many are controlled by iron producers like the U. S. Steel Company. No one outside their officials knows what their profits are. Also they control most of the big producing zinc mines. How shall we know then the profits

of zinc mines and smelters in 1915? Very easily. The average cost of smelting and the average cost of the ores are oughly known. These total costs are around three cents a pound of spelter (ordinary zinc ingots) produced. The production of spelter in each year and the daily market price are known. Taking The Journal's computation of these for each quarter of 1915, we get a total of 994,990,000 pounds of zinc and average prices, in the four quarters of 7%, 142-5, 15 and 14% cents per pound. prices are believed to be lower than the prices actually obtained, but accepting them the total value was \$122,326,626, the cost of producing the ore, smelting and transportation at three cents a pound was \$29,549,700, leaving as net profit the enormous and astounding sum of \$102,-876,926, or a greater profit than that made on the mining and smelting of all the gold, silver, copper and lead produced in the country last year. No real nformation of these stupendous profits will be found, in any of the mining or financial journals and The Journal quoted above, which is popularly believed to be, more or less, of a hand-maiden of the smelter interests, is not silent in suganyone thinking of breaking into the for want of a local smelter, means an zinc smelting preserve. Suppose in some such way Britain's supply of zinc (as well as con per and even our own nickel) were cut off, where would she or France get enough supplies, without which they could not successfully carry on the war? What sclutely able within its own borders to furnish every requisite it needs no matwar? Two or three lone voices the to carry out one member's idea and make our nickel a state monopoly, supplying ourselves and friendly governments, would bring, besides these advantages, a very large financial one.

As to zinc, the Consolidated Mining Company, a protege of the C.P.R., three months ago got a move on at last and will produce at its smelter at Trail, B.C. by an electrolytic process, from its own complex (silver, lead and zinc), ore, a limited amount of high-grade spelter this year. Had it started this a year ago, its profits in 1915 would have been augme ed by a million dollars. Its total profit for 1916, with lead and copper prices so high, should not be less than thirty per cent. on its capital, and the price of its shares is likely to go to 300. But its zinc plant will not open up the independ take care of the great growing tonnege that can be offered if a fair price be paid for the ore. At present all the zine ore of British Columbia is shipped to the United States smelters, and of the extra war profit, these smelters are taking two. ore as low even as 33 per cent. zinc, with zinc now 19 cents a pound? It means a net profit of \$20 or so a ton to the mineowner-a fat profit, truly. But at that price he ought to receive at least \$40 more. For a year of 310 shipping days and 19-cent zinc, this extra rake-off by the smelter would equal \$800,000. Also gesting now and then a possible loss to the duty on this ore and the extra freight. other loss of \$10 or more a ton, and a corresponding gain to the customs trearather low for cost of production, it must sury and the railways of the States. The prime minister said that upon his return from England he told the leader of the opposition what he had learned as to the probable duration of the war and conferences and correspondence between them had followed, he object being to agree upon some plan by which a war-time election could be avoided. The correspondence would not be made public at this time.
As to the result of the conferences the
prime minister said that Sir Wilfrid

An Eloquent Appeal. In conclusion, after deprecating the evil effects of a party contest during the war, Sir Robert said: "One who has seen 150,000 Canadians under arms, the very flower of the country's youth, whether on the plains of Valcartier or at Shorncliffe, or heading for the trenches in Flanders, one who realizes to the full the uplifting spirit of unity and patriotism which has animated the Canadian people ever since the empire sprang to arms, cannot but shrink from taking a course which would pour upon the glowing fire of united patriotic endeavor the waters of party strife and bitterness. It is for this reason, and in this spirit

that the government submits this proposal to the house for its consideration

and its approval, in the hope that the

that he would not oppose, or even criticize the policy of the government so long as the enemy was at the front. Since that time there had been a general understanding that an election during war time should be avoided. The war, however, has lasted much longer than wel had anticipated. But how long would the war last? Answering this question. Sir Robert Borden declared that the war was scarcely more than one-half over. It would certainly last all thru 1916, and might not be concluded until the fall of 1917. Lord Kitchener's prediction that the war would last three years would, in all likelihood, be verified.

"It is astounding," said the prime minister, "in view of their preparedness and our lack of preparation that the German-Austrian alliance did not win the war within three months. Their feilure to do so spelled de-However, Sir Wilfrid said, the feelers thus put out elicited an unwelcome response from the people. The people were irritated and disgusted by the fact that the government, instead of devoting isself to the prosecution of the war, was planning party politics and political advantage. Therefore, he was not surprised that when parliament assembled last month. His Royal Highness was made to say that a war-time election was most undesirable and that the lifetime of the parliament should be extended.

Opposed Indefinite Extension. Referring to the negotiations between himself and the prime minister. Sir himself and the prime minister. Sir Wilfrid said that he had declared himself unalterably opposed to an indefinite extension of the parliamentary term.

The principle of periodical elections must not be put in jeopardy, nor should the parliament by its own action attempt to overthrow the supremacy of the electorate. If there was an extension it must be for a definite period. When parliament assembled he had conferred with his followers in the house respecting the advisability of consenting to a postponement of the general elections until the fall of 1917. His followers were not a unit on this subject, but they had asked him to decide for them and he had accepted the responsibility. Evidently the Conservatives were not a unit on the subject because he observed that, while the prime minister quoted freely from Liberal newspapers, he apparently deemed it inadvisable to quote some of while the prime minister quoted freely from Liberal newspapers, he apparently deemed it inadvisable to quote some of the leading Conservative newspapers of the country.

"If we pass this resolution, I take it as a pledge from the government that we shall be delivered from the threat which was held over our heads last year of an instantaneous and premature dissolution. If the government asks us to prolong the life of parliament, I think there will be no election until the fall of 1917."

Turning to his own followers Sir Willer.

other part of the British Empire. The task before us was stupendous. We must remember that before this war many authorities doubted if Great Britain could put an expeditionary force of more than \$0,000 men in the ledt; 160,000 was the largest force ever contemplated. Yet Canada had armed and equipped and sent overseas 125,000 men in eighteen months.

therefore, definitely limited the term of parliament and had provided for annual sessions. They even went so far as to deprive the Dominion Parliament of any power to ignore or disregard these elementary safeguards of parliamentary government. It would, therefore, be impossible, no matter how urgent the necessity might be, to extend the life of the present house beyond Oct. 7, 1916, without imperial legislation. It was always a serious matter to amend the constitution of the country. The constitution was the ark of the covenant, in which the tables of the law were enclosed and no one could touch the same except at his peril.

At the same time, Sir Wilfrid went on to say, there was and bad been a growing disinclination among the Canadian poople for an election during war time. They felt, and rightly felt, that all our energies should be directed to the successful prosecution of the war. This feeling had no doubt been aggravated by the uncertainty as to the intention of the government and by the threats heard from time to time of an early election.

Cause Unknown and Damage of Three Thousand Dollars Done by Water.

Fire of an unknown origin caused \$3000 damage to the plant of the Ideal Bedding Company, 10 Jefferson ave-

nue, about 9.30 last night. The blaze was discovered by an employe when leaving the building. He ran back and apprised the firemen of Cowan avenue firehall of the occurrence by telephone. The blaze started in the picking room among a quantity of matting. The heat operated the sprinkler system and the blaze was extinguished. The loss is principally due to water.

## Rheumatism

Remarkable Home Cure Given by Who Had It—He Wants Every Sufferer to Benefit.

Send No Money-Just Your Address. Years of awful suffering and misery have taught this man, Mark H. Jackson of Syracuse, New York, how terrible an enemy to human happiness rheumatism is, and have given him sympathy with all unfortunates who are within its grasp. He wants every rheumatic victim to know how he was cured. Read what he says:

'I Had Sharp Pains Like Lightning Flash Shooting Through My Joints." Shooting Through My Joints."

"In the spring of 1833 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheamatism, and it effected a cure in every case.

These Teams Left to Play Semi-

ond Ontario Tankard competition. Granites beat St. Thomas all the way, finishing strongly. They had the bye in the afternoon. Lindsay also outplayed Paris in the preliminary, and likewise put away Bright in the next draw. The veteran J. D. Flavelle is an absentee. With a whole day's practice on Victoria ice, Lindsay will give the Granites, who played their only game over at Lakeview, a battle worth seeing. The winner of this should land the Tankard.

Owing to the death of a relative, Fred Kerr had to drop out of the Queen City ranks. However, the veteran Bill Philip was, a stalwart substitute. He capably held his own in the morning against Dr Hayes, while R. B. Rice ran up a score on Col. McKenzie, and Sarnia was out of the running. The fast westerners were away ahead in the early ends, and looked like winners. Skip Philip came to the front in the afternoon and fairly outplayed another old-timer and all-round good sport, W. A. Boys of Barrie. Philip scored seven the first two heads, and had a margin of an even dozen at the finish, which just gave Queen City a victory by two shots. Orillia triumphed over Hamilton Victorias by three shots in the preliminary, due to Stewart's win over Burrow, as Dr. Harvey was one behind Muir. The result was a tic at eighteen ends. In the extra head, Stewart scored two and Harvey one. In the afternoon Orillia stacked up against the famous fishermen of Meaford, and again Skip Stewart won the day. He had the Pilgrems to fight, and won by 16 to 13, Skip Willie scoring several misses. Dr. Harvey held Stephens to a tie.

oral misses. Dr. Harvey held steplents to a tie.

Orillia goes down to the Granite Rink to play the semi-final with Queen City, and if Lindsay loses over at Victoria, it looks like two Toronto teams to play off the final, a phenomenon that has never occurred in the history of curling for the historic provincial trophy.

Napanee made a game fight, and went down in the preliminary before Bright by three shots. Newmarket also retired the first game, being 15 shots behind Barrie Thistles all round. Guelph Union likewise failed to win a game, Meaford finishing up on both sheets.

The ice, of course, was keen, and, like all Toronto checkered surfaces, as perfect as possible, with plenty of draw.

Season Opens Nine Weeks From Today-Minor Amendments to the Rules.

Today—Minor Amendments to the Rules.

NEW YORK, Feb. 8.—The most important action taken at the opening session of the National League's reconvened annual meeting here today was to increase the power of President Tener by a constitutional amendment, which provides that in the case of protested games there shall be no appeal from the executive decision. In the past there has been much haggling over the findings of the president on disputed games, and in many cases appeals have been taken to the board of directors, which did not always support the executive. The amendment was submatted by President Drefuses of Brooklyn would prohibit any club from having more than 2000 25-cent bleacher seats. At present the Boston Club has 10,000 such seats, which preceded the league meeting, Percy the decision of Boston, Mr. Haughton of Boston of Boston methods are the league meeting. The following members were present at the league meeting: Boston, Mr. Haughton and W. E. Hapgood: Brooklyn, Mr. Ebbets; Chicago, Charles Weeghman; Cincinnati, August Herrmann and Thos. Cogan; New York, Harry Hempstead. Ashiey Lloyd and John B. Foster; Pittsburg, Barney Dreyfuss; St. Louis, Mr. and Mrs. Schuyler B. Britton.

The schedule drawn up by Mr. Dreyfuss was adopted. It includes only three conflicting dates, all Sanday games in Chicago, which are the fewest conflicts ever scheduled.

The following umpires were appointed for next season: Robert Emslie, Henry O'Day, William Kiem, Charles Rigier, Mal Eason, William Byron, Ernest Quigley, and Peter A. Harrison. The last named came from the International League. Al Orth will be retained as utility umpire. It was voted to change the official diagram of a baseball diamond in the official rules to correct errors discovered by the Esten of the Mary Vork Chrb. in a

All National League diamonds will be re-surveyed before the 1916 season starts, and certified reports of the surveys will be sent to the president of the league.

Mr. Dreyfuss proposed an amendment to the playing rules, requiring that the shortest distance from the home plate to the outfield fence on fair ground shall be 270 feet, instead of 235, as now stipulated. The amendment was submitted to the National Commission, as it deals with a subject both major leagues must vote upon.

#### Willard and Moran Will Fight Early in March

NEW YORK, Feb. 8.—Jess Willard, world's heavyweight champion, and Frank Moran will meet in a ten-round bout at Madison Square Garden here on March 8 for a purse of \$70,000, it was announced tonight by Tex Rickard, promoter of the match.

promoter of the match.

The date originally agreed upon was March 17, but it was changed because Madison Square Garden, the only available place for holding the match here, had been previously engaged for that date. Rickard said tonight that the board of directors of the Garden had agreed to accept \$7500 for its use, with no percentages.

While a tentative agreement already had been signed for the bout between Tom Jones, manager for Willard, and Ike Dorgan, representing Moran, Willard anounced that Jones and Dorgan would meet again tomorrow to sign the final articles.

## STRONG IN NATIONAL

Tinker Has Rounded Up a Formidable Outfit - Ball Gossip.

Feds.

Tinker will bring over a good catcher in Fischer and a couple of good outfielders in Flack and Zwilling, both of whom went to the Feds after being drafted or purchased by major league clubs before the season of 1914. He also has a pretty good shortstop, and evidently intends to use him, as he has released Bob Fisher, who was an excevent hitter but a very uncertain and erratic fielder.

Joe has shown himself to be a hustling

The transfer of six players of the St. Louis Browns was announced yesterday by Fielder Jones, manager. Outfielder Wm. Lee, Pitcher Ernest Herbert and Infielders Al Bridwell and Art Kores will go to the Nashville team of the Southern League. Outfielder Dee Walsh goes to the Louisville American Association team, and Pitcher Charles Watson to the Sioux City Western League team. Jones retained the right to recall Lee, should he "make good." The others were solv outright.

The itinerary of the Chicago Cubs during the training trip is announced. Twenty-nine players will leave Chicago March 5, and arrive at Tampa, Fla., March 7. The Cubs will go to St. Petersburg on the 18th, and play the Philadelphia Nationals, and on the 20th and 21st the Philadelphia Club will play the Cubs at Tampa. The next day the clubs go back to St. Petersburg for a game. Philadelphia again comes to Tampa on March 27. Chicago goes to St. Petersburg the next day for a final game.

Jimmy Callahan, new manager of the Pittsburg Pirates, says he may have his players practise without gloves in the spring. Callahan says some players, after a winter of rest, are too enthusiastic and cut loose before they are ready, running risk of putting their arms out of business If players are forced to perform without gloves they will slow down, says the Pirate chieftain.

Nothing stands in the way of J. Franklin (Home Run) Baker playing with the
Yankees this year and using his big bat
driving in runs, except three things.
Captain Huston enumerated these three
reasons yesterday, as follows:
First—The money that Connie Mack,
part-owner and manager of the Philadelphia Athletics, wants for the release
of the man who "hits them where they
ain't."
Second—The amount of money. \$10,000

ain't."

Second—The amount of money, \$10,000, which Baker demands from Connie Mack as his share of the purchase price.

Third—The salary which the farmer of Trappe, Md., wants spread out in bold-face type in his contract with the New York Club.

Apart from these little things, nothing absolutely nothing, stands in the way of the home-run king playing with the Yankees.

Jack Dunn has bought Outfielder Tut-weller from Cincinnati.

## WESTERN TEAMS ARE

CHICAGO, Feb. 8.—The National League pennant seems to have an excellent chance to come west this season. All four of the western teams are rounding up in good shape, and they appear to have the edge on the eastern quartet. The Cubs will profit to a considerable extent by the consolidation with the Feds.

## FOR ANOTHER SEASON

There was a large attendance of delegates at the annual meeting of the T. & D. F.A. on Monday night, and despite numerous enlistments on the part of the players the prospects for the coming season are very hopeful. A very important change was made in the constitution. The formation of the leagues as they were last season was suspended, and the game will be played underwar conditions. The number of directors was increased from five to ceven. Lieu. Col. Greer of the Sportsmen's Battalion was present, and intimated that he would welcome any soccer players who thought of enlisting.

The election of officers resulted as follows: Hon. president, His Worship the Mayor, T. L. Church; hon. vice-president, P. Col. Greer, Rev. J. D. Morrow, Cont. Thompson, Jas. Simpson, Robt. Craig, Jas. McKenzie, Ald. Rebbins, Ald. Gibbons, Ald. McBrien, Ald. Rebbins, president, Tom Guthrie (acclamation); first vice-president, M. B. Morgan; second v

WINNIPEG GRAIN MARKET.

WINNIPEG, Feb. 8.—Wheat, after a broad trade, closed May and July 2½c higher, oats 1½c up, barley unchanged and flax ½c to ½c advanced. The tone of the market was strong at the close, tho all markets were slightly under the

high point of the day, due to profit-taking.

Exporters bought freely, heavy buying orders from New York appearing.

Work Costing Eighteen Million Dollars Not Interrupted by War.

PARIS, Feb. 8, 6.30 p.m .- The Mar-

eilles-Rhone Canal, a great engineering work that has been under way for some time, is now nearly completed. The ministry of public works received a telegram today that the four and a half rule tunnel thru which the canul will flow, penetrating the Rove Mountains, is on the point of completion. The work was begun six years ago and the war has not been permitted to in the war has not been permitted to in-terfere with the enterprise. The width but the canal thru the tunnel is 72 feet fand the depth of the water 15 feet 11 inches, permitting small Mediterran-can steamers to enter the Rhone and even admitting sea traffic to go as far up the river as Lyons. The canal, which is just short of 50 miles in length, cost about \$18,000,000.

LONDON STOCK EXCHANGE.

LONDON, Feb. 8.-A moderate volum LONDON, Feb. 8.—A moderate volume of business was transacted on the stock exchange today. Colonial issues and the war loans were leaders at steady prices. The French loan improved, and rubber and copper shares hardened. American securities, altho dull, closed higher in sympathy with Wall street. The government raised the buying prices on rails and a few bonds.

An increased demand for treasury bills reduced money supplies and held discount rates steady. American exchange was uncertain at 4.76½ for cable transfers. Paris exchange was firm, but Holland rates were weak. increased Business on Toronto The Toronto stock market made some further improvement yesterday, incidentally, the volume of tusiness increased. ## STOCK TRADING HALTS OVER LUSITANIA ISSUE

Possible Results Made Speculative Community Hang Back at New York.

**BUSINESS RESTRICTED** 

Reports From Copper and Steel Industries Promise Upward Price Revision.

NEW YORK, Feb. 8.-Much of the optimism which effected a general eleoptimism which effected a general elevation of prices yesterday was lacking terday, the speculative community again falling back upon the Lusitania affair and its possible results as an excause for depressing the list. There was was also some discussion regarding overnight advices from London, which pointed to another shuffling of the political cards in the British Empire.

Trading was lighter and more contracted than at any recent session and utterly without public interest or support.

port.

Comparative strength and activity were manifested by several of the independent steel issues, notably Colorado Fuel, Great Northern Ore, Republic Iron and Sloss-Sheffield Steel, giving rise to fresh rumors of deals or combinations in which Midvale Steel figured. U. S. Steel was under intermittent pressure.

mittent pressure.

Initial general firmness soon gave way to pronounced irregularity in the more active issues comprising the munitions and oil groups and such rails as Canadian Pacific and Baltimore and Chio. Losses were largely retrieved before midday, but for the balance of the session the market drifted fdly.

Total sales amounted to 440,000 shares.

shares.

General news of the day was almost wholly constructive, embracing a quotation of 27 cents for June copper. with higher prices for more immediate delivery, and withdrawal from the market until the last quarter of the yer

market until the last quarter of the yer by one of the large steel producing companies because of its inability to accept any new business until that time. Another upward revision of prices for most steel and iron products is expected.

London's moderate sales here were not reflected in exchange, sterling firm, likewise francs, while remittances of Germany and Austria strengthened visibly.

Bonds were irregular, with further extensive trading in Anglo-French 5s. Total sales, par value, \$3.785,000.

The Uncle Sam Oil Company is offer- By acting quickly you can secure a ca for the moderate investor.

Advertising space comes high, and as the Company wishes to put all capital a little good luck, can produce more oil raised into actual drilling on proven grounds-it is not using much space in this paper-only to notify you to write at once for full particulars, and same will be gladly sent without cost or obigation to you. When you receive full information, as we want you to have, you will not consider any other investment proposition in preference to a big block of stock in this established com-

This is the "age of oil," and big financiers are taking advantage of the oil boom to sell to the public stocks of the Trust on a capitalization basis of Two Billion Dollars. Some of this stock on such a basis will now only pay two per cent. and cannot advance much. Get in touch with us and get a line on the 'high brow" schemers for the big Trust as well as the fake wildcatters and you will make your money count where a real advance of five to twenty times is possible, as our drills push development. Millions are made in oil and millions will be made in oil, but you must join an established company building on a big, broad basis. We refine our oil, and

it may soon bring \$4.00 per barrel.

The Uncle Sam Oil Company is of the Uncle Sam Oil Company is of the valuable stock on a capitalization basis of One Million Dollars, and we have several properties that, by just than all the stock when issued will come

than all the stock when issued will come to at the price you need pay.

The Uncle Sam Oil Company has Three Refineries. Over one hundred and twenty producing wells. One hundred and sixty-five miles of pipe line connecting the larger percentage of our properties with two refineries in two states. The Company has about ten thousand acres of oil and gas leases and fifteen hundred acres of deeded lands in the real oil and gas beit, and at least 300 locations where good judgment demands that wells be drilled. The Company is now drilling six deep wells that can easily secure production that should increase our combined properties several million dollars.

To make big profits you must invest with a concern developing on a big basis. Four of our deep wells are in the east extension of the rich Cushing oil fields. At the hour this notice was written one of these wells was developing a rich new producer in the Wheeler sand at 2489 feet. Three of these wells will be drilled 3300 feet unless big producers are developed at less depth. At this hour they are 1900 and 2610 and 2840 feet deep at these three locations.

these three locations.
Some big producers are practically sure within the next six to ten days—but subject to withdrawal without notice the Company will accept remittances at the present prices until February 16.
Answer quickly and you will have time to secure your stock at present prices.
We have another well half drilled on a big lease in Pawnee County, and we

are helping to drill another well near the centre of four hundred acres of leases west of the Glenn pool in Creek County. You can secure this stock at about half the book value and when you join this Company you will be backed by seventeen thousand other stockhold-

ers and an already great property.

The Uncle Sam Oil Company is the real big growing Independent of the Middle West, building for principle as well as financial gain. It is the pioneer that for ten years has maintained the first direct-to-the-people marketing stations in Oklahoma, Kansas and Missouzi. "High brow" financiers and "so-called" investment journals and the subsidized press all take a "pald knock" at "Uncle Sam Oil." but it has gone from persecution to prosperity, and if you wish to join a winner that is determined to drill 300 new wells during the next twenty-four months and finally cover the United States with its direct-to-the-people marketing stations—then write today for full particulars and get a big block of real oil stock before some great producers advance the price five to twenty times. It will only cost you a 2-cent stamp to secure free full information and up-to-date reports on oil wells now drilling, but do not answer unless you mean business.
